FOREWORD

The compilation of the present Union List arises out of a preliminary work undertaken for a project relating to the published material in French language on the economic and social history of India. The Gokhale Institute has brought out similar bibliographical works in the past and this List constitutes the latest addition to such efforts. It is hoped that the scholars who wish to use research material in French social science periodicals would benefit by consulting this List.

## CONTENTS

	<u>Page</u>
1. Introduction	ix - xiii
2. A Regionwise List of Libraries	xiv - xxi
3. List of Abbreviations Used	xxii
4. Part I : Union List of Social Science Periodicals in French Language Available in Indian Libraries (Published in France)	1 - 52
Part II : Union List of Social Science Periodicals in French Language Available in Indian Libraries (Published outside France)	53 - 99
5. Annextures :	
1. A list of periodicals in which articles in French on India have appeared	103 - 105
2. A list of periodicals in which articles in French on India have appeared and which are available in Indian libraries: alphabetical arrangement with a regionwise break-up	106 - 107
3. A list of periodicals in French in which articles on India have been located: arrangement by number of centres in which a particular title is received	108 - 109

## INTRODUCTION

Current research material in social sciences relating to India is mostly published in the English language journals. However, it cannot be overlooked that there are other European languages also in which scholarly articles concerning India are, more or less, regularly published from time to time. French is one such important European language. The diffusion and use of French material in India so far remains confined to a restricted readership, and, thus, generally remains unknown to all the concerned scholars. It would, therefore, be useful for Indian scholars to be aware of such material and make full use of it as far as possible. With this in view, an attempt is made here to bring together the existing situation relating to the availability of French social science periodicals in major libraries in India.

Objective

The purposes served by this Union List would be as follows:

1. It will give library-wise information regarding the availability of French social science periodicals in India.
2. It will help the researcher to know which French periodical is available in which library in India, so that it may be possible for him to pursue his work more conveniently.
3. It will show the regional distribution of French social science periodicals in India. This will also help to know if a particular periodical is duplicated or triplicated in the same region.

A quick glance at the Annexure no. 3 for example, shows that French social science periodicals are available in a large number of centres in the northern region as compared to the western region.

4. It will also help in deciding on new titles to be subscribed to, avoiding unnecessary duplication on the one hand, and extending the availability of non-available ones on the other.
5. It is hoped that this Union List may also be of some help in taking policy decisions regarding subscribing (and its financing) to new periodicals in different regions.

#### Preparation of the Union List

The survey conducted for this purpose was carried out as follows:

1. A list of French social science periodicals containing articles on India was first prepared. This was done by consulting the annual International Bibliographies (from 1952 onwards) brought out by UNESCO in the field of Economics, Politics, Sociology and Social and Cultural Anthropology. The issues of the Journal of Asian Studies (1948 onwards) were also consulted for additional articles. This effort resulted in locating a large number of French articles relating to India - bringing the total number of articles in all to approximately two thousand and these were located in about 240 French periodicals.

2. At the next stage of work, the 240 French titles were checked with the Union catalogue of Social Science Periodicals for different regions in India, compiled by the Indian Council of Social Science Research, New Delhi. This was done with a view to finding out which of the titles were available in India, and in which libraries. After going through these catalogues, it was noticed that French periodicals were available mostly at four regions, namely, Delhi (North), Calcutta (East), Madras-Pondicherry (South), and Bombay-

Pune (West). Hence, the volumes pertaining to these regions were further referred to in greater details. Thereafter, a regionwise listing of the above mentioned periodicals was made.

3. The next step was to compile a draft union list of French social science periodicals available in Indian libraries. A preliminary list was prepared from the ICSSR volumes of the Union Catalogue of Social Science Periodicals for Delhi, National Library, Calcutta, and the States of Maharashtra, West Bengal and Tamilnadu. A questionnaire prepared for this work was sent along with the lists of respective holdings to different libraries in India for the purposes of updating, supplementing etc. The details sought related to the position regarding the actual holdings of the French titles whether they were currently received, whether they were subscribed, or received on complimentary/exchange basis, and the current rate of their subscription, if known.

It may be noted here that over 50 per cent replies were received against questionnaires thus sent. In the meanwhile, the Gokhale Institute Library was successful in obtaining a xerox copy of a list of French periodicals published in France by the Centre Nationale de Recherche Scientifique, Paris. This list gives the titles of periodicals in an alphabetical as well as classified order and also the full address of each periodical. All the titles were also checked with Ulrich's International Periodicals Directory and the CNRS list to ascertain the first date of starting, frequency and the subscription rate of the periodical as in 1983.

#### Presentation of Information

As for the presentation of data thus collected, the bibliographical information for each title is given in the following order:

1. The French title of the periodical, with its subtitle if any, is given first. In the case of a bilingual periodical, the French title comes first followed by the title in the other language.

2. The full address of the publisher of the periodical.
3. Date of the first volume, the frequency of the periodical, and its subscription rate.
4. Additional information if any, is given in brackets.
5. The holdings of the libraries in which the periodical is available. Also, the manner in which it is received, i.e. complimentary, exchange or subscription.

(Includes: Association des  
Anciens du C.H.E.A.M.  
Bulletin. Formerly:  
Afrique et l'Asie)

All the French titles have been divided into two Parts. Part I: Periodicals published from France, and Part II: Periodicals published outside France. It may be noted here that the details mentioned in the above paragraph are confined to periodicals published from France. For periodicals published outside France, a separate alphabetical list is also provided with such information as the year of starting, and the holdings in Indian libraries, and the frequency where known.

All entries are filed in an alphabetical order, word by word. Apostrophes and initials precede other letters in the alphabet.

Example: R.F.M. will come before Revue...  
Bulletin d'... will come before Bulletin de  
la...  
Bulletin de l'... will come before Bulletin  
de la...

The present Union List has been prepared as a part of a project on research material in French Language on the economic and social conditions in India, under the direction of Dr. V.D.Divekar. This project proposes to cover material such as books, articles and theses. Comments, suggestions and queries relating to the Union List are welcome.

I would like to express my sincere thanks to Dr. V.D. Divekar under whose guidance this List has been compiled, the librarians and their concerned staff who replied to questionnaires enabling me to update the information wherever possible, and to Mrs. Anjali Nilangekar who did all the typing.

Asha Ogale

-----

Remarks: 37 titles i.e. the maximum are received in the North followed by 20 in West Bengal (East) 15 in Tamil Nadu (South) and only 10 in Maharashtra. Thus, there is more concentration in the North, mainly at New Delhi.
