BOMBAY : PRINTED AT THE GOVERNMENT CENTRAL PRESS.

PREFACE.

A separate publication "Detailed Estimates and Explanatory Memorandum of the Post-war Reconstruction and Development Programme" was being issued as a supplement to the Civil Budget Estimate and Budget Memorandum between the years 1947-48 and 1951-52. Consequent upon the appointment of the Planning Commission by the Government of India, State Government decided in 1951-52 that the consideration of the Post-war Reconstruction Schemes as items classified separately and differentiated from normal expenditure should cease with effect from 1952-53 budget and that expenditure on such schemes should be dealt with and presented as an integral part of the main budget. No separate detailed estimates and explanatory memorandum of the Post-war Reconstruction and Development Programme (Brown Book) were accordingly prepared for the years 1952-53 to 1955-56. The need for having a separate account of Plan Schemes was, however, continuously felt. The Comptroller and Auditor General of India also felt a similar need and has issued instructions to record expenditure on the Second Five Year Plan Schemes and other Development Schemes separately under each major head and has accordingly sanctioned the opening of a new minor head "Development Schemes" under each of the major heads. In view of this the Government of Bombay has decided to resume issue of the separate publication called "Detailed Estimates and Explanatory Memorandum of the Second Five Year Plan Schemes" with effect from 1956-57 budget as a supplement to the Civil Budget Estimate and the Budget Memorandum.

2. The object of this publication which is supplementary to the Civil Budget Estimates and the Budget Memorandum is to show in one place the estimated expenditure during 1956-57 on the Second Five Year Plan Schemes proposed to be undertaken by the Government of Bombay. With a view to making this publication self-contained, explanatory memoranda giving very briefly the important Second Five Year Plan Schemes on which expenditure is proposed to be incurred under different major heads have been included in this volume. A summary of expenditure by major heads is first given; thereafter each head of expenditure is taken up separately and there is an explanatory memorandum for that head followed by details of expenditure. Then there is a statement of New Items and New Major Works, under the different heads of expenditure.

	Accounts, 1954–55.	Budget Estimate, 1955–56.	Revised Estimate, 1955–56.	Budget Estimate, 1956–57.
B. Conservancy and Works.—				
Second Five Year Plan	.....	.....	.....	36,26
C. Establishment—				
Second Five Year Plan	.....	.....	.....	2,42
Gross Total ...	.....	.....	.....	38,68
Deduct—Recoveries ...	.....	.....	.....	—19
Net Total ...	.....	.....	.....	38,49

Conservancy and Works.—The estimate includes expenditure mainly on account of the following schemes—

(1) Afforestation Schemes at various places.
(2) Immobilization of Rann of Cutch.
(3) Establishment of Wet Nurseries.
(4) Planting of Agave Hedges.
(5) Soil conservation scheme in Ratnagiri District.
(6) Construction of Aeiral Ropeways for exploitation of Nagzari Valley.
(7) Afforestation and Rehabilitation of pasture lands.
(8) Forest communications, buildings, wells etc.

Establishment.—The estimate represents expenditure on account of (1) The Village Forest Panchayat Scheme.

(2) Conversion of Sub-Division into Divisions in Northern Circle.
(3) Creation of additional posts for management of Thana Woodlands in Nasik Division and
(4) Opening of Regional Foresters' Training Classes.

Museums.—The provision is for additional staff to strengthen the existing Department of Archaeology to look after ancient and historical monuments.

National Parks and Gardens.—It is proposed to undertake certain road works leading to Kanheri Caves with a view to facilitate traffic. Necessary provision for payment of compensation for the land acquired for the National Park, Borivli, is also included here.

Deduct Recoveries.—The expenditure on the works at the National Park, Borivli will ultimately be transferred to the Bombay State Milk Fund.

A—Direction.—The provision is for additional staff required at the Headquarters for implementation of the Second Five-Year Plan.

B—Superintendence.—The estimate is for additional staff for the Dairy Development Section.

C—Subordinate and Expert Staff.—The estimate mainly includes provision for (1) additional district staff required for implementation of the Second Five-Year Plan, (2) Scheme for composting town refuge of Municipalities into manure, and (3) deputation of agricultural officers for advanced training in Animal Husbandry at the Indian Veterinary Research Institute, Izatnagar.

D—Experimental Farms.—The provision is for Poultry Training classes at Poultry Breeding stations at Kirkee, Dharwar and Dhulia.

E—Agricultural Demonstration and Propaganda including Public Exhibitions and Fairs.—The estimate provides for purchase and maintenance of premium bulls and subsidy in distribution of improved seeds under the scheme for multiplication and distribution of improved seeds.

F—Agricultural Experiments and Research.—The estimate mainly includes provision for the following schemes :—

(1) Extension Training Centres at Dharwar, Baroda and Kolhapur.
(2) Taluka seed multiplication farms.
(3) Expansion of Crop protection service in Bombay State.
(4) Establishment of a Khillar Cattle Breeding Station in Sholapur District.
(5) Expansion of existing Sheep Breeding Research Stations.
(6) Research and Development of Poultry.

(7) Scheme for establishment of Central Hatcheries.

(8) Expansion of Government Milk Supply Scheme, Poona.

(9) Survey, Training and Milk Supply Schemes for Baroda, Nasik, Sholapur and Kolhapur.

(10) Scheme for maintenance of Soil Conservation works by the District Agricultural Officers.

(11) Scheme for undertaking Land Utilization Survey of Government waste lands in Bombay State.

(12) Reclamation of waste lands at Government cost.

(13) Special measures for Nomadic tribes, scheduled areas and under-developed areas.

(14) Scheme for Development Work on Sugarcane in Bombay State.

(15) Scheme for Extensive Research on sugarcane in Bombay State.

G—Agricultural Education.—The estimate includes provision for establishment of agricultural schools each at Dhari in Amreli District and Kolad in Kolaba District.

H—Agricultural Engineering.—The estimate mainly provides for the following schemes :—

(1) Mechanical cultivation scheme.

(2) Scheme for improvement of irrigation wells by boring.

(3) Soil Conservation project.

(4) Scheme for levelling & terracing of hill-slopes.

J—Grants-in-aid.—The estimate includes provision for (1) various cotton schemes, such as, scheme for multiplication and distribution of " 2087 " cotton-seed in Surat cotton tract, scheme for multiplication and distribution of Vijay Cotton in Middle Gujarat, multiplication and distribution of Jayadhar and Laxmi cotton-seed in Bombay Karnatak etc. (2) Payment of grant-in-aid to the Agricultural Schools at Anand and Malegaon, (3) Grant-in-aid to the Institute of Agriculture, Anand.

L—Other charges.—The provision represents expenditure on Quinquennial Livestock-census during 1956-57.

Amount recoverable from I. C. A. R. ..						—5,100
F-8 (1) (4) Scheme for investigation of Mastitis.						
F-8 (1) (*b*) Scheme for study of Cattle sterility ..						—15,600
F-8 (1) (*c*) Scheme for mass immunization of Village Poultry						—4,600
F-8 (1) (*d*) Scheme for control of Main Fluke Disease of Bovines						—5,800
Total Recoveries ..						—31,100

42, Co-operation.

	Accounts, 1954-55.	Budget Estimate, 1955-56.	Revised Estimate, 1955-56.	Budget Estimate, 1956-57.
B—Superintendence—				
Second Five-Year Plan	.....	.....	.....	4,49
C—Grant-in-aid—				
Second Five-Year Plan	.....	.....	.....	45,42
D—Other charges—				
Second Five-Year Plan	.....	.....	.....	20,33
Gross total ...	.....	.....	.....	70,24
Deduct—Recoveries ...	.....	.....	.....	— 6,17
Net total ...	.....	.....	.....	64,07

B—Superintendence.—The estimate represents expenditure on (1) Reorganisation of the administrative set-up of the Co-operative Department (2,29) and (2) Extension of agricultural credit: additional staff for Co-operative Department (2,20).

C—Grant-in-aid.—The estimate mainly represents expenditure on the following schemes :—

(1) Subsidised Industrial Housing Scheme of Government of India (6,07).

(2) Scheme for organisation of Co-operative Cattle Breeding *cum* Farming Societies and Multi-purpose Societies for the improvement of nomadic professional cattle-breeders (1,80).

(3) Extension of Agricultural Credit Subsidies to various types of co-operative institutions (2,06).

(4) Extension of Agricultural Credit: Contribution to the Agricultural Credit-Relief and Guarantee Fund (6,00).

(5) Housing Societies for Backward Classes (3,70).

(6) Co-operative Lift Irrigation Scheme (5,04).

(7) Sarvodaya Scheme (18,00).

D—Other charges.—The estimate represents expenditure mainly on the following schemes :—

(1) Scheme for co-operative training, education and propaganda (7,91).

(2) Co-operative Farming Scheme (2,81).

(3) Additional staff for the Co-operative Lift Irrigation Scheme (1,09).

(4) Development of Co-operative Marketing (2,25).

(5) Implementation of the Pilot Plan Scheme in the Broach, East Khandesh and Dharwar Districts (2,67).

Deduct recoveries.—The expenditure on Lift Irrigation Scheme (5,04) and Co-operative Farming Scheme (1,13) is met from the Sugarcane Cess Fund. The amount of —6,17 has accordingly been shown as reduction of expenditure under this head.

43, Industries.

—	Accounts 1954–55.	Budget Estimate 1955–56.	Revised Estimate 1955–56.	Budget Estimate 1956–57.
A—Industries.—				
Second Five Year Plan	.....	.....	.....	5,20
B—Cottage Industries.—				
Second Five Year Plan	.....	.....	.....	43,54
C.—Fisheries.—				
Second Five Year Plan	.....	.....	.....	5,28
Gross Total ...	.....	.....	.....	54,02
Deduct—Recoveries ...	.....	.....	.....	—24,36
Net Total ...	.....	.....	.....	29,66

A–Industries.—The estimate represents expenditure mainly on account of the following schemes :—

(1) Establishment of a Test House in the Industrial Chemists Laboratory Matunga (20).
(2) Staff for the Collection of Industrial Statistics. (42).
(3) Staff for the development of small scale industries (30).
(4) Industrial Research and Pilot Plant Scheme. (28).
(5) Establishment of an Industrial Estate at Atale near Kalyan. (66).
(6) Establishment and/or reorganisation of the Industrial schools at Satara, Ratnagiri, Hubli and Bijapur.
(7) Introduction of additional courses at the R. C. Technical Institute, Ahmedabad. (85).
(8) Facilities for research at the Victoria Jubilee Technical Institute, Bombay (20).
(9) Establishment of a Central Technical Library at the Victoria Jubilee Technical Institute, Bombay (50).
(10) Expansion of the Government Tanning Institute, Khar, (40).

B—Cottage Industries.—The estimate represents expenditure mainly on account of the following schemes :—

(1) Development of Hand-loom Industry (24,36).
(2) Grant of financial assistance for the schemes—Bombay Village Industries Board (4,00).
(3) Scheme for the mobile carpentry units. (1,).
(4) Scheme for the Manufacture—of umbrellas in small scale units located in villages (1,10).
(5) Scheme for organisation of 6 Industrial training centres for nomadic tribes in Bombay State (1,00).

C—Fisheries.—The estimate represents expenditure mainly on account of the following schemes :—

(1) Mechanisation of fishing crafts and introduction of Mechanical equipment (2,31).
(2) Manufacture of Shark Liver Oil with malt extract (74).
(3) Demonstration training of mechanised craft in under developed areas (58).
(4) Development of Fishing in Deep tank (54).
(5) Strengthing of the staff of Fisheries Department (35).
(6) Establishment of ice and cold storage plants and marketing of fish in the hinterland (27).

Deduct—Recoveries.—The expenditure on Development of the Handloom Industry (24,36) is met from the grants given by the Government of India for Development of Handloom Industry. The amount of—24,36 has accordingly been shown as reduction of expenditure under this head.

Development Schemes—				
Second Five-Year Plan	.....	.....	.....	49,00

Government has decided to establish Village Panchayats to cover all villages of the State within a period of three years beginning from 1955–56. It has also been decided to pay an increased lump sum grant at 30 per cent. of land revenue collected within the respective areas to Village Panchayats already established and to be established hereafter from 1955–56. It has also been decided to give additional financial assistance to Village Panchayats in Adivasi and Backward areas. The Schemes in question have been included in the Second Five-Year Plan and the total provision made on that account for the period of the Plan is about Rs. 375 lakhs,—(Rs. 359 lakhs *plus* Rs. 16 lakhs). The budget estimate represents the amount required for the purpose in the next year.

Community Development Projects.— Community Development Projects and Blocks were undertaken for intensive development of the selected areas in October 1952 and October 1953. In addition to these Projects and Blocks some of the existing National Extension Service Blocks have been converted into Community Development Blocks in the course of the current year (1955-56). The Projects and Blocks contemplate integrated development and the programme of work includes activities in Agriculture, Irrigation, Reclamation, Public Health, Arts, Crafts and Industries, Education, Social Education and Miscellaneous other improvements. The expenditure to be incurred on each block of the Community Projects Administration pattern is Rs. 15 lakhs ordinarily during a period of three years. The next year's estimate provides for all the existing projects and blocks and for conversion of 16 National Extension Service Talukas into Community Development Blocks in the next year.

National Extension Service.—Each National Extension Service Block is of 66,000 population and the expenditure allocated for each block is Rs. 7,50,000 for a period of three years. The next year's estimate provides for expenditure on the existing 50¾ National Extension Service Blocks and for taking up of additional 21 new blocks of the Community Projects Administration's pattern in the next year.

Local Development Works.—The estimate of Rs. 75 lakhs constitutes the Government share of expenditure on Local Development Works. A major part of the Government share of expenditure is borne by the Central Government. A total programme of local development works costing Rs. 150 lakhs is expected to be undertaken in 1956-57, half of the total expenditure being met from contribution from local bodies and the people. Works undertaken under this item are mostly small works of essential nature e.g. village water supply, roads, bridges and culverts, bandharas and tanks.

Social Welfare Extension Projects.—The estimate provides for the State Government's grant to the Welfare Extension Projects programme of the Central Social Welfare Board. The total expenditure on the projects is to be borne by the Central Board, the State Government and the Project Implementing Committees in the proportion of 50 :25 : 25 respectively. The Welfare Extension Projects Scheme is intended to extend Welfare Services for Women and Children in rural areas.

Some of the important provisions under this head are as follows :

Rs. in thousands.

New Major and Medium Irrigation Works :—

1.	Construction of Kadana Reservoir Project for Mahi Valley Scheme for the Panch-Mahals and Kaira Districts.	20,70
2.	Surveying and Preparing Plans and Estimates for the above Project	3,69
3.	Construction of Sabarmati Project, Districts Ahmedabad and Mehsana	12,67
4.	Construction of Narmada River Project, Districts Baroda and Broach	26,19
5.	Construction of Banas Valley Project (Dantiwada Weir Scheme, Districts Banaskantha and Mehsana).	23,19
6.	Construction of Ukai Project, District Surat	84,47
7.	Construction of Vir Dam Project Districts Poona, Sholapur and North Satara	38,01
8.	Construction of Khadakvasala Project, District Poona	33,79
9.	Construction of Mula River Project, District Ahmednagar	23,65
10.	Construction of Girna River Project, District Nasik	36,32
11.	Ghataprabha Valley Development Scheme, Stage II, (*a*) Construction of storage dam at Hadalga on the Ghataprabha River, (*b*) Construction of Ghataprabha Left Bank Canal Section II, miles 45 to 73.	50,68
12.	Construction of storage Reservoir across the Saraswati in District Mehsana	9,29
13.	Construction of Hathmati Reservoir Scheme, Districts Sabarkantha and Ahmedabad	13,94
14.	Construction of Shetrunji Project, District Amreli	6,97
15.	Construction of Shamalaji Project, Districts Kaira and Sabarkantha	13,94
16.	Construction of Gangapur Storage Project, Stage II, Districts Nasik and Ahmednagar	18,58
17.	Construction of Varna Project, Districts Kolhapur and South Satara	11,61
18.	Construct on of Kurnur Tank District Sholapur	11,61
19.	Construction of storage Reservoir on Dharma River near Yemagalli, Taluka Hangal, District Dharwar.	6,97

Out of the above new major and medium irrigation works, only such projects as will be approved by the Planning Commission will be taken up during next year.

Major Work in Progress—

20.	Construction of the Kakrapar Weir and Canals on river Tapi near Surat	1,12,35
21.	Gangapur Project on Godavari River	27,05
22.	The Ghataprabha Valley Development Project	32,32
23	Completing the Irrigation tank and Canal at Ranand, Satara Division	1
24.	Constructing the Mahi canal, Mahi Canals Construction Division	1,76,94
25.	Construction of a weir on Malaprabha River at Kolchi near Ramdurg, Belgaum Division ...	2,14

26 Extension to Distribution System of Kurundwad Water Works.	.....	.....	.....	1
27 Provision for Tools and Plant	.....	.....	.....	1,05
Total ...	.....	.....	.....	60,56

The abovementioned Water Supply Schemes have been included in the Second Five Year Plan. The allocations for five years for "Works in progress" and "New Works" are Rs. 93 lakhs and Rs. 40 lakhs respectively. In addition the draft Plan provides for an amount of Rs. 1 crore for Rakaskop Water Supply Scheme for Belgaum. The budget estimate for 1956-57 provides for the Water Supply Schemes already undertaken and New Works proposed to be undertaken by Government. Some of the important schemes are—Baroda Flood Control Scheme, Water Supply Scheme for Borivli, Kandivli and Malad, Nasik Distillery Water Works, Rakaskop Water Supply Scheme for Belgaum and Neersagar Water Supply Scheme for Dharwar and Hubli.

(1) *Capital contribution to the Bombay State Road Transport Corporation.*—The Scheme for extension of nationalisation of passenger transport included in the Second Five-Year Plan is expected to cost in all Rs. 890 lakhs of which the shares of the Central Government and this Government will be Rs. 195 lakhs and Rs. 395 lakhs respectively. The balance of Rs. 300 lakhs will be found by the Corporation from its own resources. This expenditure will mainly be for the purchase of new vehicles (Rs. 300·70 lakhs), construction of garages etc. (Rs. 210·57 lakhs) and replacement of petrol vehicles by diesel vehicles (Rs. 90·65 lakhs). Of this, the expenditure in the first year is expected to be Rs. 171 lakhs of which Rs. 74 lakhs will have to be provided by this Government by means of contribution to share capital of the Bombay State Road Transport Corporation.

(2) *Establishment of Trading Estates, and* (3) *Establishment of an Industrial Estate at Atale.*—In accordance with the industrial policy of Government it has been decided to develop certain areas in the state which are suitable for establishment of small scale industries and sell developed plots to Industrialists willing to establish factories on those sites. One such estate is proposed to be established at Atale. The cost of acquisition and development is debited to this head.

Participation in the share capital of State Warehousing Company.—In order to provide facilities to the growers for storage of Agricultural produce and to discourage distress sales the All India Rural Credit Survey Committee has recommended the construction of Warehouses by the (1) All India Warehousing Corporation (2) State Warehousing Company and (3) Co-operative Societies. The total contribution of this Government towards the share capital of the State Warehousing Company is Rs. 50 lakhs of which 10 lakhs will be contributed in 1956–57.

Contribution to the share capital of Co-operative Sugar factories.—Organisation of Sugar Factories on a co-operative basis has been a recent development in this state and in order to encourage the growers to establish such factories Government contributes to the share capital of the societies on certain basis. Government has already contributed to the share capital of two factories in Ahmednagar District and proposes to do so in respect of 4 more factories in 1956–57.

Contribution to the share Capital of Industrial Co-operative Societies including District Industrial Co-operative Associations.—In accordance with the recommendations of the Committee of Direction appointed by the Reserve Bank of India, it has been decided to participate in the share capital of Industrial Co-operative Societies in order to strengthen the Co-operative Movement. A provision of 55·70 lakhs has been made in the Second Five-Year Plan for this purpose. The next year's requirements have been placed at Rs. 9·25 lakhs.

Capital Contribution to the Bombay Co-operative Housing Finance Society.—Government has undertaken to contribute to the share capital of the Bombay Co-operative Housing Finance Society to the extent of Rs. 50 lakhs, but not exceeding that collected by the society from its other members. Government is expected to contribute about Rs. 34 lakhs by the end of the current year. It is proposed to contribute the remaining Rs. 16 lakhs in two years.

Contribution to the share capital of Agriculture Credit Institutions.—With the intensification of economic activity in the rural areas in the Second Five-Year Plan rural credit institution will have to handle larger finances and it is therefore considered necessary to strengthen the capital structure of these institutions by contributing to their share capital. This Government will get loan assistance from the Reserve Bank of India for this purpose.

Contribution to the share capital of multipurpose Societies, Central Financing Agencies etc.—Government has framed a pilot scheme for enforcement in the District of Dharwar East Khandesh and Broach for strengthing the Co-operative movement by contributing to the share capital of various types of co-operative institutions. The scheme envisages Government participation in the share capital of Multipurpose, Marketting and Processing Societies and Central Financing Agencies. An expenditure of Rs. 19·33 lakhs is expected to be incurred in the current year, and an amount of Rs. 22·5 lakhs is provided for in the next year.

Total ...	.....	.....	.....	11,89,39

(*i*) The budget estimate for 1956–57 provides for a loan of Rs. 250 lakhs to the Bombay Municipal Corporation for Vaitarna-*cum*-Tansa Scheme and of Rs. 10 lakhs to Corporations under Low Income Group Housing Scheme.

(*ii*) It is proposed to sanction loans of Rs. 300 lakhs to the Bombay Electricity Board for the various electricity projects proposed to be undertaken by the Board and of Rs. 133 lakhs to the Bombay Housing Board for Industrial Housing Scheme during the next year.

(*iii*) The next year's provision is mainly required for granting loans to Corporations, Municipalities, etc. for their development schemes which include slum clearance schemes and for municipal water supply and drainage works.

(*iv*) The next year's estimates provide mainly for granting of loans to the Agricultural Produce Market Committees for development of market yards.

(*v*) The cost incurred on the Soil Conservation Works excluding establishment charges is treated as loan to the cultivators. The next year's provision is mainly on account of provision for such loans under the Soil Conservation Scheme and intensive development of Co-operative movement in various aspects.

(*vi*) The next year's estimates provide for granting of loans for existing as well as new Community Development Blocks.

(*vii*) The next year's provision is mainly meant for granting loans for (a) Low Income Group Housing Scheme, (b) Extension of Agricultural Credit Scheme, (c) Small-scale and Cottage Industries, (d) National Extension Service Scheme, (e) Construction of Houses for Backward Classes and (f) Hand-loom Industry Scheme.

Total ...				3,54,93

During the Second Five Year Plan, the expenditure on roads from State resources is to be restricted to the amount available in the State Road Fund. Therefore, the road works which were being provided for under "50-Civil Works" and "81-Civil Works" have been provided for in the next years budget under this head. Similarly, the expenditure on "Grants to local bodies for local public works" which was being provided for under "50-Civil Works—Grants-in-aid" has been provided for in the next year's budget under this head. Other expenditure which was being provided for under State Road Fund continues to be provided under this head, except the expenditure on surface repairs to roads, which has been provided for under "50-Civil Works—B-Repairs". The details of the expenditure have been given in the adjoined statements.

7, LAND REVENUE.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

ITEM 1. Khar and Khajan Lands Reclamation Scheme.

Recurrent	... Rs.	99,000	Non-recurrent ...	... Rs. 2,50,000
Total	... ,,	3,49,000	Ultimate annual recurrent	

Remarks.—There is a large area of Khar and Khajan lands admeasuring about six lakhs acres in the coastal tract of the Bombay State, which can be made available for cultivation, mainly for paddy cultivation by reclaiming them. With a view to reclaiming these lands, Government passed the Khar Lands Act, 1948 and constituted the Khar Lands Development Board under that Act. This Board has been reclaiming the Khar Lands through the agency of the Public Works Department staff and its own staff in accordance with the provisions of the Act. The scheme for reclamation of Khar and Khajan lands had been included in the First Five Year Plan. Up to the end of September 1955 the Board has approved 178 schemes covering 83,571 acres out of which 110 schemes covering an area of 50,359 acres have been completed. In view of the utility of the scheme from the point of view of food production and satisfaction of the existing land demand amongst the landless people in the State, the Scheme has been included in the Second Five Year Plan also. The total estimated cost for the Plan period is Rs. 19,94,000. This is made up of the recurrent cost on account of staff at Rs. 5,00,000 and the non-recurrent cost on schemes proper at Rs. 14,94,000. Out of this, it is estimated that during the year 1956-57 the recurrent cost will be Rs. 99,000 and the non-recurrent will be Rs. 2,50,000 for reclaiming a total area of 3227 acres.

ITEM 2. Introduction of Survey for Record of Rights and Classification in merged State areas.

Recurrent ...	... Rs.	42,00,000	Non-recurrent ...	... Rs. 2,47,000
Total ...	... ,,	44,47,000	Ultimate annual recurrent ...	

Remarks.—Government has sanctioned a five year Scheme for the introduction of Survey for purposes of Record of Rights, Classification and Settlement in the merged State areas at a cost of Rs. 1,29,22,700 in 1954. This work has already Started with effect from 1st December 1954. This Scheme has also been included in the Second Five Year Plan. As it is necessary to complete the survey and classification as early as possible for the implementation of the various land reforms, Government has decided to complete this work within three years by supplementing the present staff and increasing the total provision in the Second Five Year Plan from Rs. 92·89 lakhs to 127·20 lakhs. During the year 1956-57 the following staff will be required for this Scheme at a cost of Rs. 44,47,000 :—

	Strength.		Rs.

	40,000
Total ..	4,07,000

ITEM 5. Introduction of classification in premerger inam villages.

Recurrent ...	Rs.	4,79,000	Non-recurrent ...	Rs.	*Nil.*
Total ...	,,	4,79,000	Ultimate annual recurrent ...		

Remarks.—This scheme was started in 1949 ; was included in the First Five-Year Plan and is a continuous scheme. A provision of Rs. 4·79 lakhs is proposed to be made in the next year during which the scheme will be completed. The following is the staff :—

	Strength 1955-56	Strength 1956-57	Amount. Rs.
Pay of Officers—			
Survey Mamlatdars (Rs. 250—15—325)	2	2	8,000
Pay of Establishment—			
Shirastedars (Rs. 100—8—140—10—170)	3	3	2,20,000
Clerks (Rs. 46—3—85—E.B.—4—125—5—130)	4	4	
Head Surveyors (Rs. 100—8—140—10—170)	16	16	
Classers (Rs. 70—3—85—E.B.—4—125—130)	160	160	
Peons (Rs. 30—½—35)	22	22	
Allowances, Honoraria, etc.—			
Travelling Allowance (Ordinary)	.....	.....	20,000
Permanent Travelling Allowance (Fixed)	.....	.....	50,000
House rent and other allowances	.....	.....	3,000
Dearness Allowance	...	.....	1,06,000
			1,79,000

7, *LAND REVENUE*—concld.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

	Rs.
Contingencies—	
Fixed Contingency	3,000
Service Postage and Telegrams	3,000
Labour Charges	27,000
Rent	4,000
Stationery	5,000
Other Charges (Cost of B.N.D. Marks and T. Stones, etc.)	26,000
Dead Stock articles	4,000
	72,000
Grand Total	4,79,000

ITEM 6. Additional establishment under the administrative control of the Collectors of the Districts concerned for the work of introduction of Record of Rights in the surveyed villages of the merged States areas and bringing it up-to-date in the surveyed villages where it already exists.

Recurrent	... Rs.	7,62,000	Non-recurrent	... Rs.	*Nil.*
Total	... ,,	7,62,000	Ultimate annual recurrent	...	

Remarks.—Government has decided that Record of Rights should be introduced immediately in the villages of the State of Bombay where such record of rights does not exist and that it should be brought up-to-date where it exists in order to facilitate the proper implementation of the Tenancy and the various land Tenure Abolition Acts. It was originally planned that this work should be completed within a period of one year at an estimated cost of Rs. 15,23,900. However, due to paucity of funds during the year 1956–57 it has now been decided that the work should be completed in a period of two years. For this purpose, the following additional staff would be necessary during the year 1956–57 at an estimated cost of Rs. 7,62,000 :—

	Strength.		Amount.
	1955-56	1956-57	Rs.
Pay of Establishment—			
Circle Officers (Rs. 100—8—140) ...	*Nil*	37	4,10,000
Talathis (Rs. 40—1—50—2—60) ...	*Nil*	740	
Attendants (On fixed pay of Rs. 45 per mensem) ...	*Nil*	37	
Allowances, Honoraria, etc.—

Total			78,48,000

10, FORESTS.

MINISTER IN CHARGE—SHRI Y. B. CHAVAN.

ITEM 7. Village Forest Panchayat Scheme.

Recurrent ...	... Rs.	72,702	Non-recurrent ...	... Rs.	*Nil.*
Total ...	... ,,	72,702	Ultimate annual recurrent	... ,,	

Remarks.—The villagers are at present finding it difficult to secure wood for their fuel requirements and grazing areas for their cattle, apparently because there are no forest areas in the neighbourhood and particularly because the revenue waste areas are not protected against heavy grazing. In order to enable the villagers to conserve cow-dung for manurial purposes, it is necessary to create village wood lands. The scheme provides for the creation of wood lands and improvement of grass lands in each Community Development Block and National Extension Block. The provision of Rs. 72,702 will be required during 1956–57 as detailed below :—

Recurrent—	Rs.
I. Pay of Establishment—	
16 Rangers at Rs. 160 per mensem each for 11 months	28,160
16 Foresters at Rs. 72 per mensem each for 11 months	12,672
II. Allowances and Honoraria—	
Dearness allowance—	
16 Rangers at Rs. 55 per mensem each for 11 months	9,350
16 Foresters at Rs. 45 per mensem each for 11 months	7,920
Permanent Travelling Allowance—	
16 Rangers at Rs. 52-8-0 per mensem each for 11 months	9,240
16 Foresters at Rs. 17-8-0 per mensem each for 11 months	4,480
House Rent Allowance—	
16 Foresters at Rs. 5 per mensem each for 11 months	880
Total ...	72,702

ITEM 8. Rehabilitation of forest areas with teak where bamboo flowering is emminent

Recurrent ..	.. Rs.	24,948	Non recurrent ..	.. Rs.	40,965
Total ..	.. ,,	65,913	Ultimate annual recurrent	.. ,,	

Remarks.—The Southern Circle has very valuable teak forests covering roughly 800 square miles. An important feature of these forests is the existence of bamboo in an intimate mixture with the valuable tree species. A peculiar physiological phenomenon of flowering of bamboo creates abnormal situation, periodically, in these tracts as a result of which far reaching and vegetational changes are brought about in these forests. With a view to combating the situation resulting from the impending gregarious flowering of bamboo which is harmful to the growth of teak trees, a scheme has been formulated which aims at rehabilitating the forest areas in the Southern Circle (where bamboo flowering is likely to occur frequently) with teak trees. With the implementation of the scheme, the teak growth will increase ; thereby yielding additional revenue to the Forest Department. The scheme is spread over a period of five years and is estimated to cost Rs. 4 lakhs. It is proposed to undertake the scheme in the three Divisions of Kanara and in the Belgaum Division.

A provision of Rs. 65,913 is required during 1956–57 as detailed below :—

	Name of the Division.	Area proposed.
		Acres.
1.	Kanara Northern Division	3,500
2.	Kanara Eastern Division	4,850
3.	Kanara Western Division	1,500
4.	Belgaum	150
		10,000

10, FORESTS—contd.

MINISTER IN-CHARGE—SHRI Y. B. CHAVAN.

		Rs.
Non-recurrent—		
Creation of 5,393 nursery beds at Rs. 3 each		16,179
Fencing the above beds at Rs. 2 each		10,786
Collection of teak seed—	Rs.	
Northern Division, Kanara, 200 bags at Rs. 15 each ..	=3,000	
Eastern Division, Kanara, 200 bags at Rs. 15 each ..	=3,000	
Western Division, Kanara, 200 bags at Rs. 15 each ..	=3,000	
Belgaum, 100 bags at Rs. 10 each	=1,000	10,000
Cost on fire tracing in all the 4 Divisions		4,000

Grand Total, Non-recurrent and Recurrent ..		65,913

ITEM 9. Immobilization of the Rann of Cutch.

Recurrent	... Rs. 1,30,764	... Non-recurrent	... Rs. 17,550
Total	... ,, 1,48,314	... Ultimate annual recurrent	...

Remarks.—The scheme for the immobilization of the Cutch desert has been included in the Second Five-Year Plan. A pilot scheme in a sample area of 100 acres of each type of the land has already been put into operation during 1955-56. So far the work of digging of 53,000 pits and dibbling of seeds in 100 acres of *Charas* lands, 100 acres in strips, 32 acres in strips along road sides and 25 acres of afforestation of denuded areas has been carried out. It is proposed to approach the Government of India for financing the scheme entirely.

The works proposed to be carried out during 1956-57 and the provision required therefor are detailed below :—

	Amount.
I. Non-recurrent—	Rs.
Cost of purchase of 3 camels, one for each of the 3 new Ranges (viz. Deesa, Dhanera and Tharad) at Rs. 400 per camel.	1,200
Cost of purchase of one jeep car	15,000
Cost of purchase of dead-stock articles for the 3 Ranges at Rs. 300 each ...	900
Cost of purchase of office furniture for the 3 Ranges at Rs. 150 each ...	450
Total, Non-recurrent ...	17,550

10, FORESTS—contd.

MINISTER IN CHARGE—SHRI Y. B. CHAVAN.

	Rs.	
II. Recurrent—		
Cost of raising plantations of *Prosopis juliflora* and other miscellaneous species in the following areas :—		
900 acres of "Charas" i.e. Revenue Waste lands from the 3 new Ranges at 300 acres each.		
600 acres of "Charas" i. e. Revenue Waste lands from the 3 existing Ranges (v z. Abu Road, Amirgad and Palanpur) at 200 acres each.		
192 acres in strips along road sides in the 3 new and 3 existing Ranges.		
160 acres in strips along the banks of rivers and nallas in the 2 new and 3 existing Ranges.		
1,852 acres at Rs. 25 per acre.	46,300	
Cost of Bamboo planting in the 160 acres in strips along the banks of rivers and nallas at Rs. 15 per acre.	2,400	
Afforestation of 320 acres of denuded hills of Abu Road, Amirgad and Palanpur at Rs. 70 per acre.	22,400	
Fencing with *Agave* live hedges 4½ miles at Rs. 108 per mile ..	486	
Raising of 3 central nurseries at Gangasagar, Deesa and Palanpur for raising stock of seedlings at Rs. 1,176 per nursery.	3,528	
Employment of one cattle grazier to begin with in 6 villages selected for rotational grazing (one village in each Range, i. e., new and existing Rangers) at Rs. 45 per mensem each for 6 months from October to March.	1,620	
		76,734
Pay of Officer—		
One Sub-Divisional Forest Officer at Rs. 220 *plus* Rs. 50 special pay i.e., Rs. 270 per mensem for 11 months.	2,970	2,970
Pay of Establishment—		
Three Rangers for the 3 New Ranges at Rs. 80 *plus* special pay Rs. 15=Rs. 95 per mensem each for 11 months.	3,135	
Three Range Clerks for the 3 New Ranges at Rs. 55 *plus* special pay Rs. 15=Rs. 70 per mensem each for 11 months.	2,310	
Six foresters two for each range at Rs. 46 *plus* special Rs. 10=Rs. 56 per mensem each for 11 months	3,696	
Six Orderlies and 24 mali guards (6 for each of the 3 New Ranges and 2 for each of the 3 existing Ranges) at Rs. 30 *plus* Rs. 10 special pay=Rs. 40 per mensem each for 11 months.	13,200	
Three Camel Sawars for the 3 New Ranges at Rs. 100 per mensem each for 11 months.	3,300	
		25,641
Allowances and Honoraria—		
Dearness Allowance		
One Sub-Divisional Forest Officer at Rs. 60 per mensem for 11 months ..	660	
Three Rangers, 3 Range Clerks and 6 Foresters at Rs. 45 per mensem each for 11 months.	5,940	
Six Orderlies and 24 mali guards at Rs.35 per mensem each, for 11 months ..	11,550	
Permanent Travelling Allowance for Sub-Divisional Forest Officer at Rs. 131-4-0 for 11 months.	1,445	
House Rent Allowance.		
Three Rangers and 3 Range Clerks at Rs. 7 per mensem each for 11 months.	462	
Six Foresters at Rs. 5 per mensem each for 11 months	330	
Six Orderlies and 24 Mali Guards at Rs. 2 per mensem each for 11 months ..	660	
Water Allowance—		
Three Rangers at Rs. 5 per mensem each for 11 months	165	
Three Range Clerks at Rs. 4 per mensem each for 11 months	132	
Six Foresters, 6 Orderlies and 24 Mali Guards	1,188	
Travelling Allowance—		
Three Rangers at Rs. 52-8-0 per mensem each for 11 months. ..	1,732	
Six Foresters at Rs. 17-8-0 per mensem each for 11 months. ..	1,155	
		25,419
Total, Recurrent ..		1,30,764
Grand Total, Recurrent and Non-recurrent expenditure ..		1,48,314

10, FORESTS—contd.

MINISTER IN CHARGE—SHRI Y. B. CHAVAN.

ITEM 10. Establishment of wet nurseries.

Recurrent ...	... Rs. 2,89,575	Non-recurrent ...	... Rs. *Nil.*
Total ...	... „ 2,89,575	Ultimate annual recurrent	... „ „

Remarks.—The scheme contemplates the establishment and maintenance of a central permanent wet nursery in each Range for raising forest species and fruit seedlings with the object of creating a net work of nurseries for providing robust seedlings for transplanting and stump planting in coupes exploited, areas to be afforested under the Second Five Year Plan and also for Vanamahotsavas. It is proposed to form 122 nurseries during 1956–57. Out of 122, 4 will be in Dangs and the remaining 118 will be in other parts of the State. A separate provision for the formation of nurseries in the Dangs District is being made. The distribution of nurseries circlewise is as below :—

	Number of nurseries.
Northern Circle	18
Western Circle	28
Eastern Circle	21
Southern Circle	23
Central Circle	28
	118

A provision of Rs. 2,89,575 as detailed below will be required during the next year :

Recurrent—

Contingencies—

The average estimated cost of each nursery of 2 acres is as below :—

Serial No. 1	Particulars of work. 2	Quantity. 3	Rate. 4	Amount. 5
				Rs. a. p.
1	Clearing ground of the proposed nursery	2 acres	... .	20 0 0
2	Ploughing the land twice about 9″ to 12″ deep and breaking clumps.	2 acres	... .	24 0 0
3	Preparing beds 40′ × 4′ × 1′	160 beds	... Rs. 3 per bed ...	480 0 0
4	Purchase of zinc water cans complete with nozel ...	4 Nos.	... Rs. 6–8–0 ...	26 0 0
5	Purchase of small Khurpies for weeding and working of the soil.	8 Nos.	... Re. 0–12–0 ...	6 0 0
6	Purchase of empty Kerosene tins with wooden handle fixed	8 Nos.	... Re. 0–12–0 ...	6 0 0
7	Purchase of seeds	.....	.....	120 0 0
8	Cost of bulbils or root suckers of Agave	20,000	... 10 per 1,000 ...	200 0 0
9	Wages of Malis for sowing, watering, etc.	.....	... Rs. 1–8–0 per day	1,002 0 0
10	Wages of 2 labourers for carrying water from nearby wells to the nursery site from November to March end. (151 days)		... Rs. 1–8–0 per day	453 0 0
				2,337 0 0
		Add contingencies at 5 per cent.	...	116 14 0
				2,453 14 0
			Say ...	2,454 0 0
	So the total cost of 118 Nurseries will be 118 × 2,454 =			2,89,572
			or say	2,89,575

10, FORESTS—contd.

MINISTER IN CHARGE—SHRI Y. B. CHAVAN.

ITEM 11. Reorganisation of the Division into smaller units and up-grading the Sub-Divisions into Divisions in the Northern Circle.

Recurrent	...	... Rs. 41,920	Non-recurrent	...	... Rs. *Nil.*
Total	...	... ,, 41,920	Ultimate annual recurrent	...	

Remarks.—The Northern Circle at present comprises of the following territorial units.

(*i*) *Divisions.*—(1) Panch Mahals, (2) Baria, (3) Rajpipla.

(*ii*) *Sub-divisions*—(1) Chhota Udepur, (2) Banaskantha, (3) Sabarkantha.

At present, the area of the whole Northern Circle is not equitably divided into various Divisions and Sub-Divisions. In order to ensure an all round development of forest areas and to protect the forest properly, it is necessary to group the areas into manageable units. It is, therefore, proposed to reorganise the Circle into following units :—

Divisions.—(1) Panch Mahals, (2) Baria, (3) Rajpipla, (4) Chhota Udepur and (5) Banaskantha.

Sub-Divisions.—(1) Sabarkantha.

A provision of Rs. 41,920 will be required during 1956-57, as shown below :—

	Amount.
	Rs.
(1) *Pay of Officers*—	
2 Divisional Forest Officers, Class I in the scale of Rs. 350—50—650—E.B.—45—1,100. Cost of up-grading the two Bombay Agricultural Service, Class II posts (Rs. 130×2×11)	2,860
(2) *Pay of Establishment*—	
(*a*) *Protective Establishment*—	
2 Range Forest Officers in the grade of Rs. 80—5—100—8—140—E.B.—10—200. Pay at Rs. 80. (80×2=160×11 months)	1,760
5 Foresters in the grade of Rs. 46—3—85. Pay Rs. 46 per mensem (46×5=230×11 months)	2,530
2 Surveyors in the grade of Rs. 46—3—85—4—125. Pay Rs. 55. (55×2=110×11)	1,210
18 Guards in the grade of Rs. 30—1—35. Pay Rs. 30 per mensem. (30×18=540×11)	5,940
	11,440
(*b*) *Office Establishment*—	
3 Junior Accountants in the grade of Rs. 100—8—140 at Rs. 100 per mensem. (100×3×11 months)	3,300
5 Clerks in the grade of Rs. 46—3—85—E.B.—4—125—5—130. Pay Rs. 55 per mensem (55×5×11 months)...	3,025
2 Peons in the grade of Rs. 30—1/2—35. Pay Rs. 30 per mensem. (30×2×11 months)	660
	6,985
Total, Pay of Establishment ...	18,425

(3) *Allowances, Honoraria, etc.*—	Rs. a. p.
(1) *Permanent Travelling Allowance* (*Additional*)—	
2 Divisional Forest Officers	1,485 0 0
2 Range Forest Officers at Rs. 52-8-0 for 11 months	1,155 0 0
5 Foresters at Rs. 17-8-0 for 11 months	962 8 0
2 Surveyors at Rs. 26-4-0 for 11 months	577 8 0
	4,180 0 0

(2) *House Rent Allowance*—

	Rs.
5 Foresters at Rs. 5 each (5×5×11 months)	275
18 Guards at Rs. 2 each (18×2=36×11)	395
	670

(3) *Dearness Allowance (Additional)*—

2 Divisional Forest Officers at Rs. 70 per mensem each. (70×2×11 months) *minus* dearness allowance at Rs. 60 per mensem to two Sub-Divisional Foresters	220
2 Range Forest Officers, 2 Surveyors, 3 Junior Accountants, 5 Clerks. at Rs. 45 per mensem. (12×45×11 months).	5,940
5 Foresters, 18 Guards, 2 Peons at Rs. 35 each. (25×35×11 months)	9,625
	15,785
Grand Total ...	41,920

ITEM 12. Creation of additional posts for the management of Thana woodlands and the forests in East and West Nasik Divisions.

Recurrent ...	... Rs. 1,07,930	Non-recurrent ...	... Rs. 500
Total ...	... ,, 1,08,430	Ultimate annual recurrent ...	

Remarks.—The woodland protected forest in Thana District which was hitherto in charge of the Revenue Department has been transferred to the Forest Department. The total area of woodland protected forest is about 404 sq. miles and is scattered all over the three Thana Divisions. For the efficient management, it is necessary to amalgamate these woodland protected forest areas in the existing adjoining territorial units such as Ranges, Rounds and Beats. This necessitates replacement of the existing three Gurcharan Ranges—one in each of three Thana Divisions, by territorial Ranges, viz. Vikramgad in North Thana, Padgha in West Thana and Vaitarna in East Thana and redistribution of the reserved and woodland protected forest areas in the existing territorial units and creation of some additional territorial units in order to make each unit manageable by the staff. The existing and proposed territorial units such as Ranges, Rounds and Beats in the three Thana Divisions in the District are as under:—

Number of existing			Number of proposed		
Ranges.	Rounds.	Beats.	Ranges.	Rounds.	Beats.
26	165	356	26	176	412

It is, therefore, necessary to create additional 11 Rounds and 56 Beats in the three Thana Divisions and to create 11 posts of Foresters and 56 posts of Beat Guards. In addition the following posts would also be required:—

One Guard.—To serve as office orderly to the Range Forest Officer, Padgha in West Thana Division.

Three Surveyors.—For doing the work in connection with fixing the boundaries of the numerous plots given out for cultivation in the past in the woodland protected forest for renewing demarcation line of the woodland protected forest which is at present in a depleted condition and for removing the several encroachments in the woodland protected forests.

Three Junior Accountants.—Due to the transfer of woodland protected forest to the Forests Department, and creation of proposed additional posts for the purpose, the accounts work (*i.e.*, preparation of pay bills, travelling allowance bills, etc. of the additional staff, recovery of assessment from plot holders, recovery of compensation and value in offence cases, etc.) in each of the three Thana Divisions will be increased considerably. As such three additional junior accountants one in each of the three Thana Divisions would be required.

Six Clerks.—Out of these six clerks, three clerks are required for three new territorial Ranges, *viz.*, Vikramgad, Padgha and Vaitarna, proposed to be created and the three remaining clerks are required in the three Thana Divisional offices to do the additional works in connection with the (*i*) grant of lands from woodland protected forests for cultivation and their withdrawal, (*ii*) maintenance of the registers of lands given out for cultivation, (*iii*) disforestation of lands of woodland protected forest, and (*iv*) offence work, etc.

In all, the following additional establishment is required for managing the woodland protected forest transferred to the Forest Department :—

Foresters	...	...	11
Beat Guards	...	...	57
Surveyors	...	...	3
Junior Accountants		...	3
Clerks	...	...	6

Distribution of the forest areas in East and West Nasik Divisions.—In the East and West Nasik Divisions, the present administrative territorial units, particularly Rounds and Beats are too unwieldy with the result that the Round Officers and Beat Guards are not able to protect properly the forest areas in their charge. They cannot give sufficient attention to the regeneration of forest areas. With a view to ensure efficient protection and conservation of forest areas in the East and West Nasik Divisions, redistribution of forest areas into manageable territorial units such as Rounds and Beats, is quite essential. The existing and proposed territorial Units in the East and West Nasik Divisions are as under :—

Division.	Existing territorial units.			Proposed territorial units		
	Ranges.	Rounds.	Beats.	Ranges.	Rounds.	Beats.
East Nasik ...	5	23	70	5	27	86
West Nasik ...	8	34	98	8	35	124

The proposed redistribution of forest areas in manageable territorial units requires the creation of following additional Rounds and Beats in the East and West Nasik Divisions.

Division.	Additional.	
	Rounds.	Beats.
East Nasik	4	16
West Nasik	1	26
Total ...	5	42

For managing these 5 additional Rounds and 42 Beats, 5 Foresters and 42 Beat Guards are required.

At present East Nasik Division, containing five Ranges is comparatively a light charge, while in West Nasik Division there are eight Ranges spread over two Districts, *viz.* Nasik and Ahmednagar. In order to make the East Nasik Division a normal charge, it is quite essential to transfer Dindori and Surgana Ranges of the West Nasik Division to East Nasik Division. It is also quite essential from the administrative point of view etc. to transfer Igatpuri Range forming part of Nasik District from East Thana Division to West Nasik Division, as this Igatpuri Range adjoins Rajur and Nasik Ranges of the West Nasik Division. Due to the addition of two Ranges, viz., Dindori and Surgana, to East Nasik Division, one post of clerk from East Thana Divisional Office is proposed to be transferred to East Nasik Divisional Office to cope up with the additional office work.

Due to the proposed re-distribution, the forest areas in East and West Nasik Divisions will be efficiently protected and managed. The efficient protection of forest areas will reduce appreciably the loss now done to forests by illicit cutting of Government trees. Due to the increase in staff, it will also be possible to undertake regeneration of forest areas to a great extent. The annual additional expenditure of Rs. 36,647 that will be required for the entertainment of additional staff will be easily compensated by the additional revenue that will be derived by the efficient management of the forest areas in East and West Nasik Divisions.

10, FORESTS—contd.

MINISTER IN CHARGE—SHRI Y. B. CHAVAN.

The total recurrent and non-recurrent cost on the above schemes comes to Rs. 1,08 430 during 1956–57 as shown below. It is proposed to sanction the additional staff for a period of one year, in the first instance, from 1st April 1956.

For Thana Wood Land.

		Rs.
Non-recurrent—		
	Purchase of furniture, etc.	500
Recurrent—		
	Pay of Establishment	32,516

Particulars.	Total cost for 11 months.
	Rs.

ITEM 13. Opening of Regional Foresters' Training Classes.

Recurrent	... Rs. 16,670	Non-recurrent	... Rs. 2,705
Total	... ,, 19,375	Ultimate annual recurrent	... ,,

Remarks.—Formerly, there were two Foresters' Training Classes, one in the Northern Circle to train the Forest Subordinates from the Northern and Central Circles and the other in the Southern Circle. At present the class in the Southern Circle is closed and there is only one class at Bordi in the Western Circle which caters to the needs from the Central Circle, Western Circle, Eastern Circle and Northern Circle as regards forest subordinates. With a view to impart training in Forestry and also to facilitate instructions in Forestry being given in the three Regional languages, it is necessary to have Foresters' Training Classes, one in the Southern Circle at Haliyal, for the benefit of the Kannad knowing subordinates, the second at Bordi for the benefit of the Marathi knowing subordinates and the third at Baroda or Baria for the Gujarati knowing subordinates. It is accordingly proposed to open two more classes during the Second Five-Year Plan.

A provision of Rs. 19,375 is required during 1956-57 for the above proposal, as detailed below. It is proposed to create the additional Establishment for a period of one year, in the first instance, from 1st April 1956.

	Rs.
Non-recurrent—	
Cost of furniture and instruments	2,705
Recurrent—	
Pay of Officers—	
(1) Two instructors in the Bombay Forest Service Class II in the grade of Rs. 220—15—400—E.B.—20—500—E.B.—25—650	4,840

	3,960
Contingencies—	
(1) Class allowance at Rs. 5 per mensem for 30 students	1,800
(2) Building Rent at Rs. 100 per mensem	1,200
(3) Purchase of Stationery articles	1,000
(4) Provision for camp expenditure	2,000
	6,000
Grand Total ...	19,375

10, FORESTS—contd.

MINISTER IN CHARGE—SHRI Y. B. CHAVAN.

ITEM 14. Planting of Agave hedges.

Recurrent ...	... Rs. *Nil.*	Non-recurrent ...	... Rs. 1,02,500
Total ...	... ,, 1,02,500	Ultimate annual recurrent	... ,,

Remarks.—The scheme envisages planting of Agave in strips of 3′ wide along the Forest boundaries of Kurans, fire-lines, demarcation lines and around the areas that will come up for afforestation under the Second Five-Year Plan.

Agave hedges yield coarse fibre useful for cordges and other purposes and its yield should be sufficient to provide a fair return for the investment involved. Besides Agave also makes a very efficient fire belt. Burning wide fire-lines involves considerable waste of forest land. The burning is not effective as during the fair season, large quantities of teak leaves cover the burnt ground. These require to be repeatedly reburnt at heavy cost to keep the fire lines clear. Planting of hedges with Agave besides being much cheaper in long run, is also necessary to define clearly forest boundaries, preventing encroachments and illicit grazing.

It is therefore proposed to plant a length of 550 miles during the first year of the Second Five-Year Plan, i.e., during 1956–57 for being fenced with Agave at an estimated cost of Rs. 1,02,500 as detailed below :—

Circle.	Miles.	Rate.	Amount required for fencing.
		Rs.	Rs.
Northern	100	200 per mile ...	20,000
Eastern	150	150 ,, ...	22,500
Western	100	200 ,, ...	20,000
Central	100	200 ,, ...	20,000
Southern	100	200 ,, ...	20,000
		Grand Total ...	1,02,500

No extra staff will be entertained for this work of supervision but the work will be got done through the existing staff.

ITEM 15. Scheme for raising teak plantations.

Recurrent ..	.. Rs. *Nil.*	Non-recurrent ..	.. Rs. 94,500
Total ..	.. ,, 94,500	Ultimate annual recurrent	.. ,,

Remarks.—During the Second World War, excessive fellings were carried out to meet the Defence requirements of timber. If no efforts are made to raise large scale plantations the supply of timber and other forest produce on a sustained basis is likely to be adversely affected in the future. It is, therefore, proposed during the Second Five Year Plan to raise special teak plantations in about 7,000 acres. Out of this acreage, about 630 acres will be taken up for plantation during 1956–57 at an estimated cost of Rs. 94,500 as shown below :—

Circle.	Division.	Area.	Rate per Acre.	Amount required.
			Rs.	Rs.
Southern	Kanara ...	300	150*	45,000
Eastern	East Khandesh	330		16,500
	West Khandesh	(At 110 in each Division)	150	16,500
	North Khandesh			16,500
		Grand Total ...		94,500

	Rs.
*(i) Clear felling and preparing rates per acre ...	105
(ii) Plantation cost, per acre, burning, reburning 3 weeding's seed collection and transport of seed and incidental charges ...	45
	150

10, FORESTS—contd.

MINISTER IN CHARGE—SHRI Y. B. CHAVAN.

ITEM 16. (*a*) Soil conservation scheme for Ratnagiri District.

(*b*) Creation of new sub-division for Ratnagiri District.

Recurrent	... Rs. 23,465	Non-recurrent	... Rs. 2,25,760
Total	... ,, 2,49,225	Ultimate annual recurrent ...	,,

Remarks.—(*a*) The object of the scheme is to restore potential productivity of the area and also to increase productivity by regeneration of the area with economic species best suited to it.

The scheme which is spread over a period of five years envisages acquiring of 26,742 acres of Malki lands at a total cost of Rs. 5,52,125 and undertaking soil conservation works in the Ratnagiri District. Out of the total area, it is proposed to acquire 5,355 acres during 1955-56 at a cost of Rs. 50,000. Out of the remaining area 10,750 acres will be acquired at a cost of Rs. 2,25,760 during 1956-57.

(*b*) *Creation of a New Sub-Division for Ratnagiri District.*—The condition of forests in the Ratnagiri District is very much devastated and it is very essential to take immediate measures to check further devastation. For this, the creation of a Sub-Division for Ratnagiri is very essential to ensure the success of the scheme stated at (*a*) above.

The staff required for this Sub-Division is as under :—

Recurring Expenditure

		Rs.
1. *Pay of Officer*—		
1 Sub-Divisional Forest Officer in the scale of Rs. 220—15—400—E.B.—20—500—E.B.—25—650 for 11 months		2,420

ITEM 17. Opening of Soil Conservation Demonstration Centres in the vicinity of towns.

Recurrent ...	... Rs. 4,333	Non-recurrent ...	... Rs. 33,378
Total ...	... " 37,711	Ultimate annual recurrent	... "

Remarks.—With a view to demonstrating the villagers and the public, the utility of soil conservation and afforestation work it is desirable to create demonstration plots in the vicinity of towns. The objects of the scheme are as under :—

(1) To check the soil erosion.

(2) To increase the moisture contents of the sub-soil by arresting surface run off and conserving moisture,

(3) To increase the supply of firewood and to improve pasture by introducing better quality of fodder grass and legume,

(4) To produce raw material for cottage industries such as sisal for rope making, bamboos for basket and mat making etc.

In all six centres are proposed to be opened as shown in the accompanying statement at an estimated cost of Rs. 37,711 during 1956–57. It is proposed to approach the Government of India for financing the scheme entirely.

The names of the villages and the details of provision required for 1956–57 are as follows :—

Non-recurrent—	Rs.
(1) Soil improvement and afforestation work in 50 acres at Rs. 103 per acre at Padli Village in Kolhapur Division	5,150
Dead Stock	100
(2) Soil improvement and afforestation work in 50 acres at Rs. 54 per acre at Parade and Nigade villages in Kolaba Division	2,700
Dead Stock	100
(3) Soil improvement and afforestation work in 72 acres at Rs. 67-12-0 per acre at Shivneri hill slopes in Poona Division	4,878
Dead Stock	150
(4) Soil improvement and afforestation work in 50 acres at Rs. 93 per acre at Kashene and Vigharwati villages in Janjira Division	4,650
Dead stock	100
(5) Soil improvement and afforestation work in 50 acres at Rs. 101 per acre at Sakarda in Baria Division	5,050
Dead Stock	100
Wire fencing around 100 acres	5,500
(6) Soil improvement and afforestation work in 50 acres at Rs. 96 per acre at Pathardi Village in Nasik District	4,800
Dead Stock	100
Total, Non-recurrent ...	33,378

Total ...	4,333
Grand Total ...	37,711

ITEM 18. Construction of Aerial Ropeways for exploitation of Nagzari Valley, etc.

Recurrent	... Rs.	9,463	Non-recurrent	... Rs.	1,90,482
Total	... ,,	1,99,945	Ultimate annual recurrent...	,,	

Remarks.—Large quantity of teak wood exists on the slopes of Nagzari, Gund, Nersol, etc. To exploit the teak material and to carry it to Kodibag by river takes much time—even two floating seasons at times. The revenue for the teak wood so floated to Kodibag is much less than the revenue expected to be realised if the same wood is dragged by aerial ropeways and brought to Dandeli. The aerial ropeway proposed is movable and will be useful for other slopes too. At present the felled material remains lying in the forests for one or two seasons, due to difficult slopes. Such material is required to be guarded against forest fires. By installing aerial ropeway, the expenditure required for fire protection will be saved. Increased revenue is also expected every year, because the material will not deteriorate in the forest for want of transport facilities. The estimated expenditure during 1956-57 is Rs. 1,99,945 as under:—

Non-recurrent.	Rs.
(1) Logging Engine Diesel Driver Main Drum of capacity to hold 3,750 ft. of 1¼" Dia. Cable. Trip Drum of capacity 7,090 ft. of ¾" Dia. Cable.	1,00,000
(2) Trip line Pulleys, snatch blocks overhead carriers, chockers, loading tongs etc.	67,862
(3) Sky line wire rope 3,750 ft. of 1¼" diameter bracing for spastrus top and bottom 4 Nos. complete with shakles and Anchors with nose piers.	22,620
Total—Non-recurrent ...	1,90,482

10, FORESTS—contd.

MINISTER IN CHARGE—SHRI Y. B. CHAVAN.

	Rs.
Recurrent.	
(1) 1 Skidding overseer in the grade of Rs. 80—5—100—8—140—E.B.—10—200 grade—

(3) 25 Unskilled labourers at Rs. 2 per day for 25 days in a month for 4½ months.	5,625
Total, Recurrent ...	9,463
Total, Non-recurrent ...	1,90,482
Grand Total ...	1,99,945

ITEM 19. Forest Buildings, Wells, etc.

Recurrent ..	.. Rs. *Nil.*	Non-recurrent ..	.. Rs. 1,45,700
Total ..	.. „ 1,45,700	Ultimate annual recurrent	.. „

Remarks.—The scheme is designed to provide for necessary buildings mainly residential for forest staff and necessary amenities particularly water. Most of the Forest Department Subordinates are required to stay in unhealthy and out of the way places in the interior of forests. They are put to much inconvenience for want of suitable accommodation at reasonable rent. Similarly, much inconvenience is felt by the subordinates in fetching water from far off wells.

It is, therefore, proposed to construct 16 quarters and 7 wells at an estimated cost of Rs. 1,45,700 as shown in the accompanying statement, during 1956-57. The scheme is included in the Second Five Year Plan under the scheme 'Buildings and Wells' for which a provision of Rs. 14 lakhs exists in the plan period.

Statement showing the wells and quarters for subordinates proposed to be constructed during the first year of the Second Five Year Plan during 1956-57.

	Grand Total ..	1,45,700

MINISTER IN CHARGE—SHRI Y. B. CHAVAN.

ITEM 20. Communications : Forest roads.

Recurrent ...	... Rs.	*Nil.*	Non-recurrent ...	... Rs.	2,34,446
Total ...	... ,,	2,34,446	Ultimate annual recurrent ...	,,	

Remarks.—The scheme envisages construction of new roads and special repairs to the existing roads damaged excessively. The work proposed under the scheme when completed will not only help realisation of better prices for forest produce but will also make the forest areas easily accessible and facilitate extraction of timber and other forest produce which is expected to bring in considerable additional revenue to Government.

The total allocation for the scheme "Communication" under the Second Five-Year Plan is Rs. 12,50,000. The total amount that will approximately be available for the first year of the Plan is Rs. 2,50,000. The amount now required for the year 1956–57 for the works proposed to be taken up fits in the allocation.

It is, therefore, proposed to construct the following road works during 1956–57 :—

	Rs.
(1) Construction of Ozar-Saiwan Road in Western Circle. Total length 18 miles. A length of 4 miles will be taken up during 1956–57. The survey and preparation of plans and estimates of the road have been taken up in 1955–56. The provision required during 1956–57 is ...	1,02,000
(2) Construction of timber top culverts on Gotegali-Boraswad Road in Southern Circle. Only 12 culverts are proposed to be constructed during 1956–57.	37,702
(3) Resurfacing of Dandeli-Kulgi Road in Southern Circle (The estimate of Rs. 39,744 has been approved administratively)	39,744
(4) (*a*) Construction of Kalghatgi-Kawalwad Road in Dharwar Division in Southern Circle. Murrum portion of 5 Miles and 2 furlongs is to be metalled. Plans and estimates are being prepared	50,000
(*b*) Construction of one causeway on Kalghatgi-Kawalwad Road ...	5,000
	2,34,446

The amount of Rs. 2,34,446 is required during the year 1956–57.

ITEM 21. Installation of Walkie-Talkie Wireless Sets in Kanara.

Recurrent ...	Rs.	32,855	Non-recurrent ...	Rs.	57,000
Total ...	,,	89,855	Ultimate annual recurrent ...	,,	

Remarks.—Forest protection is most essential in the Kanara Forests which are extremely valuable and are the best forests of the State. These forests require constant watch to be kept for locating fires and information regarding the occurrence of fires, etc., required to be relayed instantly for getting additional timely help and warning all the neighbouring areas about the occurrence of fires. Great need is always felt for timely action to prevent fires developing into conflagration, thus preventing heavy losses which at times involve human lives as well. It is, therefore, proposed to install 4 static and one mobile set in Kanara Northern Division at strategic places on the boundary of the forests at places like Dandeli, Kulgi, Virnoli and Gund to relay, instantly, all information about the occurrence of forest fires, either within or outside boundary. This is also expected to be useful in increasing the efficiency of the Departmental working.

A provision of Rs. 89,855 is required during 1956–57 for this scheme, as detailed below :—

	Amount.
Non-recurrent—	Rs.
Cost of 3 Wireless sets at Rs. 12,000 each	36,000
Cost of one mobile wireless set	8,000
Cost of a jeep car	13,000
Total—Non-recurrent ...	57,000

ITEM 22. Scheme for Afforestation of Arid and Blank Areas.

Recurrent ...	... Rs. 28,040	Non-recurrent ...	... Rs. 2,87,385
Total ...	... ,, 3,15,425	Ultimate annual recurrent	... ,,

Remarks.—Due to continuous maltreatment of forest blanks by agricultural population large tracts have become completely depleted of forest cover with the result that soil is in the process of disappearing and the areas are likely to become completely barren and unfit for the growth of any vegetation whatsoever. With the growing population balanced land utility is absolutely essential. It is, therefore, considered necessary to reclothe the arid and blank areas in as short a period as possible. The scheme is included in the Second Five-Year Plan and a total allocation of Rs. 53,52,000 has been included in the Plan on account of this scheme for the period of five years. It is proposed to approach the Government of India for sharing 50 per cent. of the expenditure on this scheme. A provision of Rs. 3,15,425 is required during 1956-57 on account of the scheme.

I. *Motebennur Afforestation Scheme in Southern Circle.*

MINISTER IN CHARGE—SHRI Y. B. CHAVAN.

ITEM 23. Improvement of Reserved Forests of selected talukas of Ahmednagar District.

Recurrent ...	... Rs.	33,725	Non-recurrent ...	... Rs.	36,980
Total ...	... ,,	70,705	Ultimate annual recurrent	... ,,	

Remarks.—The scheme contemplates the improvement of the depleted reserved forests of Nagar, Rahuri, Parner, Shrigonda and Karjat Talukas of Ahmednagar District. It is proposed to accelerate the afforestation and improvement of the areas of the five talukas under this scheme which is spread over a period of five years. The scheme has been included in the Second Five-Year Plan under the scheme for afforestation of Arid and Blank areas for which a total allocation of Rs. 53,52,000 has been made for five years of the Plan. The gross revenue expected to be realised during the period of the scheme is Rs. 2,90,000 from sale of economic forest produce only. Revenue from fuel species will be obtained only after the growth is matured when it may fetch Rs. 1,75,000 at the rate of Rs. 120 per acre. The Government of India will be approached for sharing 50 per cent. of the cost of the scheme. The cost during 1956-57 is estimated at Rs. 70,705 as shown below :—

	Rs.
Non-recurrent—	
(1) Plantations in 350 acres at Rs. 25 per acre	8,750
(2) Raising live hedges of agave in 350 acres at Rs. 4-8-0 per acre ...	1,575
(3) Kuran formation of 600 acres at Rs. 25 per acre	15,000
(4) Raising live hedges of agave on 600 acres at Rs. 4-8-0 per acre ...	2,700
(5) Development of former military kurans 200 acres at Rs. 15 per acre ...	3,000
(6) Demarcation of forest boundary, erection of 1,985 pillars at Rs. 3 each ...	5,955
Total non-recurrent ...	36,980
Recurrent—	
Pay of Officer—	
1 Sub-Divisional Forest Officer in the scale of Rs. 220—15—400—E.B.—20—500—25—650	2,420
Pay of Establishment—

1 Surveyor in the scale of Rs. 46—3—85—E.B.—4—125—5—130 ...	605
Total Pay of Establishment ...	12,540
Allowances and Honoraria—	
Permanent travelling allowance	3,663
Dearness allowance	12,540
House rent allowance	1,452
Compensatory local allowance	110
Total Allowances ..	17,765
Contingencies	1,000
Total recurrent ...	33,725
Grand Total ...	70,705

10, FORESTS—contd.

MINISTER IN CHARGE—SHRI Y. B. CHAVAN.

ITEM 24. Scheme to increase and improve forests in Jath Taluka of South Satara District.

Recurrent	... Rs. 495		Non-recurrent	... Rs. 900	
Total	... ,, 1,395		Ultimate annual recurrent	... ,,	

Remarks.—Jath is a very dry taluka with barren denuded hills which are subjected to heavy soil erosion. At present supply of firewood is depleted considerably and if efforts are not made to improve the condition soon, the area may have to face a fuel famine. It is, therefore, proposed to increase and improve the vegetation by afforestation measures. This area when developed will also serve as a demonstration plot of great educational value to the villagers. The scheme is spread over a period of five years and has been included in the Second Five-Year Plan under the scheme for afforestation of arid and blank areas for which a total allocation of Rs. 53,52,000 has been made for five years of the Plan. The Government of India will be approached for sharing 50 per cent. of the expenditure on the scheme. The cost during 1956-57 is estimated at Rs. 1,395 as shown below :—

	Rs.
Non-recurrent—	
1. Soil improvement and afforestation including fencing, etc., in 10 acre plot ...	800
2. Deadstock articles, i.e., implements, etc. ...	100
Total, Non-recurrent ...	900
Recurrent—	
One Mali at Rs. 45 per month ...	495
Grand Total ...	1,395

ITEM 25. Afforestation by Contour Trenching and bunding of the completely denuded areas in the Reserved Forests of Jhalod and Sub-Dohad Ranges in Baria Division.

Recurrent	... Rs. 1,980		Non recurrent	... Rs. 17,526	
Total	... ,, 19,506		Ultimate annual recurrent	... ,,	

Remarks.—In accordance with the principles laid down by the Central Board of Forestry the pace of afforestation programme is required to be increased in areas where there are insufficient forests. This is mainly with a view to provide a vegetative cover to the soil and to prevent soil erosion-Border. The expenditure on such schemes will be recovered in the long run in the form of minor forest produce, timber, etc. Government, therefore, proposes to undertake such schemes at the following two places :—

(1) Jhalod I. F. S. XXXVII.

(2) Sub-Dohad I. F. S. XIX.

These schemes are proposed to be undertaken with a view to demonstrating to the people the correct way of reclaiming the lost land (barren), and also in augmenting the supplies of fuel, grazing and other raw materials for cottage industries. The Government of India will be approached for sharing 50 per cent. of the cost of the schemes. The schemes are spread over a period of five years and are included in the Second Five-Year Plan under the scheme for afforestation of arid and blank areas for which a total allocation of Rs. 53,52,000 has been made for five years of the Plan. The cost on these schemes during 1956-57 is estimated at Rs. 19,506 as detailed below :—

	Rs.
Non-recurrent—	
Trenching, bunding, gully plugging, Agave fencing, seed-sowing, etc., in 166 acres at Rs. 103-8-0 per acre.	17,194
Replacement of casualties, soil working, etc., in 166 acres at Rs. 2 per acre ...	332
Total, Non-recurrent ...	17,526
Recurrent—	
4 Malis at Rs. 45 per mensem ...	1,980
Grand Total ...	19,506

10, FORESTS—contd.

MINISTER IN CHARGE—SHRI Y. B. CHAVAN.

ITEM 26. Afforestation and Rehabilitation of Pasture Lands.

Recurrent	Rs. 13,937	Non-recurrent	Rs. 6,23,540
Total	„ 6,37,477	Ultimate annual recurrent ...	„

Remarks.—The scheme envisages improvement of pasture and Kuran areas in Nasik, Thana, East and West Khandesh, Poona, Kolhapur, North Satara, Kolaba, Sholapur and Ahmednagar Districts. Acute shortage of fodder and grass is often felt all over the State and particularly in Khandesh areas where rainfall is below normal. To meet the additional demand during the years of scarcity or famine, 'Kuran' or special pastures have been created which provide cut fodder. But as most of these are not fenced, heavy illicit grazing takes place, and as a result the forage capacity has become reduced. It is, therefore, proposed to attempt rehabilitation of the Kurans by improving yield of grass by soil conservation measures such as contour trenching, gully plugging and planting fodder trees mainly Anjan, Siras, Sissoo, to a moderate extent so as not to hinder the production of grass to any serious extent. Fencing of Kurans will also enhance their marketable value.

The following areas are proposed to be rehabilitated during the year 1956–57 at a total cost of Rs. 6,37,477 as shown below :—

Circle.	Name of Kuran Division.	Area of Kuran.		*Non-recurrent.* Cost on Rehabilitation and Afforestation.	*Recurrent.* Cost on staff as shown in the accompanying Statement.	Contingency.	Total.

ITEM 27.—Intensification of checking forest produce in transit.

Recurrent ...	Rs. 61,620	Non-recurrent ...	Rs. 26,025
Total ...	,, 87,645	Ultimate annual recurrent ...	,,

Remarks.—For the past few years illicit cutting of Government trees is taking place on a large scale in various Divisions. The material obtained illicitly is transported generally at odd hours in lorries and on routes where there is no proper checking system through the neighbouring Districts where there are no forest subordinates and is ultimately disposed immediately either to the consummers or to the traders or saw millers. It is, therefore, proposed to intensify the checking of forest produce while in transit by establishing more nakas at strategic places and also by appointing additional staff for checking of material in transit at all times.

MINISTER-IN-CHARGE—SHRI Y. B. CHAVAN.

To begin with it is proposed to introduce the scheme in Northern and Western Circles in the first year. The details of expenditure on this are as under :—

Circle.	No. of Additional Nakas.	Additional Staff required.	Cost of Additional Establishment.	Cost for construction of Nakas.	Miscellaneous Expenditure.	Total. Recurrent.	Non-recurent.	Total.
			Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Northern Circle ...	17	17	11,150	525	1,250	11,150	1,775	12,925

ITEM 28. Survey of Merged State areas.

Recurrent	Rs.	1,00,000	Non-recurrent ..	Rs.	*Nil.*
Total	,,	1,00,000	Ultimate annual recurrent.	,,	

Remarks.—Due to the merging of the former State areas in the Bombay State, it has been found that large tracts are required to be surveyed through the agency of the Surveyor General of India for preparing maps etc. In order to bring these unsurveyed areas under a "Working Plan", it is proposed to carry out these surveys during the Second Five Year Plan at an estimated cost of Rs. 5,00,000. Accordingly, the following areas have been proposed for special Project Surveys :—

	Area. Sq. miles.
(1) Dharampur	175
(2) Rajpipla	300
(3) Gir and Okha Range	50
Total ..	525

The amount of Rs. 1,00,000 (approximate) will be required during 1956–57 for the work. The whole work will be done by the survey party of Government of India and hence no extra staff is required. It is estimated that the cost of survey of one square mile would be Rs. 1,000.

		Rs.
Grand Total—10 Forest ...	Recurrent ...	9,94,422
	Non-recurrent ...	21,37,842
	Total ...	31,32,264

XVII—IRRIGATION, NAVIGATION, EMBANKMENT AND DRAINAGE WORKS—WORKING EXPENSES—

MINISTER IN CHARGE—SHRI M. M. NAIK-NIMBALKAR.

ITEM 29. Constructing distributaries from Section IV from Bareja (Ahmedabad Irrigation Division).

Recurrent ...	... Rs.	*Nil.*	Non-recurrent ...	... Rs.	30,000
Total ...	... ,,	30,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—This work provides a distributary in Bareja where water distribution is at present being done from field to field which is a crude and old method and hence not desirable. This is an item of remodelling Hatmati and Khari Cut Canal system. As the work is of an important nature, it is proposed to take up this work during the next year.

The work is estimated to cost Rs. 70,000 (approximately) and a provision of Rs. 30,000 is required during 1956–57.

		Rs.
Grand Total—XVII-Irrigation etc. ...	Recurrent ...	.....
	Non-recurrent ...	30,000
	Total ...	30,000

18, OTHER REVENUE EXPENDITURE FINANCED FROM ORDINARY REVENUES.

MINISTER IN CHARGE—SHRI M. M. NAIK-NIMBALKAR.

ITEM 30. Surveying and preparing plans and estimates for Medium and Minor Irrigation works including drainage channels in the State of Bombay.

Recurrent	.. Rs.	*Nil.*	Non-recurrent	.. Rs.	75,000
Total	.. „	75,000	Ultimate annual recurrent	.. „	*Nil.*

Remarks.—Tanks and Bandharas Divisions have been opened in the State for investigating and preparing plans and estimates for Medium and Minor Irrigation Works. In order to explore the irrigation potentialities of the areas it is considered essential to survey and carry out detailed investigations to ascertain feasibilities of the Schemes. It has been decided to investigate and prepare plans and estimates for as many as possible schemes during the year 1956-57.

The survey works are estimated to cost Rs. 9 lakhs approximately and an amount of Rs. 75,000 is required during 1956–57.

ITEM 31. Carrying out general soil classification survey of the area under command of the proposed Girna Left Bank Canal for the Girna Storage at Panjan.

Recurrent	.. Rs.	*Nil.*	Non-recurrent	.. Rs.	30,000
Total	.. „	30,000	Ultimate annual recurrent	.. „	*Nil.*

Remarks.—The Girna Project envisages construction of a masonry dam across Girna river (a tributary of Tapi) at Panjan village. This project is estimated to cost Rs. 188 lakhs, and would irrigate an area of 88,000 acres of land in the East and West Khandesh Districts. This scheme has been included in the Second Five-Year Plan. It is, therefore, considered necessary to carry out general soil survey of the area under command of the Girna Left Bank Canal for the Girna storage.

The survey estimate amounting to Rs. 1,26,000 has been approved and a provision of Rs. 30,000 is required for the purpose during the year 1956–57.

ITEM 32. Carrying out general soil classification survey of the area under command of the Mula Right Bank Canal from the storage of Wanjarwadi in Ahmednagar District.

Recurrent	.. Rs.	*Nil.*	Non-recurrent	.. Rs.	20,000
Total	.. „	20,000	Ultimate annual recurrent	.. „	*Nil.*

Remarks.—The project consists of a Dam on the Mula river at Wanjarwadi to impound a storage of 22,000 m.cft. and a Right Bank Canal. The Ahmednagar District receives an annual rainfall of only about 24·90″ and the percentage of irrigated to sown area in the District at present is 4·6 per cent. The area is very often affected by scarcity. The project is estimated to cost Rs. 839 lakhs and will bring under irrigation an area of 1,37,500 acres (Mixed) in Rahuri, Mewasa and Shegaon Talukas of Ahmednagar District. It has been included in the Second Five-Year Plan of the Bombay State.

The detailed survey and investigation work of this project has been proposed to be taken up during the year 1956–57.

The survey work is estimated to cost Rs. 1,08,000 and a provision of Rs. 20,000 is required for the purpose during year 1956–57.

The survey estimate is being approved.

ITEM 33. Creation of a Minor Irrigation Investigation Sub-Division in Surat Division.

Recurrent	... Rs.	17,656	... Non-recurrent	... Rs.	*Nil.*
Total	... „	17,656	... Ultimate annual recurrent	... „	*Nil.*

Remarks.—The following four schemes have been proposed to be included in the Second Five Year Plan :—

	Name of the Scheme.	Rough estimated Cost.
		Rs.
1.	Left Bank Canal System of Tichakia Weir on Zankhri River ...	8,00,000
2.	Weir and Right Bank Canal System on the Purna River near Antapur ...	8,00,000
3.	Storage reservoir on Ver River near Amli Village	6,00,000
4.	Reconstructing breached Bandhara and Canal system on Girna River near Unarda.	2,00,000

18, OTHER REVENUE EXPENDITURE, ETC.—contd.

MINISTER-IN-CHARGE—SHRI M. M. NAIK-NIMBALKAR.

It is not possible to entrust the work of investigation and preparation of detailed plans and estimates of the above schemes to the existing Vyara Irrigation Sub-Division or to the Road Project Sub-Division, as the former is fully engaged in execution of important Irrigation Schemes costing Rs. 17,17,000 in Vyara Taluka and the latter has to prepare a number of projects for roads, etc. included in the Development Programme of the Division as also Khar Land Schemes. For investigation and preparation of detailed plans and estimates of the above schemes, creation of a Minor Irrigation Works Investigation Sub-Division with the following establishment is therefore absolutely essential :—

Post.	Grade. Rs.
1 Deputy Engineer ...	220—15—400—E.B.—20—500—E.B.—25—650.
3 Overseers	80—5—100—8—140—E.B.—10—220—E.B.—10—270.
1 Senior Clerk	92—8—140.
1 Tracer	46—3—85—E.B.—4—105.
2 Peons	30—½—35.
3 Attendants	45(consolidated per mensem).

The recurrent cost on account of the above mentioned establishment will be as follows :—

	Rs.
(*a*) Pay of Officer	2,420
(*b*) Pay of Establishment	7,096
(*c*) *Allowances*—	
(*i*) Travelling Allowance	2,000
(*ii*) Dearness Allowance	4,140
(*d*) Contingencies	2,000
Total ...	17,656

ITEM 34. Carrying out general soil classification survey of the area under the command of the proposed Sabarmati Project, Districts Ahmedabad and Mehsana.

Recurrent ...	Rs. Nil.	... Non-recurrent	... Rs. 20,000
Total ...	,, 20,000	... Ultimate annual recurrent	... Rs. *Nil.*

Remarks.—The Sabarmati project envisages the construction of a storage dam across Sabarmati river at Dharoi. It mainly benefits the areas of Ahmedabad and Mehsana Districts. The Scheme is estimated to cost Rs. 1312 lacs and is expected to irrigate an area of 2,74000 acres of mixed crops or an area of 3,94,000 acres of seasonal crops. The scheme has been include in the Second Five-Year Plan. It is therefore considered necessary to carry out general soil survey of the area under the command of the Sabarmati Project.

A provision of Rs. 20,000 is required for the purpose during the year 1956-57.

18, OTHER REVENUE EXPENDITURE FINANCED FROM ORDINARY REVENUES A—IRRIGATION WORKS-SECOND FIVE YEAR PLAN (2) MISCELLANEOUS EXPENDITURE VI—OTHER CHARGES.

MINISTER IN CHARGE—SHRI M. M. NAIK-NIMBALKAR.

ITEM 35. Carrying out general soil classification survey of the area under the command of the proposed Banas Valley Project (Dantiwada Weir Scheme) Districts Banaskantha and Mehsana.

Recurrent	... Rs. Nil.	...	Non-recurrent		Rs. 15,000.
Total	... „ 15,000	...	Ultimate annual recurrent	...	„ Nil.

Remarks.—The Banas Valley Project envisages the construction of a storage dam across Banas River at Dantivwada for a storage of 10,000 Mcft. The area benefitted by this project lies in the Banaskantha and Mehasana Districts. The scheme is estimated to cost Rs. 737 lacs and is expected to irrigate an area of 1,20,000 acres (seasonals). The scheme has been included in the Second Five Year Plan. It is therefore considered necessary to carry out general soil survey of the area under the command of the Banas Valley Project.

A provision of Rs. 15,000 is required for the purpose during the year 1956-57.

ITEM 36. Carrying out general soil classification survey of the area under the command of the proposed Ukai Project in the Surat District.

Recurrent	... Rs. *Nil.*	Non-recurrent	...	... Rs.	20,000
Total	... „ 20,000	Ultimate amount recurrent		... „	*Nil.*

Remarks.—The proposed Ukai Project envisages the construction of reservior across Tapi river at Ukai in Surat District. The Ukai Project will provide storage to Kakrapara Canal system, provide electricity to South Gujarat and eastern part of Maharashtra i.e., Districts of Nasik, West Khandesh, East Khandesh and Ahmednagar and serve as flood control work. The scheme is estimated to cost Rs. 5,460 lacs and would provide irrigation for 3,91,650 acres for mixed crops or 6,14,000 acres for seasonal crops. The scheme has been included in the Second Five Year Plan. It is, therefore, considered necessary to carry out general soil survey of the area under the command of the Ukai Project.

A provision of Rs. 20,000 is required for the purpose during the year 1956–57.

ITEM 37. Carrying out general soil classification survey of the area under the command of the proposed Narmada River Project in the Districts of Baroda and Broach.

Recurrent	... Rs. *Nil.*	Non-recurrent	...	... Rs.	25,000
Total ...	... „ 25,000	Ultimate annual recurrent		... „	*Nil.*

Remarks.—The Narmada River project consists of the construction of a weir at Gore. The areas to be benefitted by the project are in the limits of Baroda and Broach Districts. The scheme is estimated to cost Rs. 2,500 lacs and would irrigate an area of 9,97,500 acres of mixed crops or 11,57,100 acres for seasonal crops. The scheme has been included in the Second Five Year Plan. It is considered necessary to carry out general soil survey of the area under the command of the Narmada River Project.

A provision of Rs. 25,000 is required for the purpose during the year 1956-57.

ITEM 38. Carrying out general soil classification survey of the area under the command of the proposed Mahi Reservoir Project Stage II (Kadana) for the Panch-Mahals and Kaira Districts.

Recurrent	... Rs. *Nil.*	Non-recurrent	...	... Rs.	30,000
Total ...	... „ 30,000	Ultimate annual recurrent		... „	*Nil.*

Remarks.—The Mahi Reservoir Project Stage II consists (*a*) construction of a reservoir across Mahi River near Kadana village of Satrampur Taluka of Panch-Mahals District. The project is estimated to cost Rs. 1,300 lakhs and would provide irrigation for 4,55,000 acres for mixed crops or 7,51,000 for seasonal crops. This scheme has been included in the Second Five Year Plan. It is, therefore, considered necessary to carry out general soil survey of the area under the command of the Mahi Reservoir Project Stage II.

A provision of Rs. 30,000 is required for the purpose during the year 1956-57.

18, OTHER REVENUE EXPENDITURE FINANCED FROM ORDINARY REVENUES—contd.

MINISTER IN CHARGE—SHRI M. M. NAIK-NIMBALKAR.

ITEM 39. Creation of Mahi (Stage II) Soil Survey Sub-Division.

Recurrent ...	Rs.	1,09,230	Non-recurrent	Rs.	*Nil.*
Total	„	1,09,230	Ultimate annual recurrent ...	„	*Nil.*

Remarks.—The estimated cost of the Mahi Project Stage II is about Rs. 13·10 crores. Government has made a provision of Rs. 6 crores in the Second Five Year Plan for Mahi Project Stage, II. The total area to be surveyed is 9 lakh acres. It is not possible to entrust or distribute the survey works among the existing Sub-Divisions. Hence creation of Mahi Soil Survey Sub-Division with the following establishment is absolutely essential :

	Post.	Grade. Rs.
1	Deputy Engineer	220—15—400—E.B.—20—500—E.B.—25—650.
5	Senior Clerks	92—8—140.
3	Junior Clerks	46—3—85—E.B.—4—105.
11	Overseers	80—5—100—8—140—E.B.—10—220—E.B.—10—270.
24	Measurers	46—3—70.
15	Mukadams	40—1—50.
8	Tracers	46—3—85—E.B.—4—105.
8	Peons	30—½—35.
3	Chowkidars	30—½—35.
8	Attendants	45 (Consolidated per mensem).

The recurrent cost on account of the above establishment will be as follows :—

Item.	Amount Rs.
(*a*) Pay of Officers	2,420
(*b*) Pay of Establishment	52,900
(*c*) *Allowances*—	
(*i*) Travelling Allowance	20,075
(*ii*) House Rent and other Allowances	495
(*iii*) Dearness Allowance	33,340
Total ...	1,09,230

ITEM 40. Investigation of Major Irrigation Works in the State of Bombay.

Recurrent ...	Rs.	*Nil*	Non-recurrent ...	Rs.	7,50,000
Total ...	„	7,50,000	Ultimate Annual Recurrent ...	„	*Nil.*

Remarks.—In the Second Five Year Plan of this State, provisions as detailed below, have been made for the Irrigation Projects :—

Major Irrigation Projects	Rs. 41 crores.
Medium Irrigation Projects	Rs. 11·90 crores.
Minor Irrigation Projects	Rs. 1·50 crores.

18. OTHER REVENUE EXPENDITURE FINANCED FROM ORDINARY REVENUE—contd.

MINISTER IN CHARGE—SHRI M. M. NAIK-NIMBALKAR.

The detailed investigations of some of the projects, proposed to be taken up in the Second Five Year Plan have to be carried out so that detailed plans and estimates therefor can be prepared. This has to be commenced early so that the actual execution of these works can be started immediately. Besides the projects proposed to be taken up in the Second Five Year Plan, a vast area of the State is still unexplored and potentialities of major Irrigation Projects are yet to be ascertained. It is, therefore, assential to carry out the detailed investigations of the areas for ascertaining feasibilities of Major Irrigation Projects as detailed in the margin and also to keep them ready for inclusion in the period subsequent to the Second Five Year Plan. An amount of Rs. 50 lakhs has therefore, been proposed to be set apart for the detailed investigations of the major Irrigation Projects in the Second Five Year Plan as well as for the later plans from the total provision of Rs. 54·40 crores made for Irrigation Projects in the Second Five Year Plan.

(1) Banas Valley
  (i) Storage on Sipu
  (ii) Weir at Roho
  (iii) Weir at Umbri
  (iv) Innundation Project at Radhanpur.
(2) Guhai Reservoir Project.
(3) Watrak. Stage
(4) Zankvi Reservoir Project.
(5) Panam Reservoir (Kel).
(6) Reclamation of little run of Kutch.
(7) Sukhi River Project
(8) Tapi Storage Project (Hatnursusti)
(9) Kukadi (Sirur)
(10) Bhima
(11) Yeralwadi
(12) Dhom
(13) Karanjwan.
(14) Dudhganga
(15) Haranbari (Satana Taluka)
(16) Mina
(17) Weirs on Bhima
(18) Weirs on Krishna
(19) Ghataprabha Stage III
(20) Malaprabha
(21) Don River Project
(22) Chhaya Project (Combined project by Bombay and Hyderabad).
(23) Sarawati.
(24) Abutbara and similar other projects.

Out of the proposed allocation of Rs. 50 lakhs a provision of Rs. 7·5 lahks is required in the year 1956–57 for this purpose.

ITEM 41. Creation of Sabarmati and Banas Rivers Soil Survey Sub-Divisions.

Recurrent	... Rs.	1,09,660...	Non-recurrent	... Rs.	*Nil.*
Total	... ,,	1,09,660 ...	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—The estimated cost of Sabarmati and Banas Rivers Project is about Rs. 13·12 crores and Rs. 7·37 crores respectively. Government has made a total provision of Rs. 6 crores for these Projects in the Second Five Year Plan. The total area to be surveyed is 7 lakh acres. It is not possible to entrust or distribute the survey work among the existing Sub-Divisions. Hence creation of Sabarmati and Banas Soil Survey Sub-Division with the following establishment is absolutely essential.

	Post.	Grade. Rs.
1	Deputy Engineer ...	... 220—15—400—E.B.—20—500—E.B.—25—650.
4	Senior Clerks	... 92—8—140.
2	Junior Clerks ...	... 46—3—85—E.B.—4—105.
9	Overseers ...	... 80—5—100—8—140—E.B.—10—220—E.B.—10—270.
21	Measurers ...	... 46—3—70
14	Mukadams ...	... 40—1—50
7	Tracers	... 46—3—85—E.B.—4—105.
7	Peons ...	... 30—1/2—35
2	Chowkidars ...	... 30—1/2—35
7	Attendants ...	... 45 (Consolidated per mensem).

18. OTHER REVENUE EXPENDITURE FINANCED FROM ORDINARY REVENUE—contd.

MINISTER IN CHARGE—SHRI M. M. NAIK-NIMBALKAR.

The recurrent cost on account of the above establishment will be as follows :—

Item	Amount
	Rs.
(*a*) Pay of Officers	2,420
(*b*) Pay of Establishment	43,580
(*c*) Allowances—	
(*i*) Travelling Allowance	32,850
(*ii*) House Rent and Other allowances	810
(*iii*) Dearness Allowance	30,000
Total ...	1,09,660

ITEM 42. Creation of Girna Soil Survey Sub-Division.

Recurrent	Rs.	48,050	Non-recurrent	Rs.	*Nil.*
Total	,,	48,050	Ultimate annual recurrent ...	,,	*Nil.*

Remarks.—The estimated cost of the Girna Project is Rs. 808 lakhs. Government has made a provision of Rs. 5,50,00,000 in the Second Five Year Plan for Girna Project. The estimate amounting to Rs. 1,26,000 for carrying out general classification of the area under the command for the proposed Girna Left Bank Canal and for Girna Storage Project has been sanctioned. The total area to be surveyed is 3,20,000 acres. It is not possible to entrust or distribute the survey work among the existing Sub-Divisions. Hence creation of Girna Soil Survey Sub-Division with the following establishment is absolutely essential.

Post.	Grade.
	Rs.
1 Deputy Engineer	220—15—400—E.B.—20—500—E.B.—25—650.

25. GENERAL ADMINISTRATION.

MINISTER IN CHARGE—SHRI MORARJI R. DESAI.

ITEM 45. Acceleration of the work of revision of Bombay District Gazetteers.

Recurrent	.. Rs.	57,650	Non-recurrent	.. Rs.	2,500
Total	.. „	60,150	Ultimate annual recurrent	.. „	*Nil.*

Remarks.—Government has set up a Board with the Chief Secretary as Chairman to revise the Bombay District Gazetteers in 1949. One full time Executive Editor has also been appointed in scale of Rs. 850—1,100. The Scheme of revision of Bombay District Gazetteers has been included in the Second Five-Year Plan and provision of Rs. 3·44 lakhs has been made in the Plan. In order therefore to accelerate the work of revision of the Gazetteers some additional staff is required during the Second Five-Year Plan period.

As matters stand to-day, the Executive Editor has to supervise the day to day routine of work in the office, to give constant guidance to Research Assistants, to look after correspondence, to scrutinize at all stages, drafts of chapters prepared by Research Assistants and finalize the drafts, to organize collection of information from both official and non-official sources in the different districts and for that purpose pay personal visits to the districts more than once, etc., etc. With the revision of several District Gazetteers simultaneously in hand, it will be impossible for him to find time for all this work. It is therefore proposed that a post of an Assistant Editor should be created; he can look after purely routine correspondence and details of day to day working of the office, make a preliminary scrutiny of the rough drafts of chapters and help the Executive Editor in other ways. In order that a competent man should be available for the post a salary grade of Rs. 500—30—650 has been suggested. A higher start within the grade may be given if necessary.

Work of typing is expected to increase to a great extent and two more typists will be required to cope with it.

In the compilation of chapters there is a lot of spade work to be done, e.g., statistical tables have to be prepared from the data collected, totals have to be made and/or checked, statements have to be verified and so on; similarly, after material has been typed by typists it has to be checked with the original and mistakes corrected. For doing all such work a person who may not be as highly qualified as a Research Assistant but who is more qualified than a Clerk or a Typist would be very suitable; it is therefore proposed that two posts of Junior Assistants should be created; Research Assistants could then devote more time to writing the main thesis and the office will have better assistance in performing comparatively simple but important duties.

With the increase in office work one more peon will be necessary; the Executive Editor has at present no peon specifically attending to his office; there are also a number of letters to be delivered outside the office and one man has to be out for a large part of the day.

The following additional staff is therefore proposed to be appointed during the year 1956–57 :—

Additional Posts.

Assistant Editor (1) Rs. 500—30—650 plus allowances. Junior Assistants (2) Rs. 120—10—250 plus allowances. Typists (2) Rs. 75—5—140—8—220 plus allowances. Peon (1) Rs. 35—½—40 plus allowances.

Additional Expenditure.

	Rs.
1. Establishment	14,720 (including allowances).
2. Travelling Allowance	3,000
3. Printing	27,430
4. Contingency	3,500
5. Honorarium	11,500
Total ..	60,150

A provision of Rs. 60,150 is therefore proposed to be made during the year 1956–57.

25. GENERAL ADMINISTRATION—contd.

MINISTER IN CHARGE—DR. JIVRAJ N. MEHTA.

ITEM 46. Statistics relating to Planning (Planning Unit): Office staff.

Recurring ...	Rs. 31,000	Non-recurring ...	Rs. 12,000
Total ...	,, 43,000	Ultimate annual recurring ...	,, *Nil.*

Remarks.—In connection with the Second Five-Year Plan, the establishment of a Planning Unit in the Bureau has been recommended by the Government of India. The duties of the Unit will be to obtain and analyse the necessary statistical information to assess the progress of the Five-Year Plan and to make special studies in connection with various aspects of the Plan. It will also have to re-assess and reformulate continually targets, projects and policies to suit changing needs and conditions. This staff will also supervise and guide the District Statistical Organisation proposed to be set up. The Bureau will have to serve as a focal centre in a continual two-way flow of information required for planning.

The total estimated expenditure during the Second Five-Year Plan on the scheme which has been approved by the Government comes to Rs. 2,00,000. A Statement showing the details of estimated expenditure for 1956-57 and the total estimated expenditure for the remaining four years is attached herewith. This statistical scheme relating to planning is to be included in the schemes for which some financial assistance from the centre will be provided. It is expected that 50 per cent. of the expenditure on this scheme will be met by the Government of India.

Statistics relating to Planning—Planning Unit (Office).

1958-59	38,000	
1959-60	40,500	
1960-61	42,500	
	2,00,000	Further increase is due to annual increments.

25, GENERAL ADMINISTRATION—contd.

MINISTER IN CHARGE—DR. JIVRAJ N. MEHTA.

ITEM 47. Statistics relating to Planning: District Statistical Organisation.

Recurring	... Rs.	21,000	Non-recurring	... Rs.	6,000
Total	... ,,	27,000	Ultimate annual recurring	... ,,	*Nil.*

Remarks.— Government collects a vast amount of data either as a bye-product of administration or for some special needs. It also carries out through its various statistical agencies a large number of sample surveys to obtain information of specific points regarding economic and social well-being of the population. All this information is to be obtained from the villages. In the nature of things, since most of the data collected is obtained as subsidiary of administration, no single officer in the district is considered responsible for collection of data. This has resulted in the data being haphazard, non-reliable and delayed.

For helping all agencies concerned in the district in furnishing correct and uptodate statistical returns to the State, the Joint Conference of Central and State Statisticians recommended in 1953, the appointment of one District Statistical Officer for each district. This recommendation has also been stressed by the Agricultural Prices Enquiry Committee (Chairman Shri Thapar).

It has also been stated in the Plan-frame that it will be necessary to check continually plan targets from the top against possibilities of realisation at the place of projects and collect information of many kinds that will be required continually for the formulation and revision of the Plan as well as to assess the progress and implementation of the Plan. The District Statistical Officers will thus be expected to improve the existing statistics in all fields and to collect all the basic statistics required in connection with proper Planning. These Officers will also supervise the work relating to the various surveys that will be carried out in the district.

It is proposed to appoint three District Statistical Officers during 1956–57. This will give an idea of the working of the Scheme as regards the nature and volume of work, its difficulties and problems. Nine more Statistical Officers will then be appointed from the middle of 1957–58 to the end of the 2nd Five Year Plan. The total estimated expenditure on this scheme which has been approved by Government, comes to Rs. 4,00,000. A statement showing the details of estimated expenditure for 1956–57, and the total estimated expenditure for the remaining four years is attached. This Statistical Scheme relating to planning is to be included in the schemes for which some measure of financial assistance from the Centre will be provided. It is expected that 50 per cent. of the expenditure on this scheme will be met by the Government of India.

Statistics relating to Planning District Statistical Organisation.

		4,00,000	

MINISTER IN CHARGE—SHRI MORARJI R. DESAI

ITEM 48. Expansion of Rural Broadcasting.

Recurring	... Rs.	44,000	Non-recurring	... Rs.	56,000
Total	... ,,	1,00,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—At present there are 840 sets operating in the State under the Rural Broadcasting Scheme. One thousand additional radio sets are intended to be installed during the year 1955–56. These sets are expected to be supplied by the Government of India under the subsidy scheme. Necessary provision has been made in the budget for 1955–56 for these sets.

During the 2nd Five Year Plan period (1956–1961) further additional 880 radio sets are intended to be installed. Of these, 224 sets are intended to be installed in 1956–57 and the remaining during the subsequent years of the Plan period according to availability of funds. The total cost of the scheme for the entire Plan period is Rs. 11 lakhs (Rs. 2·64 lakhs non-recurring and 8·36 lakhs recurring).

The cost of a radio set would be about Rs. 250 and for 224 sets Rs. 56,000. The Central aid, on this basis, would be Rs. 28,000. A sum of Rs. 16,800 is expected to be recovered from the allottees under the Contributing Scheme.

The scheme is for five years and the phase for the first year is as above.

25, GENERAL ADMINISTRATION—contd.

MINISTER IN CHARGE—SHRI MORARJI R. DESAI.

The details of the expenditure of Rs. 1,00,000 are as under :—

Recurring expenditure—

Pay of Establishment—

Serial No.	Post	Number of posts	Pay Rs.
1.	Assistant Engineer (355—15—400—E.B.—20—500)*	3	1,065
2.	Supervisors (150—10—220—E.B.—10—270)*	3	450
3.	Store clerk (46—3—85—E.B.—4—125—5—130)*	1	46
4.	Battery peons (30—½—35)*	3	90
5.	Mechanics (60—4—120)*	3	180
6.	Mechanical Assistants (55—2—85)	3	165
7.	Clerk (75—5—140—E.B.—8—220)	1	75
			2,071
	* (Indicates mofussil scales of pay)		× 11
			= 22,781

Allowances, Honoraria, etc.	10,699
Contingencies	10,520
Non-recurring expenditure—	
Purchase of 224 radio sets	56,000
The detailed classification is as follows :—	
Pay of Establishment	22,781
Allowances and honoraria	10,699
Contingencies—	
Purchase of radio sets	56,000
Purchase of batteries, etc.	8,280
Radio licence-fees, etc	2,240
Total	66,520
	1,00,000

ITEM 49. Printed and Pictorial Publicity.

Recurrent	Rs. 1,15,000	Non-recurrent	Rs. *Nil.*
Total	„ 1,15,000	Ultimate annual recurrent ..	„ „

Remarks—(a) Books and pamphlets.—This scheme envisages publicizing the achievements of the First Five-Year Plan and the contents of the Second Five-Year Plan. To start with, it is proposed to issue the following publications :—

(1) What the First Five-Year Plan, Bombay, has done for the people of this State (In English, Marathi, Gujarati, Kannada and Hindi).

(2) Second Five-Year Plan, Bombay, Complete Text (In English, Marathi, Gujarati, Kannada and Hindi).

(3) Popular edition of the Second Five-Year Plan for Bombay State (in English, Marathi, Gujarati, Kannada and Hindi).

(4) Questions and Answers on the Second Five-Year Plan (in English, Marathi, Gujarati, Kannada and Hindi).

(5) Second Five-Year Plan for Districts (28 pamphlets in English and regional languages).

(6) Taluka-wise break-up pamphlets in regional languages concerned (about 300 pamphlets in all).

(7) Subject-wise break-up (English, Marathi, Gujarati, Kannada and Hindi).

The publications mentioned at (1) and (2) will be issued before the end of the year 1955-56. The rest of the publications will be issued during the year 1956-57 in the order stated above.

The cost of the above publications will be met partly from the normal grants of the Directorate and partly from the grants under this scheme.

It may be necessary to bring out regional language editions of the popular and abridged versions of the All-India Plan as was done in the case of the First Five-Year Plan. This work will be undertaken provided the full expenditure on this account is met by the Central Government.

MINISTER IN CHARGE—SHRI MORARJI R. DESAI.

It is proposed to price these publications at 50 per cent. of the cost of printing. Of these publications, some copies will have to be given free to newspapers, officers and such other institutions which may be decided upon. The rest of the copies will be sold. Thus, taking into account 50 per cent. loss by way of subsidy and 25 per cent. loss by way of free distribution of copies, it is expected to realise 25 per cent. of the total amount spent on the publications. The other items like posters, slides, photo series cannot be sold and so also nothing could be recovered out of the amount provided for packing, service postage, etc.

It may be mentioned here that at the recent conference of Directors of Publicity a sub-committee of which the Director of Publicity, Bombay, happened to be a member, was appointed to examine this question. It has been recommended by that sub-committee that all basic literature regarding Five-Year Plan should be heavily subsidised and if possible, given free in view of the vital need of informing the people about it.

(*b*) *Poster Publicity.*—Eight posters and eight charts giving an idea of achievements in First Five-Year Plan and proposed activities during the Second Five-Year Plan subject-wise will be issued. Six charts and posters giving an overall picture of the Second Five-Year Plan will be necessary.

(*c*) *Pictorial Publicity.*—Slides, broadsheet and photo series about the achievements of the First Five-Year Plan and the progress of the Second Five-Year Plan projects will be undertaken.

Staff.—To cope with the above and the other schemes of publicity, it will be necessary to create some additional temporary posts in the Directorate for a period of two years (1956-57 and 1957-58). A post of a Public Relations Officer and of three assistants to him have already been sanctioned but the magnitude of the work is so much that they will hardly be able to do even 25 per cent. of it. Besides, they have other duties to perform. It is proposed to create new posts as follows :—

Gazetted —

(1) Production Officer (Rs. 500—30—800).

(1) Assistant Director of Publicity—Hindi (Rs. 280—550).

Non-Gazetted—

(5) Senior Sub-Editors-one each for English, Marathi, Gujarati, Kannada and Hindi (Rs. 250—15—400).

5 Language Assistants—One each for English, Marathi, Gujarati, Kannada and Hindi (Rs. 120—10—250).

2 Proof Readers (English) (Rs. 120—10—250).

1 Stenographer (Rs. 140—8—220—10—270).

4 Language Typists—One each for Marathi, Gujarati, Kannada and Hindi (Rs. 75—220).

1 Superintendent (Rs. 200—15—380).

3 Senior Clerks (inclusive of the clerk in charge of blocks, etc. (Rs. 120—10—250).

4 Junior clerks (Rs. 75—220).

1 Head Packer (Rs. 50—3—80).

8 Packers (Rs. 35—½—40).

While the functions of most of the staff proposed above are self-explanatory from the designation the Production Officer will be mainly in charge of producing the basic editions in English of the publications specified in (*a*) above and other material connected with the First and Second Five-Year Plans.

With the increase in the output in the publicity releases and other publications, there will be a corresponding increase in the service postage, packing and other charges connected with the despatch of the material.

The year-wise break-up and other details are as follows :—

	Rs.
1956-57	1,15,000
1957-58	2,67,500
1958-59	1,79,000
1959-60	48,000
1960-61	48,000
Total ..	6,57,500

The scheme is for five years and the phase for the first year will be as above.

Detailed classificaton of the expenditure involved is as follows :—

		Rs.
Pay of Officers—		
1 Production Officer (Rs. 500—30—800).		
1 Assistant Director of Publicity (Hindi) (280—15—400—20—500—25—550)	...	8,580
Pay of Establishmnt—	...	40,920
Allowances, Honoraria, etc.—		
Dearness Allowance	...	16,050
Contingencies		
Miscellaneous Publicity by means of pamphlets	...	10,450
Service Postage		39,000
Total	...	1,15,000

25, GENERAL ADMINISTRATION—contd.

MINISTER IN CHARGE—SHRI MORARJI R. DESAI.

ITEM 50. Information Centres (District Places).

Recurrent	Rs.	13,600	Non-recurrent	Rs.	3,300
Total	,,	16,900	Ultimate annual recurrent ..	,,	*Nil.*

Remarks.—The conference of Directors of Information and Ministers of Information held at New Delhi in January 1955 recommended the establishment of Information centres for disseminating information and cognate matters to public at the State and district headquarters. Accordingly during the current year (1955-56) a centre is being established in Bombay City. It is proposed to establish 27 information centres in each district in the State —6 centres during the year 1956-57 and the remaining 21 in subsequent years. The phasing of expenditure on the proposed centres including the centre in the Bombay City is as under :—

	1956-57	1957-58	1958-59	1959-60	1960-61
Recurring	31,600	90,229	1,17,227	1,20,227	1,24,487
Non-recurring	18,400	11,450	4,610	4,610	4,610
	50,000	1,01,679	1,21,837	1,24,837	1,29,097

Total for the plan period is Rs. 5,27,450.

The proposal for District Information Centres at six places in 1956-57 involves an expenditure of Rs. 16,900 (Rs. 13,600 recurring and Rs. 3,300 non-recurring) the recurring expenditure of Rs. 13,600 being as follows :—

	Rs.
Pay of Establishment—	
6 Posts of General Assistants in the scale of Rs. 55—3—85	3,630
Allowances, Honoraria etc.	
Dearness allowance to 6 General Assistants	2,970
	6,600
Recurring—	
Photographs, charts, maps, etc. at 6 Information Centres	7,000
Recurring expenditure	13,600

ITEM 51. Programme of Exhibitions.

Recurrent ..	Rs.	5,000	Non-recurrent	Rs.	27,000
Total	,,	32,000	Ultimate annual recurrent ..	,,	*Nil.*

Remarks.—It is proposed to build up a full-fledged exhibition unit under this programme. The unit will be in charge of an Exhibition Officer and will have four copies of each model, chart and other equipment to be prepared for the unit. This equipment will be used for the purpose of all-India exhibitions as well as in bigger exhibitions in the State.

Under this scheme, it is also proposed to equip the mobile publicity vans of the State in the various districts with a small exhibition unit consisting of selected models, charts, etc.

The cost of the scheme is estimated to be Rs. 1,50,000 phased as under :—

	1956-57	1957-58	1958-59	1959-60	1960-61
	Central Units.				
Non-recurring (models and equipment)	20,000	30,000	12,500	*Nil.*	*Nil.*
Recurring (Additions and Replacement).	3,000	5,000	5,000	11,000	5,000
	Van Units.				
Non-recurring (models and Equipment).	7,000	18,000	12,500	*Nil.*	*Nil.*
Recurring (Additions and Replacement).	2,000	3,000	5,000	7,000	4,000

Grand Total—Rs. 1,50,000 (Rs. 1,00,000 non-recurring and Rs. 50,000 recurring).

The scheme is of five years and the phase for the first year will be as above.

Detailed classification of the expenditure involved is as follows :—

Contingencies—

Purchase of Models, Equipments, etc. 32,000

25, GENERAL ADMINISTRATION—contd.

MINISTER IN CHARGE—SHRI MORARJI R. DESAI.

ITEM 52. Publicity through Recreational Activities.

Recurrent	Rs.	21,000	Non-recurrent	Rs.	*Nil.*
Total	,,	21,000	Ultimate annual recurrent ..	,,	,,

Remarks.—(*a*) At present grants are given to dramatic institutions in various districts. However, there are no suitable dramas, songs and other material prepared on Government activities as well as of basic value. It is, therefore, proposed to get such dramas and other material written and distributed either free of cost or at a nominal cost to the various dramatic institutions in the State, various schools and colleges and to dramatic clubs.

(*b*) It is proposed to utilise the folk arts like Kirtankars, tamashas, the Ras and other popular agencies for the propagation of basic values and Government activities.

(*c*) It is also proposed to have a scheme for revival of cultural activities in selected community project areas. A suitable institution will be entrusted with this work of research into the folk songs and other cultural activities prevailing in the areas. After the research, the institution or the party will train local talents and revive the old folk arts which are otherwise on the verge of extinction. The staff required for the scheme will be as follows :—

One Recreation Officer in the scale of Rs. 450—20—650.

One Accountant (Rs. 170—10—270).

One Peon (Rs. 35—½—40).

This provision is exclusive of the provision made for similar activities under Community Development Projects.

The scheme is of five years estimated at Rs. 1,50,000 and the phase for the first year will be as above.

Detailed classification of the expenditure involved is a follows :—

	Rs.
Pay of officers—	
Recreation officer	4,950
Pay of Establishment	2,255
Allowances, Honoraria, etc.—	
Dearness Allowance	1,750
Contingencies	12,045
	21,000

ITEM 53. Film Publicity.

Recurrent	Rs.	20,000	Non-recurrent	Rs.	*Nil.*
Total	,,	20,000	Ultimate annual recurrent ..	,,	,,

Remarks.—The Directorate makes every year 12 news-reels and about 8 documentaries. The normal programme of the Directorate will be continued. In addition to that, it is intended to produce half a dozen more documentaries and a screen version of the programme for each district on the pattern of the District Plan booklets. It is proposed to produce some six new films during plan period dealing exclusively with the development programme at a total cost of Rs. 1,25,000.

The Scheme is of five years and the phase for the first year will be as above.

Classification of the expenditure involved is as follows :—

	Rs.
Contingencies	20,000

ITEM 54. Establishment of a workshop for repairs to projectors, generators, etc.

Recurrent	Rs.	13,000	Non-recurrent	Rs.	17,000
Total	,,	30,000	Ultimate annual recurrent ..	,,	*Nil.*

Remarks.—There are already 30 mobile publicity vans each equiped with a power generator, a film projector, gramophone, loud speaker and other ancillary equipment. A considerable amount is spent annually on repairs and upkeep of the projectors, generators and other cine equipment. At present we are spending about Rs. 25,000 every year on the repairs of this machinery and yet the results are very unsatisfactory. There is also a lot of delay in the execution of repair work. It is, therefore, proposed to set up a small workshop for this purpose. The initial capital cost for equipment is expected to be Rs. 17,000 which amount requires to be provided. The recurring cost year to year will be met from the normal grants of the Directorate as a result of the savings on the repair charges. The workshop will also provide facilities for repairs to the equipments of the Government of India vans in Bombay State.

It is expected that an average of about 5 projectors would come to the workshop every month for complete overhaul and another 5 to 6 projectors may come for minor repairs every month. The expenditure on equipment, staff and other items for the proposed workshop on this basis would be :

		Rs.	Rs.
Capital expenditure—			
(*i*) Workshop—equipment such as Audio Oscillator, Multimeters, Channalists, valve Tester, Condenser Tester, Megger, etc.			17,000
(*ii*) *Recurring expenditure—*			
Pay of Establishment—			
(1) Assistant Engineer (355—15—400—E.B.—20—500)	...	3,850	
(2) Technical Assistants (220—15—340)	...	2,420	
(3) Store-keeper (120—10—200—E.B.—10—250)	...	1,320	
(4) Mechanic (60—4—120)	...	660	
(5) Operator (95 fixed)	...	1,045	
(6) Peon (35—½—40)	...	385	
			9,680
Allowances, Honoraria, etc.—			
Dearness allowance to the above staff	...	...	3,320
			13,000
(*iii*) Contingencies as at 1 above			17,000
		Total ...	30,000

ITEM 55. Publicity through mobile publicity vans.

Recurrent	Rs.	24,000	Non-recurrent	Rs.	60,000
Total	,,	84,000	Ultimate annual recurrent ...	,,	*Nil.*

Remarks.—Mobile Publicity Vans are perhaps the most potent means whereby the Directorate can have direct contact with the people. There is at present one such van in each district. Taking the average number of villages accessible to the van at 500 in each district and the number of villages covered in a month as 20, it is hardly able to complete the full circuit even every two years. For the effective working of the scheme, the van should be able to visit each village within its range at least once or twice a month. Including the existing vans, three vans for each district should be a reasonable number. Some of the bigger districts like Surat and Thana have already pressed for an additional van. It is, therefore, proposed to add six new vans during the plan period for work in bigger districts of the State. The cost per van including the equipment (Generator, Projector, etc.) would be Rs. 30,000 and for 2 vans Rs. 60,000.

Addition of two vans implies addition of the crew necessary for manning it. This crew consists of a District Publicity Officer, a film-projector operator, a driver and a cleaner. The expansion also entails provision of supervisory and clerical staff at the headquarters of the Directorate in Bombay. Provision has, therefore, been made for two District Publicity Officers in the scale of Rs. 150—10—200 and corresponding number of film-projector operators, drivers and cleaners. The pay and allowances of the District Publicity Officers as well as the remaining crew of the vans are of the mofussil scale.

With the expansion of district units, in the direction of vans as also of introduction of additional schemes such as Information Centres, Exhibition programme, organisation of tours of journalists and appointment of mofussil correspondents, working in the Directorate's headquarters in Bombay will also expand in several directions such as stores purchase, accounts and correspondence, supervision, etc. Provision has, therefore, been made in the estimates for the entertainment of the following additional staff:—

1 Rural Publicity Organiser (Rs. 450—20—650).
1 Superintendent Rs. 200—15—380.
1 Senior Clerk Rs. 120—10—220—E.B.—10—250.
1 Store-keeper Rs. 120—10—200—E.B.—10—250.
1 Peon Rs. 35—½—40.
2 District Publicity Officers (Rs. 150—10—200).
2 Operators (Rs. 95 fixed).
2 Drivers (Rs. 50—2—60—3—75).
2 Cleaners (Rs. 30—½—35).

The recurring expenditure of Rs. 24,000 is as follows :—

	Rs.
Pay of Officers	4,950
Pay of Establishment	12,375
Allowances, Honoraria, etc.—	
Dearness allowance	6,675
Total ...	24,000

25, GENERAL ADMINISTRATION—concld.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

ITEM 56. Additional establishment for the Office of the Settlement Commissioner and Director of Land Records' Office.

Recurrent	Rs.	54,000	Non-recurrent	Rs.	*Nil.*
Total	„	54,000	Ultimate annual recurrent ..	„	*Nil.*

Remarks.—Government has decided to speed up schemes like introduction of survey classification in the merged State areas, Pot-Hissa Survey Measurement and original and revision settlement work in the whole of the Bombay State, which are taken up by the Land Records Department. In view of this, it is necessary to supplement the present staff in the Settlement Commissioner and Director of Land Records' Office for proper and effective supervision over the day to day administration of the various schemes. It is, therefore, proposed to create the following staff in the office of the Settlement Commissioner and Director of Land Records at a cost of Rs. 54,000 during the year 1956–57.

Posts	Pay of Scale Rs.
1 Deputy Settlement Commissioner and Director of Land Records.	800—50—1,000.
1 Head Clerk	100—8—140—10—170.
1 Senior Clerk	100—8—140.
2 Junior Clerks	46—3—85.
3 Peons	30—½—35.
1 Additional Personal Assistant	350—30—500—E.B.—30—650 (*plus* Special Pay Rs. 100).
1 Additional Office Superintendent	250—15—325—(*plus* Special Pay Rs. 30).
1 Assistant Office Superintendent	160—10—230.
2 Senior Clerks	100—8—140.
2 Record Keepers and Typists	46—3—85.
3 Peons	30—½—35.

The details of the cost are as under :—

	Rs.
Pay of Officers	21,360
Pay of Establishment	11,880
Allowances and Honoraria	16,000
Contingencies	4,760
Total ..	54,000

Grant Total—25, General Administration ..	Recurrent ..	4,19,250
	Non-recurrent ..	1,83,800
	Total ..	6,03,050

30, PORTS AND PILOTAGE.

MINISTER IN CHARGE—SHRI M. M. NAIK-NIMBALKAR.

ITEM 57. New works in respect of development of Minor Ports to be taken up during 1956-57.

Recurrent	.. Rs. *Nil.*	Non-recurrent	.. Rs. 4,10,000
Total	.. „ 4,10,000	Ultimate annual recurrent	.. „ *Nil.*

Remarks.—Government has drawn up a programme for the development of Minor Ports. These works consist of surveying, dredging, aids to navigation and landing facilities. Before finalising any major scheme for the development of any port, it is necessary that these ports should be surveyed hydrographically. There is also an urgent need for providing landing facilities at various minor ports which are at present either without any facilities or have inadequate landing facilities. It is also necessary to provide aids to navigation, to avoid accidents. In view of this it is proposed to take up the below mentioned works during the next year. These works have been included in the Second Five Year Plan and an amount of Rs. 47 lakhs has been provided for this purpose in the Second Five Year Plan.

Name of the work.	Estimated cost.	Provision proposed for 1956–57.
1	2	3
		Rs.
1. Survey and Preliminary Investigation	Plans and Estimates under preparation.	50,000
2. *Aids to Navigation*—		
(1) Marrich Rock light at Karwar	Do.	15,000
(2) One lighted buoy and two unlighted buoys in Rajivda Creek at Ratnagiri.	Do.	30,000
(3) Guiding light at Dholera Port	Do.	15,000
(4) Improvements of shore lights at Malvan	Do.	25,000
(5) Light buoy to work sand banks at Jaygad	Do.	25,000
(6) Spare stores of lights, buoys, chains, sinkers, etc.	Do.	20,000
3. *Constructing landing facilities including jetties, wharves sheds, road etc.*—		
(1) Improvement of landing facilities at Ratnagiri	Do.	20,000
(2) Improvement of landing facilities at Cambay	Do.	20,000
(3) Transit shed at Karwar	Do.	20,000
(4) Transit shed at Tadri	Do.	20,000
(5) Passenger shed at Elephanta	Do.	25,000
(6) Improvement of landing facilities at Vengurla	Do.	25,000
(7) Sloping jetties at Revdanda at both ends of creek.	Do.	25,000
(8) Improving cargo jetty at Honavar	Do.	25,000
(9) Jetty at Shriwardhan	Do.	50,000
	Total	4,10,000

A provision of Rs. 4,10,000 is therefore required during 1956-57 for these works.

30, PORTS AND PILOTAGE—contd.

MINISTER IN CHARGE—SHRI M. M. NAIK-NIMBALKAR.

ITEM 58. Provision for carrying out model experiments for the development of Ratnagiri Port.

Recurrent ...	... Rs.	*Nil.*	Non-recurrent ...	... Rs.	40,000
Total ...	... ,,	40,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—Ratnagiri is an important Port for passenger traffic. It is also an export centre for mangoes. The present passenger jetty constructed in 1933 is used by lighters for embarking and disembarking passengers. The steamers lie at anchorage at a distance of about 3,000 feet from the end of the jetty and the passengers have to reach the jetty by means of padav. The bay is exposed to the South-West Mansoon and hence steamers do not call at this port during the monsoon. The embarking and disembarking from ships to padavs has become risky, especially at the time of low tides. It is, therefore, proposed to construct an all weather Breakwater-*cum*-Jetty with proper approach road for berthing of cargo and passenger ships in Mirya Bay. To start with, it is necessary to carry out model experiments for study of best line of break water and size of stones to be used, etc., in design for obtaining sheltered water for berthing of ships in all weather. This experiment is estimated to cost Rs. 55,617. A provision of Rs. 40,000 is, therefore, required during the year 1956-57.

			Rs.
Grand Total—30, Ports and Pilotage ...	Recurrent	...	.....
	Non-recurrent	...	4,50,000
	Total	...	4,50,000

33-A, DANGS DISTRICT.

MINISTER-IN-CHARGE—SHRI M. P. PATIL.

ITEM 59. Continuance of the temporary staff in the office of the Housing Board, Dangs District.

Recurring ...	... Rs.	19,657	Non-recurring ...	... Rs.	*Nil.*
Total ...	... Rs.	19,657	Ultimate annual Recurrent ...		

Remarks.—Government had sanctioned a scheme for construction of houses for Dangis on Co-operative basis. It has since been decided to hold the Dangis eligible for assistance available to the Backward Classes under the Backward Class Housing Scheme (Post War Reconstruction Scheme No. 219) which is included in the Second Five Year Plan. Under the scheme financial and other assistance is provided for housing societies of Backward Classes and also Government lands are given to such societies for building sites free of cost and in cases where suitable Government lands are not available, private lands are acquired at Government cost and given to such societies. Financial assistance by way of loan is granted under the scheme to the extent of 75 per cent. of the estimated cost of the houses which is taken to be anywhere between Rs. 3,000 to Rs. 4,000 in industrial areas like Bombay, Ahmedabad, Poona, Sholapur and Hubli and in other areas the cost is fixed at Rs. 800 to Rs. 1,500. The loan is free of interest and is made repayable in 25 annual instalments. If a member of such societies is engaged in agricultural pursuits, an additional loan not exceeding 60 per cent. of the cost of shed and barn but not exceeding Rs. 100 is also made available to such a member for construction of shed and barn. Subsidies are also granted to such societies to meet cost of management etc. at the rate of Rs. 10 per tenement for the first two years and later on at the rate of Rs. 5 per tenement till the entire Government loan is repaid. The loans and subsidies will be granted from the provision which is proposed to be made for housing Backward Classes under "P-Loans and Advances" and "42-Co-operation" respectively. As the Dangis are very backward, it is proposed to continue the staff under the Housing Board, Dangs District, as follows in order to have machinery that would explain to the Dangis the benefit of the housing scheme and induce them to form Co-operative societies and supervise construction work.

	Rs.
Pay of Establishment—	
I–Accountant 1 (Rs. 100—8—140)	1,268

Subsidy for meeting the pay of one Overseer	3,200
	6,800
Total ...	19,657

33-A, DANGS DISTRICT.

MINISTER-IN-CHARGE—SHRI M. P. PATIL.

ITEM 60. Extension of Agricultural Credit.

Recurrent	.. Rs. 30,320	.. Non-recurrent	.. Rs. 59,200
Total	.. Rs. 89,520	.. Ultimate annual recurrent	..

Remarks.—It is a well known fact that the Dangs District is an extremely backward tract and the Dangis who are illiterate and possess scanty means of livelihood and have to live at the mercy of local merchants etc. With a view therefore to eliminating the middlemen and provide appropriate means of better business, it is considered absolutely essential to organise 18 Co-operative Multi-purpose Societies and 2 Marketing Societies which can under take various activities to cater to the needs of Dangis promptly throughout the District. As this scheme is to be implemented as early as possible, it is put up as a new item for 1956-57.

The following provision is necessasy to implement the Scheme :—	Rs.
Contribution to the Share Capital of 18 Multi-purpose Societies	10,800
Contribution to the Share Capital of 2 Marketing Societies	6,000
Total ..	16,800
Loan to 18 Multi-purpose Societies for construction of godowns	27,000
Loan to Multi-purpose Societies for purchase of implements at Rs. 300 per Society.	5,400
Loan to 2 Marketing Societies for construction of godowns	10,000
	42,400
Subsidy to 18 Multi-purpose Societies towards Secretariat cost	21,600
Subsidy to two marketing Societies towards Managerial cost (Pay Rs. 150+ Dearness Allowance Rs. 60). ...	5,000
Appointment of two Supervisors (consolidated pay of Rs. 110 per mensem)	2,640
Appointment of two Attendants (Pay Rs. 45 per mensem)	1,080
	30,320

MINISTER IN CHARGE—SHRI B. S. HIRAY.

ITEM 61. Establishment of wet nurseries in Dangs District.

Recurrent	... Rs. 9,816	Non-recurrent	... Rs. *Nil.*
Total	... „ 9,816	Ultimate annual recurrent ...	

Remarks.—The scheme contemplates the establishment and maintenance of a central permanent wet nurseries in each Range for raising forest species and fruit seedlings with the object of creating a net work of nurseries for providing robust seedlings for transplanting and stump planting in coupes exploited, areas to be afforested under the Second Five-Year Plan and also for Vanamahotsavas.

Out of the total nurseries to be established in this State, it is proposed to establish four nurseries in the Dangs during 1956-57 at the total cost of Rs. 9,816, the details of which are given below :—

Recurrent—Contingencies.—The average estimated cost of each nursery of 2 acres will be as under :—

Serial No.	Particulars of work.	Quantity.	Rate.	Amount.
			Rs. a. p.	Rs. a. p.
1	Clearing ground of the proposed nursery	2 acres.	.....	20 0 0
2	Ploughing the land twice about 9" to 12" deep and breaking clumps.	2 acres.	.....	24 0 0
3	Preparing beds 40'×4'×1'	160 beds.	3 0 0 per bed.	480 0 0
4	Purchase of zinc water cans complete with nozal ...	4 Nos.	6 8 0	26 0 0
5	Purchase of small Khurpies for weeding and working of the soil.	8 Nos.	0 12 0	6 0 0
6	Purchase of empty Kerosene tins with wooden handle fixed	8 Nos.	0 12 0	6 0 0
7	Purchase of seeds	.....	.....	120 0 0
8	Cost of bulbils or root suckers of Agave	20,000	10 0 0 per 1,000	200 0 0
9	Wages of Malies for sowing, watering, etc.	2 Malies	1 8 0 per day	1,002 0 0
10	Wages of 2 labourers for carrying water from nearby wells to the nursery site from November to March-end.	151 days.	1 8 0 per day	453 0 0
				2,337 0 0
		Add contingencies at 5 per cent. ...		117 0 0
				2,454 0 0

So the total cost of four nurseries will be 4 × 2,454 = 9,816.

33-A, DANGS DISTRICT—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

ITEM 62. Planting of Agave hedges.

Recurrent ...	... Rs.	*Nil.*	Non-recurrent ...	... Rs.	3,750
Total ...	... „	3,750	Ultimate annual recurrent ...		

Remarks.—Agave hedges can produce coarse fibre useful for cordage and other purpose. The yield of fibre should be sufficient to provide a fair return for the investment involved. Besides, Agave also makes an efficient fire belt. Burning wide firelines involves considerable waste of forest land. The burning is also not effective as, during the fair season, large quantities of teak leaves cover the burnt ground. These require to be repeatedly reburnt at heavy cost to keep the firelines clear. Burning of firelines may cost Rs. 16 to 30 per mile, while the initial cost of planting Agave in two strips, one on the either side of the firelines, would be only Rs. 150 per mile. Thus Agave firelines are much cheaper in the long run. Planting of hedges is also necessary to define clear forest boundaries, preventing encroachments. Every year it is proposed to take up 25 miles for planting Agave suckers and the estimated cost of expenditure during 1956-57 would Rs. 3,750 as detailed below :—

	Rs.
(1) Cost of bulbills or suckers at Rs. 5 per 1,000 for 5,000 required for 1 mile ...	25.
(2) Transport charges of 5,000 bulbills or suckers to site of planting ...	50
(3) Planting charges of 5,000 bulbills along the firelines, boundaries, etc. ...	70
(4) Cost of gunny bags and other incidental charges	5
	150

Therefore for 25 miles for planting Agave suckers, would be Rs. 25 × 150 = Rs. 3,750

ITEM 63. Restarting of Waghai Saw Mill in Dangs Division.

Recurrent ...	Rs.	38,104	Non-recurrent ...	Rs.	59,238
Total ...	„	97,342	Ultimate annual recurrent ...		

Remarks.—It is proposed to restart the Saw Mill at Waghai in the Dangs District with a view to sawing—

(1) defective timber which does not sell profitably and market it in the most advantageous manner possible after converting it into suitable sawn sizes,

(2) *Haldu* and *Kalam* blanks and at a later stage Bheda,

(3) Sleepers, if possible.

The mill is expected to yield an annual profit of Rs. 60,000 and further to help promote the industrialisation of the backward tract of the Dangs District to a certain extent.

The scheme envisages the scraping of the present defunct saw mill and in its place the installation of a new unit consisting of—

(1) One band saw mill,

(2) One log mill,

(3) Two sharpening machines,

(4) One cross-cut Bench.

For motive power, the Robey Engine available at Dendeli is proposed to be brought to Waghai.

A provision of Rs. 97,342 as shown below is required during 1956-57 :—

Non-recurrent—

	Rs.
(1) The cost of machinery and its erection	50,344
(2) The cost of storage shed	5,234
(3) The cost of timber for storage shed	3,660
Total non-recurrent ...	59,238

33-A, DANGS DISTRICT—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

Recurrent—

I. *Pay of Establishment*—

		Rs.
1.	One Assistant Foreman in the scale of Rs. 80—5—100—8—140 ...	880
2.	Two Foresters in the scale of Rs. 46—3—85	1,012
3.	One Driver in the scale of Rs. 46—3—85	506
4.	One Band Mill Operator in the scale of Rs. 65—5—85	725
5.	One fitter in the scale of Rs. 46—3—70	506
6.	One Grinder in the scale of Rs. 50—3—85	550
7.	One Assistant Bencher in the scale of Rs. 70—2—80	770
8.	One Junior Accountant (Rs. 100—8—140 grade) in Divisional Forest Officer's office to maintain the accounts pertaining to the mill and sawn timber.	1,100
9.	One clerk in the saw mill to maintain the records and accounts, etc., in the scale of Rs. 46—3—85—E.B.—4—125—5—130.	605
10.	One Guard to assist the Forester (Rs. 30—1/2—35)	330

Grand Total ...	97,342

ITEM 64. Scheme for raising teak plantations.

Recurrent	Rs. *Nil.*	Non-recurrent	Rs. 45,000
Total	„ 45,000	Ultimate annual recurrent ...	

Remarks.—The plantation work in the Dangs has suffered much in the past and if no efforts are made to raise large scale plantations, the supply of timber and other forest produce on a sustained basis is likely to be adversely affected in future. It is, therefore, proposed during the 2nd Five-Year Plan to raise special teak plantations in about 2,000 acres. This work will be in addition to the normal planting work done by the Forest Department.

It is proposed to plant about 300 acres in the Dangs Forests during 1956–57 at an estimated cost of Rs. 45,000. The cost of clearing and planting is Rs. 150 per acre, as shown below :—

	Rs.	Rs.
(1) Clear felling and preparing rabes		105
(2) Plantation cost as under—		
(*a*) Burning and reburning	10	
(*b*) Aligning and stacking	5	
(*c*) Removing and preparing stumps and planting	10	
(*d*) 1st weeding	4	
(*e*) 2nd weeding	3	
(*f*) 3rd weeding	3	
		35
(3) Cost of seed collection and rasing stumps etc.		8
(4) Transport of seeds plants and other incidental charges		2
Total ...		150

33-A, DANGS DISTRICT—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

ITEM 65. Land improvement, anti-erosion and water conservation work.

Recurrent	Rs.	3,350	Non-recurrent ...	Rs.	63,200
Total	,,	66,550	Ultimate annual recurrent ...		

Remarks.—It is proposed to carry out certain trenching and gully plugging works in the upper catchment areas of forty villages in the Dangs District which are to be taken up for bunding by the Agricultural Department. In order that the bunding works in the lower catchment area may succeed, land improvement work must start in the upper catchment area first. This scheme is an essential precursor to the Agricultural Department's scheme of bunding. These meaures among other benefits will improve the sub-soil moisture position which in return will partially help to solve the water problem of the Dangs District. The cost required during 1956–57 comes to Rs. 66,550 as shown below :—

	Rs.
I. *Recurrent*—	
(1) Pay and allowances—	
Two Foresters in the grade of Rs. 46—3—85	92
Bad climate allowance	40
Additional bad climate allowance	40
Dearness allowance	90
Permanent travelling allowance	35
Total for month ...	297
Total for 11 months ...	3,267
(2) Repairs to gully plugs, check damings, desilting of trenches where necessary.	83
Total, Recurrent ...	3,350
II. *Non-recurrent*—	
(1) Contour trenching and gully plugging work to be carried out in 1580 acres 34 gunthas at Rs. 40 per acre as per details shown below. (On an average 36 trenches 12′ long 12′ apart space at 50′ horizontally, will be excavated. Excavation per trench will be 36 cft. Therefore, per acre about 1,300 cft. The cost of this will be Rs. 26 at Rs. 2 per 100 cft. In addition, gully plugging and check-dam work will be done at a cost of Rs. 14 per acre. Thus both these works will cost Rs. 40 per acre.)	63,200
	63,200

ITEM 66. Opening of Soil Conservation Demonstration Centre in Dangs District.

Recurrent	Rs.	*Nil.*	Non-recurrent	Rs.	2,516
Total	,,	2,516	Ultimate annual recurrent ..		

Remarks.—As a result of cultivation being done on slopes unfit for cultivation, coupled with moderately heavy rainfall and excessive grazing and lopping of trees for ash manure there has been gradual sheet and gully erosion which has impoverished the soil, exposing the underlying trap rocks at certain places. With a view to demonstrating to the villagers the bad effects of indiscriminate cultivation on the slopes and the utility of soil conservation measures in reclaiming such denuded areas it is contemplated to start a demonstration centre in Block VIII, Compt. 15 of the Protected Forests. The provision required during 1956–57 is Rs. 2,516. It is proposed to approach the Government of India to finance the scheme entirely.

ITEM 67. Installation of Walkie-Talkie Wireless Sets in Dangs.

Recurrent	Rs.	32,860	Non-recurrent	Rs.	57,000
Total	,,	89,860	Ultimate annual recurrent ..		

Remarks.—Forest protection is most essential in the Dangs Forests which are extremely valuable and are the best forests of the State. These forests require constant watch to be kept for locating fires. Information regarding the occurrence of fires, etc. is required to be relayed instantly for getting additional timely help and warning all the neighbouring areas about the occurrence of fires. Great need is always felt for timely action to prevent fires developing into conflagration, thus preventing heavy losses which at times involve human lives as well. It is, therefore, proposed to install 3 static and one mobile set on the boundary of Dangs to relay instantly all information about the occurrence of forest fires either within or outside the boundary of Dangs. This is also expected to be useful in increasing the efficiency of the Departmental working.

33-A, DANGS DISTRICT—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

2. A provision of Rs. 89,860 is required during 1956–57 for this scheme, as detailed below :—

	Rs.
Non-recurrent—	
Cost of 3 wireless sets	36,000
Cost of one mobile wireless set	8,000
Cost of a jeep car	13,000
Total ..	57,000
Recurrent—	
I. *Pay of establishment*—	
(1) 10 Wireless operators in the scale of Rs. 61—3—82	6,710
(2) 3 Head operators in the scale of Rs. 80—5—120—E.B.—5—150 ..	2,640
(3) 3 Electricians in the scale of Rs. 55—3—85	1,815
(4) 1 Motor Driver in the scale of Rs. 35—½—40	385
	11,550
II. Allowances and Honoraria	13,060
III. Contingencies—	Rs.
Maintenance charges of 3 Wireless sets	6,875
Maintenance charges of 1 Wireless set	1,375
	8,250
Total, Recurrent ..	32,860
Grand Total ..	89,860

ITEM 68. Construction of quarters for Forest subordinates in Dangs.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	49,000
Total	... ,,	49,000	Ultimate annual recurrent ...		

Remarks.—There is no suitable accommodation for the subordinate staff of the Forest Department in the Dangs. Accommodation is not available within reasonable rent in the private buildings. It is therefore, proposed to construct quarters for 6 clerks, 1 Forester and 2 Surveyors at Ahwa, at an estimated cost of Rs. 49,000 during 1956–57. The work is included in the Second Five Year Plan under the Scheme 'Forest Buildings and Wells' for which a total provision of Rs. 14 lakhs exists in the Plan period.

ITEM 69. Construction of office building at Ahwa for the Divisional Forest Officer, Dangs.

Recurrent	... Rs.	*Nil.*	Non-recurrent	Rs.	75,588
Total	... ,,	75,588	Ultimate annual recurrent ...		

Remarks.—The present Forest Divisional office building is situated in a wooden rest house, where record room and other facilities do not exist. There is also constant danger of fire to the buildings, as it is situated close to the forest and cut off from the village. The accommodation is also inadequate. As the office of the Divisional Forest Officer, Dangs, is to remain permanently at Ahwa a pukka building is quite essential for the office.

Plans and estimates have already been administratively approved by Government and technically sanctioned by the Chief Engineer, Public Works Department.

The cost of construction of the building is estimated at Rs. 75,588. This amount is required during 1956–57. The work is included in the 2nd Five Year Plan under the Scheme 'Forest Buildings and Wells' for which a budget total provision of Rs. 14 lakhs exists during the Plan period.

33-A, DANGS DISTRICT—concld.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

ITEM 70. Scheme for bunding paddy fields in Dangs District.

Recurrent ..	.. Rs.	28,350	Non-recurrent ..	.. Rs.	*Nil.*
Total ..	.. „	28,350	Ultimate annual recurrent		

Remarks.—The whole of the Dangs District is a hilly tract with a very undulating topography. The average rainfall in this District varies from 80″ to 100″ during the period from July to September every year as a result of which there is excessive erosion of the valuable top level soil. With a view to maintaining fertility of soil by preservation of soil and conservation of moisture, a scheme for bunding in paddy fields in Dangs District was introduced in 1952. Under the scheme a subsidy equal to Rs. 20 per acre or one-third of the cost of bunding whichever is less, is granted in cash or in the form of remission of tagai loan if sanctioned for the purposes, to the cultivators, for bunding of paddy fields. A special staff consisting of two Agricultural Officers (Rs. 80—5—100—8—140—E.B.—10—200) and two Agricultural Assistants (Rs. 55—3—85—E.B.—4—125—5—140) is sanctioned for giving technical advice to the cultivators for carrying out the works satisfactorily. The scheme at present stands sanctioned for a period of 3 years from 1st April 1955 together with the staff mentioned above. In addition the Director of Agriculture is also authorised to appoint two Khalasis (Rs. 30—½—35) and to pay them from "Contingencies" whenever necessary during the working seasons. A provision of Rs. 28,350 is therefore necessary for the scheme during 1956-57, as detailed below :—

	Amount.
	Rs.
(*i*) Pay of Officers	....
(*ii*) Pay of establishment	6,487
(*iii*) Allowances and Honoraria	5,063
(1) Permanent travelling allowance (Rs. 2,247)	
(2) Dearness allowance (Rs. 2,400)	
(3) Travelling allowance (Rs. 300)	
(4) House rent allowance and other allowances (Rs. 116)	
(*iv*) Contingencies	16,800
(*a*) Office expenses and miscellaneous (Rs. 200)	
(*b*) Grant-in-aid, i.e., Subsidy (Rs. 15,000)	
(*c*) Labour, etc. (Rs. 1,080)	
(*d*) Purchase of appliances (Rs. 520)	
Grand Total ..	28,350

In the draft Second Five-Year Plan, a provision of Rs. 304 lakhs has been made for the soil Conservation works of which this scheme forms a part. According to phasing an amount of the order of Rs. 6,380 lakhs has been earmarked for the 1st year of the Plan, i.e., 1956-57.

ITEM 71. Afforestation of blank areas in Dangs.

Recurrent ...	... Rs.	*Nil.*	Non-recurrent ...	... Rs.	1,750
Total ...	... „	1,750	Ultimate annual recurrent ...		

Remarks.—There are certain areas in Dangs Division in Reserve Forests which have little tree growth. It is, therefore, essential to afforest such blank areas. For this purpose a scheme spread over a period of three years has been drawn up. It is proposed to work 50 acres under the scheme during 1956-57. The estimated expenditure of Rs. 1,750 is considered necessary for this work at Rs. 35 per acre. The scheme is included in the Second Five Year Plan under the scheme for afforestation of arid and blank areas for which a total allocation of Rs. 53,52,000 has been made for five years of the Plan. It is proposed to approach the Government of India for sharing 50 per cent. of the expenditure on the scheme.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 72. Creation of Department of Archaeology.

Recurring	Rs.	14,000	Non-recurring	Rs.	*Nil.*
Total	,,	14,000	Ultimate annual recurring ...	,,	.....

Remarks.—The Central Adivisory Board of Archaeology had recommended that the State Government should appoint a properly qualified staff for taking care of ancient monuments and sites left in its charge and also for further exploration of the antiquities within the boundaries of each State. The subject Archaeology has been partially decentralised under the Constitution of India and in view of entry 12 under List II—State List in the Seventh Schedule thereof, the responsibility of protecting ancient and historical monuments, other than those declared by Parliament by law to be of national importance lying within the boundaries of a State, vests in the State Government. There are a number of such monuments in this State and it is, therefore, necessary to set up a machinery for the proper maintenance of the monuments lying within the State. At present there exists only some skeleton staff to look after these monuments and historical places. In the circumstances it is necessary to sanction additional staff and to create full-fledged Department of Archaeology for the purpose. Accordingly it is proposed to create a full-fledged Department of Archaeology and to sanction the following staff for the Department :—

	Rs.
Pay of Establishment.—	
1. Research Assistant in the grade of Rs. 120—10—210—E.B.—15—300 ...	1,440
2. Clerk in the grade of Rs. 75—5—140—8—220	900
3. Class IV Servant, in the grade of Rs. 35—½—40	420
Allowances, Honoraria, etc.—	
Dearness Allowance	
Research Assistant	600
Clerk	540
Class IV Servant	420
Travelling Allowance	1,500
Contingencies—	
1. Material for photography, Survey and other instruments, etc. (Recurring and Non-recurring). ..	2,830
2. Office Expenses—Postage, Stationery, etc.	400
3. Books and Publications	450
4. Conservation of Monuments	4,500
Grand Total	14,000

ITEM 73. Cement concreting Borivli-Kanheri Road.

Recurrent ...	Rs.	*Nil.*	Non-recurrent ...	Rs.	1,19,700
Total ...	,,	1,19,700	Ultimate annual recurrent ...	,,	*Nil.*

Remarks.—Kanheri Caves is a historic place of ancient times and is also a picnic place. Thousands of people from Bombay City and the Suburbans, go to the Caves for tourism on Sundays and holidays, where they can pass their time in merry making and seeing natural beauty. At present the road leading to the Caves from the Borivli Station is a cement concrete one up to the Krishnagiri Upavan, Borivli, only. Now it is proposed to cement concrete the road which is about 3 1/2 miles from Krishnagiri Upavan, Borivli, to the Kanheri Caves in order to provide more facilities to thousands of people , who can go right upto the Caves by any mode of conveyance or even on foot.

2. The expenditure will be met from the Bombay State Milk Fund.

ITEM 74. Constructing Water Bound Macadam, Kanheri-Borivli Road.

Recurrent ...	Rs.	*Nil.*	Non-recurrent ...	Rs.	94,000
Total ...	,,	94,000	Ultimate annual recurrent ...	,,	*Nil.*

Remarks.—Water bound macadam road is required so that a motorable road is constructed upto the Caves. At present the road is done only for a part and as such people are forced to walk more than a mile on foot before reaching the Caves.

2. The expenditure will be met from the Bombay State Milk Fund.

36, *SCIENTIFIC DEPARTMENT*—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 75. Acquisition of Land for Krishnagiri Upavan, Borivli.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	1,50,000
Total	... ,,	1,50,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—The land for the National Park has been acquired by Government in order to develop the park which has received the National importance. The payment towards the Acquisition of Land for the National Park has already been made, but the parties having been dissatisfied with the amount paid to them, have gone in appeal. Land acquisition cases are pending in court and the amount is, therefore, necessary for expenses of court cases and for additional payments, if so decided. The provision proposed is of an obligatory nature.

2. The expenditure will be met from the Bombay State Milk Fund.

ITEM 76. Construction of Road Culverts on Kanheri-Borivli Road—Ch. 16200 to Ch. 16800.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	27,300
Total	... ,,	27,300	Ultimate annual recurrent	... ,,	.....

Remarks.—Kanheri Caves is a historic place of ancient times and also it is a picnic place. Thousand of people from Bombay City and Suburbans go to the Kanheri Caves on Sundays and Holidays where they can pass their time in merry making and seeing natural beauty. It is proposed to construct 3 span R.C.C. Culvert on Kanheri-Borivli Road from Ch. 16200 to Ch. 16800 to provide more facilities to the visitors.

ITEM 77. Grants to Private Engineering Colleges in Bombay State.

Recurrent	... Rs. 53,000		Non-recurrent	... Rs. 47,000	
Total	... ,, 1,00,000		Ultimate annual recurrent	... ,, ...	

Remarks.—For the consolidation and development plans of the non-Government Engineering Colleges at Hubli, Sangli, Anand and the L. M. College of Pharmacy at Ahmedabad, the Government of India are likely to give some financial assistance during the Second Five Year Plan period. It is therefore necessary to provide for a matching grant by the State Government to these Colleges for setting up their own buildings, for equipment and for additional staff. The total amount of the grant that would be paid by the Bombay Government during 1956–57 would be Rs. 1,00,000 as under :—

	Rs.
Recurring	53,000
Non-recurring (Building and Equipment)	47,000
Total ...	1,00,000

It is accordingly proposed to be provided an amount of Rs. 1,00,000 in the budget estimates for 1956–57.

ITEM 78. Establishment of Polytechnics in the State.

Recurrent	... Rs. 44,000		Non-recurrent	... Rs. 2,45,000	
Total	... ,, 2,89,000		Ultimate annual recurrent	... ,, ...	

Remarks.—At present there are nine Institutions, both Government and non-Government catering for diploma courses in (*a*) Civil, (*b*) Mechanical and (*c*) Electrical Engineering. There is still dearth of diploma holders which will be felt even more when the Second Five Year-Plan is put into execution. It is, therefore, proposed to increase the number of these institutions by establishing five polytechnics in five districts of the State to cater for these courses during the Second Five-Year Plan period. Of these, 1 will be started during 1956–57 ; 2 during 1957–58 and 2 during 1959–60. This proposal involves total expenditure of Rs. 96,02,000. The polytechnic to be started from the a ademic year 1956–57 will be located at Sholapur.

The estimates of expenditure on this account during 1956–57 are as under :—

Non-recurrent—	Rs.
Equipment and Furniture	2,45,000
Recurrent	44,000
Total ...	2,89,000

The details of recurrent expenditure are given in Appendix "C" attached herewith.

It is accordingly proposed to provide an amount of Rs. 2,89,000 in the budget estimates for 1956–57.

37, EDUCATION—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

APPENDIX "C".

Estimates of expenditure during 1956-57 on account of establishment of two polytechnics, one at Sholapur and the other at Belgaum.

		Rs.
A.	*Non-recurrent*—	
	Equipment and Furniture	2,45,000
B.	*Recurrent*—	
	(*a*) *Pay of staff*—	
	Designation, scale and No. of posts.	Expenditure for ten months
	(For one Polytechnic).	Rs.
	(*i*) Principal (1) (350—30—650—E.B.—45—1,100) with Principal's Allowance of Rs. 100 per mensem	4,500
	(*ii*) Head of Department. (1) Civil or Mechanical (220—15—400—E.B.—20—500—E.B.—25—650)	2,200
	(*iii*) Assistant Lecturer in Civil Engineering. (1) (160—10—200—10—250) ...	1,600
	(*iv*) Assistant Lecturer in Physics (1) and Mathematics. (160—10—200—10—250)	1,600
	(*v*) Assistant Lecturer in Machine Drawing. (1) (160—10—200—10—250) ...	1,600
	(*vi*) Demonstrator in Civil Engineering (1) (100—8—180)	1,000
	(*vii*) Part-time Lecturer in Chemistry (1) (100 fixed)	1,000
	(*viii*) Carpenter (1) (52—3—85—E.B.—4—125—5—130)	520
	(*ix*) Head Clerk (1) (100—8—140—10—150)	1,000
	(*x*) Junior Clerk (1) (46—3—85—E.B.—4—125—5—130) Starting on Rs. 55.	550
	(*xi*) Clerk-Typist (1) (46—3—85—E.B.—4—125—5—130) Starting on Rs. 55.	550
	(*xii*) Librarian (1) (100—8—140)	1,000
	(*xiii*) Curator of Survey Instruments (1) (52—3—85—E.B.—4—125—5—130).	520
	(*xiv*) Hamals (3) (30—1/2—35)	900
	(*xv*) Watchman (1) (30—1/2—35)	300

	(*xvii*) Peons (2) (30—1/2—35)	600
		19,740
B.	*Allowances*—	
	(*i*) Dearness Allowance	9,000
	(*ii*) House rent allowance (for Sholapur only)	1,495
		10,495
C.	Contingencies	13,765
	Total, Recurring for 1 Polytechnic	44,000
	Total N. R. for Polytechnic	2,45,000
	Total, Recurring and Non-recurring 1956-57 ...	2,89,000

37, EDUCATION—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 79. Expansion of existing Technical High Schools.

Recurrent	... Rs.	65,100	Non-recurrent	... Rs.	61,000
Total	... „	1,26,100	Ultima'e annual recurrent	... „	.....

Remarks.—It is proposed to increase the facilities for technical education in the following technical high schools from the academic year 1956–57 by introducing additional courses as mentioned against each school as under :—

Technical High Schools at	Courses.
(1) Belgaum, (2) Poona, (3) Ahmednagar, and (4) Karwar.	(*a*) Carpentry, (*b*) Smithy, (*c*) Wireman, Apprentice, and (*d*) Electricians.
(5) Northcote Technical High School, Sholapur.	(*a*) Power-loom Weaving, (*b*) Dyeing Technology, (*c*) Radio Servicing, (*d*) Plumbing and (*e*) Civil Draughtsmanship.
(6) Technical High School, Hubli ...	(*a*) Plumbing and (*b*) Civil Draughtsmanship.

The estimates of expenditure during 1956–57 on this account are as follows :—

	Rs.
Non-recurrent	61,000
Recurrent	65,100

The details of the expenditure are given in Appendices " A ", " B " and " C " hereto. It is accordingly proposed to provide for an amount of Rs. 1,26,100 on this account in the budget estimates for 1956–57.

APPENDIX " A ".

Details of expenditure during 1956–57 on account of starting additional courses at the technical high schools at (1) Belgaum, (2) Poona, (3) Ahmednagar and (4) Karwar.

A. *Non-recurrent*—

Equipment and Furniture ... ... Rs. 14,000 (at Rs. 3,500 for each school).

B. *Recurrent*—

(*a*) Pay of Staff—

Designation, Scale and No. of Posts.	Pay for 10 months
(For one School).	Rs.
(1) Technical Draughtsman (1) (100—8—180)	1,000
(2) Carpentry Instructor (1) (52—3—85—E.B.—4—125—5—130) ...	520
(3) Assistant Carpentry Instructor (1) (40—2—60)	400
(4) Assistant Smith (1) (40—2—60)	400
Total ...	2,320
For 4 Schools (*a*) ...	9,280
(*b*) Allowances—	
(1) Dearness Allowances (for 4 schools)	6,400
(2) C. L. A. (for Poona only)	140
(3) House Rent Allowance (for Poona only)	310
Total (*b*) ...	6,850
(*c*) Contingencies	8,000
Total, Recurrent ...	24,130
Grand Total (Non-recurrent *plus* Recurrent) ...	38,130

37, EDUCATION—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

APPENDIX "B".

Details of expenditure during 1956–57 on account of starting additional courses at the Northcote Technical High School, Sholapur.

	Rs.
A. *Non-recurrent*—	
Equipment and Furniture	39,000
B. *Recurrent*—	
(*a*) Pay of Staff—	

Designation, Scale and No. of Posts.	Pay for ten Months.
	Rs.
(1) Lecturer in Weaving—(Rs. 160—8—200—8—240)—(1)	1,600

Total, Recurrent ...	13,980
Grand Total (Non-recurrent *plus* Recurrent). ...	21,980

ITEM 80. Scheme for training of instructors at Government of India Training Centre at Koni-Bilaspur.

Recurrent	.. Rs.	12,000	Non-recurrent	.. Rs.	*Nil.*
Total ..	.. ,,	12,000	Ultimate annual recurrent	.. ,,	,,

Remarks.—In order to train the staff in Technical Institutes in the techniques of teaching, the Department of Technical Education has been deputing Instructors for such training at the Central Training Institute, Koni-Bilaspur. This training has proved to be immensely helpful to the Institutes. It is therefore proposed to depute as many Instructors as possible for this training. During 1956-57, it is proposed to depute about 10 instructors from among the different institutions under the control of this Department. It is therefore proposed to provide for the recurring cost of Rs. 12,000 on this account in the budget estimates of 1956-57.

ITEM 81. Establishment of a Department of Printing Technology.

Recurrent	.. Rs.	35,000	Non-recurrent	.. Rs.	50,000
Total ..	.. ,,	85,000	Ultimate annual recurrent	.. ,,	.....

Remarks.—During the past few years, India has seen an unprecedented expansion of the Printing Industry. Simultaneously with this expansion there has not, however, been a comparable growth in the number of trained technicians, connected with the Printing Trade. It is observed that while the Indian Printing Industry has invested more money for its expansion during the past few years and has become comparable with its counterpart in the West, in the matter of technical facilities at its disposal, it has failed to show that excellence in production which is a normal feature of the Printing Industry of the West.

Our Country is thus faced with a paradoxial situation under which we have on the one hand a growing Printing Industry with no provision on the other hand, for feeding the Industry with trained experts. It is in order to meet this contingency that a scheme has been formulated for the establishment of a Department of Printing Technology in the Bombay State as one of the Regional Schools in the country. This Department of Printing Technology when fully established will be devoted to the training in Printing and Allied Technology which would contribute towards the elevation of qualitative standard of Printing in India. It is proposed under the scheme to provide facilities for training in subjects like (*i*) Letter press, (*ii*) Lithography and (*iii*) Photo-engraving and 75 students will be admitted to the School during the first year for the 3 Courses.

Details of the cost in the first year of the scheme are shown in the statement attached. Provision for buildings is made under " 81, Civil Works ".

The total cost on account of this scheme during the first year will be Rs. 85,000 and it is proposed to provide the amount in the budget for the year 1955-56.

37, EDUCATION—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

Abstract Statement showing Recurring and Non-recurring Expenditure that will be incurred during the First year of Introduction of the Scheme for Establishment of a Department of Printing Technology in Bombay State.

Recurring

Total, Recurring ..	35,000

Non-recurring.

Furniture / Equipment	50,000
Total (Non-recurring) ..	50,000
Grand Total (Recurring and Non-recurring).	85,000

ITEM 82. Starting of Sheltered Workshops for the physically handicapped.

Recurrent ..	Rs. 20,000	Non-recurrent ..	Rs. 60,000
Total ..	„ 80,000	Ultimate annual recurrent ..	„ ....

Remarks.—The problem of the handicapped persons deserves immediate attention and Government has to provide adequate amenities for turning blind, deaf and mute and mentally deficient persons into useful citizens. With a view therefore to afford facilities for vocational training to handicapped persons, it is proposed to give grant-in-aid to voluntary agencies to start sheltered workshops in Bombay. It is therefore proposed to provide a sum of Rs. 80,000 of which Rs. 20,000 Recurring and Rs. 60,000 Non-recurring to be paid as grant-in-aid during 1956-57 for the purpose.

ITEM 83. Expansion of the Dr. S. and S. S. Ghandhy College of Engineering and Technology, Surat.

Recurrent ..	Rs. 70,090	Non-recurrent ..	Rs. 2,50,000
Total ..	„ 3,20,090	Ultimate annual recurrent ..	„ ....

Remarks.—Government has established a higher grade technical institute at Surat, viz. Dr. S. and S. S. Ghandhy College of Engineering and Technology from June 1955. This College at present caters for the diploma courses in (*a*) Civil Engineering, (*b*) Mechanical Engineering and (*c*) Electrical Engineering. It is proposed to introduce therein the following additional courses of instruction with effect from the academic year 1956-57 :—

(1) Mechanical Engineering, Certificate Course.
(2) Electrical Engineering, Certificate Course.
(3) Carpentry, Certificate Course.
(4) Turners, Certificate Course.
(5) Fitters, Certificate Course.
(6) Electrical Apprentice, Certificate Course.
(7) Wiremen Apprentice, Certificate Course.
(8) Electricians, Certificate Course.
(9) Plumbing and (10) Civil Draughtsmanship-Certificate.

37, EDUCATION—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

It is also necessary to augment the equipment and staff already sanctioned for the present courses which are now only in the first year, so as to provide for effective instruction when the Second year courses are added from June 1956. The additional expenditure on this account during 1956-57 is estimated as under :—

Non-recurrent—	Rs.
Equipment, Furniture and Library	2,50,000
Recurrent	70,090
Total ..	3,20,090

The details of the expenditure are given in Appendix " A " hereto and the same is proposed to be provided in the Budget estimates of 1956-57.

APPENDIX " A "

Details of expenditure during 1956-57 for the expansion of the Dr. S. and S. S. Ghandhy College of Engineering and Technology, Surat.

Grand Total ..	3,20,090

37, EDUCATION—*contd.*

MINISTER-IN-CHARGE—SHRI D. N. DESAI.

ITEM No. 84.

Description.—Development of Ashram Schools for Vimochit Jati.

Recurrent	.. Rs. *Nil* ..	.. Non-recurrent	.. Rs. 2,30,000.
Total	.. Rs. 2,30,000.	.. Ultimate annual recurrent	.. Rs.

Remarks.— Government has sanctioned the opening of Seven Ashram Schools cum Sanskar Kendras for the promotion of education among the Vimochit Jati during the years 1953-54 and 1954-55. It is proposed to split up the institution into two parts (*i*). The Ashram School unit and (*ii*) the Sanskar Kendra and to develop the former on the lines of the Ashram Schools for Scheduled Tribes. The cost of maintenance of these seven Ashram Schools is proposed to be provided in the ordinary budget as it is a committed expenditure. The cost of development is estimated at Rs. 8,26,280 (Rs. 2, 66,630 recurring and Rs. 5,59,650 non-recurring) for the entire plan period as detailed below :—

Year.	Cost		
	Recurring.	Non-recurring.	Total
1956—57	.....	2,52,875	2,52,875
1957—58	19,544	14,875	34,419
1958—59	54,054	2,47,450	3,01,504
1959—60	73,654	24,150	97,804
1960—61	1,19,378	20,300	1,39.678
	2,66,630	5,59,650	8,26,280

The cost of development of the Ashram School is in excess of the allotment by Rs. 70,000. In order to keep the expenditure within the allotment, a flat cut of about 10 per cent. in the recurring and non-recurring grants will be applied. It is, therefore, proposed to provide a sum of Rs. 2,30,000 in the budget for the year 1956-57.

ITEM No. 85.

Description.—Development of existing Ashram Schools for Scheduled Tribes.

Recurrent	.. Rs. 1,08,173	.. Non-recurrent	.. Rs. 2,83,827.
Total	.. Rs. 3,92,000.	.. Ultimate Annual Recurrent	.. Rs. ....

Remarks.—By the end of March 1956, twenty-five Ashram Schools will have been opened for the promotion of Education among the Scheduled Tribes as under :—

Year.	Ashram Schools sanctioned.
1953—54	10
1954—55	7
1955—56	8
Total	25

It is necessary to maintain and to develop these Ashram Schools into ful-fledged primary schools as contemplated under the Ashram Schools Scheme. Funds required for maintenance of these Ashram Schools are being provided in the ordinary budget as the expenditure on maintenance of these Ashram Schools is a committed one. Funds required for the development of these Ashram Schools will have to be provided in the Second Five-Year Plan for the educational uplift of Backward Classes. The cost of development of these 25 Ashram Schools is estimated at Rs. 18,85,782 (Rs. 12,23,865 recurring + Rs. 6,61,917) non-recurring for the plan period as shown in the accompanying statement. The estimated cost for development of Ashram Schools exceeds the total allotment of Rs. 15·90 lakhs by Rs. 2,80,765. The progress of all Ashram Schools is not uniform because of the reluctance of scheduled Tribes parents to send their children (particularly girls) to schools. The full estimated expenditure under development of Ashram Schools is not therefore likely to be utilised. About 15 per cent. saving is expected in the estimated expenditure. It is, therefore, proposed to restrict the expenditure to the allotment by applying a uniform cut of 15 per cent. during the plan period. The cost on account of the development of the Ashram Schools is estimated at Rs. 3,92,000 (Rs. 1,08,173 recurring + Rs. 2,83,827 non-recurring) during the year 1956-57. Out of the total cost the Government of India will bear 2/3 and the remaining 1/3rd will be met from the State revenues. It is, therefore, proposed to provide a sum of Rs. 3,92,000 in the budget for the year 1956-57 for this purpose.

The total cost of the scheme for the plan period is Rs. 15·90 lakhs.

Statement showing the cost of development of the 25 Ashram Schools for Scheduled Tribes during the 2nd Five Year Plan.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 86. Free supply of Books and Slates to pupils belonging to nomadic tribes.

Recurrent	Rs.	10,000	Non-recurrent	Rs.	*Nil.*
Total	,,	10,000	Ultimate annual recurrent ..	,,	.....

Remarks.—Nomadic and semi-nomadic tribes are extremely backward educationally. No systematic attempt has been made for the promotion of education of these tribes so far. Government therefore, proposes to open 7 Ashram Schools for the education of the children of these tribes separately. This measure will however benefit only a small section of the school going population of these tribes. In order to encourage these tribes to send their children to ordinary schools, it is proposed to supply books and slates to pupils of the nomadic and semi-nomadic tribes in primary schools free of cost. A sum of Rs. 2 per annum per child is generally allowed for free supply of books and slates to indigent children under the ordinary scheme for the welfare of Backward Classes. Books and slates are proposed to be supplied to pupils of the nomadic, semi-nomadic tribes at an estimated cost of Rs. 2 per annum per child. The books and slates will be supplied by the District and Municipal School Boards to pupils both in their own primary schools as well as in schools aided by them. The expenditure incurred by the Boards will be paid to them by way of grant-in-aid. It is expected that during the year 1956-57 about 5,000 pupils will take advantage of this facility. It is, therefore, proposed to provide a sum of Rs. 10,000 for this purpose in the budget for the year 1956-57. The cost of the scheme for the entire plan period is estimated at Rs. 2·60 lakhs.

ITEM 87. Opening of Ashram Schools for Vimochit-Jati children.

Recurrent	... Rs.	9,055	Non-recurrent	... Rs.	36,125
Total	... ,,	45,180	Ultimate annual recurrent	... ,,	.....

Remarks.—The Ashram School Scheme for Scheduled Tribes has been very popular. The problem of education of Vimochit-Jati can best be solved by starting Ashram Schools for their children where they can be provided with free lodging, boarding and intensive Basic Education for the full primary course under constant supervision and guidance of able teachers. Seven Ashram School *cum* Sanskar Kendras have already been sanctioned and they will continue to be maintained during the Second Plan period. In order to speed up the progress of education among the Vimochit-Jati it is proposed to open three Ashram Schools for the children of Vimochit-Jati during the Second Five-Year Plan period. The first Ashram School will be opened during the year 1956–57, the second in the second year of the Plan period and the third in the fourth year. These Ashram Schools will be organised on the lines of the Ashram Schools for Scheduled Tribes and will be opened through voluntary agencies on grant-in-aid basis at places where Vimochit-Jati population is concentrated. The cost of an Ashram School is estimated at Rs. 45,180 (Rs. 9,055 recurring + Rs. 36,125 non-recurring). It is, therefore, proposed to provide a sum of Rs. 45,180 in the budget for the year 1956–57. The entire cost of this scheme will be met from the Government of India's special grant-in-aid for the welfare of Vimochit-Jati.

The total cost of the scheme during the entire Plan period will be Rs. 3,43,400.

ITEM 88. Free studentships to Backward Class pupils reading in Government secondary schools.

Recurrent	... Rs.	1,08,000	Non-recurrent	... Rs.	*Nil.*
Total	... ,,	1,08,000	Ultimate annual recurrent	... ,,	.....

Remarks.—At present eligible Backwad Class pupils in non-Government secondary schools are given the concession of free-studentships. The number of Backward Class pupils is on the increase every year and the provision made for this purpose usually falls short of the requirements as the following statement showing the number of Backward Class pupils in secondary schools and the expenditure incurred will show :—

Year.	No. of Backward Class pupils.	Amount sanctioned in in the Budget.	Annual expenditure incurred.
		Rs.	Rs.
1951–52	18,347	5,35,000	11,85,252
1952–53	25,651	7,12,000	15,19,118
1953–54	27,280	9,20,000	20,30,253
1954–55	30,932	17,70,000	17,64,354

MINISTER IN CHARGE—SHRI D. N. DESAI.

The decrease in expenditure during the year 1954–55 is due to imposition of fresh conditions for the first time on the grant of free-studentships to Backward Class pupils in secondary schools. It will be seen that on an average the number of Backward Class pupils in the secondary schools increases by about 2,000 per annum. In view of the general awakening among the Backward Classes as a result of the various efforts made by Government for their uplift, the number of Backward Class pupils is likely to increase at little higher scale during the Second Plan period. The current year's provision of Rs. 18,87,000 is proposed to be included in the budget for the year 1956–57. In addition it will be necessary to make provision for the increase in the number of pupils during the year 1956–57. The additional provision required is estimated at Rs. 1,08,000 as detailed below :—

				Rs.
Scheduled Castes	...	...	...	60,000
Scheduled Tribes	...	...	...	8,000
Other Backward Classes	...	...	...	35,000
Scheduled Areas	...	...	...	5,000
		Total	...	1,08,000

The entire expenditure on account of the grant of free-studentships to Vimochit-Jati pupils in secondary schools and 50 per cent. of the expenditure on the grant of this concession to Scheduled Tribe pupils will be met from the grant-in-aid from the Government of India. The balance will be met from the State funds. It is, therefore, proposed to provide a sum of Rs. 1,08,000 in the budget for 1956–57 for his purpose.

The total cost of the scheme is Rs. 10,00,000 for the entire plan period.

ITEM 89. Hostel messing allowance to Scheduled Castes students reading in colleges.

Recurrent	Rs.	44,250	Non-recurrent ..	Rs.	*Nil.*
Total	,,	44,250	Ultimate annual recurrent ..	,,	*Nil.*

Remarks.—At present the Scheduled Caste students reading in colleges are given rent-free accommodation in the hostels attached to colleges along with other backward class students. They are also held eligible for Government Scholarships of the value of Rs. 25 per month which is expected to cover the expenses on the maintenance etc. of the scholars. The amount of the scholarships is not sufficient to enable the Scheduled Caste students to join the college mess and to meet the expenses thereof. Many of the Scheduled Caste students cannot therefore, avail themselves of the rent-free accommodation provided for them. As a result of this, the Scheduled Caste students do not get opportunities to mess with other non-Backward Class students and thereby untouchability is not removed as speedily as possible. It is, therefore, proposed to give a subsidy of Rs. 40 per month in Greater Bombay, Rs. 30 in Ahmedabad and Poona, Rs. 25 in Hubli, Surat, Kolhapur, Sholapur and Belgaum and Rs. 20 per month in other places to Scheduled Caste students in order to enable them to take their meals in hostel mess. The subsidy will be paid to the manager of the mess subject to the production of certificate to the effect that the Scheduled Caste students are taking their meal in the common mess. The subsidy will be payable for a period of 10 months in the year. The subsidy will be paid only to selected deserving Scheduled Caste pupils in colleges having due regard to the financial position of their parents or guardians and merit of the scholar. It is expected that about 145 Scheduled Caste pupils in colleges can be given benefit of this allowance during the first three years of the plan and about 195 pupils in the last two years of the plan. The cost on account of this allowance is estimated at Rs. 44,250 during the year 1956-57.

This measure is likely to help the eradication of untouchability speedily and on a permanent basis. The total expenditure on account of this measure is therefore proposed to be met from the Government of India grant-in-aid for the removal of untouchability.

The total cost of the measure for the entire plan period is estimated at Rs. 2·50 lacs.

ITEM 90. Opening of additional Ashram schools for Scheduled Tribes.

Recurrent	Rs.	28,976	Non-recurrent	Rs.	1,44,500
Total	,,	1,73,476	Ultimate annual recurrent ...	,,	

Remarks.—The Ashram Schools Scheme started for the promotion of education of Scheduled Tribes in the year 1953-54 has been very popular. Demands for additional Ashram schools for scheduled areas are being received in greater number. By the end of the financial year 1955-56, 25 Ashram schools will have been opened for Scheduled Tribes children. In consideration of the increasing demand for additional Ashram schools it is proposed to open twenty additional Ashram schools during the Second Five-Year Plan period. Four Ashram schools will be opened during the year 1956-57 and four Ashram schools each year subsequently until the target is reached. The Ashram school will be opened in the scheduled

areas and in the areas predominently inhabited by the Scheduled Tribes. They will be opened through voluntary agencies on special grant-in aid basis as hitherto. The total cost of an Ashram school during a period of five years is estimated at Rs. 1,66,987 (Rs. 87,037 recurring and Rs. 79,950 non-recurring) as detailed below :—

Grand Total	...	45,180	14,890	53,045	23,945	29,927

The financial position of the voluntary agencies is not very satisfactory. The area in which the proposed Ashram schools are to be opened will be hilly tracks where the climate is not congenial and response from the public encouraging. It is therefore proposed to pay grant-in-aid to voluntary agencies at 80 per cent. of the recurrent expenditure on admissible items and at 100 per cent. of the non-recurrent expenditure on admissible items. The total cost on account of grant-in-aid to an Ashram school during five years comes to Rs. 1,49,580 and Rs. 43,369 during the year 1956-57. The total cost required for opening of Ashram Schools during the year 1956-57 is estimated at Rs. 1,73,476 (Rs. 28,976 recurring +Rs. 1,44,500 non-recurring).

The Government of India are likely to sanction a grant-in-aid of Rs. 1,15,662 on account of this Scheme at the rate of 66 2/3 per cent. of the State Government expenditure on Ashram schools. It is, therefore, proposed to provide a sum of Rs. 1,73,476 (Rs. 28,976 recurring+Rs. 1,44,500 non-recurring) in the budget for the year 1956-57 for this purpose.

The total cost of the Ashram schools for the entire plan period is estimated at Rs. 23,03,000.

37. EDUCATION—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 91. Opening of Ashram Schools for the Children of nomadic tribes.

Recurrent ...	... Rs.	18,110	Non-recurrent ...	... Rs.	72,250
Total ...	... ,,	90,360	Ultimate annual recurrent	... ,,	

Remarks.—The Ashram School scheme for Scheduled Tribes children has been very popular and it is considered necessary to start similar schools for the promotion of education among the nomadic tribes on proper and systematic lines. At present there are no special schooling facilities for the children of these tribes. It is therefore proposed to open seven Ashram Schools (Two in the year 1956-57 one in 1957-58, two in 1958-59, and two in 1959-60) during the Second Five Year Plan period. The Ashram Schools for the children of nomadic tribes will be organised on the lines of Ashram Schools for Scheduled Tribes and Ex-Criminal Tribes children. They will be opened through voluntary agencies on grant in aid basis. If no reliable voluntary agency comes forth to undertake the responsibility the schools will be opened through the District School Boards concerned. The cost of an Ashram school is estimated at Rs. 45,180 (Rs. 9,055 recurring and Rs. 36,125 non-recurring) as detailed below :—

A—*School Section.*

	Maximum admissible expenditure for 12 months for the purposes of grant-in-aid.
Recurrent—	Rs.
(1) Pay of one teachers in the scale of Rs. 40—1—50—3/2—65—5/2—90 ...	732
(2) Dearness allowance to teacher	420
(2a) Leave Salary contribution	92
(3) Contribution to the Provident Fund	46
(4) Bad climate allowance to teachers (if admissible in the area)	120
(5) Contingencies	60
(6) Rent for building at Rs. 10 per month till the buildings are completed ...	120
(7) Miscellaneous expenditure	15
(8) Library	100
Total ...	1,705
Non-recurrent—	
(1) Furniture, equipment, etc.	375
(2) Game	100
Total ...	475
Total, Section A ...	2,180

B—*Hostel Section.*

Recurrent—	
(1) Allowance to the Superintendent at Rs. 10 per month	120

(9) Medical facilities at Rs. 2 per pupil per annum	60
Total, Recurrent ...	7,350

Non-recurrent—	Rs.
(1) Utensils for the hostel	500
(2) Clothing and bedding at Rs. 15 per inmate	450
Total, Non-recurrent ...	950
Total, Section B ...	8,300

C—*Building, Land and Other equipment.*

Non-recurrent—	*Non-recurrent.* Rs.	*Remarks.*
(1) Buildings for the Ashram of 60 pupils ...	25,000	
(2) Purchase of land admeasuring 10 acres for the Ashram	5,000	The agrant is to be paid only if the agency is not able to secure land by gift or donation or Government land is no available.
(3) Agricultural implements	1,000	
(4) Bullock cart	500	
(5) Purchase of two bullocks	600	
(6) Purchase of two cows	600	
(7) Seeds and manures	100	
(8) Construction of cow sheds for four cows ...	1,000	
(9) Construction of latrines, urinals, etc., for 60 pupils...	300	
(10) Equipment for craft teaching for 60 pupils ...	600	
Total ...	34,700	
Grand Total ...	45,180	
(1) Recurrent	9,055	
(2) Non-recurrent	36,125	

There are a very few voluntary agencies working for the welfare of nomadic and semi-nomadic tribes. The problem of education of these tribes is very difficult and complicated as that of Vimochit Jati. Unless grants on full cost basis are made available, voluntary agencies may not come forth to undertake the responsibility. It is therefore proposed to pay grants to voluntary agencies at 100 per cent. of the approved expenditure on admissible items of expenditure explained above. It is therefore proposed to provide a sum of Rs. 90,360 (Rs. 18,110 recurring and Rs. 72,250 non-recurring) in the budget for the year 1956-57.

The total cost of the scheme for the entire plan period is estimated at Rs. 8,50,000.

37, EDUCATION—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 92. Educational facilities to Backward Class students reading in colleges.
(1) Freestudentships, (2) Scholarships, (3) Free Hostel accommodation.

Recurrent	... Rs.	41,000	Non-recurrent	... Rs.	*Nil.*
Total	... ,,	41,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—It is estimated that during the current year 1,800 Backward Class students reading in colleges will be awarded Government Special Freestudentship and scholarship concessions. Normally there is an annual increase of about 10 per cent. in the number of these students reading in colleges who will be eligible for these concessions. It is, however, not possible to provide for the entire expenditure on account of the anticipated increase of students within the provision allotted for the Plan period, and hence a progressive increase of about 4 per cent. has been taken into consideration while working out the total number of students that will be granted the concessions. The concessions will be awarded to the most deserving students.

On the above basis the number of Backward Class students and expenditure likely to be incurred at the average rate of Rs. 550 per student (Rs. 250 per annum for freestudentships on an average and Rs. 300 for scholarship) on that account during the Plan period works out as under :—

Year.	No. of students.	Freeships students.	Scholarships.	Total estimated expenditure.
		Rs.	Rs.	Rs.
1956–57	72	18,000	21,600	39,600
1957–58	146	36,500	43,800	80,300
1958–59	224	56,000	67,200	1,23,200
1959–60	305	76,250	91,500	1,67,750
1960–61	389	97,250	1,16,700	2,13,950
Total ...	1,136	2,84,000	3,40,800	6,24,800
			i.e.,	6,25,000

As regards free hostel accommodation during the year 1955–56 it is estimated that 270 Backward Class students will be granted the concessions. Though the normal increase is 10 per cent. provision at the rate of 7½ per cent. only is proposed progressively during the 2nd Plan period for the room rent concession. On an average the room rent charged by the management works out at Rs. 70 per annum per student. The expenditure on this account during the Plan period is estimated as under (the basic number for 1955–56 is estimated at 270) :—

Year.	No. of students.	Estimated expenditure.
1956–57	20	1,400
1957–58	42	2,940
1958–59	65	4,550
1959–60	90	6,300
1960–61	117	8,190
Total ...	334	23,380
		i.e., 24,000

The estimated expenditure shown above on account of Government Special Freestudentships, scholarship and free hostel accommodation amounts to Rs. 6,49,000 as provided in the Plan. A sum of Rs. 41,000 is proposed to be provided in the budget for the year 1956–57.

37, EDUCATION—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 93. Grants to Universities.

Recurrent	... ...	Rs.	Nil	Non-recurrent	... ...	Rs.	13,00,000
Total	... ...	,,	13,00,000	Ultimate annual recurrent	...	,,	.....

Remarks.—A provision of Rs. 41,00,000 was made in the budget for 1955-56 for payment of grants to Universities. As this was not found sufficient to pay maintenance as well as non-recurring building grants to Universities, an additional amount of Rs. 17,30,000 was obtained during the year by way of a supplementary demand. The normal provision of Rs.41,00,000 proposed in the budget for 1956-57 will be inadequate for payment of maintenance grants to Universities which have been fixed recently after taking into account their increasing activities. Besides, the following Universities have already been promised building grants during 1956-57 as shown below :—

	Rs.
Karnatak	5,00,000
Gujarat	5,00,000
Baroda	2,88,000
Total ...	12,88,000

The Universities have also prepared programmes for the development of the existing departments and the opening of new departments. The question of grants to the Universities towards these programmes is under the consideration of the University Grants Commission. On the basis of the general principles laid down by the University Grants Commission for giving financial assistance to the Universities, the State Government and the Universities will be required to share the expenditure involved at the rates mentioned below :—

	Rate of grant
Non-recurring	33⅓ per cent.
Recurring	.....
1st year	50 per cent.
2nd year	66⅔ per cent.
3rd year	75 per cent.
4th year	100 per cent.
5th year	100 per cent.

The exact amount that will be required for payment of grants to Universities on this account will be known when the University Grants Commission approves the schemes formulated by the Universities. It is therefore proposed to provide an additional amount of Rs.13,00,000 for payment of grants to Universities in the next year's budget...

ITEM 94. Short Term Training courses for teachers in the Scheduled Areas.

Recurrent	..	Rs.	18,900	Non-recurrent	..	Rs.	2,250
Total	..	,,	21,150	Ultimate annual recurrent	..	,,	.....

Remarks.—It is experienced that generally there is no proper appreciation of the specific problems of tribal areas and of the difficulties likely to be experienced while teaching pupils in the scheduled area. The result is that the teaching imparted is not as efficient as it might be and besides the teachers themselves remain discontented due to not being in *rapport* with their environment. This affects their work as well as the attendance and attainment of tribal area pupils. In order to attract willing workers required for these schools and to make them more efficient, it is proposed to introduce a Short Term Training course of two months' duration for acquainting them with the special problems of scheduled areas and making them more efficient for their work. A special pay in addition to their other normal emoluments of a non-pensionable nature, at the rate of Rs. 5 per mensem in the first year; Rs. 10 per mensem in the second year and Rs. 12-8-0 in the subsequent years is proposed to be paid to teachers who are trained at such centres and actually posted to scheduled areas immediately after the completion of the course. A teacher will draw Rs. 12-8-0 per mensem extra as long as he remains in the tribal area after the third year.

The instruction at these courses will be given by specially qualified persons who have made a study of tribal areas and their problems, such as social workers in these areas of long experience, anthropologists, or experts in Sociology from institutions such as the Tata School of Social Sciences, etc. etc. The senior lecturer will be assisted by a person who may be an experienced Assistant Deputy Educational Inspector or a research scholar at a University, etc.

It is proposed to hold these courses at three centres—two in Gujarat and one in Maharashtra—at suitable places where scheduled tribes are predominant and where facilities are available. At each centre about 60 teachers will be put through the course every year during the Plan period. These teachers will be paid deputation allowance at Rs. 20 per mensem in addition to usual salary and travelling allowance at the rate of Rs. 10 for both journeys to and from. They will be given instruction in the problems by experts interested in social problems as indicated above. The senior lecturer will be paid at the flat rate of Rs. 200 per mensem for two months plus travelling allowance at Rs. 30 for both journeys to and from while his assistant will be paid at Rs. 75 per mensem and Rs. 20 travelling allowance in all for both journeys.

A recurring contingency of Rs. 300 for each course and a non-recurring grant of Rs. 750 in the first year will also be sanctioned for purchasing teaching aids preparing slides and buying books, etc.

A statement showing the expenditure on account of the scheme for the Plan period is appended.

The total allocation for the scheme is Rs. 3,45,000 and the estimated expenditure for 1956-57 will be Rs. 21,150 which is proposed to be provided as a new item of expenditure.

The Government of India are likely to sanction grant-in-aid at 50 per cent. of the total expenditure under Article 275 of the Constitution for this measures.

Statement showing the expenditure involved on account of the scheme of Short Term training courses for teachers in the scheduled areas.

Serial No.	Items of Expenditure.	Rate.	Period.	Cost during.

37, EDUCATION—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 95. Expansion of the office of the Director of Technical Education, Bombay.

Recurrent ...	... Rs.	28,435	Non-recurrent ...	.... Rs.	1,495
Total ...	... ,,	29,930	Ultimate annual recurrent	... ,,	*Nil*.

Remarks.—The Department of Technical Education in the short period of its existence, has achieved marked progress in accelerating the progress of Technical Education in the State. In order to consolidate the work done and to achieve further progress in this field a number of educational development schemes have been provided for in the Second Five-Year Plan. With a view, therefore, to ensuring this during the Second Plan period, it is very essential to equip this office with adequate supervisory and administrative machinery. With this aim in view, this schemes of expansion of the office of the Director of Technical Education has been proposed and stands included in the Second Five-Year Plan.

It is proposed to appoint the following staff during the year 1956–57, the first year of the Plan :—

1 Deputy Director of Technical Education (Rs. 350—30—650—E.B.—45—1,100 plus special pay of Rs. 150 per mensem).
1 Accounts Superintendent (Rs. 270—20—390).
1 Deputy Inspectress of Technical Education (Rs. 200–650) B. E. S. Cl. II.
1 Superintendent (Rs. 270—20—390).
2 Noting Assistants (Rs. 150—10—230).
1 Steno Typist (Rs. 75—200 plus steno-typists' allowance of Rs. 30).
3 Peons (Rs. 30—1/2—35).

The Director of Technical Education is a member of several committees both of the State and the Central Governments and as it is essential to attend to administrative work in his absence on tours as also to co-ordinate work in the office and train a suitable officer to take over the post of Director when the present incumbent retires shortly, the necessity of this post is keenly felt. The post of Accounts Officer is similarly necessary to effect proper financial supervision and control over the expenditure of the Department which is about Rs. 50 lakhs. The post of Deputy Inspectress of Technical Education is required to be created with a view to effecting proper inspection of several recognised Institutions more particularly the institutions meant for ladies. There are 135 institutions offering various courses in Ladies Tailoring and allied subjects, and over 4,000 ladies students attend them. It is absolutely necessary to have the post both to assist the present Inspectors in inspection work as also to frame courses in tailoring, embroidery, fancy work, home crafts etc. and inspect more popularly the Institutions meant for ladies. The post of Superintendent is very essential as a Senior hand is required to attend to the increase in work in connection with the Five Year Plan as also the work of examinations of the Department which has assumed increasing proportions. Since 1948 when the Department started in 1954–55, the work has increased thus: The number of institutions sending candidates for examinations from 99 to 214; the number of examination Centres from 99 to 172; the number of examiners appointed from 116 to 461 and the number of examinees from 3,748 to 13,506. The number of recognised Institutions have increased and the extent and scope of the examinations have thus so increased that it is very essential to have a senior post to properly look after the entire work of examinations in all its aspects and assist the Inspector of Technical Education in attending to the heavy confidential work etc. in connection therewith so to conduct the examinations very smoothly and avoid any adverse comment from the public in the contest of the growing scope of the examinations. The Noting Assistants are required to attend to the increased noting work of a sustained type in the office and the steno-typist to attend to the increased number of officers and the peons to attend to the 3 posts of officers proposed to be created as above.

The expenditure in this connection will be as follows :—

During 1956–57 (11 months).

	Pay	D.A.	C.L.A.	H. R. A.
Recurring—		Rs.	Rs.	Rs.
One Deputy Director of Technical Education.	350 × 11 (months) =Rs. 5,500+150 p. m. spl. pay.	770	825	1,782
One Accounts Superintendent.	200 × 11 (months) =Rs. 2,200.	605	550	330
One Deputy Inspectress of Technical Education.	2,200	605	560	330
One Superintendent ...	270 × 11=2,970	660	.....	.....
Two Noting Assistants ...	2 × 150 × 11=3,300	1,100	.....	.....
One steno-typist ...	75 + Rs. 30 steno-typists' allowance ×11 months= 1,155 ...	495	.....	.....
Three peons ...	3 × 35 × 11=1,155	1,155	.....	198
Total ...	18,480	5,390	1,925	2,640
Grand Total—1956–57 ...	28,435			
Non-recurring—				
Furniture	Rs. 1,495			

It is accordingly proposed to provide on amount of Rs. 29,930 in the budget estimates for 1956–57.

37, EDUCATION—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 96. Expansion of the College of Engineering, Poona.

Recurring ...	... Rs. 38,000	Non-recurring ...	... Rs. 1,00,000
Total ...	... Rs. 1,38,000	Ultimate annual recurring	... ,, *Nil.*

Remarks.—During the First-Five Year Plan, the Engineering College at Poona was expanded so as to provide for additional number of students at the Degree and the Diploma Courses. The number of admissions have accordingly increased from 100 to 150 and the necessary staff for the expansion has been appointed. The College has now over 1,200 students on its rolls. It is necessary to provide some building for the College to meet the increased requirements. It is also proposed to provide additional equipment for the Metallurgy Department for consolidating the M. E. (Met.) Course and introducing a 3 year Diploma Course in Metallurgy and the structures Laboratory for conducting research in connection with the development of the Field testing machines. It is also proposed to expand the Geological Museum of the College. Such a museum is essential as facilities need to be provided for instruction and research in Geology at the College. The expenditure will be only on Travelling Allowance to the existing staff which will tour round for collecting the required specimens.

There is already a nucleus staff and some equipment in the Metallurgy Department of the Engineering College, Poona, and it is felt that there in considerable scope for expansion of this Department by consolidating the course for M. E. (Met.) Degrees by research. It is proposed to take four students for research so that on an average each staff member will have one student. The industry is short of trained men in Metallurgy and this scheme will help development of Industry in the Western Region. For this, the expenditure in 1956–57 will be :—

	Rs.
Recurring—	
Contingencies	8,600
Fellowships	2,400
	11,000
Non-recurring—	
Equipment	40,000

It is also proposed to start a 3 year Diploma Course in Metallurgy. In the branch of Foundry Technology and heat treatment diploma holders in Metallurgy will fit as operators while in Press shops, rolling mill, etc. they can work as supervisors. First hand and practical knowledge in this Branch of Engineering is therefore desirable. About 10 students will be admitted to the course each year. This however, does not involve any increase in the total number of students at the College as the maximum of 150 admissions to the First Year Diploma Course will be adhered to. The shortage of trained personnel in Metallurgy which is being currently felt by the Industry will be met to some extent, by this Scheme. The expenditure on this account will be :—

	Pay.	D. A.	H. R. A.	Total.
Recurring—	Rs.	Rs.	Rs.	Rs.
Staff.				
1 Lecturer—B. E. S. Cl. II (Rs. 200—650) starting salary Rs. 400.	4,400	770	.....	5,170
2 Assistant Lecturers Rs. 160—250 ...	3,520	1,210	220	4,950
1 Machine Attendant Rs. 35—45 ...	385	385	55	825
	8305	2,365	275	10,945

Say Rs. 10,950

	Rs.
Contingencies	4,200
Total recurring	15,150
Equipment	19,000

It is also proposed the develop the structures laboratory of the Applied Mechanics Department of the College in order to carry out post-graduate research in the Development of Field Testing machine which can be used on sites of Civil Engineering works for improving the standard of workmanship. Cheap and handy machines will be devised for testing the quality of materials used on civil works. The expenditure on this account will be as follows :—

	Pay.	D. A.	H. R. A.	Total.
	Rs.	Rs.	Rs.	Rs.
Recurring—				
Staff—				
1 Assistant Research Officer—B. E. S. Cl. I 1 (Rs. 300—1,100) starting salary Rs. 410	4,510	770	.....	5,280
1 General Mechanic (Rs. 60–170) ...	660	495	110	1,265
2 Hamals (Rs. 35–45)	770	770	110	1,650
	5,940	2,035	220	8,195

	Rs.
Contingencies	2,000
Total, Recurring ...	10,200
Non-recurring—	
Equipment and Furniture ...	40,000

The expenditure on Research in Geology will be as follows :—

	Rs.
Recurring—	
Travelling Allowance for staff ...	1,000
Incidental expenses	600
Total, Recurring ...	1,600
Non-recurring—	
Furniture	1,000

It is estimated that the fee receipts during the year on account of the 4 M. E. (Met.) students to be admitted will be Rs. 1,200. It is accordingly proposed to provide an amount of Rs. 1,38,000 in the budget estimates for 1956–57.

ITEM 97. Expansion of the L. D. College of Engineering, Ahmedabad.

Recurring	... Rs. 1,00,000	Non-recurring ...	... Rs. 3,50,000
Total	... Rs. 4,50,000	Ultimate annual recurring	... Rs. *Nil.*

Remarks.—Though large buildings have already been put up for the L. D. Engineering, College at Ahmedabad, there are still several deficiencies both in buildings and equipment which need to be made up. These deficiencies have been pointed out by the Inspection Committee appointed by the University as also by the Examiners in Surveying and by the Experts Committee appointed by the Co-ordinating Committee of the All India Council of Technical Education. It is therefore proposed to make good deficiencies by putting up additional buildings and providing additional equipment for the College so that instruction may be improved and consolidation work effected. The existing staff of the College is also inadequate and considerable difficulties are being experienced in managing the several classes and departments, the deficiencies being felt mainly in the junior categories of staff.

This College was originally planned and built for the purpose of providing facilities for 150 students each in the Degree and Diploma classes. Originally only 75 students were being admitted to the degree course and 100 students to the Diploma class. In view of the heavy demand for admission on the part of students and also on the part of Industries and Government Departments for qualified engineers and in view of the increasing scope of employment for engineers arising from new projects to be taken up under the Plan the scheme envisages expanding the training facilities at the College to 150 seats in both degree and diploma courses, 90 being in Civil, 30 in Mechanical and 30 in Electrical.

The details of expenditure on account of this scheme during 1956–57 for which provision is being made are shown in the accompanying statement. It is accordingly proposed to provide an amount of Rs. 4,50,000 in the Budget estimates for 1956–57.

37, *EDUCATION*—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

Abstract statement showing Recurring and Non-recurring Expenditure that will be incurred during the First-Year of the Scheme "Expansion of the L. D. College of Engineering, Ahmedabad."

1st year. 1956-57.

37, EDUCATION—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 98. Administrative staff for the implementation of the schemes of education of handicapped.

Recurrent	.. Rs.	10,820	Non-recurrent	.. Rs.	*Nil.*
Total	.. ,,	10,820	Ultimate annual recurrent	.. ,,	*Nil.*

Remarks.—Various schemes for the improvement of the educational facilities for the handicapped have been proposed under the Second Five-Year Plan. In order to ensure satisfactory implementation of these schemes, it is proposed to appoint the following staff for the administrative and supervisory work in connection with these schemes, *viz.* :—

One Special Officer in B. E. S. (Class I).
One Senior Clerk, and
One Junior Clerk.

The cost on account of pay and allowances of the above staff works out to Rs. 60,000 (Recurring) for the entire plan period. The cost involved in the scheme for the next year is estimated at Rs. 10,820 Accordingly it is proposed to make a provision of Rs. 10,820 in the next year's budget. (1956-57).

ITEM 99. Additional administrative staff in the Director of Education's Office and the Subordinate Offices for the implementation of the Second Five-Year Plan.

Recurrent	.. Rs.	1,75,000	Non-recurrent	.. Rs.	25,000
Total	.. ,,	2,00,000	Ultimate annual recurrent	.. ,,	*Nil.*

Remarks.—The Draft Second Five-Year Plan of the Education Department contains 37 schemes costing about Rs. 7·5 crores, with an average annual recurring cost of about Rs. 1·75 crores. For the satisfactory implementation of these schemes, it is necessary to appoint the following additional staff in the Office of the Director of Education as well as in the Subordinate Office viz., the Educational Inspectors' offices. Most of the staff will be required to be appointed during the first year of the Second Five-Year Plan (*i.e.* 1956-57) and the remaining staff during the year 1957-58. All this staff will be required to be continued during the succeeding years of the Plan.

Staff.

Director of Education's office—
1 Joint Director of Education.
1 Deputy Director of Education.
2 Inspecting Officers (one for Basic Schools and one for Multi-purpose schools).
7 Superintendents (two senior and five junior).
8 Supervisory clerks.
53 Other clerks.
21 Class IV staff.

Educational Inspectors' offices—
28 Junior Superintendents.
28 Senior clerks.
28 Junior clerks.
28 Class IV servants.

The total cost of this staff for the five year period comes to about Rs. 21·16 lakh. All the above staff is absolutely necessary for the proper implementation of the schemes. In view of the fact that the allotment sanctioned for the scheme for the entire period of the Second Five-Year Plan is Rs. 15 lakhs only, the following staff only is proposed to be sanctioned :—

Director of Education's office—
1 Joint Director of Education.
1 Deputy Director of Education.
4 Superintendents.
3 Supervisory clerks.
14 Other clerks.
9 Class IV staff.

Educational Inspectors' offices—
15 Junior Superintendents.
17 Senior clerks.
24 Junior clerks.
16 Class IV staff.

The expenditure for the next year is estimated at Rs. 2,00,000 as follows. Accordingly it is proposed to make a provision of Rs. 2,00,000 in the next year's budget (1956-57).

		Rs.
Recurrent	...	1,75,000
Non-recurrent	...	25,000
Total	...	2,00,000

37, *EDUCATION*—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 100. Strengthening of Inspection staff.

Recurrent	Rs.	47,800	Non-recurrent	Rs.	2,200
Total	,,	50,000	Ultimate annual recurrent ..	,,	*Nil.*

Remarks.—With the expansion of primary education, which has been planned partly on a compulsory and partly on a voluntary basis, increased provision is essential for the inspection of and supervision over primary schools. Compulsion is proposed to be extended under the Second Plan to all places with a population of 500 to 999 so that it is intended to bring all places with 500 and above within the framework of compulsion by the end of the Second Plan. Moreover, in some of the smaller villages the scheme of group schools has already been introduced and steps are being taken to introduce the scheme of peripatetic teachers so as to provide as many of the smaller villages as possible with schooling facilities. To enable schools in small villages served by peripatetic teachers and those set up under the group schools scheme to operate efficiently, provision for a much closer supervision and more frequent advisory and surprise visit is absolutely essential. So far as the extension of compulsion is concerned, the Inspecting Officers have not only to inspect and supervise the schools in their beats, but also to assist in the enforcement of compulsion and in school attendance work. With the abolition of the posts of Attendance Officers, the work of Inspecting Officers has become much more onerous. In view of the expansion of compulsion on the widest possible scale which has been planned and the manifold activities which the Inspecting Officers will have to undertake in connection with the enforcement of compulsion, the organisation of house to house census, school attendance work, coercive measures and such other matters, a substantial increase in the inspecting personnel is necessary if an adequate return is to be secured for the funds to the tune of crores of rupees proposed to be spent. At present each Inspecting Officer has about 70 institutions, including Primary Schools, Village Reading Room, Social Education Classes etc. to inspect. To enable the Inspecting Officers to function efficiently under the plan and to discharge effectively the various functions entrusted to them it is absolutely essential to reduce the number of institutions to be entrusted to each Inspecting Officer from 55 per Inspecting Officer—the number considered optimum at present—to about 50 per Inspecting Officer. This should be possible with the help of the Social Education Officers working in the Community Development Project areas. It is, therefore, proposed to provide for additional Assistant Deputy Educational Inspectors during the plan period at the rate of about18 per year or a total of 90 in all.

The total cost of the scheme for the whole period of the Second Five-Year Plan is as shown below :—

	Amount. Rs.
Non-recurring	11,000
Recurring	9,49,000

The cost of the scheme for the next year is estimated at Rs. 50,000 and accordingly it is proposed to make a provision of Rs. 50,000 in the next year's budget (1956-57).

ITEM 101. Training of Primary Teachers.

Recurrent ..	Rs.	2,54,400	Non-recurrent ..	Rs.	.....
Total ..	,,	2,54,400	Ultimate annual recurrent ..	,,	*Nil.*

Remarks.—It is essential to provide for an increased number of trained teachers so that they can efficiently manage the basic schools as well as the new schools that will be started during the plan period. The output of trained teachers till the end of the 1954-55 was approximately 3,500 per year. During 1955-56 an increase in the number by 2,000 has been provided for. So the provision made for training of teachers by the end of 1955-56 comes to 5,500 per year. During the plan period it is proposed to add 12 more classes to Government Training Institutions in the State. The-recurring expenditure for these 12 classes will come to Rs. 14,37,500. If the classes are opened in the first year of the plan period, it will be possible to add 500 more teachers to the annual output of trained teachers. This means that during the plan period the approximate annual output of trained teachers will be 6,000. For a period of five years the total number of trained teachers will be 30,000. At present the number of teachers end of the is estimated to be about 1,00,000 of which about 57,000 are trained teachers. So by the in the State Plan Period, we shall have approximately 87,000 trained teachers (the present 57,000 plus 30,000 to be trained during the Plan period). However, the total number of teachers by this time will have increased to about 1,10,000. The trained element will, therefore, be about 83,000 (assuming about 4,000 untrained teachers will retire during the 5 years), out of a total of 1,10,000 which will be roughly 75 per cent.

The total cost of the scheme for the whole period of the Second Five-Year Plan is shown below :—

	Amount. Rs.
Non-recurring	5,62,500
Recurring	14,37,500
Total ..	20,00,000

It is proposed to allow a few additional posts of senior clerks in the grade of Rs.100-8-140 and a few posts of junior clerks in the grade of Rs.55—130 to those offices. The proportion of senior clerks to junior clerks will be 1 : 2 and additional junior clerks will be allowed at the rate of 1 additional post for every 250 additional teachers appointed under the Boards.

In order to ensure prompt, disbursement of salaries of primary teachers it is proposed to pay permanent travelling allowance to taluka peons under the District School Boards at an uniform rate of Rs. 4-8-0 per mensem to all such persons. At present the rate at which the permanent travelling allowance is paid to these peons is not uniform and adequate. It is accordingly proposed to adopt a uniform rate of Rs. 4-8-0 per mensem plus temporary increase.

37, *EDUCATION*—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 102. Introduction of Compulsory Primary Education in all places with a population of 500 to 999 and also places with a population of less than 500 which have been provided with schooling facilities by public primary schools in places with a population of 500 and over and developmental expenditure.

Recurrent	Rs. 8,52,000	Non-recurrent	Rs. 2,00,000
Total	„ 10,52,000	Ultimate annual recurrent ..	„ *Nil.*

Remarks.— Compulsory primary education has been introduced since 1947–48 in all places with a population of 1,000 and above according to the 1941 Census in the 19 pre-merged districts, and it was applied progressively to children in the age-range 7–8, 7–9, 7–10 and 7–11 from year to year, so that by the end of the year 1951–52, which marked the termination of the Post-War Reconstruction Plan and the beginning of the First Five-Year Plan, children of the age-range 7–11 in the places concerned were brought under compulsion. The total number of children under compulsion at the end of 1951–52 was 17,25,307 (including authorised Municipalities) and the total number of places under compulsion was 5,232. The total expenditure incurred on compulsion during the year 1947–48 to 1951–52 amounted to Rs. 5,83,01,642. During the First Five-Year Plan beginning with 1951–52, the *status quo* was maintained in respect of compulsion until the year 1954–55, and from 1st August 1954 Government has sanctioned the extension of compulsory primary education to all places with a population of 1,000 and over according to the 1951 census, including the merged areas. compulsion will be progressively applied from year to year; beginning with the age range 7–8, so that during the period of 4 years children in the age range 7–11 will be covered by compulsion. Thus the last 2 years of this scheme will extend into the Second Five-Year Plan beginning from 1956–57.

The next step would be to extend compulsion to all places with a population of 500 to 999 and also places with a population of less than 500 which have been provided with schooling facilities by public primary schools. This is the first stage of the scheme of compulsion to be extended under the Second Five-Year Plan. Compulsion, as in the past, will apply progressively under this Scheme to children in the age groups 7–8, 7–9, 7–10 and 7–11, so that during the period of 4 years, children in the age range 7–11 in all places with a population of 500 to 999, etc., as shown above will be brought under compulsion under the Second Five-Year Plan.

The targets proposed to be achieved under this scheme during the Second Five Year Plan are as follows :—

Item.	Introduction of compulsory primary Education in villages with a population of 500 to 999, etc.
	Rs.
(1) Additional number of pupils to be brought under compulsion and developmental increase during the entire plan period.	3,53,000
(2) Additional number of teachers to be appointed, during the entire plan period ..	7,060

The above target of 3,53,000 pupils will be reached in five years. The total cost on account of the above scheme of compulsion inclusive of the developmental expenditure will be 2·7 crores of which the contribution from the CDP and NES Funds will be 1½ crores. Simultaneously with the introduction of compulsory primary education provision is also proposed to be made for literary education in Government Certified Schools. There are 9 Government Certified Schools with a maximum accommodation for 1240 court commited children. Arrangements for teaching of crafts suited to the aptitudes of children have been made in these schools. Adequate arrangements for the literary education of children in Government as well as non-Government Certified schools however have not so far been made. Craft education is essential to enable the delinquent children to earn their livelihood honestly in future life. Literary education is equally essential to inculcate in the minds of the juvenile delinquents the importance and necessity of leading a civilised and honest life. It is therefore, proposed to make adequate provision for literary education of these children in Government Certified schools. Children in Certified schools are more or less problem children each child requiring individual attention and treatment for his development. Due to this the usual ratio of 1:40 between the teacher and the taught in ordinary primary schools is not considered to be workable in Government Certified Schools. It is therefore proposed to provide one trained teacher for 30 children for literary education of children in Government Certified schools. On this basis the number of additional teachers required to be appointed in Government Certified Schools for literary education is estimated at 20. The cost on account of pay and allowances of these 20 additional teachers is estimated at Rs. 18,000 during the year 1956–57 as detailed below :—

Item.	cast in. Rs.
Pay of teachers at Rs. 40 per mensem in the scale of Rs. 40—1—50—1½—65—2½—90 (40+20+12).	9,600
Dearness allowance to teachers at Rs. 35 per mensem (35×20×12)	8,400
Total ...	18,000

MINISTER IN CHARGE—SHRI D. N. DESAI.

The expenditure will come out of the allocation proposed to be made for the scheme of compulsory Primary Education under the Second Five-Year Plan mentioned above. The expenditure is, however, debitable to "47 Miscellaneous Departments" and has been provided for thereunder in the next year's budget. The total cost of the scheme is Rs. 90,000 during the entire plan period. Apart from the expenditure on the new scheme of compulsory primary education it is also necessary to provide for expenditure on certain items retaining to primary education. Accordingly provision is proposed to be made on the following items in the year 1956-57 :—

	Rs.
(1) Additional grants to practising schools attached to non-Government Training colleges.	50,000
(2) Augmentation of staff in District School Board Offices viz. additional posts of senior clerks to those offices the proportion of senior clerks to junior clerks being 1 : 2 and appointment of a few additional junior clerks in those offices on agreed basis in proportion of the increase in the number of primary teachers.	20,000
(3) Permanent Travelling allowance as Rs. 4-8-0 plus the usual temporary increase to all Taluka peons under District School Boards at the uniform rate mentioned above to enable District School Boards to disburse salaries of primary teachers promptly.	20,000
Total ...	90,000

Actual grants due under normal rules to the practising Schools attached to non-Government Training Colleges come to over Rs. 1,50,000 during the last three years against Rs. 1 lakh provided in the State budget in this account in the year 1955-56. Accordingly an increased provision of Rs. 1,50,000 is proposed to be made on this account in the budget for the year 1956-57, to enable Government to pay full grants to these schools.

All important schemes regarding primary education proposed to be undertaken during the Second Five-Year Plan period will be executed through the agency of the District School Boards. For proper execution of the schemes, therefore, it is proposed to augment the clerical staff in the District School Board office.

ITEM 103. Conversion of ordinary schools into Basic Schools.

Recurrent	Rs. 3,20,000	Non-recurrent	Rs. 2,00,000
Total	„ 5,20,000	Ultimate annual recurrent ..	„ *Nil.*

Remarks.—The total number of first grade primary schools in the State is 5,898. Of these, 2,922 schools have neither introduced craft teaching nor basic education. Steps are proposed to be taken in the first instance for converting into basic schools 1,184 of these schools under the Second Five-Year Plan. It is proposed to introduce—

(*a*) Spinning and Weaving in 779 first grade primary schools,

(*b*) Kitchen gardening and Agriculture in 270 first grade primary schools,

and

(*c*) Card-board Modelling and Wood-work in 135 first grade primary schools.

2. The scheme of craft teaching will be introduced in the first year in Standards III and V in as many of the 1,184 schools as possible and will be progressively extended from year to year to the higher standards IV and VI, II and VII and I so that the schools concerned will be converted into full-fledged basic schools during a period of four years. The total cost of the scheme is estimated to be Rs. 1,16,00,000. The expenditure on craft sheds is proposed to be minimised, by using verandahs of school building, with suitable adjustments for class-room purposes and the class rooms thus vacated will, be used as craft sheds. Similarly efforts will be made to see that pupil products are made sufficiently attractive and marketable, so that the sale proceeds would be utilised towards the maintenance of the schools.

MINISTER IN CHARGE—SHRI D. N. DESAI.

3. The total cost of the scheme is Rs. 1,16,00,000 of which Rs. 78,27,760 is non-recurring and Rs. 37,72,240 recurring. Of this total cost, Rs. 75,00,000 will be met from C. D. P. and N. E. S. Funds for conversion of schools in their areas. The Government of India gives assistance at the rate of 30 per cent of the cost on account of the schemes for introduction of craft education and on the basis of the abov ratio, the break-up of the cost into Central share and State's share is as follows :—

	Rs.	Rs.	Rs.
Non-recurring—			
(*a*)	8,30,013	19,36,695	27,66,708
(*b*)	50,61,052 (from C. D. P. and N. E. S. Funds).	....	50,61,052
Total ..	58,91,065	19,36,695	78,27,760
Recurring—			
(*a*)	39,987	9,33,305	13,33,292
(*b*)	24,38,948 (C. D. P. and N. E. S. Funds).	....	24,38,948
Total ..	28,38,935	9,33,305	37,72,240
Grand Total ..	87,30,000	28,70,000	1,16,00,000

4. The School Board have not so far made adquate seating arrangements for the increasing number of pupils coming to schools and in many schools, they have to sit on bare floor. It is, therefore, necessary to provide such schools with suitable seating arrangements. It is accordingly proposed to supply carpet pieces and asanas to the primary schools. These will be prepared from the yarn spun by the pupils in lower classes of craft schools and got woven through professional weavers at a cost of Rs. 31,737. In addition, the District School Boards will be paid grants to the extent of Rs. 81,813 on purchase of these asanas. The total involved on this account thus comes to Rs. 1,13,550 and this will be met from the lump provision of Rs. 5,20,000 under this item.

ITEM 104. Establishment of Multi-lateral Schools.

Recurrent ..	Rs.	1,24,600	Non-recurrent ..	Rs.	4,74,400
Total ..	„	5,99,000	Ultimate annual recurrent ..	„	*Nil.*

Remarks.—Under the Government of India's scheme for opening of Multi-purpose schools, the following schools are expected to be started during 1955-56 :—

Courses.	Government.	Non-Government.	Total.
Agricultural	3	12	15
Commercial	*25	1	26
Home Science	7	8	15
Fine Arts	3	4	7
			63

[*6 Commerce Centres started under scheme No. 4 (*b*) have also been included here].

Under its Second Five-Year Plan, the Government of India, have proposed a target of 1,000 additional Multi-purpose schools. There are over 1,000 full grade Secondary Schools in this State and there is a great demand from the managements of these schools for conversion into multi-purpose schools, and for provision of liberal grants by Government for this purpose. It is accordingly proposed to convert 53 ordinary Secondary Schools into Multi-purpose schools, during the Second Five-Year Plan period. In order to encourage the management of private schools to give a vocational bias to their institutions, it is proposed to raise the rates of grants as indicated below :—

	Present rate of grant.	Proposed rate of grants.
Non-recurring	50	66
Recurring	33⅓	40

It is however, not possible to indicate at this stage the distribution of the proposed schools between different courses. It is proposed to organise a State-wise survey to ascertain the requirements in different courses.

The total cost of the scheme for the entire period of the Second Five-Year Plan is Rs. 34·62 lakhs of which Rs. 15·23 lakhs is recurring and Rs. 19·39 lakhs is non-recurring. The Central Assistance towards the cost of this scheme is estimated at Rs. 16·6 lakhs. The cost of the scheme for the next year is estimated at Rs. 5,99,000 (*i.e.* Rs. 1,24,600 recurring plus Rs. 4,74,200 non-recurring) and accordingly it is proposed to make a provision of Rs. 5,99,000 in the next year's budget (1956-57).

37, EDUCATION.—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 105. Additional free studentships to pupils in the secondary schools.

Recurrent	Rs.	2,50,000	Non-recurrent	Rs.	*Nil.*
Total	,,	2,50,000	Ultimate annual recurrent ..	,,	*Nil.*

Remarks.—Government at present bears the cost of educating 3 per cent. of the pupils on rolls in Secondary Schools. It is proposed to raise this limit to about 3½ per cent. in the Second Five Year Plan. On the basis of the number of pupils in Secondary Schools on 31st March 1954, with provision for an annual increase in the number under the Second Five Year Plan, it is estimated that approximately at the rate of about 3½ per cent. provision for free studentships will have to be made during five years for a total of about 99,500 pupils, preference being given in the award of free studentships to pupils belonging to or coming from rural areas.

2. The scheme will come into effect from the first year of the Second Five Year Plan i.e. from 1st June 1956. Accordingly it is proposed to make provision of Rs. 2,50,000 in the next year's budget (1956-57). The total cost of the scheme for the entire period of the Second Five Year Plan is estimated at Rs. 36,00,000 (recurring).

ITEM 106. Payment of grants to secondary schools.

Recurrent ..	Rs.	12,50,000	Non-recurrent ..	Rs.	*Nil.*
Total ..	,,	12,50,000	Ultimate annual recurrent ..	,,	*Nil.*

Remarks.—At present, maintenance grants are paid to secondary schools in the urban areas at 30 per cent. and in rural areas at 33⅓ per cent. of the admitted expenditure and dearness allowance grants are paid at 50 per cent. of the expenditure on payment of dearness allowance at Government rates. The expenditure on the payment of these grants at the prescribed rates is increasing every year owing to the opening of new schools, increase in the expenditure of the existing schools due to incremental scales of pay etc. Within the sum of Rs. 100·0 lakhs provided for the entire period of Second Five Year Plan it will not be possible to raise the percentage of grants at present paid to schools and the amount provided will be utilised in paying grants at the existing percentages only to the existing Schools and the new schools that will come up during the period. The total cost involved is Rs. 100·0 lakhs.

2. The scheme will come into effect from the first year of the Second Five Year Plan. Accordingly it is proposed to make an additional budget provision of Rs. 12,50,000 during 1956-57.

ITEM 107. Increased Grant-in-aid to non-Government Colleges.

Recurrent	Rs.	1,60,000	Non-recurrent	Rs.	40,000
Total	,,	2,00,000	Ultimate annual recurrent ...	,,	*Nil.*

Remarks.—At present, grant-in-aid is paid to non-Government colleges at 10, 15 and 20 per cent. of the approved expenditure, including grants towards Dearness Allowance and maintenance. It is proposed under this scheme to make provision for the payment of grants at these rates to new colleges and the payment of special grants to deserving colleges. Provision is also made for the payment of modest building and equipment grants to the extent of Rs. 2 lacs during the plan period to needy non-Government Colleges.

ITEM 108. Expansion of facilities for post-graduate education and research in Basic Sciences at the Institute of Science, Bombay.

Recurrent ...	Rs.	37,000	Non-recurrent ...	Rs.	1,75,000
Total ...	,,	2,12,000	Ultimate annual recurrent ...	,,	.....

Remarks.—The Institute of Science, Bombay, was reorganised in 1953 with the intention of providing the M. Sc. course in Physics and Chemistry partly by papers and practicals and partly by dissertation. As the University was not, however, ready with the syllabus for the new course, students were admitted for the M. Sc. Course in Physics and Chemistry by papers only and the question of introduction of the course partly by papers and practicals and partly by dissertation was held over for implementation after the University had laid down the courses.

The scheme of reorganisation of the Institute contemplates introduction of similar courses in other subjects also. The University has already framed the syllabus for the M. Sc. degree examination in Zoology partly by papers and practicals and partly by dissertation and the syllabus for Botany will be

ready shortly. It is, therefore, proposed to introduce the new course both in Botany and Zoology from the academic year 1956-57 and to sanction the following recurring and non-recurring expenditure for the purpose :—

	Immediate Cost Rs.
(*A*) *Recurring*—	
I. *Pay of Officers*—	
1 Associate Professor of Botany in the scale of Rs. 350—30—800 (by conversion of the existing post of Lecturer in Botany).	1,170
1 Associate Professor of Zoology in the scale of Rs. 350—30—800 (by conversion of the existing post of Lecturer in Zoology).	1,170
II. *Pay of Establishment*—	
2 Assistant Lecturers in the scale of Rs. 160—10—250 (one each for Botany and Zoology).	2,880
2 Fieldmen in the scale of Rs. 46—3—85 (one each for Botany and Zoology).	1,104
2 Mazdoors in the scale of Rs. 35—½—40 (one each for Botany and Zoology).	840
III. Grant for research apparatus, etc. (Rs. 3,750 each for Botany and Zoology).	7,500
IV. *Allowances and Honoraria*—	
(1) Dearness allowance	2,340
(2) House Rent allowance	144
Total ..	17,148
(*B*) *Non-recurring*—	
(1) Apparatus, etc.	17,000
(2) Fittings and furniture, etc.	30,000
Total ..	47,000
Grand Total ..	64,148

It is also proposed to provide additional facilities for research in the Departments of Bio-Chemistry, Chemistry, Botany and Zoology and the requirements of these Departments inclusive of expenditure mentioned above are as under :—

Department.	Recurring		
	Staff. Rs.	Equipment. Rs.	Non-recurring Rs.
(1) Bio-Chemistry	21,000	10,000	60,000
(2) Chemistry	31,300	14,700	70,000
(3) Zoology	29,100	24,900	42,500
(4) Botany	29,100	24,900	42,500
Total ..	1,10,500	74,500	2,15,000
Grand Total ..	..	..	Rs. 4,00,000

The cost on account of the Scheme including re-organisation of the Department of Zoology and Botany during the next year is estimated at Rs. 2,12,000 and accordingly it is proposed to make a provision of Rs. 2,12,000 in the next year's budget.

ITEM 109. Building equipment and maintenance grants to Research and Cultural Institutions.

Recurrent	Rs. 40,000	Non-recurrent	Rs. 40,000
Total	,, 80,000	Ultimate annual recurrent ...	,, *Nil.*

Remarks.—The maintenance grants at present being given to the Research and Cultural Institutions are inadequate. It has not been possible so far to pay any building, equipment or publication grants to these institutions for want of funds. The Research and Cultural institutions in the State are a necessary adjunct to the Universities and Colleges in the field of higher education and research. In this scheme it is proposed to give maintenance grants at the present rate i.e. 25 per cent. of the admissible expenditure on recurring items to recognised research and cultural institutions, i.e. those already recognised and those which may be given recognition during the Second Five Year Plan period. It is also proposed to pay non-recurring building, equipment and publication grants to these institutions to the extent of Rs. 2 lakhs during the Second Five Year Plan period.

37, EDUCATION—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 110. Expansion of the Departments of the Deccan College Post-graduate and Research Institute.

Recurrent	.. Rs.	30,000	Non recurrent	.. Rs.	10,000
Total	.. ,,	40,000	Ultimate annual recurrent	.. ,,	*Nil.*

Remarks.—It is proposed to strengthen certain departments of the Deccan College Post-graduats and Research Institute with a view to organising instruction for the M.A. degree in Linguistice and Diploma and M.A. degree courses in Archæology and with a view to undertaking research work in Cultural Anthropology. The staff of the College will also have to be strengthened to enable the College to participate in the Summer and Winter Schools sponsored under the grant received from the Rockfeller Foundation. It is accordingly proposed to create the following additional posts during the Second Five Year Plan period.

One Reader in Indo-Aryan Linguistics in the time scale of Rs. 350—500.

One Reader in Austro-Asiatic Linguistics in the time scale of Rs. 350—500.

One Reader in Ancient Indian History in the time scale of Rs. 350—500.

One Curator of the Archæology Museum in the scale of Rs. 250—400.

One Museum Assistant in the scale of Rs. 75—150.

One Research Assistant in the scale of Rs. 200—300.

It would also be necessary to up-grade the existing post of Reader in Sociology and Anthropology to that of a Professor. The expenditure on account of the additional staff and up-grading of one post of Reader is estimated at Rs. 2,49,300 for five years. A non-recurring expenditure to the extent of Rs. 50,700 is expected to be incurred on purchase of equipment for laboratory, Archæological Museum and preparing plaster casts of unique exhibits etc. It is, however proposed to pay a grant of Rs. 40,000 i.e. Rs. 30,000 recurring and Rs. 10,000 non-recurring to the Institute on this account during the next year. A provision of Rs. 40,000 is, therefore, proposed to be made in the budget for 1956-57.

ITEM 111. Expansion of the N. C. C. Senior Division and Auxiliary Cadet Corps.

Recurring ...	... Rs.	1,10,000	Non-recurring ...	... Rs.	1,50,000
Total ...	... ,,	2,60,000	Ultimate annual recurring ...	,,	

Remarks.—The present scheme for the expansion of the Senior Division National Cadets Corps contemplates the stabilisation of the present strength as far as theI nfantry Units are concerned and the Units to be raised during the Second Five Year Plan period will be some Technical Units and some Troops of the Girls Division. Provision has also been made for the construction of buildings for some of the existing Units. This provision is partly for constructing buildings in Government colleges and also for the payment of grants to non-Government colleges who may put up the necessary buildings on the basis of 50 per cent. of the expenditure involved.

2. As regards the Auxiliary Cadet Corps, it is proposed during the plan period to train 200 new teachers in all in the A. C. C. Provision is also made for the replacement of clothing to A. C. C. cadets at the rate of one set of uniform two years after the initial supply for each cadet.

3. The total cost of the scheme for the whole period of the Second Five Year Plan is Rs. 13,60,000 and the estimated cost for the next year is Rs. 2,60,000. Accordingly it is proposed to make a provision of Rs. 2,60,000 in the next year's budget.

ITEM 112. Youth Service Camps.

Recurring ...	... Rs.	*Nil.*	Non-recurring ...	... Rs.	1,00,000
Total ...	... ,,	1,00,000	Ultimate annual recurring ...	,,	*Nil.*

Remarks.—The objectives underlying this scheme are—

(*a*) to develop students into disciplined citizens,

(*b*) to foster in them the love for labour and spirit for the service of the Community and Nation.

It has been suggested by the Government of India that Social Service camps for both college and school students should be organised, particularly for those who are in the National Cadet Corps or Auxiliary Cadet Corps. These camps are proposed to be organised for Auxiliary Cadet Corps as well as non-Auxiliary Cadet Corps pupils. The strength of each camp is 100 students and five teachers. It is, therefore, proposed to hold 30 such camps in the first year of the Second Five Year Plan i. e. in 1956-57. The cost on account of the 30 camps to be organised during 1956-57 works out to Rs. 1,00,000 (non-recurring) and accordingly it is proposed to make a provision of Rs. 1,00,000 in the next year's budget).

The total cost on account of the scheme during the entire Second Five Year Plan period is Rs. 13,86,000 (non-recurring). The entire cost is likely to be reimbursed by the Government of India.

37, EDUCATION—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 113. General measures for the improvement of the education of the handicapped.

Recurrent	Rs.	14,000	Non-recurrent	Rs.	9,000
Total	,,	23,000	Ultimate annual recurrent ..	,,	....

Remarks.—Some of the existing Government and non-Government schools for the handicapped have drawn up programmes aiming generally at doubling the existing number of inmates by the end of the Second Five-Year Plan. It is proposed to give liberal grants to the non-Government schools for the handi-capped at the rate of 66 per cent. of the cost of the schemes, subject to a maximum of Rs. 1,00,000 per institution. It is also proposed to expand existing Government schools. In order to raise the standard of education of the handicapped, it is proposed to award post-school scholarships to handicapped students. The Government of India have a scheme at present by which scholarships are awarded to suitable handicapped students for prosecuting their studies for higher examinations including the Secondary School Certificate Examination. The expenditure on this account is shared by State and Central Governments on a 50 : 50 basis. It is proposed to provide for the award of scholarships to 10 students per year during the period of the Second Five-Year Plan.

The total cost of the scheme will be—	Rs.
(1) Aid to Private Institutions and expansion of the Government Institutions .	3,83,770
(2) Post-school scholarships	30,000
(3) Recurring expenditure due to expansion of Government Institutions ..	82,100
Total ..	4,95,870

Of this, a total amount of Rs. 23,000 will be required during the year 1956-57. It is therefore proposed to provide a sum of Rs. 23,000 in the budget for 1956-57

ITEM 114. Expansion of the Vocational Guidance Bureau.

Recurrent	Rs.	36,570	Non-recurrent	Rs.	8,000
Total	,,	44,570	Ultimate annual recurrent ..	,,	....

Remarks.—The Vocational Guidance Bureau in this State is located in Bombay and ever since it inception in 1950, it has been doing increasingly useful work in disseminating knowledge about occupations, jobs, courses of training etc. and rendering personal advice to students and members of the public in the matter of their choice of career. The service has been much appreciated and is becoming increasingly popular. Following the lead given by the Bombay Government, the Government of India started a Vocational Guidance Bureau only last year. By experience it has been found that the Bombay Bureau has not been able to do much original work in the matter of standardising of tests necessary for ascertaining general intelligence, special aptitudes and temperamental qualities, very necessary in rendering correct guidance and advice. The routine work of actual personal guidance, and training of career masters, and spreading general information about occupations takes up much of its time. It is, therefore, necessary to provide the extra staff of a specialised type, for the purposes of developing the Bureau into a full Institute of Vocational Guidance, so that the standardisation of tests referred to above, and the training of the career masters can be placed on a sound scientific basis.

It is also necessary to make a beginning with the provision of sub-bureaus at convenient centres in the different regions of the State in order that local expert advice in the choice of careers may be available to students and the general public needing such advice. With the increasing complexity of the industrial and economic structure of the Society, and the multiplicity of the vocational courses that a student can take up now from Standard VIII onwards it is necessary to start a Vocational Guidance Department in every large sized secondary school of this State. To train the necessary personnel from nearly 1,200 High Schools of the State and to keep them up to date in their information about jobs and techniques of guidance, it is proposed to start 3 more sub-bureaus to serve the different regions of the State. These will be located in the Secondary Training Colleges in Belgaum, Poona and Ahmedabad to enable the Bureau to active close collaboration with the training colleges. These Bureaus would serve the different regions of the State in which they are located by training career masters and rendering personal advice whenever it is sough and also by diseminating information about jobs and vocations in their regions. The entire problem of Vocational Guidance Bureaus and the Central Institute of Guidance at Bombay is of the greatest significance in the solution of the problem of educated unemployment and the proposal should be viewed from that point of view.

The total cost of the scheme is Rs. 2,00,000. Rs. 44,570 will be required for the year 1956-57. Hence it is proposed to make a provision of Rs. 44,570 in the next year's budget (1956-57).

ITEM 115. Propagation of Hindi in Bombay State.

Recurrent	Rs.	37,920	Non-recurrent	Rs.	14,300
Total	,,	52,220	Ultimate annual recurrent ..	,,	*Nil.*

Remarks.— In view of the instructions conveyed by the Government of India it is necessary to arrange for the propagation of Hindi during the Second Five Year Plan and to take the following measures :—

(1) to institute the long term training course in each linguistic region for secondary school teachers where 40 teachers will be trained for 8 months, in order to teach the Higher Secondary standards ;

(2) to continue the present short term training courses for Hindi teachers in primary schools by arranging for one short term course of 4 months duration per annum in each linguistic region, thus training 600 primary teachers during the plan period. Each trainee to be paid deputation allowance at Rs. 25 per mensem.

(3) to give grants at the rate of Rs. 480 to 10 selected colleges every year ; to 15 big selected secondary schools every year (enrolment over 600) at the rate of Rs. 150 and to give grants to 25 selected small secondary schools every year (enrolment below 600) at the rate of Rs. 50.

Training of teachers.—The requirements of the long term and short term courses, which will be attached to a Training College in every linguistic region will be (1) 1 Junior Lecturer, (2) 3 Assistant Masters, (3) 1 clerk and (4) 1 peon as well as contingencies at the rate of Rs. 100 per mensem. Provision of deputation allowance to primary teachers at Rs. 25 per mensem and provision for library books, totalling Rs. 10,860. This will involve a total cost of Rs. 1,83,828 recurring and Rs. 10,860 non-recurring.

ITEM 116. Equipment required for Technical High Schools in the State.

Recurrent	Rs.	*Nil.*	Non-recurrent	Rs.	3,20,000
Total	,,	3,20,000	Ultimate annual recurrent ...	,,	*Nil.*

Remarks.—Government has sanctioned the starting of twenty three Technical High Schools in the State under the scheme of starting multi-purpose schools. Out of these twenty three Technical Schools, five were started during the year 1954-55 and the remaining eighteen in the current year viz. 1955-56. The expenditure to the extent of Rs. 50,000 of the five schools started during 1954-55 and Rs. 72,000 for the eighteen schools started during 1955-56 is sanctioned for equipment and furniture during the current year viz. 1955-56. Some equipment has already been supplied to these Schools. Some have been ordered out while for the remaining, indents have been submitted to the Central Purchasing Officer. It is feared that the schools may not receive certain equipment, such as, Lathes, D. C. Motors, M. G. sets, etc., as the firms take considerable time to manufacture them. Delivery of such equipment is therefore, expected during the next year. In view of these circumstances and in order to meet this expenditure, it is necessary to provide for the same in the budget estimates for 1956-57. The details of the expenditure on equipment proposed to be purchased are as under :—

For five Schools (Bijapur, Godhra, Patan, Broach and Jalgaon :—

	Rs.
3 Motors	1,500
1 Drilling Machine	1,500
1 Shaping Machine	4,000
Equipment	2,500
Total ...	9,500

For five Technical High Schools total Rs. 47,500.

For eighteen schools—

	Rs.
6 Lathes	21,000
1 M. G. Sets	4,000
3 D. C. Motors	1,500
1 Drilling Machine	1,500
1 Shaping Machine	4,000
Total ...	32,000

For 18 Technical High Schools Rs. 5,76,000.

The total expenditure on equipment for these schools will come to Rs. 6,23,500. Of this, it is proposed to provide an amount of Rs. 3,20,000 in the budget estimate for 1956-57.

Initially the Government of India grant towards the establishment of these schools to the extent of 66 per cent. of non-recurring expenditure and 25 per cent. of recurring expenditure is sanctioned till the end of the financial year 1955-56 only and the Government of India has been approached to extend the grant during the Second Five Year Plan. The scheme for the expansion of the existing Technical High Schools and starting new ones in this State have been included in the Second Five Year Plan and the equipment proposed to be purchased will come under the scheme of expansion of existing Technical High Schools, and as such, it will be eligible for grant from the Government of India like similar other schemes under the Second Five Year Plan.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 117. Establishment of Technical High schools at Navsari and Amreli.

Recurrent	... Rs.	3,420	Non-recurrent ...	... Rs.	40,000
Total	... ,,	43,420	Ultimate annual average	... ,,	..

Remarks.—The two technical high schools at (*i*) Navsari and (*ii*) Amreli were established from June 1953. They will reach the full-fledged stage in June 1956 when Standard XI will be added. It is, therefore, necessary to provide them with additional staff and equipment for effective instruction. The details of the additional staff and equipment required are given in Appendices 'A' and 'B'. The cost on this account is estimated at Rs. 3,420 (Rec.) and Rs. 40,000 (Non-recurrent). It is therefore proposed to provide an amount of Rs. 43,420 in the budget estimates for 1956-57.

Total	,, 2,00,000	Ultimate annual recurrent	... ,, ..

Remarks.—Under the Scheme of multipurpose schools, the Government of Bombay has sanctioned the establishment of 23 technical high schools (centres). Of these five were started from the academic year 1954–55 and the remaining 18 were opened from June 1955. The technical course is spread over a period of 4 years from Standard VIII to XI. These centres are at present partially equipped to provide for instruction up to the standard reached so far and they are, therefore, required to be provided with additional staff and equipment for the additional higher standards that will be added from the academic year 1956–57. The details of both staff and equipment required in this behalf for each school are given in Appendices 'A', 'B' and 'C'. The cost on this account is estimated at Rs. 2,00,000 and the same is proposed to be provided in the budget estimates for 1956–57.

ITEM 119. Additional staff and equipment for the 8 Technical High Schools started under the First Five-Year Plan.

Recurrent	.. Rs.	5,580	Non-recurrent	.. Rs.	40,420
Total	.. ,,	46,000	Ultimate annual recurrent	,,	--

Remarks.—Government under the First Five-Year Plan established the following 8 Technical High Schools in the State with effect from the dates mentioned against them :—

Serial No.	Name of School.	Year of Establishment.
1	Technical High School, Dhulia	March 1949.
2	Technical High School, Satara	March 1949.
3	Technical High School, Kolhapur	March 1950.
4	Technical High School, Hubli	March 1950.
5	Technical High School, Khar	March 1951.
6	Technical High School, Kapadwanj	March 1951.
7	Technical High School, Ratnagiri	June 1951.
8	Technical High School, Ahmedabad	June, 1953.

The Schools at Serial Nos. 1 to 7 have reached the full-fledged State but owing to increase in number of students it is necessary to augment the machinery and equipment therein for efficient instruction. The details of the requirements are given in Appendix " C ".

The schools at Serial No. 8 which is still in the course of development and will reach the full-fledged stage in June 1956. It is therefore necessary to provide additional staff and equipment for the additional standards to be added from the academic year 1956-57. The additional recurring cost during the year 1956-57 on this account is estimated at Rs. 5,580 and the non-recurrent cost would be Rs. 40,420 as given in Appendix "B". The total expenditure estimates for the year 1956-57 comes to about Rs. 46,000 and the same is proposed to be provided in the budget estimates for 1956-57.

MINISTER-IN-CHARGE : SHRI D. N. DESAI.

ITEM 120.—Establishment for Dr. Sorabji Ghandhy and Dr. Saresh Sorabji Ghandhy College of Engineering and Technology, Surat.

Recurrent	...	Rs.	24,000	Non-recurrent	...	Rs.	*Nil.*
Total	...	,,	24,000	Ultimate annual recurrent	...	,,	

Remarks.—Government has accepted a donation of Rs. 5,20,000 from Dr. Saresh Sorabji Ghandhy towards the establishment of a high grade Technical Institute at Surat. The Institute has been started with effect from June 1955, in conjunction with the S. N. P. P. Polytechnic Institute, Surat. The Institute will enter its second year during 1956-57 and the additional staff mentioned in Appendix 'A' will be required for the College during 1956-57 in addition to the staff already sanctioned for the first year course. It is, therefore, proposed to sanction additional staff as indicated in Appendix 'A' for the second year course students. The total expenditure on account of the additional staff will be Rs. 24,000. It is accordingly proposed to provide an amount of Rs. 24,000 in the budget estimates for 1956-57.

APPENDIX "A".

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 121. Equipment required for the Engineering Colleges, Poona and Ahmedabad.

Recurrent	... Rs. *Nil.*		Non-recurrent	... Rs.	2,50,000
Total	... ,, 2,50,000		Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—Taking into consideration the development of the Colleges, it is observed that the present equipment at the Engineering Colleges is not sufficient to carry out the instructional work in the various Departments. Theoretical work in the Lecture rooms has no significance unless the Laboratory tests and experiments are demonstrated to or carried out by the students. Various Inspection Committees which visited the Colleges have pointed out the inadequacy of the equipment and have suggested to make this deficiency good.

Further, Government has sanctioned increased admissions to the L. D. College of Engineering, Ahmedabad, from the year 1955-56. With these increased admissions, it is necessary to provide for practical work to students and hence the need for equipment and instrument is keenly felt so as to provide the additional batches of students with extra apparatus and equipment. Unless this equipment is provided instruction will suffer.

Government has also sanctioned the introduction of Post-Graduate Courses at the two Engineering Colleges from 1955-56. The L. D. College of Engineering, Ahmedabad, has accordingly started the course while the courses could not be started at the College of Engineering, Poona, for want of the necessary equipment and staff. It is, however, proposed to start these courses at that College during the year 1956-57. Necessary equipment will have therefore to be provided for these courses. Unless this is provided in both the Colleges, the post-graduate students may be handicapped in their studies both theoretical and practicals.

It is, therefore, proposed to provide a sum of Rs. 2,50,000 for the equipment for both the Colleges in the budget estimates for 1956-57.

		Rs.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 122. Providing additional staff equipment, etc., at the existing institutions—Mental Hospitals. Additional Nursing Staff for —

Recurrent	.. Rs.	19,528	Non-recurrent	.. Rs.	*Nil.*
Total	.. ,,	19,528	Ultimate annual recurrent	.. ,,	...

Remarks.—The proposal submitted in this item forms part of the scheme of providing additional staff, equipment, etc., at the existing institutions which has been included in the Second Five-Year Plan of the Medical Department and for which a lump provision of Rs. 1,24 lakhs has been made.

In view of the recommendation made by the Government Mental Hospitals Committee that there should be one nurse for every five physically sick patients, it is proposed to appoint 1 Sister and 4 Staff nurses at the Central Mental Hospital, Yeravda, and 4 staff nurses at the N. M. Mental Hospital, Thana, as these Hospitals are grossly under staffed. The other Mental Hospitals will be considered in the second or third year. The proposal involves a recurring expenditure of Rs. 19,528 in the year 1956-57 as shown below :—

	Rs.
Pay of Establishment—	
1 Sister (125—5—150—10—200) *plus* special pay Rs. 20 per mensem 145 × 1 × 11—1,595. 8 Staff nurses (80—5—100) *plus* special pay of Rs. 15 per mensem 95 × 8 × 11—8,360	9,955
Allowances, Honoraria, etc.—	
(1) Messing allowance at Rs. 60 per mensem for Sister and 4 Staff Nurses at Central Mental Hospital, Yeravda, and at Rs. 45 per mensem for 4 staff nurses— 60 × 5 × 11—3,300 45 × 4 × 11—1,980	5,280
(2) House rent allowance at Rs. 10 per mensem— 10 × 9 × 11—990.	990
(3) Uniform allowance at Rs. 6-4-0 per mensem. (6-4-0 × 9 × 11—619) ..	619
(4) Dhobi allowance at Rs. 3 per mensem. (3 × 9 × 11—297)	297
(5) Compensatory allowance— 1 Sister at Rs. 10 per mensem—Rs. 110 .. .. 4 Staff Nurses at Rs. 5 per mensem—220 .. .. .. 4 Staff Nurses at Rs. 12-8/27—8 per mensem—550	880
Dearness allowance— 1 Sister 50/3 × 11—Rs. 187 8 Staff Nurses at 45/3 × 11×8—Rs. 1,320	1,507
Grand Total ..	19,528

ITEM 123. Laboratory Assistants in Government Medical Colleges and teaching Hospitals—Proposal to revise pay-scales of —

Recurring	... Rs.	*Nil.*	Non-recurring	... Rs.	*Nil.*
Total	... ,,	*Nil.*	Ultimate annual recurrent	... ,,	8,892.

Remarks.—There is at present no uniformity either in the scales of pay or in the qualifications required for the appointment of Laboratory Assistants at the various Government Medical Colleges and their attached hospitals. In the Grant Medical College, Bombay, the scale of pay is Rs. 80—4—120 and at the Hospitals in Bombay the scales are Rs. 70—3—85 and Rs. 60—5—110. While at the Medical Colleges in the mofussil, the scale of pay is Rs. 55—3—85, and the educational qualification possessed by some of them is Matriculate passed and some of them are non-Matriculates. The duties of the Laboratory Assistants require that they should help the teaching staff and other technical staff in arranging materials for the practicals and tutorial classes, for examination etc. They are also required to do clinical and Scientific type of work and are expected to understand the instructions given to them in the technical terms. In view of the nature of the duties of these Laboratory Assistants, it is considered necessary to have candidates possessing at least Matric/S.S.C. qualification for these posts. With the prescribing of the above qualifications required for the Laboratory Assistants at the medical colleges and their attached teaching hospitals, it would consequently be necessary to revise and standardize their scale of pay as well. It is

therefore proposed to sanction a revised scale of pay of Rs. 55—3—85—4—125—130 (mofussil scale of pay) for the Laboratory Assistants at all Government Medical Colleges and the teaching hospitals both in Bombay and Mofussil, incumbents in Bombay being granted house rent allowance and compensatory local allowance as admissible under the general rules of the Government with effect from 1st April 1956. The revised scale of pay will be made applicable only to those incumbents who possess the prescribed qualification viz. Matriculate/S. S. C. None of the existing incumbents with Matriculation/S. S. C. qualification, to whom the revised scale would be applicable, have at present reached the maximum of the present scale of pay. Hence no extra expenditure is involved during the financial year 1956-57. The proposal however involves an ultimate extra recurring expenditure of Rs. 8,892 per annum on average basis as shown below :—

Name of Institution.	Number of appointments.	Existing scale of pay.	Cost per annum on average basis.	Revised scale of pay.	Average per mensem of scale including House Rent and Compensantory Allowance.
		Rs.	Rs.	Rs.	Rs.
1. Grant Medical College, Bombay.	14	80—4—120—(City Scale) ... (Average 109)	1,526	55—3—85—4—127—5—130 (Average 91.)	1,659
2. J. J. Group of Hospitals, Bombay.	2	70—3—85—(Average 80) 60—5—110 (Average 93) City Scales.	173	Do. ...	237
3. S. S. G. Hospital, Baroda.	3	55—3—85(Average 75.)	246	Do. ...	294
4. Medical College, Baroda	10	Do. ...	820	Do. ...	980
5. B. J. M. College, Ahmedabad.	9	Do. ...	810	Do. ...	954
6. Civil Hospital, Ahmedabad.	2	Do. ...	180	Do.	212
7. B. J. M. College, Poona.	9	Do. ...	738	Do. ...	882
8. Sassoon Hospitals, Poona	1	Do. ...	82	Do. ...	98
			4,575 ×12		5,316 ×12
			54,900 per annum.		63,792 —54,900 per annum.
					8,892 Ultimate extra expenditure per annum.

ITEM 124. J. J. Group of Hospitals, Bombay : Purchase of instruments and equipment and apparatus required for the —.

Recurrent	.. Rs.	*Nil.*	Non-recurrent	.. Rs.	4,77,320
Total	.. ,,	4,77,320	Ultimate annual recurrent	.. ,,	...

Remarks.—Instruments, equipment and apparatus supplied to the J. J. Group of Hospitals, Bombay, some years back have become very old and require to be replaced. For modern Surgery, new instruments, equipment, etc., are also required. The Superintendent, J. J. Group of Hospitals, Bombay, was, therefore, asked to prepare a list of urgent requirements in this respect. The total cost of the equipment required comes to about Rs. 7 lakhs. As the amount required is very large, it was decided to purchase the instruments and equipments in two instalments. A list of the equipment embodying the requirements of the Medical Council (those required for the College Departments) and also required for the Surgical Section estimated to cost about Rs. 2,40,000 was approved as the first instalment and the necessary funds have been sanctioned in the current year's budget. The remaining equipment has now to be purchased and a second list has been prepared which is estimated to cost about Rs. 4,77,320. It is therefore proposed to make a provision of Rs. 4,77,320 in the Budget Estimates for 1956-57 for purchasing the equipment.

2. The expenditure will be met from the provision of Rs. 1,24,00,000 made in the Second Five-Year Plan for equipment etc. for existing medical institutions.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 125. Treatment of patients suffering from Venereal Diseases with Penicillin.

Recurrent	.. Rs.	30,000	Non-recurrent	.. Rs.	*Nil.*
Total	.. „	30,000	Ultimate annual recurrent	.. „	.....

Remarks.—In the J. J. Group of Hospitals, Bombay, the patients suffering from V. D. are treated with Arsenic and Bismuth preparations. The W. H. O. is of the opinion that the J. J. Hospital being one of the premier teaching institutions in India the question of the replacement of Arsenic and Bismuth by sufficient quantity of Penicillin with 2 per cent. Monostearate (internationally designated as 'PAM') according to the W. H. O. Expert Committee's recommendations in the treatment of Syphillis should be seriously considered. Such provision will permit modern treatment facilities to patients attending the Hospital and permit the demonstration of modern methods to the medical students of the College. In most institutions with teaching and training responsibility all over the World, penicillin has been accepted as the drug of choice in cases of syphillis. place of arsenicals.

It is proposed to accept the above recommendation of the W. H. O. and start treatment of patients suffering from V. D. with Penicillin at the Government Hospitals in Bombay City (excepting the M. A. Podar Hospital, Worli and the Police Hospital, Bombay) and the other teaching Government Hospitals in the Districts. The proposal involves recurring expenditure of Rs. 30,000 per annum to Government as shown below :—

	Rs.
J. J. Group of Hospitals, Bombay	7,000
G. T. Hospital, Bombay	5,000
George's Hospital, Bombay	9,000
Cama and Albless Hospitals, Bombay	7,000
Civil Hospital, Ahmedabad	2,000
Total ..	30,000

The cost will come from the provision of Rs. 1,24,00,000 included in the Second Five-Year Plan for the scheme of providing additional staff equipment, etc.; for existing medical institutions.

ITEM 126. Hospital equipment : Purchase of —

Recurrent	.. Rs.	*Nil.*	Non-recurrent	.. Rs.	1,92,000
Total	.. „	1,92,000	Ultimate annual recurrent	.. „	.....

Remarks.—Most of the existing Surgical and other equipment in the Government Hospitals in Bombay City and Poona has become very old and unserviceable as very little amount has been spent on this item during the last seven or eight years. Extensive replacements of equipment are therefore necessary and new types of equipments and instruments are required to be purchased in order to ensure the smooth and efficient working of these hospitals, and to keep the teaching hospitals abreast of the times. It is estimated that a sum of Rs. 5,50,000 is necessary to equip all the Government Hospitals in Bombay City (except the Police Hospital, Bombay) and the Sassoon Hospitals, Poona, properly. Out of the estimated amount of Rs. 5,50,000 Government has sanctioned Rs. 3,58,000 so far in five instalments. It is therefore necessary to sanction the remaining amount. A special non-recurring grant of Rs. 1,92,000 is therefore proposed in the next year's budget :—

	Rs.
St. George's Hospital, Bombay	89,300
J. J. Group of Hospitals, Bombay	40,500
Cama and Albless Hospitals, Bombay	21,400
G. T. Hospital, Bombay	13,300
M. A. Podar Hospital (Worli), Bombay	12,500
Sassoon Hospitals, Poona.	15,000
Total ..	1,92,000

The cost will come from the provision of Rs. 1,24,00,000 included in the 2nd Five Year Plan for the scheme of providing additional staff, equipment, etc., for the existing medical institutions.

ITEM 127. St. George's Hospital, Bombay. Additional staff and equipment for the New O.P.D.

Recurrent	.. Rs.	7,024	Non-recurrent	.. Rs.	7,200
Total	.. „	14,224	Ultimate annual recurrent	.. „	.....

Remarks.—The Old O.P.D. of the St. George's Hospital, Bombay, was very small, cramped and inadequate. A new O.P.D. has therefore been constructed at the St. George's Hospital, Bombay, at an estimated cost of Rs. 6,12,000. The new O.P.D. is a huge building with sufficient and adequate accommodation for various Departments in the O.P.D. It is therefore necessary to have at least the minimum staff for the expanded departments in the new O.P.D. The existing staff of the hospital is hardly sufficient for the hospital and it cannot be spared for the new O.P.D. The following staff is

considered to be the minimum absolutely necessary for the efficient working of the expanded departments in the New O.P.D. It is proposed to sanction the staff for a period of one year in the first instance.

(1) Laboratory Technician	1	(4) Servants	2
(2) Laboratory Attendant	1	(5) Sweeper	1
(3) Ayahs	2		

The proposal involves a recurring expenditure of Rs. 7,024 and non-recurring expenditure of Rs. 7,200 as detailed below :—

	Expenditure during the year 1956-57
Pay of Establishment—	Rs.
Superior Establishment—	
1 Laboratory Technician. (Scale Rs. 100—8—140—10—200). Pay at Rs. 100 per mensem. (100 × 11)	1,100
Class IV Establishment—	
1 Lab., Attendant (scale Rs. 45—3—75). Pay at Rs. 45 per mensem. (45 × 11)	495
2 Ayahs (scale Rs. 35—1—40).	
2 Servants (do.).	
1 Sweeper (do.).	
Pay at Rs. 35 per mensem. (5 × 35 × 11)	1,925
Total, Pay of Establishment ..	3,520
Allowances, Honoraria, etc.—	
Bombay compensatory allowance to one Lab. Technician at Rs. 12-8-0 per mensem	138
House Rent Allowance at Rs. 15 per mensem to the Lab. Technician ...	165
House Rent Allowance to 1 Lab. Attendant, 2 ayahs, 2 servants and 1 sweeper ...	396
Dearness Allowances.—	
1 Lab. Technician at Rs. 45 per mensem,	495
2 Labs. Attendants 2, Ayahs, 2 Servants and 1 Sweeper at Rs. 35 per mensem ...	2,310
Total allowances ...	3,504
Contingencies	
Non-recurrent—	
Purchase of furniture	7,200
Grand Total ...	14,224

The expenditure will be met from the provision of Rs. 1,24,00,000 included in the 2nd Five-Year Plan for providing additional staff, equipment, etc., for medical institutions.

ITEM 128. Entertainment of additional staff for Out-patients Departments: Hospitals in Greater Bombay.

Recurrent	.. Rs.	16,170	Non-recurrent	.. Rs.	*Nil.*
Total	.. „	16,170	Ultimate annual recurrent	.. „	.....

Remarks.—There has been an ncrease in the number of out-door patients at the various Government Hospitals in Greater Bombay. The staff at present sanctioned for the out patients departments of the various Hospitals being limited, the patients have to wait for a considerably long time before they receive their case papers, medicines etc. In order to minimise the inconvenience caused to the patients, the following additional staff is considered necessary at the various out-door patients' departments of the Hospitals :—

Name of Hospital.	No. of staff.		Scale of Pay.
(1) J. J. Hospital, Bombay ..	Clerks	2 ..	Rs. 46—3—85—E. B.—4—125—5—130.
	Compounders	2 ..	Rs. 55—3—85—E. B.—4—125—5—130.
(2) G. T. Hospital, Bombay ..	Clerk	1 ..	Rs. 46—3—85—E. B.—4—125—5—130.
	Compounder	1 ..	Rs. 55—3—85—E. B.—4—125—5—130.
(3) St. George's Hospital, Bombay ..	Clerk	1 ..	Rs. 46—3—85—E. B.—4—125—5—130.
	Compounder	1 ..	Rs. 55—3—85—E. B.—4—125—5—130.
(4) Cama and Albless Hospitals, Bombay.	Clerk	1 ..	Rs. 46—3—85—E. B.—4—125—5—130.
	Compounder	1 ..	Rs. 55—3—85—E. B.—4—125—5—130.
(5) M. A. Podar Hospital, Worli, Bombay.	Clerk	1 ..	Rs. 46—3—85—E. B.—4—125—5—130.
	Compounder	1 ..	Rs. 55—3—85—E. B.—4—125—5—130.

38, MEDICAL—contd.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

The proposal involves an expenditure of Rs. 16,170 as shown below :—

	Expenditure for 1956-57.
Pay of Establishments—	
	Rs.
6 Clerks in the grade of Rs. 46—130 (55 × 6 × 11) ..	3,630
6 Compounders in the grade of Rs. 55—130 (55 × 6 × 11).	3,630
House rent allowances at Rs. 15 per mensem for 6 clerks and 6 compounders (15 × 12 × 11)	1,930
Bombay Compensatory Allowance at Rs. 7-8-0 per mensem for 6 clerks and 6 compounders. (7½ × 12 × 11) ..	990
Dearness Allowance at Rs. 45 per mensem for 6 clerks and 6 compounders (45 × 12 × 11)	5,940
Total ...	16,170

The cost will come from the provision of Rs. 1,24,00,000 made in the Second Five-Year Plan for the scheme of providing additional staff, equipment, etc. for existing medical institutions.

ITEM. 129. Scheme for expansion of Research in Medical Colleges and Hospitals in Bombay State.

Recurring	... Rs.	25,000	Non-recurring	... Rs.	25,000
Total	... ,,	50,000	Ultimate annual recurring	... ,,	.....

Remarks.—For the advancement of medical science, it is essential to provide adequate funds for conducting research in Medical Colleges and attached hospitals. It is therefore proposed to provide funds to the extent of about Rs. 50,000 (Rs. 25,000 recurring and Rs. 25,000 non-recurring) for the research schemes during the financial year 1956-57. The research schemes will be undertaken at the Government Medical and Dental Colleges and their attached hospitals.

The cost will come from the provision of Rs. 124 lakhs made in the Second Five-Year Plan for the Miscellaneous Schemes of the Medical Department.

ITEM 130. Opening of Dispensaries and Maternity Homes in merged State areas.

Recurrent ...	... Rs.	27,372	Non-recurrent ...	... Rs.	19,000
Total ...	... ,,	46,372	Ultimate annual recurrent	... ,,	.....

Remarks.—The former Baroda State Government accepted number of donations for the construction of Dispensaries, Maternity Homes, etc. and the question of executing and completing the works for which the donations were received was under the consideration of Government. Recently Government made provision for the construction of Dispensaries, Maternity Homes, etc., in merged State areas and also

administratively approved the several works. The following works are expected to be completed before the close of the current financial year 1955-56 and it will therefore be necessary to start the respective Dispensaries and Maternity Homes from 1st April 1956 :—

1. Balol Maternity Home.
2. Kolwada Maternity Home.
3. Unava Maternity Home.
4. Ramchandra Dispensary.
5. Magroda Dispensary.
6. Devkaran Mauda Dispensary.
7. Mangrol Maternity Home.

The proposal involves a recurring expenditure of Rs. 27,372 per annum and non-recurring expenditure of Rs. 19,000 as shown below :—

				Expenditure involved during the year 1956-57.

The expenditure will be met from the provision of Rs. 1,24,00,000 included in the Second Five-Year Plan for additional staff equipment, etc. for the existing medical institution.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 131. Haffkine Institute, Parel Bombay—Staff for manufacture of Hyperimmune Rabies Serum, Advianized Rabies Vaccine and Influenza etc., at the —

Recurrent	... Rs.	13,134	Non-recurrent ...	... Rs.	*Nil.*
Total	... „	13,134	Ultimate annual recurrent	... „	.....

Remarks.—The Expert Committee on Rabies under World Health Organisation at its conference held in Rome in 1953 has recommended that Hyperimmune rabies serum followed by vaccine should be used in all human cases of severe exposure to bites of rabid animals. This is based on the successful results obtained in Israel and Malaya in controlling the incidence of rabies amongst dogs by the use of chick embryo vaccine (Flurry Vaccine). The use of this vaccine will play a great part in ultimate control of rabies. On the basis of these findings the Haffkine Institute, which has got both the facilities and the technical know-how for the preparation of such serum and vaccine against rabies undertook their preparation on a small scale for experimental purposes. With the results now obtained it is found that the preparation of Hyperimmune rabies serum and that of advianised vaccine should be carried out as a routine measure with a view to their ultimate production on large scale at the Institute. The Pharmaceutical Enquiry Committee has strongly recommended the production of these two items for the control of rabies in animals and hydrophobia in man so that they may be more easily available all over the country. Besides these two, the Committee also recommended that scheme for preparation of influenza vaccine should be actively encouraged for prevention of large scale epidemics in the country, on the basis of the preliminary experimental work that is being carried out at present in the Haffkine Institute. Further work will be necessary to standardise the methods of preparation and concentration of the vaccine and methods of testing for the potency of the vaccine in experimental animals and men.

As the existing staff sanctioned by the Government for the Antirabic Department, is fully employed on the routine production of anti-rabic vaccine, which is increasing day after day, there is practically no staff for the effective continuance of abovementioned research activities as recommended by the Pharmaceutical Enquiry Committee. If further work is to be carried out on a wider scale as suggested by the Committee, the additional staff mentioned below is absolutely necessary for the purpose. The details of staff proposed and the extra expenditure involved in the proposal are as under :—

	Expenditure for 1956-57 Rs.
Pay of Establishment—	
2 Technicians (Scale Rs. 120—8—200—10—250)	2,640
1 Senior Laboratory Assistant (Scale Rs. 120—5—140—6—200) ...	1,320
2 Laboratory Assistants (Scale Rs. 75—3—105)	1,050
1 Clerk (Scale Rs. 75—5—140—E.B.—6—200)	825
4 Laboratory Attendants (Scale Rs. 40—1—50)	1,760
Total, Pay of Establishment ...	8,195
Allowances and Honoraria—	
Dearness Allowance—	
2 Technicians and 1 Sr. Laboratory Assistant at Rs. 50 p.m. (50 × 11 × 3). ...	1,650
2 Laboratory Assistants and 1 clerk at Rs. 45 p.m. 45 × 11 × 3 ...	1,485
4 Laboratory Assistants at Rs. 35 p.m. (35 × 11 × 4) ...	1,540
... .	4,675
House Rent Allowance—	
4 Laboratory Assistants at Rs. 6 p.m. (6 × 11 × 4)	264
Total, Allowances and Honoraria ...	4,939
Grand Total ...	13,134

The expenditure is proposed to be met from the provision of Rs. 124 lakhs provided in the Second Five-Year Plan for miscellaneous schemes under "38-Medical".

Item 132. Combined appointments of Principal, Medical Colleges and Superintendents of Civil Hospitals at Poona and Ahmedabad. Creation of—

Recurrent	... ...	Rs. 26,125	Non-recurrent	... Rs.	*Nil.*
Total	... ...	„ 26,125	Ultimate annual recurrent	... „	.....

Remarks.—There is no combined appointment of Principal of the Medical College and Superintendent, of the affiliated hospitals at Poona and Ahmedabad as in the case of the Principals, Grant Medical College Bombay, and Medical College, Baroda, who are also Superintendents of J. J. Group of Hospitals, Bombay and S. S. G. Hospital, Baroda, respectively. The senior-most Professors at the Medical Colleges at Poona

and Ahmedabad hold the post of Principal of the respective Colleges and get a special pay of Rs. 150 per mensem each for holding the additional charge. The B. M. S. Class I Civil Surgeons are in charge of Civil Hospitals in these districts. Though the existing arrangement at Poona and Ahmedabad is working satisfactorily, it would add to efficiency, if the teaching hospital and college at these stations are kept under one head as at Bombay and Baroda and the existing B. M.S. Class I posts of Civil Surgeons of the Districts are also continued for looking after the medical administration of the district and other professional work. In fact, such an arrangement exists at present in Baroda where there is a separate Civil Surgeon in charge of the Jamnabai Hospital and Maternity Home, Baroda.

2. The scale of pay of the combined appointment of Principal, Medical College and Superintendent, S. S. G. Hospital, Baroda, is Rs. 1,000—100—1,500. And, in addition, the incumbent of the post is also entitled to unfurnished bungalow or 10 per cent. of his pay as house rent allowance in lieu of it, provided he stays in a place approved by Government. It is proposed that the same scale of pay and allowances as are attached to the post at Baroda may be sanctioned for the combined appointment of (1) Principal B. J. Medical College and Superintendent, Sassoon Hospitals, Poona and (2) Principal, B. J. Medical College and Superintendent, Hathising and Premabhai Civil Hospital, Ahmedabad.

3. After the creation of the proposed combined appointment at Ahmedabad, the Civil Surgeon of the District will be relieved of his administrative work pertaining to the Civil Hospital. However, he will have to look after the administration of the Government Hospitals and dispensaries, grant-in-aid dispensaries and S. M. P. Centres in the Ahmedabad District. These duties involve correspondence for which it will be necessary to sanction two posts of clerks one in the scale of Rs. 100—8—140 and another in the scale of Rs. 46—130. Also one B. M. S. Class III Officer is required to assist the Civil Surgeon in his work and especially to look after his duties during his absence on tour, leave, etc. The existing posts of B. M. S. Class III Sub-charge at the Civil Hospital, Ahmedabad, can be transferred to the Civil Surgeon's Office.

4. Additional clerical staff may not be required as far as can be seen at present for the office of the Civil Surgeon, Poona, after the combined appointment of Principal, B. J. Medical College and Superintendent, Sassoon Hospitals, Poona, is created in view of the recent partial integration of the medical and public health activities in that District.

5. The proposal involves an extra expenditure of Rs. 26,125 as detailed below :—

	Rs.
Pay of Officers—	
Pay in the scale of Rs. 1,000—100—1,500 per mensem for 2 posts of Principal of Medical College and Superintendent of Civil Hospital, one each at Poona and Ahmedabad (1,000×11×2).	22,000
Honoraria, Allowances, etc—	
House rent allowance at Rs. 100 per mensem (i. e. 10 per cent. of the pay) each for 2 posts.	2,200
Dearness allowance at Rs. 100 per mensem each for two posts ...	2,200
	26,400
Less on account of special pay of Rs. 150 per mensem each at present granted to the Senior Professors at the B. J. Medical Colleges at Poona and Ahmedabad.	—3,300
	23,100
Pay of Establishment—	
Pay of one clerk in the scale of Rs. 100—8—140 (Average Rs. 130) ...	1,100
Pay of one clerk in the scale of Rs. 46—130 (Average Rs. 82) at Rs. 55 ...	605
Allowances, Honoraria, etc—	
Compensatory local allowance at Rs. 5 per mensem and House Rent Allowance at Rs. 10 per mensem respectively to each of the two clerks ...	330
Dearness allowance at Rs. 45 per mensem to each of the two clerks. ...	990
	26,125

The amount will come from the provision of Rupees 124 lakhs made for miscellaneous schemes of the Medical Department in the Second Five-Year Plan.

ITEM 133. Medical College Libraries—Grants for—

Recurrent ...	Rs. 28,500	Non-recurrent ...	Rs. 40,000
Total ...	,, 68,500	Ultimate annual recurrent ...	,, ...

Remarks.—The three Medical Colleges at Poona, Ahmedabad and Baroda, have become full-fledged colleges only recently and are still in the developmental stage. Although the Grant Medical College, Bombay, is an old and well established institution, still a majority of the existing books and Journals in

the Library are old and obsolete. In view of this, it is absolutely necessary to sanction additional grants for all the four Medical Colleges referred to above for bringing them to the standard of the former three medical colleges and in the case of the Grant Medical College, additional grants are necessary to bring the library upto-date. For purposes of keeping the standard of teaching and to be in touch with the modern trends of development in the medical science and methods of teaching and also to fullfil the requirements of the standards laid down by the Universities and the Medical Council of India, it is absolutely necessary to sanction additional grants for the purposes during the year 1956-57. The proposal involves a recurring expenditure of Rs. 28,500 and a non-recurring expenditure of Rs. 40,000 during the year 1956-57 and the same is proposed to be met from the provision of Rs. 124 lakhs made in the Second Five-Year Plan for Miscellaneous Schemes of the Medical Department.

The details of the expenditure is as shown below :—

	Rs.
Grant Medical College, Bombay	16,000
B. J. Medical College, Poona	20,500
B. J. Medical College, Ahmedabad	16,000
Medical College, Baroda	16,000
Total ...	68,500

ITEM 134. Sassoon Hospitals, Poona—Opening of third instalment of 95 additional beds at the —

Recurrent ...	... Rs. 28,196	Non-recurrent ...	... Rs. 1,00,000
Total ...	... ,, 1,28,196	Ultimate annual recurrent	... ,, ...

Remark—With the opening of 200 additional beds at the Sassoon Hospitals, Poona, recently, the total number of sanctioned beds has gone up to 505. However, according to the recommendations of the Medical Council of India, a minimum of 600 beds are required at the Sassoon Hospitals for teaching purposes since 100 medical students are being admitted to the B. J. Medical College, Poona, annually (the ratio of Medical Students to patients ranging from 1: 5 to 1: 7). It is, therefore, absolutely necessary to open 95 additional beds at the Sassoon Hospitals, Poona, bringing the total number of sanctioned beds to 600 (505 plus 95=600). It is proposed to open the beds from 1st January 1957 after completion of purchase of equipment during the year 1956–57.

The proposal involves recurring expenditure of Rs. 28,196 during the year 1956–57. A provision of Rs. 1,00,000 is also necessary for purchase of initial equipment, such as cots, Beside lockers, Chairs and other furniture, instruments and appliances, linen and bedding, enamelware and petty-supplies. The details of expenditure are as under :—

	Expenditure during 1956–57.
	Rs.
Pay of Officers—	
One post of Assistant Resident Medical Officer in the scale of Rs. 220—15—400—E.B.—20—500—E.B.—25—650	440
Pay of Establishment—	
Accountant—in the scale of 150—10—200	300
Upgrading the post of Steward from 150—10—200 to 200—10—500 ...	100
Compounder in the scale of 55—5—85—E.B.—4—125—5—130 ...	110

Expenditure will be met from the provision of Rs. 1,24,00,000 made in the Second Five-Year Plan for providing additional staff, equipment, etc., for existing medical institutions.

38, MEDICAL—contd.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 135. Seth Mafatlal Gagalbhai General Hospital, Navsari, District Surat—Staff for—

Recurrent ...	... Rs. 38,867	Non-recurrent ...	... Rs. 65,000
Total ...	... ,, 1,03,867	Ultimate annual recurrent	... ,, ..

Remarks.—The Baroda Government had sanctioned the construction of a Hospital with 40 beds at Navsari by accepting a donation from one Sheth Mafatlal Gagalbhai. The present Hospital at Navsari provides 16 beds, and it is proposed to provide 28 additional beds and 6—8 Maternity beds. The construction of the Hospital with the necessary facilities for X—Ray Department and Laboratory is nearing completion, and will soon be ready. It is proposed to appoint the following staff in addition to the staff sanctioned for the existing Hospital, for a period of one year in the first instance :—

	Number of appointments.
Bombay Medical Service Class III Officer	1
Laboratory Technician	1
X—Ray Technician	1
Clerk	1
Nurses	3
Midwives	1
Dresser	1
Ward servant	1
Sweepers	3
Watchman	1
Peon-ward servant	1

The proposal involves recurring expenditure of Rs. 38,867 on account of additional staff and contingencies. The non-recurring expenditure for the purchase of equipment including X—Ray Machine would be Rs. 65,000.

		Expenditure during 1956-57. Rs.

The expenditure will be met from the provision of Rs. 1,24,00,000 included in the Second Five-Year Plan from the Scheme of providing additional staff, equipment, etc. for existing Medical institutions.

38, MEDICAL— contd.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 136. Entertainment of additional staff at the Civil Hospital, Belgaum.

Recurrent	... Rs.	17,325	Non-recurrent ...	... Rs.	*Nil.*
Total ...	... ,,	17,325	Ultimate annual recurrent	... ,,	.....

Remarks.—The Civil Hospital, Belgaum, has a sanctioned accommodation for 155 beds only. The in-door and out-door attendance at the Civil Hospital, has of late increased abnormally as will be noticed from the following figures :—

Year.	Daily average in-door attendance.	Daily average out-door attendance.
1948	171·8	192·7
1949	174·5	187·9
1950	188·0	210·0
1951	192·6	240·0
1952	203·2	240·8
1953	218·9	278·4
1954	222·8	241·4

It is considered absolutely necessary to sanction the following posts immediately for smooth working of the Hospital :—

1. One separate post of Head Clerk in the scale of Rs. 100—8—140.
2. Redesignating the present post of Head Clerk and Steward as "Steward" and upgrading its scale of pay from Rs. 100—8—140 to 100—8—140—10—150.
3. Compounder in the scale of Rs. 55—3—85—E.B.—4—125—5—130.
4. Ten posts as shown under :—
   1 Theatre Attendant scale 40—1—45.
   1 Mukadam 35—1—45.
   2 Dressers, 30—½—35.
   1 Dispensary servant, 30—½—35.
   5 Ward Servants.
5. One post of cook in the scale of 30—½—35.
6. Two posts of cook-mates, at fixed pay of Rs. 25 per mensem for each post.
7. One post of Dhobi in the scale of 30—½—35.
8. One post of Barbar in the scale of 30—½—35.
9. One post of Tailor in the scale of 30—½—35.
10. Four posts of Sweepers in the scale 30—½—35.

The above proposal involves an extra expenditure of Rs. 17,325 during 1956–57.

				Expenditure for 1956-57.

Total, Allowance and Honoraria, etc. ...	8,965
Grand Total ...	17,325

The cost will come from the provision of Rs. 1,24,00,000 made in the Second Five Year Plan for providing additional staff, equipment etc. for the existing medical institutions.

ITEM 137. Additional grants for expenditure on diet to patients.

Recurrent ...	... Rs. 1,00,000	Non-recurrent ...	... Rs.	*Nil.*
Total ...	... " 1,00,000	Ultimate Annual recurrent	... "	....

Remarks.—There have been complaints from the public about diets given to patients at Government Hospitals. With a view to improving the position, Government has already revised the diet scales on the advice of the Department of Nutrition and introduced the revised scales at all the Government Hospitals. Steps have also been taken to prevent any leakage of ration or food. An additional reason which gives rise to such complaints from the public is the inability of the Medical Officers in charge of certain Hospitals to give diet to all deserving cases owing to inadequacy of grants under 'Diet to Patients.' It is, therefore, proposed that all deserving cases admitted to Civil Hospitals in the Mofussil should be given diet. The number of deserving cases works out to about 80 per cent of the total number of patients admitted to the Civil Hospitals excluding patients who are allowed "Home Diet" at their own request. An additional provision of Rs. 1,00,000 is therefore proposed to be sanctioned during 1956-57.

The cost will come from the provision of Rs. 1,24,00,000 included in the Second Five Year Plan for providing additional staff, equipment etc. for existing Medical Institutions.

38, *MEDICAL*—contd.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 138. Civil Hospital, Ahmedabad—Essential equipments required for—

Recurrent ...	... Rs.	*Nil.*	Non-recurrent ...	... Rs.	3,00,000
Total ...	... "	3,00,000	Ultimate annual recurrent	... "	*Nil.*

Remarks.—The Civil Hospital, Ahmedabad, has at present 333 beds. The number of in-patients at the Civil Hospital, Ahmedabad, has gone up to about 500 patients daily. In order to make available proper medical facilities to the patients at the hospital and for smooth working of the hospital it is considered necessary that the Civil Hospital, Ahmedabad, should be adequately equipped with equipments etc. immediately required by it. The non-recurrent expenditure involved in the proposal during the year 1956-7 comes to Rs. 3,00,000.

Non-recurrent Expenditure.	Expenditure during 1956-57.
	Rs.
Equipment for Central and Out-Patiert Department Laboratories	53,100
Equipment for opening 3 more Ward Laboratories ...	6,900
10 Utensils sterilisers (Bowls, Gindis etc). ...	50,000
1.500 M.A. X-Ray with tomograph attachment ...	50,000

1 Apparatus Sine Sidal current	1,000
40 Electric X-Ray viewing boxes in all Wards	10,000
25 Marble top tables for Ward Pantries. ...	5,000
	3,00,000

The cost will come from the provision of Rs. 1,24,00,000 made in the Second Five Year Plan for providing additional staff, equipment, etc. for existing medical institutions.

ITEM 139. Increase in the in-door accommodation of the S. S. G. Hospital, Baroda.

Recurrent ..	Rs.	33,116	Non-recurrent ..	Rs.	5,000
Total ..	"	38,116	Ultimate annual recurrent ..	"	.....

Remarks.—The Board of visitors of the M. S. University of Baroda has recommended that the indoor accommodation of the S. S. G. Hospital, Baroda, which consists of 399 beds, should be increased by 43 beds. It is felt that increased in-door accommodation at the S. S. G. Hospital, Baroda would facilitate students' instructions, by giving students more opportunities to examine patients and do more clinical work. The annual admission of students to the Medical College, Baroda, has been increased to 60 with a hope that the in-door accommodation of the hospital will also be increased. During the year 1955-56, Government sanctioned additional 21 beds for the S. S. G. Hospital, Baroda, and directed that the proposal to increase the remaining number of beds recommended by the Board of visitors, may be considered during the year 1956-57. It is absolutely necessary to increase the in-door accommodation of the S. S. G. Hospital, Baroda, further by 22 beds. This proposal involves recurring

expenditure of Rs. 33,116 on account of additional staff and contingencies. The non-recurring expenditure for the purchase of initial equipment and furniture would be Rs. 5,000. The details of the expenditure is as shown below :—

	Expenditure involved during the year 1956-57 (11 months).
	Rs.
Pay of Establishment.	
Nursing Establishment—	
1 Sister—(Rs. 125—5—150—10—200) (Ave. 168) (125 × 1 × 11)	1,375

The cost will come from the provision of Rs. 124 lakhs included in the 2nd Five Year Plan for the Scheme of providing additional staff, equipment etc. at the existing medical institutions.

38, MEDICAL—contd.

MINISTER IN CHARGE—SHRI S. H. SHAH.

ITEM 140. Creation of posts of Personal Assistants to the Civil Surgeons and Medical Officers in charge of large Government Hospitals.

Recurrent ...	... Rs.	20,845	Non-recurrent ...	... Rs.	*Nil.*
Total ...	... ,,	20,845	Ultimate annual recurrent	... ,,	.....

Remarks.—The Superintendents of the Hospitals and the Civil Surgeons are at present so overworked both with the professional and non-professional duties at the Hospital proper that they cannot properly attend to all these duties. Besides Civil Surgeons are in charge of the administration of the various Hospitals and Dispensaries in the District under their control. It is considered that if non-medical persons with the basic qualification of B.Com. are appointed as Personal Assistants to the Superintendents/Civil Surgeons, they would relieve the Superintendents/Civil Surgeons concerned to an appreciable extent of the administrative responsibilities of the post in respect of correspondence, accounts work and other miscellaneous lay matters in connection with the Hospitals and Dispensaries which are at present looked after by them and would facilitate their devoting more time to their professional duties and for better and more effective control over the professional and other administrative duties under the control of the Superintendents/Civil Surgeons concerned. It is, therefore, suggested that some G. S. S. posts of Personal Assistants in the scale of pay of Rs. 200—10—280—15—340—20—400 (mofussil) may in the first instance be sanctioned to the following officers:—

1. Superintendent, J. J. Group of Hospitals, Bombay.
2. Superintendent, S. S. G. Hospital, Baroda.
3. Civil Sargeon, Poona,
4. Civil Surgeon, Ahmedabad,
5. Civil Surgeon, Kolhapur,
6. Civil Surgeon, Belgaum,
7. Civil Surgeon, Nasik.

At present the Civil Surgeon, Poona has been relieved to a considerable extent of his administrative duties of control of Institutions in the District after the intergation of the medical relief work with the Public Health Department. But as the combined appointment of Principal, B. J. Medical College and Superintendent, Sassoon Hospitals, Poona is contemplated, the post of Personal Assistant to Civil Surgeon, Poona, can be transferred under the combined appointment, as for the Superintendent, J. J. Group of Hospitals and Principal, Grant Medical College, Bombay

The duties of the proposed posts of Personal Assistants to the Medical Officers referred to above will be as follows :—

1. He will be in charge of the administrative side of the Institution and in charge of the lay administration of the Hospital e.g. office, Stewards Section, Kitchen, Linen Department.
2. He will sign the establishment salary and other bills of the officials under the control of the Civil Surgeon, Superintendent.
3. He will be responsible for the disposal of non-professional and routine correspondence of the Hospital.
4. He will watch the progress in expenditure of the Institute with reference to relative budget grants.
5. He will attend promptly to the complaints from the public.
6. He will be responsible to the Civil Surgeon/or Superintendent in the discharge of his duties.
7. He will have to furnish a security of Rs. 2,000 as he will be in charge of Hospital finances.

The proposal involves an extra expenditure of Rs. 20,845 as detailed below :—

	Expenditure for 11 months.
	Rs.
1. Pay of the Personal Assistant to the Superintendent, J. J. Group of Hospitals, Bombay, scale of pay Rs. 200—10—280—15—340—20—400 (Mofussil).	2,200
Compensatory local allowance at Rs. 50 per mensem	550
House rent allowance at a rate equal to 15 per cent. of pay	330
Dearness allowance at Rs. 55 per mensem	605
2. Pay of the Personal Assistants to the Civil Surgeons, Poona and Ahmedabad (two posts).	4,400
House rent allowance at a rate equal to 7½ per cent. of pay (two posts)	300
Dearness allowance at Rs. 55 per mensem (two posts)	1,210
3. Pay of the personal assistants to (1) Superintendents, S. S. G. Hospital, Baroda and (2) Civil Surgeons, Kolhapur, Belgaum, Nasik (four posts).	8,800
Dearness allowance at Rs. 55 per mensem (four posts)	2,420
	20,845

The expenditure will be met from the provision of Rs. 1,24,00,000 included in the Second Five-Year Plan for providing additional staff, equipment, etc. on the existing medical institutions.

MINISTER IN CHARGE—SHRI S. H. SHAH.

ITEM 141. Supply of Refrigerators to the Taluka Hospitals and Dispensaries maintained by Government.

Recurrent	... Rs.	8,160	Non-recurrent	... Rs.	1,38,120
Total	... ,,	1,46,280	Ultimate annual recurrent	... ,,	.....

Remarks.—At most of the Government hospitals and dispensaries at Taluka places in this State there are no cold-storage facilities as a result of which it has not been possible to provide facilities for antirabic treatment. For this purpose, as well as for the purpose of keeping certain drugs such as Vitamins, Anti-Biotics, Serums, Plasma etc., it is absolutely necessary to have a refrigerator. The refrigerator can also be used for keeping specimens of Blood taken in medico-legal-cases till they are sent for chemical analysis. There are 72 Taluka Government hospitals and dispensaries in the State (excluding those in Poona and Baroda Districts) which require refrigerators.

The proposal involves a recurrent expenditure of Rs. 8,160 and non-recurrent expenditure of Rs. 1,38,120 during the year 1956-57 as shown below :—

Recurrent Contingencies—

Maintenance of Refrigerators	8,160

Non-recurrent—

For purchase of 8 refrigerators of 7·3 cubic feet capacity at Rs. 2,345 each, and 64 refrigerators of 5·0 cubic feet capacity at Rs. 1,865 each.	1,38,120
Total ...	1,46,280

The expenditure will be met from the provision of Rs. 1,24,00,000 made in the Second Five Year Plan for the Scheme for providing additional staff, equipment etc., to the existing medical institution.

ITEM 142. Prosthetic Dentistry Clinic at St. George's Hospital, Bombay.

Recurrent ..	.. Rs.	10,010	Non-recurrent ..	Rs.	5,000
Total ..	.. ,,	15,010	Ultimate annual recurrent	.. ,,	..

Remarks.—There is at present a heavy demand for dentures at the dental clinic at the Sir C. E. M. Dental College and Hospital Bombay. In order to release some pressure at the clinic and in order to meet the demand of the public for dentures at cheaper cost Government proposes to establish a Prosthetic Dentistry Clinic at St. George's Hospital during the year 1956 57. The estimated cost on this account is estimated at Rs. 15,010 per mensem details of which are given below :—

Recurrent—

Staff—

(i) One Dental Surgeon, (in General State Service) (Rs. 220—15—400—E.B.—20—50—E.B.—25—650)	(a) Pay Rs. 220 × 11 ..	2,420
	(b) BCA Rs. 50 × 11 ..	550
	(c) Compensatory Allowance for loss of Private Practice Rs. 50 × 11. ..	550
	(d) Dearness Allowance Rs. 60 × 11 ..	530
	(e) House Rent Allowance Rs. 33 ×11 ..	660
		363
		4,543
(ii) One Dental Mechanic, (Rs. 140—10—220) ..	Pay Rs. 140 × 11 ..	1,540
	Dearness Allowance Rs. 50 × 11 ..	550
	House Rent Allowance Rs. 20 × 11 ..	220
	B. C. A. Rs. 12/8 × 11 ..	137
		2,447

			Rs.
(*iii*) One Clerk, (Scale Rs. 55—3—85—E.B.—4—125—5—130).	Pay Rs. 55 × 11	..	605
	Dearness Allowance Rs. 45 × 11	..	495
	House Rent Allowance Rs. 15 × 11	..	165
	B. C. A. Rs. 7-8 × 11	..	83
			1,348
(*iv*) Two Laboratory Servants ,(Rs. 35—1—40) ..	Pay Rs. 35 × 11 × 2	..	770
	Dearness Allowance Rs. 35 × 11 × 2	..	770
	House Rent Allowance Rs. 6 × 11 × 2	..	132
			1,672
	Total on account of pay and Allowances	..	10,010
Non-Recurrent—Dental Materials			5,000
	Grand Total	..	15,010

As against the expenditure of Rs. 15,010 the estimated receipts are expected to be Rs. 16,000. The expenditure of Rs. 15,010 will be met from the lump sum provision of Rs. 124 lakhs made in the Second Five-Year Plan for Miscellaneous Schemes of the Medical Department.

ITEM 143. J. J. Group of Hospitals, Bombay.
Starting of a small Thoracic Unit including a Unit for Cardiac Catheterization at the—

Recurrent ...	... Rs.	4,950	Non-recurrent ...	... Rs.	59,000
Total ...	... ,,	63,950	Ultimate annual recurrent	... ,,	.....

Remarks.—In order to facilitate investigations of all Cardiac and respiratory cases and particularly cases requiring Chest surgery it is proposed to organise a small Thoracic Unit including a unit for Cardiac Catheterization at the J. J. Group of Hospitals, Bombay.

The Unit will be in charge of one of the Honorary Surgeons at the J. J. Group of Hospitals, Bombay who is interested in the development of Cardiovascular and Pulmonary Surgery, with the assistance of—

(1) one Assistant Honorary Surgeon trained and experienced in Chest Surgery—Honorarium Rs. 100 per month.

(2) one Honorary Medical Officer (with special training and experience in Cardiac Catheterization work) in charge of Cardiac Catheterization—Honorarium Rs. 100 per month.

It will also be necessary to purchase equipment for Cardic Catheterization Unit. The estimated cost of the equipment is Rs. 1,25,000. Of the amount of Rs. 1,25,000 the Superintendent J. J. Group of Hospitals Bombay, will meet the expenditure to the extent of Rs. 66,000 from the collections made at the time of the J. J. Hospital Centenary Celebration in 1944. The remaining expenditure of Rs. 59,000 (Rs. 1,25,000 less Rs. 66,000) for purchase of equipment will have to be sanctioned by Government. In addition to this there will be recurring expenditure of Rs. 3,000 per annum on maintenance of equipment, electricity charges, etc. The Unit will work in collaboration with the Medical Units of the J. J. Group of Hospitals, who are responsible for electro-Cardiagraph work.

The proposal involves recurring and non-recurring expenditure of Rs. 4,950 and Rs. 59,000 respectively. The details of which are given below. The cost will come from the provision of

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

Rs. 1,24,00,000 included in the Second Five Year Plan, for providing additional staff, equipment, etc for medical institutions.

	Expenditure required during 1956-57.
Recurring Expenditure—	
One post of Assistant Honorary Surgeon on honorarium of Rs. 100 p.m. and one post of Honorary Medical Officer in charge of Cardiac Catheterization on honorarium of Rs. 100 per month. (2 × 100 × 11).	2,200
Maintenance of equipments, electricity charges etc.,@Rs. 3,000 per year...	2,750
(*Recurring*) Total ...	4,950
Non-recurring—	
Equipment for Cardiac Catheterization Unit Rs. 1,25,000 *less* Rs. 66,000 to be made available from Centenary Celebration Fund.	59,000
(*Non-recurring*) Total ...	59,000
Grand Total ...	63,950

ITEM 144. Holding of Surgical Camps in the State of Bombay.

Recurrent	..	.. Rs. 40,000	Non-recurrent	.. Rs.	*Nil.*
Total	..	.. „ 40,000	Ultimate annual recurrent	.. „	.....

Remarks.—As in the case of the Eye Camps which have become a regular feature of this Department, it is proposed that surgical camps should also be held in different Districts so as to afford facilities for treatment of surgical cases in the rural areas in the districts where such facilities are not available. Accordingly, it is proposed to hold two surgical camps in a year. In pursuance of the above policy, the first surgical camp was held departmentally in February 1955, at Deogad-Baria in the District of Panchmahals. The expenditure incurred on this camp amounted to Rs. 34,368 which included expenditure on equipments and instruments which were specially purchased for the camp with a view that those equipments would be utilised for surgical camps in future. The second camp was recently held at Jamkhandi, District Bijapur in December 1955, and an amount of Rs. 19,670 was sanctioned on its account. As it is proposed to hold two surgical camps a year, it is estimated that the recurrent expenditure on these two camps would come to about Rs. 40,000 per annum at Rs. 20,000 per camp. It is, therefore, essential that a provision of Rs. 40,000 is made in the next year's budget i.e., 1956-57 to cover the expenditure on two surgical camps as detailed below :—

	Rs.
Diet to Patients	6,000
Medicines and Equipment	20,000
Transport Charges	1,000
Lighting charges	1,000
Petrol and Publicity	1,600
Travelling Allowance and Dearness Allowance to Surgeons	4,000
Establishment	2,400
Miscellaneous Expenditure	4,000
Total ..	40,000

3. The expenditure will be met from the provision of Rs. 1,24,00,000 made in the Second Five Year Plan, for providing additional staff, equipment and alterations etc., for existing Medical Institutions.

38 *MEDICAL*—contd.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 145. Civil Hospital, Sholapur—additional staff of Class IV Servants for the—

Recurrent	Rs.	17,710	Non-recurrent	Rs.	*Nil*
Total	„	17,710	Ultimate annual recurrent ..	„	.....

Remarks.—The sanctioned number of beds at the Civil Hospital, Sholapur is 95. The daily average indoor and outdoor attendance at the Hospital has of late gone very high. The figures of indoor and outdoor attendance for the year 1954 are 165·7 and 257·9 respectively. The staff of Class IV Servants at the Civil Hospital has not, however, been increased proportionately to the attendance of patients and the Civil Surgeon has represented for 17 additional posts of Ward-Servants and six additional posts of Sweepers. The staff asked for is admissible and it is considered absolutely necessary to sanction these posts in the interest of smooth working of the Hospital..

The provision required during the year 1956-57 is Rs. 17,710 as shown below :—

	Expenditure during 1956-57. Rs.
Pay of establishment.	
17 posts of ward servants in the scale of Rs. 30—½—35— 30 × 17 × 11 months	5,610
6 posts of Sweepers in the scale of Rs. 30—½—35— 30 × 6 × 11 months	1,980
Allowances and Honoraria etc.—	
House rent at Rs. 5 per servant for 23 posts.— Rs. 5 × 23 × 11	1,265
Dearness allowance at Rs. 35 per servant for 23 posts— Rs. 35 × 23 × 11	8,855
Total ..	17,710

The cost will come from the provision of Rs. 1,24,00,000 included in the 2nd Five-Year Plan for providing additional staff, equipment, etc. for existing medical institutions.

ITEM 146. B. J. Medical College, Ahmedabad—Additional moveable furniture for the—

Recurrent ..	Rs.	*Nil.*	Non-recurrent ..	Rs.	68,229
Total ..	„	68,229	Ultimate annual recurrent ..	„	....

Remarks.—In view of the increase in number of admissions from 60 to 100 and also in view of certain additional staff sanctioned at the B. J. Medical College, Ahmedabad the need for additional movable furniture was keenly felt, and accordingly Government sanctioned an expenditure of Rs. 68,229 for additional furniture during the year 1955-56, out of the total requirements of furniture estimated to cost Rs. 1,36,458. It is now proposed to sanction the remaining expenditure of Rs. 68,229 during the year 1956-57 in order to enable purchasing of the remaining additional furniture for the college. The expenditure will be financed from the provision of Rs. 124 lakhs made in the Second Five-Year Plan for miscellaneous Schemes of the Medical Department.

ITEM 147. Providing additional staff equipment etc. at the existing Institutions of the Medical Department. Additional Nursing staff to non-teaching Government Hospitals according to the ratio of 1 Nurse to 5 sanctioned beds.

Recurrent ...	Rs.	27,156	Non-recurrent ...	Rs.	*Nil.*
Total ...	„	27,156	Ultimate annual recurrent ...	„	.....

Remarks.—The proposal submitted in this item forms part of the general provision made for providing additional staff equipment etc. at the existing Institutions in the Second Five Year Plan of the Medical Department.

Additional Nursing staff is sanctioned at the training schools of nurses, from time to time in order to fulfil the requirements of the Bombay Nursing Council. But as the Council is not concerned with the appointment of nursing staff at the non-teaching Government Hospitals, these hospitals are generally neglected and are very much under staffed. The accepted ratio of appointment of nursing staff at non-teaching hospitals is 1 nurse to 5 beds. It is found necessary to create 3 sisters in the scale of pay of Rs. 125—5—150—10—200 and 39 additional posts of staff nurses in the scale of pay of 80—5—100 plus

usual allowances at the following hospitals. The information regarding sanctioned beds at these hospitals average indoor cases for the year 1952, 1953 and 1954 the present nursing staff and the additional Nursing staff required to fulfil the ratio of 1 nurse to 5 beds is given below :—

Name of the Hospital.	Sanctioned beds.	Average indoor patients.			Present Nursing staff.	additional staff nurses.	
		1952	1953	1954			
1. C. H. Alibag	28	21·6	28·4	28·4	4	1	
2. C. H. North Satara	50	48·1	44·7	47·2	8	1	1Sr.
3. L. W. Hospital, Devgad-Baria, Panchmahals ...	46	57	54·6	52·9	4	4	1Sr.
4. Hospital for Diseases of the Chest, Aundh ...	155	141	135	143·6	22	9	
5. C. H. Rajpipla District Broach	40	26·2	35·8	51·1	2	4	1Sr.
6. K. E. M. Hospital, Ichalkaranji, District Kolhapur.	14	12·4	14·0	11·55	2	1	
7. Cottage Hospitals, Dahanu, District Thana ...	30	.....	.....	30·0	3	1	
8. C. H. Broach	36	46·8	49·9	63·2	6	1	
9. Steele Hospital, Chhota Udepur, District Baroda.	30	15·6	14·4	16·2	1	2	
10. Cottage Hospital, Dakore District Kaira ...	30	17	22·5	25·5	2	2	
11. C. H. Ratnagiri	38	41·4	36·7	47·3	4	3	
12. S. P. Sanatorium, Baroda	11	95	75	69	12	10	
						39	

Following staff is proposed to be sanctioned during the year 1956-57 :—

	Additional staff nurses required.
(1) Civil Hospital, Alibag	1
(2) Civil Hospital, North Satara	1
(3) L. W. Hospital, Devgad-Baria (District Panchmahals) ...	1
(4) Hospital for Diseases of the Chest, Aundh	4
(5) Civil Hospital, Rajpipla, District Broach	2
(6) Steele Hospital, Chhota Udepur, District Baroda ...	1
(7) Cottage Hospital, Dakore, District Kaira	1
(8) Civil Hospital, Ratnagiri	1
(9) S. P. Sanatorium Baroda	3
Total ...	15

The proposal involves an extra expenditure of Rs. 27,156 during the year 1956-57 as shown below :—

	For the year 1956-57.
	Rs.
Pay of Nursing Establishment—	
Fifteen Staff nurses 80—5—100 (average 97) 80×15×11...	13,200
Allowances, Honoraria etc.—	
House rent and other Allowances—	
House rent allowance 10×15×11	1,650
Messing allowance 60×4×11	2,640
45×11×11	5,445
Uniform allowance 6¼×15×11	1,031
Dhobi Allowance 3×15×11	495
Camp Allowance 5×4×11	220
Total ...	11,481
Dearness Allowance—	
At Rs. 15×15×11	2,475
Total, Allowances, Honoraria etc. ...	13,956
Grand Total ...	27,156

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 148. Revision of clothing scales at Mental Hospitals.

Recurrent	Rs.	78,900	Non-recurrent	Rs.	*Nil.*
Total	„	78,900	Ultimate annual recurrent ...	„	.....

Remarks.—There is at present no uniformity in the clothing scales of patients at different Mental Hospitals in the State. In some hospitals it is very liberal, for example. Central Mental Hospital, Yeravda, whereas in the other hospitals it is inadequate. With a view to having uniformity in this respect, a new scale standardising supply of clothing to patients at all the Mental Hospitals in this State has been formulated in consultation with the Superintendents of all the Mental Hospitals, and already introduced at the Central Mental Hospital, Yeravda, with effect from 6th November 1958. In the interest of uniformity, it is absolutely necessary to adopt uniform clothing scales at all the Government Mental Hospitals.

The proposal involves a recurring expenditure of Rs. 78,900.

ITEM 149. Establishment of a Leprosy Subsidiary Centre under the Second Five Year Plan.

Recurrent	Rs.	58,357	Non-recurrent	Rs.	33,000
Total	„	91,357	Ultimate annual recurrent ..	„	....

Remarks.—From the rough Survey and Statistics available, it is believed that there are nearly 90,000 leprosy patients in the State, whereas the accommodation available for them at present is for 2,200 patients which is quite inadequate. It is not possible to accommodate all of them in the Hospital. As sufficient Hospital accommodation is not available, it is proposed to establish 10 Leprosy Subsidiary Centres in the endemic areas in the State during the period of plan, whereby treatment could be given in the very early stage of the disease in order to avoid its spread and reduce demand on additional Hospital accommodation. One Leprosy Subsidiary Centre is required to be established in the year 1956-57. It is therefore proposed to establish this centre in the District of Belgaum or Dharwar where the incidence of leprosy is high, on the basis of the Subsidiary Centre, established at Vairag, Taluka Barsi, District Sholapur. The proposal involves recurring and non-recurring expenditure of Rs. 58,357 and Rs. 33,000 respectively, the details of which are given below :—

	Expenditure required during 1956-57 for 11 months.
	Rs.
Recurring expenditure for treatment Units —	
(1) Two Medical Officers (One Senior and the other Junior) in the scale of pay of Rs.220—15—400—E.B.—20—500—E.B.—25—650—(Average Rs. 431)—	
(*i*) Pay Rs. 220×2×11=Rs. 4,840	4,840
(*ii*) Special pay to the Senior Medical Officer at Rs. 100 per mensem Rs. 100×11=Rs. 1,100	1,100
(*iii*) Dearness Allowance to Senior Medical Officer at Rs. 70 per mensem and the Junior Medical Officer at Rs. 60 per mensem Rs. 130×11= Rs. 1,430	1,430
(*iv*) Loss of Private Practice allowance at Rs. 50 per mensem each Rs. 100×11=Rs. 1,100	1,100
(*v*) House rent allowance at Rs. 25 per mensem each Rs. 50×11= Rs. 550	550
(2) Four Non-Medical Assistants or Health Visitors (2 Males and 2 Females) in the scale of pay of Rs. 100—5—125—6—185—(Average 153)—	
(*i*) Pay Rs. 100×11×4=Rs. 4,400	4,400
(*ii*) Dearness Allowance at Rs. 15 per mensem each Rs. 60×11=Rs. 660.	660
(*iii*) Messing allowance at Rs. 45 per mensem each Rs. 180×11= Rs. 1,980	1,980
(*iv*) House rent allowance at Rs. 10 per mensem each Rs. 40×11=Rs. 440.	440
(*v*) Uniform allowance at Rs. 6-4-0 per mensem each Rs. 25×11 = Rs. 275	275
(*vi*) Washing allowance at Rs. 3 per mensem each Rs. 12×11=Rs. 132 ..	132
(*vii*) Leprosy Allowance at Rs. 15 per mensem each Rs. 60×11=Rs. 660.	660

38, MEDICAL—contd.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

	Expenditure required during 1956-57 for 11 months.
	Rs.
(3) Two compounders in the scale of pay of Rs. 55—3—85—E.B.—4—125—5—130—(Average Rs. 91)—	
(*i*) Pay Rs. 110×11=Rs. 1,210	1,210
(*ii*) Dearness Allowance at Rs. 45 per mensem each Rs. 90×11=Rs. 990.	990
(4) Two Peons in the scale of pay of Rs. 30—½—35—Average Rs. 33—	
(*i*) Pay Rs. 60×11=Rs. 660	660
(*ii*) Dearness Allowance at Rs. 35 per mensem each Rs. 70×11=Rs. 770	770
(5) One Driver in the scale of pay of Rs. 50—2—60—(Average Rs. 57)—	
(*i*) Pay Rs. 50×11=Rs. 550	550
(*ii*) Dearness Allowance at Rs. 35 per mensem Rs. 35×11=Rs. 385 ..	385
(6) One cleaner in the scale of pay of Rs. 30—½—35—(Average Rs. 33)—	
(*i*) Pay Rs. 30×11=Rs. 330	330
(*ii*) Dearness Allowance at Rs. 35 per mensem Rs. 35×11=Rs. 385 ..	385
Total, Treatment Units ..	22,847
(II) *For Administration Unit*—	
(1) One Senior clerk in the scale of pay of Rs. 100—8—140 (average Rs. 130)—	
(*i*) Pay Rs. 100 × 11 = Rs. 1,100	1,100
(*ii*) Dearness Allowance at Rs. 45 per mensem Rs. 45 × 11 = Rs. 495 ..	495
(2) Two clerks (one Record clerk and the other Stores clerk) in the scale of pay of Rs. 55—3—85—E.B.—125—5—130—(average Rs. 91)—	
(*i*) Pay Rs. 110 × 11 = Rs. 1,210	1,210
(*ii*) Dearness Allowance at Rs. 90×11=Rs. 990 (Rs. 45 per mensem each.)	990
(3) One sweeper in the scale of pay of Rs. 30—½—35—(average Rs. 33)—	
(*i*) Pay Rs. 30×11=Rs. 330	330
(*ii*) Dearness Allowance at Rs. 35 per mensem Rs. 35 × 11 = Rs. 385 ..	385
Total, Administration Unit ..	4,510
Total, Treatment and Administration Units ..	27,357
Other Recurring Expenditure—	
(1) Cost of drugs for about 1,250 patients at Rs. 12 per patient per year ..	15,000

(5) Equipment for Publicity	8,000
Total ..	33,000
Grand Total ..	91,357

38, *MEDICAL*—contd.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 150. Increase in the number of beds at the Hospital for Diseases of the Chest, Camp Aundh, Poona.

Recurrent	Rs. 2,43,975	Non-recurrent	Rs. 7,000
Total	,, 2,50,975	Ultimate annual recurrent ..	,, ...

Remarks.—In view of the high incidence of tuberculosis during the recent years and as there was no hospital maintained by Government for the treatment of patients suffering from T. B. in the State of Bombay, Government started one such hospital at Aundh, District Poona, called "The Hospital for Diseases of the Chest, Camp Aundh, Poona" with effect from 1st April 1949. In fact it was the intention of Government to open two such hospitals of at least 300 beds each during the First Five Year Plan, but due to lack of sufficient finances, it had to be content with only one hospital at Aundh and could provide expenditure during the last two years which was just sufficient for the maintenance of only 125 beds. The incidence of the disease is ever on the increase. The existing facilities for the treatment of patients provided by Government, Semi-Government or private bodies fall far short of the actual requirements and it is imperative that Government should expand the facilities to the greatest extent possible in order to keep a check on further spread of the disease. There is pressing demand for admission to the Hospital for Diseases of the Chest, Aundh, and there is already a large number of applicants who have been selected for admission, but put on the waiting list for want of accommodation. As the patients admitted to the hospital remain for a long periods in a majority of cases it is very difficult to make room for new admissions unless the existing accommodation is increased. In view of the facts mentioned above, it is proposed to expand the existing accommodation at the Hospital for Diseases of the Chest, Aundh to 300 beds from the year 1956-57.

The proposal involves a recurring expenditure of Rs. 2,43,975 and a non-recurring expenditure of Rs. 7,000 during the year 1956-57 as shown below :—

	Expenditure during 1956-57.
Pay of Officers—	Rs.
1 Full-time Anaesthetist in the scale of Rs. 350—30—650—E.B.—45—1,100 (Probationers on Rs. 300 per mensem) (Rs. 300 × 11).	3,300
3 B. M. S. Officers in the scale of Rs. 120—6—180—E.B.—8—260—E.B.—10—300. (Rs. 120 × 3 × 11).	3,960
Total, Pay of Officers ..	7,260
Pay of Nursing Establishment—	
5 Sisters (including one Night Superintendent) in the scale of pay of Rs. 125—5—150—10—200. (Rs. 125 × 5 × 11).	6,875
Special pay of Rs. 30 per mensem for Night Superintendent	330
15 Staff Nurses in the scale of pay of Rs. 80—5—100. (Rs. 80 × 15 × 11) ..	13,200
Total, Pay of Nursing Establishment ..	20,405
(*iii*) *Pay of Superior Establishment—*	
1 Steward in the scale of Rs. 150—10—200. (Rs. 150 × 11)	1,650

Rents, rates and taxes	6,417
Supplies and services—	
Diet to patients	70,584
Medicines and Instruments	18,334
Clothing to patients	3,210
Total, Contingencies ..	1,43,004
Non-recurring expenditure—	
Purchase of furniture	3,500
Purchase of dead stock	3,500
Grand Total, Contingencies ..	1,50,004
Grand Total ..	2,50,975

The item will be financed from the provision of Rs. 20 lakhs made in the 2nd Five-Year Plan for control of T. B.

38, MEDICAL—contd.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 151. Cottage Hospital at Saundatti, District Belgaum—Establishment of—

Recurring	.. Rs.	31,720	Non-recurring	.. Rs.	35,000
Total	.. „	66,720	Ultimate annual recurrent	.. „	....

Remarks.—In order to provide increased medical facilities to the population of rural areas nearer their homes, Government has approved a scheme for the establishment of Cottage Hospitals in all the districts of the State of Bombay. These Cottage Hospitals are intended to serve as a link between the S. M. P. Centres and Rural Dispensaries and the District H adquarters Hospitals. Eight Cottage Hospitals have been established so far. It is proposed to establish 18 more Cottage Hospitals during the course of the Second Five-Year Plan. The construction of the building of the Cottage Hospital at Saundatti, District Belgaum, was undertaken during the First Five-Year Plan period and will be completed early in 1956-57. After completion of building it will be necessary to start this Cottage Hospital with 25 beds. It is, therefore, proposed to sanction the following staff and expenditure for the Cottage Hospital at Saundatti, District Belgaum. The staff is proposed to be sanctioned for a period of one year in the first instance.

The proposal involves a recurring expenditure of Rs. 31,720 and non-recurring expenditure of Rs. 35,000 during 1956-57 as shown below:—

	Cost during 1956-57.
	Rs.
1. B.M.S. Class II Officer (scale of Rs. 220—15—400—E. B.—20—500—E. B.—25—650) (Av. Rs. 431)	2,420
Total, Pay of Officers ..	2,420
2. *Pay of Establishment*—	
1 B.M.S. Class III Officer (scale of Rs. 120—6—180—E. B.—8—260—E. B.—10—300) (Av. Rs. 196)	1,320
2 Compounders (scale of Rs. 55—3—85—4—125—5—130) (Av. Rs. 91) ..	1,210
1 Clerk (scale of Rs. 55—3—85—4—125—5—130)	605
1 Nursing Sister (Rs. 125—5—200) (Av. 168)	1,375
4 Staff Nurses (Rs. 80—5—100) (Av. 97)	3,520
4 Ward Servants (Rs. 30—½—35) (Av. 33)	1,320
2 Sweepers (Rs. 30—½—35) (Av. 33)	660
1 Laboratory Servant (Rs. 30—½—35) (Av. 33)	330
1 Dispensary Servant (Rs. 30—½—35) (Av. 33)	330
1 Watchman (Rs. 30—½—35) (Av. 33)	330
Total, Pay of Establishment ..	11,330
3. *Allowances, Honoraria, etc.*—	
House rent and other allowances—	
Compensatory allowance for loss of private practice to B.M.S. Class II Officer, at Rs. 50 per mensem	550
Messing allowance to Nursing Staff at Rs. 45 per mensem each	2,475

ITEM 153. Bombay Medical Service Class III posts—Conversion of — into Bombay Medical Service Class II posts.

Recurrent	Rs.	6,380	Non-recurrent	Rs.	*Nil.*
Total	„	6,380	Ultimate annual recurrent ..	„	.....

Remarks.—Medical licentiates or persons holding equivalent qualifications are usually recruited to the B. M. S. Class III. Admission to the Medical Schools at Poona and Ahmedabad were stopped after 1945 consequent on the conversion of the Schools into Medical Colleges. The last admission to the licentiate course even in non-Government Medical Schools in this State was in October 1948. This has resulted in acute shortage of B. M. S. Class III Officers. In order to attract more candidates to join the B. M. S. Class III, Government revised the pay scale from 90—5—125—E. B.—6—155—E. B.—8—225 to 120—6—180—E. B.—8—260—E. B.—10—300 from 20th July 1949. This did not attract sufficient number of licentiates to join the B. M. S. Class III and the response from Medical graduates was negligible and paucity of B. M. S. Class III Officers continued. The merger of the various states in the State of Bombay aggravated the situation as many of the state dispensaries were in charge of unqualified Medical Officers or compounders and these persons were to be replaced by B. M. S. Class III Officers.

The situation would have been worse had the large number of non-muslim licentiate Medical Officers from Pakistan not become available and a few B. M. S. Class III Officers not re-employed after their retirement. In order to speed up recruitment of candidates to the B. M. S. Class III, Government decided in relaxation or recruitment rules to (*i*) recruit Medical Graduates on higher pay Rs. 150 per mensem and (*ii*) recruit over-age candidates upto the age 40 years on a higher starting pay upto Rs. 157 per mensem. To meet the situation to some extent persons holding the D. A. S. F. qualification have been appointed to some minor dispensaries on the scale of pay of Rs. 80—5—100—E. B.—6—160—E. B.—8—240. But these measures too did not solve the problem and the shortage of B. M. S. Class III Officers continued. It has therefore, been proposed to convert and upgrade 100 important B. M. S. Class III charges into B. M. S. Class II charges during the Second Five Year Plan period (20 posts each year). Out of these it is proposed to convert 20 B. M. S. Class III posts into B. M. S. Class II posts during the year 1956-57.

The proposal involves an expenditure of Rs. 6,380 during the financial year 1956-57.

The cost will come from the provision of Rs. 5,28,000 included in the Second Five Year Plan for this scheme.

		Rs.
Pay of Officers—		
B. M. S. Class II Officers		48,400
Allowance, Honoraria, etc.—

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 154. Up-grading the scale of pay of compounders for the trained pharmacists at the Government Hospitals and Dispensaries in the State of Bombay.

Recurrent	.. Rs.	8,239	Non-recurrent cost	.. Rs.	*Nil.*
Total	.. „	8,239	Ultimate annual recurrent	.. „	.....

Remarks.—The Pharmacy Act of 1948 makes provision for the regulations of profession and practice of Pharmacy. In view of provisions of this Act it will be necessary to employ qualified Pharmacists at all the Hospitals and Dispensaries in Bombay State instead of the existing personnel of compounders. The Pharmacist will be a person passing Intermediate in Pharmacy (Diploma in Pharmacy). The present scale of compounders is Rs. 55—3—85—4—125—5—130 and as it is, with this scale candidates are not coming forward for training and employment as compounders. It is therefore proposed that in order to secure gradual replacement of the existing Compounders by trained Pharmacists, trained Pharmacists should be appointed on a scale of Rs. 80—5—120—E.B.—8—200—E.B.—220 and at least 1/10th of these total number of Pharmacists should be on a selection scale of Rs. 160—10—300—E.B.—15—450 for appointment at bigger Government Hospitals.

In all there are about 400 Compounders in Government Hospitals and Dispensaries in Bombay State and all of them are expected to be replaced by trained pharmacists during the course of next 20 years and during the second five year period 80 compounders are proposed to be replaced by trained pharmacists.

During the next year 1956-57, 20 trained pharmacists in the scale of Rs. 80—5—120—E.B.—8—200—E.B.—220 and 1/10th of these *i.e.* 2 trained pharmacists on selection grade of Rs. 160—10—300—E.B.—15—450 are proposed to be taken in place of existing compounders. The statement shown below gives the extra expenditure for the abovementioned posts of trained Pharmacists for the year 1956-57.

No. of posts.	Designation and scale of pay.	Expenditure for 1956-57.
		Rs.
20	Extra expenditure on 20 trained pharmacists on the basis of difference between the present pay and the proposed pay of Pharmacists— pay (Difference)	5,500
	Allowances Honoraria etc.—Extra expenditure on 2 trained Pharmacists at Ahmedabad and Poona on the basis of difference between the present C. L. A. for compounders and proposed for pharmacists. C. L. A. (*Difference*)	44
		5,544
	2 posts of trained pharmacists on selection scale of Rs. 160—10—300—E.B.—15—450.	
	Extra expenditure on the basis of difference between the present pay of Compounders and the proposed pay of trained pharmacists on selection grade pay (Difference)	2,310
	Allowances, Honoraria, etc.—	
	D. A. (Difference)	220
	C. L. A. (Difference)	165
		2,695
	Total ..	8,239

The expenditure will be met from the provision of Rs. 1,50,000 made in the Second Five Year Plan for appointment of trained pharmacists at Government Hospitals and Dispensaries in the State.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 155. Providing an X-Ray apparatus and creating a post of X-Ray Technician for the X-Ray Department at the Civil Hospital, Himatnagar.

Recurrent	... Rs.	2,095	Non-recurrent	... Rs.	51,000
Total	... ,,	53,095	Ultimate annual recurrent	... ,,	.....

Remarks.—The Civil Hospital, Himatnagar, has 54 beds, but the daily in-door attendance in 1954 was only 35·4 as against 42·6 in 1953. The fall in the attendance emphasises the need for improving the existing facilities for medical relief. There is no X-Ray apparatus at the Hospital or at any other Government Hospital or Dispensary in the Sabarkantha District. It is, therefore, considered desirable to instal a 100 M. A. X-Ray Machine with generator, there being no electricity at the Hospital. The total cost of the apparatus will be Rs. 51,000.

2. An additional post of X-Ray Technician for the X-Ray Department is also necessary. The post is proposed to be sanctioned for a period of one year in the first instance.

3. The proposal involves a recurring expenditure of Rs. 2,095 and non-recurring expenditure of Rs. 51,000 during the year 1956–57 as shown below :—

	Expenditure for 1956–57.
Pay of Establishment—	Rs.
Superior Establishment—	
1 X-Ray Technician in the scale of Rs. 100—8—140—10—200.	1,100
Allowances, Honoraria, etc.—	
Dearness allowance	495
Contingencies—	
Repairs, etc.	500
Total, Recurrent ...	2,095
Non-recurring—	
Cost of X-Ray Machine	26,000
Generator	25,000
	51,000
(Inclusive of the cost of installation of X-Ray Machine).	
Grand Total ...	53,095

ITEM 156. Installation of an X-Ray Machine and opening of a Pathological Laboratory at the Civil Hospital, Amreli.

Recurrent	... ... Rs.	5,620	Non-recurrent	... Rs.	40,500
Total	... ... ,,	46,120	Ultimate annual recurrent	... ,,	...

Remarks.—Government has received an offer of a donation of Rs. 20,000 and Rs. 5,000 from Shrimati Nandubai and Shrimati Maniben of Amreli for installation of an X-Ray Machine and opening of a Pathological Laboratory at the Civil Hospital, Amreli, subject to the conditions that tablets showing that the X-Ray Department and the Pathological Laboratory were initiated by the help of donations given by these ladies in memory of the late Sarvashri N. A. Mehta and V. A. Mehta are fixed permanently in the X-Ray Department and the Pathological Laboratory. This is a District Head Quarters Hospital and has at present 19 beds and it is likely to be expanded in the near future. The present population of Amreli is about 25,000 and as there are no X-Ray facilities at the Hospital or at any other Government Hospital or Dispensary in the district, people from the town as well as from the neighbouring places have to approach private medical practitioners for X-Ray examination. X-Ray apparatus is one of the most useful articles of equipment at a Hospital and the more so at a District Head Quarters Hospital so as to improve the

existing facilities for medical relief. Similarly the need for a Pathological Laboratory at the District Head-quarters Hospital cannot be over emphasised for purposes of accurate diagnosis and for determining the line of treatment. It is, therefore, considered desirable to accept the donations offered by Shrimati Nandubai and Shrimati Maniben with a view to install a 100 M.A. X-Ray Machine and to open a Pathological Laboratory in the best interest of people. The net expenditure to Government will be decreased to the extent of donation that may be received.

The expenditure involved to Government for the purchase and installation of an X-Ray Machine and opening of a Pathological Laboratory, at the Civil Hospital, Amreli is shown below :—

	Expenditure required during the year 1956-57.
Pay of Establishment—	Rs.
1 X-Ray Techniciar in the scale of Rs. 100—8—140—10—200	1,100
1 X-Ray Servant in the scale of Rs. 30—½—35	330
1 Laboratory Technician in the scale of Rs. 100—8—140—10—200	1,100
1 Laboratory Servant in the scale of Rs. 30—½—35	330
Total Pay of Establishment ...	2,860
Allowances, Honoraria, etc.—	
Dearness Allowance.—	
1 X-Ray Technician	495
1 X-Ray Servant	385
1 Laboratory Technician	495
1 Laboraty Servant	385
Total, Allowances, Honoraria, etc. ...	1,760
Contingencies—	
Recurrent—	
X-Ray Department Contingencies	500
Contingent Expenditure for Pathological Laboratory	500
Total, Contingencies ...	1,000
Total, recurring Expenditure ...	5,620
Non-recurrent—	
Cost of new 100 M.A. X-Ray Machine	35,000
Purchase of equipment for the Pathological Laboratory	5,500
Total, non-recurring expenditure ...	40,500
Grand Total ...	46,120

The expenditure will be met from the provision of Rs. 1,48,000 provided in the Second Five Year Plan for the Scheme of providing X-Ray plants to Civil Hospitals.

ITEM 157. Scheme for the training and appointment of X-Ray and Laboratory Technicians at the Government Hospitals in Bombay State.

Recurrent	.. Rs.	1,740	Non-recurrent	.. Rs.	13,844
Total	.. ,,	15,584	Ultimate annual recurrent	.. ,,	.....

Remarks.—Laboratory and X-Ray work in the Government Hospitals in Bombay State was done by the Medical Officers in addition to their other duties. In the U. K. and other foreign countries, this work is done by trained technicians. A scheme for the training and employment of 100 Technicians (70 for Laboratory work and 30 for X-Ray work) was therefore formulated. Against this, 50 Techniciains (35 Laboratory and 15 X-Ray) will be trained and employed at the various Government Hospitals in Bombay State, during the First Five-Year Plan up to 31st March 1956. It is now proposed to train the remaining 50 Technicians during the period of the Second Five-Year Plan. It is therefore proposed to train 12 Laboratory Technicians and 6 X-Ray Technicians during the financial year 1956-57 and after completion of their training to employ them at the various Government Hospitals in Bombay State on a scale of pay of Rs. 100—8—140—10—200 (Mofussil) as necessary.

38, MEDICAL—contd.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

The proposal involves an expenditure of Rs. 15,584 during the year 1956-57 as detailed below :—

	Cost during 1956-57. Rs.
(1) *Pay of Establishment*—	
1 Sweeper at G. M. College—Scale Rs. 35—1—40 for 9 months for Lab. Technicians' Course	315
1 Sweeper at B. J. M. C., Poona—Scale Rs. 30—½—35 for 9 months for Lab. Technicians training	270
12 Laboratory Technicians to be employed from 1st February 1957 (after completion of their training)—Scale Rs. 100—8—140—10—200 (ave. 160)	1,200
6 X-Ray Technicians will complete their training by the end of the financial year 1956-57. They will be appointed from 1st April 1957, on a scale of pay of Rs. 100—8—140—10—200. No expenditure will be incurred on that account during 1956-57.	
Total, Pay of Establishment ..	1,785
(2) *Allowances, Honoraria etc.*	
House rent and other allowances—	
(i) *For Lab. Technicians' Training course*—	
(*a*) Remuneration to 2 Lecturers at Rs. 25 per mensem each for 9 months' one each at G. M. C., Bombay and B. J. M. C., Poona	450
(*b*) Stipend to 12 candidates at Rs. 50 per mensem each for 9 months	5,400
(*c*) H. R. A. to 2 sweepers, one at Rs. 6 per mensem at Bombay and one at Rs. 5 per mensem at Poona for 9 months	99
	5,949
(ii) *For X-Ray Technicians' Training course at J. J. Group of Hospitals*—	
(*a*) Stipend to 6 candidates at Rs. 50 per mensem each ..	3,600
(*b*) Lecture fee to the Medical Officers at Rs. 10 per lecture in the following subjects :—	
Anatomy—6 lectures	60
Physiology—6 lectures	60
Pathology—6 lectures	60
Total, House rent and other allowances ..	3,780
Dearness allowance—	
2 Sweepers at Rs. 35 per mensem for 9 months	630
12 Trained Lab. Technicians at Rs. 45 per mensem for 1 month ..	540
	1,170
Total, Allowances, Honoraria etc. ..	10,899
Contingencies—	
(1) Cost of glassware, chemicals etc. at Rs. 50 per mensem at each of the G. M. C. Bombay and B. J. M. C., Poona, for 9 months for Lab. Technicians' course	900
(2) Charges to be paid to an X-ray Co. for training of X-Ray Techns.	500
(3) Contingencies for apparatus, furniture, films, chemicals etc. for X-Ray Technicians' course	1,500
Total, Contingencies ..	2,900
Grand Total ..	15,584

The expenditure will be met from the provision included in the Second Five-Year Plan for this scheme.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 158. Establishment of a College of Nursing for Higher and Post-graduate education in Nursing B.Sc. (Hons.).

Recurrent	... Rs.	9,000	Non-recurrent	... Rs.	20,000
Total	... ,,	29,000	Ultimate annual recurrent	... ,,	.....

Remarks.—This scheme has been included in the Second Five-year Plan.

There is a need in the field of Nursing for highly qualified nurses possessing University degree. At present B.Sc. (Hons.) in nursing degree is provided in Delhi and in Madras States. No such facilities are at present available in Bombay State. Candidates are at present being sent to the College of Nursing, New Delhi, for the B.Sc. (Hons.) Course in Nursing. It is, therefore, proposed to start a College of Nursing in this State which would train the students for a University degree of B.Sc. (Hons.) in Nursing. The course will be for 4 years. It is proposed to provide facilities in the College for post-graduate training in Nursing viz. Teaching, Administration and Public Health Nursing.

2. The 4 years' University course, B.Sc. (Nursing), has been admitted on the Bombay University Schedule. As Bombay State is considered an advanced state in all respects, where facilities for advanced and scientific education in all the fields, except nursing, are available as such it is felt that such courses should be started here. In view of this it is proposed to appoint the following staff during 1956–57 from 1st September 1956 :—

(1) Principal	1
(2) Clerk	1
(3) Library Clerk	1
(4) Servant for library	1
(5) Peon for office	1

3. The above staff will be required to make preliminary arrangements for starting the college such as purchasing laboratory equipment, furniture, advertising for students, etc. When all the arrangements are completed, it will be possible to start the College in June 1957. The question whether the College should be started in Bombay or in Ahmedabad will be decided in due course.

4. The proposal involves a recurring expenditure of Rs. 9,000 and non-recurring expenditure Rs. 20,000 in 1956–57 as shown below :—

	Recurring during 1956–57 (for six months).
	Rs.
(1) *Pay of Officers*—	
Principal in the Grade of Rs. 500—30—800 (500×6) ...	3,000

ITEM 159. Opening of Mobile dispensaries for Scheduled areas in Bombay State.

Recurrent	.. Rs.	12,620	Non-recurrent	.. Rs.	1,51,830
Total	.. „	1,64,450	Ultimate annual recurrent	.. „	.....

Remarks.—In the Second Five-Year Plan it is proposed to open fifteen mobile dispensaries in the Scheduled areas in the Bombay State and Government has accordingly included that scheme in the Second Five-Year Plan in which a provision of Rs. 10,64,000 has been made for this scheme. Out of the 15 dispensaries, it is proposed to open seven mobile dispensaries in Scheduled areas of the Bombay State during 1956-57. As the purchase of the Vans and the construction of necessary temporary quarters for the staff of the mobile dispensary and garages for Vans will take about 6-8 months, the recurrent expenditure involved in the proposal will be Rs. 12,620 and non-recurrent expenditure will be Rs. 1,51,830, thus totalling Rs. 1,64,450 during 1956-57. An amount of Rs. 1,40,000 is being provided under "81-Civil Works" for construction of quarters and garages.

	Rs.
(*i*) *Pay of Officers—*	
7 B. M. S. Class III Officers (Ayur.) in the scale of Rs. 80—240 *plus* a Special Pay of Rs. 20 p. m. (100×7×3).	2,100
(*ii*) *Pay of Superior Establishment—*	
7 Compounders in the scale of Rs. 55—130 *plus* a Special Pay of Rs. 10 p.m. (65×7×3).	1,365
(*iii*) *Pay of Class IV Servants—*	
7 Drivers in the scale of Rs. 50—60 *plus* a Special Pay of Rs. 10 p. m. (60×7×3).	1,260
7 Servants in the scale of Rs. 30—35 *plus* a Special Pay of Rs. 5 p. m. (35×5×3).	735
Total, Pay of Officers ...	5,460
Allowances etc.—	
Dearness Allowance.	
7 B. M. S. Class III Officers at Rs. 45 p. m. (45×7×3)	945
7 Compounders at Rs. 45 p. m. (45×7×3)	945
7 Drivers at Rs. 45 p. m. (45×7×3)	945
7 Servants at Rs. 35 p. m. (35×7×3)	735
Total, Allowance ..	3,570

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

Contingencies—	Rs.
Petrol, Oil	1,450
Repairs to Vans	550
Other Contingencies	430
Grant for Medicines	1,160
Total, Contingencies ..	3,590
Grant Total ..	12,620

Non-recurrent Expenditure—

Purchase of 7 Mobile Vans at Rs. 21,790 for each Van inclusive of Sales Tax and delivery charges. (21,690×7).	1,51,830
Grand Total ...	1,64,450

Grants to the extent of 50 per cent. of the expenditure are likely to be received from the Government of India on this item.

ITEM 160. Appointment and training of additional nurses, midwives etc. Starting Midwifery Training Centres at 2 Government Hospitals.

Recurrent	... Rs.	14,303	Non-recurrent	... Rs.	3,900
Total	... ,,	18,203	Ultimate annual recurrent ...	,,	.....

Remarks.—The proposal submitted in this item forms a part of the General Scheme "Appointment and training of additional nurses, midwives, etc." which has been included in the Second Five Year Plan of the Medical Department.

In the proposal referred to above it is proposed to provide training facilities for 450 additional student nurses and student midwives during the next 5 years which has been worked out after taking into account the probable needs of the nursing personnel required for schemes included in the Second Five Year Plan both for Medical and Public Health Departments, Community Development Projects and National Extension Services Blocks and also the needs of the hospitals and dispensaries maintained by the local bodies.

It is, therefore, proposed to open 2 midwifery training centres at Government Hospitals mentioned below during the year 1956–57 in the first instance which will train 12 student midwives at a time. The other details of the scheme have also been mentioned there. The question of opening midwifery centres at remaining District Head Quarters Hospitals will be taken gradually during the next 5 years.

This scheme will provide for a large number of women who have had only 7 years of school education and who will be qualified in 1½ years to conduct normal deliveries. (The nursing course of 3 years require matriculation standard.) In order to make available this facility in training, it is desirable to establish midwifery training centre at each of the District Head Quarters Hospital which is not already a training centre of nurse-midwife so that the girls of districts will go back to villages and practice. At present in most of the villages untrained Dais are handling delivery cases. As these Dais do not possess any knowledge of the work undertaken by them, the lives of mothers and the newly born babies are always in danger. If, however, trained midwives will be available in the villages, the people will naturally prefer calling them to conduct deliveries in their homes, instead of calling untrained Dais.

The following additional posts will have to be sanctioned, if the proposal is accepted:—

2 Sisters,	4 Nurse Midwives,
12 Student Midwives,	2 Class IV Servants.

The proposal involves a recurring expenditure of Rs. 14,303 and non-recurring expenditure of Rs. 3,900 during the year 1956–57.

Pay of Establishment—

Pay of Nursing Establishment—		Recurring during 1955-56.

ITEM 161. Starting of Diploma Course in Pharmacy in Bombay.

Recurrent	Rs.	30,000	Non-recurrent	Rs.	25,000
Total	,,	55,000	Ultimate annual recurrent ...	,,	.....

Remarks.—With the introduction of the Indian Pharmacy Act, 1948, it has become necessary to provide the requisite facilities for the training of Pharmacists. At present most of the entrants to the profession of Pharmacy get their training (in compounding) by under going training at the recognised hospitals. This training will not, however, be accepted for the purposes of registration under the Pharmacy Act, after the Educational Regulations framed by the Pharmacy Council of India are brought into force in Bombay State. The Government of India, Ministry of Health, have stressed the necessity of starting at least one Government Institution conforming in every respect with the Educational Regulations. It was proposed to start such a course in Pharmacy at the B. J. Medical College, Poona. But due to certain difficulties such as accommodation, equipment, etc., the proposal had to be dropped. The Bombay State Branch of the Indian Pharmaceutical Association was requested to state whether they can start such a course in Bombay. The Association has agreed and formulated a scheme to start a College of Pharmacy in Bombay. The Association has asked for a non-recurring grant of Rs. 25,000 for equipment and furniture and recurring grant of Rs. 30,000 to meet the deficit. The proposal therefore involves an expenditure of Rs. 55,000 during 1956-57.

Expenditure will be met from the provision of Rs. 3 lakhs made in the Second Five Year Plan for Institution of a Training School in Pharmacy.

ITEM No. 162. Establishment of a Central Clinical Laboratory at each Teaching Hospital associated with a Medical College.

Recurrent ..	Rs.	80,918	Non-recurrent ..	Rs.	85,000
Total ..	,,	1,65,918	Ultimate annual recurrent ..	,,	.....

Remarks.—The present arrangements at the teaching hospitals for Pathological and Bacteriological work are quite inadequate at present. For that reason the teaching and other staff at the College has to do the work of the hospital in addition to their own duties at the College. But as the Professors and the Lecturers of the Colleges have their hands full with teaching work, they are not in a position to properly

guide the investigations on the hospital side. Hence the existing arrangement is not considered satisfactory. It is therefore proposed to appoint the additionl staff mentioned below with effect from 1st April 1956, and also to provide some non-recurring and recurring expenditure in order to man and equip properly the Central Clinical Laboratories of the four teaching Hospitals at Bombay, Poona Ahmedabad and Baroda —

Number.	Designation of the Post.	Scale of Pay.
		Rs.
4	Assistant Pathologists	500—30—800.
3	Biochemists, (Class II Scale)	220—15—400—E.B.—20—500—E.B.—25—650 (Probationers on Rs. 200 per month).
4	Resident Clinical Pathologists	100—5—110.
3	Laboratory Technicians	100—8—140—10—200.
4	Laboratory Assistants	55—3—85.
4	Servants	30—½—35.
4	Sweepers	30—½—35.

The proposal involves a recurring expenditure of Rs. 80,918, and non-recurring expenditure of Rs. 85,000 during the year 1956-57. The expenditure on this account will be met from the provision of Rs. 5 lakhs made in the Second Five Year Plan for upgrading of Departments in Medical Colleges and attached Hospitals for Medical Research.

The details of the expenditure are shown below :—

	Rs.
(1) J. J. Groups of Hospitals—	
(1) Pay of officers	7,700
(2) *Pay of Establishment—*	
Class III establishment	3,410
Class IV establishment	660
Total Pay of Establishment	4,070
(3) *Allowances, Honoraria, etc.—*	
House rent and other Allowances—	
Gazetted Officers	4,180
Establishment	1,128
Total House rent and other allowances	5,308
Dearness Allowance—	
Gazetted Officers	1,375
Establishment	2,750
Total Dearness Allowance	4,125
(4) *Contingencies—*	
Additional recurring grant, for Laboratories	5,000
Non-recurring expenditure for equipment and furniture	25,000
Total Contingencies	30,000
Total J. J. Group of Hospitals	51,203

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

	Rs.
(2) Civil Hospital, Ahmedabad—	
(1) Pay of officers	7,700
(2) *Pay of Establishment—*	
Class III Establishment	2,805
Class IV Establishment	660
Total Pay of Establishment ..	3,465
(3) *Allowances Honoraria, etc.—*	
House rent and other Allowances—

Additional recurring grant for Laboratories	3,000
Total Contingencies ..	3,000
Total S. S. G. Hospital, Baroda ..	13,505
Grand Total of all 4 Hospitals ..	1,65,918

ITEM 163. Extension of the Employees' State Insurance Scheme.

Recurrent	... Rs. 1,00,000	...	Non-recurrent	... Rs.	Nil.
Total	... Rs. 1,00,000	...	Ultimate Annual Recurrent	... ,,	....

The Employees' State Insurance Scheme has been inaugurated in Bombay on 3rd October 1954. The Scheme at present applies only to factory workers in Greater Bombay and adjacent areas. In the Second Five-Year Plan, it is proposed to extend the Scheme to families of Insured workers in Greater Bombay and also to Ahmedabad and Sholapur. The Scheme is likely to be extended to the workers at Ahmedabad during the next financial year. The estimated expenditure on this account will be as follows—

	Rs.
(*1*) *Recurrent.—*	
Provision of medical benefits to insured workers in Ahmedabad	1,00,000
Total ...	1,00,000

A provision of Rs. 1,00,000 is, therefore, necessary in the Budget estimates for the Year 1956-57.

38, *MEDICAL*—concld.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 164. Grant in aid to Gurus imparting instructions in the Shudha Ayurvedic Courses.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	10,000
Total	,,	10,000	Ultimate annual recurrent	... ,,	...

Remarks.—Government have sanctioned the scheme of Shudha Ayurvedic Course and have appointed a Committee viz. Committee for Shudha Ayurvedic Course for implementing the Shudha Ayurvedic Course. This course has been started from June 1954 and at present there are in all 31 Gurus recognised by Government for imparting instructions to the students undergoing Sudha Ayurvedic Course. The duration of the course is of 3½ years and those who have appeared at the S. S. C. examination and obtained 45 per cent. of marks in Sanskrit or have passed one of the Sanskrit examinations as approved by Government, are eligible for admission to the said course. Since the inception of the course, no financial help by way of grant-in-aid has been given to the Gurus. The Committee for Sudha Ayurvedic Course is very keen on giving some help to Gurus. It is proposed to sanction Rs. 10,000 as grant to Gurus during the next financial year.

2. Gurus will be paid grant of Rs. 320 each for purchasing the costly equipment such as models charts, etc. Instead of giving the grant in cash, the Committee for Sudha Ayurvedic Course will purchase the necessary equipment of the value of Rs. 320 and supply them to each Guru, and for that a deposit to the extent of Rs. 80 will be taken from each Guru by the Committee as a security against the loss or misuse of the articles purchased out of the grant sanctioned by Government. The grant proposed to Gurus will be placed at the disposal of the Committee which will supply the equipment worth Rs. 320 to such Gurus only as are in need of financial help from Government on the condition of security deposit as stated above. The equipment supplied to Gurus shall be considered as the property of the Committee. The deposit paid by the Gurus which amounts to Rs. 80×31=Rs. 2,480 will also be received and credited to the account of the Committee.

3. Expenditure will be met from the provision of Rs. 5 lakhs made in the Second Five-Year Plan for Grant in aid to Ayurveda Teaching Institutions.

			Rs.

	Non-recurrent	...	20,06,943
	Total	...	32,55,468

39. PUBLIC HEALTH.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 165. Expansion of activities of health education.

Recurring	.. Rs.	*Nil.*	Non recurring	.. Rs.	40,000
Total	.. ,,	40,000	Ultimate annual recurring	.. ,,	*Nil.*

Remarks.—There has always been a lag between the methods adopted for public amusement and education in general topics through visual aids and those adopted for health education by Government or other agencies. While sound films and even televisions are resorted to for the former purpose, it is somewhat of the nature of anachronism to persist with the magic lantern shows for health education. While they have been somewhat popular in schools probably because of an element of compulsion through the teaching staff, the general public are not very much thrilled with magic lantern demonstration. A film strip has the advantage that while it gives the villagers an impression of its being a silent motion picture it does not move so fast that the villager fails to grasp it. The magic lantern equipment also is very cumbersome and heavy to carry. A real difficulty is the conversion of magic lantern demonstrations into film strips lies in the financial cost involved. It is proposed to add 37 Primary Health Units during the year 1956–57 in Poona and Baroda Districts in addition to 78 Units already established in 1955–56. At least 60 film strip projectors and film strips on various health subjects at a cost of Rs. 40,000 are proposed to be prepared and supplied to these Districts during 1956–57. Each sanitarian need not have all the film strips on all subjects. These could go in rotation but the projectors must be made available in each Unit at least for six months in year. Thus 60 projectors will serve all the 115 Units in Poona and Baroda Districts. This is a non-recurrent item of expenditure and the equipment may have to be imported from Dollar Areas. The extent to which assistance could be secured from the C.D.P. will have to be explored. With the acceptance of this proposal, the impact of health education in general public will be very great and practically every village will have demonstrations about two or three times a year.

ITEM 166. Subsidising Construction of Modern Sanitary Conveniences.

Recurring ..	.. Rs.	*Nil.*	Non-recurring ..	.. Rs.	80,000
Total ..	.. ,,	80,000	Ultimate annual recurring.	.. ,,	....

Remarks.—The Committee appointed for inquiring into living conditions of scavengers has laid great stress on provision of modern type latrines. But the local bodies are not able to finance the construction of such latrines for want of funds. It is therefore felt that unless Government subsidises the construction of the latrines it would not be possible for local bodies to improve the sanitary conditions in towns and village. In order to give an incentive to the local bodies for provision of sanitary conveniences it is proposed to subsidise construction of modern type latrines, and a provision of Rs. 4 lakhs has been made in the Second Five-Year Plan for the purpose. Central assistance to the extent of Rs. 2,40,000 is expected and the State Government will have to provide Rs. 1,60,000 during the plan period.

An amount of Rs. 80,000 will be required for payment of subsidies for such works during the year 1956–57 and during the following four years. A provision of Rs. 80,000 is therefore proposed to be made in the budget estimates for 1956–57.

ITEM 167. Grants for Public Health Purposes.

Recurrent ..	.. Rs.	3,98,786	Non recurrent ..	.. Rs.	*Nil.*
Total ..	.. ,,	3,98,786	Ultimate annual recurrent	.. ,,	....

Remarks.—The grants-in-aid are paid by the Public Health Department to the Local Bodies and institutions, for Public Health purposes. They may be grouped into 6 main groups as below :—

(*i*) *Grants in-aid to Local Bodies towards Pay and allowances of the Vaccinators.*—The administration of the Vaccination establishment in the districts of the State is divided into three categories viz., (*a*) Non selected (*b*) Selected (viz., Bijapur, Sholapur, Surat and West Khandesh) and (*c*) Control transferred (viz., Dharwar and North Satara). In the selected and control transferred districts the entire control of the vaccination establishment is with the local bodies. The liability of the local bodies in respect of the selected districts is restricted only to the expenditure level as in 1921 and the extra cost on account of the revised pay scales and allowances is borne by Government in the shape of grant-in-aid. In the case of control transferred districts, Government pays a fixed contribution at levels prior to the transfer of control.

(*ii*) *Grants-in-aid to the Municipalities towards employment of Health Officers and Sanitary Inspectors on the basis of Population in the local area as below :—*

Population above 50,000 ..	1 Medical Officer of Health (Class I) and 1 Sanitary Inspector for every 20,000 population. One Chief Sanitary Inspector when the population exceeds one lakh.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

Population above 30,000 but less than 50,000.	1 Medical Officer of Health (Class II) and 1 Sanitary Inspector for every 20,000 population.
Population above 10,000 but less than 30,000.	1 Medical Officer of Health (Class II) or one Chief Sanitary Inspector, or 1 Sanitary Inspector.

The rates of subsidy which Government pays to the Municipalities are 50 per cent. of pay and dearness allowance of the Medical Officer of Health and 33⅓ per cent. of pay, dearness allowance and cycle allowance of the Chief Sanitary Inspectors and Sanitary Inspectors subject to the condition that the Municipality appoints the full complement of the staff and pays it according to the prescribed pay scales.

(*iii*) *Grants-in-aid to local bodies towards their expenditure against epidemics.*—It is the responsibility of the local boards and municipalities to take necessary preventive measures in times of epidemics subject to their financial resources. Grants-in-aid are required to be sanctioned to local bodies based on the actual expenditure on anti-epidemic measures.

(*iv*) *Grants-in-aid to various institutions towards their Public Health activities.*—In recognition of their activities and in view of the necessity to support their activities grants-in-aid are paid to the following institutions :—

(*a*) Bombay Sanitary Association.
(*b*) Broach Sanitary Association.
(*c*) Ahmedabad Sanitary Association.
(*d*) Bhaba Child Welfare Centre, Broach.
(*e*) Gujerath Research Society, Bombay.
(*f*) Nasik Sanitorium.
(*g*) Maternity and Child Welfare Centre, Bijapur.
(*h*) Bombay Mothers and Children Welfare Society.
(*i*) Arogya Mandal, Poona.

The grants are more or less fixed.

(*v*) *Miscellaneous items of grants-in-aid.*—(*a*) Grants to Local Boards for Public Health Purposes—These grants are paid to the local boards for other Public Health activities such as sanitary arrangements during fairs.

(*b*) Grant-in-aid to Poona Corporation—At the time of transfer of control of the Infectious Diseases Hospital, Poona to the Poona Municipal Corporation in 1951 Government have agreed to a grant-in-aid to the Corporation on a sliding scale upto and for the year 1957–58.

(*vi*) *Grants-in-aid in the former Baroda State area.*—It was one of the conditions for the merger of Baroda State that the premerger schemes of the Ex-Baroda State would be continued after the merger as far as changed conditions permit. The former Baroda State paid to the local bodies grants-in-aid for health exhibitions and anti-guineaworm schemes. The scheme of the grant-in-aid is therefore continued.

The provisions required for the financial year 1956–57 are as below :—

	Rs.
(*i*) Grants-in-aid to Local bodies towards their expenditure on pay Vaccinators	63,639
(*ii*) Grants-in-aid to Municipalities towards employment of Health Officers and Sanitary Inspectors	1,45,000
(*iii*) Grants-in-aid to Local bodies towards their expenditure against epidemics	46,600
(*iv*) Grants-in-aid to Sanitary Institutions, etc.—	
(*a*) Bombay Sanitary Association	580
(*b*) Ahmedabad Sanitary Association	1,000
(*c*) Broach Sanitary Association	500
(*d*) Bhaba Child Welfare Centre, Broach	500
(*e*) Gujerath Research Society	2,000
(*f*) Nasik Sanitorium	500
(*g*) Maternity and Child Welfare Society, Bijapur	50
(*h*) Bombay Mothers and Children Welfare Society	1,21,572
(*i*) Arogya Mandal, Poona	200
(*v*) *Miscellaneous items*—	
(*a*) Grants to Local Boards for Public Health Purposes	8,000
(*b*) Poona Municipal Corporation	7,345
(*vi*) Grants in former Baroda State area—	
(*a*) Guineaworm scheme	800
(*b*) Health exhibition	500
Total ...	3,98,786

Estimated receipts—*Nil.*

39, *PUBLIC HEALTH*—contd.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 168. Re-organisation of District Health Scheme in Poona and Baroda Districts.

Recurrent	...	... Rs.	17,300	Non-recurrent	...	... Rs.	*Nil.*
Total	...	... „	17,300	Ultimate annual	recurrent	... „	*Nil.*

Remarks.—The District Health Organisation Scheme which was introduced in 1942 in the three Districts of Bijapur, Sholapur and Surat has now been extended to the whole State including merged State areas. In each District there is a Health Officer with 3 or 4 Sanitary Inspectors and 1 Epidemic Medical Officer. In each taluka, there are 2 Vaccinators or Sanitary Sub-Inspectors. In addition most Districts have one Malaria Medical Officer each in-charge of Malaria Control measures. The Medical Services in the District are at present in-charge of Civil Surgeons. It is proposed during the 2nd Five-Year Plan to integrate all preventive Health Services in the District and the present set up re-organised, so that each District except Banaskantha, Sabarkantha, Amreli, Dangs and South Satara which are small size Districts, should have ultimately two officers each, viz., a District Medical Officer of Health in lieu of the existing District Health Officer and a Divisional Medical Officer of Health in lieu of the existing Malaria Medical Officers whenever appointed. The scales of pay of the existing posts of Malaria Medical Officers will be up-graded from Rs. 220—650 to Rs. 350—740 on the conversion of the posts into Divisional Medical Officers. The existing District Health Officers and Malaria Medical Officers will be given the necessary training by deputing them to recognised training institutions so that they can be absorbed in the new posts of District and Divisional Medical Officer of Health. After taking into consideration the existing strength only five additional posts of Divisional Medical Officers of Health will have to be created during the Second Five-Year Plan.

2. Each District will be divided into two Divisions, each in-charge of the District and Divisional Medical Officer of Health respectively. The Divisional Medical Officer of Health will not be administratively subordinate to the District Medical Officer of Health but they will co-ordinate their work. Each District and Divisional Medical Officer of Health will require a head-clerk-*cum*-accountant in addition to the existing posts of three clerks. The District and Divisional Officers will in addition to their work of supervision of the preventive Medical Service in the District will also advise the Municipalities within their respective jurisdictions on matters of Health and make periodical Sanitary Inspections of the District Municipalities.

3. The Scheme is confined to integration of preventive medical services only and does not contemplate at this stage, amalgamation of the curative and preventive medical services at the District level. Although in the earlier phases of Malaria Control there were great advantages in providing for a separate field of organisation, now that a stage of maintenance has been reached it is proposed to centralise the actual control programme and to utilise the Malaria Medical Officers for a wider service including all preventive health services and supervision of the Primary Health Units. This scheme of integration is on the lines of the integrated scheme which is already in operation in the Districts of Kanara and Dharwar.

4. The Scheme is proposed to be started during the 1st year of Second Five-Year Plan in the Districts of Poona and Baroda. The following additional staff will be necessary in these Districts :—

(1) Divisional Medical Officers of Health in the scale of Rs. 350—30/2—650—E. B.—45—740 P. T. A. Rs. 105 per mensem. 2

(2) Head-clerk-*cum*-accountants in the scale of Rs. 150—10—200 4

No additional Senior and Junior Clerks would be necessary as the existing clerical staff sanctioned for those districts would suffice.

5. It is proposed to allow a special pay of Rs. 10 p.m. to each vaccinator in the Districts for Public Health duties. As his duties will include besides vaccination, general sanitation, epidemic control and health education.

Recurrent and non-recurrent expenditure.

1st Year—Poona and Baroda Districts, 1956–57—

	Rs.
Pay of Officers—	
Difference in pay of 2 Divisional Medical Officers of Health—	
(Sanction for the posts of Medical Officer, Malaria Control Scheme, Poona and Baroda in the scale of Rs. 220—650 existing at present. On conversion of these posts into those of Divisional Medical Officers of Health, they are entitled to the pay scale of Rs. 350—740. Thus provision for the difference, i.e., Rs. 350—220—130 is necessary be made	2,860
Total, Pay of Officers ...	2,860

ITEM 169. Establishment of Primary Health Units.

Recurring	Rs.	5,54,400	Non-recurring	Rs.	*Nil.*
Total	,,	5,54,400	Ultimate annual recurring ...	,,	.....

Remarks.—The Bhore Committee recommended an amalgamation of the curative and preventive medical services at all levels, viz. the State, District, the Sub-District (Secondary Centres) and the periphery (Primary Health Units). The Administrative Enquiry Committee appointed by the Government of Bombay also made similar recommendations and Government has accepted them in principle. Establishment of Combined Medical and Public Health Units marks the nearest approach to the provision of Primary Health Units as recommended by the Bhore Committee. It is proposed to re-organise the present provision of Combined Medical and Public Health Units so as to fall in line with Bhore Committee recommendations and accordingly it is proposed to establish 237 Primary Health Units in the following District of the State :—

Baroda ...	37 Units in 1956-57.
Poona ...	
Surat ...	25 in each District in 1957-58.
Sholapur ...	
Kanara ...	25 in each District in 1958–59.
Kolaba ...	
Kaira ...	25 in each District in 1959–60.
Thana ...	
East-Khandesh	25 in each District in 1960–61.
West-Khandesh	

Each Unit will have a medical officer, a nurse-*cum*-midwife or health visitor, a midwife, a sanitarian and some Class IV employees. Each Unit will serve as an agency for rendering all preventive and curative medical services within its area.

2. Each Primary Health Unit will be in charge of a Medical Officer. Since the existing Combined Medical and Public Health Units are in charge of Subsidised Medical Practitioners it is proposed to continue them as Medical Officers under the set up and to pay them a small extra allowance in the shape of special pay at Rs. 30 per mensem per head plus permanent travelling allowance at Rs. 43–12–0 per month to compensate them for the additional duties involved in organising and supervising preventive measure. The Medical Officer will be assisted by 2 Nurse-midwives and a sanitarian, and a maternity home with 2 beds will be provided at the Headquarters. For the purposes of the health visits to be undertaken by the staff the entire area in the jurisdiction of a Primary Health Unit consisting of about 20 villages will be divided into two circles each one of which will be supervised by a Nurse-*cum*-Midwife. One midwife will remain at Headquarter one week and the other be on tour. They will alternate their duties every week. The sanitarian's jurisdiction will be over the entire area of 20 villages which will all be covered by him in the course of one month. To start with, the work of supervising anti-malarial measures will be taken over by the Primary Health Units. Gradually when the entire state is covered by the B. C. G. Vaccination Scheme the maintenance and follow up of that scheme will also be taken over by the Primary Health Units. The other functions of these units will include Maternity and Child Health Services, maintenance and chlorination of drinking water supplies in villages, distribution of loans to Village Panchayats and other agencies for construction of village latrines, case findings in leprosy affected areas and training of village patels and other workers in preventive measures. A complete family record of births, deaths, incidence of sickness etc. will be maintained by the staff of the Units during their health visits.

3. These Primary Health Units will serve on an average population ranging between 20,000 to 25,000 each. The following staff will be employed during the year 1956-57 :—

	No.	
Subsidised Medical Practitioners	27	
Sanitary Sub-Inspectors	46	
Nurse-Midwives	74	
Women attendants for maternity Home ...	115	
Attendants at the rate of 2 per Primary Health Unit.	142	[230 less existing 84 peons (25 in Medical Department and 59 in Public Health Department) and 4 attendants in Public Health Department].

39, *PUBLIC HEALTH*—contd.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

The cost involved during the year 1956-57 is shown below :—

		Rs.
Pay of Establishment—		
Special pay of Rs. 30 per mensem to 50 Government Medical Officers (47 in Baroda and 3 in Poona).	30×50×11 ...	16,500

Recurrent	Rs. 1,89,500	Non-recurrent	Rs. 1,80,000
Total	,, 3,69,500	Ultimate annual recurrent ...	,, ...

Remarks.—The Government of Bombay has sanctioned 4 Chairs of Social and Preventive Medicine. One in each of the four Government Medical Colleges in the State (Bombay, Baroda, Poona and Ahmedabad). This will facilitate a new orientation in the teaching of Medicine to under-graduates and inculcate in them the need to develop an integrated outlook in curative and preventive medicine and a desire to appreciate such integrated problems especially in rural areas. As a further step it is proposed in consultation with Universities to provide for a period of internship for 2 months in rural areas to gather knowledge on rural health in a total internship of 12 months after passing M. B. Examination and before completing the degree. About 20 students can be trained in a batch for 2 months for 120 students in one health unit in a year. In order to facilitate training about 450-500 Medical Graduates every year, three more units are necessary and these will be located as near Bombay, Ahmedabad and Baroda as may be possible.

39, *PUBLIC HEALTH*—contd.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

The subsidy of the Government of India for the scheme is spread over as shown below :—

Recurring Cost 1956-57.		Government of India.		Government of Bombay.	Total.
1956-57.		Rs.		Rs.	Rs.
1st Six months 100 per cent. ...	...	94,750		N.l.	
Remaining Six months 66⅔ per cent.	...	63,167	33⅓ per cent.	31,583	
	Total ...	1,57,917		31,583	189,500
1957-58.					
1st Six Months	66⅔ per cent.	67,967	33⅓ per cent.	33,983	
Remaining Six months. ...	33⅓ per cent	33,983	66⅔ per cent.	67,967

ITEM 171. Establishment of Public Health Institute for the Bombay State at Mulund in Thana District.

Recurrent	... Rs. *Nil.*	Non-recurrent ...	... Rs. 50,000
Total	... „ 50,000	Ultimate annual recurrent	... „ *Nil.*

Remarks.—This year Government has sanctioned the establishment of Public Health Institute in the Bombay State and the purchase of the building of the Narayan Topiwala Arts College at Mulund in Thana District. A provision of Rs. 2,79,800 has been made for the purchase of the above building in the financial year 1955–56 under the budget head " 81-Capital Account of Civil Works outside the Revenue Account—Public Health ".

The staff sanctioned for the Malaria Organisation, the staff dealing with the epidemiology in the office of the Director of Public Health, Poona, the staff sanctioned for the Vital Statistics and the staff of the Maternity and Child Health Section will be transferred to the above Public Health Institute.

The functions of the Institute will be as under :—

(1) Training of Medical Officers of Health (D. P. H. Course), Sanitary Inspectors, Nurses, Midwives, etc., and also the personnel of the Medical Department in Public Health.

(2) Research.

(3) Surveys in selected districts and areas.

(4) Appraisal of results after control measures are instituted.

The building in question is likely to cost Rs. 5,97,800 approximately. A provision of Rs. 2,79,800 has already been made in the budget estimates of 1955–56 and it is necessary to provide the balance of the cost, viz., Rs. 3,00,000 in the budget of 1956–57. An amount of Rs. 50,000 will be necessary during the year 1956–57 towards cost of repairs.

A further sum of Rs. 50,000 is required for purchase of equipments, chemicals, etc., during the year 1956–57.

Non-recurrent expenditure during the year 1956-57—	Rs.
Purchase of equipment, microscopes, chemicals, etc.	50,000

39. PUBLIC HEALTH—contd.

MINISTER-IN-CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 172. Supply of refrigerators to the Taluka Hospitals and Dispensaries maintained by Government in Poona and Baroda Districts.

Recurrent	Rs. 1,236	Non-recurrent	Rs. 20,995
Total	,, 22,231	Ultimate annual recurrent	*Nil.*

Remarks.—At some of the Government Hospitals and Dispensaries maintained by Government at Taluka places in this State there are no cold storage facilities as a result of which it has not been possible to provide facilities for anti-rabic treatment. For this purpose, as well as for the purpose of keeping certain drugs such as vitamins, anti-Biotics, Serums, Plasma, etc., it is absolutely necessary to have a Refrigerator. The refrigerator can also be used for keeping specimens of Blood taken in medico legal cases till they are sent for chemical analysis. There are 11 Taluka Government Hospitals and Dispensaries in Poona and Baroda Districts which require refrigerators.

The proposal involves a recurrent expenditure of Rs. 1,236 and non-recurrent expenditure of Rs. 20,995 during the year 1956-57, as shown below :—

	Rs.
Recurrent Contingencies—	
Maintenance of refrigerators	1,236
Non-recurrent—	
For purchase of one refrigerator of 7·3 cft. capacity at Rs. 2,345, and 10 refrigerators of 5·0 cft. capacity at Rs. 1,865 each.	20,995
Grand Total ...	22,231

The expenditure will be met from the provision of Rs. 1,24,00,000 made in the Second Five Year Plan for the Scheme of providing additional staff, equipment, etc., to the existing medical institutions.

ITEM 173. Expansion of Town Planning and Valuation Department for the preparation of Development Plans of towns.

Recurrent	Rs. 2,25,000	Non-recurrent	Rs. *Nil.*
Total	,, 2,25,000	Ultimate annual recurrent	... ,, ...

Remarks.—A Scheme known as the preparation of Master Plans for towns and Cities has been in force during the last 5 years period. Under this Scheme Master Plans are being prepared with the help of the staff that has been created for this purpose. Every year about 6 towns from the various Districts were selected for this work. It is hoped that by the end of this period 25 Master Plans would be completed in all respects and there would still be on hand some more partly completed.

Under the new Town Planning Act which would be coming into force shortly it has been made incumbent on every Local Authority to prepare for the entire area in its jurisdiction a Development Plan (same as Master Plan) during 4 years of the coming into force of the Act unless Government extends such period for special reasons. Of the 218 Local Authorities in the State barring the three Corporations other Local authority has any technical staff capable enough to prepare such Development Plans. This work, therefore, would still have to be carried on by Government Agency and at a much greater speed to conform to the provisions of the new Act. However, due to the difficulty regarding the availability of technically trained personnel for such work it would be possible to take up and complete the preparation of 10 Development Plans every year in addition to the completion of the work already on hand and the extra work that may have to be done in regard to the completed Master Plans under the provisions of the new Act.

39, *PUBLIC HEALTH*—concld.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

The following staff would be necessary for the preparation of Development Plans as above :—

Serial No.	Designation.	Scale of pay.	Staff inclusive of existing staff.
		Rs.	
1	Deputy Assistant Consulting Surveyor to Government.	395—15—500—E.B.—20—600—E.B.—25—750.	1
2	Senior Assistants	295—15—400—E.B.—20—500—E.B.—25—650.	6
3	Junior Assistants	200—10—300—15—390	10
4	Surveyors	80—5—100—8—140—E.B.—10—220—E.B.—10—270.	22
5	Assistant Draftsmen	100—8—140—10—170	2
6	Junior Draftsmen	70—3—85—4—125	6
7	Tracers	46—3—85—4—105	8
8	Town Planning clerk	150—10—200	1
9	1st Clerk in Head Office	150—10—200	1
10	Accountant	100—8—140—10—150	1
11	Senior Clerks	100—8—140	5
12	Junior Clerks	46—3—85—4—125—5—130 ...	7
13	Peons	30—1/2—35	10
14	Attendants	On Rs. 45 per mensem fixed ...	12

The Total cost of the Scheme for the Second Five Year Plan period would be Rs. 11.25 lacs. The staff would be distributed amongst the different offices of this Department in accordance with the jurisdictional limits and the increase in work.

The annual cost of the above Establishment would be Rs. 2·25 Lacs as shown below by Primary units :—

	Rs.
(1) Pay of Officers	28,500
(2) Pay of Establishment	1,11,756
(3) Allowances, Hon. etc.	74,856
Travelling Allowance	6,888
(4) Contingencies	3,000
Total ...	2,25,000

Hence a provision of Rs. 2·25 Lakhs in the Budget Estimates for 1956–57 and the following 4 years would be required. It is therefore proposed to make a provision of Rs. 2·25 lakhs in the Budget Estimates for 1956–57.

		Rs.
Grand Total, 39, Public Health ...	Recurrent ...	13,86,222
	Non-recurrent ...	3,70,995
	Total ...	17,57,217

40, AGRICULTURE.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

ITEM 174. Survey, Training and Milk Supply Scheme for the four towns, Baroda, Nasik, Sholapur and Kolhapur.

Recurrent	Rs. 97,101	Non-recurrent	Rs. 7,000
Total	,, 1,04,101	Ultimate annual recurrent ...	,,

Remarks.—To bring about development of dairy industry fairly uniformly in different regions of Bombay State, it is proposed to introduce milk supply schemes of the type of the Poona Milk Supply Scheme in a number of other places in the State. To begin with, it is proposed to start such schemes in the towns of Baroda, Nasik, Sholapur and Kolhapur. Organized milk marketing as a result of the Milk Supply Schemes proposed for these towns would help in augmentation of milk production on the country side giving profitable subsidiary occupation to cultivators and good quality milk at fair rates to the urban consumers.

Before embarking on the work of milk collection and distribution, it would be necessary to survey the conditions of milk production and supply, marketing facilities, seasonal trends, local tastes and characterestics etc. It is therefore proposed that a period of six months be provided in the beginning for the work of survey. The work of organizing and executing the milk supply schemes would necessitate personnel having adequate training in commercial accounting, administration, public relations, methods of milk handling, processing and distribution. The staff appointed for survey work on completion of survey would be given the necessary training lasting over a period of 4-5 months, so that the same staff together with its experience of the local conditions can be advantageously given over the work of actually administering the Milk Supply Schemes. For the first year, therefore, the necessary staff for the four towns to undertake the work of survey and training and also staff at the headquarters for co-ordination of work has been proposed in the scheme.

A provision of Rs. 40,00,000 stands included in the draft Second Five-Year Plan for this scheme.

A provision of Rs. 1,04,101 will be required during 1956-57 for the scheme as shown below :—

		Rs.
I. Pay of Establishment—		
(*a*) *Staff at the headquarters—*		
One Dairy Surveyor in the scale of Rs. 210—10—300		2,310
Two Junior Clerks in the scale of Rs. 46—3—85—E. B.—4—125—5—130 ...		1,210
One Peon in the grade of Rs. 30—½—35		330
(*b*) *Divisional Staff—*		
Four Dairy Surveyors in the scale of Rs. 210—10—300		9,240
12 Assistant Dairy Surveyors in the grade of Rs. 80—5—100—8—140—E. B.—10—200.		10,560
32 Dairy Assistants in the grade of Rs. 55—3—85—E. B.—4—125—5—140 ...		19,360

		14,000
Grand Total ...		1,04,101

40, AGRICULTURE—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

ITEM 175. Training of staff—Scheme for Refresher Courses in Soil Conservation for Officers.

Recurrent ...	Rs. 35,000	Non-recurrent ...	Rs. *Nil.*
Total ...	,, 35,000	Ultimate annual recurrent ...	,,

Remarks.—In order to follow the latest technique in improvement of land in the programme for soil conservation envisaged in the Second Five-Year Plan period during which it is proposed to undertake contour bunding of 6·75 lakh acres of land, it is necessary to send abroad for training some officers from time to time. Accordingly it is proposed to send an officer for regular training for about a year and another for a short visit of about 3 months to the U.S.A. and Australia, for getting acquainted during with the latest technique in Soil Conservation. An amount of Rs. 35,000 (as shown below) is required 1956–57, to meet the expenses on account of the two officers proposed to be sent for training abroad. Advantage of such scholarships or fellowships as may be made available by International and other bodies will also be taken so as to save the cost on account of training.

	Rs.	Rs.
Pay of Officers—		
(*a*) One officer for 4 months (Rs. 1,300—1,600)	5,200	7,950
(*b*) One officer for 11 months (B. A. S. Class II)	2,750	
		26,420
Allowances and Honoraria		
(*a*) Dearness Allowance	970	
(*g*) Deputation allowance	15,450	
(*c*) Passage and internal touring	10,000	
Grand Total		34,370
		35,000 (in round figures)

The proposal forms part of the main scheme "Training of staff in Soil Conservation" for which a provision of Rs. 3 lakhs has been made in the draft 2nd Five-Year Plan.

ITEM 176. Scheme for undertaking Land Utilization Survey of Government Waste lands in the Bombay State.

Recurrent ...	Rs. 1,05,000	Non-recurrent ...	Rs. *Nil.*
Total ...	,, 1,05,000	Ultimate annual recurrent ...	,,

Remarks.—With a view to bringing more land under cultivation and ensuring proper utilization of lands so as to avoid their deterioration due to wrong use, a scheme for survey and classification of Government waste lands was undertaken in 1948. A total of 10,63,688 acres of land was surveyed under the scheme up to the end of February, 1951, out of which an area of 4,05,414 acres was found suitable for cultivation. Necessary orders were thereafter issued to the Collectors of the Districts concerned for disposing of the lands in accordance with the classification suggested by the Land Utilization Survey Officer. Due to the discontinuance of the scheme from 1st March 1951, on account of the financial stringency, about 13,75,000 acres of waste lands scattered all over the State remained to be surveyed. Out of this area, about 6,75,000 acres lie in the scarcity tract. It is estimated that the work of survey and classification of the total area of about 13,75,000 acres would require about two years with the help of the following staff which is proposed to be appointed for the purpose for a period of six months, in the first instance, during 1956–57.

(*i*) One Land Utilization Survey Officer in Bombay Agricultural Service, Class I (Rs. 350—30—650—E.B.—45—1,100) with a special pay at 25 per cent. of the monthly pay.

(*ii*) Three Assistant Land Utilization Survey Officers in Bombay Agricultural Service, Class II (Rs. 220—15—400—E.B.—20—500—E.B.—25—650).

(*iii*) Thirty-eight Agricultural Officers (Rs. 80—5—100—8—140—E.B.—10—200) (including one Agricultural Officer for Land Utilization Survey Officer's office).

(*iv*) *One* Head Clerk (Rs. 140—10—200).

(*v*) *Four* Senior Clerks (Rs. 100—8—140).

(*vi*) *Six* Junior Clerks (Rs. 46—3—85—E.B.—4—125—5—130).

(*vii*) *Eight* Tracer Clerks (Rs. 46—3—85—E.B.—4—125—5—130).

(*viii*) *Twelve* Peons (Rs. 30—½—35).

(*ix*) *Thirty-seven* Khalasis (Rs. 30—½—35).

40.—AGRICULTURE—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

An amount of Rs. 1,05,000 as detailed below is required during 1956–57, for the scheme :—

	Amount.
	Rs.
(*i*) Pay of Officers	6,585
(*ii*) Pay of Establishment	34,920
(*iii*) Allowances and Honoraria	54,995
(*a*) Dearness Allowance Gazetted (1,500)	
(*b*) Dearness Allowance Establishment (25,710)	
(*c*) Permanent Travelling Allowance for 37 Agricultural Officers (15,540).	
(*d*) Travelling Allowance Ordinary (11,285)	
(*e*) House Rent Allowance and other allowance (960)	
(*iv*) Contingencies	8,500
Total ...	1,05,000

A provision of Rs. 4,30,000 has been included for the scheme in the Second Five Year Plan of which an amount of Rs. 1,05,000 is proposed to be utilized during the first year of the Plan i.e. 1956–57.

ITEM 177. Scheme for Soil Conservation Survey in the catchment areas of the river valley projects.

Recurrent ...	... Rs. 25,700	Non-recurrent ...	... Rs. 12,000
Total ...	... „ 37,700	Ultimate annual recurrent	... „

Remarks.—Construction of reservoir at Helwak on the Koyna River in North Satara District has been sanctioned with the object of generating power. It is proposed to undertake a Soil Conservation Survey, in about 12,000 acres out of about 2,24,000 acres (*i.e.*, 350 square miles) of land in the catchment of the project, during the year 1956–57, with the help of the following staff which is to be employed for a period of six months in the first instance, from the middle of the year :—

(*i*) *One* Survey Officer in the Bombay Agricultural Service Class II.

(*ii*) *One* Agricultural Officer in I grade (Rs. 210—10—300).

(*iii*) *Four* Agricultural Officers in II grade (Rs. 80—5—100—8—140—E.B.—200).

(*iv*) *One* Senior Clerk (Rs. 100—8—140).

(*v*) *Four* Agricultural Assistants (Rs. 55—3—85—E.B.—4—125—5—140).

(*vi*) *One* Tracer (Rs. 55—3—85—E.B.—4—125—5—130).

(*vii*) *Two* Junior Clerks (Rs. 55—3—85—E.B.—4—125—5—130).

(*viii*) *Four* Attendants (Rs. 45 per mensem fixed).

(*ix*) *Two* Peons (Rs. 30—½—35).

The Survey party will be in charge of a Survey Officer, who will be assisted by Agricultural Officers and Agricultural Assistants, both in the field-work and laboratory. During the Survey, information regarding land slopes, nature of erosion and soil samples will be collected. The Soil samples will be analised in the laboratory. A provision of Rs. 37,700 is, therefore, required for the scheme during 1956–57, as detailed below :—

	Rs.	Rs.
(*i*) Pay of Officers		1,320
(*ii*) Pay of Establishment		7,530
(*iii*) Allowances and Honoraria		8,550
(*a*) Dearness Allowance (Rs. 4,380) ...		
(*b*) Travelling Allowance (Rs. 2,200) ...		
(*c*) Permanent Travelling Allowance for 4 Agricultural Officers and 2 Agricultural Assistants (Rs. 1,970) ...		
(*iv*) Contingencies	.....	20,300
(*v*) (*a*) *Non-recurring*—		
(*i*) Purchase of furniture and deadstock	2,000	
(*ii*) Laboratory apparatus	10,000	
Total ...	12,000	

(*b*) *Recurring*—	Rs.	
(*i*) Office expenses, Miscellaneous and service postage and telegrams	1,000	
(*ii*) Maintenance of two jeep cars including pay, travelling allowance of 2 Jeep Drivers	4,800	
(*iii*) Wages to labourers	2,500	
Total ...	8,300	
Total, Contingencies ...	20,300	
Grand Total ...		37,700

The proposal forms part of the main scheme "Survey and Research in Soil Conservation" for which a provision of Rs. 4·62 lakhs exists in the draft Second Five Year Plan.

ITEM 178. Scheme for investigation into the sclerotium disease of groundnut in Bombay State.

Recurrent	Rs. 7,429	Non-recurrent	Rs. *Nil.*
Total	,, 7,429	Ultimate annual recurrent ..	,,

Remarks.—At its meeting held in March 1954, the Indian Central Oilseeds Committee strongly felt that State Governments should take steps to control pests and diseases for preventing damage to oilseed crops in right earnest. The Committee suggested that for implementing their programme in this regard, the State Government might formulate schemes and forward the same for consideration of the Committee. Accordingly, a five-year scheme for investigation into the leaf-spot sclerotium diseases of groundnut in this State has been prepared and has been approved by the Indian Central Oilseeds Committee. The Committee has also agreed to bear 50 per cent. of the cost thereon.

A provision of Rs. 7,429 will be required during 1956–57 as detailed below:—

I. *Pay of Officers*—		Rs.
One Assistant Plant Pathologist in the Bombay Agricultural Service, Class II scale (starting salary at Rs. 265 per mensem).		2,915
II. *Pay of Establishment*—		
Two Agricultural Assistants in the II grade		1,210
III. *Allowances and Honoraria*—		
(*i*) Dearness Allowance	1,650	
(*ii*) House-rent Allowance	154	
(*iii*) Travelling Allowance	500	
...		2,304
IV. *Contingencies*—		
Apparatus, chemicals, labours etc.		1,000
Total ..		7,429

The proposal forms part of the main scheme "Research and development of oilseeds" for which a provision of Rs. 5,05,000 has been made in the draft Second Five-Year Plan.

40, AGRICULTURE—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

ITEM 179. Special measures for the nomadic tribes.

Recurrent ..	.. Rs. 1,70,000	Non-recurrent ..	.. Rs. *Nil.*
Total ..	.. „ 1,70,000	Ultimate annual recurrent	.. „

Remarks.—In order to settle the nomadic tribes, it is proposed to undertake the following measures at a total cost of Rs. 1,70,000 during the year 1956–57 :—

	Rs.
(1) Free supply of goats and poultry for encouragement of poultry and goat keeping	20,000
(2) Supply of milch cattle at one fourth rate and	1,20,000
(3) Supply of bullocks at one-fourth cost and seeds at one-half cost and also assistance for land improvement	30,000
Total ..	1,70,000

The total provision for five years included in the Plan is Rs. 12,00,000. It is anticipated that the Government of India will sanction a grant-in-aid of Rs. 19,000 towards part of the proposed expenditure of Rs. 1,70,000 on the scheme during the year 1956–57.

ITEM 180. Additional staff required for implementation of the Second Five Year Plan.

Recurring ...	Rs. 87,115	Non-recurring ...	Rs. 3,000
Total ...	„ 90,115	Ultimate annual recurring ...	„

Remarks.—The work of the Agricultural Department is bound to increase considerably on introduction of the Second Five Year Plan. To cope with the additional work it will be necessary to strengthen the existing staff at—

(*i*) Headquarters and (*ii*) Districts

as shown below :—

(*i*) *Headquarters staff.*—Consequent on the amalgamation of all work in respect of (*i*) agricultural extension and rural development, (*ii*) research and education, (*iii*) agricultural engineering and soil conservation and (*iv*) animal husbandry into one Department the work and the activities of the Agricultural Department have increased enormously. The accounts branch of the Agricultural Department is also very much in arrears so far as the clearance of audit objections, closing of personal ledger accounts, etc. are concerned. In view of the additional to all this work in the Second Five Year Plan period as well as to enable the arrears of work in the Department to be cleared off, it is absolutely essential to create the following posts in the official and ministerial establishments of the Director of Agriculture's office. It is, therefore, proposed to create :—

(*i*) *One* post of Accounts Officer in the Bombay Agricultural Service Class II to assist the existing Accounts Officer in the Bombay Agricultural Service, Class I scale, in view of the complex and voluminous nature of the accounts work in the Agricultural Department the post of Accounts Officer in Bombay Agricultural Service, Class I, scale being designated as Chief Accounts Officer of the Department of Agriculture.

(*ii*) *Six* posts of Superintendent in the scale of Rs. 220—10—300.

(*iii*) *Three* posts of Senior Assistant in the scale of Rs. 140—10—200.

(*iv*) *Nine* posts of Senior Clerks in the scale of Rs. 100—8—140.

(*v*) *Thirteen* posts of Junior Clerk in the scale of Rs. 46—3—85—E.B.—4—125—5—130.

(*vi*) *Six* peons in the scale of Rs. 30—1/2—35 each.

(*vii*) *One* Naik in the scale of Rs. 35—1—45.

Owing to the proposed expansion of the activities and work of the various sections of the Department of Agriculture there will be an allround increase in the clerical work of the office of the Director of Agriculture ; especially in the work relating to establishment matters, departmental enquiries, five year plan, reconciliation of expenditure and receipts, etc. The foregoing additional staff proposed would be necessary in the interest of efficient and expeditious disposal of work.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

(*ii*) *District Staff.*—According to the administrative set up of district staff for each district, one post of Agricultural Officer in I grade is allotted as Additional District Agricultural Officer for the office of each District Agricultural Officer and an Agricultural Officer in the II grade is allotted for each Revenue Sub-Division in a district. Consequent upon the reduction of two posts of Agricultural officers in the I grade and five posts of Agricultural officers in the II grade, provided for in the Seed Multiplication and Distribution Schemes, with effect from the 1st August 1953, there has been no additional District Agricultural Officer for two important districts of Ahmedabad and Dharwar as well as II grade Agricultural Officers for some of the Revenue Sub-Divisions in the districts of Surat, Belgaum, Poona, Satara and Ratnagiri. The staff sanctioned for the Seed Multiplication and Distribution Schemes has been merged with the District staff of the Agricultural Department and has been doing Agricultural Extension work as well as work connected with the seed schemes. It is, therefore, essential in the interest of agricultural extension work in the districts to revive the two posts of I grade Agricultural Officer and five posts of II grade Agricultural Officer and to create five posts of attendants for five II grade Agricultural Assistants in charge of Revenue Sub-Divisions to make up the deficit in the general District staff of the Agricultural Department.

The total provision required to be made during the next year on accounts of the additional staff proposed above is Rs. 90,115 as detailed below :—

A-I-Direction.

	Rs.	Rs.
I. *Recurring*—		
(A) *Pay of Officers*—		
One Accounts Officer in Bombay Agricultural Service Class II ..	2,420	2,420
(B) *Pay of Establishment*—		
(*i*) Six Superintendents (Rs. 220—10—330)		
(*ii*) Three Senior Assistants (140—10—200)		
(*iii*) Nine Senior Clerks (Rs 100—8—140)		
(*iv*) Thirteen Junior Clerks (46—3—85—E.B.—4—125—5—130) ..	39,270	39,270
(*v*) Six peons (Rs. 30—½—35)		
(*vi*) One Naik (Rs. 35—1—45)		
(C) *Allowances and Honoraria*—		
(*i*) Dearness allowance	19,855	
(*ii*) House rent, compensatory allowance, etc.	7,000	26,855
Total, Recurring ..		68,545
	Rs.	Rs.
II. *Non recurring*—		
Purchase of furniture, deadstock, etc. for headquarters staff ..	3,000	3,000
Total ..		71,545

C—*Subordinate and Expert staff.*

I. *Pay of Establishment*—		
(*a*) Two Agricultural Officers (Rs. 210—10—300)		
(*b*) Five Agricultural Officers (Rs. 80—5—100—8—140—E.B.—10—200).	11,496	11,495
(*c*) Five attendants (Rs. 45 per mensem.) ..		
II. *Allowances and Honoraria*—		
(*a*) Dearness allowance	3,785	
(*b*) House rent and compensatory allowance	540	
(*c*) Travelling allowance	2,750	7,075
Total, Recurring ..		18,570

Minor Head.	Recurring.	Non-recurring.	Total.
	Rs.	Rs.	Rs.
(*i*) 'A-I-Direction'	68,545	3,000	71,545
(*ii*) 'C-Subordinate and expert staff'	18,570	....	18,570
	87,115	3,000	90,115

40, *AGRICULTURE*—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

This proposal forms part of the main scheme "Additional Staff in the Department of Agriculture" for which a provision of Rs. 13,00,000 has been made in the draft Second Five-Year Plan.

ITEM 181. Establishment of an Oil-Seed Specialist's Section in Bombay State.

Recurrent ...	Rs.	34,474	Non-recurrent ...	Rs.	2,000
Total ...	,,	36,474	Ultimate annual recurrent ...	,,	

Remarks.—Oil-seeds have a prominent place in the agricultural economy of this State. The areas under different oil-seeds in this State are as under :—

		Acres.
Groundnut	...	30,12,600
Safflower	...	3,77,100
Til (Sesamum)	...	3,82,600
Niger	...	47,900
Linseed	...	53,900
Rape and mustard	...	85,400
Castor	...	1,43,000
		41,02,500

Bombay State stands first in acreage and production of groundnut in India and as a money-crop it stands almost next to cotton. It is therefore essential that special attention should be paid to the cultivation of oil-seeds (including groundnut) in this State. With this end in view, a post of oil-seed specialist in Bombay Agricultural Service Class II is proposed to be created at headquarters with some staff under him.

At present the research work on oil-seeds is being looked after by the Deputy Director of Agriculture (Crop Research), at various research stations in the State in addition to research work on other crops.

Besides the staff at headquarters, one Agricultural Officer in the grade of Rs. 80—5—100—8—140—E.B.—10—200 and one Agricultural Assistant in the grade of Rs. 55—3—85—E.B.—4—125—5—140, has been proposed at each of the Agricultural Research Stations at (1) Niphad, (2) Bijapur, (3) Karad, (4) Dohad, and (5) Bailhongal, to help the existing staff in the research work on oil-seeds.

The research work envisages undertaking of agronomic experiments at the existing research stations to determine optimum requirements of different oil-seed crops with regard to seedrate, spacing, proportion in crop-mixtures, manures, and rotation. Evolution of methods of control of diseases of oil-seeds will also form a part of the research work.

A provision of Rs. 36,474 will be required during the year 1956-57 as shown in the appended statement.

The scheme has been classified under the general scheme for additional staff in the Department of Agriculture for which a provision of Rs. 13,00,000 has been made in the Draft Second Five-Year Plan.

Statement.

	Rs.
A. *Non-recurrent*—	
Purchase of furniture and other equipment	2,000
B. *Recurrent*—	
I. *Pay of officers*—	
Oil-seeds Specialist in B. A. S. Class I in grade of Rs. 350—30—650—E.B.—45—1,100.	3,850

ITEM 182. Scheme for research in developing breeds of sheep suitable for farmers in Bombay State.

Recurrent ...	...	Rs.	21,597	Non-recurrent ...	...	Rs.	9,500
Total ...	...	,,	31,097	Ultimate annual recurrent ...		,,	

Remarks.—The principal income in sheep rearing is from mutton, the wool being a subsidiary source of income to the shepherd. This has not been sufficiently appreciated and, as yet no attempts have been made in India to study the potentialities of the existing breeds of sheep from the points of view of mutton production. It is necessary to give due importance to this problem in all the breeds of sheep, more particularly in the Southern region where more than 12,00,000 sheep are bred entirely for mutton. There are great possibilities of improving the sheep in this region from the point of view of the quality of the mutton. The rearing of sheep is carried out largely by backward nomadic communities who graze their flocks on waste lands. As more and more waste lands are brought under agriculture, the development of a new type of sheep is necessary to fit in with the economy of the small farmer. The nomadic herds which have adapted themselves to long walks have to be replaced by a type which can forage on small areas and make the best use of the facilities available under intensive agriculture. The present drive for "Grow More Food" and the extension of irrigation projects will also require a type of sheep which will efficiently convert the grass and weeds into mutton and thus bring higher returns to the farmer. A balanced agriculture contributing to food production will perforce require a sheep to replenish the soil fertility. It is necessary to undertake research for studying the potentialities of the present breeds of sheep, particularly in the Southern region where the flocks are entirely maintained for meat production. Hence it is proposed to undertake a scheme under the auspices of the Indian Council of Agricultural Research in this region, for research on the following breeds :—

(*i*) Nellore sheep in the Madras State.

(*ii*) Mandya sheep in the Mysore State.

(*iii*) Tenguri and Mandya sheep in the Bombay Deccan.

Part of the work (viz. Development of Tenguri and Mandya Sheep) under the scheme is accordingly proposed to be undertaken in Bombay State at an estimated cost of Rs. 31,097 during 1956–57. The Indian Council of Agricultural Research has sanctioned the scheme for a period of five years and is willing

to bear 50 per cent. of the recurring expenditure the capital expenditure being borne entirely by this Government. The expenditure during 1956–57 is estimated at Rs. 31,097 as shown below :—

Non-recurring Expenditure—

	Rs.
1. Paddocks and sheds	8,000
2. Miscellaneous equipment	1,500
Total, Non-recurring expenditure ...	9,500

Recurring Expenditure—

Pay of Establishment—

(*i*) Manager in the grade of Rs. 80—5—100—8—140—E.B.—10—200 with a starting pay of Rs. 80 per mensem (for 11 months).	880
(*ii*) One Stock Assistant in the grade of Rs. 55—3—85—E.B.—4—125—5—140.	605
(*iii*) One peon in the grade of Rs. 30—½—35	330
(*iv*) Leave salary	321
Total ...	2,136

Allowances and Honoraria—

(*i*) Travelling Allowance	300
(*ii*) Dearness Allowance	1,500
(*iii*) House rent and other Allowances	600
Total ...	2,400

Foundation Stock—

Purchase of 220 ewes at Rs. 40 each	8,800
Purchase of 12 Local rams at Rs. 80 each	960
Total ...	9,760

Contingencies—

	Rs.
Office expenses and Miscellaneous	450
Purchase and repairs to and upkeep of livestock and deadstock	1,500
Sundry expenses	450
Labour (Daily and monthly) etc.	2,160
Dearness allowance to labourers	2,520
Total ...	7,080
Indian Council of Agricultural Research's Provident Fund	221
Total ...	221
Total, Recurring expenditure ...	21,597
Total, Non-recurring expenditure ...	9,500
Grand Total ...	31,097

The share of the Indian Council of Agricultural Research thus works out to Rs. 15,548–8–0 for the first ear of the scheme.

This scheme forms part of the main scheme "Research and development of sheep" for which a provision of Rs. 14,65,000 has been made in the draft 2nd Five-Year Plan.

40, AGRICULTURE—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

ITEM 183. Expansion of existing sheep breeding research sub-stations.

Recurring	Rs.	72,510	Non-recurring	Rs.	*Nil.*
Total	,,	72,510	Ultimate annual recurrent ...	,,	

Remarks.—Six small Sheep Breeding Research Sub-Stations have been established in the principal sheep rearing areas of the State in the districts of East Khandesh, Poona, Sholapur, Bijapur, Belgaum and Dharwar. The work undertaken at these research sub-stations is experimental breeding trials with a view to evolving superior strains of sheep to suit local environmental and climatic conditions and to multiply the selected types of sheep particularly rams for being supplied to shepherds and farmers for grading and improvement of the local non-descript flocks.

These research stations are maintaining small number of experimental flocks which has restricted the production of superior types of sheep in large numbers. It is necessary to expand the activities and strengthen these institutions so that the facilities for raising adequate number of improved flocks are provided for and the required number of fine woolled rams are made available. It is therefore, proposed to expand the scope of these institutions.

A provision of Rs. 72,510, as shown below will be required for the year 1956-57 :—

	Rs.
Recurring—	
Pay of Establishment	31,690
Travelling allowance	2,200
Dearness allowance	14,140
House rent and other allowances	1,390
Contingencies	23,090
Total of Recurring ...	72,510

A provision of Rs. 14,65,000 stands included in the draft 2nd Five-Year Plan for the scheme for research and development of sheep and an amount of Rs. 4,93,000 will be required for expending during 1956-57.

DETAILS OF THE EXPENDITURE.

I. Estimates of expenditure of Rs. 11,220 for the year 1956-57, required for the expansion of Sheep Breeding Station, Pashan.

Recurring—

	Rs.
Pay of Establishment—	
1. One Agricultural Officer, IInd grade, 80—5—100—8—140—E. B.—10—200, at Rs. 155 p. m.	1,705
2. One Agricultural Assistant, Ist grade, 100—8—140—10—170, at Rs. 144 p. m. (average pay).	1,584
3. One Junior Clerk, 46—3—85—E. B.—4—125—5—140, at Rs. 82 p. m. ...	902
4. One Peon, 30—1/2—35, at Rs. 33 p. m.	363
Total, Pay of Establishment ...	4,554

	Rs.
Allowances and Honoraria—	
1. Travelling allowance for Establishment (Ordinary)	184
2. Dearness allowance	2,050
3. House rent and other allowances	792
Total, Allowance and Honoraria ...	3,026

Contingencies—	
1. Office Expenses and Miscellaneous	100
2. Purchase of and repairs to and upkeep of Livestock and Deadstock ...	2,000
3. Labour (daily and monthly) water supply charges, seeds, manures etc.	1,540
4. Dearness allowance	.....
5. Construction of and Repairs to Buildings, fencing and bunding ...	
Total, Contingencies ...	3,640
Total, Recurring ...	11,220

40, AGRICULTURE—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

II. Estimates of expenditure of Rs. 8,092 for the year 1956-57 required for the expansion of Sheep Breeding Station, Mahud.

	Rs.
Recurring—	
Pay of Establishment—	
1. One Agricultural Assistant, 1st grade, 100—8—140—10—170, at Rs. 144 p. m.	1,583
2. One Junior Clerk, 46—3—85—E. B.—4—125—5—140, at Rs. 82 p. m. ...	902
3. One Peon, 30—1/2—35, at Rs. 33 p. m.	363
Total, Pay of Establishment ...	2,848
Allowances and Honoraria—	
1. Travelling allowance for Establishment (Ordinary)	184
2. Dearness allowance	1,420
Total, Allowances and Honoraria ...	1,604
Contingencies—	
1. Office Expenses and Miscellaneous	100
2. Purchase of and repairs to and upkeep of Livestock and Deadstock ...	2,000
3. Labour (daily and monthly), water supply charges, seeds, manures etc. ...	1,540
4. Dearness allowance	
Total, Contingencies ...	3,640
Total, Recurring expenditure ...	8,092

III. Estimates of expenditure of Rs. 10,427 for the year 1956-57, required for the expansion of Sheep Breeding Station, Bhilakhed.

	Rs.
Recurring—	
Pay of Establishment—	
(1) One Agricultural Officer, II grade, 80—5—100—8—140—E. B.—10—200, at Rs. 155 p. m.	1,705
(2) One Agricultural Assistant, 1st grade, 100—8—140—170, at Rs. 144 p.m. ...	1,784
(3) One Junior Clerk, 46—3—85—E. B.—4—125—5—130, at Rs. 82 p.m. ...	902
(4) One Peon, 30—1/2—35, at Rs. 33 p.m....	363
Total, Pay of Establishment ...	4,554
Allowances and Honoraria—	
Travelling allowance (Ordinary) for Establishment	183
Dearness allowance	2,050
Total, Allowance and Honoraria ...	2.233
Contingencies—	
Office Expenses and Miscellaneous	100
Purchase of and Repairs to and Upkeep of Livestock and Deadstock ...	2,000
Labour (daily and monthly), water supply charges, seeds, manures and other consumable stores, etc.	1,540
Dearness allowance	
	3,640
Total ...	10,427

40, AGRICULTURE—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

IV. Estimates of expenditure of Rs. 8,263 for the year 1956–57 required for the expansion of Sheep Breeding Station, Guttal.

	Rs.
Recurring—	
Pay of Establishment—	
(1) One Agricultural Officer, IInd grade 80—5—100—8—140—E.B.—10—200, at Rs. 155 per mensem.	1,705
(2) One Junior Clerk, 46—3—85—E.B.—4—125—5—130, at Rs. 82 per mensem.	902
(3) One Peon, 30—1/2—35, at Rs. 33 per mensem	363
Total, Pay of Establishment ...	2,970
Allowances and Honoraria—	
Travelling Allowances for Establishment (Ordinary)	183
Dearness Allowance	1,470
Total of Allowances & Honoraria ...	1,653
Contingencies—	
Office Expenses and Miscellaneous	100
Purchase of and Repairs to and Upkeep of Livestock and Deadstock etc. ...	2,000
Labour (Daily and monthly) etc.	1,540
Total of Contingencies ...	3,640
Total of Recurring ...	8,263

V. Estimates of expenditure of Rs. 10,427 for the year 1956–57, required for the expansion of Sheep Breeding Station, Anagwadi.

	Rs.
Recurring—	
Pay of Establishment—	
(1) One Agricultural Officer, II grade, 80—5—100—8—140—E.B.—10—200 at Rs. 155 per mensem.	1,705
(2) One Agricultural Assistant 1st grade 100—8—140—170— at Rs. 144 p. m.	1,584
(3) One Junior Clerk, 46—3—85—E.B.—4—125—5—130 at Rs. 82 p. m. ...	902
(4) One Peon, 30—½—35 at Rs. 33 per mensem	363
Total, Pay of Establishment ...	4,554
Allowances and Honoraria—	
Travelling Allowance for establishment (Ordinary)	183
Dearness Allowance	2,050
Total, Allowances and Honoraria ...	2,233

MINISTER IN CHARGE—SHRI B. S. HIRAY.

Contingencies—	Rs.
Office Expenses and Miscellaneous	100
Purchase of and Repairs to and Upkeep of Livestock and Deadstock	2,000
Labour (daily and monthly) water supply charges, seeds, manures and other consumable stores, etc.	1,540
	3,640
Total Recurring	10,427

Estimates of expenditure of Rs. 8,263 for the year 1956-57 required for the expension of Sheep Breeding Station, Suttatti.

	Rs.
Recurring—	
Pay of Establishment—	
1. One Agricultural Officer, II grade Rs. 80—5—100—8—140—E.B.—10—200 at Rs. 155 per mensem.	1,705
2. One Junior Clerk, Rs. 46—3—85—E.B.—4—125—5—130 at Rs. 82 per mensem.	902
3. One Peon, Rs. 30—½—35 at Rs. 33 per mensem	363
Total of Pay of Establishment ..	2,970
Allowances and Honoraria—	
Travelling Allowances for Establishment (Ordinary)	183
Dearness Allowance	1,470
Total of Allowances and Honoraria ..	1,653
Contingencies—	
Office Expenses and Miscellaneous	100
Purchase of and Repairs to and upkeep of Livestock and Dead stock etc. ..	2,000
Labour (daily and monthly) etc.	1,540
Total of Contingencies ..	3,640
Total of Recurring ..	8,263

Estimates of expenditure of Rs. 15,818 for the year 1956-57 required for the Headquarter staff of the Sheep Breeding Section at Poona.

	Rs.
Recurring Expenditure—	
Pay of Establishment—	
1. One Technical Assistant at Rs. 260 per mensem (Agricultural Officer 1st grade) Rs. 210—10—300.	2,860
2. One Head Clerk at Rs. 175 per mensem in the grade of Rs. 140—10—200.	1,925
3. One Accountant at Rs. 175 per mensem (Rs. 140—10—200) ..	1,925
4. Two Junior Clerks at Rs. 82 per mensem (Rs. 46—3—85—E.B.—4—125—5—130).	1,804
5. Two Peons at Rs. 33 per mensem (30—½—35)	726
Total of Pay of Establishment ..	9,240
Allowance Honoraria—	
1. Travelling Allowance	1,100
2. Dearness Allowance	3,630
3. House Rent Allowance	598
Total, Allowances and Honoraria ..	5,328

MINISTER IN CHARGE—SHRI B. S. HIRAY.

	Rs.
Contingencies—	
1. Office expenses and Miscellaneous	1,000
2. Purchase of Upkeep of etc.	250
Total, Contingencies ..	1,250
Total, Recurring Expenditure of Headquarter staff ...	15,818

ITEM 184. Scheme for establishment of Demonstration garden-*cum*-nurseries in Ratnagiri District.

Recurrent ..	Rs.	17,015	Non-recurrent	Rs.	23,300
Total	,,	40,315	Ultimate annual recurrent ..	,,	

Remarks.—In order to develop Ratnagiri District, it has been proposed to bring under fruit cultivation the vast area of fallow lands by planting cashew, mango and other fruit trees. The plantation of such trees along the steep slopes, will help to arrest soil erosion and preserve tree growth, besides the other incidental benefits that will accrue to the fruit growers by the tree plantation. The supply of reliable nursery plants which is the *sine qua non* of the development of horticulture, is essential for the achievement of the above purpose. It has therefore, been proposed to establish three model orchard-*cum*-demonstration centres in the Sourthern and Northern parts of Ratnagiri District. The model orchard-*cum*-demonstration nursery in the Southern part of the Ratnagiri will have an estimated expenditure, of Rs. 5,770 as per details furnished in Appendix 'A' and that in the Northern part will have an estimated cost of Rs. 34,545 as per details given in Appendix 'B'.

The scheme will become self-supporting in due course, though no receipts can be expected during the first two years. Out of the total estimated cost of Rs. 40,315 (Rs. 17,015 recurring and Rs. 23,300 non-recurring), during 1956-57 the recurrent expenditure of Rs. 17,015 is proposed to be shared by Government of Bombay and the Government of India on 50 : 50 basis i.e. the share of Government of India will be Rs. 8,507. The scheme will be started only after the Government of India's concurrence to share half the recurrent expenditure is received.

The proposal forms part of the main scheme "Research and development of Horticulture" for which a provision of Rs. 14,84,000 has been made in the draft Second Five-Year Plan.

APPENDIX "A"*

Expenditure in 1956-57 for the demonstration garden-cum-nursery in Southern Ratnagiri.

	Rs.
Pay of Establishment—	
One Mali in the grade of Rs. 35—1—40	385
Allowances and Honoraria—	
Dearness Allowance (Mali) at Rs. 35	385
Contingencies—	
Labour monthly and daily, water supply charges and other consumable stores	5,000
Total ..	5,770

APPENDIX "B"

Expenditure in 1956-57 for the Demonstration-cum-nursery in Northern part of Ratnagiri District.

	Rs.	Rs.
Non-recurring—		
Cattle shed	1,000	
Two pairs of bullocks	3,000	
Horticultural tools and implements	1,000	
Furniture	300	
Digging of well	3,000	
Purchase of land 50 acres	15,000	
Total ..	23,300	23,300

**Note.*—The station will be worked in conjunction with the Cashewnut Research Station and as such no provision has been made for the other staff.

40, AGRICULTURE—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

Recurring—

	Rs.	Rs.
Pay of Establishment—		
1 Agricultural Officer grade of Rs. 80—5—100—8—140—E.B.—10—200	880	
1 Agricultural Assistant grade of Rs. 55—3—85	605	
1 Mali, grade of Rs. 35—1—40	385	
Total ..	1,870	
Allowances and Honoraria—		
Agricultural Officer at Rs. 45 per mensem	495	
Agricultural Assistant at Rs. 45 per mensem	495	
Mali at Rs. 35 per mensem.	385	
Travelling Allowance	500	
Total ..	1,875	
Contingencies—		
Office expenses and miscellaneous	200	
Labour monthly and daily etc.	7,000

Total ..	7,500	11,245
Grand Total ..		40,315

ITEM 185. Scheme for conducting pilot survey of arecanut plantations.

Recurrent	... Rs.	12,640	Non recurrent	... Rs.	*Nil.*
Total	... ,,	12,640	Ultimate annual recurrent	... ,,	

Remarks.—The statistics of area and production of arecanut are unsatisfactory in Bombay State as also in other States of the Indian Union. Considerable difficulty has, therefore, been experienced in undertaking a long-range programme of development of this crop due to doubtful accuracy of available statistics pertaining to this industry. Bombay State has an area of about 21,500 acres under this crop, out of which about 80 per cent. is found in the Kanara District. A scheme for conducting a pilot survey of arecanut plantations in Kanara District, as recommended by the Indian Central Arecanut Committee, with a view to ensuring accuracy of acreage data and to estimating the annual production of arecanut is, therefore, proposed to be undertaken during 1956-57 at an estimated cost of Rs. 12,640 as shown below. The cost is to be borne by this Government and the Indian Council of Agricultural Committee on 50 : 50 basis and the scheme will be taken up only if the Committee agrees to bear its share of expenditure :

	Rs.
I. *Pay of Establishment*—	
(*a*) Two Junior Statistical Assistants in the scale of Rs. 80—5—100—8—140—E.B.—10—200 at Rs. 80 per month.	1,920
(*b*) One Junior Clerk-computor in the scale of Rs. 46—3—85—E.B.—4—125—5—130, at Rs. 55 per month.	660
(*c*) Four Agricultural Assistants in the scale of Rs. 55—3—85—E.B.—4—125—5—140, at Rs. 55 per month.	2,640
Total of (I) ...	5,220
II. *Allowances and Honoraria*—	
(*a*) Dearness allowance at Rs. 45 per month	3,780
(*b*) House-rent allowance at Rs. 10 per month to two Junior Statistician Assistants and one clerk.	360
(*c*) Compensatory allowance at Rs. 5 per month to two Junior Statistical Assistants and one clerk.	180
(*d*) Travelling allowance (ordinary) at Rs. 14	1,000
Total of (II) ...	5,320

III. *Contingencies*—

	Rs.
Office expenses and miscellaneous	300
Compensation to be given to the owners of the gardens at Rs. 10 per garden (for 180 gardens).	1,800
Total of (III) ...	2,100
Grand Total ...	12,640

This proposal forms part of the general scheme "Research and Development of Horticulture" for which a provision of Rs. 14,84,000 has been made in the Draft Second Five-year Plan.

ITEM 186. Establishment of a cattle breeding station for Khillar Breed in Sholapur District.

Recurrent	... Rs.	10,660	Non-recurrent	... Rs.	2,00,000
Total	... ,,	2,10,660	Ultimate annual recurring	... ,,	

Remarks.—The research in animal husbandry aims at evolving superior strains among breed or breeds suited to different environmental conditions and at carrying out investigations into the problems of animal nutrition. There are three major regions in this State namely the Sandy plains of Gujarat, the Deccan Plateau with two distinct areas, *viz.*, one receiving heavy rain fall and the second comprising the arid eastern belt. Each of these tracts have one major breed, i.e. Kankrej for Gujarat plains, the Dangi for heavy rainfall areas and Khillar for the arid districts of the Deccan and Karnatak. Since a fully equipped cattle breeding station for Kankrej breed, with land resources and necessary herd strength, has been established at Chharodi and is now operated by the Institute of Agriculture, Anand and two small cattle breeding stations for Dangi breed have been established, it is proposed to establish a full fledged cattle breeding station for Khillar breed under the Second Five-Year Plan, at a total cost of Rs. 15,85,886.

The experimental herd at this station will be comprised of 100 breeding cows and 5 pedigree bulls of high quality by the end of the Five Years.

A provision of Rs. 2,10,660 will be required during 1956–57, as shown below :—

A. *Non-Recurring Expenditure*—

	Rs.
Acquisition of land including levelling, cleaning etc. ...	2,00,000
Total, Non-recurring ...	2,00,000

40, AGRICULTURE—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

		Rs.
I.	*Pay of Officers*—(for 3 months)—	
	One Class II officer in the grade of Rs. 220—15—400—E.B.—20—500—E.B.—25—650	660
II.	*Pay of Establishment*—(for 3 months)—	
	1. One Agricultural Officer in the 1st grade of Agricultural Officer, Rs. 210—10—300	630
	2. Two Agricultural Assistants in the grade of Rs. 55—3—85—E.B.—4—125—5—130 at Rs. 55 each	330
	3. One Senior clerk in the grade of Rs. 100—8—140 at Rs. 100 per mensem	300
	4. One Junior clerk and one Store-keeper in the grade of Rs. 46—130 at Rs. 55 per mensem	330
	5. Two Mukadams at Rs. 40—1—50—2—60	240
	6. One Engine Driver in the scale of Rs. 40—1—50—2—60	120
	7. Two peons in the grade of Rs. 30—1/2—35	180
	Total Pay of Establishment ...	2,790
	Allowances and Honoraria—(for 3 months)—	
	Dearness Allowance	1,560
	Travelling Allowance	1,640
	Total Allowances and Honoraria	3,200
	Contingencies—(for 3 months)—	
	(1) Office Expenses and Miscellaneous	60
	(2) Labour daily, monthly, etc.	1,090
	(3) Purchase, repairs and upkeep of livestock and dead-stock	2,000
	(4) Upkeep and running of machinery	520
	(5) Petty constructions and repairs	200
	(6) Dearness allowance to labourers	800
	Total Contingencies ...	4,670
	Total recurring ...	10,660
	Grand Total ...	2,10,660

ITEM 187. Scheme for planned extension of superior long-staple Indo-American Cotton in *Goradu* and light soils in Gujarat.

Recurrent	... Rs.	56,000	Non-recurrent ...	... Rs.	3,000
Total ...	... ,,	59,000	Ultimate annual recurrent	... ,,	

40, AGRICULTURE—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

Remarks.—A separate scheme for planned extension of superior long staple cottons is an urgent necessity. The area under these cottons in Goradu and light soils of Gujarat during 1955–56 is estimated to be more than 1·5 lakh acres. For the spread of pure cotton of assured quality it is essential that only pure seed is distributed to the growers of superior long staple cottons. It is absolutely essential to keep up the purity of the type and the prestige of the quality of the cotton. The area under pure seed of 170-002 and 134-002-M types of cotton grown during 1955–56 is as under :—

		Acres.
170–002	Type	274
134–002-M	,, ...	46

It is proposed to charge a fee of Rs. 2 per bale during the year 1957–58 and thereafter. This charge will make the scheme not only self-sufficient by 1960–61, but it will be a paying scheme in addition to the complete satisfaction that will be given to the consuming mills by supplying pure genuine superior long staple bales.

An amount of Rs. 59,000 is required to be provided in the budget during 1956–57 as shown below :

The scheme is classified under the general scheme for research and development of cotton for which a provision of Rs. 30,00,000 has been made in the draft Second Five-Year Plan.

Statement showing the details of expenditure for the year 1956–57.

	Rs.
I Pay of Officers—	
Cotton Superintendent in B. A. S. Class II in the scale of Rs. 220—15—400—E.B.—20—500—25—650	2,640
Total, Pay of Officers ...	2,640
II Pay of Establishment—	
Three Agricultural Officers in the grade of Rs. 80—5—100—8—140—E.B.—10—200	3,060
Sixteen Agricultural Assistants in the grade of Rs. 55—3—85—E.B.—4—125—5—140	10,560
Two Senior Clerks in the grade of Rs. 100—8—140	2,400
Three Junior Clerks in the grade of Rs. 46—3—85—E.B.—4—125—5—130	1,980
Five Peons in the grade of Rs. 30—½—35.	1,800
Total, Pay of Establishment ...	19,800
III Allowances and Honoraria—	
Travelling Allowance of Officers	2,000
Travelling Allowance of Establishment	8,000
Dearness Allowance	15,564
House Rent Allowance	312

Non-recurring—	
Purchase of Dead Stock	3,000
Recurring—	
Rates, Rent and Taxes	3,000
Office Expenses and Miscellaneous	3,200
Transport charges	150
Commission for stocking of seed at the rate of Re. 0-8-0 per Bengal Maund	300
Seed treatment, etc., at about anna one per Bengal Maund	50
	9,700
Grand Total ...	59,000

40, *AGRICULTURE*—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

ITEM 188. Scheme for the improvement of Wagad Cotton at Viramgam, North Gujarat.

Recurrent	... Rs.	14,746	Non-recurrent	... Rs.	*Nil.*
Total	... ,,	14,746	Ultimate annual recurrent	... ,,	

Remarks.—The scheme was started in May 1937 with the financial help of the Indian Central Cotton Committee. The result of the work of the first 10 years was evolution of a medium stappled strain K-72-2 known as Kalyan which is somewhat higher yielding, 3 per cent. higher giving and 0·06 inches longer and finer fibre than the short stappled local wagad. The Kalyan strain was released for cultivation in North Gujarat in the year 1947 and has since covered the entire wagad cotton area of about 5½ lakh acres in that tract.

After evolving Kalyan, further improvement in respect of early maturity and fibre weight of Kalyan Cotton was considered necessary because it suffers from frosts which occur frequently in the area. A variety which matures earlier than Kalyan with other character superior to or equal to Kalyan is, therefore, sought to be evolved. A new set of crosser have been undertaken between Kalyan and W-87 on the one hand and early quality types from Dharwar and Madras on the other and are in early generation. From the existing material a strain 280-1, derived from the cross between Kalyan and a Russian culture H-8-1 may prove superior to Kalyan for the drier region where Kalyan is found unsatisfactory. The new strain has been found to be earlier maturing and much higher yielding than Kalyan and the performance of this strain requires to be studied further to examine the possibility of replacing Kalyan by it in the Bavla region first, pending the evolution of a strain which will be superior to Kalyan and more suitable for whole of the Wagad tract.

The Indian Central Cotton Committee has now resolved not to finance cotton research scheme beyond 15 years and as the scheme for improvement of wagad cotton at Viramgaon will complete 19 years of its working (on 31st March 1956) with the aid of the Committee, no further financial aid would be forthcoming from the Committee and as such expenditure on the Scheme will have to be borne entirely by the State Government. The scheme is to run over for a period of five years and the expenditure on the scheme during the year 1956–57 will be as follows :—

Recurrent—	Rs.	Rs.
I. *Pay of Establishment*—		
1 Agricultural Officer in the scale of Rs. 210—10—300 at Rs. 280 per mensem	3,360	
	20*	
	3,380	
1 Agricultural Assistant in the scale of Rs. 55—3—85—E.B.—4—125—5—140 at Rs. 85 per mensem	1,020

(*iii*) Cultivation charges	2,000	
(*iv*) Selfing charges	1,000	
(*v*) Rent, Rates and Taxes	240	
(*vi*) Purchase, Repairs and upkeep of Livestock and Dead-stock, etc.	500	
Total, Contingencies ...	4,300	4,300
Grand Total ...		14,746

This scheme forms part of the main scheme "Research and Development of Cotton" for which a provision of Rs. 30 lakhs has been made in the draft 2nd Five Year Plan.

ITEM 189. Continuance of Broach Cotton Breeding Scheme.

Recurrent	.. Rs.	29,735	Non-recurrent	.. Rs.	*Nil.*
Total	.. ,,	29,735	Ultimate annual recurrent	.. ,,	

Remarks.—The scheme was originally started in 1932, with the financial aid of the Indian Central Cotton Committee. A highly wilt resistant strain Vijay (B. C. 1-2) possessing higher yield, higher ginning and lower fibre weight as compared to Broach Deshi No. 8 was evolved and was released for cultivation in 1943, in the Middle Gujarat Cotton tract, where 9 to 10 lakh acres were under cotton cultivation. The object of the scheme after the evolution of Vijay Strain was to evolve a high yielding, high ginning, longer stapled and earlier maturing strain. Further work resulted in the evolution of strain, *viz.* 98-41, which was found to be slightly superior to Vijay in yield and also in quality. Strain 98—41 was earlier maturing than Vijay by about 8 to 10 days and also as highly resistant to wilt disease as Vijay. Further work aims at evolving a strain superior to strain 98-41 and earlier to mature so as to escape the frost that may occur in the northern part of Middle Gujarat. For the latter purpose a sub-station has been opened at Kadiadra, Sabarkantha District, since 1953-54.

The Indian Central Cotton Committee did not agree to bear any expenditure during its extension beyond 31st March 1955. The scheme has, therefore, been sanctioned for a further period of one year with effect from 1st April 1955 and the full cost is being met by this Government. As this Cotton Breeding Station serves the Middle Gujarat cotton zone covering about 10 lakhs of acres, it is proposed to continue the scheme for a further period of one year with effect from 1st April 1956 for which a provision of Rs. 29,735 is required as detailed below:—

	Rs.	Rs.
Recurring—		
I. Pay of Officers in the scale of Rs. 220—15—400—E. B.—20—400—E. B.—20—500—E. B.—25—650 pay at Rs. 220 per mensem	2,640	2,640

MINISTER IN CHARGE—SHRI B. S. HIRAY.

ITEM 190. Scheme for expansion of the activities of the Sub-Division of the Statistical Section of the Agricultural Department, dealing with the " Design and Analysis of Field Experiments ".

Recurrent	Rs.	17,825	Non-recurrent	Rs.	6,900
Total	,,	24,725	Ultimate annual recurrent ...	,,	

Remarks.—The agronomic and manurial experiments conducted by the Sub-Section of the Statistical Section dealing with the design and analysis of field experiments have increased very much both in number and complexity. So far 450 layouts have been prepared and the data obtained therefrom have been complied, analysed and interpreted and the statistical reports thereof have been presented to the Departmental and Expert Committees. In addition to this, large scale manurial trials on cultivator's fields of paddy kharif, jawar and irrigated wheat, and small scale experiments to evaluate the effect of bunding and dry farming on yields of crops have been conducted by the Sub-Section. It is proposed to undertake immediately the design and analysis of manurial agronomic and bunding trials on an extensive scale in all parts of the State and therefore the Sub-Section requires to be expanded to cope up with the heavy additional work. It is estimated that annually about 4,000 experiments will be carried out and that the data obtained therefrom will be analysed and statistical reports will be prepared. These reports will be very useful to the Agricultural Officers in their propoganda work. It is, therefore, proposed to sanction the expansion of the Sub-Section at an estimated cost of Rs. 24,753 during 1956-57, in the first instance, as shown below :—

	Rs.	Rs.
I. Pay of Officers—		
(*a*) One Assistant Statistician in Bombay Agricultural Service Class II (design of experiments) in the grade of Rs. 220—15—400—E. B.—20—500—E. B.—25—650, on Rs. 220 per month.	2,420	
(*b*) One Statistical Survey Officer in Bombay Agricultural Service Class II (Field Experiments) in the grade of Rs. 220—15—400—E. B.—20—500—E. B.—25—650, on Rs. 220 per month.	2,420	
		4,840
Pay of Establishment—	Rs.	
(*a*) Two Junior Statistical Assistants in the grade of Rs. 80—5—100—8—140—10—200 on Rs. 80 per month.	1,760	
(*b*) Two Junior Clerks in the grade of Rs. 46—3—85—E. B.—4—125—5—130 on Rs. 55 per month.	1,210	
(*c*) One Typist in the grade of Rs. 46—3—85—E. B.—4—125—5—130 on Rs. 55 per month.	605	
(*d*) Two peons in the grade of Rs. 30—1/2—35 on Rs. 30 per month.	660	
		4,235
II. Allowances and Honoraria etc.—		
(*a*) Dearness allowance	4,455	
(*b*) House rent allowance	1,004	
(*c*) Compensatory Local allowance	319	
(*d*) Travelling allowance	2,972	
		8,750
III. Contingencies—		
Non-recurring—		
(*a*) One Electric Facit Machine	2,500	
(*b*) Two hand-driven Facit Machines	3,200	
(*c*) One Type Writer	1,200	
		6,900
Grand Total		24,753

This proposal has been classified under " General Research Schemes " for which an amount of Rs. 59,09,000 has been provided for in the draft Second Five Year Plan.

40, *AGRICULTURE*—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

ITEM 191. Scheme for carrying out research in improved agricultural implements.

Recurrent	...	Rs.	28,200	Non-recurrent	...	Rs.	*Nil.*
Total	...	,,	28,200	Ultimate annual recurrent		,,	

Remarks.—The scheme for survey of indigenous agricultural implements has been sanctioned by Government, during the current year. The scheme is entirely financed by the Indian Council of Agricultural Reserach. The scheme actually started functioning from the 1st July 1955, with the appointment of Research Engineer in charge of the scheme. The survey work is to be completed before the close of the current financial year. The Research Engineer under the scheme has also been asked to undertake work of research in agricultural implements side by side. A State Advisory Committee consisting of representatives of Agricultural Department, manufacturers and farmers has been constituted under the survey scheme. The function of the Advisory Committee is to recommend to the manufacturers as to which implements they should manufacture for the different regions of the State. The research work on these implements is to be carried out by the Research Engineer and his staff. Government has also proposed consideration of introduction of the implements and machinery in the Project/National Extension Service areas and have directed that the work in connection with taking trials of agricultural implements suitable for a farmer having a holding of 10 to 15 acres should be entrusted to the Research Engineer.

As the Research Engineer is concentrating on completion of the survey work within the prescribed period i. e. before the close of the current financial year, it would not be possible for him to complete the research work referrred to above during the current financial year and accordingly it is necessary to continue the scheme, as a Government scheme, for research work on indigenous agricultural implements for a further period of one year at a total cost of Rs. 28,200 as shown below :—

		Rs.	Rs.
I. *Pay of Officers*—			
One Research Engineer (Rs. 350—30—650—E.B.—45—1,100)			7,680
II. *Pay of Establishment*—			
(*i*) One Research Assistant (Rs. 200—10—300)	...	2,894	
(*ii*) One Draftsman (Mechanic) Rs. 100—4—120—5—160)	...	1,634	
(*iii*) One Clerk-*cum*-typist (Rs. 55—3—85—E.B.—4—125—5—130).		841	
(*iv*) One Tracer (Rs. 55—3—85—4—125—5—130)	...	660	
(*v*) Two Peons (Rs. 30—½—35)	...	775	
(*vi*) One Attendant (Rs. 45 fixed)	...	540	
		7,344	7,344
III. *Allowances and Honoraria*—			
(*i*) Dearness Allowance of Officer	...	1,020	
(*ii*) Dearness Allowance of Establishment	...	3,240	
(*iii*) House Rent allowance	...	1,020	
(*iv*) Compensatory allowance	...	396	
(*v*) Travelling allowance of Officer	...	1,800	
(*vi*) Travelling allowance of Establishment	...	1,500	
		8,976	8,976
IV. *Contingencies*—			
(*i*) Office expenses and miscellaneous	...	1,200	
(*ii*) Purchase, upkeep and repairs	...	3,000	
		4,200	4,200
Grand Total	...	...	28,200

The scheme has been classified under 'General Research Schemes' for which a provision of Rs. 59,09,000 stands included in the Second Five-Year Plan.

40, AGRICULTURE—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY—*contd.*

ITEM 192. Scheme for establishment of Regional Arecanut Research Station at Sirsi, Kanara District.

Recurrent	Rs.	24,920	Non-recurrent	Rs.	20,375
Total	,,	45,295	Ultimate annual recurrent ..	,,	

Remarks.—No Research work on any systematic lines has so far been done on arecanut, with the result that the arecanut industry has not properly developed. Due to frequent outbreaks of Mahali (Koleroga) considerable damage occurs very frequently. Arecanut is a large industry, employing approximately 30 lakhs of people and its annual consumption in India is valued at Rs. 3 crores. The production of arecanut in India is estimated at 25 lakhs maunds which is short of the requirements by about 11 lakh maunds. This balance has to be imported from foreign countries, such as Straits Settlement, Ceylon, etc., and makes a big drain on our resources. The gap can be bridged to a large extent, if the per acre yield is increased and the damage done by pests and diseases is reduced. The Indian Central Arecanut Committee, therefore, requested this Government to prepare a scheme for carrying out research on arecanut and accordingly a five years scheme for research on arecanut has been prepared. The scheme envisages the establishment of a regional arecanut research station at Sirsi, Kanara district, for conducting research touching various important aspects of arecanut palm and is estimated to cost Rs. 1,56,361 (Rs. 30,375, non-recurrent plus Rs. 1,25,986 recurrent). The receipts over the five year period are estimated at Rs. 15,000. No receipts however, are expected during the first year of the scheme. The Indian Central Arecanut Committee has, already agreed to bear 50 per cent. of the recurring cost of the scheme, i.e., Rs. 62,993. The Indian Central Arecanut Committee's share during the first year of the scheme would be Rs. 12,460.

A New Item for construction of buildings at an estimated cost of Rs. 10,000 is being put up to Government separately. A provision of Rs. 45,295 as shown below, will be necessary during 1956–57.

	Rs.
A-Capital Expenditure—	
1. Fencing pig proof/wire fencing	4,000
2. Cement concrete bund across the perennial stream	6,000
3. Engine (5 B. H. P. Diesel Oil) with 2" self priming pump with flexible pipe.	5,000
4. Two pairs of bullocks	1,500
5. One cart	500
6. Implements	500
7. Horticultural tools; sprayers 2, secateurs 2, buskets 6, water cans 6, spades 6, pick-axes 6, ghamelas 6, balances, etc.	850
8. Large copper vessels for curing nuts	200
9. Laboratory equipment for botanical work including table, stools, etc. ..	1,000
10. Furniture: Tables 4, chairs 2, paper racks 3, file racks 2, bench 1, box 1, and cupboards 2.	825
Total, capital expenditure ..	20,375
B-Recurrent expenditure—	
I. *Pay of Officers—*	
(a) One Superintendent incharge of Research Station in the B. A. S. Class II in the scale of Rs. 220—15—400—20—500—25—650 at Rs. 265 p.m.	2,915
II. *Pay of Establishment—*	
1. *One Agricultural Officer in the scales of Rs.* 80—5—100—8—140—E.B.—10—200, pay at Rs. 100 per mensem.	1,100
2. Two Agricultural Assistants in the scale of Rs. 55—3—85—4—E.B.—125—5—140 pay at Rs. 55 p.m.	1,210
3. One mali in the scale of Rs. 35—1—45 pay Rs. 35 p.m.	385
4. One Clerk typist in the scale of Rs. 46—3—85—E.B.—4—125—5—130, pay at Rs. 55 p.m.	605
5. One watchman in the scale of Rs. 30—½—35 pay Rs. 30 p.m. ..	330
6. One Peon in the scale of Rs. 30—½—35 pay Rs. 30 p.m.	330
	3,960
III. *Allowances and Honoraria—*	
1. Dearness allowance	3,750
2. Travelling allowance	845
Total ..	4,595

	Rs.
IV. *Contingencies*—	
1. Office expenses and Miscellaneous	200
2. Labour (Daily and monthly) water supply charges, seeds and other consumable stores cultivation charges for 20 acres at Rs. 400 per acre in the 1st year and Rs. 300 in subsequent years (This includes labour for curing arecanuts).	8,000
3. Purchase and upkeep of livestock and deadstock	900
4. Petty constructions and repairs to buildings	300
5. Running of oil engine	900
6. Harvesting, packing and transport of nuts at Rs. 15 per 100 (20,000 nuts).	300
7. Cost of seed-nuts at Rs. 30 per 1,000 (20,000 nuts)	600
8. Planting, watering, inter-culturing and other charges at Rs. 15 per 100 seedlings (assuming germination to be 75 per cent. i.e., 15,000 seedlings).	2,250
Total ..	13,450
Total, recurrent expenditure ..	24,920
Grand total ..	45,295
Share of Bombay Government Capital expenditure	20,375
50 per cent. of recurring expenditure	12,460
	32,835
Share of Indian Central Arecanut Committee	12,460

The scheme forms part of the main scheme "General Research Schemes" for which a provision of Rs. 59,09,000 exists in the draft 2nd Five Year Plan.

ITEM 193. Schemes for the establishment of a Regional Cashewnut Research Station in the Bombay State.

Recurrent	... Rs. 14,746	... Non-recurrent	... Rs. 22,800
Total	... „ 37,546	... Ultimate annual recurrent	... „

Remarks.—Cashewnut is an important export crop. It is also an important dollar-earning crop as there is a great demand for cashewnuts from the United States of America. Large quantities have to be imported from Africa for the extraction of kernel. If cashewnut cultivation is extended, this import of raw nuts will be gradually reduced and may not be ultimately necessary. It is, therefore, proposed to undertake a scheme for establishment of a Regional Cashewnut Research Station at Malwan (Ratnagiri District), in the Bombay State to undertake research with a view to increase the production of cashewnuts, kernels and shell oil. The work under the scheme will be spread-over a period of five years and 50 per cent. of the recurrent expenditure will be borne by the Indian Council of Agricultural Research as usual. It is, however, proposed to sanction the scheme for one year, in the first instance, at an estimated cost of Rs. 37,546 as shown below :—

	Rs.
A. *Capital Expenditure*—	
1. Buildings—	
(*a*) Office and store rooms (12′×10′ : 12′×12′) and 12′×12′ with varandha plinth area of 680 square feet at Rs. 10 per square feet.	6,800
(*b*) Shed for a watchman	750
(*c*) Cattle and implement shed made of corrugated sheets 20′×12′ : plinth area of 240 square feet at Rs. 5 per square feet.	1,200
2. Fencing	3,000
3. Construction of a well	2,000
4. Engine (5 B.H. P. Diesel oil) with 2″ self priming pump with piping. ...	5,000
5. Two pairs of bullocks	1,500
6. One Cart	500
7. Implements	500
8. Horticultural tools such as sprayer, duster one each, secutours 2, budding and grafting knives 2, buckets 6, water cans 6, ghamelas 6, balance, etc.	850
9. Furniture 3 tables, 6 chairs, 1 bench, 2 cup-boards, 2 file racks and 2 boxes (wooden)	700
Total non-recurrent ...	22,800

40, *AGRICULTURE*—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

	Rs.
B. *Recurrent Expenditure*—	
1. *Pay of Establishment*—	
1. One Agricultural Officer in the 1st grade in the scale of Rs. 210—10—300.	2,310
2. One Agricultural Officer in the II grade in the scale of Rs. 80—5—100—8—140—10—200 at Rs. 80 per mensem.	880
3. One Agricultural Assistant in the scale of Rs. 55—3—85—4—125—5—140 at Rs. 55 per mensem.	605
4. One Mali in the scale of Rs. 35—1—45, at Rs. 35 per mensem. ...	385
5. One Watchman in the scale of Rs. 30—½—35 at Rs. 30 per month ...	330
6. One Peon in the scale of Rs. 30—½—35 at Rs. 30 per month. ...	330
Total pay of Establishment ...	4,840
II. *Allowances and Honoraria*—	
1. Dearness allowance	2,805
2. Travelling allowance	500
Total Allowance and Honoraria	3,305
III. *Contingencies*—	
1. Office expenses and Miscellaneous	150
2. Labour (daily and monthly) water supply charges, seeds and other consumable stores, at Rs. 200 per acre.	5,750
Total Contingencies.	5,900
IV. Indian Council of Agricultural Research Provident Fund	261
V. Leave salary (at 1/11th of the pay of staff except pay of one peon and one watchman).	440
Total recurrent expenditure ...	14,746

2. 50 per cent. recurrent expenditure	77,373
Total ...	30,173
Share of the Indian Council of Agricultural research—	
50 per cent. recurrent expenditure	7,373
Total	7,373
Grand Total ...	37,546

The scheme has been classified under this scheme "General Research Schemes" for which a provision of Rs. 59,09,000 exists in the draft Second Five Year Plan.

40, *AGRICULTURE*—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

ITEM 194. Scheme for correct estimation of the area and yield statistics of coconuts in Bombay State.

Recurrent	... Rs.	18,237	Non-recurrent	... Rs.	700
Total	... ,,	18,937	Ultimate annual recurrent	... ,,	

Remarks.—In view of the shortage of coconut and coconut products in this country, the need for drawing up a planned programme for stepping up production of coconut is imperative. Without correct data regarding the present production of coconut in this country, it is not possible to regulate the imports of the commodities to meet the immediate needs of the country. It is a well known fact that the statistics of the area and production of coconuts have not been correctly prepared in Bombay or other States in India. The Indian Central Coconut Committee, has, therefore, decided to conduct a pilot survey in at least one district in each of the four coconut growing States, viz. Madras, Bombay, Mysore and Travancore-Cochin. The districts selected for conducting pilot survey in the Bombay State are Kanara and Ratnagiri, which are the chief coconut growing districts. A scheme has therefore been prepared, in response to the suggestion of the Indian Central Coconut Committee, for conducting a pilot survey of coconut plantation in these districts. The scheme is expected to provide a useful technique to place the acreage and yield statistics on a sound footing. The scheme is spread over a period of two years and is estimated to cost Rs. 32,972 . The Indian Central Coconut Committee has approved the scheme and has agreed to bear 50 per cent. of the recurring cost, i.e. its share will be Rs. 15,786.

A provision of Rs. 18,937 as shown below, will be required during 1956-57 :—

	Rs.
A—Non-recurrent Expenditure—	
Purchase of furniture	700
B–Recurrent Expenditure—	
I. Pay of Establishment (for 11 months)—	
(*i*) Two Junior Statistical Assistants in the scale of Rs. 80—5—100—8—140—E.B.—10—200 at Rs. 85 per mensem each.	1,870
(*ii*) Eight Agricultural Assistants in the scale of Rs. 55—3—85—E.B.—4—125—5—140.	4,840
(*iii*) One Junior Clerk in the scale of Rs. 46—3—85—E.B.—4—125—5—130 ...	605
... Total, Pay of Establishment	7,315
II. Allowances and Honoraria—	
(*i*) Dearness allowance	5,445
(*ii*) Travelling allowance	2,500
(*iii*) House rent allowance	77
Total, Allowances and Honoraria	8,022
III. Contingencies—	
(*i*) Office expenses and miscellaneous	500
(*ii*) Compensation to owners of 240 gardens for making available labour ...	2,400
Total, Contingencies	2,900
Total, Recurring	18,237
... ... Grand, Total	18,937
(*i*) Shares of Bombay Government	9,818
(*ii*) Share of Indian Central Coconut Committee	9,119

The scheme has been classified under the general scheme " General Research Schemes " for which a provision of Rs. 59,09,000 exists in the draft Second Five Year Plan.

40, *AGRICULTURE*—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

ITEM 195. Scheme for the investigation on agronomic and chemical aspects of green manuring at Poona.

Recurrent ...	Rs.	22,052	Non-recurrent ...	Rs.	5,420
Total ...	,,	27,472	Ultimate annual recurrent ...	,,	

Remarks.—The scheme for the investigation on agronomic and chemical aspects of green manuring is spread over a period of five years at a total estimated cost of Rs. 1,21,365. Under this scheme it is proposed to examine the agronomic and chemical aspects of green manuring with a view to enable the Department of Agriculture to make definite recommendations which could be acceptable to the farmers. The investigations are to be carried out at the Agricultural College Farm, Poona.

The expenditure of the scheme is proposed to be shared by the State Government and the Indian Council of Agricultural Research and the Council has been approached to share 50 per cent. of the recurring expenditure on the scheme. The scheme will be undertaken only after the Indian Council of Agricultural Research agrees to bear its share of expenditure.

A provision of Rs. 27,472 will be required during the year 1956-57 as detailed below :—

	Rs.
A. *Capital expenditure*—	
1. Furniture	5,420
Total ...	5,420
B. *Recurrent expenditure*—	
I. *Pay of Officers*—	
One Assistant Agronomist in Bombay Agricultural Service, Class II, in the scale of Rs. 220—15—400—E.B.—20—500—E.B.—25—650, at Rs. 220 per mensem.	2,420
	2,420
II. *Pay of Establishment*—	
1. One Agricultural Officer in the 1st grade in the scale of Rs. 210—10—300 at Rs. 210 per mensem.	2,310
2. One Agricultural Officer in the scale of Rs. 80—5—100—8—140—E.B.—10—200 at Rs. 85 per mensem.	935
3. One Junior Clerk in the scale of Rs. 46—3—85—E.B.—4—120—5—125 at Rs. 55.	605
4. Two Agricultural Assistants in the scale of Rs. 55—3—85 at Rs. 55 per mensem.	1,210
5. One Peon in the scale of Rs. 30—½—35 at Rs. 30 per mensem ...	330
6. Two Hamals in the scale of Rs. 30—½—35 at Rs. 30 per mensem ...	660

This scheme has been classified under the general heading "General Research Schemes" for which an amount of Rs. 59,09,000 has been provided for in the Draft Second Five-Year Plan.

ITEM 196. Scheme for the study of nitrogen fixation power of some important leguminous crops.

Recurrent	.. Rs. 12,595	Non-recurrent	.. Rs. 6,000
Total	.. ,, 18,595	Ultimate annual recurrent	.. ,,

Remarks.—Leguminous crops are known to fix atmospheric nitrogen and enrich the soil on which they are grown. Advantage is taken of this by including a leguminous crop in the normal rotation or by inter-cultivating of cereal crops with pulse crops or by ploughing in of a leguminous crops as green manure. The fixation is brought about by certain micro-organisms in the nodules formed on the roots of the leguminous plants. The economic importance of these facts was recently brought to the fore-front by the Tenessee Valley Authority which showed that the addition of phosphate to leguminous crops enhances the nitrogen fixation by the bacteria in their nodules to such an extent that in certain cases this may completely dispense with nitrogenous manures. In our soils, nitrogen is the preponderating need and it is essential that attempts should be made to exploit this natural fixation of a atmospheric nitrogen as much as possible. The Director of Agriculture has, therefore, prepared a scheme, at the instance of the Indian Council of Agricultural Research, for the study of nitrogen fixation power of some important leguminous crops in our soils which are dificient in nitrogen. It is proposed to carry out experiments under the scheme at Poona. The scheme is spread over a period of three years and is estimated to cost Rs. 43,778 (Rs. 37,778 recurring and Rs. 6,000 non-recurring). The Indian Council of Agricultural Research has been requested to bear 50 per cent. of the recurring expenditure on the scheme.

The scheme has been included in the Second Five Year Plan and an amount of Rs. 18,595 is required during 1956-57 as detailed below:—

	Rs.
Non-recurring—	
Improvised green house with window lits	3,000
Pots	2,000
Apparatus (Balance and micro-apparatus) etc.	1,000
Total, Non-recurrent ..	6,000
Recurring—	
I. *Pay of Establishment—*	
(*i*) Two Agricultural Officers in the scale of Rs. 210—10—300 on Rs. 210 ..	5,040
(*ii*) One Agricultural Assistant in the scale of Rs. 55—3—85—E.B.—4—125—125—5—140.	660
(*iii*) Two Laboratory boys in the scale of Rs 30—½—35.	720
Total, Pay of Establishment ..	6,420

40, AGRICULTURE—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

II. Allowances and Honoraria—

	Rs.
(*i*) Dearness allowance	2,820
(*ii*) House Rent allowance	1,020
(*iii*) Travelling allowance	100
(*iv*) Leave salary	535
(*v*) Provident Fund contribution	400
Total, Allowance and Honoraria ..	4,875

III. Contingencies—

(*i*) Office Expenses and Miscellaneous	50
(*ii*) Labour (daily or monthly), water supply charges, seeds, manures and other consumable stores.	250
(*iii*) Purchase of apparatus and chemicals etc.	1,000
Total, Contingencies ..	1,300
Total, Recurring ..	12,595
Grand Total ..	18,595
Share of Bombay Government	12,297
Share of Indian Council of Agricultural Research	6,298
	18,595

The Scheme has been classified under the General Research Schemes for which a provision of Rs. 59,09,000 has been made in the draft Second Five Year Plan.

ITEM 197. Scheme for starting Taluka Seed Multiplication farms.

Recurrent .. Rs.	*Nil.*	Non-recurrent .. Rs.	5,00,000
Total .. ,,	5,00,000	Ultimate annual recurrent .. ,,	

Remarks.—It is proposed to organise during the Second Five Year Plan period 123 taluka seed multiplication farms of 25 acres each, in each Taluka where the National Extension Service and Community Development Project Blocks are working. It will therefore be necessary to acquire or purchase land for the opening of the farms. The cost on this account is estimated at Rs. 5,00,000.

This is classified under the general scheme "Multiplication and distribution of improved seeds" for which an amount of Rs. 68,80,000 has been provided in the draft Second Five-Year Plan.

ITEM 198. Scheme for levelling and terracing of hill slopes.

Recurring ... Rs.	*Nil*	Non-recurring ... Rs.	1,20,000
Total ... ,,	1,20,000	Ultimate annual recurrent ... ,,	

Remarks.—At present the activities of the Soil Conservation Section are mainly confined to the problem of areas of low and uncertain rainfall and no soil conservation measures have been undertaken so far in the heavy rainfall areas. It is, therefore, proposed to undertake levelling and terracing work in such heavy rainfall areas where the problem of soil erosion is very severe, with a view to collecting data showing how such soils are to be economically conserved. To begin with, three projects comprising of about 300 acres will be taken up during 1956–57, on a catchment basis, with the help of the existing staff of the Soil Conservation Section. A provision of Rs. 1,20,000 is therefore required for levelling and terracing the lands during 1956–57 on the assumption that the cost per acre would be Rs. 400 per acre.

This proposal forms part of the main Scheme "Soil Conservation Works" for which a provision of Rs. 3,04,00,000 exists in the draft Second Five Year Plan.

ITEM. 199. Soil Conservation Works. Scheme for Land Development and Improvement for scarcity areas.

Recurrent ... Rs.	20,60,000	Non-recurrent ... Rs.	38,63,650
Total ... ,,	59,23,650	Ultimate annual recurrent ... ,,	

Remarks.—In the draft Second Five Year Plan it is proposed to undertake new bunding of 6·75 lakhs acres and completion of about 1·75 lakh acres which have partially been bunded during the last two years at an estimated cost of about Rs. 417 lakhs of which Rs. 119 lakhs are expected to be available from the Community Development Projects and National Extension Service Block funds under Minor Irrigation. During the first year of the Plan viz. 1956-57, it is proposed to undertake new bunding over 1·35 lakhs acres in addition to completion of works totalling about 1,75,000 lakhs acres at a total cost of about Rs. 83·04 lakhs (Rs. 20·60 lakhs on establishment charges and Rs. 62·44 lakhs on Land Improvement Works) of which Rs. 23·80 lakhs are expected from the Community Development Projects and National Extension Service funds.

40, *AGRICULTURE*—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

At present, the Soil Conservation Section has an organization which would have undertaken new bunding works, on 10 lakhs acres during the period of Second Five-Year Plan. Consequent to the reduction of target of work to be undertaken during the Plan period, some of the existing staff of the Section will have to be retrenched from next year. The position of the staff to be continued beyond 29th February 1956, and that to be retrenched from 1st March 1956 and 1st September 1956, is indicated in the accompanying statement.

During 1956-57, a provision of Rs. 59,23,650 as detailed below is, therefore, required exclusive of the funds viz. Rs. 23·50 lakhs, which are likely to be available from the Community Development Projects and National Extension Service funds as stated above :—

	Rs.	Rs.
(i) Pay of Officers		95,160
(ii) Pay of Establishment		8,88,212
(iii) Allowances and Honoraria		7,83,305
(iv) Contingencies—		
(*a*) Office expenses and Miscellaneous	30,000	
(*b*) Rent, Rates and taxes	33,000	
(*c*) Service postage and telegrams	52,000	
(*d*) Repairs to and replacement of Appliances and furniture	1,61,000	
(*e*) Running and upkeep of machinery	5,000	
(*f*) Exhibition	5,000	
(*g*) Miscellaneous works	7,323	
(*h*) Land Improvement Works..	38,63,650	
		41,56,973
Grand Total ..		59,23,650

The cost of Soil Conservation works excluding the cost of establishment which is borne by Government is recovered from the cultivators concerned in 15 annual instalments with interest at 4½ per cent. per annum. The scheme is eligible for financial assistance from the Central Soil Conservation Board in the form of loan and subsidy to the extent of 75 per cent. and 12½ per cent. respectively of the total cost of the scheme (including the cost of establishment) and the Government of India will be approached in the matter.

In the draft Second Five-Year Plan a provision of Rs. 304 lakhs has been included for this Scheme Soil Conservation Works (excluding the amount available from the Community Development Projects and National Extension Service funds).

Statement showing the staff sanctioned as at present and the staff proposed for the Soil Conservation Section for the year 1956-57.

ITEM 200. Scheme for maintenance of Soil Conservation Works by the District Agricultural Officers.

Recurrent ..	... Rs. 73,000	Non-recurrent ...	... Rs. 52,900
Total ...	... ,, 1,25,900	Ultimate annual recurrent	... ,,

Remarks.—With a view to enabling the regular staff of the Soil Conservation Section to devote itself fully to undertaking new bunding works to the maximum extent and to complete the old works in all respects, as quickly as possible, the work of maintenance and repairs of the completed bunding works has been entrusted, to the District Agricultural Officers all over the State except in Sholapur, Ahmednagar, Poona and Nasik Districts, in which it is to be transferred from 1st October 1956, by which date the outstanding consolidation and rectification works which are in progress, are scheduled to be completed. For this purpose, additional staff consisting of 15 Agricultural Officers

*The post of 2 Junior Clerks and 2 Agricultural Assistants extra, would be those, which are proposed to be retained after 1st March, 1956.

Grade II (Rs. 80—5—100—8—140—E.B.—10—200) and 10 Junior Clerks (Rs. 46—3—85—E.B.—4—125—5—130) is required to be sanetioned from 1st April 1956, which will have to be continu d till the end of 1956-57, in the first instanee. In addition, 15 posts of Agricultural Officers Grade II and 6 posts of Junior Clerks will be required to be created for the period from 1st October 1956 to enable the District Agricultural Officers, Sholapur, Ahmednagar, Poona and Nasik to attend to the additional work to be entrusted to them, for the period ending 28th February 1957, in the first instance. The District Agricultural Officers concerned will also be given a lump grant of Rs. 52,900 to carry out the maintenance work of bunds in case the cultivators concerned do not do it themselves, in accordance with the provisions of the Bombay Land Improvement Schemes Act, 1942. This amount is recoverable from the cultivators concerned. Thus a provision of Rs. 1,20,900 is required for the scheme during 1956-57 as detailed below :—

Designation and scale of posts.	Provision for 12 months (i.e. 1st April 1956 to 28th February 1957).	Provision for 5 months (i.e., 1st October 1956 to 28th February 1957).
	Rs.	Rs.
(1) *Pay of Establishment ;* Rs. 37,298		
(*i*) Agricultural Officers in the grade of Rs. 80—5—100—8—140—E.B.—10—200	19,008 (for 15 posts).	10,260 (for 15 posts).
(*ii*) Junior Clerks in the grade of Rs. 46—3—85—E.B.—4—125—5—130	6,655 (for 10 posts)	1,375 (for 6 posts)
	25,663	11,635
(2) *Allowances and Honoraria* : Rs. 35,759

say ...	53,000	20,000
	73,000	
(3) Contingencies ... ... (Land Improvement Works—Maintenance)	52,900	
Grand Total ...	1,25,900	

This scheme is a part of the main Soil Conservation Scheme, viz., Soil Conservation Works, for which a provision of Rs. 304 lakhs has been included in the draft Second Five-Year Plan.

ITEM 201. Additional staff for the Dairy Development Section.

Recurrent	Rs. 17,763	Non-recurrent	Rs. 800
Total	„ 18,563	Ultimate annual recurrent ...	„

Remarks.—The Dairy Development Section has been started since 1946 under the Department of Agriculture, with the Dairy Development Officer at the head of the section. The Dairy Development Officer has to prepare plans and schemes for the development of the dairy industry in the State and execute and administer those sanctioned by Government. The section has been provided with branch officers in the three divisions of the State to assist the Dairy Development Officer. The section has proposed and planned a number of schemes so far for Government, Co-operative Societies, Community Projects, Municipalities, Private Institutions and individuals. To cope with the increasing activities and the responsibilities devolving on this section with its growth and the increasing interest evinced by the public and other Government Departments, it is proposed to sanction the following additional staff for which a provision of Rs. 18,563 as detailed below is required during 1956-57 :—

40, AGRICULTURE—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

	Rs.
Pay of Officers—	
One Assistant Dairy Development Officer in the Bombay Agricultural Service Class II.	2,420
One Accounts Officer in the Bombay Agricultural Services Class II ...	2,420
	4,840
Pay of Establishment—	
One Accountant in the grade of Rs. 140—10—200	1,540
One Senior Clerk in the scale of Rs. 100—8—140	1,100
Two Junior clerks in the scale of Rs. 55—3—85—E.B.—4—125—5—130 ...	1,2 0
Three peons in the scale of Rs. 30—½—35	990
	4,840
Allowances and Honoraria—	
Dearness Allowance	4,510
Travelling Allowance	1,300
House Rent Allowance	1,056
Compensatory Allowance	561
	7,427
Contingencies—	
Non-recurrent	800
Recurrent	656
	1,456
Total ...	18,563

A provision of Rs. 1,00,000 has been made in the draft 2nd Five-Year Plan for this scheme.

ITEM 202. Grant of financial assistance to poor Scheduled Tribe Agriculturists.

Recurrent ...	... Rs. 30,000	Non-recurrent ...	... Rs.	Nil.
Total ...	... ,, 30,000	Ultimate annual recurrent	... ,,	

Remarks.—Katkaries and Thakurs in Kolaba district, Bhils in Baglan, Dublas in Surat, Naikdas in Panchmahals, require financial help, to improve their lands. It is difficult for these poor tribes to get tagai or loan as they cannot give adequate security to enable them to develop lands. It is, therefore, proposed to implement the following schemes during 1956-57 :—

	Rs.
(1) Assistance to the Katkaries holding Dalhi plot for developing the lands ...	12,500
(2) Supply of poultry, goats and buffaloes	10,500
and	
(3) Supply of plough cattle i.e. bullock or buffaloe bulls free of cost ...	7,000
Total ...	30,000

The total provision for 5 years in the Plan is Rs. 1,50,000. The provision earmarked for the year 1956-57 is Rs. 30,000. It is expected that the Government of India will agree to meet the expenditure on full cost basis.

ITEM 203. Supply of improved seeds at half the cost price.

Recurrent ...	... Rs. 50,000	Non-recurrent ...	... Rs.	*Nil.*
Total ...	... ,, 50,000	Ultimate annual recurrent	... ,,	

Remarks.—Backward Class Cultivators are often unable to purchase improved seeds at full cost, and therefore, use their own seed of low grade. It is proposed to supply improved seed to the Backward Class cultivators at the concessional rate of half the cost, the other half to be treated as subsidy and borne by Government. Same cultivators would not be given seeds again during the next year as they are expected to preserve their own seed for sowing next year. It is proposed to make a provision of Rs. 50,000, Rs. 10,000 for scheduled tribes, Rs. 5,000 for ex-criminal tribes and Rs. 35,000 for other Backward Classes during the year 1956-57. The total provision for 5 years in the Plan is Rs. 2,50,000. The provision earmarked for the year 1956-57 is Rs. 50,000. It is anticipated that the Government of India will sanction grant-in-aid to the extent of 50 per cent. of the proposed expenditure Rs. 10,000 for scheduled tribes and full cost of the scheme for Vimochit Jati (Rs. 5,000).

40, *AGRICULTURE*—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

ITEM 204. Reclamation of waste lands at Government cost.

Recurrent	Rs. 2,80,000	Non-recurrent	Rs. *Nil.*
Total	,, 2,80,000	Ultimate annual recurrent ...	,,

Remarks.—Waste lands are given to Backward Class people for cultivation but considerable expenditure is required for reclaiming these lands and the Backward Class people are generally not in a position to reclaim such lands, and make them fit for cultivation of their own accord. It is, therefore, proposed to have such lands levelled, bull-dozed and bunded at Government cost. The cost is estimated to be Rs. 1. lakh in the case of Scheduled Tribes, Rs. 30,000 for Vimochit Jati and Rs. 1,50,000 for other Backward Class agriculturists. It is, therefore, proposed to make a provision of Rs. 2,80,000 for levelling, bull-dozing and bunding approximately 560 acres of land at the rate of Rs. 500 per acre during the year 1956–57. The total provision for five years in the Plan is Rs. 23,55,000. The provision earmarked for 1956–57 is Rs. 2,80,000. It is anticipated that the Government of India will sanction grant-in-aid to the extent of (i) 50 per cent. of the proposed expenditure of Rs. 1 lakh on Scheduled Tribes and (ii) full cost of the scheme for Ex-Criminal Tribes. (Rs. 30,000).

ITEM 205. Scheme for research on oil seeds in Mehsana District.

Recurrent ..	Rs. 18,965	Non-recurrent ..	Rs. 21,000
Total ..	,, 39,965	Ultimate annual recurrent ..	,,

Remarks.—The Indian Central Oil Seeds Committee recommended in March 1954 that a new regional agricultural research station should be opened at Mehsana for research on oil-seeds crops. Accordingly, a scheme for research on rape, mustard and sesamum at Mehsana is proposed to be undertaken for the benefit of the merged areas of Mehsana and Banaskantha districts and Ahmedabad district where these crops are grown on a large scale. The scheme is proposed to be sanctioned for one year in the first instance. The Indian Central Oil-seeds Committee has agreed to meet 75 per cent. of the recurrent expenditure and the remaining 25 per cent. of the recurrent expenditure and the entire capital expenditure have to be borne by this Government. The estimated total expenditure during 1956-57 is Rs. 39,965 as shown in the appended statement. The shares of Indian Central Oil-seeds Committee and Government of Bombay would be Rs. 13,399 and Rs. 26,566 respectively. The estimated receipts of Rs. 1,500 are to be shared equally. This would reduce net cost to this Government to Rs. 25,816.

This scheme forms part of the main scheme "Research and Development of Oil-seeds" for which a provision of Rs. 5,05,000 has been made in the draft Second Five-Year Plan.

Estimates of expenditure for the scheme for research on oil-seed crops in Mehsana district:—

	Rs.
Non-recurrent—	
(1) Bullock pair	1,500
(2) Fencing	6,000
(3) Office furniture and fixtures	1,000
(4) Implements and apparatus (Purchase of ploughs and other implements and purchase of Chemical balances and oil extracting and testing apparatus)	2,500
(5) Buildings (Bullock shed and implement shed)	10,000
Total ..	21,000
I. Pay of Officers—	
(1) Oil-seeds Research Officer in B.A.S. Class II in the grade of Rs. 220—15—400—E. B.—25—650	2,420
II. Pay of Establishment—	
(1) One Agricultural Officer in the 2nd grade of Rs. 80—5—100—8—140—E.B.—10—200 (on Rs. 100 per mensem)	1,100
(2) One Agricultural Assistant in the II grade of Rs. 55—3—85—E.B.—4—125—5—140	605
(3) One Junior Clerk in the grade of Rs. 46—3—85—E.B.—4—125—5—130	605
(4) One peon in the grade of Rs. 30—½—35	330
(5) Two Counters in the grade of Rs. 40—1—50 on Rs. 40 each	880
(6) One Mukadam in the grade of Rs. 35—1—40	385
(7) One Bullockman in the grade of Rs. 30—½—35	330
(8) One Watchman in the grade of Rs. 30—½—35	330
Total ..	4,565
III. Allowances and Honoraria—	
Travelling allowance—Office Establishment	400
Dearness allowance	200
	4,180
	4,780

40, *AGRICULTURE*—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

IV. Contingencies—(Recurring)—

			Rs.

ITEM 206. Scheme for research on groundnut and sesamum in East Khandesh.

Recurrent	.. Rs. 17,465	.. Non-recurrent	.. Rs. 4,500
Total	.. ,, 21,965	.. Ultimate annual recurrent	.. ,,

Remarks.—The Indian Central Oilseeds Committee recommended in March 1954 that the activities of the Agricultural Research Station at Jalgaon in East Khandesh district should be expanded so as to lay special emphasis on research on groundnut and sesamum for the benefit of the Khandesh areas where these crops are grown on a large scale. Accordingly, a scheme for research on these two crops at Jalgaon has been prepared and is proposed to be sanctioned for one year in the first instance. The Indian Central Oilseeds Committee has agreed to meet 75 per cent. of the recurrent expenditure and 25 per cent. of recurrent expenditure and entire non-recurrent expenditure are to be borne by the State Government. The shares of the Indian Central Oilseeds Committee and this Government would therefore come to Rs. 12,274 and Rs. 9,691 respectively. The estimated receipts of Rs. 1,500 are to be shared equally. This would reduce the net cost to this Government to Rs. 8,941 during 1956–57. The total expenditure during 1956–57 is Rs. 21,965 as shown in the appended statement.

This scheme forms part of the main scheme "Research and Development of Oilseeds" for which a provision of Rs. 5,05,000 has been made in the draft Second Five-Year Plan.

Estimate of expenditure for 1956-57.

	Rs.
Non-recurrent—	
1. Bullock pair	1,000
2. Office furniture and fixtures	1,000
3. Implements and apparatus	2,500
Total ..	4,500

Recurrent—

I. Pay of Officers—

1. Oilseeds Research Officer in B.A.S. Class II in the grade of Rs. 220—15—400—E.B.—25—650.	2,420

II. Pay of Establishment—

1. One Agricultural Officer in the 2nd grade of Rs. 80—5—100—8—140—E.B.—10—200 (on Rs. 100 per mensem.)	1,100
2. One Agricultural Assistant in the grade II, grade of Rs. 55—3—85—E.B.—4—125—5—140.	605

	Rs.
3. One junior clerk in the grade of Rs. 46—3—85—E.B.—4—125—5—130. ..	605
4. One Peon in the grade of Rs. 30—½—35. ..	330
5. Two Counters in the grade of Rs. 40—1—50 on Rs. 40 each.	880
6. One Mukadam in the grade of Rs. 35—1—40	385
7. One Bullockman in the grade of Rs. 30—½—35	330
8. One Watchman in the grade of Rs. 30—½—35	330
	4,565
III. Allowances and Honoraria—	
Travelling allowance—Office	400
Travelling allowance—Establishment	200
Dearness allowance	4,180
	4,780
IV. Contingencies—	
1. Office expenses and Miscellaneous :—	
Service stamps	150
Books	100
Other miscellaneous	250
	500
2. Labour (D. and M.), Water Supply charges, seeds and manures etc :—	
Cultivation charges, viz. Labour, water supply charges, etc.	2,250
Manures, seeds etc.	1,750
	4,000
3. Purchase, Repairs and Upkeep of Livestock and Deadstock :—	
Feeds and Fodder for the bullocks ...	900
Miscellaneous Deadstock	300
	1,200
Total ..	5,700
Total, Recurrent ..	17,465
Grand Total ..	21,965

ITEM 207. Scheme for expansion of the Crop Protection Service in Bombay State.

Recurrent	... Rs. 43,450		Non-recurrent	... Rs.	85,775
Total	... ,, 1,29,225		Ultimate annual recurrent	... ,,	

Remarks.—This scheme is for the establishment of two regional Plant Protection Depots at Ahmedabad and Nasik. At present, there are three such depots at Poona (Satara Division), Dharwar (for Dharwar Region) and Baroda (for Baroda Region). Here necessary insecticides and appliances required for crop protection work in the respective regions would be stocked and made available to the District Agricultural Officers, etc., in the regions for use at the time of out break of pests and diseases. Only bare minimum staff of 2 clerks, 2 drivers and 2 watchmen has been proposed for the two depots to be newly opened. At present there is only one Crop Protection Officer to look after both Entomology and Pathology problems. He is burdened with work and in the interest of the scheme separate Crop Protection Officer for Pathology side is felt necessary and hence one post of Crop Protection Officer is proposed.

For the year 1956–57 a provision of Rs. 1,29,225 will be required under this scheme, break-up of which is shown below :—

Item.	Estimate for 1956-57.
	Rs.
I. *Pay of Officers* (for 11 months)—	
Crop Protection Officer, Bombay Agricultural Service Class II, at Rs. 220 ...	2,420
Total ...	2,420

MINISTER IN CHARGE—SHRI B. S. HIRAY.

	Rs.
II. *Pay of Establishment*—	
(*i*) 2 Typist Clerks (Rs. 46—3—85 etc.)	1,210
(*ii*). 2 Drivers-*cum*-mechanics (Rs. 100—8—140)	2,200
(*iii*) 2 Watchmen (Rs. 30—1/2—35)	660
Total ...	4,070
III. *Allowances and Honoraria*—	
(*i*) Travelling Allowance	4,580
(*ii*) Dearness Allowance	3,410
Total ...	7,990
IV-A. *Contingencies* (*Non-recurring*)—	
(*a*) Purchase of dusters 50 at Rs. 100	5,000
(*b*) Sprayers hand compression 25 at Rs. 137-8-0 each	3,500
(*c*) Sprayers 50 at Rs. 137-8-0	6,875
(*d*) 4 Jeeps and two trailors (Jeep Rs. 12,000 and Trailors Rs. 1,500) ...	51,000
(*e*) 2 Platform balances at Rs. 1,200	2,400
(*f*) Furniture	2,000
(*g*) Seed dressing drums 150 at Rs. 100	15,000
Total ...	85,775
IV-B. *Contingencies* (*Recurring*)—	
(*a*) Office Expenditure	1,835
(*b*) Godown rent	3,300
(*c*) Labour (D & M)	5,500
(*d*) Transport charges	1,835
(*e*) Purchase of Insecticides	16,500
Total ...	28,970
Grand Total ...	1,29,225

A provision of Rs. 6,65,000 exists for this scheme in the draft Second Five-Year Plan.

ITEM 208. Scheme for improvement of irrigation wells by boring.

Recurrent ...	... Rs.	1,16,306	Non-recurrent ...	... Rs.	*Nil.*
Total ...	... ,,	1,16,306	Ultimate annual recurrent	... ,,	

Remarks.—As a result of Government's policy to hand over departmental boring machines to the District Local Boards and the Co-operative Societies for operational purposes wherever such bodies come forth to undertake boring operations, the Boring Section of the Agricultural Department will be operating only 24 boring machines in the six districts of Nasik, West Khandesh, East Khandesh, Baroda, Kaira and Sabar-Kantha, from which districts there is a heavy and consistent demand for the boring machines. The estimated receipts during 1956-57 on account of operations of the boring machines in the above six districts will be about Rs. 1,16,370 as against the expenditure of Rs. 1,16,306 to be incurred in 1956-57 for running the scheme. The details of the proposed provision of Rs. 1,16,306 are as follows:—

	Rs.	Rs.
I. *Pay of Officer*—		
One Boring Engineer (Bombay Agricultural Service Class II). (Rs. 220—15—400—E.B.—20—500—E.B.—25—650).		2,420
II. *Pay of Establishment*—		
(*i*) Two Boring Assistants (Rs. 150—10—270)	3,300	
(*ii*) Two Boring Mechanics (Rs. 100—4—120—5—160) ...	2,200	
(*iii*) One Junior Mechanic (Rs. 55—3—85)	605	
(*iv*) Twenty-six Boring Operators (Rs. 65 fixed per mensem *plus* bonus).	28,310	
(*v*) Two Senior clerks (Rs. 100—8—140)	2,200	
(*vi*) Two Junior clerks (Rs. 46—3—85—E.B.—4—125—5—130).	1,210	
(*vii*) Two Store clerks (Rs. 46—3—85—E.B.—4—125—5—130).	1,210	
(*viii*) One Storekeeper (Rs. 100—8—140)	1,100	
(*ix*) Two peons (Rs. 30—1/2—35)	660	
(*x*) Two Watchmen (Rs. 30—1/2—35)	660	
(*xi*) Two Attendants (Rs. 45 fixed per mensem)... ...	990	
		42,445

40, *AGRICULTURE*—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

	Rs.	
III. *Allowances and Honoraria*—		
(*i*) Travelling Allowance of Officer	900	
(*ii*) Travelling Allowance of Establishment	2,500	
(*iii*) Dearness Allowance of Officer	660	
(*iv*) Dearness Allowance of Establishment	7,590	
(*v*) House Rent Allowance and Compensatory Local Allowance.	1,530	
	13,180	13,180
IV. *Contingencies*—		
(*i*) O. E. M.	2,400	
(*ii*) Purchase, repairs, etc.	54,300	
(*iii*) Interest charges on Capital cost	1,561	
(*iv*) Depreciation	.....	
	58,261	58,261
Grand Total ...		1,16,306

This scheme has been classified under the general scheme "Improvement of Irrigation Wells" for which a provision of Rs. 7,27,000 has been made in the draft Second Five-Year Plan.

ITEM 209. Expansion of Government Milk Supply Scheme, Poona.

Recurrent	... Rs. 7,18,712	Non-recurrent	... Rs. 5,01,288
Total	... ,, 12,20,000	Ultimate annual recurrent	... ,,

Remarks.—The Scheme has been sanctioned at a total capital cost of Rs.13,80,080. The capital investment was to be spread over a period of two years.

The construction of Central Processing Dairy at Poona, would be completed during the year 1955-56 and it may also be possible to install some of the machinery. During the year 1956-57 the Scheme would, therefore, actually start functioning.

Although initially the scheme would handle 25,000 lbs. of milk a day, the handling would increase to 40,000—50,000 lbs. ultimately. It is necessary to provide adequate staff to work the Scheme during the year 1956-57 and also the necessary amount of contingent cost. A provision of Rs. 12,20,000 will be necessary both for the recurring and non-recurring expenditure for the year 1956-57.

Under the non-recurring expenditure a provision of Rs. 5,93,530 was made for 1954-55, but out of this only Rs. 92,242 could be spent, as the machinery etc. could not be purchased for want of the Central Processing Dairy. An amount of Rs. 7,86,550 is provided for 1955-56 and is expected to be spent on construction of buildings and purchase of machinery which could not be purchased during 1954-55.

For the year 1956-57, therefore, an amount of Rs. 5,01,288 will have to be provided since this amount although provided in 1954-55 remained unspent. For the provision of staff and the contingent expenditure a total recurrent grant of Rs. 7,18,712 has been proposed as shown in the statement below :—

Although the Scheme has been sanctioned, no provision of staff has as yet been made. It is necessary that adequate staff as proposed be sanctioned. The provision of grants for the recurring and non-recurring expenditure is to be initially made under "40, Agriculture" and subsequently transferred to "85-A, Capital Outlay, etc."

It is also proposed to provide an amount of Rs. 1,00,000 as floating capital in the form of Personal Ledger Account in the name of the Dairy Development Officer, Bombay State, Poona, to be directly provided under "85-A, Capital Outlay etc.". A provision of Rs. 36,72,000 has been made in the draft Second Five-Year Plan for this Scheme.

GOVERNMENT MILK SUPPLY SCHEME, POONA (EXPANSION).

40, AGRICULTURE—contd.

MINISTER-IN-CHARGE—Shri B. S. HIRAY.

ITEM 210.—Establishment of an Agricultural School at Kolad, district Kolaba.

Recurrent	Rs. 46,425	Non-recurrent	Rs. 37,100
Total	„ 83,525	Ultimate annual recurrent ..	„

Remarks.—Agricultural education of the farmer plays a very important part in any long term scheme of permanent improvement in agriculture in any country. Therefore, in our task of increasing food production the question of providing better and more facilities for agricultural education should have a priority. Kolaba district which has considerable agricultural possibilities deserves to have an agricultural school where the sons of the cultivators can be given training in the science and practice of agriculture and it is proposed to start an agricultural School at Kolad, in Kolaba district, in 1956–57.

The proposal involves a total estimated expenditure of Rs. 3,46,875 out of which recurrent and non-recurrent expenditure will be Rs. 46,425 and Rs. 3,00,450 respectively. During 1956–57 however, capital expenditure amounting to Rs. 1,90,100 only will be incurred, the rest of the amount will be spent in the following year. Out of the capital expenditure of Rs. 1,90,100 proposed, a provision for Rs. 1,53,000 is being made under the head " 81-A-Civil Works ". The balance of Rs. 37,100 is being provided under the head " 40-Agriculture ". The details of the estimated expenditure are given in the attached statement.

As against the toal recurrent expenditure of Rs. 46, 425 the receipts are estimated at Rs. 24,500 in the initial stage. Thus more than 50% of the recurrent expenditure will be recoverable from the start and gradually the school is expected to become self-supporting. This scheme has been given priority due to the fact that the District Development Board, Kolaba, has earmarked a substantial sum of about Rs. 1,45,000 from the grain procurement prize amount for the purpose of starting the proposed school.

This proposal forms part of the main scheme 'Expansion of Agricultural School Education' for which an amount of Rs. 39,85,000 has been provided for in the draft 2nd Five Year Plan.

STATEMENT I.

A. *Non-recurrent Expenditure.*

	Rs.	Rs.
1. Land (cost of acquisition of 16 acres and 29 gunthas)		3,000
2. *Equipment*—		
(*a*) 6 pairs of bullock	5,000	
(*b*) Farm tools and appliances (3 dozen each of pick axes, spades, ghamelas, sickles, etc.)	600	
(*c*) Bullock carts (2)	1,000	
(*d*) Sundries-Balances with weights, 24 buckets, 12 water cans, measuring tape and chain, etc.	1,200	
(*e*) 5 buffaloes and 5 cows and 3 breeding bulls ..	11,000	
(*f*) Dairy equipment, Separtor, Churn, milking pails, spring balances, milk can, etc.	1,000	
(*g*) Horticulrural tools—15 budding knives, 9 grafting knives, 2 pairs of sheers, 9 garden forks, 3 hand rankes, 18 secaturs, buckets, pump, dister and juice bottling equipment.	1,500	
(*h*) Charkahs	300	
(*i*) Cooking and dinning utensils	1,000	
(*j*) Furniture for office and class rooms	1,500	
(*k*) Oil engine with pumping plant, etc.	10,000	
		34,100
Total non-recurrent ..		37,100

B. *Recurrent expenditure*—

I. *Pay of Officers*—

Superintendent in Bombay Agricultural Service Class II in the scale of Rs. 220—15—400 E.B.—20—500—E.B.—25—650.	2,640
Total of Pay of Officers ..	2,640

II. *Pay of Establishment*—

(*a*) Two Agricultural Officers in the scale of Rs. 80—5—100—8—140—E.B.—10—200.	1,920

MINISTER IN CHARGE—SHRI B. S. HIRAY.

	Rs.
(*b*) Three Agricultural Assistants in the scale of Rs. 55—3—85—E.B.—4—125—5—140.	1,980
(*c*) One Accounts Clerk in the scale of Rs. 100—8—140	1,200
(*d*) One Junior Clerk in the scale of Rs. 46—3—85—E.B.—4—125—5—130 at Rs. 55 per mensem.	660
(*e*) One Store Keeper in the scale of Rs. 46—3—85—4—125—5—130 at Rs. 55 per mensem.	600
(*f*) One Herdsman in the scale of Rs. 55—3—85	605
(*g*) One Engine Driver in the scale of Rs. 55—3—85	605
(*h*) One Mukadam in the scale of Rs. 40—1—50—2—60	440
(*i*) Two Watchmen in the scale of Rs. 30—½—35	660
(*j*) Two Peons in the scale of Rs. 30—½—35	660
Total of pay of Establishment ..	9,390
III. *Allowances and Honoraria*—	
(*a*) Dearness Allowance	7,595
(*b*) Travelling Allowance	800
Total of Allowances and Honoraria ..	8,395
IV. *Contingencies*—	
(*a*) Labour, seed, manure and other consumable stores	6,000
(*b*) Purchase of and repairs to and upkeep of livestock and deadstock ..	10,000
(*c*) Office expenses and miscellaneous (including uniform to students) ..	2,600
(*d*) Construction of and repairs to buildings, fencing, bunding, etc. ..	2,000
Total of Contingencies ..	20,600
V. *Scholarships*—	
30 Students in the first year at Rs. 20 per month each from 1st June 1955 to 29th February 1956.	5,400
Total of Scholarships ..	5,400
Total of Recurrent Expenditure ..	46,425
Grand Total ..	83,525
C. VI. *Receipts*—	
(*a*) Farm and garden produce	20,000
(*b*) Sale of milk of 5 buffaloes and 5 cows in the first year	4,500
(*c*) Sale of eggs, poultry birds, etc.	....
Total Receipts ..	24,500

ITEM 211. Establishment of an Agricultural School at Dhari in Amreli District.

Recurrent ..	Rs.	62,371	Non-recurrent ..	Rs.	83,536
Total ..	,,	1,45,907	Ultimate annual recurrent ..	,,	

Remarks.—According to the present policy of Government one Agricultural School is to be established in each district of the State. There is no school in Amreli district and Government proposes to start one at Dhari during the next year. The response to such a school when it is ultimately established is expected to be very good. Government has recently purchased from the Government of India, Ministry of Defence, the Military structures at Dhari for the purpose of the proposed school.

As regards adequacy of cultivable land, it seems that 60 acres of land lying on the north and south of the structures can, immediately, be brought under cultivation by tractor ploughing and 40 acres can be reclaimed by bulldozer, out of 160 acres of land available. Immediate difficulty would be about adequate supply of drinking water to the school personnel. There are two wells in this area but it is felt that the water available would not be sufficient according to the present day standards for bathing and other purposes of the school personnel. Provision to put in a small pumping plant on the Satranji River and to provide for overhead storage and water lines to the hostel as well as residential quarters is made in the scheme.

The total estimated cost of the scheme is Rs. 1,45,907 of which recurrent and non-recurrent expenditure will be Rs. 62,371 and Rs. 83,536 respectively. During the first year of the scheme, the receipts to the extent of Rs. 20,000 are expected. The receipts will gradually cover more and more recurrent expenditure. The school is expected to become self-supporting in course. The accompanying statement gives the details of expenditure during the year 1956-57.

40, *AGRICULTURE*—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

This scheme forms part of the general scheme "Expansion of Agricultural School Education" for which a provision of Rs. 39,85,000 has been made in the draft 2nd Five Year Plan.

STATEMENT.

	Rs.	Rs.
(I) *Capital Expenditure*—		
(a) *Land development*—		
Tractor ploughing of 100 acres	3,000	6,000
Levelling 100 acres	3,000	
(b) Fencing 160 acres		12,000
(c) Lift irrigation on river Satranji		26,000
(d) *Water supply arrangements*—		
(i) Installation of an oil engine 5 H. P.	2,500	
(ii) Construction of a pump house and water tank (10×10×4) ..	3,500	
(iii) Laying water supply pipe lines in the area	3,000	
	9,000	
(e) *P. W. D. Charges*—		
Contingencies charges at Rs. 5 per cent.	1,450	
Estimates charges	777	
Work charges establishment at 2 per cent.	609

(j) Honorarium to Revenue Officer	440	
(k) Honorarium to Auditor from Co-operative Department ...	440	
	9,130	9,130
3. *Allowances and honoraria*—		
(1) Dearness allowance	6,655	
(2) Travelling allowance	800	
	7,455	7,455
4. *Stipend to students*—		
40 students at Rs. 20 per mensem per student	...	8,800
5. *Contingencies*—		
(a) *Office expenses and miscellaneous*—		
Postage	300	
Uniform to students	800	
Medicines	200	
Books and periodicals	100	
Transport charges	200	
Tour expenses for studntse	300	
Parents' day	75	
Miscellaneous	125	
	2,100	2,100
(b) *Purchase and upkeep of livestock and deadstock*—		
(1) Cake for feeding for thirty animals at 2 lbs. per day 10 tons...	1,800	
(2) Concentrates for thirty animals at one lb. per day 5 tons ...	1,600	
(3) Extra ration for ten milking animals ...	1,100	
(4) Purchase and repairs of machinery dairy equipments ...	1,500	
	6,000	6,000
(c) Petty constructions and repairs of fences, water-channel, bunding, etc.		1,000
(d) Labour (daily and monthly), water-supply seeds, manures, etc.—		
(1) Seeds	700	
(2) Manures 20 lbs. N. for dry crop 40 lbs. N. for irrigated crop.	3,000	
(3) Extra labour at Rs. 20 per acre	2,000	
(4) Oils and lubricant for tractors	5,000	
(5) Oils and lubricant to engine	3,000	
(6) Consumable stores	1,300	
(7) Four bullockmen, two watermen, one dairy-man, one herds-man, one sweeper at Rs. 30 per mensem on daily wages.	2,970	
(8) Dearness allowances to (7) above at Rs. 35 per mensem on daily wages basis.	2,695	
(9) One cook for one year at Rs. 30 per mensem with dearness allowance at Rs. 35 per mensem.	715	
	21,380	21,380
(e) Maintenance charges for lift irrigation		4,086
Total Contingencies ..		34,566
Total, Recurring expenditure ..		62,371
Total, Capital expenditure ..		83,536
Grand Total ..		1,45,907

MINISTER IN CHARGE—SHRI B. S. HIRAY.

Receipts—

		Rs.	Rs.
1. *Farm produce*—			
Rs. 150 per acre for dry crop of 50 acres ..		7,000	
Rs. 300 per acre for irrigated area of 50 acres mostly Rabi and perennial crops.		....	
2. *Dairying*—	*Milk.*		
5 cows milking	13,000 lbs. ..	8,000	
5 buffaloes milking	27,000 lbs.		
	40,000 lbs.		
3. Tractor 100/200 days at Rs. 40 per day for 2 acres ..		4,000	
4. Irrigation charges for giving water to cultivators round about Rs. 10 per day for 100 days.		1,000	
		20,000	20,000

Note.—Ten acres of plantation under mango, chickoo and lemons each will start bearing fruit after five years so the receipts of Rs. 600 per acre will accrue to Government for total area of thirty acres. Thus, it will give an additional income of Rs. 18,000 per year from the fifth year.

ITEM 212. Scheme for evolving extra long staple cotton at Nadiad.

Recurrent	Rs.	3,700	Non-recurrent	Rs.	7,820
Total	,,	11,520	Ultimate annual recurrent ...	,,	

Remarks.—According to a resolution of the Indian Central Cotton Committee meeting held in February 1954. The scheme for evolving at Nadiad extra long staple cotton suitable to be grown under local conditions was prepared by the Director of Agriculture at an estimated expenditure of Rs. 1,16,373 spread over a period of five years. The Indian Central Cotton Committee has agreed to bear Rs. 75,053 on the scheme and the balance of Rs. 41,320 is to be borne by this Government. The share of this Government represents the capital expenditure, cost of up-keep of livestock and deadstock, rent of office and land. The work under the scheme which aims at breeding long staple cotton in the country, with a view of reduction in imports of large quantity from abroad is proposed to be carried out at Nadiad (in Kaira District), which is the centre of light soil areas.

The details of the provision of Rs. 11,520 required during 1956-57 and the respective shares of the Indian Central Cotton Committee are given in the attached statement.

The Scheme has been classified under the general scheme for Research and development of cotton for which a provision of Rs. 30,00,000 has been made in the draft Second Five-Year Plan.

STATEMENT.

	Rs.
A. *Non-recurrent*—	
Purchase of deadstock (office furniture)	3,380

MINISTER IN CHARGE—SHRI B. S. HIRAY.

ITEM 213.—Scheme for establishment of Regional Sugarcane Reserach Sub-Stations at Kolhapur, in Gujarat and Karnatak.

Recurrent	Rs. 86,595	Non-recurrent ..	Rs. 34,575
Total	„ 1,21,170	Ultimate annual recurrent ..	„

Remarks.—It has been observed that the results of research work conducted at the Agricultural Research Station, Padegaon under Deccan Canals conditions cannot directly be made use of in Karnatak and Gujarat areas, as the soil and climatic conditions and irrigation facilities in the Deccan are quite different than those in other areas. The experiments conducted at the Agricultural Research Sub-Stations at Alnavar in Karnatak and Vyara in Gujarat have yielded altogether different results from those obtained at Padegaon. It is, therefore, considered necessary to open three new regional sub-stations for sugarcane research in Kolhapur, Karnatak and Gujarat areas, where there is ample concentrated sugarcane area for investigation into optimum requirements for growing of sugarcane in different zones. By opening of these sub-stations it would be possible to find out the exact requirements in different aspects of sugarcane crop. This would indirectly help in increasing per acre yield of sugarcane. With the establishment of new sugar factories in these areas there is considerable scope for increasing the area under sugarcane.

It is therefore proposed to open three regional Sugarcane Research Stations in the above areas.

The scheme is estimated to cost Rs. 1,21,170 during 1956–57 as shown below :—

	Rs.
Non-recurrent—	
Purchase of Stores	5,000
Purchase of Laboratory furniture	2,000
Purchase of Special apparatus	6,075
Purchase of Office furniture	1,000
Purchase of Farm implements	5,000
Purchase of Livestock (Bullocks)	8,000
Purchase of Oil Engine, 20 H. P.	7,500
Total Non-recurrent	34,575
Recurrent—	
I. Pay of Officers—	
One B. A. S. Class II officer in the scale of Rs. 220—650 ..	2,420
Total pay of officers ..	2,420
II. Pay of Establishment—	
(A) Staff at head office (Padegaon) One Senior Clerk (1) in the sacle of Rs. 100—8—140.	1,100
One Agril. Officer II grade (1) in the scale of Rs. 80 to 200 ..	935
Staff at Research Stations—	
Administration and Direction :	
1 Senior Clerk Rs. 100—8—140	1,100
2 Junior Clerks Rs. 55 to 130	1,210
2 Peons Rs. 30—½—35	660
1 Watchman Rs. 30—½—35	330
Agronomy Section—	
1 Agricultural Officer I grade in scale of Rs. 210—10—300	2,310

Total Contingencies. ..	55,825
Total recurrent ..	86,595
Grand total.. ..	1,21,170

The proposal has been classified under the general scheme "Research and development of Sugarcane for which a provision of Rs. 67,75,000 exists in the draft Second Five Year Plan.

ITEM 214. Scheme for Investigation into diseases of Sugarcane in Bombay State.

Recurrent ..	Rs.	13,710	Non-recurrent	Rs.	6,500
Total	„	20,210	Ultimate annual recurrent ..	„	

Remarks.—It has been observed that Prominent Co.419 variety of Sugarcane is being affected by new diseases such as "Grassy Growth of Ratoons", "Twisted Top", etc., the cause of which is not known. With a view to investigate into the cause of these and other diseases and to find out remedial meanures against them, the work is proposed to be undertaken on the following items :—

(a) Determination of the etiological agent of the disease.
(b) Regional distribution and time of occurance.
(c) Mode of transmission and infection.
(d) Pathogencity tests and varietal behaviour.
(e) Collateral and alternate hosts.
(f) Control measures.

It is proposed to undertake this scheme during 1956-57. A separate new item for construction of buildings under the scheme is being put up under the head "81-Civil Works". A provision of Rs. 20,210 will be required during 1956-57 as detailed below :—

	Rs.
Non-Recurrent—	
(a) Furniture for Laboratory	2,000
(b) Microscope	1,500
(c) Auto-Clave	1,000
(d) Refrigerater	2,000

(1) Travelling Allowance of officers		300
(2) Travelling Allowance of Establishment		300
(3) Dearness Allowance		3,575
	Total—III ..	4,175
IV. *Contingencies (Recurring)*—		
(1) Office Expenses and Miscellaneous		800
(2) Labour, water supply charges, etc...		600
(3) Apparatus and Chemicals		600
	Total—IV ..	2,000
	Total—Recurrent ..	13,710
	Grand Total ..	20,210

The scheme has been classified under the general scheme " Research and Development of Sugarcane " for which a provision of Rs. 67,75,000 exists in the draft Second Five-Year Plan.

ITEM 215. Research and development of Poultry in Bombay State.

Recurrent	Rs.	1,17,465	Non-recurrent	Rs.	10,000
Total	,,	1,27,465	Ultimate annual recurrent ...	,,	

Remarks.—The Scheme for research and Development of Poultry in Bombay State, included in the Second Five-year Plan, envisages the following objects :—

(*i*) Rearing of imported baby chicks up to the age of five months after their arival in India from abroad.

(*ii*) Distribution in trios (2 female and one male) of these chicks at special concessional rates in Development Project Blocks, National Extension Scheme Blocks and adjacent areas.

(*iii*) Establishment of 20 poultry extension centres for demonstrating scientific methods of breeding, feeding, management of poultry, etc.

(*iv*) Provision for supply of wire-netting to enterprising poultry keepers, training in poultry husbandry, grant of stipend, holding of poultry shows, etc.

The target of work to be undertaken during the year 1956–57 is as under :—

(*i*) 6,000 chicks will be reared at the existing poultry forms up to 5 months of age and will be distributed at sepecial concessional rates in suitable development blocks at the rate of one trio per person seven.

(*ii*) Seven poultry development blocks will be established in the first year mainly in the districts of thickly poultry populated areas for demonstrating scientific methods of breeding, feeding and management of poultry. Each block is to be supplied 300 birds (200 females and 100 males) from Government Popultry farms at Rs. 2 per bird in case of rural populations and at Rs. 5 per bird in case of urban population. In addition 1,000 hatching eggs will be supplied at 2½ annas per egg.

(*iii*) Each development block will have a demonstration farm of poultry extension entre, where 100 birds will be maintained out of the chicks reared at Government Poultry Farms. These demonstration centres will also act as agencies for supply of hatching eggs and distributing birds.

(*iv*) Wirenetting at Rs. 50 each to 30 selected enterprising poultry keepers will be supplied for construction of proper poultry houses. A poultry rally is to be organised in each block. 300 persons will be given training in improved methods of poultry keeping.

A provision of Rs. 2,95,465 will be required for the yar 1956–57 out of which an amount of Rs. 1,68,900 is being provided under " 50, Civil Works " by way of new major work statement.

Details of the provision of Rs. 1,27,465 required under 40, Agrl. during 1956–57 are given below :—

A Capital Expenditure.	Rs.
Incubators, Brooders and other equipment	10,000
Total ...	10,000

The proposal forms part of the general scheme " Research and Development of Poultry " for which a provision of Rs. 15,00,000 has been provided for in the draft 2nd Five-Year Plan.

40, AGRICULTURE—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

ITEM 216. Soil Conservation Survey and Research Scheme for Soil Conservation Research of local problems (bunding in deep black soil).

Recurrent ...	... Rs. 13,780	Non-recurrent ...	... Rs. 37,000
Total ...	... ,, 50,780	Ultimate annual recurrent	... ,,

Remarks.—The Land Improvement Inquiry Commite appointed in 1946, recommended that investigation should be carried out with a view to evolving a suitable technique for bunding in deep black soli areas and that until the technique is evolved, no new bunding works should be undertaken in such deep black soil areas. The recommendation of the Committee was accepted and accordingly bunding works are at present undertaken only in the light and medium soils of the State. To extend the soil Conservation measures to the black soil areas in the different regions of the state, it is necessary to carry out research and experimental work for evolving a suitable technique of bunding so as to remove the defects noticed in the work carried out in such areas prior to the appointment of the Land Improvement Inquiry Committee. A five year scheme for research in bunding in deep black soil area in Deccan region, has accordingly been undertaken from 1955-56, on a block of about 400 acres at Honmurgi, in Sholapur District, which is entirely financed by the Sir Cusrow Wadia Trust Fund. In view of the peculiar nature of the deep black soil and the varying circumstances under which the soil erosion takes place in the different regions of the State, it is desirable to undertake similar research work in other regions also, viz. in Gujarat, Karnatak and Khandesh. It is therefore, proposed to carry out experiments on a block of about 400 acres to be located at a suitable place in the deep black soil area in one of the three regions, from 1956-57. Similar research work will have to be undertaken in remaining regions in subsequent years. The administrative control will rest with the Joint Director of Agriculture and the technical direction will be given by the Soil Physicist to Government. The following problems will be investigated :—

(1) Trial of different types of terraces.

(2) Agronomic practices to conserve moisture and check soil erosion.

(3) Stabilization of terraces and water courses by using grass material.

(4) Measurements of intensities of rain and of erosion and run off over catchment areas under different treatments.

(5) Soil studies in the above experiments with reference to Morphology, colloid contents, mechanical constituents and soil structure with a view to correlating soil properties and erosion control measures.

(6) Methods of construction of terraces including use of mechanical means.

It is assumed that, due to some absentee landlords owning lands coming in the catchments selected for the experimental deep soil bunding or for some other unforeseen reasons the cultivation of about half the area may have to be done at Government cost in the first instance. The cost will subsequently be recovered by sale of farm produce.

The experimental work is proposed to be carried out over a period of 5 years from 1956-57, involving a total expenditure of Rs. 1,16,548 (including a capital expenditure of Rs. 37,000) out of which an expenditure of Rs. 50,780 as detailed below is required during 1956-57. Out of this expenditure an amount of Rs. 8,000 will be recoverable on account of farm produce from the area to be cultivated departmentally at Rs. 40 per acre. The staff consisting of one Agricultural Officer, Grade II, two Agricultural Assistants and one Khalasi required under the scheme will be sanctioned fro a period of one year in the first instance.

	Amount.
Non-recurrent—	Rs.
(1) Appliances and furniture and observatory instruments	5,000
(2) Land Improvement works at Rs. 80 per acre	32,000
	37,000
Recurrent—	
(*a*) *Pay of Establishment*—	3,240
(1) One Agricultural Officer in the scale of Rs. 80—5—100—8—140—10—200.	
(2) Two Agricultural Assistants in the scale of Rs. 55—3—85—E.B.—4—125—5—140.	
(3) One Khalasi in the scale of Rs. 30—1/2—35.	

MINISTER IN CHARGE—SHRI B. S. HIRAY.

		Amounts.
		Rs.
(*b*) *Allowances and Honoraria*		2,140
	Rs.	
(*i*) Dearness Allowance	2,040	
(*ii*) Travelling Allowance	100	
(*c*) *Contingencies*—		8,400
(*i*) Office Expenses and Miscellaneous	100	
(*ii*) Rent, rates and taxes (Rent for office and godown) ...	150	
(*iii*) Service postage and telegrams	150	
(*iv*) Cultivation charges over 1/2 the area at Rs. 40 per acre ...	8,000	
Total-Recurrent ...		13,780
Grand Total ...		50,780

In the draft Second Five-Year Plan, a provision of Rs. 4 62 lakhs has been included for the scheme for survey and Research in Soil Conservation of which this scheme forms a part.

ITEM 217. Scheme for the training of Group Level Workers, i. e. supervisory personnel, employed in the Community Development and National Extension Service Blocks.

Recurrent	Rs.	15,845	Non-recurrent	Rs.	*Nil.*
Total	,,	15,845	Ultimate annual recurrent ...	,,	

Remarks.—The supervisory personnel required for the Community Development and National Extension Service Blocks were so far being imparted necessary training in extension methods at the three Extension Training Centres, Anand, Manjri and Dharwar. It is now proposed to concentrate the training facilities in this respect at the Extension Training Centre, Manjri and to reduce the training period from six months to two months. The training will now be extended to officers of the Co-operative and Public Works Departments in addition to officers of the Agricultural Department who were the only personnel trained so far at the supervisory course. 20 persons will be trained in each batch and four

such courses will be arranged in a year. The estimated expenditure on this account during the year 1956-57 is as under :—

	Rs.
Recurring Cost—	
Honorarium to the Principal at Rs. 75 per month	825
Honoraria to Lecturers	2,750
Pay and allowances of one Junior Clerk—Pay Rs. 55 per month in the grade of Rs. 46—3—85—E.B.—4—125—5—130.	1,375
Pay of one attendant at Rs. 45 per month	495
Travelling allowance	4,000
Stipend to 20 trainees at Rs. 40 per month for 8 months	6,400
Total recurring ...	15,845

Provision of Rs. 40,000 on account of non-recurring cost of construction of a hostel block and a sanitary block has been proposed separately, under the head " 81-Capital Account of Civil Works ".

The Government of India is agreeable to bear the entire non-recurring cost and half of the recurring cost of the scheme.

The proposal has been classified under the general scheme " Expansion of training in extension work " for which a provision of Rs. 17,78,000 has been made in the draft Second Five-Year Plan.

ITEM 218. Scheme for Development Work on Sugar-cane in the Bombay State.

Recurrent	Rs.	3,58,970	Non-recurrent	Rs.	30,000
Total	,,	3,88,970	Ultimate annual recurrent ...	,,	.....

Remarks.—The Sugarcane Development Scheme was originally sanctioned in 1948 and the work there under was commenced from August, 1948. This scheme was expanded and continued for a period of three years with effect from 1st April, 1953. Under this scheme six zonal sub-stations have been opened in the different areas of well defined soil types, where trials and multiplication of improved sugarcanes are carried out. So also nurseries have been established at these sub-stations for production of improved seeds which are supplied to the sugarcane growers and factories. Extensive propaganda for the use of manures have been carried under the scheme. Depots have been opened with a view to demonstrating the use of improved types of implements. These depots also given on hire the implements to the cultivators. Under this scheme extensive crop protection service is offered to the cultivators. Soil Surveys are carried under this scheme in order to determine suitability of land for sugarcane cultivation, nature of fertilizers to be used and cultural practices to be followed in the particular type of soil.

40, AGRICULTURE—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

It is proposed to expand the existing sugarcane Development Scheme and to amalgamate the supplementary sugarcane development scheme (*1*) for gul and khandsari areas and (2) for achieving additional targets of sugarcane production as fixed by the Planning Commission, which has been sanctioned during 1955-56, with the sugarcane Development Scheme. It is necessary to continue this amalgamated scheme on a long period basis. This scheme is proposed to be continued for a period of five years with effect from 1st April 1956. The scheme is partly financed by the Indian Central Sugarcane Committee.

A provision of Rs. 3,88,970 as shown below, will be required for the scheme during 1956-57.

	Rs.
Non-recurrent	30,000
Recurrent—	
I. *Pay of Officers*—	
Crop Protection Officer Ahmednagar. 1 Soil Survey Officer, Padegaon ... 1 Sugarcane Development Officer, Northern Division. 1 Sugarcane Development Officer, Southern Division. } In the Bombay Agricultural Service Class II in the scale of Rs. 220—15—400—E.B.—20—500—25—650.	12,527

41, VETERINARY.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

ITEM 219. Scheme for expansion of supervisory staff.

Recurrent	... Rs. 47,600	Non-recurrent	...Rs. 6,000
Total	... ,, 53,600	Ultimate annual recurrent	... ,, *Nil*

Remarks.—There are at present eight posts of Divisional Veterinary Officers in the State, each having in his jurisdiction 3 to 4 districts and about 35 to 40 veterinary dispensaries. The National Extension service scheme is likely to be extended to the entire State during the next five years, i.e., 2nd Five-Year Plan and there will be two veterinary and centres or branch veterinary dispensaries in each taluka in addition to the full fledged veterinary dispensary proposed to be provided for each taluka. In addition to the inspection of veterinary dispensaries and veterinary aid centres the Divisional Veterinary Officers will have to take adequate measures to control *epizootics* in their jurisdiction. As it is not possible for the existing staff to carry out this work efficiently with the existing supervisory staff it is proposed to create five new Divisions by stages, i e., 3 in the first year and 2 in the fourth year of the Plan. The following establishment will be required for each Division, the charge of which will be held by a Divisional Veterinary Officer in the Bombay Veterinary Service Class II :—

One Head clerk in the scale of Rs. 100—8—140.
Four Junior clerks in the scale of Rs. 46—3—85—E.B.—4—125—5—130.
Three peons in the scale of Rs. 30—½—35.

Thus it will be necessary to create the undermentioned posts during 1956-57 :—

Three Divisional Veterinary Officers in the Bombay Veterinary Service Class II.
Three Head clerks in the scale of Rs. 100—8—140.
Twelve Junior clerks in the scale of Rs. 46—3—85—E.B.—4—125—5—130.
Nine peons in the scale of Rs. 30—½—35.

2. With the intensification of field activities there will be a corresponding increase in the volume of work in the office of the Director of Veterinary Services. It is therefore proposed to convert the existing post of Superintendent in the scale of Rs. 220—15—295 into that of Personal Assistant in the scale of Rs. 220—15—400 and to create two additional posts of Superintendents in the scale of Rs. 210—10—300.

3. The Scheme is estimated to cost Rs. 3,36,000 during the period of the Second Five-Year Plan. A provision of Rs. 53,600 will be required during 1956-57 for the additional establishment to be employed for one year from 1st April 1955 :—

	Rs.
I. *Pay of Officers*—	
Three posts of Divisional Veterinary Officers in the Bombay Veterinary Service Class II	7,260
One post of personal assistant in the scale of Rs. 220—15—400	No extra provision is required during 1956-57.
	7,260
II. *Pay of Establishment*—	
Two Superintendents in the scale of Rs. 210—10—500	4,620
Three Head clerks in the scale of Rs. 100—8—140	3,300
Twelve Junior clerks in the scale of Rs. 46—3—85—E.B.—4—125—5—130.	7,260
Nine peons in the scale of Rs. 30—½—35	2,970
	18,150
III. *Allowances and Honoraria*—	
Dearness allowance	14,215
House rent allowance	330
Compensatory local allowance	220
Travelling allowance	3,300
	18,065
IV. *Contingencies*—	
Service postage and telegrams at Rs. 50 per mensem per office	1,650
Office expenses and miscellaneous at Rs. 25 per mensem per office... ...	825
Rent, rates and taxes at Rs. 50 per month per office	1,650
Furniture	6,000
	10,125
Grand Total ...	53,600

41. VETERINARY—contd.

MINISTER IN CHARGE—SHRI B. S. HIRAY.

ITEM 220. Scheme for establishment of rabbit breeding centre in the Bombay State.

Recurrent ..	Rs.	39,945	Non-recurrent ..	Rs.	21,500
Total ..	„	61,445	Ultimate annual recurrent ..	„	*Nil.*

Remarks.—Rinderpest causes about 60 per cent. of the total cattle mortality in the country. The Planning Commission has, therefore, included a scheme for the eradication of Rinderpest from the country under its programme of land transformation. Under the scheme it will be necessary to vaccinate animals of higher susceptibility by using lapinized vaccines. The Government of India have been considering a scheme for the production of lapinized vaccine at the Indian Veterinary Research Institute. It is proposed to establish rabbitaries in the various States for supply of rabbits to the Indian Veterinary Research Institute for the production of the vaccine on an all India scale. It is accordingly proposed to establish a rabbit breeding centre at Poona at an estimated cost of Rs. 1,01,000 over a period of two years. As the work relating to eradication of Rinderpest is to be completed during the first two years of the Second Five-Year Plan, it is necessary to start the scheme during 1956-57. A provision of Rs. 61,445 will be required during 1956-57 as detailed below :—

	Rs.
I. *Pay of Establishment*—	
One Farm Assistant in the scale of Rs. 210—10—300	2,310
One Farm Supervisor in the scale of Rs. 55—3—85—E. B.—4—125—5—140 .	605
Two Farm Attendants in the scale of Rs. 30—½—35	660
	3,575
II. *Allowances and Honoraria*—	
Dearness Allowance	2,100
Travelling Allowance	500
Other Allowances	720
	3,320
III. *Contingencies*—	
(*a*) *Recurrent*—	
Purchase of animals	1,750
Feeding charges	18,000
Miscellaneous expenses (medical disinfecting devices etc.)	2,500
Pay of 15 labourers (including two watchmen and one sweeper).. ..	10,800
(*b*) *Non-recurrent*—	
Construction of hutches, katcha pens or sheds and additions and alterations to the existing structures	17,500
Purchase of foundations stock of 400 rabbits	4,000
	54,550
Grand Total ..	61,445

ITEM 221. Expansion of the scheme for eradication of rinderpest.

Recurrent ..	Rs.	6,02,200	Non-recurrent ..	Rs.	71,400
Total ..	„	6,73,600	Ultimate annual recurrent ..	„	*Nil.*

Remarks.—Rinderpest causes about 60 per cent. of the total cattle mortality in the country. The Planning Commission realised the importance of eradication of Rinderpest and included a scheme for the purpose in the Second Five-Year Plan. A pilot project has been undertaken from January 1955 and the four districts of Dharwar, Kanara, Bijapur and Belgaum will be covered under the scheme by the end of this year. It seems now necessary to continue the good work done under the scheme. It is, therefore, proposed to extend the scheme for a period of two years with effect from the 1st March 1956 and to cover the entire Bombay State during that period at a cost of Rs. 14,10,000. The scheme will be

financed by the Government of India and this Government on a 50 : 50 basis. The entire cost of capital assets will, however, be borne by the Government of India and the entire expenditure on maintenance of vehicles will be borne by the State Government.

2. It is proposed to employ the following staff on the scheme for a period of two years or till the completion of the work under the scheme :—

(1) One Special Rinderpest Officer in the Bombay Veterinary Service Class I.

(2) Three Assistant Rinderpest Officers in the grade of Rs. 210—10—300.

(3) Fifty Veterinary Officers in the scale of Rs. 120—8—160—10—200—E.B.—10—250.

(4) 200 Stockmen in scale of Rs. 55—3—85—E.B.—4—125—5—140.

(5) 50 Attendants in the scale of Rs. 30—½—35.

(6) One Senior Clerk in the scale of Rs. 100—8—140.

(7) One Junior Clerk in the scale of Rs. 46—3—85—E.B.—4—125—5—130.

(8) One Junior Clerk-cum-Typist in the scale of Rs. 46—3—85—E.B.—4—125—5—130.

(9) Four Motor Drivers in the scale of Rs. 55—3—85.

(10) Five Peons in the scale of Rs. 30—½—35.

The entire posts will be created under the scheme except those of 14 Veterinary Officers and 40 Stock men, which will be spared from the existing cadre of the Department.

3. The estimated cost of the scheme is Rs. 14,10,000. Details of cost involved during the year 1956-57 from April 1956 to February 1957, *i.e.* 11 months are given below :—

	Rs.
(I) *Pay of Officers*—	
One Special Rinderpest Officer in Bombay Veterinary Service Class I in the scale of Rs. 350—30—650—E.B.—45—1,100	3,850
Leave Salary	350
Total (I) ..	4,200
(II) *Pay of Establishment*—	
Three Assistant Rinderpest Officers in the scale of Rs. 210—10—300 ..	6,930
36 Veterinary Officers in the scale of Rs. 120—8—160—10—200—E.B.—20—250	53,856
160 Stockmen in the scale of Rs. 55—3—85—E.B.—4—125—5—140 ..	96,918
One Senior Clerk in the scale of Rs. 100—8—140	1,100
One Junior Clerk in the scale of Rs. 46—8—85—E.B.—4—125—5—130 ..	638
One Junior Clerk-cum-Typist in the scale of Rs. 46—3—85—E.B.—4—125—5—130	605
Four Motor Drivers in the scale of Rs. 55—3—85	2,453
Five Peons in the scale of Rs. 30—½—35	1,650
50 Attendants in the scale of Rs. 30—½—35	16,500
Leave Salary	2,000
Total (II) ..	1,82,650
(III) *Allowances, Honoraria, etc.*—	
Dearness Allowance	1,17,445
Travelling Allowance (Ordinary)	5,500

ITEM 222. Scheme for assumption of full control of veterinary dispensaries run by local bodies.

Recurrent .. Rs.	50,000	Non-recurrent .. .. Rs.	*Nil*
Total .. .. ,,	50,000	Ultimate annual recurrent .. ,,	*Nil*

Remarks.—At present 112 veterinary dispensaries are run by the Municipalities or the District Local Boards with financial assistance from Governement, in the form of a grant-in-aid and free services of veterinary officers. The maintenance of veterinary dispensaries is not, however, an obligatory function of the local bodies and they are reluctant to undertake such responsibilities due to financial difficulties. The veterinary officers at the veterinary dispensaries are Government servants and the remaining staff is appointed by and under the control of the local bodies. As this dual control in the day to day administration is not conducive to efficient working of the veterinary dispensaries, it is proposed to

42, CO-OPERATION.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 223. Establishment of a laboratory for grading and additional staff for the same.

Recurrent	Rs. 5,000	Non-recurrent	Rs. 40,000
Total	„ 45,000	Ultimate annual recurrent ...	„ .....

Remarks.—Grading is essential for healthy development of marketing. The grading is statutory in commodities like sannhemp, tobacco, wool, hair and bristles which command an export market and the Government of India controls such grading. Grading has been extended to oils, ghee and butter. It is proposed to extend grading activities under the Agmark in respect of ghee and edible oils on more extensive scale by installing three well-equipped laboratories under qualified staff at (1) Dhulia, District West Khandesh or Sangli in South Satara District; (2) Belgaum in Belgaum District or Gadag in Dharwar District and (3) Anand in Kaira District.

The total expenditure on account of the three laboratories including cost of technical staff will be Rs. 1·63 lakhs for the five years of the Second Five-Year Plan.

In order to cope with the increasing work, the following staff is necessary :—

	Rs.
1 Grading Officer	200—10—300
1 Clerk	46—130
1 Peon	30—35

In the first year (1956–57) it is proposed to establish one laboratory which will involve a cost of Rs. 40,000. As the staff is expected to be appointed in September 1956 provision for six months only i.e. Rs. 5,000 is proposed to be made. The scheme is included in the Second Five-Year Plan.

STATEMENT "A".

EXPENDITURE FOR 1956-57.

Grading.

Subject of item.	Additional work to be suitable units.	Cost of one unit.	Cost to be borne by Government towards capital cost.	Cost to be borne by Government towards recurring expenditure on account of chemicals salaries of chemists etc.	Expenditure on additional staff of Grading Officer and his establishment. MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 224.: Expansion of the Statistical Section of the Co-operative Department.

Recurrent	... Rs.	77,352	Non-recurrent ...	... Rs.	9,400
Total ...	... ,,	86,752	Ultimate annual recurrent	... ,,	.....

Remarks.—The need for constant, reliable and accurate data both for the planning and execution of various schemes require hardly any emphasis. The Committee of Direction of the Rural Credit Survey appointed by the Reserve Bank of India has made far reaching recommendations regarding development of activities of the Co-operatives. The recommendations envisage re-organisation of credit system, close linking of credit with marketing and processing as an adjunct of marketing etc. Accordingly in the Second Five-Year Plan of the Co-operative Department, schemes for implementation of the recommendations of the rural credit survey report have been included. The Committee of Direction of the Rural Credit Survey has also recommended that follow up, review and research is necessary to judge whether the efforts under different development plans are proceeding in conformity with the policies decided upon by Government. For this purpose periodical statistical surveys would have to be taken up.

2. The present staff in the statistical section of the Co-operative Department consists of a statistician in the Bombay Co-operative Service Class II (Rs. 220—650) one head clerk in the grade of Rs. 100—8—140, a Junior Clerk in the grade of Rs. 48—130 and a peon. As there is no technical staff in the statistical section to attend to the evolution work on a scientific basis, it is proposed to have at Head Quarters a staff of one Research Assistant in the grade of Rs. 200—10—300. He would be assisted by four Statistical Assistants (in the grade of Rs. 100—8—140—10—150) and two Junior Clerks in the grade of Rs. 46—130. It is also proposed to add to the Section a Draughtsman to attend to various charts, maps and other graphical representations. Two posts of Attendants would have to be created for the Statistical Section. For compilation of accurate statistical data at present, there is no field staff in the districts. As a result there is often good deal of delay at the compiling stage. The returns received from the districts at present are often defective. It is, therefore, proposed to have 28 Statistical Assistants in the grade of Rs. 100—8—140—10—150 to work in each of the districts of the State.

3. In view of the increase in the nature and volume of the work, as indicated in para. one above, it is considered necessary that the Statistical Section should be headed by a competent and experienced Statistician and it is, therefore, proposed that the present post of Statistician should be upgraded from Class II (i.e. Rs. 220—650) to class I (i.e. Rs. 350—1,100) and of the head clerk from Rs. 100—8—140 to 150—10—200.

4. It is proposed to create the posts mentioned in para. 2 above and to upgrade the posts mentioned in para. 3 above for a period of one year in the first instance. The scheme for the creation and upgrading of the posts in question has been included in the Second Five-Year Plan and it is expected to cost Rs. 4·65 lakhs over the Plan period. A total provision of Rs. 86,752 is required to be made in the 1956-57 budget for the staff mentioned in paragraphs 2 and 3 above as per details given below :—

	Cost for 11 months.
	Rs.
(1) *Pay of Officers*	1,760
(Difference of pay due to upgrading the post of Statistician at Rs. 160 per mensem). (Rs. 160×11=1,760).	
(2) *Pay of Establishments*	41,272
(*i*) One Research Assistant in the grade of Rs. 200—10—300. (Rs. 200×11=2,200).	
(*ii*) Four Statistical Assistants in the Registrar's Office in the grade of Rs. 100—8—140—10—150. (Rs. 100×4×11=4,400).	
(*iii*) 28 Statistical Assistants in the Districts in the grade of Rs. 100—8—140—10—150. (Rs. 100×28×11=30,800.)	
(*iv*) Difference in pay of the Head Clerk at Rs. 34 per mensem. (Rs. 34×11=374).	
(*v*) Two Junior Clerks in the Registrar's Office in the grade of Rs. 46—130 at Rs. 64 per mensem. (Rs. 64×2×11=1,408).	
(*vi*) One Draughtsman in the grade of Rs. 100—8—140—10—150. (Rs. 100×11=1,100).	
(*vii*) Two Attendants at Rs. 45 per mensem. (Rs. 45×2×11=990).	

MINISTER IN CHARGE—SHRI M. P. PATIL.

	Cost for 11 months.

(4) Contingencies	9,400
	86,752

ITEM 225. Regulated Markets.

Recurrent	.. Rs.	28,200	Non-recurrent	.. Rs.	*Nil.*
Total	.. ,,	28,200	Ultimate Annual Recurrent	.. ,,	--

Remarks.—Regulated Markets under the Bombay Agricultural Produce Markets Act, 1939, are established to protect the agricultural producer from the risk of malpractices in the marketing of his produce. There are 171 major assembling markets and about 106 minor assembling markets in the Bombay State. Of those 101 major markets and 76 minor markets have been so far regulated. It is proposed to bring the remaining major and minor markets under regulation during the Second Five-Year Plan.

Vigilant watch over the working of the regulated markets with a view to ensuring proper recruiting of staff and smooth working of the Markets Committees, is necessary. For this it is essential to have following additional staff :—

1	Class I Officer	... Rs. 410—1,100.
1	Office Superintendent	... Rs. 200—10—300.
1	Senior Clerk	... Rs. 100—8—140—10—150.
1	Junior Clerk	... Rs. 46—130.
3	Peons	... Rs. 30—35.

An expenditure of Rs. 1·15 lakhs is to be incurred on the staff during the Second Five-Year Plan. It is also necessary to give subsidies to the new established Market Committees to enable them to start functioning. The expenditure on this account during the Second Five-Year Plan period is expected to be Rs. 0·30 lakhs.

During 1956–57, the following expenditure is expected to be incurred :—

	Rs.
Additional Staff	22,200
Subsidy	6,000
Total ..	28,200

42, CO-OPERATION—contd.

ITEM 226. Subsidised Industrial Housing Scheme of Government of India.

Recurrent	... Rs. 7,000	Non-recurrent	... Rs. 6,00,000
Total	... ,, 6,07,000	Ultimate annual recurrent	... ,,

Remarks.—In order to facilitate the execution of the Subsidised Industrial Housing Scheme, to supervise proper utilisation of Government funds and to attend to the increasing work on account of the Scheme the following additional staff is proposed to be created :—

	Rs.
2 Assistant District Co-operative Officers	100—8—140
2 Senior Clerks	100—8—140
2 Junior Clerks	46—130.
2 Attendants	45 per month.

Two Assistant District Co-operative Officers are meant for Bombay and Ahmedabad, leading industrial cities where most of the societies will be located. Two Senior Clerks, one each at Poona and Ahmedabad and 2 Junior Clerks, one each for the office of the Assistant Registrar, Bombay and Ahmedabad are to be created. Total cost on account of this staff for Second Five-Year Plan period is Rs. 56,000. For 1956-57 expenditure on staff is expected to be only Rs. 7,000 on the basis of 8 months' requirements as it will take some time to appoint the staff.

For the 5 years, expenditure on account of subsidy to be borne by Government of India and to be paid through this Government is expected to be 11·62 lakhs. During 1956-57, it is expected to be 6 lakhs. A provision on this account will have therefore to be made.

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 227. Scheme for providing cheap electricity as motive power for irrigation purpose.

Recurrent ...	... Rs. *Nil.*	Non-recurrent ...	... Rs. 73,000
Total ...	... ,, 73,000	Ultimate annual recurrent ...	

Remarks.—In certain parts of the State not served by the Electric Grid there are possibilities of organising Co-operative Electricity Production Societies which in addition to providing power for lighting purposes could also provide electricity at economic rates as motive power for irrigation purposes. The additional capital cost involved in installation of electrical generators, supply lines, transformers, etc. for irrigation purposes is generally very high and it becomes usually difficult to supply electricity at economic rates to cultivators for agricultural purposes. Already Government has been subscribing the share capital of such societies advancing loans up to 1/3rd of the capital cost. But it is considered that this is not sufficient inducement for the societies to take up supply of electro-motive power for irrigation purposes. The income derived from the supply of electricity for irrigation purposes, has been found to fall short of production costs. It is, therefore, necessary to subsidise the co-operative societies for taking up this activity.

It is proposed that in addition to the loan asssistance available under the existing scheme, assistance should also be given by way of non-recurring subsidy towards capital cost to the extent of 25 per cent. of the additional capital cost entailed in the supply of electricity for irrigation purposes.

2. This scheme is included in the Second Five-Year Plan and 12 electricity Production Societies are proposed to be assisted during the 5 year period with loans up to 1/3 of the capital costs. Of these 8 societies are proposed to be assisted with subsidies on the scale mentioned above for enabling them to supply electricity at economic rates for irrigation purposes. For this purpose a provision of Rs. 14·01 lakhs as loan and Rs. 2·40 lakhs as subsidy has been proposed in the Second Five-Year Plan.

3. During the year 1956–57, it is proposed to have 3 Units, which would be assisted with loans out of which 2 would also be considered for subsidy as indicated above for supplying power for irrigation purposes. Budget provision required during 1956–57 on this account is as follows:—

Loans	2·50 lakhs.
Subsidy	0·73 lakhs.
	3·23 lakhs.

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 228. Scheme for organisation of Co-operative Cattle-Breeding-*cum*-Farming Societies and Multipurpose Societies for the improvement of Nomadic Professional Cattle Breeders.

Recurrent	... Rs.	95,000	Non-recurrent	... Rs.	85,000
Total	... ,,	1,80,000	Ultimate annual recurrent	... ,,	

Remarks.—A Scheme for Ahmedabad, Mehsana and Kaira Districts for rehabilitation of Rabari and Barwads, who are professional cattle breeders has been sanctioned and a special staff consisting of one Special Officer (Rs. 350-650); one Senior Clerk, one Junior Clerk, five peons, one Cattle Breeding Expert and one Surveyor has been sanctioned to implement the scheme. The Scheme has been sanctioned for one year in the first instance, and it envisages that 30 cattle-breeding-*cum*-farming Societies of Rabaris and Bharwads should be organised and financed, in three districts of Ahmedabad, Mehsana and Kaira during the current year. The cattle-breeding-*cum*-farming societies have been made eligible for the following assistance :—

Serial No.	Item.	Financial assistance	
		Loan.	Subsidy
1	2	3	4
		Rs.	Rs.
1	Purchase of breeding bulls at 2 bulls per society (cost per bull Rs. 600)	.....	1,200
2	Maintenance charges at the rate of Rs. 20 p.m. per bull for one year	.....	480
3	Land Development	3,000	1,000
4	Purchase of seeds, manures, implements, etc. Rs. 1,200 first year, Rs. 600 each, for the second and the third year ...	.....	2,400
5	Contribution towards share capital	4,000	.....
6	Cost towards pay and allowances of the Managers of the societies in the grade of (Rs. 55—130) Rs. 1,200 for each of the first 3 years and Rs. 600 and Rs. 300 for the fourth and fifth years respectively	.....	4,500
7	Cost towards pay and allowances of Milk Recorders at Rs. 65 plus dearness allowance Rs. 45 per mensem (Rs. 1,320 for each of the first 3 years and Rs. 660 and Rs. 330 for the fourth and fifth years respectively) ...	.....	4,900

This scheme aims at the rehabilitation of Rabaris and Bharwads and their settlement on land, in order to enable them, to carry on their age-old cattle breeding profession without having to be nomadic.

For the year 1955-56, organisation and grant of finance to 30 such societies had been originally envisaged. But it now appears that it may be possible to organise only about 22 such societies during the current year 1955-56. There are about 3 lakhs of Rabaris and Bharwads who are essentially professional cattle-breeders in Gujerath area. There are also some other professional cattle-breeders in other parts of State. The organisation of 22 cattle-breeding *cum* farming societies will have only touched the fringe of the colossal problem that exists in respect of these people. It is, therefore, necessary to continue the scheme and to organise more such societies. It is proposed to continue the scheme under the IInd Five-Year Plan, and to make the scheme applicable to all the nomadic professional cattle-breeders in the State. It is proposed to organise 56 societies more, during the period of IInd Five-Year Plan.

The basis of financial assistance to the cattle-breeding-*cum*-farming societies has been slightly changed, and the following assistance has now been proposed. In the first place, provision has been made for establishment of societies not only on Government waste lands (42 such societies are envisaged for the

period of the Plan) that can be made available for the purpose but also on private lands to be purchased wherever feasible with part Government assistance. The following scale of assistance is proposecd per society, proposed to be established on Government waste lands.

Serial No.	Particulars.	Loan per society or share capital contribution.	Subsidy per society.	Total per society.
1	2	3	4	5
		Rs.	Rs.	Rs.
1	Purchase of breeding bull (1)	.....	600	600
2	Maintenance charges for the breeding bull at Rs. 20 per mensem for 2 years	.....	480	480
3	Land Development	8,000	2,000	10,000
4	Purchase of seeds, manures and implements etc. for 2 years at Rs. 1,000 during the first year and Rs. 500 in the second	.....	1,500	1,500
5	Share capital contribution	4,000	.....	4,000
6	Cost of Managers for 3 years	.....	3,600	3,600
	Total ...	12,000	8,180	20,180

In the case of societies to be established on lands to be purchased (the number of such societies will be 14, for the IInd Five-Year Plan period) the scale of assistance is proposed to be the same as above, except that in place of land development the provision will be for " purchase of land and its development " for which the assistance proposed is 75 per cent. of the cost of the land or Rs. 20,000 whichever is lower, as loan, and ¼th cost of approved works of land improvement subject to a ceiling of Rs. 2,000 as subsidy. Besides the societies are proposed to be sanctioned Government contribution to their share capital at the rate of Rs. 4,000 per society.

The loans proposed to be granted, will carry the same terms and conditions as heretofore. The loans for land purchases will be repayable in 10 years by equal instalments

The 22 societies going to be organised during 1955–56 as per the scheme now sanctioned will also be made available the enhanced assistance now proposed to be provided for such societies on some items, under the IInd Five-Year Plan.

As stated above, the population of these professional cattle breeders is about 3 lakhs and more and these societies will not be able to bring within their fold this entire population. Further there will also be some Rabaris and Bharwads and other professional cattle-breeders who already own some lands or who have already been granted lands by Government on individual basis. Such of the professional cattle-breeders, who have already been settled on land will not need to be brought within the purview of cattle-breeding-*cum*-farming societies of the kind described above. They will, however, need to be assisted in respect of their special problem, and their common needs will have to be catered to by the institutions to be specially established for this purpose. These individually and newly settled nomads will have to be brought within the scope of co-operative institutions which will look after their credit needs, their needs of breeding services, procurements of their requirements such as feeds, marketing of their produce such as calves, milk, ghee etc. For this purpose, it is proposed also to organise 40 Multipurpose Societies for these people, at suitable centres.

The Multipurpose Societies (which are proposed to be organised at the rate of 8 per year during the plan period and totalling 40) will get financial assistance from Government as shown below :—

Serial. No.	Particulars.	Loan per society.	Subsidy per society.	Total.
		Rs.	Rs.	Rs.
1	Contribution towards share capital ...	10,000	.....	10,000
2	Construction of godowns	9,000	1,000	10,000
3	Managerial expenses at Rs. 600 per society per year for the first 3 years	.....	1,800	1,800
	Total ...	19,000	2,800	21,800

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

There will be an Advisory Committee to associate non-officials with the execution of the scheme. The Advisory Committee would consist of honorary workers and they need to be given travelling allowances etc. to meet their actual expenses of journey etc. A provision of Rs. 2,000 per year. (Total Rs. 10,000 for 5 years) is, therefore, proposed to be made in this respect.

Special Staff.—Government has already sanctioned Special Staff for this scheme as indicated in paragraph 1 above. In view of the continuance of the scheme under the IInd Five-Year Plan this staff is proposed to be continued and the requisite orders on that account are being issued separately.

In view of the expansion of the scheme and to tackle the special problems of these societies following additional staff has been proposed for the period of the IInd Five-Year Plan.

(1) 1 Assistant District Co-operative Officer (Rs. 100—8—140).

(2) 1 Awal Karkun (Rs. 100—8—140).

(3) 1 Senior Clerk (Rs. 100—8—140).

(4) 1 Attendant (Rs. 45 fixed).

The jurisdiction of the Special Officer will be very vast and he, therefore, needs the assistance of a Special Assistant District Co-operative Officer who can visit places, when Special Officer may not himself be able to go, and will also attend to the supervision and guidance of these societies, to certain extent. The execution of the scheme involves to a considerable extent, the work of securing Government lands and purchase of private lands, where Government lands are not available, and services of an Awal Karkun from the Revenue Department with the experience of the land acquisition and land grant cases, will greatly facilitate execution of the scheme. It is, therefore, proposed to secure such an Awal Karkun and a provision has, therefore, been made in this respect in the scheme. The senior clerk's post, is meant for the office of the Registrar, Co-operative Societies, Poona, to attend to the increased work on this account and to attend to the registration proposals, loans and subsidy cases and to various other proposals of these societies, in the Registrar's office. This additional staff is the minimum required, for the execution of the scheme, and the total cost involved therein during the plan period is as follows :—

I Year.	II Year.	III Year.	IV Year.	V Year.	Total.
Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
5,000	8,000	8,000	9,000	9,000	39,000

The cost of the staff for the first year i.e. 1956–57, has been calculated only for 8 months, as it is anticipated that it will take about 4 months to go through the preliminary arrangements before the proposed staff is appointed. The total cost of the scheme would be as under for 5 years of IInd Five-Year Plan (as per details indicated above) and it has been admitted in the Plan :—

Item.	I Year.	II Year.	III Year.	IV Year.	V Year.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1. Staff	5,000	8,000	8,000	9,000	9,000	39,000
2. Recurring subsidy	90,000	1,12,000	96,000	68,000	43,000	4,09,000
3. Non-recurring subsidy	85,000	47,000	39,000	24,000	13,000	2,08,000
4. Share capital contribution	1,64,000	1,40,000	1,28,000	1,04,000	88,000	6,24,000
5. Loan	2,28,000	4,34,000	2,16,000	1,20,000	86,000	10,84,000
Total ...	5,72,000	7,41,000	4,87,000	3,25,000	2,39,000	23,64,000

Out of the total provision of Rs. 5,72,000 required to be made for the scheme in the 1956–57 budget a provision of Rs. 1,80,000 for subsidy and staff is proposed to be made herein and the provisions of Rs. 1,64,000 and Rs. 2,28,000 for Government contribution to the share capital of the societies and grant of loans to these societies respectively are being made under the heads "72, Capital Outlay" and "R—Loans and Advances" separately.

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 229. Organisation of Milk Producers Societies and Unions.

Recurrent	... Rs. 20,000	Non-recurrent ...	... Rs. 4,000
Total	... ,, 24,000	Ultimate annual recurrent	... ,,

Remarks.—I. *Brief Description.*—The aim of the Scheme is the development of Milk Industry on an organised and scientific basis in certain large towns and villages round about these towns through the organisation of Milk Supply Unions, Federations and Feeder Societies affiliated to them. It would also help to remove the gloomy picture existing in the milk industry by undertaking proper breeding and feeding of the cattle, quality control by organising production and transport and distribution on economic basis. The chain of the middlemen which links the producers with the consumers would be removed to some extent in the areas in which the scheme is implemented. It would further help the cultivators in providing with part-time work in off season as they would also be preparing manure which would also help to supplement their resources required for agricultural industries.

II. *Federations.*—In the big towns such as Bombay, Ahmedabad and Poona, Government and/or Corporation Milk Schemes are in operation. In these towns, milk is collected through co-operatives or otherwise direct from the producers. There is no efficient agency which could help both the producers and the societies on one hand and the Government on the other in co-ordinating their working on sound basis. It is, therefore, proposed to organise four federations at these towns which would act as a liaison agency between Government and Co-operatives and which would also represent the cause of and safe-guard of co-operative milk producing societies and ultimately of milk producers in general. These federations would also tender necessary advice to the milk producers societies in improving the quality of milk and regular supply of the same to Government.

The Federation will have to employ a Manager, and a Milk Tester on Rs. 200 and Rs. 150 per mensem respectively and it is proposed that Government may bear cost on their account for the first three years on 100 per cent., 50 per cent. and 50 per cent. basis. It is estimated that one Federation would require a subsidy of Rs. 10,000 in aggregate during the three years.

III. *Feeder Societies to Federations.*—It is expected that to every Federation, 10 Producers' Societies would be affiliated. If the number of existing societies round about the area of these Federations is less, new societies will be organised in the course of period of five years and towards the close of the Plan, forty societies would be functioning as constituents of the four Federations. These societies would help production of more milk by adopting proper breeding and feeding of the cattle, by granting them loans for purchase of animals and for purchase of cattle feed. The societies would also help to produce milk under hygienic conditions and would prevent mal-practices of adulterations. Milk producers and sympathisers (with certain limitations) will be the members of the society which would help them to sell this milk to Government at reasonable rate.

Every feeder society may have to be given financial assistance from Government as mentioned below :—

	Loan.	Subsidy.	Total.
	Rs.	Rs.	Rs.
1. Milch animals	5,000	.....	5,000
2. Fat Testing Machine	500	.....	500
3. Milk bulking tank	600	.....	600
4. Subsidy towards cost of management for 3 years at Rs. 1,200, Rs. 600, Rs. 600 per Union ...	.....	2,400	2,400
	6,100	2,400	8,500

It will be noticed from the above statement that about forty societies will be affiliated to the Federations and each of them would require a loan of Rs. 6,100 and a subsidy (recurring and non-recurring of Rs. 2,400 in aggregate.

IV. *Milk Unions.*—In other towns where Federations and Government Milk Scheme are not operating, steps will be taken to establish Co-operative Milk Unions under the Scheme. In all 8 such Unions would come into existence before the close of the Plan. The main objects of the Unions are to make arrangements for disposal of milk and milk products of its members and member societies, to purchase and distribute cattle-feed, etc., to its members, to encourage cultivation of fodder crops, to render veterinary services for the cattle and thus to improve the quality of milk supplied to the consumers in the towns.

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

Each of these Unions will also be served by at least five societies and every union is expected to handle at least 4,000 lbs. of milk per day. Each of the Unions would require loans and subsidies from Government as mentioned below :—

	Loans. Rs.	Subsidy. Rs.	Total. Rs.
1. Cans 50 of 60 lbs. each at Rs. 50 100 of 100 lbs. each at Rs. 100	3,375	1,125	4,500
2. Boiling and Testing machine, etc. ...	1,500	500	2,000
3. Milk Van	8,250	2,750	11,000
4. Working Capital	10,000	.....	10,000
5. Cost of Dairy Inspector	.....	3,000	3,000
6. Cost of managers	.....	3,600	3,600
Total ...	23,125	10,975	34,100

V. *Feeder Societies to the Milk Unions.*—As already mentioned above, the Union will be affiliated by at least 5 milk producer's societies and in all 40 feeder societies would come within the purview of the scheme and would be affiliated to the Milk Unions. This type of society would help the cultivator to produce more milk by providing proper breeding methods as also feeding to his cattle. Loans would also be granted to members for purchase of animals and cattle-feed. The society would also help the members to produce milk under hygienic conditions and would prevent mal-practices of adulteration. The members are required to sell their produce to the society which would see that the produce is sold at reasonable rate. Each of these 40 milk producers' societies would require following loans and subsidies (recurring and non-recurring) from Government, as follows :—

	Loans. Rs.	Subsidy. Rs.	Total. Rs.
1. Fat testing machine	500	....	500
2. Cost of management for 3 years at Rs. 1,200, Rs. 600 and Rs. 600 per mensem	....	2,400	2,400
	500	2,400	2,900

VI. *Cost of the Scheme.*—Following is the statistical information regarding the cost of the Scheme to Government as also the physical target to be reached during the period of Second Five-Year Plan. The total cost of the scheme for the first year would amount to Rs. 80,000 as detailed below :—

Particulars with Target.	1956–57.	1957–58.	1958–59.	1959–60.	1960–61.	Total.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Subsidy.						
(a) Recurring	20,000	46,000	46,000	71,000	13,000	2,14,000
(b) Non-recurring	4,000	9,000	9,000	9,000	4,000	35,000
Loan	56,000	1,12,000	1,12,000	1,12,000	56,000	4,48,000
	80,000	1,67,000	1,85,000	1,92,000	73,000	6,97,000
Physical Target (Organisation).						
(a) Federations	1	1	1	1	.....	4
(b) Feeder societies under Federation ...	5	10	10	10	5	40
(c) Milk Unions	1	2	2	2	1	8
(d) Feeder societies under Unions ...	5	10	10	10	5	40

Out of the provision of Rs. 80,000 required to be made in the 1956-57 budget, a provision of Rs. 24,000 is proposed to be made herein and the provision of Rs. 56,000 is being made under "R-Loans and Advances" separately.

42, *CO-OPERATION*—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 230. Organisation of Processing Societies.

Recurrent	.. Rs.	20,000	Non-recurrent	.. Rs.	*Nil.*
Total	.. „	20,000	Ultimate annual recurrent	.. „	

Remarks.—In this State, agricultural commodities that have so far been processed on co-operative basis to some extent are cotton and oil seeds. In accordance with the recommendations of the All India Rural Credit Survey Committee, it is proposed to extend the scope of co-operative processing to a number of other commodities viz., paddy, groundnut, chillies and isabgul. It is proposed to organise more ginning and pressing societies, paddy husking societies, isabgul societies, spinning mills and groundnut processing societies. It is also proposed to establish cold-storage plants and small size canning factories. For organising this, financial assistance to such societies in the following manner will have to be given :—

(1) Participation in share capital to the extent of 50 per cent.

(2) Grant of loans and subsidies towards capital cost.

(3) Subsidies towards management cost at Rs. 3,000 per year per society.

As the organisation of such societies will involve purchase of machinery, spare parts and installation of plants, it is proposed to create a post of Mechanical Engineer in Class II with one clerk and one peon in the Co-operative Department in the scales mentioned below :—

Mechanical Engineer—Rs. 220—650.

Junior Clerk—Rs. 46—130.

Peon—Rs. 30—35.

Expenditure on account of the staff for 1956-57 is expected to be Rs. 9,000 as follows :—

	Rs.
Pay of Officer	3,000
Pay of Establishment	1,122
Allowances	2,878
Contingencies	2,000
Total ...	9,000

During 1956-57 it is proposed to organise two ginning societies. This will involve following expenditure :—

	Rs.
"*42, Co-operation*"—	
Subsidy for management	11,000
"*72, Capital Outlay*"—	
Participation in share-capital	4,00,000

A provision of Rs. 20,000 is therefore, being made under "42, Co-operation" so as to meet expenditure on additional staff and subsidy.

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 231. Fruit and vegetable preservation through Co-operatives.

Recurrent	... Rs.	1,000	Non-recurrent	... Rs.	5,000
Total	... ,,	6,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—In accordance with the recommendations of the All India Rural Credit Survey Committee, it is proposed to extend the scope of co-operative processing. The scheme envisages organisation of fruits processing factories and establishment of cold storages on co-operative basis. The cost of each co-operative processing factory is estimated at Rs. 10,000 while the cost of a cold storage plant is estimated at Rs. 5 lakhs. 10 small scale processing factories are proposed to be started in the fruit growing districts in this State and two cold storage plants are proposed to be started during 2nd Five Year Plan period. It is proposed to meet the capital cost by financial asistance from Government. In the case of canning factories 25 per cent. of the capital cost should be in the form of subsidy and 75 per cent. in the form of long term loans. In the case of cold storage plants 75 per cent. of the capital cost is to be met from Government assistance in the form of long term loans. During 1956-57, it is proposed to start two small canning factories. Total expenditure involved is Rs. 21,000, out of which Rs. 15,000 will be in the form of loan. Rs. 5,000 as subsidy towards capital cost and Rs. 1,000 as subsidy towards management in the initial stages. A provison of Rs. 6,000 is accordingly proposed.

Details of the Scheme.

	Work to be done expressed in suitable units.	Loans from Government towards the capital cost.	Subsidy towards capital cost.	Subsidy towards management cost.	Total cost to Government in the year 1956-57.
		Rs.	Rs.	Rs.	Rs.
Preservation of Fruits and Vegetables.	2 small fruit canning plants	15,000	5,000	1,000	21,000

ITEM 232. Low Income Group Housing Scheme of Government of India.

Recurrent	... Rs.	7,000	Non-recurrent	... Rs.	*Nil.*
Total	... ,,	7,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—During the post-war period there was an acute shortage of housing accommodation especially in bigger cities and there was a great demand for formation of housing societies. As a result, there was a great rise in the number of housing societies in the State. Many of these housing societies could not, however, make any headway for want of adequate finance for their building operations. Government tried various measures to help these societies and introduced various schemes. The facilities made available under the various schemes of Government could not, however, meet the needs of all these societies. All the schemes were meant for particular class or classes or towns and the middle class housing societies could not get the needed finance. A Central Housing Finance Society, viz. the Bombay Co-operative Finance Society was registered in 1952, for meeting the needs of such societies. Still the difficulties of such societies already organised and/or proposed to be organised did not disappear. In such circumstances and as the housing problem of the lower middle class people had remained unsolved throughout the country, Government of India as per the recommendations of the Planning Commission, announced the Low Income Group Housing Scheme. Under this scheme, loans are made available by the Central Government to the State Government at 4½ per cent. rate of interest, to the extent of 80 per cent. of the estimates of construction costs on behalf of persons having income not exceeding Rs. 6,000 per year and on the basis of Rs. 8,000 or less per individual. This loan can be utilised by the State Government for construction of quarters for its employees and for advancing loans to local bodies, co-operative housing societies and individual persons, for construction of houses, with ½ per cent. addition to the rate of interest.

So far as Bombay State is concerned the Scheme has been accepted in a slightly modified form so far as Co-operative Housing Societies are concerned, the salient features of the same are as under :—

(1) Government of India will make available funds at 4½ per cent. rate of interest, to the State Government for financing housing societies of this class, under this scheme.

(2) The rate of interest under this scheme, on loans advanced to such housing societies will be from 5 to 5½ per cent. per annum, being dependent on the period of the loans (being 10, 20 and 30 years).

(3) Loans will be made available to such Housing Societies, only for and on behalf of such of its members whose incomes do not exceed Rs. 6,000 per annum, each.

(4) The loan assistance will be limited to 70 per cent. of the estimated costs of houses inclusive of lands, subject to : any of the following maximum limits, as may be applicable to the income group to which the applicant belongs, viz. :—

Income.	Maximum limits.
	Rs.
Up to Rs. 2,400	5,000
,, 2,401 to 3,600	6,000
,, 3,601 to 4,800	7,000
,, 4,801 to 6,000	8,000

In the case of lease of lands, the loan admissible will be related only to the estimated price of the house.

(5) The remaining 30 per cent. or more of the construction cost is to be collected by the Societies themselves, by way of share capital and members' deposits.

(6) Loans will be available under this scheme only to persons, who do not already own houses.

(7) The accommodation provided per house, under this scheme should not be less than 380 sq. feet and should not normally be more than 1,200 sq. feet of the floor area.

(8) The houses will have to be at least 2 roomed houses, and costly structures are discouraged.

(9) The housing projects undertaken by the societies under this Scheme should not have densities higher than the following :—

1. Single storeyed development houses per net acre ... 20–25
2. Double storeyed development houses per net acre ... 30–35
3. Three storeyed development houses per net acre ... 40–45
4. Four or more storeyed developments houses per net acre ... 50–60

(10) Collector's certificate is to be obtained regarding the title to the land, Consulting Surveyor's certificate regarding valuation of the land, lay-out plan is to be approved by the Consulting Surveyor or any other officer appointed for the purpose, and Housing Board's certificates are to be obtained with regard to specifications, type designs and plans and estimates and progress reports, etc. The Assistant Registrars will be co-ordinating authorities for obtaining certificates from different Departments and will forward the loan applications in the prescribed forms, along with requisite details, to Registrar or to Government through the Registrar as the case may be.

(11) Loans are repayable in 10 to 30 annual instalments. While giving loans, societies with developed lands will be given preference over others.

(12) As a security, the societies should execute mortgage-deeds in the form prescribed, mortgaging the lands and buildings to be constructed. If any additional security is available, it should be given as collateral security.

For the year 1955–56, an initial budget provision of Rs. 25 lakhs for grant of loans under this scheme, has been sanctioned, and it is expected that it will suffice for 20 housing societies of 20 members each of this category. Looking to the Housing problem of the lower middle class persons, which is too vast the provision now made is quite negligible. This provision will not be adequate to meet the needs of even the existing housing societies of this category, whereas many new housing societies of this class are coming into existence. It is, therefore, proposed to continue the scheme under the Second Five-Year Plan and to organise and/or finance about 116 societies of 20 members each during the plan period. These societies together will put up 2,320 houses during the Plan period, and by the end of Second Five-Year Plan, there will be 2,720 houses constructed under this scheme including those houses likely to be constructed during 1955–56. The physical target proposed under this scheme and the loan provision required during the five years of the Plan, is indicated below :—

	I	II	III	IV	V	Total.
Physical target	39	39	38	....	....	116
Loan provision	30 Lakhs.	30 Lakhs.	30 Lakhs.	30 Lakhs.	25 Lakhs.	145 Lakhs.

It is also necessary to sanction one post of District Co-operative Officer in the grade of Rs.150—10—200 on the executive side for speedy execution of the scheme. Since the District Co-operative Officer would be touring the districts, it is absolutely necessary to sanction one post of Junior Clerk in the grade of Rs. 55—3—85 and one post of attendants at Rs. 45 p.m. to work under them.

Accordingly a total provision of Rs. 7,000 is proposed on account of the above staff for next year as detailed below.

	Rs.
I. *Pay of Establishment*—	
(a) 1 District Co-operative Officer in the grade of Rs. 150—10—200 at Rs. 160 per mensem	1,920
(b) One Junior Clerk in the grade of Rs. 55—3—85 at Rs. 61 p. m. ...	768
(c) 1 attendants at Rs. 45 per mensem for the District Co-operative Officer ...	540
Total, Pay of Establishment ...	3,228
II. *Allowances and Honoraria*—	
D. A., H. R. A., Compensatory allowance, etc.	1,552
Travelling allowance	1,000
III *Contingencies and Dead-stock*—	
(a) Dead-stock	800
(b) Contingencies	4,000
Grand Total ...	7,000

ITEM 233. Marketing Survey and Research.

Recurrent ...	... Rs.	11,000	Non-recurrent ...	... Rs.	1,000
Total ...	... ,,	12,000	Ultimate annual recurrent ...	,,	.....

Remarks.—The scheme for marketing survey of different agricultural commodities has been in vogue in this State since 1935. Surveys of various commodities like cereals, pulses, oilseeds, fruits, vegetables, spices, etc. have been undertaken and so far 32 reports of different commodities have been published by the Government of India. Reports on other commodities are proposed to be written during the Second Five Year Plan period.

Though the work has been in progress since 1935, adequate staff is not provided for the purpose and only one Class II Officer is looking after this heavy work which will increase due to expanded activities. It is proposed to raise the status of this Officer from Class II to Class I and give him adequate staff for compilation of statistics and drafting of reports. The cost on account of upgrading this post and appointment of additional staff is estimated at Rs. 1 lakh during the Second Plan period. During 1956-57 it is expected to be Rs. 12,000 as the additional staff is expected to be appointed in September 1956.

The following statement shows the details of the provision required—

Designation of the Post.	No. of Posts.	Grade.	Cost for 6 months.
		Rs.	Rs.
Pay of Officers.			
Marketing Research Officer at Rs. 410 per month	1	410—1,100	2,460
Pay of establishment.			
Office Superintendent at Rs. 200 per month	1	200—300	1,200
Senior Clerks at Rs. 100 per month	2	100—150	1,200
Junior clerks at Rs. 64 per month	2	46—130	660
Peons	3	30—35	540
		Total ..	3,600
Dearness, House Rent and Travelling Allowances		.. ..	4,400
Dead Stock articles		.. ..	1,000
			11,460
		or Rs. ...	12,000

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 234. Reorganisation of Administrative Organisation for the implementation of Bombay Moneylenders Act, 1946.

Recurrent	... Rs. 1,31,000	Non-recurrent	... Rs. *Nil.*
Total	... ,, 1,31,000	Ultimate annual recurrent	... ,,

Remarks.—The All India Rural Credit Survey Report, while pointing out the significance of the moneylender in rural credit and his place in the socio-economic picture of the village, considers it inadvisable to fit him in the integrated scheme of institutional credit. The Committee has, however, emphasised the necessity for making arrangements for more effective administration of the Act in future, so that the moneylenders, though not finding a place in the scheme of integrated credit, will in their individual degrees, supplement the integrated scheme of Rural credit.

2. At present, the responsibility for the general administration of the Act devolves on the Registrar of Co-operative Societies, who has been appointed Registrar General of Moneylenders under the Act. To facilitate administration in the districts, except in certain areas, like Bombay, Poona, Ahmedabad, Kolhapur and Hubli, where special staff of Registrars and/or of Assistant Registrars of Moneylenders has been appointed, Personal Assistants to the Collectors and Mamlatdars and Mahalkaries work as Registrars and Assistant Registrars of Moneylenders for their respective districts and talukas. Past experience has shown that the Revenue Officers in view of their pre-occupation with their normal work, are unable to devote adequate attention to the work relating to the administration of this Act. In view of this and taking into consideration the recommendations made by the Committee of Direction of the Reserve Bank of India, it is proposed to reorganise the administrative set up on the lines indicated below :—

(1) The Revenue Authorities, viz. Personal Assistants to the Collectors, who work as Registrar of Moneylenders and Mamlatdars and Mahalkaries, who work as Assistant Registrars of Moneylenders in districts where special staff has not been provided, would be relieved of the responsibilities relating to the Administration of the Act.

(2) In Districts where there are more than 500 moneylenders, full-time Assistant Registrars of Money-lenders are proposed to be appointed. Each Assistant Registrar would require assistance of an Inspector of Moneylenders in the grade of Rs. 150—10—200 to assist him in the work relating to summary enquiries into applications for grant and renewal of licences, in addition to office staff consisting of clerks and peons.

(3) In other districts, where the work is comparatively less, the Assistant Registrars of Co-operative Societies may be appointed as Assistant Registrars of Moneylenders. The Assistant Registrars may be provided with the assistance of a clerk in his office and an Inspector of Moneylenders for out-door work.

(4) For performance of duties of the Registrar of Moneylenders, the cadre of Registrars would require to be reinforced by creation of 5 more posts increasing the strength of the cadre to 8. The Divisional Deputy Registrars of Co-operative Societies may also be appointed Registrars of Moneylenders and placed in charge of one or two districts.

In view of the fact that the Revenue authorities are proposed to be divested of the responsibilities relating to the Administration of the Act, it should be possible for the Collectors to surrender as many as 26 posts of Awal Karkuns, 123 posts of clerks and 23 posts of peons which are now borne on the Revenue establishment. On the other hand, as against this retrenchment, the staff requirements in the Moneylending Sections under the revised set up would be as under :—

(1) Five Additional posts of Registrars of Moneylenders in the grade of Rs. 350-30-650 with Head-quarters at Ahmedabad, Mehsana and Baroda, Belgaum and Nasik.

(2) Five posts of Assistant Registrars of Moneylenders one each for Baroda, Kaira, East Khandesh, Sholapur Districts and an additional post of Assistant Registrar for Kolhapur. The post of Assistant to the Registrar of Moneylenders at Mehsana, in the grade of Rs. 200—10—300 will also have to be up-graded to the grade of Assistant Registrar of Moneylenders, thus increasing the strength of the cadre from 5 to 11.

(3) Thirty-one posts of Inspectors of Moneylenders in the grade of Rs. 150—10—200.

(4) Seven posts of Senior Clerks in the grade of Rs. 100—140 for the offices of Registrars of Moneylenders.

(5) Seventy-four posts of Clerks in the offices of the Registrars and Assistant Registrars of Moneylenders and Deputy Registrars and Assistant Registrars of Co-operative Societies.

(6) Thirty-six posts of Peons and 31 posts of Attendents.

The cost on account of the staff requirements works out at Rs. 3,58,000 as against which the savings on account of the staff to be surrendered by the Collectors works out roughly at Rs. 2,27,000. The additional cost involved in this proposal works out at Rs. 1,31,000 during the first year (*vide* Statement attached).

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

3. Under the proposed reorganisation, it is expected that there will be a considerable increase in the volume of work to be handled at the head office. It is not possible at this stage to estimate the increase in work, but it is obvious that as the Revenue Department will be entirely relieved of the responsibilities relating to the administration of the Act and the above special staff of Registrars and Assistant Registrars of Moneylenders would be appointed in several districts,it should be possible to devote adequate attention to supervision over the financial dealings of Moneylenders and exercise greater vigilance over illicit trade, resulting in an all-round increase in the tempo of work.

4. Under the existing arrangements, except the offices of the Special Registrars and Assistant Registrars of Moneylenders, which are inspected by this office, money-lending sections in the offices of the Collectors are inspected by the Deputy Secretary to Government (Inspection), Revenue Department, along with his inspections of the Collector's office. As under the revised arrangements, the Revenue Department will be relieved of the work relating to the administration of the Act, the Deputy Secretary will also have to be relieved of this additional work. This would consequently increase the work with regard to the inspections to be attended to by the office of the Registrar General of Moneylenders, for which purpose, it would be necessary to provide additional staff. At present there is only one senior clerk in the grade of Rs 100-150 dealing with the administration of the Bombay Moneylenders Act. He is nominally attached to one of the branches in the office of the Registrar of Co-operative Societies, but the head of the branch does not assume any responsibility for disposal of work relating to the Money lenders Act, as he is mostly occupied with co-operative work. The present arrangement cannot be regarded as satisfactory. Even as things stand, there is an appreciable increase in work. For example the number of appeals during the year 1954-55 rose to 36 whereas the average for the previous year was about 15. With the steps proposed to be taken to reorganise the administrative machinery, it is necessary that we should not only take stock of the existing increase in work, but should also visualise the expected increase, which would be considerable. It is, therefore, essential that a separate branch consisting of one Head Clerk, one Senior Clerk and one Junior Clerk should be constituted in this office, so as to enable this office to cope up with the increase in work and take up regular inspections of the offices of Registrars and Assistant Registrars of Moneylenders. The post of a Senior Clerk already exists, so that it would be necessary to create only two additional posts, viz., one Head Clerk in the grade of Rs. 150—10—200 and a Junior Clerk in the grade of Rs. 46—130.

5. As regards the financial aspect of this scheme, it is separately proposed to amend the Act so as to provide for the levy of inspection fees on the Meneylenders. As a result of the amendment of the Act, it would be possible to meet the entire additional cost involved from this source of revenue.

A statement showing the anticipated savings on account of retrenchment of staff (Money-lenders) working under the Collectors of Districts under the re-organisation.

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 235. Scheme of Co-operative Fisheries Soci ties.

Recurrent	... Rs.	28,130	Non-recurrent	... Rs.	*Nil.*
Total	... ,,	28,130	Ultimate annual recurrent	... ,,	.....

Remarks.—Fishing Industry is mostly carried on in coastal districts of the state the fishermen as a class, are very poor, ignorant, illiterate and superstitutious and they are still carrying on their industry in their primitive manner. Attempts are already afoot, through the fisheries Department and others, for modernising this industry. Attempts have also been made to organise this industry on a Co-operative basis. Efforts so far made, however, have not proved sufficient. The Co-operative Societies organised so far have not been able to achieve their object for want of necessary finance, efficient management, etc. A more systematic and sound attempt is, therefore, proposed to be made to rehabilitate this class of people and to reorganise this industry on co-operative basis.

Organisation.—There are at present 80 fishermen societies in the State. Most of these societies are existing in the coastal districts. Most of these societies are not thriving well and the work of reorganisation and revitalisation of these societies and of increasing the membership and resources of these societies will, therefore, be the first item of work underthis scheme. More attention will be paid, under the scheme towards consolidation of existing societies and a modest target of 20 societies more, has only been proposed for period of Second Five Year Plan. At the end of Second Five Year Plan there would in all be about 100 Co-operative Fishermen's Societies or about 25 members each in the State of Bombay, which are proposed to be placed on sound and systematic basis.

Financial assistance.—It has been observed that Co-operative Fisheries Societies have not been able to show any tangible progress since they have not been able to secure services of good Managers. Fishermen are generally poor and illiterate and they can, therefore, neither attend to the work expected of a Manager, nor afford to employ services of persons well versed in accounts and managements. A proposal for grant of subsidies to the fisheries societies towards managerial cost was put up as a new item of expenditure for 1955-56 budget and Government has already issued orders to the effect that co-operative fisheries societies in the various districts of the State except Greater Bombay and Thana Districts should be held eligible for subsidy towards managerial cost at Rs. 500 for the first two years of their working and Rs. 250 for the third year. It is now proposed to continue these concessions sanctioned by Government to fishermen societies, during the period of the Second Five Year, throughout the State, subject to the following conditions :—

(1) This concession would be available to all the fisheries societies where at least 3/4 of the members are fishermen, irrespective of the fact that they are registered as Multipurpose Societies, Producer' Societies, etc.

(2) Subsidies would be made available only to such of the societies which are managed satisfactorily, which have appointed managers with the approval of the Registrar by such person as authorised by him in this behalf, and which have not been in a position to declare dividend of Rs. 3½ during the previous year.

(3) Some of the existing 80 fisheries societies will secure first year's subsidy during the year 1955-56, and will rank for subsidy only for 2 years during the plan period. The remaining societies will secure all their subsidies during the plan period.

It is necessary to sanction this subsidy to ensure proper management of these societies. In the case of important and bigger societies, of this type Departmental hands may be deputed, but in that case, it is proposed that the societies themselves should bear the balance of the cost on this account over and above the subsidy already provided in this respect as stated above, and that this should not entail additional cost to Government.

The cost on account of grant of subsidy will be as under for the five years of the Plan :

1st year.	2nd year.	3rd year.	4th year.	5th year.	Total.
Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
25,000	25,000	25,000	12,000	12,000	99,000

Thus a total provision of Rs. 99,000 will be required for the entire plan period, on this account of which a provision of Rs. 25,000 is proposed to be made in the 1956-57 budget.

In order to attend the work connected with the co-operative fisheries societies, it is proposed to create the posts of one senior clerk (Rs. 100—8—140) and one junior clerk (Rs. 46—130) in the Office of the Registrar of Co-operative Societies, Bombay State, Poona for a period of one year in the first instance. A total provision of Rs. 18,000 involved in the creation of these posts during a period of five years has been included in the Second Five Year Plan. Out of the aforesaid provision of Rs. 18,000 a provision of Rs. 3,130 is required to be made in the 1956-57 budget as per details given below :—

	Rs.
(1) *Pay of Establishment*—	
(*i*) One Senior Clerk in the grade of Rs. 100—8—140 at Rs. 100 per mensem. (Rs. 100×11=1,100)	1,804
(*ii*) One Junior Clerk in the grade of Rs. 46—130 at Rs. 64 per mensem. (Rs. 64×11=704)	

	Rs.
(2) *Allowances and Honoraria*—	1,320
(*i*) Dearness allowance to Senior Clerk and Junior Clerk at the rate of Rs. 45 per mensem each. (Rs. 45×2×11=990)	
(*ii*) House Rent and O. A. at the rate of Rs. 15 each, to Senior Clerk and Junior Clerk. (Rs. 15×2×11=330)	
Total ...	3,124
Rounding	6
	3,130

Necessary provisions for grant of short term and long term to the Co-operative Fisheries Societies are being made under the head 'P—Loans and Advances' separately.

ITEM 236. Additional audit staff for Co-operative Department.

Recurrent	... Rs.	2,05,300	Non-recurrent	...Rs.	15,000
Total	... ,,	2,20,300	Ultimate annual recurrent	... ,,	.....

Remarks.—During the Second Five-Year Plan it is proposed to achieve a very considerable extension of agricultural credit through co-operative institutions. There would also be State partnership at various levels and large funds of Government would be invested in the share capital of co-operative institutions. The responsibilities of the Co-operative Department in the matters of organisation guidance, audit, inspection, supervision, etc., will consequentially increase. A special responsibility will rest on the audit staff. The Committee of Direction has recommended that the existing audit staff of most of the States needs to be considerably strengthened and that this requirement should be given a high priority.

The present strength of the audit staff is as under :—

(1) Special Auditor (Class II)	14
(2) Auditors under Special Auditors	25
(3) District Auditors	78
(4) Sub-Auditors	160
(5) Sub-Auditors under Special Auditors	14

In the light of the recommendations of the Committee of Direction it is intended that the audit of primary societies should be taken at least twice a year and in the cases of bigger institutions like Central Banks and Marketing Societies at even more frequent intervals and in certain cases it may be concurrent. In view of the expected increase in the activities of co-operative institutions, the audit will involve greater work than at present. Greater attention will also be paid to rectification of defects revealed by audit. The following additional posts proposed to be created along with their usual compliment of ministerial and Class IV posts :—

Special Auditors	5
Auditors under Special Auditors and District Auditors	20
Sub-Auditors	40

In order to ensure the efficiency of audit staff, it is proposed to have test audit to the extent of 5 per cent. of the work done by the auditors including that by the Special Auditors. The following staff is sanctioned for test audit at present :—

Special Auditors	2
Auditors	3

One additional post of Special Auditor will be required at Head Quarters under the Chief Auditor to assist him in the work relating to control of audit staff, test audit, rectification of defects pointed out in audit etc. The number of additional posts of Special Auditors is, therefore, six.

The posts of Special Auditor are at present in Class II. With the increase in the work and responsibility of the audit staff, it is necessary to increase the status and prospects of officers in the audit section. It is also necessary that the officers entrusted with taking up of test audit of the work of Special Auditors should be of a higher status. It is, therefore, proposed that out of the twenty-two posts of Special Auditors (16 existing posts *plus* 6 proposed additional posts) seven may be in Class I service and fifteen in Class II. The former will be designated as Senior Special Auditors and latter as Junior Special Auditors.

A provision of Rs. 2,20,300 may, therefore, be made in the next year's budget estimates. This cost is provided for in the scheme for Extension of Agricultural Credit, included in the Second Five-Year Plan.

The details of the cost are indicated in the enclosed Statement.

The above staff is proposed to be created for a period of 7 months in the first instance with effect from the 1st August 1956. A Provision at Rs. 2,20,300 is accordingly proposed to be made in the next year's budget estimates for a period of 7 months. This cost is provided for for the staff in the scheme for extension of Agricultural credit, included in the Second Five-Year Plan.

The details of the cost are indicated in the below statement.

42, CO-OPERATION—contd.

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 237. Extension of Agricultural Credit : Subsidies to various types of Co-operative Institutions.

Recurrent	... Rs. 2,05,680	Non-recurrent	... Rs. *Nil.*
Total	... „ 2,05,680	Ultimate annual recurrent	... „ .....

Remarks.—The Second Five-Year Plan envisages extension of the co-operative movement to 75 per cent. of the cultivating population of the State by the end of the year 1960–61. The Co-operative organisation will have to cater to the needs for short term, medium term and long term finance of 1·20 crores of the population of the State. The agriculturists would receive their requirements of short and medium terms finance mainly through the Apex Bank, the Central Banks and primary societies. The various types of co-operative institutions would need assistance from Government to enable them to tide over the difficulties in the initial stages until their transactions are sufficiently developed so as to make them self-supporting. The following schemes are, therefore, proposed for extension of agricultural credit during the Second Five-Year Plan and costs on account of each of these items during 1956–57 are indicated below :

Subsidy to uneconomic branches of Central Financing Agencies.—The Central Financing Agencies including the Apex Banks, have already been receiving financial assistance for the uneconomic branches in the initial stages of working. Since it is proposed to cover every village in the state by Co-operative Movement by the end of the Plan, it would be necessary in the interest of expeditious distribution of finance for Central Financing Agencies to open many new branches. The Central Financing Agencies would, therefore, require greater amount of subsidies for meeting of losses incurred by branches. During the first year 1956–57, Rs. 43,280 will be required for granting subsidy to the Central Financing Agencies, including Bombay State Co-operative Bank for meeting the losses incurred in the uneconomic branches. This expenditure will increase progressively so that the total cost on account of this during 1960–61 would be Rs. 2·50 lakhs. The total expenditure during the period of five years would be Rs. 9·25 lakhs.

Newly opened Central Financing Agencies.—The Committee of Direction has recommended that ordinarily there should be one central bank in each district and that is also the policy of the Government. There is no Central Bank in 8 districts of the State, and finance is made available in these districts directly by the Bombay State Co-operative Bank Ltd. through its branches. It is, therefore, proposed to establish four new Central Banks in each of the following four districts to begin with (1) Ratnagiri, (2) West Khandesh, (3) Thana and (4) Ahmednagar. These new Central Financing Agencies are likely to incur losses during the initial years of their working, until their operations are stabilized. It is, therefore, proposed to give them subsidy for meeting the cost of management in the first three years of their working at the rate of Rs. 5,000 per year. During the first year of the Plan, 1956–57, two such Central Financing Agencies are proposed to be opened and they would require Rs. 5,000 as subsidy in the first year. One more Central Financing Agency would be opened in the 2nd year of the Plan and another one in the third year. The total expenditure on account of the subsidy to these four new Central Financing Agencies spread over the five years of the Plan would be Rs. 60,000 (sixty thousand). Total costs on this item for the year 1956–57 would be Rs. 5,000.

Primary Agricultural Credit Societies (including Multipurpose societies).—Primary agricultural societies (including Multipurpose Societies) are already being granted subsidies in the State to enable them to meet the cost of their secretaries in the initial years when they are likely to find it difficult to make both ends meet. The subsidy is granted to the extent of 2 1/2 per cent. of the working capital, subject to certain restrictions. This scale is not adequate and it will, therefore, have to be enhanced. Further as the co-operative movement is now to be extended to all the villages in the State the number of societies which will require such assistance will also increase to some extent. The total amount of subsidies that would be required during the entire period of the second Five-Year Plan would be Rs. 6·50 lakhs. The expenditure during the year 1956–57, would be Rs. 35,000.

Large Sized Multipurpose societies.—At present subsidies for a period of 3 years at the rate of Rs. 150 per year are being granted to the newly organised Multipurpose societies by way of encouraging the multipurpose idea. The Committee of Direction has laid great stress on the establishment of large sized Multipurpose societies for catering to the multifarious needs of the agriculturists in the villages. These societies would require the services of trained and efficient secretaries if they are to work successfully. The societies in the initial stages will not be able to offer adequate salaries to secretaries and would not be able to attract the managerial expenses. It is proposed to organise about 1,500 such large sized multipurpose societies in the State during the period of 5 years, and subsidise them. The expenditure for the first year i.e. 1956-57 is expected to be Rs. 35,000. This expenditure will increase progressively each year until in the year 1960-61, it will stand at Rs. 4·00 lakhs. The total expenditure on the scheme during the period of the Plan is expected to be Rs. 12·50 lakhs. The cost for the year 1956-57 will be Rs. 35,000.

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

In accordance with the recommendation of the Committee of Direction the Land Mortgage Bank will have to cater to the needs of the agriculturists for long term finance on a larger scale than hitherto. The Committee has also recommended that the State would have to provide staff to the Land Mortgage Bank for valuation of land and examination of scheme for land improvement. It is proposed to subsidise the cost of two Land Valuation Officers of the Apex Land Mortgage Bank during the period of the Five-Year Plan. A provision of Rs, 2,400 is necessary during 1956-57.

Land Mortgage Banks.—Difference between economic lending rate of the bank and the concessional rate laid down by Government in certain cases.

The State Government is at present granting subsidy to the Apex Land Mortgage Bank to enable it to grant loans for land development purposes namely sinking of wells, bunding, purchase of agricultural machinery at the same concessional rates at which Tagai is being granted by Government for these purposes. These subsidies are intended to cover the difference between the economic lending rate of the Apex Bank and the concessional rate at which the loans are to be granted. The Scheme has been sanctioned by Government on permanent basis. The amount of subsidy will, however, increase considerably in view of the enormous increase in the transactions of Land Mortgage Bank, it is necessary to make provisions for increased subsidy from year to year. The total amount proposed on this account for the period of 5 years of the plan is Rs. 7 lakhs. The expenditure over this item for the year 1956-57 will be Rs. 45,000.

Primary Societies of Scheduled Tribes.—It is proposed that Government should contribute towards the cost of salaries of secretaries of Agricultural Credit and Multipurpose societies in certain areas, which are largely inhabited by aboriginal tribes for whom special treatment is necessary. The subsidy will be to the extent of 2½ per cent. of the working capital subject to certain restrictions. The scheme aims at giving financial assistance by way of subsidies to agricultural credit societies for scheduled tribes and such societies of backward classes in Scheduled areas. It is proposed to have total provision of Rs. 0·50 lakhs for giving subsidies to such societies during the period of the Second Five-Year Plan at the rate of Rs. 10,000 per year. The expenditure on this account during 1956–57 will be Rs. 10,000. The Government of India will be requested to sanction 50 per cent. of this expenditure.

Multi-purpose societies for Scheduled Tribes.—The Scheme aims at giving financial assistance to Multi-purpose societies of Scheduled Tribes and Scheduled areas. These societies in view of the backwardness of their members and their multifarious operations need the services of good trained secretaries and Government may bear the full costs of such secretaries in the initial stages for 3 years at the rate of Rs. 900 per society. In addition Government will have to bear the entire costs on account of supervisors appointed for supervision work of these societies. Government also proposes to give subsidies to such societies, which incur losses up to a maximum of Rs. 250 per society. It is proposed that total assistance by way of subsidy to these societies for the five years of the Plan would be Rs. 1·35 lakhs. For the year 1956–57 it is proposed to have a provision for expenditure of Rs. 20,000 on this account. The Government of India will be requested to bear 50 per cent. of the expenditure.

Organisation of Multipurpose Societies of ex-Criminal tribes.—The Scheme aims at organisation of new multi purpose societies for the ex-Criminal tribes in the State. These societies would need financial assistance for first 3 years of their working to put them on sound footing. It is proposed to grant financial assistance to these societies to the extent of Rs. 50,000 to be spread over the five years of the Plan, at rate of Rs. 10,000 per year. The assistance is proposed to be given to the existing societies, as well as to the societies that will be formed during the Second Five-Year Plan. This assistance is considered necessary for multipurpose societies of this class as the people for whom the societies are proposed to be organised are very poor and backward and who need help for their rehabilitation. The expenditure on this item for the year 1956–57 would be Rs. 10,000. Government of India will be requested to bear the full expenditure in this regard.

The Summary of costs for the above items for the year 1956–57.

Subsidies—	Rs.
(*a*) Uneconomic branches of Central Banks and Apex Bank	43,280
(*b*) New Central Banks	5,000
(*c*) Primary Agricultural Societies including Multipurpose Societies ...	35,000
(*d*) Large sized Multipurpose societies	35,000
(*e*) Costs of Land Valuation Officers	2,400
(*f*) Land Mortgage Banks (Difference in economic and uneconomic rates) ...	45,000
(*g*) Primary societies of Scheduled tribes	10,000
(*h*) Multipurpose societies of Scheduled Tribes	20,000
(*i*) Multipurpose Societies of ex-Criminal Tribes	10,000

Recurrent	.. Rs. 6,00,000		Non-recurrent	.. Rs.	*Nil.*
Total	.. „ 6,00,000		Ultimate annual recurrent	.. „	

Remarks.—One of the recommendations made by the Rural Credit Survey Report is regarding the creation of the Agricultural Credit Relief and Guarantee Fund by the Central and State Governments to underwrite some of the risks that the Co-perative Credit institutions will be expected to take in expanding the credit supply as envisaged in the Report. The present outstandings on account of agricultural finance are about Rs. 12·50 crores. These outstandings will increase from year to year, owing to the expansion contemplated during the Plan. It is proposed to make an initial contribution of Rs. 6 lakhs to this fund in the first year of the Plan and a contribution of Rs. 5 lakhs in each of the subsequent four years. The Fund will thus accumulate to Rs. 30 lakhs by the end of the Second Five-Year Plan as against the short term finance of Rs. 35 crores and medium term finance of Rs. 7 crores expected to be reached at the end of the Plan period. A provision of Rs. 6 lakhs is proposed to be made for this item in the estimates for the year 1956-57 out of which a provision of Rs. 2 lakhs for guarantee is classified under "Charged Items of expenditure" with the provision of Rs. 4 lakhs for "Relief" is classified under the "voted item".

ITEM 239. Development of Co-operative Societies in scheduled and under-developed areas.

Recurrent	.. Rs. 49,000		Non-recurrent ..	.. Rs.	*Nil.*
Total	.. „ 49,000		Ultimate annual recurrent	.. „	

Remarks.—It is proposed to take up a special scheme for the development of co-operative societies in the scheduled and underdeveloped areas of the State. It has been recognised that "Co-operation" provides one of the most suitable means, for the amelioration of backward classes and this special scheme is one of the several measures proposed to be undertaken by Government for the uplift of the Backward classes. For the present, the following areas are proposed to be taken up for the intensive development of the Co-operative Movement, and it is proposed to concentrate on extension of Agricultural Credit and on development of Co-operative Marketing in these areas.

Areas selected for development.

Name of District.		Names of Talukas taken up for Co-operative Development.
1. Sabarkantha	...	1. Khedabrahma.
		2. Bhiloda.
		3. Vijaynagar.
		4. Meghraj.
2. Baroda	...	1. Chhota-Udepur.
		2. Naswadi.
3. Surat	...	1. Songad.
4. Thana	...	1. Jawahar.
5. Nasik	...	1. Surgana Mahal.
		2. Peint Mahal.
		3. Kalwan Taluka.
6. West Khandesh	...	1. Akrani Mahal.

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

In accordance with the recommendations contained in the Rural Credit Survey Report, a comprehensive Scheme for extension of Agricultural Credit, has been included in the Second Five-Year Plan. Under this general scheme, the agricultural credit and multipurpose societies already existing in these scheduled and under-developed areas proposed to be taken up for development, will be reorganised, and also new primary units on multipurpose lines will be organised. These societies will further be suitably assisted as provided under the general scheme. However, the circumstances obtaining in these scheduled and backward areas greatly differ fom those obtaining in the normal areas. These areas are sparcely populated and villages are scattered. Most of the inhabitants of these areas are very poor, illiterate and backward. The assistance provided under the general scheme of extension of agricultural credit is not therefore adequate for these areas, to achieve the desired stage of development. It is, therefore proposed under this special scheme to give some additional assistance to the primary units proposed to be organised in these areas.

Under the general scheme of "Extension of Agricultural Credit", each primary unit is proposed to be provided with subsidy towards cost of management to the extent of Rs. 600 per annum for 3 years. Under this Special Scheme, it is proposed to give an additional subsidy of Rs. 300 to the primary societies going to be organised in these areas as an additional inducement for their organisation, and also an additional prop-up to sustain as their incomes are likely to be less and cost of management a little more than in other areas.

The large-sized primary units of these areas are expected to have an optimum membership of 300 or so, as villages are scattered and populaton is sparce. On this basis, the 12 Talukas and Mahals taken up for intensive development, will require 247 primary societies by the end of Second Five-Year Plan. These 247 societies are proposed to be given additional assistance under this Special Scheme as indicated above, and the cost on that account for the period of Second Five-Year Plan will be Rs. 2,03,000.

These 12 Talukas are spread over 6 districts, and those 6 districts are proposed to be given one special Supervision Officer (Rs. 100—8—140) each, for intensive development, and special supervision over these areas, under this Scheme. This special supervision staff will be in addition to the normal staff of the Department, etc. provided for these areas. The cost on account of these 6 special supervisors and their 6 attendants will be Rs. 96,000 over the period of the Plan, as indicated in the Appendix A.

If the Co-operative Credit Movement is to succeed as envisaged, it is necessary to link up credit with marketing, and to develop co-operative marketing in these areas. At present there are 2 sale societies, one each in Chhota-Udepur and Naswadi Taluka. They will be suitably assisted and developed, under the general scheme included in the Second Five-Year Plan, for development of Co-operative Marketing, as envisaged in the Rural Credit Survey Report. Further there are major markets in Khedabrahma Taluka, and Vijayanagar Taluka and Co-operative Marketing Societies will be organised and developed in these talukas at one each, under the general scheme as referred to above. The remaining seven talukas now proposed for intensive development, are not provided with any Co-operative Marketing Organisations under the General Scheme. Under this intensive development Scheme, it is, therefore, proposed to provide co-operative marketing organisations for those remaining 7 talukas and mahals. As there are no major markets in these talukas and mahals it will not be feasible to organise independent cooperative marketing organisations in these areas. It is, therefore, proposed to establish branches of co-operative marketing organisations of the nearby talukas, in those seven talukas and mahals, at one each, and to provide them with necessary financial assistance for development. These branches of marketing societies, are proposed to be given subsidies for managerial cost for 3 years, at Rs. 1,000 per annum. These branches will also be provided with medium size godowns costing Rs. 20,000 each, for which Rs. 16,000 are proposed to be given as loan and Rs. 4,000 as subsidy. The assistance proposed for these branches of marketing organisations is on the lines of the assistance proposed for the Co-operative Marketing Societies, under the general Scheme of the Department for "Development of Co-operative Marketing". The cost of these 7 branches of marketing organisations will be Rs. 1,12,000 by way of loan and Rs. 44,000 by way of subsidy, for the period of the Plan. These branches are proposed to be established over the period of 5 years, as under:—

1st year.	2nd year.	3rd year.	4th year.	5th year.	Total.
...	2	2	1	2	7

After these branches are fully developed, they can be converted into independent co-operative marketing organisations, when found feasible.

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

The total cost of the Scheme for the five years of the Plan will thus be Rs. 4,55,000 as indicated below. It is expected to be entirely borne by the Centre.

	Particulars.	1st year.			2nd year.

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 240. Reorganisation of the Administrative set-up of the Co-operative Department.

Recurrent	... Rs. 2,19,260	Non-recurrent ...	... Rs. 4,440
Total	... ,, 2,23,700	Ultimate annual recurrent	... ,,

Remarks.—With the steps taken to implement the Integrated Scheme of Rural Credit and Marketing outlined in the All India Rural Credit Survey Report, it would also be necessary to take simultaneously, steps for re-organising the administrative set-up of the Department, so as to make it fully responsive to the needs of an expanding Department. The Committee of Direction appointed by the Reserve Bank of India in Chapter 38 of its Report has emphasised that for the effective implementation of the integrated scheme, the foremost need is adequate personnel and the adequacy required pertains to many things viz. number, training and above all the quality of responsiveness to the needs of what in effect is a new type of job to be done.

2. The intensive development of the movement coupled with the introduction of State partnership with various forms of co-operative activities will considerably increase the responsibilities of the Co-operative Department. Under the revised set up of the Department the District Co-operative Officers and Marketing Inspectors will continue to be principal assistants of the Assistant Registrars for their respective spheres of duties. As a result of an all-round increase in work visualised under the Second Five-Year Plan, it would be necessary to re-inforce the staff under the Assistant Registrars of Co-operative Societies, so as to make it adequate to the needs. It is accordingly proposed to create 20 posts of head-clerks in the grade of Rs. 150—10—200 and 30 posts of clerks in the grade of Rs. 46—130 to work in the offices of the Assistant Registrars. In certain districts, where the work is expected to be heavier than in other Districts, it would be necessary also to provide the Assistant Registrars of Co-operative Societies with Head-quarters assistants in the grade of District Co-operative Officers. With due regard to the heavy work obtaining in a number of districts, it is proposed to create 8 posts of District Co-operative Officers in the grade of Rs. 200—10—300 and 8 posts of District Co-operative Officers in the grade of Rs. 150—10—200. Each District Co-operative Officer will be provided with an attendant. It is also proposed to strengthen the cadre of Marketing Inspectors by creating 8 more posts of Marketing Inspectors in the grade of Rs. 150—10—200 so as to provide one such Inspector under each Assistant Registrar. The services of one clerk and one attendant will be made available to each Marketing Inspector for which 8 posts of clerks (Rs. 46—130) and 8 posts of Attendants are proposed to be created. The posts referred to above are proposed to be created for a period of one year in the first intance. The posts will be allotted to the districts which are heavy in work. Out of the total provision of Rs. 15,04,000 which has been admitted in the Second Five-Year Plan for reorganisition of the administrative set up of the Co-operative Department, a provision of Rs. 2,23,700 is proposed to be made in the 1956-57 budget as per details given below:—

	Cost for 11 months.
	Rs.
(2) *Pay of Establishment*	1,11,870

(*i*) 20 Head Clerks in the grade of Rs. 150—10—200 at Rs. 150 per mensem. (Rs. 150 × 20 × 11=33,000).

(*ii*) 8 District Co-operative Officers in the grade of Rs. 200—10—300 at Rs. 200 per mensem. (Rs. 200 × 8 × 11=17,600).

(*iii*) 8 District Co-operative Officers in the grade of Rs. 150—10—200 at Rs. 150 per mensem. (Rs. 150 × 8 × 11=13,200).

(*iv*) 8 Marketing Inspectors in the grade of Rs. 150—10—200. (Rs. 150× 8 × 11=13,200).

(*v*) 38 Clerks in the grade of Rs. 46—130 at Rs. 55 per mensem. (Rs. 55 × 38 × 11=22,990).

(*vi*) 24 attendants on Rs. 45 per mensem (Rs. 45 × 24 × 11 =11,880).

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

	Rs.	Cost for 11 months. Rs.
(3) *Allowances and Honoraria*	....	82,390-
(*a*) *Travelling allowance*	36,960	
(*i*) Travelling allowance to District Co-operative Officers first grade at Rs. 100 per mensem. (Rs. 100 × 8 × 11 =8,800).		
(*ii*) Travelling allowance to District Co-operative Officers second grade at Rs. 70 per mensem (Rs. 70 × 8 × 11 =6,160).		
(*iii*) Marketing Inspectors at Rs. 40 per mensem (Rs. 40 × 8 × 11=3,520).		
(*iv*) 24 clerks at Rs. 40 per mensem (Rs. 40 × 24 × 11 =10,560).		
(*v*) Attendants at Rs. 30 per mensem (Rs. 30 × 24 × 11 =7,920).		
(*b*) *Dearness allowance*	45,430	
(*ii*) 20 Head-Clerks at Rs. 55 per mensem (Rs. 55 × 20 × 11 =12,100).		
(*iii*) 8 District Co-operative Officers first grade at Rs. 55 per mensem. (Rs. 55 × 8 × 11=4,840).		
(*iv*) 8 District Co-operative Officers second grade at Rs. 55 per mensem. (Rs. 55 × 8 × 11=4,840).		
(*v*) 8 Marketing Inspectors at Rs. 55 per mensem (Rs. 55 × 8 × 11=4,840).		
(*vi*) 38 Clerks at Rs. 45 per mensem (Rs. 45 × 38 × 11 =18,810).		
(4) *Contingencies*		29,440-
(*i*) Rent, taxes, stationery, postage etc.	25,000	
(*ii*) Dead stock articles	4,440	

Summary—

(1) Pay of Establishment	1,11,870-
(2) Allowances and Honoraria	82,390-
(3) Contingencies	29,440-
	2,23,700-

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 241. Scheme for Co-operative Training, Education and Propaganda.

Recurrent ..	.. Rs. 7,77,360	Non-recurrent ..	.. Rs. 13,500
Total ..	.. ,, 7,90,860	Ultimate annual recurrent	.. ,,

Remarks.—The Committee of Direction of the Reserve Bank of India has laid special stress on the importance of Co-operative Training, Education and Propaganda. It has pointed out that the success of the integrated scheme of Rural Credit, Marketing, Processing would depend greatly on the right type of personnel to man the institutions with the right type of training given to them. The Estimates Committee for the year 1955–56 has pointed out that at least the secretaries of all co-operative societies should be got trained adequately in as short a period as possible and thus remove one of the main causes for the inefficient working of the societies.

2. The Government of India in conjunction with the State Government accepted responsibility for the training of the subordinate personnel of the Department and of the co-operative societies. In order to evolve an efficient and adequate teaching unit, the Central Committee for Co-operative training, brought out a scheme for reorganisation and expansion of the existing 3 Regional Co-operative Schools by strengthening the staff and by providing freeships, stipends, Travelling Allowance, library and literature.

3. It is in such background that a scheme for co-operative training, education and propaganda envolving a total expenditure of Rs. 39,00,000, as per details given below has been included in the Second Five Year Plan.

Particulars.	1st Year.	2nd Year.	3rd Year.	4th Year.	5th Year.	Total.

Grand Total ...	7,90,860	7,77,360	7,77,360	7,77,360	7,77,060	39,00,000

4. There is already a Co-operative Training College at Poona which conducts short-term courses of 6 months for senior personnel and long-term course of one year for Intermediate personnel. The College will ontinue to function in the present form during the Second Five Year Plan period as well. It is

however proposed to depute greater Number of the Departmental personnel for training at the College in both the courses so as to cover almost entire personnel of the co-operative department and persons holding key posts in co-operative institutions by the end of the Second Five Year Plan so as to meet the needs of the Expanded Movement.

5. As for the training of the subordinate personnel both of the Department and of Co-operative institutions it is intended to increase the number of Regional Schools from 3 to 5 and to conduct two classes of 40 each simultaneously in every session of 6 months. The categories of the trainees would be as follows :—

(1) Secretaries of the Societies.

(2) Supervisors,

(3) Bank Inspectors,

(4) Clerks,

(5) Managers of societies, and

(6) Sub-Auditors, Assistant District Co-operative Officers.

6. It is proposed to depute 15 District Co-operative Officers Marketing Inspectors, etc. in the I grade of Rs. 200-10-300, fifteen District Co-operative Officers, Auditors, etc. in the second grade of Rs. 150-10-200 and 49 Sub-Auditors and Assistant District Co-operative Officers etc. in the grade of Rs 100-8-140-10-150 for training during 1956-57 and the cost involved in the appointment of substitutes in their places during that year would go in the neighbourhood of Rs. 2,33,800. The Bombay Provincial Co-operative Institute will have to incur expenditure on the Co-operative Training College to the extent of Rs. 20,000 and on 5 schools to the extent of Rs. 3,36,460 in order to inpart training to the subordinate personnel of the Co-operative Department and the Co-operative Institutions according to the directives of the Central Committee for Co-operative Training appointed by the Government of India. A subsidy of Rs. 3,56,460 will accordingly have to be granted to the Institute for the purpose during the year 1956-57.—

7. Secondly it is intended to impart training, in the nature of a Refreshers' Course to the Secretaries of the rural co-operative societies, the managing committee members and others of such societies. It is also intended to train the secretaries and managing committee members of the Agricultural Produce Market Committee established under the Bombay Agricultural Producers Market Act, 1939. This will be done at the district level. There are at present 28 Co-operative Training Inspectors under the District Co-operative Boards in the 27 districts of the State. The Scheme is administered through the Bombay Provincial Co-operative Institute. The Training Inspectors hold the secretaries Training Class of the duration of 5 to 6 weeks and refreshers' Classes for Managing Committee and other members for a session of 2-3 days. To provide for a more comprehensive training and to extend the period of secretaries training classes from 6 to 8 weeks, it is proposed to organise greater number of classes at suitable centres. It will be necessary, therefore to employ 25 Training Inspectors in addition during the Second Five Year Plan period. Each Inspector will be provided with services of a peon. He will be in the grade of Rs. 100-8-140 with Dearness Allowance admissible under the Rules. The expenditure required to be incurred on this account comes to Rs. 89,500.

8. With a view to popularise the Co-operative Movement and to give encouragement to field workers it is also proposed as an integral part of the Second Five-Year Plan to institute prizes and award shields. Each district will have one shield which will be awarded to the society adjudged the best on the previous years working. The cost of each shield is estimated at Rs. 500 which would be a non-recurring expenditure. The total expenditure on shields during 1956-57 would thus come to Rs. 13,500 for 27 districts. It is also proposed to allot 3 prizes of Rs. 500, 3 prizes of Rs. 300 and 3 prizes of Rs. 200 for each district per year which would be awarded to the societies adjudged the best and the amount will be utilised by the societies concerned for the general welfare of their members or other persons in the area of operations of the societies, such as purchase of Radio Set, etc. The total expenditure on this account is estimated at Rs. 85,000 per year. In addition, for the successful implementation of the sheme of propaganda and education, the personnel of the Head Office of the Bombay Provincial Co-operative Institute (through whom the scheme will be administered) is also proposed to be strengthened by up-grading the post of the Executive Officer in view of higher and greater responsibilities and by increasing the staff. The additional cost on this account is estimated at Rs. 12,600 per year.

9. To sum up a total provision of Rs. 7,90,860 is required to be made in the 1956-57 budget for co-operative training, education and propaganda as per details given below which is equivalent to the expenditure of Rs. 7,90,860 allocated to the scheme for the first year of the Second Five Year Plan, as indicated in paragraph 3 above.

10. It is expected that the Government of India would bear about 50% of the expenditure required to be incurred by this Government for the scheme of the Co-operative training, education and propaganda which has been included in the Second Five Year Plan. The Government of India are being approached in the matter separately.

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 242. Co-operative Farming Scheme.

Recurrent	.. Rs. 1,91,100	Non recurrent	.. Rs. 90,000
Total	.. „ 2,81,100	Ultimate annual recurrent	.. „

Remarks.—The Scheme for the organisation of Co-operative Farming Societies has been in operation since it was sanctioned as Post-War Reconstruction Scheme No. 65 in 1949. The target envisaged in that Scheme was reached much earlier due to encouraging response from the agriculturists and the efforts made by the special staff sanctioned for the Scheme. The Scheme was later included in the 1st Five-Year Plan. No targets, however, were fixed and only such farming societies, which did not depend on Government financial assistance, were registered in accordance with the Government orders. Government also issued orders in regard to consolidation of the farming societies already registered rather than expansion. Lately, however, Government has been sanctioning schemes of Co-operative Farming involving financial assistance on an *ad hoc* basis.

Having regard to the possibilities of organising new farming societies on Government waste lands which under the existing orders are being granted to backward class landless persons and also having regard to the desirability of organising Joint Farming Societies on occupied lands to correct the defects of uneconomic peasant proprietorship, it is proposed to resume the scheme and to include it in the 2nd Five-Year Plan. It is proposed to organise in all 100 new societies during this period. One aspect of the scheme would be to endevour to settle the new grantees of Government waste land into farming Co-operatives, which would be assisted financially and technically. The other aspect of the Scheme would be to encourage by means of suitable assistance both financial and otherwise, the organisation of Co-operative Joint Farming Societies of persons whose holdings are small and who would benefit by increasing the unit of cultivation.

In the Second-Five Year Plan, it is proposed to have 100 new Co-operative Farming Societies, 50 Societies on Government waste land and 50 societies with private lands to suit different classes of cultivators and different conditions. During the period of Second-Five Year Plan, those Co-operative Farming Societies, which are already registered but which did not get any financial assistance, will be required to be considered for the purpose of financial aid during the period of Second Five-Year Plan. It is estimated that about 40 societies with Government land will need financial help during the period of Second Five-Year Plan. Thus in all 140 societies as under will come up for financial assistance during each year of the Five-Year Plan period :—

Societies.	Year.					Total.
	1st.	2nd.	3rd.	4th.	5th.	
1. With Government Land ...	40	25	15	10	.....	90
2. With Private Land	5	5	10	15	15	50
Total ...	45	30	25	25	15	140

Financial Assistance.

(A) *Land improvement*—

It is proposed to give financial assistance to farming societies for land improvement purposes on the following basis :—

1. Rs. 8,000 loan and Rs. 2,000 subsidy. } for each Society with Government land.
2. Rs. 2,000 subsidy for each Society with private land.

On this basis the following assistance will be required during the period of Five-Year Plan.

Loan ... ... Rs. 7·20 lakhs.
Subsidy ... ... Rs. 2·80 lakhs. Non-recurrent.

During the first year of the Plan the provision required is as under :—

	(Rupees in lakhs.)
A. Loan for 40 societies with Government land at Rs. 8,000 per Society	3·20
B. Subsidy—(1) for 40 societies with Government land	0·80
(2) for 5 societies with private land	0·10
	0·90

42. CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

Seed and Manure.

It is proposed to continue the subsidy to the farming societies with Government land only but at the rate of Rs. 1,500 only per Society. The total subsidy under this item, and the arrears of subsidy, which would be required to be given during the period of Five Year-Plan, in respect of the Societies, which are being financed under the existing scheme of Government, is estimated at Rs. 1·50.

During the first year of the First Five-Year Plan the provision is required as under :—

	(Rupees in lakhs).
Subsidy in respect of 40 societies at Rs. 500 for first year	·20
Arrears of subsidy	·08
	·28

D. *Managerial expenses.*

(*a*) *Training and deputation of Agricultural Officers—*

Most of the farming societies have been granted waste lands, and the members of many societies are backward and illiterate. The Manager of such societies are, therefore, required to plan out the agricultural operations in such a way, that the farming would be economical and showing profit and the financial assistance, if any, granted by Government by way of loan and/or subsidy is well utilised. Besides, it is also quite necessary to see that all records in regard to planning and executing of the Scheme of the Society and the utilisation of loan, subsidy, etc. are maintained up-to-date in order to see that there are reasonable prospects of recovering the loans and that the work progresses on right lines. Experience has shown that the Agricultural Assistants or the Managers appointed by the Societies are not equal to this task. In order to enable the Co-operative Farming Societies to carry on their activities efficiently, it is necessary to depute Agricultural Officers in the IInd Grade (Rs. 80—5—100—8—140—E.B.—10—200) from the Agricultural Department in place of Agricultural Assistants to work as Managers. However, before deputation to these officers, it is necessary that they should be given training, practical as well as theoretical lasting about six months. It is proposed to impart training to 50 Agricultural Officers during the five years of the Plan. (Ten Agricultural Officers in each year). The total cost on account of the training during five years is estimated at Rs. 55 (lakhs).

The cost on account of training of ten Agricultural Officers for a period of six months during the first year will be as under :—

	Rs.
1. Pay of establishment of 10 Agricultural Officers (Rs. 80—200) at Rs. 100 for six months (100×10×6)	6,000
2. Allowances and Honoraria—	
Dearness allowance at Rs. 45 per mensem (Rs. 45×10×6)	2,700
3. Stipend at Rs. 40 per mensem (40×10×6)	2,400
Total ...	11,100
	i.e. Rs. 11 (lakhs).

Ten trained officers will be available to work as Managers of the Co-operative Farming Societies during each year. It is proposed that a Farming Society should get services of the Agricultural Officers free of cost for a period of three years. On this basis the total cost on account of the establishment of these officers amounts to Rs. 3·07 lacs during 5 years.

During the first year the cost works out as under :—

	(Rupees in lakhs).
10 Agricultural Officers (Rs. 80—200)	
Pay and Dearness allowance at Rs. 160 per mensem	0·19

Subsidy towards managerial cost.

In case of the Societies, which will not get free services of Agricultural Officers, financial assistance will be required to be given by way of subsidy. It is proposed that such societies should get subsidy not exceeding Rs. 100 per month for a period of three years. The total cost in respect of 60 such societies during five years amounts to Rs. 2·16 lakhs. The arrears of subsidy, which will be required to be given during the period of Five-Year Plan, in respect of the Societies, which are being financed now are estimated at Rs. ·70 lakhs.

During the first years of the Plan, the provision on this account is required to be made as :—

	(Rupees in lakhs).
Subsidy towards managerial cost in respect of 45 societies. (100×12×45)	·54
Managerial cost arrears	·35

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

(F) *Training of members*—

Experience has shown that since the members of many societies are backward and illiterate, they do not possess the knowledge of Co-operative Farming Societies. It is necessary to give them training of working of Co-operative Farming Societies, in order to enable them to participate in the day-to-day working of the Society with keen interest. It is proposed to give training to the members of 80 societies during the five years. The approximate number of members to be trained would be 3,200. The cost of training is estimated at Rs. 10 per member. The total provision during the five years will be Rs. 32,000.

The provision for the first year will be required as under :—

	(Rupees in lakhs.)
In case of 16 societies at Rs. 10 per member—	
(16×40×10)	·064

(G) *Intensive Development*—

A number of farming societies of different types have been registered in the State of Bombay and it is intended to select within the period of the Plan and from among the societies both existing and three to be newly organised, about 25 societies for intensive development so that they can serve as a model for the other societies and agriculturists of surrounding localities. The programme is proposed to be phased and carried out gradually during the period of five years. The following steps would be taken to achieve the objectives of the Scheme :—

1. Providing efficient personnel for management.
2. Drawing up schemes of Development both short-term and long-term so as to make the best available use of the resources available on the co-operative farm and for providing maximum employment to members.
3. Provision of financial assistance, both short-term and long-term for such development, which may take the form of both loans and subsidies.
4. Keeping a regular supervision over the working of the societies selected for development.
5. Grant of assistance for development of subsidiary occupation like Dairy, Sheep-breeding Poultry, etc.
6. Associating reputed social workers with the working of these societies.

It is proposed to make available to these societies medium and long-term loan for the purposes such as purchase of live-stock, small implements, etc., and for development and improvement of land, construction of wells, bunding, levelling, installation of pumping sets, purchase of costly implements and accessories, wire-fencing, construction of cattle sheds and godowns, organisation of subsidiary industries, etc. It is proposed to make a lump sum provision of Rs. 20·55 lakhs during the period of Five-Year Plan out of which Rs. 4·11 lakhs has been provided during the first year.

(H) *Staff*—

The following additional staff is required for implementation of the above Scheme :—

		Rs.
10	Assistant District Co-operative Officers	100—8—140.
1	Senior Clerk	100—8—140.
2	Junior Clerks	46—3—85—130.
10	Attendants	45 per mensem.

The total cost on account of the establishment of the above staff during the five years works out at Rs. 2·05 lakhs, out of which Rs. 37,703 would be required during the first year of the Five-Year Plan as per details given below :—

	Rs.
(1) *Pay of establishment*—	20,218
(*i*) Ten Assistant District Co-operative Officers in grade of Rs. 100—8—140 at Rs. 116 per mensem. (Rs. 116×10×11=12,760).	
(*ii*) One Senior Clerk in the grade of Rs. 100—8—140 at Rs. 100 per mensem (Rs. 100×11=1,100).	
(*iii*) Two Junior Clerks in the grade of Rs. 46—3—85—E.B.—4—125—5—130 at Rs. 64 per mensem. (Rs. 64×2×11=1,408).	
(*iv*) Ten attendants at Rs. 45 per menem (45×10×11=4,950).	
(2) *Allowances and Honoraria*—	12,485
(*a*) Dearness allowance—	
(*i*) Ten Assistant District Co-operative Officers at the rate of Rs. 50 per mensem. (Rs. 50×10×11=5,500).	
(*ii*) One Senior Clerk at the rate of Rs. 45 per mensem (Rs. 45×11=495).	
(*iii*) Two Junior Clerks at the rate of Rs. 45 per mensem (Rs. 45×2×11=990).	
(*b*) Travelling allowance to the above staff at Rs. 500 per mensem approximately. (Rs. 500×11=5,500).	
(3) *Contingencies*	5,000
Total ...	37,703

42. CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

Summary.

	Rs.
Pay of Establishment	20,218
Allowances and Honoraria	12,485
Contingencies	5,000
Total ...	37,703

To sum up the provisions as indicated below are required in respect of the Co-operative Farming Scheme in the 1956–57 budget :—

Item of expenditure.	Provisions.
(1) Establishment charges	37,700 (round figure)
(2) Training of Agricultural Officers	11,000
(3) Subsidies for managerial expenses	1,08,000
(4) Subsidy for purchase of seeds and manure	28,000
(5) Expenditure for training of members	6,400
(6) Subsidy for improvement of lands	90,000
Total ...	2,81,100

The requisite provisions for Government contribution to the share capital of the Co-operative Farming Societies and grant of loans to such societies are being made under the budget heads "72—Capital Outlay" and "R—Loans and Advances" separately.

ITEM 243. Creation of posts for Co-operative Sugar Factories in the State of Bombay.

Recurrent	... Rs.	33,500	Non-recurrent	... Rs.	1,500
Total	... ,,	35,000	Ultimate annual recurrent	... ,,	

Remarks.—Organisation of Sugar Factories on co-operative basis has been a recent development in this State and represents a pioneer effort by the sugar cane growers in the field of processing of agricultural produce. One such factory known as Pravara Sahakari Sakhar Karkhana Ltd. was established in Ahmednagar District in the year 1948 and was followed by registration of two more, one at Kopargaon in the same district and the other at Phaltan in North Satara District. With the announcement of the Government of India to have more factories to augment production of sugar with the assistance to be made available by them in the form of loan, it was proposed to form more Co-operative Sugar Factories in the State. Accordingly the registration of the factories is taken up and at present there are 14 sugar factories which are registered on co-operative basis in the Bombay State. About 10 of the factories would receive contribution to their share capital of Rs. 10 lakhs each from the Government of India loan during 1955–56.

2. The pattern of raising the block capital required for these units has been proposed to be made by a loan of Rs. 45 lakhs by the Industrial Finance Corporation of India and Rs. 10 lakhs as share contribution by the State Government and the balance to be raised by contribution from the members of the factory. It is expected that during the Second Five-Year Plan, it will be in the first two years of the plan that assistance by way of share capital will have to be given to five more units. It is expected to organise 4 Co-operative Sugar Factories in the year 1956–57 and 1 in 1957–58.

3. In view of the organisation of Co-operative Sugar Factories in the State on a large scale and considerable stake of Government in their undertakings it is considered necessary to have adequate staff at different levels to ensure over-all control over these organisations. It is accordingly proposed to create the following staff for a period of one year in the first instance. :—

(1) Three District Co-operative Officers in the grade of Rs. 150—10—200.
(2) Three Assistant District Co-operative Officers in the grade of Rs. 100—8—140.
(3) Seven Attendants on a fixed pay of Rs. 45 per mensem.
(4) One Head Clerk in the grade of Rs. 150—10—200.
(5) One Senior Clerk in the grade of Rs. 100—8—140.
(6) Four Junior Clerks in the grade of Rs. 46—3—85 etc.

42. CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

4. A total provision of Rs. 2,07,000 has been admitted in the Second Five-Year Plan for creation of the aforesaid staff of which a provision of Rs. 35,000 is required to be made in the 1956-57 budget as per details given below :—

	Rs.
(I) *Pay of Establishment*	17,281
(*i*) Three District Co-operative Officers in the grade of Rs. 150—10—200 (Rs. 150×3×11=4,950).	
(*ii*) Three Assistant District Co-operative Officers in the grade of Rs. 100—8—140 (Rs. 100×3×11=3,300)	
(*iii*) Seven Attendants at Rs. 45 p.m. (Rs. 45×7×11=3,465).	
(*iv*) One Head Clerk in the grade of Rs. 150—10—200 (Rs. 150×11=1,650).	
(*v*) One Senior Clerk in the grade of Rs. 100—8—140 (Rs. 100×11=1,100).	
(*vi*) 4 Junior Clerks in the grade of Rs. 46—3—85, etc. at Rs. 64 p.m. (Rs. 64×4×11=2,816).	
(2) Allowances and Honoraria	12,210
(*a*) *Dearness Allowance* Rs. 6,160.	
(*i*) 3 District Co-operative Officers at the rate of Rs. 50 p.m. each (Rs. 50×3×11=1,650).	
(*ii*) 3 Assistant District Co-operative Officers at the rate of Rs. 45 per mensem each (Rs. 45×3×11=1,485).	
(*iii*) One Head Clerk at the rate of Rs. 50 p.m. (Rs. 50×11=550).	
(*iv*) One Senior Clerk at the rate of Rs. 45 p.m. (Rs. 45×11=495).	
(*v*) Four Junior Clerks at the rate of Rs. 45 p.m. (Rs. 45×4×11=1,980).	
(*b*) *Travelling Allowance*	3,850
(*i*) Travelling Allowance to District Co-operative Officers (Rs. 55×3×11=1,815).	
(*ii*) Travelling Allowance to Assistant District Co-operative Officers (Rs. 45×3×11=1,485).	
(*iii*) Travelling Allowance to two attendants (Rs. 25×2×11=550) ...	
(*c*) House Rent and other Allowances—Rs. 2,200	
(3) Contingencies	5,509
(*i*) Rent, postage, etc. Rs. 4,009	
(*ii*) Dead stock articles Rs. 1,500	
Total ...	35,000

Summary.

(1) *Pay of Establishment*	17,281
(2) *Allowances and Honoraria*	12,210
(3) *Contingencies*	5,509
Total ...	35,000

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 244. Additional staff for the Co-operative Lift Irrigation Schemes.

Recurrent	... Rs.	1,01,000	Non-recurrent	... Rs.	8,000
Total	... ,,	1,09,000	Ultimate Annual Recurrent	... ,,	

Remarks—The scheme of organisation of and financial assistance to co-operative societies undertaking schemes of lift irrigation was first sanctioned in June 1949 and has been continned ever since from year to year throughout the period of the First-FiveYear Plan. The basis of financial assistance originally laid down was as follows :—

(*i*) 50 per cent. of capital cost (excluding distributory items) as loan.

(*ii*) 50 per cent. of the capital cost as subsidy subject to the maximum of Rs. 150 per acre.

(*iii*) Additional loan not exceeding Rs. 15,000 towards cost of distributory items, and

(*iv*) Subsidies towards the cost of Secretaries-cum-Drivers at Rs. 900 for the first year and Rs. 450 each for the second and third year.

2. The basis of financial assistance was, however, altered by Government in September 1953 and at present Government Orders regarding financial assistance to Co-operative Lift Irrigation Schemes are as follows :—

(*i*) 1/3 of the capital cost to be given as loan ;

(*ii*) 1/3 of the capital cost to be given as subsidy ;

(*iii*) Subsidies towards the cost of Secretary-cum-Driver at the rate of Rs. 900 for the first year and Rs. 450 for each of the 2nd and 3rd years.

The societies are required to collect share capital from members to the extent of 1/3 of the capital cost of the schemes.

3. The reduced scales of financial assistance have made the implementation of the scheme difficult in two ways viz.—(1) the collection of 1/3 of the capital cost as initial share capital is itself very difficult in the present state of rural savings and (2) even if 1/3 of the cost were collected as share capital the whole of it would be consumed in capital expenses leaving nothing for working expenses on completion of the schemes. In order to help the societies concerned to meet the working cost of their schemes the question of granting them medium terms loans upto 30 per cent. of the capital cost is being considered by Government some time past. However, the collection of share capital equal to 1/3 of the capital cost has itself remained an insuperable difficulty and it is required to be removed if the scheme is to make further headway. To overcome these difficulties it is proposed to revise the grant of financial assistance to these societies as under :—

(1) The Co-operative Lift Irrigation Societies should be held eligible for :—

(*i*) 50 per cent. of the capital cost to be given as loan ;

(*ii*) 52 per cent. of the capital cost to be given as subsidy.

(2) The societies should be required to collect from the members by way of share capital an amount of not less than 25 per cent. of the capital cost of the scheme.

(3) 15 per cent. of the capital cost should be collected as share capital before registration and the remaining amount i.e. not less than 10 per cent. of the capital cost, should be collected before financial assistance is given, thus making up 25 per cent. of the capital cost.

(4) The schemes on completion should be held eligible for additional loans towards working expenses to the extent of 15 per cent. of the capital cost. These loans will bear interest at 4½ per cent. per annum and will be returnable in 5 annual instalments, the first instalment falling due after one year of the disbursement of the loan.

4. It is proposed to continue this activity during the period of the Sceond Five-Year Plan with the scales of assistance as revised above and with the emphasis more towards consolidation of schemes already formed rather than organisation of a large number of new societies. During the Second Five-Year Plan, it is proposed to organise only 25 new units covering an area of about 5,000 acres. Already we have 204 completed schemes and it is proposed to see that all the remaining incomplete schemes are completed with expedition and their working is consolidated and set on proper lines. Necessary provisions for grant of loans and subsidies to the societies on the above basis are being made separately under the heads "P-Loans and Advances" by State Government and "42-Co-operation" respectively.

With a view to ensuring this, it is proposed to provide certain additional facilities to the societies and also to have certain additional establishment both technical and administrative to ensure adequate and efficient supervision and guidance for the Co-operative Lift Irrigation Schemes. This is proposed to be

done by providing for additional staff as under :—

(*a*) Ten Agricultural graduates (in the grade of Rs. 80—5—100—8—140—E.B.—10—200) to be trained every year and deputed at Government cost to work as Managers of large sized completed Schemes for 3 years to guide the societies to draw up systematic cropping plans and give advice to the members in the initial stages in the methods of irrigated farming. This course has been considered necessary since it has now been found that in many Lift Irrigation Schemes the cultivators do not appear to know how to make profitable use of irrigation facilities made available to them. The training of these Agricultural graduates is proposed to be of 6 months duration. Three months at the Co-operative Training College and 3 months practical training in some of the good Lift Irrigation Societies.

(*b*) Services of Assistant District Co-operative Officers (in the grade of Rs. 100—8—140—per mensem) to be made available at Government cost to such of the societies where execution of works is otherwise not likely to be completed expeditiously. Such assistance would be for restricted period to the extent necessary and hence the exact number of Assistant District Co-operative Officers cannot be indicated but a lump sum provision of Rs. 40,000 for the year 1956-57 is considered adequate.

(*c*) Five Mechanical Supervisors in the grade of Rs. 150—10—270 per mensem with five attendants for technical inspection and guidance with regard to the proper working and maintenance of the installations under the Lift Irrigation Schemes.

(*d*) One Deputy Engineer in Class II in the grade of Rs. 220—650 per mensem with two peons to be appointed to work under the Registrar of Co-operative Societies to render expert technical advice and assistance at a high level to keep a close watch over the work of Mechanical Supervisors working directly in the Co-operative Department and also to keep a general watch over the working of the Co-operative Lift Irrigation Schemes from the technical point of view.

5. The Estimates Committee has attached great importance to giving proper advice and supervision for the effective management and for enabling an effective cropping system for the Co-operative Lift Irrigation Schemes (*vide* paragraph 6 of the Estimates Committee's 21st report 1955-56). The Committee is of the view that there is lack of this advice and supervision which should be made good immediately, in order to ensure full and proper utilisation of the money given to these societies so as to yield the desired results. The above mentioned staff is proposed to be created for a period of one year in the first instance with a view to giving effect to the Committee's recommendations. The Schemes for creation of staff in this connection has also been included in the Second Five Year Plan. The following budget provision would be required during 1956-57 for expenditure on the abovementioned staff :—

	Cost for 11 months.
	Rs.
1. *Pay of Officers*—	
One Deputy Engineer in the Grade of Rs. 220—650 ...	3,410
(Rs. 310×11=3,410).	
2. *Pay of Establishment*	23,529
(*i*) Five Mechanical Supervisors in the Grade of Rs. 150—270 at Rs. 170 per mensem.	
(Rs. 170×5×11=9,350).	
(*ii*) Ten Agricultural officers to work as Managers of Lift Irrigation Societies in the grade of Rs. 80—5—100—8—140—10—200 at Rs. 100 per mensem).	
(Rs. 100×10×11=11,000.)	
(*iii*) Two peons in the grade of Rs. 30—½—35 at Rs. 32 per mensem.	
(Rs. 32×2×11=704).	
(*iv*) Five Attendants at Rs. 45 per mensem.	
(Rs. 45×5×11=2,475).	

MINISTER IN CHARGE—SHRI M. P. PATIL.

	Rs.
3. *Allowances and Honoraria*	25,700
(*a*) Dearness Allowance Rs. 9,130	
(*i*) Deputy Engineer at Rs. 60 per mensem. (Rs. 60×11=660).	
(*ii*) Five Mechanical Supervisors at Rs. 50 per mensem each. (Rs. 50×5×11=2,750).	
(*iii*) Ten Agricultural Officers at Rs. 45 per mensem each. (Rs. 45×10×11=4,950).	
(*iv*) Two peons at Rs. 35 per mensem. (Rs. 35×2×11=770).	
	Rs.
(*b*) *Travelling Allowance*—	10,520
(*i*) Agricultural Engineer at Rs. 250 per mensem. (Rs. 250×11=2,750).	
(*ii*) Five Mechanical Supervisors at Rs. 100 per mensem each. (Rs. 100×5×11=5,500).	
(*iii*) Ten Agricultural Officers at Rs. 150 each lump. (Rs. 150×10=1,500).	
(*iv*) Two Peons at Rs. 35 per mensem each. (Rs. 35×2×11=770).	
(*c*) *House rent and other allowances lump provision*	1,650
(*d*) Training of Agricultural Officers	4,400
Stipends at Rs. 40 per mensem. (Rs. 40×10×11=4,400).	
4. *Contingencies*	16,361
(*i*) Rent services postage office expenses etc. (Rs. 8,361).	
(*ii*) Dead Stock tools and instruments for technical staff etc. (Rs. 8,000).	

Summary.

1. Pay of officers	3,410
2. Pay of Establishment	23,529
3. Allowances and Honoraria	25,700
4. Contingencies	16,361
5. Lump sum provision of Rs. 40,000 for cost on account of Assistant District Co-operative Officers whose services are proposed to be made available to schemes under execution	40,000
Total ...	1,09,000

ITEM 245. Development of Co-operative Marketing.

Recurrent	... Rs. 65,000	Non-recurrent ...	... Rs. 1,60,000
Total	... ,, 2,25,000		

Remarks.—At present there are more than 300 Co-operative Marketing Societies in the Bombay State and the Second Five-Year Plan aims at organisation of more such societies at important major and minor assembling markets as well as at other places where agricultural produce is sold in sizable quantities. The plan envisages organisation of 60 new societies and opening of branches of existing ones so that every major

and minor market will be the centre of at least one Co-operative Marketing Society. The large sized Multi-Purpose Societies which will be organised at suitable places will pool the agricultural produce of their members and send it for sale to the Marketing Societies. The object is to bring within the purview of such societies about 30 per cent. of the marketable agricultural produce. If the societies are to undertake activities of this nature they have to be financially strong and should have adequate storage arrangements. For this purpose it is proposed, as recommended in the All India Rural Credit Survey Report that Government should participate in the share capital of the societies to the extent of 51 per cent. give the societies financial assistance by way of loans and subsidies for the construction of godowns. The scheme envisages to have a strong built Co-operative Marketing Society at each principal market yard which are 171 and to have branches of these societies in minor assembling markets. With a view to achieve this 30 additional general type marketing societies and 20 single Commodity Societies are proposed to be organised. Besides these 10 Fruit Sale Societies are proposed to be organised by 1960–61.

Financial Assistance.—Each general type and cotton sale society is proposed to have minimum share capital of Rs. 50,000 out of which 51 per cent. will be contributed by Government. Share capital of each Fruit Sale Society is proposed to be Rs. 20,000 out of which Rs. 10,000 will be contributed by Government. The share capital of Bombay State Co-operative Marketing Society is proposed to be Rs. 15 lakhs out of which 51 per cent. is to be contributed by Government. Thus the total amount to be contributed by Government during Second Five-Year Plan will be about Rs. 21 lakhs. It is also proposed to contribute Rs. 20 lakhs to the share capital of existing societies with a view to having optimum size of share capital. Total amount required therefore, is Rs. 41 lakhs.

Godowns.—It is proposed to have 100 more godowns of bigger size costing Rs. 40 lakhs, 50 godowns of medium size costing Rs. 10 lakhs and 600 godowns costing Rs. 10,000 each for Multi Purpose Society which is working efficiently. Rs. 2 lakhs will be required for construction of godowns for the State Marketing Society. A total sum of Rs. 1,13,00,000 will be required on this account out of which 20 per cent. will being the form of subsidy and 80 per cent. in the form of loan.

Subsidy towards cost of management.—As the Marketing Societies in the initial stages are not likely to work economically, it is proposed that a subsidy of Rs. 1,000 each to 125 existing societies and 60 new societies for meeting the cost of management for a period of 3 years should be made available. It is also proposed to give a subsidy of Rs. 25,000 per annum for 3 years to the State Co-operative Marketing Society. The total amount on this account during Second Five-Year Plan will be Rs. 5,25,000.

Additional staff.—For the orderly development of these societies which have to undertake various ancillary activities constant guidance and supervision are essential. To cope with this work it is proposed to create the following posts :—

	Rs.
1 Class I Officer	410—1,100
1 Civil Engineer (to look after the godowns)	220—650
1 Office Superintendent	200—10—300
1 Senior Clerk	100—8—140—10—150
3 Junior Clerks	46—130
5 Peons	30—35

The cost on account of this staff for the five years is Rs. 1,80,500.
During 1956–57, the following expenditure will be incurred :—

	Rs.
Subsidy for godowns	1,60,000
Subsidy for management	30,000
Additional Staff	35,000
Under "42—Co-operative"	2,25,000
Loans for godowns	6,40,000
(Under "P—Loans and Advances").	
Contribution towards share Capital	4,70,000
(Under "72 Capital Outlay").	

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

The total cost of the Scheme during the five years of the Second Five-Year Plan, will be Rs. 35,66,000 by way of loan and Rs. 24,34,000 by way of subsidy.

Government has sanctioned a scheme, known as the P. W. R. Scheme No. 219 of the B. C. Housing societies, with a view to provide housing facilities to the B. C. Population of the State through housing societies organised for them, etc., and the scheme has also been continued under the I. F. Y. P. In view of the limited work done so far and the great demand of the backward classes for housing facilities it is proposed to continue the scheme under the Second Five-Year Plan.

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

The basis of the financial assistance, proposed to be granted under the Scheme, during the Second Plan period, will remain the same, as at present. Government land will be made available to the societies free of cost for their housing sites, and where suitable Government lands are not available, private lands will be purchased and acquired for them at Government cost. Further, Government assistance will be restricted to 75 per cent. of the estimated cost of houses and 60 per cent. in respect of cattle sheds and barns (in case of agriculturists). The various cost limit for houses prescribed for different tracts and the cost limit for cattle shed and barn will remain as at present. Subsidy will also be granted towards the cost of management of these societies, as here to fore. However, in view of the poverty and inability of the people belonging to scheduled castes, scheduled tribes and ex-criminal tribes, it is proposed to introduce an element of subsidy also in respect of financial assistance proposed to be granted towards construction cost.

In view of the limited funds availble for this Scheme, under the Second Five-Year Plan, no further new organisations will be taken up. No new land acquisition cases on behalf of such societies will also be taken and only the land acquisition cases already sanctioed by Government or already started in one form or the other will be finalised and paid. Exception is, however, proposed to be made in the case of ex-criminal tribes housing societies and their new land acquisition cases will also be entertained, since the number of such societies granted financial assistance under the Scheme is very small. Further, where suitable Government lands are available, they will be continued to be granted to all such societies as here to fore. At present, Backward class individuals are also eligible for direct loans under the Scheme, in areas where no housing societies can be formed for them, and in hard cases and with Government approval. Such direct loans to Backward class individuals will not be granted under the IInd Plan in view of inadequate funds. So far the provision required for the housing societies registered under the Scheme used to be made as a whole. Now it is proposed to indicate the provision required for each class of societies, under the Scheme separately. Further, the subsidy provided for house construction and construction of cattle sheds and barns, is slightly more liberal in respect of housing societies of ex-criminal tribes and scheduled tribes than in housing societies of Scheduled Castes. No subsidy provision has been made in cases of housing societies of other backward classes. Further details in respect of each class of housing societies registered under the Scheme is furnished below :—

1. *Vimochit Jati Housing Societies.*—Up to 31st March 1956, 9 housing societies of Vimochit Jati are expected to be financed and Rs. 50,000 are expected to remain unpaid in respect of the sanctioned loans. During the period of the 2nd Five-Year Plan, it is proposed to meet not only this outstanding liability, but also to finance all the remaining 15 Vimochit Jati housing societies registered so far, inclusive of 5 such societies registered after 14th August 1953 and not included so far among the societies registered under the Scheme, but now proposed to be included in the Scheme, in view of the small number of such societies so far registered under the Scheme. Each such society is taken as consisting of 20 members. The prescribed cost of construction of houses under the scheme varies at present from Rs. 800 to Rs. 4,000 for different tracts. Of the prescribed estimated cost, 75 per cent. is now being made available as loan. In the case of Vimochit Jati Societies on an average, the estimated cost of house is taken at Rs. 2,000 as some may be in urban areas and some in rural areas. Of the estimated cost, 75 per cent. is proposed to be made available as Government assistance by way of loan and subsidies on 50 : 50 basis. Again, 20 per cent. of the members are taken as agriculturists and each one will get Government assistance of Rs. 60 towards construction of cattle shed and barn, of which Rs. 30 will be loan and Rs. 30 subsidy. As such, each society of Vimochit Jati on an average, is expected to require a loan of Rs. 15,120 and a subsidy of an equal amount on behalf of 20 members; and on this basis 15 Vimochit Jati housing societies are expected to require Rs. 2,27,000 as loan and an equal amount as subsidy for construction of houses and cattle sheds and barns. At the commencement, one land acquisition of such society is expected to be in progress. 5 more cases are likely to be taken up during the plan period. These 6 land acquisition cases are expected to require a subsidy of about Rs. 66,000. The 24 Vimochit Jati housing societies, which are likely to be financed by the end of the 2nd Five-Year Plan will require Rs. 11,000 by way of subsidy towards cost of management, at the prescribed rate, for the plan period. Thus the total cost of these housing societies will be Rs. 2,77,000 by way of loan and Rs. 93,000 by way of non-recurring subsidies and Rs. 11,000 by way of recurring subsidy for the Plan period.

42, CO-OPERATION—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL

Scheduled Tribes Housing Societies.—Up to 31st March 1956, 14 societies of scheduled tribes are expected to be financed and Rs. 90,000 are likely to remain unpaid in respect of sanctioned loans. During the period of the II Five-Year Plan, it is proposed to finance 62 additional societies of scheduled tribes, in addition to paying of the undrawn portion of the loans sanctioned up to 31st March 1956. Each society is taken as consisting of 20 members, of which again 20 per cent. will be agriculturists. Scheduled tribes are mostly confined to the Scheduled areas and backward areas. The present prescribed estimated cost of houses for such tracts is Rs. 800 per house for scheduled areas, and a little more i.e. Rs. 1,000 for other backward areas. As such, the average estimated cost of houses of scheduled tribes is taken at Rs. 900 each. Of the estimated cost of the houses 75 per cent. will be available as Government assistance of which 50 per cent. will be loan and 50 per cent. as subsidy. Again agricultural member will be eligible to Government assistance at Rs. 60 per member, for cattle shed and barn of which again 50 per cent. will be loan and 50 per cent. subsidy. On this basis, each society of 20 members is expected to require Government assistance of Rs. 6,870 as loan and Rs. 6,870 as subsidy. The 62 housing societies together will thus require Rs. 4,26,000 as loan and Rs. 4,26,000 as subsidy for the period of the plan. As at the commencement of the Plan, one land acquisition case of such society already sanctioned may still remain unpaid. Again, twenty-three land acquisition cases of such societies are expected to be in progress at the commencement of the II Plan. Though no fresh land acquisition cases will be taken up, these 24 cases will require a subsidy of Rs. 2,64,000 during the plan period. These societies will also be eligible for, subsidy towards cost of management, and this is expected to cost Rs. 29,000 for the plan period for the 76 societies of this class proposed to be financed by the end of the II Five-Year Plan. The total cost of such societies for the Plan period would thus be Rs. 5,16,000 by way of loan, Rs. 6,90,000 as non-recurring subsidy and Rs. 29,000 as recurring subsidy, as detailed in the earlier statement. As at the end of the II Five-Year Plan, 13 of such societies already registered will remain unfinanced and without lands.

Scheduled Caste Housing Societies.—Up to the end of the First Five Year Plan, 55 societies of scheduled castes are expected to be financed of which again Rs. 7,10,000 may remain unpaid towards the second instalments and parts of second instalments undrawn by such societies. These amounts are expected to be drawn by the societies during the Second Plan period. In addition, it is proposed to finance 64 more scheduled caste housing societies within the plan period. Each of the societies is again taken as consisting of 20 members on an average of which 20 per cent. are expected to be agriculturists. There are many societies of scheduled castes in urban and industrial cities like Bombay, Sholapur, Ahmedabad, etc., for which the prescribed estimated cost of houses is Rs. 4,000 each, whereas the estimated costs of houses for other tracts vary from Rs. 800 to 1,500 each. As such, the average estimated cost of construction of houses of such societies is taken at Rs. 2,800 each. Of the estimated cost of construction, 75 per cent. will be made available as Government assistance, two-thirds of which will be loan and one-third will be subsidy. The members of scheduled caste, though poor, are generally better off than members of scheduled tribes and ex-criminal tribes and, therefore, the subsidy portion of Government assistance is kept at one-third and the loan portion of two-thirds, instead of 50 : 50 per cent. as in the case of scheduled tribes and ex-criminal tribes housing societies. The agriculturists members will again get Rs. 60 each towards cattle shed and barn of which Rs. 40 will be loan and Rs. 20 subsidy. Thus, on an average, one society of scheduled caste is expected to require Government assistance to the extent of Rs. 42,240 of which Rs. 28,160 will be loan and Rs. 14,080 will be subsidy. The 64 societies together will thus require Rs. 18,13,000 as loan and Rs. 9,01,000 as subsidy for the period of Second Five Year Plan, for construction of houses, cattle sheds and barns. Six sanctioned cases of land acquisition may remain unpaid as on 31st March 1956. In addition, 31 land acquisition cases may remain in progress. These 37 cases will cost Rs. 4,08,000 by way of subsidy during the plan period. Such societies will again require Rs. 50,000 by way of subsidy towards cost of management on behalf of 119 societies likely to be financed up to the end of Second Five Year Plan. The total cost of scheduled caste Housing societies for the period of the Second Plan will thus be Rs. 25,23,000 by way of loan and Rs. 13,09,000 by way of non-recurring subsidy and Rs. 50,000 by way of recurring subsidy as already indicated in the foregoing paragraph. As at the end of the Second Plan, 21 of such societies already registered are expected to remain without lands and 108 such societies without necessary financial assistance from Government.

MINISTER IN CHARGE—SHRI M. P. PATIL.

Other Backward Class Housing Societies.—Up to 31st March 1956, 16 societies of this class registered before 14th August 1953, are expected to be financed and about Rs. 2,50,000 may remain unpaid in respect of undrawn instalments of loans. In respect of 4 land acquisition cases, already sanctioned, or in progress, Rs. 44,000 are expected to remain as payable, as on 31st March 1956. Except for these payments, and subsidies that will have to be paid towards the cost of management of those 16 societies already financed, no further funds are proposed to be expended during the Plan period, in respect of such societies though they might have been registered before 14th August 1953. The total cost of these other backward class housing societies, as indicated above, will thus be Rs. 2,50,000 by way of loans and Rs. 44,000 by way of non-recurring subsidy, and Rs. 8,000 by way of recurring subsidy towards cost of management of the 16 housing societies referred to above. As at the end of the Second Five-Year Plan, 5 of the other backward class housing societies registered before 14th August 1953, will remain without lands and 28 such societies without loans etc., under the Scheme.

Thus, of the 379 societies already registered under the Scheme, and 5 societies of Vimochit Jati already registered and now proposed to be included under the Scheme, 345 societies are expected to get housing sites—Government lands—free of cost or private lands acquired at Government cost—by the end of Second Plan and the remaining 39 societies (which may require land acquired or purchased at Government cost) will remain without lands. Further, of the 345 societies, which are expected to secure lands, two hundred and thirty-five societies are expected to be fully financed by the end of the Second Plan period, as provided in the Scheme. The total cost of the Scheme to Government for the five years of the Second Plan will thus be Rs. 35,66,000 by way of loan and Rs. 24,34,000 by way of subsidy as detailed in the foregoing paragraphs.

Accordingly the total provision of Rs. 3,70,343 (recurring Rs. 7,000 and non-recurring Rs. 3,63,343 has been proposed for next year on account of the subsidy under the scheme. Separate provision is being proposed on account of loans under the Scheme.

ITEM 247. Co-ordinated Market News Service.

Recurrent	.. Rs.	30,000	Non-recurrent	.. Rs.	*Nil.*
Total	.. „	30,000	Ultimate annual recurrent	.. „	

Remarks.—Marketing intelligence has a vital bearing on the prices of agricultural commodities in local markets. It is, therefore necessary that the producers should have facilities of knowing the prices ruling in the terminal or consuming markets. At present the advantages of market intelligence service are available to traders and commission agents but not to the agriculturists, who bring their produce for sale in the market. The Government of India have, therefore, proposed to have Regional Officers at port towns and among others one such at Bombay. There would be three field offices situated at suitable centres which would collect information from primary markets within their zones and transmit the same to the Regional Officer. The cost on account of the appointment of the Regional Officer will be borne by the Central Government. The cost on account of field officers will be borne by State Government. These Officers would be responsible for disseminating market news of different commodities and future trends in the prices. The total cost of the scheme for field officers for five years is Rs. 3·14 lakhs.

During 1956-57 it is expected that expenditure on this account will be 0·30 lakhs. Staff as indicated below is expected to be appointed in September 1956 :—

3 Market reporters (160—8—200—10—270).

3 Junior Clerks (46—130).

3 Peons (30—35).

42, CO-OPERATION—concld.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 248. Housing Scheme for nomadic Backward Classes.

Recurrent	.. Rs. 2,000		Non-recurrent	.. Rs.	58,000
Total	.. „ 60,000		Ultimate annual recurrent	.. „	

Remarks.—There is considerable nomadic population in the State, falling under the category of backward classes, wandering from place to place in search of food and shelter. They are very poor and backward and are required to undergo a good deal of hardship to maintain themselves. They also cause some nuisance to the population of the places, they visit. It is, therefore, proposed to take up various measures, aiming at the rehabilitation of these nomadic tribes, one of which is establishment of Housing Societies of such tribes, to enable them to build their houses, through such Co-operative Societies. It is, therefore, proposed to take up a special Housing Scheme for the nomadic tribes and to grant them various concessions to facilitate construction of houses for themselves.

This scheme, *inter alia*, envisages grant of the following assistance to the Housing Societies of the nomadic tribes :—

(1) Loans and subsidies will be available to Housing Societies of Nomadic tribes for construction of houses on behalf of their members. The maximum estimated cost of construction of houses is fixed at Rs. 1,500 per house, of which 25 per cent. i. e. Rs. 375 will be contributed by members themselves, by way of labour, material or cash. The remaining 75 per cent. i.e. Rs. 1,125 will be paid by Government by way of loan and subsidy. Of Rs. 1,125 payable by Government per house, Rs. 750 will be payable as loan, carrying no interest, and the remaining Rs. 375 will be paid as subsidy.

(2) In the case of members of these societies, who maintain cattle, loan and subsidy will also be given for construction of cattle sheds and barns. The maximum estimated cost of cattle shed and barn, is fixed at Rs. 100 of which 60 per cent. will be available by way of Government assistance, ⅔ rds of which i.e. Rs. 40 will be available as interest free loan and the balance as subsidy.

(3) When Government lands are available, the same will be made available to such societies, free of cost, for their housing sites, at 2 gunthas per member. Where there are no suitable Government lands, private lands will be acquired for them at Government cost and made available to them, free of cost, on the abovementioned scale. The members' plots will be of 1,200 sq. ft. each and the balance of the land will be pooled for common purposes such as roads, gutters, etc. In the case of members who maintain cattle, additional lands will also be granted at 1 guntha each of which 600 sq. ft. will be utilised as an addition to the building plot and the balance will be pooled for common purposes.

(4) Subsidies will be granted to these societies towards cost of management at Rs. 10 per tenement for the first 2 years and at Rs. 5 per tenement thereafter, till the Government loans are prepaid.

(5) The loans will be interest-free and will be repayable in 25 years.

(6) Where sufficient Government lands are available, each such society will be made available additional 5 gunthas of land for common purposes such as construction of common hall, well etc. Where membership of such societies is 50 or more, each and where additional land is required for schools, and where sufficient Government land is available, additional 10 gunthas of land will also be made available to each such society, for that purpose.

A modest target of 60 societies of 20 members each, has been proposed for the II Five-Year Plan. It is proposed to organize 60 societies of 20 members each, at suitable places in 27 districts of the State excluding Dangs for which there is a special scheme, altogether. It is proposed to complete the organization work of all the 60 societies, during the first 3 years of the plan. It is expected that 25 per cent. of these societies i.e. 15 societies will go in for lands, acquired at Government cost, and those 15 societies which will require 50 gunthas of land each, will thus require about Rs. 1,88,000 for land acquisition for 5 years of the plan. Each such society will consist of 20 members. 50 per cent. of the members are expected to maintain cattle. Each society will, therefore, require a loan and subsidy for house construction and for construction of cattle shed and barn to the extent of Rs. 15,400 and Rs. 7,700 respectively. These societies are also eligible for subsidy towards cost of management. These 60 societies will thus in total require loan provision of Rs. 9,24,000 and subsidy provision of Rs. 6,89,000 over the five years of the plan.

The cost for the year 1956-57 under this scheme will be as under :—

		Rs.	Rs.
Loan			1,23,000
Subsidy :—	Recurring	2,000	60,000
	Non-recurring	58,000	
		Total ...	1,83,000

The total provision of Rs. 60,000 (Rs. 2,000 recurring and Rs. 58,000 non-recurring is, therefore, proposed in next year's budget on account of the above scheme for subsidy. Requisite provision on account of loans under the scheme has been proposed separately.

MINISTER IN CHARGE—DR. JIVRAJ N. MEHTA.

ITEM. 249 Establishment of a Test House in the Industrial Chemist's Laboratory, Matunga.

Recurrent	... Rs.	10,010	Non-recurrent	... Rs.	10,000
Total	... ,,	20,010	Ultimate annual recurrent	... ,,	...

Remarks.—It is proposed to establish a Test House at the Industrial Research Laboratory, Matunga, by installing additional equipment at the Laboratory for chemical processes and constructing additional building and/or floor. The Laboratory is already carrying out the test work of (1) Minerals, (2) Chemicals, (3) Oil Seeds, Oil Soaps, (4) Paints, Varnishes, (5) Fuels and (6) other miscellaneous items like ink, starches, etc. During the Second Five-Year Plan Period, it is proposed to take up the work of analysis of paints, pigments and varnishes. To accommodate these activities the Laboratory building will have to be extended involving an expenditure of Rs. 60,000. Equipment to the extent of Rs. 60,000 will also be required to be purchased. The Scheme is proposed to be implemented in two stages.

With the proposed expansion of the Test House, it will be possible to assist small-scale and middle-scale industries in testing their raw material and finished products and also to solve technical difficulties in the process of manufacture. These tests will help to improve the products obtained in the processes.

The details of expenditure involved on the scheme during the year 1956–57 are as follows :—

	Provision for 1956-57 (Six months) Rs.	Annual average cost Rs.
I. *Pay of Establishment*—		
One post of Research Assistant (Rubber) in the scale of Rs. 220—15—400.	1,320	3,912
One post of Research Assistant (Plastic) in the scale of Rs. 220—15—400.	1,320	3,912
One post of Assistant Chemist in the scale of Rs. 150—7—185—8—225.	900	2,350
One post of clerk in the scale of Rs. 75—5—140—E.B.—6—200 ...	450	1,572
One post of Laboratory boy in the scale of Rs. 35—1/2—40	210	456
	4,200	12,202
II. *Allowances and Honoraria, etc.*—		
Travelling Allowance (Ordinary)	500	1,000
Dearness Allowance	1,530	3,060
House Rent and other Allowances	.....	72
	2,030	4,132
III. *Contingencies*—		
Non-recurring—		
Equipment and Furniture	10,000	.....
Recurring—		
Miscellaneous	3,780	3,000
	13,780	3,000
Grand Total ...	20,010	19,334

The estimated expenditure on account of this scheme during the Second Five-Year Plan period is as given below :—

Year.	Expenditure Rs.
1956–57	20,010
1957–58	66,697
1958–59	17,204
1959–60	17,711
1960–61	18,378
Total ...	1,40,000

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—DR. JIVRAJ N. MEHTA.

ITEM 250. Expansion of the Headquarters Staff in the Department of Industries.

Recurrent	... Rs.	8,710	Non-recurrent	... Rs.	500
Total	... ,,	9,210	Ultimate annual recurrent	... ,,	.....

Remarks.—A number of schemes under Industries have been proposed for inclusion in the Second Five-Year Plan. All these schemes would require considerable spade work to be done by the office of the Director of Industries for working out the details of the same before these are put into operation. These schemes would also require a good deal of planning and co-ordination. It would be necessary not only to have an effective control and check on the various proposals for expenditure but also to record and watch correctly the progress of the expenditure periodically. It is, therefore, proposed to strengthen the head-quarters staff by providing additional posts during the period of the Second Five-Year Plan as shown below :—

	Number of posts.	Rs.
1. Development Officer	1	350–785
2. Head of Branch	1	170–250
3. Clerks	2	75–200
4. Typist	1	75–200
5. Peon	1	35–40

The staff and expenditure required in this connection for the year 1956-57 is given below :—

	Provision for 1956-57 (Six months).	Annual average cost.
	Rs.	Rs.
I. Pay of Officer—		
One post of Development Officer in the scale of Rs. 350—30—650—45—785.	2,100	7,216
	2,100	7,216
II. Pay of Establishment—		
One post of Head of Branch in the scale of Rs. 170—10—250 ...	1,020	2,712
Two posts of Clerks in the scale of Rs. 75—5—140—E.B.—6—200 each.	900	3,144
One post of Typist in the scale of Rs. 75—5—140—E.B.—6—200 ...	450	1,572
Two posts of Peons in the scale of Rs. 35—½—40 each ...	420	912
	2,790	8,340
III. Allowances, Honoraria, etc.—		
Travelling allowance (Ordinary)	600	1,000
Dearness allowance	1,920	3,900
House rent and other allowances	300	600
	2,820	5,500
IV. Contingencies—		
Recurrent miscellaneous expenditure	1,000	1,000
Non-recurrent purchase of furniture, steel cupboard, etc. ...	500	.....
	1,500	1,000
Grand Total ...	9,210	22,056

Following is the estimated expenditure on this Scheme during the Second Five-Year Plan period :

Year.	Expenditure. Rs.
1956-57	9,210
1957–58	17,000
1958–59	17,500
1959–60	17,750
1960–61	18,540
Total ...	80,000

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—DR. JIVRAJ N. MEHTA.

ITEM 251. Adoption of Metric System of Weights and Measures in Bombay State.

Recurrent	... Rs.	9,333	Non-recurrent	... Rs.	Nil.
Total	... ,,	9,333	Ultimate annual recurrent	... ,,	.....

Remarks.—It has been decided by the Government of India to introduce Metric System of Weights and Measures in the country and it has accordingly directed the State Governments to take necessary steps in this direction. A Standing Metric Committee to make recommendations in this regard has already been appointed by the Government of India and the State Governments have been requested by them to set up their own Committees to consider problems and difficulties which they are likely to encounter in the change-over from the Foot-pound System to the Metric System. Accordingly, the Government of Bombay has appointed a representative Committee. Until the recommendations of the Central Standing Metric Committee are available, it is not possible to make any precise estimate of the cost involved in the change-over during the Second Five-Year Plan.

It has, however, been tentatively agreed that the change-over from Foot-pound System prevailing at present, to Metric System, should be gradual and in stages so as to prepare ground for the change with the least possible disturbance and inconvenience to the trade, industry and the public. The first stage is to be devoted to publicity and propaganda, the second to the introduction of Metric System in Central and State Government Departments and public bodies and the final for complete introduction of the new system.

During the Second Five-Year Plan intensive education and propaganda will be carried out in favour of Metric System. The State Government Departments will be advised to initiate designing their new schemes of development on the Metric System with the object of going over to that system entirely at an appropriate stage. Necessary advice and guidance will also be given to the public so as to avoid difficulties for them in future after the introduction of Metric System. The Committee appointed by the Government of Bombay will examine to what extent the change-over from the Foot-pound System to the Metric System will create any problems or difficulties for it which require the attention of the Standing Metric Committee or which require actions on the part of Government of India or other agencies in order to ensure co-ordination and smooth change-over. It will also examine all matters which the Standing Metric Committe ewill desire it to examine.

This work would involve considerable amount of correspondence with various interested parties, preparation of posters, etc., and field work to explain the new system. It is also proposed to purchase a set of Secondary Standards and a Set of Working Standards in Metric System for demonstration purposes and for checking of standard Weights and Measures in Metric System if and when presented by any Trading Association or body.

In order to achieve the above objectives it is necessary to appoint some additional staff and provide for other incidental expenses of propaganda etc. as detailed below during the year 1956–57 :—

	Provision for 1956-57 (six months).	Annual average cost.
I. *Pay of Establishment*—	Rs.	Rs.
One post of Junior Superintendent in the scale of Rs. 270—20—390	1,620	4,296
One post of Senior Industries Inspector in the scale of Rs. 160—10—250—10—300—E.B.—15—375 (Mofussil) *plus* C. A. at Rs. 10 per mensem Basic.	960	3,239
One post of Steno-typist in the scale of Rs. 75—5—140—E.B.—6—200 *plus* Speed allowance at Rs. 40 per mensem.	690	2,052
Two posts of clerks in the scale of Rs. 75—5—140—E.B.—6—200 each.	1,650	3,144
One post of peon in the scale of Rs. 35—½—40 ...	385	456
	5,305	13,187
II. *Allowances, Honoraria, etc.*—		
Travelling allowance (fixed)	78	156
Travelling allowance (ordinary)	1,000	2,000
Dearness allowance	1,740	3,600
House rent and other allowances	210	420
	3,028	6,176

MINISTER IN CHARGE—DR. JIVRAJ N. MEHTA.

	Provision for 1956-57 (six months). Rs.	Annual average cost. Rs.
III. *Contingencies*—		
Non-recurring—		
Purchase of one set of reference standard and set of secondary standard excluding balance and tools etc. and furniture.	.....	1,500
Recurring—		
Miscellaneous Expenditure and Service Postage	1,000	2,000
Total ...	1,000	3,500
Grand Total ...	9,333	22,863

Following is the estimated expenditure on account of this Scheme during the Second Five-Year Plan period :—

Year.	Expenditure. Rs.
1956—57	9,333
1957—58	23,642
1958—59	21,988
1959—60	19,734
1960—61	20,303
Total ..	95,000

ITEM 252. Establishment of Trading Estates other than Atale.

Recurrent	Rs.	7,860	Non-recurrent	Rs.	1,000
Total	,,	8,860	Ultimate Annual Recurring ...		

Remarks.—In accordance with the industrial policy of Government, it was decided to select a number of areas in the State, to begin with which had adequate supply of labour, raw materials and other pre-requisites necessary for establishment of Trading Estates. Government of India, in the Ministry of Commerce and Industry have also expressed their keenness to establish such estates in the different parts of the country mainly to assist the development of small scale industries. Such estates can be either Government sponsored institutions managed by autonomous corporations in which industries, banks etc., can participate or alternatively they are to be established by private institutions, co-operative societies receiving aid from Government in the form of finance, other facilities etc., preference being given to co-operative enterprise.

2. Government had appointed a Special Officer in 1948 to suggest suitable sites for location of such estates. As, however, it was found that the cost of development on this account would be considerably large if Government undertook the establishment of such estates, it was decided that instead of proceeding with the scheme as State enterprise, private parties may be given all reasonable facilities including loans. A provision of Rs. 90 lakhs was accordingly made in the First Five Year Plan. Facilities for acquisition of land etc., were made available to the Belgaum Manufacturers' Co-operative Building Association, Ltd. A loan of Rs. 3 lakhs was also given to the Poona Municipal Corporation to develop an estate at Hadapsar. Government have also spent about Rs. 70,000 for development of Kolhapur Industrial Zone and have made a provision of Rs. 72,000 for further development of the zone during 1955-56.

3. It is now proposed to take positive steps and to establish such estates at the following sites or any other sites as may be found convenient :—

(1) Greater Bombay	2
(2) Atale (near Kalyan)	1
(3) Karad (Koyna area)	1
(4) Baroda	1

(5) Malegaon	1
(6) Mehsana	1
(7) Hubli	1
(8) Angol (Belgaum)	1
Total ...	9

4. The schemes involve considerable preparatory work viz. selection of sites, study of facilities available, reaction of the local public, correspondence with various Departments etc. and other organisational matters before starting the work. It is, therefore, necessary to provide necessary staff for this purpose at Headquarters in addition to the staff which may be required in respect of each estate separately.

5. It is accordingly proposed to make the following provisions in this connection during the Second Five Year Plan period :—

	Rs.
(*a*) Establishment charges of Head Quarters Staff	88,300
(*b*) Establishment charges for staff at the Estates	3,44,000
(*c*) Development Cost	71,63,000
(*d*) Loans	10,00,000
	85,95,300

6. The following establishment at Head Quarters will be necessary in this connection during 1956-57 and provision in the budget estimates may be made accordingly; provisions of Rs. 2 lakhs fot Development costs and Rs. 2 lakhs for grant of loans are being proposed separately under the relevanr heads :—

	Provision for 1956-57. Rs.
I—*Pay of Officers*—	
II—*Pay of Establishment*—	
Two posts of clerks in the scale of Rs. 75—5—140—E.B.—6—200	1,800
One post of Draughtsman in the scale of Rs. 125—6—215	1,500
One post of Overseer in the scale of Rs. 80—5—100—8—140—E.B.—10—200—E.B.—10—270 (Mofussil).	960
	4,260
III. *Allowances, Honoraria, etc.*—	
Dearness Allowance	3,240
Conveyance Allowance	360
	3,600
IV. *Contingencies*—	
Non-recurring—	
Purchase of furniture, etc.	1,000
Recurring—	
Miscellaneous	
	1,000
Grand Total ...	8,860

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—DR. JIVRAJ N. MEHTA.

ITEM 253. Establishment of an Industrial Estate at Atale, near Kalyan.

Recurrent ...	... Rs.	66,196	Non-recurrent ...	... Rs.	*Nil.*
Total ...	... ,,	66,196	Ultimate Annual recurrent	... ,,	

Remarks.—In accordance with the industrial policy announced by Government in 1948, it is proposed to establish trading estates in this State. The main idea of the scheme is to select a number of areas in the State and to develop them by clearing and laying out the land, providing certain essential facilities like water, drainage, roads, power, etc. so as to make them readily available to the industrialists developed plots. The area will be divided into suitable sites which may be given to parties desirous of setting up such factories. It is expected that the establishment of trading estates will facilitate rapid growth of industries as also make for the necessary dispersal in a quick manner. These estates will also provide adequate employment facilities to a number of persons.

With the accent on industrial development during the Second Five-Year Plan and more particularly, the development of heavy and basic industries, such as chemicals, dyestuffs, rayon, etc., the area near-about Kalyan has potential possibilities for establishment of chemical industries in the near future. Inquiries made with the industrialists, reveal that a large number of concerns are anxious to establish new industries in this area provided Government affored necessary facilities in developing the site initially. As the industries to be developed area of heavy and basic nature, concerns are likely to require large areas. It is, therefore, proposed to acquire immediately about 2,500 acres of land near Atale, North-east of Mohone (Kalyan) where a number of such concerns can come up. It is bounded on the south by the railway line and on the north by the Kalu river which is suitable for the discharge of effluents. Because of its proximity to Bombay and being served by the main railway line, private industrialists are willing as stated above, to establish factories in this area. A provision of Rs. 20 lakhs on this account is proposed to be made separately in the budget estimates for 1956 57 under head " 72, Capital Outlay for Industrial Development ". The Revenue Department and the Town Planning and Valuation Department are initially associated with the Industries Department for acquisition of sites survey, preparation of proper layout etc. for which some staff has recently been sanctioned. The staff sanctioned for the office of the Director of Industries will have to be continued for 1956-57 and the staff sanctioned for the town planning and valuation Department and also the Settlement and Land Record Department will have to be sanctioned for six months from 1st April 1956. The details of expenditure involved are as under :—

Designation	No. of Posts.	Scale Provision	Rs.	Period
(Department of Industries)				
I. *Pay of Officers*—				
Assistant Director of Industries ...	1	350—30—650—E.B.—45—1,100.	4,200	1 Year.

Recurring—	
Labour charges at Rs. 45 per mensem per Mazdoor for 81 Mazdoors for 6 months.	22,680
Stationery and dead stock	3,750
Miscellaneous including rent	1,810
	28,240

Summary.

	Rs.
Pay of Officers	4,200
Pay of Establishment	16,236
Allowances, Honoraria, etc. ...	17,520
Contingencies	28,240
Grand Total ...	66,196

ITEM 254. Scheme for organisation of and grant of financial assistance to labour contract societies.

Recurrent ...	... Rs.	32,850	Non-recurrent ...	... Rs.	*Nil.*
Total ...	... ,,	32,850	Ultimate annual recurrent	... ,,	

Remarks.—Government gives preference to the labour contract societies in the matter of entrusting minor works of the Public Works Department and the Forest Department. The District Local Boards and the Municipalities have also been advised to entrust their contracts to such societies. In order to meet the requirements for the several contracts, it is proposed to organise 75 labour contract societies during the Second Five-Year Plan period and to give them assistance for management expenses at the rate of Rs. 1,200 per society for the first 3 years of their working. The total cost on account of the grant to the labour contract societies will be Rs. 1,93,800 as shown below :—

Year.	Number of Societies to be organised.	Number of societies to be assisted.	Amount of grant-in-aid to be given.
			Rs.
First year	15	15	18,000
Second year	15	30	36,000
Third year	15	39*	46,200
Fourth year	15	39	46,800
Fifth year	15	39	46,800
	75	162	1,93,800

*One society will be given Rs. 600 only.

Further, in order to ensure that the contracts entrusted to the labour contract societies are executed properly and in time, it is proposed to give technical guidance in the working of labour contract societies. It is, therefore, proposed to appoint an overseer roughly for every 10 societies. It is proposed to give a consolidated pay of Rs. 150 per mensem to such overseers including all allowances. In the case of technical guidance, the existing 75 societies will also be given technical guidance by such overseers. The total expenditure on this account for the different years would be as under :—

Year.	Number of societies.	Number of overseers.	Expenditure.
			Rs.
1956–57 ...	90	... 9×150×12	... 16,200
1957–58 ...	105	... 10×150×12	... 18,000
1958–59 ...	120	... 12×150×12	... 21,600
1959–60 ...	135	... 13×150×12	... 23,400
1960–61 ...	150	... 15×150×12	... 27,000
			1,06,200

MINISTER IN CHARGE—SHRI M. P. PATIL.

It would be seen that during the first year of the plan period, there would be an expenditure of Rs. 32,850 (pay of overseers of Rs. 14,850 provided for 11 months only) for the organisation and grant of financial assistance to labour contract societies. It has been proposed that half the expenditure of the whole scheme is to be borne by the Government of Bombay and the remaining 50 per cent. of the expenditure is to be borne by the Government of India. A provision of Rs. 32,850 is therefore, proposed in the budget for 1956–57 (of which an amount of Rs. 16,425 would be shared by the Government of India).

ITEM 255. Scheme for organisation of and grant of financial assistance to the forest labourers' societies.

Recurrent ...	... Rs.	*Nil.*	Non-recurrent ...	... Rs.	66,000
Total ...	... ,,	66,000	Ultimate annual recurrent	... ,,	

Remarks.—It is proposed to organise 125 forest labourers' co-operative societies in Bombay State during the Second Five Year Plan period at the rate of 25 societies per year. The object underlying the scheme is to organise the Adiwasis and other various tribes inhabiting forest areas into co-operatives and to arrange collection and exploitation of forest produce, its marketing, etc., through them. Experience has shown that the main reason for unsuccessful working of some of the forest labourers' societies is that they were not in a position to secure the services of efficient hands because of lack of resources at their disposal. It is, therefore, proposed to assist the new forest labourers' societies and also about 30 old societies which have not completed five years of working by way of grant-in-aid for management expenses at the rate of Rs. 1,200 per year per society for the first 3 years of their working. The details of the number of the societies that would be assisted and the amount of grant proposed to be given during each year of the Second Five Year Plan period are given below :—

Year.	Number of societies to be assisted.		Amount of expenditure.		
	New	Old	New	Old	Total.
			Rs.	Rs.	Rs.
1956–57 ...	25	30	30,000	36,000	66,000
1957–58 ...	50	30	60,000	36,000	96,000
1958–59 ...	75	30	90,000	36,000	126,000
1959–60 ...	75	...	90,000	.....	90,000
1960–61 ...	75	...	90,000	.....	90,000
			3,60,000	1,08,000	4,68,000

From the above statement, it would be seen that during the first Five Year of the plan period there would be an expenditure of Rs. 66,000 for grant of financial assistance to forest labourers' societies. It has been proposed that the whole expenditure would be borne by the Government of India. A provision of Rs. 66,000 may, therefore, be made in the budget for 1956–57.

ITEM 256. Scheme for organisation of District Industrial Co-operative Associations.

Recurrent ...	... Rs.	29,000	Non-recurrent ...	... Rs.	*Nil.*
Total ...	... ,,	29,000	Ultimate annual recurrent	... ,,	

Remarks.—There are at present 18 District Industrial Co-operative Associations functioning in the various districts of the State. With a view to ensure a co-ordinated development of the industrial co-operatives in the remaining districts of the State, it is proposed to organise ten more District Industrial Co-operative Associations by the end of the Second Five Year Plan period. These Associations are to be given financial assistance as under :—

An annual recurring grant for meeting the cost of Manager, Salesman, Accountant, Clerk and Peon and rent and other contingent expenses equal to the deficit, subject to a maximum of Rs. 4,800 for the first five years.

2. Six Associations are proposed to be organised during the current year and during the year 1956–57. These Associations will be given financial assistance of Rs. 29,000 during the year 1956–57, as indicated below :—

	Rs.
Recurring grant to the extent of Rs. 4,800 to 6 Associations subject to deficit	28,800
In round figure... ...	29,000

A provision of Rs. 29,000 is therefore made in the budget for 1956-57 for financial assistance to the District Industrial Co-operative Associations during 1956-57.

43, INDUSTRIES—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 257. Scheme for organisation of Co-operative Societies in Backward Areas (other than forest labourers' co-operative societies and labour contract societies) and for grant of financial assistance to them.

Recurrent	... Rs.	24,000	Non-recurrent	... Rs.	*Nil.*
Total	... ,,	24,000	Ultimate annual recurrent	...	

Remarks.—The Backward Class Societies (the resources of which are generally very meagre) are not able to secure services of efficient hands to work as their secretaries, accountants, etc. The affairs of these societies are, therefore, sometimes not carried on properly for want of efficient Secretaries etc. A scheme has, therefore, been included in the Second Five Year Plan, whereunder it is proposed to organise 50 new backward class societies during the Second Five Year Plan period to give them assistance for the first three years of their working at the rate of Rs. 1,200 per year to met the cost of management. Similarly it is proposed to assist such of the existing societies as have not completed three years of their working at the rate of 10 societies per year. The total cost of five years on account of grants to backward class societies for managerial expenses would, therefore, be Rs. 1,80,000 as shown below :—

Years.	Number of Societies.	Grant-in-aid.
		Rs.
1st Year	... 10 old *plus* 10 new ...	24,000
2nd Year	... 10 old *plus* 20 new ...	36,000
3rd Year	... 10 old *plus* 30 new ...	48,000
4th Year	... 30 new ...	36,000
5th Year	... 30 new ...	36,000
	Total ...	1,80,000

2. The expenditure on account of the scheme during the first year of the plan would, therefore, be Rs. 24,000 only. It is, therefore, necessary to make a provision for the amount of Rs. 24,000 for implementation of the scheme during first year, of the plan *i.e.* for 1956–57. It has been proposed that 25 per cent. of the expenditure on account of the scheme would be borne by the Government of Bombay and the remaining 75 per cent. expenses would be borne by the Government of India. Accordingly Government of Bombay will be required to incur an amount of Rs 6,000 during the year 1956–57 and Government of India will have to bear an expenditure of Rs 18,000 during the same year.

3. A provision of Rs. 24,000 is, therefore, made in the budget for 1956–57 of which an amount of Rs. 18,000 would be shared by the Government of India.

ITEM 258. Scheme for organisation of two additional tailoring schools for Backward Classes in Bombay State.

Recurrent	.. Rs.	*Nil.*	Non-recurrent	.. Rs.	8,000
Total	.. ,,	8,000	Ultimate annual recurrent	.. ,,	

Remarks.—As there is good scope for the development of the tailoring industry and is suitable for the Backward Classes it is proposed to organise two additional tailoring schools or Backward Classes in the Second Five Year Plan. During the first year of implementation of the scheme, all preliminary arrangements will be made such as selection of location, selection of premises, selection of training staff and trainees and thus no recurring expenditure will be incurred. The tools, equipment and machinery will be purchased during the first year of the Second Five Year Plan and the Non-Recurring expenditure of Rs. 8,000 will be incurred. After the schools are organised in the year 1957–58, 12 students will be admitted for training at each school, for a period of one year. They will be granted stipends at Rs. 20 per mensem and after the completion of the training, efforts will be made to organise a co-operative society or the trainees will be granted loan and subsidy individually for purchase of sewing machines and necessary equipment to enable them to settle in the Industry. The details of expenditure involved during 1956–57 are given below :—

Recurring		Rs.
Non-Recurring—	.. ..	*Nil.*
Machines, tools and equipment	.. ..	8,000
Estimated Receipts—	..	*Nil.*

A share of expenditure to be borne by the Government of India during the first year would approximately be Rs. 6,000.

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 259. Financial Assistance to Industrial Co-operative Societies from the Scheduled areas of Bombay State for Management expenses and contribution to their share capital.

Recurrent	... Rs.	20,400	Non-recurrent	... Rs.	*Nil.*
Total	... „	20,400	Ultimate annual recurrent	... „	

Remarks.—There are nearly 15 Industrial Co-operative Societies (other than forest labourers co-operative societies and labour contract societies) in the Scheduled areas of Bombay State. It is expected to organise 2 such societies per year during the Second Five-Year Plan period. The resources of these societies being meagre, they are not able to secure services of efficient hands to work as their Secretaries, Accountants, etc. A scheme has, therefore, been included in the Second Five-Year Plan, wherein it is proposed to give grant-in-aid of Rs. 1,200 per year to each of the newly organised societies in the scheduled areas for the first three years of their working as also to the existing 75 societies at the rate of 15 societies per year. The number of societies to be assisted and the amount of expenditure involved are as below :—

Years.	Number of Societies.	Grant-in-aid.
		Rs.
1st year	15 old *plus* 2 new	20,400
2nd year	15 old *plus* 4 new	22,800
3rd year	15 old *plus* 6 new	25,200
4th year	6 new	7,200
5th year	6 new	7,200

2. Further with a view to augment the owned funds of the societies it is proposed to contribute to the share capital of the new as well as old societies whose financial position may be weak. A contribution of Rs. 10,000 per year i.e., Rs. 50,000 in 5 years has, therefore, been suggested for this purpose.

3. It is, therefore, necessary to make a provision of Rs. 20,400 for management expenses of the Industrial Co-operative Societies in scheduled areas and a provision of Rs. 10,000 for contribution to the share capital of these societies during the year 1956–57. 75 per cent. of this amount i.e., Rs. 22,800 shall be shared by the Government of India and the remaining amount of Rs. 7,600 shall be shared by the Government of Bombay. A provision of Rs. 20,400 on account of management expenses may, therefore, be made in the budget for 1956–57.

4. The provision of Rs. 10,000 on account of contribution of share capital to the Industrial Co-operative Societies from the Scheduled areas of Bombay State is made under "72, Capital Outlay–B-(*ii*) Investment in Commercial Concerns".

ITEM 260. Scheme for introduction of Rural Industrialisation (Visvesvarayya Scheme) in parts of Bombay State.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	10,000
Total	... „	10,000	Ultimate annual recurrent	... „	

Remarks.—It is proposed to implement the scheme for Rural Industrialisation, in different parts of the Bombay State during the Second Five-Year-Plan. This scheme is similar to the Visvesvarayya Scheme which is already being implemented in Mysore State. The Rural Industrialisation Scheme is based on self-help and its aims and objects are to increase gainful employment, spread habits of discipline and collective efforts among rural population and to make each village group a self administering and self-improving community. Under the scheme, groups each consisting of about 15 villages having a population of about 20,000 would be formed and they would be administered by the local committees consisting of social workers. The main function of the local committees would lie in whipping up local enthusiasm and harnessing all the available resources in aid of rural uplift by collecting popular contribution from the villagers. Setting up of industries by the individuals and through the industrial Co-operatives are advocated, greater stress being laid on the development of cottage industries.

2. It is proposed to implement the scheme in the State through the agency of the All-India Manufacturers' Organisation, Bombay, from the year 1956-57 onwards. The All-India Manufacturers' Organisation will be given an outright grant of Rs. 10,000 per year to work the scheme in close co-operation with the local committees. The details of working of the scheme will be worked out by the organisation. The popular contribution would be raised from each family in the selected villages of each group, at the rate of not less than Re. 1 per year. It is expected that the scheme would be introduced in 4 groups of villages, each having 1,500 families approximately, and about Rs. 6,000 would be collected by way of popular contribution per year.

3. Government has already sanctioned the scheme in June 1955 for being undertaken in the Community Project Areas of (*i*) Vijapur-Kalol, District Mehsana, (*ii*) Karvir-Panhala, District Kolhapur, Kolhapur and (*iii*) Hukeri-Gokak, District Belgaum, in the three regions of the Bombay State. The scheme is being implemented by the All-India Manufacturers' Organisation which has been sanctioned a grant of Rs. 50,000 for the purpose during 1955–56. It is proposed to extend the scheme to other parts of the Bombay State, through the agency of the All-India Manufacturers' Organisation which will be given a grant of Rs. 10,000 during the year 1956–57. The scheme may be sanctioned for two years from 1st April 1956 in the first instance.

ITEM 261. Scheme for development of Woollen Industry.

Recurrent	... Rs.	25,000	Non-recurrent	...	Rs. 64,000
Total	... ,,	89,000	Ultimate annual recurrent	...	,, ...

Remarks.—The Sheep Breeding Centres in Bombay State are being expanded and it is expected to obtain more and more improved wool in future. It is, therefore, essential in the interest of the cottage wool industry that the manufacturing processes followed by the cottages scale artisans should keep pace with the progress of sheep breeding and production of better type of wools. Accordingly, the following schemes have been proposed during the second Plan period in order to equip the industry with machinery and improved methods and to encourage production through direct financial assistance.

(*a*) Scheme for installation of testing machines and apparatus and a finishing plant at the wool ulilization Research Centre, Poona, or at the Village Industries Experimental Workshop, Poona.

(*b*) Scheme for establishing of mixing and carding units.

(*c*) Scheme for giving rebate on sale of handloom woollen goods.

(*d*) Scheme for purchase of samples of handloom woollen goods.

Scheme No. (*a*) *above.*—Adequate machinery for carrying out routine tests of wool yarn and cloth and a small scale finishing plant so that the products of the village industry could be processed and made more attractive are required. These will be installed either at the wool utilisation Centre, Poona, or the Village Industries Experimental Workshop, Poona. The details of total cost of the testing machines and installation of a finishing plant are shown below. The finishing Plant will be operated by the Technical staff of the department for the present. No extra staff is necessary at this stage.

Scheme No. (*b*) *above.*—Since the quality and fibre content of wool varies from region to region and from flock to flock, it is essential to off r the village spinners wool which is thoroughly mixed to a uniform grade so that goods of uniform colour and quality are produced. It is accordingly proposed to establish three centres for mixing and carding units. A trained operator will be necessary to handle each unit. It is proposed to operate the units departmentally in the initial stages and to hand them over to a co-operative society later. Of the three units one unit will be organised in the first year of the plan and two units will be added in the Second Year. The cost on this account has been shown below.

Scheme No. (*c*) *above.*—In order to raise the sales oi woollen goods which being coarse and inferior in finish cannot compete with fine Mill cloth it is proposed to give rebate at a flat rate of two annas per rupee on purchase of handloom woollen cloth on the lines of the rebate given on handloom cotton cloth. On the basis of production or handloom woollen cloth about Rs. 89,000 will be required for granting rebate to consumers of the handloom woollen goods during the first year. The Government of India would be approached for grant of financial assistance for this scheme.

Scheme No. (*d*) *above.*—In order to help the weavers Co-operation Societics to build up a trade in handloon woollen Industry it is proposed to purchase samples of the various varieties of handloom woollen cloth and distribute to them. A total provision of Rs. 19,500 on a flat rate would be required for five years. An amount of Rs. 3,900 would be required during the first year.

Details of cost involved on the above schemes are given below:—

Scheme No. (*a*).

	L. s.	Rs.
Recurring .. .. Rs. *Nil.*		
Non-recurring—		
(*i*) *Testing Machinery*		5,000
(*a*) Warp reel No. 4	40 9	
(*b*) Single thread tester No. 22	156 0	
(*c*) Fabris Strength tester (type 1 to 200 Lbs.)	187 9	
(*d*) Twist rester No. 7	40 17	
(*ii*) Installation of Finishing Plant		
(*a*) Milling and raising machine from U.K.	31,000	
(*b*) Import duty at 25 per cent.	18,900	
(*c*) Motors etc.	5,340	
(*d*) Construction of sheds to house the machinery	800	
(*e*) Installation charges, belts, accessories etc.	4,500	
	1,460	

MINISTER IN CHARGE—SHRI M. P. PATIL.

Scheme No. (b).

			Rs.
Recurring (For two units)—			
Pay of staff—			1,735
One Technical Assistant on Rs. 95 per mensem in the grade of Rs. 95—5—100—8—140—E.B.—10—200			1,130
One Mechnical Assistant on Rs. 55 per mensem in the grade of Rs. 55—3—85—4—125—5—140			605
Allowances and Honoraria—		Rs.	Rs.

One tape Divider.
One Ring Spinning Frame.
One Ring Twisting Frame.

Scheme No. (c).

Recurring	6,000

Grant of rebate on handloom woollen cloth at a flat rate of two annas per rupee.

Non-recurring	*Nil.*

Scheme No. (d).

Recurring—	
Purchase of handloom woollen samples	3,900
Non-recurring	*Nil.*
Total, Recurring	25,000
Total, Non-recurring	64,000
Total of Recurring and Non-recurring	89,000
Receipts expected during the year	1,500

The Government of India would bear the entire expenditure on this account during the financial year 1956-57 from the "Cess Fund".

ITEM 262. Scheme for the development of Coir Industry in the Bombay State.

Recurrent	... Rs. 13,000	Non-recurrent	... Rs. 3,000
Total	... ,, 16,000	Ultimate annual recurrent	... ,, ...

Remarks.—The State of Bombay accounts for an area of 30,000 acres (approximately) under cocoanut cultivation, the important cocoanut growing districts being North Kanara, Kolaba and Ratnagiri.

2. Taking an average yield of 79 trees per acre and 36 nuts per tree, the total plantation in the Bombay State would yield more than 8 crores and 20 lakhs of nuts per annum. Ordinarily 10,000 cocoanut husks would produce one ton of coir. Thus 8,200 tons of coir can be extracted from these husks every year from which 1,00,000 rolls of matting or 90,000 dozens of brush door mats of common size can be manufactured, providing employment to about 10,000 persons throughout the year.

3. As there is considerable scope for marketing coir goods, it is necessary to encourage this industry for which the following schemes are proposed to be undertaken during the Second Five-Year Plan :—

(*a*) Organisation of one peripatetic coir work school.

(*b*) Purchase of samples of coir goods.

(*c*) Rebate on sale of coir goods.

(*d*) Scheme for management and organisational expenses.

(*e*) Development of Coir Industry through Coir Co-operative Societies.

Scheme (*a*).—It is proposed to organise one peripatetic coir work school for imparting training to artisans in improved methods of production and adopting improved implements in coir industry. About 12 students will be admitted in the school and will be paid stipends at the rate of Rs. 25 in urban areas and Rs. 20 in rural areas.

Scheme (*b*).—There are at present only 4 co-operative societies in coir industry, three in Honavar taluka, district North Kanara and one at Vengurla, district Ratnagiri. It is proposed to organise 20 Co-operative Societies for coir work during the Second Five-Year Plan period and assist them for purchase of tools, equipments, construction of sheds and in providing working capital. During the year 1956–57 only 4 such societies would be organised.

Scheme (*c*).—In order to build up the trade in coir goods it is proposed to provide a grant of Rs. 4,000 for purchase of samples of coir goods and for distributing them in the State during the year 1956–57.

Scheme (*d*).—The present production is estimated to be about 160 tons of coir manufactured in the State giving part time and full time employment to about 3,000 persons. The total cost of coir produced in the State will be Rs. 1,00,000 at present. In order to encourage production and sale of coir goods it is proposed to give a subsidy of annas two per rupee as rebate towards the goods produced and sold through Co-operative Societies. The expenditure involved on the scheme would be Rs. 10,000 during the year 1956–57.

Scheme (*e*).—For the management and organisation of above 4 schemes it will be necessary to provide for expenditure at 5 per cent. of the cost of the schemes. It is accordingly proposed to appoint one Coir Supervisor in the grade of Rs. 150—10—200 under this scheme. The cost in respect of the above proposal for a period of eleven months during 1956–57 would be as under :—

Scheme No. (*a*).

	Rs.	Rs.
Recurring—		
Pay of Staff—		
(*a*) One Instructor at Rs. 70 per mensem in the grade of Rs. 70—3—85 ...		770
Allowances and Honoraria—

Travelling Allowance	150	
		580
Contingencies—		
Rent, sweeping charges	550	
Raw material viz. Coir Dyes, etc.	2,185	
		2,735
Scholarships—		
Scholarship to 12 students at the rate of Rs. 20 per mensem for 11 months		2,640
Total, Recurring ...		6,725
Non-recurring—		
Equipment and furniture		2,820
Total, Recurring and Non-recurring ...		9,545
Scheme No. (*b*) *Recurring*—		
Purchase of samples of coir goods		1,000
Scheme No. (*c*).—*Recurring*—		
Rebate on sale of coir goods		2,000
Scheme No. (*d*).—*Recurring*—		
Pay of Staff—		
One Coir Supervisor at Rs. 150 per mensem in the grade of Rs. 150—10—200		1,650

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

	Rs.	Rs.
Allowances and Honoraria—		
Dearness Allowance	550	
Travelling Allowance	800	
House Rent and Compensatory Allowance	275	
		1,625
Total, Recurring ...		3,275
II. *Non-recurring*—		
Furniture		180
Total, Recurring and non-recurring ...		3,455
Grand total recurring for all schemes		13,000
Grand total Non-recurring for all schemes		3,000
Grand total Recurring and Non-recurring for all schemes		16,000
Estimated receipts	2,250	

4. A separate New Item for Rs. 17,000 is put up on account of the scheme at (*e*) under "F—Loans and Advances".

The share of the Government of India would be approximately Rs. 16,635 for the first year of the Second Five-Year Plan.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

ITEM 263. Establishment of fisheries schools.

Recurrent	... Rs.	8,333	Non-recurrent	... Rs.	2,000
Total ...	... ,,	10,333	Ultimate annual recurrent	... ,,	

Remarks.—The present fisheries schools have proved exceedingly popular among fisher-folk who have been requesting the department of fisheries to open new fisheries schools for education of their children. It is, therefore, proposed to establish new fisheries schools in the Kolaba, Baroda and Broach Districts during the plan period, where there are no such schools at present.

Out of the total non-recurring expenditure of Rs. 2,18,000 a sum of Rs. 2,12,477 is proposed for providing buildings to the four schools already established at Sakrinata and Mithbao in the Ratnagiri District, Majali in the North Kanara District and Kolak in the Surat District. Out of the three new schools, one will be established during the first year of the Second Five-Year Plan and two during the second year of the Plan. Plans and estimates have been approved for the construction of buildings for the four established schools referred to above. The total expenditure of Rs. 3,34,000 (Rs. 1,16,000 recurring plus Rs. 2,18,000 non-recurring) will be incurred on the scheme.

The following staff will be required for each new school proposed to be established :—

	No. of posts
(1) Head Master in the scale of Rs. 70—5—130—E.B.—6—160—8—200 plus special pay at Rs. 15 per month	1
(2) Trained Assistant Teachers Rs. 40—1—50—E.B.—1½—65 plus special pay at Rs. 5 per mensem	3
(3) Workshop Superintendent—Rs. 115 (fixed)	1
(4) Peon—Rs. 30—½—35	1
(5) Watchman—Rs. 30—½—35	1

Details of the provision proposed for the financial year 1956-57 are as follows :—

	Cost during 1956-57.	
	Rs.	Rs.
Recurring.		
1. *Pay of Establishment*		4,345
1 Head Master in the scale of Rs. 70—5—130—E.B.—6—160—8—200 plus special pay at Rs. 15—Rs. 85 ...	1,020	
3 Trained Assistant Teachers in the scale of Rs. 40—1—50—E.B.—1½—65 plus special pay at Rs. 5—Rs. 45 ...	1,620	
Workshop Superintendent at Rs. 115 (fixed)—Rs. 115 ...	1,380	
Peon—Rs. 30—½—35—Rs. 30	360	
Watchman—Rs. 30—½—35—Rs. 30	360	

MINISTER IN CHARGE—SHRI G. D. TAPASE.

	Rs.	Rs.
2. *Allowances and Honoraria*—		2,992
Dearness Allowance—		
Head Master—Rs. 45	540	
3 Assistant Teachers—Rs. 35	1,260	
Workshop Superintendent—Rs. 50	600	
Peon and Watchman—Rs. 35	840	
House Rent Allowance to Watchman at Rs. 2—	24	
3. *Contingencies (Recurring)*—		996
(1) Rent of school building at Rs. 60 per mensem	720	
(2) Books, slates, pencils, etc.	276	
Total, Recurring	...	8,333
Total (Non-recurring)	...	2,000
Contingencies (Non-recurring)		
(1) Furniture	1,000	
(2) Workshop Tools and Articles	1,000	
	2,000	
Total	...	10,333

ITEM 264. Establishment of ice and cold storage plants and marketing of fish in the hinterland.

Recurrent	.. Rs.	*Nil.*	Non-recurrent	.. Rs.	27,000
Total	.. „	27,000	Ultimate annual recurrent	.. „	

Remarks.—Provision of adequate refrigeration facilities is essential to enable fishermen to preserve their catches in good condition and to regulate supply of fish to the market. With this end in view, it is proposed to establish two ice and cold storage factories at Malwan and Karwar respectively. The ice plants are proposed to be made available to fishermen's co-operative societies on loan-*cum*-subsidy basis, especially in the Ratnagiri and Kanara Districts where such facilities are lacking for the trade.

In order to give an effective impetus to marketing of fish in the interior, provision of freezers is also essential for preservation of unsold stock of fish so as to regulate supply. It is accordingly, proposed to purchase seven deep freezers at a total cost of Rs. 31,500.

The freezers will be allotted to fishermen's co-operatives who desire to establish fish stalls at suitable market places. These will be allotted on loan-*cum*-subsidy basis, the loan being repayable within a period of three years. It is also proposed to grant the societies subsidy to the extent of half the rent of the stalls for the first six months, the monthly rent of each stall being Rs. 48.

Total expenditure on the scheme will amount to Rs. 2,34,000 out of which Rs. 1,58,000 will be treated as loan and the remaining amount of Rs. 76,000 as non-recurring expenditure.

During the financial year 1956–57, the following expenditure is proposed to be incurred :—

	Rs.
Loans	83,000
Subsidy	27,000
	1,10,000

Details of expenditure are as follows :—

Item.	Subsidy. Rs.
One ice plant with a total cost of Rs. 1,00,000 ..	23,710
Two deep freezers each costing Rs. 4,500	3,000
Rental of two fish stalls at 50 per cent. of the rent, viz., Rs. 48 for six months	290
Total	27,000

New item for the loan provision has been put up separately.

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

ITEM 265. Mechanisation of fishing craft and introduction of mechanised equipment.

Recurrent	... Rs. 1,300	Non-recurrent	... Rs. 2,29,700
Total	... „ 2,31,000	Ultimate annual recurrent	... „

Remarks.—Development of fisheries of the State depends entirely on the measures taken by Government to increase production of fish. Mechanisation of indigenous fishing craft has helped considerably in the solution of this problem. In order to provide further impetus to the progress already achieved in respect of mechanisation of fishing craft, it is proposed to allot 275 marine engines during the plan period to the fishermen or their groups in Thana, Greater Bombay, Surat, Amreli, Broach, Kolaba, Ratnagiri and Kanara Districts on the basis of 50 per cent. subsidy and 50 per cent. loan. On the basis of the proportions of the loan and subsidy mentioned above, the total expenditure on 275 engines will be Rs. 27,50,000 at the rate of Rs. 10,000 per engine.

The State Government has purchased two winches for demonstration aboard mechanised craft. It is expected that these winches will prove helpful in operating longer nets with fewer hands, thus ultimately increasing the total production of fish. It is, therefore, proposed to purchase under the scheme five winches per year and allot them to groups of fishermen in the State on the basis of one-third subsidy and two-third loan. Each winch is estimated to cost Rs. 1,000. The total five year outlay on account of subsidies and loans at the rates indicated above will be Rs. 25,000.

Echo-sounders are now invariably used by fishermen in the West and in the U. S. A. as they help in the location of fish shoals and also in recording the depth of the sea. Their utility in the capture of fish is well recognised in many advanced countries. It is, therefore, proposed to obtain one echo-sounder under the T. C. M. Programme for holding demonstrations departmentally for information of the fishermen. The cost involved in the proposal is Rs. 8,800 out of which an amount of Rs. 6,500 represents recurring expenditure on account of the cost of the Generator and other equipment for the echo-sounder.

The total expenditure on the scheme during five years amounts to Rs. 27,91,000 as follows :—

Item.	Loan.	Subsidy and other Expenditure.
	Rs.	Rs.
1. Engine (275)	13,78,500	13,78,500
2. Winches (25)	16,670	8,330
3. Maintenance of the echo-sounder ...	.....	9,000
	13,95,170	13,95,830

Expenditure on the scheme in the financial year 1956–57 is indicated below :—

Item.		Subsidy and other recurring expenditure.
		Rs.
1. Cost of 45 engines at Rs. 10,000 per engine		2,25,000
2. Cost of 5 winches at Rs. 1,000 each		2,000
3. Expenditure on maintenance of the echo-sounder—		
Non-recurring.		
Cost of Generator and other equipment for the echo-sounder		2,700
		2,29,700
Recurring.		
1. *Pay of establishment*		1,300
Pay of an operator on Rs. 100 per mensem (fixed) for 8 months during the year—100 × 8	Rs. 800	
2. *Allowances and Honorarium*—		
Dearness Allowance at Rs. 45 per mensem—45 × 8 ...	Rs. 360	
3. *Contingencies*—		
Cost of oil	Rs. 140	
	1,300	
		2,31,000

New item for the loan provision has been put up separately.

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

ITEM 266. Demonstration of mechanised fishing in underdeveloped areas, and of monsoon fishing.

Recurrent	.. Rs.	*Nil.*	Non-recurrent	.. Rs.	58,000
Total	.. „	58,000	Ultimate annual recurrent	... „	

Remarks.—It is expected that the region to the south of Bombay, particularly Ratnagiri and Karwar Districts, will yield better results if the drift nets used by the fishermen, made on the same pattern in the north, are used in conjunction with power craft. It is, therefore, necessary to introduce power craft with adequate gear for exploitation of this region. Fishermen of this area, who have not been able to take advantage of Government's programme for mechanisation, will be greatly benefitted by the demonstration proposed in the scheme. Local fishermen will be initiated in the operation of nets aboard mechanised vessels so that ultimately they will be attracted towards mechanising their craft and will be convinced of the benefit accruing from the use of modern gear. The scheme will be in operation for three years and will be operated in Ratnagiri, Kanara and Kolaba Districts in consecutive years. For the operation of the scheme, a marine engine worth about Rs. 17,000 will be purchased from abroad. The following staff is proposed to be appointed :—

	Scale of pay.
One Gear Technician	Rs. 180—10—300.
One Mechanic Driver	Rs. 170 (fixed).
One Tindal	Rs. 120—10—200.
One Boatman	Rs. 90 (fixed).

With a view to utilising the monsoon season for the capture of fish, the Naval Architect of the F.A.O. has during his stay in Bombay prepared a design of a suitable boat which is estimated to cost Rs. 50,000 inclusive of the cost of the engine of 60 B.H.P. The object underlying the practice of monsoon fishing is to increase the supply of fish when the Bombay markets are practically without fish. Further, fishing during this period would help fishermen to increase their earnings and to utilise this idle period profitably. At present fishermen have to spend their time during the monsoon without any work and have to depend on the savings which are meagre. It is, therefore, proposed to build one boat of this type and hold demonstrations in monsoon fishing. The proposed scheme, if successful, will serve as an incentive to enterprising fishermen on the coast to acquire similar mechanised craft and thus add considerably to their earning capacity. The boat will be operated during fair season for capture of fish with mechanical equipment such as winches, echo sounders etc., and for suggesting fishing methods for idle periods of neat tides. The following staff is proposed to be appointed for implementation of this Scheme :—

	Scale of pay.
One Mechanic Driver	Rs. 170 (fixed).
One Gear Technician	Rs. 180—10—300.
One Tindal	Rs. 120 (fixed)
One Oilman	Rs. 90 fixed.

The total cost of the above proposal is Rs. 2,43,000 out of which Rs. 89,000 is non-recurring and Rs. 1,54,000 recurring. No staff will be appointed during the first year of the Plan.

Expenditure on the scheme during 1956-57 will be as follows :—

Non-recurring—

Contingencies—

	Rs.
1. Cost of hull for vessel to be used in the district	12,000
2. Cost of hull for vessel to be used at Bombay	22,000
3. Cost of 40 B.H.P. engine for districts	17,000
4. Cost of long line hooks	2,000
5. Cost of anchor, chains, life saving appliances, etc, for two vessels ..	5,000
	58,000

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

ITEM 267. Establishment of Marine Biological Research Station at Ratnagiri and intensification of marine biological research facilities at the Taraporevala Aquarium, Bombay.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	16,000
Total	... ,,	16,000	Ultimate annual recurrent	... ,,	

Remarks.—Scientific development of fisheries of any area is impossible without a thorough knowledge of its seas and their fish fauna. A comprehensive knowledge of the life histories of important food fishes available in the locality, their spawning grounds, feeding habits, seasonal migration brought about by such factories as the changes in the planktonic food, the chemical nature of waters and the population studies of different groups of fish helps judicious exploitation of fishery resources. With this object in view, it is proposed to establish marine biological research stations at Ratnagiri and also to intensify such research facilities at the Marine Biological Research Station attached to the Taraporevala Aquarium in Bombay. Land for the Research Station at Ratnagiri has already been acquired and construction has been undertaken by the Public Works Department. The building is expected to be ready during the first year of the Second Plan.

The following staff will have to be appointed at the two Research Stations at Bombay and Ratnagiri :—

	No. of post.	Scale of pay. Rs.
(*a*) *At Ratnagiri*—		
1. Curator (Gazetted Class II)	1	220—15—400—E.B.—20—500—25—650—(Mofussil).
2. Senior Research Assistant	1	140—10—250
3. Junior Research Assistant	1	100—8—180
4. Laboratory Attendant	1	46—3—85—E.B.—4—125—5—130.
5. Typist Clerk	1	46—3—85—E.B.—4—125—5—130.
6. Peons	2	30—½—35
7. Watchman	1	30—½—35
8. Field Collectors	2	30—½—35
9. Mechanic	1	60—4—100
10. Tank attendants	2	35—1—40
(*b*) *At Bombay*—		
1. Research Officer (Gazetted Class I): (Higher initial salary of Rs. 500 per mensem)	1	350—30—650—E.B.—45—1,100 (Mofussil).
2. Biologist (Higher initial salary of Rs. 250 per mensem).	1	200—10—300—15—450 (Mofussil).
3. Biochemist (Higher initial salary of Rs. 250 per mensem).	1	200—10—300—15—450 (Mofussil).
4. Peon to the Research Officer	1	35—½—40 (City).
5. Mechanic Driver	1	170 fixed per mensem (City).
6. Tindal	1	120—10—200 (City).
7. Boatman	1	90 per mensem (fixed) (City).

The scheme involves total expenditure of Rs. 4,18,000 during the period of the Second Five-Year Plan as follows :—

	Rs.
Capital	1,68,000
Recurring	1,74,000
Non-recurring	76,000
	4,18,000

During the financial year 1956–57, an expenditure of Rs. 16,000 is proposed to be incurred as follows :—

	Rs.
1. Furniture for Ratnagiri Research Station	2,000
2. Electrically driver pumps for Ratnagiri Research Station	6,000
3. Expenditure on conversion of the M. L. Mysis into a research vessel ..	8,000
Total ..	16,000

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

ITEM 268. Strengthening of staff of the Department of Fisheries.

Recurrent	... Rs.	33,875	Non-recurrent ...	... Rs.	1,000
Total	... ,,	34,875	Ultimate annual recurrent	... ,,	

Remarks.—The existing staff of the department is inadequate for execution even of current duties. This is due to the fact that activities of the department progressively increased during the last ten years since the inception of the department in 1945. In the past proper implementation of some of the schemes and furtherance of other activities was not possible due to inadequate technical and other staff. On auguration of the several schemes of the department for overall development of the State's fisheries, the entire shape and outlook of the department will undergo a change. For proper implementation of the schemes, scrutiny and supervision at every stage will be necessary. Thus, successful execution of the schemes depends on the employment of adequate staff. Accordingly, the minimum staff required for efficiency in work is proposed as follows :—

Post.	Number of posts.	Scale of pay.	Remarks
(a) Statistics.			
1. Statistical Officer ...	1	General State Service Class II, in the scale of Rs. 220—15—400 E.B.—20—500—E.B.—25—650 (mofussil).	It has not been possible to make such headway in assessing the progress made by the department and in implementing the recommendations made from time to time by the Government of India in respect of collection of fishery statistics, due mainly to want of requisite staff, for the purpose. An economic survey of the fishing industry, which has made considerable progress in recent years, is also urgent. Statistical data is often required by the Universities, the Government of India and other departments of this Government. It is, therefore, proposed to open a statistical section attached to the department. The Officer will be in charge of the Statistical Section.
2. Statistical Assistant ...	1	Rs. 170—10—280—15—340 (City).	He will be in charge of the Statistical Branch at Head Office.
3. Statistical Investigators, each at Ratnagiri, Karwar, Baroda, Thana and Bombay.	6	Rs. 85—5—100—8—140—E.B.—10—220 (Mofussil).	The work of preliminary survey and collection of statistics will be entrusted to the Investigators in the district.
4. Senior clerks in the Offices of the Superintendents of Fisheries, Ratnagiri, Karwar, Bulsar and Baroda.	4	Rs. 100—8—140 ...	The Offices of the Superintendents of Fisheries in the mofussil are at present over burdened with the work arising from implementation of the department's schemes, grant of loan and administration of the fisheries schools and fish curing yards. The statistics will be initially collected in the offices of the Superintendents and then submitted to the head office. In view of considerable expansion in the scope of duties attached to the office of the Superintendents, creation of these posts is necessary.
5. Typist-clerk ...	1	Rs. 75—5—140—E.B.—6—200 (City).	The posts will be attached to the statistical. Section at the Head Office.
6. Peon ...	1	Rs. 35—½—40 (City).	
(b) Administrative.			
1. Superintendent of Fisheries (Inland), Bombay.	1	General State Service, Class II in the scale of Rs. 220—15—400—E.B.—20—500—E.B.—25—650 (Mofussil).	Activities of Inland Fisheries Section will be considerably increased on implementation of the several inland fisheries schemes during the plan period. At present this work is supervised by the Assistant Director of Fisheries in addition to other duties entrusted to him. Supervision over the work of stocking and inspection of rivers, tanks and sheets of fresh water by an independent officer is necessary for intensification and co-ordination of the department's activities in this direction.

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

Post.	Number ber of posts.	Scale of pay.	Remarks.
2. Junior Superintendent (Loans and Accounts).	1	Rs. 250—10—300—15—345 (City)	The accounts, establishment and loans work of the department has steadily increased from year to year during the last ten years. There being no subordinate Heads of Offices in the department, the work involving transactions of several lakhs of rupees and heavy financial commitments is attended to in the Head Office. The transactions pertain to administration of fish curing yards, fisheries schools, Taraporevala Aquarium, several subordinate offices in the mofussil and the fisheries Technological Laboratory. The scheme for manufacture of shark liver oil has been classified as a commercial concern and, accordingly, accounts of the scheme are maintained on a commercial system of accounts. The several accounts transactions arising in implementation of the schemes and in grant of loans which now exceeds Rs. 40 lakhs require careful supervision. The establishment work in respect of several officers and about 350 non-gazetted incumbents will also be intensified during the Plan period. The total expenditure on the schemes of the department in Second Five-Year Plan amounts to several lakhs of rupees in addition to loans of several lakhs of rupees in addition to loans of several lakhs which involve long range commitment. There being no Supervisory Gazetted post either of an Accounts Officer or an Establishment Officer, the proposed supervisory post is necessary.
3. Junior Superintendent (General).	1	Rs. 250—10—300—15—345 (City).	The administrative work pertaining to the existing schemes and the schemes in the Second Five-Year Plan will have to be carefully scrutinised at every stage to achieve the desired object. In addition to this, the work arising out of the T. C. M. programme of the U. S. A. for development of our fisheries and the various reports to be submitted thereunder, the F. A. O. scheme for training of fishermen and the Grow More Food schemes need careful attention. Under inland fisheries also several new schemes have been undertaken. For this purpose formation of 3 to 4 new branches at the Head Office is necessary for proper supervision over the work. Prompt attention to the several aspects of the schemes will be necessary for proper implementation of the schemes. As the Plan envisages implementation of 18 fisheries development schemes in addition to the volume of current duties the correspondence in the branches will considerably increase. The supervisory post of the Junior Superintendent is, therefore, necessary for attendance to the correspondence on the schemes.
4. Recovery Officer (Loans).	1	Rs. 200—10—300 (City)	At present considerable difficulty is experienced in the recovery of loans exceeding Rs. 40,00,000 so far granted by the department. This is due to the fact that contact with the Revenue, Customs and other authorities is necessary for effective recovery of the loans. In the Plan period the financial commitment of the department on loans will steadily rise. It is the experience of this office that prompt and personal contact with the Revenue Officers ensures recovery of loans. In view of heavy rise in the current loans work the recovery work will have to be separated and entrusted to a Senior member of the staff. Accordingly, the post of Recovery Officer is proposed for the said work.
(c) *Staff for Kolaba Division.*			
1. Superintendent of Fisheries, Kolaba.	1	General State Service Class II in the scale of Rs. 220—15—400—E.B.—20—500—E.B.—25—650 (Mofussil).	For implementation of various development schemes of the department in the Kolaba District, post of a Superintendent of Fisheries was created some years back; but it was retrenched in 1951 on the recommendation of the Officer on Special Duty (Retrenchment). The merger of the ex-State of Janjira in this District has in fact increased the scope for development of fishing industry in this District. The fishermen of the District are considerably backward as compared to their counterparts in the north of Bombay and it is necessary that they should be made alive to the changes in the industry during recent times. It is also necessary to survey the coast, provide port facilities and arrange for the recovery of Government loans amounting at present to about Rs. 6,00,000. It is therefore, necessary to establish a division of this department in the District in the interest of development of fisheries of the State.
2. Typist clerk ...	1	Rs. 46—3—85—E.B.—4—125—5—130.	The post is proposed for the Divisional Office of the Superintendent in the district.
3. Peon ...	1	Rs. 30—1—35 ...	Do. do.

The scheme involves a total expenditure of Rs. 2,80,000 (Rs. 2,79,000 recurring and Rs. 1,000 non-recurring).

During the financial year 1956-57 and expenditure of Rs. 34,875 only will be incurred (Rs. 33,875 recurring *plus* Rs. 1,000 non-recurring) *vide* details attached.

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

	Rs.	Cost during 1956-57 Rs.
Recurring—		
1. *Pay of Officers*—		6,540
1. Statistical Officer in the scale of Rs. 220—15—400—E.B.—20—500—E.B.—25—650 (Mofussil) for 6 months in the first year. Higher starting pay at Rs. 340 to deserving candidate	2,040	
2. Superintendent of Fisheries (Inland), Bombay, in the scale of Rs. 220—18—400—E.B.—20—500—E.B.—25—650 (Mofussil)	2,640	
3. Superintendent of Fisheries Kolaba, in the scale of Rs. 220—15—400—E.B.—20—500—E.B.—25—650 (Mofussil)	2,640	
	7,320	
2. *Pay of Establishment*—		15,605

	Total ...	34,875

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 269. Expansion and reorganisation of Research Institutions of Cottage and Village Industries at Poona.

Recurrent ...	... Rs.	36,000	Non-recurrent ...	... Rs.	14,000
Total ...	... ,,	50,000			

Remarks.—The Industrial Co-operatives and Village Industries Section of the Co-operative Department is maintaining the following Research Institutions at Poona for the purpose of undertaking research and experiment in the methods of production in cottage Industries equipment for cottage and village industries, and the Government has sanctioned the expenditure and staff for each institution as mentioned against it :—

(*a*) *Village Industries Experimental Workshop.*

(*i*) One Superintendent in the grade of Rs. 220—650.

(*ii*) One clerk in the grade of Rs. 100—8—140.

(*iii*) One Draughtsman in the grade of Rs. 80—5—130.

(*iv*) One Store keeper in the grade of Rs. 46—3—85—E.B.—4—125—5—130.

(*v*) One clerk in the grade of Rs. 46—3—85—E.B.—4—125—5—130.

(*vi*) One Master Mechanic in the grade of Rs. 100—8—140.

(*vii*) One Turner in the grade of Rs. 92—4—120.

(*viii*) One Carpenter in the grade of Rs. 72—4—100.

(*ix*) One smith in the grade of Rs. 70—3—85.

(*x*) Two semi-skilled men in the grade of Rs. 40—1—50.

(*xi*) One peon in the grade of Rs. 30—½—35.

(*xii*) One watchman (Night) on Rs. 30 per mensem.

(*xiii*) Day time watchman at Rs. 25 fixed.

(*b*) *Village Industries Research Laboratory.*

(*i*) One Chemist in the grade of Rs. 150—10—300.

(*ii*) Two Assistant Chemists in the grade of Rs. 100—8—140—10—200.

(*iii*) One store-keeper-*cum*-clerk in the grade of Rs. 100—8—140.

(*iv*) One Laboratory boy in the grade of Rs. 30—1—40.

(*v*) One peon in the grade of Rs. 30—½—35.

(*vi*) One senior clerk in the grade of Rs. 100—8—140—10—150 (for head office).

(*c*) *Small Research Laboratory*-cum-*sample Production Centre, Poona.*

(*i*) One Superintendent-*cum*-Weaving Master in the grade of Rs. 160—10—230.

(*ii*) One Fancy Jobber in the grade of Rs. 140—5—170.

(*iii*) Five Weavers in the grade of Rs. 61—3—85.

(*iv*) One clerk-*cum*-store keeper in the grade of Rs. 46—130.

(*v*) One peon in the grade of Rs. 30—½—35.

(*vi*) One watchman in the grade of Rs. 30—½—35.

(*d*) *Dyeing and Printing Experimental Laboratory, Poona.*

(*i*) One Assistant Chemist (Dyeing) in the grade of Rs. 140—8—180.

(*ii*) One Master Printer in the grade of Rs. 90—5—130.

(*iii*) One peon in the grade of Rs. 30—½—35.

43. *INDUSTRIES*—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

3. Recently the Karve Committee has emphasized the importance of the small scale industries. With the increased scope of cottage industries, the need for constant research and experimentation, with a view to rationalising the production under cottage industries, has become more and more important. It is also proposed to undertake during the Second Five-Year period, certain schemes in the interest of the educated unemployed. For these various development schemes, the workshop is bound to undertake not only research activities but also engineering and training activities. It is proposed to reorganise all the research institutions stationed at Poona and to organise them as one unit under the control of only one officer. At present the Superintendent in charge of the Village Industries Experimental Workshop is looking after the activities of the workshop and the glass section only and all the remaining institutions are at present directly in correspondence with the Joint Registrar. This leads to an increase in the work at Head Office. It is, therefore, proposed to place the Superintendent in charge of all the Research institutions and the persons in charge of the research institutions at Poona would be working as Assistant Superintendents in charge of various sections under the control of the Superintendent. This would lead to an integrated control of all research activities, for which the Superintendent would be held responsible. The question of delegating to the Superintendent, with necessary powers administrative and financial would be considered separately. In addition to the present research and manufacture activities undertaken by the workshop, the workshop would have also to undertake additional functions of having practical tests of technical personnel and management of the poly-technic. As the work proposed to be done under the Second Five-Year Plan schemes justified the necessity of appointment of additional staff to cope up with the increasing work, the Superintendent would be assisted by two Deputy Superintendents, i.e. (Deputy Superintendent) (Eng.) and (*ii*) Deputy Superintendent (trg.). To indicate an integrated control and the exact nature of activities of the unit that would be organised as a result of merger of research institutions, the name of the present (Village Industries Experimental Workshop, Poona) would be changed to that of "The Small Industries Research Institute, Poona" and the remaining research institute would form sections of the institute. The reorganised set up would be as follows :—

The Small Industries Research Institute, Poona.

(*i*) *General Administrative Section*—

(*a*) One Superintendent in the grade of Rs. 410—1,100.

(*b*) One Deputy Superintendent (Engineering) in the grade of Rs. 220—650. (Existing post).

(*c*) One Deputy Superintendent (Training) in the grade of Rs. 220—650.

(*ii*) Engineering Section [Directly under the Control of the Deputy Superintendent (Eng.)].

(*iii*) Chemical Section [(in-charge of Assistant Superintendent "Chem.") in the grade of Rs. 200—10—300].

(*iv*) Handloom Section [in-charge of the Assistant Superintendent (Handlooms)] in the grade of Rs. 200—10—300.

(*v*) Dyeing and Printing Section [in-charge of Assistant Superintendent (Dyeing and Printing), in the grade of Rs. 200—10—300].

(*vi*) Glass Section (in-charge of Assistant Superintendent, "Glass") in the grade of Rs. 200—10—300.

(*vii*) Oil Ghani Section (in-charge of Assistant Superintendent "Oil") in the grade of Rs. 200—10—300.

(*viii*) Poly-technic (in-charge of Deputy Superintendent, training).

3. The expenditure on the existing and expansion of research activities during the first year of the Second Five-Year Plan would be as under :—

A. *Recurring.*

Pay of Establishment—

Existing Staff—

1. (*Village Industries Experimental Workshop, Poona*) (*to be named as Engineering Section*)—

(*i*) One Superintendent (to be named as Deputy Superintendent under reorganisation) in the grade of Rs. 220—15—400—E.B.—20—500—E.B.—25—650.

(*ii*) One clerk in the grade of Rs. 46—130.

(*iii*) One Draughtsman in the grade of Rs. 80—5—130.

(*iv*) One Store-keeper in the grade of Rs. 46—130.

(*v*) One senior clerk in the grade of Rs. 100—8—140.

(*vi*) One Master Mechanic in the grade of Rs. 100—8—140.

(*vii*) One Turner in the grade of Rs. 92—4—120.

(*viii*) One carpenter in the grade of Rs. 72—4—100.

(*ix*) One smith in the grade of Rs. 70—3—85.

(*x*) Two semi-skilled men in the grade of Rs. 40—1—50.

(*xi*) One peon in the grade of Rs. 30—1—35.

(*xii*) One watchman (night) on Rs. 30 per mensem (fixed).

(*xiii*) One watchman (daytime) on Rs. 25 (fixed).

43, INDUSTRIES—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

Existing Staff—

2. *Village Industries Research Laboratory, Poona (to be named as Chemical Section)*—

(*i*) One Chemist in the grade of Rs. 150—10—300 [to be named as Assistant Superintendent (chem.) in the grade of Rs. 200—10—300].

(*ii*) Two Assistant Chemists in the grade of Rs. 100—8—140—10—200.

(*iii*) One Store-keeper-*cum*-clerk in the grade of Rs. 100—8—140.

(*iv*) One laboratory boy in the grade of Rs. 30—1—40.

(*v*) One peon in the grade of Rs. 30—½—35.

(*vi*) One senior clerk in the grade of Rs. 100—8—140—10—150 (for Head Office).

Existing Staff—

3. *Small Research Laboratory*-cum-*sample Production Centre, Poona (to be named as handloom section)*—

(*i*) One Superintendent-*cum*-Weaving Master in the grade of Rs. 160—10—260 [to be named as Assistant Superintendent (Handlooms) in the grade of Rs. 200—10—300].

(*ii*) One Fancy Jobber in the grade of Rs. 140—5—170.

(*iii*) Five Weavers in the grade of Rs. 61—3—85.

(*iv*) One clerk-*cum*-store-keeper in the grade of Rs. 46—130.

(*v*) One peon in the grade of Rs. 30—½—35.

(*vi*) One watchman in the grade of Rs. 30—½—35.

Existing Staff—

4. *Dyeing and Printing Experimental Laboratory to be named as (Dyeing and Printing Section)*—

(*i*) One Assistant Chemist in the grade of Rs. 140—8—180.

(*ii*) One Master Printer in the grade of Rs. 90—5—130.

(*iii*) One peon in the grade of Rs. 30—½—35.

5. The expenditure during 1956-57 will be as follows :—

Expansion Staff.

ITEM 270. Scheme for establishment of a Production Centre in chrome uppers and picking bands.

Recurrent ...	Rs.	30,000	Non-recurrent ...	... Rs.	20,000
Total	,,	50,000	Ultimate annual recurrent	,,	...

Remarks.—There are very few factories in Bombay State which manufacture chrome uppers required for the manufacture of shoes, etc. and also picking bands which are required by the Textile Mills. The State has to depend on imported leather chrome and picking bands. Every year large quantities of leather goods are purchased by the Central Purchasig Officer, Bombay, through the leather Workers' Co-operative Societies, but the societies have to depend on goods which are purchased out of Bombay State. It is estimated that the requirements of zug-grain leather would be about 60,000 sq. ft. With a view to meeting the demand, it is proposed to establish a production centre. There is also a large number of Textile Mills, which require substantial quantities of picking bands, and to meet this demand to some extent a production centre is proposed. Since the scheme is included in the Second Five-Year Plan, it is necessary to continue it for a period of 5 years in the first instance. Government of India will give a loan of Rs. 1,92,300 for working capital for raw materials and wages, etc. once only, and it has to be utilised by rotation and hence it was suggested to be taken as Non-recurring expenditure. But since the system of P. L. A. is not to be continued, the amount for working capital has been shown as recurring expenditure. The entire amount has, however, not been provided as the centre would not work in full swing for want of construction of building anp installation of machinery, etc. The working capital has been provided for 6 months only in the First-Year. For the next year onwards full provision would be necessary and the same will be suggested under recurring. The sales proceeds will be credited into treasury. The details of expenditure involved during 1956–57 are given below :—

(For six months only).

Recurring—

	Rs.	Rs.
1. *Pay of Establishment*—		
(a) Manager in the grade of Rs. 220—10—300 at Rs. 200 per mensem (Class II Bombay State Co-operative Service).	1,200

43, INDUSTRIES—B-COTTAGE INDUSTRIES—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 271. Scheme for development of Sericulture Industry in the Bombay State.

Recurrent	.. Rs.	25,000	Non-recurrent	.. Rs.	25,000
Total	.. „	50,000	Ultimate annual recurrent	„	...

Remarks.—It is proposed to expand the activities of the Government Silk Farm, Hindalge, district Belgaum and to provide for additional measures for the development of Sericulture Industry in the Bombay State during the Second Five-Year Plan. The following schemes are therefore included in the plan.

(a) *Scheme for establishment of Nursery Station.*—This scheme contemplates establishment of Nursery Station at the Government Silk Farm, Hindalge, for carrying out studies in moriculture life cycles of different varieties of silk worms of foreign breeds and hybreeds and qualities and yield of cocoons of different breeds etc. It is proposed to import Japanese mulberry and silk works through the Central Silk Board for the Nursery Station. The expenditure involved for the sanction of the scheme during the first year is given below :—

(b) *Scheme for purchase of cocoons from the agriculturists.*—The agriculturists have at present to take the cocoons to the Silk Farms to get them reeled which takes a pretty long time. They thus waste their energy and time. It is therefore necessary to introduce a scheme for outright purchase of cocoons as and when tendered by the agriculturists and pay them cash on the spot as recommended in the Survey Report by the Assistant Secretary, Central Silk Board. This involves some loss which may have to be borne by Government initially. The loss is likely to be reduced when the quality of cocoons produced by the agriculturists improves. The cost involved on the first year of the worming of the scheme is given below.

(c) *Scheme for rearing of chawki worms.*—The early part of the silk worm rearing up to 2nd and 3rd moult which is denoted by the term "chawki rearing" requires very careful attention. It is therefore proposed to start two chawki worm rearing centres one in Belgaum and another in Dharwar Districts. During the subsequent years of the Second Five-Year Plan, it is proposed to start three more centres by stages. The work will be taken up at the Sericulture Farm under the supervision of the Demonstrator of the Farm. It will be necessary to supply chawki worms free of charge to the agriculturists to encourage them to take to the sericulture industry until they are convinced of the benefits of the industry.

(d) *Scheme for supply of chandrikas to the agriculturists free of cost.*—It is proposed to sanction during the second five year plan period, grants for the supply of chandrikas free of cost to some families of the agriculturists on the condition that they will be utilised for carrying on the sericulture industry till they are worn out or they should be returned to Government in good condition if the agriculturists discontinue the pursuit of the industry. Chandrikas may also be supplied to sericulture Farms. The distribution work and the proper utilisation of the equipment will be attended to by the existing propaganda staff and no extra staff will be necessary. The details of expenidture are given below.

(e) *Scheme for management and for propaganda for the development of Sericulture industry.*—It is proposed to appoint the additional staff during the Second Five-Year Plan period for the purpose of carrying on propaganda and intensification of the activities undertaken for the development of sericulture industry in the State. The expenditure on account of pay and allowances and coatingeneies and non-recurring during the first year of the scheme is given below :—

Details of expenditure involved on all the five schemes for the first year of their implementation are given below :—

(A) *Scheme for establishment of Nursery Station.*

	Rs.
Recurring—	
(a) *Pay of staff for 11 months*—	2,420
(1) One Research Assistant at Rs. 100 per mersem in the grade of Rs. 100—8—8—140—10—150	1,100
(2) One Rearing Operatives each at Rs. 50 per mensem in the grade of Rs. 50—2—60	550
(3) One Laboratory boy at Rs. 30 per mensem in the grade of Rs. 30—1—40.	330
(4) One Mali at Rs. 40 per mensem in the grade of Rs. 40—1—50...	440

The share of the Government of India would approximately be Rs. 29,000 for the first year of the Second Five-Year Plan.

ITEM 272. Scheme for establishment of a production centre in Pit tanned leather.

Recurrent	.. Rs.	15,000	Non-recurrent ..	.. Rs.	8,000
Total ..	.. „	23,000			

Remarks.—Pit tanned leather which is superior to bag tanned leather is not manufactured on a large scale in Bombay State. The leather is required for the manufacture of Ammunition Boots, etc. Every year orders for supply of a large number of ankle boots are received through the Central Purchasing Officer, Bombay, and the Societies have to purchase leather from Kanpur or use bag tanned leather which is inferior, etc. It is, therefore, proposed to establish a production centre to meet the demand of the Central Purchasing Officer, Bombay. The centre will also encourage other tanners to follow up pit tanning. Since the scheme is included in the Second Five-Year Plan it is necessary to continue it for a period of five years, in the first instance. Government of India will give a loan of Rs. 1,10,500 for working capital for raw materials and wages, etc., once only, and it has to be utilised by rotation and hence it was suggested to be taken as non-recurring expenditure. But since the system of Personal Ledger Account is not to be continued, the amount for working capital has been shown as recurring expenditure. The entire amount has, however, not been provided as the Centre would not work in full swing for want of construction of building and installation of machinery, etc. The working capital has been provided for six months only in the first year. For the next year onwards full provision will be necessary and the same will be suggested under recurring. The sale proceeds will be credited in the Treasury. The details of expenditure involved during 1956–57 are given below :—

ITEM 273. Scheme for organisation of a Poly-technic Institute in Cottage Industries at Poona.

Recurrent	... Rs.	15,000	Non-recurrent ...	... Rs.	8,000
Total	... ,,	23,000	Ultimate annual recurrent	... ,,	

Remarks.—The Industrial Co-operatives and Village Industries section of the Co-operative Department is entrusted with training of artisans in cottage industries in improved methods of production and thereafter to bring them in Co-operative fold by organising in co-operative societies of these artisans This section maintains number of training institutions in the State for the purpose. These schools are at present supervised for their day to day activities by the district staff which has in many cases no technical knowledge about the cottage industries and the work of the institutions therefore suffers a lot. In case these officers are given basic training covering the utility and advantages of improved tools and equipment the different raw materials used in these industries, their availability, prices, etc. the different processes adopted in the manufacture of these products, their economics, etc., it would be possible for the district supervisory staff to do the supervision more efficiently. With this aim in view, it is proposed to organise a training institute at Poona where arrangement for short term training of these Officers could be made. This institute will not only cater to these requirements but also be handy in organising refresher courses for the instructors of the technical training schools of the section. Some persons will be admitted for training in the industries viz., cotton and wool weaving, hosiery, carpentry and smithy, tanning and leather and chemical and other miscellaneous industries for the course of six months. Two terms are expected to be completed during the year. Some of those trained persons (outsiders) may be recommended by instructors and assistant instructors for the technical schools maintained by this section and thus this institute will remove the dearth of technical persons which is very badly felt at present. The institute will also serve as a research institution where improved designs in equipment and production can be taken up and after obtaining the desired results the same can be introduced in the industry through the departmental schools or the district staff trained at the institute. The stipends at the rate of Rs. 40 per mensem each would be paid only to the outsiders. Admission will be kept open to all the persons desiring to settle in the industries having a sufficient general education, etc., which would be prescribed by the Joint Registrar for Industrial Co-operatives and Village Industries, Poona looking to the general trend and response. The outside trainees who would be coming from outside Poona would be paid actual third class railway fares to and from not exceeding Rs. 40 each.

2. The cost involved on the working of the scheme during the first year for 11 months is given below :—

(7) Chemicals and Miscellaneous Industries	500	
	6,500	
(*c*) Furniture for Office Library and Show-room		1,000
(*d*) One Wall Clocks, one type-writer, one fire extinguishers, one cycle, one cash box, first aid box		500
Total, Non-recurring	...	8,000

Grand Total for First Year—

	Rs.	
I. Recurring	15,000	
II. Non-recurring	8,000	
Total	...	23,000

The share of the Government of India would be Rs. 18,000 for the first year of the plan.

ITEM 274. Scheme for unemployment relief-*cum*-Vocational training-*cum*-production centres.

Recurrent	.. Rs.	15,000	Non-recurrent	.. Rs.	85,000
Total	.. „	1,00,000	Ultimate annual recurrent	... „	

Remarks.—In the draft Second Five-Year Plan, it has been stated that an increase in employment opportunities must be regarded as a principal objective—the kingpin of the Second Five-Year Plan. The creation of a large number of jobs in order to absorb the unemployed and under-employed should be regarded as a part of any programme for giving adequate employment opportunities. Employment opportunities may have to be provided not only in times of scarcity when a large part of the population would have to be temporarily absorbed, but also for those agricultural and landless labourers who after the peak of the agricultural employment season have little or nothing to do for the purpose of maintaining themselves. During this period, such agricultural labour should be enabled by means of training and by being actually employed in production activities not only to acquire training in an art which they may pursue later but also to be engaged in gainful occupation.

MINISTER IN CHARGE—SHRI M. P. PATIL.

2. The target of such employment may be fixed at 7,000 in whole of the Bombay State. Naturally it will not be convenient for a large number of people to congregate together and work at one place. Bringing together such a large number of people itself would create further complications. Consequently it is proposed to organise between 1 or 2 centres in each district (40 centres in Bombay State during the Five Years of the Plan) and to provide employment opportunities to about 150-200 people in each centre. Of those, some will be of the nature of nucleus labour force who may stick on throughout the year, some will probably be trained and employed for about 6 months, while the remaining may not continue for more than a period of 3 months. Most of these would require training in some industries or the othe r and the training period would have to be anything between one month and 8 months depending upo the quality and skill of the unemployed person as well as on the nature of the industry which has to be picked up. A large portion of the products manufactured by these persons would not be saleable at the market price because of the fact that they may not be up to the quality. In those centres which are located near about the big industrial cities and towns, attempts will be made to contact the large and small scale industries and take up for production at these relief centres component parts or accessories of larger items of industrial output. Such production would only have to be done by the semi-permanent nucleus labour force at the centre.

3. Each centre would require technical, supervisory and instructional staff. During the time when there is not enough work at the centre, such will be used as service agents for helping the individual artisans and the industrial co-operative societies in the roundabout areas. In addition to this, supervision at the district level and supervision at the state level are also absolutely necessary. In consequence of the type of production by the type of people intended to be employed and in view of the fact that a large portion of the period of the working of these centres would be utilised in training the unskilled workers, it is not expected that the receipts will be more than 75 to 80 per cent. of the raw materials invested Certain substantial amounts will, therefore, have to be provided as marketing subsidy in order that the goods may be marketed;

4. The cottage industries intended to be taken up at these centres are given in the following illustrative lists :—

1. Manufacture of bricks.
2. Manufacture of tiles.
3. Manufacture of lime.
4. Manufacture of Mortar.
5. Spinning.
6. Rope Making.
7. Coir Industry.
8. Collecting of seeds of non edible oil.
9. Collection of bones and bonemeal industry.
10. Pottery (Village Pottery).
11. Cotton thread buttons.
12. Mat making industry including straw, grass and leaves.
13. Bamboo mats and baskets, etc.
14. Glass bead making.
15 Fibre industry.
16 Umbrella Manufacture.
17 Footwear industry.
18 Palm leave products.
19. Newer and tape making.
20. Shoe lace and cyclets making.
21. Hosiery.

22. Timber cutting and sawing.

23. Blacksmithy and tinsmithy.

24. Batara manufacture.

25. Handmade paper industry.

26. Packing industry (card board and timber box and paper bag making).

27. Agarbatti.

28. Making of component parts of large scale and small scale industries.

29. Any other industry which is suitable for a particular locality.

5. Wherever possible the activities of these centres will be linked up with the activities of co-operative farming societies in order to employ a large number of the members of such societies who will be unemployed for certain periods in a year. The Bombay Village Industries Board will also be requested and other non-official agencies will also be requested to help in implementation of the scheme by taking up work in respect of these industries which they look after. The advice in the matter of service, investigation and supervision services of the Regional Small Industries Service Institute and the marketing assistance of the small scale Industries Marketing Service Corporation to be established will be taken in ample measure so that the marketing difficulties could be reduced.

6. During the year 1956-57, 3 centres would be taken up for organisation. The supervisory and administrative staff proposed to be organised under the scheme will undertake the survey of starting the centres at various places, visit the centres, hold the meetings etc. The estimated expenditure involved during the year 1956-57 is as follows :—

	Rs.
Non-recurring—	
Equipment and furniture (for 3 centres) and other equipment for office including typewriters etc.	85,000
Recurring (for 11 months)—	
I. *Pay of staff*—	
1. Two Technical District Officers in the grade of Rs. 200—10—300 ...	2,200
2 One Senior clerk in the grade of Rs. 100—8—140—10—150 ...	1,100
3. One Junior clerk in the grade of Rs. 46—3—80—4—125—5—130 at Rs. 55 p. m.	605
4. 3 peons in the grade of Rs. 30—½—35	990
5. 3 Instructors for 3 centres (to look after the organisation work) for 6 months in the grade of Rs. 100—5—150	3,300
6. 3 Watchmen to look after equipment etc. for 6 months 30—½—35 ...	540
	8,735
II. *Allowances and Honoraria*—	
1. Dearness allowance	3,100
2. House rent allowance	500
3. Compensatory local allowance	500
4. Travelling allowance	965
	5,065
III. *Contingencies*—	
1. Rent	600
2. Contingent expenditure, postage, stationery, etc.	6,000
...	1,200
Total of Recurring expenditure ...	15,000

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

Summary of Expenditure.

				Rs.
Recurring	...	...	...	15,000
Non-recurring	..	...	...	85,000
			Total ..	1,00,000

ITEM 275. Development of—Pottery Industry—Establishment of State Central Pottery Service Station and Starting of Production activities.

Recurrent ..	.. Rs.	6,000	Non-recurrent ..	.. Rs.	22,000
Total ..	.. „	28,000	Ultimate annual recurrent ..		

Remarks.—The following schemes have been undertaken by Government for the development of pottery industry in this State :—

(*i*) The Government Pottery Demonstration Centre, Khanapur, District Belgaum.
(*ii*) The Art Pottery Section attached to (*i*) above, Khanapur.
(*iii*) The scheme for the development of Village Pottery.
(*iv*) The expansion of the Government Pottery Demonstration Centre, Khanapur.
(*v*) Geological Survey of Ceramic Raw materials.

The scheme Nos. (*i*), (*ii*) and (*iii*) are training nature while the schemes at item Nos. (*iv*) and (*v*) are intended to give additional fillup to industry.

2. The necessity, therefore, has arisen to help the trained artisans to pursue the industry by making available necessary preliminaries for the industry. The essential feature of the present scheme is the establishment of a State Central Pottery Service Station which is expected to take up the work of preparing ready raw materials, glazes, colours, moulds and other required small tools, for supply to either the co-operative societies or individual artisans. The Station would also serve as a testing and experimental laboratory, and undertake to solve the problems in the industry. It is neither possible nor economical to possess the processing machinery at each individual manufacturing centre and at the residence of the artisan. The manufacturing processes in the Glazed Pottery Industry have necessarily to be decentralised and specialised so that the artisan will have a complete opportunity to utilise his skill in the shaping of the articles and need not bother over the compositions, etc. of glazes and colours, which are highly technical and complicated. This object is expected to be achieved by the establishment of the State Central Pottery Service Station. It is proposed to have this station in existing Government building with necessary additions and alterations to suit. It is also expected that necessary electrical energy would be available.

3. A production Section would be attached to the Government Pottery Demonstration Centre, Khanapur, which would be provided with additional tools and equipment.

4. The Ceramic Chemist now in charge of the development of Pottery Industry, is proposed to be deputed for Study tour of the methods and type of organisation of such Service Centres in Japan and other foreign countries. After his return, he would work as a Ceramic Expert. Meanwhile, an additional remuneration of Rs. 75 has been provided in the scheme.

5. The details of expenditure for 11 months for the year 1956–57 are as under :—

	Rs.	Rs.
A. *Recurring*—		
(*a*) *Pay of establishment*—		
(*i*) One Ceramic Expert in the grade of Rs. 220—650 (Class II) Bombay Co-operative Service	2,420	
(*iii*) One peon in the grade of Rs. 30—½—35 ...	330	2,750
(*b*) *Allowances and Honoraria*—		
(*i*) Dearness allowance	1045	
(*ii*) Travelling allowance	955	2,000
(*c*) *Contingencies*—		
(*i*) Postage and other miscellaneous office expenditure ...	.....	1,250
Total, Recurring ...		6,000

	Rs.	Rs.
B. *Non-recurring*—		
(*i*) *Machinery and equipment*—		
Central Pottery Service Station—		
Workshop equipment for carpentry and Smithy ...	3,000	
Electric fittings ...	1,000	
Office furniture and equipment, including type-writer ...	1,000	
	5,000	
Production Centre—		
Working tables and furniture	1,000	
Potters' wheels and jigger and Jolly	1,000	
Weighing equipment	500	
Push carts	500	
Bullock cart with bullocks	500	
Hardware (Pickaxes, etc.)	500	
Electric furnace	2,000	
Electric fittings and accessories	500	
Electric motors	500	
Pipes and fittings	2,000	
Erection and miscellaneous charges	500	
Packing equipment etc.	500	
	10,000	
Buildings—A—		
Expenses for deputation of the Ceramic Chemist abroad		7,000
		22,000
Total, Recurring ...		6,000
Total, Non-recurring ...		22,000
Grand Total ...		28,000

The share of the Government of India would be Rs. 14,000 for the first year of the Second Five-Year Plan.

ITEM 276. Scheme for manufacture of Screw-drivers, Locks, etc.

Recurrent ..	Rs.	6,000	Non-recurrent ..	Rs.	44,000
Total ..	„	50,000	Ultimate annual recurrent ...		

Remarks.—To bring co-ordinated efforts between large central factories and small scale engineering workshop, equipped with suitable machinery tools, the Small Scale Industries Board under the Ministry of Commerce and Industry, Government of India has under consideration, schemes for production in a decentralised manner, Small Hand-tools, Tools like screw-drivers, spanners, etc., which would fall under this category. The manufacturing processes involved are not very complicated. Some of the processes require power-operated automatic machinery. Such processes can be carried out in a Central Factory located in a District Head Quarters and the remaining operations would be carried out in Small Scale Factories in a village nearby. In the initial stages some sort of training will have to be given to the personnel for a period of about six months. If possible, advantage can be taken of existing workshops and equipment wherever possible for this purpose to minimise the cost of organising Central Units. It is proposed to organise one centre for manufacture of screw-drivers, etc. during the Second Five-Year Plan period.

2. In view of the scope for development of manufacture of padlocks and looking to the position of market in regard to availability of good quality locks, it is proposed to organise two centres for manufacture of padlocks during the Second Five-Year Plan period. The paucity of trained labour will have to be made good by making arrangements for training of the workers at the Village Industries Experimental Workshop, Poona, and to start with the manufacture of galvanised iron and brass padlocks in different sizes.

3. During the year 1956-57 the work regarding construction of buildings, purchase of machinery etc., for organisation of three Centres *viz.* one each in manufacture of screw-drivers and padlocks would

be undertaken. The details of the expenditure for 11 months involved during the year 1956-57 are given below :—

	Rs.
Non-recurring—	
(i) Tools, equipments and machinery	40,000
(ii) Furniture and fixture	4,000
Total, Non-recurring ..	44,000
Recurring (for 11 months only)—	
(*a*) Pay of Staff—	
(i) One District Officer in the grade of Rs. 150—10—200	1,650
(ii) One Senior clerk in the grade of Rs. 100—8—140—10—150	1,100
(iii) One peon in the grade of Rs. 30—½—35	330
	3,080
(*b*) Allowances and Honoraria—	
(i) Dearness allowance	1,400
(ii) House rent allowance and compensatory local allowance	500
(iii) Travelling allowance	400
	2,300
(*c*) Contingencies, etc.	620
Total, Recurring ..	6,000
Summary of Expenditure—	
Recurring	6,000
Non-recurring	44,000
Total ..	50,000
Estimated receipts	*Nil.*

The share of the Government of India would be approximately Rs. 26,000 during the first year.

ITEM 277. Scheme for the development of Tanning and Leather Working Industries and management organisation expenses, etc. at 2 per cent. of the total expenditure.

Recurrent	.. Rs.	67,588	Non-recurrent	.. Rs.	25,125
Total	.. „	92,713	Ultimate annual recurrent	.. „	

Remarks.—(1) *Construction of Tanning, Liming Pits.*—The Major processes of tanning are generally done in pits. The penetration of tanning and liming liquors is even if the pits are big enough to accommodate the raw hides and skins when they are put in the pits for the purpose of processing. Big pits also enable sufficient space to be obtained for the handling of the material. In order that the tanning industry may be improved, it is essential to have pits of uniform and adequate size. In some places in the Bombay State, Individual artisans as well as members of co-operative societies have built pits on modern lines, but compared to the large population of tanners, the number of pits is hardly adequate. Many tanners use earthen pots of small size which do not give satisfactory results so far as the leather which is processed in these pits is concerned. Similarly tanning and liming liquors are allowed to remain in pits for months together. If the liquors are kept for a longer time, they get fermented and emit a bad smell. The old earthen pots have no outlet to throw out the 'Spent up' liquors. The modern pits are so designed and constructed so as to enable the quick and easy flow of the old liquors as soon as they are not required. It would not be possible to undertake construction of pits for all the tanners in the Bombay State in view of the large number of persions employed in the industry. It is, therefore, proposed to select 40 tanners' co-operative societies, in the first year which would be taken up for special development. Each society would require on an average 15 pits for 15 members. In all 600 pits would, therefore, have to be constructed on modern lines. The cost of construction of each pit is estimated at Rs. 75. The total assistance that would, therefore, be required for 600 pits (40 societies at 15 pits each) is 600 × 75 or Rs. 45,000. It is suggested that in view of the economic and financial position of the tanner, who are very poor, 75 per cent. of this amount may be treated as a loan carrying a nominal rate of interest payable in 5 equal annual instalments and the remaining 25 per cent. may be treated as a subsidy. In order to have a proper check and effect prompt recovery of loans, each of the 15 pits constructed by the society would be allotted to an individual tanner who will be made to execute an agreement with the society

to the effect that he will purchase the raw materials and sell the finished products through the society and be responsible to the society for the prompt repayment of the loan. During the subsequent years of the five-year plan, 10 societies will be taken up for intensive development every year.

(2) *Purchase of tools and equipment.*—The 40 co-operative societies that would be taken up for special development would require assistance for the purchase of modern tools (in addition to the tools they have) for their tanning members. It is proposed that assistance to the extent of Rs. 50 per tanner for this purpose may be sanctioned. The total number of members that would require assistance is, therefore, 600 (40 × 15). The total assistance that would be required is, therefore, 600 × 50 or Rs. 30,000. The tools so required would be shaving knives, fleshing knives, wooden beams, copper slickers, whitening slickers, glass slickers, staker, rapas and rappies. 25 per cent. of this amount may be treated as a subsidy and the remaining 75 per cent. as a loan at a nominal rate of interest repayable in easy instalments.

(3) *Construction of sheds and tanneries.*—It is observed that in many cases tanners have no sufficient space to work, to store their raw materials, tanning materials and finished goods. In order to encourage the development of the tanning industry through co-operatives, it is necessary to provide assistance to the societies for the purpose of construction of sheds and tanneries. The site of each tannery and she would approximately be 40′ × 15′ and it is estimated that the cost of each would be Rs. 4,000. The total assistance that would be required for this purpose is, therefore, 40 × 4,000 or Rs. 1,60,000 during the first year.

(4) *Marketing.*—Marketing is the key stone of any development programme for cottage industries. At present there is no proper organisation for marketing the finished products of the individual tanner or tanners' co-operative societies. Tanners are generally illiterate and are exploited by the middlemen who take away a substantial portion of the profits. Many co-operative societies of these tanners are not able to market the finished products of their members, as these societies have no depots in which to store the finished goods, nor any working capital to buy the finished goods of the individual tanners. As a result of this, the middlemen and merchants buy the finished goods from the tanners at a very low and unremunerative rates. The Provincial Industrial Co-operative Association Limited, has established a Sales Depot in Bombay and the progress of this institution during the last two years is satisfactory. A few tanners' co-operative societies are taking advantage of this Depot. In view of the cost of transport involved in despatching the finished goods from the important tanning centres, it is not possible for one Depot situated in Bombay to cater for the requirements of many of the tanners' societies. It would, therefore, be necessary to establish marketing depots at places close to the tanning centres and where the demand for tanned leather from the leather working centres is prominent. The important leather working centres where it is initially required to establish such depots are Surat, Sholapur, Bijapur, Kolhapur and Ahmednagar. It is proposed to run these depots through the District Industrial Co-operative Associations to whom all the tanners' co-operative societies are affiliated. The District Industrial Co-operative Associations are apex institutions in the districts which should act effectively in respect of marketing of the finished products of the affiliated societies. It is proposed to stablish in the first instance one depot at each of the 5 places mentioned above. The cost involved in running each depot is as follows :—

(*a*) *Recurring Expenditure*—

	Rs.
Manager at Rs. 100 per mensem in the grade of Rs. 100—8—140	1,200
Rent at Rs. 50 per mensem	600
Contingencies Rs. 50 per mensem	600
Total ..	2,400
(*b*) Working capital at Rs. 15,000 per depot	15,000
Total for each depot ..	17,400
Therefore for 5 depots ..	87,000

The assistance required for recurring expenditure may be given in the form of outright grant and the working capital as a loan at a nominal rate of interest to the District Industrial Co-operative Associations repayable in easy instalments. Therefore, the assistance required would be as follows :—

	Grant.	
	Rs.	Rs.
Management cost for 5 depots 5 × 2,400 ..	12,000	....
Working capital for 5 depots	....	75,000

During the subsequent years of the plan it is proposed to establish 4 similar depots in Satara, Poona, Ahmedabad and West Khandesh—one in each year. The expenditure on this account is included in the Five Year Plan.

(5) *Working capital for Teanners' Co-operative Societies.*—It is observed that the majority of the tanners, co-operative societies and individual tanners do not get sufficient work as they have no adequate funds for the purchase of raw hides for the purpose of tanning. As a majority of them are in a very bad way, it is not possible for them to obtain loans or cash credits from central financing agencies. It is, therefore,

necessary that some assistance should be given to the tanners and their co-operative societies for working capital to enable them to buy hides for the purpose of tanning. The assistance that is proposed to be given to the tanners and their co-operative societies for the purchase of tools and equipment, for the construction of a tannery, for the construction of lining and tanning pits, and to District Industrial Co-operative Associations for the purpose of establishing marketing depots would not be effective until working capital is provided to tanners and their co-operative societies for the purpose of enabling them to buy raw hides and carry on the work of tanning. It is proposed to make the working capital available through the tanners' co-operative societies as it is desirable to rehabilitate the tanning industry on a co-operative basis. Each society would have on an average about 15 members and about Rs. 500 would be required for working capital for each member. 40 societies are proposed to be taken up for special development in the first year. Therefore, the total amount of assistance that would be required in the form of working capital would be 40 × 15 × 500 or Rs. 3,00,000. The conditions under which the loan would be disbursed to the societies would be the same as those obtaining at present in the case of loan which are sanctioned.

(6) *Assistance for purchase of tools and equipment for leather workers' Co-operative Societies.*—According to the Bombay Economic and Industrial Survey Committee's Report, it is estimated that there are about 36,000 workers engaged in the leather working industry. Of these, it is estimated that only 10,800 are engaged in small scale and large scale industries and the rest are engaged in the leather working industry on a cottage basis. As a result of the drive for organising tanners on a co-operative basis, a number of co-operative societies has been formed. As in the case of the tanning industry, the leather working industry has suffered because of the fact that the leather workers are poor and do not get adequate financial assistance for the purchase of tools and equipment and for working capital. It is proposed that initially 30 societies of leather workers should be taken up during the 1st year for special development and the members of the societies should be given loans and subsidies for the purchase of tools and equipment. It is estimated that approximately Rs. 850 would be required for the purchase of these modern tools and equipment per society. These include a sewing machine for each society. The total for 30 societies therefore comes to Rs. 25,500 . 25 per cent. of this amount may be made available in the form of a grant and the remaining 75 per cent. in the form of a loan at nominal rates of interest and repayable in easy instalments.

(7) *Working capital for leather workers' societies for purchase of Raw Materials.*—The leather workers and their co-operative societies also need working capital for the purchase of raw materials. However, these processes adopted by the leather workers are not so lengthy as in the case of tanning industry. It is also possible for them to dispose of their finished products much more easily. The leather workers are, therefore, in a position to carry on their industry with a small working capital. It is, therefore, proposed that a loan of Rs. 300 should be given to each leather worker through the co-operative society, as working capital for the purchase of raw materials. As in the case of tanners, the leather workers will be made to execute an agreement with the society agreeing to bind themselves to purchase the raw materials from the society and to sell their finished products through the society. It is proposed to take up 30 societies for special development in the first year with a total membership of 450 (15 members in each), the assistance that would be required for the purchase of raw materials through the leather workers' co-operative societies would be 30 × 15 × 300 or Rs. 1,35,000. This assistance may be made available in the form of a loan at a nominal rate of interest repayable in easy instalments.

(8) *Scheme for organisational and supervisory staff.*—It has been proposed above to take up 40 tanners' co-operative societies and 30 leather workers' co-operative societies for intensive development during the first year. It has also been mentioned that the tanners and leather workers generally have meagre resources and co-operative societies of these artisans cannot function successfully, unless they are constantly guided, supervised and technically advised. Prompt disbursement of the loans and grants sanctioned, ensuring of the proper utilisation of the financial assistance granted, constant guidance with a view to making improvements in the processes of tanning and leather working, supervision over the societies with regard to the maintenance of their accounts and periodic examination as well as inspection of the societies with a view to satisfying the small scale Industries Directorate Government of India as well as the State Government about the efficient working of the societies, demand certain organisational and supervisory staff which is absolutely necessary if adequate results are to be obtained. For this purpose the following assistance would be required.

	Rs.
(a) *Recurring—(for 11 months)*—	
8 Tanning Demonstrators in the scale of Rs. 80—4—120	7,040
1 Tanning Supervisor in the scale of Rs. 150—10—200	1,650
4 Leather Working Demonstrators in the scale of Rs. 80—4—120	3,520
2 Leather Working Supervisors in the scale of Rs. 150—10—200 (2 × 150 × 11).	3,300
Dearness allowance and other allowances	5,940
Dearness allowance and other allowances	1,650
Contingencies	3,438
Travelling Allowance	3,960
Travelling Allowance	2,475
Total ..	32,973

As the work would increase with the increase in the number of societies it may be necessary to appoint additional staff consisting of two Supervisors and two Demonstrators and accordingly additional provision on the appointment of this staff has been made from 3rd year onwards.

		Rs.
(*b*) Management grant at half the cost per each Secretary for 40 tanners' co-operative societies and 30 leather workers' societies. 70 × 225 ..		15,750
Total (*a*) and (*b*) ..		48,723
(*c*) *Recurring*—(for 11 months).		
1. *Pay of establishment*—		
(*a*) Head Clerk in the grade of Rs. 150—10—200 at Rs. 150 per mensem	Rs. 1,650	
(*b*) Senior Clerk in the grade of Rs. 100—8—140 at Rs. 100 per mensem	1,100	
(*c*) 2 Junior Clerks in the grade of Rs. 46—130 at Rs. 55 per mensem	1,210	
		3,960
2. *Allowances and Honoraria*—		
(*a*) Dearness Allowance	2,035	
(*b*) House Rent and Compensatory Allowance	770	
		2,805
3. *Contingencies*—		
Miscellaneous expenditure such as stationery, postage, etc.		100
		6,865

10. The scheme is for the period of five years from 1956-57. The details of expenditure are as indicated below :—

Serial No.	Name of the scheme.	Grant.
		Rs.
(1)	Construction of tanning, liming pits	11,250
(2)	Purchase of tools and equipment	7,500
(3)	Construction of Sheds and Tanneries	....
(4)	Marketing	12,000 (Recurring).
(5)	Working capital for tanners' co-operative societies	....
(6)	Assistance for purchase of tools and equipment for leather workers' co-operative societies	6,375
(7)	Working capital for leather workers' societies for purchase of raw materials	....
(8)	Management grant	15,750 (Recurring).
	Total ..	52,875

2. Organisational and supervisory staff—Rs. 32,973.

Grand Total—Rs. 92,713.

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—DR. JIVRAJ N. MEHTA.

ITEM 278. Staff for the collection of Industrial Statistics from the remaining 34 organised Industries and other Registered Factories.

Recurrent	.. Rs.	39,672	Non-recurrent	.. Rs.	2,500
Total	.. „	42,172	Ultimate annual recurrent	.. „	

Remarks.—Collection of proper industrial statistics and their compilation is essential for the industrial development and its planned progress. Recognising this, the Industrial Statistics Act was passed by the Central Government in 1942 and the Census of Manufacturing Industries Rules were framed thereunder in 1945. For this purpose, industries are divided into 63 broad categories and at present census returns are being obtained from registered factories using power and employing more than 20 workers in respect of 29 industries only. Thus about 1,500 out of a total of about 7,500 factories furnish the census returns, *i.e.* only 20 per cent. of the factories are covered so far.

Having regard to the present level of the industrial development of the Bombay State, the greater emphasis being laid on industrial development during the Second Five-Year Plan period and importance attached to the development of small scale industries, it is considered that the collection of census returns from about 20 per cent. of the industrial establishments of the State is too inadequate to form a realistic picture of the conditions and to be able to visualise the developments necessary. The need to collect such statistics from the remaining industrial establishments of the State is keenly felt so as to fit in with our development plans.

It is, therefore, proposed to collect industrial statistics in suitable manner from (1) the remaining 34 industries by stages (as is done at present in the case of 29 industries) *i.e.* from factories using power and employing more than 20 workers and (2) collection of statistics at suitable intervals and stages from the remaining factories, *i.e.* factories not using power and those using power but employing less than 20 workers. It is thus expected that census returns from a large number of registered factories would be obtained. Regular compilation of the statistics so obtained is another important aspect of the problem. So far no systematic compilation of the statistics is being done. As such the statistics obtained are of little use to the industry and trade.

It is, therefore, proposed to take this work during the Second Five-Year Plan and to sanction for the same the following additional staff :—

1.	Industrial Statistician	1	Rs. 350—785.
2.	Senior Industries Inspectors	3	Rs. 160—375 (Mof.).
3.	Junior Industries Inspectors	10	Rs. 150—225 (Mof.).
4.	Junior Superintendent	1	Rs. 270—390.
5.	Head of Branch	1	Rs. 170—250.
6.	Noting Assistants	2	Rs. 150—230.
7.	Clerks	6	Rs. 75—140.
8.	Steno-typist	1	Rs. 75—140 plus speed allowance.
9.	Typists	2	Rs. 75—200.
10.	Peons	3	Rs. 35—40.

The details of expenditure involved on this scheme during the year 1956-57 are as follows :—

	Provision for 1956—57 (six months).	Annual average cost.
	Rs.	Rs.
I. Pay of Officers—		
One post of Industrial statistician in the scale of Rs. 350—30—650—E.B.—45—785 plus Conveyance allowance at Rs. 40 per month (basic).	2,100	7,216
	2,100	7,216

MINISTER IN CHARGE—DR. JIVRAJ N. MEHTA.

II. Pay of Establishment—	Rs.	Rs.
Three posts of Senior Industries Inspectors in the scale of Rs. 160—10—250—10—300—E.B.—15—375 (Mofussil) plus Conveyance Allowance at Rs. 10 per mensem basic.	2,880	9,717
Ten posts of Junior Industries Inspectors in the scale of Rs. 150—7—180—8—225 (Mofussil) plus Conveyance Allowance at Rs. 10 per mensem basic.	9,000	23,500
One post of Junior Superintendent in the scale of Rs. 270—20—390.	1,620	4,296
One post of Head of Branch in the scale of Rs. 170—10—250.	1,020	2,712
Two posts of Noting Assistant in the scale of Rs. 160—10—230 each.	1,800	4,944
Six posts of clerks in the scale of Rs. 75—5—140—E.B.—6—200.	2,700	9,432
One post of Steno-typist in the scale of Rs. 75—5—140—E.B.—6—200 plus speed allowance at Rs. 40 per month.	690	2,062
Two posts of Typist in the scale of Rs. 75—5—140—E.B.—6—200.	900	3,144
Three posts of peons in the scale of Rs. 35—½—40 ..	630	1,368
	21,240	61,165
III. Allowances Honoraria, etc.—		
Travelling Allowance (fixed)	1,092	2184
Travelling Allowance (ordinary)	1,500	3,000
Dearness Allowance	9,510	19,020
House Rent and other allowances	2,730	5,676
	14,832	29,880
IV. Contingencies—		
Non-recurring—		
Purchase of furniture, steel cupboards, etc. ..	2,500	
Recurring—		
Service postage and Miscellaneous expenditure ..	1,500	3,000
	4,000	3,000
Grand Total ..	42,172	1,01,261

The following is the estimated expenditure on this scheme during the Second Five-Year Plan period.

Year.	Expenditure.
	Rs.
1956-57	42,172
1957-58	89,919
1958-59	87,537
1959-60	86,357
1960-61	89,015
Total ..	3,95,000

43, INDUSTRIES—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 279. Scheme for financial assistance to hereditary and trained artisans from Nomadic Tribes.

Recurrent	.. Rs.	*Nil.*	Non-recurrent	.. Rs.	18,750
Total	.. „	18,750	Ultimate annual recurrent	.. „	

Remarks.—Government has authorised the Deputy Registrars to sanction financial assistance to Backward Class Artisans up to Rs. 2000 for purchase of tools and equipment and for working capital to start or develop cottage industries. Government has also authorised the Joint Registrar for Industrial Co-operatives and Village Industries, Bombay State, Poona to sanction financial assistance up to Rs. 6,000 in case of joint applications from Backward Class Artisans. Experience has, however, shown that Backward Class Artisans are not able to take advantage of this scheme because they are not in a position to furnish adequate security either in the form of mortgage of immovable property or personal sureties as is required under the rules prescribed by Government. The artisans of Nomadic Tribes have, therefore, received practically no assistance under this scheme so far. Secondly under another scheme proposed to be included in the Second Five-Year Plan, it is proposed to train persons from Nomadic Tribes under certain cottage industries. These persons after training will require some financial assistance so as to enable them to start the industries for which they will receive training and thus to settle down in life.

2. It is, therefore, proposed to give a financial assistance up to Rs. 1,000 to hereditary and trained artisans from Nomadic tribes during the Second Five-Year Plan Period. A portion of the assistance would be for purchase of tools and equipment and the remaining portion will be for purchase of raw materials and a portion of working capital. The proportion of the financial assistance for these two purposes will depend upon the requirement in each case. 25 per cent. of the assistance given to an artisan would be treated as subsidy while the remaining 75 per cent. of the assistance will be treated as loan free of interest repayable in 50 equal monthly instalments. The assistance will be given on the personal security only of the artisan, *i.e.* the grantees will not be required to give any security either in the form of mortgage of immovable property or personal surety. They will, however, be required to execute an agreement with Government for repayment of the loan. Financial assistance would generally be limited to artisans who may not be more than 40 years old and in special cases not more than 50 years old. The number of artisans proposed to be assisted and the financial assistance in the form of loans and subsidies proposed to be given during the different years of the Second Five-Year Plan Period are given in the statement attached herewith.

3. Thus the total expenditure under the scheme during the Second Five-Year Plan period would be Rs. 6,50,000 the whole of which will be borne by Government of India.

4. During the year 1956-57 an amount of Rs. 75,000 would be spent under this scheme. A provision of Rs. 75,000 is, therefore, made in the budget for 1956-57.

5. The provision of Rs. 50,250 on account of loans is made under "P—Loans and Advances".

Statement showing the number of Artisans to be assisted during the Second Five-Year Plan Period.

Year.	No. of persons to be assisted.	Amount of Loan.	Amount of Subsidy.	Total.
		Rs.	Rs.	Rs.
1956-57 ..	75	56,250	18,750	75,000
1957-58 ..	175	1,13,250	43,750	1,75,000
1958-59 ..	100	75,000	25,000	1,00,000
1959-60 ..	200	1,50,000	50,000	2,00,000
1960-61 ..	100	75,000	25,000	1,00,000
Total ..	650	4,87,500	1,62,500	6,50,000

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 280. Scheme for organisation and grant of financial assistance to the labour contract societies of Nomadic Tribes.

Recurrent	.. Rs. 5,800		Non-recurrent	.. Rs.	*Nil.*
Total	.. „ 5,800		Ultimate annual recurrent	.. „	*Nil.*

Remarks.—Government gives preference to the Labour Contract Societies, in the matter of entrusting labour contract works of the Public Works Department and the Forest Department. The District Local Boards and the Municipalities have also been advised by Government to entrust their contracts to such societies. The agency of labour contract societies is also to be utilised for the execution of different labour contract works to be undertaken under the Second Five-Year Plan. The number of such works would be considerably large. In order, therefore to meet the requirements for the several contracts it would be necessary to organise sufficient number of labour contract societies. A scheme for organisation of and grant of financial assistance to the labour contract societies has, therefore, been included in the Second Five-Year Plan under " Cottage Industries ". These labour contract societies are, however, generally formed of labourers who reside more or less permanently at particular places and who are working under one or the other agencies as manual labourers. There are, however, certain Nomadic Tribes in this State who do not stay permanently at one place but wander from place to place for earning their livelihood. These people generally do manual work. With a view therefore to rehabilitate these people by providing them some source of more or less continuous earning, it is proposed to organise labour contract societies of people belonging to Nomadic Tribes in this State. The financial position of these people being very poor, it would be necessary to assist such co-operative societies liberally so as to ensure proper and smooth working of such societies. It is, therefore, proposed to organise 15 labour contract societies of Nomadic Tribes during the Second Five-Year Plan period and to give them financial assistance as detailed below :—

Year.	No. of Societies to be organised.	Contribution of to R. F. of these societies at the rate of Rs. 2,000 each.	Loan for Working capital at the rate of Rs. 3,000 per Society.	Salary of overseer at the rate of Rs. 150 (consolidated) per overseer.	
				No.	Amount.
		Rs.	Rs.		Rs.
1956-57	.. 2	4,000	6,000	1	1,800
1957-58	.. 4	8,000	12,000	2	3,600
1958-59	.. 3	6,000	9,000	3	5,400
1959-60	.. 3	6,000	9,000	4	7,200
1960-61	.. 3	6,000	8,800	4	7,200
Total	.. 15	30,000	44,800		25,200

From the above statement, it would be seen that for the first year of the Second Five-Year Plan, an expenditure of Rs. 11,800 will be necessary. The whole cost of the scheme will be borne by the Government of India. A provision of Rs. 11,800 therefore, is made during the year 1956-57.

2. The scheme has been admitted in the Second Five-Year Plan prepared by the Government in Rehabilitation, Housing and Backward Class Department and it will be implemented by the Joint Registrar for Industrial Co-operatives and Village Industries, Poona.

ITEM 281. Scheme for organisation and grant of Financial Assistance to Forest Labourers' Co-operative Societies.

Recurrent	.. Rs. 67,500		Non-recurrent	.. Rs.	*Nil.*
Total	.. „ 67,500		Ultimate annual recurrent	.. „	*Nil.*

Remarks.—The number of forest labourers' societies which was only 11 as on 30th June 1948 has increased to 143 as on 30th September 1955. Further with a view to organise forest labourers' into co-operative societies and to arrange exploitation of forest produce, its marketing, etc. through them, it is proposed to organise 125 new forest labourers' societies in Bombay State during the Second Five-Year Plan period, at the rate of 25 societies per year, of which 15 will be in the scheduled areas of this State and the remaining 10 societies would be organised in the non-scheduled areas of this State per year. Experience has shown that the main reason in the unsuccessful working of some of the forest labourers' societies is that they were not in a position to secure the services of efficient hands because of lack of resources at their disposal. It is, therefore, proposed to assist the new as well as some of the existing forest labourers'

societies, by way of contribution to their share capital at the rate of Rs. 3,000 per society, by way of grant-in-aid for management expenses at the rate of Rs. 1,200 per year for the first 2 years of the working of the new forest labourers' societies which would be organised during the plan period, and by way of grant-in-aid of Rs. 1,500 per society for welfare activities for the first three years to the new forest labourers' societies which would be organised during the Plan period. The details of the number of societies that would be assisted and the amounts of assistance to be given during each year of the Second Five-Year Plan are given in the statement attached herewith.

2. Thus the total expenditure under the scheme for the five years would amount to Rs. 12,18,000 the whole of which will be borne by the Central Government.

3. It may thus be observed that during the year 1956-57 an amount of Rs. 2,65,500 would be spent under this scheme. A provision of Rs. 2,65,500 is, therefore, made in the budget for 1956-57.

4. The provision of Rs. 1,98,000 has been made under " 72—Capital Outlay. "

Statement showing the details of number of societies that would be assisted and the amount of assistance to be given during each year of the Second Five-Year Plan.

ITEM 282. Scheme for organisation of 6 industrial training centres for Nomadic Tribes in Bombay State.

Recurrent	.. Rs.	57,750	Non-recurrent	.. Rs.	42,250
Total	.. ,,	1,00,000	Ultimate annual recurrent	... ,,	

Remarks.—There are many communities in Bombay State classified as "Nomadic Tribes." They lead very poor life and are not able to earn enough to maintain a base level of subsistence. It is, therefore, quite necessary to take steps to improve their economic conditions and try to rehabilitate some of them in cottage and village industries so that they will earn their livelihood by honourable means as is done by the rest of the communities.

2. In order to rehabilitate them in some of the cottage industries, it is necessary to provide facilities for training them in different cottage industries. As these tribes are nomadic, it is essential to provide them with a residential accommodation during the training period. The trainees will be given stipends at the rate of Rs. 25 per mensem to enable them to maintain themselves. It is, therefore, proposed to organise 3 industrial Training Centres for Nomadic Tribes, at the places where a concentrated population of these tribes is available, for instance at Baroda, Sholapur, Dharwar etc. Each centre will consist of two classes *viz.* (1) Carpentry and smithy and (2) Tailoring. One fibre work class will be organised in addition to these two classes at only one centre which will be organised in Sholapur District. Twenty students will be admitted for training in each class. The duration of training course in carpentry and smithy will be 1½ years, and that in Tailoring and Fibre work will be one year. Efforts will be made to organise them into co-operative societies after the completion of the training or they will be granted financial assistance individually under a separate scheme, to enable them to settle in the industries they are trained.

MINISTER IN CHARGE—SHRI M. P. PATIL.

3. During the year 1956-57, steps will be taken to select the locations of the Centres, secure the building required for accommodating the centre as well as for residential purpose. Similarly steps will be taken to select the students, to select the staff and to procure the raw materials, tools and equipment required for the centres. It is expected that the centres will actually start functioning during the second half of the year 1956-57. In view of this, the provision for recurring expenses has been made for six months only, during the year 1956-57. The details of the estimated expenditure during 1956-57 are given below. The Scheme has been admitted in the Second Five-Year Plan prepared by the Government in Rehabilitation, Housing and Backward Class Department for Backward Classes and it will be implemented by the Joint Registrar for Industrial Co-operatives and Village Industries, Poona.

	Rs.
Non-recurring—	
(i) Tools, equipment and Furniture for schools and office—	
(*a*) Carpentry and Smithy (3 Classes) 5000×3	15,000
(*b*) Tailoring (3 classes) 6000×3	18,000
(*c*) Fibre work (one class)	9,000
(*d*) Furniture for office	250
Total, Non-recurring ..	42,250
Recurring—	
(A) Pay of staff (for 6 months)—	
(i) 3 Instructors in Carpentry and Smithy in the grade of Rs. 100—5—150 .	1,800
(ii) 3 Assistant Instructors in Carpentry and Smithy in the grade of Rs. 72—4—100	1,796

Tailoring	4,500
Fibre Work	625
(ii) Repairs, renewals, etc.	300
(iii) Stationery, postage, sweeping charges, etc.	500
Total ..	11,925

MINISTER IN CHARGE—SHRI M. P. PATIL.

		Rs.
(D) Scholarships at Rs. 25 per month each for 6 months. 130 trainees. 130 × 25 × 6		19,500
	Total, Recurring ..	57,750

Summary of estimated expenditure—

Non-recurring	42,250
Recurring	57,750
Total ..	1,00,000

Estimated receipts during the year 1956-57 are Rs. 6,675

ITEM 283. Scheme for grant of loans and subsidies to Backward Class Artisans trained at the Industrial Peripatetic and Other Schools.

Recurrent ..	Rs.	*Nil.*	Non-recurrent ..	Rs.	10,000
Total ..	,,	10,000	Ultimate annual recurrent ..	,,	

Remarks.—Government has authorised the Deputy Registrars to sanction financial assistance up to Rs. 2,000 to Backward Class Artisans for starting or developing cottage industries. Government has authorised the Joint Registrar to sanction financial assistance up to Rs. 6,000 in case of joint applications. This financial assistance is, however, governed by certain conditions e. g. furnishing of security, etc. Experience has shown that under the present rules the Backward Class Persons are not able to take sufficient advantage of the scheme for grant of financial assistance to Backward Class persons administered by this office because of the condition of requiring them to produce security, in the form of personal sureties or mortgage of immovable property. In order, therefore, to assist the Backward Class Artisans trained at the industrial peripatetic and other schools to start or develop cottage industries it is proposed to give financial assistance up to Rs. 500 both for purchase of tools and equipment and for working capital to each of such artisans, on their personal security only. 75 per cent. of the financial assistance of Rs. 500 to each Backward Class Artisan would be as loan free of interest repayable in 50 equal monthly instalments of Rs. 7-8-0 each, the first of such instalment be coming due after six months from the date of disbursement of the loan. The rest of the 25 per cent. of the financial assistance shall be subsidy. The grantees shall have to execute necessary agreement bonds with Government in this regard. The assistance under this scheme would have to be limited to persons upto the age of 50. It is proposed to assist about 80 such trainees every year. Of these 20 will approximately be from scheduled tribes and 8 from the Vimochit Jati. The total expenditure is given below :—

Category	Number of trainees to be assisted in the Second Five Year Plan Period.	Amount of Loan.	Amount of Subsidy.
		Rs.	Rs.
Scheduled Tribes Trainees ..	100	37,500	12,500
Vimochit Jati ..	40	15,000	5,000
Scheduled Castes and other Backward Classes.	260	97,500	32,500
Total ..	400	1,50,000	50,000

The yearwise expenditure is as follows :—

Year.	No. of trainees to be assisted.	Amount of Loan.	Amount of Subsidy.	Total.
		Rs.	Rs.	Rs.
1956-57 ..	80	30,000	10,000	40,000
1957-58 ..	80	30,000	10,000	40,000
1958-59 ..	80	30,000	10,000	40,000
1959-60 ..	80	30,000	10,000	40,000
1960-61 ..	80	30,000	10,000	40,000
Total ..	400	1,50,000	50,000	2,00,000

The expenditure under the scheme would be Rs. 2,00,000 the whole of which will be borne by the Central Government.

2. A provision of Rs. 40,000 would be required during the year 1956-57.

3. The scheme has been admitted in the Second Five Year Plan prepared by Government in Rehabilitation, Housing and Backward Classes Department and it will be implemented by the Joint Registrar for Industrial Co-operatives and Village Industries, Bombay State.

4. The provision of Rs. 30,000 on account of loans is made under "P—loans and Advances".

ITEM 284. Scheme for organisation of retanning and finishing centre for Backward Classes in Bombay State.

Recurrent	Rs.	8,000	Non-recurrent	Rs.	14,000
Total	„	22,000			

Remarks.—The Industrial co-operatives and village Industries Section of the co-operative department has already organised a retanning and finishing centre at Satara for manufacture of rolled leather and dyeing as well as finishing of skins. The bag tanned leather turned out by the Village tanners are rolled and finished at a nominal rate. Because of the finishing processes, the leather fetches more value and gets a very good market. By organising such a centre at a suitable place the village tanners would be benefitted.

2. As the selection of place, selection of site, construction of building and pits for tanning, securing of equipment will require some time, it would be possible to start the working of the centre in the latter part of the year. However as the staff will be required to attend to the construction work, erection of machinery etc. the staff will be appointed for 9 months during the year. The details of the expenditure involved during the financial year 1956-57 are given below :—

		Rs.	Rs.
Non-recurring—			
(A) Machinery, tools, equipment, furniture, etc. (details given below)—		14,000	14,000
	Rs.		
Rolling machine	6,000		
Glazing machine	500		
Shaving machine	3,000		
Buffing machine	500		
Drums	2,000		
Pits	1,500		
Motor, pullies, shafts and other installation charges etc.	500		
Recurring—			
(A) *Pay of staff*—			
1. One Manager at Rs. 140 per mensem in the grade of Rs. 140—5—170 (for 9 months).			1,260
2. Two skilled workers at Rs. 40 per mensem in the grade of Rs. 40—1—50—2—60 (for 9 months).			720
3. Two unskilled workers at Rs. 30 per mensem in the grade of Rs. 30—½—35 (for six months).			360
4. One clerk at Rs. 55 per month in the grade of Rs. 46—3—85—4—125—5—130 (for six months).			330
5. One watchman for nine months in the grade of Rs. 30—½—35			270
			2,940
(B) *Allowances and Honoraria*—		Rs.	
Dearness allowance		2,085	
Travelling allowance		300	
			2,385

Summary of Expenditure.

	Rs.
Non-recurring	14,000
Recurring	8,000
Total ..	22,000
Estimated receipts ..	1,000

A share of expenditure to be borne by the Government of India would be, approximately, Rs. 13,000.

MINISTER IN CHARGE—DR. JIVRAJ N. MEHTA.

ITEM 285. Expansion of the Geological Section of the Department of Industries.

Recurrent ...	... Rs. 12,340	Non-recurrent ...	... Rs. 2,000
Total ...	... „ 14,340	Ultimate annual recurrent	... „

Remarks.—Bombay State has considerable mineral resources. In addition to the iron ore deposits in the State there are considerable deposits of ilmenite, chromite, manganese ore, glass sand, asbestos, soap stone, etc. for which detailed surveys are necessary if these minerals are to be properly exploited for being utilised as materials of various basic industries. It is also necessary to devise proper methods for extraction of the ores and benefication. The Planning Commission has laid great stress on the systematic and planned development of the mineral resources of the country so as to hasten industrialisation. The various District Collectors have also made requests for mineral surveys of their respective districts. For this purpose intensive survey of resources, investigation of the reported occurrence and their proper classification is essential. This work will have to be undertaken particularly in the districts of Broach, Panchmahals, Banaskantha, Sabarkantha, Kaira, Ratnagiri, Kolhapur, Thana, North Kanara, Belgaum, Bijapur and Dharwar. It may be added that the work which this organization would take would only supplement the activities of the Geological Survey of India. In fact the Western Region Office of the Geological Survey of India has approached the State Government for necessary assistance and co-operation of the State Organisation in the matter.

With a view to enforcing the Mines and Minerals Act, 1948, and the Mineral Concession Rules, 1949 more effectively and with a view to undertake the work detailed in paragraph (1) above, it is proposed to expand and strengthen the Geological Section of the Department of Industries during the period of the Second Five-Year Plan, by addition of the following staff:—

(1) Assistant Director of Industries (Geological) ...	1	Rs. 350—30—650—45—1,100 (Mof.).
(2) Geological Assistant	1	Rs. 160—10—250—E.B.—10—300—E.B.—15—375 (Mof.).
(3) Head of Branch	1	Rs. 170—10—250.
(4) Steno-typist	1	Rs. 75—5—140—E.B.—6—200 plus speed allowance.
(5) Peons	2	Rs. 35—½—40.

The details of expenditure involved during the year 1956–57 will be as follows:—

	Provision for 1956–57.	Annual average cost.
	Rs.	Rs.
I. *Pay of Officer*—		
One post of Assistant Director of Industries (Geological) (Mofussil) in the scale of Rs. 350—30—650—E.B.—45—1,100 plus Conveyance Allowance at Rs. 40 per month (basic)	1,750 (for 5 months)	8,700
II. *Pay of Establishment*—		
One post of Geological Assistant in the scale of Rs. 160—10—250—10—300—E.B.—15—375 (Mofussil) plus Conveyance Allowance at Rs. 10 per month basic ...	960 (for 6 months)	3,239
One post of Head of Branch in the scale of Rs. 170—10—250	1,870	2,712
One post of Steno-typist in the scale of Rs. 75—5—140—E.B.—6—200 plus speed allowance at Rs. 40 per mensem ...	1,265	2,052
Two posts of peons in the scale of Rs. 35—½—40 each ...	770	912
	4,865	8,915

43, INDUSTRIES—contd.

MINISTER IN CHARGE—DR. JIVRAJ N. MEHTA.

	Provision for 1956-57.	Annual average cost.
	Rs.	Rs.
III. *Allowances, Honoraria, etc.*—		
Travelling Allowance (Fixed)	260	624
(Ordinary)	1,000	3,000
Dearness Allowance	2,530	3,660
House rent and other allowances	935	1,164
	4,725	8,448
IV. *Contingencies*—		
Non-recurring—		
Purchase of cupboards equipment, furniture, etc. ...	2,000	.....
Recurring—		
Miscellaneous expenditure, service postage, etc. ...	1,000	2,000
	3,000	2,000
Grand Total ...	14,340	28,063

The estimated expenditure on account of the scheme during the Second Five-Year Plan Period is as under :—

Year.	Expenditure.
	Rs.
1956-57	14,340
1957-58	24,415
1958-59	21,887
1959-60	22,559
1960-61	21,299
Total ...	1,04,500

The annual receipts under the scheme are estimated to be Rs. 50,000 at the end of Second Five-Year Plan.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 286. Scheme for organisation of post-training production centres for backward classes in Bombay State.

Recurrent ...	... Rs.	13,000	Non-recurrent ...	... Rs.	12,000
Total ...	... ,,	25,000	Ultimate annual recurrent	... ,,	

Remarks.—The Industrial Co-operatives and Village Industries Section of the Co-operative Department has already organised a number of schools for imparting training in various crafts to the artisans. In order to have more practical training after completion of training courses, it is felt necessary to organise more post training production centres so that the trainees after training will get practical experience in the crafts and afterwards they can independently carry on the industries efficiently. It is, therefore, proposed to organise three post-training production centres during the course of 5 years for backward classes in Bombay State one in each of (*i*) cotton weaving, (*ii*) leather work, and (*iii*) tanning. During the first year of the plan i. e. 1956-57, it is proposed to organise two centres, one in cotton weaving and one for tanning. 12 students will be admitted in each class with the benefit of stipends of Rs. 20 per mensem each, for the training period, viz. 12 months. After the completion of the training course, the production in the respective crafts will be undertaken and the trainees will be employed on piece work basis or on daily wages for a period of 9 months. After the period of one year and 9 months, a fresh batch of 12 students will be admitted for training at each centre.

43, INDUSTRIES—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

Admission to these centres will be restricted to backward classes only. However, non backward classes will be admitted only if the backward class candidates in requisite number are not forthcoming so that the backward class artisans themselves would come forward after watching the utility of the training. For every centre, there will be a Local Advisory Committee and the finished goods will be marketed locally as far as possible. The centres will be started at district head quarters or other places where communications, bazar and other facilities are available. The locations of the centres will be decided in due course.

2. The details of the expenditure involved during the year 1956–57 are given below :—

	Rs.	Rs.
Non-recurring—		
(*i*) *Tools and equipments and furniture*—		
1. Cotton Weaving	7,000	
2. Tanning	5,000	
Total, Non-recurring ...	12,000	12,000

Estimated receipts	4,780
Central Assistance	14,000

43. *INDUSTRIES*—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 287. Scheme for organisation of Industrial Training Centre for Vimochit Jati at Jalgaon, District East Khandesh.

Recurrent	Rs. 27,199	Non-recurrent	Rs. 10,328
Total	„ 37,527	Ultimate annual recurrent ...	„

Remarks.—The Industrial Co-operatives and Village Industries Section of the Co-operative Department has already organised five Industrial Training Centres for Vimochit Jati at Ahmedabad, Sholapur, Bijapur, Hubli and Gadag. These centres are working well. It is now proposed to organise one more Training Centre for them at Jalgaon, district East Khandesh. If no response is received from them at Jalgaon, the centre will be organised at some other suitable place like Baramati, Poona District, etc. Training will be imparted at this school in Carpentry and Smithy and Tailoring Industries. 20 students will be admitted for training in each of the two crafts and thus 40 persons will be admitted at a time. The trainees will be granted stipends at Rs. 25 per mensem each. The duration of training course will be one and half year in Carpentry and Smithy and one year in that of tailoring. Efforts will be made to organise co-operative societies of trainees after completion of their training and Rs. 3 p. m. will be deducted from the stipends of each student as contribution towards share capital of the proposed co-operative society. If they could not be organised into co-operative societies, the trainees will be granted financial assistance individually to enable them to settle in the industry. The Government of India sanctions 100 per cent. financial assistance for the schemes for the welfare of these people. The Government of India will therefore, be approached for necessary financial assistance for this scheme.

2. The details of the expenditure involved during 1956–57 are given below :—

		Rs.
I. *Non-recurring*—		
(A) Tools and Equipment and Furniture—		
(*i*) Carpentry and Smithy		6,313
(*ii*) Tailoring		4,015
		10,328
II. *Recurring*—		
Pay of Staff—Carpentry and Smithy—		
(*a*) Instructor at Rs. 100 per mensem in the grade of Rs. 100—5—150 ...		1,100
(*b*) Assistant Instructor at Rs. 72 per mensem in the grade of Rs. 72—4—100		792
(*c*) Hammerman Rs. 40 per mensem in the grade of Rs. 40—2—60 ...		440
Tailoring—		
(*a*) Instructor at Rs. 72 per mensem in the grade of Rs. 72—4—100 ...		792
(*b*) Assistant Instructor at Rs. 50 per mensem in the grade of Rs. 50—3—80—4—100.		550
Office Staff.		
(*a*) Clerk at Rs. 55 per mensem in the grade of Rs. 46—3—85—4—125—5—130		605
(*b*) Peon at Rs. 30 per mensem in the grade of Rs. 30—½—35		330
(*c*) Watchman at Rs. 30 per mensem in the grade of Rs. 30—½—35 ...		330
		4,939
(B) *Allowances and Honoraria*—		
Dearness allowance	3,630	
Travelling allowance	300	
Supervisory allowance to the Senior Instructor for supervising both the classes at Rs. 20 per mensem for 11 months ...	220	
		4,150
(C) *Contingencies*—		
(*a*) Rent	660	
(*b*) Repairs, renewals	200	
(*c*) Stationery, Postage, etc.	250	
(*d*) Raw materials—		
Carpentry and Smithy	4,000	
Tailoring	2,000	
		7,110
(D) Stipends at Rs. 25 per mensem for 40 students for 11 months		11,000
Total, Recurring ...		27,199

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 288. Scheme for the manufacture of umbrellas in small scale units located in villages.

Recurrent	.. Rs. 1,07,218		Non-recurrent	.. Rs.	3,000
Total	.. ,, 1,10,218		Ultimate annual recurrent	.. ,,	*Nil.*

Remarks.—According to an estimate India consumes about 5,00,000 dozen umbrellas per year. A substantial portion of this demand is met by industries in Bombay State. The various parts which go into the making of umbrellas, viz. cloth, rod and handles, ribs and other accessories are manufactured in small scale and medium scale factories most of which are located in Bombay City. The other processes, viz. assembly of parts, stitching of cloth and packing are carried out by mannual operation in small scale seasonal factories. These processes are simple in operation and could be carried out without difficulty by villagers after a short training period. Hundreds of manual workers are engaged for this operation during the season which generally begins in December and lasts up to June or July. It is possible that this type of work could be conveniently diverted to a number of village centres organised in co-operative units.

2. *Programme of Training and Production.*—As an experiment one Centre may be first organised at a village not far away from Bombay which is the source of supply of raw materials and a large market for finished articles. Assuming that the Centre would be organised during the next financial year, the programme of training and production during the first year is suggested as under :—

April to July—(4 months)	.. Organising the Centre and training of workers.
August to December—(5 months)	.. Assembly of umbrellas.
January to March—(3 months)	.. Stitching and packing.

Co-operation of factories like Champion Engineering Works Limited, Goregaon, who are the pioneer manufacturers of ribs and accessories could be obtained for training of the workers, supply of raw materials, and expert advice on the industry. After the Centre is organised properly and works successfully the assembly and stitching part, manufacture of simple outfit such as caps, ferrules, runners, notches, springs, etc., could be undertaken at the Centre.

3. *Capital Investment*—

	Rs.
1st year of the Scheme—	
(A) Non-recurring	3,000
(B) Recurring expenditure	1,09,780
(C) Expected returns (Production of 2000 dozen umbrellas in the first year).	1,00,000
(D) Estimated deficit during 1st year	12,780
2nd year of the Scheme—	
(A) Non-recurring expenditure	*Nil.*
(B) Recurring expenditure	1,92,100
(C) Expected returns (Production of 4000 dozen umbrellas in the year) ..	2,00,000
(D) Estimated surplus during 2nd year	7,900

4. *Marketing.*—The Bombay State Consumers Co-operative Society alone transacts business of about 3 to 4 thousand dozen umbrellas per year. If the requirements of the Municipalities, Local Boards and State Government are added to it and if these bodies are persuaded to purchase their requirements through the proposed organisation, it should not be difficult to sell the production of 4000 dozen umbrellas per year.

The Centres could be multiplied later after gaining experience with the first Centre.

5. *Supervision and Advice.*— An Advisory Board will be appointed to advise on the working of this Centre.

The members of the Board will be selected and appointed in due course.

6. *Location of the Centre.*—As the raw materials will be supplied from Bombay and since the finished articles are proposed to be supplied to Bombay so far as the first Centre is concerned, the Centre will be in a village near Bombay.

7. The scheme would give employment to 30 workers. The first year will be devoted partly for training and partly for production. During the first year only half the production is envisaged. The Centre is expected to suffer a deficit of Rs. 11,000 in the first year. This deficit would be wiped off in the subsequent years.

8. The Government of India have been requested to sanction the scheme and to bear the entire grant on this account during the next financial year.

43, INDUSTRIES—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

DETAILS OF EXPENDITURE.

(A) Recurring—

(a) *Pay of Staff*—

Designation.	Scale of Pay.	No. of posts.	Annual expenditure in Rupees.
	Rs.		Rs.
(1) Manager	.. 92—4—120—5—140	.. 1	1,012
(2) Instructor	.. 70—3—85	.. 1	280 (for 4 months only).
(3) Assistant Instructor	.. 50—2—60	.. 1	200 (for 4 months only).
(4) Supervisor	.. 50—2—60	.. 1	550
(5) Clerk-cum-Store-Keeper	.. 46—3—85—E. B.—4—125—5—130	. 1	506
(6) Watchmen	.. 30—½—35	.. 2	660
			3,208

(b) Dearness Allowance. 310×11	3,410
(c) Travelling Allowances	500
(d) Contingency	
(i) Rent at Rs. 100 per mensem	1,100
(ii) Other contingent expenditure	500
(e) Purchase of raw-materials	81,000
(f) Transport of goods	2,500
(g) *Wages to workers*—	
Rs. 2 per day for 25 workers for 300 days in a year.	
(This is provisional. The wages may be fixed on job work basis if this system is found more advantageous after the initial training period)	15,000
Total Recurring Expenditure ..	1,07,218

(B) Non-recurring expenditure—

(i) Four sewing machines	3,000
(ii) Two Irons	
(iii) Block printing equipment	
(iv) Other equipment such as scissors, hammers, knives, term plates, etc. ..	
(v) Furniture	
Grand Total ..	1,10,218

Anticipated receipts—

(i) 1,000 dozen umbrellas at Rs. 43 a dozen	43,000
(ii) 1,000 dozen umbrellas at Rs. 57 a dozen	57,000
Total ..	1,00,000

Surplus or deficit—A deficit of Rs. 12,780 in the first year.

ITEM 289. Scheme for starting a production centre in manufacture of torch bulbs at Village Industries Experimental Workshop, Poona 5.

Recurrent	... Rs.	13,580	Non-recurrent	... Rs.	11,750
Total	... „	25,330	Ultimate annual recurrent	... „	

Remarks.—Torch Bulbs are being imported mainly from foreign countries. The Bombay State Delegation to Japan had seen the process of manufacture of torch bulbs and also purchased equipment required for the manufacture of torch bulbs. The Delegation also suggested that services of some Japanese Experts should be secured for a year or so at a cost of Rs. 10,000 who would start production while training local persons. Before, however, the foreign experts were invited the experiments in the manufacture of torch bulbs were undertaken at the Village Industries. Experimental Workshop, Poona, with the help of the departmental personnel of the Glass Section, attached to Village Industries Experimental Workshop, Poona 5. The results of the trials carried out were found to be very encouraging. The component parts for manufacture of bulbs were brought by the delegation along with the machinery. These parts have now been exhausted during the experiments, and to have more practice some more parts have been asked for, for continuance of further trials.

MINISTER IN CHARGE—SHRI M. P. PATIL.

2. In view of the encouraging results it is now proposed to start a production centre in torch bulb manufacture with a view that after seeing results of the working of the scheme, people may come forth to take up to this industry. The equipment purchased is suitable for engaging 12 persons at a time. A period of 8 months will have to be considered as a training period and after the expiry of this period, production should be started. As this is a new industry, it may not be expected that the workers may attain the same efficiency as seen in Japan. It is expected that after about two years of production the workers would be able to attain better efficiency.

3. It is, therefore, necessary to sanction the scheme for a period of three years, in the first instant, with effect from 1st April 1956. The estimated expenditure for the year 1956–57 is Rs. 25,330 which will be accommodated within the provision of the Second Five-Year Plan. Its details are as indicated below :—

Recurring (for training for 1956–57).

	Rs.	Rs.
(*A*) *Pay of Staff*—		
(*a*) One Master Table Blower in the grade of Rs. 100—8—140 at Rs. 100 per mensem for 8 months		800
(*b*) One Assistant Master Blower in the grade of Rs. 55—3—85—5—100 at Rs. 55 per month for 8 months		440
(*c*) One Clerk in the garde of Rs. 46—3—85—4—125—5—130 at Rs. 55 for 11 months		605
(*d*) One Peon in the grade of Rs. 30—½—35 at Rs. 30 for 11 months ...		330
		2,175
(*B*) *Allowances and Honoraria*—		
(1) Dearness Allowance	1,600	
(2) Travelling Allowance	100	
(3) House Rent Allowance	347	
(4) Compensatory Allowance	168	2,175
		6,650
(*C*) *Contingencies*		
Raw materials such as glass tubes, lead in wire, filaments, lead finishing chemical, screw caps, cardboard boxes, rubber tubing, petrol, etc.		
Miscellaneous expenses such as printing, stationery and postage, etc. ...		500
(*D*) *Scholarships*		2,040
Stipend to 12 trainees at the rate of Rs. 20 per mensem per student for 8 months	1,920	
Travelling Allowance to trainees for to and from	120	
Total ...		13,580

Non-recurring—

(I) Torch bulb making plant (already purchased) (for production for 1956–57).

(II) *Tools and equipment*—

(*a*) Electric motor 1 H.P. single phase
(*b*) Exhaust pump
(*c*) Burner for glass work
(*d*) Electric soler
(*e*) Varieties of rubber hoses and gas and air cocks.
(*f*) Gas pipe fittings 2,400

Furniture.

(*a*) Working tables (5 Nos.)
(*b*) Stools (12 Nos.)
(*c*) Cup-boards (two)
(*d*) Office table (one)
(*e*) Chairs (6 Nos.) 1,350

(III) *Building*—		
A shed of 30′ × 25′	7,500	
Electrical Connections	500	8,000
Total, Non-recurring ...		11,750
Grand Total for training ...		25,330
Estimated receipts for the year 1956–57 under training		2,000
Estimated receipts for the Second Year under Production		45,000

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 290. Scheme for affording marketing facilities to Cottage Industries Products.

Recurrent ...	... Rs. 29,000	Non-recurrent ...	... Rs. 21,000
Total ...	... ,, 50,000	Ultimate Annual Recurrent	... ,,

Remarks.—Marketing is the most important item for the development of any cottage industry. Unless there is an appropriate market for the products of cottage industries, there would be no chances for the development of these industries. With a view to assist in marketing cottage industries products, propaganda and publicity of a concentrated and intensive nature is required. It is, therefore, necessary to have efficient staff for propaganda and publicity and for canvassing orders and bringing home to the producers the information regarding type of goods that are in demand in market. It is,therefore, proposed under the scheme to appoint 1 propagandist and 2 Marketing Officers. It is also proposed to have a mobile exhibition unit. For this purpose it is proposed to have a mobile van with a suitable body to serve as a mobile exhibition for display and sale of various cottage industries products of this State. The mobile unit will be in charge of the propagandist. In addition there would be one salesman for effecting sales through the mobile van. The entire marketing and publicity and organisation will be placed in charge of one of the Marketing Officers who would be assisted by a Senior clerk and one Steno-typist. A recurring amount say of about Rs. 2,000 per year will have to be spent for purchase of publicity material for the exhibition unit. The expenditure involved on the scheme during the year 1956–57 would be as under :—

	Rs.	Rs.
Recurring—		
Pay of Establishment—		9,845
(*i*) Two Marketing Officers on Rs. 150 per mensem in the grade of Rs. 150—10—200	3,300	
(*ii*) One Propagandist on Rs. 150 per mensem each in the grade of Rs. 150—10—200	1,650	
(*iii*) One Senior Clerk in the grade of Rs. 100—8—140—10—150	1,100	
(*iv*) One Driver for the Mobile Van on Rs. 55 per mensem in the grade of Rs. 55—3—85	605	
(*v*) One Steno-typist in the grade of Rs. 46—3—85 plus short hand allowance at Rs. 40 per mensem ...	440	
(*vi*) One Salesman for mobile unit on Rs. 100 per mensem in the grade of Rs. 100—8—140...	1,100	
(*vii*) Two peons on Rs. 30 per mensem each in the grade of Rs. 30—½—35	660	
(*viii*) Two Attendants at Rs. 45 per mensem fixed ...	990	
Allowances and Honoraria—		15,529
Dearness Allowance	4,000	
House Rent Allowance	1,000	
Compensatory Allowance	550	
Travelling Allowance	5,030	
Contingencies—		10,580
(*i*) Purchase of publicity material Gramophone records etc., cinema slides, etc.	2,000	
(*ii*) Rent for showroom and office and House rent for marketing staff	2,075	
(*iii*) Commission to the salesman at ½ per cent. on sale of cottage industries products	500	
	4,575	
Running Cost of Mobile Van—		
(*a*) Petrol, oil etc. at Rs. 300 per mensem	2,000	
(*b*) Servicing, repairs, replacement, etc. at Rs. 300 per mensem	2,000	
	4,000	
Total, Recurring ...		29,000
Non-recurring—		21,000
(1) Purchase of Mobile Van with special type of body, public address equipment, etc.	20,000	
(2) Furniture for staff, etc.	1,000	
Total, Non-recurring ...		21,000
Grand Total ...		50,000

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

ITEM 291. Stocking of inland water with carp fry.

Recurrent	... Rs.	22,210	Non-recurrent	... Rs.	1,000
Total	... „	23,210	Ultimate annual recurrent	... „	

Remarks.—Experiments in fattening of fry of select varieties of fish such as Catle, Rohu, Nirgal, specially imported from Calcutta carried on the Fisheries Department from year to year have proved most promising from the point of view of increased production of fish. It is therefore proposed to stock every year various sheets of water in this State with rapidly growing varieties of carp fry from West Bengal as well as from local sources and market them when they attain full size. Fish will be made available to consumers in the interior on a large scale thus opening on a-venue for useful employment to the local people.

In addition to the existing sanctioned staff in the districts the following staff is proposed to be appointed under this scheme :—

Serial No.	Designation.	No. of posts.	Scale of pay.
			Rs.
1.	Assistant Superintendent of Fisheries ...	1	120—8—160—10—230 (Mofussil).
2.	Watchmen (Bombay)	3	35—½—40 (City).
3.	Watchmen (Mofussil)	3	30—½—35.

The total cost on the scheme is estimated at Rs. 1,18,000 out of which Rs. 6,500 is non-recurring and Rs. 1,11,500 recurring.

The following expenditure will be incurred on the scheme during 1956–57 :—

	Post during 1956–57.	
	Rs.	Rs.

ITEM 292. Manufacture of Shark Liver Oil with Malt Extract.

Recurrent	... Rs. 46,410	Non-recurrent	... Rs. 28,000
Total	... ,, 74,410	Ultimate annual recurrent	... ,,

Remarks.—There is a great demand for Shark Liver Oil with Malt Extract as it can be consumed without the nausea that at times makes plain fish liver oil repellant to taste. Its palatability has a special appeal to children. This will be evident from the large imports of Kepler's and other foreing malt extract preparations with Cod Liver Oil. Shark Liver Oil with malt extract is, therefore, bound to prove popular. Messrs. Kemp and Company, the fisheries department's sole distributors for sale of its shark liver oil products have assured an annual sale of Rs. 75,000. Besides the Defence Department also consumes a large quantity of it. On the basis of successful experiments for its manufacture conducted at the Fisheries Technological Laboratory it is proposed to take up the scheme for preparation of 20,000 lb. of shark liver oil with malt extract per annum. Besides saving the country a large expenditure on imports of foreign preparations, the new product will augment the consumption and thereby the popularity of Indian Shark Liver Oil.

The following staff will be required for the scheme :—

(1) Assistant Director of Fisheries (Technology) in General State Service Class I in the scale of Rs. 350—30—650—E.B.—45—1,100 (Mofussil).

(2) Oil Supervisor in the scale of Rs. 105—5—155 (City).

(3) Junior Clerk in the scale of Rs. 75—5—140—E.B.—6—200 (City).

(4) Three mazdoors in the scale of Rs. 35—½—40 (City).

It is estimated that the total receipts on account of sale of shark liver oil with malt extract will amount to Rs. 3,37,500 by selling the product at Rs. 3-6-0 per lb. The gross profit on the scheme will amount to Rs. 2,910 annually. The scheme will thus not only be self supporting but also an undertaking with surplus revenue.

The scheme involves actual expenditure of Rs. 3,44,000 (Rs. 2,41,000 recurring plus Rs. 30,000 non-recurring).

Detailed expenditure involved in the scheme are as follows :—

	Cost during 1956-57. Rs.
1. *Pay of Officers*—	
Assistant Director of Fisheries (Technology) in General State Service Class I in the scale of Rs. 350—30—650—E.B.—45—1,100 (Mofussil)—Rs. 350×11	3,850
	3,850

MINISTER IN CHARGE—SHRI G. D. TAPASE.

2. *Pay of Establishment*—

ITEM 293. Development of Fisheries in deep tanks.

Recurrent	... Rs. 19,220	Non-recurrent	...	Rs. 35,000
Total	... " 54,220	Ultimate annual recurrent	...	"

Remarks.—With a view to developing fisheries in deep tanks, it is proposed to stock extensive irrigation reservoirs such as lake Fife, Bhatghar Dam in Poona District and several other deep tanks in Kolhapur and Dharwar Districts with rapidly growing varieties of fish. The aforesaid sheets of water being vast in area and several feet in depth, special methods have to be adopted for capture of fish liberated therein. It is

therefore, proposed to initiate schemes for stocking and fishing in these tanks at Kolhapur, Poona and Dharwar. The scheme has already been started during the year 1955–56, and will be continued further. The provision during the plan period has, however, been enhanced for proper implementation of the scheme.

The following staff will be required :—

Designation.	No. of posts.	Scale of pay.
		Rs.
1. Assistant Superintendent of Fisheries ...	3	120—8—160—10—230.
2. Fieldman	3	30—½—35.
3. Watchmen	3	30—½—35.
4. Peons	3	30—½—35.

The total cost of the scheme is Rs. 1,71,000, out of which Rs. 52,000 is non-recurring and Rs. 1,19,000 recurring.

During the financial year 1956–57 an expenditure of Rs. 54,220 (Rs. 19,220 recurring plus Rs. 35,090 non-recurring) will be incurred as follows :—

Pay of Establishment.		Cost during 1956-57
	Rs.	Rs.
Three Assistant Superintendents of Fisheries at Kolhapur, Poona and Dharwar in the scale of Rs. 120—8—160—10—230.	4,320	7,560
Three Fieldmen, one at each centre in the scale of Rs. 30—½—35.	1,080	
Three peons in the scale of Rs. 30—½—35.	1,080	
Three watchmen in the scale of Rs. 30—½—35.	1,080	
2. *Allowances and Honoraria* —		5,660
Dearness allowance —		
Assistant Superintendents Rs. 50.	1,800	
Fieldmen Rs. 35	1,260	
Watchmen Rs. 35	1,260	
Peons Rs. 35	1,260	
House rent allowance to watchmen	80	
3. *Contingencies (Recurring)*		6,000
1. Fry	900	
2. Repairs and renewals to boats and nets	600	
3. Chemicals	300	
4. Transport Charges	1,000	
5. Maintenance charges of nurseries	200	
6. Office rent	1,800	
7. Casual Labour	600	
8. Miscellaneous	600	
	6,000	
Total, Recurring ...		19,220
Contingencies (Non-recurring)		35,000
1. Nylon and cotton nets	9,000	
2. Outboard engines	3,600	
3. Furniture for office and laboratory	4,500	
4. Construction of nursery tanks	4,500	
5. Scientific equipment and apparatus	2,000	
6. Cost of boat	6,000	
7. Cost of shed for equipment and engines	2,000	
8. Wire netting	3,000	
9. Miscellaneous	400	
	35,000	
Total ...		54,220

43, INDUSTRIES—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

Summary of Expenditure.

	Rs.

MINISTER IN CHARGE—DR. JIVRAJ N. MEHTA.

ITEM 294. Additional Staff in the Department of Industries for the development of Small Scale Industries.

Recurrent	Rs.	28,421	Non-recurrent	Rs.	2,000
Total	,,	30,421	Ultimate annual recurrent ..	,,	.....

Remarks.—As a result of recommendations of the Ford Foundation Team of International Experts and the establishment of a Small Scale Industries Board by Government of India, considerable emphasis is being laid on development of small-scale industries. Assistance for such development is generally to be routed through the State Industries Department and the Small Scale Industries Board and Government of India have stressed the fact that in order to enable the State Government to carry out this programme expeditiously and in a planned manner it is necessary to strengthen adequately the States Industries Departments. Government of India have initially agreed to bear 50 per cent. of the cost of the additional staff appointed for this purpose. Government has already sanctioned the following additional posts for this purpose.

		Scale. Rs.
(1) Joint Director of Industries ...	1	800—1,200
(2) Assistant Development Officer ...	1	220—650
(3) Stenographer ...	1	140—270
(4) Clerks ...	3	75—200
(5) Peons ...	2	35—40

This staff is, however, found to be inadequate to implement the development schemes approved by the Small Scale Industries Board. It is, therefore, proposed to strengthen the staff of the Bombay Industries Department by creating additional posts and sanctioning provision for the year 1956-57 as follows :—

	Provision for 1956-57 for 11 months.	Annual Average post.
(I) *Pay of Officers*—	Rs.	Rs.
One post of Assistant Development Officer (Production) in the scale of Rs. 220—15—400—E.B.—20—500—E.B.—25—650 (Mofussil).	2,420	5,048
Total ...	2,420	5,048
(II) *Pay of Establishment*—		
One post of Senior Industries Inspector in the scale of Rs. 160—10—250—E.B.—10—300—E.B.—15—375 (Mofussil) *plus* C. A. at Rs. 10 per month Basic.	1,760	3,239
One post of Head of Branch in the scale of Rs. 170—10—250.	1,870	2,712
Two posts of Noting Assistants in the scale of Rs. 150—10—230.	3,300	4,944
Two posts of Clerks in the scale of Rs. 75—5—140—E.B.—6—200.	1,650	3,144
One post of Typist in the scale of Rs. 75—5—140—E.B.—6—200.	825	1,572
Two posts of Auditors in the scale of Rs. 200—10—300 (Mofussil).	4,400	6,400
Two posts of Peons in the scale of Rs. 35—½—40 ...	770	912
	14,575	22,923

MINISTER IN CHARGE—DR. JIVRAJ N. MEHTA.

	Rs.	Rs.
(III) *Allowances Honoraria etc.*—		
Travelling Allowance (Fixed)	143	156
Travelling Allowance (Ordinary)	1,500	2,000
Dearness Allowance	6,435	8,280
House Rent and other allowances	1,348	1,590
	9,426	12,026
(IV) *Contingencies*—		
Non-recurring—		
Furniture, Cupboards, etc.	2,000	.....

ITEM 295. Grants for Industrial Research and Pilot Plant Schemes.

Recurrent ...	Rs.	28,000	Non-recurrent ...	Rs.	*Nil.*
Total ...	,,	28,000	Ultimate annual recurrent ...		

Remarks.—The importance of industrial research in the process of industrial development cannot be overemphasised. Industrial development and scientific research go hand in hand and research in the technique of production, the suitability of raw materials for production of various commodities, possibility of utilising the raw materials avilable in the country in as many ways as possible helps in minimising the costs of production and also in broadening the range of products that can be obtained from the available recourses. Besides feasibility of various new processes, materials and products that are yielded by constant research from the industrial point of view has also to be tested before they can be recommended to the industrialists in the county and for this purpose pilot palnts have to be undertaken as and when necessary. Besides, maximum utilisation of the various natural resources that this country has been endowned with demands constant research as to how best and economically they can be exploited.

With this aim in view Government has been setting apart some grant for industrial research and establishment of pilot plants every year. The State Industrial Research Committee and pilot plant Committee appointed by Government consider the various schemes submitted to them and recommend them to Goverment for grant of requisite financial assistance to the parties undertaking such schemes at recognised institutions. The Industrial Chemist's Laboratories of the Department of Industries are also working upon special problems of industrial research and helping the small industrialists out of their difficulties. Assistance of the University Department of Chemical Technology is also obtained in the task of research by awarding scholarships to research students working therein on certain specific problems.

In view of the large scale industrial development envisaged in the Second Five Year Plan it is proposed to make a provision of Rs. 2 Lakhs spread over the period of Second Five Year Plan for the Industrial Research and Pilot Plants that may have to be undertaken in addition to the work done at the Industrial Chemist's Laboratory. For this purpose it would be necessary to provide Rs. 28.000 for equipment during the year 1956-57. Necessary provision has therefore been included in the new item. Provision for Building has been made under " 81, Civil Works ".

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 296. Expansion of the Government Tanning Institute, Khar.

Recurrent	Rs.	1,080	Non-recurrent	Rs.	39,425
Total	,,	40,505	Ultimate annual recurrent ...	,,	

Remarks.—The scheme of reorganisation of the Government Tanning Institute, Khar, was undertaken as one of the post-war development measures under the Five-Year Plan. Reorganisation was to be undertaken in two stages. The main object of the reorganisation of the Institute was to—(i) increase the number of admissions ; (ii) provide better facilities for pit-tanning, embossing and calendering of leather ; and (iii) increase the acivities of chemical section by carrying out investigation work on problems of application of chemistry to tanning, etc. The first stage of the scheme has been completed but the second stage could not be completed for want of buildings. Since the institute has proved to be very useful, it is proposed to reorganise it as envisaged in the First Five-Year Plan and second stage of reorganisation is proposed to be implemented in the Second Five Year Plan. The scheme has

accordingly been included in the Second Five-Year Plan of the State Government. Under the scheme it is proposed to construct buildings and to purchase additional machinery and Stores. It is also proposed to increase the number of scholarships. The estimated cost of the reorganisation scheme is as under :—

	Rs.
Non-recurring—	
(*a*) Buildings	61,200
(*b*) Equipment	33,925
(*c*) Library Books	3,000
(*d*) Furniture	2,500
	1,00,625
Recurring—	
Sholarships	1,080

The total expenditure involved in the proposal is Rs. 1,01,705 of this amount the Government of India will bear 33 per cent of the non-recurring expenditure. The net expenditure to this Government will be Rs. 67,080 non-recurrent and Rs. 1,080 recurrent. The provision required for the construction of the building has been proposed separately. It is accordingly proposed to provide an amount of Rs. 40,505 in the budget estimates for 1956–57.

ITEM 297. Introduction of additional courses at the R. C. Technical Institute, Ahmedabad.

Recurrent	...	Rs.	30,740	Non-recurrent	...	... Rs.	55,000
Total	...	,,	85,740	Ultimate annual recurrent ...		,,	

Remarks.—The R. C. Techinical Institute, Ahmedabad is receiving very good response from the public. There is scope for expansion of the training facilities at this Institute. It is therefore proposed to introduce the following additional courses of instruction therein :—

1. Radio Servicing.
2. Automobile Engineering.
3. Power Weaving.
4. Surveyors and Estimators.
5. Dyeing Technology.

The proposal involves total expenditure of Rs. 3,21,000 as follows during the 5 years of the Second Five-Year Plan.

	Rs.
(1) *Non-recurring*—	
(*a*) Buildings	40,000
(*b*) Equipment	54,000
(*c*) Library	1,000
Total ...	95,000
(2) *Recurrent*—	
(*a*) Pay of staff	87,740
(*b*) Dearness and Other allowances ...	60,760
(*c*) Contingencies	77,500
Total ...	2,26,000
Grand Total ...	3,21,000

It is proposed to implement the Scheme during the first year of the Second Five-Year Plan i. e. from the academic year 1956-57. The cost during the year 1956-57 on this account is estimated to be about Rs. 55,000 (Non-recurrent on equipment) and Rs. 30,740 (Recurrent). The details of the cost involved are given in Appendix "A".

An amount of Rs. 85, 740 is accordingly provided in the budget estimates for 1956-57 on this account.

APPENDIX "A".

Estimates of expenditure during 1956–57 on account of starting additional courses at R. C. Technical Institute, Ahmedabad.

	Rs.
Non-recurrent—	
Equipment & Furniture	54,000
Library	1,000
Total ...	55,000

ITEM 298. Facilities for Research at the Victoria Jubilee Technical Institute, Bombay.

Recurrent	...	Rs.	20,000	Non-recurrent ...	...	Rs.	*Nil.*
Total	...	,,	20,000	Ultimate annual recurrent ...		,,	....

Remarks.—The Victoria Jubilee Technical Institute, Bombay, caters for full-fledged Degree Courses in Civil, Mechanical, Electrical Engineering and Textiles and Diploma Courses in Mechanical, Electrical, Textile Manufacture, Textile Chemistry, Sanitary Engineering and Post-Diploma in Automobile Engineering. In order to improve the tone and quality of instruction at the undergraduate level, it is necessary to provide for some research facilities at the Institute by appointment of some staff. It is proposed to sanction grant-in-aid to the Institute towards its expenditure on the scheme of research proposed to be introduced at it during the Second Five-Year Plan period. The total grant on this account that might be required to be paid is estimated at about Rs. 20,000 per annum. It is accordingly proposed to provide an amount of Rs. 20,000 in the budget estimates for 1956-57.

ITEM 299. Establishment of a Central Technical Library at the V. J. Technical Institute, Bombay.

Recurrent	...	...	Rs. *Nil.*	Non-recurrent ...	...	Rs.	50,000
Total	...	...	,, 50,000	Ultimate annual recurrent ...		,,	....

Remarks.—Considerable need has been felt in recent times for a Central Technical Library for the benefit of students, technically qualified Engineers, scientists and those engaged in Industry. As technical books, journals are a little costly, it has not been possible for individuals to purchase them and this has retarded in their keeping abreast of times. For advancement of Science and Technology in our country, it is very necessary to have access to such books magazines, journals etc. The Victoria Jubilee Technical Institute already has a nucleus of such a Library where about 100 technical journals are either being subscribed to or obtained gratis. A sum of Rs. 15,000 per annum is already being spent in the purchase of books and periodicals. Besides as the new buildings of the Institute are now complete, the Library will have a pretty decent accommodation. It is therefore proposed to convert the present Library of the Institute into a fine Central Technical Library. The Institute caters for full-fledged Degree Courses in Civil, Mechanical, Electrical Engineering and Sanitary Engineering and Textile Manufacture and Textile Chemistry and other short-term courses with over 1,100 students on rolls.

Total cost on account of this during the first year will be Rs. 50,000 which is proposed to be paid to the Institute by way of grant-in-aid. An amount of Rs. 50,000 is provided in the budget estimates for 1956-57.

43, *INDUSTRIES*—contd.

MINISTER-IN-CHARGE.—SHRI M. P. PATIL.

ITEM 300.—Grant of Financial Assistance of the schemes Bombay Village Industries Board for 1956-57.

Recurrent ...	Rs. 4,00,000	Non-recurrent ...	Rs.	*Nil.*
Total	„ 4,00,000	Ultimate annual recurrent	„	.....

Remarks.—The Village Industries Committee was established by Government in 1946 with a view to taking up schemes and implementing them for the development of Village Industries in the Bombay State. This Committee was converted into a Statutory Board by an Act of Legislature in the year 1954 and since 15th December 1954 the Village Industries Committee is known as Bombay Village Industries Board.

2. Government has been giving financial help in the form of grant-in-aid of Rs.7,00,000 to the Board for its schemes. A provision of Rs. 20,00,000 has been made in the Second Five Year Plan for some schemes of this Board which have been included in the Second Five Year Plan. The Board suggested some schemes to be included in the Second Five Year Plan as indicated below.

1. Khadi Scheme.
2. Bee keeping.
3. Oil Ghani.
4. Fibre.
5. Sealing Wax.
6. Hand Made Paper.
7. Salt.
8. Mat Making.
9. Workshops.
10. Intensive Area Scheme.
11. Office Organization.
12. Cottage Match.
13. Soap.
14. Hand Pounding of Rice.
15. Flaying.

3. However, it is noticed from the Draft Second Five Year Plan (1956-57—1960-61), Bombay State printed on 12th November 1955 (page No. 37), that the following schemes have been included in the Second Five Year Plan.

1. Khadi.
2. Palm Gur.
3. Bee-keeping.
4. Hand Made Paper.
5. Salt.
6. Ghani Oil.
7. Crayons and Cryopsis.
8. Sealing Wax.
9. Glue.
10. Bone Meal.
11. Chalk.
12. Plaster of Paris.
13. Slate of Pencils.
14. Mat Making.
15. Hand Pounding of Rice.
16. Match Industry.

4. A study of the above two lists of industries will be the following discrepancies :—

(A) The following Schemes printed in the above removed to Book but not suggested by this Board :—

1. Palm Gur.
2. Crayons.
3. Glue.
4. Bone Meal.
5. Chalk.
6. Plaster of Paris.
7. Slate Pencils.

(B) The following is of list of industries suggested by the Board but are not included in the printed book referred to above :—

1. Fibre 2. Workshops 3. Intensive Area 4. Office Organization 5. Soap and 6. Flying.

5. The provision of Rs. 4 lakhs for 1956-1957 should be for the schemes as indicated below :—

Name of the Scheme.	For 1956-57.
1. Khadi Scheme.	80,000
2. Bee Keeping.	40,000
3. Oil Ghani.	30,000
4. Fibre.	6,000
5. Sealing wax.	3,000
6. Hand Made Paper.	48,000
7. Salt.	5,000
8. Mat	1,600
9. Workshops.	30,000
10. Intensive Area.	13,000
11. Office Organization.	74,200
12. Cottage Match.	20,800
13. Soap.	20,000
14. Hand Pounding of rice	12,400
15. Flaying.	16,000
Total ..	4,00,000

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 301. Scheme for organisation of Regional and District Industrial Co-operative Banks.

Recurrent	...	Rs.	5,000	Non-recurrent ..	..	Rs.	*Nil.*
Total ..	...	,,	5,000	Ultimate annual recurrent ...		,,	

Remarks.—A scheme has been included in the Second Five-Year Plan for organising four new regional or district industrial co-operative banks during the plan period, with a view to providing adequate finance to cottge artisans and industrial co-operative societies in his State. Out of these proposed four banks one bank has already been organised at Hubli, district Dharwar, and registered. It has started functioning recently. Government has contributed to the share capital of the four old banks and the Dharwar District Industrial Co-operative Bank at the rate of Rs. 5,000 per bank. It is proposed to enhance this rate from Rs. 5,000 to Rs. 25,000. The requisite proposal in this connection is proposed to be implemented during 1955–56.

Under the scheme a grant of Rs. 5,000 is to be given to each bank. Accordingly, the grant to four new banks will be given at a sliding scale of Rs. 5,000, Rs. 4,000 and Rs. 3,000. Under the scheme a contribution of Rs. 20,000 is also to be given to each bank as Government's contribution to its share capital. But as the proposal for Government's contribution to the share capital of banks is to be implemented during 1955–56, no expenditure is required during 1956-57 for Government's contribution to the share capital of these banks. A grant of Rs. 5,000 has been given to the Dharwar District Industrial Co-operative Bank and Government's contribution to its share capital will also be sanctioned for 1955-56 in the proposal referred to above. In view of this, it is necessary to make a provision of Rs. 5,000 only towards the cost of management during 1956-57 for the Dharwar District Industrial Co-operative Bank.

ITEM 302. Grant-in-aid to the State Industrial Co-operative Association Limited for the organisational purposes, etc.

Recurrent	...	Rs.	60,000	Non-recurrent ..	..	Rs.	*Nil.*
Total ..	...	,,	60,000	Ultimate annual recurrent ...			

Remarks.—The State Industrial Co-operative Association Limited, Bombay, is an appex body of industrial Co-operatives and looks after their interest. The Association came into being in 1947 and undertook the work of organisation of cottage industries on co-operative basis. Government assisted it by way of grant-in-aid towards organisational staff and also toward office expenditure. The Association is devoting its attention to business and production activities in those Districts which are not served by the District Industrial Co-operative Associations. It has appointed Special Committees in the Districts of Thana, Kolaba, Poona, Kolhapur, South Satara, Ratnagiri and Greater Bombay to look after the field staff engaged in development of industrial co-operatives. The Association in the past worked as zonal distributor for yarn. It also functioned as distributor—wholesaler and retailer—for Bombay City under the yarn Distribution Scheme. The Association has undertaken the Development of Tanners and Leather Workers' Co-operative Societies at Godhra, Kalol, Jhalod and at Bombay and Satara in the State for intensive development. Government has transferred the management of the Bombay Sales Depot to the Association with a view to enable it to undertake the work of co-ordination activities relating to production and marketing of cottage industries products in the State. In addition to this, the Association acts as middleman in matter of marketing of cottage industrial products so far as Government purchases are concerned. It takes orders from Government and place them with the Industrial Co-operative Societies. In order to operate these transactions, Government has sanctioned guarantee to central financing agencies to enable it to raise funds etc.

2. The Association within its available resources and income is not able properly to discharge its functions as an apex body in regard to promotional and supervisory work. The administrative and other charges needed to co-ordinate the activities on the marketing and technical sides are much more than the income that can be earned from small commission charged by the Association. In view of the great responsibilities which the Association will be called upon to shoulder for the development of cottage and small scale industries during the Second Five-Year Plan, it is proposed to sanction a grant of Rs. 30,000 per year to meet the administrative and supervisory expenses as well as the cost involved in propaganda for the year 1956–57 and further for four years thus making a grant available for a period of five years. The Association will, however, be requested to increase its share capital, appointed qualified staff for the organisation of the handloom industry and effect whatever economy in expenditure is possible.

3. A provision of Rs. 60,000 is, therefore, proposed to be provided in the budget estimates for 1956-57 for above purpose as the grant for 1955–56 and 1956-57 is to be paid.

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 303. Organisation of a training class in Patravali making for Adiwasis from Abu and Danta Talukas, District Banaskantha.

Recurrent	Rs. 10,115	Non-recurrent	Rs. 100
Total	,, 10,215	Ultimate Annual Recurrent ...	

Remarks.—The trees named "Khakara" (Butia Frondoza) are grown in abundance in the areas of Abu and Danta Talukas. The leaves of these trees are used for preparing the cup and dishes (Dron and Patravalis) and they are sold at Ambaji where there is a great demand as thousands of pilgrims visit the place. The leaves are removed from the trees only from the middle of June to the middle of August. This is because leaves get spoilt after August and afterwards it is not possible to find out leaves in good condition. The stock of leaves for a year is required to be collected during the season of these two months. The leaves are to be dried up in a natural way i.e. by atmosphere only after grouping and binding the leaves in bunches. After drying the leaves are used for preparing dishes and cups. Even after the dishes and cups are prepared, they are to be kept under heavy weight so as to give them an even appearance. The Adiwasis residing in villages round about Ambaji are at present following the industry but the methods adopted by them are crude and as a result, there is neither a good market nor better realisation of price. They simply cut leaves throughout the year, give them round shape of dishes and cups by stitching leaves with chips of bamboos and as such, the products cannot be stored, but are required to be utilised for immediate purposes. They sell such dishes and cups to the local merchants of Ambaji who in their turn sell the same to the thousands of pilgrims visiting the place. In order that the Adiwasis should prepare the cups and dishes by utilising systematic methods and thus realise better prices, it is proposed to organise a training class in the industry. Twenty Adiwasis will be admitted for training and the duration of course will be three months. The training period of three months is necessary because, though apparently manufacture of Patravalis appears so simple, it has its own processes which unless properly followed may not produce marketable articles. Moreover the Adiwasis are very backward and illiterate. During the period of training they will be granted stipends at Rs. 20 per month out of which one anna per rupee will be deducted as their contribution to the share capital of the Co-operative Society which will be formed. At this rate, 20 trainees during their training period will be able to collect a share capital of about Rs. 75 which will not be adequate for the registration of the society. It is doubtful whether the Adiwasis will be in a position to make any contribution towards share capital on their own, so that the training given is not lost and trainees work in future in the form of a Co-operative Society, it is very necessary for Government to run a production centre for at least 8 months after the training is over. During the production period they will be given wages on the piecework basis and anna one per rupee will be continued to be deducted to build up the share capital of the Society. During the production period there will be no loss to Government in respect of raw materials and the wages paid. During the production period on an average the trained person may earn Rs. 25 to Rs. 30 per month as wages. At the end of the production period, the Co-operative Society will be formed and it will be able to market the finished goods of its members at better prices. The scheme will thus help the Adiwasis to increase their earning. As the scheme is meant for the welfare of the Scheduled Tribes (Adiwasis), the Government of India will be requested to sanction Rs. 5,107 i.e. 50 per cent. financial assistance under Article 275 of the Constitution. The cost of the scheme to be met by the State Government can be accommodated within the provisions for the various training schemes of the Cottage Industries included in the Second Five Year Plan. The details of the estimated expenditure during 1956-57 are as follows :—

Expenditure.

	Rs.	Rs,
Non-recurring Rs. 100		
Recurring (for 11 months)—		
(*A*) *Pay of staff* :—		
(*i*) One Instructor at Rs. 70—3—85		770
(*B*) *Allowances and Honoraria* :—		
Dearness allowance		495
Travelling Allowance		100
(*C*) *Contingencies* :—		
(*i*) Rent for building Rs 30. per month		330
(*ii*) Postage, Stationery and other contingent expenditure.		220
(*iii*) Raw Material—		
For training period	1,000	
For production period	3,000	
(*iv*) Wages for production period	3,000 ...	7,550
(*D*) Scholarships at Rs. 20 per month to 20 trainees for 3 months.		1,200
	Total recurring ...	10,115

Summary :—Non-recurring	100
Recurring	10,115
Total ...	10,215

The estimated receipts are Rs. 6,000.

43, *INDUSTRIES*—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 304. The Scheme for the re-organisation of Talavchora Carpentry Workshop run by the Talavchora Panchal Wood and Iron Workers' Co-operative Society, Limited, at Talavchora, District Surat—for the manufacture of bullock carts.

Recurrent ...	... Rs.	5,000	Non-recurrent ...	... Rs.	15,000
Total ...	... ,,	20,000			

Remarks.—Talavchora is a village in Chikhali Taluka of Surat District. The main population of this village consists of some hundred families of hereditary carpenters known as Panchals. Their main occupation is to manufacture bullock carts. All of them are skilled workers in carpentry and can do even furniture and body building work of trucks also efficiently. They were working individually so far, till they were organised into an Industrial Co-operative Society. They have built up a workshop building with a view that they can undertake joint production work. The workshop at present is equipped with a Band-saw. The Society also intends to install further machinery in their Workshop for supplying the members of the Society semi-finished parts of the cart which they would assemble in the Workshop. Thereby the Society hopes to cut down the cost of production.

2. The carpentry and smithy is an age-old village industry and its importance in rural economy is only next to weaving and leather industry. In the case of this particular society, it has a memebership of 85 workers. All of them are skilled workers in carpentry and so to say specialists in the manufacture of bullock-carts. Their carts are not only finding markets in Surat District but also in the neighbouring districts of Dangs, West Khandesh and Broach. For Rural India, the importance of bullock-carts is in no way diminished inspite of the fact that our country is fast developing, in the modern means of transport such as railways, motor trucks, etc. Unless better methods of production and organised ways of working are brought home to the village artisans, it is not possible to stand in competition to bring down the cost and to develop village industries.

3. The Scheme envisages a total expenditure of Rs. 1,77,192. The details of expenditure are as indicated below :—

	Rs.
(*A*) *Non-recurring*—	
(1) Workshop building—the Society has completed the building at a cost of ...	41,640
(2) *Machinery, tools and equipment* :— ...	21,552
(The society has installed a 45/49 B. H. P. horizontal diesel engine to work a 42 " band-saw and other machinery which the society may add in its workshop later on).	63,192
	63,192
(*B*) *Recurring*—	
(1) *Pay of Supervisory and controlling staff* :—	
(*i*) One Secretary on Rs. 140 per mensem in the grade of Rs. 100—8—140—10—150.	1,680
(*ii*) One Carpentry Foreman on Rs. 150 per mensem in the grade of Rs. 150—10—200.	1,800
(2) Allowances and Honorarium of the Supeivisory and Controlling staff :—	
(*i*) Dearness Allowance	1,200
(*ii*) Travelling Allowance	320
(3) *Pay of other staff* :—	
(1) Band-saw operator at Rs. 150 per mensem fixed inclusive of Dearness Allowance.	1,800
(2) Engine Driver at Rs. 100 per mensem fixed inclusive of Dearness Allowance.	1,200

MINISTER IN CHARGE—SHRI M. P. PATIL

(4) *Contingencies*—

	Rs.
(1) Raw materials, diesel oil lub. oil and other minor operational expenses.	60,000
(2) Wages to carpenters working on piecework basis	40,000
(3) Depriciation on workshop building at 5 per cent. per annum ...	2,082
(4) Interest on working capital of Rs. 25,000 at 4½ per cent. ...	1,125
(5) Postage and Stationery	200
(6) Miscellaneous Expenses	438
	1,14,000

4. From the above scheme, it is seen that out of the Government loan already granted to the Society to the extent of Rs. 43,000, the Society has completed the construction of building and has purchased tools and equipment worth Rs. 21,552. It is proposed to provide the society with a grant-in-aid of Rs. 5,000 per year for first three years for management cost, a working capital of Rs. 25,000 with interest at the rate of Rs. 4½ per cent. per annum and also a grant-in-aid of Rs. 15,000 towards the workshop building. The working of the Society when implemented will be carried on under the direct supervision of the Government Officer who has been appointed to work as Secretary of the Society and the Carpentry Foreman. As there will be assured market for the bullock-carts, the scheme has got fairly good changes of successful working. The anticipated receipts would be approximately Rs. 1,16,000 and the net profit would be nearly Rs. 2,000.

5. A separate new item for Rs. 25,000 for grant of the loan has been put up under "P—Loans and Advances" during the financial year 1956–57. It is, therefore, proposed to sanction a grant-in-aid of Rs. 20,000 to the Society. The Government of India, Ministry of Commerce and Industry has been requested to sanction the grant and the loan to the Society.

ITEM 305. Scheme for the development of Coir Industry in the Bombay State.

Recurrent	... Rs.	8,000	Non-recurrent	... Rs.	1,000
Total	... ,,	9,000	Ultimate annual recurrent	...	

Remarks.—The State of Bombay accounts for an area of 30,000 acres (approximately) under cocoanut cultivation, the important cocoanut growing districts being North Kanara, Kolaba and Ratnagiri.

2. Taking an average yield of 79 trees per acre and 36 nuts per tree, the total plantation in the Bombay State would yield more than 8 crores and 20 lakhs of nuts per annum. Ordinarily 10,000 cocoanut husks would produce one ton of coir. Thus 8,200 tons of coir can be extracted from these husks every year from which 1,00,000 rollls of matting or 90,000 dozens of brush door mats of common size can be manufactured, providing employment to about 10,000 persons throughout the year.

3. As there is considerable scope for marketing coir goods, it is necessary to encourage this industry for which the following schemes are proposed to be undertaking during the Second Five-Year Plan :—

(*a*) Organisation of one peripatetic coir work school.
(*b*) Purchase of samples of coir goods.
(*c*) Rebate on sale of coir goods.
(*d*) Scheme for management and organisational expenses.
(*e*) Development of Coir Industry through Coir Co-operative Societies.

Scheme (*a*) It is proposed to organise one peripatetic coir work school for imparting training to artisans in improved methods of production and adopting improved implements in coir industry. About 12 students will be admitted in the school and will be paid stipends at the rate of Rs. 25 in urban areas and Rs. 20 in rural areas.

Scheme (*b*) There are at present only 4 co-operative societies in coir industry, three in Honavar Taluka, district North Kanara and one at Vengurla, District Ratnagiri. It is proposed to organise 20 co-operative societies for coir work during the Second Five-Year Plan period and assist them for purchase of tools, equipments, construction of sheds and in providing working capital. During the year 1956–57 only 4 such societies would be organised.

Scheme (*c*) In order to build up the trade in coir goods it is proposed to provide a grant of Rs. 4,000 for purchase of samples of coir goods and for distributing them in the State during the year 1956–57.

Scheme (d) : The present production is estimated to be about 160 tons of coir monufactured in the State giving part time and full time employment to about 3,000 persns. The total cost of coir produced in the State will be Rs. 1,0,000 at present. In order to encourage production and sale of coir goods it is proposed to give a subsidy of annas two per rupee as rebate towards the goods produced and sold through co-operative societies. The expenditure involved, on the scheme would be Rs. 10,000 during the year 1956–57.

Scheme (e) : For the management and organisation of above 4 scheme it will be necessary to provide for expenditure at 5 per cent. of cost of the schemes. It is accordingly proposed to appoint one Coir Supervisor in the grade of Rs. 150—10—200 under this scheme. The cost in respect of the above proposal for a period of eleven months during 1956–57 would be as under :—

Scheme No. (e) : Development of Coir Industry throngh Coir Co-Operative Societies.

		Rs.	Rs.
Recurring :—			
Ray of Staff.—			4,620
(a) One Coir Development Officer at Rs. 250 per mensem in the scale of Rs. 250—15—410.	...	2,750	
(b) Two Industrial Supervisors at Rs. 85 per mensem each in the scale of Rs. 85—4—125 (posts to be filled in the middle of the year).	...	935	
(c) One Junior Clerk at Rs. 55 per mensem in the grade of Rs. 46—3—85.	...	605	
(d) One Peon at Rs. 30 per mensem in the grade of Rs. 30—½—35.	...	330	
Allowances and Honoraria ;—	Rs.		
Dearness Allowance ..	1,405		
Travelling Allowance ..	1,095		
House Rent and Compensatory Allowance ..	500	3,000	
Contingencies—			
Postage and Stationery ..		380	
Total Recurring ..		8,000	
Non-Recurring—			
(i) Purchase of tools and equipments. (50 percent. as loan and 50 per cent. as grant).	2,000		
(ii) Construction of Sheds (Loan) ..	10,000		
(iii) Working Capital for Coir Workers' Societies (Loan)	7000		
		19,000	
Total Recurring and Non-Recurring ..		27,000	

A loan provision of Rs. 17,000 is required during 1956–57. The Central assistance by way of loan from the Government of India during 1956–57 will be Rs. 11,850.

2. A provision of Rs. 9,000 is made during 1956–57. The Central assistance for the scheme by way of grant would approximately be Rs. 3,990 for the first year.

ITEM 306. Scheme for the Mobile Carpentry Units.

Recurrent	Rs. 36,000	Non-recurrent ...	Rs. 90,000
Total	,, 1,26,000	Ultimated annual recurrent	,,

Remarks.—The Small Scale Industries Board (Government of India) decided at its meeting held on the and 6th January 1955 that steps be taken to introduce improved tools and techniques amongst carpenters. It was felt that if village carpenters are to be catered for, it would be necessary to approach them in their own villages. The Small Scale Industries Board has drafted a scheme for the Mobile Carpentry Units for the benefit of individual carpenters and carpenters, co-operative societies. In accordance with the

scheme of the Board, this Government has proposed to start 2 such mobile carpentry units in this State. The mobile units would be located in such places of the Region where electricity is available. The expenditure involved for one such unit will be as under :—

Non-recurring.

	Rs.
Cost of diesel truck chassis including the cost of special built up body for the mobilevan.	30,000
Cost of machinery, equipment and generator including erection and wiring, etc.	15,000
Total non-recurring expenditure ...	45,000

Recurring.

One wood working mechanist-*cum*-demostrator at Rs. 150 to 200 per month.	1,800
One skilled craftsman (senior carpenter) at Rs. 120 per mensem	1,440
One unskilled craftsman (junior carpenter) at Rs. 80 per mensem	960
One driver-*cum*-mechanic at Rs. 120 per mensem	1,440
One cleaner-*cum*-watchman at Rs. 60 per mensem	720
Raw material required at Rs. 250 per mensem	3,000
Diesel oil, lubricating oil, etc. at Rs. 350 per mensem	4,200
Rent of Garage, etc.	1,200
Contingencies, including casual repairs and replacements per year	2,000
Special allowances to staff, etc.	1,200
Total recurring expenditure ...	17,960
Say	18,000
Total recurring and non-recurring expenditure ...	63,000
Rs. 63,000 × 2 =	1,26,000

2. The Government of India, Ministery of Commerce and Industry has been requested to sanction the scheme consisting of 3 Units, and to bear the entire expenditure of Rs. 1, 89,000 during the financial year 1955-56. The Government of India has, however, agreed to sanction Rs. 1,28, 000 to this Government on account of the scheme during the financial year 1955-56, as per details shown below :—

75 per cent. of the non-recurring expenditure on trucks, chassis, machinery	1,01,250
50 per cent. of the recurring expenditure on labour, raw materials, etc. ...	27,000
	1,28,250

3. The Government of India's above grant is, however, subject to the condition that the balance percentage of the expenditure is borne by the State Government. It has been proposed to start only two units during the year 1956-57. The Government of India will be requested to reallot the grant during the financial year 1956-57, on the basis mentioned in paragraph 2 above.

ITEM 307. Development of the Hand loom Industry Scheme.

Recurrent	...	Rs.	24,36,000	Non-Recurrent ...	...	Rs.	*Nil.*
Total	...	,,	24,36,000	Ultimate annual recurrent ...		,,	,,

Remarks.—Since 1953-54, the Government of India are sanctioning financial assistance to this Government for the development of handloom industry out of "Cess Fund". So far 39 different schemes have been sanctioned involving an expenditure of about Rs. 63 Lakhs. The ceiling limit of such assistance for Bombay State for 1956-57 is Rs. 48·72 lakhs.

2. According to revised instructions of the Government of India, the Schemes sanctioned by them would be continued during the next financial year on making a formal request indicating the unspent amount that would be available under each scheme. Further financial assistances under the sehemes sanctioned by the Government of India after the 25th August 1954 will not be placed at the disposal of the State Government immediately. The State Government will have to finance the schemes initially and claim the amount from the Government of India.

MINISTER-IN-CHARGE.—SHRI M. P. PATIL.

3. The special staff appointed for the execution of the schemes has, therefore, to be continued for the next year for the successful and expeditious implementation of these schemes. In view of this, it is proposed to continue the following staff during 1956-57 and to make a total provision of Rs. 24,36,000.

47, MISCELLANEOUS DEPARTMENTS.

MINISTER IN CHARGE—SHRI MORARJI R. DESAI.

ITEM 308. *Ad hoc* grant on account of Superintendent of one non-official voluntary institution and building grant to non-official institutions.

Recurrent	.. Rs. 2,400		Non-recurrent	.. Rs.	48,980
Total	.. „ 51,380		Ultimate annual recurrent		

Remarks.—At present grants are given by Government through the Juvenile and Beggars Department to private institutions working for the rescue and prevention of women in need and distress. There is a crying need for introduction of a programme for the welfare of socially handicapped women like widows, unmarried mothers, destitutes and deserted women in urban areas. It is also necessary to evolve a plan to render help to women who are in need of protection and treatment and who do not come under the purview of the Bombay Children Act. During the Second Five Year Plan period it is proposed to give increase grants to private institutions and voluntary agencies working for the welfare of women and for introduction of welfare services for women above the age of 21. This would be more economical than for Government to start institutions for this purpose.

This measure has been a long felt need and would introduce measures for rescuing and extending protection to a larger number of women in distress for whom at present no facilities and adequate services exist.

The amount provided for this Scheme in the Second Five Year Plan period is Rs. 1,20,000 of which during the first year i.e. 1956–57 the amount required is Rs. 51,380 as shown below :—

Ad-Hoc grant on account of Superintendent of one-non-official voluntary institution.	2,400	Recurring,
Building grant to non-official institutions ..	48,980	Non-recurring.
	51,380	

ITEM 309. Appointment of Staff for organising work under the Bombay Probation of Offenders Act.

Recurrent	.. Rs. 30,000		Non-recurrent	.. Rs.	*Nil.*
Total	.. „ 30,000		Ultimate annual recurrent		

Remarks.—At present the provisions of the Bombay Probation of Offenders Act are applicable to certain specified areas of Greater Bombay and of Districts of Ahmedabad, Poona, Sholapur, Dharwar, Belgaum, Bijapur, Surat, North Satara, Karwar, Baroda, South Satara and Ahmednagar. It is necessary to extend the provisions of the Act to the remaining districts also in the State. The Planning Commission has emphasised that probation service and welfare and after-care work for the prisoners discharged from the Prisons and their families should be implemented on a wider scale. It is accordingly proposed to extend the provisions of the Act to the remaining districts of the State during the Second Five-Year Plan period.

"Probation" work of this nature entails great responsibility and should be entrusted to workers who should be fairly highly placed in life viz. of the rank of Chief Officers. The proposal is to appoint 3 Chief Officers during each of the 5-years and thus at the end of the 5 years there will be 15 Chief Officers in charge of "Probation Work" in as many districts. In the Head Office there will be one officer of the rank of Inspector of Certified Schools (in the 3rd year) and one officer of the rank of Assistant Inspector of Certified Schools (in the 5th year) to take charge and organise the work further.

The amount allotted for this scheme in the Second Five Year Plan is Rs. 4,00,000 of which an amount of Rs. 30,000 is required in the first year i.e. 1956–57 as shown below :—

	Rs.
Pay of Officers—	
3 Chief Officers in the scale of Rs. 220—15—325	7,920
Pay of Establishment—	
3 Peons in the scale of Rs. 30—½—35	1,080
Allowances, Honoraria, etc.—	
Dearness allowance	3,420
Travelling allowance (fixed)	3,600
Contingencies—	
Office rent at Rs. 120 per mensem	4,320
Printing, stationery, etc.	1,500
Conservancies	2,160
Help to probationers and released prisoners	3,000
Office equipment	3,000
Total ...	30,000

47, *MISCELLANEOUS DEPARTMENTS*—contd.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 310. Constitution of a machinery for conducting Socio-Economic enquiries, etc.

Recurrent	... Rs. 1,21,256	Non-recurrent	... Rs. 10,144
Total	... ,, 1,31,400	Ultimate annual recurrent	

Remarks.—(1) The present working class cost of living index numbers are based on the family budget studies conducted fairly long ago. There is reason to believe that since then the living habits of workers may have changed and their income and expenditure may have assumed an entirely different pattern. The prices are now showing a tendency to stabilise and in view of removal of all controls, the conditions have become favourable for conducting family budget enquiries with a view to making the index numbers more representative of the actual pattern of living among the workers.

(2) It is equally necessary to conduct an extensive wage census in all the industries in the State with a view to making available an adequate and reliable wage data. The wage census was carried out in this State as far back as 1934. Recent wage statistics will, therefore, assist Government in formulating a comprehensive wage policy.

(3) The problem of unemployment has of late assumed great significance. Unemployment reduces the economic status of the worker as well as his bargaining power and become a potential threat to industrial peace. It is, therefore, necessary to assess the extent and nature of unemployment so that ways and means can be found to provide wider opportunities of employment and utilise the available man-power constructively.

(4) Further, India is badly in need of accurate and reliable statistics on labour. It is proposed to collect quarterly statistics under the Bombay Industrial Statistics (Labour) Rules, 1951, on employment and unemployment, wages and hours of work from factories and agencies employing labour in ports. The data will be useful in examining short term trends in employment and earnings, so vital in settling disputes and deciding labour policies.

(5) Finally, the Minimum Wages Act, 1948, is bringing an increasing number of industries within its scope. It is desirable to survey the conditions of work and wages of employees and assess the economic effects of the application of the Act to the specific industries. A machinery is, therefore, intended to be created to undertake these surveys and to collect data which will be useful in revising the minimum wages from time to time.

The expenditure likely to be incurred in connection with these enquiries is estimated at Rs. 6,89,000 during the period of the Second Five-Year Plan. The expenditure during the first year of the Plan, viz. 1956-57, would be Rs. 1,31,400 as shown below :—

Pay of Establishment—

Designation.	Scale of pay.	No. of posts.	Expenditure during 1956-57.
	Rs.		Rs.
Deputy Commissioner of Labour (Gazetted).	800—50—1,200	1	8,800
Supervisors	220—15—400—20—500	2	4,840
Superintendent	170—10—200—15—380	1	1,870
Senior Investigator	170—10—280	4	8,160
Junior Investigator	120—5—170	15	21,600
Senior Clerks	120—10—200—E.B.—10—250.	4	5,280
Clerk-typist	75—5—140—E.B.—6—200	12	10,800
Peon	35—1/2—40	6	2,520
			63,870
2. *Allowance and Honoraria*—			
Dearness Allowance			26,340
Compensatory Local Allowance			120
House Rent Allowance			882
Travelling Allowance (Ordinary)			4,500
Travelling Allowance (Fixed)			11,544
			43,386
3. *Contingencies*—			
Recurring			14,000
Non-recurring			10,144
		Total	1,31,400

47, *MISCELLANEOUS DEPARTMENTS*—contd.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 311. Constitution of a machinery for collection of Employment market information.

Recurrent	... Rs.	55,000	Non-recurrent	... Rs.	*Nil.*
Total	... ,,	55,000	Ultimate annual recurrent	...	

Remarks.—The present Employment Exchange statistics are neither detailed nor adequate enough for the purpose of giving all the information that Employment Exchange operation can provide regarding the occupational, industrial and educational characteristics of the unemployed. Such information is necessary for formulating correct policies in regard to training and retraining vocational and educational guidance and employment counselling. It is therefore proposed to collect information in regard to the chief characteristics of the unemployed together with trade-wide details in respect of the fresh registrants on the one hand and trade-wise statistics of employment opportunities arising in different industries and other economic sections on the other. It is also proposed to collect the statistics of staff strength and the vacancy position in respect of the Central and State Government establishments, quasi—Government establishments and other statutory and local bodies. The scheme also envisages the maintenance of an Employers Register at Employment Exchanges, the compulsory statistical reporting of current vacancies to the Employment Exchanges by private employers for purpose of manpower planning and the regular collection and publication of information about training facilities available in the country. The scheme "collection of Employment Market Information" which will be implemented jointly by the Central and the State Government is proposed in the Second Five-Year Plan. A total provision of Rs. 3,50,000 out of which Rs. 2,10,000 is to be shared by the Central Government and Rs. 1,40,000 by the State Government is proposed for the Scheme. A provision of Rs. 55,000 is proposed during the first year of the Plan, the details of which are as shown below. Out of it, Rs. 33,000 is to be shared by the Central Government and Rs. 22,000 by the State Government.

	No. of posts	Expenditure per annum. Rs.
Assistant Employment officers	2	8,340
Statistical Assistants	4	14,640
Upper Division Clerks	10	24,000
Lower Division Clerks	3	5,130
Peons	3	2,610
		54,720

ITEM 312. Starting of Evening Classes for Industrial Workers.

Recurrent	.. Rs.	42,000	Non-recurrent	.. Rs.	*Nil.*
Total	.. ,,	42,000	Ultimate annual recurrent	.. ,,	

Remarks.—In all industrially advanced countries facilities for instructions are provided to existing industrial workers who want to improve their efficiency in their present jobs or to qualify themselves for higher jobs. Instructions take the form of part-time courses held mostly in the evening. In India as majority of the existing workers enter the industry without any scientific training it is necessary to provide similar facilities to the Industrial Workers. With this object in view it is proposed to organise Evening Classes at the existing technical institutes as far as possible. Where technical institutes do not exist industrial establishments will be encouraged to set up training centres within the factory premises. Facilities will be provided at these Evening Classes for training of such industrial workers as are discharged as result of the introduction of new methods and technique to enable them to acquire the necessary knowledge for their eventual reabsorption in the industry or to learn alternative trade for which there are demands in the country.

2. Courses will also be organised in evenings to enable industrial workers to appear for the National Trades Certificate Examination.

3. The objects of the scheme which is a new one are as under :—

(*i*) To improve the skill of existing workers,

(*ii*) To improve the prospects for promotion within the establishments,

(*iii*) To increase production and workers' earnings through higher efficiency,

(*iv*) To reduce unemployment among discharged industrial workers by providing diversional training, and

(*v*) To facilitate workers to obtain National Trade Certificate.

This is one of the six schemes formulated by the Government of India for the expansion of training facilities for craftsmen throughout the country under the Second Five-Year Plan. This scheme has been included in the State Plan. The scheme is to be run both by the Government of India and the State Governments. The cost of the scheme is to be shared between the Government of India and the State Governments on the basis of 60 per cent. and 40 per cent. respectively. The allocation of the scheme in the State Plan is as under :—

Total cost for 5 years.	Estimated assistance from the Government of India.	Cost of State Government.	Provision required during the first year of the Second Plan. Total	Central share	State share
Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
5·98 lakhs.	3·59 lakhs.	2·39 lakhs.	·42 lakhs.	·25 lakhs.	·17 lakhs.

Accordingly a provision of Rs. 42,000 is claimed in the next year budget out of which Rs. 25,000 will be recoverable from the Government of India.

47, *MISCELLANEOUS DEPARTMENTS*—contd.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 313. Expansion of the Scheme of Research into Industrial Diseases and Hazardous Occupations.

Recurrent	Rs. 15,550	Non-recurrent	Rs.	4,000
Total	„ 19,550	Ultimate annual recurrent ...		

Remarks.—A Scheme for Research into Industrial Diseases and Hazardous Occupations has already been undertaken in this State under the First Five Year Plan. Under this Scheme, a nucleus staff of one Medical Inspector of Factories, one Analytical Chemist, one Laboratory Assistant, one clerk and two peons has been appointed. The work so far done under the Scheme during the First Five Year Plan was restricted to factories more or less in Bombay City only. With the existing staff under the Scheme, it has not been possible to undertake field surveys for the purpose of appraised of industrial hazards in certain occupations. These surveys are essential as on their results, rules can be formulated for the protection of workers on the factory premises. A number of factories which are located outside Bombay City have yet to be surveyed. Besides several factories have to be visited before the nature of the problem is determined and a solution found out. For this purpose, the Medical Inspector of Factories will need assistance of Inspectorial staff as the presence of the Medical Inspector in the laboratory in Bombay is necessary. It is also proposed to expand the scope of the laboratory to enable the Medical Inspector to undertake Bacteriological investigations into hazards of biological nature like anthrax, tetanus, brucellosis, leptospira, tubercule, etc. For this type of research, a bacteriological section will have to be added to the existing laboratory. The scheme "Research into Industrial Diseases and Hazardous Occupations" is, therefore, proposed to be expanded under the Second Five Year Plan. A total provision of Rs. 1,40,000 for five years is proposed for the expansion of the Scheme. The details of the additional staff proposed to be entertained in connection with the expansion of the Scheme and the total expenditure in the first year of the Plan on that account are as follows:—

Designation.	Scale of Pay.	Number of posts.	Expenditure per annum.	Cost during 1956-57.
Pay of Officers and Establishment—	Rs.		Rs.	Rs.
Junior Medical Inspector of Factories (Gazetted).	340—15—400—E.B.—20—500—25—550. (fixed pay of Rs. 300 on probation)	1	4,080	3,300
Laboratory Technician ...	140—10—220.	1	1,680	1,540
Senior clerk	150—10—230.	1	1,800	1,650
Laboratory Assistant ...	75—3—105.	1	900	825
Laboratory Attendents ...	35—½—40.	2	840	770
Peon	35—½—40.	1	420	385
	Total	...	9,720	8,470
Allowances and Honoraria—				
Dearness allowance		...	3,840	3,520
Compensatory Local Allowance		...	600	550
House rent allowance		...	576	530
Travelling allowance (Ordinary)		...	1,500	1,400
Travelling allowance (Fixed)		...	480	440
	Total	...	6,996	6,440
Contingencies—				
Recurring		...	684	630
Non-recurring		...	4,000	4,000
	Total	...	4,684	4,630
	Grand Total	...	21,400	19,540
			(rounded to Rs. 19,550).	

47, *MISCELLANEOUS DEPARTMENTS*—contd.

MINISTER IN CHARGE—SHRI SHANTILAL H. SHAH.

ITEM 314. Constitution of a machinery for supervision over the administration of the Bombay Shops and Establishments Act, and extension of the Payment of Wages Act to establishments covered by the Bombay Shops and Establishments Act.

Recurrent	Rs.	30,340	Non-recurrent	Rs.	1,560
Total	"	31,900	Ultimate annual recurrent		

Remarks.—The administration of the Bombay Shops and Establishments Act by the local bodies at the several places to which the Act has been applied is not very happy and it is necessary to have a supervising machinery to ensure proper enforcement of the Act by the local bodies. A number of complaints about non-payment of wages were also received from the employees working in establishments covered by the Bombay Shops and Establishments Act. Government has, therefore, extended the provisions of the Payment of Wages Act to those establishments in important cities in the State. The Scheme "Constitution of machinery for supervision over the administration of the Bombay Shops and Establishments Act, etc." is, therefore, proposed in the Second Five Year Plan. A total provision of Rs. 1·87 lakhs for five years is proposed for the Scheme. The details of the staff proposed to be entertained in connection with the scheme and the total expenditure in the first year of the Plan on that account are as follows :—

Pay of Establishment.	Scale of Pay.	Number of Posts.	Expenditure per annum.
Designation—	Rs.		Rs.
Assistant Commandant of Laboratory (Gazetted).	440—30—650—45—920.	1	4,840
Assistant Labour Officer (Gazetted).	220—15—400—20—500 (mofussil scale).	2	4,840
Superintendent	170—10—200—15—380	1	1,870
Senior clerk	120—10—250	1	1,320
Senior clerk (mofussil scale) ...	100—8—140	2	2,200
Junior clerk	75—5—140—6—200	1	825
Peon	35—½—40	2	770
Peon	30—½—35 (mofussil scale).	4	1,320
			17,985
Allowances and Honoraria—			
Dearness allowance			7,040
Compensatory Local Allowance...			143
House Rent allowance			840
Travelling allowance (ordinary)...			1,800
Travelling allowance (fixed)			1,980
			11,803
Contingencies—			
Recurring			550
Non-recurring			1,560
			2,110
		Grand Total ...	31,898
		(rounded to Rs. 31,900)	

ITEM 315. Appointment of a non-official Industrial Council for Health, Hygiene and Safety.

Recurrent	Rs.	28,000	Non-recurrent	Rs.	2,000
Total	"	30,000	Ultimate annual recurrent ..		

Remarks.—The Factories Act, 1948, and the Rules framed thereunder contain detailed provision for the health, hygiene and safety of workers. Wherever possible, standards have been prescribed for giving effect to these provisions and the Factory Inspectorate has been making all possible efforts to induce the employers to introduce the required health and safety measures. On the recommendation of the State Labour Advisory Board in its meeting held in June 1952, Government has set up Regional Tripartite Committees to advise Government and the Factory Inspectorate regarding the standards to be accepted under the Factories Act and the measures to be taken to remove the difficulties experienced by employers in providing the necessary improvements.

2. As the Industrial Conditions Enquiry Committee has however remarked while the Factories Act states minimum legal requirements necessary for health, safety, etc., much more than the mere following of minimum requirements is necessary to ensure the required high standard and the attainment of such standard calls for a much greater voluntary effort on the part of all concerned. Experience in other countries has shown that much more could be achieved if non-official agencies develop their activities to educate employers

and workers alike on the need to ensure health, hygiene and safety in factories. In Great Britain propaganda concerning the prevention of accidents is carried on by the Royal Society for the Prevention of Accidents. This Society, it is stated, works in close collaboration with the Factory Inspectorate and publishes posters and bulletins which have been of great value to the Inspectorate and to the employers. The Industrial Conditions Enquiry Committee has stressed the need of such a voluntary organisation in this State which would work in close co-operation with the Factory Department.

3. For these reasons it is proposed to set up a non-official Council which will take interest in and cultivate public opinion about industrial health, hygiene and safety in factories. It may form branches in various industrial centres and may also set up Safety Councils in factories representing employers and employees. The proposed Council may be tripartite in character representing non-officials, employers and employees except that the Safety Councils may be bipartite. The Councils will contact the workers and tell them what to do and what not to do by leaflets, lectures, cinema-slides and other means of propaganda. They will also contact the employers and pursuade them and guide them in setting up safety devices and in maintaining health and hygiene in factories. The work of the Councils will mainly consist in creating public opinion and giving help and guidance and achieving results by voluntary efforts and not by process of law. The technical experience of the Factory Department will however be available to the Council which will work in close collaboration with that Department.

The Scheme " Appointment of non-official industrial Council for Health, Hygiene and Safety is proposed in the Second Five Year Plan. The expenditure likely to be incurred in connection with this Scheme is estimated at Rs. 1,50,000 during the period of Second Five Year Plan.

The expenditure during the first year of the Plan viz: 1956-57, would be Rs. 30,000. The details of the staff proposed to be entertained and other details of expenditure are as shown below :—

	Rs.	Rs.	a.	p.
1. *Pay of Officers*—				
1 Inspector of Factories (will act as Secretary). Rs. 220—15—400—E.B.—20—500).	220 × 11	= 2,420	0	0
Total ..		2,420	0	0
2. *Pay of Establishment*—				
1 Steno typist. (Rs. 100—5—120—8—200)	100 × 11	= 1,100	0	0
1 Senior clerk (Rs. 120—10—200—E.B.—10—250) ..	120 × 11	= 1,320	0	0

47, MISCELLANEOUS DEPARTMENTS—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 316. Appointment of staff in connection with the preliminary work of the 2nd and 3rd Milk colonies.

Recurrent	... Rs. 26,600		Non-recurrent	... Rs.	*Nil.*
Total	... ,, 26,600		Ultimate annual recurrent	... ,,	

Remarks.—Government have built milk colony at Aarey and approximately 13,000 adult animals are removed from the City to the Colony. However, there are still many cattle in the Suburbs out of which 10,000 are to be removed to the 2nd Colony. Government have, therefore, decided to built 2 more colonies, one for milk cattle and the other for dry cattle and calves. The Government of India has also agreed to give grant and loan to meet part of the expenditure. For establishing these new colonies, it is necessary to take up preliminary work such as selection of sites, preparation of plans and estimates, etc., and Government have, therefore, approved the following staff for the purpose :—

Post.	No.	Pay scale.
Superintending Engineer	1	1,300—60—1,600.
Typist	1	70—3—85—E.B.—4—125 (Mofussil).
Peons	2	30—1/2—35 (Mofussil).

However, as this staff is in connection with the Development Schemes under the Second Five-Year Plan, provision of Rs. 26,600 is proposed to be made by means of a New Item as detailed below :—

	Rs.
Pay of Officers	14,300
Pay of Establishment	1,430
H. R. and Allowances	605
Dearness Allowances	1,265
Contingencies	9,000
Total ..	26,600

ITEM 317. Apprenticeship training of craftsmen.

Recurrent	... Rs. 3,25,000	Non-recurrent	...	... Rs. 1,75,000
Total	... ,, 5,00,000	Ultimate annual recurrent	...	

Remarks.—A systematic course of apprenticeship has been universally accepted as the best method of training highly-skilled craftsman for the modern industrial establishments. With greater emphasis on industrialization in the Second Five-Year Plan there will be greater demand for highly-skilled workers; demands for greater than the present supply. It is therefore proposed to provide apprenticeship training facilities in large-scale factories for about 5,450 persons as indicated below during the Second Five-Year Plan period :—

1956-57	250
1957-58	500
1958-59	1,000
1959-60	1,500
1960-61	2,200 (cumulative).

This scheme is proposed to be implemented jointly by the Government of India and the State Government. The Government of India will bear 60 per cent. of the cost and the balance will be shared by the State Government. The total cost of the scheme is estimated to be about Rs. 25,00,000 of which Rs. 5,00,000 are proposed to be spent during the first year. The State share of expenditure will be about Rs. 2,00,000 during 1956-57. As, however, the Government of India share will be recovered at the end of the year and as these schemes are proposed to be transferred to the State Government the entire expenditure of Rs. 5,00,000 is proposed to be provided in the State budget. The Government of India share of expenditure when realized will be credited to the Receipt head. It is accordingly proposed to provide an amount of Rs. 5,00,000 in the budget estimates for 1956-57, on this account.

ITEM 318. Technical and Vocational Training Centres.

Recurrent	... Rs. 2,01,600	Non-recurrent	...	Rs. 7,71,000
Total	... ,, 9,72,600	Ultimate annual recurrent	...	,,

Remarks.—The training schemes started during the War were switched over first for the training of demobilized personnel, then displaced personnel and adult civilians and now continue as scheme for training of craftsmen. The training facilities under the scheme exist at present at the following places :—

Bombay,
Aundh,
Poona,
Hubli,
Kolhapur.

MINISTER IN CHARGE—SHRI D. N. DESAI.

In these centres about 1,072 trainees are being admitted every year. The existing capacity is, therefore, considered to be inadequate to meet the requirements of the State for skilled craftsmen. Besides, the existing centres are not evenly distributed in all parts of the State. In order, therefore, to meet the increased demand of the State for such type of trained personnel and also of the all parts of the State it is proposed to train 3,000 personnel (including 1,072 existing) during the Second Five-Year Plan. The yearwise breakup of the additional persons to be trained is given below:—

Year.	Number of additional persons to be trained.
1956-57	280
1957-58	400
1958-59	400
1959-60	848
1960-61	.....
	1,928

It is also proposed to increase the academic training period from 18 months to 24 months and also to improve the quality of the training. The scheme is proposed to be implemented jointly by the Government of India and the State Government. The Government of India will share 60 per cent. of the cost and the balance of 40 per cent. will be shared by the State Government. The total cost of the scheme during the Second Five-Year Plan period is estimated to be about Rs. 50,00,000. The cost during 1956–57 will be about Rs. 9,72,600 of which the Government of India share will be Rs. 5,83,560 and the State Government's share will be Rs. 3,89,040.

ITEM 319. Scheme for the Technical and Vocational Training of Craftsmen.

Recurrent ...	Rs. 7,95,822	Non-recurrent ...	Rs. *Nil.*
Total ...	„ 7,95,822	Ultimate annual recurrent ...	

Remarks.—With a view to training sufficient number of skilled workers to meet the requirements of the country's industry, the Government of India have started Technical Training Centres throughout the country. Of these centres, five centres at Bombay, Poona, Aundh, Hubli and Kolhapur are in this State. Under the scheme two types of training, viz. technical training in engineering and building trade and vocational training in cottage and small scale industries is being imparted. The training for technical trades is of two years' duration of which 18 months are spent in a training centre and the remaining six months in an industrial undertaking on production and/or professional work or in the centre itself as may be convenient. The training is imparted free and in addition the scholarship of Rs. 25 per mensem each to 50 per cent. of the trainees is granted. The total number of seats available at the various centres is about 1,350.

These centres are at present administered by the Ministry of Labour, Government of India through the Regional Directorate of Resettlement and Employment. The cost of the scheme is however being shared by the Central and the State Government in the ratio of 60 : 40 per cent. respectively. The Government of India has, on the recommendation of the Training and Employment Service Organization Committee appointed by them, proposed the transfer of these centres to the State Government so as to integrate them with the similar facilities provided by the State Governments. That Government will however, share the cost in the usual proportion. Since the transfer of control and management of these centres does not entail any additional cost except on the ministerial staff, it is proposed to take over from the Government of India, the control and management of these centres from the beginning of the financial year 1956–57. The total cost of the scheme during 1956–57 is estimated to be about Rs. 7,95,822 of which the Government of India will bear Rs. 4,77,492 and the balance of Rs. 3,18,330 will be borne by the State Government. The net expenditure to this Government will, therefore, be the usual share of 40% which is being borne at present.

47, *MISCELLANEOUS DEPARTMENTS*—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 320. Opening and improvement of Government Certified Schools and Grant-in-aid to non-Government institutions.

Recurrent	Rs. 69,060	Non-recurrent	Rs. 93,000
Total	,, 1,62,060	Ultimate annual recurrent ...	,,

Remarks.—At present there are 9 Government Certified Schools and 19 recognised Certified Schools managed by private agencies in the Bombay State for reception, custody and education of the Court Committed Children. The present number of Certified Schools is insufficient to accommodate children coming within the purview of the Bombay Children Act, 1948. The existing Certified Schools, Government and non-Government, need to be expanded and improved. It is therefore proposed to open new Government Certified Schools and to expand and improve the existing Certified Schools and to aid newly recognised Certified Schools under the Second Five Year Plan for the Juvenile Welfare. The cost on account of the measures proposed above is estimated at Rs. 1,62,060 during the year 1956–57 as detailed below :—

(A) *New Government Certified Schools.*

It is proposed to open one Government Certified School during the plan period. The school will be opened from the commencement of the plan. The cost of the school for 10 months is estimated at Rs. 53,560 as detailed below :—

Item.	Cost in Rs.
I. *Recurring*—	
(1) Pay of the Superintendent at Rs. 220 per month in the scale of Rs. 220—15—340 for 10 months.	2,200
(2) Pay of the Deputy Superintendent at Rs. 100 per month in the scale of Rs. 100—8—140—E.B.—10—200.	1,000
(3) Pay of Probation Officer at Rs. 100 per month in the scale of Rs. 100—8—140—E.B.—10—200.	1,000
(4) Pay of Medical Officer part time at Rs. 100 per month fixed ...	1,000
(5) Pay of a clerk at Rs. 55 per month in the scale of Rs. 55—130 ...	550
(6) Pay of two craft teachers at Rs. 52 per month in the scale of Rs. 52—3—85—E.B.—4—125.	1,040
(7) Pay of two Language Teachers in the scale of Rs. 52—3—85—E.B.—4—125.	1,040
(8) Pay of four guards at Rs. 30 per month in the scale of Rs. 30—½—35 ...	1,200
(9) Pay of cook at Rs. 40 per month in the scale of Rs. 40—1—50 ...	400
(10) Pay of a sweeper at Rs. 30 per month in the scale of Rs. 30—½—35 ...	300
(11) Pay of Mali at Rs. 35 per month in the scale of Rs. 35—1—40 ...	350
Total ...	10,080
II. *Allowances and Honoraria, etc.*—	
Dearness allowance to the staff mentioned above at the sanctioned rates ...	6,980
III. *Contingencies*—	
Food and clothing at Rs. 25 per month per inmate for 100 inmates for 10 months.	25,000
Rent at Rs. 250 per month	2,500
Other Contingent Charges	4,000
Total ...	31,500
Total recurring ...	48,560
IV. *Non-recurring*—	
Non-recurrent expenditure for equipment, etc.	5,000
Total recurring and non-recurring ...	53,560

47, MISCELLANEOUS DEPARTMENTS—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

(B) *Expansion and improvement of existing Certified Schools and grant in aid to new private Certified Schools.*

At present girls detained in Certified Schools and Fit Person Institutions under the Bombay Children Act, 1948, are released when they complete 18 years of age. Most of these girls find it difficult to continue their education or to settle in life after their release. It is therefore proposed to allow the managements of Certified Schools to continue to detain such of the girls as are willing to stay in the institution after the compulsory detention period for a period of 3 years or until they are settled in life whichever is earlier and to pay them grants-in aid for maintenance of such girls at the sanctioned rates. It is also proposed to pay graint-in-aid to Certified Schools for improving their work and also to new certified schools which may be recognised by Government during the Plan period. It is proposed to make a lump sum provision of Rs. 20,500 for this purpose per annum during the Plan period.

The financial position of voluntary agencies is not generally satisfactory. They mostly depend on Government grants for day to day expenditure as well as expenditure required for construction of buildings for the institutions. Most of the certified schools and institutions are housed in rented buildings. It is therefore proposed to pay grants-in-aid to voluntary agencies for construction of buildings. Cheap type plans for such buildings are being prepared. The agencies will be asked to construct buildings according to the cheap type plans and will be given grant-in-aid at the rate not exceeding ⅓rd of the total cost (cost of construction of the building plus non-recurrent expenditure) or the actual deficit whichever is less having due regard to the financial position of the agencies concerned and the work done by them in the field of Juvenile welfare service. The payment will be subject to the following conditions. :—

(1) The plans and estimates of the building should be according to the cheap type plans approved by Government. If they are not according to the cheap type plans they should be got approved by the C. I. C. S.

(2) The payment of the grants should be made on the basis of the valuation certificate to be given by the Executive Engineer of the Division concerned.

It is proposed to provide a sum of Rs. 88,000 for this purpose in the budget for the year 1956–57. It is also proposed to provide a sum of Rs. 1,00,000 for expansion of Government Certified Schools separately under "Civil Works." It is therefore proposed to provide a sum of Rs. 1,62,060 (Rs. 69,060 recurring *plus* Rs. 93,000 non-recurring) in the budget for the year 1956–57. The total cost of the measure for the entire plan period is estimated at Rs. 12·28 lakhs (Rs. 4·78 lakhs recurring *plus* Rs. 750 lakhs non-recurring).

ITEM 321. Opening of additional Remand Homes and grants to voluntary agencies for construction of Remand Home buildings.

Recurring	Rs.	15,000	Non-recurring	Rs.	40,000
Total	„	55,000	Ultimate annual recurrent ..	„	

Remarks.—At present the Bombay Children Act, 1948, has been partially or fully applied only to 19 districts in the State. Delinquent children in other districts cannot therefore, be effectively treated under the present arrangements. It is necessary to extend the application of the Act to the entire area of the State as soon as possible. Such an extension will entail additional expenditure on account of the staff required for the purpose. In addition, it is proposed to undertake legislation with a view to bringing girls of the age group 16 to 21 years under the purview of the Bombay Children Act, 1948. It is therefore, considered essential to encourage District Probation and After Care Associations to open additional Remand Homes in the Districts which are not at present served by the Remand Homes and to pay them grants-in-aid at the sanctioned rates (i.e. at Rs. 18 per mensem per child in the mofussil and at Rs. 20 per mensem per child in the City of Bombay). It is proposed to give grant-in-aid in respect of only one new Remand Home during the entire plan period. There are also some court committed girls in Remand Homes who are released on the completion of 18 years of age but who desire to be continued in the Homes in their own interest. It is therefore also proposed to allow the District Probation and After Care Association to detain such girls after the compulsory period of detention is over and to pay them grants-in-aid for the maintenance of such girls at the sanctioned rates. It is proposed to provide a sum of Rs. 15,000 for this purpose during the year 1956–57.

Financial position of the District Probation and After Care Associations and other voluntary agencies is not generally satisfactory. They mostly depend on Government grant for day to day expenditure, as well as capital expenditure required for construction of buildings for Remand Homes. It is, therefore proposed to give non-recurrent grants to voluntary agencies for construction of Remand Home buildings The building grants will be sanctioned on the same basis on which they will be sanctioned to private certified schools. The basis on which building grants to private Certified schools are payable is explained in item No. 326. It is proposed to provide a lump sum of Rs. 40,000 for this purpose in the budget for 1956–57. The total amount required for the year 1956–57 is Rs. 55,000 (Rs. 15,000 recurring and Rs. 40,000 non-recurring).

The cost of the measure for the plan period is Rs. 3·30 lakhs (Rs. 1·30 lakhs recurring *plus* Rs. 2,00,000 non-recurring).

47, MISCELLANEOUS DEPARTMENTS—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM. 322 . Additional staff for the Juvenile Department.

Recurrent	Rs. 25,000	Non-recurrent	Rs.	*Nil.*
Total	,, 25,000	Ultimate annual recurrent ...	,,	

Remarks.—The activities of the Juvenile and Beggars Department are increasing year after year. They will increase considerably when the 2nd Five Year Plan for the Juvenile Welfare is put into operation At present the Juvenile Branch has only a nucleus staff which is inadequate even to cope up with the existing work. It is, therefore, proposed to strengthen and reorganise the Department so as to meet the requirements of expansion with creation of the following new posts at an estimated cost of Rs. 25,000 as detailed below :—

Serial No.	Designation of the post.	No. of Posts.	Scale of pay	Immediate cost for ten months on account of			Ultimate annual cost
				Pay	Allowances	Total	
			Rs.	Rs.	Rs.	Rs.	Rs.
1	Inspector of Certified Schools (Senior) Gazetted.	1	300—20—420—E.B.—30—600.	3,000	600	3,600	5,720
2	Inspector of Certified Schools (Junior).	1	220—15—355 ...	2,200	600	2,800	3,648
3	Office Superintendent ...	1	200—10—300 ...	2,000	550	2,550	3,133
4	Assistant Inspector of Certified Schools.	3	150—10—200 ...	4,500	1,500	6,000	6,600
5	Head Clerk ...	1	150—10—200 ...	1,500	500	2,000	2,200
6	Senior Clerks ...	1	100—8—140 ...	1,000	700	1,700	1,520
7	Junior Clerks ...	4	55—3—85—E.B.—4—125—5—130.	2,200	2,650	4,850	4,000
8	Peons	2	30—½—35 ...	600	900	1,500	792
				17,000	8,000	25,000	27,613

It is, therefore proposed to provide a sum of Rs. 25,000 in the budget for the year 1956–57.

The total cost of the scheme for the entire plan period is estimated at Rs. 2,02,000.

ITEM 323. Establishment of experimental Pilot Classification Centres.

Recurrent	Rs. 9,000	Non-recurrent	Rs. 30,000
Total	,, 39,000	Ultimate annual recurrent ...	,,

Remarks.—At present the various Juvenile Courts find it difficult in the absence of scientific data, to assess properly and judge the requirements for the treatment of a child. It is, therefore, proposed that the Juvenile Courts should commit the children to the proposed classification Centres from where they would be committed to institutions by the Chief Inspector of Certified Schools on the recommendations made by the Staff of the Classification Centres. It is proposed to open two Classification Centres (one in the year 1956–57 and the other in 1958–59). The Classification Centres will be attached to Remand Homes and the managements thereof will be paid grant in aid on their expenditure on the Centres. The managements will be asked to employ suitably trained personnel in the Centres. The expenditure on grant in aid is estimated at Rs. 9,000 per annum per centre.

It is also proposed to give non-recurrent grants to the managements of Remand Homes to which the Centres will be attached for extension to the Homes for housing the Centres. It is proposed to provide a sum of Rs. 30,000 per annum for the purpose during the plan period. The total amount required on account of the measure is thus Rs. 39,000 (Rs. 9,000 recurring + Rs. 30,000 non-recurring) and the same is proposed to be provided in the budget for 1956–57.

The cost of the scheme for the entire plan period is estimated at Rs. 2,96,000 (Rs. 96,000 recurring Rs. 2,00,000 non-recurring).

47, MISCELLANEOUS DEPARTMENTS—*contd.*

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 324. Opening and aiding after Care Hostels with workshops and rehabilitation bureaus.

Recurrent	Rs. 14,000	Non-recurrent	Rs. 1,05,000
Total	,, 1,19,000	Ultimate annual recurrent ...	,,

Remarks.—The children released from Certified Schools have often no proper homes where they can start a new life to earn their livelihood and to gain useful employment. They are therefore required to be given shelter assistance and guidance to secure suitable employment. Unless proper aftercare facilities are provided for children the work done for the rehabilitation of the children under the B. C. Act, 1948, will not show the desired results. The scheme therefore contemplates the running of an After Care Hostel with workshop on proper economic lines so as to provide such children with employment which would yield sufficient earning to cover their future rehabilitation. It is proposed to establish one After care Hostel with workshop attached to it during the year 1956–57. The cost of the hostel with workshop is estimated at Rs. 19,000.

Item	Cost in Rs.
Recurring—	
Staff—	
1 Superintendent (Rs. 150—10—250)	2,400
1 Probation Officer (Rs. 100—8—140—E.B.—10—200)	1,740
2 Trade Instructors (52—3—85—E.B.—4—125—5—130) ...	2,328
1 Clerk (55—3—85—E.B.—4—125—130)	1,200
1 Peon (30—½—35)	780
	8,448
Contingencies and Raw material	2,500
Food charges	3,000
Total ...	13,948
Say Rs. ...	14,000
	Rs.
Non-recurring	5,000
Total recurring and non-recurring	19,000

The Hostel will be opned through a voluntary agency which will be given aid on full cost basis for the first five years by which time the hostel is expected to be self-sufficient.

It is also proposed to give grants to Associations running After Care Hostels for construction of buildings. The After Care Hostel proposed to be opened under the Second Five Year Plan will also require non-recurring grants for building purposes. It is therefore, proposed to provide a sum of Rs. 1,00,000 for this purpose. The building grants will be paid on the basis of the building grants payable to certified schools which has been explained in item No. 326. The total amount required for the year 1956–57 is thus Rs. 1,19,000 (Rs. 14,000 recurring and Rs. 1,05,000 non-recurring) and the same is proposed to be provided in the next year's budget by means of a new item. The total cost of the scheme for the entire plan period is estimated at Rs. 7,90,000 Rs. 90,000 recurring plus Rs. 7,00,000 non-recurring).

47, MISCELLANEOUS DEPARTMENTS—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

ITEM 325. Grant to Voluntary Agencies for extending their activities to merged Territories.

Recurrent ...	... Rs.	18,000	Non-recurrent ...	... Rs.	*Nil.*
Total ...	... ,,	18,000	Ultimate annual recurrent ...		

Remarks.—Very little work in regard to the amelioration of Backward Classes was done in the merged States territories. To encourage Voluntary Agencies to extend their activities in these territories Government had issued orders giving them following concessions :—

(1) The entire expenditure incurred by them on pay and allowances of their propagandists would be borne by Government on full cost basis.

(2) The Backward Class Hostels for boys started by them would be paid grants at the enhanced rates admissible for Backward Class Hostels for girls.

The concessions were originally meant for all merged States territories. Later on they were restricted only to the Scheduled Areas of the merged States territories. At present there are 13 propagandists appointed and 14 hostels started in the merged State Areas under the Scheme. Considering the relative backwardness of all merged areas it is proposed to continue these concessions for the entire duration of the Second Five-Year Plan as well as to extend them to the Non-Scheduled Areas of the Merged State Territories.

The Voluntary Agencies will be allowed to appoint 8 additional propagandists—3 predominantly in Scheduled Areas and 5 in other areas and open 3 hostels—1 in Scheduled Areas and 2 in non-Scheduled Areas. The provision of Rs. 19,600 for the year 1956-57 is as detailed below :—

5 Propagandists in Non-Scheduled Areas.	Pay T.A.	80×5×11=4,400 45×5×11=2,475	... ...	6,875 of which only 75 per cent., i.e. Rs. 5,157 is borne by Government.
3 Propagandists in Scheduled Areas ...	Pay T.A.	80×3×11=2,640 45×3×11=1,482	... ...	Rs. 4,125
			Total ...	9,282
3 Hostels at an average cost of Rs. 3,500 per hostel ...			...	10,000
				19,282

The maximum expenditure according to the above calculation will be Rs. 19,282. It is however experienced that the entire amount is not required as the hostels do not reach the maximum sanctioned strength in the first year and it also takes some time to appoint all the propagandists throughout the year and sometimes qualified social workers are not readily available. It is, therefore, proposed to make a provision of Rs. 18,000 in the first year. The Government of India will bear expenditure in Scheduled Areas at 75 per cent. rate. The Central grant will, therefore, be about Rs. 5,000 on this Scheme.

Total Provision for the Plan Period—Rs. 1,00,000.

47, MISCELLANEOUS DEPARTMENTS—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

ITEM 326. Special measures for Scheduled Tribes. Starting of 5 model colonies of Scheduled Tribes.

Recurrent ...	Rs. 8,000	Non-recurrent ...	Rs. 88,000
Total	,, 96,000	Ultimate annual recurrent ...	

Remarks.—It is proposed to establish model colonies of Scheduled Tribe agriculturist where they will stay throughout the year, maintaining themselves mainly on agricultural income. The colony may consist of 20 families—each family getting an economic Holdings of 2 acres of Kharif land and 6 acres of Varkas or dry crop land. Land will also be made available for the housing site and the quarters of the staff, School Building, etc. The families will be helped to settle on land by giving them maintenance grant during the first year, seeds implements, a pair of bullock, a cart and a cow. The colony will have its own grain depot, a school, a small dispensary and a Multi-purpose society. Suitable land will be acquired or purchased for the colony. If Government waste land is available in a compact block, it will not be necessary to acquire any land. In that case the amount thus saved will be utilised by increasing the number of families in the colony and by providing better houses and other facilities. It is proposed to establish one Model Colony during the year 1956-57. The details of the Scheme are as follows:—

Non-recurring.	Rs.
(*i*) Land (if acquired or purchased)—	
40 acres of Kharif land at Rs.1,000 per acre	40,000
120 acres of Varkas land at Rs.100 per acre	12,000
20 acres of Varkas for housing site including common purposes at Rs. 100 per acre.	2,000
	54,000
(*ii*) Development of land (if obtained out of Government Waste land or Gurcharan or Forest land 40 acres of Kharif land at Rs. 50 per acre)	2,000
140 acres of Varkas land at Rs.10 per acre for removal of shrubs, stones, etc.	1,400
Supplying quality mango grafts 2 per acre, i. e. 240 at Rs. 4 per graft ...	960
	4,360
(*iii*) *Huts*—	
20 huts at Rs. 100 per hut	2,000
20 cattle sheds at Rs. 50 each	1,000
	3,000
(*iv*) *Live Stock*—	
20 pairs of bullocks at Rs. 300 per pair	6,000
20 cows at Rs. 100 each	2,000
1 Breeding bull	400
10 quality cocks at Rs. 5 each	50
	8,450
(*v*) *Agricultural Implements*—	
20 carts at Rs. 150 each	3,000
Plough and other implements at Rs. 25 per family	500
	3,500
(*vi*) *Staff Quarters*—	
Supervisor	2,000
Doctor	2,000
School Teacher	1,500
Dai	1,000
Two Servants	1,000
	7,500

47, MISCELLANEOUS DEPARTMENTS—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

	Rs.
(vii) *Other Buildings*—	
School and Dispensary ..	2,000
Grain depot and shop ..	1,500
Roads ..	500
Well with Reservoir ..	2,000
	6,000
(viii) *Miscellaneous*—	
School equipment ..	200
Grant for the Multi-purpose Society ..	2,000
Free grant for food provision during the first year for 20 families at Rs. 10 per month for six months ..	1,200

Unforeseen ..	200
	100
	500
Total, Recurring ..	8,140
or Say	8,000

The Government of India will bear 50 per cent. of the expenditure on this Scheme. This means the Central Grant of Rs. 50,000 will be received.

47, *MISCELLANEOUS DEPARTMENTS*—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

ITEM 327. Measures for eradication of untouchability.

Recurrent	... Rs. 3,27,900	Non-recurrent	... Rs. 98,300
Total	... ,, 4,26,200	Ultimate annual recurrent ...	

Total provision for the plan period—Rs. 29,59,000.

Remarks.—Government is already implementing the special schemes for the eradication of untouchability. The Constitution has already abolished untouchability and necessary Act (Untouchability Offences Act) had been passed by the Central Government. Mere legislation will not, however, be of much use unless simultaneously a concerted drive is launched for the removal of untouchability. Various measures such as propaganda and entertainment through films, posters, radio sets, dramas, kirtans and ballad programmes, provision of special facilities for social education, starting Balwadis and Sanskar Kendras, grants to Voluntary Agencies for propaganda, grants to cosmopolitan hostels etc. have already been undertaken by the Bombay Government with the assistance from Government of India from the year 1953–54. During the year 1953–54 an amount of Rs. 1,34,664 was spent on these measures. During 1954–55 the expenditure was Rs. 4,10,251. For the year 1955–56 schemes costing Rs. 5,41,649 have been sanctioned so far. In order to intensify the drive for the removal of untouchability it is proposed to make additional provision for some of the existing measures and also to undertake some new measures in the Second Five-Year Plan. An amount of Rs. 29,59,000 is proposed to be spent during the Second Five-Year Plan Period. During the First Year of the Plan, i.e., during the year 1956-57 an additional amount of Rs.4,23,200 is proposed to be provided. The details of the amounts proposed for 1956–57 are given in the accompanying statement.

All the measures shown in the statement will be entirely financed from the Government of India grant.

Statement showing the provisions required for the various additional schemes for eradication of untouchability during 1956–57.

Serial No.	Description of item.	Provision proposed for 1956-57.	Detailed justification.
1	2	3	4
1	Grants to Voluntary Agencies for organising Social Melas.	42,000	Untouchability as is observed is custom ridden and it requires constant and effective propaganda and publicity through suitable agencies and melas for arousing public opinion. Social Melas of Caste Hindus and Scheduled Castes create a healthy atmosphere and help the Caste Hindus to shed their prejudices against the Harijans by providing an opportunity to come together at such social functions. Voluntary Agencies are therefore being encouraged to organise combined Social Melas particularly in rural areas. The scheme was in operation during 1953–54 and 1954–55. It is also being implemented during 1955–56. During 1954–55 101 Social Melas were organised throughout the State at a cost of Rs. 14,245. The results have been very encouraging. It is therefore, proposed to encourage the organisation of such Melas to a great extent during the Second Five-Year Plan. It is proposed to spend Rs. 42,000 for this purpose during 1956–5 in the whole State excluding Dangs District. A Mela is now financed to the extent of maximum Rs. 200. It will thus be possible to organise at least 210 additional melas in the amount proposed to be provided for the purpose. The entire amo unt falls under recurring cost.
2	Organisation of instructive and entertaining programme through Ballad singers and Kirtankars.	42,000	Propaganda among the rural masses can be effectively carried through entertainment programmes like Ballad singing and Kirtans or Bhajans. The villagers being religious minded attended Kirtans or Bhajan in large number when persons of repute visit villages. Kirtankars and ballad singers are, therefore, being encouraged to carry on propaganda against the evil of untouchability in rural areas on grant-in-aid basis. The scheme was in operation during 1953–54 and 1954–55. It is also being implemented during 1955–56. During 1954–55, 517 programmes were organised at a cost of Rs. 15,545. The results have been encouraging. It is, therefore, proposed to step up this activity during the Second Five-Year Plan. It is proposed to spend an amount of Rs. 42,000 during 1956–57 for organising such additional programmes in the whole of the State except Dangs District. It is expected that about 500 additional programmes will be organised within the provision. The whole cost of the scheme is recurring.

47, *MISCELLANEOUS DEPARTMENTS*—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

Serial No.	Description of item.	Provision proposed for 1956-57.	Detailed justification.
1	2	3	4
3	Repairs to wells in or near Harijan localities.	80,000	Drinking water facilities in Scheduled Caste localities especially in rural areas are very unsatisfactory. It was therefore proposed to repair the existing common wells in or near Harijan localities. Accordingly the scheme was in operation during 1953-54 and 1954-55. It is also being implemented during 1955-56. During 1954-55, 43 wells were repaired at a cost of Rs. 20,000. The results have been encouraging. It is, therefore, proposed to intensify the scheme during the Second Five-Year Plan and repair additional wells. It is proposed to spend an amount of Rs. 80,000 during 1956-57 for repairing additional wells during the year 1956-57 in the whole State except Dangs District. It is expected that about 1,600 wells will be repaired during the year 1956-57. The whole expenditure will be non-recurring.
4	Encouragement to Balwadis ...	22,500	With a view to teach Scheduled Caste children of tender age, habits of cleanliness and ultimately to achieve their assimilation with other Caste Hindu children the scheme of giving encouragement grants to Balwadis was introduced during 1953-54. During 1954-55, 11 new Balwadis were opened and 16 old Balwadis were given encouragement grants. The total cost for the purpose incurred was Rs. 18,726 during the year. The scheme is also being implemented during 1955-56. Although no new Balwadis have been sanctioned during 1955-56, the scheme is very important and the results of the past 2 years have been very encouraging. It is, therefore, proposed to start 49 new Balwadis during the Second Five-Year Plan period. Of these, 9 will be opened in the first year plan in 1956-57. The total provision required for this purpose during 1956-57 is Rs. 22,500. Details of the expenditure estimated are as follows :—

Recurring.

	Rs.
1 Matron per Balwadi salary Rs. 100 per mensem (9×100×12).	10,800
1 part-time Dai-*cum*-maid servant per Balwadi Rs. 25 per mensem (9×25×12).	2,700
House Rent at Rs. 25 per mensem per Balwadi (9×25×12).	2,700
Supply of milk at Rs. 50 per mensem per Balwadi (9×50×12).	5,400
Total ...	21,600

Non-recurring.

Equipment for Balwadi (500×9)	4,500
The recurring cost for each Balwadi is to be paid for 10 months only. Therefore the amount to be provided for is $\frac{21,600\times10}{12}$	18,000
Non-recurrent	4,500
Total ...	22,500

5	Increasing the number of Sanskar Kendras.	24,800	Sanskar Kendras create healthy environment which provides opportunities to the children of Scheduled Caste communities to mix with each other and to develop a sense of responsibility and co-operation with each other. In order to provide opportunities for Scheduled Caste children to educate themselves in such healthy atmosphere, the scheme of starting the Sanskar Kendras was introduced under the scheme for removal of untouchability. Accordingly, there were 25 Sanskar Kendras operating by the end of 1954-55. During 1955-56, it is proposed to start 10 more Sanskar Kendras. The scheme has proved to be very useful because of its educative value. In view of the encouraging results, it is proposed to start 43 additional Sanskar Kendras during the Second Five-Year Plan so as to have in all 78 Sanskar Kendras at the end of the Second Five-Year Plan period of the 43 additional Sanskar Kendras, it is proposed to start 10 Sanskar Kendras during the first year of the plan, i.e., 1956-57. The total provision required for 1956-57 is Rs. 24,800. The details of this provision are given below :—

Recurring.

	Rs.
(1) Honorarium to the Warden (Social Worker) at Rs. 25 per mensem (25×10×12).	3,000
(2) Recreational programmes at Rs. 20 per mensem per Kendra (20×10×12).	2,400
(3) Teaching of craft to women at Rs. 25 per mensem (25×10×12).	3,000

47, MISCELLANEOUS DEPARTMENTS—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

5.	Increasing the number of Sanskar Kendras—*contd.*		*Recurring*—contd. Rs. (4) Supply of medicines at Rs. 25 per mensem 25×10×12. 3,000 (5) Lighting charges at Rs. 25 per mensem 25×10×12. 3,000 (6) Refilling of batteries of Radio, purchase of gramophone needles, etc. at Rs. 25 per mensem per Kendra 25×10×12. 3,000 Total ... 17,400 *Non-recurring*— (1) Equipment for Bhajans at Rs. 100 per mensem per Kendra 100×10 1,000 (2) Games equipment at Rs. 200 200×10 2,000 (3) Lezims Rs. 30 30×10 300 (4) Sewing machine at Rs. 300 300×10 3,000 (5) First-aid apparatus Rs. 100 100×10 1,000 (6) Drinking pots, etc. at Rs. 75 75×10 750 (7) Two petromaxes at Rs. 150 150×10 1,500 (8) Two black-boards Rs. 50 50×10 500 (9) One box Rs. 25 25×10 250 Total ... 10,300 As the recurring grant is to be paid only for ten months the provision required is as follows:— $\frac{17,400 \times 10}{12}$ ... 14,500 Non-recurring, for ten Kendras ... 10,300 Total ... 24,800
6.	Increased grants to Cosmopolitan Hostels.	1,00,000 ...	In order to secure the assimilation of the rising generation of the Scheduled Castes with the rest of the population as early as possible, it is considered necessary to provide them with as many facilities as posssible to live together with Caste Hindu children when they are being educated. Untouchability can be effectively eradicated if the Harijan and non-Harijan children are provided facilities to stay together during the period they are being educated. Such facilities can best be provided in mixed hostels when the Harijan and non-Harijan pupils can stay together, dine together and freely mix among each other. It was, therefore, felt advantageous to encourage the managements of Backward Class Hostels to admit non-Backward Class pupils and non-Backward Class Hostels to admit Scheduled Caste pupils by payment of additional grant-in-aid to cover part of the expenses of the non-Backward Class pupils on whom no grant can be paid according to the originaly Backward Class Hostel rules. The scheme was first implemented during 1954-55 and an amount of Rs. 12,000 was provided for the purpose. During 1955-56, an amount of Rs. 1,12,500 has been provided. It is felt that besides this usual provision, if will be necessary to provide additional amount in the Second Five-Year Plan in order to intensify the efforts in this direction. It is, therefore, proposed to provide an amount of Rs. 6,75,000 during the Second Five-Year Plan for the scheme. Out of this amount, it is proposed to spend Rs. 1,00,000 during the first year of the Plan in 1956-57. The entire amount will be a recurring cost.
7	Increased grants to Voluntary Agencies for appointment of additional propagandists, Sanchalaks, etc.	22,600	Intensive propaganda through official and non-official agencies in rural areas is considered to be absolutely necessary to bring home to the rural population the evils of untouchability effectively and to help them to shed their age-long prejudices. It was, therefore, decided to encourage Voluntary Agencies to appoint special propagandists for this purpose by payment of grant-in-aid, the pay of each propagandist being fixed at Rs. 80 per. mensem plus Rs. 45 per mensem as travelling allowance. It was decided that entire expenditure of the Harijan Sevak Sanghs would be admitted for grant and that the recognised Voluntary Agencies would be required to contribute 10 per cent. of the expenditure on this account from their own resources. Under this scheme, so far 63 propagandists have been appointed in the whole of the State except Dangs District. The scheme is, however, very important. Although immediate tangible results are not available, the cumulative effect of intensive propaganda will no doubt be felt in course of time. It is, therefore, proposed to increase the number of propagandists as well as the number of Sanchalaks and Secretaries during the Second Five-Year Plan. It is proposed to appoint 45 additional propagandists and six additional Sanchalaks during the course of the Plan period. Of these, five propagandists and three Sanchalaks will be appointed during the first year of the Plan, i.e., during 1956-57. It is also proposed to pay grants to Voluntary Agencies for travelling

47, MISCELLANEOUS DEPARTMENTS—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

Serial No.	Description of item.	Provision proposed for 1956-57.	Detailed justification.
1	2	3	4
		Rs.	
7.	Increased grants to Voluntary Agencies for appointment of additional propagandists, Sanchalaks, etc.—*contd.*		expenses of their Secretaries or Vice-Presidents or Presidents at 100 per cent. in case of Harijan Sevak Sanghs and 90 per cent. in case of other Voluntary Agencies. As the number of propagandists is proposed to be increased, it will be necessary to give some grants to the Voluntary Agencies for supervision over the work of their propagandists. The provision required for this purpose during 1956-57 will be Rs. 2 2,600. The details of the provision are as follows :— *Propagandists*— Rs. Pay 80×12×5 ... ... 4,800 Travelling allowance 45×12×5 ... ... 2,800 Total ... 7,500 *Sanchalaks*— Pay 150×12×3 ... ... 5,400 Travelling allowance 70×12×3 ... ... 2,520 7,920 Pay of grant on travelling expenses of Secretaries, etc. 8,200 23,620 It is felt from experience that this much amount will not be required as it takes some time to appoint all the propagandists and Sanchalaks as qualified persons are not immediately available. It is, therefore, proposed to make provision as follows :— Propagandists ... 7,000 Sanchalaks ... 7,400 Travelling allowance grant for Secretaries ... 8,200 Total ... 22,600 The entire amount is a recurring cost.
8.	Training of Scheduled Castes in improved methods of hereditary occupations.	18,800 ..	Besides the prevailing caste system one of the reasons for the continued existence of untouchability is the obnoxious nature of some of the occupations followed by the Scheduled Castes. Scavenging and flaying of dead animals are few instances of such occupation. It has been felt that if improvements are made in the present methods and if the Caste Hindus are persuaded to take up these professions, the prejudice against these professions may disappear and thus help the movement for the eradication of untouchability. With this end in view of the Ratnagiri District Khadi Sangh has prepared two schemes, viz. (1) popularizing Gopuri latrine system, and (2) flaying of dead animals. The scheme has been sanctioned during 1955-56 and is being implemented. As already pointed out, the schemes will greatly help the movement of eradication of untouchability. It is, therefore, proposed to intensify this scheme by making an additional provision in the Second Five-Year Plan. An amount of Rs. 94,000 is provided for the Plan period. Of this, an amount of Rs. 18,800 is provided for the first year of the Plan, i.e., for 1956-57. The details of the provision are as follows :— (*i*) *Popularizing Gopuri latrine system*— It is proposed to train ten youths belonging to communities other than the scavenging community in clean scavenging and compost-making. These trained youths will be posted to five major villages in the district to demonstrate the methods of clean scavenging and compost-making. The cost of the scheme is as follows :— *Recurring*— Honorarium to the trained workers at Rs. 75 per mensem 75×10×12 ... ... 9,000 Dress and equipment for the workers at Rs. 50 per mensem 50×10 500

Serial No.	Description of item.	Provision proposed for 1956-57.	Detailed justification.
1	2	3	4
		Rs.	
8	Training of Scheduled Castes in improved methods of hereditary occupations—*contd.*		*Popularising Jopuri latrine system*—contd. Rs. Subsidy for family commodes at Rs. 25 p. m. 25 commodes in each of the five villages 25×25×5. 3,125 12,625 *Non-recurring*— Lump sum grant to the Ratnagiri District Khadi Sangh for propaganda training guidance supervision. 500 500 (ii) *Flaying of dead animals*— It is proposed to train and depute 10 social workers for flaying the dead animals during the flaying season (middle of June to midlde of August) each year. Each trained worker will take up two local apprentices in his company and will go round the 10 villages flaying each and every dead animals becomes across. The details of the expenditue on this scheme are as follows :— *Recurring*— Rs. Honorarium to the trained worker at Rs. 50 p. m. for 2 months 50×10×12. 1,000 Stipends to the apprentices at Rs. 30 p. m. for 2 months 30×20×2. 1,200 Travelling allowance to trained workers at an average rate of Rs. 15 per season 15×10. 150 2,350 *Non-recurring*— Grants to flaying centres ... 3,000 Lump sum grant to the Ratnagiri District, Khadi Sangh for supervision etc. 325 3,325 (iii) *Total of both schemes*— Recurring—12,625 *plus* 2,350 ... 14,975 Non-recurring—500 *plus* 3,325 ... 3,825 Grand Total ... 18,800
9	Miscellaneous Grants ...	63,000	This item includes the following two schemes :— (i) Gratuitous relief to Harijans for meeting their emergent needs (ii) Encouragement to Caste Hindu families to bring up Scheduled Caste children. (i) Scheduled Caste persons being economically extremely poor find it difficult to rehabilitate in life if they sustain losses on account of accidental fire or such other natural calamities. Besides because of the stigma of untouchability they find it difficult to obtain the day to day necessities of life and shelter, clothes etc. In order to enable Scheduled Caste persons to overcome such unforeseen difficulties and to help them to rehabilitate in life an amount of Rs. 10,000 was placed at the d sposal of the Director of Backward Class Welfare during 1954–55 to give relief to Harijan persons and families in distress in emergencies the type quoted above. The grant was to be utilised by the Director of Backward Class Welfare in his discretion to meet emergent grievances of Scheduled Castes in such as' want of drinking water fac lities, provision of clothes to poor and needy Harijan children in tattered clothes attending primary schools, demands for help from Harijan families which have suffered losses in accidential fire, flood etc. Accordingly the Director of Backward Class Welfare spent the entire amount during 1954–55 and gave relief in 43 cases involving 245 Harijans as follows :— 1. Flood ... ... 11 2. Fire ... ... 21 3. Drinking water ... ... 6 4. Clothes ... ... 4 5. Miscellaneous ... ... 1 and a number of cases were pending for want of funds. The scheme, has been of a very great help to the Harijans. It is therefore proposed to include this scheme in the Second Five-Year Plan and to make substantial provision so that relief can be given in as many cases as possibe. It is proposed to earmark

1	2	3	4
		Rs.	
9	Miscellaneous Grants—*contd.*	63,000	an amount of Rs. 60,000. every year during the plan period Hence a provsion of Rs. 60,000/. is proposed for the year 1956-57 (ii) one of the effective measures suggested for the removal of untouchability is to encourage Caste Hindu families to bring up Scheduled Caste children in their families along with their own. This scheme was in a operation during 1953-54 and 1954-55. Under this scheme the Caste Hindus were paid the actual cost of bringing up a Scheduled Caste child subject to a maximum of Rs. 20/. by way of encouragement. It was felt that if the Caste Hindus are persueded to bring up Scheduled Caste children along with their own the new generation of the Scheduled Castes may not feel an inferiority complex. Under the scheme during 1954-55 an amount of Rs. 1,425 was paid as grant in 13 cases. The scheme is very useful in removing untouchability as Scheduled Caste children are actually brought up in Caste Hindu families along with their own children. With a greater awakening more Caste Hindu families will be willing to bring up Scheduled Caste children. It is therefore proposed to include the scheme in the Second Five-Year Plan and to make a total provision of Rs.19,000. during the plan period. The provision proposed for 1956-57 is Rs. 3,000.
10	Patronising useful books depicting the evils of untouchability.	6,000	There is scanty literature on the subject of removal of untouchability. In order to educate the minds of the people and to bring home to them the evils of untouchability, it is necessary to have sufficient literature on the subject. The award of prizes to the best dramas on the subject in three regional languages has no doubt created a desire among the authors to wield their pens in this noble cause. But many of the authors find it difficult to publish their books due to financial difficulties and due to the fact that such books, however good do not necessarily have a good sale. In order therefore to create a good and sufficient literature on the subject, it is necessary to give some sort of assistance by way of purchase of copies of such books. The books so purchased can be given to libraries, schools, etc. It is proposed to spend an amount of Rs. 34,000 for the purpose during the Second Five-Year Plan. Accordingly an amount of Rs. 6,000 has been proposed for the first year of the plan i.e. 1956-57. The entire amount is a recurring cost.
11	Award of prizes to Kala-pathaks.		Propaganda against untouchability is already being carried out through entertainment programmes. In order to encourage the Kalapathaks to produce a really good pieces on the subject and to attract the good Kalapathaks to participate in the drive against untouchability it is felt desirable to organise a competition of such Kalapathak and to award prizes on the results of the competitions. It is therefore proposed to institute two prizes of I prize of Rs. 1,000 and II prize of Rs. 500 for each linguistic region every year. The scheme is included in the Second Five-Year plan at a cost of Rs. 22,500. An amount of Rs. 4500 is proposed for the year 1956-57. The entire amount will be recurring cost.

ITEM 328. Recognition of additional Backward Class Hostels to be started for Backward Classes.

Recurrent	... Rs.	22,600	Non-recurrent	... Rs.	3,400
Total	... ,,	26,000	Ultimate Annual Recurrent	,,	

Remarks.—During each of the years 1954–55 and 1955–56 a provision of Rs. 18,000 has been made for the payment of encouragement grants to 10 new Backward Class Hostels. This provision of Rs. 18,000 is quite inadequate to meet the demand of the management of several new hostels seeking recognition as the number of students is on the increase. Therefore, every year recognition to Hostels could not be given for want of funds for the purpose. Due to the spread of education among the Backward Classes more and more Voluntary Agencies are coming forward to run Hostels for Backward Class students with the hope of receiving recognition and grant-in-aid for the hostels from the Backward Class Department. During the year 1955–56 the managements of as many as 50 new Hostels have applied for recognition and grant-in-aid. But in accordance with the provision, about 10 such hostels would be accommodated in this year. It is, therefore, very necessary that the provision for giving grants for the newly recognised hostels should be substantially increased looking to the demands from the Voluntary Agencies for the purpose and the spread of education among the Backward Classes on a progressively increasing scale. Rs. 11,000 are, therefore proposed for giving grants to new Hostels for Scheduled Tribes and Rs. 15,000 for giving grants to Backward Class Hostels for non-Scheduled Tribes for the year 1956–57. Central grants at 50 per cent. would be available on account of Scheduled Tribes inmates. During the plan period six new hostels predominantly for Scheduled Tribes and 27 predominantly for non-Scheduled Tribes will be accommodated from out of this Provision. Out of these three predominantly catering for Scheduled Tribes and 5 predominantly catering for non-Scheduled Tribes would be recognised and paid grants in 1956–57.

The required provision of Rs. 26,000 may be made in the budget estimates for the year 1956–57.

Total Provision for the Plan Period is Rs. 4,00,000.

47, MISCELLANEOUS DEPARTMENTS—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

ITEM 329. Increasing the strength of existing Backward Class Hostels including Government Backward Class Hostels at Poona and Ahmedabad.

Recurrent	... Rs. 60,000		Non-recurrent	... Rs.	*Nil.*
Total	... ,, 60,000		Ultimate annual recurrent	... ,,	

Remarks.—There are 234 Backward Class Hostels (of which 80 are for Scheduled Tribes) aided by the Backward Class Department catering for about 9,600 Backward Class students. During the last two years it has not been possible to allow these hostels to increase their sanctioned strength due to financial stringency. During the year 1955–56, a 12½ per cent. increase in the strength of Backward Class Hostels has been sanctioned. But as there are many hostels seeking a still greater increase due to the spread of education among Backward Classes, it is necessary to make a special provision in the Plan for sanctioning grants to hostels on the increased number of inmates over and above the increased strength recently sanctioned by Government. It is, therefore, proposed to spend Rs. 50,000 for the plan period for increase in the strength of Scheduled Tribe inmates. The increase of about 70 inmates would be allowed in 1956–57 by spending Rs. 10,000 and the same number would be continued in the plan period. Central grants at 50 per cent would be available for the increase on Scheduled Tribe inmates. A similar increase of 350 inmates in the strength of hostels catering for non-Scheduled Tribes is proposed for the year 1956–57. For this sub-item Rs. 50,000 would be required for 1956–57 and Rs. 3,30,000 for the plan period.

As accommodation in the Government Backward Class Hostels at Poona and Ahmedabad is found to be inadequate it is proposed to increase accommodation in each of the hostels by 40. The accommodation available in the Poona Hostel is for 92 inmates and that in the Ahmedabad Hostel is for 60 inmates. In 1956–57 extension blocks will be constructed for these hostels and a provision of Rs. 1 lakh each would be required for the purpose which is being proposed separately. The increased strength would be maintained during the remaining 4 years of the plan from 1957-58 at a recurring cost of Rs. 30,000 per year for both the hostels.

The cost on account of the different items of this Scheme will be as shown below :—

Name of sub-item.	Amount required for 1956–57.	Central grant available.	Total provision for 5 years.
	Rs.	Rs.	Rs.
(i) Increase in the strength of Scheduled Tribe hostels by 70 inmates in 1956–57.	10,000	5,000	50,000
(ii) Increase in the strength of hostels for non-scheduled Tribes students by 350 students in 1956–57.	50,000	.....	3,30,000
(iii) Extension of the Government Backward Class Hostels at Poona and Ahmedabad for accommodating 40 more inmates in each hostel from 1957–58 and cost of construction of the extension of each hostel in 1956–57.	2,00,000	.....	3,20,000
Total ...	2,60,000	25,000 (for 5 years)	7,00,000

Central Government grants would be available on the expenditure incurred on the Scheduled Tribe inmates in these hostels at 50 per cent.

ITEM 330. Grant of lump sum scholarships to Backward Class pupils in Colleges.

Recurrent	.. Rs. 20,000		Non-recurrent	.. Rs.	*Nil.*
Total	.. ,, 20,000		Ultimate annual recurrent	.. ,,	

Remarks.—The Backward Class Department sanctions Lump Sum Scholarships for the purchase of books, stationery etc. to Backward Class students studying in Higher Primary and Secondary Schools and Colleges and for the payment of Examination fees for Backward Classes appearing for the S. S. C. and the post S. S. C. examinations.

For the year 1955–56 a total provision of Rs. 1,45,000 has been made for giving Lump Sum Scholarships to Backward Classes studying in Higher Primary and Secondory Schools and Colleges. Out of this, a limited amount would be available for payment of Lump Sum Scholarships to Backward Classes in Colleges.

Unless a special provision is made for giving lump sum scholarships to Backward Classes in colleges many Backward Class pupils in colleges will have to go without a Lump Sum Scholarship. It is therefore proposed that a provision of Rs. 20,000 each year (Rs. 5,000 for Scheduled Tribes and Rs. 15,000 for Non-Scheduled Tribes) be made for payment of Lump Sum Scholarships to Backward Classes in Colleges over and above the usual provision made every year. The Central grant on the Expenditure involved during 1956–57 will be roughly Rs. 2,500.

Total provision for the plan period is Rs. 1,00,000.

47. MISCELLANEOUS DEPARTMENTS—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

ITEM 331. Starting of a Government Backward Class Hostel for girls.

Recurrent	.. Rs. 20,000		Non-recurrent	.. Rs.	*Nil.*
Total	.. ,, 20,000		Ultimate annual recurrent ..		

Remarks.—There are three Government Backward Class Hostels for boys in the State of Bombay one at Poona for 92 inmates, one at Hubli for 40 inmates and the third at Ahmedabad for 60 inmates. These hostels provide ideal hostel facilities to the Backward Class inmates admitted in them. There is however, no Government Hostel for Backward Class girls. It is necessary to maintain a Government Backward Class Hostel for girls on the lines of the above three Government hostels. This hostel is proposed to be located in Poona as Poona is one of the biggest educational centres in Bombay State having a number of well established schools and colleges. Many Backward Class students from outside Poona come to Poona for the prosecution of their studies in secondary schools and colleges. This hostel would cater for 20 girls on the high school side and 20 on the college side. In this hostel the inmates would receive free boarding and lodging facilities and books, stationery, medical aid etc. similar to the facilities at Government Backward Class Hostels in Poona, Hubli and Ahmedabad. During the year 1956–57, the Hostel would be started in some Government or available rented building and also the building would he constructed for the hostel costing Rs. 90,000 which is being proposed to be provided separately. The hostel would begin functioning early in 1956–57 and could continue during the plan period. An amount of Rs. 20,000 would be required for 1956–57 and for 1957–58 onwards Rs. 25,000 each year to meet the recurring expenses of the hostel. The provision of Rs. 20,000 may be made in the budget estimates for the year 1956–57.

Total provision for the Plan period is Rs. 2,10,000.

ITEM 332. Special schemes for the uplift of Nomadic Tribes and semi-Nomadic Tribes.

Recurrent ...	.... Rs. 1,71,000		Non-recurrent ...	... Rs.	*Nil.*
Total ...	... ,, 1,71,000		Ultimate annual recurrent ...		

Remarks.—There are a number of communities in the State of Bombay which have no settled ways of life. These Nomadic Tribes are found scattered all over the State. Some of them are in the semi-settled state, and are found round about big cities. The problem of uplift of these communities is very urgent as they are backward in many respects. So far they have not been able to derive sufficient advantage from the general schemes for the Backward Classes due to their extreme backwardness. It is therefore proposed to undertake special measures to settle the tribes and to make concentrated efforts for their all sided uplift. A provision of Rs. 85,00,000 is therefore proposed to be made for this purpose during the 2nd Five-Year Plan period. During the 1st year of the Plan, amount of Rs. 1,71,000 is proposed to be incurred on the various measures as detailed in the accompanying statement. Some of the beneficiaries will be Vimochit Jati and Scheduled Tribes. Out of the total provision proposed about 10 per cent. will be received as grant from the Government of India.

Statement showing provisions require for the uplift of Nomadics and semi-Nomadics during 1956–57.

Serial No.	Description of item.	Provision proposed for 1956-57.	Detailed justification.
1	2	3	4
		Rs.	
1	(i) Appointment of special staff ...	22,480	In order to make a detailed study of the Nomadic Tribes and to see that they take full advantage of the special schemes formulated for them it is necesary to have three officers who will specialise in the welfare of Nomadic Tribes. It is not possible for the Backward Class Welfare Officers to concentrate their attention on these tribes. because of their multifarious duties and because of the fact that the Nomadic Tribes are moving about from place to place. It is, therefore, proposed to appoint three full time officers specially for the welfare of these tribes. These officers will be in the grade of Backward Class Welfare Officers. They will have a staff of one clerk and two peons. The provision required for this purpose is as follows :— 3 Nomadic Tribe Welfare Officers— Pay 250×3×12 ... 9,000 Dearness Allowance 60×3×12 ... 2,150 P. T. Allowance 140×3×12 ... 5,040 3 *Clerks*— Pay 55×3×12 ... 1,980 D. A. 45×3×12 ... 1,620 6 *Peons*— Pay 30×6×12 ... 2,160 Dearness Allowance 35×6×12 ... 2,520 24,480 It is, therefore, proposed to make a provision of Rs. 22,480 during 1956–57.

47, MISCELLANEOUS DEPARTMENTS—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

1	2	3	4
		Rs.	
	(ii) Appointment of 15 Sewaks ...	18,000	In order to concentrate efforts in a few selected localities it is proposed to appoint Sewaks for organising activities in these areas. The Sewaks will be paid a consolidated pay of Rs. 100 p.m.
2	Hostel facilities	20,000	As the Nomadic Tribes are moving about from place to place it is difficult for their children to take education. It is therefore proposed to extend hostel facilities to these Nomadic Tribes by encouraging hostel managements to admit their children. The hostel managements will be paid on full cost basis for such children on the same lines as is done in the case of Ex-Criminal Tribes i.e. they will be paid at Rs. 20 per mensem. It is proposed to spend an amount of Rs. 5 lakhs for this purpose during the second Five Year Plan period. The provision for 1956-57 is Rs. 20,000.
3	*Grants to Voluntary Agencies for uplift work—*		
	(i) Starting of Balwadis	28,000	The Balwadis started for Harijan children are proving useful in teaching children of tender age the habits of cleanliness and in creating a healthy atmosphere for promotion of Education. It is proposed to start similar Balwadis for the children of the Nomadic Tribes with the difference that they will also provide clothes to the children. It is proposed to start in all 15 Balwadis in localities where they are tending to or are likely to settle down. Out of these ten Balwadis will be started in the first year. The details of the expenditure are as follows :—

Recurring for each Balwadi—

	Rs.	Rs.
One matron salary	100×12	1,200

(iii) Appointment of Propaganda Workers.		10,000	The Nomadic Tribes are not likely to be aware of all the measures that are being undertaken for setting them because of their nomadic habits. It will also be necessary to exhort them to settle way of life and also to take full advantage of the special measures formulated for them. It is therefore essential to carry on an intensive propaganda drive among these tribes. It is proposed to do this through non-official agencies whose experience of social work will be of great value for this work. Recognised Voluntary Agencies will therefore be encouraged to appoint 15 propaganda workers to work among nomadic tribes, by payment of grant-in-aid on the emoluments of these workers. Each worker will be paid Rs. 80 as pay and Rs. 45 as Travelling Allowance per month. Voluntary Agencies will be paid 80 per cent. of the expenditure on these workers. Out of these 10 workers will be appointed during the year 1956-57. The cost of the scheme will be as follows :— Rs. Pay Rs. 80×10×12 ... ... 96,00 Travelling allowance Rs. 45×10×12 ... 5,400 Total ... 15,000 Grant on 80 per cent. basis comes to ... 12,000 An ad-hoc provision of Rs. 10,000 may be made.

47, MISCELLANEOUS DEPARTMENTS—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

Serial No.	Description of item.	Provision proposed for 1956-57.	Detailed justification.

		Rs.	
4.	Provision of wells in Nomadic Tribes localities.	10,000	Some of the Nomadic Tribes are gradually taking to settle ways of life. It is also proposed to undertake a concerted drive to settle all these tribes during the second Five-Year Plan period. Provision of adequate water facilities is an important step in this drive. It is proposed to provide in all 40 wells at a total cost of Rs. 1,60,000 during the second Five Year Plan *i. e.* during 1956–57 an amount of Rs. 10,000 is proposed to be spent on this scheme.
5	Ameliorative measures among the women.	30,000	While bringing about the rehabilitation of Nomadic Tribes we cannot overlook their women folk. Actually the women folk can play very important role in this work. It is therefore porposed to implement the following schemes for the Nomadic Tribes women. (1) Appointment of three Ledy Workers to advise and guide Nomadic Tribes women in health sanitation and domestic matters. (2) Starting of tailoring embroidary and toy making classes for these women. (3) Supply of sewing machines and accessories after training. It is proposed to spend in all Rs. 5,00,000 on these schemes during the Second Five-Year Plan period. Of this amount of Rs. 50,000 will be required during the year 1956-57. The details of this expenditure are as dollows :— *I. Appointment of three Lady Welfare Workers.—* *Recurring.—* Rs. Pay Rs. 150 per mensem × 3 × 12 ... 5,400 Permanent Allowance Rs. 45 per mensem × 3 × 12. 1,620 Travelling Allowance Rs. 50 per mensem × 3 × 12. 1,800 Pay of three attendants at Rs. 45 per mensem × 3 × 12. 1,620 Total ... 10,440 *Nom-recurring.—* ... *Nil.* *II. 6	*Miscellaneous.*—		
	(i) Organisation of Traning Camps ...	2,000	In order that the Nomadic Tribes people should know the beneficient measures undertaken by Government for their uplift in order to be able to avail the benefit of these measures it is necessary to carry on effective propaganda with an object of acquianting them with these measures. For this purpose it is proposed to organise training camps or shibirs for selected nomadic tribes leaders and youths. In these camps these persons will be given a clear idea of the beneficient activities undertaken by Government for their uplift. It is proposed to spend in all an amount of Rs. 15,000 during the second Five Year Plan period. An amount of Rs. 2,000 will be required during 1956-57. The expenses of each camp are not to exceed to Rs. 600. Thus about five camps will be organised during 1956-57.
	(ii) Economic, cultural and nutritional survey.	14,080	At present there is very scanty information about the Nomadic Tribes. In order to have detailed information about these tribes and especially about their ecomonic and nutritional condition and cultural background it is proposed to carry out a detailed survey through some social logical research institutions. Such survey will be highly useful in implementing the measures for the uplift of these Nomadic Tribes. An amount of Rs. 2,50,000 is proposed to be spent for this purpose during second Five Year Plan period. A provision of Rs. 14,080 is p oposed for the year 1956-57.
	(iii) Preparation of pamphlets and posters.	2,000	In order to enable the Nomadic Tribes people to take full advantage of the measures for their uplift a concerted propaganda drive is necessary. Appointment of propaganda workers and sewakas and the holding of training camps have been proposed for this purpose. In addition it is necessary to give wide publicity to these measures through suitable posters and pamphlets. It is therefore proposed to spend an amount of Rs. 10,000 during the plan period for the preparation of pamphlets and posters. An amount of Rs. 2,000 is proposed for the year 1956-57.

57, MISCELLANEOUS.

MINISTER IN CHARGE—SHRI Y. B. CHAVAN.

ITEM 333. Financial assistance to Village Panchayats in Adivasi and Backward Areas.

Recurrent	... Rs.	*Nil.*	Non-recurrent	...	Rs. 2,00,000
Total	... ,,	2,00,000	Ultimate annual recurrent	...	,, *Nil.*

Remarks.—Government has decided to establish Village Panchayats to cover each and every village of the State within a period of three years beginning from 1955-56 in order to implement the directive principle laid down in Article 40 of the Constitution. Government is paying a lump-sum grant of 30 per cent. land revenue to Village Panchayats. Except 30 per cent. land revenue grant, no other grant is paid to Village Panchayats. At the conference held at Mount Abu on the 30th May 1955, the question of establishing Village Panchayats in Adivasi and Backward areas was considered. It was decided at the conference that in Backward and Adivasi areas, the house-tax, which is at present compulsory, may not be levied for some years and that increased subsidy may be given to provide amenities in these areas. Parts of following districts are treated as scheduled areas or backward areas :—

(1) Panchmahals, (2) Banaskantha, (3) Sabarkantha, (4) Surat, (5) Thana, (6) East Khandesh, (7) West Khandesh, (8) Nasik, (9) Poona, (10) Ahmednagar, (11) Kanara, (12) Kolaba, (13) Ratnagiri, (14) Baroda, (15) Broach.

The total number of villages in these districts comes to about 17,939. The exact number of villages in these districts which are backward and which will require financial assistance is not known. People in Adiwasi and Backward areas are too poor and mostly illiterate. They live at scattered places and have no village-sites. They have to be persuaded to settle at one place which may be provided as a free village-site. They are not in a position to pay any taxes. In backward and Adivasi areas the rate of agricultural assessment is very low in view of the poor soil in these areas and 30 per cent. land revenue grant in such areas will be a small amount and would be far too inadequate to meet the requirements of such areas. People in these areas require to be provided with amenities, such as village sites, roads, lights, etc. Village Panchayats in Backward and Adivasi areas will require increased assistance in the form of grant or subsidy. Assuming that one-fourth of the number of villages in the districts mentioned above are backward (i.e. about 4,500). Government would require a large amount to give financial assistance to all these villages. Government, however, intends to give financial assistance only to village Panchayats in such villages, which require help, in the initial stage and when they start properly functioning and raise taxes, to withdraw such grant. It is estimated to give help to about 400 Village Panchayats during the year 1956-57 at the rate of Rs. 500. It is proposed to give financial assistance to Village Panchayats in such areas during the period of five years of the Second Five-Year Plan of Rs. 16 lakhs as follows :—

Year	Financial assistance
	Rs.
1956-57	2 lakhs
1957-58	3 lakhs
1958-59	3 lakhs
1959-60	4 lakhs
1960-61	4 lakhs

Expenditure on account of financial assistance to Village Panchayats in Adivasi and Backward areas during the year 1956-57 will be Rs. 2 lakhs.

		Rs.
Total—57, Miscellaneous ...	Recurrent ...	.....
	Non-recurrent ...	2,00,000
	Total ...	2,00,000

63-B, COMMUNITY DEVELOPMENT PROJECTS, NATIONAL EXTENSION SERVICE AND LOCAL DEVELOPMENT WORKS.

MINISTER IN CHARGE—SHRI MORARJI R. DESAI.

ITEM 334. Community Development Programme.

Recurrent	... Rs.	6,83,000	Non-recurrent	... Rs.	9,60,000
Total	... ,,	16,43,000	Ultimate annual recurrent	... ,,	.....

Remarks.—Out of the existing National Extension Service Blocks it is estimated that about 16 National Extension Service Talukas equivalent to 25 blocks of the Community Projects Administration pattern will be converted into Community Development Blocks with effect from 1st April 1956. The total provision available for each of these Blocks will be Rs. 15,00,000 minus the actual expenditure incurred under the National Extension Service Programme up to the date of Conversion. The provision to be obtained for the blocks under the National Extension Service programme in the next year's budget will be partly available on their conversion into Community Development Blocks. As the areas will have intensive development, additional amount will have to be provided. It is estimated that an additional amount of Rs. 16,43,000 will be required for the 25 Blocks under the head "63-B, Community Development Projects, National Extension Service and Local Development Works—A, Community Development Projects". The programme of work under the blocks will embrace Agriculture, Irrigation, Public Health, Arts, Crafts and Industries, Education, Social Education and other development activities permissible under the programmes.

2. Government of India will bear 50 per cent. of the recurring and 75 per cent. of the non-recurring expenditure and will also make available necessary loans, for financing loanable items of expenditure. On this basis, this Government will receive Rs. 9,49,000 as grant-in-aid against non-loanable items and Rs. 1,50,000 as loans under loanable items, from the Central Government.

3. A separate new item is being put up for the provision required for grant of loans, in these areas.

ITEM 335. National Extension Service Programme.

Recurrent	... Rs.	7,34,000	Non-recurrent	... Rs.	11,91,000
Total	... ,,	19,25,000	Ultimate annual recurrent	... ,,	.....

Remarks.—It is estimated that new National Extension Service Blocks equivalent to 21 National Extension Service Blocks of Community Projects Administration's pattern will be taken up in this State with effect from 1st April 1956. Each National Extension Service Block will have an expenditure of Rs. 7·5 lacs for a period of 3 years, as detailed below :—

	Rs.
Recurring expenditure	1,50,000
Non-recurring expenditure	2,00,000
Loans for Minor Irrigation Schemes	1,00,000
Short term loans	3,00,000
Total ...	7,50,000

Out of the above provisions, Rs. 3,00,000 available for short term loans for each Block, is not to be financed from the Government funds, but by the Reserve Bank, through the Co-operative agencies. Thus the total provision available for 3 years for each National Extension Service Block is Rs. 4,50,000. The programme mainly consists of provision of agricultural seeds, implements, Local Development Works, such as roads, school buildings, wells, programmes under Irrigation, Reclamation, Social Education, and grant-in-aid in respect of recurring expenditure for schools, hospitals and other institutions.

2. As in the case of Community Development Blocks, Government of India will share 50 per cent. of recurring expenditure and 75 per cent. of the non-recurring expenditure. They have also agreed to provide loans for minor irrigation to the extent of Rs.1,00,000 per block. The provision required for the 21 National Extension Service Blocks for the year 1956–57, is estimated as Rs. 19,25,000 under the head "63-B, Community Development Projects, National Extension Service and Local Development Works—B-National Extension Service". On the basis of the proportion for the sharing of expenditure between Central and State Governments, this Government will receive a grant-in-aid of Rs. 12,30,000. Against the loanable provision of Rs. 41,000 included in this new item, Government of India will make necessary loans available. A mention of this has also been made in the new item statement under the head "P—loans and advances by State Government-Loans in connection with the National Extension Service", which has been separately put up.

63-B, COMMUNITY DEVELOPMENT PROJECTS, NATIONAL EXTENSION SERVICE AND LOCAL DEVELOPMENT WORKS—contd.

MINISTER IN CHARGE—SHRI MORARJI R. DESAI.

ITEM 336. Local Development Works Programme under the Five-Year Plan.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 75,00,000
Total	... ,, 75,00,000	Ultimate annual recurrent	... ,, ...

Remarks.—During 1954–55, the Government of India allocated Rs. 59·70 lakhs for Local Development Works Programme in this State. To this amount the State Government added an amount of Rs. 25 lakhs. This was further supplemented by contributions from local bodies and the people, thus making it possible to undertake programme of Rs. 150 lakhs. Works undertaken were mostly small works of essential nature, e.g., village water supply, roads, bridges and culverts, bandharas and tanks. People showed considerable enthusiasm for the programme. During the year, 2,621 works estimated to cost Rs. 108·89 lakhs were actually taken up for execution.

2. During the current year 1955–56, the Central Government has promised an allocation of Rs. 59·70 lakhs for Local Development Works Programme in this State. This will be supplemented by the State Government grant of Rs. 25 lakhs. A budget provision of Rs. 75 lakhs has been made for 1955–56. A total programme of Rs. 150 lakhs is proposed to be undertaken during the current year.

3. It is proposed to take up a further programme of Local Development Works costing Rs. 150 lakhs during the next financial year 1956–57 as in the current year. On the basis of the current year's programme, the Government's share of the cost of this programme will be Rs. 75 lakhs. The Government of India is expected to increase its allocation to Rs. 67 lakhs. The remaining share of Rs. 8 lakhs will be required to be contributed by the State Government.

4. A provision of Rs. 75 lakhs is therefore required during 1956–57 for the Local Development Works Programme. This represents a gross demand out of which Rs. 67 lakhs will be received from the Central Government as its share of the cost. The net State expenditure will therefore be Rs. 8 lakhs.

ITEM 337. Scheme for implementation of Welfare Extension Projects sponsored by the Central Social Welfare Board.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 2,00,000
Total	... ,, 2,00,000	Ultimate annual recurrent	... ,, ...

Remarks.—During the year 1954-55 the Central Social Welfare Board launched a programme of 27 Welfare Extension Projects in consultation with the State Social Welfare Advisory Board to cover each District in the State. The Welfare Extension Project Scheme is intended to extend Welfare services for women and children in the rural areas. Welfare Extension Projects are being implemented by non-official Committees, known as Project Implementing Committees, consisting of the representatives of Voluntary Welfare institutions working in and around the Project areas. Each project consists of about 20 to 24 villages covering a population of about 20,000 people and may have from five to seven centres each catering to 3 or 4 villages.

2. The policy regarding State assistance adopted by Government so far is that Welfare Extension Projects located in the Community Development Projects and National Extension Service areas would get admissible assistance from the funds allotted for those schemes and those located outside the Community Development Project and National Extension Service areas would get assistance from the Local Development grants. Where, however, schemes of welfare do not fit in with the Local Development Works Programme or are located outside the Community Development Project or National Extension Service areas, it would be necessary for the State Government to make separate provision for meeting its share.

3. By the end of September 1955, one Project each has been started in 18 districts. By the end of the year, it is proposed to start one project each in the remaining 9 districts. During the current year, Government has agreed as a special case to give a grant to the State Social Welfare Advisory Board at the rate of 25 per cent. of the total cost of each project, the cost of each Project being calculated on the basis of five centres per project. It has also been agreed to place at the disposal of the State Social Welfare Advisory Board an advance amount equal to half the budgeted expenditure on the Projects to enable the Project Implementing Committees to make a start, the balance of the Government grant being given at the end of the year on receipt of figures of actuals of expenditure on each Project. The provision of Rs. 25,000 made during the current year will accordingly be supplemented during the course of the year.

4. During the Second Five-Year Plan, the programme of Welfare Extension Project is proposed to be expanded by starting more projects in the State on an intensified scale. On the assumption that 27 more projects will be undertaken during 1956-57, the total cost of the programme is estimated to be about Rs. 8 lakhs. This will have to be shared between the Central Social Welfare Board, the State Government and the Project Implementing Committees. The Central Board has advised that 50 per cent. of the cost should be borne by it and the remaining 50 per cent. shared equally between the State Government and the Project Implementing Committees. A provision of Rs. 2 lakhs is, therefore, required during 1956-57.

			Rs.
Grand Total—63-B, Community Development Projects, National Extension Service and Local Development Works.	Recurrent	...	14,17,000
	Non-recurrent	...	98,51,000
	Total	...	1,12,68,000

68. CONSTRUCTION OF IRRIGATION, NAVIGATION, EMBANKMENT AND DRAINAGE WORKS.

MINISTER IN CHARGE—SHRI M. M. NAIK-NIMBALKAR.

ITEM 338. Surveying and preparing plans and estimates for Kadana reservoir Scheme for the Panch Mahals and Kaira Districts.

Recurrent	.. Rs.	*Nil.*	Non-recurrent	..Rs.	4,25,000
Total	.. „	4,25,000	Ultimate annual recurrent	.. „	*Nil.*

Remarks.—The project consists of a construction of a reservoir across Mahi River near Kadana Village of Santrampur Taluka of Panchmahals District. It forms the Second Stage of Mahi Project and benefits the Kaira and Panchmahals Districts. The proposed Dam would have a storage capacity of 80,000 M. cft. The scheme is estimated to cost Rs. 1,310 lacs and would provide irrigation for 4,55,000 acres for mixed crops, or 7,51,000 acres for seasonal crops. It has been included in the draft Second Five-Year Plan of the Bombay State. It has, therefore, been decided to carry out detailed investigation during the year 1956-57.

The survey work is estimated to cost Rs. 14,23,462 and a provision of Rs. 4,25,000 is asked for, for the year 1956-57.

The plans and estimates have been approved by Governmnet

(*Productive.*)

ITEM 339. Construction of Kadana Reservoir Project for Mahi Valley Scheme for the Panch Mahals and Kaira Districts.

Recurrent	... Rs.	*Nil.*	Non-recurrent	...	... Rs. 20,82,500
Total	... „	20,82,500	Ultimate annual recurrent	... „	*Nil.*

Remarks.—The project consists of a construction of a reservoir across Mahi River near Kadana Village of Santrampur Taluka of Panchmahals District. It forms the Second Stage of Mahi Project and benefits the Kaira and Panchmahals Districts. The proposed Dam would have a storage capacity of 80,000 M. cft.

The Scheme is estimated to cost Rs. 1,310 lacs and would provide irrigation for 4,55,000 acres for mixed crops, or 7,51,000 for seasonal crops. The cost per acre of the area irrigated therefore comes to Rs. 290 (for mixed crops) and Rs. 175 (for seasonal crops). The plans and estimates of the Scheme are ready. It has been included in the draft Second Five Year-Plan of the Bombay State.

A provision of Rs. 20,82,500 is required during the year 1956–57.

ITEM 340. Construction of Sabarmati Project, Districts Ahmedabad and Mehsana.

Recurrent	... ... Rs.	*Nil.*	Non-recurrent	... ... Rs.	12,75,000
Total	... ... „	12,75,000	Ultimate annual recurrent	... „	*Nil.*

Remarks.—The project envisages the construction of a storage dam across Sabarmati River at Dharoi about 95 miles north of Ahmedabad. It mainly benefits the areas of Ahmedabad and Mehsana Districts and the average rainfall of these Districts is 12·32″ and 11·22″ respectively. The area is often affected by scarcity. The percentage of irrigated area to sown areas in Ahmedabad and Mehsana Districts are 3·4 per cent. and 0·6 per cent. respectively.

The project is estimated to cost Rs. 1,312 lacs. It contemplates a reservior of 35,000 M. cft. and is expected to irrigate an area of 2,74,000 acres of mixed crops or an area of 3,94,000 acres of seasonal crops. The cost per acre therefore works out to Rs. 475 (mixed)/Rs. 330(seasonal). The plans and estimates for the scheme are ready and it has been included in the draft Second Five-Year Plan of the Bombay State.

A provision of Rs. 12,75,000 is required for the year 1956–57.

ITEM 341. Construction of Narmada River Project, Districts Baroda and Broach.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	26,35,000
Total	... „	26,35,000	Ultimate annual recurrent	... „	*Nil.*

Remarks.—The project consists of the construction of a Weir at Gore. The areas benefitted by the Project are in the limits of Baroda and Broach Districts, having an annual rainfall of 23·41″ and 15·01″ respectively. The Districts are often affected by scarcity. The percentage of irrigated area to sown area in Baroda and Broach Districts are 0·7 per cent. and 0·4 per cent. respectively.

68, CONSTRUCTION OF IRRIGATION, NAVIGATION, EMBANKMENT AND DRAINAGE WORKS—contd.

MINISTER IN CHARGE—SHRI M. M. NAIK-NIMBALKAR.

The project is estimated to cost Rs. 2,500 lacs, and would irrigate an area of 9,97,500 acres of mixed crops or 11,57,100 acres for seasonal crops. The cost per acre of the area irrigated comes to Rs. 250 for mixed crops and Rs. 216 (for seasonal crops). The plans and estimates for the project are under preparation with the Central Water and Power Commission. It has been included in the draft Second Five-Year Plan of the Bombay State.

A provision of Rs. 26,35,000 is required for the work in the year 1956–57.

ITEM 342. Construction of Banas Valley Project (Dantiwada Weir Scheme), Districts Banaskantha and Mehsana.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	26,35,000
Total	... ,,	26,35,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—The project consists of the construction of a dam across Banas River at Dantiwade for a storage of 10,000 M.cft. The area benefitted by this project lies in Banaskantha and Mehsana Districts which have an average rainfall of 15·64". The area is often affected by scarcity. The percentage of irrigated area to sown areas in the Banaskantha District and Mehsana Districts are 0·14 per cent. and 0·6 per cent. respectively.

The project is estimated to cost Rs. 737 lakhs and is estimated to irrigate an area of 1,20,000 acres (Seasonal). The cost per M.cft. stored comes to Rs. 4,340 and the cost per acre of the area irrigated would be Rs. 614. The plans and estimates in respect of the work are ready. It has been included in the draft Second Five-Year Plan of the Bombay State.

A provision of Rs. 26,35,000 is required during the year 1956–57.

ITEM 343. Construction of Vir Dam Project, districts Poona, Sholapur and North Satara.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	38,25,000
Total	... ,,	38,25,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—The project is intended for the construction of a dam on the Nira River a little downstream of the existing weir at Vir, Taluka Purandar, District Poona, for providing an additional storage for the Nira Right Bank Canal. The storage capacity of the Dam will be 9,400 M.cft. The project will benefit parts of North Satara and Sholapur Districts. The rainfall in these two districts is 36·07" and 22·89" respectively and the percentage of irrigated to sown area is 7·5 per cent. and 4·7 per cent. respectively at present. The area is often affected by scarcity.

The project is estimated to cost Rs. 461 lakhs. An area of about 99,850 acres (Mixed) (1,43,000 acres as converted to seasonal) will be brought under irrigation by the project. The cost per acre irrigated will be Rs. 500 (Mixed) or Rs. 349 (per acre converted to seasonal basis). The plans and estimates for the scheme are ready. It has been included in the draft Second Five-Year Plan of the Bombay State.

A provision of Rs. 38,25,000 is required for the year 1956–57.

ITEM 344. Construction of Khadakvasla Project, District Poona.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	34,00,000
Total	... ,,	34,00,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—The project consists of a Dam on the Mutha River near Khadakwasla, having a storage capacity of 15,000 M.cft. This storage will be utilised for irrigation by remodelling the existing Mutha Right Bank Canal to carry a higher discharge and also by extending the canal from miles 69 to 100. The project will benefit Poona District. The percentage of irrigated to sown area in this District is at present 9·1 per cent. The district receives an annual rainfall of 33·25". The area is often affected by scarcity.

The project is estimated to cost Rs. 1,182 lacs and will bring under irrigation an area of 80,000 acres (mixed crop). This area in terms of seasonals represents 2,04,000 acres. The cost works out to be Rs. 4,440 per M.cft., Rs. 1,261 per acre of mixed crop and Rs. 580 per acre as converted to seasonals. The plans and estimates for the project are ready. It has been included in the draft Second Five-Year Plan.

A provision of Rs.34,00,000 is required for the year 1956–57.

68, CONSTRUCTION OF IRRIGATION, NAVIGATION, EMBANKMENT AND DRAINAGE WORKS—contd.

MINISTER IN CHARGE—SHRI M. M. NAIK-NIMBALKAR.

(*Productive*)

ITEM 345. Construction of Mula River Project, district Ahmednagar.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	23,80,000
Total	... ,,	23,80,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—The project consists of a Dam on the Mula River at Vanjarwadi to impound a storage of 22,000 M.Cft. and a Right Bank Canal. The Ahmednagar District receives an annual rainfall of only about 24·90″ and the percentage of irrigated to sown area in the District at present is 4·6 per cent. The area is very often affected by scarcity.

The project is estimated to cost Rs. 839 lakhs and will bring under irrigation an area of 1,37,500 acres (mixed) in Rahuri, Mewasa and Shegaon Talukas of Ahmednagar District. The area converted into seasonals represents 2,04,000 acres. The cost works out to be Rs. 2,395 per M.Cft. of storage, Rs. 610 per acre of mixed irrigation and Rs. 237 per acre as converted to seasonals. The plans and estimates of the project are ready. It has been included in the draft Second Five-Year Plan of the Bombay State.

A provision of Rs. 23,80,000 is required during the year 1956-57.

ITEM 346. Construction of Girna River Project, district Nasik.

Recurrent ...	... Rs.	*Nil.*	Non-recurrent ...	... Rs.	36,55,000
Total ...	... ,,	36,55,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—The project envisages a Dam on the Girna River at Panzam in the Nasik District impounding a storage of 10,000 M. Cft. and a main canal and two branches having a total length of 110 miles. The project will benefit mostly East Khandesh and partly West Khandesh Districts. The percentage of irrigated to sown area in the two Districts at present is 0·4 per cent. and 1·9 per cent. respectively. The annual rainfall is only 24·02″ and 20·97″ respectively and the area is often affected by scarcity.

The project is estimated to cost Rs. 808 lakhs. It will bring under irrigation an area of about 88,000 acres (mixed) and 1,84,000 acres converted to seasonal basis. The cost works out to be Rs. 4,224 per M. Cft., Rs. 919 per acre of irrigation (mixed) and Rs. 439 per acre of irrigation converted to seasonal basis. The plans and estimates of the project are ready. It has been included in the draft Second Five-Year Plan of the Bombay State.

A provision of Rs. 36,55,000 is required during the year 1956-57.

ITEM 347. Ghataprabha Valley Development Scheme Stage II—

(*a*) Construction of Storage dam at Hadalga on the Ghataprabha river.

(*b*) Construction of Ghataprabha Left Bank Canal Section II—miles 45 to 73.

Recurrent ...	... Rs.	*Nil.*	Non-recurrent ...	... Rs.	51,00,000
Total ...	... ,,	51,00,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—The Belgaum and Bijapur Districts of this State are found to be frequently in grips of the scarcity which brings in its fold untold miseries to the people. To combat the recurring menace it has been found, on experience, that liberal provision of irrigation facilities is absolutely essential.

Government has therefore decided to take up the construction of Ghataprabha Valley Development Scheme Stage II in these Districts. The percentage of irrigated to sown area in the Belgaum and Bijapur Districts is at present meagre viz. 1·6 per cent. and 0·08 per cent. respectively. The annual rainfall of the Districts is 34·04″ and 20·25″ respectively.

The Ghataprabha Valley Development Scheme comprises of a storage dam at Hadalga impounding a storage of 3,200 M. Cft. and extension of Ghataprabha Left Bank Canal from miles 45 to 73. The scheme has been included in the draft Second Five-Year Plan.

The project is estimated to cost Rs. 924 lakhs and will bring under irrigation an area of 2,05,000 acres (seasonal) in Belgaum and Bijapur Districts. The cost works out to be Rs. 450 per acre.

A provision of Rs. 51,00,000 is required for the year 1956-57.

68, CONSTRUCTION OF IRRIGATION, NAVIGATION, EMBANKMENT AND DRAINAGE WORKS—contd.

MINISTER IN CHARGE—SHRI M. M. NAIK-NIMBALKAR.

(*Unproductive*).

ITEM 348. Construction of Storage Reservoir across the Saraswati in district Mehsana.

Recurrent ...	... Rs. *Nil.*	Non-recurrent ...	... Rs. 9,35,000
Total ...	... ,, 9,35,000	Ultimate annual recurrent	... ,, *Nil.*

Remarks.—The Mehsana District is frequently in the grips of famine on account of failure of rainfall. Consequently great hardship is caused to the people. In order to ensure against the vagaries of the monsoon, it is necessary to construct more irrigation works. It has therefore been decided to undertake construction of the Saraswati Reservoir Scheme in the Mehsana District. The percentage of irrigated to sown area is 0·6 per cent.

The scheme is estimated to cost Rs. 150 lakhs and is expected to irrigate about 45,000 acres of land. The cost per acre works out to Rs. 330. The scheme is under survey at present. It has been included in the draft Second Five-Year Plan of the Bombay State.

A provision of Rs. 9,35,000 is required in the year 1956–57.

(*Productive*)

ITEM 349. Construction of Hathmati Reservoir Scheme, districts Sabarkantha and Ahmedabad.

Recurrent ...	... Rs. *Nil.*	Non-recurrent ...	... Rs. 14,02,500
Total ...	... ,, 14,02,500	Ultimate annual recurrent	... ,, *Nil.*

Remarks.—The project comprises of construction of storage reservoir for 4.700 M. Cft. of water near Fatepur in Sabarkantha District to supplement irrigation to the existing Hathmati and Khari Cut Canal System and also to have additional irrigation in the Sabarkantha and Ahmedabad Districts. There are no irrigation facilities worth the name in this part. Provision of more irrigation facilities is absolutely essential in this part so as to relieve the area from the oft-repeated scarcities.

The scheme is estimated to cost Rs. 150 lakhs and would irrigate an area of 79,600 acres of land. The cost per acre of the irrigated area works out to Rs. 262. The plans and estimates of the project are ready and it has been included as a medium irrigation in the draft Second Five-Year Plan of the Bombay State.

A provision of Rs. 14,02,500 is required during the year 1956–57.

ITEM 350. Construction of Shetrunji Project, district Amreli.

Recurrent ...	... Rs. *Nil.*	Non-recurrent ...	...Rs. 7,01,250
Total ...	... ,, 7,01,250	Ultimate annual recurrent	... ,, *Nil.*

Remarks.—The project comprises of (*a*) construction of a masonry dam at Khodiar Mata across the Shetrunji River near Dhuri Town for a storage of 1425 M. Cubic feet and (*b*) pick-up weir at Medhi about 13 miles down-stream of the dam site with a H. R. and Right Bank Canal therefrom to irrigate lands called Kharepat in Amreli Taluka. The Amreli District receives very meagre rainfall and as such it is frequently exposed to famine-like conditions. In order to redress the grievances of the people, it is essential to provide irrigation facilities in the area which would help to afford relief to a greater extent.

The project is estimated to cost Rs. 120 lakhs and would irrigate an area of 19,000 acres of land. The cost per acre of the Scheme works out to Rs. 630. The plans and estimates of the project are ready. It has been included in the draft Second Five-Year Plan of the Bombay State.

A provision of Rs. 7,01,250 is required for the year 1956–57.

68, CONSTRUCTION OF IRRIGATION, NAVIGATION, EMBANKMENT AND DRAINAGE WORKS—contd.

MINISTER IN CHARGE—SHRI M. M. NAIK-NIMBALKAR.

ITEM 351. Construction of Shamlaji Project, districts Kaira and Sabarkantha.

Recurrent ...	... Rs. *Nil.*	Non-recurrent ...	... Rs. 14,02,500
Total ...	... ,, 14,02,500	Ultimate annual recurrent	... ,, *Nil.*

Remarks.—The project comprises of (*a*) construction of a masonry dam across the Meshwa River near Samalaji in Bhiloda Taluka of the Sabarkantha District for a storage of 2326 M. cubic feet from catchment area of 125 square miles with an average rainfall of 31″ and (*b*) direct canals on the Left Bank in Bhiloda and Modasa Talukas of Sabarkantha District and in Mehmedabad Taluka of Kaira District and also to assure supply to the lands in Mehmedabad and Matar Talukas of Kaira Dissricts. Both the districts have scanty rainfall and are often in the grip of famine-like conditions. To avert oft-repeated calamaties, it is absolutely essential to provide irrigation works in the area.

The project is estimated to cost Rs. 100 lacs and is expected to irrigate 26,400 acres of lands. The cost per acre of the scheme works out to Rs. 378.

The plans and estimates of the project are ready. It has been included in the draft Second Five-Year Plan of the Bombay State.

A provision of Rs. 14,02,500 is required for the year 1956–57.

ITEM 352. Construction of Gangapur Storage Project—Stage II, Districts Nasik and Ahmednagar.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 18,70,000
Total	... ,, 18,70,000	Ultimate annual recurrent	... ,, *Nil.*

Remarks.—The project, when completed, would benefit Nasik and Ahmednagar Districts. Both the Districts are very often affected by scarcity having an annual rainfall of 36·17″ and 24·90″ respectively. It is therefore essential to provide as much irrigation facilities to this part to afford relief to the people. The percentage of irrigated to sown area in these two Districts is 2·7 per cent. and 4·6 per cent. respectively.

The project is estimated to cost Rs. 170 lakhs and is expected to irrigate about 35,000 acres. The cost per acre therefore works out to Rs. 485. The plans and estimates of the project are ready. It has been included in the draft Second Five-Year Plan of the Bombay State.

A provision of Rs. 18,70,000 is required for the work in the year 1956–57.

ITEM 353. Construction of Varna Project, Districts Kolhapur and South Satara.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 11,68,750
Total	... ,, 11,68,750	Ultimate annual recurrent	... ,, *Nil.*

Remarks.— The project would benefit Kolhapur and South Satara Districts. The rainfall in these Districts is 71·41″ and 13·14″ respectively. The percentage of irrigated area to sown area is 0·36 per cent. and 1·24 per cent. respectively in these Districts. Although Kolhapur District has no poor rainfall, the percentage of the irrigated to sown area is meagre. The South Satara District is frequently affected by scarcity on account of scanty rainfall. In the interest of both the Districts the Scheme of construction of Varna Project has been included in the draft Second Five-Year Plan of the Bombay State.

The Scheme is estimated to cost Rs. 160 lakhs and is expected to irrigate about 74,000 acres of land. The cost per acre therefore works out to Rs. 535. The Project is under Survey.

A provision of Rs. 11,68,750 is required for the year 1956-57.

ITEM 354. Construction of Kurnur Tank, District Sholapur.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 11,68,750
Total	... ,, 11,68,750	Ultimate annual recurrent	... ,, *Nil.*

Remarks.—The scarcity of water bringing in its fold untold miseries to the people, has become almost a common feature of Sholapur District. The percentage of irrigated to sown area is 4·7 per cent. To end, at least partially, the sufferings of the people it is essential to ensure water supply to the lands by means of irrigation works. It has, therefore, been decided to undertake construction of this project in the draft Second Five-Year Plan.

The Scheme is estimated to cost Rs. 260 lakhs and would benefit 28,000 acres of land. The cost per acre for the Scheme works out to Rs. 571. The Scheme is under Survey.

A provision of Rs. 11,68,750 is required for the year 1956–57.

68, CONSTRUCTION OF IRRIGATION, NAVIGATION, EMBANKMENT AND DRAINAGE WORKS—contd.

MINISTER IN CHARGE—SHRI M. M. NAIK-NIMBALKAR.

ITEM 355. Construction of Storage Reservoir on Dharma River near Yemagalli, Taluka Hangal, District Dharwar.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 7,01,250
Total	... ,, 7,01,250	Ultimate annual recurrent	... ,, *Nil.*

Remarks.—The Dharma Reservoir Scheme is intended to give assured water supply to the already existing irrigated areas as well as to provide water for an additional area of about 5,000 acres. The agriculturists in the area know fully the benefits of irrigation and are expected to make full use of irrigation facilities. The scheme will meet the long felt demand of the people. It has been included in the draft Second Five-Year Plan.

The work is estimated to cost Rs. 80 lakhs and has been administratively approved for the same. It is expected that an area of 14,000 acres would be irrigated by this project. The cost per acre therefore works out to Rs. 571.

A provision of Rs. 7,01,250 is required for 1956–57.

ITEM 356. Construction of an Irrigation tank at Vairag near Ladola, Taluka Barsi, District Sholapur.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 50,000
Total	... ,, 50,000	Ultimate annual recurrent	... ,, *Nil.*

Remarks.—The construction of an Irrigation tank at Vairag was started in April 1953 as scarcity work. After the cessation of the scarcity, it was stopped in September 1953. An expenditure to the extent of Rs. 1,21,369 has already been incurred on the work during the scarcity period, and unless the remaining work is completed, the expenditure already incurred on it during the scarcity period would go waste. The work, if completed, will also remove the acute shortage of water supply to the Vairag Town. Early completion of the work is necessary in order to make it yield the desired results of providing both irrigation to the area of 667 acres and removal of the acute shortage of water supply felt by the town at present.

The estimated cost of the project is Rs. 5,77,041 and is expected to irrigate 667 acres, which works out to Rs. 865 per acre.

A provision of Rs 50,000 is required for the work during the year 1956–57.

ITEM 357. Constructing an Irrigation tank at Tambve on Sarad Nalla, Taluka Phaltan, District North Satara.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 40,000
Total	... ,, 40,000	Ultimate annual recurrent	... ,, *Nil.*

Remarks.—There is a pressing demand for an Irrigation work from the agriculturists of the Phaltan Taluka where annual rainfall hardly exceeds 15". It has therefore been decided to undertake construction of an Irrigation tank at Tambave, on Sarad Nalla, in the Phaltan Taluka of District North Satara for providing irrigation facilities in the tract.

The Scheme is estimated to cost Rs. 10,44,430 and is expected to provide irrigation to 1,660 acres of land. The cost per acre of the Scheme works out to Rs. 629.

A provision of Rs. 40,000 is required for the year 1956-57.

ITEM 358. Constructing an Irrigation tank on Vadali river near Khadak Ozar, Taluka Chandor, District Nasik.

Recurrent	.. Rs. *Nil.*	Non-recurrent	.. Rs. 25,000
Total	.. ,, 25,000	Ultimate annual recurrent	.. ,, *Nil.*

Remarks.—The work of constructing an Irrigation tank on Vadali river near Khadak Ozar was started as a scarcity work during the year 1952–53 and has been closed on 31st August 1953 after cessation of the scarcity. An amount of Rs. 8,38,000 has already been spent on it during the scarcity period. It is

quite necessary to complete the work in all respects so as to make it yield the desired results. The amount spent on the work so far would go waste if it is left in the incomplete stage. It is, therefore, quite essential to complete the work and derive the benefits accruable therefrom.

The work is estimated at cost Rs. 17,04,739 and has been administratively approved and technically sanctioned for the same amount. An area of about 3,187 acres is expected to be irrigated by this work and the cost per acre works out to Rs. 542.

A provision of Rs. 25,000 is required for the year 1956–57.

ITEM 359. Construction of a building for Soil Mechanical Laboratory at Baroda.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	2,47,000
Total	... ,,	2,47,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—Research Sub-Division was created at Baroda in September 1949 with Soil Mechanics Laboratory as its integral part. Modern equipment for testing soils have since been installed and the laboratory is now in a position to take up most of the problems in the field of Soil Mechanics and foundation Engineering for both the branches of P. W. D. i.e. Irrigation and Roads and Buildings. The activities of the Laboratory have been rapidly expending. Consequently the present premises occupied by the Laboratory are found to fall short of the increasing requirements of the Laboratory. It has, therefore, been proposed to construct a new building in the compound of the College of Engineering of the Maharaj Sayajirao University of Baroda for housing the Laboratory to the mutual advantage of both the institutions. The proximity of the Laboratory to the Engineering College would prove beneficial to the students in providing practical knowledge in the field of Engineering, while the officers of this Department would be profited by discussion with the Professors, on theory and practice of the science of Soil Mechanics, which is destined to play a vital role in the Science of Civil Engineering in general and foundation Engineering in particular. The University is agreeable to give land for the Laboratory building free of cost on certain conditions.

The building is estimated to cost Rs. 2,47,361 and the plans and estimates are expected to be approved shortly.

A provision of Rs. 2,47,000 is required for the year 1956-57.

ITEM 360. Construction of New Tube Wells in the State of Bombay.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	25,00,000
Total	... ,,	25,00,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—There are large tracts in this State which cannot be served by any flood irrigation schemes. It is considered necessary to provide some irrigation facilities in such areas. On investigation it is found that construction of tube wells is feasible. Hence during the Second Five-Year Plan a provision of Rs. 1·50 crores is proposed for drilling tube wells. Each tube well is estimated to cost about Rs. 47,000 and from the provision of Rs. 1·50 crores about 330 tube wells can be constructed. Each tube well is expected to irrigate about 200 acres. Thus the scheme will bring under irrigation an additional area of about 66,000 acres. A provision of Rs. 25,00,000 is required for drilling tube wells during the year 1956-57.

ITEM 361. Construction of Karwand Dam in Shirpur Taluka, District West Khandesh.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	1,00,000
Total	... ,,	1,00,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—The West Khandesh District is often affected by scarcity. As a result of this considerable difficulties have to be experienced by the people. In order to afford relief to the people, the work of constructing Karwand Dam in the West Khandesh District was started as a scarcity work in the year 1953-54 and an earth work to the extent of about Rs. 9·5 lakhs was carried out but the work was stopped after cessation of the scarcity conditions. It is essential to complete this work, otherwise the amount spent on it would go waste. The desired results would only be accruable if the project is completed in all respects. It has, therefore, been decided to complete the work in the Second Five-Year Plan.

The scheme is roughly estimated to cost Rs. 94 lakhs and is expected to irrigate about 18,750 acres of land. The cost per acre of the irrigated area works out to Rs. 500.

A provision of Rs. 1,00,000 is required for the work in the year 1956-57.

68, CONSTRUCTION OF IRRIGATION, NAVIGATION, EMBANKMENT AND DRAINAGE WORKS—DEVELOPMENT SCHEMES—SECOND FIVE-YEAR PLAN—A-UNPRODUCTIVE—IRRIGATION WORKS.

MINISTER IN CHARGE—SHRI M. M. NAIK-NIMBALKAR.

ITEM 362. Construction of a bandhara on Morna River at Dhawada near Gureghar, Taluka Patan, District North Satara.

Recurrent ...	... Rs.	*Nil.*	Non-recurrent ...	... Rs.	45,000
Total ...	... ,,	45,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—The project comprises of (*a*) construction of a bandhara across river Morna near Gokul and (*b*) an Irrigation Channel on Right Bank of river for irrigating an area of about 2,500 acres. The area where the bandhara is proposed to be constructed is having high rainfall. If this water is stored, which otherwise would go waste, can be used for irrigational purposes. Consequently the food production in the area would be augmented. It has therefore been decided to undertake construction of a bandhara on Morna river at Dhawada near Gureghar.

The project is estimated to cost Rs. 10,54,798 and is expected to irrigate 3,640 acres (2,800 Rabi+840 mansoon) of land. The cost per acre of the scheme works out to Rs. 376.

A provision of Rs. 45,000 is required during the year 1956-57.

ITEM 363. Construction of a tank near Andhali on Man river, Taluka Man, District North Satara.

Recurrent ...	... Rs.	*Nil.*	Non-recurrent ...	... Rs.	60,000
Total ...	... ,,	60,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—The normal rainfall in the Man Taluka of North Satara District is 19·07". On account this scanty rainfall, the area is frequently exposed to scarcity conditions. Consequently people have to undergo severe hardships. To mitigate the sufferings of the people, to some extent at least, it is essential to provide irrigation facilities, which would afford them some relief. It is therefore proposed to construct a tank near Andhali on Man river in Man Taluka of North Satara District.

The scheme is estimated to cost Rs. 12,00,000 (Rough cost) and is expected to irrigate roughly 3,000 acres of land. The cost per acre thererfore works out to Rs. 400.

A provision of Rs. 60,000 is required during the year 1956-57.

ITEM 364. Extension and improvements to Jalampura tank, Taluka Mehmedabad, District Kaira.

Recurrent ...	... Rs.	*Nil.*	Non-recurrent ...	... Rs.	35,000
Total ...	... ,,	35,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—It is proposed to remodel and to make improvements to Jalampura tank which is a small tank situated to Dhaksar in the limits of Jalampura, taluka Mahmedabad, District Kaira. The scheme is found to be very feasible and promising. After completion of the work it will irrigate an additional area of about 310 acres of fertile and khari lands. In addition the bed cultivation is also feasible with rabi season. It has, therefore, been decided to take up the work during the next year. The work is estimated to cost Rs. 81,962 which works to about Rs. 275 per acre. A provision of 35,000 is asked thereto for the year 1956-57.

The plans and estimates have been approved.

ITEM 365. Construction of a percolation tank between Khed Budruk and Lonand on Nari Nalla, Peta Khandala, District North Satara.

Recurrent ...	... Rs.	*Nil.*	Non-recurrent ...	... Rs.	30,000
Total ...	... ,,	30,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—The Khandala Peta of North Satara District receives a very scanty rainfall. As a result of this, the area is often exposed to scarcity conditions, which bring in its fold untold miseries to the people. Provision of more Irrigation Works are necessary to alleviate the grievances of the people. It has therefore been proposed to undertake construction of a tank between Khed Budruk and Lonand on Nari Nalla, Peta Khandala, District North Satara.

The scheme is estimated to cost Rs. 5,00,000 and would irrigate 1,500 acres of land. The cost per acre works out to Rs. 333.

A provision of Rs. 30,000 is required during the year 1956-57.

68, CONSTRUCTION OF IRRIGATION, NAVIGATION AND EMBANKMENT AND DRAINAGE WORKS—A-IRRIGATION WORKS—(2) UNPRODUCTIVE—DEVELOPMENT SCHEMES—SECOND FIVE-YEAR PLAN-I-WORKS.

MINISTER IN CHARGE—SHRI M. M. NAIK-NIMBALKAR.

ITEM 366. Construction of work of percolation tank at Dhumal Dara (Dhumalwadi).

Recurrent ...	... Rs.	*Nil.*	Non-recurrent ...	... Rs.	37,200
Total ...	... ,,	37,200	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—The Phaltan taluka of North Satara District receives scanty rainfall. Consequently the people have to undergo various hardships for want of water for agricultural pruposes. To ease the situation to some extent it is considered necessary to provide irrigation facilities in the area. It has, therefore, been decided to undertake construction of percolation tank at Dhumal Dara (Dhumalwadi). The proposed tank would benefit the wells through percolation of water and would assure additional water supply. It is proposed to finance this scheme from the merged State balances of ex-Phaltan State. A provision of Rs. 37,200 is required during the year 1956-57.

The scheme is estimated to cost Rs. 5,45,000.

ITEM 367. Construction of Ukai Project, District Surat.

Recurrent	.. Rs.	*Nil.*	Non-recurrent	.. Rs.	85,00,000
Total	.. ,,	85,00,000	Ultimate annual recurrent	.. ,,	*Nil.*

Remarks.—The project envisages the construction of reservoir across Tapi river at Ukai in Surat District. A major part of the Lower Tapi Valley Scheme (Stage I) viz., the Kakrapar Weir and Canal Project, is already under execution in the First Five-Year Plan. The Ukai Project benefits the area of Surat District which has a rainfall of 30·52 per cent. and is affected by scarcity. The percentage of irrigated to sown area is 0·4 per cent. The Ukai Project will provide storage to the Kakrapar Canal System, provide electricity to South Gujarat and eastern part of Maharashtra i.e. Districts of Nasik, West Khandesh, East Khandesh and Ahmednagar and serves as flood control work.

The project is estimated to cost Rs. 5,460 lacs and provides irrigation for 3,91,650 acres for mixed crops or 6,14,000 acres for seasonal crops. The project has a storage of 2·66 lakhs M. Cft. The cost per M. Cft. of storage comes to Rs. 1,062 and the cost per acre of irrigated area comes to Rs. 587 for mixed and Rs. 375 for seasonal crops. The plans and estimates of the project are ready and it has been included in the draft Second Five-Year Plan of the Bombay State.

A provision of Rs. 85,00,000 is required during the year 1956-57.

ITEM 368. Improvements to Water Supply Distribution at Badalapur (District Thana).

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	63,000
Total	... ,,	63,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—At present the Badalapur village is getting its water supply from Government owned Badalapur Water Works. The supply main and distribution mains were laid in the year 1924 and galvanised iron pipes were used. These have been badly rusted and there are leakages at many places. Due to increase in population, the sizes of these pipes are also inadequate. It is, therefore, proposed to replace the supply main by a larger size main and also to provide larger size distribution mains. The work has been administratively approved and has been included in the draft Second Five-Year Plan. A provision of Rs. 63,000 gross (Rs. 54,800 net *plus* Rs. 8,200 for Establishment, Tools and Plant and Secretariat charges) is, therefore, required for 1956–57.

ITEM 369. Construction of a masonry weir across the Bhogwati River.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	1,40,000
Total	... ,,	1,40,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—The Intake works for Balinga Water works are situated on the Bhogwati River at a distance of about 3 miles from Kolhapur. About 8 miles down-stream of the works is a masonry weir called the Rajaram weir which is used for Lift irrigation schemes. For the purpose of supplying the required discharge at Balinga there should be at least 2′–0″ of water over the invert of the intake channel. This means that the water level at Rajaram weir should not fall below R. L. 1752·00. This is generally possible from November to May if the needles in the weir, are not removed. However for irrigation facilities sometimes the water level is lowered and this causes the water level at Balinga to drop below R. L. 1750·00. Low level pumping has therefore to be resorted to in order to pump water into intake. Besides the installation of temporary pumps in the river bed itself is always subject to the danger of damage due to sudden floods. An annual expenditure of Rs. 5,000 is required to be incurred on account of low level pumping. It is therefore desirable to construct a weir across the river at Balinga to maintain sufficient and constant head above the invert of the intake channel. This is estimated to cost Rs. 1,46,212 gross (Rs. 1,42,450 net plus Rs. 3,762 for Tools and Plant and Secretariat charges at 2½ per cent.). The scheme has been included in the draft Second Five Year Plan.

A provision of Rs. 1,40,000 gross (Rs. 1,21,800 net plus Rs. 18,200 for Establishment, Tools and Plant and Secretariat charges) is, therefore, required for the year 1956–57.

ITEM 370. Water Supply to ten villages of Kharvai, Juwati, etc. (Badalapur).

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	1,13,000
Total	... ,,	1,13,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—Ten villages viz. Kharvai, Juwati, etc., surrounding Badalapur are without any piped water supply. Necessity of water for these villages is keenly felt especially in hot season. It is therefore proposed to provide piped water supply to these ten villages. The scheme is estimated to cost Rs. 98,544 net. The scheme has been included in the draft Second Five Year Plan.

A provision of Rs. 1,13,000 gross (Rs. 98,200 net plus Rs. 14,800 for Establishment, Tools and Plant and Secretariat charges) is, therefore, required for the year 1956–57.

ITEM 371. Improvements to Phaltan Water Works—Stage II.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	2,61,900
Total	... ,,	2,61,900	Ultimate annual recurrent	,,	*Nil.*

Remarks.—The Head works of the Phaltan water works are situated at Nirgudi. Immediate improvements consisting of repairs to weir, curtain wall, desilting etc. were sanctioned in September 1952 and are in progress. It was however found on inspection that due to long usage, the side soil of the gallery was giving way and the arches are also not quite stable. Thus the gallery will require constant attention to maintain it properly and remove debris, etc. that may fall from time to time. This may stop water supply to town. It is therefore decided to carry out major protection work for the water works. The scheme envisages providing porous percolation pipes in existing gallery and filling the space left over by means of gravel. A porous pipe line will also be laid in the eastern galleries. To facilitate the work during construction and lowering of porous pipes, three additional 8 feet diameter inspection walls have been proposed in the gallery system. The scheme also provides *for* the construction of store-*cum*-chowkidar's quarters. It is estimated to cost Rs. 3,37,008 net. The work will be financed from the merged State balances of the Phaltan State. A provision of Rs. 2,61,900 gross (Rs. 2,27,800 net plus Rs. 34,100 for Establishment, Tools and Plant and Secretariat charges) is, therefore, required for the year 1956–57.

70, CAPITAL OUTLAY ON IMPROVEMENTS OF PUBLIC HEALTH—contd.

MINISTER IN CHARGE—SHRI M. M. NAIK-NIMBALKAR.

ITEM 372. Rakaskop Water Supply Scheme for Belgaum.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	10,00,000
Total	...	10,00,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—There is an acute scarcity of water in Belgaum. Belgaum Water Supply Scheme has, therefore, been prepared. It is also called as Rakaskop Reservoir Project. The project has the Markandeya River as the source of water supply. A storage of about 1,000 M. cft. will be built up by construction of an earthen Dam on the river near Rakaskop village and the storage that will be made available will be used for supply of water to Belgaum. The scheme is estimated to cost Rs. 1,46,08,400. The scheme has been included in the draft Second Five Year Plan. A provision of Rs. 10,00,000 gross (Rs. 8,69,600 net *plus* Rs. 1,30,400 for Establishment, Tools and Plant and Secretariat charges) is, therefore, required, for the year 1956–57.

	Total	...	15,77,900

72, CAPITAL OUTLAY ON INDUSTRIAL DEVELOPMENT.

MINISTER IN CHARGE—SHRI MORARJI R. DESAI.

ITEM 373. Capital Contribution to the Bombay State Road Transport Corporation for 1956–57.

Recurrent	... Rs. *Nil.*	Non-recurrent	...Rs. 74,00,000
Total	... „ 74,00,000	Ultimate annual recurrent	„ .....

Remarks.—The Scheme of Nationalisation of Passenger Transport in so far as it relates to taking over of existing routes in operation is expected to be completed by March 1956. During the Second Five Year Plan period, extension of transport services on additional routes in various Districts will be necessary due to various reasons viz., increase in population, improvement of roads and construction of new roads and travel-more habit of the public. The increase in traffic is estimated at 5 per cent. every year, and accordingly the State Road Transport Corporation will be required to increase its fleet for additional Schedules by about 150 every year, which means that 781 additional vehicles will be required during the next five year period. The total cost of 781 vehicles at the rate of Rs. 38,500 per vehicle will come to Rs. 300·70 lakhs.

2. The construction programme for this scheme will not be completed in the First Five Year Plan due to difficulties in land acquisition proceedings and also due to paucity of funds. Some portion of construction programme will therefore be carried out in the Second Five Year Plan. The programme will cover 4 workshops, 29 depots, 74 garages, 143 bus stations, 15 divisional head quarters offices, 3 depots for the experimental scheme of goods transport and construction of a few welfare centres and other structures. The total cost of these works is estimated to be Rs. 210·57 lakhs.

3. It is also proposed by the Corporation to construct residential quarters for housing the lower paid staff, i.e. some class IV and class III employees, not coming within the scope of the Subsidised Industrial Housing Scheme of the Central Government. It is proposed to build about 80 tenements at a cost of Rs. 5,000 each for Class III employees. Total cost is estimated at Rs. 41·08 lakhs.

4. The total cost of Canadian vehicles and other equipment received under the Colombo Aid Plan together with customs duty initially borne by the Union Government is to be repaid by the Corporation to the Union Government of which the amount excluding that on customs duty is to be repaid in 9 years from 1956–57 to 1964–65. The total loan payable comes to Rs. 350·00 lakhs out of which Rs. 195 lakhs will have to be paid to the Union Government by 1961. Similarly, the loan of Rs. 88·34 lakhs advanced by State Government to finance the expenditure incurred by State Road Transport Corporation for absorbing the Canadian Aid is also to be repaid in 5 instalments at the rate of Rs. 18 lakhs each from 1955–56. During the Second Plan perid an amount of Rs. 72·00 lakhs will therefore be required. Total estimated requirements on account of re-payment of loans to Union and State Government during the plan period, will thus come to Rs. 247 lakhs of which only an amount of Rs. 43·28 lakhs would be required for repayment of the first equated instalments of the loans during 1956–57.

5. The present fleet of petrol vehicles owned by the State Transport is proposed to be replaced by diesel vehicles when they come up for scrapping. However, while making provision in the depreciation fund, the depreciation credits for petrol vehicles in operation are calculated on the basis of the original cost of petrol vehicles. This means that at the time of replacement of these petrol vehicles, funds available will be equal to the cost of the petrol vehicles replaceable whereas these will have to be replaced by new diesel vehicles whose cost is nearly two-and-a-half times that of petrol vehicles. The conversion of this part of the fleet from petrol to diesel involves an extra capital cost of Rs. 22,680 per vehicle. This extra expenditure required for replacing petrol vehicles will have to be provided for as extra capital. Some of the petrol vehicles will have already been replaced before the end of the First Five Year Plan and a number of them will have to be replaced during the Second Five Year Plan. Total cost required to be incurred in this respect during the Second Five Year Plan is estimated at Rs. 90·65 lakhs.

The total cost of the Scheme is Rs. 890·00 lakhs out of which an amount of Rs. 300 lakhs will be ploughed back by the Bombay State Road Transport Corporation out of its own funds. The balance of the cost will be shared by the State and Central Government as shown below :—

	Rs. (in lakhs.)	
State Government	395·00	(Capital investment).
Central Government	195·00	„ „
Total ...	590·00	„ „

On this consideration, the amount required by the Corporation during the first year i.e. 1956–57 of the Plan is estimated at Rs. 171 lakhs of which Rs. 60 lakhs will be met by the Corporation from its own resources and the balance of Rs. 111 lakhs will have to be provided for by the two participating Governments. Accordingly, the share of the State Government for 1956–57 will be Rs. 74 lakhs approximately. Government proposes to sanction this amount to the Corporation as capital contribution for 1956-57. The Central Government will be approached for sanction of their share of Rs. 37 lakhs for 1956–57.

72, CAPITAL OUTLAY ON INDUSTRIAL DEVELOPMENT—contd.

MINISTER IN CHARGE—DR. JIVRAJ N. MEHTA.

ITEM 374. Establishment of Trading Estates.

Recurring	... Rs. *Nil.*	Non-recurring	... Rs. 2,00,000
Total	... ,, 2,00,000	Ultimate annual recurring	,, ...

Remarks.—In accordance with the industrial policy of Government, it was decided to select a number of areas in the State, to begin with which had adequate supply of labour, raw materials and other pre-requisites for establishment of Trading Estates. Government of India, in the Ministry of Commerce and Industry have also expressed their keenness to establish such estates in the different parts of the country mainly to assist the development of small scale industries. Such estates can be either Government sponsored institutions managed by autonomous corporations in which industries, banks, etc., can participate or alternatively they are to be established by private institutions, co-operative societies receiving aid from Government in the form of finance, other facilities etc., preference being given to co-operative enterprise.

2. Government had appointed a Special Officer in 1948 to suggest suitable sites for location of such estates. As, however, it was found that the cost of development on this account would be considerably large if Government undertook the establishment of such estates, it was decided that instead of proceeding with the scheme as state enterprise, private parties may be given all reasonable facilities including loans. A provision of Rs. 90 lakhs was accordingly made in the First Five Year Plan. Facilities for acquisition of land etc., were made available to the Belgaum Manufacturers' Co-operative Building Association, Ltd. A loan of Rs. 3 lakhs was also given to the Poona Municipal Corporation to develop an estate at Hadapsar. Government has also spent about Rs. 70,000 for development of Kolhapur Industrial Zone and have made a provision of Rs. 72,000 for further development of the zone during 1955–56.

3. It is now proposed to take positive steps and to establish such estates at the following sites or any other sites as may be found convenient :—

(1) Greater Bombay	...	2	(5) Malegaon	...	1
(2) Atale (near Kalyan)	...	1	(6) Mehsana	...	1
(3) Karad (Koyna area)	...	1	(7) Hubli	...	1
(4) Baroda	...	1	(8) Angol (Belgaum)	...	1
		5	Plus		4
			= Total	...	9

4. The schemes involve considerable preparatory work, viz. selection of sites, study of facilities available, reaction of the local public, correspondence with various Departments etc. and other organisational matters before starting the work. It is, therefore, necessary to provide necessary staff for this purpose at Headquarters in addition to the staff which may be required in respect of each estate separately.

5. It is accordingly proposed to make the following provisions in this connection during the Second Five-Year Plan period :—

	Rs.
(*a*) Establishment charges of Head Quarter Staff	88,300
(*b*) Establishment charges for staff at the Estates	3,44,000
(*c*) Development Cost	71,63,000
(*d*) Loans	10,00,000
Total ...	85,95,300

6. The intention of Government is to undertake development of the various sites immediately. This would involve expenditure on such items as filling up of land, laying out of plots, laying of pipe lines, construction of Roads, etc. It is estimated that the expenditure during 1956–57 will be Rs. 2 lakhs which may be sanctioned. It is proposed to aproach the Government of India to grant a loan to this Government to the extent of 50 p. c. of total cost.

72, CAPITAL OUTLAY ON INDUSTRIAL DEVELOPMENT—contd.

MINISTER IN CHARGE—DR. JIVRAJ N. MEHTA.

ITEM 375. Establishment of an Industrial Estate at Atale, near Kalyan.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 20,00,000
Total	... ,, 20,00,000	Ultimate annual recurrent	... Rs. .....

Remarks.—In accordance with the industrial policy announced by Government in 1948, it is proposed to establish trading estates in this State. The main idea of the scheme is to select a number of areas in the State and to develop them by clearing and laying out the land, providing certain essential facilities like water, drainage, roads, power, etc., so as to make readily available to the industrialists developed plots. The area will be divided into suitable sites which may be given to parties desirous of setting up such factories. It is expected that the establishment of trading estates will facilitate rapid growth of industries as also make for the necessary dispersal in a quick manner. These estates will also provide adequate employment facilities to a number of persons.

With the accent on industrial development during the Second Five Year Plan and more particularly, the development of heavy and basic industries, such as chemicals, dyestuffs, rayon, etc., the area near-about Kalyan has potential possibilities for establishment of chemical industries in the near future. Inquiries made with the industrialists, reveal that a large number of concerns are anxious to establish new industries in this area provided Government afford necessary facilities in developing the site initially. As the industries to be developed are of heavy and basic nature, concerns are likely to require large areas. It is, therefore, proposed to acquire immediately about 2,500 acres of land near Atale, north-east of Mohone (Kalyan) where a number of such concerns can come up. It is bounded on the south by the railway line and on the north by the Kalu river which is suitable for the discharge of effluent. Because of its proximity to Bombay and being served by the main railway line, private industrialists are willing, as stated above, to establish factories in this area. The approximate cost of acquisition will be Rs. 17 lakhs at the rate of Rs. 680 per acre. The idea is to develop the land and allot the same to the industries proposed to be established in that area and to recover cost from these industries together with the development charges.

In addition to the provision of Rs. 17 lakhs proposed above, a provision of Rs. 1 lakh will be necessary for acquisition of the bridge over the Ulhas river and the road which belongs to Sonawalas. Similarly a provision of about Rs. 2 lakhs would be required for the purpose of constructing a road from Bhivandi bridge up to the Murbar Road touching the Industrial Estate. Thus a total provision of Rs. 20 lakhs will be required during the year 1956–57. No provision is being made for the construction of roads in the Industrial Estate itself and for the laying of the necessary pipe lines, etc., as it would not be possible to undertake this work during the year 1956–57. It is proposed to approach the Government of India to grant loan to this Government to the extent of 50 per cent. of the total cost.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 376. Organisation of Processing Societies.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 4,00,000
Total	... ,, 4,00,000	Ultimate annual recurrent	,, *Nil.*

Remarks.—As recommended by the All India Rural Credit Survey Committee, it is proposed to organise co operative processing societies. For this it is necessary to give financial assistance to such soci ties by way of participation in the share capital to the extent of 50 per cent. As such societies are required to incur heavy initial expenditure for purchase of machinery, installation of plants, etc. During 1956–57 it is proposed to organise two ginning societies in cotton growing areas. This will involve a cost of Rs. 4,00,000 to Government by way of participation in their share capital.

A provision of Rs. 4,00,000 for 1956–57 is therefore proposed.

ITEM 377. Government contribution to the Share Capital of the Co-operative Farming Societies.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 1,80,000
Total	... ,, 1,80,000	Ultimate annual recurrent	,, *Nil.*

Remarks.—The scheme for the organisation of Co-operative Farming Societies has been in operation since it was sanctioned as Post-War Reconstruction Scheme No. 65 in the year 1949. The target envisaged in that Scheme was reached much earlier due to encouraging response from the agriculturists and the efforts made by the special staff sanctioned for the scheme. The scheme was later includedin the First Five-Year Plan. During the First Five-Year Plan efforts were made for consolidation of the farming societies already registered, rather than for expansion of the scheme.

72, CAPITAL OUTLAY ON INDUSTRIAL DEVELOPMENT—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

2. Having regard to the possibilities of organising new farming societies on Government waste lands which under the existing orders are being granted to backward class landless persons and also having regard to the desirability of organising joint farming societies on occupied lands to correct the defects of uneconomic peasant proprietorship, it is proposed to undertake further phase of expansion of the farming scheme during the Second Five-Year Plan period. It is proposed to organise in all 100 new societies during the Second Five-Year Plan period. One aspect of the schemew ould be to endeavour to settle the new grantees of Government waste lands into farming co-operatives which would be assisted financially and technically. The other aspects of the scheme would be to encourage by means of suitable assistance both financial and otherwise, the organisation of Co-operative Joint Farming Societies of persons whose holdings are small and who would benefit by increasing the unit of cultivation.

3. The details of financial assistance to be made available to the societies mentioned in paragraph two above have been indicated in the new item put up under the head "42-Co-operation" for subsidies to the Farming Societies and for creation of staff for the farming scheme. Hitherto loans have been given to the farming societies as contribution to their share capital in order to enable them to raise bank finance for production purposes. This assistance is proposed to be continued not as loan, but as actual participation in the share capital. This is considered necessary in view of the fact that a loan being a first charge for the benefit of Government, the credit agency gets no security what-so-ever for loan advanced by it to a society which has received contribution from Government in the form of loan. Actual participation of Government in the share capital of a society provides it with funds which it can call its own and use it as basis for raising additional finance. It is proposed to contribute towards share capital at Rs. 4,000 per society. It is expected that in addition to the 100 farming societies proposed to be organised during the period of the Second Five Year Plan, about 40 societies already organised would approach Government for contribution to their share capital during the Second Five-Year Plan period and an allocation of Rs. 5·60 lakhs has, therefore, been made in the Plan for contribution to the share capital of 140 societies. It is expected that about 45 societies would approach Government for contribution to their share capital during 1956-57 and a provision of Rs. 1,80,000 is, therefore, proposed to be made for the purpose in the budget of that year.

ITEM 378. Development of Co-operative Marketing.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 4,70,000
Total	... „ 4,70,000	Ultimate annual recurrent	„ .....

Remarks.—As recommended by the All India Rural Credit Survey Committee and as envisaged under the Scheme for development of Co-operative Marketing in the Second Five-Year Plan it is proposed that each general type and cotton sale society should have minimum share capital of Rs. 50,000 out of which 51 per cent. will be contributed by Government. The share capital of each Fruit Sale Society is proposed to be Rs. 20,000 out of which Rs. 10,000 will have to be contributed by Government. The share capital of Bombay State Co-operative Marketing Society is proposed to be Rs. 15 lakhs out of which 51 per cent. is to be contributed by Government. The total amount to be contributed by Government during the Second Five-Year Plan towards share capital of new Societies and towards the share capital of existing societies with a view to having optimum size of share capital is Rs. 41 lakhs.

During 1956-57 it is proposed to organise 8 new Marketing Societies and it is proposed to contribute to the extent of Rs. 4,70,000 towards the share capital of these new Societies as well as to some of the existing Societies.

ITEM 379. Participation in the share capital of the State Warehousing Company.

Recurrent	... Rs. *Nil.*	... Non-recurrent	... Rs. 10,00,000
Total	... „ 10,00,000	... Ultimate annual recurrent	„ .....

Remarks.—The All India Rural Credit Survey Committee has recommended establishment of warehouses through (1) All India Warehousing Corporation, (2) State Warehousing Company and (3) Co-operative Societies at important places in order to provide facilities to the grower for storage of agricultural produce and to make available to the growers access to cheap source of credit and in order to prevent the growers from making distress sale when they are in need of finance. It is, therefore, proposed to entrust the work of construction of warehouses at places which are of commercial importance to the All India Warehousing Corporation and to entrust the work of construction of warehouses at minor marketing centres to the State Warehousing Company which is proposed to be established accordingly. The scheme is included in the Second Five-Year Plan and consists in the participation in the paid up share capital of the proposed Company. A sum of Rs. 50 lakhs at a rate of Rs. 10 lakhs per year will be invested in the share capital of the Company during the Second Five-Year Plan. It is, therefore, proposed to make a provision of Rs. 10,00,000 for the purposes during the financial year 1956-57.

72, CAPITAL OUTLAY ON INDUSTRIAL DEVELOPMENT—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 380. Contribution to the share capital of Co-operative Sugar Factories.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 40,00,000
Total	... ,, 40,00,000	Ultimate annual recurrent	... ,, ...

Remarks.—Organisation of Sugar Factories on a co-operative basis has been a recent development in this State and represents a pioneer effort by the sugarcane growers in the field of processing of agricultural produce. One such factory known as Pravara Sahakari Sakhar Karkhana, Ltd., was established in Ahmednagar District in the year 1948 and was followed by registration of two more, one at Kopargaon in the same district and the other at Phaltan in North Satara District. With the announcement of the Government of India to have more factories to augment production of sugar with the assistance to be made available by them in the form of loan, it was proposed to form more Co-operative Sugar Factories in the State. Accordingly the registration of the factories is taken up and at present there are 14 sugar factories which are registered on co-operative basis in the Bombay State. About 10 of these factories would receive contribution to their share capital at Rs. 10 lakhs each from the Government of India loan during 1955-56.

2. The pattern of raising the block capital required for these units has been proposed to be made by a loan of Rs. 45 lakhs by the Industrial Finance Corporation of India and Rs. 10 lakhs as share contribution by the State Government and the balance to be raised by contribution from the members of the factory. It is expected that during the Second Five Year Plan, it will be in the first two years of the plan that assistance by way of share capital will have to be given to five more units.

3. Out of the 5 units to be assisted with share capital participation during the period of Second Five Year Plan it is expected that four will come up for assistance during 1956–57. A provision of Rs. 40 lakhs is accordingly proposed to be made for the purpose in the 1956-57 budget.

ITEM 381. Scheme for contribution to the Share Capital of Industrial Co-operative Societies including District Industrial Co-operative Associations.

Recurrent	.. Rs. *Nil.*	Non-recurrent	.. Rs. 9,25,000
Total	.. ,, 9,25,000	Ultimate annual recurrent	.. ,, ...

Remarks.—State partnership has been accepted in principle in the case of Agricultural Credit and Processing Societies in accordance with the recommendations of the Committee of Direction appointed by the Reserve Bank of India. Active participation in the capital and management structure of co-operative institutions by contribution of 51 per cent. to the total share capital of such institutions has been envisaged. This principle needs to be accepted in the case of Industrial Co-operative Societies also at all levels. Contribution to the share capital of the industrial co-operatives is all the more necessary in view of the fact that the membership of these institutions consists of poor artisans with meagre resources. Industrial co-operatives need to be strengthened considerably with a view to enabling them to carry on their activities successfully. Not only are the resources of the primary industrial co-operatives meagre, but even the resources of the federal institutions such as District Industrial Co-operative Associations and District Industrial Co-operative Banks are meagre in view of the fact that membership of such institutions also consists of individual artisans as well as primary industrial co-operatives who are not able to contribute much to the share capital. Unless, therefore, Government comes forth with a liberal contribution to the share capital of industrial co-operatives at all levels, it is not possible for the industrial co-operatives to make much headway in the right direction and stabilise their position.

2. A scheme has, therefore, been included in the Second Five-Year Plan for contribution to the share capital of some of the existing as well as new industrial co-operatives which will be organised in the Second Five-Year Plan. The details of the scheme are given below :—

3. On 30th June 1954 there were 1,393 industrial co-operatives with a share capital of Rs. 66,22,373. It is observed that on an average 70 industrial co-operatives are organised every year with a share capital of Rs. 50,000. On this basis, it can be assumed that by the end of the year 1955–56, there would be 1,530 industrial co-operatives with a share capital of Rs. 67,20,000. In the 1st year of the Plan it is, therefore, necessary to contribute to the share capital of 1,530 existing industrial co-operatives an amount of Rs. 68,54,000 so as to make the contribution of Government equal to 51 per cent. of the total share capital of the industrial co-operatives. It is, however, proposed to contribute an amount of Rs. 8,11,500 to the share capital of some of the societies in the first year of the Plan. Secondly, it is proposed to organise one new District Industrial Co-operative Association during the 1st year of the Plan period. The minimum share capital which is required to be collected in case of District Industrial Co-operative Association is Rs. 5,000 each. Government will have therefore to contribute an amount of Rs. 5,100 to the share capital of the District Industrial Co-operative Association. Thirdly, it is proposed to organise 5 forest labourers' societies and 3 labourers' co-operative societies in the 1st year of the plan and to contribute an amount of Rs. 3,000 each to the share capital of these societies. Thus an amount of Rs. 24,000 would be contributed to the share capital of forest labourers' societies and labourers' co-operative societies which would be organised during the 1st year of the Plan. Further on an average about 70 industrial co-operatives including handloom weavers societies are organised per year. The minimum share capital that is generally required to be collected in the case of primary industrial co-operative societies is Rs. 5,000 each. Government will contribute Rs. 5,100 to the share capital of each of the 14 new

industrial co-operatives. Thus an amount of Rs. 71,400 will have to be contributed to the share capital of 14 industrial co-operatives which would be organised in the 1st year of the plan period. It is also proposed to contribute an amount of Rs. 13,000 to the share capital of industrial co-operatives in backward class areas in the 1st year of the plan. Thus in all an amount of Rs. 9,25,000 would be contributed to the share capital of existing and new industrial co-operatives in the first year of the plan.

It is, therefore, necessary to make provision of Rs. 9,25,000 in the budget for the year 1956-57 of which 50 per cent. would be contributed by the Government of India.

Receipts in the form of dividend on shares will accrue to Government in 1957-58. The maximum dividend that can be given under the Bombay Co-operative Societies Act is 6¼ per cent. But assuming that only 40 per cent. of all the Industrial Co-operative Societies including Banks, Associations, Weavers' Societies, other types of societies, etc., declare dividend at the average rate of 3⅛ per cent. the total receipts in the year 1957-58 would amount to Rs. 11,600.

ITEM 382. Scheme for contribution to the share capital of Co-operative Cattle breeding cum farming Societies and Multi-Purpose Societies organised for the improvement of Nomadic Professional Cattle Breeders.

Recurrent	.. Rs. *Nil.*	Non recurrent	.. Rs. 1,64,000
Total	.. ,, 1,64,000	Ultimate annual recurrent	.. ,, ...

Remarks.—A special scheme for Ahmedabad, Mehsana and Kaira districts for Rehabilitation of Rabari and Bharwads, who are professional Cattle breeders has been sanctioned by Government in the current year 1955-56 for a period of one year in the first instance and the special staff has also been appointed for the implementation of that scheme. For the year 1955-56, organisation and grant of financial assistance to 30 Societies was envisaged under the Scheme. But it now appears that it may be possible to organise only about 22 Societies under the Scheme during 1955-56. There are about 3 lakhs of Rabaris and Bharwads who are essentially professional cattle breeders in Gujarat area. There are also some other professional cattle breeders in other parts of the State. The organisation of 22 Cattle breeding-cum-farming Societies will have only touched the fringe of the problem that exists in respect of these people. It is, therefore, proposed to continue the Scheme during the Second Five-Year Plan and to make it applicable to all the nomadic professional cattle breeders in the State. It is proposed to organise 56 more Societies under the scheme during the period of Second Five-Year Plan.

2. The scales of financial assistance admissible to the Societies of nomadic professional cattle breeders are proposed to be revised for the Second Five-Year Plan, in the light of the experience gained. The details of financial assistance to be made available to the Societies have been indicated in the new item put up under the budget head '42—Co-operation' for grant of subsidies to the Societies and creation of staff for the implementations of the scheme. An important modification proposed in the existing scheme is that the contribution towards share capital will be given hereafter not as loan but as actual Government participation in the share capital of the Society as recommended by the All India Rural Credit Survey Committee in its report. It is also proposed to organise about 40 Multi-Purpose Societies for the benefit of nomadic professional cattle breeders and sanction a contribution of Rs. 10,000 to the share capital of each of these societies, during the Second Five-Year Plan period. A total provision of Rs. 6,24,000 has been admitted in the Second Five-Year Plan for Government Contribution to the share capital of Co-operative Cattle-breeding-cum-farming Societies and Multi-Purpose Societies organised for improvement of Nomadic Professional Cattle-Breeders out of which a provision of Rs. 1,64,000 is proposed to be made in the 1956-57 budget.

ITEM 383. Scheme for organisation and grant of financial assistance to Forest Labourers' Co-operative Societies.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 1,98,000
Total	... ,, 1,98,000	Ultimate annual recurrent	... ,, ...

Remarks.—The number of forest labourers' societies which was only 11 as on 30th June 1948 has increased to 143 as on 30th September 1955. Further with a view to organise forest labourers into co-operative societies and to arrange exploitation of forest produce, its marketing, etc., through them, it is proposed to organise 125 new forest labourers' societies in Bombay State during the Second Five-Year Plan Period, at the rate of 25 societies per year, of which 15 will be in the scheduled areas of this State and the remaining 10 societies would be organised in the non-scheduled areas of this State per year. Experience has shown that the main reason in the unsuccessful working of some of the forest labourers societies is that they were not in a position to secure the services of efficient hands because of lack of resources at their disposal. It is, therefore, proposed to assist the new as well as some of the existing forest labourers' societies, by way of contribution to their share capital at the rate of Rs. 3,000 per society, by way of grant-in-aid for management expenses at the rate of Rs. 1,200 per year for the first 2 years of the working of the new forest labourers' societies which would be organised during the plan period, and by way

of grant-in-aid of Rs. 1,500 per society for welfare activities for the first three years to the new forest a bourers' societies which would be organised during the Plan period. The details of the number of societies hat would be assisted and the amounts of assistance to be given during each year of the Second Five-Year Plan are given in the statement attached.

2. Thus the total expenditure under the scheme for the five years would amount to Rs. 12,18,000 whole of which will be borne by the Central Government.

3. It may thus be observed that during the year 1956–57 an amount of Rs. 2,65,500 would be spent under this scheme. A provision of Rs. 2,65,500 may, therefore, be made in the budget for 1956–57.

4. The provision of Rs. 67,500 has been proposed under "43, Industries—B-Cottage Industries", and a provision of Rs. 1,98,000 is required under this head.

Statement showing the number of societies that would be assisted and the amount of assistance to be given during each year of the Second Five-Year Plan.

ITEM 384. Bombay Co-operative Housing Finance Society Limited, Bombay—Capital contribution to—

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 8,00,000
Total	... ,, 8,00,000	Ultimate annual recurrent	... .

Remarks.—The Bombay Co-operative Housing Finance Society Limited, Bombay, has been registered in March 1952 to finance the Housing Societies in the State as per its bylaws. Government has undertaken to contribute to the share capital of the society up to Rs. 50 lakhs, but not exceeding that collected by the Society from its members and it has also guaranteed the repayment of the share capital of the society to members to the extent of Rs. 1 crore. Government has also guaranteed payment of annual dividend to its shareholders at the rate of 3½ per cent. It has been originally envisaged that this entire amount of Rs. 50 lakhs would be contributed to the share capital of the society by the end of the First Five-Year Plan. But since Government contributions should not exceed that collected by the society from its members, it may not be possible to contribute this entire amount of Rs. 50 lakhs to the share capital of the society before the close of the First Five-Year Plan, since the collection of share capital by

the society from members is not likely to reach the target of Rs. 50 lakhs, before the close of the First Five-Year Plan. Up to 31st March 1955, the society has collected Rs. 33,61,000 from members as share capital, and Government has contributed an equal amount to the share capital of the society. Before the end of the year 1955-56, the society may collect Rs. 39,000 more as share capital from members and Government may also contribute an equal amount as share capital, raising the total Government contributions to the share capital of the society to Rs. 34 lakhs by the end of the First Five-Year Plan. It will, therefore, be necessary to carry over Rs. 16 lakhs of this liability for the Second Plan period.

2. The Bombay Co-operative Housing Finance Society is the only society of its type in the State. Out of about 1,000 Housing Societies in the State, about 500 societies are not registered under any Special Schemes of Government and the Low Income Group Housing Scheme recently sanctioned by Government will not be able to meet the needs of all these societies. The Bombay Co-operative Housing Finance Society is, therefore, necessary to finance the remaining Housing Societies and it is, therefore, equally necessary to fulfil this commitment of Government of contributing Rs. 50 lakhs towards the share capital of the society, during the Second Plan period. The society has so far advanced Rs. 49,70,000 as loans to the Co-operative Housing Societies. The Society is making great efforts now to increase collection of share capital from members, and as such, as Government is to contribute an equal amount to the share capital of the society (but not exceeding Rs. 50 lakhs in aggregate), it is expected that Rs. 8 lakhs will be required in this respect for 1956-57, and the remaining Rs. 8 lakhs during 1957-58.

ITEM 385. Extension of Agricultural Credit: Contribution to the share capital of Bombay Sta Co-operative Bank, Central Co-operative Banks, etc.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	47,33,200
Total ...	... ,,	47,33,200	Ultimate annual recurrent	... ,,	.....

Remarks.—In accordance with the recommendations of the Committee of Direction it is proposed that during the period of the Second Five Year Plan all types of rural finance should be considerably increased. Thus short term finance would be increased to about to Rs. 35 crores medium term finance to Rs. 7 crores long term to about Rs. 4 crores and the marketing finance to about to Rs. 10 crores, by the end of 1960-61. These are big targets and in order that the various credit agencies namely (1) the Bombay State Co-operative Bank Ltd., (2) the Central Banks, (3) the primary credit societies and (4) the Apex Land Mortgage Bank may be able to distribute the different kinds of finance as indicated above, it will be necessary to strengthen the share capital structure of these institutions so as to increase their borrowing capacity. The primary societies will have to distribute short term finance of Rs. 35 crores at the end of Second Five Year Plan and medium term finance to the extent of Rs. 7 crores. It is roughly estimated that for this purpose they should have owned capital to the extent of about Rs 10·5 crores. Their present share capital is Rs. 382 lakhs and Reserve Fund is 195 lakhs altogether totaling to Rs. 577 lakhs. It is expected that as a result of further collection of share capital from members and further additions to Reserve Fund this figure may reach Rs. 8 crores in 1960-61. It will, therefore, be necessary for Government to contribute Rs. 2·50 crores to the share capital of Primary credit societies. The total contribution towards share capital of the primary societies for the year 1956-57 would be Rs. 19,33,200

The Apex Bank and Central financing Agencies will have to provide large amounts to primary societies for distribution to agriculturists on account of short and medium term loans. As in case of primary societies, the Government contribution to the share capital of these institutions would also be necessary to augment their owned resources in order to increase their borrowing capacity so as to enable them to fulfil their task of providing the necessary finance to primaries during the Second Five Year Plan. The total contribution on this account to be given by Government during the Plan is proposed to be as follows :—

	Rs.
Apex Bank	24 lakhs.
Central Financing Agencies	100 lakhs.

The provision for the year 1956-57 would be Rs. 5 lakhs in case of the Apex Bank and Rs. 17 lakhs in case of the Central Financing Agencies. For similar reasons, Government will have to contribute to the share capital of the Apex Land Mortgage Bank to the extent of Rs. 25 lakhs during the five years of the plan. The cost on this account for 1956-57 would be Rs. 6 lakhs. The total for 1956-57 for different institutions, as indicated above, would be as follows :—

	Rs.
(1) Bombay State Co-operative Bank Ltd.	5,00,000
(2) Central Co-operative Banks	17,00,000
(3) Apex Land Mortgage Bank	6,00,000
(4) Primary Societies	19,33,200
Total ...	47,33,200

An equivalent amount i.e. Rs. 47,33,200 will be received from the R. B. of India by way of a loan.

72. CAPITAL OUTLAY ON INDUSTRIAL DEVELOPMENT.—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 386. Establishment of Co-operative Spinning Mill in Dharwar District.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 4,00,000
Total	... ,, 4,00,000	Ultimate annual recurrent	... ,, *Nil.*

Remarks.—In the four districts of Karnatak, Dharwar, Karwar, Belgaum and Bijapur, there are about 30 main weaving centres with about 75,000 handlooms. They usually require yarn of 20–40 counts. Two Spinning Mills at Gadag and Hubli, which were so far the main sources of yarn supply to the handloom weavers, have ceased working with the result that the weavers of this region are experiencing hardship in procuring their yarn requirements. This region is rich in raw materials particularly cotton, required for the Spinning Mill. With a view to ensure adequate supply of yarn to weavers at reasonable prices the Karnatak Central Co-operative Bank Ltd., Dharwar, has proposed to start the Karnatak Co-operative Spinning Mill in Dharwar District. The sponsors have already collected Rs. 7 to 8 lakhs and they have sought assistance of Government. To encourage co-operative movement in this new field and to help the handloom weavers, it is proposed to contribute Rs. 4 lakhs to the share capital of the proposed mill. The mill is expected to start functioning during the next financial year.

A Scheme for organisation of co-operative societies for processing of agricultural commodities (other than sugar factories) consisting Rs. 49·50 lakhs during the plan period has been included in the Second Five Year Plan. The Scheme contemplates grant of financial assistance *inter alia* to co-operative cotton ginning and pressing societies. The financial assistance in the form of contribution to share capital of the proposed Karnatak Co-operative Spinning Mill is therefore proposed to be met from the provision made for this scheme.

A provision of Rs. 4,00,000 is therefore required to be made in the budget for 1956-57.

ITEM 387. Scheme for organisation of Regional and District Industrial Co-operative Banks.

Recurrent ...	... Rs. *Nil.*	Non-recurrent ...	... Rs. 1,00,000
Total ...	... ,, 1,00,000	Ultimate annual recurrent ...	,, *Nil.*

Remarks.—The State Co-operative Conference held at Sholapur in April 1955, considered the question of Evaluation of Industrial Co-operatives and their place in the National Economy. It made important recommendations in regard to the organisation of industrial co-operative banks and grant of financial assistance to them. The recommendations related to desirability of setting up separate industrial co-operative banks, regional and district, working as Central Financing Agencies for industrial co-operatives and also for financing individuals, the implementation of the principle of State partnership by Government taking up substantial amount of shares so as to strengthen adequately the capital structure of district and regional industrial co-operative banks.

2. In view of these recommendations, a scheme for organisation of four more regional or district industrial co-operative banks, and contribution to the share capital of the four industrial co-operative banks already registered, has been included in the Second Five Year Plan. An expenditure of Rs. 2,28,000 is proposed to be incurred during the plan period. Under this scheme, it is proposed to contribute Rs. 25,000 to the share capital of each of the four new banks proposed to be organised during the plan period and contribute at Rs. 20,000 to the four existing banks as Government has already contributed Rs. 5,000 to the Share Capital of these banks.

3. During the current year, one of the four banks proposed to be organised during the plan period has already been registered (viz. District Industrial Co-operative Bank at Hubli) and an amount of Rs. 5,000 has been contributed towards its Share Capital. In accordance with the scheme, it is proposed to contribute a further amount of Rs. 20,000 to this Bank and to the other existing banks. An amount of Rs. 1 lakh at Rs. 20,000 to each of five existing banks) is therefore, required. It is therefore, proposed that a provision of Rs. 1 lakh be made in the budget for 1956-57.

ITEM 388.—Implementation of pilot scheme in districts of Broach, East Khandesh and Dharwar: Contribution to share capital of Multipurpose Societies, Central financing Agencies etc.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 22,50,000
Total ...	... ,, 22,50,000	Ultimate Annual Recurrent...	,, *Nil.*

Remarks.—Government has already sanctioned pilot schemes in the districts of Broach, East Khandesh and Dharwar with a view to attempting intensive development of co-operative movement in its various aspects with particular emphasis on extension of agricultural credit and co-operative marketing of agricultural produce. It is proposed to continue the scheme in the three districts with certain modifications.

72, CAPITAL OUTLAY ON INDUSTRIAL DEVELOPMENT—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

Multipurpose societies

The scheme already sanctioned envisages Government contribution to the share capital of multi-purpose societies equal to the amount collected by the societies subject to a maximum of Rs.10,000 per society. On this basis an amount of Rs. 10,10,000 will be required during 1956-57.

Central Financing Agencies

Only the East Khandesh District Central Co-operative Bank, Limited, Jalgaon is expected to need and come up for Government contribution to its share capital during the next year. A provision of Rs. 4,00,000 may be made for the purpose in the next years estimates

Marketing Co-operative Societies

The principal that Government should contribute to the share capital of Co-operative Marketing Societies has been accepted. It is proposed that Rs.25,000 may be taken as an average for each society on the basis of 50 per cent. of the total share capital of Rs. 50,000 per society but in deserving cases the scale may be exceeded to bring the total share capital to the requisite level. A provision of Rs. 4,65,000 is considered necessary during the next financial year.

Processing Societies

In all 3 Ginning and Pressing Factories costing Rs. 4 lakhs each are proposed to be organised during 1956-57. Each factory will be required to be helped to the extent or Rs. 1,00,000 (25 per cent. of cost) towards share capital by Government. An equal amount is expected to be raised by the members themselves and the remaining amount is expected to come from the State Industrial Finance Corporation by way of loan.

One oil mill is also expected to be organised during the next year. Government is expected to be called upon to contribute Rs. 75,000 towards 50 per cent. of the share capital, the rest being contributed by the Organisers. Provision for contribution towards share capital of Processing Societies during 1956-57 may thus be Rs, 3,75,000.

The details of the provision of Rs. 22,50,000 are as under :—

Major Head.	Minor head.	Sub-head.	Amount of provision for 1954-55
72-Capital Outlay ...	B—Investment in other Commercial concerns.	1. Contribution towards share capital of Multi-purpose Societies in the districts of Broach, East Khandesh and Dharwar.	10,10,000
		2. Contribution towards share capital of Central Financing Agencies in the districts of Broach, East Khandesh and Dharwar.	4,00,000
		3. Contribution towards share capital of Marketing Societies in the districts of Broach, East Khandesh and Dharwar.	4,65,000
		4. Contribution towards share capital of Processing Societies in the districts of Broach, East Khandesh and Dharwar.	3,75,000
		Total ...	22,50,000

ITEM 389. Financial Assistance to Industrial Co-operative Societies from the Scheduled areas of Bombay State for management expenses and contribution to their share capital.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	10,000
Total	... ,,	10,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—There are nearly 15 Industrial Co-operative Societies (other than Forest Labourers' Co-operative societies and labour contract societies) in the Schedueled areas of Bombay State. It is expected to organise 2 such societies per year during the Second Five-Year Plan period. The resources of these societies being meagre, they are not able to secure services of efficient hands to work as their Secretaries, Accountants etc. A scheme has, therefore, been included in the Second Five-Year Plan, wherein it is proposed to give grant-in-aid of Rs. 1,200 per year to each of the newly organised societies in the scheduled areas for the first three years of their working as also to the existing 75 societies at the rate of 15 societies per year. The number of societies to be assisted and the amount of expenditure involved are as below :—

Years.	Number of Societies.	Grant in aid.
		Rs.
1st year	... 15 old plus 2 new	... 20,400
2nd year	... 15 old plus 4 new	... 22,800
3rd year	... 15 old plus 6 new	... 25,200
4th year	... 6 new	... 7,200
5th year	... 6 new	... 7,200

72, CAPITAL OUTLAY ON INDUSTRIAL DEVELOPMENT—concld.

MINISTER IN CHARGE—SHRI M. P. PATIL.

2. Further with a view to augment the owned funds of the societies it is proposed to contribute to the share capital of the new as well as old societies whose financial position may be weak. A contribution of Rs. 10,000 per year i.e. Rs. 50,000 in 5 years has, therefore, been suggested for this purpose.

3. It is , therefore, necessary to make a provision of Rs. 20,400 for management expenses of the Industrial Co-operative Societies in scheduled areas and a provision of Rs. 10,000 for contribution to the share capital of these societies during the year 1956–57. 75 per cent. of this amount i.e. Rs. 22,800 will be borne by the Government of India and the remaining amount of Rs. 7,600 will be borne by the Government of Bombay. A provision of Rs. 10,000 on account of capital contribution may, therefore, be made in the budget for 1956-57.

4. The provision of Rs. 20,400 for management expenses is made under "43, Industries—B-Cottage Industries."

			Rs.

82, CAPITAL ACCOUNT OF OTHER STATE WORKS OUTSIDE THE REVENUE ACCOUNT.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 390. Construction of a school building with teachers quarters, and approach roads.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	3,02,100
Total	... ,,	3,02,100	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—At the Milk Colony at Aarey most of Government staff have been provided with quarters and are residing there with their families. Cattle-owners and their staff also reside in the Colony and the total colony population is estimated at 3,000 to 4,000 inhabitants. However, there are no education facilities at the Colony for the children of the residents and the necessity for a school has been felt for long. The nearest railway station is about 3 miles away and it is very difficult for children to go all the way to Goregoan or Andheri for schooling and apart from the expense involved in sending them such a long way especially when most of the residents fall under the category of low paid staff. It is, therefore, essential to provide a school at the Colony with quarters for staff and teachers. It is expected that about 320 children of different age groups will take advantage of the school. The cost for the school with quarters, approach roads is estimated at Rs. 3,02,100. Plans have been prepared and are being submitted separately.

This is a major work, from the First Five-Year Plan, but is now included in the Second Five-Year Plan considering the urgency and necessity and is proposed to be provided in the next year.

ITEM 391. Improvement and extension to Water Supply Scheme to serve additional new units.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	1,00,000
Total	... ,,	1,00,000	Ultimate annual Recurrent	... ,,	*Nil.*

Remarks.—It is noticed that when all the units need water together in the morning for drinking of the cattle and washing of the sheds, the pressure drops heavily, which results in inconvenience and inadequate cleaning. Further two more units are also being added this year. It is, therefore, considered necessary to improve the water distribution arrangements by increasing the size of certain main extensions for proper supply of water. New pipe lines will also have to be laid and connected to the two new units. It is estimated that this would cost Rs. 1,00,000.

ITEM 392. H. T. Overhead lines and internal wiring of New Units.

Recurrent	.. Rs.	*Nil.*	Non-recurrent	... Rs.	90,000
Total	.. ,,	90,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—Two additional units along with quarters will be completed during 1956-57 and it is necessary that the new constructions are provided with electric energy. Unless the units are complete in all respects it will not be possible to occupy them. It is, therefore, necessary that these units and quarters are provided with electricity. The state provides not only for bringing overhead lines to the new units but also provides for internal wiring of the units. Even though the expenditure is to be incurred by Government in the first instance, the cattle owners themselves will ultimately pay for it, by way of licence fee and occupation charge. The exp nditure for laying the H. T. overhead line to the new units is estimated at Rs. 90,000 which will be a major work and as such is proposed to be provided in the next year.

ITEM 393. Construction of cheap type quarters for Adivasis at the Colony.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	2,50,000
Total	... ,,	2,50,000	Ultimate annual recurrent	... ,,	*Nil.*

Remarks.—There are a large number of Adivasis residing in the Colony. These reside in the huts made out of very poor material and the condition of these huts is very bad. These persons mostly work in the Colony on grassfields and do other manual work and hence are useful in the Development of the Aarey Colony. They are poor people and are unable to find funds themselves for building houses. It is, therefore, necessary that Government should provide funds for constructing cheap type quarters for them. It is, therefore, decided to built 150 cheap type quarters in the first instance at an estimated cost of Rs. 1,700 per quarter. 50 per cent. of the cost will be considered as loan to the Adivasis and 50 per cent. as subsidy. 50 per cent. of the subsidy will be given by the Government of India and 50 per cent. will be borne by this Government. The part of the cost which will be treated as loan will be recovered from the Adivasis in easy instalments spread over a period of 15 years. Thus after some years these poor people will have the houses which will utlimately belong to them. The provision is therefore proposed in the next year.

82, CAPITAL ACCOUNT OF OTHER STATE WORKS OUTSIDE THE REVENUE ACCOUNT—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 394. Hostel Building at Aarey.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 6,70,000
Total	... „ 6,70,000	Ultimate annual recurrent	... „ *Nil.*

Remarks.—Necessity for a hostel at the Government Milk Colony, Aarey, has been felt since long. Students and professors from all over the country as well as from abroad who are interested in studying dairy subjects are greatly inconvenienced on account of absence of any residential accommodation at the Colony. The Milk Colony is 22 miles away from Bombay and it is not possible for these visitors to remain in Bombay and go to the Colony every day. It is, therefore, necessary that these visitors should be provided with accommodation at the Colony. There is a great demand for training facilities at Aarey and the necessity for the hostel is very much felt. The matter was referred to Government of India, and their sanction has been received to incur expenditure up to Rs. 6,70,000 in the first instance after which it will be made good by them. The Hostel will be designed to accommodate about 80 students and 20 professors. The cost for the furnished hostel building complete with approach roads, water connections, electricity, etc. is estimated at Rs. 6,70,000 and is proposed to be provided in the next year.

ITEM 395. Acquisition cost of lands for the Milk Schemes.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 7,00,000
Total	... „ 7,00,000	Ultimate annual recurrent	.. „ *Nil.*

Remarks.—In regard to land already acquired for the Government Milk Colony at Aarey, there are twelve land acquisition references pending disposal in the High Court. There are also 27 appeals pending disposal by the Lower Court in regard to certain lands acquired for the Colony. The amount required for all this purpose is estimated at Rs. 3,00,000. Further, for acquiring lands for certain roads and for the proposed railway goods-siding at Goregaon Railway Station, the location of which has been administratively approved, and for the survey work at the Colony an amount of about Rs. 4,00,000 is required.

ITEM 396. Pasteurising and Bottling machinery for the 2nd Dairy in Bombay City.

Recurrent	.. Rs. *Nil.*	Non-recurrent	.. Rs. 5,00,000
Total	.. „ 5,00,000	Ultimate annual recurrent	.. „ *Nil.*

Remarks.—At the new dairy at Bombay, a pasteurising and bottling plant with cold store has to be installed. There would also be a bye-product Section. The expenditure for the same is estimated at Rs. twenty-five lakhs. It is, however, proposed to provide rupees five lakhs in the next year towards initial expenditure.

ITEM 397. Obtaining of Rail and Road Tankers under the Colombo Plan.

Recurrent	.. Rs. 41,000	Non-recurrent	.. Rs. *Nil.*
Total	.. „ 41,000	Ultimate annual recurrent	.. „ *Nil.*

Remarks.—At present Milk from Anand is being received for the Bombay Milk Scheme in one maund cans, in insulated railway vans. A large number of cans have to be washed and handled every day. This arrangement is considered uneconomical and the temperature of milk cannot be conserved properly. It is, therefore, decided to change over to milk tankers and do away with the use of milk cans on rail transport altogether.

For the above purpose, the following assistance is being obtained from New Zealand under the Colombo Plan, through the Government of India.

	Particulars.	Price. £	s.	d.
16	3,000 gallons rail tankers at £ 2,028–18–0 each	33,326	8	0
4	1,500 gallons Road Tankers at £ ,3295–2–0 each	13,180	8	0
·8	Rail Chassis (Provisional)	20,000	0	0
16	Canopies	5,000	0	0
	3 sets of Cleaning equipment	1,500	0	0
	Spares	500	0	0
	Freight and Insurance	2,000	0	0
		75,506	16	0
	or Rs. ..	8,12,000 (approx.).		

Out of the total expenditure of Rs. 8,12,000 the Government of India has agreed to bear half the expenditure. The remaining half of the expenditure is to be repaid to the Government of India in ten interest-free yearly instalments of Rs. 41,000 (approx.).

The payment of the 1st instalment is to be made in 1956-57 and for this purpose Rs. 41,000 has been proposed to be provided.

82, CAPITAL ACCOUNT OF OTHER STATE WORKS OUTSIDE THE REVENUE ACCOUNT—concld.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 398. Chilling Depot (Buildings) for bulk milk at the Second Milk Colony.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 1,00,000
Total	... ,, 1,00,000	Ultimate annual recurrent	... ,, *Nil.*

Remarks.—As a result of setting up of the Second Milk Colony, which is not expected to be very near Bombay, Milk will have to be chilled before despatch to Bombay, by road or rail. The work is, therefore, proposed to be provided in the next year's budget. The estimated expenditure is Rs. 2 lakhs. But it is expected that in the year 1956-57 the initial expenditure may amount to Rs. 1 lakh.

ITEM 399. Chilling Machinery at the Second Milk Colony.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 1,00,000
Total	... ,, 1,00,000	Ultimate annual recurrent	... ,, *Nil.*

Remarks.—For chilling the milk produced at the Second Milk Colony before despatch to Bombay, a refrigerator plant will be needed. It is, therefore, proposed to provide rupees one lakh in the next year's budget, though the total expenditure for the plant would be about Rs. 5 lakhs.

ITEM 400. Acquisition of land for the new dairy in Bombay City.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 2,00,000
Total	... ,, 2,00,000	Ultimate annual recurrent	... ,, *Nil.*

Remarks.—The Dairy plant at Aarey is now running at full capacity (4,250 maunds daily) and cannot take much additional milk. For the 2nd Colony project a new dairy will be needed, which is to be located in the City. Several sites have been personally seen. The expenditure for acquisition or out-right purchase of about 10 acres of land will be in the neighbourhood of Rs. 10,00,000. But the initial expenditure in the year 1956-57 is taken as Rs. 2,00,000. It has, therefore, been proposed to provide the amount of Rs. two lakhs for the purpose in the year 1956-57.

ITEM 401. New dairy buildings in Bombay City.

Recurrent	... Rs. *Nil.*	Non-recurrent ...	... Rs. 4,00,000
Total	... ,, 4,00,000	Ultimate annual recurrent	... ,, *Nil*

Remarks.—The Central Dairy at Aarey is running at its full capacity (4250 maunds daily) for handling the milk for the 2nd Colony, a second pasteurising plant will be needed at Bombay City. Also additional milk coming from Anand will have to be handled. It is, therefore, proposed to set up a new dairy in Bombay for pasteurisation and bottling of milk. The total expenditure for the building is estimated at Rs. twelve lakhs. A provision of Rs. 4,00,000 is, however, proposed to be made in 1956-57.

ITEM 402. Tankers for bringing milk from the 2nd Colony to Bombay.

Recurrent	... Rs. *Nil.*	Non-recurrent ...	... Rs. 1,00,000
Total	... ,, 1,00,000	Ultimate annual recurrent	... ,, *Nil*

Remarks.—It is proposed to transport milk from the 2nd Colony to Bombay by insulated road-ankers. Milk will be chilled before transport. It is, therefore, proposed to obtain road or rail tankers' at the cost of Rs. six lakhs. The amount of Rs. one lakh is proposed to be provided in the next year to meet initial expenditure.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 403. Loans to Housing Societies for Nomadic Backward Classes.

Recurrent	... Rs. *Nil.*	Non-recurrent ...	... Rs. 1,23,000
Total	... ,, 1,23,000		

Remarks.—There is considerable nomadic population in the State, falling under the category of backward classes, wandering from place to place in search of food and shelter. They are very poor and backward and are required to undergo a good deal of hardship to maintain themselves. They also cause some nuisance to the population of the places, they visit. It is, therefore, proposed to take up various measures, aiming at the rehabilitation of these nomadic tribes, one of which is establishment of Housing Societies of such tribes, to enable them to build their houses, through such Co-operative Societies. It is, therefore, proposed to take up a special Housing Scheme for the nomadic tribes and to grant them various concessions to facilitate construction of houses for themselves.

This scheme, *inter-alia,* envisages grant of the following assistance to the Housing Societies of the nomadic tribes—

(1) Loans and subsidies will be available to Housing Societies of Nomadic tribes for construction of houses on behalf of their members. The maximum estimated cost of construction of houses is fixed at Rs. 1,500 per house, of which 25 per cent. i.e., Rs. 375 will be contributed by members themselves, by way of labour, material or cash. The remaining 75 per cent. i.e., Rs. 1,125 will be paid by Government by way of loan and subsidy. Of Rs. 1,125 payable by Government per house, Rs. 750 will be payable as loan, carrying no interest, and the remaining Rs. 375 will be paid as subsidy.

(2) In the case of members of these societies, who maintain cattle, loan and subsidy will also be given for construction of cattle sheds and barns. The maximum estimated cost of cattle shed and barn, is fixed at Rs. 100 of which 60 per cent. will be available by way of Government assistance, 2/3rds of which i.e., Rs. 40 will be available as interest free loan and the balance as subsidy.

(3) When Government lands are available, the same will be made available to such societies, free of cost, for their housing sites, at 2 gunthas per member. Where there are no suitable Government lands, private lands will be acquired for them at Government cost and made available to them free of cost, on the above mentioned scale. The members' plots will be of 1,200 square feet each and the balance of the land will be pooled for common purposes such as roads, gutters etc. In the case of members who maintain cattle, additional lands will also be granted at 1 guntha each of which 600 square feet will be utilised as an addition to the building plot and the balance will be pooled for common purposes.

(4) Subsidies will be granted to these societies towards cost of management at Rs. 10 per tenement for the first 2 years and at Rs. 5 per tenement thereafter, till the Government loans are repaid.

(5) The loans will be interest free and will be repayable in 25 years.

(6) Where sufficient Government lands are available, each such society will be made available additional 5 gunthas of land for common purposes such as construction of common hall, well etc. Where membership of such societies is 50 or more each, and where additional land is required for schools, and where sufficient Government land is available, additional 10 gunthas of land will also be made available to each such society, for that purpose.

A modest target of 60 societies of 20 members each, has been proposed for the Second Five-Year Plan. It is proposed to organize 60 societies of 20 members each, at suitable places in 27 districts of the State excluding Dangs for which there is a special scheme, altogether. It is proposed to complete the organization work of all the 60 societies, during the first 3 years of the plan. It is expected that 25 per cent. of these societies i.e., 15 societies will go in for lands, acquired at Government cost, and those 15 societies which will require 50 gunthas of land each, will thus require about Rs. 1,88,000 for land acquisition for 5 years of the plan. Each such society will consist of 20 members. 50 per cent. of the members are expected to maintain cattle. Each society will, therefore, require a loan and subsidy for house construction and for construction of cattle shed and barn to the extent of Rs. 15,400 and Rs. 7,700 respectively. These societies are also eligible for subsidy towards cost of management. These 60 societies will thus in total require a loan provision of Rs. 9,24,000 and subsidy provision of Rs. 6,89,000 over the five years of the plan and it appears that the entire cost is to be borne by the State Government.

The cost for the year 1956–57 under this scheme will be as under :—

	Rs.	*1956-57* Rs.
Loan—		1,23,000
Subsidy—		
Recurring	2,000	
Non-recurring	58,000	60,000
Total		2,83,000

The above provision of Rs. 1,23,000 is only on account of loans under the Scheme.

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

ITEM 404. Loans to individuals co-operative housing societies, local bodies, Municipal Corporations etc., under the Low Income Group Housing Scheme.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	70,00,000
Total	... ,,	70,00,000			

Remarks.—In accordance with the Government of India's policy to give encouragement for construction of houses with a view to relieving Housing shortage, the State Government has formulated a scheme for granting loans to persons in the Low Income Group. Loans are also proposed to be granted to displaced persons in the low Income Group. Under the scheme individuals, Co-operative Housing Societies of individuals from the low income groups will be advanced loans for construction of houses. Municipal Corporations and Other Local Bodies will also be given loans for construction of houses for their Low Paid staff. Government also proposes to construct houses for its own employees. The scheme will in the first instance be implemented preferably in large areas where Housing shortage is acute and may be extended to other areas in the light of the experience gained and the finances available for the purpose. The scheme has been included in the Second Five-Year Plan, and a provision of Rs. 3,50,00,000 has been proposed to be made in the entire Plan period of the Second Five-Year Plan.

Under the scheme loans repayable in 30 years will be advanced to State Governments carrying interest at the usual rate for disbursement to persons whose income does not exceed Rs. 6,000 per annum or to Co-operative Housing Societies of such persons. This loan assistance will be limited to a figure not exceeding 70 per cent. of the actual estimated price of the house, inclusive of land, subject to a maximum of Rs. 8,000 per house. The scheme also provides for separate 3 years loans to the State Governments at the usual rate of interest for the acquisition and development of building sites to be sold to Low-Income Groups on a *no profit no loss basis.* These loans will be advanced in suitable instalments on the security of the land and building to be constructed by the individuals and co-operative housing societies. In the case of local bodies, they themselves will undertake the construction of houses for sale or renting out to their low paid staff.

According to the provision made in the Second Five Year Plan, an amount of about Rs. 70 lakhs on an average per annum will be available for this scheme in each year of the 2nd Plan period. It is, therefore proposed to make a provision of Rs. 70 lakhs in the next year's budget. A loan assistance of Rs. 3,43,25 lakhs and about Rs. 70 lakhs will be forthcoming from the Government of India during the Plan Period and 1956–57 respectively.

ITEM 405. Establishment of ice and cold storage plants and marketing of fish in the hinterland.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	83,000
Total	... ,,	83,000			

Remarks.—Provision of adequate refrigeration facilities is essential to enable fishermen to preserve their catches in good condition and to regulate supply of fish to the market. With this end in view, it is proposed to establish two ice and cold storage factories at Malwan and Karwar respectively. The ice plants are proposed to be made available to fishermen's co-operative societies on loan-*cum*-subsidy basis, especially in the Ratnagiri and Kanara Districts where such facilities are lacking for the trade.

In order to give an effective impetus to marketing of fish in the interior, provision of freezers is also essential for preservation of unsold stock of fish so as to regulate supply. It is accordingly proposed to purchase seven deep freezers at a total cost of Rs. 31,500.

The freezers will be allotted to fishermen's co-operatives who desire to establish fish stalls at suitable market places. These will be allotted on loan-*cum*-subsidy basis, the loan being repayable within a period of three years. It is also proposed to grant the societies subsidy to the extent of half the rent of the stalls for the first six months, the monthly rent of each stall being Rs. 48.

Total expenditure on the scheme will amount to Rs. 2,34,000 out of which Rs. 1,58,000 will be treated as loan and the remaining amount of Rs. 76,000 as subsidy.

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

During the financial year 1956–57, the following expenditure is proposed to be incurred:

	Rs.
Loans	83,000
Subsidy	27,000
	1,10,000

Details of Loan expenditure are as follows:—

	Loan. Rs.
One ice plant with a total cost of Rs. 1,00,000	77,000
Two deep freezers each costing Rs. 4,500	6,000
Total ...	83,000

ITEM 406. Mechanisation of fishing craft and introduction of mechanised equipment.

Recurrent ... ... Rs. *Nil.* Non-recurrent ... ... Rs. 2,28,000

Total ... ... „ 2,28,000

Remarks.—Development of fisheries of the State depends entirely on the measures taken by Government to increase production of fish. Mechanisation of indigenous fishing craft has helped considerably in the solution of this problem. In order to provide further impetus to the progress already achieved in respect of mechanisation of fishing craft, it is proposed to allot 275 marine engines during the Plan period to the fishermen or their groups in Thana, Greater Bombay, Surat, Amreli, Broach, Kolaba, Ratnagiri and Kanara districts on the basis of 50 per cent. subsidy and 50 per cent. loan. On the basis of the proportions of the loan and subsidy mentioned above, the total expenditure on 275 engines will be Rs. 27,50,000 at the rate of Rs. 10,000 per engine.

The State Government has purchased two winches for demonstration aboard mechanised craft. It is expected that these winches will prove helpful in operating longer nets with fewer hands, thus ultimately increasing the total production of fish. It is, therefore, proposed to purchase under the scheme five winches per year and allot them to groups of fishermen in the State on the basis of 1/3rd subsidy and 2/3rd loan. Each winch is estimated to cost Rs. 1,000. The total five year outlay on account of subsidies and loans at the rates indicated above will be Rs. 25,000.

Echo-sounders are now invariably used by fishermen in the West and in the U.S.A., as they help in the location of fish shoals and also in recording the depth of the sea. Their utility in the capture of fish is well recognised in many advanced countries. It is, therefore, proposed to obtain one echo-sounder under the T. C. M. Programme for holding demonstrations departmentally for information of the fishermen. The cost involved in the proposal is Rs. 8,800 out of which an amount of Rs. 6,500 represents recurring expenditure on account of the cost of the Generator and other equipment for the echo-sounders.

The total expenditure on the scheme during five years amounts to Rs. 27,91,000 as follows:—

Item.	Loan. Rs.	Subsidy and other expenditure. Rs.
1. Engine (275)	13,78,500	13,78,500
2. Winches (25)	16,670	8,330
3. Maintenance of the echo-sounder ...	.....	9,000
	13,95,170	13,95,830

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE—SHRI G. D. TAPASE.

Loan expenditure on the scheme in the financial year 1956-57 is indicated below:—

Item.	Loan.
	Rs.
(1) Cost of 45 engines at Rs. 10,000 per engine	2,25,000
(2) Cost of 5 winches at Rs. 1,000 each	3,000
	2,28,000

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 407. Extension of Agricultural Credit—Grant of loans —

Recurrent	.. Rs.	*Nil.*	Non-recurrent	.. Rs. 12,60,600
Total	.. „	12,60,600		

Remarks—Multipurpose Societies for Scheduled Tribes.—The scheme aims at giving financial assistance to Co-operative Multipurpose Societies of Scheduled Tribes and Scheduled areas by way of loans towards share capital at the rate of Rs. 300 per society. These societies cater to the credit requirements of the members of Scheduled Tribes, who are socially backward and who find it very difficult to obtain finance from any other source. These societies, therefore, have a special claim on assistance from Government. It is proposed that the total amount for this purpose during the Second Five-Year Plan should be Rs. 25,000 at the rate of Rs 5,000 each year. A provision of Rs. 5,000 may, therefore, be made in the the next year's budget estimates for this purpose.

Land Mortgage Banks.—In the sphere of long term finance for agriculturists, the Land Mortgage Banks are expected to provide credit facilities on larger scales. The Committee of Direction has recommended that temporary accommodation should be provided to the Apex Land Mortgage Bank in order to enable it to grant loans till it is in a position to get a sufficient volume of mortgages on the security of which it can float debentures. Such temporary accommodation should suffice for loaning operations for a period of 6 months. It is, therefore, proposed in the Second Five-Year Plan to make available temporary accommodation to the Apex Land Mortgage Bank to the extent of Rs. 25 lakhs. The Bank may draw on this accommodation as and when required. The whole of such accommodation availed of by the Bank will be repayable as soon as debentures are floated and subscribed. The total cost on this account for 1956-57 will be Rs. 12,55,600.

A loan provision of Rs. 12,60,600 for the above purposes is required to be made in the budget for 1956-57. An equal amount will be forthcoming by way of loan from the Reserve Bank of India.

MINISTER IN CHARGE—SHRI Y. B. CHAVAN.

ITEM 408. Loans to Municipal Corporations and Borough and District Municipalities for their Development Schemes.

Recurrent	... Rs.	*Nil.*	Non-recurrent ...	... Rs. 76,00,000
Total ...	... „	76,00,000		

Remarks.—Proposals for inclusion in the Second Five Year Plan were, invited from the Municipal Corporations and the Borough and District Municipalities in the State. The total value of the plans forwarded by the various local bodies are of the order of Rs. 111·81 crores including the cost of slum clearance schemes. Some of the schemes are, however, covered by the general schemes proposed under different heads of development, *viz.* village water supply and drainage, roads, education, slaughter houses, and markets, etc. The other proposal from the local bodies include schemes relating to medical facilities, parks and gardens, implementation of Master Plans, other public health measures, administrative schemes. The details of many of these schemes have to be worked out. In some cases the local bodies themselves should be able to find funds from their own resources. An *ad-hoc* provision of Rs. 6,81,75,000 is, therefore, made for grant of loans to the local bodies for such types of schemes as are not covered by the general schemes under which provision for assistance to local bodies is being made separately.

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE—SHRI Y. B. CHAVAN.

The provision of Rs. 6,81,75,000 is proposed to be distributed as shown below :—

Type of Scheme.	Amount proposed to be allotted for the Plan Period (in lakhs).
(1) Slum Clearance	380
(2) Housing of Harijan employees	40
(3) Medical not included elsewhere in the Plan	100
(4) Public Health not included elsewhere in the Plan	100
(5) Miscellaneous	61·75
Total ..	681·75

As the schemes of the local bodies for which assistance is to be sanctioned from the ad-hoc provision of Rs. 6,81,75,000 are mostly still to be finalised, the expenditure during the first year of the Plan will not be considerable ; it will increase gradually every year and is expected to reach the peak in the last year. The phasing of the expenditure during the Plan period is expected to be as shown below :—

	Rs. in lakhs.
1956–57	76
1957–58	126
1958–59	146
1959–60	156
1960–61	177·75
Total ...	681·75

It is accordingly proposed to make a provision of Rs. 76,00,000 in the budget estimates for 1956–57 for the grant of loans to local bodies during the next year for the execution of their schemes falling under the five categories mentioned above. The provision of Rs. 76,00,000 to be made in the next year's budget will be distributed proportionaetly for the various categories of schemes. The loan assistance of Rs. 45 lakhs is expected from the Government of India during 1956-57.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 409. Grant of short term loans to Co-operative Fisheries Societies.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 1,50,000
Total	... „ 1,50,000		

Remarks.—Fishing Industry is mostly carried on in coastal districts of the State. Fishermen as a class, are very poor, ignorant, illiterate and superstitutious and they are still carrying on their industry in the premitive manner. Attempts are already afoot, through the fisheries Department, and others, for modernising this industry. Attempts have also been made to organise this industry on a co-operative basis. Efforts so far made, however, have not proved sufficient. The Co-operative Societies organised so far have not been able to achieve their object for want of necessary finance, efficient management, etc. A more systematic and sound attempt is, therefore, proposed to be undertaken to rehabilitate this class of people and to reorganise this industry on co-operative basis.

Organisation.—There are at present 80 fishermen societies in the State. Most of these societies are existing in the coastal districts. Most of these societies are not thriving well and the work of reorganisation and revitalisation of these societies and of increasing the membership and resources of these societies will, therefore, be the first item of work under this scheme. More attention will be paid, under the scheme towards consolidation of existing societies and a modest target of 20 societies more, has only been proposed for period of II Five Year Plan. At the end of II Five Year Plan, there would in all be about 100 Co-operative Fishermen's Societies of about 25 members each in the State of Bombay, which are proposed to be placed on sound and systematic basis.

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

Financial assistance.—It is proposed to grant subsidies to the fisheries co-operative societies towards management expenses for a period of three years of their working and the requisite provision of this account is being made under the head "42-Co-operation" separately. Fishermen who are generally very poor have little or no means for raising their working capital for items such as purchase of fishing accessories and for requirements relating to marketing of fish etc. They cannot raise funds locally because they have no society to offer. The question of granting short term loans to the co-operative fisheries societies in order to enable their members to purchase fishing accessories etc. is engaging the attention of Government for some time past. It has now been decided that the Co-operative Fisheries Societies should be granted short term loans at the rate of Rs. 10,000 per society and taking into account the requirements of 100 fisheries societies a provision of Rs. 10 lakhs has been admitted in the Second Five Year Plan. Phasing of the aforesaid provision of Rs. 10 lakhs during the plan period would be as follows :—

1st year	2nd year	3rd year	4th year	5th year	Total
1,50,000	3,00,000	3,00,000	1,50,000	1,00,000	10,00,000

As indicated above a provision of Rs. 1,50,000 is required to be made in the 1956–57 budget which is the first year of the Second Five-Year Plan for grant of short term loans to the Co-operative Fisheries Societies. The short term loans are proposed to be made available to the fisheries societies through the Bombay State Co-operative Bank, Ltd., and the Central Financing Agenies. The terms and conditions governing such loans are being thrashed out in consultation with the Bombay State Co-operative Bank, Ltd., and the Central Financing Agencies concerned separately.

MINISTER IN CHARGE—SHRI Y. B. CHAVAN.

ITEM 410. Loans to Municipalities for financing water supply and drainage schemes.

Recurring	Rs.	*Nil.*	Non-recurring	Rs.	10,40,000
Total	„	10,40,000			

Remarks.—In the Second Five-Year Plan an allotment of Rs. 52,00,000 has been made for payment of loans to municipalities to meet partly the cost for financing Water Supply and Drainage Schemes, which will be undertaken during the period of the Plan. The whole amount is expected from the Government of India as loan to the Government of Bombay. Many schemes are ready for execution and cannot be started as the local bodies concerned are not able to provide ready cash immediately towards financing these schemes. If the loans would be granted to them many schemes could be started in the very first year of the Second Plan. Though the amount is inadequate to meet the requirements of all local bodies whose schemes are ready for execution, Government will have to restrict the loan assistance within the amount provided in the Plan. A provision of Rs. 10,40,000 will be required to be made in the budget estimates for 1956–57 and in each of the following 4 years of the Plan. A provision of Rs. 10,40,000 is therefore proposed to be made in the budget estimates for 1956–57. An equal amount will be forthcoming as loan assistance from the Government of India during 1956–57.

ITEM 411. Grant of Loans to Municipalities for construction of slaughter houses.

Recurring ..	Rs.	*Nil.*	Non-recurring ..	Rs.	1,00,000
Total ..	„	1,00,000			

Remarks.—In pursuance of the recommendations of the Committee appointed by Government to enquire into the conditions of slaughter houses in towns and villages it is proposed to give an incentive to the municipalities for construction of slaughter houses by giving loans to them. An allotment of Rs. 5 lakhs has therefore been made for the purpose in the Second Five-Year Plan. Accordingly loans to the extent of Rs. 1,00,000 per year can be granted to the municipalities for the purpose during the Plan period. This amount is very small. But as funds have to be provided for more important schemes included in the Plan the amount of loan assistance for construction of slaughter houses is being restricted to Rs. one lakh per year. It is, therefore, proposed to make a provision of Rs. 1,00,000 in the budget estimates for 1956-57 for the purpose.

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 412. Development of Co-operative Marketing : Loans for construction of godowns.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 6,40,000
Total	... „ 6,40,000		

Remarks.—As recommended by the All India Rural Credit Survey Committee and envisaged under the Scheme for development of Co-operative Marketing in the Second Five-Year Plan it is proposed that each Marketing Society in the principal market yard should have a bigger size godown costing Rs. 40,000. Some Marketing Societies have already got their godowns. It is, therefore, proposed to have 100 more godowns of bigger size costing Rs. 40 lakhs.

Fifty godowns are proposed to be built up in the places where Marketing Societies have branches. These godowns will be of medium size costing Rs. 20,000 each.

It is also proposed to have 600 godowns costing Rs. 10,000 each for Multi-purpose Society which is working efficiently.

Two lakhs of rupees will be necesary for constructions of godowns for the State Marketing Society during the period of the plan. A total sum of Rs. 1,13,00,000 will be required on this account out of which 20 per cent. will be in the form of subsidy and 80 per cent. in the form of loan.

During 1956-57 it is estimated that an amount of Rs. 6,40,000 will be required for granting loans for the purpose. The Loan assistance of Rs. 5·12 lakhs is expected from the Government of India during 1956-57.

MINISTER IN CHARGE—DR. JIVRAJ N. MEHTA.

ITEM 413. Loan to Bombay Municipal Corporation for Vaitarna-*cum*-Tansa Scheme.

Recurrent ...	... Rs. *Nil.*	Non-recurrent	... Rs. 2,50,00,000
Total ...	... „ 2,50,00,000		

Remarks.—The Vaitarna-*cum*-Tansa Scheme sponsered by the Bombay Municipal Corporation to improve and augment Water Supply to Greater Bombay is estimated to cost Rs. 18·10 crores. As the Corporation was in need of funds, Government of India was approached to sanction loan to the Corporation during 1953-54 and 1954-55. A total loan of Rs. 4 crores was sanctioned by the Government of India to this Government for being relent to the Bombay Municipal Corporation during the years 1953-54 and 1954-55.

2. The Corporation has already incurred an expenditure of Rs. 12·48 crores up to 31st March 1955. The progress of the work on the scheme has now been considerably accelerated and it is expected that the whole project will be completed by 1956-57. The Municipal Corporation's requirement of funds for the Scheme during 1955-56 was estimated at Rs. 3·8 crores. On this, the Government of India have agreed to sanction loan assistance of Rs. 2·5 crores during the year 1955-56. The Municipal Corporation has estimated its loan requirement at Rs. 2·5 crores for the year 1956-57. The Government of India have informed this Government that the loan assistance for this scheme beyond 1955-56 will be considered by them along with the proposals for the Second Five-Year Plan. Accordingly, a provision of Rs. 2·5 crores has been proposed in the plan for the next year. The Government of India is likely to sanction the above amount of Rs. 2·5 crores during the year. A provision of Rs. 2·5 crores, therefore, required during 1956-57.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM. 414. Scheme for providing cheap electricity as motive power for irrigation purpose.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 2,50,000
Total	... „ 2,50,000		

Remarks.—In certain parts of the State not served by the Electric Grid there are possibilities of organising Co-operative Electricity Production Societies which in addition to providing power for lighting purposes could also provide electricity at economic rates as motive power for irrigation purposes. The additional capital cost involved in installation of electrical generators, supply lines, transformers etc.

for irrigation purposes is generally very high and it becomes usually difficult to supply electricity at economic rates to cultivators for agricultural purposes. Already Government has been subscribing the share capital of such societies by advancing loans upto 1/3rd of the capital cost. But it is considered that this is not sufficient inducement for the societies to take up supply of electro-motive power for irrigation purposes. The income derived from the supply of electricity for irrigation purposes, has been found to fall short of production costs. It is, therefore, necessary to subsidise the co-operative societies for taking up this activity.

It is proposed that in addition to the loan assistance available under the existing scheme assistance should also be given by way of non-recurring subsidy towards capital cost to the extent of 25% of the additional capital cost entailed in the supply of electricity of irrigation purposes.

2. This scheme is included in the Second Five-Year Plan and 12 electricity Production Societies are proposed to be assisted during the Five Year period with loans up to 1/3rd of the capital costs. Of these 8 societies are proposed to be assisted with subsidies on the scale mentioned above for enabling them to supply electricity at economic rates for irrigation purposes. For this purpose a provision of Rs. 14·01 lakhs as loan and Rs. 2,40 lakhs as subsidy has been proposed in the Second Five-Year Plan.

3. During the year 1956–57, it is proposed to have 3 Units, which would be assisted with loans out of which 2 would also be considered for subsidy as indicated above for supplying power for irrigation purposes. Budget provision required during 1956–57 on this account is as follows :—

Loans	...	Rs. 2·50 lakhs.
Subsidy	...	Rs. 0·73 lakhs.
		Rs. 3·23 lakhs.

ITEM 415. Scheme for the development of Tanning and Leather Working Industries and management of organisation expenses, etc., at 2 per cent. of the total expenditure.

Recurrent	... Rs.	*Nil.*	Non-recurrent	...	... Rs. 2,07,000
Total	... ,,	2,07,000			

Remarks.—(1) *Construction of Tanning, Liming Pits.*—The Major processes of tanning are generally done in pits. The penetration of tanning and liming liquors is even if the pits are big enough to accommodate the raw hides and skins when they are put in the pits for the purpose of processing. Big pits also enable sufficient space to be obtained for the handling of the material. In order that the tanning industry may be improved, it is essential to have pits of uniform and adequate size. In some places in the Bombay State, individual artisans as well as members of co-operative societies have built pits on modern lines, but compared to the large population of tanners, the number of pits is hardly inadequate. Many tanners use earthen pots of small size which do not give satisfactory results so far as the leather which is processed in these pits is concerned. Similarly, tanning and liming liquors are allowed to remain in pits for months together. If the liquors are kept for a longer time, they get fermented and emit a bad smell. The old earthen pots have no outlet to throw out the 'Spent up' liquors. The modern pits are so designed and constructed so as to enable the quick and easy flow of the old liquors as soon as they are not required. It would not be possible to undertake construction of pits for all the tanners in the Bombay State in view of the large number of persons employed in the industry. It is, therefore, proposed to select some tanners' co-operative societies, in the first year which would be taken up for special development. Each society would require on an average 3 pits for 15 members. In all 142 pits would, therefore, have to be constructed on modern lines. The cost of construction of each pit is estimated at Rs. 75. The total assistance that would, therefore, be required for 142 pits is Rs. 10,650. It is suggested that in view of the economic and financial position of the tanners, who are very poor, 75 per cent. of this amount may be treated as a loan viz. Rs. 8,000 in round thousands carrying a nominal rate of interest payable in 5 equal annual instalments and the remaining 25 per cent. may be treated as a subsidy. In order to have a proper check and effect prompt recovery of loans, each of the pits constructed by the society would be allotted to an individual tanner who will be made to execute an agreement with the society to the effect that he will purchase the raw materials and sell the finished products through the society and be responsible to the society for the prompt repayment of the loan. During the subsequent years of the 5 year plan, 10 societies will be taken up for intensive development every year.

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

(2) *Purchase of Tools and Equipment.*—The 40 co-operative societies that would be taken up for special development would require assistance for the purchase of modern tools (in addition to the tools they have) for their tanner members. It is proposed that assistance to the extent of Rs. 50 per tanner for this purpose may be sanctioned. The total assistance that would be required is, therefore, Rs. 10,650 for 213 members. The tools so required would be shaving knives, fleshing knives, wooden beams, copper slickers, whitening slickers, glass slickers, staker, rapas and rappies, 25 per cent. of this amount may be treated as a subsidy and the remaining 75 per cent. as a loan viz. Rs. 8,000 at a nominal rate of interest repayable in easy instalments.

(3) *Construction of Sheds and Tanneries.*—It is observed, that in many cases tanners have no sufficient space to work, to store their raw materials, tanning materials and finished goods. In order to encourage the development of the tanning industry through co-operatives, it is necessary to provide assistance to the societies for the purpose of construction of sheds and tanneries. The size of each tannery and shed would approximately be 40×15. It is estimated that the cost of each would be Rs. 4,000. The total asistance that would be required for this purpose, therefore, is Rs. 60,000 during the first year for 15 sheds.

(4) *Marketing.*—Marketing is the key stone of any development programme for cottage industries. At present there is no proper organisation for marketing the finished products of the individual tanners or tanners' co-operative societies. Tanners are generally illiterate and are exploited by the middle men who take away a substantial portion of the profits. Many co-operative societies of these tanner-are not able to market the finished products of their members, as these societies have no depots in which to store the finished goods, nor any working capital to buy the finished goods of the individual tanners. As a result of this, the middlemen and merchants buy the finished goods from the tanners at a very low and unremunerative rates. The Provincial Industrial Co-operative Association Limited, has established a Sales Depot in Bombay and the progress of this institution during the last two years is satisfactory. A few tanners' co-operative societies are taking advantage of this Depot. In view of the cost of transport involved in despatching the finished goods from the important tanning centres, it is not possible for one Depot situated in Bombay to cater for the requirements of many of the tanners' societies. It would, therefore, be necessary to establish marketing depots at places close to the tanning centres and where the demand for tanned leather from the leather working centres is prominent. The important leather working centres where it is initially required to establish such depots are Surat, Sholapur, Bijapur, Kolhapur and Ahmednagar. It is proposed to run these depots through the District Industrial Co-operative Associations to whom all the tanners' co-operative societies are affiliated. The District Industrial Co-operative Associations are apex institutions in the districts which would act effectively in respect of marketing of the finished products of the affiliated societies. It is proposed to establish in the first instance one depot at each of the 5 places mentioned above. The cost involved in running each depot is as follows :—

	Rs.	
(a) *Recurring expenditure*—		
Manager at Rs. 100 per mensem in the grade of Rs. 100—8—140.	1,200	This will be grant-in-aid per depot.
Rent at Rs. 50 per mensem	600	
Contingencies Rs. 50 per mensem	600	
Total ...	2,400	
(b) Working capital at Rs. 5,000 per depot	5,000	
Total, Working capital for 5 depots ...	25,000 (Loan)	

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

(5) *Working Capital for Tanners Co-operative Societies.*—It is observed that the majority of the tanners' co-operative societies and individual tanners do not get sufficient work as they have no adequate funds for the purchase of raw hides for the purpose of tanning. As majority of them are in a very bad financial position, it is not possible for them to obtain loans or cash credits from central financing agencies. It is, therefore, necessary that some assistance should be given to the tanners and their co-operative societies for working capital to enable them to buy hides for the purpose of tanning. The assistance that is proposed to be given to the tanners and their co-operative societies for the purchase of tools and equipment, for the construction of a tannery, for the construction of liming and tanning pits, and to District Industrial Co-operative Associations for the purpose of establishing marketing depots would not be effective until working capital is provided to tanners and their co-operative societies for the purpose of enabling them to buy raw hides and carry on the work of tanning. It is proposed to make the working capital available through the tanners' co-operative societies as it is desirable to rehabilitate the tanning industry on a co-operative basis. Each society would have on an average about 10 members and about Rs. 500 would be required for working capital for each member. Some societies are proposed to be taken up for special development in the first year. Therefore, the total amount of assistance that would be required in the form of working capital would be 20 × 10 × 500 or Rs. 1,00,000. The conditions under which the loan would be disbursed to the societies would be the same as those obtaining at present in the case of loans which are sanctioned.

(6) *Assistance for Purchase of tools and Equipment for Leather Workers' Co-operative Societies.*—According to the Bombay Economic and Industrial Survey Committee's Report, it is estimated that there are about 36,000 workers engaged in the leather working industry. Of these, it is estimated that only 10,800 are engaged in small scale and large scale industries and the rest are engaged in the leather working industry on a cottage basis. As a result of the drive for organising tanners on a co-operative basis, a number of co-operative societies has been formed. As in the case of the tanning industry, the leather working industry has suffered because of the fact that the leather workers are poor and do not get adequate financial assistance for the purchase of tools and equipment and for working capital. It is proposed that initially 10 societies of leather workers should be taken up during the first year for special development and the members of the societies should be given loans for the purchase of tools and equipment. It is estimated that approximately Rs. 800 would be required for the purchase of these modern tools and equipment per society. These include a sewing machine for each society. The total for 10 societies therefore comes to Rs. 8,000. 25 per cent. of this amount may be made available in the form of a grant and the remaining 75 per cent. in the form of a loan i.e. Rs. 6,000 at nominal rates of interest and repayable in easy instalments.

7. The scheme is for the period of five years from 1956–57. A loan provision of Rs. 2,07,000 is required for this above Scheme during 1956–57. The Central assistance by way of loan during 1956–57 will be Rs. 1·40 lakhs. The details of expenditure are as indicated below :—

Serial No.	Name of the Scheme.	Amount.
		Rs.
1	Construction of tanning, liming pits	8,000
2	Purchase of tools and equipment	8,000
3	Construction of sheds and tanneries	60,000
4	Marketing (working capital)	25,000
5	Working capital for tanners' co-operative societies	1,00,000
6	Assistance for purchase of tools and equipment for leather workers' co-operative societies	6,000
	Total ...	2,07,000

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 416. Grant of loans to the Co-operative Cattle-breeding-*cum*- farming societies and Multipurpose Societies organised for the improvement of nomadic professional cattle breeders.

Recurrent ...	... Rs.	*Nil.*	Non-recurrent	... Rs.	2,28,000
Total ...	... ,,	2,28,000			

Remarks.—A Scheme for Ahmedabad, Mehsana and Kaira districts for rehabilitation of Rabari and Bharwads, who are professional cattle breeders has been sanctioned and a special staff consisting of one Special Officer (Rs. 350—650); one Senior Clerk, one Junior Clerk, five peons, one Cattle Breeding Expert and One Surveyor has been sanctioned to implement the scheme. The Scheme has been sanctioned for one year in the first instance, and it envisages that 30 cattle-breeding-*cum*-farming societies of Rabaris and Bharwads should be organised and financed, in three districts, of Ahmedabad, Mehsana and Kaira, during the current year. The cattle-breeding-*cum*-farming societies have been made eligible for the following assistance :—

Serial No.	Item.	Financial assistance. Loan.	Subsidy.
1	2	3	4
		Rs.	Rs.
1	Purchase of breeding bulls at 2 bulls per society (cost per bull Rs. 600) ...	.....	1,200
2	Maintenance charges at the rate of Rs. 20 per bull per mensem for one year ...	.....	480
3	Land Development	3,000	1,000
4	Purchase of seeds, manures, implements, etc., Rs. 1,200 first year Rs. 600 each for the second and the third year.	.....	2,400
5	Contribution towards share capital	4,000	.....
6	Cost towards pay and allowances of the Managers of the societies in the grade of (Rs. 55–130) Rs. 1,200 for each of the first 3 years and Rs. 600 and Rs. 300 for the fourth and fifth years respectively.	.....	4,500
7	Cost towards pay and allowances of Milk Recorders at Rs. 65 *plus* D. A. Rs. 45 per mensem (Rs. 1,320 for each of the first 3 years and Rs. 660 and Rs. 330 for the fourth and fifth years respectively).	.....	4,950

This scheme aims at the rehabilitation of Rabaris and Bharwads and their settlement on land, in order to enable them, to carry on their age-old cattle breeding profession without having to be nomadic.

For the year 1955-56, organisation and grant of finance to 30 such societies had been originally envisaged. But it now appears that it may be possible to organise only about 22 such societies during the current year 1955-56. There are about 3 lakhs of Rabaris and Bharwads who are essentially professional cattle breeders in Gujerath area. There are also some other professional cattle breeders in other parts of State. The organisation of 22 cattle breeding-*cum*-farming societies will have only touched the fringe of the colossal problem that exists in respect of these people. It is, therefore, necessary to continue the scheme and to organise more such societies. It is proposed to continue the scheme under the Second Five-Year Plan, and to make the scheme applicable to all the nomadic professional cattle-breeders in the State. It is proposed to organise 56 societies more, during the period of Second Five-Year Plan.

The basis of financial assistance to the cattle breeding-*cum*-farming societies has been slightly changed and the following assistance has now been proposed. In the first place, provision has been made for establishment of societies not only on Government waste lands (42 such societies are envisaged for the period of the Plan) that can be made available for the purpose but also on private lands to be purchased wherever feasible with part Government assistance. The following scale of assistance is proposed per society, proposed to be established on Government waste lands.

Serial No.	Particulars.	Loan per society or share capital contribution.	Subsidy per society.	Total per society.
1	2	3	4	5
		Rs.	Rs.	Rs.
1	Purchase of breeding bull (1)	.....	600	600
2	Maintenance charges of the breeding bull at Rs. 20 per mensem for two years.	.....	480	480
3	Land Development	8,000	2,000	10,000
4	Purchase of seeds, manures and implements etc., for 2 years at Rs. 1,000 during the first year and Rs. 500 in the second.	.....	1,500	1,500
5	Share capital contribution	4,000	.....	4,000
6	Cost of Managers for 3 years	.....	3,600	3,600
		12,000	8,180	20,180

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

In the case of societies to be established on lands to be purchased (the number of such societies will be 14, for the Second Five-Year Plan period) the scale of assistance is proposed to be the same as above, except that in place of land development the provision will be for "purchase of land and its development" for which the assistance proposed is 75 per cent. of the cost of the land or Rs. 20,000 whichever is lower, as loan, and 1/4th cost of approved works of land improvement subject to a ceiling of Rs. 2,000 as subsidy. Besides the societies are proposed to be sanctioned Government contribution to their share capital at the rate of Rs. 4,000 per society.

The loans proposed to be granted, will carry the same terms and conditions as heretofore. The loans for land purchases will be repayable in 10 years by equal instalments.

The 22 societies going to be organised during 1955-56 as per the scheme now sanctioned will also be made available the enhanced assistance now proposed to be provided for such societies on some items, under the Second Five-Year Plan.

As stated above, the population of these professional cattle breeders is about 3 lakhs and more and these societies will not be able to bring within their fold this entire populations. Further there will also be some Rabaris and Bharwads and other professional cattle-breeders who already own some lands or who have already been granted lands by Government on individual basis. Such of the professional cattle-breeders, who have already been settled on land will not need to be brought within the perview of cattle-breeding-*cum*-farming societies of the kind described above. They will, however, need to be assisted in respect of their special problem, and their common needs will have to be catered to by the institutions to be specially established for this purpose. These individually and newly settled nomadis will have to be brought within the scope of co-operative institutions which will look after their credit needs, their needs of breeding services, procurements of their requirements such as feeds, marketing of their produce such as calves, milk, ghee etc. For this purpose, it is proposed also to organise 40 Multipurpose Societies for these people, at suitable centres.

This Multipurpose Societies (which are proposed to be organised at the rate of 8 per year during the plan period and totalling 40) will get financial assistance from Government as shown below :—

Serial No.	Particulars.	Loan per society.	Subsidy per society.	Total.
		Rs.	Rs.	Rs.
1	Contribution towards share capital	10,000	.....	10,000
2	Construction of godowns	9,000	1,000	10,000
3	Managerial expenses at Rs. 600 per society per year for the first 3 years.	.....	1,800	1,800
		19,000	2,800	21,800

There will be an Advisory Committee to associate non-officials with the execution of the scheme. The Advisory Committee would consist of honorary workers and they need to be given travelling allowances etc. to meet their actual expenses of journey etc. A provision of Rs. 2,000 per year (total Rs. 10,000 for 5 years) is, therefore, proposed to be made in this respect.

Special Staff.—Government has already sanctioned Special staff for this scheme as indicated in paragraph 1 above. In view of the continuance of the scheme under the Second Five-Year Plan this staff is proposed to be continued and the requisite orders on that account are being issued separately.

In view of the expansion of the scheme and to tackle the special problems of these societies following additional staff has been proposed for the period of the Second Five-Year Plan.

(1) 1 Assistant District Co-operative Officer (Rs. 100—8—140).

(2) 1 Awal Karkun (Rs. 100—8—140).

(3) 1 Senior Clerk (Rs. 100—8—140).

(4) 1 Attendent (Rs. 45 fixed).

The jurisdiction of the Special Officer will be very vast and he, therefore, needs the assistance of a Special Assistant District Co-operative Officer who can visit places, when Special Officer may not himself be able to go, and will also attend to the supervision and guidance of these societies, to certain extent. The execution of the scheme involves to a considerable extent, the work of securing Government lands and purchase of private lands, where Government lands are not available, and services of an Awal Karkun from the Revenue Department with the experience of the land acquisition and land grant cases, will

greatly facilitate execution of the scheme. It is, thereore, proposed to secure such an Awal Karkun and a provision has, therefore, been made in this respect in the scheme. The senior clerk's post is meant for the office of the Registrar, Co-operative Societies, Poona, to attend to the increased work on this account and to attend to the registration proposals, loans and subsidy cases and to various other proposals of these societies, in the Registrar's office. This additional staff is the minimum required, for the execution of the scheme, and the total cost involved therein during the plan period is as follows :—

I Year.	II Year.	III Year.	IV Year.	V Year.	Total.
5,000	8,000	8,000	9,000	9,000	39,000

The cost of the staff for the first year i.e. 1956–57, has been calculated only for 8 months, as it is anticipated that it will take about 4 months to go through the preliminary arrangements before the proposed staff is appointed. The total cost of the scheme would be as under for 5 years of II Five Year Plan (as per details indicated above) and it has been admitted in the Plan :

Item.	I Year.	II Year.	III Year.	IV Year.	V Year.	Total.
1. Staff	5,000	8,000	8,000	9,000	9,000	39,000
2. Recurring subsidy ...	90,000	1,12,000	96,000	68,000	43,000	4,09,000
3. Non-recurring subsidy	85,000	47,000	39,000	24,000	13,000	2,08,000
4. Share capital contribution.	1,64,000	1,40,000	1,28,000	1,04,000	88,000	6,24,000
5. Loan	2,28,000	4,34,000	2,16,000	1,20,000	86,000	10,84,000
Total ...	5,72,000	7,41,000	4,87,000	3,25,000	2,39,000	23,64,000

Out of the total provision of Rs. 10,84,000 admitted in the Second Five Year Plan, for grant of loans to the Co-operative Cattle-breeding-*cum*-farming societies and Multipurpose Societies organised for the improvement of nomadic professional cattle-breeders, a provision of Rs. 2,28,000 is proposed to be made in the 1956–57 budget. The requisite provision for grant of subsidies to the societies and contribution to the share capital is being made under the budget heads "42-Co-operation" and "72-Capital Outlay" separately. The central assistance by way of loan during 1956-57 will be Rs. 1·71 lakhs.

ITEM 417. Subsidised Housing Scheme for Industrial workers through Co-operative Housing Socities.

Recurrent	.. Rs.	*Nil.*	Non-recurrent	.. Rs.	8,00,000
Total	.. ,,	8,00,000	Ultimate Annual Recurrent...	,,	....

Remarks.—The Government of India has sanctioned a scheme for housing the industrial workers Under the scheme which is included in the 2nd Five Year Plan, the Government of India gives financial assistance through the State Government to Co-operative Housing Societies of Industrial Workers by way of loan to the extent of 50 per cent. of the prescribed estimated cost of the houses and subsidies to the extent of 25 per cent. During the 2nd Five Year Plan period it is proposed to organise more co-operative societies of industrial workers which are expected to construct 1,700 tenements. The cost of loan and subsidies will be borne by Government of India and will be paid through this Government. A provision will therefore have to be made in this Government account for the purpose. During the plan period loans amounting to Rs. 23,22,000 are expected to be granted. During 1956–57 loans amounting to Rs. 8,00,000 are expected to be granted. Provision on account of this may, therefore, be made. The loan assistance from the Government of India during 1956-57 will be Rs. 8 lakhs.

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE—DR. JIVRAJ N. MEHTA.

ITEM 418. Grant of loans to small-scale and cottage industries.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 50,00,000
Total	... „ 50,00,000		

Remarks.—A provision of Rs. 50 lakhs has been made in the State budget for the current year 1955-56 for grant of loans to the small-scale and cottage industries under the State Aid to Industries Rules. It is expected that the Government of India will also contribute an equivalent amount, if not more, for giving loans to these industries through the State Government. The loans are being disbursed either departmentally, or through the agency of the Industrial Co-operative Banks, district financing agencies or the State Finance Corporation. It is proposed to step up the aid to these industries during the second Five Year Plan in order to give a fillip to the small-scale and cottage industries and provide employment in rural areas on a larger scale. It is accordingly proposed to provide for a total amount of Rs. 3 crores for giving loans to the small-scale and cottage industries under the State Aid to Industries Rules. The Government of India has now agreed in principle to assist the State Government in giving these loans and will contribute twice the amount the State Government gives for the payment of such loans. It is, therefore, necessary to make a provision of Rs. 1 crore in the State budget for this purpose during the plan period and it is estimated that the Government of India will contribute an amount of Rs. 2 crores for this purpose.

A provision of Rs. 50 lakhs is proposed to be made in the next year's budget for the above purpose. The loan assistance from the Government of India during 1956-57 will be to the extent of 66⅔ per cent. of the provision of Rs. 50 lakhs.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 419. Regulated Markets : Loans to Agricultural Produce Market Committees.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 14,00,000
Total	... „ 14,00,000		

Remarks.—The scheme of regulated markets which is included in the Second Five-Year Plan envisages financial assistance to Market Committees for development of their Market Yards without which regulation will not bring the desired results. For the development of yards lands are to be purchased or acquired, buildings such as office buildings, rest houses, sale halls, cattle sheds are to be constructed. Roads are to be built on the yards which are required to be fenced. With a view to enabling the Market Committees to enforce the provisions of the Bombay Agricultural Produce Markets Act, and Rules effectively it is desirable to give financial assistance to the Committees, for development of yards which cost the Committees heavily. A provision of Rs. 80 lakhs for granting loans to the Committees for this purpose during the Second Five Year Plan period is required. During 1956–57 a provision of Rs. 14,00,000 is required.

ITEM 420. Organisation of Milk Producers' Societies and Unions.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 56,000
Total	... „ 56,000		

Remarks.—I. Brief Description—The aim of the Scheme is the development of Milk Industry on an organised and scientific basis in certain large towns and villages round about these towns through the organisation of Milk Supply Unions, Federations and Feeder Societies affiliated to them. It would also help to remove the gloomy picture existing in the milk industry by undertaking proper breeding and feeding of the cattle, quality control by organising production and transport and distribution on economic basis. The chain of the middlemen which links the producers with the consumers would be removed to some extent in the areas in which the scheme is implemented. It would further help the cultivators in providing with part-time work in off season as they would also be preparing manure which would also help to supplement their resources required for agricultural industries.

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

II. *Federations.*—In the big towns such as Bombay, Ahmedabad and Poona, Government and/or Corporation Milk Schemes are in operation. In these towns, milk is collected through co-operatives or otherwise direct from the producers. There is no efficient agency which could help both the producers and the societies on one hand and the Government on the other in co-ordinating their working on sound basis. It is, therefore, proposed to organise four federations at these towns which would act as a liaison agency between Government and Co-operatives and which would also represent the cause of and safe-guard of co-operative milk producing societies and ultimately of milk producers in general. These federations would also tender necessary advice to the milk-producers societies in improving the quality of milk and regular supply of the same to Government.

The Federation will have to employ a Manager, and a Milk Tester on Rs. 200 and Rs. 150 p. ms respectively and it is proposed that Government may bear cost on their account for the first three year. on 100 per cent., 50 per cent. and 50 per cent. basis. It is estimated that one Federation would require a subsidy of Rs. 10,000 in aggregate during the three years.

III. *Feeder Societies to Federations.*—It is expected that to every Federation 10 Producers Societies would be affiliated. If the number of existing societies round about the area of these Federations is less, new societies will be organised in the course of period of five years and towards the close of the Plan, forty societies would be functioning as constituents of the four Federations. These societies would help the producers to produce more milk by adopting proper breeding and feeding of the cattle, by granting them loans for purchase of animals and for purchase of cattle-feed. The societies would also help to produce milk under hygienic conditions and would prevent mal-practices of adulterations. Milk producers and sympathisers (with certain limitations) will be the members of the society which would help them to sell this milk to Government at reasonable rate.

Every feeder society may have to be given financial assistance from Government as mentioned below:—

	Loan. Rs.	Subsidy. Rs.	Total. Rs.
1. Milch animals	5,000	.....	5,000
2. Fat Testing Machine	500	.....	500
3. Milk bulking tank	600	.....	600
4. Subsidy towards cost of management for 3 years at Rs. 1,200, Rs. 600, Rs. 600 per union. ...	.....	2,400	2,400
	6,100	2,400	8,500

It will be noticed from the above statement that about forty societies will be affiliated to the Federations and each of them would require loan of Rs. 6,100 and a subsidy (recurring and non-recurring) of Rs. 2,400 in aggregate.

IV. *Milk Unions.*—In other towns where Federations and Government Milk Scheme are not operating, steps will be taken to establish Co-operative Milk Unions under the Scheme. In all 8 such Unions would come into existence before the close of the Plan. The main objects of the Unions are to make arrangements for disposal of milk and milk products of its members and member-societies, to purchase and distribute cattle-feed, etc., its members, to encourage cultivation of fodder crops, to render veterinary services for the cattle and thus to improve the quality of milk supplied to the consumers in the towns.

Each of these Unions will also be served by at least five societies and every union is expected to handle atleast 4,000 lbs. of milk per day. Each of the Unions would require loans and subsidies from Government as mentioned below:—

	Loan. Rs.	Subsidy. Rs.	Total. Rs.
1. Cans 50 of 60 lbs. each at Rs. 50, 100 of 100 lbs. each at Rs. 100.	3,250	1,150	4,400
2. Boiling and Testing machine, etc.	1,500	500	2,000
3. Milk Van	8,250	2,750	11,000
4. Working Capital	10,000	.....	10,000
5. Cost of Dairy Inspector	.....	3,000	3,000
6. Cost of managers.	.....	3,600	3,600
Total ...	23,000	11,000	34,000

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

V. *Feeder Societies to the Milk Unions.*—As already mentioned above, the Union will be affiliated by at least 5 milk producers societies and in all 40 feeder societies would come within the purview of the scheme and would be affiliated to the Milk Unions. This type of society would help the cultivator to produce more milk by providing proper breeding methods as also feeding to his cattle. Loans would also be granted to members for purchase of animals and cattle-feed. The society would also help the members to produce milk under hygienic conditions and would prevent mal-practices of adulteration. The members are required to sell their produce to the society which would see that the produce is sold at reasonable rate. Each of these 40 milk producers societies would require following loans and subsidies (recurring and non-recurring) from Government, as follows :—

	Loan. Rs.	Subsidy. Rs.	Total. Rs.
1. Fat testing machine	500	.....	500
2. Cost of management for 3 years at Rs. 1,200, Rs. 600 and Rs. 600 per mensem.	.....	2,400	2,400
	500	2,400	2,900

VI. *Cost of the Scheme.*—Following is the statistical information regarding the cost of the Scheme to Government as also the physical target to be reached during the period of Second Five Year Plan. The total cost of the Scheme for the first year would amount to Rs. 80,000 as detailed below :—

Particulars with Target.	1956-57	1957-58	1958-59	1959-60	1960-61	Total.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Subsidy—						
(a) Recurring ...	20,000	46,000	64,000	71,000	13,000	2,14,000
(b) Non-recurring ...	4,000	9,000	9,000	9,000	4,000	35,000
Loan ...	56,000	1,12,000	1,12,000	1,12,000	56,000	4,48,000
	92,000	1,67,000	1,85,000	1,92,000	73,000	6,97,000
Physical Target (Organisation)—						
(a) Federations ...	1	1	1	1	.....	4
(b) Feeder societies under Federation.	5	10	10	10	5	40
(c) Milk Unions ...	1	2	2	2	1	8
(d) Feeder societies under Unions ...	5	10	10	10	5	40

Out of the provision of Rs. 80,000 required to be made in the current year's budget as indicated above a provision of Rs. 56,000 is proposed to be made herein as per details given below :—

	Rs.
(1) Loans to the Feeders' Societies affiliated to the Federation for purchase of milch animals, etc., at Rs. 6,100 per society for 5 societies.	30,500
(2) Loans to the Feeders' Societies for purchase of fat testing machines at Rs. 500 approximately per society for 5 societies.	2,500
(3) Loans to the Milk Unions for purchase of Cans, Milk Vans, Machinery, Working capital, etc., at Rs. 23,000 for one Union.	23,000
Total ...	56,000

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE—DR. JIVRAJ N. MEHTA.

ITEM 421. Loans for Establishment of Trading Estates.

Recurring	... Rs.	*Nil.*	Non-recurring	... Rs.	2,00,000
Total	... ,,	2,00,000			

Remarks.—In accordance with the industrial policy of Government, it was decided to select a number of areas in the State, to begin with which had adequate supply of labour, raw materials and other pre-requisites necesssary for eatablishment of Trading Estates. Government of India, in the Ministry of Commerce and Industry have also expressed their keenness to establish such estates in the different parts of the country mainly to assist the development of small scale industries. Such estates can be either Government sponsored institutions managed by autonomous corporations in which industries, banks, etc., can participate or alternatively they are to be established by private institutions, co-operative societies receiving aid from Government in the form of finance, other facilities, etc., preference being given to co-operative enterprise.

2. Government had appointed a Special Officer in 1948 to suggest suitable sites for location of such estates. As, however, it was found that the cost of development on this account would be considerably large if Government undertook the establishment of such estates, it was decided that instead of proceeding with the scheme as State enterprise, private parties may be given all reasonable facilities including loans. A provision of Rs. 90 lakhs was accrodingly made in the First Five-Year Plan. Facilities for acquisition of land etc. were made available to the Belgaum-Manufacturers' Co-operative Building Association Ltd. A loan of Rs. 3 lakhs was also given to the Poona Municipal Corporation to develop an estate at Hadapsar. Government have also spent about Rs. 70,000 for development of Kolhapur Industrial Zone and have made a provision of Rs. 72,000 for further development of the zone during 1955–56.

3. It is now proposed to take positive steps and to establish such estates at the following sites or any other sites as may be found convenient :—

(1) Greater Bombay	...	2	(5) Malegaon	...	1
(2) Atale (near Kalyan)	...	1	(6) Mehsana	...	1
(3) Karad (Koyna area)	...	1	(7) Hubli	...	1
(4) Baroda	...	1	(8) Angol (Belgaum)	...	1
		5			4

Total 9.

4. The schemes involve considerable preparatory work viz. selection of sites, study of faciltities available, reaction of the local public, correspondence with various Departments, etc. and other organisational matters before starting the work. It is, therefore, necessary to provide necessary staff for this purpose at Headquarters in addition to the staff which may be required in respect of each estate separately. It is, therefore, proposed to create a post of Deputy Director of Industries for this purpose and to provide other staff under him.

5. It is accordingly proposed to make the following provisions in this connection during the Second Five-Year Plan period :—

	Rs.
(*a*) Establishment charges of Headquarter Staff	88,300
(*b*) Establishment charges for staff at the Estates	3,44,000
(*c*) Development Cost	71,63,000
(*d*) Loans	10,00,000
Total ...	85,95,300

6. In order to implement this scheme, it will be necessary to advance loans to the industrialists who want to take advantage of the scheme. It is estimated that an amount of Rs. 2,00,000 will be required for this purpose during 1956–57. It is therefore proposed that an amount of Rs. 2,00,000 may be provided in the budget estimates for 1956–57. The central assistance by way of loan during 1956-57 will be Rs. 2 lakhs.

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 422. Scheme for financial assistance to Heriditary and trained artisans from Nomadic Tribes.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... ... Rs.	56,250
Total	... ,,	56,250	Ultimate amount non-recurrent	,,	*Nil.*

Remarks.—Government has authorised the Deputy Registrars to sanction financial assistance to Backward Class Artisans up to Rs. 2,000 for purchase of tools and equipment and for working capital to start or develop cottage industries. Government has also authorised the Joint Registrar for Industrial Co-operatives and Village Industries, Bombay State, Poona, to sanction financial assistance up to Rs. 6,000 in case of joint applications from Backward Class Artisans. Experience has, however, shown that Backward Class Artisans are not able to take advantage of this scheme because they are not in a position to furnish adequate security either in the form of mortgage of immovable property or personal sureties as required under the rules prescribed by Government. The artisans of Nomadic Tribes have, therefore, received practically no assistance under this scheme so far. Secondly under another scheme proposed to be included in the Second Five Year Plan, it is proposed to train persons from Nomadic Tribes under certain cottage industries. These persons after training will require some financial assistance so as to enable them to start the industries for which they will receive training and thus to settle down in life.

2. It is, therefore proposed to give a financial assistance upto Rs. 1,000 to Heriditary and trained artisans from Nomadic tribes during the Second Five Year Plan Period. A portion of the assistance would be for purchase of tools and equipment and the remaining portion will be for purchase of raw materials and a portion of working capital. The proportion of the financial assistance for these two purposes will depend upon the requirement in each case. 25 per cent. of the assistance given to an artisan would be treated as subsidy while the remaining 75 per cent. of the assistance will be treated as loan free of interest repayable in 50 equal monthly instalments. The assistance will be given on the personal security only of the artisan, i.e. the grantees will not be required to give any security either in the form of mortgage of immovable property or personal surety. They will, however, be required to execute an agreement with Government for repayment of the loan. Financial assistance would generally be limited to artisans who may not be more than 40 years old and in special cases not more than 50 years old. The number of artisans proposed to be assisted and the financial asistance in the form of loans and subsidies proposed to be given during the different years of the Second Five Year Plan Period are given in the statement attached herewith.

3. Thus the total expenditure under the scheme during the Second Five Year Plan period would be Rs. 6,50,000 the whole of which will be borne by Government of India.

4. It may thus be observed that during the year is 1956-57 an amount of Rs. 75,000 would be spent under this scheme. A provision of Rs. 75,000 is, therefore, required to be made in the budget for 1956-57. The central assistance by way of loan during 1956-57 will be Rs. 56,250.

5. The scheme has been admitted in the Second Five Year Plan prepared by the Government in Rehabilitation, Housing and Backward Class Department and it will be implemented by the Joint Registrar for Industrial Co-operatives and Village Industries, Bombay State, Poona.

6. A statement showing number of artisans to be assisted during Second Five Year Plan is given below.

Year.	No. of persons to be assisted.	Amount of loan.	Amount of subsidy.	Total.
		Rs.	Rs.	Rs.
1956-57	75	56,250	18,750	75,000
1957-58	175	1,31,250	43,750	1,75,000
1958-59	100	75,000	25,000	1,00,000
1959-60	200	1,50,000	50,000	2,00,000
1960-61	100	75,000	25,000	1,00,000
Total ...	650	4,87,500	1,62,500	6,50,000

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 423. Scheme for grant of loans and subsidies to Backward Class Artisans trained at the Industrial Peripatetic and other Schools.

Recurrent	...	...	Rs. *Nil.*	Non-recurrent	...	..	Rs. 30,000
Total	...	...	„ 30,000				

Remarks.—Government has authorized the Deputy Registrars to sanction financial assistance up to Rs. 2,000 to Backward Class Artisans for starting or developing cottage industries. Government has authorized the Joint Registrar to sanction financial assistance up to Rs. 6,000 in case of joint applications. This financial assistance is, however, governed by certain conditions, e.g., furnishing of security. etc. Experience has shown that under the present rules the Backward Class Persons are not able to take sufficient advantage of the scheme for grant of financial assistance to Backward Class persons administered by this office because of the condition of requiring them to produce security, in the form of personal sureties or mortgage of immovable property. In order, therefore, to assist the Backward Class Artisans trained at the industrial peripatetic and other schools to start or develop cottage industries it is proposed to give financial assistance upto Rs. 500 both for purchase of tools and equipment and for working capital to each of such artisans, on their personal security only. 75 per cent. of the financial assistance of Rs. 500 to each Backward Class Artisan would be as loan free of interest repayable in 50 equal monthly instalments of Rs. 7-8-0 each, the first of such instalment may start after six months from the date of disbursement of the loan. The rest of the 25 per cent. of the financial assistance shall be subsidy. The grantees shall have to execute necessary agreement bonds with Government in this regard. The assistance under this scheme would have to be limited to persons upto the age of 50. It is proposed to assist about 80 such trainees every year. Of these 20 will approximately be from scheduled tribes and 8 from the Ex-Criminal Tribes. The total expenditure is given below :—

Category.			Number of trainees to be assisted in the Second Five Year Plan Period.	Amount of loan.	Amount of subsidy.
				Rs.	Rs.
Scheduled Tribes Trainees	..	..	100	37,500	12,500
Ex-Criminal Tribes Trainees	..	..	40	15,000	5,000
Scheduled Castes and other Backward Classes		..	260	97,500	32,500
Total		..	400	1,50,000	50,000

The yearwise expenditure is as follows :—

Year.				No. of trainees to be assisted.	Amount of loan.	Amount of subsidy.	Total.
					Rs.	Rs.	Rs.
1956–57	..	..	..	80	30,000	10,000	40,000
1957–58	..	..	..	80	30,000	10,000	40,000
1958–59	..	..	..	80	30,000	10,000	40,000
1959–60	..	..	..	80	30,000	10,000	40,000
1960–61	..	..	..	80	30,000	10,000	40,000
Total			..	400	1,50,000	50,000	2,00,000

The expenditure under the scheme would be Rs. 2,00,000 the whole of which will be borne by the Central Government.

2. It may be observed from the above that the provision of Rs. 40,000 would be required under the budget for the year 1956–57.

3. The scheme has been admitted in the Second Five Year Plan prepared by Government in Rehabilitation, Housing and Backward Classes Department and it will be implemented by the Joint Registrar for Industrial Co-operatives and Village Industries, Bombay State.

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE—SHRI D. N. DESAI.

ITEM 424. Loans for construction of school buildings and provision of play-grounds.

Recurrent	.. Rs.	*Nil.*	Non-recurrent	.. Rs.	5,00,000
Total	.. „	5,00,000			

Remarks.—Th expansion of primary education proposed to be planned is likely to have its impact on secondary schools, where provision will have to be made for the larger influx of pupils coming from primary schools, particularly in the rural areas. The existing secondary schools particularly in the rural areas will also need to be expanded for this purpose in respect of additional accommodation and adequate provision for class-rooms, laboratories, libraries, craft work, etc. New schools will also have to be set up chiefly in the rural areas to provide for the number of pupils who may not be accommodated in the existing schools. To enable managements of non-Government Secondary Schools specially in the rural areas to cope with the demand, it is proposed to provide for the payment of building loans to be repaid by them in easy annual equated instalments within a period of 25 to 30 years subject to the usual conditions.

2. It is proposed to provide Rs. 70,00,000 during the entire period of the plan for loans to secondary schools for construction of school buildings to the extent of 50 per cent. of the cost of buildings or Rs. 50,000 whichever is less. The rate of interest will be the current market rate.

3. The Physical Education Committee of 1945–46 laid great stress on the need to provide play-grounds for schools and went to the length of recommending the withdrawal of the recognition of a school, if it failed to procure a play-ground within a stipulated period. Play-grounds are absolutely essential for the proper development of the personality of school-pupils. In view, however, of the practical, local and financial difficulties involved, it has not been found practicable to provide for play-grounds so far on a satisfactory basis. To meet the financial difficulties, it is proposed to advance site loans to the extent of 50 per cent. of the cost or Rs. 5,000 whichever is less, to the school authorities which can be refunded by them within a period of about 25 to 30 years on the basis of equated annual instalments. It is also proposed to issue instructions to the Revenue Authorities to assist in the acquisition of suitable plots in those places, where suitable Government land is not available and cannot be leased at a nominal rent. The provisions of the Land Acquisition Act and in particular, the Emergency Clause, are also proposed to be utilised wherever necessary to speed up the acquisition of suitable plots of land.

It is proposed to make a provision of Rs. 10,00,000 for the entire period of the plan for the advance of site loans.

A loan provision of Rs. 5,00,000 is proposed to be made for the above purposes in the next year's budget (1956–57).

MINISTER IN CHARGE—SHRI MORARJI R. DESAI.

ITEM 425. National Extension Service Programme.

Recurrent ..	.. Rs.	*Nil.*	Non-recurrent	.. Rs.	5,25,000
Total ..	.. „	5,25,000			

Remarks.—A separate new item has been put up under the head "63-B-Community Development Projects; National Extension Service and Local Development Works" for expenditure on the 21 National Extension Service Blocks, which are likely to be opened in the State with effect from the 1st April, 1956. The provision of Rs. 1,00,000 per block available for minor irrigation can be utilised both for providing irrigation loans, for construction of irrigation works, on Government account and for other activities such as reclamation, cottage industries, agriculture, etc., with the Community Projects Administration's *prior* permission. An amount of Rs. 5,25,000 is proposed to be utilised as irrigation loans and for other development activities as may be necessary in view of the local conditions in these National Extension Service Blocks. The amount intended to be spent on Government account has been included in the New Item under the head "63-B-Community Development Projects, National Extension Service and Local Development Work-B-National Extension Service". Government of India will make available loans to this State to the extent of the provisions made in this new item. In addition to this, they will make available a sum of Rs. 41,000 as loan, to cover the irrigation, expenditure provided under "63-B-Community Development Projects, etc.".

ITEM 426. Community Development Projects.

Recurrent	... Rs.	*Nil.*	Non-recurrent	... Rs.	18,75,000
Total	... „	18,75,000			

Remarks.—A separate new item has been put up under the head "63-B-Community Development Projects, National Extension Service and Local Development Works-A-Community Development Projects", for the revenue expenditure to be incurred on the 25 Community Development Blocks which are likely to be converted from 1st April 1956, from the existing National Extension Service Blocks. It is proposed to give loans for various purposes, such as Marketing Centres, Dairy Development, Sheepbreeding, Poultry Centres, Marketing Godowns, new wells, Repairs to old wells, Supply of Pumping Sets, Surface wells, tube wells, and other lift irrigation Schemes, Soil Conservation, Cottage Industries and rural housing. An amount of Rs. 18,75,000 is proposed to be incurred on such loans during the year 1956-57. The Government of India will make available necessary loans to cover this expenditure of Rs. 18,75,000. In addition, a further loan of Rs. 1,40,000 will be received against the loanable provisions included in the New Item under the head "63-Community Development Projects, National Extension Service and Local Development Works" which has been put up separately.

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 427. Scheme for re-organisation of Talavchora Carpentry Workshop run by the Talavchora Panchal Wood and Iron Workers' Co-operative Society Limited, at Talavchora, District Surat—for the manufacture of bullock carts.

Recurrent ...	... Rs.	*Nil.*	Non-recurrent ...	... Rs.	25,000
Total ...	... ,,	25,000			

Remarks.—Talavchora is a village in Chikhali Taluka of Surat District. The main population of this village consists of some hundred families of hereditary carpenters known as Panchals. Their main occupation is to manufacture bullock carts. All of them are skilled workers in carpentry and can do even furniture and body building work of trucks also efficiently. They were working individually so far, till they were organised into an Industrial Co-operative Society. They have built up a workshop building with a view that they can undertake joint production work. The Workshop at present is equipped with a Band-saw. The Society also intends to install further machinery in their Workshop for supplying the members of the Society semi-finished parts of the cart which they would assemble in the Workshop. Thereby the Society hopes to cut down the cost of production.

2. The carpentry and smithy is an age-old village industry and its importance in rural economy is only next to weaving and leather industry. In the case of this particular society, it has a membership of 85 workers. All of them are skilled workers in carpentry and so to say specialists in the manufacture of bullock carts. Their carts are not only finding markets in Surat District but also in the neighbouring districts of Dangs, West Kahandesh and Broach. For Rural India, the importance of bullock carts is in no way diminished in spite of the fact that our country is fast developing, in the modern means of transport, such as railways, motor trucks, etc. Unless better methods of production and organised ways of working are brought home to the village artisans, it is not possible to stand in competition to bring down the cost and to develop village industries.

3. The Scheme envisages a total expenditure of Rs. 1,77,192. The details of expenditure are as indicated below :—

	Rs.
(*A*) *Non-recurring*—	
(1) Workshop building—the Society has completed the building at a cost of ...	41,640
(2) *Machinery, tools and equipment*—	
(The Society has installed a 45/49 B. H. P. horizontal diesel engine to work a 42 inches Band-saw and other machinery which the Society may add in its Workshop later on).	21,552
	63,192
(*B*) *Recurring*—	
(*1*) *Pay of Supervisory and controlling staff*—	
(i) One Secretary at Rs. 140 per mensem in the grade of Rs. 100—8—140—10—150.	1,680
(ii) One Carpentry Forman on Rs. 150 per mensem in the grade of Rs. 150—10—200.	1,800
(2) *Allowances and Honorararia of the Supervisory and Controlling staff*—	
(i) Dearness Allowance	1,200
(ii) Travelling Allowance	320
(3) *Pay of other staff*—	
(i) Band-saw operator at Rs. 150 per mensem fixed inclusive of Dearness Allowance.	1,800
(ii) Engine Driver at Rs. 100 per mensem fixed inclusive of Dearness Allowance.	1,200
(*C*) *Contingencies*—	
(1) Raw-materials, diesel oil, lub. oil and other minor operational expenses ...	60,000
(2) Wages to carpenters working on piecework basis	40,000
(3) Depriciation on workshop building at 5 per cent. per annum	2,082
(4) Interest on working capital of Rs. 25,000 at 4½ per cent.	1,125
(5) Postage and Stationery	200
(6) Miscellaneous Expenses	438
	1,11,845

MINISTER IN CHARGE—SHRI M. P. PATIL.

4. From the above scheme, it is seen that out of the Government loan already granted to the Society to the extent of Rs. 43,000, the Society has completed the construction of building and has purchased tools and equipment worth Rs. 21,552. It is proposed to provide the Society with a grant-in-aid of Rs. 5,000 per year for first three years for management cost, a working capital of Rs. 25,000 with interest at the rate of Rs. 4½ per cent. per annum and also a grant-in-aid of Rs. 15,000 towards the Workshop building. The working of the Society when implemented will be carried on under the direct supervision of the Government Officer who has been appointed to work as Secretary of the Society and the Carpentry Foreman. As there will be assured market for the bullock carts, the scheme has got fairly good changes of successful working. The anticipated receipts would be approximately Rs. 1,16,000 and the net profit would be nearly Rs. 2,000.

5. A separate provision for grant-in-aid has been made under "43, Industries—B— Cottage Industries". The Government of India, Ministry of Commerce and Industry has been requested to sanction the grant and the loan to the Society.

MINISTER IN CHARGE—SHRI M. M. NAIK-NIMBALKAR.

ITEM 428. Loan to Bombay Electricity Board for Grid and other schemes to be carried out by the Board

Recurrent ...	... Rs. *Nil.*	Non-recurrent ...	... Rs. 3,00,00,000
Total ...	... ,, 3,00,00,000		

Remarks.—In exercise of the powers conferred under section 5 of the Electricity (Supply) Act, 1948, Government has constituted the Bombay Electricity Board with effect from 6th November 1954. All Electric Grid Schemes and Power Houses and establishment sanctioned therefor, which were under the Public Works Department up to 6th November 1954, have been transferred to the Board from the date of its formation with the exception of the following schemes :—

(*i*) Koyna Hydro-Electric Grid Scheme.

(*ii*) Vijapur Power House.

(*iii*) Ambernath Power House.

(*iv*) Trimbak-Vidya-Mandir Power House at Nasik.

2. On the basis of rough forecast of capital expenditure expected to be incurred and the revenue surplus likely to be realised, the Board has requested for providing an amount of Rs. 3·5 crores in the next year's budget estimates on account of loan to the Board. Against the capital expenditure of Rs. 4·94 crores, the Board expects that actual payment required to be made during the course of the next year will be Rs. 4·32 crores only. Revenue surplus is estimated at Rs. 70,53,500. The net financial assistance asked for by the Board for the next financial year is Rs. 3·5 crores.

3. The capital expenditure of Rs. 4·94 crores comprises of the spill over (expenditure on schemes in progress and required to be continued during next Five-Year Plan) and expenditure on new schemes during 1956-57 i.e. the first year of Second Five Year Plan period. The scheme-wise details are as under :—

Serial No.	Name of Scheme.	Expenditure during 1956-57. Spill over.	2nd Five-Year Plan.
1	2	3	4
		Rs. (in lakhs).	Rs. (in lakhs).
1	North Gujarat Electric Grid Scheme	5·43	.....
2	North Gujarat Electric Scheme—		
	(*a*) Sanctioned Extensions	44·74	.....
	(*b*) Electrification of new villages	.....	5·00
	(*c*) Additional street lights and service connections to the villages.	.....	2·00

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE—SHRI M. M. NAIK-NIMBALKAR.

Serial No.	Name of Scheme	Expenditure during 1956-57	
		Spill over	2nd Five-Year Plan.
1	2	3	4
		Rs. (in lakhs)	Rs. (in lakhs)
3	Extension to North Gujarat Electric Grid Scheme under Second Five-Year Plan.	.....	42·00

	(c) Sirsi-Karwar Scheme	.....	5·00
	(d) Diesel Nursery Electrification Scheme	.....	3·00
		344·51	150·31

The forecast of the capital expenditure includes the expenditure of Rs. 1,33,00,000 on schemes financed from Government of India loan of Rs. 284·31 lakhs for the First Five Year Plan. Against the provision of Rs. 1·5 crores for spill over in the draft Second Five-Year Plan, the Board has estimated the requirement for spill over at Rs. 542 lakhs. An expenditure of Rs. 37·73 lakhs was expected to be incurred on Chola Power House Second Extension during the current financial year. This is, however, not considered possible now. Thus, the total spill over is estimated at Rs. 579·73 lakhs (Rs. 542 lakhs *plus* Rs. 37·73 lakhs).

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE —SHRI M. M. NAIK-NIMBALKAR.

4. The details of the revenue surplus of Rs. 70,53,500 expected by the Board during 1956-57 are as under :—

	Name of Scheme.	Net Revenue i.e., difference of Revenue Receipts and Revenue Expenditure during 1956-57.
		Rs.
1.	North Gujarat Electric Grid Scheme	9,00,000
2.	Supply to Bhusawal and H. T. Consumers	.....
3.	South Gujarat Electric Grid Scheme and Extensions	18,00,000
4.	Merged States Power Houses and Additional street lights and service connections for the villages.	—1,73,000
5.	Radhanagari Hydro-Electric-cum-E. I. Schemes and Extensions ...	7,52,000
6.	Jog-Karnatak Electric Grid Scheme and Extensions	3,64,800
7.	(a) Diesel Nursery Schemes and Extensions	—2,05,300
	(b) Schemes under 2·84 crore loan for diesel nurseries	.....
8.	Chola Second Extension	36,15,000
		70,53,500

5. While asking for financial assistance to the extent of Rs. 3·5 crores, the Board has not taken into consideration the interest charges on Government loans to the Board under section 60(2) and 64 of the Electricity (Supply) Act, 1948. The amount to be declared as loan under section 60(2) of the Act and the rate of interest thereon, are not yet finally decided. Under section 64 of the Act, a loan of Rs. 25 lakhs, was sanctioned during 1954-55. During 1955-56, the total loan sanctioned so far is Rs. 75 lakhs. Interest charges for 1956-57 on the loans sanctioned under section 64 of the Act at 4½-1 will be as under—

(i) Rs. 1,12,500 on 25 lakhs.

(ii) Rs. 3,37,500 on 75 lakhs.

The instalments towards repayment of the loans referred to above have also not been taken into account by the Board as it would not be possible for it to return any part of the loan in the next financial year. The net amount of loan asked for by the Board for the next year is Rs. 3·5 crores excluding interest charges and instalments towards repayment of loans.

6. It is proposed to make a provision of Rs. 3·0 crores for granting loan to the Bombay Electricity Board during the next year (1956-57.)

MINISTER IN CHARGE—SHRI M. P. PATIL

ITEM 429. Scheme for development of Coir Industry in the Bombay State.

Recurrent	... Rs. *Nil.*	Non-recurrent	... Rs. 17,000.
Total	... ,, 17,000.		

Remarks.—Please see New Item No. 305 under the '43-Industries'. A loan provision of Rs. 17,000 is required during 1956-57 for the above scheme.

ITEM 430. Implementation of Pilot scheme in districts of Broach, East Khandesh and Dharwar: Grant of loans—

Recurrent	... Rs. *Nil.* ...	Nlon-recurrent	... Rs. 12,02,500
Total	... ,, 12,02,500		

Remarks.—Government has already sanctioned pilot schemes in the districts of Broach, East Khandesh and Dharwar with a view to attempting intensive development of co-operative movement in its various aspects, with particular emphasis on extension of agricultural credit co-operative marketing of agricultural produce. It is proposed to continue the scheme in the three districts with some additions and modifications. The following provisions are proposed for grant of loans to various co-operative institutions.

P—LOANS AND ADVANCES BY STATE GOVERNMENT—*contd.*

MINISTER IN CHARGE—SHRI M. P. PATIL.

Multi-Purpose Societies.

It is proposed to continue the grant of subsidies and loans to large sized multi-purpose societies for construction of godowns at Rs. 10,000 per godown (75 per cent. loan and 25 per cent. subsidy). About 85 Co-operative Societies are expected to take up construction of godowns for which it will be necessary to make provisions of Rs. 6,37,500 as loan.

Marketing Co-operative Societies.

Construction of godowns is an essential activity in furtherance of the objective of marketing agricultural produce through marketing co-operatives. It is, therefore, proposed that Government should offer assistance to the full extent of the cost of godowns. 1/4th as subsidy and the rest as loans. There will be 69 marketing co-operatives in the three districts. Eleven medium sized godowns costing Rs. 20,000 each and six large sized godowns costing Rs. 40,000 each are proposed to be built during the next year. A provision of Rs. 3,45,000 as loan will be required for the year 1956–57.

Regulation of Markets.

It is proposed to cover all the major and minor markets in the three districts by the end of the next five years. The Market Committees will have to be helped by way of loans towards the cost on account of acquiistion of sites and development of market yeards. A provision of Rs. 2,20,000 may be made for the purpose in the next year's estimates.

The details of the provision of Rs. 12,02,500 are as under :—

Major head.	Minor Head.	Sub-head.	Amount of provision for 1956–57.
			Rs.
P–Loans and Advances by State Government.	Class I-Advances to cultivators.	1. Advances to Co-operative Multipurpose Societies in the districts of Broach, East Khandesh and Dharwar for construction of godowns	6,37,500
		2. Advances to Marketing Societies in the districts of Broach, East Khandesh and Dharwar, for construction of godowns.	3,45,000
		Total—Class I ...	9,82,500
Do.	Class IV—Loans to Municipalities, Local Boards etc.	1. Loans to Agricultural Produce Market Committees in the districts of Broach, East Khandesh and Dharwar.	2,20,000
		Class IV ...	2,20,000
	Total—P–Loans and Advances (Class I and IV)	...	12,02,500

An amount of Rs. 12,02,500 will be forthcoming by way of laon during 1956–57 from the Reserve Bank of India.

ITEM 431. Loans for construction of houses for Backward Classes through the agency of building societies.

Recurrent ...	... Rs. *Nil.*	Non-recurrent ...	... Rs. 10,80,000
Total ...	... ,, 10,80,000		

Remarks.—Government has sanctioned a scheme, known as the Post War Reconstruction Scheme No. 219 of the B. C. Housing Societies, with a view to provide housing facilities to the B. C. population of the State through housing societies organised for them etc., and the scheme has also been continued under the First Five-Year Plan. The facilities provided under the scheme have been restricted to scheduled tribes and scheduled castes population, since 14th August 1953, so far as new organisations are concerned. In view of the limited work done so far and the great demand of the backward classes for housing facilities, it is proposed to continue the scheme under the Second Five-Year Plan.

The basis of the financial assistance, proposed to be granted under the Scheme, during the Second Plan period, will remain the same, as at present. Government land will be made available to the societies free of cost for their housing sites, and where suitable government lands are not available, private lands will

be purchased and acquired for them at Government cost. Further, Government assistance will be restricted to 75 per cent. of the estimated cost of houses and 60 per cent. in respect of cattle sheds and barns (in case of agriculturists). The various cost limit for houses prescribed for different tracts and the cost limit for cattle shed and barn will remain as at present. Subsidy will also be granted towards the cost of management of these societies, as here-to-fore. However, in view of the poverty and inability of the people belonging to scheduled castes, scheduled tribes and ex-criminal tribes, it is proposed to introduce and element of subsidy also in respect of financial assistance proposed to be granted towards construction cost.

In view of the limited funds available for this Scheme, under the Second Five-Year Plan, no additional new organisations will be taken up. No new land acquisition cases on behalf of such societies will also be taken and only the land acquisition cases already sanctioned by Government or already started in one form or the other will be finalised and paid. Exception is, however, proposed to be made in the case of ex-criminal tribes Housing Societies and their new land acquisition cases will also be entertained, since the number of such societies granted financial assistance under the Scheme is very small. Further, where suitable government lands are available, they will be continued to be granted to all such societies as here-to-fore. At present, Backward class individuals are also eligible for direct loans under the Scheme, in areas where no housing societies can be formed for them, and in hard cases and with Government approval. Such direct loans to Backward class individuals will not be granted under the Second Plan in view of inadequate funds. So far the provision required for the housing societies registered under the Scheme used to be made as a whole. Now it is proposed to indicate the provision required for each class of societies, under the Scheme separately. Further, the subsidy provided for house construction and construction of cattle sheds and barns, is slightly more liberal in respect of housing societies of ex-Scheduled Castes. No subsidy provision has been made in cases of housing societies of other backward classes. Further details in respect of each class of housing societies registered under the Scheme is furnished below :—

Ex-Criminal Tribes Housing Societies.—Up to 31st March 1956, a housing societies of ex-criminal tribes are expected to be financed and Rs. 50,000 are expected to remain unpaid in respect of the sanctioned loans. During the period of the Second Five-Year Plan, it is proposed to meet not only this outstanding liability, but also be finance all the remaining 15 ex-Criminal Tribes housing societies registered so far, inclusive of 5 such societies registered after 14th August 1953 and not included so far among the societies registered under the Scheme, but now proposed to be included in the Scheme, in view of the small number of such societies so far registered under the Scheme. Each such society is taken as consisting of 20 members. The prescribed cost of construction of houses under the scheme varies at present from Rs. 800 to Rs. 4,000 for different tracts. Of the prescribed estimated cost, 75 per cent. is now being made available as loan. In the case of ex-Criminal Tribes Societies, on an average, the estimated cost of house is taken at Rs. 2,000 os some may be in urban areas and some in rural areas.

Of the estimated cost, 75 per cent. is proposed to be made available as Government assistance by way of loan and subsidies on 50 50 basis. Again, 20 per cent. of the members are taken as agriculturists and each one will get Government assistance of Rs. 60 towards construction of cattle shed and barn, of which Rs. 30 will be loan and Rs. 30 subsidy. As such, each society of ex-Criminal Tribes on an average, is expected to require a loan of Rs. 15,120 and a subsidy of an equal amount on behalf of 20 members ; and on this basis 15, ex-Criminal Tribes housing societies are expected to require Rs. 2,27,000 as loan and an equal amount as subsidy for construction of houses and cattle sheds and barns. At the commencement, one land acquisition of such society is expected to be in progress. Five more cases are likely to be taken up during the plan period. These 6 land acquisition cases are expected to require a subsidy of about Rs. 66,000. The 24 ex-Criminal Tribes housing societies, which are likely to be financed by the end of the Second Five Year-Plan will be require Rs. 11,000 by way of subsidy towards cost of management, at the prescribed rate, for the plan period. Thus the total cost of ex-Criminal Tribes housing societies will be Rs. 2,77,000 by way of loan and Rs. 93,000 by way of non-recurring subsidies and Rs. 11,000 by way of recurring subsidy for the Plan period, as indicated in the earlier statement.

Scheduled Tribes Housing Societies.—Upto 31st March 1956, 14 societies of scheduled tribes are expected to be financed and Rs. 90,000 are likely to remain unpaid in respect of sanctioned loans. During the period of the Second Five-Year Plan, it is proposed to finance 62 additional societies of scheduled tribes, in addition to paying of the undrawn portion of the loans sanctioned up to 31st March 1956. Each society is taken as consisting of 20 members, of which again 20 per cent. will be agriculturist. Scheduled tribes are mostly confined to the scheduled areas and backward areas. The present prescribed estimated cost of houses for such tracts is Rs. 800 per house for scheduled areas, and a little more i.e. Rs. 1,000 for other backward areas. As such, the average estimated cost of houses of scheduled tribes is taken at Rs. 900 each. Of the estimated cost of the houses, 85 per cent. will be available as Government assistance of which 50 per cent. will be loan and 50 per cent. as subsidy. Again agricultural member will be eligible to Government assistance at Rs. 60 per member, for cattle shed and barn of which again 50 per cent. will be loan and 50 per cent. subsidy. On this basis, each society of 20 members is expected to require government assistance of Rs. 6,870 as loan and Rs. 6,870

as subsidy. The 62 housing societies together will thus require Rs. 4,26,000 as loan and Rs. 4,26,000 as subsidy for the period of the plan. As at the commencement of the Plan, one land acquisition case of such society already sanctioned may still remain unpaid. Again, 23 land acquisition cases of such societies are expected to be in progress at the commencement of the Second Plan. Though no fresh land acquisition cases will be taken up, these 24 cases will require a subsidy of Rs. 2,64,000 during the plan period. These societies will also be eligible for subsidy towards cost of management, and this is expected to cost Rs. 29,000 for the plan period, for the 76 societies of this class proposed to be financed by the end of the Second Five-Year Plan. The total cost of such societies for the Plan period would thus be Rs. 5,16,000 by way of loan, Rs. 6,90,000 as non-recurring subsidy and Rs. 29,000 as recurring subsidy, as detailed in the earlier statement. As at the end of the Second Five-Year Plan, 13 of such societies already registered will remain unfinanced and without lands.

Scheduled Casted Housing Societies.—Up to the end of the First Five Year-Plan, 55 societies of scheduled castes are expected to be financed of which again Rs. 7,10,000 may remain unpaid towards the 2nd instalments and parts of 2nd instalments undrawn by such societies. These amounts are expected to be drawn by the societies during the Second Plan period. In addition, it is proposed to finance 64 more scheduled caste housing societies within the plan period. Each of the societies is again taken as consisting of 20 members on an average of which 20 per cent. are expected to be agriculturists. There are many societies of scheduled castes in urban and industrial cities like Bombay, Sholapur, Ahmedabad, etc., for which the prescribed estimated cost of houses is Rs. 4,000 each, whereas the estimated costs of houses for other tracts vary from Rs.800 to Rs. 1,500 each. As such, the average estimated cost of construction of houses of such societies is taken at Rs. 2,800 each. Of the estimated cost of construction, 75 per cent. will be made available as Government assistance, 2/3rds of which will be loan and 1/3rd will be subsidy. The members of scheduled caste, though poor, are generally better off than members of scheduled tribes and ex-criminal tribes and, therefore the subsidy portion of Government assistance is kept at 1/3 and the loan portion of 2/3rds, instead of 50 : 50 per cent. as in the case of scheduled tribes and ex-criminal tribes housing societies. The agriculturists members will again get Rs. 60 each towards cattle shed and barn of which Rs. 40 will be loan and Rs. 20 subsidy. Thus, on an average, one society of scheduled caste is expected to require Government assistance to the extent of Rs. 42,240 of which Rs. 28,160 will be loan and Rs. 14,080 will be subsidy. The 64 societies together will thus require Rs. 18,13,000 as loan and Rs. 9,01,000 as subsidy for the period of Second Five-Year Plan, for construction of houses, cattle sheds and barns. Six sanctioned cases of land acquisition may remain unpaid as on 31st March 1956. In addition, 31 land acquisition cases may remain in progress. These 37 cases will cost Rs. 4,08,000 by way of subsidy during the plan period. Such societies will again require Rs. 50,000 by way of subsidy towards cost of management on behalf of 119 societies likely to be financed up to the end of Second Five-Year Plan. The total cost of scheduled caste housing societies for the period of the Second Plan will thus be Rs. 25,23,000 by way of loan and Rs. 13,09,000 by way of non-recurring subsidy and Rs. 50,000 by way of recurring subsidy as already indicated in the foregoing paragraphs. As at the end of the Second Plan, 21 of such societies already registered are expected to remain without lands and 108 such societies without necessary financial assistance from Government.

Other Backward Class Housing Societies.—Up to 31st March 1956, 16 societies of this class registered before 14th August 1953, are expected to be financed and about Rs. 2,50,000 may remain unpaid in respect of undrawn instalments of loans. In respect of 4 land acquisition cases, already sanctioned, or in progress, Rs. 44,000 are expected to remain as payable, as on 31st March 1956. Except for these payments, and subsidies that will have to be paid towards the cost of management of those 16 societies already financed, no further funds are proposed to be expended during the Plan period, in respect of such societies though they might have been registered before 14th August 1953. The total cost of these other backward class housing societies, as indicated above, will thus be Rs. 2,50,000 by way of loans and Rs. 44,000 by way of non-recurring subsidy, and Rs. 8,000 by way of recurring subsidy towards cost of management of the 16 housing societies referred to above. As at the end of the Second Five-Year Plan, 5 of the other backward class housing societies registered before 14th August 1953, will remain without lands and 28 such societies without loans, etc. under the Scheme.

Thus, of the 379 societies already registered under the Scheme, and 5 societies of ex-criminal tribes already registered and now proposed to be included under the Scheme, 345 societies are expected to get housing sites—Government lands-free of cost or private lands acquired at Government cost by the end of Second Plan and the remaining 39 societies (which may require land acquired or purchased at Government cost) will remain without lands. Further, of the 345 societies, which are expected to secure lands, 225 societies are expected to be fully financed by the end of the Second Plan period, as provided in the Scheme. The total cost of the Scheme to Government for the five years of the Second Plan will thus be Rs. 35,66,000 by way of loan and Rs. 24,34,000 by way of subsidy as detailed in the foregoing paragraphs.

The necessary provision on account of subsidies, etc. under the Scheme has been proposed separately.

The above provision of Rs. 10,80,000 is only on account of loans under the Scheme for the next year. The loan assistance expected from the Central Government during 1956-57 is Rs. 10,80,000.

P—LOANS AND ADVANCES BY STATE GOVERNMENT—contd.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 432. Grant of loans to the Co-operative Farming Societies.

Recurrent ...	... Rs. *Nil.*	Non-recurrent ...	... Rs. 6,31,000
Total ...	... ,, 6,31,000		

Remarks.—The scheme for the organisation of Co-operative Farming Societies has been in operation since it was sanctioned as Post-War Reconstruction Scheme No. 65 in the year 1949. The target envisaged in that Scheme was reached much earlier due to encouraging response from the agriculturists and the efforts made by the Special staff sanctioned for the scheme. The scheme was later included in the First Five Year Plan. During the First Five Year Plan efforts were made for consolidation of the farming societies already registered, rather than for expansion of the scheme.

2. Having regard to the possibilities of organising new farming societies on Government waste lands which under the existing orders are being granted to backward class landless persons and also having regard to the desirability of organising joint farming societies on occupied lands to correct the defects of uneconomic peasant proprietorship, it is proposed to undertake further phase of expansion of the farming scheme during the Second Five Year Plan period. It is proposed to organise in all 100 new societies during the Second Five Year Plan period. One aspect of the scheme would be to endeavour to settle the new grantees of Government waste lands into farming co-operatives which would be assisted financially and technically. The other aspects of the scheme would be to encourage by means of sutable assistance both financial and otherwise, the organisation of C-operative Joint Farming Societies of persons whose holdings are small and who would benefit by increasing the unit of cultivators.

3. The details of financial assistance to be made available to the societies mentioned in paragraph 2 above have been indicated in the new item put up under the head "42, Co-operation" for subsidies to the Farming Societies and also for creation of staff for the farming scheme. Hitherto the Co-operative Societies taking lands from Government for cultivators are held eligible for loan and subsidy equal to 75 per cent. and 25 per cent. respectively of the cost of development of lands. The Co-operative Farming Societies developing private lands are held eligible only for loans. It is now proosed to give financial assistance to farming societies for land development purposes on the following basis during the period of the Second Five Year Plan :—

1. Rs. 8,000 loan and Rs. 2,000 subsidy. ... For each society with Government land.
2. Rs. 2,000 subsidy. ...For each society with private land.

4. On the above basis a total provision of Rs. 7·20 lacs has been made in the Second Five Year Plan for grant of loan to the Co-operative Farming Societies for land development purposes. As it is expected that about 40 societies would approach Government for grant of loans for land development purpose during the year 1956–57, a provision of Rs. 3,20,000 (Rs. 8,000 × 40) is proposed to be made for the purpose in the budget of that year.

5. It is proposed to make available to the Co-operative Farming Societies medium and long term loans for the purposes of such as purchase of live-stock, small implements, etc., and for development and improvement of land construction of wells, banding, levelling, installation of pumping sets, purchase of costly implements and accessories, wire, fencing construction of cattle sheds and godowns, organisation of subsidiary industries, etc.

A lump sum provision of Rs. 20.55 lacs has been made in the Second Year Five Plan for grant of loans fo the Co-operative Farming Societies for the aforesaid items, out of which provison of Rs. 3·11 lacs is proposed to be made in the 1956–57 budget.

6. To sum up a total provision of Rs. 7,31,000 is proposed to be made in the 1956–57 budget as per particulars given below :—

	Rs.
(*i*) Grant of loans to the Co-operative Farming Societies for land development	3,20,000
(*ii*) Gant of loan to the Farming Societies for purposes mentioned in paragraph five above.	3,11,000
Total ...	6,31,000

The loan assistance expected from the Government of India during 1956–57 is Rs. 5,05,000.

7. The details regarding scales of loans to be granted to the societies for the various purposes mentioned in paragraph 5 above have been called for from the Registrar of Co-operative Societies, and the requisite Government orders laying down for scales of loans admissible to the societies for the various purposes, will be issued after the proposed budget provision is finally retained in the 1956–57 budget.

P—LOANS AND ADVANCES BY STATE GOVERNMENT—concld.

MINISTER IN CHARGE—SHRI M. P. PATIL.

ITEM 433. Handloom Development Schemes. Continuance of—

Recurrent ..	.. Rs. *Nil.*	Non-recurrent ..	.. Rs. 24,36,000
Total ..	.. „ 24,36,000		

Remarks.—Since 1953-54, the Government of India is sanctioning financial assistance to this Government for the development of handloom industry out of "Cess Fund". So far 30 different schemes have been sanctioned involving an expenditure of about Rs. 63 lakhs. The ceiling limit of such assistance for Bombay State for 1956-57 is Rs. 48·72 lakhs.

2. According to revised instructions of the Government of India, the Schemes sanctioned by them would be continued during the next financial year for making a formal request indicating the unspent amount that would be available under each scheme. Further, financial assistance under schemes sanctioned by the Government of India after 25th August 1954 will not be placed at the disposal of the State Government immediately. The State Government will have to finance the schemes initially and claim the amount from the Government of India through the Accountant General, Bombay and the Deputy Accountant General (Industries, Production and Supply), Bombay.

3. The question whether assistance from the "Cess Fund" should be treated as Central assistance outside the Second Five Year Plan has been referred to the Planning Commission, Government of India.

4. A provision of Rs. 24,36,000 is proposed under "43, Industries—B—Cottage Industries" also.

List of New Major Works for 1956-57 under "81-Capital Account of Civil Works outside the Revenue Account".

BUILDINGS.

Note.—The provisions for 1956–57 are arrived at after deducting establishment and tools and plant charges from the accepted provision.

Serial No.	Executive Division.	Locality.	Name of Work.	Amount of estimate.	Provision in 1956-57.	Remarks.
1	2	3	4	5	6	7
				Rs.	Rs.	
			GENERAL ADMINISTRATION.			
1	Broach ...	... Valia ...	... Construction of two units each '25' apart for clerical staff at Valia.	68,656	17,470	It is necessary to construct these quarters immediately as suitable accommodation is not available, the area being a scheduled caste area. Estimates approved under Government Memorandum No. BLD. 1953-A, dated 17th February 1955.
2	Sabar Kantha	... Himatnagar, Idar, Khedbrahma.	Construction of clerical quarters at Himatnagar, Idar and Khedbrahma in Sabar Kantha District (for Revenue Department).	3,26,840	43,670	Due to acute shortage of residential quarters for the clerical staff and non-availability of suitable building on hire it is proposed to construct new clerical quarters for the staff of Revenue Department. Administratively approved under Government Letter, Revenue Department, No. 7295/49-C, dated 3rd December 1951, and technically sanctioned under Government Letter, Public Works Department, No. SSW. 7352-W, dated 26th November 1952.
3	Poona ...	... Settlement Commissioner and Director of Land Records.	Construction of new building for the Government Photo Registry, Poona.	6,00,000	87,340	The Government Photo Registry is at present housed in temporary sheds in the compound of the Government Photo Zinco Press. The need for an adequate building for the Government Photo Registry has been increasingly urgent. The plans and estimates are likely to be completed soon.
			ADMINISTRATION OF JUSTICE.			
4	Idar, Himatnagar	... Sabarkantha	... Construction of quarters for the staff of the Judicial Department at Himatnagar and Idar.	1,07,600	26,200	Due to acute shortage of residential quarters for the electrical staff and non-availability of hire it is proposed to construct new quarters for the staff of the Judicial Department.
			JAILS AND CONVICT SETTLEMENTS.			
5	Nasik (R. & B.)	... Nasik ...	... Construction of quarters for additional Jail Guarding and other staff at Nasik Road.	89,065	77,730	This is a scheme for the construction of quarters for certain staff at various Jails. The Jail staff has got to stay in the premises and absence of quarters causes great inconvenience. As the actual estimates for the works were likely to be higher than anticipated and funds allotted to Jail Department were limited Government reduced the numbers of quarters to be built from 214 to 100. Revised plans and estimates were called for an administrative approval was accorded to the scheme at an estimated cost of Rs. 4,25,504 (*vide* Government Resolution, Home Department, No. 2456/5, dated 12th December 1949). These were further ordered to be revised.
6	Bijapur Division	... Bijapur ...	... Construction of quarters for additional Jail Guarding and other staff at Bijapur.	56,488	49,780	

Serial No.	Executive Division.	Locality.	Name of Work.	Amount of estimate.	Provision in 1956-57.	Remarks.
1	2	3	3	5	6	7
			POLICE.	Rs.	Rs.	
7	Ahmedabad, Kaira, Poona, Belgaum, Bijapur, Kanara, Kolaba, East Khandesh.	Ahmedabad City and Rural, Kaira, Poona, Belgaum, Bijapur, Karwar, Alibag, Bhusaval, District East Khandesh.	Construction of 1252 quarters for constabulary at various places.	38,22,356	18,93,450	The strength of the Police Force has increased appreciably during the recent years and as a result the problem of housing the policemen has become very acute. The Policemen are entitled to rent free quarters of Government but it is not practicable to provide quarters to all policemen who have not been provided with the Government quarters. Efforts are made to secure quarters e ther on hire or by requisitioning wherever possible but the required number of quarters are not available due to the housing scarcity prevailing in cities and towns. The only course is therefore for Government to construct the quarters. The cost of constructing permanent quarters is very high and it is therefore proposed to construct temporary but durable quarters according to a suitable design approved by Government. Each such quarter is estimated to cost Rs 3,053 without light and water tap connection in the quarter. The proposal is to construct quarters first for those policemen only who are absolutely without any quarters at present. It is proposed to construct 1,252 quar'ers during 1956–57 in Ahmedabad City and Ahmedabad Rural, Kaira, Poona, Belgaum, Bijapur, Karwar, Alibag and Bhusaval. The quarters to be built according to approved type design. Administrative approval for the construction of 20 quarters in Ahmedabad City, for the construction of 40 quarters at Bhusaval and for the construction of 194 quarters at Alibag has been accorded and it will be given for the works of construction at other places soon.
8	Presidency Division ...	Greater Bombay ...	Construction of an additional storey over the existing Police Lines in the compound of the Head Police Office, Bombay.	2,39,145	2,08,730	There is acute shortage of accommodation for the Constabulary in Greater Bombay. The work was administratively approved in January 1952. It was proposed for the years 1954–55 and 1955–56, but was not accepted.
			EDUCATION.			
9	Presidency Division ...	Bombay ...	... Hostel for students of Government Colleges in Bombay.	11,18,546	2,62,000	Government Law College and the Institute of Science, Bombay, have no hostels of their own. At present few seats at the Telang Memorial Hostel and the Students' Hostel, Bandra, are reserved for these two institutions. This arrangement is found to be inconvenient. The demand for additional hostel accommodation from these two institutions is increasing every year. In view of the decision of Government to release the property at Lands' End Bandra, the Students Hostel located there on, will be closed from 1st April 1956. The need for a hostel to cater to the needs of the students who will be displaced as a result of the closer has, therefore, become emergent. The Plot No. 47 at the Backbay Reclamation has been reserved for construction of a hostel for the Government Law College. It is proposed to utilise this plot for construction of a hostel on the lines of the Women Students' Hostel, Bombay 4. Plans and estimates have been approved administratively.
10	Poona ...	... Poona ...	... Construction of the buildings for the introduction of post graduate Course and post diploma Course in Automobile Engineering at the College of Engineering, Poona.	79,500	52,400	At present no facilities for elementary training in Automobiles in the State exist. With the advent of the nationalization of the Road Transport the need for qualified automobile Engineers has become greater. In order to make up this deficiency to some extent at least it is proposed to start a post graduate and a post diploma training in automobile Engineering at the College of Engineering, Poona. It is therefore necessary to put up a small workshop

						building for the above course. The Plans and Estimates are under preparation and will be administratively approved. As however the work is of an urgent nature it is proposed to provide for the work in the budget estimates 1956-57.
11	Do.	Do.	Construction of building for Metallurgy Department, College of Engineering, Poona.	3,00,000	43,670	The Metallurgy Department of the Poona Engineering College has no independent building of its own. The Department is at present housed in several places in the college. The University of Poona, while granting permanent affiliation of the degree course in Metallurgy made it a condition that the Department should have a separate building. The construction of building for this Department is therefore necessary.
12	Do.	Do.	Construction of New Hostel Block of the College of Engineering, Poona.	2,23,555	43,670	Under the scheme of expansion of College of Engineering, Poona, several Post Graduate Courses and additional degree courses have been started for all branches of Engineering education. The annual intake of students both for the degrees and diploma courses is almost double than what it was before the First Five-Year Plan. The existing strength of the College is about 1,200 students for degree and diploma courses. In order that the students from outside Poona can avail of the facilities for engineering education at the College of Engineering, Poona, the additional building is necessary. The estimated cost of the building is Rs. 2,23,555.
13	Do.	Do.	Construction of New Drawing Hall at the College of Engineering, Poona.	1,40,000	43,670	The existing drawing hall of the College is inadequate to meet the requirements of all the students of the college which has now rises to about 1,200 students both for degree and diploma courses. It is therefore necessary to construct an additional drawing hall costing about Rs. 1,40,000 for Poona Engineering College.
14	Do.	Do.	Construction of new approach Road of the College of Engineering, Poona.	31,407	27,400	The various buildings under the Scheme for expansion of the College of Engineering, Poona, have been put up at different times. There is a necessity to construct approach road to all these buildings at an estimated cost of Rs. 31,407.
15	Do.	Do.	Construction of new building for Auto Engineering Section of the College of Engineering, Poona.	1,10,238	51,180	The Auto Engineering Section at the College of Engineering, Poona, has no independent block for the students of that section. It is therefore proposed to construct building at an estimated cost of Rs. 1,10,238 for that section.
16	Ahmedabad ...	Ahmedabad	Construction of Hostel Block at the L. D. College on Engineering, Ahmedabad.	3,50,000	65,500	The annual intake of the College of Engineering, Ahmedabad, has been increased from 75 students to 150 students for Degree Courses and from 100 to 150 for Diploma courses from the current academic year. The existing hostel block is therefore inadequate to meet the requirement of all the students of the College. It is proposed to construct additional block for students of this College at an estimated cost of Rs. 3,50,000.

Serial No.	Executive Division.	Locality.	Name of the work.	Amount of estimate.	Provision in 1956-57.	Remarks.
1	2	3	4	5	6	7
				Rs.	Rs.	
17	Ahmedabad ...	... Ahmedabad ...	Construction of Mechanical Block at the L. D. College of Engineering, Ahmedabad.	2,50,000	43,670	The annual intake of students at the L. D. College of Engineering, Ahmedabad, has increased from 75 students to 150 students for Degree Courses and from 100 to 150 for Diploma courses from the current year. In view of the increase in the number of admission additional Mechanical Block is required as early as possible. It is proposed to construct Mechanical Block at an estimated cost of Rs. 2,50,000.
18	Do.	... Do. ...	Construction of Hall at the L. D. College of Engineering, Ahmedabad.	90,000	21,830	The annual intake of students of L. D. College of Engineering, Ahmedabad, has increased from 75 students to 150 students for Degree Courses and from 100 to 150 for Diploma Courses from the academic year 1955-56. The existing drawing hall of the College is therefore insufficient for all the students of the College. It is therefore proposed to construct an additional drawing Hall at an estimated cost of Rs. 90,000 for this College.
19	Do.	... Do. ...	Construction of Dispensary and Infirmary at the L. D. College for Engineering, Ahmedabad.	40,000	21,830	L. D. College of Engineering, Ahmedabad, is about 7 miles away from the main City. The students of this College which are 1,000 in number find it difficultf to secure medical aid in ordinary sickness and also in the event os emergency. The construction of Dispensary and Infirmary in the premise of the College is therefore necessary. It is proposed to construct a Dispensary and Infirmary in the College compound at an estimated cost of Rs. 40,000.
20	Do.	... Do. ...	Acquisition of land for L. D. College of Engineering, Ahmedabad.	3,00,000	61,140	The annual intake capacity of the L.D. College of Engineering, Ahmedabad, has been recently increased and also post graduate courses have been started at that College from the academic year 1955-56. The existing land of the College is therefore found to be insufficient to meet the requirements of all the Departments of the College and also for the further expansion. Acquisition of additional land contaguous to the College is therefore, necessary. It is proposed to acquire additional land for this College at an estimated cost of Rs. 3,00,000.
21	Presidency Division, Bombay.	Bombay ...	Buildings for the Technical and Vocational Training Centres, Bombay.	10,00,000	8,73,360	The existing facilities for training of craftsmen available in the State is considered to be inadequate. The existing centres under the schemes are also not evenly distributed in the various regions in the State. In view of the emphasis on the industrial zation of the country in the Second Five-Year Plan, the need for technically trained craftsmen will be far greater than at present. In order therefore, to provide for training of larger number of craftsmen and skilled labour, it is proposed to expand facilities for such training and also to provide for such training at places where there is none at present. Unless however, additional buildings are put such an expansion is not possible. It is therefore, proposed to construct additional buildings at the places indicated during the year 1956-57. The Government of India will share 60 per cent. of the total expenditure of these buildings. As however, the Government of India share will be credited to the receipt head, the entire amount is proposed to be provided in the State Budget.
22	Ratnagiri ...	... Ratnagiri ...	... Ratnagiri	1,25,000	1,09,170	
23	Sholapur	... Sholapur	... Sholapur	1,25,000	1,09,170	
24	Ahmedabad ...	— Ahmedabad.	... Ahmedabad	1,25,000	1,09,170	
25	Surat	... Surat	... Surat	1,25,000	1,09,170	

26	Ratnagiri	... Ratnagiri	... Construction of additional building for the School of Industry, Ratnagiri.	78,504	69,000	The work has already been administratively approved. The school is experiencing considerable difficulties for want of sufficient accommodations. A Technical High School has recently been started at Ratnagiri and this school is being conducted in combination with the Industrial School. Besides new courses in industrial subjects have been introduced under the reorganisation scheme. The existing accommodation is therefore, extremely inadequate to house the expanded industrial school and the newly started technical school. The additional building is therefore extremely necessary. The provision proposed is therefore, necessary. It is, therefore, proposed to take up the work during 1956-57.
27	North Thana Division	... Bombay	... Construction of additional buildings for the Government Tanning Institute and Leather Working School, Bandra.	2,15,788	52,400	The scheme of reorganisation of the Government Tanning Institute and Leather Working School, Bandra, has been approved under Government Resolution, Education and Industries Department, No. 6794, dated 28th July 1948. The Plans and Estimates, latter amounting to Rs. 2,15,788 for the construction of additional buildings for the Government Tanning Institute and Leather Working School, Bandra, have since been received and are being considered for administrative approval in consultation with the Public Works Department and Finance Department. For want of buildings the second stage of the scheme of reorganisation of the said Institution could not be implemented. It is, therefore, proposed to take up the work during 1956-57 accordingly a provision of Rs. 2,15,788 is proposed for inclusion in 1956-57 budget. The Government of India have separately offered grant to the extent of one-third of non-recurring expenditure for the reorganisation of this Institute. If this work is accepted, one-third of expenditure is likely to be shared by the Government of India.
			Construction of buildings for the Technical High School at—			
28	Poona	... Poona	... Poona	1,00,000	34,930	These schools have been started under the scheme of establishment of Multi-Lateral schools. They are at present housed in the hired premises. With a view to provide other avenue for pursuing the scholastic career of the school going population in the State and also to provide employment to educated youth, the Government of Bombay has decided to establish at least one Teacher-*cum*-Industrial school in each district. Accordingly 23 additional Tech. High Schools have been started in the State either by converting the existing section schools or providing the new ones wherever necessary. The provision for the construction of buildings for 5 schools viz., at Nasik, Belgaum, Jalgaon, Karwar, Ahmednagar exists in the current year's budget and is being included in the 1956-57 budget as work in progress. The provision is required to be made in respect of construction of buildings for the remaining Technical High Schools. It is proposed to construct buildings for these Technical High Schools in 1956-57.

Serial No.	Executive Division.	Locality.	Name of the work.	Amount of estimate.	Provision in 1956-57.	Remarks.
1	2	3	4	5	6	7
				Rs.	Rs.	
44	Kolhapur Division	... Kolhapur	... Additions and alterations to the building of the Rajaram College, Kolhapur.	80,471	70,300	The present building of the College is too inadequate to meet the expanding needs of the College. With the introduction of tutorials from the current academic year, the need for additional accommodation has become emergent. If the tutorial system is to function properly and smoothly, necessary space, must be provided to enable staff and students to meet in batches.
45	Mehsana District	... Visnagar, Mehsana District.	Hostel for boys at the M. M. College, Visnagar ...	1,81,000	1,57,730	The existing hostel can accommodate about 50 students only. Arrangement are made for about 22 students in a rented building under the arrangements between the donor of the college and the Ex-Baroda State, it is necessary to provide accommodation for 200 students. The proposed work is designed to fulfil this condition.
46	Dharwar Division	... Dharwar	... Construction of a first floor of the B.Sc. Chemistry Laboratory of the Karnatak College, Dharwar.	62,296	54,410	The existing B.Sc. Chemistry Laboratory is found to be too inadequate to meet the expanding need on account of increasing demand for admission to the Science Course at the Karnatak College. The proposed first floor when constructed, will meet needs of the students for admission.
47	Presidency Division	... Bombay	... Construction of building for the establishment of a Department of Printing Technology.	1,00,000	87,340	The scheme for the establishment of the Department of Printing Technology has been included in the Second Five Year Plan. The Government of India, Ministry of Education, has sanctioned a grant of Rs. 4·5 lakhs for establishing a School of Printing in Bombay to conduct All India Certificate Courses in Printing and Allied Technology in accordance with the scheme approved by the All India Council for Technical Education. To enable the Department to start the Deparmnet of Printing Technology, it is necessary to have a building and therefore to provide the requisite amount in the budget estimates for 1956-57.
48	Presidency Division	... Bombay	... Additions and laterations to the Government Law College Building.	1,19,956	87,340	With the opening of morning divisions, the student population of the Government Law College, Bombay, has increased considerably with the result that some of the classes are held at the Elphinstone College, Bombay. For obvious reasons, this arrangement is not found to be convenient. It is therefore proposed to effect some additions and alterations to the existing building so as to provide space for additional class-rooms. The necessary plans and estimates are being administratively approved. 2. The Scheme (No. 23) for provision of essential facilities at Government Colleges under the Second Five Year Plan includes provision for additional space by additions and alterations to the existing college buildings. The expenditure on account of additions and alterations to the Law College building will be accommodated within the allotment for this Scheme.

49	Ahmedabad Division	... Ahmedabad	... Construction of a common hall for students in the Gujarat College, Ahmedabad.	76,600	66,000	There is, at present, no hall at the Gujarat College, Ahmedabad, where activities such as Badminton or Table-Tennis or Drama performance can be conducted by students. Such a hall can be used by students for purposes of studies also. It is, therefore, proposed to construct a common hall for students at the College. The plans and estimates are being administratively approved. The estimates provide for a big hall for sports activities with a stage for drama etc. and also two storeyed verandah. 2. The Scheme (No. 28) for provision of essential facilities at Government colleges under the Second Five Year Plan includes provision for additional amenities for students such as Canteens and improvement of sports facilities. The expenditure on account of construction of the hall will be accommodated with the allotment for this Scheme.
50	Ahmedabad Division	... Ahmedabad	... Construction of 12 hostel blocks and 12 class rooms at the Training Colleges at Panvel, Poona, Loni, Budhgaon, Dabka, Godhra, Kathlal, Kadiadra, Rajpipla etc.	5,62,500	2,21,830	In order to increase the out-put of trained primary teachers required for schools to be opened by the District School Boards where the private primary schools have been closed down and to expand the existing training facilities, it is necessary to carry out the works in question. As the plans and estimates are being prepared a block grant of Rs. 5,62,500 is proposed. This amount has been earmarked in the Second Five Year Plan.
51	(a) Belgaum (b) Sholapur	... (a) Belgaum ... (b) Sholapur.	... Construction of buildings for (1) the establishment of two Polytechnics at Belgaum and Sholapur, (2) construction of Principal's quarters and Hostels.	14,80,000	2,52,400	The facilities for training in diploma courses available in the State at present is very limited in as much as only nine institutes both Government and private provide for facilities for training in diploma courses in Civil Mechanical and Electrical Engineering. There is already a shortage of trained diplomates and the shortage will be even greater when the Second Five Year Plan will be implemented. It is therefore proposed to provide additional facilities for training of diplomas during the Second Five Year Plan period by starting Polytechnics in the five districts of the State. The scheme included in the Second Five Year Plan on this account envisages five Polytechnics at the selected places in the State. Out of these four Polytechnics two will have to start from the next year i.e. 1956-57. To enable the Polytechnics to start functioning it is necessary to construct buildings at Belgaum and Sholapur. It is accordingly proposed to provide an amount of Rs. 14,80,000 in the budget estimate for 1956-57.
52	Surat	... ... Surat	... Construction of building for the expansion of the Dr. S. S. Ghandhy College of Engineering and Technology, Surat.	2,64,000	1,74,670	With the aid of a donation of Rs. 5,20,000 from Dr. Chandhy of Surat a high grade technological institute catering for diploma courses in Civil, Mechanical and Electrical Engineering has been established at Surat from June 1955. It is proposed to provide facilities for training in additional courses. The existing building is not sufficient to meet the requirements of the Institute. It is therefore necessary to construct additional building for the College. It is accordingly proposed to provide Rs. 2,64,000, including the cost of the land in the budget estimates for 1956-57.
			MEDICAL.			
53	Surat	... Surat	... Expansion and Construction of Leprosy Hospitals—Shenda Park Leprosy Hospital.	9,48,755 (for Shenda Park Leprosy Hospital).	8,73,360	The question of according administrative approval to the plans and estimates for the work at Shenda Park Leprosy Hospital is under consideration of Government. It is absolutely necessary to undertake the work in view of inadequate accommodation at the Leprosy Hospitals.
54	Dhond	... Poona	... Construction of a new building for dispensary at Dhond, District Poona.	1,24,000	1,08,300	The existing buildings of the dispensary at Dhond are absolutely in a dilapidated condition and uninhabitable. The construction of a new dispensary is therefore immediately to be done. Plans and estimates sanctioned *vide* Government Resolution, Local Self-Government and Public Health Department, No. 5395/33, dated 11th August 1949.

55	Dharwar Division	... Dharwar	... Acquisition of land required for construction of additional quarters for the staff of the Mental Hospital, Dharwar.	1,00,000	87,340	At present only 13 members of the staff of the M. H. Dharwar Viz. 11 servants and 2 Medical Officers are provided with rent free quarters. There are, in addition, 71 members which include 4 nurses and 1 overseer who are not provided with quarters. It is an urgent necessity to provide additional quarters for the remaining staff. For the efficient discharge of their duties it is necessary to provide quarters to the staff in the compound of the hospital or near about. Though the plan and estimates for this work were administratively appoved by Government in 1944 the proposal could not materialise for want of suitable site for the construction of quarters. The sites selected for the purpose in the past were not available as the Departments to which land belonged were not willing to part with the land selected by us for the purpose. Now that a suitable site has been selected and it is the only suitable site available, it is absolutely necessary to acquire it immediately. It is therefore necessary that the land admeasuring 5-6 acres from the C. T. S. No. 20 of Dharwar belonging to Shrimati Deshpande should be acquired for construction of additional quarters for the staff of the Mental Hospital, Dharwar.
56	Will be decided later	... Will be decided later but will be in Scheduled Areas.	Construction of staff quarters and garages for 7 mobile dispensaries proposed to be opened in the Scheduled Areas.	1,40,000 (at Rs. 20,000 for each mobile dispensary.)	1,22,270	It is proposed to open seven mobile dispensaries in the Scheduled Areas for which a new item has been put up under "38—Medical" for the budget for 1956-57. It is necessary to provide quarters for the staff of the these mobile dispensaries and garages for the mobile vans. It is therefore proposed to make the necessary provision at Rs. 20,000 for each dispensary in the budget for 1956-57 under "81—Civil Works". Plans and estimates for the work will be prepared in due course after the location of the mobile dispensaries is decided. This is a Plan Item.
57	Ahmedabad	... Ahmedabad	... Water soffening plant for New Civil Hospital, Ahmedabad.	1,32,940	1,16,160	This is necessary for making the water palatable for drinking purposes as the water is hard at present. The work is urgent and essential.
58	Ahmedabad	... Ahmedabad	... Providing storm water drainage in the New Civil Hospital and Medical College Compound at Ahmedabad.	80,000	69,870	The work is essential for sanitary purposes.
59	Ahmedabad	... Ahmedabad	... Constructing Electric Sub-Station and other installation required for New Civil Hospital, Ahmedabad.	1,00,000	43,670	This is essential for maintaining regular electric supply to the New Civil Hospital, Ahmedabad.
60	Poona	... Poona ...	... Constructing quarters for 70 Class IV servants at the New Civil Hospital, Poona.	5,56,988	1,74,670	This is part of the main scheme of the New Civil Hospital and Medical College Buildings at Poona already approved by Government, and is still remaining to be carried out.
61	Poona	... Poona	... Constructing quarters for Class III servants at the New Civil Hospital, Poona (10, Medical Officers).	1,27,229	43,670	The work forms part of the main scheme of the New Civil Hospital and Medical College Buildings at Poona, already approved by Government, and is still remaining to be carried out. The servants are required to be provided with quarters as a condition of service.

62	Poona	Poona	Constructing hostel for male students at the B. J. Medical College, Poona.	6,63,680	1,74,670	The work is part of the main scheme of the New Civil Hospital and Medical College buildings at Poona, already approved by Government, and is still remaining to be carried out.
63	Bombay	Bombay	New layout reconstruction of J. J. Hospitals and improvements to Grand Medical College, Bombay.	1,15,38,000	8,73,360	The buildings are very old and Government is very anxious to rebuild them on modern lines.
64	.....	District Head quarters in the State.	Providing proper drainage water supply, etc., at Civil Hospitals.	4,35,000	3,79,900	At present many Civil Hospitals have not got proper drainage and water supply arrangements as a result of which they become very insanitary, and much inconvenience is felt in absence of adequate water supply.
65	Will be decided in due course.	.....	Construction of two Cottage Hospitals.	10,00,000	4,36,680	The scheme of opening Cottage Hospital has been included in the Second Five Year Plan. Buildings for two Cottage Hospitals may be constructed during 1956–57, so that the hospitals can be started in the next year. The location of the hospitals will be decided and tha plans and estimates will be got prepared in due course. The necessary provision for constructing two buildings may therefore be made in the budget for 1956–57.
66	Poona, Thana	Yeravda, Thana	Expansion and construction of New Mental Hospitals and expansion of Mental Hospital, Thana.	10,10,402	4,36,680	All these works form part of the Second Five Year Plan. The inmates of these mental hospitals are far in excess of the sanctioned accommodation at these hospitals. It is absolutely essential to undertake these works with least possible delay in order to relieve extreme over-congestion at these mental hospitals.
67	Bombay	Bombay	Construction of hospital for Employees State Insurance Scheme.	Estimates not ready.	13,10,040	Under the E. S. I. Act, it is the responsibility of the State Government to provided Medical benefit to insured persons. It is, therefore, proposed to construct hospitals in Bombay, for the treatment of insured persons for the amount of loan of Rs. 1 crore proposed to be taken from the E. S. I. Corporation.
68	District Head Quarters in the State.	.....	Construction of residential quarters for internees at the various Civil Hospitals in connection with the scheme of imparting post-examination training for medical graduates.	.....	8,73,360	The matter of making arrangements for the intership is under consideration separately and it will take some time to arrive at final decision in the matter. However, it will be absolutely essential to construct residential quarters for the internee students at the various Civil Hospitals where the internee students will be sent for training. The exact names of the hospitals where the quarters will have to be constructed immediately will be decided later, but in the mean time the provision may be proposed for this scheme under New Major Works in the next year's budget estimates for 1956–57. The scheme is of an imperative and of a most immediate nature.
			PUBLIC HEALTH.			
69	Bombay, Baroda and Ahmedabad.	.....	Establishment of 3 Health Units on the Lines of the Sirur Health Unit.	6,00,000	5,24,020	The scheme has been included in the Second Five Year Plan and a provision of Rs. 6,00,000 on account of capital expenditure has been made in the Plan. It is necessary to provide office accommodation and hostel accommodation for each of the units which are proposed to be located as near to Bombay, Ahmedabad and Baroda as possible. A provision of Rs. 2,00,000 (1 lakh for office, 1 lakh for hostel), for buildings for each of the units is absolutely required to be provided.

Serial No.	Executive Division.	Locality.	Name of the work.	Amount of estimate.	Provision in 1956-57.	Remarks.
1	2	3	4	5	6	7
			AGRICULTURE.	Rs.	Rs.	
70	Baroda	... Baroda suburb	... Construction of buildings for the Extension Training Centre proposed to be opened at Baroda.	2,48,683	2,17,470	It is proposed to set up an Extension Training Centre at Baroda with a view to augmenting the facilities available in this State for training in extension work. It is essential to provide for these facilities immediately in order that the supply of trained personnel to the Community Development and National Extension Service Blocks may not be hampered. Construction of buildings for the Centre has to be undertaken urgently. The plans and estimates are not yet ready, but steps will be taken to get them prepared and approved very early. The proposal forms part of the scheme 'Expansion of training in extension work' for which a provision of Rs. 17,78,000 exists in the draft Second Five Year Plan. According to the phasing, a provision of the order of Rs. 9,00,000 has been ear marked for the First Year of the Plan, i.e., 1956-57. Orders to start the main scheme under "40, Agriculture" in January 1956 have already been issued and a supplementary demand for the year 1955-56 has been put up in this respect. The buildings pertaining to the scheme are proposed to be constructed during the year 1956-57.
71	Kolhapur	... Kolhapur	... Construction of Buildings for the Extension Training Centre proposed to be opened at Kolhapur.	2,93,900	2,56,770	It is proposed to set up an Extension Training Centre at Kolhapur with a view to augmenting the facilities available in this State for training in extension work. It is essential to provide for these facilities immediately in order that the supply of trained personnel to the Community Development and National Extension Service Blocks may not be hampered. Construction of buildings for the Centre has to be under taken urgently. The plans and estimates are not yet ready, but steps will be taken to get them prepared and approved very urgently. The proposal forms part of the scheme 'Expansion of training in extension work', for which a provision of Rs. 17,78,000 exists in the draft Second Five Year Plan. According to the phasing a provision of the order of Rs. 9,00,000 has been earmarked for the 1st year of the plan, i.e., 1956-57. Orders to start the main scheme under "40, Agriculture" in January 1956 have already been issued and a supplementary demand for the year 1955-56 has been put up in this respect. The buildings pertaining to the scheme are proposed to be constructed during the year 1956-57.
72	Nasik	... Niphad	... Construction of residential quarters and a glass house at the Agricultural Research Station, Niphad.	33,000	28,820	The Agricultural Research Station, Niphad, is on a permanent basis. At present experiments on schemes are being conducted at this Research Station. In order to conduct the experiments more accurately, t has been proposed to construct one glass house at this Research Station. The buildings at the Research Station are old ones and are insufficient to accommodate the present staff. As no suitable accommodation is available in the neighbouring villages, it has been proposed to construct residential quarter at this Station. The total estimated cost for the above works comes to about Rs. 2,00,000. For the present a provision of Rs. 8,820 has been proposed for 1956-57 for the above purpose. The plan and estimates for the works in question are being revised and administratively approved. The proposal has been classified under 'General Research Schemes' for which a provision of Rs. 59,09,000 has been made in the draft Second Five Year Plan. According to the phasing a provision of the order of Rs. 10 lakhs has been earmarked for the First year of the Plan, i.e. 1956-57.

73	Kolaba	... Karjat	... Construction of glass house for Agricultural Research Station, Karjat, at Lonavala or Khandala.	25,000	21,830	While sanctioning the proposal for acquisition of land and expansion facilities for Agricultural Research Station, Karjat, Government has sanctioned during the year 1955–56 the following constructional works at an estimated cost of Rs. 27,000. (*i*) Glass house. (*ii*) Laboratory. (*iii*) Staff quarters. 1. However, due to the increase in the rate of constructional items, etc., all these items could not be completed within the provision sanctioned above. It was, therefore, proposed to take up the construction of staff quarters and laboratory as immediate items and postpone the construction of glass house to the year 1956–57. 2. The work of testing blast resistance is being done at the Agricultural Research Station, Mahableshwar; but due to increase in the work on wheat at the Mahableshwar Station, it is not possible to utilize the existing glass house there. It is, therefore, proposed to construct the glass house of the type existing at Mahableshwar for testing work in blast bacteriacal disease, etc. The site will be decided in consultation, with the Plant Pathologist to Government. 3. The Agricultural Engineer to Government has prepared the estimates amounting to Rs. 19,600 for this purpose. In addition to this an amount of Rs. 3,000 will be necessary for purchase of accessories such as frigidare cooling devices, etc. for equipping the proposed glass house. Further a small store shed will be necessary either at Lonavala or Khandala. 4. Thus a total provision of Rs. 25,000 will be required during the year 1956–57. 5. The scheme has been classified under the General Research Schemes for which a provision of Rs. 59,09,000 has been made in the draft Second Five-Year Plan and according to the phasing a provision of the order of Rs. 10,00,000 has been earmarked for the 1st year of the Plan, i.e. 1956–57 The Director of Agriculture has been asked to furnish the necessary plans and estimates for according administrative approval.
74	.....	Kolhapur Gujerat and Karnatak.	Construction of buildings in connection with the Scheme for establishment of Regional sugarcane Research Sub-Stations at Kolhapur, and in Gujerat and Karnatak.	1,09,500	96,070	It is proposed to open three regional sugarcane Research Sub-Stations, one each at Kolhapur, in Gujerat and Karnatak. It is absolutely essential to construct residential and non-residential buildings for the efficient working of the Sub-Stations. A new item under "40–Agriculture" for 1956–57 for the staff, etc., has separately been put up. The Director of Agriculture has been asked to submit necessary plans and estimates. The proposal has been classified under the general scheme "Research and development of Sugarcane" for which a provision of Rs. 67,75,000 exists in the draft Second Five-Year Plan. According to the phasing, a provision of the order of Rs. 15,60,000 has been earmarked for expenditure during the 1st year of the Plan. i. e. 1956–1957.
75	Padegaon	... Padegaon	... Scheme for investigation into diseases of sugarcane in Bombay. Construction of residential and non-residential buildings.	48,000	41,920	It is proposed to undertake the scheme for investigation into diseases of sugarcane in Bombay State during 1956–57. It is necessary to construct residential and non-residential buildings for the smooth and efficient working of the scheme. A separate new item for pay and allowances of the staff has been put up for 1956–57 under "40—Agricultural". The Director of Agriculture has been asked to submit necessary plans and estimates in the matter. The scheme has been classified under the general scheme "Research and development of sugar-cane" for which a provision of Rs. 67,75,000 exists in the draft Second Five-Year Plan. According to the phasing, a provision of the order of Rs. 15,60,000 has been earmarked for expenditure during the First Year of the Plan i.e., 1956–57.

76	Dharwar	.. Dharwar	.. Additions of a hostel and dining hall at the Extension Training Centre, Dharwar, for accommodating 50 more trainees.	48,000	41,920	It is proposed to expand the capacity of the Extension Training Centre at Dharwar with a view to augmenting the facilities available in this State for training in extension work. It is essential to provide for these facilities immediately in order that the supply of trained personnel to the Community Development and National Extension Service Blocks may not be hampered. Construction of building as indicated in Column 4 has to be undertaken urgently. The plans and estimates are not yet ready, but steps will be taken to get them prepared and approved very early. The proposal forms part of the scheme "Expansion of training in extension work", for which a provision of Rs. 17,78,000 exists in the draft Second Five Year Plan. According to the phasing a provision of the order of Rs. 9,00,000 has been earmarked for the First Year of the Plan i.e., 1956-1957. Orders to start the main scheme under "40, Agriculture" in January 1956 have already been issued and a supplementary demand for the year 1955-56 has been put up in this respect. The buildings pertaining to the scheme are proposed to be constructed during the year 1956-57.
77			Construction of buildings for research and development of poultry in Bombay State.	1,68,000	1,46,720	The proposal forms part of the general scheme "Research and Development of Poultry" for which a provision of Rs. 15,00,000 has been provided for in the Second Five-Year Plan. According to the phasing a provision of the order of Rs. 6,50,000 has been earmarked for the first year of the plan i.e., 1956-57. A section I, New Item has been put up in respect of the recurring cost of Rs. 1,21,608 of the scheme.
78	North Kanara	.. Sirsi	.. Scheme for establishment of a Regional Arecanut Research Station at Sirsi, Kanara district—Construction of Farm Office, Store room, cattle implement and curing Shed and additions and alterations to buildings at Koloroga Research Station, Sirsi.	10,000	8,730	A new item for the implementation of the main scheme has been put up separately under '40-Agriculture'. The Scheme cannot be worked efficiently without these buildings. The scheme forms a part of the main Scheme "General research Scheme" for which a provision of Rs. 59,09,000 exists in the draft 2nd Five Year Plan. According to the phasing an amount of the order of Rs. 10,00,000 has been earmarked for the first year of the Plan i.e., 1956-57.
79	Kolaba	.. Kolad	.. Establishment of an Agricultural School at Kolad in Kolaba District—construction of buildings, etc.	3,00,050	1,33,620	It is the policy of Government to establish one Agricultural School in each District. There is no Agricultural School in Kolaba District. It is therefore proposed to open an Agricultural School at Kolad. It is considered essential to construct quarters for the staff for smooth working of the school. The Director of Agriculture is being asked to furnish necessary plans and estimates after obtaining them from the Executive Engineer concerned. A new item on account of pay and allowances, etc., of the requisite staff and other non-recurrent expenditure has been put up as a new item under "40- Agriculture" for 1956-57. The proposal has been classified under the general scheme "Expansion of Agricultural School Education" for which an amount of Rs. 39,85,000 has been provided for in the draft Second Five-Year Plan and according to phasing a provision of the order of Rs. 12,00,000 has been earmarked for the 1st year of the Plan i.e., 1956-57.
80	Dharwar	... Arbhavi	... Construction of buildings for staff at the Agricultural School at Arbhavi.	57,941	... 50,050...	The quarters proposed to be constructed for members of the staff who are working at the Agricultural School, Arbhavi, are only for such persons whose presence on the spot is absolutely essential and here is no hired accommodation available in the neighbouring villages. Government proposes to construct the school building during 1956-57 at an estimated cost of Rs. 57,951 as shown below :—

						(i) Residential quarters for Superintendent ... ... Rs. 20,061 (ii) Residential quarters for 2 clerks ... 15,474 (iii) Residential quarters for herdsmen ... 5,550 (iv) Residential quarters for 3 married servants ... 14,220 (v) Blocks of 2 seated Acqua Privy latrines ... 2,636 Grand Total ... 57,941
81	Kanara Division ...	Kumta ...	Construction of hostel and other buildings at the Agricultural School, Kumta.	34,819	... 30,570...	The Agricultural School, Kumta, was started during 1947 by converting the then research farm. The buildings at the farm were inadequate for the purpose of a school for training 25 students in each of the two classes. It was therefore proposed to complete the incomplete works and undertake new works at an estimated cost of Rs. 34,819 during the year 1953–54. The Plans and estimates, the latter amounting to Rs. 34,819 were administratively approved in Government Resolution, No. 1382-VI, dated the 14th July 1953. In the same year subsequently Government was contemplating to close down the school on account of poor response from students for admission and hence the work could not be undertaken during the same year. On reconsideration Government decided that the school should not be closed down as the revised curriculum for the Agricultural School affords preference for the successful students for recruitment as "Talatis". This has resulted in an encouraging response from students for admission. It is, therefore, absolutely necessary to have all buildings constructed as soon as possible for the smooth working of the school for 50 boys.
82	Ahmedabad Division ...	Arnej ...	Constructing of buildings at the Wheat Breeding Station, Arnej.	26,000	... 22,710...	Under the scheme for genetic improvement of wheat in the Bhal tract of Gujarat Wheat Breeding Station has been opened at Arnej. The scheme envisages the genetic improvement of the local crop and extensive distribution of improved strains to cultivators. A provision of Rs. 5,300 was made in the original scheme for construction of buildings and sheds (i.e. cattle shed, latrine and field working rooms). It was subsequently found necessary to construct quarters also for the staff such as "Mukadams" and peons. Plans and estimates the latter amounting to Rs. 26,000 have been administratively approved by Government. It is essential to take up the work of construction of servants' quarters, cattle shed, etc. at the Wheat Breeding Station, Arnej, as there is no possibility of getting any building or shed on hire in the neighbouring village. A provision of Rs. 26,000 will, therefore, be required during 1956–57 for the purpose. The scheme has been classified under the General Research Schemes for which provision of Rs. 59,09,000 has been made in the draft Second Five Year Plan and according to the phasing the provision of the order of Rs. 10,00,000 has been earmarked for the first year of the plan i.e. 1956–57.
83	Poona ...	Manjri ...	Construction of one hostel block of 8 rooms and one sanitary block for the Group level Worker trainees at the Extension Training Centre, Manjri.	40,000	34,930 (The expenditure is fully recoverable from the Government of India).	Group level workers i.e. supervisory personnel required for manning the Community Development National Extension Service Blocks, are proposed to be trained at a course to be started at the Extension Training Centre, Manjri. It is essential to construct hostel and other accommodation for the trainees urgently in order that the training programme and consequently the Community Development and National Extension Service programme may not be hampered. The plans and estimates of the work are not yet ready, but steps will be taken to get them prepared and approved very early. The proposal forms part of the Scheme Extension of training for which a provision of Rs. 17,78,000 exists in the draft Second Five Year Plan. According to the phasing a provision of the order of Rs. 9,00,000 has been earmarked for the 1st year of the Plan i.e. 1956–57. A Section I New Item has been proposed separately under "40, Agriculture" for the recurring cost of the scheme.

Serial No.	Executive Division.	Locality.	Name of work.	Amount of Estimate.	Provision in 1956-57.	Remarks.
1	2	3	4	5	6	7
			INDUSTRIES.	Rs.	Rs.	
84	Public Works Department, Presidency Division, Bombay.	Bombay	... Extension of the Taraporewala Aquarium, Bombay ...	80,000 ..	43,670 ...	The present accommodation provided in the acquarium building is found most inadequate in view of greater need for space consequent upon expansion of the department's normal activities and appointment of additional staff. The work is absolutely essential for removal of the present congenstion. Plans and estimates for the works are awaited from the Executive Engineer, Presidency Division.
85	Do. ...	Do.	... Extension of the Fisheries Technological Laboratory Sassoon Dk, Bombay.	73,000 ..	63,750 ...	The present building of the Fisheries Technological Laboratory is inadequate to accommodate the existing staff, plant and equipment for the scheme for manufacture of Shark Liver Oil which has been classified as a commercial concern of Government. The rate of production at the laboratory of Sharkovit", "Elasmin" and "Elasmin Pearls", Industrial and Veterinary grade shark liver oil, fish meal, gelatine, etc. has considerably enhanced. The scheme for manufacture of malt extract with shark liver oil will shortly be implemented. Need for additional accommodation at the laboratory is therefore acute. Plans and estimates for the work are awaited from the Executive Engineer, Presidency Division.
86	Public Works Department, Ratnagiri Ratnagiri Division.	Ratnagiri	... Construction of permanent superstructures over the cement concrete platforms at the fish curing yards.	80,000 ..	13,970 ...	Cement concrete platforms have been provided at some of the fish curing yards for improvement in the quality of fish cured. The platforms besides making available to consumers cured fish produced under hygienic condition are also economical to the fish cures. The fishermen are reluctant to use the platforms without superstructure. Accordingly it is proposed to provide 30 structures over platforms at 3 selected yards. Plans and estimates for the work are being prepared.
87	Public Works Department, Poona Poona Division.	Poona	... Construction of a fish farm at Poona	1,60,000 ..	69,870 ...	Fish farms are essential for development of inland fisheries in the State. Accordingly it is proposed to establish a fish farm at Poona. The farm will serve as a composite unit for observation on the breeding of various exotic and indigenous fish, their rate of growth, their adoptability to various environments and their optiumum food requirements in different regions of the State under controlled condition. Plans and estimates for the work are being obtained from the Executive Engineer, Poona Division.
88	Poona ...	Poona	... Construction of a building for housing Industrial Chemists Laboratory at Poona.	50,000 ..	17,470 ...	The Scheme has been included in the Second Five Year Plan. 2. The Director of Industries is being requested to get the requisite plans and estimates prepared.

						3. The estimated expenditure on account of this scheme during the Second Five Year Plan Period is given below :— Rs. 1956–57 ... ... 20,000 1957–58 ... ... 59,980 1958–59 ... ... 39,214 1959–60 ... ... 28,954 1960–61 ... ... 15,552 Total ... 1,67,700
89	Bombay ...	Matunga	Construction of an additional storey on the existing building of the Industrial Chemists Laboratory at Matunga for Industrial Research and Pilot Plant Schemes.	30,000	26,200	The scheme has been included in the Second Five Year Plan. 2. The Director of Industries is being requested to get the requisite plans and estimates prepared. 3. A new item for Rs. 28,000 has been put up head "43—Industries" on account of equipment required in this connection.
90	Baroda	Baroda	Construction of a part of the new building for the expansion of the Industrial Chemist's Laboratory at Baroda.	70,000	30,570	The scheme has been included in the Second Five Year Plan. 2. The Director of Industries is being asked to get the plan and estimates prepared. 3. The estimated expenditure on the entire scheme for the Second Five Year Plan period is as under :— Rs. 1956–57 ... ... 35,000 1957–58 ... ... 43,676 1958–59 ... ... 28,306 1959–60 ... ... 13,528 1960–61 ... ... 9,390 Total ... 1,29,900
			CIVIL WORKS			
91	Ahmedabad Division ...	Ahmedabad	Constructing a bungalow for Class II Officers. Maximum pay Rs. 201 to 600 at Ahmedabad (4 Bungalows).	1,43,906	1,24,890	There is acute shortage of housing accommodation at Ahmedabad. Moreover it is difficult to get suitable provision on hire, and hence it is proposed to construct two bungalows. The work was proposed as a new item for 1955–56, but was not admitted. The plans and estimates are administratively approved and technically sanctioned.
92	Do.	Do.	Constructing 36 quarters for Class IV Government servants at Ahmedabad. (16 quarters for Government servants IV plus 20 quarters for inferiors).	1,77,278	77,730	Do. do.
93	Sabarkantha Division	.....	Construction of 22 Nos. of Clerical Quarters for Public Works Department staff in Sabarkantha Division (12 Nos. as per type design III-A at Himatnagar) (6 Nos. as per type design III-B at Himatnagar) (2 Nos. as per type design III-A at Himatnagar). (2 Nos. as per type design III-B at Sabarkantha Division).	1,65,606	43,670	There is acute shortage of residential accommodation, it is therefore necessary to build these quarters for Public Works Department staff. Also rents in the towns have gone abnormally high. The low paid Government servants cannot pay such exhorbitant rents. It is therefore quite necessary to construct these quarters for the Public Works Department staff. The work was proposed as a new item for 1955–56 but was not admitted. The plans and estimates are administratively approved and technically sanctioned.

Serial No.	Executive Division.	Locality.	Name of the work.	Amount of estimate.	Provision in 1956-57.	Remarks.

94	Thana	Thana	Constructing quarters or Government servants (type IV-B) in Thana Town on the east of the Kopri conoly at Chendani, Thana.	75,427	61,140	The work was not admitted in the budget estimates for 1952-53 to 1955-56. Owing to the housing difficulties in Thana, the work has been proposed. The plans and estimates are administratively approved and technically sanctioned.
95	Banaskantha Division	Palanpur	Construction of 5 Quarters for Government servants (P. W. D. Staff) at Palanpur (Banaskantha Division).	56,222	26,200	There is an acute hardship of houses in Palanpur and there is no accommodation for Public Works Department staff. The construction of quarters is necessary. The plans and estimates are administratively approved but not technically sanctioned. The work was proposed as a new item for 1955-56 but was not admitted.
			MISCELLANEOUS DEPARTMENTS.			
96	Thana	Jambul, District Thana.	Provision of water supply to the Certified School at Jambul, District Thana.	75,900	66,280	The staff of the Certified School at Jambul, District Thana and about 90 children therein committed by courts under the Bombay Children Act, 1948, have been experiencing great scarcity of water. At present water is supplied to the school from the tube wells and it is sufficient only for drinking purposes. The machinery installed on these tube wells does not always function properly. Besides in the hot season one of the wells goes dry and water is found to be inadequate. It is therefore considered absolutely essential to provide the school with water by laying a pipe line from the main maintained by the Public Works Department from Badlapur to Kalyan up to Jambul. Necessary plans and estimates have been prepared and approved administratively by Government. It is proposed to take up the work for execution during the year 1956-57 and to provide an amount of Rs. 75,900 for the purpose. The work will be financed from the provision of Rs. 18·50 lakhs made available for capital expenditure under the Second Five Year Plan for the Juvenile Welfare.
97	Ahmedabad and Poona.	Ahmedabad and Poona.	Construction of buildings at Ahmedabad and Poona for the expansion of the B. C. Hostels at Ahmedabad and Poona respectively.	2,00,000	1,74,670	Under the Second Five Year Plan, it is proposed to increase the accommodation in the B. C. Hostels at Ahmedabad and Poona so as to provide accommodation to 40 additional inmates in each of them. The present accommodation is found to be inadequate to cope up with the increasing number of B. C. students seeking admission in hostels.
98	Poona	Poona	Construction of a building for B. C. Hostel for girls at Poona.	90,000	78,600	At present there is no Government B. C. Hostel for girls. It is therefore proposed to establish a B. C. Hostels for girls at Poona which would provide accommodation to about 40 students. The scheme forms a part of the Second Five Year Plan.
