# TABLE I.

## Area, Houses, and Population.

1. The figures in this table relate to the whole of the Indian Empire except certain tracts beyond the administrative frontier in Assam and Burma. They do not relate to those parts of the peninsula which are outside the Indian Empire.

2. The Settlement of Aden including Perim Island is included, but not the Aden Protectorate.

3. Details of some of the principal States included in the Agencies and Provincial States groups will be found on page 4 where also is shown the population of the areas under British Administration in certain Indian States.

4. The figures in this table are based on a detailed enumeration on the standard schedule except in the following cases :—

| | Persons. |
|---|---|
| 1. Andaman and Nicobar Islands— | |
| Andamanese (Part)* .. .. .. .. .. | 370 |
| Nicobarese (Shompen)* .. .. .. .. .. | 200 |
| 2. Baluchistan— | |
| Tribal Areas .. .. .. .. .. .. | 757,768 |
| 3. Bombay Presidency— | |
| Ahmadabad City (Part) .. .. .. .. .. | 75,735 |
| 4. Burma— | |
| East Manglun (Northern Shan States)* .. .. .. | 19,649 |
| 5. North-West Frontier Province— | |
| Agencies and Tribal Areas .. .. .. .. .. | 2,212,837 |

In the case of the Baluchistan Tribal Areas a simplified form of schedule was employed. In the other areas in the above list the population was estimated after a careful inquiry. For the manner in which the estimates were made, reference should be made to the corresponding reports.

5. The 33 units which appear in the 1921 table have now become 35 in consequence of the following changes :—

1. The Western India States Agency has been separated from Bombay.
2. The Punjab States Agency has been separated from the Punjab.

The Madras States Agency has similarly been separated from Madras, but this has not involved any change in this table, as it appeared separately in 1921. The census of the Madras States has, however, been carried out by the Superintendent of Census Operations for Madras Province, except in the case of Travancore and Cochin, which as before have acted independently, their reports being included in the India series.

6. In the Province of Assam the Khasi States, previously included for census purposes in British Assam, have now been shown separately under the head 'Assam States' which formerly had reference to Manipur State only. Separate figures for these States do not appear in Table XX, but with the exception of these and other very small States figures will be found in that table not only for the districts of each province but for the States which are not shown separately in the general tables.

7. The topographical surveys carried out during the decade in various parts of India have resulted in a revision of area figures which accounts for some discrepancies between areas given here and in 1921 and for an increase of 1,045 sq. miles in the computation of the area censused in that year. Other changes are accounted for by inter-provincial transfers. The remaining areas are at present under revision but the figures are not yet available. An area of 908 square miles incorporated into British India from the previously unadministered tracts on the Assam frontier, and an area estimated at 1,400 sq. miles similarly incorporated into the Chin Hills District in Burma have been included for the first time, while 6 square miles formerly in the United Provinces have been ceded to Nepal, making a total addition of 2,302 square miles to the area of India on its external boundaries. Para. 2 of the fly leaf to Table II gives the corresponding population figures of these areas.

* Details of Railway lands in States over which jurisdiction has been ceded will be found in notification No. 555-I, dated the 30th September 1930, of the Foreign and Political Department.

*Preface.*

The arrangement of this volume differs a little from that of the corresponding volume in 1921. In that volume figures for cities were given separately at the end. This time each table that has been compiled separately for cities follows the general table to which it relates. The figures of the cities table are, of course, also included under the relevant head in the general table. The fly-leaf of each table indicates the table in 1921 to which the 1931 table corresponds in every case in which the numerical order differs; some rearrangement has been made in the tables in order that they may be as relevant as possible to the treatment of their contents in the Report Volume. Table XII, as will be seen from the Table of Contents, does not appear in this volume; the results obtained were so unsatisfactory that it has not been printed as an Imperial Table, the figures have however been compiled and will be found given in Chapter IX of the Report. An appendix (*iv*) has been added to show the area and population of provinces when redistributed with Orissa and Sind as separate units instead of as part of the provinces in which they were incorporated at the date of the census.

It should be noted that all the figures in the main Tables are determined by the actual distribution of population as it happened to be found on the night on which the census was taken, irrespective of its prevailing distribution or of abnormalities caused by seasonal, temporary or fortuitous movements. Tables not so qualified by date or geography at the moment of census have been placed in appendices.

# TABLE II.

## Variation in Population during fifty years.

1. The population enumerated at previous censuses has been corrected as far as possible in order to allow for subsequent inter-provincial transfers. The adjustments in the 1921 population consequent on such transfers are detailed below. In the case of the totals of the Provinces and States not detailed in this statement no adjustment is needed.

| Province or State. | Population as given in Imperial Table II of 1921. | Adjusted 1921 Population. | Increase or decrease in population. | Details of Transfers. |
|---|---|---|---|---|
| Bengal .. .. | 47,592,462 | 47,599,233 | + 6,771 | Thirteen inhabited *Mauzas* transferred from Bihar and Orissa to Bengal with an aggregate population of 6,948 persons. An interchange between these provinces of two villages of unequal populations resulted in a decrease to Bengal of 177 persons. |
| *Bihar and Orissa .. | 37,961,858 | 37,955,087 | —6,771 | *An uninhabited area of 1 square mile was also transferred from United Provinces to Bihar and Orissa on account of diluvion. |
| United Provinces .. | 46,510,668 | 46,509,950 | —718 | Fractions of a square mile were transferred from the United Provinces by diluvion and alluvion by the Jumna to the Punjab—Gurgaon and Karnal being effected in that Province, Muzaffarnagar and Bulandshar in the former. These areas taken together, at the time of the transfer were populated by 454 persons, which represents the only such alteration to the Punjab in the decade. A further 264 persons were transferred to Delhi Province from Meerut (U. P.) as a result of a change in the boundary between these two provinces. |
| Punjab .. .. | 25,101,060 | 25,101,514 | +454 | |
| Delhi .. .. | 488,188 | 488,452 | +264 | |
| Rajputana Agency .. | 9,844,384 | 9,831,755 | —12,629 | Nandwai Pargana of Indore transferred to the C. I. Agency with a population of 3,682 persons, together with the Pargana of Gangapur transferred to Gwalior State with a population of 9,401. Nimrol (Gwalior), with a population of 454 persons, has been included in the census of the Rajputana Agency. Certain villages have been transferred to Indore and Dhar from Gwalior State in exchange for certain portions of Sundarsi, together with Pathari Estate. The population involved in this exchange was 6,658 persons—4,252 persons being added to Central India and 2,406 to Gwalior State. |
| Central India Agency | 5,997,023 | 6,002,551 | +5,528 | |
| Gwalior State .. | 3,186,075 | 3,193,176 | +7,101 | |

2. Tracts enumerated for the first time at this census are noted below; the figures in brackets relate to population:—

The 'Malandri' tract in Swat Territory (1,020) together with certain desert areas on the tribal borders of the North-West Frontier Province (estimated in 1921). An area in the Chin Hills district (18,327) in Burma. The Melomi-Primi area (4,620) in the Sadr Sub-division, and certain villages (2,200) in the Mokokchung Sub-division of the Naga Hills; the area known as the 'Zongling' area (1,696) to the south of the Lushai Hills, and certain Abor and Naga villages (7,195) in the Sadiya Frontier Tract, all in Assam.

Total .. 35,058

Corresponding details for previous decades will be found on the fly-leaf of Imperial Table II of the 1921 India Report—Part II, or may be ascertained from the provincial reports. The figures below represent the total populations of areas included for the first time at each successive census:—

| 1931. | 1921. | 1911. | 1901. | 1891. | 1881. |
|---|---|---|---|---|---|
| 35,058 | 86,633 | 1,793,365 | 2,672,077 | 5,713,902 | 33,139,081 |

3. The cause of the discrepancy in the sex details of the 1881 population of the North-West Frontier Province referred to in the first paragraph of the fly-leaves to the corresponding India tables of the two previous censuses, has been traced, and reconciled in the present table.

4. A reduction of 6 sq. miles in the U. P., with a population of 130 persons (M. 78, F. 52) in 1921, has been excluded in 1931, the area in question having been ceded to Nepal.

5. Additional details for certain States which are not shown separately in the body of the table are given on page 10 of this volume.

# TABLE III.

## Towns and Villages Classified by Population.

The total population dealt with in this table falls short of that shown in Table I owing to the omission of 2,278,937 persons, as no statistics were available of the number of villages situated in the Agencies and Tribal Areas of the North-West Frontier Province (2,259,288 persons), while in Burma no classification was possible of the 19,649 persons referred to in paragraph 4, sub-clause 4, on page 1 of this volume. The omission of the former population accounts for the discrepancy between the number of units dealt with here and in Table I.

2. In this table, as in Tables I, IV and V, all Municipalities, Civil Lines and Cantonments have been treated as separate towns.

3. In the districts in which a revenue and cadastral survey has been carried out the *mauza* or survey village has been taken as the census village, except in the case of Burma where the figures represent village tracts which may include a village or group of villages and adjacent lands; elsewhere the census village, the residential village or independent group of houses bearing a separate name, small outlying hamlets being ordinarily treated as part of the residential villages to which they relate.

4. Travellers enumerated in encampments, boats and trains, will be found detailed separately in this table, while in Tables IV and V this moving population has been included in the population of the town within which they were actually enumerated.

# TABLE IV.

## Towns Classified by Population with variation since 1881.

For purpose of this table a town was defined as any self-governing urban unit, irrespective of size, including every municipality, every cantonment, all civil lines not included within municipal limits, and also every other continuous collection of houses ordinarily inhabited by not less than 5,000 persons and having an urban character though not necessarily self-governing. Cantonments have been shown separately from the cities or towns to which they are adjacent, and not amalgamated with them as in 1921.

2. The towns are grouped in six classes. The first class consists of towns with a population of 100,000 and over; the second of towns the populations of which number from 50,000 to 100,000; the third 20,000 to 50,000; the fourth 10,000 to 20,000; the fifth 5,000 to 10,000, and the sixth under 5,000. In the first three classes the towns, other than the three Presidency towns which come first and are placed in order of magnitude, are arranged alphabetically in each class; in the last three only the number of towns and their aggregate population are given.

3. This table covers six censuses and gives the net variation for the period 1881-1931 as well as for each intervening decade. The separate detailing of certain cantonments and civil lines, for which complete figures for past censuses are not available, has in certain cases caused deflections in the variation figures against the respective municipalities under which they were formerly included, and therefore for comparative purposes their figures, which if not shown separately in this table will be found in Provincial Reports, should be included with those for the municipalities bearing the same names. As no uniformity appears to have been observed in the compilation of this table at previous censuses, adjustments (details of which are given in Provincial Reports) of previous figures have been found necessary in certain cases to provincial tables and consequently to the general table given here. The totals of each class therefore represent the total number of persons living in towns of that class in the year of record, and, except for 1931, are not the sum of the figures below them, affected as they have been by subsequent transfers from one class to another. The same remarks apply to the figures shown against India.

4. The following figures show the population of certain hill stations according to a census taken during the season of 1931 in the Punjab and of 1930 in the United Provinces.

| Province. | Town. | Persons. | Males. | Females. |
|---|---|---|---|---|

| | Lansdowne Cantonment . . . | 5,900 | 4,383 | 1,517 |

5. Additional figures for cantonments will be found in the second statement appended to this table.

6. The 1921 class totals have been adjusted to make an allowance for the population of the three towns of Aden for which Table IV was not prepared in that year.

NOTE 1.—The figures in this statement include the States attached to each Province, but those for Madras exclude Cochin and Travancore.

2.—Unless they have come into existence since last census, Cantonments and Civil Lines, which have been classified separately this census, have not been taken into account in this statement, since their population was treated as urban in 1921 and the only change is in their presentation as separate units.

# TABLE V.

## Towns arranged Territorially with Population by Religion.

This Table shows the territorial distribution of the urban population by religion.

2. The definition of a town given on the fly-leaf to Table IV applies to this Table: the number of categories into which towns are arranged being also identical. The towns in each Province or State are arranged according to population in the first three classes, while those in the last three are not shown in detail, the total number of towns being given with the aggregate population. The name of the district where indentical with the town is sometimes omitted.

3. This table was not prepared for Aden, and there is therefore a difference of three in the number of towns shown here and in Tables I and IV; consequently the figure of the total urban population in this table falls short of that in I and IV by 51,478 persons. A further discrepancy in the population figures is caused by the omission of the estimated population of Ahmadabad, referred to on the fly-leaf of Table I.

4. Details are given below for persons included under the head 'Others'.

# TABLE VI.

## Birthplace.

The population dealt with in this table falls short of that shown in Table I by the estimated population referred to in items 3—5 of paragraph 4 on the fly-leaf to that table.

2. The discrepancy between the respective populations of the Assam British Districts and Assam States given here and in Table I, is due to the inclusion of the Khasi States in the British District of the Khasi and Jaintia Hills in Parts I and III of this table. The statistics below the entry Assam State, *i.e.*, columns 50—52 in Part I, and column 22 in Part III, only relate therefore to Manipur State, though the figures in both these parts against Serial Nos. 17 and 16 respectively, column 1 appertain to both Manipur and the Khasi States in all columns except 11—13 and 50—52.

3. The total population of cities in this table includes the population of adjoining Cantonments, Civil Lines, Notified Areas, etc., and in consequence the figures do not tally numerically with the population figures shown against the corresponding cities in Class I of Table IV from which such subsidiary figures have been excluded. The same remarks apply to all subsequent tables of this volume in which city details appear.

4. The present table corresponds to Table XI of the 1921 Census, Parts I, II and III of which have been amalgamated on this occasion into one form, which constitutes Part I of this table, Part II contains the corresponding table for cities, the population of which is of course included in the figures given in Part I, and Part III gives figures of Internal Migration as in Part IV of the 1921 table. Of Part III, column 1 gives the provinces and states for which the balance of migration is to be considered ; column 2 the number of immigrants born elsewhere in India and found on enumeration in the unit under consideration ; column 3 the number of persons born in the province or state under consideration (column 1) but enumerated elsewhere in India at the census ; column 4 gives the net balance of migration with reference to the unit under consideration ; the remaining columns show the details contributing to the totals in columns 2 and 3, and the + or — signs prefixed to the figures indicate with reference to the province under consideration (column 1) its loss or gain with reference to the province named at the top of the column in which they appear. Thus in column 10, under Bihar and Orissa, appears against Assam, in column 1, the figure +441,618, indicating that Assam, the province under consideration, has gained that number of immigrants from Bihar and Orissa ; conversely, in col. 7 under Assam, and against Bihar and Orissa in col. 1, appears the figure — 441,618, indicating that Bihar and Orissa has lost that number of emigrants to Assam, since this population was born in that province but enumerated in Assam. These figures represent the net balance only. A reference to Part I will show that 443,412 persons born in Bihar and Orissa were enumerated in Assam and that 1,794 persons born in Assam were enumerated in Bihar and Orissa ; 441,618 is the difference and represents the excess of emigrants to Assam, over immigrants from Assam, in Bihar and Orissa ; in Assam, *vice versa*. As Part III refers to internal migration only, figures of emigrants and immigrants to and from the French and Portuguese Settlements, as well as other foreign countries, are excluded from the statistics. For figures of immigration to and emigration from India as a whole, reference must be made to Chapter III of the Report volume. The statement at the end of Part III gives available details according to birthplace of the persons included against the entry A (*e*) (*i.e.*, French and Portuguese Settlements) in column 1 of Part I of this table.

# TABLE VII.

## Age, Sex and Civil Condition by Religion.

1. This table is divided into three parts. Part I gives a general summary of the total population by Civil Condition and Age for All Religions, the total population by Civil Condition and Age by All Religions for India proper, and by individual religions, from which the Andamans and Nicobars, where no sort by Civil Condition and Religion was made, are excluded, (Part I-A) ; also the total population by Civil Condition and Age for racial groups in Burma, where civil condition was sorted for by race instead of by religion (Part I-B.)

2. Part II shows the distribution (excluding Burma), by individual provinces and states, of the total population by All Religions by Civil Condition and Age, and also of the population of numerically important religious communities. Part III gives similar information for cities, but with age statistics in less detail.

3. The population dealt with in this table excludes the estimated populations referred to in paragraph 4, clauses 2—5 on the fly leaf to Table I of this volume together with such persons as were not recorded by age, the numbers of the latter are as follows :—

| | Persons. | Males. | Females. |
|---|---|---|---|
| Andaman and Nicobar Islands .. .. .. | 1,520 | 817 | 703 |
| Bombay British Districts .. .. .. .. | 1,643 | 1,341 | 302 |
| Aden .. .. .. .. .. .. | 22 | 20 | 2 |
| Bombay States .. .. .. .. .. | 8,452 | 4,172 | 4,280 |
| Western India States Agency .. .. .. | 834 | 461 | 373 |
| Total .. | 12,471 | 6,811 | 5,660 |

4. Figures for Aryas and Brahmos in Part I-A exclude details for the following provinces in which the information was not extracted :—

Ajmer-Merwara, the Andaman and Nicobar Islands, Bombay, the North-West Frontier Province, Rajputana, and the Western India States Agency.

5. Divorced persons have been included as " Widowed "; persons recognised by custom as married have been shown as such, whether or not a formal ceremony has taken place.

# TABLE VIII.

## Civil Condition by Age for Selected Castes.

This table corresponds to table XIV of 1921.

2. The corresponding Provincial tables have been arranged to show the castes according to the prevalence of infant marriage. This has not been done in this table as an alphabetical arrangement facilitates references to any given caste if particulars are required, which would otherwise be difficult in the India table on account of the numbers tabulated.

3. Instead of merely reproducing provincial and state details by provinces and states severally, the details are shown by caste for India as a whole in so far as material has been supplied, the distinctive names under which allied castes have been shown in each province being retained for the provincial figures.

4. The castes tabulated are not inclusive but are selected as representative of various social tribal or occupational units. In column 3 a note will be found of any other table in which the caste in question also appears as a separate unit.

5. The statistics of any caste shown will be found to compare with the strength shown in Table XIV, but not in all cases with that in Table XVII, as material has not always been available in all provinces to compile for Civil Condition and Literacy up to the total strength of the caste.

6. All the Provinces and principal States and Agencies are represented in this table except the Andaman and Nicobar Islands, Aden and the Bombay States and Agencies, where no compilation of castes by Civil Condition was undertaken. Figures for Burma for certain selected races are given at the end of the table.

7. To economise in space other tables of this volume in which the castes detailed in this table also appear are represented in column 3 by small arabic instead of roman numerals.

# TABLE IX.

## Infirmities.

1. This table, which corresponds to Table XII of the 1921 Census, is divided into two parts. Part I shows the general distribution by Provinces and States of the total number of persons recorded as suffering from each infirmity, while Part II shows the corresponding details by age of those persons for India as a whole and for the Provinces and States scheduled in Part I.

2. Insanity, deaf-muteness, blindness and leprosy were recorded at the census as infirmities throughout India, except in those areas referred to on page 1 of this volume, where the population was estimated, and in the Trans-Frontier Posts in the Tribal Areas of the North-West Frontier Province. In addition to these returns 14,709 persons (8,424 males and 6,285 females) were also recorded in Travancore State as afflicted with elephantiasis, but are excluded from the figures shown against that unit in both Parts I and II of this table. 'Blind' was defined for enumeration purposes as totally blind in both eyes.

3. Persons returned as suffering from more than one infirmity have been treated as single persons for columns 2, 3 and 4, but the entries have been reiterated as if for separate individuals in the appropriate columns for each infirmity from which they suffered at the time of record. The figures in columns 2—4, therefore, do not correspond with the aggregate of the figures in columns 5—16, as the latter exceed the former by the total of multiple infirmity cases returned by the respective Provinces and States as shown in the statement at the end of the table.

4. There is much concealment of infirmities and the figures must be treated with the greatest reserve. Their significance is comparative, not absolute.

5. Age groups under which no returns have been received are omitted.

NOTE.—The figures in this statement include the States attached to each Province, but those for Madras exclude Cochin and Travancore, separate details for which have been given.

In the Bombay Presidency, inclusive of Aden, and the Western India States Agency, no record of dual infirmities was kept, while in the Provinces and States not shown in the above list no instances of double infirmities were returned.

# TABLE X.

## Occupation or Means of Livelihood.

The general scheme of classification in this table follows that of Table XVII of the 1921 Census, but a few minor alterations, involving an increase by four in the number of occupational groups, have been carried out where the classification appeared incomplete or defective. The details and effect of these changes will be found in Chapter VIII of the Report Volume.

2. The table is divided into three parts. Part I contains a general summary by occupation for India, for British Territory and for States and Agencies; Part II gives the distribution in detail for the total enumerated population of each Province and State. The estimated population referred to on the fly-leaf to Table I of Ahmadabad in the Bombay Presidency of East Manglun in Burma and of the Agencies and Tribal Areas in the North-West Frontier Province has been omitted from both parts I and II of this table. Part III gives corresponding details for selected cities; in this part occupational groups with no entries against them have been omitted.

3. The treatment of dependants is not the same as in 1921. No attempt has been made to distribute persons wholly dependent according to their dependency on various occupational groups; but those dependants who by working full or part time help to augment the family income have been detailed according to the actual occupation by which their assistance is given. The system of classification followed was not entirely consistent in all States and Provinces, necessitating reclassification in some groups as a consequence of which discrepancies will be found between the figures in this table for groups 159 and 160 and those in the tables of Baroda, Cochin and Jammu and Kashmir States.

4. The figures under the columns for total following any occupation include persons following occupations as subsidiary to their principal occupation, so that the figures include as separate items a certain number of different occupations followed by single individuals to a maximum of two occupations per individual.

5. Persons undergoing sentence of rigorous imprisonment have been treated as working dependants wherever separate figures were available, and so entered against group 192; all other classes of prisoners have been entered in the principal occupation column against the same group, but have been excluded from the total for earners and included among non-working dependants in the heading to Part I of this table. This system was followed in the cases of Baluchistan, Bengal, Bihar and Orissa, the Central Provinces, Cochin, Delhi, Mysore, Travancore and the United Provinces. Elsewhere those undergoing simple have not been distinguished from those undergoing rigorous imprisonment.

6. The figures of 12,069 female earners, 2,364 female working dependants and 42 females following the occupation as subsidiary were shown in Bombay under group 17, Forest officers, rangers, guards, etc; as they relate to the Thana district where members of primitive tribes are numerous, they probably represent collectors of forest produce and have accordingly been reclassified for the India Table under group 19, leading to discrepancy between the India and the Bombay tables in the two groups mentioned.

# TABLE XI.

## Occupations of Selected Castes, Tribes or Races.

Part I of this table corresponds to Part I of Table XVI of 1911, a table which was not compiled for India in 1921 ; this time also its compilation was optional but a few figures are here presented as indicating the extent to which traditional occupations are being abandoned. Part II corresponds to Part II of Table XXI of 1921. The occupations are arranged in both parts of this table under twelve main heads corresponding to the sub-classes of the scheme of classification adopted for Table X.

2. The totals in columns 2, 3 and 4 of Part II will be found to correspond with the respective totals for the Provinces (British Territory *plus* States) and States as given in Table XIX of this volume. The aggregates for India do not correspond in the two tables as the figures for the Andamans and Nicobars, Coorg and the Western India States Agency, where the table was not compiled, have been omitted from this table, while those for Madras relate only to Madras City, Chingleput and the Nilgiris. A further discrepancy occurs in the figures for Europeans owing to the omission of ten non-Christian Europeans in Baluchistan. The figures for the Punjab include those for the Punjab States Agency.

3. The figures in columns 5—28 for both Europeans and Anglo-Indians do not in every case add up to the figures in column 2, the discrepancies being due to the omission in certain cases of the occupational details for working dependants. In the units against wh ch the aggregates of the figures in columns 5—28 agree with the figures in column 2 no working dependants were returned.

# TABLE XII.

## Unemployment of Educated Persons.

*See Part I, Chapter IX.*

# TABLE XIII.

## Literacy by Religion and Age.

The general arrangement of this Table corresponds with that of Table VII of this volume. The sort for Literacy in Burma and in the Andamans and Nicobars having been similar to that for Civil Condition.

2. The population dealt with in this Table is identical to that detailed in Table VII with the exception that the total population of Baluchistan is detailed here the remarks in paragraphs 3 and 4 of the introductory note to that Table are otherwise relevant. The discrepancy between the figures for Aryas and Brahmos in this Table and in Table VII is due to the omission of details for these sects from Travancore State.

3. The figures for general literacy (*i.e.*, those in columns 5—7) are inclusive of the figures for literacy in English. No person below the age of five has been treated as literate for any column.

4. Separate statistics for Indian Christians, who are also included in the body of the Table under the head Christians, are given in the statement below :—

# TABLE XIV

## Literacy by Selected Castes.

This Table, which corresponds to table IX of 1921, deals exclusively with the population aged 7 years and over.

2. The castes selected will generally be found in Provincial Tables arranged according to the proportion of literate persons returned in each. Here they have been arranged alphabetically to facilitate reference, as in Table VIII.

3. The remarks in paragraphs 3, 4 and 5 of the fly-leaf to Table VIII apply to this table also. Paragraph 6 is also relevant, except that here the Andaman and Nicobar Islands are also represented.

4. To economise in space other tables of this volume in which the castes detailed in this table also appear are represented in col. 3 by small arabic instead of Roman numerals.

# TABLE XV.

## Language.

(1) This table which corresponds to table X of 1921 has on this occasion been tabulated in two parts.

(2) Part I shows details of the linguistic distribution of the inhabitants enumerated in each Province, State or Agency according to mother-tongue. The languages have been arranged according to a revised classification based on Sir George Grierson's revised scheme of Indian Languages. Languages which were grouped together under the head 'Other Languages' in many of the provincial returns, have here been reclassified as far as the details available permitted. Hindustani, under which term the returns of both Urdu and Hindi as spoken languages were amalgamated for census purposes, has been reclassified here as Western Hindi, Eastern Hindi or Bihari.

(3) Part II is intended to show the extent to which subsidiary languages are in practical use in addition to the mother-tongue of the speakers. The statistics in this part are not the result of a complete enumeration but of returns limited to those areas in which concurrent vernaculars were found to exist.

(4) The summary below gives the total number of persons recorded under the principal groups of the general scheme of classification followed for Part I :—

# TABLE XVI.

## Religion.

This table corresponds with Table VI of the last Census and shows the distribution of the population by religion according to the province or state of enumeration.

2. The total population shown in this table is less than that in Table I owing to the omission of 2,308,221 persons (1,208,311 males and 1,099,910 females) for whom no particulars of religion were available, as the figures were not obtained by individual enumeration. The population thus omitted is as follows :—

| | Persons. | Males. | Females. |
|---|---|---|---|
| (1) Bombay .. .. .. .. .. .. | 75,735 | 30,674 | 45,061 |
| (2) Burma .. .. .. .. .. .. | 19,649 | 9,925 | 9,724 |
| (3) North-West Frontier Province .. .. .. .. | 2,212,837 | 1,167,712 | 1,045,125 |

*Number (1) represents the estimated population of Ahmadabad believed to be almost entirely Hindu or Jain ; number (2) represents the estimated portion of the population of East Manglun in the Shan States and was probably either Tribal or Buddhist, while number (3) represents the population in the Agency and Tribal Areas of the North-West Frontier Province, and must be almost exclusively Muslim.*

3. The term 'Brahmanic' has been used for those Hindus who were not returned as belonging to either the Arya Samaj or the Brahmo Samaj or to certain other reforming or segregative bodies, which have been shown together in 'Other Hindus'. These bodies consist of Deo-Samajists, Adi-Hindus, Adi-Dravidas, Adi-Karnatakas and such persons of the Satnami, Sanjogi, Kabirpanthi and Dadupanthi sects as returned themselves by these terms in place of the term Hindu. They include 1,479 persons (798 males, 681 females) who appear in the Bombay Table under 'Minor Religions'.

4. The statement below shows the number of persons tabulated as Jains and Buddhists who returned themselves as also Hindus :—

| Province or State. | Jain. | | | Buddhist. | | |
|---|---|---|---|---|---|---|
| | Persons. | Males. | Females. | Persons. | Males. | Females. |
| Bihar and Orissa .. .. | 236 | 135 | 101 | 19 | 19 | .. |
| Central Provinces and Berar .. | 3,800 | 2,043 | 1,757 | 26 | 16 | 10 |
| Delhi .. .. .. .. | 141 | 68 | 73 | .. | .. | .. |
| Punjab .. .. .. | 7,623 | 4,035 | 3,588 | .. | .. | .. |

In the Punjab 551 Hindus returned themselves as also Jain (526) or Buddhist (25), or Ad-Dharmi (7,287). They are included in the total of Other Hindus.

5. Sects of Christians, like those of Hindus and Muslims, have not been separately sorted, but collective figures for Roman Catholics, Syrians and Others, will be found in the statement at the end of this table.

6. Figures of Tribal Religion include 36 persons (32 males and 4 females) in Baluchistan who returned their religion as "Chuhra," and 134 persons (78 males and 56 females) returned as Sansi from Jammu and Kashmir State.

7. Details for the persons included under the head 'Minor Religions and Religion not Returned' are as follows :—

| Province, State or Agency. | Total. | | | No Religion. | | | Indefinite Beliefs. | | | Chinese. | | | Remarks. |

# TABLE XVII.

## Race, Caste or Tribe.

In tabulating caste the method followed in 1891 of tabulating as far as possible by traditional occupation has been followed in order to avoid the dispersion of closely connected castes involved in an alphabetical arrangement. Castes have been shown in consolidated figures as far as possible, and though variant names have generally been shown some purely local variants have disappeared in the process.

2 The castes shown are representative only and not a complete tabulation of the whole population, the total numbers covered by this table being 220,747,267. In the final summary all Hindus appear and Hindus alone are included, but the separate groups tabulated in the main table include Tribal and some Muslim groups, the basic principle followed having been first to give examples from all strata of the population corresponding in arrangement as far as possible to the occupation table (Table X), and secondly to include all castes which appear in more than one provincial table. The instructions for the compilation of caste were that all provinces should in the interests of economy compile figures only for such castes as the Local Government considered of sufficient importance. This has made it impossible to compile figures for all castes for all India. Castes and Tribes appearing in Tables VIII, XI, XIV, XVIII have been marked *, ‖, † or § accordingly.

The figures of exterior castes in some cases differ slightly from those in Provincial Volumes on account of the exclusion here of certain doubtful cases.

# TABLE XVIII.

## Variation in Population of Selected Castes and Tribes.

*Note*:—The 1921 and 1891 figures for Bombay include those for the Western India States Agency also.

To economise in space, other tables of this volume in which the castes detailed in this table also appear are represented in colums 3 by small arabic instead of Roman numerals.

# TABLE XIX.

## Europeans and Allied Races and Anglo-Indians by Race and Age.

This table corresponds with Table XVI of 1921, and is divided into two parts—Part I of which shows details for the individual Provinces and States, and Part II for a selection of cities. Part A of both parts relates to Europeans, and is further sub-divided to show details for British subjects and others, while Part B relates to Anglo-Indians. Columns 2-4 show the total number of Europeans (with allied races) *plus* Anglo-Indians.

2. The age groups have been modified from the form which they took in 1921 to bring them more nearly into line with the groups adopted for other tables. Armenians have been included among Europeans and Allied Races as their numbers and importance do not justify separate treatment. The statement below shows their numbers where available, by the Province or State of enumeration :—

*Note.*—No Armenians were returned in the following units: Ajmer-Merwara, Assam, the Andamans and Nicobars, Baroda State, Cochin State, Coorg, Gwalior State, Rajputana Agency and Travancore State.

The figures against Bengal and Bihar and Orissa represent the number of persons enumerated therein who returned Armenian as their mother-tongue, and have been given here as separate figures were not extracted for Armenians in those units.

# APPENDIX I.

## Fertility Tables.

1. These tables represent a compilation for India of the figures obtained by a special enquiry in the various Provinces and States, separate figures for which are given below the India totals.

2. The tables are self-explanatory and the matter is dealt with in Chapter V of the Report. They consist of the following :—

1. Sex of first born.
2. Proportion of fertile and sterile marriages.
3. Average size of family correlated with age of wife at marriage.
4. Size of families by occupation of husbands.
5. Size of families by caste or religion and age of wife at marriage.
6. Duration of marriage correlated with caste or religion.

# APPENDIX II.

## Census of Indians on the High Seas.

An attempt was made at this census to enumerate Indians on the high seas through the agency of the port authorities at Aden, Bombay, Calcutta, Karachi, Madras and Rangoon. High Seas schedules were issued for some six months beforehand to all Masters of vessels shipping Indian crews for a period which was likely to cover the date of the Census of India, *viz.*, the 26th February 1931, to be returned by the Master from the first port of call after that date. All vessels which returned high seas schedules at the Port of Madras were found on examination to have been in Indian waters on the night of the census and were consequently treated as normal port or sea-going population and included in the Presidency totals. The population returned at the ports of Aden, Karachi and Bombay was included in the ordinary provincial population of Bombay and Aden, but such of the figures as were separately available have been again included here with the returns received in Rangoon and Calcutta, which have been tabulated separately in forms corresponding with certain tables of the Imperial series, and appear in this appendix arranged as follows :—

*Table I.*—Birthplace—Corresponds to Imperial Table VI.

*Table II.*—Age, Sex and Civil Condition by Religion—Corresponds to Imperial Table VII.

*Table III.*—Occupation—Corresponds to Imperial Table X.

*Table IV.*—Literacy by Religion and Age—Corresponds to Imperial Table XIII.

*Table V.*—Language—Corresponds to Imperial Table XV.

*Part I.*—Mother Tongue.

*Part II.*—Bilingualism.

*Table VI.*—Religion—Corresponds to Imperial Table XVI.

*Table VII.*—Race, Caste or Tribe—Corresponds to Imperial Table XVII.

# APPENDIX III.

## Persons of Indian Origin enumerated in various parts of the British Empire.

The tables below give details for persons of Indian Origin enumerated in various parts of the British Empire. Wherever possible the return of Birthplace, Religion, Civil Condition, Occupation and Age was made but in cases this return was partial, which accounts for the discrepancies between the figures under the several headings in the statements below.

2. The figures detailed in these statements are not in every case the result of enumerations in 1931 but of records over a period of about six years (*viz.*, 1926-31). The majority of the returns are, however, the result of census enumerations in 1931, and such as are not will be found dated in the column for designation on each statement.

# APPENDIX IV.

## Figures of Area and Population by Religion to the nearest thousand.

The statement below has been compiled on recent census figures in the form of Appendix I to Volume I of the Report of the Indian Statutory Commission, in order to show the population of provinces with Sind and Orissa as separate units.

2. The table includes under the Provinces only territory which is in British India (with the exception of Berar, which is included with the Central Provinces and as part of the total for Governors Provinces and for British India).

3. The estimated populations referred to in column 15 against Bombay represents the estimated population of Ahmedabad believed to be almost entirely Hindu and Jain, while those in the Agency and Tribal Areas of the North-West Frontier Province are almost exclusively Muslim.
