## INTRODUCTORY NOTE.

1. **Scope of the Returns.**—The Annual Statement of the Foreign Sea-borne Trade of British India is published in two volumes:—Volume I contains the abstract and detailed tables of imports and exports of each commodity and Volume II, the abstract and detailed tables of trade and shipping with each country and at each port, together with the tables relating to the trade of the French Possessions in India. \*Tables relating to the trade of Aden which used to be incorporated in Volume II of this publication will no longer be included in that volume but will be available only as a separate publication entitled “Trade and Navigation Report of Aden.” Tables relating to the trade of the Portuguese Possessions in India are also issued from time to time as supplements to these publications.

2. **Nature of the Trade recorded.**—The trade dealt with in the Sea-borne Trade Accounts is the trade with foreign countries registered at British Indian ports during the fiscal year ending the 31st March. The trade registered at British Indian ports can hardly be said to be that of British India only, it is rather the trade of the whole of India and Burma. As stated above, the trade of the French Possessions in India is recorded in Volume II and that of the Portuguese Possessions in a separate publication.

3. **Statistical year.**—All tables in this volume cover the five official years, April to March, 1927-28 to 1931-32, except tables 18A, 18B, 18C which show figures for the years 1927-28 to 1931-32 while table 24 shows figures for 1931-32 only.

4. **Adoption of Rupee notation.**—From 1921-22 the value figures have been exhibited in *rupees*. The change of notation from *rupees* to *pounds sterling* was first introduced in the Supplements to the Annual Statement for 1907-08 to 1910-11 and was adopted in the Annual Statement itself in the issues from 1911-12 to 1920-21.

5. **Abstract Tables.**—The summary tables in this volume show, first (tables 1, 2 and 3), the total value of imports and of exports as a whole, and secondly (tables 4 to 6), the total value of the imports, exports and re-exports of the principal articles, classified in groups under the following five main heads:—

- I. Food, Drink and Tobacco,
- II. Raw Materials and Produce and Articles mainly Unmanufactured,
- III. Articles Wholly or Mainly Manufactured,
- IV. Living Animals, and
- V. { Postal Articles not specified (under Imports),  
      { Postal Articles (under Exports).

(The revised classification above given has been introduced with effect from 1st April, 1922, in the trade accounts of British India. Appendix B to this volume, showing the classification, indicates the articles which are included in each group.)

Imports from and exports to British Dominions and Possessions\* are distinguished from those from and to Foreign Countries, and exports are divided, as in all the tables of the Annual Statement, into “Exports of Indian merchandise” and “Re-exports of British and Foreign merchandise.” The term “Indian merchandise” comprises all goods which are the growth, produce, or manufacture of India. Indian merchandise is distinguished from British and Foreign merchandise in the declaration of shippers made in the shipping bills from which trade statistics are compiled.

Tables 7 to 9 show the total value of imports, exports and re-exports from and to each principal country, and tables 10 to 12 the total imports, exports and re-exports of the principal articles. The articles are arranged in alphabetical order, provision being made for grouping together within the alphabetical order such articles as are related industrially or commercially. Certain articles are recorded by value only, but in most cases both the quantities and values are recorded.

\* Including Protectorates and Mandated Territories.

**6. Detailed Tables.**—Table 13 shows the quantity and value of imports of articles, both dutiable and free, from the principal and other countries of consignment and the shares of the maritime provinces. The arrangement of the articles is the same as in the abstract tables 10 to 12.

Tables 14 and 15 show in the same order the exports to the principal and other countries of articles of Indian merchandise and of British and Foreign merchandise respectively.

The trade in each article with each country is recorded separately in these tables when its value is R1,000 or more. If the value of the trade with any country in any particular article is less than R1,000, it is generally grouped under one of the heads—"Other British Possessions" or "Other Foreign Countries."

**Government Stores.**—Imports and exports of Government stores are separately recorded.

Tables 16, 17 and 18 show the quantity and value of imports, exports and re-exports of Government stores. The accounts of goods exported do not include goods bought by Government and shipped on Government or chartered vessels.

**Treasure.**—Imports and exports of gold and silver coin and bullion are also recorded separately and are not included in the tables relating to merchandise. Imports of gold by letter post are registered with effect from April, 1924, and included in the accounts. The transactions in issued currency notes are, with effect from April, 1922, registered separately under treasure.

Tables 19 to 24 show the imports and exports of gold and silver coin and bullion and of currency notes from and to each country. Bullion, coin and currency notes are excluded from all general tables of imports and exports.

**7. Explanation of Imports and Exports.**—The tables relating to imports refer to goods landed, whether they are intended for home consumption, bonding, or re-exportation. Goods landed and afterwards re-exported are therefore included under "imports," even though imported on a through bill of lading, unless they are removed under bond from the importing to the exporting ships at the same or another port (when they are omitted from the general tables of imports and re-exports) because the accounts exclude transshipment trade at ports. Goods are seldom imported to be improved, and the "improvement" trade, such as is recognised in the statistics of some other countries, is not distinguished.

**Transshipment Trade.**—Indian ports are not transshipment centres for foreign countries to any considerable extent, and the trade returns accordingly take no account of merchandise transhipped.

**Passengers' baggage.**—Imports of dutiable baggage are included in the trade statistics but not those of free baggage.

**Ship's Stores.**—Imports of ship's stores on which duty is paid and exports on which drawback is claimed are also registered.

**Bunkers.**—(Coal and oil) taken for use on board ships engaged in foreign trade are shown separately in the general tables of Exports and Re-exports from 1931-32.

**Parcel Post.**—Imports from and Exports to foreign countries by parcel post are included in the returns; dutiable articles imported by letter post are also included, but the contents of foreign letters despatched are not registered. Imports by parcel post of goods, whether dutiable or not, are not classified according to their nature, with the exception of the items noted in the following paragraph, but are separately recorded at the end of the tables and are entered by value only. Exports by parcel post are treated in the same way as imports by parcel post, and the values shown are approximate only.

From April, 1922, imports by post (including letter packets, registered and ordinary) of jewellery, precious stones, gold and silver thread, cigarettes, and cinematograph films, referred to Collectors of Customs for assessment, are being included with their appropriate heads and sub-heads in the import trade returns.

**Special Statistics.**—At the instance of the Advisory Committee of the League of Nations on traffic in opium, etc., three separate tables 18A, 18B and 18C have been introduced showing the imports, re-exports and exports of opium and other dangerous drugs into and from British India during the years 1927-28 to 1931-32.

**8. Countries to which Imports and Exports are credited.**—Throughout the tables in this volume *Imports* are classified as received from the countries whence they were *consigned* to British India, and not, as in the corresponding volumes for 1910-11 and earlier years, as received from the countries whence they were shipped direct to India. The *countries of consignment* are the countries from which the goods have come, whether by land and sea or by sea only, without interruption of transit save in the course of transhipment or transfer from one means of conveyance to another.

The countries whence goods are consigned are not in all cases the countries of actual origin or in the case of manufactured goods the countries in which the processes of manufacture were conducted or completed, since goods produced in one country may be purchased by a firm in another country and thence despatched, after a longer or shorter interval, to India. In such a case the second country would be the country of consignment, to which the goods would be credited in these tables.

The substitution of countries of consignment for countries of shipment affects the imports from countries which have no seaboard\* (separately distinguished in the tables of this volume). The recorded imports from such countries as Belgium, the Netherlands, Germany, Austria and Hungary are largely affected by this change. These countries were formerly credited in the returns with the exports from countries which did not possess a seaboard, such as Switzerland, or which did not always export their goods from their own ports but from those of a neighbouring country.

*Exports* are credited in the tables to the country of *final destination*, i.e., the country to which they are consigned, whether that country possesses a seaboard or not, and not, as before, to the country containing the port of discharge as declared by the exporter in the shipping bills, whether carried there direct or after transhipment. The *country of final destination* is the country to which goods exported from India are intended to pass, whether by sea and land or by sea only, without interruption of transit save in the course of transhipment or transfer from one means of conveyance to another.

As in the case of imports, this classification differs from that adopted in the corresponding volumes for 1910-11 and earlier years, the countries affected being (1) those without a seaboard, which previously did not appear in the tables, and (2) those countries through which goods consigned to countries without a seaboard were shipped.

A supplementary volume was issued for each of the years 1907-08 to 1910-11 inclusive. These supplementary volumes contained a classification of Imports and Exports on the system which was adopted in Volumes I and II for 1911-12 and subsequent years, imports being credited to countries whence consigned and exports to countries of final destination. For the four years, 1907-08 to 1910-11, the results of both methods are thus available for comparison.

In all tables of Volumes I and II where trade is shown according to countries, the countries included in the British Empire have been grouped separately from Foreign Countries, excepting in tables 4 to 7, 10 and 13 of Volume II, where geographical arrangement within the Continent is followed, and in tables 18A, 18B and 18C of Volume I exhibiting special statistics of the imports and exports of dangerous drugs.

**9. Method of ascertaining Quantities and Values of Imports and Exports.**—The statements of both quantities and values are based on the declarations of importers in Bills of Entry and of exporters in Shipping Bills as subsequently checked by the Customs officials. The quantities are not recorded in every case, but where goods are entered by weight; the quantities given represent the *net* weight exclusive of packages, sacks, casks, tins, bottles, etc., in which they may be contained or of reels on which they may be wound. In certain cases, number, gallon, or yard is the denomination employed. Piece-goods are shown by linear yards, oil-cloth and floor-cloth by square yards, and liquors and oils generally by gallons. When weight is the prescribed denomination, different units (tons, cwts., lbs., and ozs.) are specified according to the nature of various articles and the different trade practice. According to the provisions of

\* The following is a list of such countries :—Switzerland, Turkistan, Afghanistan, Abyssinia, the Transvaal, Rhodesia, Orange Free State and Bolivia.

the Indian Sea Customs Act VIII of 1878 (Section 30), the values of goods imported or exported are based on wholesale market prices, and represent—

- (a) the wholesale cash price, less trade discount, for which goods of the like kind and quality are sold, or are capable of being sold, at the time and place of importation or exportation, as the case may be, without any abatement or deduction whatever, except (in the case of goods imported) of the amount of the duties payable on the importation thereof; or
- (b) where such price is not ascertainable, the cost at which goods of the like kind and quality could be delivered at such place without any abatement or deduction, except as aforesaid.

In the tables of Imports and Exports of Treasure, the weight of gold has been shown in 'fine ounces' and that of silver in 'standard ounces,' the latter meaning the British Standard ( $\frac{37}{40}$  fine); while the value of both gold and silver imported and exported, whether on private or on Government account, represents the market value at the time and place of import or export, except in the case of Government of India rupees and currency notes of which the face value is shown. The practice before April, 1921, was not uniform at all the ports.

**10. Unenumerated goods.**—Unenumerated goods, *i.e.*, goods not separately specified, are divided into "Unmanufactured" and "Manufactured" [Classes II (Group S) and III (Group V) respectively] and are placed in the tables of imports and exports after all other goods recorded. These goods are entered by value only.

**11. Charts.**—Charts are annexed to illustrate the variations in the total imports and exports of merchandise and in the net imports of treasure, and also the variations of principal articles in the import and export trade.

**12. List of Countries.**—A complete list of all the countries, the trade with which is separately recorded, is shown in Appendix C. This list was revised in accordance with the territorial re-adjustments brought about by the War, and introduced in the Sea-borne Trade returns of British India with effect from April, 1921.

**13. Index.**—An index to the articles alphabetically arranged, specified in the tables of Imports, Exports and Re-exports, is given at the end of the volume.

**14. Calendar Year Accounts.**—The particulars of the import and export trade of British India in principal articles for the calendar year are also published annually.
