PREFACE

With a view to clearing war time arrears in publication and in the interest of paper economy, this Volume, which is fifty-sixth of the series, is being brought out as a combined issue containing information in respect of the reporting Indian States in Undivided India for the four years 1939-40 to 1942-43 and is being issued by the Directorate of Economics and Statistics which has taken over the work relating to Agricultural and Livestock Statistics hitherto done by the Department of Commercial Intelligence and Statistics. As in the previous issues, summary tables have been inserted to show the total figures relating to area, the classification of area, the area under crops for each State or Group of States and the totals for all the reporting States. The total number of cattle, as far as reported, in each of the years 1923-24 to 1942-43 has also been included in the general summary table (No. 1). Two charts and an index for easy reference have, as usual, been added to the volume.

The detailed work in the preparation of this Publication has been done by the Land Utilization Branch of the Directorate under the supervision of Shri I. D. Khanna.

W. R. NATU,
Economic & Statistical Adviser,
Ministry of Agriculture.

NEW DELHI ;
The 27th July, 1949. }

APPENDIX

<u>Glossary of Indian terms used in the Volume</u>	458
Index	459—460

Explanatory Note

The States comprise one-third of the total area of India and, as such, the importance of the statistics relating to them can hardly be over emphasised. But the available statistics cover only the reporting States and are, therefore, incomplete. Non-reporting States continue to be put on a reporting basis from time to time and, when the process is complete, the above defect would be removed. At present, however, the changes in the number of reporting States vitiate the comparability of the figures for different years in respect of the Indian States as a whole. Besides, the statistics in respect of Indian States do not compare in accuracy with the statistics relating to Indian Provinces.

The total area of Indian States is 459* million acres (717,000 square miles), with a population of 93 millions according to the Census of 1941. During the years under review these States were divided, for purposes of agricultural statistics, into two main classes, namely, (1) States within the jurisdiction of Provincial Governments and Administrations and (2) States having direct political relations with the Crown Representative.

(1) States within the jurisdiction of Provincial Governments and Administrations.—These States comprise only Manipur and the Khasi and Jaintia Hill States in Assam and their total area is 7,881,000 acres, with a population of 726 thousands.

No agricultural statistics are at present prepared for these States. The total area of these States is included in the area of Assam stated in column 2 of Table I of Volume I (Indian Provinces), but is also shown separately in column 3 of that table in order to arrive at the net area of Indian territory (in column 5) dealt with in that volume.

(2) States having direct political relations with the Crown representative. These were divided into the following main groups :—

	Area Thousand acres	Population Thousands
Baluchistan States	50,909	356
Baroda	1,990	2,855
Bombay States (including Western India States)	35,923	9,148
Central India States	33,319	7,512
Eastern States	41,756	9,219
Gwalior	16,507	4,006
Hyderabad	52,927	16,338
Kashmir	51,815	4,022
Madras States	6,867	7,992
Mysore	18,872	7,329
North-West Frontier Province States (including Tribal areas).	15,991	2,377
Punjab States	30,347	6,197
Rajputana States	84,794	13,670
Sikkim	1,757	121
United Provinces States	4,025	1,326
Total	450,799	92,468

*The difference between this area and that shown in the Census Report of 1941 is due to the adoption of revised area from the annual returns of Agricultural Statistics where available.

NOTE :—The grouping of the Indian States has been arranged according to their geographical situation, irrespective of the changes made in the allocation of these States under different political agencies. 2

No agricultural statistics are at present available for the Baluchistan States, Eastern States, North-West Frontier Province States and Sikkim. Of the remainder, returns are received from the following eighty two States :—

	Area Thousand acres	Population Thousands
<i>Baroda</i>	4,990	2,855
<i>Bengal State—</i>		
Cooch Behar	844	641
<i>Bombay States—</i>		
Aundh	321	89

Simla Hill States (comprising Baghal, Baghat, Balsan, Bashahr, Bhajji, Bija, Darkoti, Delath, Dhadi, Dhami, Ghund, Jubbal, Keonthal, Khaneti, Koti, Kumharsain, Kunihar, Kuthar, Madhan, Mahlog, Mangal, Nalagarh, Ratesh, Rawaingarh, Sangri, Tharoch and Theog)	3,281	360
Sirmur (Nahan)	740	156

	Area Thousand area	Population Thousands
<i>Rajputana States—</i>		
Alwar	2,043	823
Bharatpur	1,263	576
Bikaner	15,499	1,293
Bundi	1,371	249
Dholpur	740	287
Jaipur	9,990	3,041
Jhalawar	527	122
Kishangarh	549	104
Kotah	3,638	777
Marwar	22,442	2,556
Tonk	1,634	354
<i>United Provinces States—</i>		
Benares†	574	451
Rampur‡	571	477
Tehri-Garhwal*	2,880	397
Total	260,503	65,657

The total area of all the eighty-two reporting States named above amounts to 260,503,000¶ acres with a population of 66 millions. These States, therefore, contain 57 per cent of the total area, and 70 per cent of the total population of the Indian States.

The earliest years from which the statements of agricultural statistics have been received from these eighty-two reporting States are noted below :—

Mysore	1886-87
Jaipur	1892-93
Gwalior	1896-97
Bikaner, Marwar, Tonk	1898-99
Alwar, Bharatpur, Jhalawar, Kishangarh, Kotah	1900-01
Bahawalpur, Indore, Jind, Nabha, Nagod, Narsingarh, Patiala, Rajgarh	1907-08
Banganapalle, Barwani, Bhopal, Cochin, Dujana, Faridkot, Kalsia, Kapurthala, Loharu, Malerkotla, Pataudi, Pudukkottai, Sandur, Simla Hill States‡, Sirmur, Travancore	1908-09
Kashmir	1910-11
Aundh, Baroda, Bundi, Jath, Phaltan, Sachin	1918-19
Benares, Bhavnagar, Dharampur, Hyderabad	1919-20
Dholpur, Rampur, Tehri-Garhwal,	1920-21
Bilaspur§	1922-23
Orchha	1928-29
Miraj (Senior), Mudhol, Ramdurg	1937-38
Cooch Behar, Kolhapur	1939-40

The returns for the States mentioned below relate to the years ending on the dates shown against each :—

Banganapalle and Sandur	Year ending 31st March
Cooch Behar	" " 13th April
Bhopal and Mudhol	" " 31st May
Indore	" " 5th June
Jath and Phaltan	" " 6th June

* Politically under the Punjab Hill States Agency.

† Politically under the Gwalior Residency and Rampur and Benares Agency.

‡ For some of the Simla Hill States statistics have been received much later than 1906-09.

§ Statistics for the State were formerly included under Simla Hill States.

¶ The difference between this figure and the total area as shown in column 2, Table I, on page 15 is due to the inclusion here of complete area figures for Barwani and Simla Hill States taken from the census returns.

Baroda. Benares, Bharatpur, Cochin, Dharampur, Dujana, Gwalior, Kishangarh, Kolhapur, Kotah, Mysore, Nagod, Narsingarh, Orchha, Patiala, Pudukkottai, Tehri-Garhwal and Travancore	Year ending 30th June
Aundh	" " 5th July
Ramdurg and Sahin	" " 31st July
Jaipur	" " 31st August
Bilaspur	" " 22nd September
Barwani, Bundi, Dholpur, Jhalawar, Marwar and Rampur	" " 30th September
Hyderabad	" " 5th October
Patandi	" " 30th October
Alwar, Bhavnagar, Bikaner, Rajgarh and Tonk	" " 31st October
Kashmir	" " 12th April for Kash- mir Province and Frontier Districts and 16th September for Jammu Pro- vince.

Table I
Total area

From the total area of all the eighty two reporting States (260,503,000 acres*), deduction must be made of 101,839,000 acres, comprising chiefly unsurveyed areas and lands held on jagir, muafi, and other privileged tenures for which statistics are not available. The net area actually covered by these statistics is, therefore, only 158,664,000 acres by professional survey†, or 158,885,000 acres according to village papers‡.

Table II
Classification
of area

	Thousand acres	Per cent	
Forest	19,203	12.1	19,203,000 acres, or 12.1 per cent of the total area, and the area not available for cultivation, that is, land absolutely barren, or unculturable, or covered by buildings, water and roads, or otherwise appropriated to uses other than agriculture, amounts to 33,110,000 acres, or 20.9 per cent; while other uncultivated land excluding current
Not available for cultivation	33,110	20.9	
Other uncultivated land excluding current fallows§	20,080	12.6	
Current fallows	13,558	8.6	
Net area sown	72,934	45.9	
Total	158,885	100.0	

fallows amounts to 20,080,000 acres, or 12.6 per cent of the total area, and land kept fallow in the year under report 13,558,000 acres, or 8.5 per cent. The net area actually sown, in the year was thus 72,934,000 acres (45.9 per cent of the total area). This net area sown, however, excludes areas sown more than once in the year. If areas sown more than once (as noted below) are taken as separate area for each crop, the gross area sown in the year of report amounts to 77,396,000 acres.

Table III
Area under
irrigation

The total area irrigated in the reporting States during 1942-43 was 11,109,000 acres, as against 10,742,000 acres in the preceding year. Of this, 4,519,000 acres were irrigated from Government canals, 912,000 acres from private canals, 1,839,000 acres from tanks, 2,684,000 acres from wells and 1,155,000 acres from other sources of irrigation. These figures, however, do not take into account areas sown more than once during the year with the help of irrigation, but indicate the extent of land actually irrigated. If areas sown more than once are counted as separate area for each crop, the gross area of irrigated crops amounts to 12,156,000 acres, of which 9,979,000 acres are reported to have been under food crops.

*The difference between this figure and the total area as shown in column 2, Table I, on page 15 is due to the inclusion here of complete area figures for Barwani and Simla Hill States taken from the census returns.

†For explanation of the terms "professional survey" and "village papers", see footnotes to Table I (page 8 of this volume and the Note prefixed to Volume I.

‡Vide footnote (e) on page 51.

§Out of the total area shown under this head 4,461,000 acres are definitely known to be culturable (vide column 11 of Summary Table No. 2 on page 4).

The gross area sown to crops in the reporting States was, as already stated, 77 million acres in 1942-43. The different classes of crops and the area occupied by each, so far as details are available*, are stated in the margin. Of the total area sown, food crops occupied 59,306,000 acres, or 76.7 per cent and non-food crops 18,003,000 acres, or 23.3 per cent. Of the food crops, food-grains (cereals and pulses) occupied as much as 56,156,000 acres, or 72.6 per cent of the total area sown, and other food crops (condiments and spices, sugar, fruits and vegetables, and miscellaneous food crops together) covered some 3,150,000 acres, or 4.1 per cent of the total. Of the non-food crops, oilseeds occupied 7,817,000 acres, or 10.1 per cent of the total area sown, fibres such as cotton, hemp, etc., 6,118,000 acres, or 7.9 per cent and fodder crops 2,511,000 acres, or 3.3 per cent. The other non-food crops, namely, dyes and tanning materials, drugs and narcotics (tobacco, tea, coffee, opium, etc.) and miscellaneous non-food crops together covered about 1,557,000 acres, or 2.0 per cent of the total.

	Thousand acres	Per cent. of total
Food-grains	56,156	72.6
Condiments and spices	982	1.3
Sugar	301	0.4
Fruits and vegetables	1,223	1.6
Miscellaneous food crops	644	0.8
Total food crops	59,306	76.7
Oilseeds	7,817	10.1
Fibres	6,118	7.9
Dyes and tanning materials	4	..
Drugs and narcotics	536	0.7
Fodder crops	2,511	3.3
Miscellaneous non-food crops	1,017	1.3
Total non-food crops	18,003	23.3

The total extent of land on which more than one crop was raised during the year was 4,462,000 acres.

Table V is returned by one hundred and eighty-one States, namely, Ajaigarh, Ali-Rajpur, Alwar, Aundh, Bahawalpur, Balasinor, Banganapalle, Bausda, Banswara, Baoni, Baroda, Barwani, Benares, Bharatpur, Bhavnagar, Bhopal, Bhor, Bijawar, Bikaner, Bilaspur, Bundi, Cambay, Chamba, Charkhari, Chhatarpur, Chhota Udepur, Cochin, Cutch, Danta, Datia, Dewas (Junior), Dewas (Senior), Dhar, Dharampur, Dholpur, Dhrangadhra, Dhol, Dujana, Dungarpur, 42 Eastern States, Faridkot, Gondal, Gwalior, Hyderabad, Idar, Indore, Jafarabad, Jaipur, Jaisalmer, Jamkhandi, Janjira, Jaora, Jath, Jawhar, Jhabua, Jhalawar, Jind, Jobat, Junagadh, Kalsia, Kapurthala, Karauli, Kashmir, Khairpur, Khilchipur, Kishangarh, Kolhapur, Kotah, Kurundwad (Sr.), Kurwai, Kushalgarh, Limbdi, Loharu, Lunavada, Maihar, Malerkotla, Mandi, Marwar, Miraj (Junior), Miraj (Senior), Mohomedgarh, Morvi, Mudhol, Mysore, Nabha, Nagod, Narsingarh, Nawanagar, Orchha, Palanpur, Palitana, Panna, Partabgarh, Pataudi, Pathari, Patiala, Phaltan, Piploda, Porbandar, Pudukkottai, Radhanpur, Rajgarh, Rajkot, Rajpipla, Ramdurg, Rampur, Ratlam, Rewa, Sachin, Sailana, Samthar, Sandur, Sant, Savanur, Sawantwadi, Shahpura, 13 Simla Hill States, Sirmur, Sirohi, Sitamau, Suket, Tehri-Garhwal, Tonk, Travancore, Vijaynagar, Wadhwan, Wankaner and other Western India States. According to the Fifth All-India Cattle Census held in 1940—and figures for 1942-43 wherever available—the total number of live-stock of the bovine class (bulls, bullocks, cows, buffaloes and young stock, i. e., calves and buffalo calves) was 58,819,000 of the bovine class (sheep and goats) 37,211,000 and of horses and ponies, mules, donkeys and camels 1,644,000. The numbers of ploughs and carts were 8,148,000 and 2,378,000 respectively.

Table VI (Land Revenue) is prepared by thirty-eight States, namely Alwar, Aundh, Banganapalle, Barwani, Benares, Bharatpur, Bhopal, Bikaner, Bilaspur, Bundi, Cochin, Cooch Behar, Dharampur, Dholpur, Gwalior, Hyderabad, Indore, Jaipur, Jath, Jhalawar, Kashmir, Kotah, Marwar, Miraj (Senior), Mudhol, Mysore, Nagod, Narsingarh, Orchha, Phaltan, Pudukkottai, Rajgarh, Ramdurg, Rampur, Sachin, Sandur, Tehri-Garhwal and Tonk.

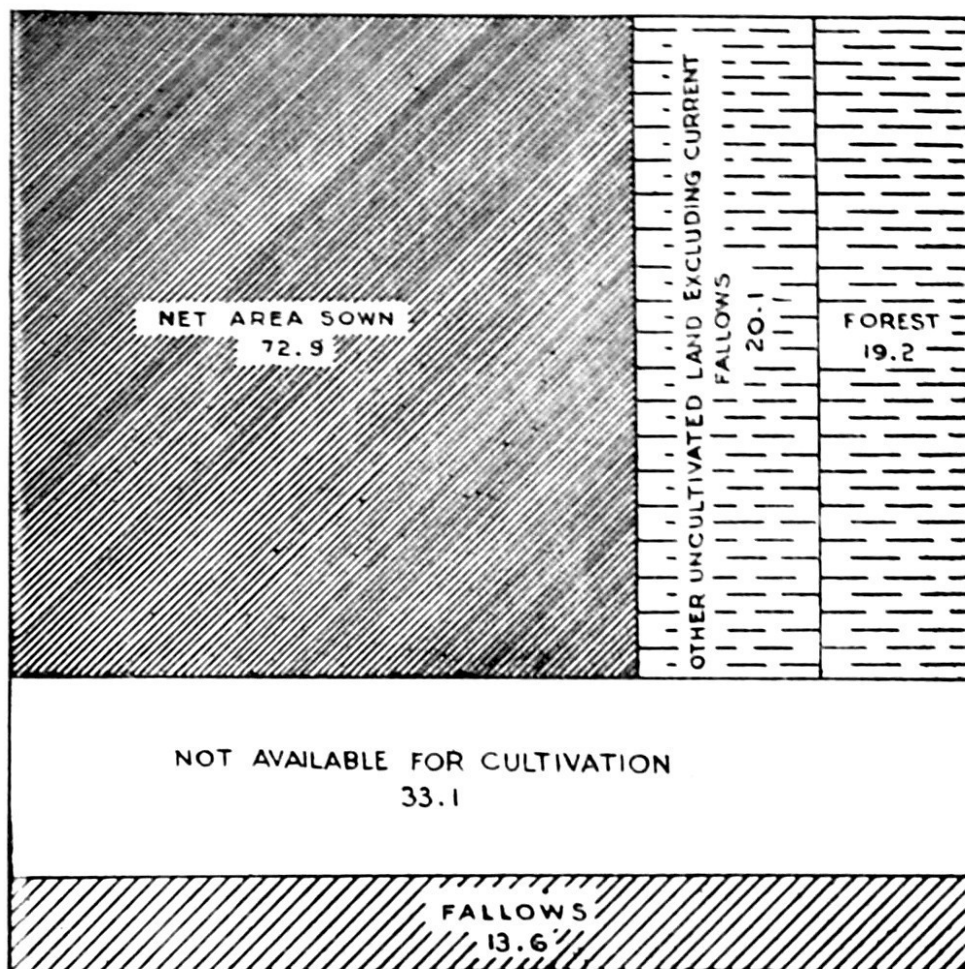

The Appendix explains the Indian terms used in this column and the charts illustrate (1) the classification of the total area showing the proportion of cultivated and uncultivated lands, and (2) the total area sown in 1942-43 divided between food and non-food crops.

* See footnote (4) on page 2.

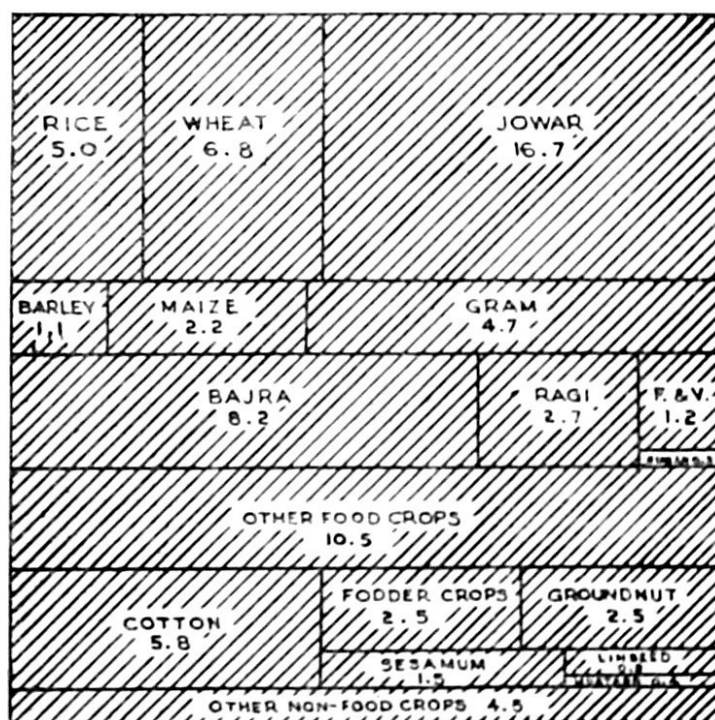

CLASSIFICATION OF THE TOTAL REPORTED AREA IN 1942-43.

TOTAL REPORTED AREA

158.9 MILLION ACRES.

TOTAL AREA SOWN	77.4 MILLION ACRES*
AREA UNDER FOOD CROPS	59.4 " "
" " NON-FOOD CROPS	18.0 " "

* Includes 4.5 million acres of area sown more than once.

NOTE.—(1) Other food crops are minor food-grains, condiments & spices and miscellaneous food crops.

(2) Other non-food crops are oilseeds other than sesamum, linseed, rape and mustard and groundnut; fibres other than cotton; dyes and tanning materials; drugs and narcotics and miscellaneous non-food crops.

TABLES

Summary

No. 1—GENERAL SUMMARY

Classification of

	1923-24	1924-25	1925-26	1926-27	1927-28	1928-29	1929-30	1930-31	1931-32	1932-33
Area by professional survey (a)	134,557	132,914	134,312	134,425	134,596	136,039	138,947	141,751	143,418	143,993
Area according to village papers	134,917(e)	133,038(e)	134,363(f)	134,495(f)	134,635	136,207	139,162	141,930	143,381	143,823(h)
Area under forest	17,094	17,051	17,322	17,178	17,533	17,316	16,895	17,238	16,892	16,884

Young stock (buffalo calves)	1,988	2,503	2,289	2,468	2,536	2,505	3,863	4,067	4,050	4,072

NOTE.—The entries in this table regarding the classification of area and areas under food and non-food crops comprise figures for Mysore, Jind, Nabha, Bahawalpur, Pudukkottai, Banganapalle, Sandur, Cochin, Travancore, Bhopal, Barwani, Sirmur, Kapurthala, Malerkotla, Hyderabad, Bhavnagar, Dharampur, Benares, Dholpur, Rampur, Tehri-Garhwal and Bilaspur (formerly included in Simla Hill State) from 1923-24.

* The entries regarding cattle comprise figures for Mysore, Jaipur, Gwalior, Bikaner, Marwar, Tonk, Alwar, Kishangarh, Sandur, Baroda, Aundh, Phaltn, Sachin, Jath, Bundi, Hyderabad, Benares, Bhavnagar, Dharampur, Jhabua, Jobat, Kashmir, Dholpur, Rampur and Tehri-Garhwal from 1923-24; Jaisalmer, Sitamau and Jaora from 1924-25; Bilaspur from 1926-27; Kushalgarh, Shahpura, Karauli, Bahawalpur, Faridkot, Jind, Loharu, Malerkotla, Nabha, Patiala, Cutch, Dhrangadhra, Dhrol, Gondal, Western India States (including 41 States in Kathiawar and Banas Agencies) from 1929-30; Chamba, Khairpur, Mandi, Sirmur, Idar, Vijayanagar, Kathiawar Agency and the Sabar Kantha Agency) from 1934-35; Miraj (Senior), Mudhol and Ramdurg from 1937-38; and Balasinor, Bansda, Sawant, wadi, Khilchipur, Kurwai, Makrai, Mohammedgarh, and Pathari, Eastern State (See footnote † on page 328), Dujana, Kalsia, in Table V (page 322-389).

† Replaces the former head "culturable waste other than fallow".

(a) Excluding areas for which no returns are available.

(b) Condiments and spices, fruits and vegetables and miscellaneous food crops.

(c) Cinchona, Indian hemp, other dyes and tanning materials, other drugs and narcotics, and miscellaneous non-food crops.

(d) The total of food crops and non-food crops shown here does not agree with the total sown area shown in Summary Table No. 4 for the reasons stated in the footnotes to that table (page 7).

Column 2.—The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding departments in Southern India. In States where there has been no professional survey, the figures are based on the best available information.

Column 3.—In this column is deducted the entire area for which the statistics required for Tables II and IV are not forthcoming in whole or in part. This area comprises chiefly estates held on privileged tenures, which have not yet been surveyed and which possess at present no agency for the annual collection of agricultural statistics. As surveys extend and the organisation of village statistical establishments develops, the area in this column is reduced, and that entered in the next columns (4 and 5) and dealt with in Tables II and IV is correspondingly increased.

Columns 4 and 5.—Column 4 is a check on the accuracy of column 5. In the letter, "village papers" mean "the papers prepared by the village accountants". In States where no village papers exist, or where the source of information is the same for both the survey and the village papers, the figures in column 4 are necessarily repeated in column 5. The area in village papers may differ somewhat from that given by the Survey Department, (a) because, while the survey area is calculated in block, the area by village papers represents the added total of field and village areas, and (b) because, the system followed as regards the inclusion or exclusion of area covered by water, buildings, roads and railroads is not always uniform in the two sets of returns.

* Column 2 states the area of the State according to Settlement records.

† Statistics are furnished by twenty-seven States of this group, namely, Bahawal, Jubbah, Theog, Tharoch, Kumbharwain, Kharoti, Baghal, Ghund, Mahlog, Baghat, Madhan, Koti, Keonthal, Bija, Dhami, Darkoti, Kuthar, Nalagarh, Bhajji, Kunihar, Rawatgarh, Balsan, Delath, Dhadi, Mangal, Ramesh and Sangri. These represent over 96 per cent of the aggregate area of all the States comprised in the group. The returns, however, relate generally to the settled portions of the reporting States.

See explanations given in the footnotes (page 8).

* Column 2.—As there has been no revenue survey so far, this column states the area of the State according to the best available information. Column 3 states the areas of jagir and muafi villages, the boundaries of which have been demarcated, but for which the statistics required for other tables are not available. Columns 4 and 5.—In the absence of any revenue survey data, the figures in column 5 are generally repeated in column 4.

† See footnotes on page 31.

‡ See footnotes on page 34.

§ Column 3 states the area held by jagirdars and udakdars, as well as the muafi plots in khalsa villages, for which no separate record is maintained.

¶ Column 3 states the areas of jagir and other alienated lands.

NOTE.—Column 2 states the whole area of the State according to the Census of 1931. Column 3 states the areas of certain unsettled areas and frontier tracts which are not directly looked after by the Revenue Department of the State, and also certain other areas for which returns are not available. Columns 4 and 5 entirely exclude the area of Frontier Raqas.

Column 3 states the areas of jagir and such other villages as are still unsurveyed. It also includes the area of those khalsa villages which have not yet been regularly assessed; these are chiefly the latest acquisition to khalsa under the law of escheat.

Columns 4 and 5.—The area by village papers does not differ from the area by survey, for, although differences occur under the different classes of soil, the total area of each village is the same in both cases.

Column 2.—The definition of the term "Forests" is as follows:—"Any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may be excluded and entered in column 6 (net area sown) an explanation being given in a note.

Column 3 includes all land absolutely barren, and also all land covered by buildings, water, roads, or otherwise appropriated to uses other than agriculture.

Column 4 includes groves not classed in the area sown. Areas under bamboos and thatching grass, when not forming parts of forest areas, are included in this column.

* Figures given in this column represent areas definitely known to be culturable.

† Replaces the former head "Culturable waste other than fallow".

(a) Included under "Other uncultivated land excluding current fallows".

See explanations given in the footnotes (page 29).

* Figures given in this column represent areas definitely known to be culturable.

† Replaces the former head "Culturable waste other than fallow".

‡ Column 3 states the areas of forests left unassessed. Forests in this State not having been demarcated, figures in columns 3 and 4 also include some forests areas. Column 4 states culturable land not in possession of any cultivator. Column 5 states uncultivated and, i.e., *Bir* (graze lands) and pasture land in possession of cultivators for which they pay land revenue. It also includes the area thrown out of cultivation for three or more years.

* Figures given in this Column represent areas definitely known to be culturable.

† Column 2 states the preserved forests in the Khalsa areas exclusive of the jagir and other alienated lands.

‡ Replaces the former head "Culturable waste other than follow".

(a) Includes 26,543 acres for which details are not available.

(b) Includes 50,085 acres for which details are not available.

(c) Included in column 3.

(d) Includes 9 acres for which details are not available.

(e) Includes 9 acres for which details are not available.

Column 2 states the areas of State and District forests and of plantations.
 Column 3 includes not only lands absolutely unfit for cultivation, but also lands reserved for pasture, and plantations intended for public use and therefore left unassessed. A large portion of the pasture lands is fit for cultivation, and is given out for cultivation from time to time under special orders, such lands when given out for cultivation being transferred from column 3 to 5 or 6 as the case may be.
 Column 4 states unoccupied assessed waste.
 Column 5.—There is no system of fallows, that is, lands are not systematically left uncultivated for the purpose of giving them rest. Individuals occupy large areas and pay full assessment thereon, leaving portions uncultivated, generally for the use of their cattle. For purposes of account the difference between the areas of the lands occupied by individuals and of those actually cultivated by them is taken as fallow. The lands occupied and assessed are sometimes unfit for cultivation, having been taken up on full assessment merely for use as pasture, but the exact area of all such lands cannot be ascertained, although it cannot be large.
 * Figures given in this column represent areas definitely known to be culturable.
 † Replaces the former head "Culturable waste other than fallow".
 ‡ See footnote(*) on page 21.

Column 2 states the areas of State and district forests and of plantations.

Column 3 includes not only lands absolutely unfit for cultivation, but also lands reserved for pasture, and plantations intended for public use and therefore left unassessed. A large portion of the pasture lands is fit for cultivation, and is given out for cultivation from time to time under special orders, such lands when given out for cultivation being transferred from column 3 to 5 or 6 as the case may be.

Column 4 states unoccupied assessed waste.

Column 5.—There is no system of fallows, that is, lands are not systematically left uncultivated for the purpose of giving them rest. Individuals occupy large areas and pay full assessment thereon, leaving portions uncultivated, generally for the use of their cattle. For purposes of account the difference between the areas of the lands occupied by individuals and of those actually cultivated by them is taken as fallow. The lands occupied and assessed are sometimes unfit for cultivation, having been taken up on full assessment merely for use as pasture, but the exact area of all such lands cannot be ascertained, although it cannot be large.

* Figures given in this column represent areas definitely known to be culturable.

† Replaces the former head "Culturable waste other than fallow".

‡ See footnote* on page 21.

NOTE.—The variations in the areas shown in different years under the same crop in the same tract do not in all cases represent an actual increase or decrease in the area under that crop. In certain cases a revised classification or the correction of a faulty estimate is responsible for the change.

Columns 2 to 7 state the area actually irrigated during the year, areas sown more than once being counted once only.

Columns 8 to 19 state the gross area of irrigated crops, areas sown more than once being counted as separate areas for each crop. This accounts for the excess in some cases of the total area of crops irrigated (column 19) over the total area irrigated (column 7).

(a) Includes 1 acre for which details are not available.

(b) Details not available.

NOTE.—(i) In this table are entered the areas actually sown, whether the crop comes to maturity or not, except in cases when fields, owing to the failure of the first sowings have been devoted to other crops: in such cases the area first sown is omitted. In cases where two or more crops are grown together, an estimate is made of the area covered by each, and the areas so estimated are separately returned. The estimate is made by the village accountant, or is subsequently determined on formulae prescribed by higher authorities.

(ii) The variations in the areas shown in different years under the same crop in the same tract do not in all cases represent an actual increase or decrease in the area under that crop. In certain cases a revised classification or the correction of a faulty estimate is responsible for the change.

NOTE.—Animals in towns, cities, and cantonments as also those employed by Government Departments and by Municipalities have been included wherever it is possible to secure their enumeration. Oxen and buffaloes not old enough for work or to produce young ones are classed as "Young stock". The statistics for 1934-35 and 1939-40 are, in most cases, those collected in connexion with the fourth and the fifth All-India Cattle Censuses, held during 1935 and 1940 respectively.

(ii) Further details of the 1940 Census are available from the "India Live-stock Statistics, 1940".

* Statistics for other tables are not available.

(a) Included under "Bullocks."

(b) Included under "Cows."

(c) Included under "Sheep."

(d) Information not available.

(e) Included under "Goats."

Column 3(a).—Areas held revenue-free or at privileged rates should be deducted, but the deduction need not be made where such areas are in any case less than an entire village, and where there is any difficulty in estimating the corresponding deduction to be made in the population (column 11). Areas should not be entered in this column merely because the assessment due from them has been suspended or remitted on account of short crops, or for other special reasons.

Column 4.—This column should be sub-divided into (a) total fully assessed area for which returns are available, and (b) area cultivated out of the area given in head (a). The latter head should be equal to the former after deducting current fallows and fully assessed waste.

Column 5.—Where land revenue includes the zamindar's share, the net demand should be entered, and the table should state the payments due by the zamindars to Government, not those by the rayats to the zamindars. The actual realisable demand on account of the year should be entered, after excluding arrears for past years. This column should include all the heads classed as "Land Revenue" in the Civil Accounts.

Column 6.—The population in column 6 is mostly that of the last census.

Land revenue fully assessed on area (col. 4 (a))	INCIDENCE PER ACRE OF LAND REVENUE (COL. 8) ON FULLY ASSESSED AREA (COL. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	TOWNS OF OVER 10,000 INHABITANTS		STATE AND NATURE OF TENURE
	For total area	For cultivated area			Number of towns	Aggregate population

See explanations given in the footnotes (page 392).

* *Alwar*.—The classes of tenure are zamindari and village communities, the former comprising *zamindari-bil-ijmal* and the latter *patidari* and *dhaiyachara*. Column 2 states the area by village papers (column 5 of Table I, No. 5). Column 3 (a) shows areas covered with forests (column 2 of Table II, No. 28) which are wholly revenue-free.

† *Bharatpur*.—Column 2 includes Raiyatwari area in Bharatpur Circle according to settlement papers as that by professional survey is not available for various tenures separately. See also footnotes on page 436.

(a) Includes area of Mauji, Istamrar, Forest, Ghairmumkin, un-assessed cultivated and Banjar lands.

See explanations given in the footnotes (page 392).

(a) Represents the area by village papers (column 5 of Table I—No. 5, page 15). (b) Including cesses.

* These are *khalsa* or State lands only. The whole area of the State is stated in Table I—No. 5.

† *Jhalawar*—The whole area stated in this table is classed as "Khatadari" and "Watindari" equivalent to "Raiyatwari" and "Zamindari" respectively. Column 2 excludes entire villages held by jagirdars and udaldars.

‡ Includes population of the *Musafi* and *Jagir* villages excluded from column 2.

Column 4 (a) includes area not fully assessed which cannot be separated from area fully assessed.
 Column 5 states "Land Revenue" as defined in the Civil Accounts and includes cesses which cannot be separated from the land revenue.
 Column 8 states only ordinary land revenue with cesses.
 Columns 9 and 10 represent the incidence of land revenue on areas both fully and partially assessed.
 Column 11 includes population of areas not fully assessed which cannot be separated from that of fully assessed area.
 † No information. * Former name, Gird.

Column 1—The state area leased to cultivators for a fixed term is returned as raiyatwari. The area leased out on condition of proprietary right being given to leasees if they reclaimed land within a fixed term is returned as zamindari—temporarily settled; and the rest of the area (i.e. the area remaining after deduction of the raiyatwari and the temporarily-settled zamindari areas from the total area) is entered as zamindari—permanently settled.

Column 3 includes muafi, chauth and istamrar areas.

Column 6 The population stated is that of the last census.

Column 11 shows the total population in cases where separate figures for areas fully and not fully assessed are not available.

*See footnote † on page 400.
