

RESOLUTION

REVIEWING THE

REPORTS ON MUNICIPAL TAXATION AND EXPENDITURE

IN THE

BOMBAY PRESIDENCY

(INCLUDING SIND),

FOR THE YEAR 1909-1910

(including Statistical Statements Nos. I to IV prepared by the
Municipal Commissioner for the City of Bombay).

BOMBAY

PRINTED AT THE GOVERNMENT CENTRAL PRESS

General Department.

No. 1773.

Bombay Castle,
24th March 1911.

READ—

The reports from the Commissioner in Sind and the Commissioners of Divisions on the working of the municipalities in the Bombay Presidency during the year 1909-1910.

RESOLUTION.—During the year under review the decline of the town of Bhadgaon rendered it desirable to abolish the municipality. The number of city and town municipalities was thus reduced to 14 and 142 respectively.

Number of municipalities and notified areas
There were 10 notified areas. (Khanapur was constituted a notified area during the current year.) It is proposed to constitute, with effect from 1st April 1911, the municipalities* noted in the margin as city municipalities.

* Northern Division.

Nadiad ... Kaira District.
Bandra ... Thana District.

Central Division.

Jalgaon ... East Khandesh District.
Dhulia ... West Khandesh District.
Yeola ... Nasik District.
Barsi ... Sholapur District.

* Southern Division.

Bijapur ... Bijapur District.
Bagalkot ... Bijapur District.
Gadag-Bettigeri ... Dharwar District.

The Ahmedabad municipality was suspended for gross mal-administration. The administration of the Ratnagiri municipality has been for some time under the close observation of the officers of the district. Three successive presidents, of whom two were non-officials nominated by Government and one was non-official elected by the municipality, strove to effect improvements but their efforts met with factious obstruction. The Collector recently examined the working of the municipality and his report shewed that the municipality is incapable of exercising its functions with due efficiency. Municipal accounts and records are in confusion, the collection of taxes and the realization of its dues have been lax, and the interest of ratepayers are not properly served. In these circumstances Government considered whether the municipality should not be superseded under section 179 of the District Municipal Act, 1901. They have, however, decided not to take this extreme step until the municipality has had an opportunity of reforming its ways and of revising its administration. They have, however, withdrawn the right of selecting its own president, which was conferred upon the municipality last year. The municipality has also been informed that unless the conduct of municipal affairs shews decided improvement within a year, Government will be reluctantly compelled to have recourse to supersession.

2. There was a rise of 6,600 in the total recorded population within municipal districts. In the Central Division there was an increase of 4,000 in the population, owing to the inclusion within the limits of the Lonavla municipality of Khandala and the surrounding villages.

3. During the year the privilege of selecting their own president was conferred on 35 municipalities. In Hubli the two sections of Hindus, being both unwilling to have one of the opposite side as president, agreed to compromise by the election of Mr. W. W. Coen, an English non-official resident, who has done good service on the municipality. (In 1909 the privilege of selecting its own president was conferred on the Kamta municipality.) The privilege was, however, forfeited by the municipality owing to its failure to select a president on account of factions. In the case of Hyderabad it is reported that two-thirds of the councillors have not been able to agree in a recommendation regarding the selection of the president.

The elective franchise was conferred on the municipality of Matheran while extended franchise was bestowed on ten municipalities. Of the four additional seats thrown open to election in Matheran the electors returned only three members and the fourth was nominated by the Commissioner. The

Kharda municipality, which received in the previous year the right to elect 6 out of 12 councillors, was re-constituted on the new basis. (The elective element in the Belgaum municipality which consists of 24 councillors was increased from 12 to 16 but the re-constitution of the board was not brought into effect until after the close of the year.)

(During the year general elections were held in the districts of Belgaum, Bijapur, Kánara, Násik and Kaira, and are reported to have aroused considerable local interest in Kapadvanj, Násik, Kárwár, Kumta, Athni, Yámkanmardi and Gokák. In the Belgaum municipality there was no contest in six wards. Great interest was, however, displayed by the educated public in the other wards. The motives that influenced the ratepayers in distributing their votes appear to have been for the most part purely personal.)

The attendance of members at meetings was generally good except in some parts of the Northern Division. The general board of the Ahmedabad municipality held frequent meetings but much of its time was wasted away in unprofitable discussions. In almost all the municipalities of the Ahmedabad and Kaira Districts there were cases of failure to attend two-thirds of the meetings. In the Panch Maháls the sittings of the general board of the Godhra municipality amounted to no more than four; the managing committee which met forty times being adjourned eleven times for want of a quorum.

Sources of municipal revenue and changes therein.

4. There were no important changes in the system of taxation.

5. A very satisfactory increase was recorded in the aggregate gross Municipal income. income of the municipalities which amounted to 92 lakhs compared with 81½ lakhs in the preceding year. Deducting the receipts under "Extraordinary and debt" the net revenue amounted to 80½ lakhs compared with 71 lakhs in the preceding year. The following table denotes the fluctuations under some of the important heads of receipt:—

	1909-1910.	1908-1909.	Increase.	Decrease.
	In thousands.	In thousands.	In thousands.	In thousands.
	Rs.	Rs.	Rs.	Rs.
1. Municipal rates and taxes:—				
(a) Octroi (net receipts, i. e., less refunds)	24,35	21,87	2,98	...
(b) Taxes on houses and lands ...	7,53	7,72	...	19
(c) Water rate ...	7,29	7,04	25	...
2. Revenue derived from municipal property and powers apart from taxation.	18,45	14,62	3,83	...
3. Grants and contributions for general and special purposes ...	10,87	8,84	2,03	...
4. Extraordinary and debt ...	11,28	10,30	98	...

6. The large increase under this head of receipt was shared by all the divisions, Sind alone contributing no less than Rs. 1,88,700, which is ascribed to larger importation of food-stuffs and a brisker state of the trade in Karáchi. In the Central Division the increase of Rs. 80,000 was due mainly to the expansion of the mill industry in Sholápur and to the abnormally large number of marriages in most districts following on a *Sinhast* year. To the latter cause is also attributed the increase of Rs. 18,000 in the Northern Division.

7. There was a decrease of Rs. 19,000 under this head which was shared by all the divisions, but the variations in the various Taxes on houses and land. divisions are due to unimportant causes. There is nothing in the reports to shew how far the municipi-

palities collect their revenue with promptness when due. The Governor in Council is, therefore, pleased to direct that information about the current year's demand and previous year's outstandings and the unrealized balances under both the heads at the close of the year should be given briefly by the Commissioners in their reports in future.

8. The revenue derived from this source shows a very material improvement, an increase of Rs. 3,83,000 being recorded. This large increase is chiefly due to the expansion of revenue in Sind under "Sale proceeds of land and the produce of land, etc.," the receipts amounting to Rs. 8,82,000 against Rs. 5,32,000 in the previous year. The Karáchi municipality sold fewer building plots during the year than in the previous year, but received from the Karáchi Port Trust the sum of Rs. 600,000 for land sold to them for a new export yard in the Queen's Road quarter. There was an increase of Rs. 5,500 in the receipts from the municipal sewage farm. The Hyderabad municipality realized Rs. 1,43,400 from the sale of building plots measuring in all 14,619 square yards and Rs. 8,132 from the sale of strips of land adjoining existing occupancies.

9. The large increase under this head is chiefly made up of the liberal grants given by Government to municipalities for the improvement of water supply, the opening up of congested localities and for educational purposes. The Násik and Pandharpur municipalities received from Government Rs. 35,000 and Rs. 1,50,000 respectively as grants-in-aid of water supply schemes, while after the close of the year the two bodies received additional grants of Rs. 1,20,000 and Rs. 75,000 respectively. A grant of Rs. 20,800 was also made to the Bhusával municipality for its town improvement scheme, and the Sholápur municipality received grants of Rs. 10,000 each in 1909-1910 and 1910-1911 for the improvement of an insanitary quarter of the town in addition to a similar contribution made in the preceding year for the same purpose. In the Southern Division the grants of Rs. 50,000 each made to the Hubli and Belgaum municipalities in 1908 for sanitary improvements were renewed. The Bijápur municipality was given Rs. 70,000 in part payment of the sanctioned grant of two lákhs for water supply. The municipality also received during the current year the balance of the Government grant, namely, Rs. 1,30,000 lákhs. Reha Ashtami and Mátherán received Rs. 7,500 and Rs. 5,000 respectively for the improvement of water supply in the former and for current expenses in the latter, to be subsequently adjusted against the revenues of the municipality. During the current year a grant of Rs. 4,300 was sanctioned in connection with the extension of the distribution system of the Dhárwár water works to Malgudda and Gibb Town. In the Northern Division the Surat and Ahmedabad municipalities each received a grant of Rs. 50,000 for the opening up of congested localities. Surat utilized its grant, but Ahmedabad allowed its grant to lapse to Government. The latter grant has since been renewed for expenditure on a scheme prepared by the Committee of Management which has succeeded the Board of the Ahmedabad municipality. Grants for educational purposes were also increased all round in order to enable the municipalities to meet the additional expenditure in connection with the revision and improvement of pay to school-masters in primary schools.

10. Of the aggregate income of the municipalities 50 lákhs were contributed by rates and taxes against 46 lákhs in the previous year, indirect taxation yielding 24½ lákhs or 48½ per cent. and direct taxation 25½ or 51½ per cent. compared with 46 per cent. and 54 per cent. respectively in the year immediately preceding. The incidence of taxation per head of population increased from Re. 1-15-5 to Rs. 2-2-0 and the incidence of income from Rs. 3-0-6 to Rs. 3-6-11. As in the previous years Karáchi has the highest incidence of taxation (Rs. 8-7-7) and Ashta the lowest (Re. 0-1-10).

11. Notwithstanding inherent defects the octroi system worked smoothly. The net realizations from this source amounted to Rs. 24,35,000 against Rs. 21,87,000 in the preceding year, bringing in a net increase of Rs. 2,98,000 which was

shared by all the divisions of the Presidency including Sind. The Northern, Central and Southern Divisions contributed Rs. 18,000, Rs. 80,000 and Rs. 11,500 respectively as additions to their corresponding figures in the preceding year. In Sind the increase was Rs. 1,88,700. In this Province greater promptness was exercised in the matter of paying refunds and care was taken to see that claimants were not unnecessarily impeded in obtaining their dues. The system of "Draw-backs" in Karáchi worked smoothly.

Octroi was abolished in the Saundatti-Yellama municipality owing to the cost of collection being disproportionately high for the small income derived from the duty. The joint octroi system sanctioned for the tripartite area comprising the municipal districts of Ahmednagar and Bhingar and the cantonment of Ahmednagar was brought into force during the year. The Commissioner, Central Division, should be requested to communicate to the Dhulia and Jalgaon municipalities the remarks made by him in para. 24 of his review regarding the reduction of the scale of octroi.

12. The total disbursements of the municipalities amounted to 84½ lakhs compared with 79½ lakhs in the preceding year. Excluding "Extraordinary and debt" the expenditure amounted to Rs. 69½ lakhs against Rs. 67¼ lakhs in the year immediately preceding.

The following table indicates the important fluctuations in the various heads of expenditure :—

	1909-1910.	1908-1909.	Increase.	Decrease.
	In thousands.	In thousands.	In thousands.	In thousands.
	Rs.	Rs.	Rs.	Rs.
(1) General administration and collection charges	677	676	1	...
(2) Public health and convenience	4,256	4,109	147	...
(3) Public instruction	1,105	1,086	19	...
(4) Extraordinary and debt	1,492	1,244	248	...

13. The expenditure under this head, which in the previous year had shewn an increase of Rs. 6,14,000 under the stimulus of liberal Government grants, again rose by Rs. 1,47,000. Rupees 72,000 were spent on the Bijápur water supply scheme. There was, however, under "water supply" a decrease of Rs. 82,000 in the Northern Division and of Rs. 13,800 in Sind and an increase of Rs. 36,900 in the Central Division. Deep borings were successfully undertaken by Government in Sánand and Dholka, while in Viramgaum more ambitious operations are being carried out by the B. B. & C. I. Railway. Roads continue to receive a fair share of attention except in Poona where neglect is apparent. The roads in Karáchi are on the whole good, but a large number of new roads are urgently required for the proper development of the new quarters which have been built over. The Ahmedabad municipality, which has since been suspended, displayed apathy in the important matter of effecting road improvements. Surat on the other hand spent Rs. 35,185 in opening up congested localities and acquiring strips of land for widening roads. Lands for widening roads were acquired by the Násik and Poona City municipalities at a cost of Rs. 8,100 and Rs. 7,500 respectively. The Sholápur municipality spent Rs. 46,000 including Government grants aggregating Rs. 20,000 made in 1908-1909 and 1909-1910 in acquiring lands and houses for the improvement of a highly insanitary quarter of the town. The Belgaum municipality with the assistance of the Government grant of Rs. 50,000 acquired 140 acres and 35 gunthás of land at an aggregate cost of Rs. 46,800 for the purpose of laying it out as an extension and utilizing the money derived from the sale of plots in the extension area upon the improvement of the town. Similarly, the Hubli municipality utilized part of the Government grant of Rs. 50,000 and acquired about 8 acres and 30 gunthás of land at a cost of Rs. 15,600 for town extension, burial ground, etc.

The Bijapur municipality acquired a suitable area at a cost of Rs. 3,400 for sanitary improvements. The Karachi and the Hyderabad municipalities spent Rs. 62,700 and Rs. 55,900 respectively in acquiring land for widening and improving streets. Nine municipalities in the Northern Division and twelve in the Southern Division, however, failed to comply with the rule that the whole of the proceeds from wheel-tax and toll must be spent on the maintenance of roads. Of these, nine committed default in the preceding year also. The case of Bulsar calls for special condemnation, since Rs. 4,100 out of Rs. 8,100 derived from wheel-tax and toll were again utilized for purposes other than road construction or repair.

The Karachi municipality constructed an embankment on the left bank at the bifurcation of the Lyari river so as to divert the whole flood to the right branch. The execution of this project prevents the periodical severance of communication between the town proper and the Lyari quarter, protects the improvements undertaken by the Karachi Port Trust and tends to relieve congestion by the encouragement of building in the Lyari quarter. The municipality deserves to be congratulated on the successful completion of this desirable improvement.

14. There was a slight increase of Rs. 19,000 in the total expenditure under "Public instruction." The excess was shared by all the divisions except the Northern Division where a decrease of Rs. 11,000 occurred. Apart from fluctuations in non-recurring expenditure on school buildings and the like the increase was mainly due to the improvement in the pay of teachers in the primary schools.

15. The charges under "Extraordinary and debt" increased by Rs. 2,48,000, being shared by all the divisions except the Northern Division where a decrease of Rs. 91,000 occurred. The Central and Southern Divisions contributed Rs. 58,000 and Rs. 10,500 respectively to the increase. In Sind the large increase of Rs. 2,70,500 is ascribed to the re-payment by the Karachi municipality of the loan of 1899 and to investments made by the Sukkur municipality with the view of repaying the balance of its loan of 2 lakhs.

16. The result of the year's operations was an increase of Rs. 7,31,000 in the total closing balance which increased in the Northern, Central and Southern Divisions by Rs. 54,000, Rs. 1,36,000 and Rs. 61,500 respectively. In Sind the addition to last year's figure was Rs. 4,80,000.

17. In the Northern Division only the Ahmedabad and Bándra municipalities are in debt to Government. The former is also indebted to the public to the extent of Rs. 18,82,000 which with the addition of Rs. 63,000 which it owes to Government bring its total liabilities to Rs. 19,50,000. The sinking fund against the public loan amounted to Rs. 3,46,000 against Rs. 3,03,000 in the previous year. Of the aggregate liabilities of Rs. 63,300 outstanding at the beginning of the year the Bándra municipality paid off Rs. 3,900.

Of the 13 bodies that were in debt to Government in the Central Division in the preceding year the Mhaswad municipality discharged its debt in full. The Sangamner municipality obtained a loan of Rs. 3,000 from Government for the construction of a municipal office. The total liabilities of the municipalities in the division on the 31st March 1910 amounted to Rs. 5,40,000 against Rs. 7,84,900 on the corresponding date of the preceding year. There was no default in the payment of loan instalments on due date.

In the Southern Division eleven municipalities were in debt to Government. Their liabilities at the end of the year, after deducting Rs. 15,500 paid during the year amounted Rs. 3,23,500.

The total amount repaid by the municipalities in the Northern, Central and Southern Divisions and Sind was Rs. 66,600, Rs. 57,300, Rs. 15,500 and Rs. 4,77,000 respectively.

18. In the Northern Division no serious irregularities were detected except in the case of Ránder where a very unsatisfactory state of affairs was revealed and resulted in the dismissal of the Secretary. In the Central Division the accounts of the municipalities of Sholápur, Ráver, Kará, Islámpur and Tásgaon remained unaudited, but the scrutiny of those of the Sholápur municipality was carried out after the close of the year. In the case of Wái and Sátára Suburban municipalities the scrutiny was in progress at the close of the year. The municipalities of Mhaswad, Rahimatpur, Vítá and Jejuri, which make their own arrangements for audit, failed to have their accounts audited, and the necessary steps to ensure compliance with the law are being taken. The Collector's examination of the accounts of the Erandol municipality brought to light embezzlements, in consequence of which the Secretary and some members of his establishment were subsequently convicted after trial by a criminal court. In the Southern Division the Government auditors visited during the year under report all the municipalities within the sphere of their duty in the Belgaum, Bijápur and Kolába Districts, except Vengurla in the Ratnágiri District, Navalgund and Nargund in the Dhárwár District and Kárwár in the Kánara District. The remaining municipalities in their charge remained unvisited during the year. Criminal proceedings have been instituted by the Nipáni municipality against its late Secretary in respect of certain defalcations. In Sind the accounts of all the municipalities were audited and no serious irregularities were discovered.

19. Of the many needs of the municipalities in the Presidency the most pressing are efficient water supply, improved drainage, public latrines, opening up of congested localities, good roads, dispensary buildings, school-houses, slaughter-houses, markets, etc. There has been great difficulty in finding good sources for water supply in Gujarát. It is hoped, however, that deep boring may provide a solution. Success has attended such operations at Sánand and Dholka, and it is, therefore, proposed to extend the operations and to spend next year a large amount on the purchase of tools and plant required for the purpose. The most urgent needs of the Ahmedabad municipality are the completion of the system of sewerage throughout the town and improvement of water works plant. Surat stands in need of proper drainage and a scheme prepared by the Sanitary Engineer, is before the municipality. The pressing need of Broach is an efficient water supply and the Sanitary Engineer is now preparing a scheme. A scheme for providing drains for the town of Kurla has been prepared by the Sanitary Engineer. The total cost of the scheme as accepted by the municipality is estimated at Rs. 48,000 and Government have sanctioned a grant-in-aid of Rs. 24,000. Government have sanctioned a free grant of Rs. 1,700 in aid of the scheme for the improvement of the water supply of Gogha which is estimated at Rs. 3,500. Schemes for the improvement of water supply in the towns of Godhra and Bulsár are under consideration. In the Central Division the water supply and drainage schemes undertaken by the Pandharpur municipality with the help of Government are still in progress. The water supply scheme sanctioned for Násik was commenced during the year. The Sanitary Engineer to Government has submitted a revised scheme for the drainage and water supply of Poona City at an estimated cost of Rs. 17,42,000. It is proposed to finance the scheme by a Government grant of Rs. 8,00,000 and a loan of Rs. 10,00,000 repayable in forty years. Government have sanctioned a grant-in-aid of Rs. 50,000 for expenditure on the scheme in the current year. A scheme for the improvement of the water supply of the town of Bársi has been approved by Government. Government have also approved the estimate amounting to Rs. 3,16,400 for the scheme for improvements to the water supply of the town of Sholápur. With the view of assisting the municipality in financing the scheme Government have sanctioned a grant-in-aid of Rs. 45,000 to be adjusted against the loan of that amount granted to the municipality in 1904. The municipality has also applied for a loan of Rs. 3 lakhs in order to carry out the work. It is proposed to increase the water supply of the town of Alibág by increasing the stock of water in the Veshvi tank and by replacing the existing earthenware

distribution pipes by cast-iron ones. The whole scheme is estimated to cost Rs. 26,500 and Government have sanctioned a grant-in-aid of Rs. 13,200 towards the cost. The Superintending Engineer, Southern Division, has been asked to prepare a water supply scheme for the town of Uran, such as may be serviceable to the salt workers as well as to the dwellers in the town. Government have sanctioned a grant-in-aid of Rs. 6,000 for the improvement of the water works at Pen. With the view of extricating the Ratnágiri municipality from its embarrassed circumstances Government have undertaken to defray the expenditure on account of improvements to the water supply at an estimated cost of Rs. 46,500. Government have also sanctioned grants of Rs. 16,700 and Rs. 15,000 to the municipality for the repayment of its debt. (The aggregate cost of the scheme for improvements to the water supply of the town of Hubli amounts to Rs. 5,48,000.) The Madras and Southern Marátha Railway Company have agreed to contribute Rs. 1,50,000 towards the cost of the project. With the object of assisting the municipality in financing the scheme Government have sanctioned a grant-in-aid of Rs. 1,99,000. Other schemes under consideration of the Sanitary Engineer are:—Water supply schemes for Nándurbár, Parola and Igátpuri, and drainage scheme for Sholápur. The following schemes are ready or nearly ready:—Ahmednagar water supply scheme, Thána surface drainage scheme, Belgaum sewage scheme, Málegaon water supply and drainage scheme, Násik drainage scheme, Nándurbár surface drainage scheme, Dhulia drainage scheme, Ráuder surface drainage scheme.

In Sind the most pressing want has been the expansion of the city of Sukkur. A scheme to relieve the congestion in the town of Hyderabad is under the consideration of Government.

20. It has been brought to the notice of Government that in some cases the pumping plant of sanitary works which have been constructed by the municipalities with the aid of loans or free grant from Government has been allowed to deteriorate owing to want of proper care and management and that this neglect might at any time seriously endanger the public health. The most important part of the management of works that are in actual operation is the provision and maintenance of suitable establishment.

The following conditions were accordingly laid down for the guidance of municipalities in managing their sanitary works:—

(a) Works whether under construction or in operation should at all times be open to inspection by the Collector or by officers deputed for that purpose by him.

(b) Municipalities should maintain a sufficient and efficient staff for the management of the works, duly certified engineers being employed whenever required by law.

(c) Municipalities should at all times maintain the works in a state of efficiency. Such renewals and repairs as may be required by the orders of Government or as may be recommended on expert inspection should be carried out promptly.

(d) Municipalities should set aside annually and keep in a special fund such amounts as are likely to be required to cover the estimated cost of repairs and renewals.

Government have also made arrangements for the inspection by the Agricultural Engineer of the pumping plants in the Presidency Proper.

The Sanitary Board having represented the necessity of carrying out experiments in order to obtain the information required for the satisfactory designing and efficient working of installations for the disposal in this country of sewage by the bacterial method, Government have decided to construct an experimental installation and to locate it at Poona. They have appointed Major F. H. G. Hutchinson, I. M. S., Deputy Sanitary Commissioner for Southern Registration District, to be on special duty for a period of two years to conduct the experiments, upon the result of which will depend the efficiency and economical working of installations of this nature.

21. The following table shows the contributions from Provincial Revenues made or promised during the year :—

Grants actually made—		Rs.
(1) Education	3,69,000
(2) Hospitals and dispensaries	84,000
(3) Water supply and drainage	3,68,000
(4) Sanitary improvements	1,31,000
(5) Remission on loans
Total Rs. ...		9,02,000

In addition grants-in-aid of water supply and drainage to the extent of 12½ lakhs of rupees have been promised.

Thus, of the total money available for municipal expenditure no less than 13 per centum was contributed from Provincial Revenues.

22. The following are the noteworthy features in the administration of the larger municipal towns during the twelve months :—

Ahmedabad.—The municipal board was superseded and a Committee of Management was instituted in its place. The Committee of Management has made good progress in putting municipal affairs in order. Its term of office will be extended by 2 years.

Nasik.—The municipality has secured the services of a Government officer of experience as its head executive officer. The administration of the municipality in matters affecting the health and sanitation of the town has been good, but it appears that the control of the municipal councillors over their schools and teaching staff requires immediate improvement.

Poona.—The Poona City municipality has been busy with the financial arrangements in connection with their great combined water supply and drainage scheme which has been rendered possible by the liberality of Government. The condition of the roads is reported to be bad and more attention might be given to this civic need.

Sholapur.—The municipality continued to work successfully, but the system of its accounts is confused and its methods of taxation require a thorough overhaul. On account of the first draw-back it is impossible to say at present what its water is costing it and what it is levying to pay for it.

Karachi.—The Karachi municipality enjoys the reputation of being an efficient and progressive body. Its financial position is excellent, and a more liberal scale of expenditure might safely be incurred in some useful directions, but notably in the encouragement of education.

Hyderabad.—In Hyderabad the year has been one of steady progress. The administration of this municipality is now conducted smoothly owing to the absence of party factions which formerly tended to paralyze all effective action. The municipal councillors continue to co-operate heartily with the president.

23. The extended franchise granted to the municipalities with a population of 15,000 or over did not come into force anywhere in the Central Division during the year, but most municipalities availed themselves of the privilege of selecting their own presidents. In a majority of cases the choice fell on non-officials and was confirmed by Government in every instance. It is too soon yet to judge of the effect of the withdrawal of direct official control, but the administration of the principal municipalities has not been unsatisfactory except in the cases already mentioned. The generous offer of Government to assist municipalities in carrying out schemes of sanitary improvements is encouraging local authorities to turn their attentions to schemes of improvement which would otherwise not have been thought of. It should, however, be impressed on municipalities that Government regard it as essential that local resources should bear a full share of the burden. Municipalities that possess a sound system of taxation and are prepared, in consideration of conveniences, such as improved water supply, to impose on the classes who benefit most a tax proportionate to their means, will receive preferential treatment over those who base their claims on poverty only.

L. ROBERTSON,
Secretary to Government.

*Abstract of Statement No. I accompanying the review of the District Municipal Reports
for the year 1909-1910.*

Particulars.

Number of municipalities constituted under the Bombay District Municipal Act, 1901	157
Population within municipal limits	2,351,810
Number of towns of which the Municipal Committees are appointed by election only	271
Number of towns of which the Municipal Committees are appointed partly by election and partly by nomination	114
Number of towns of which the Municipal Committees are appointed by nomination only	43
Aggregate number of members of Municipal Committees :—					
<i>Ex officio</i>	419
Nominated	888
Elected	885
Of the above :—					
Officials	516
Non-officials	1,666
Europeans	146
Natives	2,026
