PREFATORY NOTE

This volume contains the homeward correspondence from Fort St. George between the years 1719 and 1727. The original Despatches relating to this period are not extant except a few contained in the fifth volume of the series "Despatches to England." The bulk of the volume, therefore, consists of matter supplied by the courtesy of the India Office from their volumes of "Coast and Bay Abstracts" to fill up the deficiency here.

The manuscript volume referred to above, though fragmentary, has been carefully mended and is in a fair state of preservation.

The Danes admitted the ship to Tranquebar being necessitous, the Letters will show how zealous the President was to prevent it, he obliged the black Merchants to make their factors at Tranquebar to quit it and retire to Coddalore, the Danes highly resented it as per Governor Bruns letter, she is yet there but has don no business having but little stock, apprehend they will turn pyrate but the Captain is of St. Mallo's and has a good character from the French, he is treating with the Nabob to settle near Trivembore 5 leagues to the southward of

Madrass, the President has had the place survey'd and found it improper, the ship has not stock and the Moors will not launch out money to go thro' with it, will do all they can to prevent it. They have 200 Bales unsold in Town and much in the Countrey, the Coral for dyamonds will not sell for prime cost and Charges Benzoin and camphor 3 years since were valuable will not now sell for half so much, trade can't mend till plenty restor'd.

Advis'd last year the Inner Fort was finisht, Warehouses and Charles's Bastion now building hope will be compleated, this season will engage in nothing further without an absolute necessity as there was for these. Extraordinary charges Anno 1717 arose from extraordinary Circumstances such as, The Presidents Journey to St. Davids, Receipt of the Phirmaund, Entertaining the Gurzburdar, Taking possession of the Villages, War with the Moors, Encrease of the Garrison against the Countrey Government, with whom had not a settled peace till the next year, are now retrenching the Charges as fast as safely can by reducing the Military and Gunroom which had been kept full, expecting Orders about Dieu Island, would be most dangerous to reduce this and St. Davids Garison as limited considering the present state of the Countrey Government in the supplement

64. Shall send a List of the foregoing years Revenues by the January shipping when the Consultations don't come on the same ship.

Originally the Town Conicoply had it who kept a Register of all Importations, but about the year 1692 was added to the Companys Revenues and the Town Conicoply had 100 Pag^s. a year sallary out of it, will pay that duty into Cash after the Charge of Hospitall is defray'd tho' it seems contrary to the Charter, as to spending the Town Cash in feasts know nothing of it nor has it been don for Several years past, nor any Misapplications of money due to the Mayors Court nor any small dutys formerly paid to the Church disused what arises from Mussoolas going to or from ships on Sundays is taken yearly by the Churchwardens out of the Box the sea Customer puts it into.

Sorry should be censur'd for not having a sufficient store of Rice before the famine, when Mr. Collet came to the Presidency had no store of Rice tho' then great plenty, because the Inner Fort was not built and had no storehouses for Grain and were greatly in debt, when the next supply came it was too late, if had had Godowns the Grain Merchants would sell at no rate, till the President prevail'd at last to sell at advanced prizes then wrote to all parts and encourag'd the black Merchants to import all they could had not 3 months stores in all the Town, by their Vigilance to get in supplys have kept the people alive but fear another years famine.

80. President necessitated to have a great Retinue to Fort St. Davids and always customary for the Paymaster to defray the travelling charges of all, so that can't see the extravagancy of it, Expence on proclaiming the Phirmaund occasion'd by entertaining above 400 Moor men were 2 days taking possession of the Villages, reason for giving the Gratuity to the souldiers was to encourage them in future in case of more attacks which were fear'd, will avoid the like expences in future as much as possible since disliked.

3. We hope the diligence and care that has been taken, in the sortment of the several Goods now sent will meet with your approbation, and as we daily expect orders from Fort St. George, for entring upon a new investment we shall use our utmost care and endeavours! and be very glad if we can prevail with our Merchants fo[r] a compliance for some abatement in the prices of their goods, in hopes Cotton may be still cheaper, then it has hitherto been.

4. Your late Deputy Gov^r. Francis Hastings Esq^r. removed to Fort St. George the 24th of Nov^r. last, in order to succeed Gov^r Collet, in the Government there upon his departure for England and thereupon resign'd the Deputy Government of this Place to M^r. 5. We are going forward with the necessary buildings, which were orderd when Gov^r Collet was here with all possible frugality and expedition, and we hope all will be compleated in eighteen or Twenty months time at farthest M^r. Way was sent hither from Fort St. George in November last to take an exact Survey of the progress w^{ch} had been made therein and what remain'd to be done. And we begg leave to refer Your Honours to his report thereof which with an Acco^t of the buildings comes inclos'd in the Pacquet. He is lately returnd, to us again, to forward them as fast as the necessary materials can be provided, that there may be an end of that heavy charge to Your Honours as soon as possible, In some of Your old buildings Palmeras having been to much used, hath occasiond a great expence in repairs, the white Ants haveing prov'd very destructive thereto.

twelve fanams ꝥ Annum is in good hands, and we thin[k] there is no danger in contracting any bad debt on that acc[ount] but it happen'd no body was inclin'd to accept of the Arrac[k] rent upon the usuall terms this last year, w^{ch}. is therefore at present under the care and management of Mess[] Berrim[an] and Wright and produces abo^t twelve hundred Pagod^a ꝥ Annum.

8. We should be well pleas'd if our best endeavours could encrease those branches of your Revenues [under] your sea and land custom of Tevenapatam and Cud[dalore] by enlarging the small trade we have for employment [of] shipping which might in time multiply the number of our Inhabitants and contribute somewhat thereto. You[r] servants here both Civil and Military are in good health [&] order in which disposition, we shall endeavour to preserve [them].

9. Inclos'd are muster Rolls of our three companys of soldiers wth the monthly charge of each Company and that of the Gunroom crew all sign'd by the respective and proper Officers together with a List of Burials and Marriages &c^t. of your covenanted servants in this place.

96. Thô they did not think it proper to enquire publickly into the Charges against Mr. Collett, yet find on examining some of the supposed injured Persons most of the facts are false and suppose the rest so too, Mr. Collett has answer'd the scurrilous libell under a fictitious name pointing at him in Par^a. 78. per Marlbrô, believe Mr. Frederick was the Author of that and of the Representation he sign'd, have just reason to reckon him prejudiced, and not to believe a word he says, if defamatory reports of servants abroad are believed at home before proof made, how can they go thro their business chearfully, hope when the Company are convinced how much Mr. Collet has been abused they will not again receive wrong impressions again of their servants, Mr. Collets absence prevented their Executing the Commission of Enquiry and the Powers from Chancery to examine Witnesses thought as per Consultation 4th August, Mr. Jennings present sent for from St. Davids being one named in the Commission, he will return in few days.

Gilbert got safe to Bombay and Mackray arriv[']d soon after with 50 of his men in a ship calld the Fancy a prize w^{ch} the Pirates had Taken from The Dutch and had giv[en] to him. The apprehensions w^{ch} we told you we were under in the 46th Paragraph of our letter by the Godfrey, are now too just. Before Cap^t. Mackray had arrivd att Bombay the Ship Cassan[dra] and an other very large Ship with two tire of Guns, were Cruizing Upon The Mallabar Coast, and had taken a rich Ship in her pas[sage] from Judda, to Surat, belonging to the Merchants there, whi[ch] so Exasperated them against the English Thro' a false notio[n] they had Imbibd, that none but those of our Nation were Conce[rned] In the Capture, that they had form'd a Resolution to Reprize up[on] Any of Our Ships, that should happen To fall in att Mocha, [or] Judda, the Ensuing Seasons besides This, they had made Application To the Gov^r. of Surat, and demanded Restitution fro[m] The English, w^{ch} put our people under Great apprehensions o[f] having Their Factory Block'd up, but the Gov^r. there absolutely refusd to comply with their solicitations, unless they would give him security, that they would be answerable, for any ill Consequences That might ensue, remembring Well what hapned on a like occasion some years ago. M^r. Hope y^r Chief There has pressd Gov^r. Boon to send him some releif, and wee are informd that two of yo^r ships, were Orderd to Lye att the Rivers mouth for Their Assistance, but Later advices Say that the Merchants are now pretty Easy.

4. We have Yett a much more Meloncholly account to Lay before Yo^r Hon^{rs}. Gov^r. Boone (Notwithstanding the Loss of y^r Ship S^t George, who stranded as she lay on shore) had musturd up all the Force that he could possibly gett together, which

consisted of 2 Europe ships 5 or 6 Grabs, besides Galivats and the Prahm, and these were sent under The Direction of Mr. Brown one of the Council there, in order To Bombard Geria, one of Angria's principal Fortifications, They Lay before That place some days with very good Success, having burnt Severall Grabs and Galivats, and landed a body of men, who after having killd abou[t] 130 of the Enemy, and found their Numbers too powerfull, retreated in good order, wth the loss only of an Ensign and about 12 [. . .] Departure they unfortunately mett wth the [. . .] [Bija]-pore, who passd thro' them, and [one line lost].

5. Wee beleive The Execution that was done against Angria by burning his grabbs and Galivats may Eas us of any apprehensions We should otherwise have been under of Danger from That quarter at least for This Ensuing season, and we are in hopes that The method wth Gov^r. Boone, has lately Taken against the Pirates, will be a very great security to our shiping now abroad, for wee are Inform'd by Letters from Surat, that upon hearing from Capt Mackray, that the Number of men on board both of them, did not Consist of above 300, he has reinforce'd his Geria fleet, and sent Them against Them, with what addition of ships and Vessels he could make, with a full resolution to destroy them and we're in great hopes that the rich booty on board Them (No less by Computation then 300000£) will Encourage the People to Exert themselves on this Occasion, Wee are since Inform'd That the Two Pirates before mention'd, with one of Their Prizes (as wee suppose) were att the Laccadivie Islands, where They gott on Shore, Carousing, & drinking, that amongst the rest of their mad pranks, they Plunderd the Natives, and sett Fire To their Habitations, and while this was doing a storm arose, and drove'em from their anchors which obligd Them to leave about fifty of their men on shore, and we are in very great hopes that they will be all Cutt of by the Natives.

6. This Together with the late arrival of our Ship Britannia from Siam makes us under much less concern then we were for the safety of Our Shiping, Employ'd in the most material branches of our trade, wee mean the several ships Expected from China, amongst w^{ch} is Yo^r Hon^{rs} ship Bridgewater, who saild thence the 1st of Decemb^r according To Yo^r Orders, and is daily Expected here, add to these the ships wee Expect from Manilha, Siam & Macao, all w^{ch} must pass Thro' the Streights of Malacca; as not being preadvisd of the Danger of Pirates lying in wait for them. Tho that [is] the place where Every one Expected the scen of his misfortunes to be laid: But Capt: Powneys arrival, has att length removd our fears.

7. All Yo^r Hon^{rs} Ships bound To China [T]his last season were arriv'd Yo^r ship King George was at Batavia in July last, and about To proceed for Ben[jar] she was then commanded by the second [ma]te, The Capt. and Chief mate being dead, [. . .] in any Tollerable Time [we] shall dispose [. . .] the Bridgewater, for [one line lost] and That would be of the last ill consequence, after the late misfortune att Johanna, att which, or one of the neighbouri[ng] Islands they would be oblig'd To Touch, in case of such an accident and Tis Odds if they did, but They mett wth ye: Cassandra's fate.

8. All the ships on the other Coast are like To be Employ'd in Warfare This year, and Gov^r. Boone has fitted out a Brigantine, w^{ch} he is now sending To Yo^r Hon^{rs} as an advi[ce] Vessel.

9. Yo^r Ship Princes Ann met with a very qui[ck] dispatch from Mocha in July last and was seen of Goa the 15 of Aug^r last.

10. The ship formerly call'd The Heathcote (now the City of Vienna) mention'd in The 7th parag^h: of our Letter & the Godfrey arriv'd att S^t. Thoma, tho' very late the last season, and proceeded to the bay, were she has been very much hampe[r'd] and we are inform'd she will hardly be able To do her business time Enough to return this Year. The other Interloper call'd the Greyhound Winterd wth one of the French ships at Merga; she is now att Covelon, and is like, to gett a loading of about 400 or 500 Bales.

11. Yo^r Ship Cragg's after being refitted att the Bay, was upon Application made To the President & Council there, restor'd to yo^r Service, and was design'd to be dispatched home in Company wth the Cardigan about the 15th of Decem[ber] The Duke of York wee are advisd was to follow about The of 30 of Jan^{ry}.

12. By Letters from England (Via Bombay) we are advisd that upon the receipt of the Meloncholly account Of the West Coast affairs, Transmitted you by y^e Queen, and Dartmouth Yo^r Hon^{rs} had order'd the Hartfor'd, to come directly from S^t. Helena hither, just as wee suggested; she is not yett arriv'd, but we hope before The Departure of our latter ships, att least to give you some account of her.

13. By advices from Surat we learn that an Ostender about 200 Tons arrivd there the 23^d of Oct^r last with a stock of about 10,000£.

14. Of the 150 Pipes of Madera Wine sent by [. . .] rec^{iv}'d no more then 120 full 30 being leaked out [. . .] Bay 10 To Fort S^t. Davids, 10 to Bombay [one line lost] and we find no reason hitherto To complain of their Quality.

15. Wee acquainted Yo^r Hon^{rs} in our last letter that we had disposd of the Silver, that came by the Duke of Cambridg att 15 doll^{rs} for 10 Pagodas we have since disposd of what remaind att 15 $\frac{1}{8}$.

16. We have purchas'd about 50 Ton of Couries more, for Yo^r Hon^{rs} account, and laden them on board The Cardonnel, we design'd her home in October with the Craggs Frigate, and wrote to the bay to have that ship dispatch'd to us accordingly, but Yo^r President and Council there did not think fitt to send her hither, at that time of the Year, and their answer did not Come to our hands till it was too Late To begin To lade the Cardonnel wth safetv, the monsoon approaching and bad weather being Expected, under These Circumstances we thought it proper to Order her out into 20 fathom water where she lay till the Danger was over, the Capt: requested in writing the Custimary Kintelage from hence, being willing to Carry home his iron Kintelage, upon his owners account, and we granted that request, as you may pleas to Observe in our Consultation of the 17th of October.

17. In the supplement of our last letter, wee acquainted Y^r Hon^{rs} that so soon as the ships then on their departure were sail'd, we should enter upon the Conditional Contracts here, and at Fort S^t. David, but did not when we wrote that letter Imagi[ne], wee should meet wth so much difficulty in bringing our merchants To a Compliyance, as we afterwards found, In our Consultation of the 5 of Sep^r. wee Call'd in both setts of merchants, seperately, and offerd the Investment To them, but instead of accepting it, desid^d leave to demure upon the matter, they afterwards absolutely refusd To Contract unless we would advance the prices of the Goods on pretence of the large demands, made by the French and Ostenders. Our President thereupon made Enquiry if there were not any Other Merchants of substance in the Place, who would be Willing To Undertake a Contract, wth us for the severall sort of Goods we [w]anted att the usuall [pr]ices, This was not Easily Effected, b[eca]use [our two setts had] Entered into a secret Combination [to . . .] Our Investment att [one line lost] however att Length (Tho with much Difficulty) perswad[ed] Gongeram, and Amarashatacker son of Ninatacker two of the most substantiall Guzarat Merchants of this place, to Engage for about 2000 bales, to be provided part by the End of September next, and part by January following. Our Chittee Merchants no sooner heard of this Engagement, but they immediately flew off from their former Agreement made wth y^e right hand sett (as thinking they had carried the matter a little too farr) and presently struck in with Gongeram &c^t. for some shares of the Investment. Suncah Ramahs people were very much confounded, to find themselves Thus left in the Lurch and they who were before so much courted by us to Enter upon the Investment, now Courted us as much to let them undertake it, but tho' we were Enough sensible how great an injury they had attempted to do us, and how ill the Consequence would have been to yo^r affairs had the[y] succeeded, in their Purpose, yet we did not think it prudence, to show any great signs off Resentment, att so Critical a juncture, when there really was a large demand for goods, both from the French and Interlopers tho not so very large a one as they would have insinuated To us, we therefore Concluded a Contract with them for about 2000 bales more as

yo^r Hon^{rs}. may pleas to observe in our Consultation of the 1st ultimo, that w^{ch} Gongarem [*&c.*] New merchants engag'd in is Enter'd after our consultation of the 24th of Novemb^r. we doubt not but yo^r Hon^{rs}. will highly approve our Presid^{ts} Conduct on that occasion, in circumventing a design w^{ch} If Effectuated, would have been of so great prejudice to yo^r affairs as to have hinderd the dispatch of the Major part of yo^r shipping yo^e next year, unless we had comply'd wth their Extravagant demands, and rais'd the prices of the Goods, which could not Easily have been lowerd again.

18. We have likewise concluded a Contract wth our Merch^{ts} att Fort St. David for 3146 bales more at yo^e usuall price[s] we were oblig'd to consent to their providing 1000 pieces of fine Long Cloth, 2000 pieces of midling Longcloth, & 8000 p^{s} of Wariapollam L. Cloth by way of a few fine goods for their Encouragement, w^{ch} we think is not of much signification all things consider'd, M^r. Jennings Yo^r Dep: Gov^r. return'd thither with 40000 pag^s to carry on the Investment there a few days after the Hannover and Godfrey were sai[ld] from this place, and we cannot but do him The just[ice...] has been very active and diligent in Ex[...] in a large [*one line lost*].

19. In the 50th paragⁿ. of our letter by the Godfrey we gave Yo^r Hon^{rs}. some hopes of our being able to prevail wth the Chity merc^{ts}. to resign The Paper of Security taken from them on account of their revolt to S^t. Thoma the next day after the departure of Yo^r Ships Godfrey & Han^r we calld upon them in consultation for That purpose, they than desir'd time to Consider of it, and a few days after when we Call'd upon them again, instead of giving us a definitive answer, they desir'd leave to deliver in a paper of remonstrance concerning the differences w^{ch} happed between the Quomity's and the Chitty's about 4 years ago, we suppose this was done wth a design to Evade as much as possible their coming To a Compliance, however we did not think it proper To refuse them the doing it, tho' have not as yett deliverd it in, when it Comes before us, wee shall be very cautious how we act in so Critical an Affair, the drift of it, we suppose being intended only to revive the Grounds and Occasions of yo^r quarrell, wth the reasons formerly given in their defence that so by Endeavouring To obtain and assert the justness of that Cause on their side, they might insinuate the little reason there was for taking that paper of security from them before, and Consequently how little There is for Insisting upon it now.

20. In our Coⁿs of the 17th of Oct^r. last, Our Warehousekeeper acquainted us that the dyers refus'd to undertake to dye the remainder of the long cloth contracted for in March 17¹⁸/₁₉ and in June 1719 att the former rate of 8 pag^s p^{s} Cordge unless we would advance the prices 50 p^{s} C^t on account of the Indigo and other Ingredients bearing a proportionable price. Our W H Keeper further represented that there were about 2500 p^{s} of Cloth remaining in yo^e Godowns w^{ch} should have been deliver'd the dyers by his predecessor many months before, when those Commodities were not so scarce and dear, and this we would not but think a very great piece of neglect in the former Warehousekeeper, tho' we were under a necessity of Consenting to advance the prices, as knowing they were [advancd] ab[out] 50 p^{s} C^t when they Insisted on it,

[21]. [...]ill take due Care to reduce [*Two lines lost*]. Remorse to that affair was their being in a manner Oblig'd to accept the broad Cloth on hand in part of payment for their Goods as the others us'd to do, they pretended that att pres^t there was little or no vent for that Commodity in The Country, and yo^t it would be almost a dead loss to them for this reason (w^{ch} we knew to be too just) we thought it proper to Exempt them from taking of any broad Cloth, till the shiping Expected in July next should arrive, reserving w^t is now upon hand for the 2 setts of Merch^{ts}. yo^t Contracted in Feb^r. last.

22. In our letter by the Godfrey we gave Yo^r Hon^{rs}. some account of the state of the country Government the 2 Sied Brothers at that time had in a manner gott the whole Empir[e] into their possession, the Young Prince call'd Mahomet Sha[h] whom they had set up as a Competitor for the Kingdom, Finding at length that he was in Effect but little better then a Fool made use of by them to accomplish some Dark design, & recollecting how many of the Royall Family they had Vilanously betrayd and Murderd, he formd a resolution To cut them of[f] by Stratagem, w^{ch} he brought

about in The following manner, The 2 Sied Brothers had no sooner gott the Power into their own hands then They began to Exercise the regal Authority, and to place and displace as they saw occasion, amongst others they turn'd out Chickley Cawn who was Nabob of the Hugian Countrey, and order'd him To Court, but he refus'd To Comply and wrote To the Rashbootes to desire their Assistance, whereupon they sent him 15000 horse, and a Lack of Rupees to defray his Charges, advising him att the same time to go and take possession of Aurengabad and seize upon Allum Alle Cawn (who was deputed Gov^r. there by Hussenally Cawn when he went from thence to Court) Chickley Cawn did accordingly, after he had kill'd Allum Alle Cawn in the dispute, he then reinforc'd his army, and Call'd in all the auxiliary Troops that were in the service of the Rajahs of the Connata Country, wth this united strenght he march'd Towards Agra to Encounter the 2 Brothers, who were raising at y^e same Time all the recruits they could possibly gett together, the [Rashbootes in] great Numbers joi[n]d the former, and the Mora [...] when C[hick]lys Cawn was advanced [*one line lost*] invited the King t[o] [*one line lost*]. But att the same Time he sent a private message To Chickleys Cawns Brother, who lay att a little distance from Agra with 15000 Horse, to assure him he was heartily Espous'd to the Interest of Chickly's Cawn, and that he might not fail of a favourable oppertunity to cut of Sied Hussanally Cawn, if he would follow his directions, and come To him in his Tent where Hussanally Cawn would be wth him, whenever the Army's mett, accordingly The next day There was a private Conference held between them, and as they were walking together the Younge King gave Chicklys Cawns Brother the private signal in his Ear, upon wth he immediately drew His [Scymitre] & kill'd Hussanally Cawn, the King then dispatchd back 10000 horse To Agra, to seize and Confine Abdulla Cawn, who remaind there to secure their retreat, in case of any accident, but he being apprizd of what had hapned, and of the Kings design against him march'd away to Dilly with 25000 Horse, before those forces could reach him The King hearing of his Escape, dispatch'd away 30000 Horse under the Command of Mahumud Amean Cawn, To attack him there, and he himself followed soon after, with a force wth joyn'd wth the Rashbootes, consisting of 100000 more, but before The King came up, Mahumud Amean Cawn, had defeated Abdulla Cawn, and taken him prisoner when the King came to Dilly he orderd him to be cut to pieces forthwith, His place of Grand Vizier he gave to Mahumud Amean Cawn, as a reward for that Extraordinary service, and the Place that Sied Hussenally Cawn possess'd wth was the Subahship or Princepality of Aurengabad he Gave to Checkly Cawn, but we are lately advis'd that Mahumud Amean Cawn chusing To serve the King in the military, rather then the Civil way, and being better qualified for it, as having been educated in the army, The King made him Generalissimo of His Forces, and Gave the post of Grand Vizier To his Favourite Chickley Cawn, who was the Chief Instrument of this laste Revolution.

23. In the 45th parg of our letter by The Godfrey we gave yo^r Hon^{rs} some Hopes of the return of Plenty from the prospect we then had of [wind] and seasonable monsoon by the large quant[ity...] Early fallen, we have now the pleasure To [. . .] have succeeded, Even [*one line lost*] Grain is fallen above one hundred R C^t Rice wth was [formerly] att 80 pag^s R Garse now selling for no more then 39 [...] being reduc'd in proportion, This return of Plenty would Certainly restore the trade of this place, to its former Life, were [it] not for the too just apprehension of Pirates in these seas, wth discourages the greatest part of our Merchants and Inhabitants from Venturing their Estates abroad, at so precarious a juncture, the ill convenience arising from this misfortune is but too obvious; Our sea and land Customs must inevitably sink, unless that evil is remov'd, wth wee think cannot be done Very soon if yo^r Presid^t and Council of Bombay shou'd fail in The Expedition Lately Set on foot.

24. The seasonable rains we have had Will undoubtedly have The desird Effect wth regard to letting out the Villages at Egmore, &c^t and the Fishery to farm, as for the Latter we have been oblig'd to let it lye altogather useless ever since it was rejected by the rentors, The former was Committed to the Care of M^r. Stephen Newcome, one of yo^r Covenanted Serv^{ts}, who has been very industrious in the

management of it as yo^r Hon^{rs} may be pleas'd to observe, when he brings in the account of its produce, considering the disadvantages that Farm has for these four years past lain under.

25. In our letter by the Godfrey we Told yo^r Hon^{rs} that we intended, to set about inventing some new method wherby our charges might be retrench'd, so soon as the ships then about to depart were saild, as beleiving by that time, we shou'd be pretty well disengag'd from business, Notwithstanding we have since by one accident or other had our hands pretty full We have several times seriously thought upon the business you propos'd, but we find it a thing impracticable to fix any Stint or Limit To the disburstments of our Paymaster, or the Expences of our Steward, on account of Unforeseen accidents, y^t will inevitably happen, Tho we cannot tell at what time, & the case must undoubtedly be the same wth respect to our subordinates. Our President never fails To give The Paymaster the necessary injunctions att proper times, in regard To frugality, and he frequently himself inspects the Stewards accounts, which [we think] is the most y^t can be done att present besides we [. . .] charges in both begin to decrease, and from [. . .] shall in time be able [one line lost] Very considerably increas'd by so doing) He means wth respect to the article of Europe Liquors, which is a prohibition laid upon none of your servants in any of Yo^r Principal Settlem^{ts} besides our selves (as we can learn). Our late President M^r. Collet was so discourag'd at the receipt of y^t Order, that had he not been determin'd to go for England so soon after, he was fully resolv'd on that account to throw up the Table intirely: but our now President M^r. Hastings, is desirous of supporting it as much as Possible, Tho wth so great a disadvantage to himself; as being very unwilling to do any Thing that may tend to the deminution of y^r Credit, whilst he has the Hon^r to continue in yo^r Service.

26. On the 22^d of September M^r. Thomas Bulckley Sen^r Merchant, deliverd us in a Petition desiring leave to lay down yo^r Service, and return for England w^{ch} we granted, Accordingly, and he takes his passage on the Duke of Cambridge, we Supply'd his place of head Searcher at the Sea gate, by placing M^r. James Hubbard There.

27. On The 26th of Sep^r last, Died M^r. Charles Davers One of Yo^r Covenanted Servants, he left a Will w^{ch} was prov'd in Consultation the Same day, Wherein he appointed Mess^{rs}. Sitwell and Oadham his [Excecutors].

28. On the 17 of Nov^r the Commissioners appointed to Examin into the dispute between yo^r Hon^{rs} and M^r. Chitty concerning M^r. Raworths affairs, deliverd us in a Petition desiring y^t. Mess^{rs}. Burlu, Berriman & Capⁿ. D. Morgan and Ensign Caudel, might be orderd up from Fort S^t. David, to answar to some Interrogatorys Necessary on y^t occasion, we comply'd wth their request and Wrote for them accordingly, they are now upon the Place, and will return, so soon as they have accomplish'd The business they came upon; tho' we beleive it will not be done in time for the Commissioners to transmit a full account To you of their proceedings before The departure of these ships, if not, we hope it will be compleated soon Enough to be sent you by the Bridgwater.

29. Having receivd an order by the last ships from Edward Harrison and [Osmand B]eavoir Esq^{rs} and the Rev^d George Lewis Executors to the Estate of Mary Fleetwood, deceas'd to remit them the [. . .] of that Estate by bills of [. . .] [. . .] have According^{ly} [one line lost].

30. We have given permission To Marcus M^oses Free Merchant to come home upon the Mary, we have also ꝑmitted M^r. Thomas Theobalds free Merchant to Embark wth his Family upon the Derby, on Whom takes his passage M^r Edward Bell, we have also granted Major John Roach ꝑmission To take his passage wth his family, on board y^e Cardonnel and we must do him the justice To Say, that he has been an old and Faithfull Servant To Yo^r Hon^{rs}.

31. In our Consultation of the 22^d Ultimo M^r John Hill Y^r late chief of Mocha, delivered us in a petition desiring leave to Embark for England, our ꝑsident thereupon took occasion to Enquire of him concerning The manner of his leaving that

place, and whether, he had a Certificate to produce for his discharge from yo^r Hon^{rs}. Service, we thought this necessary To be done upon acc^t. of our having heard, that a Supra Vizor was sent thither from Bombay to inspect into his management, who died soon after his arrival, and in all probability before he could Effect the business he went upon, in answer thereto Mr. Hill declar'd that he laid down the Com^p. Service, as many other[s] of their Servants had done, or might do, and that M^r Say who succeeded ch^{ief} there did wth himself Sign the books of accounts interchangeably, upon delivering the Ballance of the Cash over to him, M^r. Hill however promis'd to commit these reasons to paper, against the next consultation, when they were receiv'd and read, but y^e board judging them to be disrespectfull, suspended giving their answer to his request till the next Consultation, when he came and made an Apology, for what we took amiss, and thereupon we consented to lett him go for England, he takes his passage on your Ship Mary.

32. On Generall Books consultations & Other Necessary papers come by one Of these conveyances, as also Our ans^wr to y^r Accomptants letter last receiv'd.

33. Several of y^r servants having occasion to remit mony home, by this opportunity, and desiring liberty to pay it i[n] to Your Cash, we comply'd wth their request, and have given them bills on yo^r Hon^{rs}. for [the] same [a]t the usual Exchan[g]e which are as follows Viz—

34. We cannot as yett give yo^r hon^{rs} any account of your affairs upon the West Coast more then what was transmitted you by y^e Godfrey having not heard any thing from thence since that time, M^r Pike had strict orders to dispatch the George Brigantine to us immediately upon his arrival there and it is now upwards Of four months since his departure from this place, we suppose the Hartford will bring us yo^r possitive determination concerning the resetling Fort Marlborough we know not what to say, concerning that ships being Absent so long.

35. We are Glad to be able to acquaint yo^r Hon^{rs} at length of yo^r ship Bridgwaters arrival from Canton on the 9th Instant, she has brought a large quantity of Tuthenague, some Tea of Different sorts, about one thousand pecull of Allum, a few silks, and a little Gold, we shall dispose of such of the goods here, as we think will turn to most advantage, sending the rest to y^e Bay, and reserving the Tea for the Europe Market, M^r. Sommers the Chief Supra Cargoe died in his passage hither from Canton, Mess^{rs} Morton & Carter are a[rriv'd] there safe, we have orderd Cap^t W[ilki]nson the Commander to use all Possible dilligence in Shif[t . . .] getting her in a readyness to take in a [. . .] [. . .] dispatch her in time to sail [one line lost] in Company, But the Duke of Cambridg and Derby being likewise in a readyness to sail as soon, We have determin'd that they shall

all goe together for their mutual security, Especially since there are Pirates suppos'd to be lying in wait to intercept them in their way, The Commanders of the several ships, in order for their better security have apply'd to us for about 25 soldiers each promising to leave them either at the Cape or S^t Helena, to be return'd to us by the Outward bound shipping, but upon Examination into the state of our Military we find that instead of being Able to spare them one Huundred Europeans on this Occasion, we very much want A recruit of double that Number, and therefore must desire Yo^r Hon^{rs} to supply us the first Oppertunity.

36. When Cap^t John Powney was about to go for Siam in our Ship Britannia this last Voyage we advanc'd him twelve hundred pagodas (being what the China Junk produc'd at outcry here) and gave him power at the same time to accommodate the dispute about that Vessel (with the BarcoLong of Siam) in the best Manner he was able. He has since his arrival deliver'd us in an account of his having put an end to that affair for the sum of pagodas Two thousand four hundred and fifty and taken a discharge for the same, wherefore we have paid him One thousand two hundred and fifty pagodas more, which together with the twelve hundred before advanc'd him makes up the sum of two thousand four hundred and fifty pagodas, we thought proper to signify the same to Yo^r Hon^{rs} as soon as possible, because that the money that was deposited in your Cash here (w^{ch} the China Junk & Cargo produc'd) was divid[ed], amongst the proprietors Before Cap^t Powney arriv'd so that the aforementioned sum of Pag^s 1250 must be deducted out of the produce of the Tea, w^{ch} was rec^d. and sold by you in England.

37. Since the foregoing part of this Letter was wrote we have receiv'd advices from M^r Adams at Callicut under Date of the 27th of December [i]nclosing a declaration of one Cap^t Fauke [who was taken by the] Pirates in a small Vessel of that Place [. . .] four days on board the [one line lost] After that was accomplish'd to return to their Comrades at Madagascar, there to refit and from thence to go to the Southseas, the ship in Company wth the Cassandra formerly belong'd to the French, and is call'd the Victoria command[ed] by one Tayler, the Commanders name of the Cassandra is Seager, and the Quarter master of both these ships is Call'd Cap^t England, the Victoria is said to be very leaky, and the Cassandra very foule they were both short of fresh provisions, but it is said they have been very plentyfully supply'd at Cochin and we have no little reason to beleive that report to be true since they publickly declare they will not meddle wth any ships belonging to the Dutch, Our ship William from the Bay, bound to Persia, very lately had a Fortunate Escape, having been chasd by them So closely near Cochin, that she was oblig'd to run ashoar there. But it is not apprehended she is in much Danger the ground there being very soft and Oozy, Cap^t Fauke assures us that the Pirates are very scanty of Powder, so that together with the Other disadvantages which they now lye under, it is to be hop'd they will shortly be oblig'd to return to Madagascar. But even then the misfortune is not likely to Cease, there being by his account an other Ship of Forty Guns refitting at Mayotta w^{ch} in all probabilyty will be with us th' Easuing season, so that we are likely to be [continually] infested wth some or other of these rogues untill we can have some assistance of men of War from Europe, to destroy them utterly, we have taken all the methods we cou'd think of to Secure our ships now abroad, and have Lodg'd letters of advice at Gaule, where those from the Bay intend to Call, and Mess^{rs}. Adams and Gyfford yo^r Chiefs upon the Malabar Coast have been very assisting to us upon this occasion, as well in sending us perticular accounts of all that hapned in relation to the Pyrates where they are as also in taking Care to lodge intelligence at Gaule & Columbo, for the security of such ships as shall touch there for advice, or otherwise.

38. We have press'd our merchants very much to give us in a list of broad Cloth to be sent from England Chiefly to be taken off by them as usuall, but we cannot possibly prevail wth them to Engage For any quantity at pr[es]ent, tho we hope to bring them to a Compliance in time to [send] the [. . .] Bridgwater.

39. [. . .] wth. we send upon [one line lost] and forty Cash. Ship Mary's Invoice amounts to Pagod^e one hundred thirty seven thousand Eighty four 12 fan: forty Eight Cash & Capt: Richard Holdens register of goods by her to Pag^e. two thousand three hundred thirty two. 40. M^r Symonds's reasons for not Complying with his Contract as refer'd to in Our answer to yo^r Accomp^{ts} letter were annex^d to one that was sent us from Vazagapatam Dec^r 23^d 1714. A Copy whereof you have already rec^d in our letter book, and therefore there is no Occasion to send another.

41. As [w]ere reading this letter yesterday in the afternoon, in order to sign it Y^r Ship Hartford Cap^t Nelle came to an Anchor in this road, we open'd Yo^r Packet by her this morning and perus'd yo^r short letter to us under date [lacuna] as Also a Copy of yo^r letter to the West Coast, we immediately form'd a resolution to dispatch her hence in Company wth the Bridgwater and shall use all possible dilligence in the Loading them, that we may be able to gett them both in a readiness to sail wth the French ships from Pondicherry.

42. We are advisd b[y t]he Hartford that there is not a [peace wth] Spain actually declar'd, but only a [some words lost] as well as that of the [one line lost] the [. . .] them all amount to a very considerable Value no less then Four hundred thousand Pag^e & upwards, we wish them a safe & speedy passage to your Hon^{rs}. & are with unfeign'd truth.

GENERAL LETTER FROM FORT ST. GEORGE TO THE COMPANY, DATED
FEBRUARY 11, 1721. [*Public Despatches to England, vol. 5, pp. 67-71*].

TO THE HON^{BLE}. COURT OF DIRECTORS
FOR AFFAIRS OF THE HON^{BLE}.
UNITED COMPANY OF MERCHANTS
OF ENGLAND TRADING TO THE EAST INDIES.

HONOURABLE

1. We wrote your Honours very lately under 20th of the last Month by yo^r Ships Cardonnel Derby Mary & Duke of Cambridge who were all Dispatch'd together that day & Sail'd in company for Great Britain the day after this comes by yo^r ship Bridgwater in Loading of whom we have us'd the utmost Expedition we were capable of that she might get away in time to save her passage round the Cape, which we doubt not she will Effect: Yo^r ship Hartford is likewise in great forwardness & we hope will follow in 10 or 12 days at furtherst. The Commander of the latter represented to us that he thought it would be hazardous to venture round the Cape at so unseasonable a time as it would unavoidably be before he could possible get into the Lattitude of it, whereupon we duly weigh'd and consider'd his Reasons, together wth your Orders in such cases, and upon the whole determin'd to dispatch him directly as you may please to observe in our consultation of the 23^d Ultimo we had not indeed a sufficient quantity of Bales in our Warehouse to compleat the Loading of both those ships, and therefore we gave immediate Orders to yo^r Dep^{ty}. Gov^r & Council of Fort S^t. David to send us all the Bales they could get ready, by the safest conveyances they could light of, as thinking it dangerous to send the Hartford thither, lest the setting in of the Southerly Monsoon should render her Passage to that place tedious and consequently endanger it homeward bound.

2. On the 27th Ult^o Arriv'd the George Brig^t. Cap^t. William Middlefen from the West Coast with an Account of M^r Pyke & his Councils management since their arrival there on her came M^r. Joseph Walsh, yo^r former Cheif, and M^r David Wilson who was surgeon and Ensign of that Factory M^r Walsh came over to seek redress from us from the grievances he sustain'd in being suspended by M^r Pyke and his Council[1] for little or no publick reasons as we can find, [w]e examined [hi]m upon that occasion soon after his arrival and find[ing] him make a very full and just vindication of him[self] we co[n]sider'd it with the several Articles of M^r Pyke's Accusations ([enumerated in] Letter and Consultations) against him [some words lost] whole to reinstate him in yo^r. Honours ser[vice . . .] was unjust [one line lost] and having serv'd some Years in that station at the West Coast & acquitted himself well in it, we comply'd with his request and our President gave him a com^{pl} accordingly.

3. We are sorry to acquaint your Hon^{rs}. with the project that M^r. Pyke and his Council have form'd of leaving Moco Moco, in order to Re-settle Bencoolen without a sufficient force or proper materials for such an undertaking. It is an attempt that may be attended with very dangerous consequences and carries with it no less than a very great hazard, of the intire Loss of even that one settlement, which remain'd in your possession, in case of the failure of that undertaking, we think that the conduct of yo^r. Dep^{ty} Gov^r. and Council the more to blame because they have thereby been guilty of an open violation of our Express Orders which were Incerted in the Letter Sent by them on purpose to prevent the putting in Execution any such rash design, this is all that we think necessary to say upon the subject at Present, being desirous to wait for your positive determination with regard to the West Coast Affairs before we proceed any further we send in our Pacquet by this ship the copys of all the necessary papers in relation to the Affairs between Mess^{rs} Pyke, and Walsh, & the Management of the former there since his arrival.

By the George Brigantine we rec^d about 22 Ton of Pepper which we have laden on the Hartford, in the Same manner as we before shipt a quantity on the Godfrey at half Freight, being design'd to be shot in the Hold amongst the Bales. We

permitted y^e cap^t (on his request) to carry home his Iron Kintelage on his owners Acco^t and granted him a quantity of Salt Petre Kintalage in the room of it, to make his ship sail worthy. We should have laden part of that Pepper on this ship Bridgewater, had we not been prevented by the fear of spoiling the quantity of Tea she carries home, which was part of her China Cargo.

4. So soon as the Mary, Derby, Cardonnel & Duke of Cambridge were saild for Great Britain we orderr'd a Note to be fix'd at the Sea Gate, to give Notice of our intended sale of the Bridgewater's China Cargo, some days after we put up the Mettals &c^a at Outcry where so Extraordinary a price was offer'd for them, particularly for the Tuthenague that we judg'd it more for your Advantage to dispose of it with the rest than send it to the Bay, whereby the risque, and char[ge]s of Freight &c^a were prevented, upon making up accoun[ts] with Mess^{rs}. [M]oreton and Carter Supra Cargoes, and [comparing] the prices of their goods with those that came [by the] Dartm[ou]th and Marlbro', we found the former [some words lost] and accordingly [one line lost] after our Consultation of this day; wherein they give som[e] plausible reasons to Excuse the faults complain'd of, and thereupon we paid them their Comission.

5. In our Copy Book of Letters recd Yo^r. Hon^{rs} will find how little success, Gov^r. Boon's Fleet have mett with in their Expedition against the pirates, they cam[e] in sight of them about the begining of last month at about 4 Leagues distance from them between Anjengo & Tellicherry but to our great surprise were out sail'd by the Pyrates, insomuch that they lost sight of them in a very short time, and we have not heard of them since.

6. We acquainted Yo^r. Hon^{rs}. in our Last Letter of our Examining M^r Hill your late of Mocha, on the suspicion our President had of his leaving that settlement in an unwarrantable manner, But that we could not venture to detain him unless some complaint had been made to us against him concerning it. We have since his Departure recd a Letter from yo^r. President and Council at Bombay, confirming us in that Opinion, & desiring that he might not be permitted to leave this place, till he had given satisfaction to yo^r. Hon^{rs}. & private persons, for sev^l. Accounts depending between you and them.

7. Having Occasion for a Surgeon at Vizagapatam we have entertain'd M^r. Rider who was Doct^r. of the Bridgewater for that purpose and shall send him thither by the first Opportunity.

8. We gave permission to M^r. Thomas Bulkly to come home upon the Duke of Cambridge but being taken suddenly, with some sort of Indisposition, was disappointed of his passage on that ship, and we have now permitted him come upon the Bridgewater.

9. We have granted permission to M^r. Robert Wooley one of yo^r. Covenanted servants desig[n'd] for Bencoolen to lay down your service and go for England on the Hartford, his Relations being desirous of his return thither.

10. M^r. Featham one of your covenanted servants who came out on the Hartford for Bencoolen, dy'd in his passage, we have demanded of the Cap^t all his cloaths &c^a. which he left behind him in Order to dispose of them to reimburse you the ten Pounds you were pleas'd to Advance him, but the Cap^t informs us that [he] is Indebted to him much more than the [value] of his Effects.

11. We have at last, tho' with a great deal of [difficulty settl'd] with both our sets of Merch^{ts}. [some words lost] of Broad Cloth, to be sent from [one line lost] up the List of Demands 600 Bales in all and we send it Inclos'd in this packquet.

12. We have receiv'd into yo^r Hon^{rs}. Cash several suffs of Money for Bills of Exchange, which we have Accordingly given and the Particulars are specified as hereafter mention'd Viz^t.

Our Last addresses to your Hon^{rs}. were by the Bridgewater under date of the 11th instant, she departed hence the 13th with a fair wind, which gives us very great hopes of her saving her passage This comes by your ship Hartford Cap^t. Fra^s. Nelly Comm^r. on whom we have laden Goods to the amo^t. of Pag^s. 59391: 18 consign'd [to] your Hon^{rs}. her inv^o. for St. Helena amo^t. to Pag^s. 727 [5] 40 the Cap^{ts}. register of goods [amounts to Pag^s. 3873: 28] & the Register of Diamonds [*one line lost*] the produce of those goods which he brought out on his own account in such goods as he could po[s]sibly get; he has bought a parcell of Cassia Lignum, which he has stow'd in such parts of the ship; as are generally thought to be within the Comm^{rs}. priviledge, however as they are pretty bulkey he did not know for a Certain whether your Hon^{rs}. would be pleas'd to allow him that indulgence or not, wherefore we think ourselves obliged to say upon the occassion, that as there are none of the aforemention'd goods put into the hold, & Consequently as it can be no detriment to your affairs his industry & Care in getting his ship in a readiness to return so soon after his arrivall, deserves some favourable regard.

Notwithstanding the consider[able] number of bales which have been sent home this Season, we are in a Capacity to acquaint you that we shall have by the end of this mo[nth] so great a quantity of goods on hand as makes up 1570 bales as by our warehousekeepers lis[t] which comes inclosed, so that if the King George had come hither from Borneo to fi[ll] up, we could likewise have dispatcht her home & now we can have the pleasure to tell your Hon^{rs}. that we find at length the Calculate with respect to the number of bales & Tonna[ge] in Feb^r. last very fully answer'd. We conclude th[is] letter with our hearty wishes that all your affairs may be Crown'd with Constant success & the assurance that we are unfeignedly.

GENERAL LETTER FROM FORT ST. GEORGE TO THE COMPANY, DATED NOVEMBER 12, 1721. [*Public Despatches to England, vol. 5, pp. 79—92*].

TO THE HON^{BLE}. THE COURT OF DIRECTORS
FOR AFFAIRS OF THE HON^{BLE}. UNITED COMP^Y.
OF MERCH^{TS}. OF ENGLAND TRADING TO
THE EAST INDIES.

HONOURABLE

1. The 15th. October arrived your Ships Heathcote & Marlbrô & brought a Commission appointing M^r. Nathaniel Elwick Presid^t. & Gov^r. & Mess^{rs}. Jennings, Turner, Benyon, Oadham, Emmerson, Fowke, Hubbard, & Drake, Council of this place, who desire to return Y^r. Hon^{rs}. thanks for this fav^r. & beg leave to assure you y^t. by y^o. exactness of [. . . will endeavour] to make you [*a line lost*] & accord^s. to y^r. Hon^{rs}. ord^{rs}. in y^o. Gen^l. Lett^r. sent for all y^r. Covenanted Serv^{ts}. &c^t. & had the Commission read to them in the Consultation room, in the Fort as it was the next day publickly done at the Town hall, the inhabitants both Black & White being summond for that purpose.

3¹. As there has been no ship dispatct for Europe this Season Y^r. Hon^{rs}. may reasonably expect we should give you a full acco^t. of all transactions here, since the departure of y^r. Last Years Ship^s. but as this sudden alteration of affairs has happen'd so lately & we are (as y^r. Hon^{rs}. will observe by our frequent Consultations) in a Continued hurry of very extraordinary busyness, it is impracticable, besides y^t. y^o. K. George has been fully Laden for some time, & y^o. season of y^o. year is very unfavourable to ships especially wⁿ. deep. We must therefore beg leave to referr you to our Lett^{rs}. by y^o. January ships wⁿ. y^r. Hon^{rs}. may expect a full answ^r. to those rec^d. from you & an exact acco^t. of y^o. posture of y^r. affairs here, wth our transactions from time to time therein, in the mean while we will give you a short relation of w^t else materiall occurs to us.

4. Our last to y^r. Hon^{rs}. was by the Hartford Cap^t. Fra^s. Nelly under date of the 18th Feb^{ry}. she sail'd out of the road the next day & we since hear she was at the Cape in June, the Bonita arriv'd from China the 26th of the same month & told us all your Ships there would go for Europe in good time. The next day Came in our Ship Trepopilo[r] from Manilha who was obliged to Leave her whole Cargo behind her, for want of silver the Galleons not arriving y^t. year.

5. Y^r. Hon^{rs}. will observe in y^o. Consultations a very full acco^t. of the dispute between Cap^t. Heron & M^r. Orme at Pegue occasioned [b]y the murther of two English men by the Armenians to w^{ch}. we beg leave to referr you. The 17th May arriv'd here Brig^{nc}. Prosperous from Anjengo with Severall Ladies who left that place on acc^t. of the [. . . a few words lost] [*a line lost*] their Husbands [es]tates & were thereby wth. their familys reduced to very necessitous [cir]cumstances to allow them diett money as you will observe by [Co]nsultation of the 25th. of y^o. same month till your Hon^{rs}. [plea]sure can be known. The 25th arriv'd the Fancy (the ship [which y^o] Pirates gave Cap^t. Macrae) bound to Bengall to w^{ch}. place [she pro]ceeded the 10th June, she arriv'd in Company wth. the Chandos [one of] y^o. Ships kept last year in y^o. Country by Gov^r. Boone on acc^ot. of] the Pirates. She was let on freight to M^r. Wake & 100 [Tons] reserv'd for the Comp^y. w^{ch}. she is to take in upon the [Mallabar] Coast.

6. The 26th of the same month arriv'd y^r. Hon^{rs}. ship K. [George] from Banjar, M^r. Garniery^e 3^d. Supra Cargo died in his [passage] over, they brought but 105 Tons of pepper w^{ch}. upon y^o. [survey] here Came out very short of y^o. quantity as y^r. Hon^{rs}. ma[y plea]se to observe by the Warehousekeep^{rs} report enter'd after [Consu]ltation of the 4th Sep^{br}. the Supra Cargo's & Comm^r. deliv[er]ed] their answ^{rs}. to y^o. s^d. report in Consultation the 19th & [. . .] of the same month,

¹ Paragraph 1 is followed by paragraph 3 in the original volume.

The former declare they took all imaginable Care in sending the pepper aboard & insist on the Cap^{tn}. [Bill of] Lading who hath sign'd for 104 ^{Tons. owt. qrs lb.} 9 3 11 tho he objected [therein], to 105. w^{ch}. is but a trifle in respect to y^e [loss] now found [upon] it, the Cap^t makes many Complaints of his Stillyard & the hurry in w^{ch}. he was obliged to receive it on board, occasioned by y^e. danger they were dayly in from y^e designs [of y^e] Mallays to Cut them off & from whom they at last with difficulty escaped. We have good reason to beleive there has b[een] no imbezlement of any part of the said pepper [o]n b[oard] y^e. Ship & the Cap^t. is ready to give his oath of it, w^{ch}. makes [thi]s matter very difficult for us to determine especially at [thi]s time, y^t. we are so prodigiously overburthen'd wth. ot[her] necessary busyness & therefore we beg leave to refer th[is] matter home for y^r. Hon^{rs}. decision.

7. They Could not procure any more [yⁿ. y^e said quantity] of pepper being obliged to leave the place [a few words lost] form'd among y^e. natives to Cut them [a few words lost] of our Ships w^{ch}. arriv'd here [a few words lost] to Tonqueen by [one line lost] she was brought from [Borneo] by y^e 2^d. Mate the Cap^t Supra Cargo's & some others be[ing] Cut to peices by the natives not Long after y^r. Hon^{rs}. ship [K.] George sail'd from thence We hope this will make your Supra Cargo's on the Middlesex and James & Mary very [Cautious] in their Trausactions at Borneo & we are very ap[pre]hensive of having [one] if not both of them here, if it [should] so happen & we not be able to dispatch y^m for Europe, [wee] shall in y^e mean time employ y^m to y^r best advantag[e]. The Dover met y^e. Frances and Macklesfield in y^e Streights of Sunda on their way to China & we hear since y^t. all th[ose] Ships have been at Batavia & were in good Conditio[n].

8. The [. . .] July arriv'd the Monmouth as did the Stretham [the] 20th August they are both since gone to the Bay, the la[tt]er tw[o] days after her arrivall & the other the 12th Sep^{br}. [in Comp^y] wth. y^e Shawallum (w^{ch} arriv'd a Little before from Pers[ia] & a] Moors ship. she Carried down wth. her a quantity of [Redwood] agreeable to the desire of y^e. Presid^t. & Council there [the . . .] 22^d. the Chandos proceeded for the other Coast, as did th[e] Fancy the 8th. October she arriv'd here from Bengall the 30th Sep^{br}.

9. We have rec^d. from Fort S^t. David since the Departure of the Hartford [. . .] Bales by y^e follow^r. Conveyances Viz^t. By Sloop Ramah 8 [Tr . . .] 534.. By the Britania at twice 400.. Upon Examining y^e Cloth there were [found] 47 Ⓕ^s. damaged w^{ch}. were as y^r. ord^s. direct deliver'd to the Cap^t at 30 Ⓕ C^t. advance, and y^e money rec^d. We shall take the same [me]thod with the other two-ships as soon as the Goods are all [on sho]ar, The 13 Chests of silv^r. [By] our January Ships send your Hon^{rs}. our remarks, List of [Remains] & demands &c^t. as we shall also do in relation to our [stores] & necessary's for the Hospittall &c^t.

12. The Lead & Iron sent out y^e. year will sell so much better [than] at y^e. Bay y^t. we shall dispose of it at Outery.

13. By the K. George y^r. Hon^{rs}. will receive 672 : bales We have now [on h]and 2874, at y^e Washers and Beaters 663 : & in y^e Merch^{ts}. Godown [. . .] w^{ch}. wth. w^t. we expect from Fort S^t. David & Vizagapat^m. &

[w^t. more] our Merch^{ts}. may bring in will we beleive be sufficient to [load the] Marlbrô, Heathcote, Dartmouth, & half the Monmouth [. . .] up y^e. Frances should she come hither. Which we have [little] expectations of; because they will Certainly be able to fill three [ships] wth. Tea in China.

14. The Gentlemⁿ. in Bengall Complain'd last year of the Large [Tonnage] flung on y^m. & y^s. year they desire as little as possible. [To c]omply wth. their request & to prevent the Heathcote's lying [the y]ear round in India as in all probabillity she must do [should she] go down thither at y^s. season of y^e. year. We have resolv'd [since] we have goods enough for y^e. ships w^{ch}. we can reasonably [ex]pect to have on hand to send her home from hence directly [W]e would willingly supply y^e Gentlemen in y^e. Bay wth. y^e silv^r. [. . .] are ord^d. but as y^s. is y^e very worst season of y^e year & sh[e] will in all likelyhood not arrive thither till y^e. end of Dec[em]ber we beleive it bett^r to advise them by Cossid[s] y^t. [. . .] we shal[] send y^m. a quantity of silv^r. by the ships that [g]o thither in [J]anuary yⁿ. to risque y^r Hon^{rs}. Estates & ship against the height [of] y^e. Monsoon. This will enable y^m. to take up money at interest & y^e. difference will not be above 1½ or 2 ꝯC^t. whereas should w[e] [s]end y^e. Heathcote down, you would have 6 months demora[ge] to pay w^{ch}. for so large a ship must be a very considerabl[e] [sum], y^r Hon^{rs}. will observe how fully we deba[ted] y^e [m]atter [in] Consultation y^e. 24th. Ult^o.

15. We shall take all imaginable Care in y^e. [. . .] lengths [. . .] never send home any [one line lost] prizes, & we hope sinc[e] yo[ur] Hon^{rs}. have been pleas'd to take so much Care of y^r. Mer[chants] wellfare by ships Marlbrô & Heathcote they will on their par[t re]turn y^e. obligation by bringing in better goods yⁿ. usuall towards [w^{ch}] they shall want no incouragement from us.

16. [W]th. great pleasure we can inform y^r. Hon^{rs}. y^t the season [has prov'd] propitious & y^t. y^e. famine is now entirely gone, we have [a store ...] water in our Tanks, & as soon as y^e. rains are over hope [we sha]ll be able to Cure a quantity of goods sufficient to supply [The ships] mention'd in the 13. Parragraph to be here & expected.

17. We lately rec^d. advice y^t. our Trade is still in great danger [from] the Pirates, Two of the Ostenders (the one from China [the other] the Ship w^{ch}. was formerly y^e Greyhound) & a Por[tugeeze] Ship of 70, Guns, whereon y^e. late Viceroy & Archbishop [of Goa] took their passage for Portugall being lying at an an[chor] in Donmasereen road were all three taken by a [Pirate by] surprize but as y^e great Portugeeze ship was forced thither for want of Masts they dispatch'd the Greyh[ound] wth. 30 men to y^e Mallabar Coast to look for some, but [as those] men were most of y^m. on board by Compulsion so [soon as] they arriv'd on y^e Mallabar Coast they form'd a resolu[ti]on of freeing themselves & in pursuance thereof overpower'd [y^e] Piraticall party on board & Carried y^e. Ship into Goa His Majesties Ships Lion, & Shoreham are arriv'd at Bombay & we hear have been in y^e Gulph of Mocha in quest of y^e Pirates [&] we are in great hopes y^e other two who were to Cruize about [th]e Islands will have met wth. y^m & Clear'd y^e. seas, We fu[rt]her hear [y^e sev]erall Moors ships are already arriv'd from [M]ocho & y^t Y^r. Hon^{rs}. Ships are daily expected from thence.

18. [As] to y^e. Country Government everything is quiet & easy, The [Nabob] is at present in the Tanjour Country, but in a [sho]rt time will return to Arcot.

19. [Su]nca Rama[h &] his family are Come out of the Country & we da[ily] expect [many . . .] more Our endeavours shall not be [wanting to] raise this settleme[n]t to as flourishing an [a few words lost] we do not [doubt] but we shall be [one line lost] the mark we [a few words lost] pleas'd y^t. we can inform y^r. Hon^{rs}. y^t. there are no French or Ostend [ships] arriv'd on y^e. Coast y^s year so y^t. we hope we shall have no Com[peti]tors in our busyness, & shall be able to engage y^e. Merch^{ts}. who are run after y^e French & c^t to return to their old homes.

21¹. We have no buildings now on hand except w^t. repairs & c^a. mention'd in y^e next Parragraph, & the two Bridges both w^{ch}. are almost finish'd & we hope to

inform you by our January ships y^t. they are done you will observe by the Consultation of y^o. 23^d. Feb^r. y^t. y^o Merch^{ts}. seem willing to defray y^o Charge, we shall take particular care in y^o management of this affair, so as to give no Cause of Complaint to any one.

22. Our new Warehouse Terraces are not quite done, but shall be finish'd as soon as possible after y^o. rains are over, & we judge y^o. Charge may amount to about 150. Pagodas. The Bridge at y^o. Armenian Gate w^{ch} leads into the Black Town is much out of repair & may Cost about 100. Pagoda[s]. The Hospitall & Guard house have leaked these rains & want to be secured wth. another Course of Bricks & Coat of Chinam w^{ch}. we shall set about as soon as possible in ord^r. to prevent any damage to y^t. so necessary & handsome pile of Buildings the Charge we Compute may amount to about 500 Pagodas.

23. We are now to remark to y^r. Hon^{rs}. a very necessary peice of Building in ord^r. to secure y^o. Black Town w^{ch}. now lies open & exposed from y^o Maddapollam point to the Blockhouse Close by y^o Sea side. There was formerly a Fence of Palmira Pallisadoes w^{ch}. are now all broken down & we are of opinion it would be much cheaper as well as more [dur]able to build a brick wall of about nine foot high from y^o said Maddapollam point to the Blockhouse w^{ch}. is distant 180. foot & it is Computed it will Cost about 500. Pag^s. y^s. building we thought our selves unable to go about without first having y^r. Hon^{rs}. Consent & direction, If you think fit to permitt us to do this we cannot now recollect any thing further to be done for y^o security of y^o. Black Town nor have [we any] other necessary buildings to go about in y^o. place [we] shall write to Fort St. David for a particular account [*a few words lost*] send it to y^r. Hon^{rs}. by our January shipping [*One line lost*].

24. [. . .] pay their rents duely & we shall take all imaginable Care y^t. they Continue so to do.

25. Y^r. Hon^o. having been pleas'd to Confirm y^o. admission of M^r. George Torriano to y^r. service & he have^s. been turn'd out as appears by Consultation of the 4th. Augst. 1720. only because he was taken into it here, that dismission is therefore void, & we have readmitted him to y^o service, wⁿ. we acquainted him of it he desir'd us to return his hum^{ble}. thanks to y^r. Hon^{rs}. & assure you he will make it his study to deserve the fav^r. shewn him.

26. We have made M^r. Joseph Houghton Sec^{ry}. in the room of M^r. Walsh, beleiving it more agreeable to y^r. Hon^{rs}. intentions y^o said M^r. Houghton being much his Superiour in y^o service & appointed to succeed next of Councill besides y^t. M^r. Walsh is on the West Coast Establishment & Consequently ought not to enjoy a Post of so great reputation here in y^o. wrong of y^r serv^{ts}. belonging to this Settlement, add to all w^{ch}. y^t. he being entirely in y^o Interest of y^o. Gentlemⁿ. displaced by y^r. Hon^{rs}. & our Cheif busyness relating to y^m. We did not think him a proper person to be admitted to y^o. knowledge of our debates.

27. The Lieutenants of y^o. Garrison pursuant to our ord^r. of y^o 26th. Oct^{br}. reported to us the state of y^o Military as y^r Hon^{rs}. will find it enter'd after our Consultation of y^o 2^d Nov^{br}. & will therein observe how very weak they are at present, we must therefore earnestly press y^r. Hon^{rs}. to send us such recruits as you shall see necessary for our Black soldiers are of little use except merely standing Centeries, & wth.out being well intermixt with Europeans are not to be depended upon in Case of Tryall.

28. We have permitted M^r. Joseph Walsh to lay down y^o. service & go home, [as] we have also M^r. Rich^d. Oliver one of our Ensigns, he having p^d. y^o. sum ord^d. for his discharge from y^o. Military.

29. Yo^r General book[s and U]sual Acc^{ts}. will Come home by the [*a few words lost*] send you Copies of King [*about two lines lost*].

30. Your Honours having order'd Us to supply the Gentlemen in Bay with Treasure to the utmost extent of our power & We no[t] knowing any better way of

attaining that desirable end than to furnish ourselves with Cash by taking bills on the Hon^{ble}. Company, We have accepted of the following Viz^t.

31. And after we have gott what we can by Bills of Exchange on your Honours: We shall chose rather to take up money at Interest as We have occasion for it to carry on yo^r. affairs than give Respondentia Bonds upon you (having positively declared on all occasions that we would give no Bonds, large sums thereupon have been paid into your Cash for bills) because our Interest bonds being always made payable upon demand, We are at Liberty to call them in whenever We are in Cash to discharge any of them, and if we find ourselves able to gett sufficient money at Interest here to carry on our buisness We propose to send a great part of the Treasure design'd us to the Bay the better to enable the Bengall Gentlemen to proceed in their next years Investment, & likewise to save Yo^r Hon^{rs}: the difference of four p Cent. which they pay more p Ann there than We do here for Interest of money, We should certainly been able to have found money sufficient here for Our investment had we not been depriv'd of the Large sums due from your late President and M^r. Cook.

32. The Church Wardens have according to yo^r. Hon^{rs}: ord^{rs}: in your Letter to this place of the 30th: March 1721, paid into Cash Pagodas 10646: 8^l: 14^c, being the whole produce of the Estate of M^r: Pedro Perrera deceas'd.

33. The 2^d. Instant the Dartmouth arriv'd here from the West Coast with a Generall Letter, Consultations, Paymasters, & Cash Acco^{ts}. Yo^r: Hon^{rs}: will observe by our Consultations our proceedings from that time, for the prevention of those abominable extravagancies for the future which we Obser[ve] M^r. Pyke hath been guilty of, We really believe that no Deputy Gov^r: you ever had there hath squander'd away so much mony as [thi]s gentleman, nor did we ever here of one endeavouring to [twist] the meaning of yo^r. Lett^{rs}: so far as to make them signifie that [he is] independant on us when those very Lette[rs] order him to [submit] to Our directions, which your Hon^{rs}. wi[ll a few words lost] has writ to his sub[ordinate] [one line lost] till yo^r. Hon^{rs}. further pleasure can be known, We have appoint[ed] M^r. James Hubbard to goe supervizor thither, & with him M^r. Duns[ter] whom we at first design'd should goe in that station, but al[tered] Our resolutions on receipt of the beforemention'd papers by the Dartmouth wherein we find reasons to beleive M^r. Pyke will resiste, We resolve to send one of Our Council to take from hi[m] all pretence for rebelling because it has always been customar[y] for the Deputy Govern^r of that Coast unless where particular directions have been given to the contrary to take place after our Council, & consequently he cannot complaine of any one being put over him when the person that goes is really his superiour We have appointed M^r. Dunster to succeed M^r. Hubbard in that Government not being able to pitch on any one in the service here that can goe of a superiour standing to him to whom we dare intrust the management of an affair of so great imp[ort]ance as raising that Coast to the flourishing Estate it is cap[able] of. what we have done in this case We assure your Hon^{rs}: is without the least pique, or prejudice, & purely with a view of advanc^e. your Interest & we hope you will approve of these our sincere intentions, we never thought our Commissions altho of a lat[er] date sufficient absolutely to sett aside those from yo^r. Hon^{rs}. direc[tions] but when they have once taken place & your Hon^{rs}. have give[n] Us a power of inspecting & governing that Coast, what can we do when we see a man make use of that Commission against your Interest, & under that pretence Cloak all his bad actions, but vacate it, & punish for his faults, and we cannot believe your Hon^{rs}: will disapprove of Our proceedings herein.

34. The s[a]me reason that obliges Us to send one of Our Council makes us send a supervizor though we have already resolv'd to suspend M^r. Pyke least as he has in his Copy of Yo^r: Letter ¶ Goodfellow chang'd the words of the 3^d. paragraph (should have been [sent] in that station, to should be sent in that station, W[e s]ay least he should make use of those words againe, & refus[e t]o permitt a Deputy Govern^r to come ashore there beca[use th]at is the station he now enjoys, We therefore send a sup[ervizor] that being a station superiour to his and is what yo^r: Hon^{rs}: have possitively order'd us to send thither frequently [a few words lost].

35. [Wee obse]rve what he says in relation to an Osten[d a few words lost] & whose Treasure being 2 chest [one line lost] severall of the ships Company came hither on the Dartmouth he requested a passage upon the King George but she being a full ship, & we desiring your Hon^{rs}: might have some time to consider of this Affair have thought fitt to tell him that he shall have a passage upon the Dartmouth the ship which he came hither upon, her Treasure is not yet onshoar the Weather not permitting but so soon as we receive it, & have examin'd it We shall give Fort Marlborough Credit for y^e same, which is all we can say to this Affair, except desiring Yo^r: Hon^{rs}: will please to be referr'd to the West Coast Consultations, Generall Letters & c^{as}] papers rec^d. from thence.

36. As we had reason to suspect there would be a deficiency in your Hon^{rs}. Cash in M^r. Hastings's hands, & in the silver und^r: M^r. Cooke's care, so soon as the Commission was read, & the other usuall Ceremonies perform'd, We order'd the Cash Chest, & Silver Godowns to be seal'd up, The next Morning M^r. Cook attended us & was order'd to goe and see the Warehouse open'd & deliver all therein to Our Warehousek^r. in the Presence of Mess^{rs}: Oadham & Em[er]son, The Warehouse was

accordingly open'd but nothing found in it, upon which We thought prop^r: to Confine M^r. Cooke to his Lodgings by placing a Centry at his Door, till he had either paid for 29 : Chests Silver which ought to have been there, or given security, as We also found Ourselves oblig'd to do by M^r. Hastings two Days after at the Garden house by Centrys below stairs which could be no inconvenience to him though a security to the Company when he sent Us the Key of the Cash Chest and upon opening it We found but one fanam instead of pag^s. 72075 : 10 : 60.

37. We have been oblig'd to confine the late President's, & M^r. Fowke's Dubashes on a[cc]ount of very severe Complaints made against them by the b[lac]k Merchants persuant to the liberty given them of seeking redress by the paper fixt up at the sea Gate a Cobby [whereof] is enter'd after Consultation of the 19th: Oct^r:

38. Your Honours w[ill] observe a[t lar]ge in Our Consultations what pains We [have taken here] to procure sufficient Securi[ty *one line lost*] deposited in our hands, and concerns at Sea to the Amount of Pagodas 269707 : 10 : 75, being all that they could give, as soon as We accepted it; We withdrew the Centuries & gave M^r. Hastings leave to goe to a house of M^r. Hordens on the Choultry plaine for the benefit of the Air, He having promis'd us not to leave the Bounds without liberty, which we could not think propper [to] grant him when he desired to goe to the Mount because of th[e] Acco^{ts}: the black Merch^{ts}: have to make up with him, & the Mount to far off for them to attend him & us.

39. We hope the Lenity with which we have all along proceeded in this Affair will meet with your approbation, & do assure your Hon^{rs}: that impartial Justice shall be our Guide and whatever temptations we may have to the contrary nothing harsh or ill natur'd shall appear in our behaviour toward[s] those Gentlemen.

40. Since the foregoing we find We shall be able to assist th[e] Bengall Gentlemen with a part of our Treasure & therefore we shall without faile send 80 : Chests of Silver in order to enable them to pay off their Debts and be ready early to [set] about their next years Investment, with this view we ha[ve] accepted of 8000 ; Pagodas at Interest of M^{rs}: Diana Robs[on] and shall take in what more we want which we believe [we] shall be able to do with ease.

41. So soon as that ship and the George Brigantine are dispatch'd We shall write to Padry Labbe Agent for the French Jesuits in China to know his Resolutions about their Money at Int[erest] he being now at Ponticherry.

42. We have gott from M^r. Hastings as your Hon^{rs}. will observe by our Consultations of the 10th, an order for the remittance of the produce of ship Richmonds Cargoe lately arriv'd at [S]urratt to Us on account of his Debt which We hope [wi]ll lessen it 30000, Pagodas, & inclos'd we send [Yo^r Hon^r] an order from M^r: Hastings to his Attorneys to [pay yo^r] Hon^{rs}: what money may be remitted them from China [against M^r] Hastings's Cargoe there.

43. Randall Fowke desires Us to acquaint yo^r: Hon^{rs}: [that he is in no] ways privy to any transactions of [his subordinates to the prejudice] of the Merchants, & that he has [*one line lost*].

44. On the 15th: June Cap^t William Warden deliver'd us a paper requesting he might carry to England what pepper he has on board as part of his Borneo Cargo at whole Freight, which we thought ourselves oblig'd to refuse & thereupon he requested 40 Tons at halfe Freight which was granted him as p his Request enter'd after the same Consultation.

45. In Consultation Sept^r: 11th: Cap^t. Thomas Gilbert Commander of the Chandos, deliver'd us a request for to furnish him with 400 ; Pagodas on Acco^t: of his Charter party Money his request is enter'd after the said Consultation, & we comply'd therewith by paying him the sum of pagodas 400, as your Hon^{rs}. may please to observe by one of his receipts that come in the packett another We sent to Bombay & have debted that presidency for the amount.

46. We send to S^t: Hellena by this ship as usuall, Sugar, Arracke & c^a amount^s: to Pagodas 196. 22. 50, as p Cobby of yo^r: Invoice in the Packett.

47. Inclos'd we send your Hon^{rs}: the Cap^{ns}: Register of Goods amounting to Pagodas 2836 : 9 : 48, the Invoice of this ship King George amount^s: to Pagodas : 48316 : 1 : 19 : which we wish may arrive in safety to your Hon^{rs}: & are with much respect.

5. Heard frequent firings from the Road could see nothing nor send relief, surf came up to the Sea Gate, carry'd away several Banksals all the Catamarans, some stacks of Firewood staved some Mussoolas, forced to haul in the Guns on the half moon, next morning clear'd up saw the Heathcote in the Road, and in the afternoon the Marlborough near the outward surf, sent off 3 boats with an Anchor and Cable &c^a. one of which was beat to pieces 4 Men drown'd.

The Silver kept after the Eyles dispatch was to serve till next Ships, and to forward the Investments, or else must have paid Interest or stood still, and the letters from the Bay advise had begun a new Investment, and if receiv'd the Treasure design'd per Nightingale should be out of debt, therefore thought they were having no Cargo provided for her.

THIRDLY TOUCHING INVESTMENTS.

42. Sorry for the just Complaints about the badness of the Cloth, the only excuse is having so much Tonnage not being in debt at the Coast or Bay, if had kept ships in the Country their large Cash must have lain dead, hope what wrote last year to this purpose would have lessen'd the anger, have of late endeavour'd to amend the Fabrick but without Success, the Merchants say the Weavers must have 6 Months to amend the Cloth they have so long been used to make. In vain to pretend to excuse the past, but promise more care for the future, refer to the new Contract 4th May to show they have made better terms than the last, have prevail'd on the right and left hand cast to Unite, hoping thereby to amend the fabrick, their endeavours to keep them to this Contract will appear as per Consultations of June, July, August and September.

The only branch of their Country Trade worth engaging in was to Manilha, that like to be lost by the Armenians letting their Ship at under rates, and letting the Spaniards to share with them, Two ships in the Road had intic'd away the English Freighters, therefore resolv'd to stop the Armenian ship. They don't deserve the great priviledges they have, having broke their Contract, they trade to Europe on the Danes, Murder'd some English at Pegu, have traded on French and Spanish ships, and imported their goods at Pondicherry contrary to the Companys orders, as per Consultations 27th April, 20th and 26th May and 7th July directly contrary to their Covenants with the old Company.

Sunca Ramah says pagodas 350 was for Governour Collett, the rest allow'd because he was his security, not proving it fully, order'd an Oath to decide it, the Complainer swore, Sunca Ramah would not, so fined him pagodas 350 and Interest to the Gardener, and pagodas 100 towards mending the roads for forcing the allowance.

The Company paid but 1½ instead of 2 per cent, on agreeing to forbid exporting Silver not coin'd into rupees, thô the report hinted it would lower Silver, and they had no occasion to sell any, yet this gave a general damp to Trade, and therefore were forc'd to permit Gold and Silver to be exported. Believe the Arcot rupees have as much Credit in Bengal as the Madrass for on the prohibition Silver fell to 15½ dollars, when permitted it arose to 15, at Pondicherry all the time it sold at 14¾ which is from 4 to 3 per cent thô the cost of a rupee is but one difference. 25. Have provided this season 1789 bales of which 713 from Vizagapatam, and 361 from Ingerum, the Merchants fine promises prov'd only words.

26. Were oblig'd to take in at St. Davids a No. 3 of the fine and middling Cloth, tho' not [o]f the Ordinary, and Cloth No. 3 between the fine and middling No. 1. and sort some fine Cloth to middling, and yet got but 351 Bales. Tomby Chittys sett complain'd of, he was call'd in, and threatned to pay the Penalty, Sunca Ramah equally guilty.

27. Have got but 42 pieces from Ingerum of fine long Cloth for Shirts.

28. Have receiv'd a Bale of half Sallempores, order'd more but none yet come from Vizagapatam.

29. A Bale of Ingerum Cloth prov'd bad on Washing return'd to Mr. Blunt. 18th October finding the fine Cloth of Ingerum too Course, and No. 3. too Ordinary, have forbid buying No. 3. and no more fine if not better.

30. Some of the Ingerum Cloth found an Inch too narrow Mr. Blunt assur'd them he refused all that did not answer in Length in proportion.

31. Have got 382 pieces Super fine Cloth from Ingerum at 65 pag^o. order'd getting what more could be had, the Dutch pay for this pag^o. 80 but had no Investment that year.

32. Have order'd Vizagapatam and Ingerum to be frugal in Expences, and sparing in presents, have forbid now making any or sending Peons into the Country on Investment account. Mr. Symonds and Mr. Blunt being both at the Fort shall fix the Investments the best they can.

33. Refer to representation of 2d November about the 1000 Candy Pepper bought, why the Council ought not to pay the difference between 18 and 22 pag^o. a Candy, they have given Bonds to pay what the Company shall direct on considering their reasons for buying it viz. That paying but half freight it was cheaper than what got on the other Coast, that it has been scarce under 22 pag^o. for many years, and sold at 23. that some bought in Mr. Harrisons time at 22 pag^o. was approv'd, that it was so bought in all Mr. Collets time, that Mr. Hastings could get none so, and never disliked till now, that can find no positive order not to purchase at above 18 pag^o. except in Letter 25th January 1716, where it is said the old Companys price was but 18. hope that will not be call'd positive, when the Company approv'd the buying, because of the disappointment at Bencoolen, which was the case anno 1722, for these reasons took only Bonds, will receive what the Company shall order, Mr. Elwicks Attorney engaged for his part.

34. To reduce the Washers debt have agreed to stop 15 per cent on all paid them, which is all can be done at present.

35. The Pullicat Bettellees contracted for at 120 pag°. a Corge not answering, took them in at 100 are worth it.

36. 5 pag°. per Corge abated on the Morees for Chints at 12½ for badness of paint.

37. Will do what they can to provide for a Ship from Bombay, tho' it will be difficult to provide for more Tonage, than their own.

38. French large supplies of Cash, have in part occasion'd the disappointment, and give large prices so that they have the Cloth instead of the Companys, great many of the Weavers employ'd by them, because have better prices, the Dutch have advanc'd their prices at Porto Novo, difficult to convince the Merchants to give better prices to the Weavers to make the Cloth better.

39. On dispatch of last years ships the old Contracts were cancell'd and a fine laid on the Merchants for breach of them, and oblig'd to take off the Broad Cloth, so that on making the last Contract, the Merchants were indebted at Madrass, Sunca and Ball Chitty pag°. 35,304 : 34. 61. Gongaram and Tomby D°. 10,084 : 35 : 43. Sunca and Tomby D°. 15,310 : 3 : 75. at Fort St. Davids Sunca Rama etc. D°. 11,764 : 35 : 62. Tomby Chitty etc. D°. 2,591 : 18 : 62. Sadeshevarow etc. D°. 6,788 : 15 : 73. [E]ram Rawse etc. D°. 2,859 : 35 : 69. pag°. 84,705 :—: 45. Breach of Contract D°. 30,000. Broad Cloth sold 62,170 : 32 : 53. in all pag°. 176,870 : 33 : 18. have more Cloth secured than will pay all the Merchants debts, most of the Broad Cloth is unsold in their Godowns, as they bring in New Cloth deliver out to them their old, which they send abroad on their Accounts, have paid about 4,000 pag°. dutys on the turn'd out Cloth, so that they have about pag°. 100,000 Value therein, if can get the Lynns lading it will be well, if not the Company shall not loose by dead freight, dare not be too rigorous lest they go off to the French.

40. Doubt not but the Cloth taken in will give content, the Merchants would not believe they should be kept close to Musters, and therefore did not advance the prices to the Weavers to make better, and so had quantities turn'd on their hands, have taken in more of No. 2. than was expected, but are near equal No. I. the Merchants now near fix'd to the sortments, the Company approve and will be in Cash on return of the Manilha ships, hope will carry on their Investments better the next year to satisfy the Company.

41. Some pieces of Longcloth and Sallem pores sent, thereby to judge of the sorting, they are in the Enfields box of Books.

FOURTHLY CONCERNING THE TRADE OF INDIA AND THEREIN ANY TRANSACTIONS
WITH THE COUNTRY GOVERNMENT.

42. The Country Government everywhere in Confusion. Genims continually disturbing about Surat, are surpriz'd at a Letter lately receiv'd from Bombay, that no Goods be sold at Surat without the Chiefs knowledge, and the Supra Cargos not to stay all the year to sell the Cargos, can find no such orders of the Companys to warrant them, had something like it relating to Gombroon in Mr. Bouchiers affair, hope shall not be oblig'd to sell by the Chief, it is certain the lodging the Goods in the Factory and to sell, the Chief present at each Contract, has caus'd the Chief to buy all his own rates, his Servants being the only Buyers, and have been sold the next day to the Merchants at great advance, so threaten to turn out the Chiefs, will be no reparation or punishment because of the length of time to remedy it, and they will complain of the English peoples misdemeanours when themselves are to blame, as they did about Mr. Bouchier, not likely to get reparation if do complain to Bombay, the troubles in Persia hinder'd trading thither but the Chiefs executions more, therefore their ships order'd to Bussorah, are willing to pay Consulage at Bussorah, where the Supra Cargos will not be under the Chiefs control, business at present best done at Mocha, the Supra Cargos apply'd to the Government by the Chiefs, and generally deal with him tho' can find other Merchants, but he acts fairly, thus it will always be.

when the Supra Cargos are at liberty, and no hardships impos'd on them, affair of Surat will appear in Letter No. 124 and No. 113. sent, beg leave to recapitulate because the Trade from the Coast and Bay thither is so plainly struck at.

43. The Bombay demands have no ground, even in the instance they give of the Companys orders to send home Mr. Wyche, because the English spirit up the Moors against the Companys Interest, this certainly must intend those settled at Surat, not Supra Cargos if forc'd to stay only to sell their goods after the ships are gone from the Barr, yet Bombay says none shall stay after their ships departure, if they do, shall send them home to England.

44. The reason Bombay alledges is that Mr. Mitchel staying behind and selling goods caus'd a dispute with the Government, because he did not regard the Factory rules, and would not consult the Chief, therefore no other shall stay at Surat, nor Contract made without a first notice to the Chief, this was never order'd before, only the Broker should be employ'd and have one per cent, and he was employ'd by Mr. Mitchel, and for this the Government opprest the Broker, the other cause was Mr. Mitchels selling Ophium return'd after two days keeping as not Merchantable, it would have been the same if sold the first day of Mr. Mitchels arrival.

45. Beg leave to add the ill consequences that will attend the orders if confirm'd.

46. No business can be done at Surat without secrecy, Cargos often sold before brought ashore, and the bargains would be lost if known, if Chiefs have the management he may forest all the markets, and sell his own first, when he has the same kind of goods and the worst of the market fall to them, and the Chief will always be preferr'd by the Merchant.

47. If must leave their goods in a Chiefs hand, can expect to sell none in March or April, so that must quit the trade or consign to the Chief, who will not use them the better when are forced to do it.

48. Thought had paid the Governour of Bombay a sufficient complement in allowing him Consulate, which they willingly paid, because were at first well treated, but of late have fresh hardships every season.

49. Hope the Company will not confirm the Bombay demands, if they do must quit the trade to Surat, which is the Storehouse of India, and as the Moors will be on a better footing, the Customs will soon sink, for the returns of trade from the Eastward are in goods proper for Surat.

50. 27th September had in Consultation the account of French ships ladings for Europe, and the Mallabar Coast, of which advis'd Mr. Adams early. Although had wrote to the Bay, want from them only 50 Jars Oyl in the year, yet they sent on the Lyel 1300 Baggs Petre, on the Middlesex 700 and on the Mary 1500 pretending were order'd to send sufficient as per their Letter No. 75 and the Answer No. 77 sent, thô had before wrote 2d April of being over loaded with Gunnys and Petre and their letter 19 April in Answer promises would send no more.
