| TABLES— | |
| No. | |
| 1. General summary, 1900-01 to 1919-20 | 2-3 |
| 2. Area cultivated and uncultivated in 1919-20 in each province | 4 |
| 3. Area under irrigation in 1919-20 in each province | 5 |
| 4. Area under different crops cultivated in 1919-20 in each province | 6-7 |

1. Total uncultivable area, net area cropped, culturable waste other than fallow, and current fallows.

2. Total area under food crops, total area under non-food crops, and total irrigated area cropped.

PREFATORY NOTE

The main idea in issuing these summary tables is to make available in abstract form the provisional figures of the Agricultural Statistics of British India for the agricultural year 1919-20. These statistics would not, otherwise, be published until Volume I of the Agricultural Statistics of India is issued later in the year.

2. The total area of British Provinces (excluding Indian States) to which these tables relate is 625 million acres according to professional survey, or 622 million acres according to village papers. Of the latter area, 234 million acres represent uncultivable area comprising forests (88 million acres) and other area not available for cultivation (146 million acres), 113 million acres culturable waste other than fallow, and 52 million acres the area left fallow during the year. The net area actually sown during the year was thus 223 million acres. If areas sown more than once be taken as separate areas for each crop, the total area sown in the year 1919-20 amounts to 255 million acres, which shows an increase of 27 million acres as compared with that of 1918-19. This may be classified under the two main heads, food crops (211 million acres) and non-food crops (44 million acres). Increase in the food crops area was general, except in regard to sugar. The main increases were under gram (+5 million acres), wheat (+4 million acres), bajra (+3 million acres) and rice and barley (+1 million acres each). The total area under non-foodcrops increased by 5 million acres. The increase is shared mainly by linseed, cotton, and fodder crops (+1 million acres, each) and rape and mustard (+ $\frac{1}{2}$ million acres). The total area irrigated (49 million acres) increased by over 2 million acres, as compared with 1918-19.

No. 2—AREA CULTIVATED AND UNCULTIVATED IN 1919-20 IN EACH PROVINCE
