

RESOLUTION

REVIEWING THE

REPORTS ON MUNICIPAL TAXATION AND EXPENDITURE

IN THE

BOMBAY PRESIDENCY (INCLUDING SIND),

FOR THE YEAR 1911-1912

(including Statistical Statements Nos. I to IV prepared by the
Municipal Commissioner for the City of Bombay).

Bombay Castle, 4th August 1913.

READ—

The reports from the Commissioner in Sind and the Commissioners of Divisions on the working of the municipalities in the Bombay Presidency during the year 1911-12.

RESOLUTION.—The number of municipalities remained unchanged during the year. The municipalities noted in the margin* and notified areas were, however, raised to the status of city municipalities. Proposals for the constitution of the taluka towns of Hungund and

Northern Division—
Nádiad—Kaira District.
Bándra—Thana District.

Central Division—
Jalgaon—East Khándesh District.
Dhulia—West Khándesh District.
Yeola—Násik District.
Bársi—Sholápur District.

Southern Division—
Bijápur—Bijápur District.
Bágalkot—Bijápur District.
Gadag-Bettigeri—Dhárwár District.

Chikodi as notified areas have been approved by Government, the number of such areas being thus brought up to 22. The Erandol municipality was superseded for a period of three years for grave abuse of its powers, while the period of supersession of the Ahmedabad municipality was extended to the 31st March 1914. The Kaira municipality continued

under suspension throughout the year, but its constitution was thereafter restored to it.

The committee appointed by Government in place of the superseded municipality of Rájápur to manage the municipal affairs of that town has effected a considerable improvement in the internal administration by disposing of arrears of work and recovering outstanding dues.

2. There was no appreciable change in the aggregate population of the municipalities of the Presidency during the year. In Sind, the increase of 8,000 in the population of the Karáchi municipality is due to the rectification of the previous year's figures by the inclusion of the population within railway and harbour limits. In the Central Division, the final revision by the Census office of the figures of population within the municipal limits of Bhusával, and the adoption by the Sholápur municipality of the figures of population as ascertained by a special local census have resulted in an increase of 17,000.

The municipal limits of Ahmedabad and Gogha in the Northern Division, of Baramati in the Central Division, and of Belgaum in the Southern Division, were extended during the year under report; otherwise municipal boundaries remained unchanged.

3. In the Northern Division the privilege of electing half the total number of councillors on their boards was extended to the municipalities of Parántij, Dhandhuka and Sánand. The Broach city municipality exercised for the first time the right of electing its President, the number of elected councillors being simultaneously raised from 12 to 16. In connexion with this enlargement of the franchise the municipal area of the city had been redistributed over thirteen wards, but as this arrangement was subsequently found inadequate to secure the proper representation of the Mahomedan community, a new scheme of distribution, involving the reduction of the number of wards to nine, was adopted. The elective franchise was restored to the Jambusar municipality, and the new board, consisting of six elected and six nominated councillors, came

into existence from the 1st April 1911. The Surat municipality for the first time exercised its newly conferred privilege of electing two-thirds of the total number of its councillors. At the same time the direct official control of the Collector as *ex-officio* President of the municipality was withdrawn, and the municipality was given the right of electing its President. The number of elected councillors on the Bándra Board was raised from eight to twelve. In the Central Division, the leading candidate for the presidentship of the Ahmednagar municipality failed to obtain the prescribed minimum of two-thirds of the total votes, but Government made the appointment in accordance with the views of the majority. In the Southern Division, the Dhárwár municipality, having appointed a Chief Officer, was accorded the extended electoral franchise with effect from the 1st April 1912.)

In the Central Division, triennial elections were held in ten municipalities, including the Poona city municipality, where they aroused much interest, most of the seats being keenly contested. The system of election by ballot, originally adopted by the Ahmednagar municipality, is being gradually taken up by other municipalities in the Central Division. In the course of the year rules based on the Ahmednagar model were introduced into the Poona suburban municipality and the municipalities of Talegaon Dábháde, Lonávla, Khed, Málegaon and Pandharpur. (In the Southern Division, triennial elections were held in all the municipalities of the Ratnágiri District except the superseded municipality of Rájápur, in those of Honávar and Bhatkal in the Kánara District, and in all the permanent municipalities of the Dhárwár District except Dhárwár, Hubli and Nargund, the term in the case of the three latter municipalities having for special reasons been extended by the Commissioner to 31st March 1912.) It is reported that a fair amount of interest was shown in the elections in the Ratnágiri District. In Sind, triennial elections were held in 13 municipalities.

During the year Mr. H. C. Mules resigned the office of President of the Karáchi municipality. The privilege of selecting their President was again extended to the councillors, but as no candidate secured the requisite majority, the Honourable Mr. Harchandrai Vishindas was nominated President by the Commissioner.

The total number of municipal councillors in the Northern Division rose from 460 to 469 in consequence of the changes occurring in Dhandhuka, Jambusar and Bándra. In the Central and Southern Divisions the number decreased from 824 and 509 to 810 and 495 respectively, the decrease in the former division being chiefly accounted for by the supersession of the Erandol municipality, and in the latter by the reduction in the number of councillors of the Ulvi temporary municipality from 16 to 9 and the supersession of the Rájápur municipality where a committee of five members, with the sub-divisional officer as President, was appointed to manage municipal affairs.

In the Northern Division a slight improvement is noticeable in the attendance of councillors at meetings in Mahudha, Mehmedabad and Thána. At Pandharpur in the Central Division no less than 102 out of 121 meetings failed in the absence of a quorum, a record which the Governor in Council is unable to regard as otherwise than highly discreditable to the councillors of that municipality. In the Southern Division, the record of attendance in the case of certain municipalities of the Kolába District and of the Byadgi and Haveri municipalities of the Dhárwár District is reported to have been unsatisfactory. In Sind, the attendance of members at the municipal meetings was generally adequate.

Sources of municipal revenue and changes therein.

4. There were no important changes in the system of municipal taxation.

5. A notable increase is recorded in the aggregate gross income of the municipalities, which amounted this year to 116½ lákhs as against 97 lákhs in the preceding year. Deducting the receipts under "Extraordinary and Debt", the net revenue amounted to

Municipal income.

84 lakhs as compared with 74½ lakhs in the previous year. The following table indicates the fluctuations under the principal heads of income :—

	1911-12.	1910-11.	Increase.	Decrease.
	In thousands.	In thousands.	In thousands.	In thousands.
	Rs.	Rs.	Rs.	Rs.
1. Municipal rates and taxes—				
(a) Octroi (net receipts, <i>i.e.</i> , deducting refunds).	27,89	23,28	4,61	...
(b) Taxes on houses and lands ...	8,50	8,12	38	...
(c) Water rate ...	9,03	7,85	1,18	...
2. Revenue derived from municipal property and powers other than those of taxation.	13,31	12,36	95	...
3. Grants and contributions for general and special purposes.	12,00	10,69	1,31	...
4. Extraordinary and debt ...	32,31	22,37	9,94	...

6. The increase of Rs. 4,61,000 under this head is chiefly due to the enhanced receipts in Sind, which amounted to Rs. 14,06,000 as against Rs. 9,63,000 in the previous year, the improvement in the trade conditions of the port of Karáchi being the principal cause of this substantial increase. As regards the Presidency proper, there were increases of Rs. 13,500 and Rs. 22,000 under octroi in the Central and Southern Divisions respectively, counterbalanced, however, by a decrease of Rs. 18,000 in the Northern Division.

7. The receipts under this head rose by Rs. 38,000, of which Rs. 21,000 were contributed by the Central Division and Rs. 17,000 by the Southern Division. In the former division the increase was shared by almost all municipalities except those of the Sholápur District and was mainly due to the recovery of past arrears.

In the Northern Division the receipts under this head rose from Rs. 3,15,000 to Rs. 3,58,000, the increase being principally observable in the municipalities of Ahmedabad and Surat, and the three Sálsette municipalities. As regards the last named, the increase in Thána was due to the enhancement of the water rate, in Kurla to an increased consumption of water by the mills and the railway, and in Bándra to more vigorous proceedings on the part of the collection department. In the Central Division the net increase of Rs. 20,000 was due mainly to the revision of the assessment list at Sholápur and, in smaller measure, to the recovery of arrears at Talegaon Dábháde and Sátára and the establishment of additional water connexions at Jalgaon. As regards the Southern Division, the increase of Rs. 7,000 in Hubli was due to the recovery of heavy arrears. In Sind, the Karáchi, Hyderabad and Sukkur municipalities are the only ones which are provided with regular water works. There was an increase of Rs. 45,000 in the case of Karáchi, due to a larger consumption of water by the North-Western Railway, the Port Trust and the military authorities, and also to the recovery of arrears from those bodies. Additional water connexions and the recovery of arrears accounted for the increase of Rs. 3,000 in Hyderabad.

In the Northern Division the figures of demand for the year 1911-12 and of outstandings of previous years under the head "Taxes on houses and lands" were Rs. 3,55,000 and Rs. 39,000 respectively, the unrealized balances at the close of the year being Rs. 26,000 and Rs. 16,700 respectively, or a total of Rs. 42,700. The following statement shows the unrealized

balances under this head of revenue in the several city municipalities of the division:—

Name of the municipality.	Demand.		Written off and remitted.	Balance outstanding on 31st March 1912	
	Previous years' outstandings.	Demand for the year 1911-12.		On account of previous years.	On account of the year 1911-12.
	Rs.	Rs.	Rs.	Rs.	Rs.
Ahmedabad	7,118	69,375	70	3,251	9,751
Nadiád	178	11,084	...	40	81
Broach	1,649	13,752	...	112	2,823
Surat	3,670	53,959	...	2,923	388
Bándra	4,151	26,695	117	1,671	2,768

In the Central Division, out of a total demand under all heads of revenue amounting to Rs. 5,85,000, including arrears to the extent of Rs. 78,000, a sum of Rs. 54,700 remained to be realized at the close of the year. Two-thirds of the uncollected balance consisted of dues on account of house-tax, the arrears under this particular head being especially heavy in the case of Yával and Bhusával in East Khándesh, Junnar in Poona, and Karád, Tásgaon and Ashta in Sátára.

In the Southern Division, the figures of demand for the year 1911-12 and of the previous years' outstandings under the head of house-tax were Rs. 1,33,400 and Rs. 50,000 respectively, the unrealized balances at the close of the year being Rs. 19,000 and Rs. 17,000 respectively, or a total of Rs. 36,000. The arrears in the case of the municipalities of the Dhárwár District, which were commented on in last year's review, were again heavy, only Rs. 14,700 having been collected as against Rs. 18,700 in the preceding year, a circumstance which is explained, but hardly satisfactorily, by the interruption of the collection work variously ascribed to the coronation festivities, to the triennial elections and to the advent of plague. In Hubli, however, special efforts were made to reduce the arrears, the collections in that municipality rising from Rs. 13,900 to Rs. 25,300.

As regards Sind, no information is furnished in the Commissioner's report as to the progress of collection work in the municipalities of that province.

From the foregoing facts it appears that although there has, on the whole, been an appreciable improvement, so far as the Presidency proper is concerned, in the recovery of municipal dues, more attention to this branch of the administration is still generally required. The attention of the Commissioner in Sind should again be invited to paragraph 7 of Government Resolution No. 1770, dated the 2nd March 1911, and he should be requested to furnish in future the information therein referred to.

8. The increase of Rs. 95,000 under this head was contributed to by all three divisions of the Presidency proper, the Northern Division alone being responsible for an increase of Rs. 49,000. Sind showed a small decrease of Rs. 700.

9. The receipts under this head consist principally of the grants given by Government to municipalities for the improvement of water-supply and drainage, for the opening up of congested localities and for educational purposes. During the year there were increases under this head of Rs. 1,75,000 in the Southern Division and of Rs. 66,000 in the Northern Division, which were counterbalanced by a decrease of Rs. 32,500 in the Central Division and of Rs. 77,000 in Sind. In the case of the Northern Division the municipalities of Surat and Bulsár received substantial grants for schemes of sanitation, while Bándra was allotted Rs. 18,000 for town improvement. In the Central Division the principal grants sanctioned

during the year were Rs. 30,000 to the Jalgaon municipality on account of its water installation, Rs. 30,000 and Rs. 25,000, respectively, to the Faizpur and Násik municipalities for town improvement, and Rs. 25,000 to the Sholápur municipality for the clearance of an insanitary quarter in the city. (In the Southern Division, the grants-in-aid from Government for general purposes amounted to Rs. 2,75,000. This included a grant to Bijápur of Rs. 1,91,000, of which Rs. 5,500 was for sanitary works, the balance representing the adjustment of the grant in connexion with the Bhutnal tank. The other grants in this division were Rs. 1,200 to Bágalkot for drainage, Rs. 48,000 to Hubli for water-supply, Rs. 11,000 to Kárwár for the drainage of a nullah and Rs. 11,000 and Rs. 6,000 to Alibág and Pen, respectively, for water works.)

Contributions from local funds for general purposes amounted in the Southern Division to Rs. 34,000, the great bulk of this amount representing a payment made by the district local board of Bijápur in final discharge of its promise to contribute half a lakh towards the Bijápur water works. In the same division, of the "contributions from other sources", those for general and medical purposes amounted to Rs. 58,000 and Rs. 10,700 respectively, the first item consisting mainly of a donation received by the Hubli municipality from the Madras and Southern Maratha Railway Company towards the water-supply improvement scheme. Besides this the Alibág municipality received a popular contribution of Rs. 7,600 towards the improvement of water-supply, and the Gadag-Bettigeri municipality a sum of Rs. 1,100 from local factory owners for the extension of its dispensary. Contributions amounting to Rs. 2,400 and Rs. 1,000 were made from the local King Edward Memorial Funds to the municipalities of Chiplun and Ratnágiri respectively for the construction and improvement of dispensaries. In the Central Division, the increase of Rs. 3,700 was the net result of a private donation for a new school building at Parola and of popular contributions in aid of the cost of a school building at Shaháda.

The decrease of Rs. 77,000 in Sind under "Grants and Contributions" is explained by the inflation of the preceding year's figures owing to the contribution received from the Karáchi Port Trust for the construction of the Lyari bund and the grant from Government for the construction of school buildings.

10. Out of the aggregate income of municipalities, Rs. 56,45,000 were realized from municipal rates and taxes, as compared with Rs. 49,75,000 in the previous year, indirect taxation yielding Rs. 27,89,000 or 49 per cent. of the above-mentioned amount, and direct taxation Rs. 28,56,000 or 51 per cent. The corresponding percentages last year were 47 and 53 respectively. The incidence of taxation per head of population rose from Rs. 2-1-10 to Rs. 2-6-4 and the incidence of income from Rs. 3-2-9 to Rs. 3-9-1. Karáchi has the highest incidence of taxation (Rs. 9-7-11) and Ashta in the Sátára District the lowest (Re. 0-3-2).

11. Making due allowance for its inherent defects the octroi system may be regarded on the whole to have worked satisfactorily.

Remarks on octroi.

The excess of the per capita consumption of dutiable articles over the standards fixed by Government is, apart from special local circumstances, ascribed to causes more or less stereotyped, such, for instance, as the remissness of traders in applying for refunds on the re-exportation of taxed goods, and the consumption of a high proportion of such goods by persons residing in the immediate neighbourhood of the towns in which duty was paid and consequently participating to some extent in the advantages resultant from taxation. The municipalities of Umarkot and Mirpurkhas reduced their minimum limit of refund from 8 annas to 2 annas.

(In 1911 the Bombay Government, at the instance of the Government of India, directed the Commissioners of Divisions to submit a joint report on the question whether the octroi system as administered in the Bombay Presidency constituted an unduly heavy tax on through trade and whether it should be abolished in favour of a system of terminal taxes.) In their report the Commissioners, while

not accepting the proposition as to the excessive incidence on trade of octroi taxation (expressed the opinion that terminal taxation was greatly preferable to octroi, and favoured its general introduction in the municipalities of the Presidency.) This report was forwarded to the Government of India with an expression of concurrence on the part of this Government in the views of the Commissioners and a recommendation that the proposed system should be introduced tentatively for a period of two years in selected municipalities. The Government of India have accepted this proposal, stating at the same time that in order to justify the change in system the rates of a terminal tax should be substantially lower than those of the octroi which it replaces, since a tax of this description, though it might be accepted without demur when levied at a low rate, is open to serious objection when the rate is high and the tax is imposed on commodities in which there is a through trade. Having regard to this essential qualification they consider it undesirable that any attempt should be made to meet the whole requirements of a municipality from terminal taxation.

The Government of Bombay have accordingly directed that the system of terminal taxation should be introduced tentatively for a period of two years in selected municipalities of the Presidency, the number of such municipalities being fixed at three per division. They have already approved the proposal to substitute a terminal tax for octroi at Jalgaon.

12. The total expenditure of the municipalities was Rs. 106½ lakhs compared with Rs. 96½ lakhs in the preceding year. Excluding the item of "Extraordinary and Debt", the expenditure amounted to Rs. 86 lakhs against Rs. 74½ lakhs.

The following table indicates the most important fluctuations under the several heads of expenditure:—

	1911-12	1910-11.	Increase.	Decrease.
	In thousands.	In thousands.	In thousands.	In thousands.
	Rs.	Rs.	Rs.	Rs.
(1) General Administration and collection charges.	8,01	7,29	72
(2) Public Health and Convenience.	54,84	45,39	9,45
(3) Public Instruction ..	12,75	12,08	67
(4) Extraordinary and Debt ...	20,74	22,51	1,77 *

13. There was an increase of Rs. 72,000 under this head which was shared by all the divisions of the Presidency including Sind. General administration. The increase of Rs. 27,800 in the Northern Division occurred chiefly in Ahmedabad, Broach, Surat and Bándra and was due to the revision of establishments, the raising by the Broach municipality of the pay of their present Chief Officer and the payment of a gratuity to their late Chief Officer, and the entertainment during the whole of the year of a Chief Officer in Bándra. In the Central Division, the increase of Rs. 16,000 was spread over all districts and is not attributable to any special cause. In the Southern Division, the municipalities of Dhárwár, Gadag-Bettigeri, Matherán and Ratnágiri were mainly responsible for the increase of Rs. 9,000. (At Dhárwár there was an increase of expenditure owing to the recently appointed Chief Officer's pay having been drawn for the whole year. The execution of special repairs to the municipal office building was the cause of the rise at Gadag-Bettigeri.) The increase at Matherán and Ratnágiri was due partly to the grant of grain compensation and partly to additions to the staff of the former municipality and, in the case of the latter, to the entertainment of the Chief Officer throughout the year. In Sind the increase occurred chiefly in the municipalities of Karáchi, Hyderabad and Mirpurkhas.

14. The expenditure under this head, which already in the previous year had undergone a rise of Rs. 2,83,000, showed a further large increase of Rs. 9,45,000 during the year under review, a satisfactory indication of the closer attention which is now being generally devoted to sanitation and of the practical advance which, under the stimulus of liberal grants from Government, is almost everywhere being made in the direction of promoting the material welfare of the urban population.

In the Northern Division, the figures of expenditure under "water-supply" rose from two to about four lakhs, the bulk of the increase occurring in Ahmedabad, Surat and Thána. In Surat the purchase of new machinery and the construction of a bund in the Tapti river to prevent the water-supply from becoming brackish, and in Thána payments made to the Bombay Municipality for water supplied from the Tánsa main and the cost of clearing the Pokhran tank were the causes of substantial increases. In the Central Division, there was a nominal decrease of Rs. 74,000 in the case of Pandharpur owing to the completion of the water-supply scheme, and of Rs. 14,300 in the case of Jejuri in the Poona District in consequence of the expenditure incurred last year on the improvement of the water-supply of the town. This was counterbalanced by new items of expenditure such as the Rs. 29,000 spent in Dhulia for the improvement of the Dedargaon tank, and Rs. 20,000 in Jalgaon, Parola and Faizpur on account of special charges necessitated by the scarcity of water last season. (In the Southern Division, the total capital outlay amounted to Rs. 2,35,000, the bulk of which was expended on the Bijápúr water-supply scheme. In the course of the year the water works of the Ratnágiri municipality were formally transferred to Government.)

In paragraph 5 of Government Resolution No. 4202, dated the 2nd July 1912, Government directed that the annual municipal administration reports should separately show and discuss the financial working of water installations. The Commissioner, Northern Division, accordingly, reports that in Ahmedabad the total receipts amounted to Rs. 1,58,000. The revenue derived from the direct sale of water was Rs. 1,05,000, and that from indirect taxation, that is to say, a compulsory water tax assessed on rental value, Rs. 53,000, the proportion of direct to indirect taxation being thus nearly two to one. The total expenditure amounted to Rs. 1,37,000, including Rs. 86,000 on account of interest, depreciation and repair charges. The net profit realized by the Water Works Department was thus nearly Rs. 21,000. In Surat the direct income from the water rate rose from Rs. 77,000 to Rs. 90,000, the latter amount including a contribution of Rs. 6,700 paid by the Ránder municipality for water supplied to that town. The total expenditure, including debt charges, amounted to Rs. 96,000. The municipality annually sets aside for its water works Rs. 3,000 as a separately invested sinking fund, the figure of which now stands at nearly Rs. 40,000. As regards the Thána municipality the revenue in the shape of direct receipts from the Pokhran water works came to Rs. 9,500, while the indirect receipts from a tax at 2 pies in the rupee on rental value were Rs. 1,800. The proportion of direct to indirect revenue was therefore nearly 5 to 1. The expenditure incurred on establishment, repairs, etc., was Rs. 13,400, there being thus a net loss of Rs. 2,100. The Bhiwandi municipality derives its water revenue from an annual charge of Rs. 9 per connexion. No general water cess is levied and the people are allowed to draw water free of charge from the public stand pipes and cisterns. During the year Rs. 2,100 were collected out of which Rs. 1,100 were spent on establishment, repairs, etc., leaving a net profit of Rs. 1,000 to the municipality. The Commissioner, Central Division, reports that the complete capital and revenue accounts of the water installations in his division are still under preparation, and that consequently it is not yet possible to discuss fully their financial working. The attention of the Commissioner, Southern Division, and the Commissioner in Sind should be invited to the orders referred to above, and they should be requested to include in their next municipal administration reports information regarding the financial working of the water installations in their respective charges.

With regard to the expenditure on drainage the increase of Rs. 2,85,000 in the Central Division is mainly attributable to the extensive works now

in progress in Poona City. The expenditure in the Northern Division rose from Rs. 84,600 to Rs. 90,000, the increase being chiefly observable in Ahmedabad where it amounted to Rs. 29,000. In Karachi the extension of the drainage system to the Machi Miani quarter has been completed. The present conservancy system in the Civil and Frere Town Quarters of Karachi is to be replaced by the extension to them of the Shone system of drainage already established in other parts of the city. The project is estimated to cost Rs. 5,60,000, towards which amount Government have undertaken to contribute Rs. 2,00,000.

The expenditure under conservancy in the Northern, Central and Southern Divisions rose by Rs. 25,600, Rs. 40,000 and Rs. 9,000 respectively. The increase was due to such causes as the erection of new latrines, the purchase of dust bins and nightsoil and refuse carts, the employment of additional establishments, additions to the salaries of existing establishments, and the abnormal rise in the price of fodder required for live stock. In Sind, the Hyderabad municipality spent a sum of Rs. 10,000 on the purchase of land for a sewage farm.

The expenditure under roads in the Northern and Central Divisions showed an increase of Rs. 6,000 and Rs. 13,000 respectively. In Ahmedabad the expenditure on the acquisition of land for street improvement was Rs. 7,000 in excess of what was spent in the preceding year. The Thana municipality acquired a strip of land for road widening at a cost of Rs. 800. The Nasik municipality acquired lands and buildings at a cost of Rs. 39,000 for widening roads and removing congestion. For street improvements the Poona city municipality purchased 13 plots of land for Rs. 8,000, the Sholapur municipality 45 plots for Rs. 11,000 and the Pandharpur municipality 4 plots for Rs. 6,000. The Rahimatpur municipality was authorized to transfer to the district local board portions of certain roads lying within its limits, being unable to meet the cost of their upkeep. In the Southern Division Rs. 77,000 were spent on roads during the year. The Hubli municipality acquired certain plots for town extension at a cost of Rs. 15,400, while on the other hand the Gadag-Bettigeri municipality realized Rs. 37,000 by the sale of previously acquired plots. In Sind, the Karachi municipality was mainly responsible for the increased expenditure of Rs. 56,000 on roads. This body spent Rs. 81,000, and the Hyderabad and Sukkur municipalities Rs. 48,000 and Rs. 16,000 respectively, on the acquisition of land for widening or improving streets, the purchases being effected by private negotiation with the owners. Minor amounts were also spent in Tatta and Shikarpur on the same object. The amount realized from the sale of land in Hyderabad was Rs. 70,000.

Eight municipalities in the Northern Division and eleven in the Southern Division failed to observe the rule that the whole of the proceeds of wheel-tax and road tolls should be expended on the maintenance of roads. Surat is again an offender in this respect. Godhra spent less than half of its income from these sources on its roads, the plea being that, the rains having failed, extra money was needed for the improvement of the water-supply. In Bándra the road expenditure amounted to only 40 per cent. of the income under this head, it being explained that the past abnormal expenditure on road repairs had led to the neglect of other projects which now needed immediate attention. Broach, on the other hand, spent more than three times its income derived from these sources. As regards the Southern Division, the default of some of the municipalities is attributed to the scarcity of labour on account of plague and to the shortage of water for consolidating roads. The Collectors are reported to be taking steps to draw the special attention of defaulting municipalities to the standing orders on this subject.

In the Northern Division, the expenditure on buildings rose from Rs. 20,500 to Rs. 26,000, the increase occurring principally in Bándra, where a new municipal office and town hall are under construction. In the Southern Division, the total expenditure under this head fell from Rs. 14,600 to Rs. 6,000, the previous year's figures having been augmented by expenditure on a number of unusual items. In the Central Division, a new dispensary was built at Parola. In Sind, the Karachi municipality spent Rs. 3,34,000 as compared

with Rs. 1,47,000 in the preceding year. The principal works carried out were the paving with cement concrete of the nullah from the railway bridge to Clifton, the construction of a training bund for the Lyari river, the provision of drains and footpaths on the McLeod and Bunder roads, and the erection of the Tahilram Khemchand dharamshala. In Hyderabad Rs. 14,000 were spent on the construction of a musafirkhana near the railway station. The increase in Shikárpur and Rohri was due to extensive repairs to existing municipal buildings.

15. The cost of Public Instruction, which was already last year a lákhs in advance of the preceding year's figure, now shows a further increase of Rs. 67,000. The excess, which has been contributed to by all the divisions including Sind, is accounted for mainly by the raising of the pay of trained teachers in primary schools and the expenditure on the construction of new school buildings and repairs to old buildings. The Ahmedabad municipality made an extra grant of Rs. 3,000 to the Gujarát College and various minor grants to schools, including one to the Deaf and Mute School. The Dhulia municipality contributed during the year Rs. 10,000 to the funds of the technical school locally established as a memorial to the late King. In Karáchi, a girls' school was built in the Rambagh quarter and enhanced grants were made to libraries.

16. A large decrease of Rs. 3,27,500 occurred in the charges under "Extraordinary and Debt" in the Northern Division, this being, however, counterbalanced by increases of Rs. 9,000, Rs. 85,000 and Rs. 56,000 in the Central Division, Southern Division and Sind respectively. Under "Investments" the net decrease in Ahmedabad amounted to Rs. 1,28,000. As regards the head "Invested securities" the Collector of Surat explains that the municipalities of his district have this year excluded from Statement III the invested balances, securities received from contractors, and securities belonging to prize and scholarship endowments and special funds, which last year were, under his orders, shown in columns 49 and 50 of the statement, the result being a decrease of Rs. 1,54,500 under the sub-head "Invested securities". In the Central Division, the Trimbak municipality invested Rs. 10,000, and the Poona suburban municipality Rs. 8,000, in Government securities, while the Parola, Chopda, Jalgaon and Raver municipalities deposited sums aggregating Rs. 30,300 in the Bank of Bombay. On the whole, however, there is a falling off of Rs. 78,000 under "Investments" in the Central Division, the Pandharpur, Bhusával and Málegaon municipalities not having invested their savings this year as they did previously. In the Southern Division, Rs. 10,000 were invested in securities by the Saundatti-Yellamma municipality. In Sind, the Karáchi municipality repaid during the year debentures of the value of Rs. 29,000.

17. The result of the year's operations was an increase of Rs. 9,68,000 in the total closing balance, which rose in the Northern and Southern Divisions and in Sind by Rs. 1,00,000, Rs. 3,50,000 and Rs. 5,91,000, respectively, but fell in the Central Division by Rs. 73,000. The total closing balance was Rs. 57,33,000.

18. In the Northern Division the only municipality in debt to Government is Bándra. Of its total debt of Rs. 55,200 outstanding at the beginning of the year the municipality paid off Rs. 4,300, leaving a balance of Rs. 50,900. The Ahmedabad municipality is indebted to the public to the extent of Rs. 22,66,000. The Surat municipality reduced its public debt by Rs. 24,000.

In the Central Division, the total liabilities amounted at the end of the year to Rs. 5,12,000. The total amount of loan instalments paid during the year was Rs. 1,43,000. The Bhingar municipality failed to pay its loan instalment of Rs. 1,000, while the Ahmednagar municipality was allowed to repay Rs. 40,000 in excess of the sum fixed, as it had a large unspent balance in hand. The Jalgaon municipality paid back to Government towards the liquidation of its water loan the grant of Rs. 30,000 received by it from Government in aid of the cost of its water installation. The Násik municipality paid the first instalment of its water works loan. The Sholápur municipality repaid only

Rs. 18,000 this year, as against Rs. 35,000 in the previous year, in liquidation of its 1900 plague loan of Rs. 50,000. Only Rs. 7,000 of this loan now remains undischarged. The Talegaon Dabhade and Karad municipalities are now free from liability, having paid the last instalments of their loans.

In the Southern Division ten municipalities were in debt to Government. Their liabilities, after deducting Rs. 5,300 paid during the year, now amount to Rs. 5,38,500.

The Karachi, Hyderabad and Sukkur municipalities are the only municipalities in Sind which have raised loans in the open market. Their liabilities at the close of the year amounted to Rs. 22,56,000.

The amounts repaid during the year by the municipalities of the Northern, Central and Southern Divisions and of Sind were Rs. 95,000, Rs. 1,43,000, Rs. 5,000 and Rs. 77,000, respectively, giving a grand total of Rs. 3,20,000.

19. In the Northern and Southern Divisions and in Sind the Accountant General's Local Audit Department audited the accounts of all the municipalities with the exception of Borsad in the Northern Division and Bijapur and Haveri in the Southern Division. In the Northern Division, irregularities of a somewhat serious nature were discovered in the case of Kalyan, Kurla and Bandra, and in the last-named municipality an embezzlement of Rs. 800 was brought to light, with the result that the offenders were criminally prosecuted and punished. In the Southern Division, one of the nâkedârs of the Panvel municipality misappropriated Rs. 43 and was prosecuted. In Sind no serious irregularities were disclosed. Certain of the municipalities in the Northern Division carry out a regular audit of their own independently of the Accountant General's audit, and a useful check is thus maintained. In the Central Division the accounts of the marginally noted municipalities* were not scrutinized by the Government auditors, those of the first nine bodies having been audited by paid or honorary auditors and those of the remainder by selected councillors.

* Betâvad, Sindkheda, Vâmbori, Kharda, Jejuri, Khed, Mhâsvad, Yita, Ashra, Indâpur, Rahimatpur and Sângola.

The Governor in Council notes with satisfaction the continued thoroughness and care with which the Local Audit Department conducted their inspection of the municipal accounts.

20. A plentiful and wholesome water-supply, efficient drainage, broad well-aligned thoroughfares, and the opening up of insanitary and congested areas are among the most pressing and general wants of the more important municipal towns, but with the help of loans and liberal grants-in-aid from Government some appreciable progress is being made towards the attainment of these desiderata. Other wants include sanitary conveniences, municipal office buildings, dispensary buildings, markets and slaughter-houses. In several of the larger municipalities the question of providing school houses designed in accordance with modern ideas regarding space, lighting and ventilation is receiving consideration. Orders are being separately issued announcing the readiness of Government to render special financial assistance for the execution of schemes of this kind where the need is urgent and the resources of the municipality do not admit of construction being undertaken under the ordinary grant-in-aid rules. In the Northern Division, Ahmedabad is in need of an improved and extended water service. Steps are being taken to provide for these requirements and, later on, for an extension of the drainage system. The opening out of congested areas is also in progress, thanks to liberal contributions received from Government. In Viramgâm an improved water-supply is an urgent need which the deep boring experiment now being conducted there may, it is hoped, serve to meet. The same is the case at Dholera, which will be the next locality for experiment if the Viramgâm operations prove successful. Metalled roads are a pressing need in almost all the municipalities of the Kaira District, but funds are insufficient in most cases. The Dohad water-supply scheme is still in the air, but the Sanitary Engineer to Government has been asked for plans and estimates. The drying up during the year of almost all the wells and tanks in the town showed how urgently

needed is a permanent water-supply for Dohad. In the case of Surat no further progress seems to have been made towards meeting a long recognized requirement of that city, namely, the provision of a comprehensive drainage scheme. In the meanwhile another urgent need has come to the fore by reason of the marked deterioration of the water-supply which, owing apparently to the advance of the sea water up the Tápti river, is becoming brackish. With a view to preventing the contamination of the river water a bund was thrown across the Tápti at a cost of Rs. 16,000, but it breached at the first spring tide. It was thereupon repaired at a cost of Rs. 3,400, but immediately breached again. Ránder and Bulsár both require drainage schemes and the opening up of their congested areas. The drainage scheme at Kurla has for the time being been abandoned, but, as observed by the Collector, the dangerously insanitary condition of the town makes it impossible to shelve the question for long. It is hoped that the Sanitary Engineer will soon be able to devise a satisfactory combined scheme of water-supply, drainage and nightsoil disposal. In the Central Division the Faizpur municipality has completed its town improvement scheme. Similar schemes are in course of execution at Bhusával, Násik, Ahmednagar, Pandharpur and Sholápur. At Pandharpur a drainage scheme has been partly carried out from municipal funds, and measures for its completion are under consideration. The combined water-supply and drainage project for Poona is in active progress. Water-supply schemes are in course of execution at Násik, Lonávla, Ahmednagar and Sholápur. Schemes for Karád and Igatpuri have been sanctioned, while proposals for Nandurbár and Bársi are under consideration. In the Southern Division the Bhutnal tank work, for which Government have sanctioned a further grant of Rs. 1,92,000, is nearing completion.

In Karáchi the most pressing needs are a municipal office and council hall, the improvement of the water-supply and street lighting, the laying of sewers, water mains, the construction of roads in the Machi Miani and Ranchore quarters, and the improvement of the Lyári quarter. An efficient drainage and sewage system, the relief of congestion, the improvements of roads and lighting, and the filling up of hollows and tanks are the most pressing wants in Hyderabad.

Last year's budget contained an aggregate provision of Rs. 15½ lákhs on account of grants-in-aid to local bodies for sanitary projects. This included non-recurring imperial grants to the amount of Rs. 8½ lákhs. Government have decided that these grants should, generally speaking, be expended on schemes for town improvement, for surface drainage in urban areas, the filling in of insanitary tanks, etc., which do not involve heavy recurring expenditure, while, on the other hand, the recurring imperial and the ordinary provincial grants, which made up the balance of Rs. 6½ lákhs, should be devoted principally to the promotion of important sanitary schemes, such as water works and sewerage, which involve an outlay spread over a number of years and considerable maintenance expenditure.

The following municipal grants have accordingly been sanctioned against the former provision of Rs. 8½ lákhs :—

<i>Northern Division.</i>			Rs.
Opening out congested areas in Ahmedabad City	1,00,000
Boharwad improvement scheme, Broach	40,000
Bándra town-improvement scheme	5,240
		Total	1,45,240
<i>Central Division.</i>			Rs.
Karád water-supply scheme	90,000
Improvement of water-supply in Ahmednagar City	70,000
Paving the Manik Nullah, Poona	28,000
		Total	1,88,000

Southern Division.

	Rs.
Construction of conservancy lanes at Dhárwár ✓	80,000
Street improvements in Hubli	28,185
Construction of a drain along an insanitary nullah in Ratnágiri	12,000
Improvements to the water-works at Rájapur	9,000
Opening out of a congested Koli quarter in Alibag and providing fresh building sites	7,000
Construction of storm-water drains in the Koliwada and Firal lane at Pen	6,950
✓ Filling in of borrow pits at Ranebennur	6,500
Construction of roads in Pauchgani for development of the station	5,000
✓ Construction of gutters in Hospeith at Bágalkot	5,300
Drainage channel to carry off storm-water in Guledgud	5,299
Improvements to gutters in certain wards in Bijapur	4,680
✓ Drainage of the Koney Nullah at Kárwár and prevention of the flooding of its upper reaches	2,997
✓ Filling in of borrow pits at Haveri	3,000
✓ Construction of gutters at Kalghatgi	415
Total ...	1,21,326

Sind.

	Rs.
Drainage scheme for the Civil Lines and Frere Quarters at Karáchl	2,00,000
Filling in of the Lumbo tank at Umarmkot	24,117
Filling in of tank No. 1 at Hyderabad	20,000
Filling in of the Gharibabad tank at Sukkur	20,000
Filling in of a tank at Kambar	10,000
Filling in of hollows at Kotri	5,000
Filling in of hollows between the Police Lines and the Civil Court at — Minsarkhas	5,500
✓ Filling in of the Fulton tank at Shikarpur	3,500
Filling in of two tanks at Ratodero	3,000
Additional allotment for filling in the Kafila Serai tank at Larkana	2,495
Total ...	2,93,612
Grand Total ...	7,48,178

Grants amounting to Rs. 6,38,300 have been sanctioned to municipalities against the balance of Rs. 6½ lakhs.

21. The following table shows the contributions to municipalities made from provincial revenues during the year :—

	Rs.
Education	3,84,000
Hospitals and Dispensaries	75,000
Water-supply and drainage schemes	11,02,941
Sanitary improvements	2,83,537
Remission on loans	Nil.

22. The following are the most noteworthy features of the administration of the larger municipal towns during the twelve months.

Ahmedabad.—Much practical progress has been made in Ahmedabad under the Committee of Management, and the administrative efficiency of the municipal staff has undoubtedly undergone improvement. The Commissioner, Northern Division, remarks :—

“No better example of the growth in this corner of India, of the recognition of the duties and responsibilities attaching to citizenship could perhaps be found than that afforded by the Committee of Management which stepped into the shoes of the superseded Ahmedabad municipality; the quiet disinterested labours of the gentlemen forming this Committee towards the improvement of municipal affairs cannot be too highly extolled.”

The Governor in Council fully endorses this encomium on the work of the Committee. That body's proposals for the general enhancement of the water rate from five to ten per cent. are still under the consideration of Government,

Among the municipal departments which still require the reforming hand of the Committee of Management is the fire brigade.

A strike of municipal sweepers occurred during the year, but was effectively dealt with by the prosecution of the ringleaders under the Municipal Servants' Act.

Poona.—The principal municipal events of the year were the election of a new council and President, and, later on, the appointment of a new Chief Officer. The scandalous incidents which attended the elections to the council gave rise to much adverse comment, corrupt practices being freely and openly resorted to on behalf of the competing candidates. Recommendations having for their object the prevention of the recurrence of the discreditable proceedings which characterized these elections have been submitted to Government and are now under consideration. In the opinion of the Governor in Council it is generally desirable, in view of the increasing keenness with which municipal elections are now contested, that the voting at such elections should be conducted by secret ballot, and that in the case of female voters the practice of voting by proxy should be abolished. These two measures will in themselves prove in large measure efficacious in restricting the opportunities for electoral corruption. The Poona municipality has been taking a commendable interest in improving the amenities of the town and in providing suitable residential areas in its suburbs. The combined drainage and water-supply works have also made good progress.

Sholapur.—This municipality under the guidance of an able and active President has attacked with encouraging results the problem of the relief of town congestion. It has recently decided to raise the rate for water connections and privy tax, but the increase has been found to be still insufficient. The municipality has revised and strengthened its establishment which was decidedly undermanned.

Karachi.—The financial condition of the municipality is sound, and excellent work was done during the year under the guidance of their President, the Honourable Mr. Harchandrai Vishindas, and through the instrumentality of their capable Chief Officer, Mr. Measham Lea. In order to relieve the latter officer and the Chief Engineer of the mass of routine duties which now devolves on them the municipality propose shortly to appoint an Assistant Chief Officer and a separate Engineer. The clerical and menial establishments and the inspecting staff of the Health Department have been thoroughly re-organized.

Hyderabad.—In Hyderabad a considerable amount of good and useful work has been done under the efficient guidance of Ráo Bahádur Buleband Dayaram as President. The councillors are reported to be active and ambitious in respect of matters affecting the welfare of their town, but a spirit of obstruction is apt to show itself on occasions and to retard the disposal of business. The progress of the water-works improvement project was satisfactory. The municipality has decided to introduce an efficient system of surface drains. Several works of public utility, such as markets, schools and a musafirkhana, were in course of construction.

24. His Excellency the Governor in Council is gratified at being able to observe that during the year under review there have not been wanting signs of a distinct increase of efficiency and of progress in the general administration of the municipalities of the Presidency. From these it is legitimate to infer that the non-official councillors are making good use of the larger powers and responsibilities recently assigned to them, and that this liberal and progressive measure, which was necessarily in the nature of an experiment, is justifying itself by its results. There have been large increases both in the income and in the expenditure of the municipalities, many of which have evinced commendable care in administering their revenues to the best advantage of the public. The expenditure also has, generally speaking, been equitably distributed in satisfaction of the various public requirements. An increased interest in municipal affairs is observable amongst both rate-payers and councillors. With the extended franchise and the withdrawal of official and nominated Presidents

municipal administration in this Presidency* has entered on a new phase, and though it is perhaps too soon as yet to judge of the final effect of the withdrawal of direct official control, it is satisfactory to note that the non-official Presidents have generally shown that they realize the personal responsibility which devolves on them for the proper working of the municipal machinery. To this extent it may be said that the results of the innovation have so far been distinctly encouraging.

The liberal offers of Government assistance in the execution of sanitary projects are serving as a powerful inducement to local authorities generally to turn their attention more closely to schemes of improvement, many of which are now, as has been indicated in the foregoing paragraphs, already in various stages of actual progress. The Governor in Council regards it, however, as essential that municipalities should realize the necessity of developing their own resources by a proper and judicious increase of taxation with a view to enabling them to bear their full share of the burden which the spread of sanitary knowledge and the general raising of the standard of living are imposing on the community. As was foreshadowed at the conclusion of last year's review, His Excellency in Council has, in pursuance of this policy, directed that certain conditions should in future be attached to any Government grant or loan to a municipality for the construction or extension of water-supply or drainage works, among them being a stipulation that in the case of new water-works the municipal proposals for financing the project shall provide for the recovery, by means of direct charges for the supply of water, of at least 80 per cent. of the annual instalment due in repayment of any Government loan that may have been advanced, and that ordinarily the municipality shall undertake to levy minimum rates of Rs. 12 and Rs. 24 for a half-inch and a three-quarter-inch connexion, respectively, while in the case of supply on a larger scale the charge shall be at a minimum rate of six annas per 1,000 gallons. Insistence on these conditions will, it is hoped, serve to render in a large measure self-supporting those water-supply installations towards the cost of which Government have accorded financial assistance.

J. L. RIEU,
Secretary to Government.

*Abstract of statement No. 1 accompanying the review of the District
Municipal Reports for the year 1911-12.*

Particulars.

Number of municipalities constituted under the Bombay District Municipal Act, 1901	157
Population within municipal limits	2,354,932
Number of towns of which the municipal committees are appointed by election only	<i>Nil.</i>
Number of towns of which the municipal committees are appointed partly by election and partly by nomination	114
Number of towns of which the municipal committees are appointed by nomination only	43
Aggregate number of members of municipal committees—				
<i>Ex-officio</i>	387
Nominated	530
Elected	913
Of the above—				
Officials	457
Non-officials	1,673
Europeans	137
Indians	1,923

STATEMENT No. I.

Statement showing the Constitution of the Municipalities in the Bombay Presidency during the year ending 31st March 1912.

* The closing balance of last year was Rs. 2,70,995 and not Rs. 2,71,661 as shown in this Statement. The increase of Rs. 666 is due to the fact that last year the Trimbak Municipality wrongly showed its closing balance as Rs. 20,066 instead of Rs. 20,722. This correct figure has now been taken by it as opening balance for 1911-12.
