## PREFATORY NOTE

---

As regards the treatment of records of the early eighteenth century in the Madras Record office, the Indian Historical Records Commission have decided in 1920 to print up *in extenso* instead of calendaring the Madras Letters from 1701 to 1739. The present volume contains Madras Letters to the Company, collated and chronologically arranged according to the ten shipping seasons 1701-02 to 1710-11. As there are no volumes extant among the series 'Despatches to England' for those years, the matter is entirely from the transcripts supplied by the courtesy of the India Office out of their records, viz., Volumes 57 to 62 of 'Original Correspondence,' Vol. 1 of the 'Coast and Bay Abstracts,' and Vol. I of the 'Madras Letters' and the following pages are a faithful reproduction of such transcripts.

Madras Despatches to the Company, 1701-1702

LETTER FROM THOMAS PITT, GOVERNOR, FORT ST. GEORGE, TO THE GOVERNOR OF THE COMPANY. FEBRUARY 19/25, 1702. [O.C., Vol. 57, iii, No. 7867. (*India Office transcript*).]

TO THE HON<sup>BLE</sup>: THE GOV<sup>R</sup>: FOR THE TIME BEING.

Sir,

The inclosed is Copy of what I wrote you by the Dutchess who I hope arriv'd safe with you, and am sorry I must now advise you that the Scene of your affairs is alter'd of what it was when I then [wrote] you, of which you are fully advis'd in our generall and Consultations.

By the King's order you'll see our present troubles are grounded upon the paper sign'd by your President at Surat, notwithstanding which I beleive it would never have any way effected us, but for the importunities backed with the great charge Sir William has been at to procure it, for which I doubt not but to hear he is well requited, for from his first arrivall he has been very dilligent in procuring your ruine, without the least prospect of advantage to his Employers, and he could make none of it himselfe unless he charg'd much more then it cost him to obtaine.

I here enclose to you the last news wee had from the Person I keep at the King's Camp (where 'tis said he has been very much slighted and affronted) which he left in disgust. The King hearing of it sent an officer to command him back, but he not obeying it he was pursued with an order which overtook him after he had passed Brampore, in his way to Surat the Nabob of which place fetch'd him back, and kept him prisoner there, and here is lately a report in Dowd Cawnes Camp that he is return'd to the King, to which I doe not give much Credit.

The News from Metchlepatam by the Bedford which is what given out by their own People, is that he was stop'd at Brampore, to which place the King had sent him a Phirmaund, but the Nabob there would not deliver it him without four hundred thousand rupees which he promises to pay when he comes to Surat, but the Peons which brought the letters with this news, they keep up close prisoners at Metchlepatam, and permit noe body to speake with 'em, from which I infer they have worse news then what wee are yett inform'd of.

There having been formerly a discovery made amongst the new Comp<sup>ss</sup>: Bullion brought to Metchlepatam, that there was severall coins of diverse places in this Countrey, which made 'em suspitious it was Pyrats money: soe since Sir William has been a prisoner the King's order came down to send some of it up, but 'tis said that by a summ of money they have procur'd the Vaucawnaves<sup>1</sup> to write in their favour.

For my part I cannot see wherein and when these troubles will end, for what the Government has done now to us is of an extraordinary nature, and never offer'd at before, which is the seizing of your estates in the Countrey, which is noe better then declaring an open warr, with you, and if you should make it up at this time with money (which abundance of our people are earnest for) I think

1. Arabic, *waki'ah-navis* = a news-writer. These among the Moghuls were a sort of registrars or remembrancers. Later they became spies who were sent into the provinces to supply information to the Central Government. *Hobson-Jobson*.

'tis of the worst Consequence imaginable and as bad or worse then if you should loose what is abroad, for if you give money you'll entaile it on you to all succeeding Nabobs, and you are noe ways secure from having the like done again, for when that you have made a considerable Investment, as you have lately here, and give out a large summ of money without which you can have noe goods, the same will doubtless be done againe soe that till you have compell'd 'em to give satisfaction for this notorious Injustice, your Commerce in these parts will be very precarious, for this Nabob Duan and Buxie I believe have exceeded their Commission, the truth of which is very difficult to know, for that a little justice is not to be had without a great deale of money.

Wee have dispatch'd to our Vakeell at Court, the Copy of the order a Petition to the King, and letters to Assid Cawne and his son, and must waite sometime for the answeere thereto.

What contributes to our present troubles is alsoe the ill neighbourhood wee have at St. Thoma, the Governour of that place being a near relation of the Duans, who is frequently complaining against this place, for that the trade is all here and none at all there, and has been often heard to say that he would some way or other contrive the ruine of it, and I am afraid will in time effect it, if wee are not beforehand with 'em, for whilst they have that place for their refuge this will be very uneasy. The Portugueeze as you will see by their Bishops Letter make a pretence to it, thô they have noe more then wee, for they are noe better then Slaves to the Moors, and none but such a Scandallous people as they are would reside at such a place, which is easy for us to demollish if you give your orders about it.

Wee every day discover more and more of the Dutch their treachery against us, for since the Nabob came down hither, he has been supply'd with powder and ammunition from Policat, and have promis'd him not to assist us, who ought to be the only Sufferers on this account they and only they, having been the great supporters of Pyrats in these parts, and encouragers alsoe of the Arabs in their Insolencies for that none of their ships are molested by either.

For my part I am not under any apprehension that the Government can doe more to us then they have done, for our Garrison is in a very good posture of defence, and hope that you will as soon as you receive this, send us a plentiful supply of men and arms, resolving to stand it out, unless an accomodation be offer'd soe as wee can preserve your estate and honour.

You have abroad at this time upon this coast in the Weavers and your Merchants factors hands, with what goods they have already seiz'd in the Countrey about one-hundred and fifty-thousand pagodas, which they'll soon restore with good Interest for the same, if once they see you are in earnest with 'em.

Wee advised you by the Dutchess that wee had lett out the Phoenix to an Armenian for a Bengall and Persia voyage, which Armenian has wrote up here a sad complaining Letter that noe Merchants would freight on the ship by reason of an order that the Merchants of Surat had wrote their factors that they should load noe goods upon any of the Old Companys ships, and your President and Councill there confirms the same; soe whither she proceeded on her voyage wee doe not as yett hear.

As wee have advis'd you in our Generall they have not only seized what goods of yours they have found, your Merchants Factors and their accounts, Stop'd all manner of provisions, intercepted Letters, but have alsoe seiz'd all Merchants effects belonging to this place in the Countrey and seal'd up as much as their shops which they keep in Towns remote to vend what they buy here.

In a letter I receiv'd lately from Cawne Bahawders Secretary, he mentions that wee must send his Master a fitting present for the King, which he would deliver in our behalves, for the New Companys servants have made noe small noise with their presents, nor have they been wanting of importuning the great Men to demand the same of us and I believe have pritty well entail'd it upon the

trade let who will enjoy it, they have likewise been crying up our revenues and telling the Government that they wonder'd they would suffer us to collect them upon their Kings subjects, for thô wee wore the King's Flagg, wee were but Merchants Garrisons, and such too, from whome our King had withdrawne his protection.

I hope you'll have it in your thoughts how to provide for the security of the place, in case there be a warr with France, for they will most certainly apply to 'em for Ships or bring a fleet of Arabs against us, for which wea will make as good provision as wee can.

I am sorry wee are not like to have Mr. Roberts here soe soon as I expected, for by report I fear he will meet with disappointments in his busyness, but your Ships from that part can better inform you.

At my writeing this the Hampsheir has not arriv'd, till when wee can by noe means part with the Bedford, thô her staying here after she is laden will be very uneasy to me.

This comes by Captain Harrison who has been very assistant to this place and behav'd himself in all respects like a man of honour and Integrity and I believe should you employ him in any post in your service, you would receive great satisfaction from him.

FEBRUARY 25TH.

I kept this letter open to the very departure of the Ship that soe I might acquaint you with all things materiall.

Yesterday wee receiv'd letters from Fort St. David and a translate of a letter from the Gover[n]or of that Countrey, Copy of which comes inclos'd, by which you'll see who occasions our present troubles, and the whole Countrey rings of it, and 'tis reported by the most considerable Natives, that Sir William Norris with his accomplices have given a large sum of money to procure this order and 'tis further said he has given a writeing that the putting of it in execution shall not entaile warr upon the Countrey, nor any trouble whatever, for that 'tis the desire of our King and Nation that your Interest should be extirpated out of these parts, soe that you have noe other way to revenge and doe yourselves justice, then to send out a considerable force to demand satisfaction of the Countrey for all past Injuries, which will most undoubtedly and effectually procure the extirpation of the New Companys Interest in these parts, and they will certainly seize their Effects to make you satisfaction, and if I can meet with any oppertunity in the mean time to requite 'em for these their Villanies I will most certainly doe it, for I believe the World cant parrell their Actions, and 'tis to the admiration of all the whole Countrey and Europeans, that he who acts under the spetious pretence of a King's Ambassador should stick at noe charge nor anything else to procure the ruine of a great part of the Kingdome he belongs to. As you have a subscription in that Stock, you'll have the perusall of his accounts by which you may be able to pick out something that may confirme what I write you, for there are noe such extraordinary orders as this is to be procur'd but at extraordinary charge.

The affairs of India were never in such confusion as they are now and if there be warr with France I'me afraid you'll be hardly able to send us such supplies as our Circumstances require, for wee have just reason to be jealous that the French or Arab if not both will give their assistance to carry on any ill designe against us, and the Dutch wee are sure will never help us, but underhand the Contrary, my humble service to you and all the Committee wishing prosperity to your affairs and I assure you I will doe my utmost to Contribute thereunto not doubting but that I shall overcome our present troubles, and hope by your timely assistance and advice to prevent future.

I am, Hon<sup>ble</sup> Sir,  
Your most Obedient humble servant,  
THO. PITT.

LETTER FROM WILLIAM FRASER, FORT ST. GEORGE, TO SIR JAMES BATEMAN, ETC.  
 JANUARY 31, 1705. RECEIVED PER DUTCHESS, NOVEMBER 13, 1705. [O.C.,  
 Vol. 60, No. 8319. (*India Office transcript*).]

TO THE R<sup>t</sup>. WORP<sup>ll</sup>. SIR JAMES BATEMAN K<sup>t</sup>. & C<sup>a</sup>.

HONOURED GENTLEMEN.

Sirs,

On the 29th July last I had sent me ashore by Captain Goodman from on board the Martha, your Joynt Letter dated the 10th January 1703 by which you were pleased to Honour me with your good opinion in a matter of so great trust and Secrecy as is therein contained. As to the previous part of said letter relating to the happy Union of both Companies, the settled constitution of your Affairs in all your Severall Factories in India, the Election of your Servants, to as near an equality as the circumstances of the times could admit, needs no other answer in this place but my thankfull acknowledgment for your speciall favour and kindness by appointing me a station in the United Companies service and at the time when I was resolved home by the Colchester before whose departure on the 15th Feb<sup>r</sup>: last your orders by the Tavistock on the 14th December 1703 arriv'd here, when I thought it might not become me to slight so great a favour as it would be construed, should I continue my former resolution for England.

Haveing premis'd thus much I shall now impartially give answer (as much as I know) to the more matterial part of your letter, in order to which and the better to set things in a true light I crave leave to use a method so plain, as that nothing may seeme ambiguous tho some things more aboute.

It was in the year 1686 that the Old Company sent out their positive Orders for the withdrawing those Factories of Pettipolle, Metchlepatam, and Maddapolam, by reason of the great expense and charge of those Settlements, the dearness of all or most of their goods, especially their Chay or Coloured Sorts; which sold to loss in England, made the Company weary in their own words, of continuing those Factories any longer, and accordingly the next year following they were all withdrawn and dissolved till the year 1698 that the present President Pitt arriv'd here with orders to provide some quantities of those Country goods, then much inquired for in England, and therefore Mr. Lovell and Mr. Woolston entertain'd in the service for that purpose were sent hence to those parts in August -98 with the Commission of 5 per cent equally between them, on all the money they should invest for and in consideration of all charges, Presents to the Country Government, and their correspondency by Letters thence hither only excepted, thus they proceeded fully instructed, carrying with them the old Musters of all the several Sortes of goods they were to provide and the generall Books of accounts of those Factories, the better to guide and direct them in the price of all the severall species of white and Chay goods, Nurran the Dubash going along with them, to begin them in the way of their business with the old Merchants of Metchlepatam and to be present at the makeing of the Contract; thus far the Old Company had the advantage of the New in point of time and price of goods, till Consul Pitt arriv'd there in your Service aboute the latter end of July or beginning of August in the year 1699; but we had the news here in the February; before that a new English East India Company were settled by Act of Parliament, which made us here with all Secrecy and celerity inlarge our Investments in all places to anticipate and prevent the New Company in their Affairs so that Messrs. Lovell and Woolstone had from time to time consigned them upwards of Pagodas 80,000 during the 17 months they stayed there, till we changed hands, but when Consul Pitt arrived, then it was that he and the Council were necessitated to agree the price and rates of goods with their Merchants as well as they could, the Natives being quick sighted enough to make their best advantage when they perceived two different interests in competition for the Calico trade, which as I can understand as they were the first, so they were the dearest in their kind, of all the goods that were sent home at any time from that place by reason the Old Companies Merchants being preingaged were obliged to the performance of their Contract, Signed and seal'd interchangeably as to the price, quantity and quality of goods they had agreed to, which when done many of the Merchants fell off from the Old Company to the Interest of the New. Much aboute this time 'tis said your Consul (by means of Mr. Woolstone) had brought him into your Factory, the Old Company's Books of Accounts with all their old Musters of goods, by which the Consul made new ones and agreed their price, lengthes and breadthes as mentioned and written on each severall muster, now remaining and to be seen at Metchlepatam, which induces me to believe they are the same as Invoiced home to England, but whether those new Musters were as good in their severall species as those of the Old Companies or a missortement of your goods through want of skill in your new servants, or otherwise or the procureing so much goods upon the Credit of the new Companies common Seal, at the time the Old Company made prompt payment for all the goods they bought, or their zeal for their master's Interest necessitated them (as aforesaid) to take such goods as they could get or procure, rather then returne your shippes home dead freighted, were the concurring causes of the difference of the Old Companies goods, being so much better than those of the same kind sent to the New Company, are matters in which I shall not presume to interpose my own opinion where circumstances may alter the Case, but humbly referr it as a judicial point to your own more wise and prudent consideration. As to the prices I find those of the Old and New Companies to be much at one with noe great difference excepting those first sent home by the De Grave, and the Narran has procured severall of those sortes of goods that remained at Metchlepatam much cheaper than either of the two Companies did before, when there, yet I have just cause to believe that were the

like opposite Interests set up again in those parts the price of all sortes of goods proper for England would revert to their former dearness especially the Chay or Coloured Sortes. And since you are pleased to desire my own thoughts upon the matter I shall humbly offer them without any other designe than to aime at truth and matter of fact as they came to my knowledge. In the first place your late President Mr. John Pitt has always (not only in his lifetime but since his death) been mentioned with a fair Character as to his probity and integrity in all his actions as well by the Natives as others, for I find not the cries or complaints of any he ever wronged and therefore well beloved of all, excepting only one a Rel——n grounded upon some private pique or that he did not take leave of him in his last Will and Testament made two years before he dyed. This is the general applause given him, whatever might happen otherwise in your affairs, by meanes of any unfaithfull Dubashes that made their own advantage of the times when the two opposite Interests Jostl'd one the other, for I remember of my own knowledge in a quantity of Cowries Consul Pitt bought for the New Company of a considerable Merchant here at Fort St. George, no less than two month's time were spent by the interchange of letters so frequent from Metchlepatam and this place, between both parties to beat down those Cowries to the Lowest price, and is a part of that sume of money Consul Pitt &c. gave bond for in your names to the aforesaid Merchant Mr. Afflack, who had a considerable trading Stock of Consul Pitt's in his hands for some time before he arriv'd last in India in your Service, and as a trading Stock continued in his hands to the day of the Consul's suddent Death as you may have heard.

As to Mr. Woolston he deserted the Old Company and was by means of Ambassador Norris taken into the New Companies Service to be assistant in bringing up the generall Books of Accounts but fail'd in performance, he went to Bengall from thence went a Passinger upon your ship the Union, Captain Franklin Commander, designed for China, but in their way touched at Pullecandore, where he was detain'd dyed there of an impostume, left his concerns to the Amount of 2 or £300 to Mr. Love supercargo of said ship, who was fully laden thence with a China Cargo, dispatch'd to Bengall consigned to the new Companies President and Council there.

None of any of your Papers or Invoices sent by the unfortunate Neptune came ever to my hands.

This letter I designe to send under Covert to Mr. Richard Gough by the hands of Mr. William Tillard, but knows nothing of the Contents, who seemes by all his ways and actions to have the character of a perfect honest gentleman, from whom you may expect a large and full account of all your affairs dureing his abode at Metchlepatam, God sending him to arrive safely with you in England. So humbly craveing pardon for having (I am afraid) spun out your patience to a weariness by so tedious a letter tho I could not well be more concise, I conclude this with my humble thanks for all your favours and kindness, and request your continuance of the same to the resolution I have of approveing myself on all occasions.

Right Worp<sup>th</sup>. &c. Gentlemen  
Your most obliged faithfull  
humble Servant  
WILL. FRASER.

LETTER FROM [ ? ] TO THE GOVERNOE AND DEPUTY OF THE COMPANY, FEBRUARY 2, 1705. [O.C., Vol. 60, No. 8327. (India Office transcript).]

TO THE HON<sup>BLE</sup> THE GOV<sup>R</sup>. & DEPUTY FOR THE TIME BEING.

Sirs,

I wrote you by the Colchester, Copy of which comes inclos'd, but by these last years Ships, I received none from you, soe have little to say more then the acknowledging my obligation to you, and to give you the assurance of my best services dureing my stay here towards the winding up of your bottomes, which I hope to effect in this place, in a little time after the date of this, and that to your satisfaction.

I need not recite here any particulars relating to your separate affairs having omitted nothing appertaining thereto as I remember in your Generall Letter.

Finding I am licke to meet with noe encouragement from the Court of Managers to continue here, I have resolv'd, if not deterr'd by any ill news from Europe, nor meet with noe manner of encouragement by the next shipping to embarque in September or January following for England, hoping to leave all your affairs here in a good and settled condition, which I doubt not but will be continued soe under the prudent management of Mr. Roberts, if not disturb'd by some who allways made confusion where ever they were, for which your affairs formerly have severely smarted, and if speedy care be not taken the present interest they are in will fare noe better.

Amongst the many things I have often thought on, and some of 'em for your service, there has been one which should have been put in execution at the first settling this place, and then the safety of it had not been soe precarious as at present I would have offer'd it to the Managers, but by their usage of me, believing they may reject it, as coming from me, I therefore represent it to you, to consider and make use of it as you please.

Nothing in these parts have made the Dutch more formidable then the bringing up all Musteez<sup>1</sup> in their religion, about which I have been discoursing our Ministers severall times and desir'd their opinion how this matter might be best effected, which they gave me lately in writeing, and I now send it inclos'd, for now all our Mustez are Roman Catholicks, soe consequently more under the Command of their Padres then our Government, thô of late I have taken occasion to let those Church men know, that they are under an English Government the sooner you prescribe methods to put this matter in Agitation, the more considerable your place will dayly grow, which is already esteem'd the next best Europe settlement to Batavia, and capable of being made better, which I doubt not but my Successors will accomplish, thô when I come home and have settled my affairs, I shall readily embrace your service to returne hither, or any other part of India, for some few years longer.

I question not but that you have a perfect account of your affairs in Bengalk from whence 'tis generally wrote, that the New Companys Managers (as they call themselves) are too rampant, and at Surat he that hath made himselfe Generall 'tis said has stuck at nothing to rouine your Interest there, and I'me afraid 'tis too true. Sirs, you'll see in our Generall Letter and Consultations, the reason for our takeing in Mr. Meverill and Mr. Frederick into Councill, who I have allways observ'd to be very hearty in your particular as well as generall Interest, and for Mr. Raworth you'll find that he was taken in as belonging to the New Company, who is a very dilligent and ingenious young man, and discharges his trust very faithfully to you, soe I can't but recommend him as worthy of your encouragement, soe with my humble service to you all, wishing prosperity to your affairs abroad and at home I am

LETTER FROM WILLIAM FRASER AND THOMAS WRIGHT, FORT ST. GEORGE [TO THE COMPANY]. OCTOBER 10, 1705. RECEIVED PER THE SOMERS, FEBRUARY 28, 1706. [O. C., Vol. 61, No. 8383 (India Office transcript).]

To THE HON<sup>ble</sup> : DIRECTORS OF THE

R<sup>t</sup> : HON<sup>ble</sup> : ENGLISH EAST INDIA COMPANY TRADING TO THE EAST INDIES.

HON<sup>ble</sup> : SIRs,

We are now with all respect to acknowledge the favour of your Generall Letter of the 18th January 1704-5 by the Fleet Frigot, received here the 27th of June last, as also that sent by the Somers received here 22 July after, via Vizagapatam, where she arrived the 6th said month having by some unlucky mistake overshot this Port in that fair season, both which Packets we have received with all the Inclosed Letters and Papers, which ly now in order before us, to all which we cannot at present give any more than a short answer untill your next returning shipping in January when we shall (God willing) advice all matters fully relating to the Affairs Your Hon<sup>rs</sup> : have been pleased to intrust us with, and the power you have delegated to us to do and act for you in the manner and Method your Hon<sup>rs</sup> : have directed, though after all we find our Selves to be put upon an after game, as may appear by the Sequele when we come in its proper place to speak of it; having premised thus much, We hope Mr. Tillard may long ere this be safely arrived in England, having sail'd hence the 15th of February last, to whom we humbly referr your Hon<sup>rs</sup> : for all matters transacted by him and your Merchants during his stay here, when he drew Bills on your Hon<sup>rs</sup> : to the amount of 84,950 Pagodas besides the bonds due to Mr. Affleck and Abendana at 10s. 6d. per Pagoda when it was not in his power to make any abatement with those Merchants to your Hon<sup>rs</sup> : though others that advanced money made an advantage to themselves of your Hon<sup>rs</sup> : necessity, without which we are sensible money could not have been procured by reason of the high Respondentia that is given, by all which you'll understand our meaning in what we have said to act an after game, when we are to engage with the Sorrowfull murmuring and repineing of those Merchants bewailing that necessity that prevail'd with them to be par'd to the quick.

The Hon<sup>ble</sup> : Directors letter to Mr. Fraser per the Martha with his answer to the same sent by the Dutches and its duplicate by the Sidney via Fort St. David have been produced and read by Mr. Wright the answer being suited to the Secresy injoynd him in that affair.

All your Northern Merchants that came up hither to adjust accounts with and be paid by Mr. Tillard before his going home, dispersed themselves soon after, some returning home, some staying here in Expectation of full effects from England to pay them, and the rest of them went to the remotest parts of the South Country, whither their superstitious zeal had carried them to worship after their

manner, who sometime after returned back hither upon our giving notice (to the rest of them that stayed) of your orders to us whom we injoyn'd to write to those gone home to Metchlepatam to accompany our letter to call them up hither, as may appear by the Copie of the same no. [ . . . ] which accompanies this, as also the translate of their answer to us no. [ . . . ] when we wrote them againe more earnestly, to which as yet we have not received an answer which made us think they had set out on their Journey hither, but we find by others when they had done so and all ready to come away, they were suddenly and before they were aware Stopt by the Government to whom they are heavily indebted both principall and growing Interest; these matters being considered we thought there was no necessity for our going thither to put your Honours to a needless charge, and perhaps ourselves to the hazard of a Ransome; and your orders turning upon that hinge, as supposing Mr. Tillard to have been there, which we pray may be accepted as an answer to that part of your Letter.

Mr. Braborn arriving here the primo May last delivered to the President your Invoices sent per the Neptune, taken up in the wreck of that unfortunate ship, of which we knew nothing of, till the 4th of July after, when Mr. Raworth delivered them to us being six in all, and are intire as he received them from the President, which are a great guidance to us, when we shall set upon the examination of the Contracts of the Severall Investments with those Merchants.

The 27 of June last when your Packet came to our hands, Mr. Raworth offered to deliver us up all Books, papers and accounts of your Affairs which were left in his hands by Mr. Tillard at his going hence for England, which we promised to receive by a List of all, so soon as he could be at leisure to draw one out, which he accordingly promised to do, but on the 29th that month he produced and read a paper in Consultation, by which he offered his service to your Honours and desired to be joyn'd with us in the room and absence of Mr. Tillard; our answer to the same will be found in the Consultation of the United Companie as mentioned in our Generall Letter to the Hon<sup>ble</sup>: Managers, to which we humbly refer.

The Dustore<sup>1</sup> of 1½ per cent hath been paid or accounted for upon all your Contracts as the Merchants say, and was appropriated as wages to the Companies Dubash &c: servants, and was done they say by order of your late President and Council, which Mr. Tillard can more perfectly inform your Honours of, he having left no Consultation Books behind him (for our perusal) as Mr. Raworth told us on the 7th August, when he delivered us all books, papers and accounts left in his hands by Mr. Tillard.

We have received up the Bond of Pagodas 19,500 relating to Messrs. Pacheco and Johnson which were cancell'd in Consultation by the President before he delivered them, and we find no interest to have been paid here in the Countrey on the same, which adjusts our answer in that matter.

When it pleases God to arrive to us in safety the Summers from Bengall, all due care shall be taken to dispose of the two Chests of Corall Consigned to us for your Honour's account: and advise the same with other matters to your Honours by the next returning shipping.

The Consulary power devolveing on Mr. Tillard by the Death of the former Consul, and the latter being gone, and hope well arrived in England is a Revocation of itself, without any new Instrument sent us, and needs no further answer. The account of what remains of your goods and effects at Metchlepatam for sale we herewith send your Honours a good part of which are now upon two Countrey boats hired to bring them hither, but are not yet arrived, which when they are shall be sold to the best advantage we can, having sold here last week by way of publick outcry at the Sea-gate seven chest of your Flint Glass ware in severall lots, as per account now sent, the money of which is not yet collected in.

We have in pursuance to the Hon<sup>ble</sup>: Managers orders in their generall Letter to their President and Council here, as well as by your orders to us demanded to be repaid your Honours out of the United Companie's Cash here all

<sup>1</sup> Commission—Hobson-Jobson.

Salaries and other charges paid by you to your Servants since the 22nd July 1702 being the date of the Deed of United, as may appear by our Paper of the same delivered to the President and Council, which with their answer to the same comes herewith, to which we refer.

Your late President Pitt we are told always used to ballance your account Cash when he went to Maddapollam, as he did when he went last to the Norris wreck, where he died as you have taken notice of, and his widow hath Mr. Tillard's receipt for the Account Cash delivered him at that time, Copie of which attested comes herewith, and we find he hath no head in any of your books of Accounts that are come to our hands, and now we are on this head, we must take notice that his widow is willing that her late husband's own books in the hands of the Executors in England may be perused, by which it will appear it is far short of that bulck of Estate which some have taken so much pains to amuse people withall at home, this we say by the by as being her own words and sense, and designs for England by the next year's Shipping.

We have askt the Metchlepatam Merchants to what rates they bought the Copper &c<sup>a</sup>. China goods to which they have given us an account of, and we have compared the same with your books and find them to agree, which was a hardship on them they having lost by those goods.

As to the Norris wreck when so much painfull endeavours has been used in the time of your late President, it is our opinion that 'tis but throwing away good money upon bad, for were there any the least hopes to recover any of your Treasure, the Natives would long'r now [have] used their utmost endeavours, as those Natives did fortunately to themselves where the Neptune run ashore at Manacoree near Cape Cumareen, and this is not only our own thoughts, but the opinion of all sea-fareing men we have discours'd with on this matter.

We shall make strickt inquiry if those Debts that are standing out are justly, truly and properly in the name and persons to whome the severall Bonds are given.

If upon Examination of the Merchant's Accounts we find your Honours justly indebted to them as 'tis too much to be feared we shall, it appearing so plain by the Accounts stated by President Tillard that you are, whome we esteem worthy of the Character you give him, we shall use our utmost endeavours to procure money on Bills on your Honours at the easiest rates we can; and shall do our utmost in all your Affairs Committed to us to approve our Selves as becomes.

Hon<sup>ble</sup> Sirs,  
Yours Honours most obedient humble servants,  
WILLIAM FRASER.

GENERAL LETTER FROM FORT ST. GEORGE TO THE COMMITTEE OF THE COMPANY, JANUARY 9/28, 1706. RECEIVED PER LOYAL COOKE, OCTOBER 11, 1707. [O.C., Vol. 61, No. 8422. (India Office transcript).]

TO THE HON<sup>BLE</sup> GOV<sup>R</sup>. DEP<sup>T</sup>: AND COMMITTEES FOR AFFAIRS OF THE R<sup>T</sup>. HON<sup>BLE</sup>, GOV<sup>R</sup>. AND COMPANY OF MERCHANTS OF LONDON TRADEING TO THE EAST INDIES.

Hon<sup>ble</sup>. Sirs,

Our last to you was the 1<sup>st</sup> of October by Ship Queen who sayled hence the 13th d<sup>o</sup>: Copy of which with Second bill of Loading and Invoice for what laden on her for your Accounts comes here Inclos'd, Since which wee have little to add, save to advise you what Messrs. Petty and Games have done, in your business about which they went to Bengall, and for a relation thereof as far as they have advised us: wee refer you to the Copys of their Letters to us dated 21st August 25th October and the Papers that came with them, as also your President and Councils Letter to us dated the 21st August last and wee hope by the ships hourly expect to receive your last year's bookes, and what more Mr. Petty has to advise on that Subject, for since wee received the letters before mentioned Mr. Games is dead.

You'll see they used their endeavours in Bengall and wee have done the same here to take up money on Bills to satsifie that debt, but wee nor they can't procure any, the great mony'd men being most of them gone for England and at this time of year money is generally scarce here att this place, our shipping being all abroad which God send safe to return when wee shall use our utmost endeavours to get money procurable on bills, thô we have no great prospect of effecting it.

The mony oweing to Mr. Dubois at Fort St. David is lately paid into your Cash and his Account as it stands in our generall Bookes comes Inclos'd and no more of his debt must you expect here.

Your ship Sidney when went hence to Fort St. David left a Cable making for her, for which the Commander paid 68 Pagodas, and wee sent it after them in a vessell which by the negligence of the Master and they not enquireing after it (for that the vessell was in the Road before she sayled) was left behind; so your President sold it to the Commander of the Loyall Merchant for its Cost, and has paid your 68 Pagodas into your Cash here.

Wee here send you Copys of your last Generall bookes, Consultations and Cash Account, the latter will be near a ballance, when wee have cleared with our Merchants at Fort St. David, and payd a bill wee expect on us from Persia, and clear'd your account salary to those that have served you since the Union, thô

wee hope by the September ships to recover a summe from your Merchants, which as it comes in shall be invested and remitted to you and for what oweing you by the United wee have little prospect of being able of getting anything of it for that wee are very bare of mony considering wee must provide for the Loyall Cooke and Loyall Merchant who wee hope to dispatch in September next.

Wee hear of severall of your ships to be dispatcht this year from Suratt from whence doubtless you will have a full account of all your Affairs there, but yett wee can't omitt that your Packett by the Frederick thô taken out of the Box with the other Letters was convey'd away and said to be lost which Sir John Gayer advis'd your President of and doubtless has wrote you the same.

28TH JANUARY.

Since writeing the foregoing wee received by the Fleet Friggot the Inclos'd letter from Mr. Petty in Bengall with their Dyary and Consultations of what relateing to your Affairs which he and Mr. Games were ordered to negotiate there to which wee referr.

Wee have no more bales of yours here than what wee have shipped on the Somers thô hourly expect some from Fort St. David, which wee fear wee shall be hardly able to send you on these ships, they having strangely and unaccountably loaded on the Westmoreland and Fleet Friggot in Bengall for the New Comanys account 317 Chests of China ware which will never pay half their freight, but you shall not faile of having them home on the September skips, and your bottom wounded up as near as tis possible by that time.

Mr. Matthew Gibbons marryed a young woman here who had mony lay at Interest in your Cash in Bengall amounting to with Interest Rup<sup>s</sup> 4122-4-6 for which wee have given him three bills of Exchange on you for £566-10-3d. sterling payable to himself or order which wee desire you to comply with, wee shall write to Bengall by the said ship what wee have done in this matter.

Mr. Richard Darley comeing from the West Coast some years past dyed Intestate for which reason the Court of Admiralty took care of his Estate and when received all they knew of payd the Ballance being Pagodas 1973 : 18 : 5 into your Cash here, about which there has been Powers sent out by his Father and Brother to Mr. Empson and others to demand the same, wee thinking them not Authentick have refus'd the Payment, so desire you will send for the father or what relations he has and pay it those that have a right to it to prevent further demands here.

Wee forbear writeing you any news of these parts by reason wee send you Copy of our letter to the Managers and here Inclos'd Invoice for what Loaden on the Somers amounting to Pagodas 6742 : 29 : 2 with Bill of Loading for the same, as also Copys of our Generall Bookes sent you by the Queen so with our Services to you all. LETTER FROM WILLIAM FRASER AND THOMAS WRIGHT, FORT ST. GEORGE TO THE COMPANY, JANUARY 30, 1706. RECEIVED PER SOMERS, FEBRUARY 28, 1707. [*O.C., Vol. 61, No. 8430. (India Office transcript).*]

TO THE HON<sup>ble</sup> DIRECTORS  
OF THE R<sup>t</sup> HON<sup>ble</sup> ENGLISH  
EAST INDIA COMPANY TRADING  
TO THE EAST INDIES.

Hon<sup>ble</sup> Sirs,

Our last to this to your Honours was of the 10th October by the Queen who sailed hence for England the 13th said Month, Copie of which comes herewith. And on the 26th of the same the rest of your Metchlepatam and Maddapollam Merchants arrived here, with whom having first agreed the preliminaries, and inquir'd into their severall pretensions, as to that great debt owing them, if in their own Persons or borrowed Names, before we entred on the main matters to be examined. In right order to which the best method we could propose to our Selves was to trace back to the time of your first settlement in those parts, and from that Spring head begin all our inquiries and examination on all the severall Investments and Contracts that have been made since with those Merchants, as also the sales of Europe and China Goods to them, this Spacious field of your Affairs took us up (by severall adjournments) from the aforesaid time of their arrivall here to the 13th December last, in this manner viz<sup>t</sup>. we first compared the prices of all your Severall goods with those of the like sort and Species, provided in those parts by the Old Company at the same time, and the reason of their differences. Secondly we compared your generall books of Accounts and Invoices sent us out, with the Merchant's gentue books of Accounts of all the Severall Investments, which agree, excepting Pa: 248 exceeded in your Accounts more than the Merchants have in theirs, occasioned by your first Dubasb since deceased.

In the Interim Messrs. Faunce and Baker arrived here the 11th November last with two Boats laden with the remains of your Factory at Metchlepatam whence they Set out the 26th July for this place, but were detained, (wind bound) at Chapaleere, when on the 19th of September last we received a Letter from them overland, advising that the Boatmen despairing of a timely passage to this place were become very uneasy, as resolveing to return back againe to Metchlepatam. To prevent which we did with the assistance of the President and Council dispatch to them on the 20th ditto the Fly (a large Boat with a Deck) and on her sent a Sergeant with six Souldiers and all necessary Provisions with 50 Pagodas to Messrs. Faunce and Baker to supply their occasions, besides which this Expedition for Laskar's wages, Soldier's provisions, and Stores sent, cost your Honours Pagodas 79: 4: 40, which we paid in to the United Companies Cash here, so soon as that account was delivered us, the List of all they brought upon both Boats, with the amount of their Sale here at publick outcry comes herewith. They left nothing behind them at Metchlepatam of your Honours but two Iron guns of 160 weight each which the Government would not permit them to take away, under pretence they might sell them to a Tributary Raja on Dieu Island, that stands in defiance of the Metchlepatam Governour. And therefore they

Spyl'd them both up before they came away thence, there is about 1000 Candy of Redwood left behind, which we shall endeavour to bring hither on the easiest terms we can, and dispose of the same for the most we can get, they have likewise left behind them some Dammar between 4 and 5 Candy, two large diving Tubbs, two small grapplings or Creepers, formerly made for the Norris wrack, which is all. The Dammar we have desired Mr. Faucet Resident there to dispose of, as being cheaper here than there.

Messrs. Faunce and Baker being arrived here as has been said, when we were in the course of our examination of your Merchants Accounts we asked and inquired of them severally, and that very particularly, if they knew of any wrongs or frauds done your Honours in any of the Contracts or Sale of your goods, or errors in Accounts sent us out, to which they said they knew of nothing.

Mr. Alleyn has been gone upon a voyage to Arrakan, next March will be two years, of whome we have not heard any news this twelve months past, so that we fear that debt he owes your Honours may prove very doubtfull, if not desperate if he returns not; his Wife and Family here being reduced to very low circumstances.

Your Remains here which we cannot as yet dispose of are viz<sup>t</sup>: Iron Gunns P<sup>s</sup>: 24 from 80 to 110 weight, poiz in all 2210: 0<sup>qr</sup>: 15<sup>s</sup>. Anchors P<sup>s</sup>: 7 poiz in all 690: 3<sup>qr</sup>: 15<sup>s</sup>. Grapplings broke and whole P<sup>s</sup>: 5 poiz 60: 1<sup>qr</sup>: 5<sup>s</sup>. Iron Croes 4, Hatchets 4, Creepers 2, which last we shall have occasion to make use of for the following. If the relation and account Mr. Baker hath from the Natives of Chapalier when there, proves true, as to the place and depth of water where the unfortunate Norris was blown up, it is no wonder if all the endeavours that have been formerly used in search of that wreck proved vain and ineffectual by the mistake of so much distance as is from the place and depth of water they formerly believed the ship to have been lost, and the place where Mr. Baker with more seeming certainty had from the Natives of Chapalier as aforesaid, having when there taken a draught of the Island and severall bearings and depth of water thereabouts, Copie of which he is now about perfecting to be sent your Honours, as also his warehouse accounts to the time Mr. Tillard left Metchlepatam; and so of the rest to the time they arrived here.

This Demonstrative probability Messrs. Faunce and Baker gives us of gaining some of the Norris Treasure makes us take the Problem, and shall consult the best ways and means we can by the best councill and advice we can gain, of the most experienced in such like Cases, to exert and practise our utmost endeavours in what may be done in this matter, so soon as your three ships now in this Road shall be dispatched hence for England, where pray God send them to arrive in safety.

Upon the examination of Accounts with your Merchants we find that the Goods of the first two Investments proves dearer by  $12\frac{1}{3}$  per cent more than those provided by the Old Company's Merchants, and that for these reasons viz<sup>t</sup>: that at the time your late President arrived at Metchlepatam when discoursing with these Merchants and by other Intelligences he found, that the Old Companies and the Dutch Companies Merchants there had anticipated your Honours and taken up and fully employed all the Severall Weavers in the Countries about, which made it a hard matter to prevail with these Merchants to induce them to make any Contract, because the Weaver's hands being full, they would not increase their Loomes, unless they advanced money and raised the price of the Severall Sorts and Species of goods they were to make, the Expence and charge of bringing in their Cloth so often hindered and impeded by the power and Interest of their opposite party, with the Countrey Government, whose favour to clear their goods the Merchants were obliged to buy and purchase as trading without any Phirmaund, which Narran who has been many years the Old Companies Dubash here of his own knowledge declares to be true.

At or about the time of making your third Contract, Severall of the Old Companies Merchants fell off and joynded themselves with the former Set of

Merchants who had never been engaged by any Contract with the Old Company, and then it was that an abatement was made near to the prices of the said Old Companies goods, but the great charges of their Carriage bringing them in out of the Countrey continued the same.

There was no abatement on the 4th Contract, but was the same with the 3rd Contract, saving that in Sorting the Goods the Severall Species were reduced to lower Numbers, which the Merchants say was a great hardship on them &c<sup>a</sup>.

The Redwood procured by Quollo Vincatadree your Dubash was at the rate of Pagodas  $3\frac{1}{2}$  per Candy, the same afterwards procured by Quollo Narso some at Pag<sup>a</sup>:  $3\frac{1}{2}$  and after him, provided by Perria the present Dubash for Pag<sup>a</sup>:  $3\frac{1}{2}$  per Candy, the differences of which prices with that of the Old Companies here, was formerly at  $2\frac{1}{2}$  Pa: but now at  $2\frac{1}{4}$  Pa: per Candy, which seems to be that the providing of Redwood at Metchlepatam was till then impracticable, the length and thickness of those Timbers much exceeding the small Sort used here in the kentledge of your homebound shipping, and we remember that such large Timbers have cost here 4 Pagodas and upwards per Candy, when those large Sorts were a good commodity in China, to which place yours (as we understand) seemes to have been designed, besides the Redwood Merchants paid to Captain Kolman Commander of the Catherine who went with his ship to Kisnapatam River to carry away the Timber thence at the rate of five pounds a day as Demurage for the space of 23 or 24 days.

We have likewise strictly inquired and examin'd the matter of the Dustore given by your late President and Council to the chief Dubash, who received the same from your Merchants in consideration that the Dubash was to make good any money they might have occasion at any time to send into the Countrey to procure your Cloth, in case any of the same might have the ill fate to be taken or robbed by the way, the Dustore was likewise appropriated to Severall other ends and uses, as may more plainly appear by a translate of a Paper delivered us by the present Dubash Peria, which comes herewith, to which we humbly refer.

Upon the whole it cannot be otherwise said, but that your goods (especially the first two Contracts) were dear bought, and that we may not be partial, it is likewise true that there were so many concurrant accidents, which seemes to excuse their dearness to the necessity your new Settlement laboured under, to which Fort St. George in those days did not contribute a little, but those difficulties your President did at length weather and surmount, by gaining a great esteeme with all the Countrey Government in those parts.

Tho' we say (as already recited) it was the 13th December last before we ended our examination with your Merchants, yet more properly speaking we had finished some dayes before, but continued our utmost endeavours by all the ways and arguments we could think of to induce and persuade the Merchants to make an abatement to your Honours which we so often inculcated to them from time to time to the aforesaid day, when on the 14th December they came all in a body and delivered to us a gentue writing, declaring to us it contain'd their last full and finall resolution of making no abatement, which was signed by them all, which occasioned us in so great an affair to address ourselves in writing to the President and Council on the 17th said month; in the interim or space of time betwixt our said paper and receiving their answer in writing the 2d instant, the President spoke his sentiments to us, when in the United Council, to which was opposed the Consultation of the 5th October last, where it was accounted as good service to your Honours to take up on your Credit money at 10s. 6d. per Pagoda to satisfy in good part your Debt to the Merchants, the hint was taken as mentioned in their answer, but strangely stretched above the true intent and meaning of said Consultation at first, as may more plainly appear by their answer dated the primo instant, to which we humbly refer, because we shall not offer our own Sentiments on the matter, least it should seem to reflect.

The Corral sent out on the Somers we have not yet receiv'd, but is left behind in Bengall, though the Captain arriv'd this Port the 4th Instant, of whom

we demanded the same in compliance with his bills of lading; he told us the mistake and how it came to be left behind, but hoped the two Chests would be sent hither either by the Westmorland or Fleet Frigot; these two ships arriv'd here the 18th Instant, but brought us no Corral, which has been a great disappointment to us, severall Merchants here inquiring for the same to buy it of us; this was chiefly occasioned by a generall Letter from Fort St. George to the Council for the United Trade in Bengall leaving it to them, to let out to freight for Persia, or dispatch for England or send hither in the proper Season any of the United Companies ships as themselves thought fit with what of the Somers Cargo they had no occasion for there, in case they should dispose of that ship otherwise, although it was then said that said ship brought out severall things on freight for this place, as well as your Honours two Chests for Corral, but this availed us nothing; the Somers in Bengall was ordered to unlade all her Europe Cargo there, so as to be ready in due time to proceed for Persia, and tho' those Gentlemen some time after altered their first resolution, yet the Corral being sent ashore it was forgot to be sent on board again, and this is all that the Captain has to say for himselfe whom we shall oblige to give us a writing under his hand, that the hazard and Risco of bringing the Corral here shall be wholly and Solely on the said Captain's Account; Bengall being no proper Market for the Sale of that Commodity.

We have used our utmost endeavours to procure money on Bills at 10s. 6d. per Pagoda but to no purpose; for in the first Place the Towne is very bare of money, and then those that has any had rather let it out at Respondentia which is now at least fifty per cent; Its true we have had the offer of Severall Small Summes amounting to about one thousand Pagodas at 10s. 6d. per Pagoda but it being so inconsiderable, we think it more for your Honours Credit to forbear till a good round Summe is procurable, but how we shall be able to stop the Merchant's Mouths (who are growne very Clamorous) we know not at present, tho' we had lately offered us a Summe of money at 11s. per Pagoda which we thought not fit to accept of at so high a rate of Exchange, but our utmost endeavours shall not be wanting to procure what money we can to discharge some part of that great debt now standing out, but believe shall not be able to procure the whole, mean time shall pay them what we have of the amount of the outcry money of yours in our hands.

We do therefore offer it as our humble opinion to your Honours that if you could send out broad Cloth ord<sup>r</sup>:  $\frac{2}{3}$  red and  $\frac{1}{3}$  green to the amount of 8 or £10,000 Sterling it might be disposed of here to advantage to compensate in some measure the great growing Interest, but if this should seem strange, as being contrary to the rules and Constitution of the United Trade, we have this to say that the Old Company themselves have occasion to do the like for Bengall, where they owe much the like Summe, and pay a higher Interest of 12 per cent but if this can be obtained the United must send out none, upon any of their own shipping to depreciate yours in their Sales.

If Corral can be had at reasonable rates, believe two or three thousand pounds worth may sell well, but what has been sent out of late years has been bought so dear that it would not fetch near prime costs.

Notwithstanding what we have before said relating to the ship Norris wreck, yet upon second thoughts and inquiry we have further considered that the Season of the year is so much spent and too late for any such undertaking this year by reason next month the winds will be variable and set in southerly which always make rough Seas of Dieu point, the best Season being the monthes of December and January at which time the North East and Easterly winds make Smooth water in those parts, and the reason it has not been done this season was that a great many of the Northern great Boats were lost and cast away in their way hither in the month of November last, and the United Companies small Craft were laid up in Cuddalore River and did not arrive here till about the 20th this month and brought the United Bales thence hither and are so still employed, but when the proper time comes, we shall send such vessells as shall be thought fit

for that purpose, but our greatest fear is that the ground whereabouts the Norris bottom sunck proves about some 2 or 3 feet Ozie as Mr. Baker says the Natives there told him.

The Errors in Accounts sent us out we cannot trace back into their first cause, Mr. Tillard haveing carried home with him those books and Europe Invoices; but the Error of Chundorzuja Shroff of Rupees 2080 is for Copper Dudos sent on a Boat to Maddapollam on the 30th May 1702, for which they ought to have debted that Factory and Credited to Shroff, which is accordingly rectified in the after Cash Books.

We have just now disposed and sold off the 24 Gunns before mentioned in this Letter at Pa:  $1\frac{1}{2}$  per cwt. which is the utmost we could get, and considering the great quantity come out upon the Somers to be sent-hither from Bengall makes us think we have done the best for your Honours which will add something to the amount of the Publick Sales of your remaines which we are collecting in as fast as people pay (which is slow enough) to deliver your Merchants to defray their Charges and expences here upon the place, and to tasherife<sup>t</sup> them before they goe home to their own Countrey who are to set out hence next week. So wishing all prosperity to your Affairs, we respectfully remaine.

LETTER FROM DUKE FAUNCE AND PHILIP BAKER, FORT ST. GEORGE, TO THE COMPANY,  
SEPTEMBER 11, 1706. RECEIVED PER LOFALL COOKE, SEPTEMBER 22, 1707.  
[O.C., Vol. 62, No. 8457. (India Office transcript).]

To THE HON<sup>BLE</sup>. COURT OF DIRECTORS  
FOR AFFAIRES OF THE R<sup>T</sup>. HON<sup>BLE</sup>. ENGLISH COMPANY  
TRADING TO THE EAST INDIES.

Hon<sup>rd</sup>. Sirs,

Your letter of the 2nd March 1705 we received of. Captain Newman Commander of the Tankerville on her arrivall the 15th August 1706 and take due notice of your Hon<sup>rs</sup>. Commands therein and in Conformity thereto have acquainted Mr. Raworth we have received the Hon<sup>ble</sup>. Courts Orders for delivering him what Accounts are yet depending between the Company and us which we have deliver'd him to remitt Your Honours and we hope will meet with your favourable Approbation; If any mistakes have happen'd in our Accounts and come to the Hon<sup>ble</sup>. Court incorrect which might be occasion'd through the hurry we were in when ship'd off the Goods and the many troubles We met with in Metchlepatam from the Government and in our Passage hither; We humbly desire the Consideration hereof may for the Present excuse us, till We are acquainted with our faults which We shall be always ready to amend.

Your Honours was pleased to acquaint us you had reason to Suspect the Company have been very ill used by Mr. Tillard and others in the matter of the Bills of Exchange drawn on you for the Payment of Your Debt to the Black Merchants and Supposing an Affaire of so great Concern which made such Noise could not but reach our Ears at Metchlepatam which induced the Hon<sup>ble</sup>. Court to demand what account we can give of that Affaire and to Lay their Commands on us to make what inquiry We can into the truth of the matter and also to give our Sentiments thereon, all which as 'tis our Duty so we shall now and always endeavour to acquaint your Honours with whatsoever might have been, or may be acted to the prejudice or disinterest of the Company, as far as what is intended or done within the reach of our knowledge, but Your Honours are Sensible if any such abuses were practized they might be effected and we know nothing of matter, at that time being 270 Miles from Fort St. George at a Place abandon'd by all English but ourselves, and the mean Employes we were in rendering us but little Correspondence with People of Note at the Fort, So that we were Strangers to this Affaire, and have no other Light into it but what We may imaginarily Infer from the Gentlemens advancing their own Money for Payment of so dangerous a Debt as they gave it out to be, and to serve those they all along held to be their Enemies, (whom yet they wont afford a good word) from which We may reasonably Conclude some Siniste[r] Interest to be the Indueing Motive, that Put them upon doing the New Company Such a Signal Service (as they are pleas'd to term it) in Paying their Debt, saving their Credit, and Runing the Risque of their own money, in which if they had perceiv'd the least Danger, Wee are fully Perswaded the Concern for the New Companys Credit (which they daily undervalue) wou'd but lightly Affect them; many Such Inferences might be drawn from such Consideration as We suppose Your Honours have already, but 'twill be a matter of great Difficulty to prove the Certainty of their Compaou[n]ding the Debt with the Black Merchants though they themselves are the Sufferers thereby, Your Honours very well knowing (We Suppose) that the black people can by no human Compulsion or Perswasion be wrought upon to Confess themselves, or Complices Guilty of Ill Actions that Deserve Punishment, or Disgrace, for they are very Recluse when they have made use of any clandestine practises.

. Duke Faunce is at Fort St. David but Philip Baker at Fort St. George who hath made it a main part of his business to Endeavour the discovery of this abuse, but can't procure any Proof thereof; We are sorry the Company shou'd be so illy used, and not in our Power to give them any light into the matter.

We hope Your Honours have no reason to take any Displeasure against us, on this account since 'twas an Affaire Transacted without the Reach of our Eyes or Ears, for if the Company was so abused, be sure 'twas with great care kept from our knowledge, and we must not forgett to add that Wee believe what Mr. Tillard Acted in that Affaire (in which he had a great deale of trouble) was with Intention of doing the Company the best Service in his Power, and 'tis our opinion that those with whom he was necessitated to Consult made their advantage of his necessity, advising more for their own private Interest then for the Good of the Company, and here is a Braehman belonging to the Company yet with a small matter of Instruction knows how to dress up a Grievance to the best advantage, and express himself in proper English, as may be seen by the Merchants last Petition Deliver'd the United Councell against the New Company, which Philip Baker saw render'd into English by him very lately, a Copy of which We Suppose Your Honours have from the United Councill.

'Tis certain that Naran was down at Metchlepatam, and Came under Pretence of buying Goods for the United Company and that our Merchants flock'd about him, who Perswaded them to Come to Fort St. George, telling them that Governor Pitt Promised to assit them in their business, this We had from the Black Merchants and People at Metchlepatam, at the same time Mr. Tillard advising the Merchants not to come to the Fort as appears by his Letters to us of the [ . . . ].

If We happen to fall into Discourse concerning this abuse the People here seeme to justifie the fact replying in this manner what is it to the New Company how we buy the Merchants Bonds if ~~any~~ such thing was, or what Consideration they make us for Paying the money, Since We Pay the Companys Debts, and the Merchants Satisfied, but our Replys are that We judge there's a kind of Detraction used herein which from a single Person's Good Name is look'd upon as bad as picking his Pockett, and We esteem it the same in those that act so basely by the Company, Rendring them mean, and Contemptable, incapacitated to Satisfie their Creditors, which they most certainly must have done before the Black Merchants could be prevail'd with to part with so Considerable a share of their Debt; which any Indifferent Person that knows these Countrey People, is Satisfied they have not so little esteem for money, to part with it easily, and upon the whole We think such practises seems to be tintured both with Detraction and Extortion, first with Detraction by Ruining the New Companys Credit, and Secondly of Extortion by exacting on their Necessitys, which most Probably was made more Pressing by those who had great Summs to Remitt home, in whose Power it Lay either to Ease or Oppress, whether they made any advantage thereof may be guess'd at by the uncommon Exchange they made 'em pay.

We have nothing more to add at present but our most due Respects to the Hon<sup>ble</sup>. Court, Assureing Your Honours that We shall make what further scruteiny we can into the matter, between this and the return of the January shipping, when We shall transmitt the Hon<sup>ble</sup>. Court all We can learn of this Affaire.

We are Hon<sup>rd</sup>. Sirs,  
Your Hon<sup>rs</sup>. most faithful Humble Servants

FORT ST. GEORGE,

DUKE FAUNCE  
PHILIP BAKER.

LETTER FROM THOMAS PITT, FORT ST. GEORGE, TO THE COMPANY. SEPTEMBER 19, 1706. RECEIVED PER TANKERVILLE, MARCH 12, 1707. [O.C. Vol. 62, No. 8460. (*India Office transcript*).]

TO THE HON<sup>BLE</sup> THE GOVERNOUR AND COMPANY OF MERCHANTS OF LONDON  
TRADEING TO THE EAST INDIES.

Hon<sup>ble</sup> Sirs,

I received yours of the 12th of February, and whilst I stay here I will not be faileing in my Duty to render you the best services I can in winding up your Bottome, but wee have such cursed Wretches to doe with, who hope to tyre one out by delays, and that which to any one wou'd seeme probable to be done in few days they will make a twelve month, yett notwithstanding I doe not dispair of compleating all matters to your satisfaction.

I observe what you write about Anco's debt, there has not a ship went into those Seas, but what wee have given 'em a Power to recover itt, and take itt in any goods whatever, and if not proper, and that they can't send it for England or bring itt hither themselves to freight itt to any part of India, I thank you for the generous Commission you offer me, but am sorry you should think me so mercenary or to surmise any consideration of money can increase my Zeale for your Interest, I protest to you without a Compliment, if I could have the least Hopes of recovering itt or good part I would goe to China myselfe, and bear my own Charges, but 'tis my opinion there is not the least glimpse or hope of retrieveing itt.

Mr. Dolben I hope is safe arrived with you, all whose Papers you have, and every particular Account of Goods brought on that ship who I doubt not but will adjust matters honourably with you; for my part I doe declare to you upon my Reputation I had no more then <sup>oz.</sup> 1867, <sup>cwt.</sup> 9, <sup>qr.</sup> 12, of silver upon itt, which I had lying by me when he went away, but your ship Union goeing hence late, your Super Cargo's press'd me very much to gett 'em a Pilot, and here was but one upon the place, and he would not goe unless I would lend him three hundred Pagodas, which I promis'd him, and a day or two after his mind alter'd, and he would not goe under five hundred, and then afterwards his wife would not lett him goe under seven hundred, which I was forc'd to lend him, or that ship of yours must have lost her Passage, or itt may be the ship and Cargoe besides, but of that your Super Cargoes are the best Judges, and that Pilott returned upon the Chambers, which with what before mentioned was every Penny I had on her, when I lent itt I would have had others of your Councill come in, but noebody would meddle with itt, being apprehensive that the Pyrates were gone that way, and this Mr. Marshall can justifie. You'le see thro' the whole Course of my service that I take particular care of what relates to you, and if you loose a Penny

for want of my Dilligence and Care, as well as Integrity, I will pay you twice the money, and without crippling their Investments I'll draw out what money possibly I can to satisfye your Debt. I must nott omitt to lett you knowe a Proposall made by the Gentlemen last year to whome the New Company had committed the Care of their Affaires. After they saw they could procure noe money to pay the Remainder of their debt, which was, that unless we were apprehensive that the United ships would goe home dead freighted, wee would spare a summe out of the United Cash, as the New Company were a moiety concerned, and itt shou'd be for their particular Account, and this you'le find in one of their Papers enter'd in the Consulation Booke.

I beleive you'le find itt difficult to gett the order you mention about the Payment of the Debt on this Coast, yett nevertheless you'le see wee have now drawne out tenn Thousand Pagodas, and will what more possible to be done, and doubt not but the Deed of Union with your help will justifye me therein, I find 'tis a great Eyesore to 'em to see so much of your Goods come home on the ships for the United Trade, more espetially that wee loaded Salt petre for you, and I was heartyly concern'd when I hearde those of the Bay has sold your Petre to the United Company, which otherwise must have come home on freight on their Ships, if they had wrote the least word in the world hither, I would have raised the money myselfe, believeing if you had gott two or three hundred per cent you wou'd not have grudg'd me fifty, I told Mr. Bearde of itt when he came hither, and he own'd itt a very great oversight in him.

You'le see in your Generall Books what is charged for negotiating your Affairs ever since the Union, and if you think itt not reasonable to be allow'd, I beleive there is noebody there but will pay itt back againe, for my part I will.

I observe your orders which shall be duely executed in cleareing all debts here on the Coast, soe that there shall be noe just reason for the United Company to complaine, I wish the New Company wou'd take the same care to clear the remainder of their Metchlepatam Debt, for I don't hear they have order'd anybody to take care of itt, and the Merchants that are here have been before the Governour and Councill, and putt in a Petition which is sent the Mannagers, and I hear they have sent for all that are concerned to come to this place in order to goe to the Nabob, whose Commands if we don't obey in cleareing itt they will immediately goe to the King. I hope to stave off the ill Consequences of these matters for my time, but lett them look out afterwards that have the Watch. You see your old debt with your Joint Stock Merchants is still upwards of twenty thousand Pagodas, but there is as much mortgaged as will reduce itt to sixteen, Houses and Gardens and one thing and another which shall be now sold if they don't immediately redeeme 'em.

Surely will there never be a turne of times againe, that you will be able to wrest this Trade out of the hands of those that did the same with you, who I believe have gott but little by their project, for my part I will throw in my poor mite to help itt forward, and if succeed in itt, I'll come abroade againe to serve you too, Twas very unfortunate your being so hasty in the Union; for if your servants here abroade had all alike stood their ground, there had not by this beene a New Companys man in the land of the Liveing in these parts. Att this time my intentions are to come upon the Tankerville, and if I stay till this time twelve month 'tis purely on your account, by which time your Bottome will be wound up on this Coast, but how I can serve you att the West Coast, God knows, but when any Person goes over, that I look upon him fitt to be employ'd I shall give him orders to inspect your Affairs.

I Received a Letter from Mr. Secretary Wooley by your order, and with itt a Pacquett for Mr. Brabourne, which I deliver'd him who has been here near twenty months; you may be sure I have not been wanting to use the best Arguments and Perswasions I am capable of to incite him to goe to Bombay, to which he has such an Aversion, as that I am afraid my endeavours will be fruitless, and he has as good as told me he resolv'd the Contrary, and now writes you, and if your selves did hear what Character in this place there is given of Bombay, and the Person that is att the head of your Affairs there, you wou'd not blame his

refuseall, for I have hearde severall say that they wou'd rather be a private Centinell in Fort St. George then to serve a Second under Sir Nicholas ; and if itt be true what all say that come thence I can make noe other Judgment, (I wish I may be mistaken) then that he'le ruine all, and yett I hear he's the New Company's Saint, and such may they allways have, Mr. Brabourne hopes you'le provide for him on this Coast, where he is marry'd and has a Family, and he is very capable as well as desireous of serveing you ; my Humble Service to you all, wishing you good Success in your Affairs abroade and att home. I am Hon<sup>ble</sup> Sirs

GENERAL LETTER FROM FORT ST. GEORGE TO THE COMMITTEE OF THE COMPANY.  
 SEPTEMBER 21, 1706. RECEIVED PER LOYALL MERCHANT, MARCH 8, 1707.  
 [O.C., Vol. 62, No. 8461, (India Office transcript).]

TO THE HON<sup>BLE</sup> GOV<sup>R</sup> DEPUTY AND COMMITTEES FOR AFFAIRS OF THE R<sup>T</sup> HON<sup>BLE</sup>  
 GOV<sup>R</sup> & COMPANY OF MERCHANTS OF LONDON TRADEING TO EAST INDIES.

Hon<sup>ble</sup> Sirs,

We wrote you the 9 and 28th Jan<sup>ry</sup> per Ship Sommers, 6th February per Ship Fleet Frigatt and Westmoreland and 20th February per Ship Todington, Duplicate and Copy of the former went in each Ship and we now again send you Copys of all, since which we received yours of the 12th February per Ship Tankerville and we heartily Cong[r]atulate the safe arrivall of the Ships you mention'd and hope the Damage on them will not be so much as you expect.

We shall Continue our utmost Endeavours to gett in your Debts and make you returns, but you never gave us any orders before for Investing it in Bay goods but we shall for the future if any money Comes to our hands in the time of the Monsoon so as we can send it down other wise must Invest it in Goods of these parts or must lye by a twelve month.

We by every ship that goes to China give a Power to the Supra Cargoe to recover your debt and take it in any Goods whatsoever and if they can't take it in themselves to freight it for England or upon any ship to any part of India and after all we are sorry we must tell you we believe you'l never see one peny of that debt, and as for Mr. Dolben we hope he is long with you before this, who will answer for himself.

There is no question to be made but that Mr. Robert Ordered Mr. Jones to Conceal the Debt hoping thereby that another ship would trust Anqua and that he might get out of his Cluches as Mr. Gough did in this your President knows to be true.

Mr. Jones's Oath to the Interogatorys as you direct comes inclosed; we must doe him right so farr that we take him to be a very honest man and that time in the Chambers Frigatt he lost most what he had his Chest and severall things being thrown overboard.

Mr. Dolben not paying that 20,000 Pagodas without three per cent Interest was the Cause of deferring our advises thereof that so you might have the longer time for payment; there was no manner of allowance of that summe from demorage average or anything else for that we did not demand it of him by reason that he told us he would Goe home upon the first ship and now he is with you, you are the best able to adjust those matters with him for that we have given him no manner of receipt or discharge.

Twas a mistake in the Consultation that the freight of Mr. Frederick and Mr. Marshall's Gold was not mentioned with Mr. Dolben and Mr. Knipe which is included in the 1,312 Pagodas.

We did not weigh the raw silk here that came on the Chambers but related it as it came from China not doubt[ing] but the propriator sent the China Invoice with it.

Mr. Cliffe and Babinton wrote us that they could not recover a peny of Anquas Debt.

We have wrote fully about the West Coast in our Generall Letters to the Mannagers so shall say little in this but when a proper person goes that way we shall give him Power to Enquire into your Affairs.

We have not nor shall pay any Bills for your Account and we beleive we have been as much concern'd for the ill Man[ag]ement of Affairs in those parts as you yourself who have lost so Considerably by it and how you come to make Independant God knows.

You'l see in the Generall Books from the United Trade that you have Credited for that monstrous Bill of Dollars 60,855 and that it is brought into your books as also everything they have had of you which when the Interest is made up will Come to about 90,000 Pagodas ten thousand of which we payd last

Consultation day and shall Consider what to do with it and write you in the Sequell of this Letter.

Never was there more care and paines taken in the world then we had to gett in your Debts and you will see in your Cash few days past there was between three and four thousand Pagodas paid in and in a little time we Expect as much more the Fellows in prison have paid nothing as yett who are generally said to be very poor, but lett them be what they will your President resolves to bring them away with him when he leaves the shore unless they give some satisfaction and were the Debts our own twas impossible more Care could be taken to recover them.

Your books have been perused and rectified and doubt not but you will find them to your satisfaction.

We have wrote to your Councill in Bengall that these for the United Trade will pay their Debt to you, if so we hope there will be an overplus when all payd.

Le Beaum we sent home on the Chambers friggatt and order'd the Com<sup>r</sup>: to put him among the French Prisoners.

As to the Blew Cloth sent to the West Coast 'twas very good and sound when went hence and so Mr. Wright your warehousekeeper who comes upon this ship will averr.

Of late it has bin the Custom here to sell no goods but their own, as you will see by what we write the Managers.

In last Years Letters we wrote you that no more of Mr. Dubois Letter could be recovered here, and he owes the Ballance as it stands in your Bookes.

The small arms left by Mr. Dolben at Policondore mett with same fate as your other Effects.

That matter about Sallary in your 33<sup>d</sup> Paragraph is thus, you order'd all Accounts of Sallary to be made up to the 22 July 1702 and sent you so that 483 Pagodas is for your servants who came from Metchlepatam, and some servants here who were not taken in till the 25 March 1704 the particulars of which we refferr you to the Generall Bookes.

You'l see in these Bookes that now comes we have payd half Salary from the time of the Union to the 22<sup>d</sup> July last to such as have acted in your Affairs but no more is ever to be charged and the other Moiety is left to be payd in England as usuall and we hope upon the strictest Scrutiny you will think we deserve it.

We cannot help thinking that ten thousand Pagodas of Timapan's is justly due but then at the same time we can never wish that Villain to have it and very few here Love him so well as to assist him in his demands.

The Tankerville arriving so late we continued your 12 Chest of Treasure on board for could not coin it unless we had detained the ship so as to have endanger'd her passage to Bengall, and here are no persons so proper to Negotiate that buisines as your Councill there who we doubt not but will finish that affair so as to answer your Expectations; our letter to them with the silver is No. 14 and to prevent mistake we sent them the Paragraphs of your Letter to us relateing to them, we wonder that they should urge in their Vindication that they had supplye'd us with more Tonage then they had received money from hence when that we sent 'em far greater summs than you order'd and by the Generall Bookes you'l see they are considerably indebted to us.

We have wrote for the red lead to be sent hither but Anchors and Glass ware are not worth bringing.

Mr. Beard came very sickly hither and continued so to his death so not in a condition to discourse or give any particular Account of your Affairs there.

Your Councill in Bengall will certainly be greatfull to you for being so mindfull of them and if the Managers were fairly and honestly inform'd of the Confusion in that Government they would think of a President or Somebody to be at the head of them to be highly necessary and the sooner the better we hear enough of it here and doubt not but you will by the last years Shipping.

We all here in the Countrey take Mr. Sheldon to be a very honest man as appears by his dealings with particular men and all allow him to be very knowing in Trade and Customs of the Country.

Those Gentlemen in Bengall never prest us for money to buy Petre but when we heard they had sold yours we wrote them that we were sure you Could be concerned at it and had they given us the Least hint they should never have wanted money for that purpose and when we sent down the Chamber frigatt and on her three thousand Allungerr Pagodas to buy peter they apply'd it to other uses and sent up in Gunny Packing stuff &c. 1,400 rupees and freighted her with the United Companys Peter.

We have sent Mr. Ingram the Paragraph of your Letter but there came no accounts of particulars as you mention we'l Examine strictly into that matter and write you by the January Shiping.

Certainly the Interest of the Bay debt is as due as the Principle from the time it was demanded and we shall Charge Interest here for everything till all is Cleared.

We observe you intend no presid' in Bengall nor doe we think you have occasion for none nor here neither after one year more for you'l have little Standing out that there is hopes of recovering after that time.

Mr. Ellis left Mr. Wright and Mr. Lewis his Trustees who we have acquainted with what you write who say they now remitt the Money at ten shillings a Pagoda by bill of Exchange.

By the Loyall Cooke from Persia we had redrawn on us 9,741 rupees Madrass which was for Account of a Bill of Exchange we advised you off formerly we drew on them for account of the Kings Buxie which we have payd.

And that month here arrived one Mr. Love, who was executor to Mr. Woolston and Mr. Lovett being here we obliged them to settle the Metchlepatam Accounts and pay into your Cash Pagodas 200 : 34.

We haveing by us now a considerable Cash you'l see we are treating with the Metchlepatam Merchants for an Investment which goods shall come on the Tankerville and if these Merchants dont comply we'l invest your money in something proper for Bengall and send it down by the begining of the year to be invested in fine goods and sent you by the first ship which we hope will meet with your aprobatation for we design it for your Interest.

We forbear writeing you any news of these parts by reason we send you Copy of our Letter to the Mannagers and here Inclose Invoice and Bill of Loading for what Laden on the Loyall Cooke amounting to Pagodas [ . . . ] which God prosper and send safe to you, so with our service to you all we are.

GENERAL LETTER FROM FORT ST. GEORGE, TO THE COMPANY. SEPTEMBER 21, 1706.  
 RECEIVED PER LOYALL COOKE, OCTOBER 13, 1707. [O.C., Vol. 62, No. 8462.  
 (India Office transcript).]

FROM THE GOV<sup>R</sup>: & COUNCILL OF FORT ST. GEORGE  
 FOR AFFAIRS OF THE R<sup>T</sup>: HON<sup>BLE</sup>. UNITED ENGLISH EAST INDIA COMPANY.  
 TO THE COURT OF DIRECTORS,  
 FOR THE SEPARATE AFFAIRS OF THE ENGLISH COMPANY TRADING  
 TO THE EAST INDIES.

Sirs,

We received yours of the 2<sup>d</sup>: March last per ship Tankerville.

We are wholly strangers to your Affairs as not having been ever your factors, as also to Mr. John Pitt's Mannagement att Maddapollam and Metchlepatam, and his Contracts with the Merchants there, and can speak to nothing of them, but from the time your President Mr. Tillard fled hither for refuge, and apply'd to us for our advice.

Your Letter to us of the 18th of January 1704 was answered by last years shipping, and such as perused our Consultations of the United Trade will see what advice and assistance we gave Messrs. Fraser and Wright in your Affairs, who would have drawn Bills on you could they have got money at ten shillings and six pence a Pagoda which we see would have been as honourably pay'd as those the year before, and we are surprized as well as the New Company that you should expect us to adjust your Accounts, and inquire into the exorbitant Prizes and frauds of the Mannagement of your President and Council at Metchlepatam, when never as much as wrott one Line to request it, which if we had done you might then justly have say'd as you have in your remonstrance, that we took upon us to advise and meddle with that we had nothing to do with.

We are so farr from disowning any advice we gave to Mr. Tillard that we doe here justifie ourselves in every particular, and should do the same again on the like occasion, to any Company that we thought would be more gratefull for it, and what induced us thereto, was not only to support the New Companys Credit, and promote their Interest, but as our Duty to preserve the Estate of the United Company, which doubtless must have fallen under great troubles had not those Bills been drawn; and as to that matter of Mr. Tillards indorseing the money off the Bonds, for which he gave his Bills, and the currancy of the Exchange is fully answer'd in another Paper, and can't think it but satisfactory to all men whose Interest do's not sway their Judgements.

We can't tell what you may frighten or perswade Mr. Tillard to say, but he can't but know that the Merchants acknowledge that they had received satisfaction for what he had Indorsed off their Bonds, and affirm'd it before us, and the Governour do's averr that for what he was concern'd he payd good part ready money down, and gave his Brief for the remainder, which he honourably complyd with the 8th of March following.

We can't think there was more formality in our Consulations then truth, and find that a strict form is very requisite for those that have to deal with the New Company, who have deny'd payment of their Presidents Bills, which was for money taken up to discharge their just Debts when reduced to the last extreimity and utmost necessity to do it, we must think the Companys Complaints Causeless for we never were Intrusted or Employed by them, nor had they anything worth mentioning upon the place, and think that a far fetch'd Argument in saying they are concerned one halfe in the United Trade, don't the Mannagers order the Governour and Council here to take care that neither Old, or New Companys affairs, are intermixed or blended with theirs, nor suffer either to prejudice them, so we can't but term them three as distinct Interest as any are in the world, and for what owing your Merchants we must be of opinion they have reason and Justice of their syde to justifie their Clamours and Demands.

You say likewise you think it not reasonable that you should pay more money then we pay'd to the Black Merchants, and that at nine Shillings a Pagoda, where is the obligation, or Custom for any Body to lend you money on those

terms? don't you yourselves when you Lend Money to subsist ships abroad make them Pay Fifty per cent, and the same Profit upon all Damaged Goods; we are here Merchants too and make it our care to turn our money to the best advantage; what sort of Idiote must that be to Lend you a Pagoda at nine Shillings, when at Bottomry at that time could have had Thirteen and six pence and Diamonds security, or to have bought them would have made from sixteen shillings to Twenty shillings a Pagoda: The Governour beleives all of you have been concerned, as he has, in buying of Tallys, Exchequer Notes, Bank Bills, and East India Bonds, and did you ever hear that the Persons who bought them were questioned for it, and tho' never so cheap anything deducted when payment made and then for the security of the two former there was the faith of the Nation, not to be mentioned with that of a Companys; so then are your Bonds so sacred as not to be bought, or sold, or of so little value that we should not have regarded them.

You say you have Protested the Bill of Mr. Affleck who we are confident will not abate you a Penny, for that money 'tis Generally say'd subsisted your Factory, or they must have run away, or starved, we dont know whether you can oblige him to sware, and wish you dont give him reason to do something else, before he has compelled you to make satisfaction.

We shall not pretend to dive into the New Companys designs, but we may give a shrew'd guess, when all this time they have sent out no money to pay their Debts, nor pay'd the Bills drawn on them by their President, nor taken any manner of care to satisfie the remainder of their Debt, which is in great part owing to Widdows, Orphans, and very necessitous Persons whose daily Prayers they have.

In the other Paper we have given our reasons for deviating from the advice we first gave President Tillard, and wish the Company would judge rightly of itt.

The Governor says Mr. Tillard can informe you, that the manner of raising money to pay your debt had not its first Burth in this Place, for that towards the latter end of January he remembers he came and told him that the Black Merchants had procured money amongst the Dutch, if he would give Bills for England or Holland, and that they had desired him to get the Governours Letter to the Chief of Sadrass to acquaint him who Mr. Tillard was, and that he beleived the Bills would be pay'd, which Letter the Governour himself wrott, and gave it Mr. Tillard to send for the Linguist to put it into Dutch, which was afterwards signed him, and sent, the answer as he best remembers was that they would Lend him about Twenty thousand Pagodas at Eighteen Shillings a Pagoda, and the Governour to sign the Bills with Mr. Tillard, who beleives remembers that matter particularly well, to whom he refers you.

We hope others have likewise maintained as fair a reputation in the world as the New Company, and are of opinion that what may be thought reputable in them, is not so in a single Person, and as they beleive no blemish will remain on them for suffering these Bills to be Protested, so those concerned in them here hope they shall be able to oblige them to hearken to reason, and do Justice, and further say, that they wish the true state of their Proceedings in this Affair was fairly Printed with the Companys reasons for not paying the Bills, and leave World to judge who has acted most like men of Honour and honesty.

LETTER FROM HENRY DAVENPORT, SECRETARY, FORT ST. GEORGE [TO THE MANAGERS FOR THE UNITED TRADE], SEPTEMBER 21, 1706. RECEIVED PER LOYALL COOKE, OCTOBER 11, 1707. [O.C., Vol. 62, N<sup>o</sup>: 8463. (*India Office transcript*).]

THE GOVERNOUR & COUNCIL OF FORT ST. GEORGE,  
THEIR ANSWER TO THE NEW COMPANYS REMONSTRANCES  
DELIVERED IN TO THE HON<sup>BLE</sup>: MANAGERS FOR THE UNITED TRADE.

To the first Paragraph, we have heard of the Loss of the Norris, and believe She had on Board of her a Considerable Treasure, but whether She was to land it at Metchlepatam to discharge their debts we cant say, but the Governour says he has heard otherwise.

To the 2<sup>d</sup> Paragraph, Mr. William Tillard the New Companys President (by succession and so ordered by their Instructions) came hither 14th of October who has been often heard to say that the Merchants were so Extraordinary Pressing for their debt, and hourly dunning of him that he could not Live there any longer with security, and in his own Paper he says, to gett away he was forced to sham them with a story of the Neptune.

To the 3<sup>d</sup>: Paragraph, the Merchants at Metchlepatam are Gentues for had they been Moors, the New Company could not have delay'd payments of their Debt as they have done, and what made those merchants follow Mr. Tillard here, was hearing that he was going hence for England and not the Situation of Narrain who we are well assured advised them to the Contrary telling them he was sure the New Company had no Money nor Effects here, and for the remaining part of that Paragraph we know it to be true.

To the 4th Paragraph, we also own it to be true and that it was then our opinions to Mr. Tillard that the Black Merchants must have patience, till the New Company sent out Money or gave orders therein; for at that time we saw no Probability or Possibility of raising such a sum as was afterwards done nor do we beleive was as much as in the thoughts of any one man.

To the 5th Paragraph, tis certainly true that the hopes of making an advantage brought in people to be concerned, for where was the obligation they had to the New Company with whom they had nothing to do as the New Company; but tis a wrong suggestion that part of the Paragraph that says we advised Mr. Tillard to state their Merchants accounts which we never Concerned ourselves with so much as to inspect anything relating thereto, nor was there need of it, their Accounts being adjusted as he told us in the time of President John Pitts deceased, whose' hands &c<sup>a</sup>: Councils and the New Companys Seal was affixed to the Bonds for the Ballance; then we can but wonder, that they charge us with adviseing Mr. Tillard to pay two thirds of their debt without any regard to the New Companys pretention, when tis so fully expressed in our Consultation of the 1st of February 1704-5 that he should not exceed the sum of eighty thousand Pagodas or thereabouts being a little more than the moiety of their debt for that very end as fully expressed in that day's Consultation; then tis also as great a mistake that the Course of the Exchange was but Nine Shillings a Pagoda for those that sign this do averr that the Currant Exchange was then ten shillings and ten and six pence and there has been eleven shillings for small sums, for tis not to be inferr'd from what has been payd into the New Companys Cash and so remitted by Bill, is the standard of Exchange here, which is generally the Estate of deceased Persons and Intestine Persons which is brought in by Compulsion or else tis money positively order'd out of England to be payd in, for which we can give no other than the rate of nine shillings the Pagoda but we hope the Gentlemen here were at their own Choice, whether they would lend the New Company any money or no and we would willingly know where was the diference of Mr. Tillards receiving the money in Spicie, or that the black Merchants came to him with the Companys bonds and acknowledg'd satisfaction for so much money as they desir'd to be indorsed off the Bonds for which sums he gave Bills and the Merchants came afterwards with Mr. Tillard in Consultation acknowl- edging they had received full satisfaction for what Indors'd.

To the 6th Paragraph, we cant help the New Company having falce informations of this matter nor the Companys belief therein but those that know best do averr twas not fourty per Cent tho had they insisted upon Fifty the Merchants must have given it, and that to say that anybody here tooke upon them to advise Mr. Tillard when it appears so plainly he applyed to us for our advise, and the Governour here for himself and doubts not but Mr. Tillard will justifie him in it refused to give him any manner of advise but what done in Consultation nor as much as discoursed him in private or the Black Merchants about this affair.

To the 7th Paragraph, those that are Concerned in the matter dont think in the Least they have been guilty of any unfair practice, but think the New Company attempts to do them a very great injustice in not paying their Bills Honourably like Merchants and hope that the United Company for the good service done them in this affair will give their assistance to Compell them thereto.

LETTER FROM J. BRABOURNE, FORT ST. GEORGE, TO THE COMPANY. OCTOBER 6, 1706.  
RECEIVED PER LOYALL COOKE, OCTOBER 11, 1707. [O.C., Vol. 62, No. 8465.  
(India Office transcript).]

TO THE HON<sup>BLE</sup>: THE GOVERNOUR, DEPUTY GOVERNOUR & COMMITTEES  
OF THE R<sup>T</sup>: HON<sup>BLE</sup>: THE OLD EAST INDIA COMPANY.

May it please your Honours,

Your letter dated the 25th of March 1705 by ship Tankerville, and directed to me at Anjengo, I received at Fort St. George, where I've resided ever since April last was twelve month, haveing quitted my post at Anjengo, and the United Company's service, because I was weary of dwelling any longer on that side of India, and under the command of Sir Nicholas Waite.

I am very sensible of the favour you design me in constituting me Deputy Governour of Bombay; and though my present circumstances would not permitt me to leave this place, where I am now with my Family settled, without great inconvenience, yett I should willingly have postpon'd every consideration relateing to myself, and embraced this occasion of showing my obedience to the commands, and my fidelity to the interests of so good masters, if I was sure, by going to Bombay, I could do you service any way equivalent to the prejudice my own affairs in my absence would susteyn.

After finishing your Letter to me, you are pleased in a postscript to intimate, that you have since received by the Howland a larger account of your affairs at Bombay; which I hope has given you sattisfaction in most, if not all those per-ticulars you recommended to me touching your accounts, and dead-stock, which seems the principal occasion of your haveing procured me this post.

Sir Nicholas, who thinks he shall be supported at home, and is sure of being obey'd abroad by his Adherents, will despize the efforts of any single man, and his inferior, who shall appeare for your interests, wherefore (as in your letter you intimate) all you could expect of me, would be advises of what happens, and is transacted, which you cannot want so long as Sir John Gayer who is both faithfull to, and well informed in, your interests, resides at Suratt.

Upon the whole I am in hopes that your Honours perceivē that my going to Bombay would do you little service, but my selfe a great deale of prejudice, will please to approve or at least to pardon my declining that post, and look upon me as one of your old servants that is ready whenever you please to show himself.

May it please your Honours  
Your most humble most obedient  
and most faithfull servant,

FORT ST. GEORGE,

LETTER FROM ROBERT RAWORTH, FORT ST. GEORGE, TO THE COMPANY. OCTOBER 13, 1706. RECEIVED PER TANKERVILLE, MARCH 8, 1707. [*O.C.*, Vol. 62, No. 8468. (*India Office transcript*).]

TO THE HON<sup>BLE</sup>: DIRECTORS FOR THE SEPARATE AFFAIRS  
OF THE ENGLISH COMPANY TRADING TO THE EAST INDIES.

Hon<sup>ble</sup>: Sirs,

Messrs. Fraser and Wright on arrivall of the Tankerville acquainted me 'twas your order that they redeliver what of your effects remained in their possession to me, tho I have no powers from you to receive 'em yet that I may never be thought backward in your Service I declar'd I was ready to accept what they would deliver and accordingly the [ . . . ] Instant they brought me two Chests of Corral.

They were weighed off before us all and came out short of Invoice (as per Inclos'd copy of the attestation) 25 to what to attribute it I don't know the Chests not appearing to us to have been opened nor when opened did there seem to be any taken out but full and in good order.

I am offer'd 70 p. per maund of 25 reckoning oz. 360 to each maund which is not so much as you have Invoict it at, Its very small and has lately bin a drugg but at present there is a scarcity, which I beleive was the reason of their offering so much, however I shant dispose of it at any rate but wait in expectation of your orders which I suppose are on the Hallifax. .

All your other goods which I deliver'd 'em and what came from Metchlepatam were dispos'd of by publick outcry, They admitted me into none of their Conssults so I am not able to informe you exactly how they sold or what the amount was but I hear twas about 1,500 Pagodas which they paid the Merchants as they woud likewise have done the amount of the Corral but as [it] came ashoare from the Somers among some of the United Companys goods and was not found out till Mr. Wright deliverd the remaines of their Godowne to Mr. Empson.

The Merchants are very Clamorous for the remainder of their debt which running at so high interest dayly increases and deliverd a petition to the Governour and Council for the United Affaires (copy of which I here inclose with their answer) demanding the debt of them and if not satisfied threatning to make application to the Moors justice, which probably may bring their affairs into embroiles, so I hope you'l be pleas'd to consider of some expedient to satisfie 'em for the debt is certainly due and while their money lyes in your Cash and 10 per cent they are forc'd to pay from 18 to 30. Indeed 'tis a deplorable sight to see those men who before they engag'd in your Service were worth from 20 to 30 Pagodas reduc'd to beggary and afraid to returne to the Wifes and familys lest they should be murderd by their Creditors.

I am sorry you so much resent the Governour and Councils advice to Mr. Tillard to take up money and give bills on you; with submission to your Honours. I can't help adhering to't, thinking 't was both for your and the United Company's interest and the honour of the nation that that part shou'd be paid, for-

allowing the debt due everybody that Lends money is willing to procure the best termes they can and the Merchants are as free to make what abatement they please, so as you had no mony on the place I cant think those Gentlemen who were concern'd wrong'd you and if you'll please to peruse the Consultations on those occasions you'll find Mr. Tillard was advised to leave what he did unpaid on consideration if it could be proved the Merchants had bin unjust to you you might thereby make yourselves reparation.

I am told your Honours resent some actions of mine at Metchlepatam as miscarriages which makes me impatient for your Letter that I may cleare myself and be reinstated in your favour for I cant on recollection think wherein I have deserv'd your frowns having allways endeavoured to the utmost of my capacity to approve myself.

Hon<sup>ble</sup>. Sirs,  
Your obedient faithfull  
humble servant,

Our last to you was by the Loyall Cooke dated 21st September which ship sayled hence the 10th October.

Wee do what possible wee can to get in your Debts and hope in a little time to have got in most of them.

The 10,000 Pag<sup>a</sup>: wee received in part of your debt from the United Company wee have invested most of it in goods, which comes by these two ships Tankerville and Loyall Merchant wee shall make further demands on them as wee see they are in Cash to satisfie the same.

Wee have little hopes to recover any part of your China Debt due from Anqua; who 'tis say'd is miserable poor, we have hope of better success from the King of Syam who seems inclynable to pay that old debt.

What wee have laden for your account on the Tankerville amounts to Pag<sup>a</sup>. 3718:22:3. and what on the Loyall Merchant Pag<sup>a</sup>. 3693:1:1. which God prosper and send safe to you, wee are

TO THE HON<sup>BLE</sup>. GOV<sup>R</sup>. DEPUTY & COMMITTEES FOR AFFAIRS  
OF THE R<sup>T</sup>. HON<sup>BLE</sup> GOVERNOUR AND COMPANY OF MERCHANTS  
OF LONDON TRADING TO THE EAST INDIES.

HON<sup>BLE</sup>. SIRs,

Our last to you was by the Loyall Cooke dated 21st September Copy of which comes Inclosed with Invoice and Second Bill of Lading for what sent on

that ship, since which we have little to add by reason we send you Copy of what we write the Mannagers which comes herewith and that for what relates to your particular Affairs is now brought into a little Compass.

You'll see in your Cash and Consultation Books that we goe on in getting in your old Debt and where all is not recoverable we have compounded for half, and that too is rais'd by the Charity of the Casts, and as soon as the Town Wall Money is collected, which we suppose will be all done in a month or two, we shall then receive out of it Pag<sup>s</sup>. 3000 for account of Surapan, which he disburst by the Consent and direction of all the Inhabitants when Dowd Cawn was here, and he has also promis'd to clear the remainder of his debt very suddenly, which if he does not perform we know how to do it ourselves, and we hope the rest will do the same upon some terms or other.

We advis'd our sending you 12 Chests of Treasure to Bengall as you ordered which Mr. Sheldon acknowledges the receipt of in a particular Letter to your President but not one word how they have dispos'd of it, or whether it be sufficient to clear your debts but believe we may hear from them by some Vessells still expected thence.

Upon our receipt of ten thousand Pagodas in part of your debt from the United Company we agreed for some goods with Japan Chittee who was the New Companys Merchant at Metchlepatam by which means we in great measure stopt his mouth from Clamouring and tormenting us about the New Companys Debt, and as the Nabob was here, twas very lucky we did it, and what Goods he has brought in we now send on the Tankerville and Loyall Merchant and shall adjust his accounts in few days and what remains in Cash, and with what more we cant gett in shall be invested and sent to Bengall as advised in our former Letter.

We shall also make demand of your debt on the United as we see they are in Cash to comply for at present we believe when they have cleared with your Merchants and payd the West Coast Bills they will be indebted here near thirty thousand Pagodas for the United Trade.

We have Enquired of Mr. Harris who came on a Portuguez ship from Macow whether he had mett with anybody that could give an Account of Anqua he tells us he heard he was miserably poor, and not in a Condition to pay a Penny of his Debt but we hear better News from Siam, to which King your President wrote a Letter to demand a Debt due to you of many years standing, we are told the letters were very Civilly received and the King inclined to order satisfaction, but the truth of this we shall know by a ship we expect thence by whom we sent the Letter.

We here remitt you Mr. Ingram's answer to what you charge him with for goods wanting in Bales, who poor man is since dead, we must do him that Justice we all took him for a very ho[n]est man, and as mention'd in his paper we oppen'd here severall Bales to take a view of the goods and never was there found wanting in those Bales and as we formerly wrote you, when you made the like Complaint against some wanting for this Place. Upon receipt of that Letter we had a good Number of Bales in the Warehouse, most of which we open'd, and found not a piece wanting so are apt to believe you are rather injured at home then abroad in that matter, and to be sure for the future twould not be amiss that you told the pieces of every Bales by two trusty Persons, when you open any to take out musters for your sale and twould be worth knowing whither those Bales wanting had been open'd in the Warehouse before came to be deliver'd to the Buyer.

We have sent you some of your China Ware by the Loyall Merchant that lay by here, for that it would not sell, but believe in England it will in time for by your returning ships tis thought you'll meet with no encouragement to Trade any Longer thither, what now sent you on the Tankerville amounts Pag<sup>s</sup>. 3718:22:3. and what on the Loyall Merchant Pag<sup>s</sup>. 3693:1:1. as per Invoice and Bills of Lading inclosed which God send to arrive safe with you.

We herewith send you Copy of our Generall Books, and for what remains of your concerns here we shall take the same care to gett it in and dispose of it as if

---

it was our own, so with our most humble services to you wishing you all health and prosperity we are

RICHARD HUNT

Since writeing the foregoing here arrived last night our China ship from Canton by which we received a letter from Mr. Beavoir designed for Amoy but lost his passage who we have empowered to look after the debt of Anqua of which he gives some hopes as you'll see by copy of his letter inclosed we will not fail to use our endeavours to know the truth of what he writes by all oportunitys that presents for that Port.

Hon<sup>ble</sup>: Sirs,

My last to you was October 13: by the Loyall Cooke Copy of which and the other Papers then sent, I here inclose for your perusal.

I advised you then that Messrs. Fraser and Wright had delivered me two Chests of Corral said to be the remaines of your effects here, which I would not dispose of them tho a price was offer'd, being in Expectation of a Letter from you, which tho' it was not in the United Company's Packet for this place, yet I thought it might probably by mistake be put into that for Bengall, and accordingly wrote to Mr. Hedges your Chief there, to forward it by the first conveyance; but in his answer dated November, he advises me he had made a strict Scrutiny among all packets and papers, but could meet with none directed to me, so I suppose it must be left behind; I am very sorry it should so happen because it prevents my so strictly executing your commands as I would doe, and then it puts it out of my power to clear those objections you make against my proceedings at Metchlepatam, I shall wait till the arrivall of next ships when I dont doubt I shall have a duplicate of it and in the meantime exert myself to the utmost of my power for your service.

I was unwilling tho' the Letter miscarried that your affairs should suffer here, for which reason the 11th January an incouraging price offering for your corral, I ventured to set it up at publick outcry (which is the custom of this place when there are a great many bidders for one commodity) and had the good fortune to sell one Chest at 90 and the other at 65 Pagodas per maund of 25. I beleive your Honours will wonder there shou'd be so great difference in the prizes when they were both invoict alike, but twas the opinion of the best Judges of Corral on the place, and tho' they were both small yet one was abundantly less than t'other; I hope the method I tooke in disposing of it publickly will take of all suspicions that 'twas sold to serve a private interest to the prejudice of yours, and that will meet your Honours approbation.

I have received of Mr. Fraser the ballance of your Cash in his hands being Pag<sup>s</sup>: 69: 6: 10, so that when I have collected the amount of your Corral (which I sold at a months trust) I shall have about 1800 <sup>rs</sup>: in my possession, with which

unless you order the contrary by next shipping, I designe to buy new rupees of this place, and consign 'em to your Chief and Council in Bengall to be invested in fine goods of that place and sent you in one of the United Company's ships that Season.

Your papers and accounts in his possession are not yet delivered me, I have acquainted him I 'me allways at leasure when he pleases to signifie to me he is so, to receive 'em, but I have not yet had any such message, and till I have, they must remaine where they are, the miscarriage of my Letter putting it out of my power to demand 'em of him.

Your Redwood at Metchlepatam was at first bought very dear and the longer it lyes there, the monthly charges on it (where is kept two peons and a bramin) enhances the price, so beleiving it for your Interest, I designe to desire the Governour and Council for the United Affairs to permit a light ship of theirs bound to Bengall to touch at Metchlepatam and take it in and deliver it to your Chief etc.<sup>s</sup>: there to be sold for the most they can, and remitted you with the amount of the Corral, both which I hope will meet your approbation, for I can't beleive 'tis your intention that any part of your stock shou'd lye unemployed here.

I have not heard anything from the Merchants since the departure of the Loyall Cooke which I attribute to the direction the Old Company's President and Council have given 'em, who have employ'd 'em to bring into the amount of P. 10,000 In Callicoos, after they have finished that, 'tis reasonable to beleive they 'll make their demands afresh but before that I hope a Ship will arrive with orders from you relateing to the clearance of their debt.

I have nothing more to add Wishing your Hon<sup>rs</sup>: Success in all your undertakings, I am

TO THE HON<sup>BLE</sup>. GOV<sup>R</sup>. DEPUTY AND COMMITTEES  
FOR AFFAIRS OF THE R<sup>T</sup>. HON<sup>BLE</sup>. GOV<sup>R</sup>. AND COMPANY OF MERCHANTS OF LONDON.  
TRADEING TO THE EAST INDIES.

Hon<sup>ble</sup> Sirs,

Our last to you was the 10th and 14th February per ships Tankervill[e], and Loyall Merchant Copy whereof comes in this ship, since which we have received yours of the 7th February last per Howland, and a copy of yours of the 5th July designed us by the Edward and Dudley, to both which we now give Answer.

We were very glad to hear of the Arrivall of the Martha, and hope the Goods sent on her prove good of their sort, and to give you fresh Assurances that we are doing all we can to recover your debts we have since our last Letter receiv'd three thousand Pagodas from Surapan and there was two more of that sett of Merchants, one of which called Perpettum whose proportion of the debt was 2170 and another called Comrapan Chittee Pagodas 2000, both being very ill and like to dye in Prison we compounded with the former for 1100 pagodas to be payd in fine Long Cloth, and with the other for 1000 to be payd in the same manner, which Cloth comes upon the Dutchess, and if the same had been our own we would have been glad with the like composition.

In former Letters we have wrote you very fully about your West Coast Affairs and the mismanagement of them (to say no worse) has as much affected us as possibly it has done any of the concern'd.

We Observe what the Managers order in their instructions to Messrs. Cross and Hoyle, whose management we wish may Answer all your Expectations and doubtless the Managers were very uneasie at the acceptance of the Bills for Sixty One Thousand, One Hundred Sixty-Two Dollars payable to Severall Persons as also for that of yours of Sixty Thousand Eight Hundred and Fifty-five and we were no less surprized at it, and nothing could have inducd us to have swervd from the reasons enter'd in our Consultations for not accepting of them but the Apprehensions we were under that it would be the intire ruin of the place, which was too great a weight for us to take upon ourselves without positive orders from the Managers, and then as you say there was great reason for your Bill to be payd for that it appear'd to be receiv'd in their Cash Book, and we hope 'twas the same as to the other Bills payable to particular Persons, we can't think but that Messrs. Cross and Hoyle will find all Bills on this Place enter'd in their Cash Book, thô there is a Mystery in that too, which they have practis'd since their independency on this place, from which time we believe they have Squander'd away not less than One Hundred Thousand Pagodas which should have been prevented had they been under our direction.

We shall duly Observe what you write in Copy of your Letter to Messrs. Cross and Hoyle who as soon as we hear are arriv'd, we will frequently importune them to do what you therein desire.

We heartily condole the Misfortune of Ship Queen whose Letters you say you have receiv'd. 'Tis true there was some of your Stores by mistake carry'd off to Dead Stock which did not properly belong thereto, and therefore was recharg'd as owing to your Account, and for our parts we have made a strict scrutiny into that matter, and were guided therein by the Union Charter, and Quinque Partite Indenture, so that believe upon the strictest inspection, 'twill be found we have acted very honestly and fairly between both Companys, and 'twas allwaies the practice of this place to reckon no Stores for Dead Stock, but such as were in use for the Garrison and Shipping, and the remainder allwaies lay for Sale, and so we have severall times wrote the Gentlemen at the Bay.

We yearly lay up Stores of Paddy and Pork for fear of troubles from the Country, and buy in Plank and Timber and severall other Stores, which when we find have no occasion for, we dispose of them as opportunity presents.

Sirs, You will see in the Consulations and Generall Bookes that we took Care for your having Interest allowed for what due to you here from the United Company and we wrote also to Bengall very strenuously on that Subject, and what else you order'd us as appears by our Letter N<sup>o</sup>.-to which we humbly referr you.

We Advis'd you last year that we had employ'd one Jappan Chittee a New Company's Merchant to make your small Investment, good part of which he did not bring in till after the departure of the Ships, which is the reason we send you any Goods from hence, besides the Betteelas ordinary Long Cloth and Salampores, and for Chey Goods they are still very dear and none in Town.

You advising that Bay Goods turn to the best Account induc'd us to demand part of your debt of the United Company which was payd us as being Pagodas 23,977 ; 33 ; 60 in Dollars at 16½ for ten Pagodas which we sent thither on the Dutchess to Invest according to your directions, and wou'd have coin'd it but that the United Company had so much Silver in the Mint and the troubles of the Cast prevented it.

We have desired those Gentlemen in the Bay that what they send may be upon early Ships for the reasons you mention, and we did hope to have dispatched the Nathaniel hence the beginning of October, but you'l hear she sprang a leak in Bengall, which deferr'd her coming here till the 27th last Month, who brought us a Letter from your Council there, saying that they will Load the amount of the Ten Chests of Dollars upon the St. George who they intended to dispatch an early Ship Copy of that Letter is N<sup>o</sup>.- to which we referr you for an Account of your Affairs there.

As to Timmapan's demands none of us that sign this will ever be an Advocate for him, for he has been one of the principall villains that rais'd the late disturbance amongst the Casts.

Your Bookes and Letters from Bengall last year gave you a full account of the state of your Affairs there whither we sent no Persons in the room of Messrs. Games and Petty not doubting but that your Council there will be faithfull to you, so that the sending anybody would only create a charge and be of no service.

Whatever Cash we have now by us or can recover in more of your debts, we will send to Bengall to be invested as you have directed, unless we can meet with such Oringall Betteelas as mention of which we have little prospect.

Since our last to you we have had no ships from Siam so can give you no further account of your debt due from the King of that place.

You'l see in your Books you have some few Anchors and Guns here, which have been putt up to Sale but would not sell which shall speedily be disposed [of] for the most can be gott as also everything belonging to you in this place.

Your Council in Bengall advise that they yearly send you their Books which is the reason we don't send Copy of them from hence, You'l see your Debt there amounts to rupees One Hundred Sixty Four Thousand Four Hundred Forty Nine 4<sup>an</sup> : 5<sup>ce</sup> : which you have not given positive orders shall be clear'd off as money comes in, but that what we received should be sent to Bengall to be Invested, which accordingly we have done, as before mention'd, and shall do the like for the future till we hear again from you.

There will come on the Dutchess about One Hundred Bales of Goods of this Place for your Account, which will be all that we shall send you unless we receive any part of your debt in Goods from the Merchants.

We wish prosperity to your Affairs abroad and at home and are

TO THE HON<sup>BLE</sup>: THE DIRECTORS FOR AFFAIRS  
 OF THE R<sup>T</sup>: HON<sup>BLE</sup>: ENGLISH EAST INDIA COMPANY.

Hon<sup>ble</sup>: Sirs,

You are advis'd in a letter apart from Thomas Pitt of the receipt of yours of the 7th February and that he had taken Robert Raworth to his assistance in your Metchlepatam affairs, as having been conversant therein.

We observe your resentment of the actions of your Metchlepatam President with whome T. Pitt held no manner of correspondence, or had to doe with him for a fanam, after he came into your service soe is wholly a stranger to any frauds committed by him, or any piscashes he receiv'd, yet can't but think you had hard usage in some respects, but know not whether it may be justly imputed to his Infidelity Ignorance or carelessness, and for R. Raworth he was then very young, and the top of his preferment was a little while the secretary, soe was never let into the arcana imperia; as to the Dustore Mr. Tillard Wee suppose informs you, that was shared between the Chiefe Dubash, and some conocopies, for that you have noe credit for it in any of your accounts but the Merchants paid it. How well satisfy'd the proprietors of your bills are with the payment, is fully answer'd in other letters, only we must advise you this as a great truth, that you paying those bills in the manner you did, and wee not paying the West Coast Bills has soe impair'd the credit of Comp<sup>as</sup>: that black nor white will not lend anything considerable to 'em, unless your Governour gives his single bond, instances of which is few days past.

Upon the receipt of your letter T. Pitt wrote to the Merchants of Metchlepatam, that if they would come hither or depute anybody, we would treat with 'em about the adjustment of your debt, and soon after they set out from thence for this place but meeting with troubles in the way they were forc'd to return, and wait now an opportunity to come up by sea, with whom wee shall discourse fully about your Affairs, and advise you what materiall, we are morally assur'd that Mr. Tillard carry'd with him hence your books and accounts wherein doubtless are enter'd the amount of the bonds standing out under their hands, and your seale, which by our consultation book and the list left thereof with R. Raworth amounts to Pag<sup>s</sup>: 65265 : 1 : 75 : in part of the interest of which Messrs. Frasier and Wright paid Pagodas 1369 soe that you may see there is a very bulky summ remaining, and doubtless you could not but be well appris'd of it at your writeing of this letter, wherein some expressions startle us very much, for in the 4th paragraph wherein you expect we shall get all your bonds deliver'd up, and cancell'd, you say, "If there should be any remains and what wee have already done should not be sufficient to satisfye the unreasonable demands of the Black Merchants" then you expect and hope the produce of the goods in R. Raworths hands will fully discharge the same, which you order to be dispos'd of and apply'd for that purpose, and then you say again, "If that should fall short, that then we shall make a final end of all just demands, and draw bills on you for the amount upon the best terms we can," now your doubts surprise us very much, for that you seem to question whether you owe any thing at all, which is soe far otherwise that by R. Raworth Messrs. Frasier and Wright, there is noe more payd since Mr. Tillard went, then Pag<sup>s</sup>: 1669—as by the account inclosed, and there is nothing left to pay what remains but the produce of the corral, and redwood when it can be sold, which will not clear near the Interest if they insist upon it.

R. Raworth deliver'd up to T. Pitt upon the receipt of your orders the ballance of his account which is Pag. 1732 : 10 : 73 : and his account comes inclos'd, and promis'd to deliver Mr. Frasier's papers and accounts as soon as he could get 'em of him, which he frequently importun'd him for, but he delaying it from time to time, soe now the 17th Instant when we were answering your letter R. Raworth went to him, to demand those accounts when he only gave him a foule

cash book, and some receipts at the end of it, told him he had noe accounts of what he receiv'd of Messrs. Faunce & Baker, but beleiv'd the Conocopy had, or else it must be in Messrs. Faunce and Baker's hands about which wee have wrote 'em, and shall give you their answer if it comes time enough, in the sequell of this letter or else by the Dutchess.

Wee shall observe your orders when the Merchants come up, in stating their accounts whether what due to 'em be properly their own or borrow'd names, and act accordingly.

We heartly Condole the loss of the Queen and Dover, and other misfortunes that have of late befallen you.

Doubtless Messrs. Frasier and Wright gave you a full account of this affair by the ships that arriv'd safe with you, and the latter being on the Loyall Cooke, you can't faile of the same, when the merchants arrive wee will be sure to make those enquiries you direct, and give you a Faithfull account thereof, and wee have allready compar'd the musters of the New Company with the Old, and find 'em as mention'd in the paper inclos'd, tho' the best way for you would have been to have compar'd your goods with Old Companys they both being bought at one and the same time and place.

Japa Chittee who was one of your Cheife Merchants who T. Pitt employ'd in making a small investment for the Old Company to prevent his giving trouble on account of your debt has play'd the villain, in joyning with the Right hand Cast against the left, and has been one of the principall instruments of our late troubles, yet nevertheless wee shall keep him here by some means or other, to prevent his doing worse, as wee are inform'd he has often threaten'd. We have wrote to Mr. Noden at Metchlepatam to freight up your Redwood hither, as any opportunity presents, for should it lye there much longer good part would be embezl'd and rott, there is none of your ships touch there now, besides when they come up from Bengall they are fully laden, soe cannot avoyd the charge of freighting it.

Sirs you may be assur'd that wee will serve you heartily and faithfully in this matter, and tho' wee should bring 'em to a reasonable accommodation, wee don't see any prospect of being able to take up money to comply therewith, for people are not only unwilling to take bills upon comp<sup>as</sup>. as aforementioned, but the late losses have empoverish'd this place very much, soe we beleive you'll be under a necessity of sending out money to clear it, or English Cloth which must not be publish'd when it comes, and then the persons that have the management of this affair may wee beleive bring 'em to a considerable abatement but if they know there is anything come to pay 'em they will not abate a fauam, when wee have discours'd the Merchants Wee shall write you what more offers on this subject.

We are

Servants

TO THE HON<sup>ble</sup>. THE DIRECTORS FOR AFFAIRS OF THE R<sup>t</sup>. HON<sup>ble</sup>. ENGLISH EAST  
INDIA COMPANY.

Hon<sup>ble</sup>. Sirs,

I received yours of the 7th and 12th February the former cheifely relateing to the debt owing to your Metchlepatam Merchants I answer apart with Mr. Raworth, who I have taken into my assistance in that affair, as having been conversant therein, and shall here only give answer to what you write relateing

to the Dead Stock, which accounts wee have not only reveiw'd in Council, but I have also done it apart, and can't find any just reason to alter one article in favour of the United Trade, if wee persue your agreement in the Quinque-partite Indenture, which wee took for our direction, and to prevent our erring the Accomptant had the inclos'd paper lye before him for his guide. 'Tis to be seen by the Generall books of this place that it has been the custome to bring all Stores sent from England, and bought in the Countrey under the head of dead stock, tho' the warehousekeeper and storekeeper in whose hands they lay, sold what demanded, as you will see by their monthly accounts and what wanting for the service of the Garrison, is allways order'd to be deliver'd out by the Governour and Council, and all petty Stores by the Governour only; of the expence of which there is constantly a monthly account given in, which you'll see in your books are paid for by the officer that receives 'em; the greatest part of which is your Paymasters so that all stores are sold to the Garrison, in the same manner as they are to particular people, the difference only this, that the Garrison has the preference, and pays invoice price whereas particular people pay the market price; then for Stores in the Country such as timber, Iron, Paddy, and whatever else we apprehend will be wanting for the service of the Garrison, is order'd by the Governour and Council to be bought by the Warehousekeeper or Storekeeper, which are likewise deliver'd out as there is occasion for their expence, or else sold as Merchandize and if this method was not practis'd you would have great wast and spoyle in your stores, and upon any extraordinary conjuncture we should meet with great disappointment for that most or all are lyable to perish; soe that what stores were not used or employ'd in the service of the Forts or Factories at the time of the Union, not deliver'd out for that purpose by the Warehousekeeper or storekeeper with submission I think that 'tis very plain, that the aforesaid indenture deems 'em to be goods, and merchandize, and there was at the time of the Union a greater quantity of Countrey powder and shot in this garrison then was ever before known, which you'll see wee likewise sell to very good advantage when there is demand for it; but yet as it was under the proper officers care that expends it, for that reason we made it all dead stock; then as to Fleet Point and the Black Town Wall, 'twas built at the request of the Inhabitants who likewise desir'd that wee would for the present lay out the money, and they would reimburse it, by an assessment and seeing there was an urgent necessity for it to be done, for that wee were apprehensive (and since wee have soe found it) that the Moors aften draw down to St. Thoma with their Army, induc'd us to undertake it, to prevent a fatall destruction of your Black Town, which wee could not have withstood, with four times the number of forces wee have, had they attack'd us, which I am inform'd they [o]ften debated in their councils, and at the time of the Union it was not halfe built, part of the charge of which was collected and brought to the Credit of that account which was transferr'd to the United books, by reason that Company had then the government who could only oblige the Inhabitants to performe their promise, which had been long since comply'd with, had it not been for some who insinuated into the natives, that paying custom they ought not to contribute to such a charge, nor did the Company expect it, and that 'twas only the single act of the Governour, by which means he hoped to purchase your favour, but you'll see now, that there is a considerable part of it payd, and brought to the credit of that head, as by the account inclos'd, and I 'le doe what possible before I leave this place to make 'em pay the remainder, who I beleive would not, but that it had been built for ten times the money, they dayly experiencing their security thereby.

And for the Interest I think there is nothing charg'd but what is fair and justifiable, and that you have the advantage of that point, in regard you pay noe interest for any stores, that was deliver'd you within the year, as you'll see by the foot of the account inclos'd, and if that be not their due, I beleive none is.

And for the Stores you have receiv'd of 'em, some were bought at outcry, and others transferr'd to you at such rates as they would have sold upon the place for ready money, soe that if there be any error in this matter of the dead stock,

pray be soe favourable as to impute it to my ignorance, for I would not willingly doe an injustice to serve any interest whatever.

Sirs, 'twas noe small surprize to me to see that you honour'd me with your commands, which I will be sure to execute with the nicest honour and care immaginable, and the best judgment I am capable of, tho I fear the event will come short of my wishes, and your expectations, for the reasons Mr. Raworth and I shall give you in a letter apart. I did conceive I had done you an eminent peice of service (and believe time has or will confirme it) in assisting as I did Mr. Tillard, in paying soe considerable a part of your Metchlapetam debt, for having not been only an eye witness, but likewise concern'd in England, in buying East India bonds, Tallies, banck notes &c. which I never heard was censur'd unfair or illegall, encourag'd me to buy yours here, which was then a demonstrable advantage to your selves, and noe less then preserving the Merchants from ruin, but you who are the fountaine of justice have convinc'd me of my error in making soe considerable abatement as a shilling upon each pagoda, three per cent prompt payment as if the bills of exchange had been put up to sale, and a whole year's interest, besides put us to the charge of  $\frac{1}{2}$  per cent recovering it, all which amounts not to less then between 18 and 20 per cent but hope when you have consider'd it, you'le find it more just and reasonable to repay it, then at first you did to deduct it, for I assure you I came not into that undertakeing wholly for my own interest, for that I could have invested my money to as much or more advantage, and nothing induc'd me to it, soe much as the consideration that I then serv'd my Friends as well as my selfe; but let some sychophants suggest to you what they please, had not that money been paid the merchants, you would have had reason to have been ten times more angry with us, then you happen'd to be upon paying it, at present I shall say no more on this subject, not doubting but you have or will doe us justice therein, my service to you all I am.

Hon<sup>ble</sup>: Sirs,

Your most Obedient humble servant.

Hon<sup>ble</sup>. Sirs,

We received yours of the 26th April 1706 by the Indian Friggat who arrived here the 24th April last, in which you advice you are come to an agreement for the Bills of Exchange drawn on your Company by Mr. Tillard, and that you shall pay them to the satisfaction of the bearers thereof, but by these last ships the Howland and Dutchess those concerned here have received an account on what terms you have payd them, which is Nine Shillings and sixpence a Pagoda instead of Ten Shillings and six pence, Three per cent discount, noe Interest from the time they were due, and halfe per cent charges for recovering what they did of you, with which the Proprietors here are greatly dissatisfyed, and think they have unparallel'd injustice done them, which they hope you will consider of, and in due time make them full satisfaction. You are advised in former Letters Abendanas bond was cancell'd as at first directed and delivered to Messrs. Fraser and Wright. We did upon receipt of your Letter communicate to all the Free Merchants your Resolutions of paying noe more of that debt, which they were

strangely surprized at as well as the Merchants in whose hands your Bonds lyes, as to which the Governour will write you more at large, to whose management you have committed those affairs. We are

ABSTRACT OF LETTER FROM WILLIAM FRASER, FORT ST. GEORGE, TO THE COMPANY. DECEMBER 22, 1707. [*Coast and Bay Abstracts, Vol. 1, p. 133. (India Office transcript).*]

As it may seem strange that he has not answered the Governours and Councils charge against him after the Secretary's notice of the 22th instant but having on the 6th desired by a Writing to have the Governour and Councill Sign the Charge against him which Writing was burnt and himself threatned thought it best to give no Answer because some persons cant bear plain truths at Madrass he hopes his

Answer to the grand Charge will put that matter in a true light and that the Governours prejudice was the Sole ground of that Charge he will use all just ways to repair the Injures don him.

ABSTRACT OF LETTER FROM THOMAS PITT, FORT ST. GEORGE, TO THE COMPANY, DATED DECEMBER 23, 1707 AND JANUARY 22, 1708. RECEIVED PER DUTCHESS OCTOBER 1, 1708. [*Coast and Bay Abstracts, Vol. 1, p. 130. (India Office transcript).*]

This serves to enclose Letter to the Secrett Committee with Copy of his orders to the Commanders hopes of Peace and expectation of the Mogulls death detains him if Caun Bux be not drove out of the Countrey hope he will govern well and the English get some advantage if one King govern all the Empire will be tyrannically used by the Ministers Aurengzebe did not trust his Ministers but kept them and the people in awe.

22<sup>ND</sup> JANUARY.

1. The foregoing went by the Nathaniel Letter to the Secrett Committee enclosed the burden of the trouble about the Casts has been born by him assisted only by Mr. Raworth Timapa reported that Mr. Frazer was the Casts friend and would engage most of the Council for them refer to Consultations to prove this, this trouble has been hatching ever since the altering the Method of Contracts which the left hand Cast acquiesced in and obey'd none else could whereupon three of them were to have been kill'd to intimidate the rest to leave the place which then had been ruin'd this the Governour prevented what contributed to the troubles was that the English were very uneasy for want of their Servants of the right hand Cast not caring for the Company the Moors when they besieged Madrass demanded 50,000 Pag<sup>a</sup>. which many would have consented to and hee opposing they came down to 25,000 Rupees which the Generall Council agreed to only he was against it urging that if the English stood out the Moors would soon be gon but the restraining the English thereby of their Pleasure influent their consent.

2. The Dutch have turn'd off the right hand Cast and use the left in their Investments and hearing the left hand Cast were about to leave Madrass sent to invite them to reside with them with what priviledges they desired but he promising the like they stay'd at Sadrass; the right hand Cast ow'd the Dutch 40,000 Pag<sup>a</sup>. and the Chief running away since they have lost it Surapa intended to have don so at Madrass they made the like Stirr at Pollicat which continued 8 Months and is now broke out again: Sunca Ramas Partner at the head Suppose have made a Combination thro' the whole Coast against the left hand Cast who get all the trade from them because not to be trusted Sunca Ramas Partner imprisoned by the Dutch.

3. Timapa Surapa and Sunca Rama the Contrivers of the troubles at Madrass the 2 first are in prison by the intercession of Severall of his Creditors Spared the 3rd. but they say he is notoriously guilty and no punishment is bad enough; the Companys Interest to make them and their Posterity incapable to serve the Company or being Countenanct at Madrass or they will be reinstated; both Casts are now settling their Streets which will take care shall be so as to avoid future disputes and shall deserve the Companys and Inhabitants thanks.

4. Captain Seaton greatly complain'd of; hee has been thrice broke no body sorry for it but his relations; has often put the town into a hubbub but now the town is quieter his Countrey man Frazer like him neither will be wanted Company ought to enquire who at Madrass are qualify'd to Serve them. Mr. Empson Dead.

5. Severall refused to sign the Petition to the Queen about the Pyrates tho' so much for the Companys service which shows their factious temper.

6. The Council have industriously reported they had each as much Power as the Governour and would do what they pleased but if they endeavour to put this in practice shall soon convince them for he will not let them ruin the Place in his

Government may hear in England the Character of each of the Council none so fitt to succeed as Mr. Raworth who has Integrity and Application which Mr. Frederick wants.

7. Mr. Roberts designs for England as he writes next year Governour Pitt resolves the same when peace Want Souldiers but few Scotts and an Engineer or 2 to teach others have managed the Investments to the Companys best advantage have sent to St. Davids what they could Invest in hopes to get goods Cheaper and would have sent to the Bay if had been ordered having always studyd the Companys profitt and could have done more if trusted and not been forced to have advised with ignorant and impertinent people who are governed by their Knavish Dubashes the Companys Interest to depress them the Affair of the Casts settled to the honour of the English Government and satisfaction of the left hand Cast which displeases some of the Council who would have had it otherwise and were for granting the Casts Insolent Demands and Mr. Frederick made his exception this day accordingly the Governour thought it best to make them recant but Mr. Frederick cant understand that or anything else of Consequence nor is he Capable of amendment the Governour always ordered Peons to go off to watch the goods sent or received refer to the Company where to lay the blame Nabob this day came to St. Thoma should he follow the Majority of the Councils advice it would ruine the Company high time for the Company to take care of their Affairs while he stáys he will preserve the Companys Interest.

Is sorry he is forced thus to address to the Company being appointed of Council thinks he is obliged to oppose what is against the Companys Interest or what is unjustifiable which has occasioned disputes between the Governor and him he cant consent to Mr. Roaches being made an Ensign he being an Outlaw and Roman Catholick Mr. Empson dying the 8th January the Governour was for Mr. Raworths succeeding hœe for Mr. Martins as being next in Seniority the Governor upon this threatned him and that he would ruin him and refused to fill up the Council when moved thereto giving very ill Language and threatning to govern by Sword and Pistoll wherefore submits all to the Company and whether all the Council ought not to give their opinions freely in all things or must serve the Governour against the Companys Interest he always has and will serve them faithfully.

LETTER FROM THOMAS PITT AND ROBERT RAWORTH, FORT ST. GEORGE, TO THE NEW COMPANY. JANUARY 17, 1708. RECEIVED FROM IRELAND. NOVEMBER 29, 1709. [O.C. Vol. 62, No. 8537 (India Office transcript).]

TO THE HON<sup>BLE</sup>. THE DIRECTORS FOR AFFAIRS OF THE  
R<sup>T</sup>. HON<sup>BLE</sup>. ENGLISH EAST INDIA COMPANY.

Hon<sup>ble</sup>. Sirs,

Wee here Enclose duplicate of what wee wrote you by the Nathaniell; since which wee received a letter from Messrs. Faunce and Baker, Copy whereof comes herewith, and the accounts they sent us with it, are so confus'd, that wee can neither make head nor taile of them, but by next ships they shall be liquidated, fitt to be sent you.

Wee did hope before this the Merchants would have been here from Metchlepatam, but none come unless it be two or three that stayed at Pollicherry, with some goods, to sell them, on the arrivall of their ships, Wee will take care that their delay in coming shall turne to their owne prejudice and not to yours: as also a villany Thomas Pitt has lately discovered of Japa Chittees, which we are apt to believe was his usuall practice in your investments at Metchlepatam; he was as advised employed in small investment of the Old Companys, and brought not in good part of the goods till after the departure of last years ships, and then some Oringall Batteelas, and fine long Cloth, which was sorted and packed up for some time, but now before the despatch of the ships Thomas Pitt having seen some purling work in the warehouse about the Batteelas of the United Trade, for his satisfaction opened six bales of the Old Companys, which was sorted No. 1. 2. amongst which he found a quarter part which would not have paid freight, and the rest would but honestly and barely come up to number 3 & 4: and the same was with the fine long Cloth; the sorters say for themselves, that it must be by the negligence of him that packed it, who doubtless gave them an opportunity to exchange the Cloth afterward, though they too, tender their Oaths to the contrary, as also the Conicoplys; So when the Merchants arrive, I shall lay the rougery before them, hoping thereby to make an abatement upon all their investments; Wee hope nothing like it will be found amongst the goods Wee now send, either for the United or Old Company; and if you do you must thank seniority for putting people in employs that they are not any way capacitated for; as was not the man that is lately dead; as every one of you woud say, if you knew him the tenth part as well as wee that write this; but there was noe opposeing him coming into that employ, because the majority had noe more meritt then he, that had none at all. Wee believe the Merchants will come, and therefore are considering how to treat with them; and have resolv'd to state their accounts, deducting for their ill practices, according to that of Japa Chittees before mentioned, and then wee reckon wee shall reduce the summe owing to a small matter, which wee know will not a little startle them, and afterward if wee find this makes any impression upon them, wee will sell up some

body or other, to buy the whole debt, which shall be fairly and honestly for your account; and Wee will take up the money at interest, to pay it, if wee can bring them to 20,000 or 25,000 pagodas or as much less as wee can, or if wee can wee will bargain with them for a certain sum, to be paid upon the arrivall of the ships in 1709, or sooner if you send anything out, and then if it could be done in broad Cloth you might put it upon them, at ten or twenty per cent more then the common price, but let it be in what it will, there must be effects sent out to pay it, for here will be no bills procureable; You may be assur'd of our utmost dilligence and integrity in manageing this affair for you, or any other, for that wee are

2. You'll see upon your books there is standing out 20,000 pagodas of your old debt, since which about 3,000 received and believe we may be sure of getting 5,000 more, but for the remainder we are afraid 'tis irrecoverable, and if so you may pay Timmapans debt with it.

3. You'll see that there has been no Salary payd your Servants here since July 1706 when they had all certificates from the Accomptant what due to them, which they sent home to be receiv'd, but your President omitting to send, has now done it on the Dutchess, which he desires you will be pleasd to discharge.

4. With this we not only send you Copy of our Letters to the Managers, but also cyps of your Accounts, and we'll do what we can that the next shall conclude all your Affairs on this Coast.

5. You'll see in our Letter to the Managers what a Villany we have detected in our Boatmen, and not knowing but that some of your goods may have mett with the like misfortune, we desire you'll take the same care as they do to send us an account out. ABSTRACT OF LETTER FROM THOMAS FREDERICK, FORT ST. GEORGE, TO THE COMPANY.  
JANUARY 22, 1708. RECEIVED OCTOBER 6, 1708. [*Coast and Bay Abstracts, Vol. I, p. 134 (India Office transcript).*]

Is obliged to write this in Justification of his exception at Signing the Generall Letter and the Slighting Charge in the Post Script the Inhabitants who removed from Madrass insisting the Stones should be taken away which the Council would not consent to: they were Secretly removed one night and the Casts charged with doing it; reason to believe they did not; the Casts agreed to return if they might be pardoned and have their ancient Priviledges confirmed and no more Stones set up; the Governour promised there should not but would not insert it in their Cowle but the mention therein of enjoying things according to Sallabad is generally taken for enjoying their houses and Streets as formerly what the 12 of each Cast signed of their Agreement was forced from them next night the Stones were erected again reasonable to suppose the Casts did not when they thought it before such an Infringement of their Priviledges and the mention in the Generall Letter of the Stones being set up again being excepted against by him when he appealed to the Governour whether the Council had not promised they should not; caused him to add the Exception in Writing in the Letter the Governour and Council chargeable with the Mischiefs that may ensue on their being re-erected considering the Mischief they caused at first when he consented thereto thinks it not fit to make a 2d tryall he appeals whether he is so ignorant as charged in the Post Script and will stand an examination with them who Signed it and whether he was backward in his Accounts or cheated the Company himself or suffered others to do it but honest principles can't agree with Violent Government no profit to the Company by Setting up those Stones and yet it made the People leave the Place where had lived so long and paid Dutys, was the Distance less would come to England to Vindicate himself hopes providence will prevent those who would eat him up.

ABSTRACT OF LETTER FROM THOMAS FREDERICK, FORT ST. GEORGE, TO THE COMPANY.  
 FEBRUARY 1, 7 AND 8, 1709, RECEIVED PER LITCHFIELD AND MOUNTAGUE, APRIL  
 24, 1710. [*Coast and Bay Abstracts, Vol. 1, p. 188. (India Office transcript).*]

1. Enclosed are Copys of his of the 13th, 15th and 22th January 1707-8 by the Dutchess when advised of the hardships he lay under is now abused by the Governours misrepresenting him who swore to ruine him and now represents his Actions as don out of a factious temper, the Council wheedled by the Governour to sign against him two owning they did it for a quiet life if the Company were to examine things they would find the Account different.

2. The reasons why Mr. Roach should not be a Lieutenant was because he was an outlaw and that made him except to the Consultation and the Secretary and Mr. Raworth read his Exception afterwards the Governour told him he must prove the Charge in the Exception Mr. Roach being called before the Council the Governour told him of it and that he must thank Mr. Frederick for it. Mr. Roach said it was false but said he depended on the Board for satisfaction since his hands being ty'd he could not take it; some of the Council said Mr. Roach would demand justice for endeavouring to take away his Bread. Mr. Roach being ordered on a day to give in his answer and Mr. Frederick to be ready with proof, gave in none in writing but by word of Mouth deny'd the Charge he had an Answer in Writing but was advised not to give it, then the Governour told Mr. Frederick to recant or prove his Exception to which he answered in Writing that his Exception was agreable to the Companys allowed liberty where he did not approve anything of which they would be judges and is what others have don without being obliged to prove on which they ordered none should enter any Exceptions till they the Council had considered of it which he thinks is against the Companys orders and would not Assent to and was thereupon ordered to withdraw and being come in again was bid to recant or prove the matter he saying Ensign Dixon told him about Mr. Roach they never call'd him in but let it fall. Mr. Roach owned he was in the French Kings Service and pay, the Council know the fact to be true if they did not would prove his Exceptions to be false he denys the Charge of excepting because he is Captains Seatons Sonne in Law for he excepted against his being Ensign before Captain Seaton was suspended.

3. He thanks the Company for their good design to right him as to the Affront given him by Mr. Davenport; the Governours Account of that is unjust and he showing so little dislike of the Secretarys Action therein forced him to seem satisfied. Mr. Davenport now made a Supernumerary Councillor, he has since abused Mr. Wm Martin to a great degree and Challenged Captain Gab: Poirier when on the Guard. Tho the Casts appear quiet yet strange things will come to light when the persons who can prove them are not intimidated. Mr. Frazer abused therein the Governour saying he could prove against him but has not a Gloss put over the Companys Affairs and those who would pry into them persecuted and worried.

7TH FEBRUARY 1708-9.

Upon his Entering his Exceptions in the Generall Letter about Mr. Roach and Mr. Davenport the Governour vilified him and suppose will write against him. Mr. Roaches paper of the 28th March 1708 never produced till this day to the Council. Ensign Dixon owns he knew him in the French Kings Service Anno 1694 but all is to be ended if he produces his discharge or Licence. Mr. Frederick was deny'd to take Copys of severall things but Copys were given of his Exceptions.

THO: FREDERICK.

8TH FEBRUARY 1708-9.

The Governour this day producing a Letter in Consultation which he and Council signed the Company will therein see they endeavour to hinder his liberty of making exceptions. Mr. Roach should produce his passport if he had any and all would be well the Governour threatens to turn him out of Council if he makes any more exceptions and would represent him as ignorant and Malicious to lessen what he has wrote the Company says Mr. Davenport and Roach ought to knock his brains out which the Council ought to have check'd desires to be heard with the Governour before the Company.

TO THE HON<sup>BLE</sup>. THE DIRECTORS  
FOR AFFAIRS OF THE ENGLISH EAST INDIA COMPANY.

Sirs,

We wrote you by the Dutchess, copy of which comes enclos'd, when we hoped to have been more successfull in your affairs with your Metchlepatam Merchants then hitherto has happen'd, we expected that they would have come hither by sea, but they deferr'd it so long, till they lost their monsoon, and by land there has been no coming for 'em since, by reason of the troubles, but we find some or other has inculcated into 'em that they can't fail of having their principall and interest, and here are not people wanting to doe such ill offices, they have wrote T. Pitt two letters, translates of which comes inclosed, by which you 'I see that they are blown up with great expectations, but being willing to make an end of it, before our people go up to the King, we have offer'd 'em upon delivering up their bonds, and giving a full discharge, to pay 'em forty thousand Pagodas, and no farther will we goe.

Your redwood is brought hither, or otherwise it had been every stick gone, and shall be sold as an opportunity presents.

In the box of bookes is Messrs. Faunce and Bakers accounts to which we referr you.

We wish we may make an end of this troublesome business to your satisfaction, wherein you may be assured of our strict integrity and diligence for that we are.

1. This day Dr. Bulkley quitted his Employment Mr. Robinson Surgeon of the Mountague entertained in his place.

2. Are asham'd of Mr. Fredericks exceptions in the General Letter the relation of the difference between Mr. Davenport and him is true as given in the letter; the Governour will swear to the making them friends, leave the Company to judge of Mr. Fredericks Complaint afterwards; this creates quarrels and Inveteracy among Gentlemen; they refer to the Consultations of the 10th February 25th and 29th March and 15th April about his exceptions against Mr. Roach who they mightily commend for a good Officer and they would give any Security for him. Mr. Frederick accuses him of high Treason but refuses to prove it and insists he must clear himself the Enclosed Paper he delivered the Governour who charged him to say no more of the matter if it was not read in Consultation it was to bury all in oblivion, there being great endeavours to sett the Officers a Quarelling which might be of dangerous Consequences and the Company should take this into Consideration; the Governour has taken great pains to Convince Mr. Frederick of his Errors but in vain, Letters from Bombay of the 16th November advise of Mr. Goodshaw and Captain Edwards death. William Fraser Esqr. by your late Commission granted, being Constituted Deputy Governour of Fort St. David, Mr. John Brabourn being absent and too much to be feared in his Grave, as the Generall Letter will acquaint you he accordingly departed for Fort St. David the 13th Instant so that upon the Death of the Governour Mr. Mountague was head here, he Summoned us to Council, when after severall necessary Affairs being transacted, Wee came to the Succession. When Mr. Raworth made a motion that Mr. Fraser should not be sent for, for that he thought him a man incapacitated for it. Whereupon I answered him, whatever prejudice he had against him was not to take place, that I thought him an honest man, and therefore desired that as the Commission expressed the next in degree to succeed and the President dead and Mr. Brabourn absent the Government devolved upon Mr. Fraser and it was my opinion he should immediately be sent for, Mr. Raworth then; after other triviall debates between us, proposed it might be put to the Vote, I replied that the nature of the thing allowed no such proceeding, for that he and all of us with the late President thought him fitting to be Deputy Governour of Fort St. David and had given him a commission accordingly, therefore this notion must proceed from prejudice or some design that was not good, but however at last the Silent Gentlemen (Mr. Raworth and I only argueing) declared it should be put to the Vote as Mr. Raworth expressed it, whether Mr. Fraser should be sent for immediately or not, whereupon as by the Consultation you will find that all except Mr. Raworth and I voted he should not be sent for immediately, the difference of Mr. Raworth's opinion and mine is thus. Mr. Raworth that he neither be sent for immediately or at all. Mine that the tenour of the Commission be executed, by which I perceive Mr. Fraser ought to be sent for immediately. I observed some of the gentlemen mentioned that he might have his due, tho' not to be sent for immediately, that word being a stumbling block to them, as if six days time would be an hindrance to your Investment at Fort St. David for the January Shipping in which time he might very well be here, and the Investment not any ways hindred for money is already sent which is the Life of the Merchants and Investment and the less to be feared by reason ours is compleated here and by Observation an Investment concluded at onè Place is a Guide to the other, as that ours and their Merchants are actually in some degree Copartners, this point being over it was moved by Mr. Raworth who should take the Charge upon them for the present. Mr. Raworths opinion that wee should settle the Government according to the Method in Bengall till the Companys Pleasure was known and that Mr. Mountague and Mr. Martin should act alternately by weeks, my opinion that Mr. Mountague should act till Mr. Frasers arrivall. Now I beg Your Honours seriously to consider these things. I cannot with all the little judgement that I have find when you give leave in cases extraordinary for us to act the best

wee can for you, as we being upon the Spott, being able to foresee some things that cannot presently come to your Cognisance, (I wish to God this could) that therein you leave us such a vast Scope as this, and when you order directly that your Affairs shall be managed by a President and Council certainly this tends directly to the subversion of your Government and whoever may be charged with it before, you may pretty well guess where it is now, and that there is still some of the old Leaven left, as private Interest and little regard to our Masters Affairs and where the honesty of that Principle lyes I am at a Loss to find. A small Judgement methinks may in these transactions find something most extraordinary, here must be prejudice Self Will and design, and to Shew you all these things plain I first lay down to Your Honours that Mr. Raworth has allways profest a publick hatred to Mr. Fraser and I believe forwarded by his Friend Mr. Pitt; who I may dare to say has tutored him to sing his note, Self will and design in that I am assured Mr. Raworth did allure some of the Council with a prospect of a better Place then they had before, and perticularly Mr. Martin assured me himself he told him if he would be Consenting that he would propose him to be one of the Managers and that he might enjoy it sixteen Months at least before an alteration in which time his business would be done. For the preservation of your Affairs and every poor Inhabitant of this Place I begg you'l'e send some good and Virtuouse men with all expedition for I know not of a Man in India fitt to be a Governour or Second here and wish you do not find reason to repent your appointing some of the new ones. My zeale for your service keeps me in it, that I may if possible prevent further Mischiefs, have good reason to believe Your Honours Wisdomes will perceive that all my actions tend to honesty and Justice and that whatsoever my Enemies may alledge against me, may not throw me out of your favours, I beg Gods Blessing to all your undertakings and am

TO THE HON<sup>ble</sup>: COURT OF MANAGERS,

Hon<sup>ble</sup>: Sirs,

Since the foregoing namely on this day the 23rd wee had a Council, when upon reading the Consultations, found our debate in Council the 17th was not enterd, whereupon demanded it should be adding that I wondered anyone should leave out an Act of Council, which was read and approved, when I thus argued many answered their opinions was that Mr. Fraser ought to be Governour but the Investment at Fort St. David by his immediate comeing here might be hindered, I agreed with Mr. Mountague, his opinion was so, but that others had taken new

thoughts which were endeavouring to put a Gloss over their Attempts, and that I Scorned to deale underhand with any. Therefore told them observing their designs, had minuted the thing, and that I insisted the debate should be entered, they fearing I might gain advantage still Insisted it should not, when perceiving they might have an aime at me, which I never designed, as that my dispute they might turne that I would endeavour the retarding of Ship Heathcote so far Consented that as they were the majority would not give any unnecessary trouble to them, but if I disliked the additions or any parts of the Letter, I would make my exception adjoynd to my name.

The Hon<sup>ble</sup>: Sirs if you design to have a true state and account of your Affairs and those that serve you, but this with all Submission, and not as a proposall but my poor Sentiments, minuetes of all Consultations as soon as read and approved, every one should sign their names for after I have taken contrary advice to my first thoughts which were ill, and I find not approved by my Friends, I endeavour to putt a Gloss over my ill Principles or Directions. Undoubtedly that man that is fitt to Sett att this Board should be thought capable to hinder any Surprize upon him and an honest man will have this direction with him, that if he doubt he'll so cautiously act as not to bring that Interest he is employed in to any inconveniencys. Hon<sup>ble</sup> Sirs if my Judgement errs hope it may be excused as want of capacity and not Integrity and that my freedome of writing is as that I know the Hon<sup>ble</sup> Masters I serve, and with all respect offer my sentiments and not advice, may your Affairs be as prosperous as you can wish and I permitted to Subscribe myself.

Having been long in the Companys Service begs leave to vindicate himself from what Governour Pitt has wrote against him since he was never summoned before the Council to do it nor could get in his (the President's) time Copy of the Consultation about that affair so could not make his defence to the Company by the Litchfield.

The Consultation of the 29th March 1708 charging him with unfitness of body and mind.

He says he wonders the Governour should not in 9 years or any of his Predecessors before discover it he has Served the Company 26 years and always served them faithfully and truly in Severall Employments and Coppy'd over severall of the Books.

Governour Pitt's treatment of him was that being poor could not supply his avarice and to make way for his own creatures.

GENERAL LETTER FROM FORT ST. GEORGE TO THE COMPANY. DECEMBER 27, 1710 AND JANUARY 5, 16, 25, 1711. RECEIVED PER FREDERICK, OCTOBER 20, 1711. [*Madras Letters Received, Vol. I, p. 15. (India Office transcript).*]

TO THE HON<sup>BLE</sup> THE COURT OF DIRECTORS FOR AFFAIRS  
OF THE R<sup>T</sup>: HON<sup>BLE</sup> THE UNITED COMPANY OF MERCHANTS OF ENGLAND  
TRADEING TO THE EAST INDIES.

Hon<sup>ble</sup> Sirs,

It is now so long a time as since the 22<sup>d</sup> June last, when we wrote Your Honours that short letter sent by the Abingdon Captain Lessly Commander who having taken leave of your Governour the said day, went off shore on board his ship, and declared his resolution of sayling next day without any previous notice or warning of the same to us, any more than on the 30th May that he arrived here, told us that he would stay at this Port till the Primo July, which necessitated us to abridge our Advices to the narrowness of the time allowed for our makeing that Letter so concise, Copy of which comes herewith, and what was then omitted for the reasons aforesaid, we shall advise Your Honours more fully in this, In doing of which we shall observe the manner and method you are pleased to prescribe to us.

AND FIRST OF SHIPPING ARRIV'D AND SENT.

2. The Hallifax from Bengall arriv'd here on the 2<sup>d</sup> May and brought us a Cargoe of Salt Petre, Rice, and two hundred and nine bales of Bengall goods, and likewise thirty eight bales severall sorts of the Donnegall's Cargoe, when intended for China and Mocha &c<sup>a</sup> packing stuff on your account amounting as per Invoice to Rupees 2,01,997, and some bale goods upon freit a great part of his salt petre came damaged, as likewise some of the goods upon freight. They likewise advise that the Commander returned one thousand nine hundred sixty four bags of Rice when he had not his Tonnage on board according to Charterparty by near one hundred tons, all which damage shall be stated and adjusted to satisfaction so soon as it pleases God arrive that Ship back in safety from Canton, to which port she sailed hence on the 26th of May.

3. The great storm in the month of April produced dire effects to the southward of us, for at Porto Novo severall Country Ships were stranded, and drove on shore and broke to pieces, mostly Moors and Chuliars,<sup>1</sup> but one especially a very rich ship belonging to the Moors in Bengall bound for Persia had eight

<sup>1</sup> *Chulis* (Origin obscure). It is a name given in Ceylon and in Malabar to a particular class of Muhammadans and sometimes to Muhammadans generally.—*Holson-Jobson*.

hundred bales on board proper for that Market lost her passage being drove off of Zelone, and forced back to Porto Novo, and there perisht her Bows opening, the Ship sunk down all her men lost, to the number of seven only saved, the said storm which begun on the 2<sup>d</sup>: that month upon a full moon was most violent at Trincombarr, where the Sweeps takes a ship belonging to this place, and bound here from Bengall was drove ashore and broke to pieces, her goods and Cargoe lost but all the men saved, in which loss most or all of us that sign this suffer'd more or less, and an Europe ship of the Danes Company then in that Road being forced near the outmost Surf next the Shore after severall thumps which struck off her Rudder was saved to a Miracle. The Tonqueen Merchant a ship belonging to this Place returning back from Tonqueen fell in with Trincumbarr at the same time where she felt the severest of the Storm, but being a strong built ship, but rather by good Providence she had no worse a fate than to have lost all her masts, only the Foremast standing, after when she arriv'd here on the 7th that Month a sad and dismal sight.

4. At Fort St. David your Madapollam yatch after haveing been fitted and repaired there was at an anchor in Jaffnapatam Road when the storm happen'd the 3<sup>d</sup>: of April was drove ashore, being empty all to a few pigs of Lead that lay in her bottom, receiv'd no more damage than the breaking three or four of her ribs, but endeavouring to haul her off rub'd most of her sheathing away, which was after repaired and lyes there now under a thatch'd house untill the Monsoon turns to employ her between this and that place, meantime she is at no charge of Lascarrs Wages, we employing only such of them as are in the Gun room Crew here, who are in one constant pay as such and to do any other business of bringing your Bales from thence hither in the proper season.

5. And yet in this Road where there were severall ships at Anchor, and thô the winds very high and boisterous, turning to all points of the Compass yet no manner of damage happen'd, any more than one or two Ships dragg'd their Anchors a little way, and then held fast again.

6. On the 4th of June last here arriv'd from Suratt your ship Tankerville being lett out to Freight, or rather indeed taken up by the Gentlemen your servants there on a Voyage thence to Bengall and back again to Suratt for and in consideration of a summ so little as fourteen thousand rupees, which we humbly conceive to be but a very mean and low freight, especially if it be true what we are credibly inform'd that a certain person Supercargo of a ship belonging in the whole to the English here and at Bengall being then at Suratt, and the Tankerville at that Port should have offer'd to hyre that same ship for the said voyage to Bengall and back again to Suratt for the certain summ of eighteen thousand rupees. We insist on this the rather because that Captain being concern'd in the freighting that ship refused when here, to take on board his ship three Lacks of your Rupees which lay ready chested up by us upon any other terms than our paying freight for the same, which we would not do and on the 14th that month he sail'd hence for Bengall, where he safely arriv'd and return'd thence on the 9th November for Suratt, for which unkind action of his, and going off shore without takeing our Packet, and indeed without takeing leave, we owe him no thanks.

7. The treasure we intended to have sent on the Tankerville was to have been a further supply to your Council in Bengall to employ their hands with in the timely provision of goods for your next homeward bound shipping in obedience to your orders to us the Heathcote.

8. On the 3<sup>d</sup>: July the Dutch at Pullicatt sent us an English letter directed to that Chief and Council from Captain Pinner Commander of your ship the Susanpa, advising his being come from England bound for this Port, but had over shot it in the night, requesting them to acquaint us with the same, and that he had not touched anywhere from England till he arriv'd there to Leeward of this his design'd Port.

9. On the 5th July early in the morning the King William Galley arriv'd safe in this road, on whom came President Weltden who sent his letter ashore to your Governour adviseing all the shipping your Honours désign'd for this Place and the Bay; We sent off two Gentlemen of your Council on board said ship with your Governours answer to President Weltdens letter, congratulateing his safe arrivall thus farr and invite him to come ashore, if the same was not inconsistent with Your Honours orders to the Captain of that ship, President Weltden accordingly came ashore at noone that day, and haveing called in and touched at the Cape of Good Hope gave us the good news that the Heathcote arriv'd there on or about the 18th of January and sail'd thence on the 20th March after in company with the Dutch fleet, but that the late President Pitt did not go in company with the Dutch but left the Heathcote and went on board a Danes ship at the Cape homeward bound, and sail'd thence on the 20th February. The late Dutch Generall Van Horn, after his haveing stay'd so long a time as 46 years in India, and serv'd their Company in severall capacitys return'd then home in great state and grandeur for whose sake and stle occasion that fleet was so numerous and magnificent consisting of twenty sail of stout Dutch ships and five of your own ships viz<sup>t</sup>. the Heathcote, Hern, Stretham, Northumberland, and the Kent. Captain Harrison that arriv'd there on the 14th March, just time enough to gett water and refreshment, and sail'd with the Fleet on the 20th after as aforesaid; The King William Galley left the Cape early in May.

10. On the 6th July President Weltden went on board his ship and sail'd for Bengall, and on the same day arrived your ship Susanna into this Road, and brought us Your Honours Packet of the 9th of January last.

11. We proposed to President Weltden putting on board the King William all the treasure we had in rupees ready chested up for Bengall, which he excused as haveing no orders to touch here that they were already a rich ship, and that the doing of it would intitule the Captain so much the sooner into demorage before he arrived the Port design'd for, and the Gentlemen consign'd to.

12. Captain Raymond on the Des Bouverie left the Cape on the 17th or 18th May and arrived safe in this Road on the 11th July after, but Captain Peacock on the Sommers was not arrived at the time he left the Cape, tho he was in some few days after, as you will hear in the subsequent paragraph.

13. On the 15th July sail'd hence for the West Coast your Ship Carlton with all her stock and Treasure, as dispatcht by your Generall at Bombay. During his stay here we took on shore one of his Chests of Dollars and coin'd them into the Malay sort of Fanams, which done, we Laded the same on him again, wee likewise Laded on said Ship on Your Honours Account Sixty Bales of Long Cloth and Salampores with Amunition, &c<sup>a</sup>. Stores.

14. On the 2<sup>d</sup>. August Captain Bryan on the Europe arriv'd here, who declared that having left the Cape of Good Hope on the 4th May at night, next morning he mett and Spake with Captajn Peacock Steering in for the Cape, who were all very well in health but say that their so long a Passage as from the 9th of February last to that time was occasion'd by the Currants and Calmes they met with, so that here is an account of your returning Shipps so farr, which pray God, if not already may all arrive in safety with you.

15. On the 11th August sail'd hence for Bengall the Des Bouverie on whom we sent a Stock in Goods and Treasure amounting to Pagodas 112050:5. including all her Lead and Iron (except Sixteen Roll Sheet Lead), from England and on the 20th that month we dispatcht the Susanna with a Stock amounting to Pagodas 65187:16:4.

16. On the 24th September we dispatch'd the Europe for Bengall with a Stock amounting to pagodas 140657:7:2., the reason we detain'd the Europe so late was that we were in hopes and in dayly expectation that the St. George might arrive with us by that time to the end we might have certifyed the same to your President and Council of Bengall, if happily it could reach them before the Loyall Bliss's departure thence for England, but to our great wonder and amazement we had no news nor tidings of the St. George in all that

month of September thō she was safe arriv'd at Galley on the 20th of that Month, yet we had no advices of the same till the 11th of November after, as shall be more fully related in its proper place, because the method we propose to ourselves in this letter is to assign all matters and occurrences in your affairs, to the severall and respective times as their events happened.

17. On the 19th of August arriv'd at Pondecherry four French Ships of the St. Maloes New Company, one of them is a fifty Gun ship the Commodant and hath 280 men on board him, the second and third ships carry Fourty Four Guns and 250 men. The Fourth a Ship of Thirty Six Guns and 180 men, they sail'd from Brest on the 27th January, they touch'd at the Canarys where they stayed twenty four days, and took on board there good quantitys of the Sorts of wine of that place, but brought out no Claret, occasion'd by the great Frost that kill'd all the Vines and Vineyards. They brought out about ninety Chests of silver and ten chests of corall. They pay the Old Company ten per cent on their Stock for permission, thō those of the former year pay'd fifteen per cent for their permission, these last were endeavouring to contract with the Merchants of Pondecherry and offer'd them 12 per cent advance upon the former years prices, which those Merchants would not accept of under pretence of Cotten being so very dear occasion'd by the aforemention'd great Storm in April last, which destroyed all that Cotten crop, which raised the price of Cotten to 25 Pagodas per Candy, however they agreed at last upon advancing the Merchants 14 per cent upon the last years prices for an Investment amounting to Pagodas 70,000 to be brought in and finish'd by the end of this present Month of December.

18. They were endeavouring all they could to procure themselves an able Pylot to carry them thorow the Streights of Malacca, but could find none, they seem to be much embittered against the Dutch, but say they will not go out of their way to look for any English ship, unless any such unfortunate ship shou'd fall into their tract, but they are not to be trusted, and so small a Stock as they brought out, cannot give a full Ladeing in Bale Goods to any more than two of their Ships, but what we hear from Bengall seems most probable, where a large quantity of Salt Petre is provided, and lyes ready for them there where they are dayly expected to take the same on board their ships in order to proceed thence to Pondecherry. The fears and Apprehensions your President and Council of Bengall have of those ships are the just reasons they detain the Des Bouverie and the Susanna so long and so late with them as themselves advise us by their letters of the 10th and 25th last Month; the said four French ships departed from Pondecherry on the 4th of September, but whither bound is rather imagin'd and guesst than any waies certainly known, for that they are altogether independent of Sir Andrew Hebert the present Governor of Pondecherry as to their maren Affairs, some therefore think they may have gone to Mergy to careen and fitt their ships, and that the Commodant hath orders to make proposalls to the King of Siam to whom that Port belongs, or to his Chief Ministers for obtaining a Settlement there or rather the perpetuall inheritance of that place, it is likewise said that when they have clean'd and fitt'd their Ships and victuall'd themselves at that Port, they will depart thence and go upon the cruiz off and about the Mouth of the Streights of Malacca to wait the Dutch Japan Fleet while others rather believe as it seems most probable they will proceed directly for Bengall to take on board their Salt Petre, and so up along this Coast to Pondecherry and pick up what they can meet with either Dutch or English Ships in their way, which we pray the Almighty to avert and disappoint, however they are expected to be at Pondecherry on or about the 4th of January which if so, we shall advise your Honours before we conclude this letter.

19. The 16th of September brought us letters of the 3<sup>d</sup>: and 8th that Month from your late Deputy Governour Harrison, and Supervisor of all your Affairs on the West Coast of Sumatra then at Point Pedro with a Generall letter of the 5th of August from himself and Council at Bencoolen, the purport of which was that they had dispatch'd home the Nathaniel on the 5th of July a full Laden Ship, and that on the 12th that month the Sherbourn Captain Cornwall arriv'd there, that

the Frederick whom they sent to Batavia to buy the necessary Stores for the Garrison, and to change the Duccatoons into Spanish Dollars was not then come back, but dayly expected, that Mr. Shingler your late Governour for haveing lavish'd away in twenty one months time a summ no less than one hundred and fifty thousand Dollars without any fair account and is found a debtor to your Honours in the summ of nine thousand one hundred and fourty Dollars for errors and wrong charges in your account of Cash kept by him, they therefore thought it prudent to deviate from your orders by the Sherbourn, and remove him from your service, and brought him and his wife Passengers on said ship for the reasons aforesaid, as well as that by his crueltys he became the generall and common odium of all the Natives.

20. Mr. Harrison's letter to us of the 3<sup>d</sup>: September from Point Pedro advises his haveing embarqued himself on board the Sherbourn on the 7<sup>th</sup> of August bound hither, and that according to our orders and instructions to him he had substituted Captain Richard Phip (who arriv'd the day before) in his place and stead during the said Captains time of staying there, after when Mr. Anthony Ettricke was to succeed as Deputy Governour of York Fort; he declares to have had a good passage from the said 7<sup>th</sup> of August that they left Bencoolen to the primo September coasting along Zelone being a fair day and keeping the Lead going, shoaling gradually till six of the Clock at night that the Ship struck in nine foot water on a spitt of sand 80 miles off Point Pedro all sails standing, commonly called the Malle Valley Sands to the northward of Trincomolay, all endeavours were used to gett the ship off, but all to no purpose, so that at 12 at night being moonlight the Captain and Mr. Harrison, the former with consent of his officers and men, as agreed to by papers sign'd to, and the latter as being of no use to that unfortunate Ship went in a Boat along with the Captain endeavouring to gett to Jaffnapatam as being the nearest Dutch Settlement to request their Assistance of Sloops and able hands to gett the Ship off again, they were from one that night till twelve next night in that open Boat, and gott no further than Point Pedro whence the Captain went imediately overland to Jaffnapatam. Your Honours had nothing on board the Sherbourn Friggot saveing thirty pieces of old iron Ordnance brought from Banjar, putt on board said ship at Bencoolen to serve instead of ballast.

21. Mr. Harrison's next letter of the 8<sup>th</sup> September from Jaffnapatam is a recitall of the Dutch Governour of that place his Courtesies and civilitys both to himself and Captain Cornwall which Letters are enter'd in our Copy book of Letters receiv'd N<sup>o</sup>: 86. 87. 92. to which we humbly referr.

22. Mr. Harrison's next letter to us is dated the 11<sup>th</sup> that month which we receiv'd here the 21<sup>st</sup> after as enter'd in the Copy book of letters receiv'd N<sup>o</sup>: 98 adviseing the Captain Cornwall with the assistance of the Dutch Sloops and their hands, had to a miracle on the 8<sup>th</sup> of September gott the Sherbourn Friggot clear of the Sands and brought her under sail to an anchor at Point Pedro, and nothing near the damage as at first believ'd, nor indeed could be expected, and it was the joint opinion of the Dutch, Mr. Harrison and the Captain himself that it was safer for him to proceed directly to Bengall than to adventure coming up on the Coast in that late Season, and the better to avoid falling into the hands of the French which thô they had been gon on the 4<sup>th</sup> that Month from Pondecherry as aforesaid yet they at Jaffnapatam knew nothing of it, so Captain Cornwall proceeded accordingly to Bengall where he safely arriv'd which was the best thing that he could do, for had he come here we should not have taken his Ship into your Service before she had been surveyed, and her Condition thoroughly Examind into, which we are sure could not be done in this Road. The said Letter is enter'd in our Copy book of Letters receiv'd N<sup>o</sup>: 98 as aforesaid.

23. Your Ship President after so long a time as since the 17<sup>th</sup> April 1709 that she went hence return'd here from the West Coast but last from Vizagapatam the 22<sup>d</sup>: September an empty ship, she brought us a generall letter from your Deputy Governour Harrison and Council of York Fort dated the 5<sup>th</sup> of June and another from your Chief and Council at Vizagapatam adviseing your ship Susanna

to have arriv'd there the primo of September, and Sail'd thence on the 4th after for Bengall.

24. Your ship President Sail'd hence for Bengall on the 5th of October to repair her sheathing as well as to gett her out of the way of the Storms and bad weather incident to that Season of the year.

25. Your Rising Sun Smack whom we sent to Vizagapatam the primo March last with Souldiers, Stores and Amunition for the necessary defence of that Settlement as advis'd you by the Abingdon they still detain there as a Guard Ship in case of the worst, if matters should come to extremity, she is man'd with 18 of our Gun room Lascarrs and two English men as Master and Mate.

26. We are now come to the 10th of November on which day we receiv'd a letter from Captain Samuel Goodman Commander of the S<sup>t</sup>. George dated the 25th of September at Galley, adviseing his tedious long passage from the Canarys (where he parted with the Convoy of the West India Fleet) to the Cape, where he heard of four stout French ships being arrived on this Coast he left the Cape on the 13th July and came to an Anchor in the outer Harbour of Galley on the 20th of September and on the 25th after gott safe into the inner Harbour, where he finds the Dutch civil and kind, who told him of the aforesaid four French Ships being arriv'd at Pondecherry, he advises his Ships company to have been sickly but no mortality, your Souldiers like to eat out the Ships keel they are so hearty which is his own expression. That the Port is very chargeable where all manner of eatables are scarce and dear, and therefore requests we may give him Credit for £100 or more if he should have occasion for the use of his ship and Ship's Company, and desires our orders how to act and proceed. We have gratified him as to his request and have accordingly sent him our letter of Credit to the Commodore and Council at Galley adviseing the reasons of our being necessitated to request them to assist the Captain with what he should want, and as to any new orders from us, we sent him none, but referr'd him to such as he brought from Your Honours, so that we believe it may be the latter end of February or the beginning of March before he arrives this Port, his said Letter is enter'd in our book of letters received N<sup>o</sup>: 117, and our answer is enter'd in our Book of Letters sent N<sup>o</sup>: 98 to which we humbly referr.

27. The primo this month brought us back your Ship Frederick safe from the West Coast, but empty, excepting your Lead as taken on board at the Port of London, which we continued on board him for our quicker dispatching away that Ship to the West Coast as we did on the 11th of March last for the speedy and timely reforming of the shamefull and exorbitant charges of those Settlements, and your Servants there haveing neither honour nor honesty, reason nor discretion to sett limits or bounds to so great a waste of your estates in their hands as if nothing less than the unexhaustible Silver Mynes of Peru could be a circumference to so much and so great a lavish as they have been manifestly guilty of, together with their intemperancy may be justly said to bear date from that very day Mr. Watts knew himself to be independant to Fort S<sup>t</sup>: George, and continued a period so long as from that time till your late Supervizor Harrison arrived at York Fort on the 17th day of May last, and now we hope your Affairs in those parts will look with a new face, since Your Honours are pleased once more to make those Settlements subordinate to this Presidency as in Statu quo prius care shall be taken to send over some person fittly qualiyed once a year as a Supervizor thô we shall be hard putt to it to find such a person allwaies so qualified unless we draw them out of the number Your Honours have constituted to be your Standing Council here or at Fort S<sup>t</sup>. David or other that have employs in your service that cannot be well spared, not but that Your Honours have servants enough and to spare who are mostly Youth, and their sense and judgement as their age, not come to maturity.

28. Captain Phrip brought us the generall letters of the 18th and 19th of August from York Fort, the first sign'd, by himself and Council there with their Dyaries and Consultations since your Deputy Governour Harrison left that place, to the time Captain Phrip departed thence to Bentall to settle matters there, and

after to proceed for this Coast, In their said letter of the 18th August they advise the Carlton to have arriv'd at Bantall on the ult<sup>o</sup>. July where she was takeing on board what pepper they had ready in their Godownes there to bring to York Fort, and doubted not but to send her home a full laden ship by the primo-October following, and the Mead Friggot whom they dayly expected, they hoped to send home full laden by Christmas, the Countrey being full of pepper, They advise that Your Honours haveing had a considerable loss upon the barr by Shipping off your pepper on board your ships for England, they desire leave to build warehouses or Godowns at a place called the Carang of about a mile distant from York Fort, there to receive and take in all manner of goods such as redwood, Salt Petre and pepper to ship off and lade on board your ships for England where there is no Surf nor Breakers which they say your late Governour Harrison and Council ordered to be done before he came thence, which we hope Your Honours will very well approve of for the reasons aforesaid, and we shall not spare for what may be frugally lay'd out as absolutely necessary for your Interest and Advantage, and not otherwise, and for which reason we are now upon terms of agreeing with a Sett of twenty four Lascarrs for the term and space of five years to go over to the West Coast; there to continue during that time, and to lade and unlade all your Ships, and to do all other manner of work ashore when there is no shipping in the Road, in the manner and way as our Lascarrs in the Gun room Crew do here and at Fort St. David, and all this because the natives there are careless lazy and easie.

29. Their next Generall Letter of the 29th of August from York Fort sign'd by Mr. Ettricke and Council whom we appointed as being your Covenanted Servant to succeed Captain Phrip, and advises the Carlton to have arriv'd that Port on the 26th that Month, but that Captain Lytton comeing ashore in his Pinnace in their way to the Carrang adventureing too near the Southern Breakers, the Pinnace was oversett, himself wth seven of his men with much difficulty saved and come ashore, but that two of his men were unfortunately drownd, and Your Honours and our Packets by that Ship lost and could not be found after two days searching for them, so that they must act and conform themselves by the late orders and Instructions given and left them by Your Honours late Supervizor M<sup>r</sup>: Harrison.

30. Captain Phrip likewise brought us a generall letter dated the 12th of September at Bantall sign'd by himself and Council there as also the Dyaries and Consultations of that Factory commencing the 8th of May and ending the 12th of September last, he arrived at Bantall the 23<sup>d</sup>: of August after he left York Fort, and durement his short stay at Bantall, he has settled all matters there with the Sultan and Proateens &c<sup>a</sup>: Chief men, much to Your Honours advantage as may appear by their Consultation of the 5th of September which mentions an agreement sign'd and Seal'd between your Deputy Governour Phrip and Council for your Affairs on one part, and the Sultan, Proateens and Chief men of the Natives on the other part interchangeably delivered by which agreement, the Sultan, &c<sup>a</sup>: Chief men do oblige themselves and their people to take off your Cloth of the severall species at the following prices viz<sup>t</sup>: Salampores white at 40 Dollars per Corge, Ditto Blow at Dollars 60 per Corge Long Cloth white at Dollars 90 per Corge Ditto Blew at Dollars 100 per Corge, all which we shall take care to supply them with from time to time as their occasions shall require and your Deputy Governour and Council of York Fort shall advise us of what quantitys and sorts they may want, which may employ some one of your smaller ships that we cannot lade home hence in the proper season, your Tonnage being too large for the Stock your Honours are pleased to limitt to the Investments here and at Fort St. David.

31. All the generall letters from York Fort and Bantall come by the Sherbourn, the President and now by the Frederick as also all those wrote us by your late Supervizor Harrison since he was ship-wrecked, but more especially his letter of the 9th of October last wrott us from Fort St David soon after he arriv'd there with Mr. Shingle in two Dutch sloops from Jaffnapatam are all entered in

our copy book of Letters received N<sup>o</sup>. 88. 87. 86. 92. 98. 99. 100. 109. 101. 130. 131. 132. 133. giving an account of all transactions of your Affairs since your late Deputy Governour Harrison arriv'd at York Fort on the 17th of May to the 7th August last that he imbarqued upon the Sherbourn, and likewise after his departure what was done and acted by Captain Phrip who Succeeded and Council both at York Fort and Bentall to the 12th September last, that he left the latter to return hither where he arriv'd the primo this month as aforesaid. The above-mentioned letters with their Consultations and Dyaries give us the best insight, the clearest prospect and as we say the truest Land Skip of all your Affairs on the West Coast we ever yet had from any before, thô the manner and way of getting their ungodly estates while they were independant of this Presidency was no mystery in its self, but their unjust practices was one continued mystery of all iniquity.

32. Enclosed comes translate of Pangran Rajah Moode's letter to us receiv'd by the Frederick which partly shews the satisfaction the Natives have by the late change of Government we have made in those parts, it likewise contains matters fitt for Your Honours considoration and your orders and direction to us thereupon, because we are not willing of ourselves to cancel the marks of the favours you have placed upon such of the Chief men whom Your Honours believed might be serviceable to your Interest.

33. Captain Phrip haveing been in Batavia in June, your ship Rochester arriv'd there in two or Three days after him where she stay'd about Seven days, and sail'd thence for China on the 19th or 20th that Month.

34. But now we must change the Scene into a melancholy Theme of what is advised us by Letters from your Chief and Council at Anjengo dated the 25th November with another of the 13th that month from Captain Edward Peirson at Tutecoreen both receiv'd here the 26th Currant giving us the sad account of your Ship Phoenix haveing been stranded on the Coast of Madura on the 8th of November ten leagues to the southward of Tutecoreen, That he had saved all your Honours treasure being thirty-five Chests, which he delivered into the Dutch warehouse there and had gott severall of your bales ashore on a rising ground under a Tent and guarded by your Souldiers and the Ships Company to prevent them being attack'd by Natives, and request your Chief and Council to assist them with Boats or Sloops, but rather a Ship, which is the Substance of the Captain's letter, and that from your Chief and Council to us which is partly a recitall of the former so farr, and that they have hired a Danes ship for eight hundred Pagodas to go to the wreck and bring away your bales and Treasure with what more can be gott to carry away to your factory of Anjengo, on which Ship they have sent Mr. William Kyffin to assist them with his best counsel and advice, Copy of both said letters comes in our Packet, and are likewise entered in our Copy book of Letters receiv'd N<sup>o</sup>. 144, 145, and we are sorry we should close up the old year with so bad an article.

#### JANUARY THE 5TH.

35. We are now entered upon the new Year, which we pray may prove prosperous to all Your Honours Affairs both at home and abroad, but to this day we have no sight of your expected Ships the Des Bouverie, the Susanna, and the Sherbourn from Bengall, in company together as the President and Council there advised us, so that their staying so late gives us just cause to believe the French four ships may be there. The Des Bouverie is to bring us 250 Tons proper for England and we to fill her up here, the Susanna and the Sherbourn are to bring us up Salt Petre and packing Stuff the latter being much wanting to supply this place, and Fort St. David, when it pleases God safely to arrive the said three expected ships here, so as we may know the quantity of Bale goods they bring us, we shall then be able to judge how to dispose of them, but at present we cannot be certain to send you home any more than the Frederick and the Des Bouverie the Season of the year being so late to dispatch them, so we may hope their arriving so early to meet with the Dutch Fleet at the Cape to accompany them

home as ordered in your publick dispatches, but the fears and apprehensions of the French breaking our Measures so much to a compliance to your said orders however we shall have a remnant of bales sufficiently left at this place and Fort St. David to putt on board of either the Susanna or the Sherbourn to send to Bencoolen with two or three Chests of your Treasure so as to enable them to fill her up with pepper to send her thence a full Laden Ship for England.

36. If we send the Sherbourn to the West Coast as we think we shall, we will send the Susanna to Bengall upon the turn of the Monsoon to carry your Treasure to your President and Council, which we believe may be about three hundred Thousand Rupees and bring us back thence Salt Petre and your Lead &c.<sup>a</sup> Stores and packing Stuff to be return'd us thence as soon as possible. Your Lead by what we sent to Bengall, and what more sent them on the King William Galley being more than what they can dispose of as they advise us, we desired them might be return'd us, because we hope to dispose of it better here than your President and Council can do there which is hardly Invoice price, thô at that time we were necessitated to continue on board the Des Bouverie, and the Susanna's lead for their quicker dispatch hence for Bengall with your Treasure to employ their hands for the provision of goods for the timely returning home as much Tonnage as they could, The Loyall Bliss departed Bengall early this Season under her last years dispatches, as they have likewise the Concord on your Honours account, both of them to be early at the Cape before the Dutch Fleet arrives there, so that the Gentlemen of Bengall will have only the King William Galley and the Europe to send home this season, and besides the three aforementioned ships they intend to send us up and the Frederick in this Road almost full, they cast upon us the St. George (yet at Galley) to provide for, besides the Halifax, whme we hope to dispatch home next October, God sending her to arrive safe back from Canton at which Port as we are advised by Letters from the Captain and Super Cargoes they safely arriv'd on the 22<sup>d</sup> September last but they cannot make any great hand of it to the freighters, Gold being so very dear and Mettalls and Gruff goods will not turn to account; yet notwithstanding this discouragement we shall do our utmost endeavours to gett one of your ships let out on freight to China; even thô the Merchant Inhabitants do often fence an Argument with us that such a voyage is much easier, and cheaper performed by the Countrey ships, and the ship we intend to lett out as aforesaid, we think at present may be the Susanna.

#### TOUCHING INVESTMENTS HERE AND AT FORT ST. DAVID.

37. In June last (before your shipping arriv'd) we sent our orders to your Deputy Governour and Council at Fort St. David to propose a contract with their Merchants for an Investment of fifty thousand Pagodas, They sent us their Merchants Answer that they could not be prevail'd with to agree on any other terms than the prices of their last Contract made on the 19th October 1709 alledging that as it was then a grievous hard famine of all manner of corn and grains, yet Cotton was excessive dear occasion'd by the great Storm that happen'd in April that spoyled and destroy'd all the Cotton Crops in the Countrey which made that Commodity rise to 25 and 26 pagodas per Candy, that the travelling charges and Dutys paid in bringing their Cloth into your Bounds was more than what the Companys Merchants of Madras pay, so that we were at last obliged to acquiesce to their own terms without any abatement in the prices of their former Contract.

38. It was still a harder matter for us to prevail with your Merchants of this place, who were combined together (as it should seem) to rise the price of all the severall species of Goods we intended to contract for, for the same reason of the dearness of Cotton as aforesaid which was then risen to Pagodas 28 per Candy, and that the Country was so much under water by reason of the excessive great rains that happen'd unusuall in that time of the year which is the hot and dry season did so much hinder and retard bringing in their Cloth out of the Country, which we confess to be true, in so much that our Barr open'd its way into the sea no less than seven times this last summer, the like the oldest of our Natives remember not to have known, so that 'twas the 27th September before we concluded our

agreement with our Merchants for an Investment amounting to one hundred thousand pagodas on the former prices made by your late Governour Addison, which Investment was not then brought in by reason of that very rainy season as aforesaid and your Broadcloth come by your last shipping we have putt off to your Merchants at 55 per cent upon your Invoice, and the two Bales of Imboss'd Cloth (which is but ordinary in its kind) we can dispose of when we please at 100 per cent above Invoice but that, we must keep some three or four pieces of them by us for presents, we could once have disposed of all your Broadcloth come out on your last shipping at 60 per cent upon Invoice to particular Merchants, but then they could not provide goods enough in that late season for us to contract with them for any certain quantity of Goods to be brought in so as to enable us to give timely dispatch to any one of your ships to be sent home in this Season, tho' they might for the next, which our cunning joynt Merchants haveing notice of they immediately brought over to their side, as well knowing none else but themselves could be able to contract for any Investment with us as haveing so much Goods provided beforehand, as they well knew no other merchants had at that time by which means and ways they jointly concerted matters so as that we must dispose of your Broad Cloth to them on the price and terms as abovesaid, which confirms us in our opinion that they were all combined together as we said before, but if we live we shall break the charm of any such combination for the future, and make such your contract Merchants as we think may be best able to serve you.

39. At Vizagapatam they have made no Investment, we judging it not safe to adventure any money there, more than what was absolutely necessary for the expenses of that factory dureing their present troubles and Convulsions, under which they laboured this last year by means of Fuckerla Cawn's having stop'd up all the Avenues of your Bounds and in November last with an Army of 800 horse and 7,000 foot actually layd siege against your factory and begun the first acts of hostility which was warmly returned by the guns of your little Fort, which made the Enemy retire to a further distance, but did not disperse them any more than that they continued the Siege whom we hear since are gone twenty miles further into the Country, which wants confirmation, and is no more than what we have from Jentue Letters to some Merchants of this place, and we fear the effect will not cease till the cause be taken away, occasion'd by that unlucky debt of Mr. Holcombe's the remaining part of a summ of about Pagodas 6500 so long owing to the aforesaid Le Chuw all the Letters of your Chief and Council at Vizagapatam relateing to this troublesome matter are entered in our Copy book of Letters received N<sup>o</sup>: 4. 5. 13. 25. 26. 27. 28. 29. 40. 41. 48. 49. 55. 58. 59. 74. 80. 102. 107. 101. and 137 and our Letters and Answers to them on the same are as entered in our Copy book of Letters sent N<sup>o</sup>: 20. 24. 38. 40. 46. 69. 90 and 111. and in our Consultations of the 11th and 15th December last.

#### RENTS AND REVENUES.

40. The farming out of Tobacco and Beetle and Ganjee leaves was in the year 1700 lett out to Ponnagettee Narso, Vincattee Puttee and Yellaree for Pagodas 8,000 for the space and term of five years to be paid by the Aliquot summ of Pagodas 666 : 24. each month, which term of five years being expired, they were found to be considerably indebted by non-payment of their proportionall summs monthly for which they pleaded their great loss and damage upon Tobacco lying in their Godowns, which by rain became rotten, and good for nothing, however on the 17th December 1705, the date of their new Cowl, the same was farmed out to them again for the summ of pagodas 7,000 per annum by the monthly payment of pagodas 583 : 12. each month as likewise to pay monthly pagodas 41 untill the whole of their old debt of their first farm should be cleared of, and we in March last being very urgent with them for the speedy payment of what they were so much and so long behindhand, and then the Partners begun to quarrell among themselves complaining each against the other as per our Consultation of the 14th that month, by which it doth appear they stand indebted

home as ordered in your publick dispatches, but the fears and apprehensions of the French breaking our Measures so much to a compliance to your said orders however we shall have a remnant of bales sufficiently left at this place and Fort St. David to putt on board of either the Susanna or the Sherbourn to send to Bencoolen with two or three Chests of your Treasure so as to enable them to fill her up with pepper to send her thence a full Laden Ship for England.

#### RENTS AND REVENUES.

40. The farming out of Tobacco and Beetle and Ganjee leaves was in the year 1700 lett out to Ponnagettee Narso, Vincattee Puttee and Yellaree for Pagodas 8,000 for the space and term of five years to be paid by the Aliquot summ of Pagodas 666 : 24. each month, which term of five years being expired, they were found to be considerably indebted by non-payment of their proportionall summs monthly for which they pleaded their great loss and damage upon Tobacco lying in their Godowns, which by rain became rotten, and good for nothing, however on the 17th December 1705, the date of their new Cowl, the same was farmed out to them again for the summ of pagodas 7,000 per annum by the monthly payment of pagodas 583 : 12. each month as likewise to pay monthly pagodas 41 untill the whole of their old debt of their first farm should be cleared of, and we in March last being very urgent with them for the speedy payment of what they were so much and so long behindhand, and then the Partners begun to quarrell among themselves complaining each against the other as per our Consultation of the 14th that month, by which it doth appear they stand indebted

to a summ no less than pagodas 6,430 and we fear may be a bad debt, they haveing neither houses Goods nor Chattells to make any satisfaction, however we keep them close Prisoners ever since we found them insolvent, as we shall still do, till we can better perceive if there be any trick at the bottom of it, At the same time, we farmed out the Tobacco Ganjee and Beetle to a new Sett for the space and term of five years at Pagodas 7,000 per annum who make punctuall constant payment of pagodas 583: 12. each month.

41. The Toddy trees that grow in our burying place and those whom we haveing licenced to have the sole leave and liberty of drawing the Toddy of those Trees pay you the yearly rent of pagodas 40 for their haveing that liberty, and in which place they likewise sell their Toddy to all Comers and Goers in such manner as that it is become the generall Rendezvous of all the Schum and Rascally People in and about the town such as Lascarrs Parriars and Slaves of both Sexes where they resort and meet to buy and drink Toddy, and become drunk and other undecencys which occasion'd the Ministers and Church Wardens to deliver us in their Petition on the 22<sup>d</sup>: day of March and is as enter'd next after that day's Consultation, and we humbly conceive that hallowed Ground, as such a place is, ought not to be indulged to the practice of almost all manner of vice and Licentiousness, They therefore to remove the Cause, that such ill practices may cease, offer us one hundred pagodas for what those Trees pay yearly, for that they are now very old, and almost worn out, and that every now and then a Tree falls down with any hard wind that blows, so that the advantage of paying Your Honours pagodas 40 per annum doth not so much arise from the profit they make by these Trees, as the Commodiousness of the place for so numerous resort of those sorts of people all which we humbly submitt, and referr to Your Honours Consideration.

42. On the 4th of April we lett out to farm the fishing in your River to Pasquail &c<sup>a</sup>: Partners for the space and term of five years at pagodas 50 per annum, reserving to ourselves nevertheless as accustomed our power of drawing the river once in a month for the use of your generall Table.

43. And to Mary Pois widow we renewed her lease for the Paddy field, and Little Garden the term and space of five years longer for and in consideration of pagodas 30 per annum as per our Consultation of the aforesaid date.

44. On the 26th of June we farm'd out the Sole power and priviledge of the Town Brokeridge to Ancho for the space and term of five years, for the summ of three hundred pagodas per annum being pagodas 100 yearly advanced above what formerly lett out for, which with the Farm of the Tobacco and Beetle as before mention'd are all the Farms we have given and granted new Cowls for, The Licence and priviledge given for the distilling and selling of Country Arrack, and the like for selling all manner of Europe liquor by retail are still continued to them by their former Cowles not yet expired, the like we say of your three old Villages as mention'd in our generall books Letter H which comes herewith, these said villages we keep and hold by a more tenacious tenure than the temporary grant of the Five new Villages given your Honours by Nabob Daud Cawn to your late President Pitt, which carry'd no certainty of time with it any longer than that Nabob was certain of holding the Government of these countrys, and in this case we had no worse a fate than our Neighbours the Dutch and French, from whom the like Grants were recall'd, and they obliged to comply with, thô the latter had their villages prolong'd to them again for some time for the expence and charge of a costly Present made to the Duan Sadatulla Cawn on whom the Government of these Countrys have devolved ever since the departure of Doud Cawn as being called up to Court in April last, and we may be in hopes to have them restored to us again upon the like consideration so soon as he returns to Arcott, haveing been gone to the Southward ever since October last, as well to receive the Kings tribute from the Chitranaply and the Mizore people as to compose the differences those tributary Princes have among themselves, and to whom we have not as yet made any present since he came into his Government, we not being in any willing humour to be so lavish as to make the Duan a

Present so soon after the 5th of December 1709 that we sent one so considerable to Doud Cawn, which proved very acceptable as by his Answer to said Letter received here on the 9th of January next after, which confirmed to us the aforesaid five villages, both said letters are entered in our letter book sent N<sup>o</sup>. [ . . . ] and the Answer is entered in our Book of Letters received N<sup>o</sup>. [ . . . ] and were sent home by the Kent, and thô we had severall Perwannas sent us ever since the 17th of April to demand and recall the said five villages, yet we kept them in our possession till the 13th of June, by which means we secured that crop to our Farmers.

45. And thô the Duan procured Cawn Bahauder and Doud Cawn's perwannas to be sent us to recall the said Villages and seeing all would not do, he at last sent a party of fourty Horse who took possession of them in Cawn Bahauder's name to whose Fageer they belong, since when the Duan has frequently sent us civil and kind perwannas.

46. In this Interim of our Conflicts with the Duan we ordered as per our Consultation of the 5th of June a Guard House to be built a little on this side of Egmore Village on a convenient rising ground, because the Old Mud Guard House on the other side of that village was in a bottom and so obscured by the many trees of the Gardens of the village which intercept our having any sight of that Guard from your Fort here in case of the worst that might happen by any loose party of horse or free booters that should attempt our Guard or plunder your village, and the dimensions of your said new redoubt is thus viz<sup>t</sup>. a Square with a Ditch, the wall of the redoubt is 134 feet each side, the depth 8 feet, and the breadth of the Ditch at the top 16 feet, the Breadth at the bottom 10 feet, the Redoubt is fac'd with Brick which hath cost pagodas 925 : 7<sup>t</sup>. within it we intend to build a small conveni<sup>e</sup>nt place to lodge your Souldiers, when there shall be occasion for their being sent thither, and may be commodious to lodge and accommodate your sick souldiers at any time when they arrive here sickly, and out of order, which may be occasion'd by any long passage from England hither without touching anywhere from England as has happen'd to those of your Souldiers last come upon the Susanna and the rest of your ships, of whom there has been so great a mortality as has consumed most of your Chests of medicines come by your last shipping.

47. We have likewise ordered the procureing and buying up in the Country five hundred of the he-kind of bamboos to make Chival de Freez or Turn pikes upon occasion to be join'd together to secure the entrance of the little Lanes of your Villages as well as your out Guards against any party of Horse as should dare to attempt any insolen<sup>c</sup>y upon either.

48. And our Country Shipping return'd from Surat and Persia &c<sup>a</sup>. being then in this Road, we took occasion by their number and those of your Inhabitants to take a list of all their names whom we requir'd at a certain day prefixed to appear on the Parade with their Arms, which being accordingly done, we form'd them in the manner of a company of Trainbands under Mr. Raworth whom we appointed their Captain, and the other Subaltern Officers were the Gentlemen Inhabitants of your Town, who with your own Covenanted Servants made a very handsome and good appearance whom we all treated with a good cold collation in the open Fort.

49. But the building our Redoubt made so great a noise in the Country that it reach'd the Duan's ears as farr as Arcott, where he then resided, which occasion'd his sending us his perwannas so frequently that information was brought him that we were building a new Fort, which he strictly forbid us to proceed any further in the work, we answered that we intended no such thing any more than a small house for the recovery of the health of our people after so long and tedious a passage as from England to these parts of the world, so that we did not slacken our hands, but doubled our diligence by increasing our Coolys for the quicker dispatch and finishing the work as we did, thô were much hinder'd by the frequent great rains unusuall in that hott season of the year which likewise hindered much our making of Bricks to the perfecting and finishing

the same as well as the repairing such of your buildings as are so much fallen into decay as intended by your late President Pitt, which we hope to do this ensuing Spring and Summer, and shall be as frugal as ever possible we can.

OF YOUR OFFICERS MILITARY AND SOULDIERES.

50. On the 15th June we received advices from your Deputy Governour and Council of Fort St. David, that on the 11th that month Lieutenant Hugonin and Ensign Ray two military officers of your Garrison of Cuddalore haveing leave for a day or two to go abroad ahunting into the Country and about some two or three miles without the verge of your Bounds in a bottom where stands a Choultry were mett by a Party of Horse and Foot who seemingly came as with a respect to salute them, but all of a Suddain seized on them and carryed them away Prisoners to Waldore Fort where they kept all that night, distant about 20 miles from Fort St. David, Mr. Haughton, one of your Covenanted Servants being in their company at the time they were seized, and being well mounted as the other two officers were made his escape back to Cuddalore and gave notice of what had happen'd, upon which Mr. Mountague your then Deputy Governour sent out a party of souldiers of about 130 men under the command of Captain Vivers, but all in vain, for haveing travelled hard till they were tired, and fatigued they returned back re infecta, and the poor unfortunate Captives carry'd away next day up to Chingee about 40 miles further into the Country, where one Surup Sing a Rajah of the Rashpoot Cast is Governour, where they are still detain'd and kept prisoners to this day, and this matter being inquired into as what should be the cause and reason for so perfidious a piece of Treachery in a time of peace, and all good neighbourly friendship between us and the Governour of Chingee, whose answer was that haveing rented out the Waldore and Tevenapatam Countrys circumjacent to our Bounds to Sheve Redde Naique, and his Mother &c. Renters who became deficient in their due payments and were therefore much in arrears to him, and the said renters liveing and takeing protection in our Bounds, and that in the year 1709 he had wrote severall times to your then Deputy Governour to send up the said renters to him to adjust all Accounts, in order to make satisfaction for what they were so much behindhand in their payments, which if they did not they would thereby make their debt become their own, and that they should expect satisfaction and payment should be made him by the Fort St. Davids Government, and that the Chief renters haveing fled, he had no other ways nor means left him to make reprizall but to do what he did, this matter being thus advised us by your then Deputy Governour Mountague and Council, we immediately ordered them to seize upon all the familys and relations of those Renters that had deserted our Bounds, and Secure them Prisoners in the Fort, which was accordingly done, In some time after the Renters that deserted wrote to your Deputy Governour that they would adjust and agree all differences between them and Surup Sing, and that they would rent the same Countrys again, but first of all they would article for the releasement of our Captives in Chingee, This plausible pretention was believ'd at Fort St. David and the same advised us, and we thereby brought into the same error of credibility with themselves, these matters lying thus in suspence and nothing done for the clearing of the unfortunate Captives, we found as the event proved, that the renters never had any such real intention of performing what they so much seemingly promised, and the Rents of the Countrys are collected and gathered up by some other persons, as Servants appointed by Surup Sing. The Gentlemen of Fort St. David being thus deluded wrote us that the Captives believed that a moderate small Present might be effectually to procure their deliverance, which accordingly we did to the amount of two hundred Pagodas and sent to Fort St. David ordering them to send the same up to Chingee with some fitting person of a Black fellow to state and argue the case with Surup Sing, we likewise on the 4th last month in our generall letter wrote them our full and positive orders to search and examine plainly and impartially into that whole matter of the Renters how they came to be protected in their Bounds when such demands were

made, and how after it came to pass they were permitted to depart the Bounds without any previous notice of the same given to your then Deputy Governour Roberts and with our generall letter we sent them some Quaeries and Interrogatorys with what more they could think of themselves as a method for them to examine by, they sent us their answer to each of ours, gives us little or no satisfaction, our said letter to them is enter'd in our Copy book of Letters sent N<sup>o</sup>. 105, and their answer is enter'd in our Copy book of letters received N<sup>o</sup>. 146 and their answers to our Interrogatorys are entered in our said book of letters received N<sup>o</sup>. 147 to which we humbly referr, and the 200 Pagodas Present, to Surup Sing, we have ordered to be reimbursed your Honours out of the effects of the Renters.

51. The said Present was well accepted by Surup Sing who shewed a good inclination to clear the unfortunate captives, but the hungry officers about him, as having nothing given them, who have such an influence over him as that they soon perverted his design if reall, Upon the whole if the Captives are not cleared by the next advices we expect from Fort St. David, our resolution is to order up here all the said Prisoners, the relations of the Renters, and to be putt in Irons to be sent on board any ship that shall happen to be at their Port bound hither, whom we shall threaten to send as Slaves to the West Coast, and their Houses, goods, and Chattells in your town of Tevenapatam to be confiscated for your use, we could likewise order the Chief people of some of Surup Sing's villages to be seized and brought into our bounds by way of Reprizall, but this is not a proper time for executing the latter, the Duan at the head of an Army being near those parts, This is a melancholy Theme, which is our misfortune but none of our faults, as being errors of former times (not to say worse) and transferr'd to us.

52. As to the reduceing of the military officers pay to what ordered by your generall letters received by your last years shipping, we find it impracticable, at least at this time, for haveing sent your said orders to Fort St. David to be complied with there, it had none other effect than that it had begott a generall murmuring and grumbling in both your Garrisons of Cuddalore, and Fort St. David, for immediately a Serjeant and two Centinalls at one of their out Guards deserted their Posts, and run away with their arms, and three more Centinalls of the number that keep Guard to Tevenapatam Gate deserted and run away, likewise with their arms, and haveing tramposed it all the way on foot from Fort St. David to Waldore and thence to Arcott, and thence dispersed some to Pullicatt and some to St. Thoma, and in their way were forced to sell some of their arms for a subsistence, and finding no place to rest the sole of their foot on they were brought us from Pullicatt on a little ship belonging to this place then at that Port returning hither, namely Serjeant Neives and two Centinells, and the Dutch Chief and Council being very earnest and urgent beforehand for their pardon, we were obliged to gratifye them therein as to any corporal punishment, and contented ourselves by imprisoning of them here, and keeping them upon a sober and moderate Dyet of Salt, fish and Rice for some time, and after their ordinary allowance, and haveing been Prisoners about six weeks, we returned them on a Chuliar ship to Fort St. David again, and ordered the Serjeant to be degraded of his Halbert, and to be reduced to carry a Musquet, and the like we did by those returned us by the Phouzdar of St. Thoma, being the three other Deserters for whom he pleaded our pardon to them, who being but young stripling and boys we granted his desire, and they finding the punishment in their own folly.

53. And we endeavouring to do the same here to reduce our Officers Pay to what ordered by your Honours as acquainted them on the 2<sup>d</sup>. August in Consultation, they accosted us on the 3<sup>rd</sup> that month with their petition which is as enter'd after that day's Consultation, so that on the whole, we thought it not prudent at present to urge this matter any more till we should advise the same to your Honours as we now do to await your further orders in the premises, and we find none of your new Lieutenants confess they ever made any such Agreement for Pay as your Honours mention. Lieutenant Gale dyed insolvent on the 8th May of whom nothing can be said but that he made his hands to Subservient to gratify his taste.

## OF YOUR PRESENT STANDING COUNCIL, AND COVENANTED SERVANTS.

54. Mr. Mountague arrivieing here from Fort St. David to whom the paragraphs of your generall letter relateing to him were read, and took his place as Second accordingly to which he succeeds upon the death of your late Governour Addison, and Mr. Davenport according to the 60th paragraph of your said letter being appointed of Council here, tho he was made so before by your late President Pitt, but finding himself not mention'd in your Commission by the Heathcote he lay'd down your Service on the 22<sup>d</sup>: September 1709 and went to China in May last as Super Cargoe of the Ship Hallifax, and there being a vacancy in your Council Mr. Warre according to the 69 paragraph of your said letter, was made of Council to fill up that vacancy as per our Consultation of the 25th of August last.

55. Mr. Abel Langelier haveing requested to sign his Covenant Indentures, and he haveing been very diligent in the Accomptant's office, we have therefore granted his request, and his said Indentures signed by him comes herewith, and we would request the like favour of your Honours on behalf of Mr. Randall Fowke, who has done abundance of writeing work in our Secretary's Office here constantly for severall years, that you would be pleased to admitt him a factor in your Service, he being one of whom truth itself can speak no harm.

## OF THE KING'S PRESENT AT METCHLEPATAM.

56. On the 14th August, we receiv'd by Cossids overland from Bengall perwannas from Zoodee Cawn adviseing his being arrived at Hugley on the primo May as likewise a Nishan to the President from Prince Azamudeen Second Son to the King Shaalem, translate of which is as entered after our Consultation of the 31st August and your President's answer to the same is as entered after our Consultation of the 16th September as also the translate of Zoodee Cawn's publick perwanna, and his private perwanna, the translate of which is entered after our Consultation of the 9th November.

57. And the Lord Zoodee Cawn being very desireous to have the King's Present at Metchlepatam sent him down by sea to Bengall we therefore ordered the Susanna to call in and touch at that Port in her way to Bengall, and to stay there three days, if in that time they could ship off the Present, but not to stay any longer, and the better to expedite this affair we sent Mr. Faucet on said ship with Zoodee Cawn's Perwannas to all in Government there, as likewise his Perwanna to Isuph Cawn Suba of Golcondah to whom the Government of Metchlepatam is Subordinate, we likewise sent Zoodee Cawn's perwanna to the King's Gushardar, the purport of all which letters was to desire them to permitt the King's Present to be sent him to Bengall by Sea, that he might send the same thence to Court as being much the nearer way more safe and less charge, we ordered Mr. Faucet to stay there to gett all in readiness to be shipt on board the Europe whom we then intended to have sent him in a few days, but we detaining the Europe somewhat latter than at first we design'd in expectation that the St. George might arrive so as to advise the same to Bengall, gave us time enô to be advised from Messrs. Faucet and Noden at Metchlepatam that the Government there would not permitt the Present to be sent off shore to go to Bengall, upon which we ordered Mr. Faucet to sett out on his journey for Vizagapatam, and take his place and station in Council as appointed him there, and the Europe we ordered to proceed directly for the Bay as before mention'd.

58. Whatever might have been so well intended as to the carryage and travelling the Present Overland to the King's Court or Camp, yet fatall was that advice, and those persuasions that prevail'd for sending the present to Metchlepatam by which we lost our own power by putting it intirely into the hands and power of the Countrey Government there, and is now the contending point between the two Chief men so great in place and power as are Isuph Cawn Suba of Golcondah, and the Lord Zoodee Cawn Subah of Bengall and Lord High Admirall of all the Sea Port towns on this Coast from Negapatam to Ballasore, whose sole power

will prevail at last, and we thereby be able to send off the Present to be sent him to Bengall, when he promises to send the same safe to Court partly by water and partly by land carriage, by which so great a charge and expence will be saved as must have been unavoidable if sent overland from Metchlepatam to Court.

59. Musapher Beague the King's Gusbardarr who was sent (by Zoodee Cawn's procurement at first) to Metchlepatam to receive and accompany the Present arrived at that place on the 11th of August 1709, where he hath continued ever since very troublesome and impatient notwithstanding of Zoodee Cawn's late orders to him, nulling and reversing the former orders given him, he has been at the certain charge of five ruppés per diem to your Honours ever since he arrived, but now we hope we have tyred him out and at last gott rid of him since November last that he went away thence to Golcondah, whom we wish never to return any more with any fresh orders from that Subah as he had done once before with threatening to force the Present out of our factory, which we believe they dare not do.

60. The 6 Elephants bought in the aforesaid month of August cost pagodas 7,000 being a part of the King's Present and finding them to be a great charge each month, we sold one of them in January last for pagodas 1750, and the other remaining five we sold in October following for 6,050 which we must make good to the Present in their like kind or the Amount in what is most valuable, the Invoice of said Present was sent your Honours by your last returning ships.

61. The manner and method concerted at that time for sending the Present to Court was but one continued Meander of various thoughts and resolutions, till at last it terminated on the 14th of September 1709 in their full and final resolution of keeping the Present at Metchlepatam untill they received an Answer to the letters they had sent to Court, as may be seen by that year's Consultation Book sent your Honours by the Kent.

62. Your late Deputy Governour Roberts as also Mr. Harrison your late Deputy Governour of York Fort and Supervizor of all your Affairs on the West Coast of Sumatra intend to take their passage on this ship the Frederick, Mr. Harrison is able to give your Honours a more perfect Account of the of the State of your Affairs on the West Coast than any yet you ever had, for which and his other abilitys for your service, we could wish might have stayed longer there, but that his more fortunate circumstances call and invite him home, to whom we heartily wish a good voyage, and safe arrivall to his native country.

63. Captain Phrip hath likewise been very serviceable to your Affairs on that Coast more especially at Bentall where he presided in that Council after he had left York Fort in order to his return hither, where he settled matters to the generall satisfaction of all the natives there as well as to your Honours future profit, and Advantage.

64. According to your Honours orders we send you the stated account of Mr. Mead's estate who dyed intestate, but no effects of his ever came into the hands of your late President Pitt, but that Messrs. Raworth and Frederick were appointed by the Governour and Council to take care of the deceased's concerns and sell all his goods and effects by way of Publick Outcry at the Sea Gate which was done accordingly and the produce pay'd in Consultation, and brought into your Honours Cash, the ballance we now remitt home to be payd by your Honours is Pagodas 960 : 9<sup>1</sup>, which we shall in our currant generall Books write off to account Current London.

65. Our Generall Books ending the ult<sup>o</sup>. April last presents to your view pagodas 71,920 : 32 : 3. gain'd clear of all charges, but Fort St. David's is a heavy article which stands indebted to your Honours in their Books Pagodas 11,740 : 32 : as does Vizagapatam Pagodas 5,659 : 20 : 4.

66. We likewise send your Honours the Account of Sale of the Corall come out on your last shipping, and their produce in what returned by this ship, and the remaining part intended to be sent on the Des Bouverie, its account shall be sent on said ship.

67. We keep this letter open till now that it is the 16th of January and your ship Frederick full this morning as by a writing under the Captain's own hand certifying the same, because we would not have him make the usuall signall in such case by putting abroad his Colours, and firing a gun, for the more secrecy in this matter least the news should reach Pondecherry, whence we wait to hear of the French four ships to arrive, till when, we think it not prudent nor indeed safe to dispatch the Frederick, which we intend, shall be with all privacy imaginable and to our great wonder the Des Bouverie the Susanna, nor the Sherbourn are not yet arrived, which gives us very troublesome thoughts of their staying so long, which we believe must be occasion'd by the French ships being at that Port.

68. We have received into your Honours Cash here of Messrs. William Warre, Thomas Lovell and George Lewis Pagodas five thousand five hundred, for which we have given our Bills of Exchange drawn on your Honours at nine shillings per pagoda at 30 days sight payable to Elihu Yale Esq. Captain Edward Harrison, and Sir Stephen Evance or Order.

69. Your Lead sent out upon the Frederick comes out <sup>ca. mds. v.</sup> 2: 19: 9 short in weight of the Invoice from England, and yet the Tale and number of the Slabbs are the same exactly with what mention'd in that ship's Invoice, and bill of Lading, and the Captain being sent for into Consultation upon this occasion declared he had no other lead on board ship, but what belonged to your Honours and that he received the same by Tale only, and not by weight for which reason we cannot justly charge him with the difference.

70. Your late President Pitt wrote to your Council in Bengall to provide a quantity of Beef and Pork to be salted up and well packed for the use of your Garrison and Shipping, as believing the same might be better and cheaper done in Bengall than here and accordingly they sent us upon the Halifax viz: 7 Leaguers Bengall Pork Ditto English 6½ leakers, Beef of Bengall two Leagers, Ditto English 51 half Leagers Suet 2 Cask amounting to in all rupees 4,629 all of it in such bad Condition, and because of the stink we were oblig'd to lodge in our woodhouse upon the Island, and all the art of Coopers being used by new Pickle could not better the matter, we have putt off ten half leagers of the ill best of it to Captain Phrip at much less than Invoice price, and we may pick out about five or six Cask more that may be tolerable, and the rest we must bury under ground lest it should corrupt and infect the air, all which we have advised to Bengall, and forbid them sending us any more in that kind, which if they do, shall be returned them again, which needs must have happen'd by the badness of the Cask and the pickle leaking out, or thro' the neglect or carelessness of the persons they employed to see it done.

71. The Metchlepatam Merchants continue still their murmuring Complaints of their old debts not being pay'd them as per our Consultation of the 21st July and their Letter to us which is as entered after that day's Consultation to which we humbly referr.

72. The Account of your Broad Cloth damaged comes in our Packet as also Account remains in your Warehouse and our account of what is wanting to be sent us out comes in our flying packet as your Honours direct.

73. We send your Honours in the packet a List of all diamonds registered here.

74. We have gott Mr. Roberts to refund and pay in to your Paymaster and Steward what expended for Palankeen Boys and Table.

75. There have been severall causes that have contributed to the making your Paymasters Books of accounts swell for these last two years above what hath been usuall in the ordinary Course of our necessary charges, and disbursements at other times occasion'd by the Interment of your late President Addison partly on your Honours Account, and partly on the deceas'd's Estate that on your Honours account was pagodas 763: 14. and for Provisions to your late Governour Pitt on his passage home Pagodas 325: 13. besides the frequent recruits of souldiers sent out of late with their Supernumary officers, and the new Peons entertain'd at the time we were at variance with the Duan relateing to the five new villages as

before mention'd, the latter we have reduced to our usuall standing number of Peons, and in all things else we shall be as frugall to retrench as ever possible we can to what is meerly and absolutely necessary, thô your Covenant servants sent out the two last years are numerous, and needs must for that reason increase the charges of your generall table.

76. With this comes Mr. Skingle's account which gives him credit for what received, and the amount of the sale of his goods at York Fort Batavia, and this place, the ballance due to your Honours being pagodas 576: 9: 13 for which summ<sup>e</sup> he sent your Honours his Bills of Exchange drawn on his Correspondent Urban Hall Esq. and Mr. Thomas Clarke, Senior, at 30 days sight payable to yourselves.

77. Now we are speaking of Debts; must advise your Honours Dr. Warren has pay'd into your Cash the full amount of what drawn on him for the permission of passage of his two Nieces come out on your ship Europe, and likewise that Mr. Robert Jones has pay'd 20£ in part of what lent him upon his coming out, and promises to pay the remaining part when his next half year's salary becomes due.

78. Notwithstanding what we have wrote in the 66 paragraph of this letter relating to the produce of the Sale of Corral to be returned one moiety by this ship, and the other moiety by the Des Bouverie, the Trustees of the late President Addison upon second thoughts do not think themselves safe to make any such return by any of the said ships untill they have the Proprietors orders concerning the same to warrant them.

79. We receiv'd letters from your Chief and Council of Vizagapatam of the 29th last month advising that Faquier La Cawn had agreed all differences between himself and the Rajahs in those Parts, and that he was coming with a greater force of horse and foot, and a great train of Artillery with intention to lay a second Siege against Vizagapatam, and that your factory was destitute and in want of all manner of provisions excepting rice, and therefore make earnest application to us for recruits of more Souldiers and a Supply of all manner of warlike Stores Provisions and Ammunition, which we are now doing with the greatest expedition to send them on a Country ship, and your Governour hath sent his letter to Faquiar La Cawn desiring him to forbear all Acts of hostility and remove his army, to send us up his Egipt or Vacuell to agree all matters to a just satisfaction as the same shall appear to right and equity.

80. ABSTRACT OF GENERAL LETTER FROM FORT ST. GEORGE TO THE COMPANY. FEBRUARY 8, 1711. RECEIVED PER SUCCESSE, MAY 26, 1712 AND PER BOUVERIE, SEPTEMBER 9, 1712. [*Coast and Bay Abstracts, Vol. 1, p. 277 (India Office transcript.)*]

1. Their last was of the 27th December 5th, 16th, 25th January 1710 [1711?] by the Frederick. Shee was dispatcht the 27th, the Bouverie and Sherbourn arriv'd the 1st February from Bengall in ten days.

2. Bouverie brought 1,508 Bags Petre what was more than Charterparty proportion Captain Raymond requested might be continued on board his request sent. 400 Bales Bay Goods and 5 Chests of Tincall from the Bay also continued on board She will want about 900 Bales more which are now putting aboard, the French ships in Pondicherry Road hinder the goods coming from St. Davids have in case of necessity ordered those goods in country boats and under country Invoices and Consignments. By the Bouverie received from the Bay 1,000 Bags rice 135 Bags of wheat 49 Jars of Oyle the rest of her lading was Packing Stuff her Bay Invoice was Rupees 3,11,398.

3. Are advised the King William Susannah Concord and Europe will be dispatcht from the Bay in January.

4. The Bay wanting as by their Account about 2,00,000 Rupees to make up the Stock the Company design'd them, shall send it by the St. George yet at Gallee when she arrives.

5. Captain Carnwalls receipt sent for 750 Dollars Charterparty money paid him at the Bay.

6. By the Sherborn received advice from Messrs. Hedges and Russell who dispatcht her, That the Sherborn by her ill Stowage could not take in of the tonnage hee ought 53 Bundles of Gunnys 86 Bundles Ropes 3 Bundles of twine 10 Bales of wax cloth 1 Chest of Sealing wax 250 Maunds of Match.

7. The 2d instant Captain Cornwall being interrogated thereon said being in hast to come away with the Bouverie he had not time to stow the goods to the best advantage.

8. Whereupon sending their gunner and two Masters of Countrey ships on board to survey her, they reported everything in the hold lay confusedly without any manner of good stowage, that with good stowage she might have brought 50 tons more of goods Copy of their report enter'd in Consultation and is also in the Packet.

9. Having supplied Captain Phrip with some small bales as he desired for Stowage on his promise of taking in brown Cloth when he had them he refused the other saying he was full could not have laden home the Heathcote, Summers and Kent if had not sent brown Cloth.

10. Design the Sherborn for the West Coast with Stores wanted some Bales and Treasure to load her for England their best crop of pepper being in March and April intend to send a Supervisor on her.

11. About May last Meer Mahmud of the Race of the Mahomet got the Phousdarship of St. Thoma of the Duan at 7,000 Pagodas a year he took possession the 20th August but finding he could not raise above the rent a Braminee and Gentue Conicoply advis'd him to new measures by which they promised to raise him 3,000 Pagodas more if he would Protect them which he promised on which they increased the Juncans on the road and doubled the dutys on fowls Batty fire-wood Herbage etc<sup>a</sup>, and laid a duty on all Gardens thereabouts if any children in the street quarrelled their Parents must pay a fine for their freedom on which the Inhabitants and Boatmen deserted the Phousdar sett up to determine all matters of meum and tuum among the Portugeez which they refusing he seized 10 of them and imprisond them and made them pay 600 Pagodas for their liberty about Christmas they escaped to Madrass and their Bishop whose house was beset escaped the 2d January on which the Portugeez complained to the Duan against the Phousdar.

12. The Armenians are become numerous and opulent have the sole trade to Manilla, believe they are endeavouring secretly to get the Government of St. Thoma if they should openly do it must rent it for the Company to prevent the lessening the Customs of Madrass no fear from the Portugeez they are so dwindled away.

13. The 3d of September the four French ships sail'd from Pondicherry to Mergy to refitt on the 1st December. 2 of them sail'd to Pegu where they took the Diana sloop belonging to the English of Madrass with a stock of Pagodas 4,500 then sunk the vessell but treated the Prisoners civilly they sail'd thence to Point Palmeras the other 2 Sail'd from Mergy to the Streights of Mallacca the 17th December took a 2 Mast Vessell of 70 Tons one Rigby master and her stock of 40,000 Rupees belonging to Mr. Chitty &c.<sup>a</sup> of Bengall and then burnt her 19th of January they took the Chindadre off Madrass. Mr. Bell Pylot and Barnwell Super Cargo belonging to the natives of Madrass returning from Manilla with 150,000 Dollars and 50,000 dollars private adventure and carry'd her towards Pondecherry leaving her 15 miles off—Sir Andrew Hebert commanded her in and with difficulty obtain'd it the 25th January came the advice to Madrass. With much adoe got the Merchants to go thither in a body to complain and the Governour wrote him a letter also the 31st January she was in open court cleared and delivered back and carry'd to St. Davids and the Treasure landed there in the Fort. The French took and sold 2 empty Dutch sloops.

14. Sir Andrew Hebert commended for his generous behaviour in this affair against his own private profit for the French Company allow him 15 per cent on all Prizes taken and condemn'd at Pondecherry.

15. This 17th February hear the four French ships were at anchor in Pondicherry road the 15th said to be kept by the southerly winds but it is suppos'd they'l stay till the Duan and his army is past by the place where he intends to call in—The Bouverie almost laden they every night send 40 Souldiers and an Officer on board for fear of the French and till they hear they are gone and have other

preparations ashore in case of an alarm. The four French ships have but 1,200 Bales in them and notwithstanding their Prizes will be losers by the voyage this makes them resolute to attempt anything it's reported they will touch at Mascareennas and thence go to the West Indies.

16. Have hired a Countrey Ship at 100 Pagodas a month to carry Provisions &c<sup>a</sup>: to Vizagapatam and 44 souldiers &c<sup>a</sup>: she sail'd the 9th.

17. Reason why did not send the Sherborn because thought to lade her home But the Bouverie taking in more Bales than expected and the French at Pondicherry hindering her being sent to St. Davids and the Captain not having then half his Charterparty N<sup>o</sup>: of Men but he has made them up since this prevented her being laden for England.

18. Have received from Captain Cornwall his Kintlage Lead on the Charterparty terms but he produceing no Invoice of its prime cost could not give him Bills for the amount shall give him a receipt for the weight and quantity of the Lead to adjust the cost in England by.

19. Paddy in the year 1709 was sold at 8 to 10 Mercall a Pagoda is now at 26 to 28 Mercall a Pagoda so that the northern grain boats have not resorted to Madrass but went to Metchlepátam where the ground is better for salt than grain this lessens that branch of the Companys revenue and makes the Renters of the adjacent combine to raise the price. Paddy being cheap at Metchlepatam several corn boats are on their way to Madrass by which means shall break the renters combination.

20. Fourteen days since received Isuph Caun Suba of Gulcondas Letter of leave to send the Present from Metchlepatam to Bengall to Zoodee Caun shall send to examine what part is damaged believing a great deal is by its long lying which they formerly complain'd of its being sent thither and under the Moors power. Have besides other charges paid the Kings Gusbardar 150 rupees a month since August 1709 till within this three months when got rid of him: He opposed Zoodee Cauns orders but hope have surmounted all.

21. Could not dispose the Companys silver this year at so good a rate as did last when the Hallifax and a Danes ship were taken up for China which was at Dollars 16½ for 10 Pagodas only 1 small ship now going for China—A 2<sup>d</sup>: Manilha ship rich is dayly expected will make silver cheap—Have to supply their Cash; sold 32 Chests silver at 16½ dollars for 10 Pagodas nobody offering more as per Consultations of the 15th and 19th instant.

22. The 15th currant Mrs. Foquett and her daughter Elizabeth Browne petition'd against Captain Henry Cornwall for a Contract of marriage he had made with the said Elizabeth anno 1707 at Fort St. George said Petition the Captains answer and their opinion are entered after the Consultation.

23. This is the 22th February and 2 days since received advice from Fort St. Davids that the 4 French ships with a sloop sail'd from Pondicherry the 18th to the southward at 5 that afternoon were seen off St. Davids the 19th in the morning they could not be seen so hoped they were gone but are yet in doubt and in pain how to dispatch the Bouverie.

24. Just now have news the 4 French ships and sloop were seen off Sadraspatam yesterday on which fitted out an empty Brigantine with a boat and Catamaran to make discovery as far as Sadraspatam—Captain Jones commanding her and 5 Catamorans more in the offing on pretence of fishing the 23th Captain Jones wrote word that a Syam ship mett the French in 11° 30' Latitude 20 Leagues off shore who chased and came up with her this confirm'd the news receiv'd from Pondicherry and St. Davids that they would ly in wait for the Bouverie the 24th advised the same to St. Davids who were lading Bales to send up to fill the Bouverie. The 25th the King of Syams Ship arrived Madrass and confirmed the news.

25. The Factors at St. Davids hearing this delay'd sending their bales so that the Season being late to get about the Cape and fearing the French may cruize off Zelion or Mascareennas have resolved to detain the Bouverie till September

as pale Consultation of the 27th Choosing rather to pay Demorage than run  
hazardous so rich a cargo—Shall send Duplicate hereof via Bencoolen and in a  
few days if it overland when the St. George is arriv'd being speedily expected. \*

(*India Office transcript.*)]

2 Consorts who had been in the Streights of Malacca.

5. This comes overland to advise the reasons why detain'd the Bouverie—The

S.E. towards Europe but were seen the 21st and 22th off Sadraspatam cruiz

ship for which reasons they did not think it adviseable to hazard the Bouverie

indifferent voyage for the Freighters for want of Japan copper.
