Table	I.—AREA, HOUSES, AND POPULATION OF ADMINISTRATIVE UNITS	3
Table	II.—ADMINISTRATIVE UNITS BY RELIGION AND EDUCATION	—

INTRODUCTORY NOTE.

The census, the statistics of which are embodied in this volume, was taken on March 10th, 1911.

At previous censuses the Sironj, Chhabra, and Pirawa Parganas of Tonk State, though included in the Provincial Tables, were excluded from all the Imperial Tables. But having been transferred in 1910 from the Central India to the Rajputana Agency they are included now in the Tonk figures in the Imperial Tables.

The figures for the detached tracts of Central India, namely Nandwas, belonging to Indore State, and Gangapur, belonging to Gwalior State, which are situated in the Mewar Agency, are included, as before, in the statistics of Mewar State in the Imperial Tables, and excluded from the Provincial Tables.

The figures for Nimrol village, situated in the Central India Agency, have been excluded from Dholpur State in the Imperial Tables and included in the Provincial Tables.

The figures for the pargana of Sambhar, held jointly by the Jaipur and Marwar Darbars, have been divided between the two States in the Imperial and Provincial Tables.

The figures for areas under British administration in Rajputana are included, in the Imperial and Provincial Tables, in the statistics of the States in which they are situated.

At previous censuses the figures for the Province of Ajmer-Merwara were published in separate volumes. They are printed now with the Rajputana figures throughout the Tables.

The 21 inhabited villages belonging to the Marwar Darbar, and the 92 belonging to the Mewar Darbar, which are all situated in the Merwara District of Ajmer-Merwara and administered, on certain conditions, by the British Government, have been excluded from the Ajmer-Merwara figures in the Provincial Tables and included in the statistics for the two States in question, and *vice versa* in the Imperial Tables. At previous censuses they were incorporated in the Ajmer-Merwara figures.

The optional Tables, XV-C and XV-D, prescribed by the Government of India, have not been compiled for Rajputana and Ajmer-Merwara; and Table XVI has been prepared only for Europeans and allied races, Armenians, and Anglo-Indians.

Detailed statistics of area, houses, population, religion, and literacy, for the various administrative units (*i.e.*, Parganas, Tahsils, etc.) in the States and Districts, will be found in the Provincial Tables I and II at the end of this volume.

TABLE I.

Area, Houses and Population.

Explanatory Note.

The States in Rajputana are arranged in this Table in three groups, corresponding to the main natural divisions of Rajputana. Within the divisional group they are arranged alphabetically.

The increase of 1,446 square miles in the area of Rajputana, compared with 1901, is explained as follows :—

State.	Increase.	Cause.
Bikaner	+4	Transfer of two villages, Ratakhara and Bahalwas, from the Punjab.
Mewar	+3	Gained from Idar State as result of boundary settlement.
Tonk	+1,440	Transfer of Chhabra, Pirawa, and Sironj Parganas from the Central India to the Rajputana Agency.

The areas and populations of the places under British administration in Rajputana are as follows :—

	State.	Area.	POPULATION.		
			Total.	Males.	Females.
Kherwara	Mewar	1 square mile	2,016	1,295	721
Kotra	Mewar	Ditto	746	461	285
Eripura	Sirohi	Ditto	3,033	1,856	1,177
Mount Abu	Sirohi	83 square miles	3,286	2,083	1,203

They have been included in the Tables in the figures of the States in which they are situated.

In Lawa, Mewar, Partabgarh, and Shahpura, hamlets have been counted as separate villages in column 4. In all other cases they have been included in the main village.

TABLE II.

TABLE III.

Towns and Villages Classified by Population.

Explanatory Note.

The States in Rajputana have been arranged in natural divisions, and alphabetically within the divisions.

Travellers by railway, and the population enumerated in encampments and fairs, have been shown separately in column 22, instead of being included, as in 1901, in the places at which they were enumerated. Out of 7,985 in Rajputana 4,101 persons, and in Ajmer-Merwara all the population in this column, were travellers by railway.

Except in Lawa, Partabgarh, Mewar, and Shahpura, hamlets have been included in the villages to which they belong.

There is an apparent increase of 2,375 or 7.9 per cent. in the number of towns and villages in Rajputana, compared with 1901. The increase is most marked in the following three States:—

<i>State.</i>	<i>Actual increase.</i>	<i>Percentage of increase.</i>	<i>Explanation.</i>
Mewar	+ 1,223	+ 201	Reckoning hamlets as separate villages instead of including them in the parent villages as in 1901, and the re-inhabiting of villages lying deserted in 1901.
Partabgarh	+ 205	+ 49.6	Reckoning hamlets as separate villages instead of including them in the parent villages as in 1901.
Tonk	+ 734	+ 134.9	Inclusion of 752 villages of Chhabra, Pirawa and Sironj Farganas, recently transferred from the Central India to the Rajputana Agency.

TOWNS AND VILLAGES CLASSIFIED BY POPULATION.

TABLE III.

TABLE IV.

Towns Classified by Population with Variation since 1881.

Explanatory Note.

This Table shows the population of all cities and towns.

No census was taken in Rajputana before 1881. The Table, therefore, cannot be carried back beyond 1881. In Ajmer-Merwara a census was taken in 1876. The figures in connection with it for the towns in Ajmer-Merwara were as follows:—

Towns.	District.	Population. 1876.	Increase. 1876 to 1881.	Variation. 1876 to 1911.
Ajmer	Ajmer	85,111	18,624	61,111
Beawar	Merwara	12,308	3,621	10,492
Dooli	Ajmer		(Figures not available.)	
Kekri	Ajmer	4,885	1,234	1,041
Nasirabad	Ajmer	20,097	1,223	144

As in 1901, a city means (i) every town containing not less than 100,000 inhabitants, (ii) any other town treated by the Provincial Census Superintendent, with the sanction of the Local Government, as a city for census purposes. Only one city, Jaipur, falls within the former category. The remaining seven Rajputana cities and Ajmer have again been included in the latter category, as in 1901. No new cities have come into existence since 1901.

There has been a decrease in Kotah city, due to the separation of Chhaoni, and an increase in the area of Alwar. Their adjusted populations for 1901 are as follows:—

	Persons.	Males.	Females.
Alwar	58,113	30,269	27,844
Kotah	32,146	16,532	15,614

A town was defined in the Imperial Census Code as including (1) every Municipality, (2) all civil lines not included within Municipal limits, (3) every Cantonment, (4) every other continuous collection of houses inhabited by not less than 5,000 persons, treated by the Provincial Census Superintendent as a town for census purposes. But the numerical limit in the case of category (4) has been relaxed in Rajputana so as to admit certain places having urban characteristics, which had been treated as towns in 1901.

Towns have been arranged in four classes, and alphabetically within the class. The number of towns in each class is as follows:—

Class.	NUMBER OF TOWNS IN	
	Rajputana.	Ajmer-Merwara.
I. 20,000 and over	3	2
II. 10,000—20,000	24	...
III. 5,000—10,000	59	2
IV. Under 5,000	40	...
Total	126	4

The following seven places have been included as towns for the first time:—

Towns.	1911: total population.	State or District.	Reasons for inclusion.
Chhabra	6,164	Tonk	Transfer from Central India Agency.
Dooli	5,205	Ajmer	Cantonment.
Gallakot	3,914	Dungarpur	Municipality.
Kushalgarh	3,594	Kushalgarh	Municipality.
Pirawa	4,562	Tonk	Transfer from Central India Agency.
Sagwan	4,499	Dungarpur	Municipality.

Kuchera, which had a population of only 3,488, and was treated as a town in 1901, has been omitted this time at the request of the Marwar Durbar, having lost its urban characteristics.

There has been a slight increase in the areas of two towns in Ajmer-Merwara, Beawar (392 square miles), and Kekri (23 square miles). But as it has not been possible to ascertain the previous population of the new areas the adjusted 1901 population cannot be given.

As far as possible the population of suburbs has been shown separately.

The figures for Sambhar town, which is in the joint jurisdiction of the Jaipur and Marwar Durbars, have been divided between the two States.

Unlike Table III travellers by railway, and persons enumerated in encampments and fairs, are included in the population of the towns in whose limits they were enumerated. This has not, however, affected the classification of any town as compared with that in Table III.

TABLE V.

Towns arranged Territorially with Population by Religion.

Explanatory Note.

In this Table towns are arranged territorially. The capital town of the State is placed at the top of each group, and the remaining towns are arranged in alphabetical order.

Hinduism and the followers of its allied religions, Arya Samujists, Jains, and Sikhs, have been grouped under the common head "Indo-Aryan." The group "Hindu Brahmanic" represents those styled Hindus in the more restricted religious sense of the term. The remaining religions are arranged in numerical order.

The group "Animist" includes all those who returned no recognised religion but only their caste name in the religion column in the schedules. The majority of them are forest or aboriginal tribes, such as Bhils, Minas, Bauris, and Grassias, who follow primitive forms of belief. The border line between Animism and Hinduism is, however, a thin one, and many of those who were classed as Animists in 1901 have been returned as Hindus at this Census, and *vice versa*.

The columns for "others" include the following:—

TABLE VI.

Religions.

Explanatory Note

Hinduism and the followers of its allied religions—Arya Samajists, Brahmo Samajists, Jains, and Sikhs—have been grouped under the common head “Indo-Aryan.” The group “Hindu Brahmanic” represents those styled Hindus in the more restricted religious sense of the term.

The remaining religions are arranged in numerical order.

The group “Animist” includes all those who returned no recognized religion but only their caste name in the religion column in the schedules. The majority of them are forest or aboriginal tribes, such as Bhils, Minas, Bauris, and Grassias, who follow primitive forms of belief. The border line between Animism and Hinduism is, however, a thin one, and many of those who were classed as Animists in 1901 have been returned as Hindus at this Census, and *vice versa*.

TABLE VII.

Age, Sex, and Civil Condition.

Explanatory Note.

The Table is divided into four parts, each showing the distribution of the population by age, sex, and civil condition.

Part A.—Shows, for each Province as a whole, the distribution of the total population (all religions) and of each religion.

Part B.—Shows, for States and Districts, the distribution of the total population (all religions).

Part C.—Shows, for States and Districts, the distribution of the population of each main religion (Animist, Christian, Hindu, Jain, Musalman, Sikh).

Part D.—Shows, for each City, the distribution of the total population (all religions).

In Parts B, C, and D the age periods are given in less detail than in Part A, those for the individual years 1, 2, 3, 4 being omitted, and those from 20 onwards being compressed into 3 periods, 20—39, 40—59 and 60 and over.

The ages of the people recorded in the Census schedules represented the actual number of completed years on the day of the Census, not the current year of age. Divorced persons were included in the heading "widowed," provided that they were not remarried.

TABLE VIII.

Education.

Explanatory Note.

This Table is divided into four Parts, corresponding to those adopted for Table VII.

Part A shows the extent of literacy in each of the Provinces, as a whole, and by each religion.

Part B gives similar details for each State or District for its population as a whole.

Part C gives similar details for each State or District by main religions (Animist, Christian, Hindu, Jain, Musalman, Sikh).

Part D shows the extent of literacy in each City.

Literacy was defined, for the purpose of this Census, as the ability to read *and* write a letter. The Table gives separate details of literacy in English in columns 11 to 13, which show both those whose only language of literacy was English and those literate in English as well as some other language. Persons shown in these columns, however, are included also in the main "Literate" columns, 5 to 7. The totals in columns 2 to 4 thus represent the aggregates of columns 5 to 10 only.

In Part A Christians have been sub-divided into (a) Indians and (b) "others" to illustrate the extent of literacy among Indian Christians.

TABLE IX.

Education by Selected Castes, Tribes, and Races.

Explanatory Note.

The castes selected for this Table are those—

- (a) numbering, in the two Provinces combined, 40,000 and over, or about $3\frac{1}{2}$ per mille of the combined population, except Gadri, Jogi, Kunbi, and Sirvi ;
- (b) numbering 15,000 and over of any one religion other than Hindu, except Bhishti, Julaha, Mirasi, and Pinjara ;
- (c) numbering 3,000 and over in Ajmer-Merwara alone, except Dholi and Kahar ;
- (d) of particular local or general interest, such as Chakar, Golapurab, Merat, Prohit, Sevag, and Goanese, Jew, Kayastha, Parsi, respectively.

The castes noted above as excepted were not sorted for the Table in the first instance as they were comparatively small in 1901.

For the purpose of this Table Christians (excluding Goanese) have been treated as a separate race, and have been subdivided into "Indians" and "Others." But the figures do not agree exactly with those for Christians in Tables VI, VII, VIII, and XVII, as the latter include Goanese who are shewn separately in this Table, and a Jewess by race who returned her religion as Christian.

The figures for Jews in this Table likewise differ from those for the Jewish religion in Tables VI, VII, and VIII, as the latter include individuals who were returned as Jewish by religion but were not Jews by race.

The figures in columns 3, 4, 5, will not always agree with the corresponding ones in Table XIII as in some cases, subsequent to the compilation of this Table, amalgamation of castes has been made in Table XIII.

Regarding the figures for literacy in English a reference to the Explanatory Note to Table VIII should be made.

TABLE X.

Language.

Explanatory Note.

This Table shows the languages ordinarily spoken by the people in their own homes. Infants and dumb persons have been classified as speaking their mother's language.

The languages entered in the Table are those actually returned in the schedules, except that entries, which were obviously either purely local terms, or not languages at all, have been shewn under the languages which, after further enquiry, it was considered were intended. On the last page of the Table will be found an Appendix shewing the most important of such entries, as found in the schedules, and the proper languages in which they have been included.

The Table is divided into four groups :—

A.—Vernaculars of India, commencing with the two most frequently spoken in Rajputana, Rajasthani and Western Hindi, the rest being in alphabetical order.

B.—Vernaculars of Asiatic countries beyond India.

C.—European languages.

D.—Other languages.

Languages of numerical insignificance have been amalgamated under "others" in each group. Their details are as follows :—

TABLE XII.

Infirmities.

Explanatory Note.

The infirmities recorded at the Census were insanity, deaf-mutism from birth, total blindness, and corrosive leprosy.

The Table is divided into two parts. Part I shows the distribution of the afflicted persons according to age for each of the two Provinces, and Part II the distribution according to locality. In Part II the States in Rajputana have been grouped by natural divisions, the States within the divisions being arranged alphabetically.

Persons suffering from more than one infirmity have been shewn under each of such infirmities. Such persons have been counted more than once among the population afflicted, shewn in columns 2, 3, 4.

TABLE XII.—PART II.
INFIRMITIES.

TABLE XII-A.

Infirmities by Selected Castes, Tribes or Races.

The castes chosen for this Table are the same as those for Table IX (*vide* Explanatory Note to that Table) with the following exceptions:—

(a) Jews, Goanese, Parsis, Christians ("others") which include all Europeans and allied races and Anglo-Indians, have been excluded, as no infirmities were returned among them.

(b) Bhishti, Dakot, Dhanak, Garoda, Gosain, Jogi, Lakhera, Sad, Sansi, Sindhi, Swami have been included.

The total populations of each caste in columns 4, 5, 6 correspond exactly, religion by religion, to those in Table XIII (Caste). But, in any caste, religions containing no infirmities have not been shewn separately, though they have been included in the caste Totals on which the percentages in column 19 have been calculated.

Where a caste in one of the two localities in column 2 has no infirmities and, at the same time, is numerically so small as not to affect materially the percentage of infirmities in the caste as a whole, figures for the more important locality only have been given.

A reference to Table XIII will show how the castes actually returned in the schedules have been amalgamated in this Table also.

In calculating the percentages in column 19, persons suffering from more than one infirmity have been counted more than once, no separate record of such persons having been kept in the abstraction offices.

TABLE XIII.

Caste, Tribe, or Race.

Explanatory Note.

This Table is divided in two parts. Part I contains the figures by Caste, Tribe, or Race, and Sex for each of the two Provinces. Part II gives them in detail by States or Districts and by Religion.

In both parts separate details have been given only for the following castes, etc. :-

- (a) Those numbering, in the two Provinces combined 7,000 and over, or about 6 per mille of the combined population ;
- (b) Those numbering 4,000 and over of any one religion other than Hindus ;
- (c) All non-Indian races ;
- (d) Certain castes of particular local or general interest, viz., Goanese, Indian Christians, Khawaswal, Mehtar, Merat Gorat, Moghia, Parai, Sansi.*

The figures for the remaining castes, etc., have been amalgamated under the head "minor castes," which includes those noted below and a few others which were obviously not caste names at all and were unidentifiable. The list is not completely exhaustive as two or three of the States' abstraction offices kept no details of the castes included by them among the minor ones.

Mahajan Castes.
Over 1,000.
Between 500 and 1,000.
Between 100 and 500.
Under 100

As far as possible entries in the schedules which were synonyms, or sub-castes, or mere local equivalents of a true caste, have been amalgamated with the castes to which they appeared to belong after such enquiries, local or otherwise, as it was possible to make. The more important of these are mentioned in the footnotes to the Table. A more exhaustive list of such amalgamations will be found in the Appendix at the end of the Table.

The term "Anglo-Indian" has been substituted for "Eurasian" under the orders of the Government of India. It includes all persons hitherto known as Eurasians and is not confined to those of partially British origin.

Indian Christians who returned their original caste names in the schedules have been included in the head "Christian (Indian)." Details of their former castes, however, will be found in the Report Volume.

All those who returned their caste instead of their religion in the religion column in the schedules have been classified as Animists by religion.

* Where no particular religion has been specified in brackets, the caste includes Hindus only.

TABLE XIV.

Civil Condition by Age for Selected Castes, Tribes or Races.

Explanatory Note.

The castes selected for this Table are the same as those for Table IX, as mentioned in the Explanatory Note to that Table. But the totals of the following castes, *viz.* Ahir, Bairagi, Balai, Bhangi, Bhil, Brahman, Chamar, Chhipa, Darzi, Dhobi, Fakir, Jat, Kainkhani, Kalal, Kayastha, Khati, Kumhar, Lohar, Mahajan, Mali, Nai, Naik, Rajput, Rangrez, Sevag, Sunar, Sutar do not agree with those in Table IX because, in this Table they do not include figures for the Nandwas and Gangapur parganas of Indore and Gwalior in the Mewar Agency, which were not abstracted in the Central India Office.

In this Table, unlike Table IX, separate details by religion have only been given for those religions numbering 500 and over in a caste. The caste *totals*, however, include *all* religions. So, too, no separate details have been given for Ajmer-Merwara for castes totalling less than 500.

TABLE XIV.

TABLE XV-A.

Occupation or Means of Livelihood.

Explanatory Note.

This table is divided into two parts. Part I is a Provincial Summary. Part II shows by States or Districts the occupations or means of livelihood which were returned in the schedules as the *principal* means of support. The subsidiary means of support of the agricultural classes only are dealt with in Table XV-B.

Separate figures for Cities are given in Part II, but these are included also in the State and District figures. Jodhpur City includes Jodhpur suburbs which have been shown in Tables IV and V under the name of Jodhpur Town.

To facilitate comparison with the statistics of occupations in other countries the method of classification in the Census of 1901 has been abandoned, and Monsieur Bertillon's scheme, modified where necessary to suit the local conditions of India, has been adopted. Occupations are arranged in 4 Classes, A, B, C, D. The Classes are sub-divided into 12 Sub-classes, which in their turn are sub-divided into 55 Orders. Within the Orders are 169 Groups. For ready reference an Appendix has been added to the Table showing how the groups of the 1901 Table have been amalgamated in the new groups.

Group 29 (persons occupied with feathers), Group 94 (Harbour works, dockyards, and pilots), and Order 43, Group 141 (Navy), have been omitted from Part II of the Table, as there were no occupations returned under these heads.

To meet local requirements certain groups in the standard scheme have been sub-divided as follows :—

Group 2 (ordinary cultivators) into 2 (Actual cultivators [rent payers]) and 2 (a) (Unpaid helpers in cultivation); Group 142 (Police) into 142 (Police Imperial) and 142 (a) (Police Native States); Group 145 (Service of Native and Foreign States) into 145 (a) (Rulers of Native States and their families), and 145 (b) (Native States' administrative officials and menials).

So, too, owing to the difficulty in distinguishing between dyers of textiles and dyers of made-up clothes, Group 30 has been sub-divided into 30 (Bleaching, printing, preparation and sponging of textiles), and 30 (a) (Dyeing of textiles), and Group 71 into 71 (Washing and cleaning of clothes) and 71 (a) (Dyeing of made-up articles of clothing). The dyeing industry is thus represented by the combination of groups 30 (a) and 71 (a).

TABLE XV-E.**Statistics of Industries.*****Explanatory Note.***

This Table classifies the information about industries which was collected in a special Industrial Schedule filled in by the owners, managers, or agents of factories, etc., in which at least 20 persons were employed on March 10th, 1911. The Table is divided into four parts.

Part I is a Provincial Summary showing the number of persons employed in each industry dealt with.

Part II shows, for each State or District, the number of persons employed in each class of industries.

Parts III and IV give the castes or nationalities of the owners and managers, respectively, of the Cotton factories, presses, and mills in the two Provinces.

TABLE XV-F.

Principal Castes supported mainly by Agriculture.

Explanatory Note.

This Table has been compiled especially for these provinces. Its purpose is to show which of the most important castes depend mainly upon agriculture, in some form or other, for their means of support, whether principal or subsidiary. Column 16 shows the percentage of the caste (including dependants) supported in *some* way by agriculture. Column 17 shows the percentage of the caste (excluding dependants) supported *principally* by agriculture.

The Table shows separate figures for four localities (*viz.*, the three natural divisions of Rajputana, and Ajmer-Merwara) and for rural and urban areas within each locality. The 'Total' figures include both Provinces. Separate figures for localities and for areas, however, have not been given where they contain less than 1,000 and 500, respectively, of the caste; but the figures for such are included in the 'Total' figures for the caste.

The Table does not include figures for Alwar, Bundi, Tonk (Eastern Division) and Kushalgarh (Southern Division), as it was not compiled by these States.

The castes shown in the Table are:—

(a) all those selected for Table IX, the percentage in which, in column 16, is 50 or over in rural areas in any of the four localities;

(b) all those in Table XIII the percentage in which, in column 16, is 80 or over in rural areas in any of the four localities;

(c) a few others of special interest.

The figures for Caste Totals in columns 4, 5, 6 correspond to the Totals in Table XIII, *minus* the omitted States noted above.

In column 1 is shown what is generally considered to be the traditional or original occupation of each caste, thus helping to show how far non-agricultural castes have supplemented or replaced their traditional occupations with agriculture, and how far the original cultivating castes still depend upon agriculture for their main support.

OCCUPATIONS OF EUROPEANS, ETC. 284

TABLE XVII.

Territorial Distribution of Christians by Sect and Race.

Explanatory Note.

This Table gives figures, by States or Districts, for the most important sects of Christianity. Christians have been divided into three main racial groups, *viz.*, Europeans and allied races (including Armenians), Anglo-Indians, and Indians. Indians have been sub-divided into Gousses and "others." The term "Anglo-Indian" includes all persons hitherto known as Eurasians, and is not confined to those of partially British origin.

At the end of the Table will be found an Appendix showing the method of classification of the smaller sects of Christianity likely to be found in Rajputana and Ajmer-Merwara, which was adopted at this Census.

Bharwara, Bundi, Jaisalmer, Kushalgarh, Lawa, and Partabgarh are omitted from the Table, as they contain no Christians.

TABLE XVIII.**Europeans and Allied Races, Armenians, and
Anglo-Indians, by Age.***Explanatory Note.*

This Table gives statistics by age, and by State or District, for all Europeans and allied races, Armenians, and Anglo-Indians. To save space, figures for Armenians have been included among those for Europeans.

The term "Anglo-Indian" includes all persons hitherto known as Eurasians, and is not confined to those of partially British origin.

Europeans have been subdivided into "British subjects" and "others." For this purpose the term "British subjects" embraces (a) all British races (including Colonials, etc.), and (b) all other Europeans and allied races born in Great Britain or in a British Colony or Dependency.

The Table gives separate statistics for Cities, but these are included also in the State and District figures. Jodhpur City includes Jodhpur suburbs, which have been shown in Tables III and IV under the name of Jodhpur Town.

Banswara, Bundi, Dungarpur, Jaisalmer, Kishangarh, Kushalgarh, Lawa, Partabgarh, Shahpura are omitted from the Table, as they contain no Christians.

Explanatory Note.

This Table has been prepared for Ajmer City only, to show the most important or interesting occupations or means of support and the birthplaces of immigrants, among certain selected castes or races, which have been chosen either for their numerical importance or their local interest.

It also shows the ages of all immigrants under three periods, namely 0 to 14, 15 to 39, and 40 and over.

Details by occupations have not been abstracted nor shown in columns 12 to 33 against "other" castes, nor have figures for age combined with birthplace been given against "others" in columns 6 to 11 under the different birthplaces. For this reason, (1) the figures in columns 12 to 15 against "All castes" in the entries for "Total immigrants," and (2) the figures in columns 6 to 11 and 12 to 15 against "Totals" in the entries under the various birthplaces, will not work up in either case to the totals in columns 3 to 5.

The figures for immigrants exclude immigrants from Ajmer District into the City, figures for such not being available.

TABLE XIX.

PROVINCIAL TABLE I.

Area, Houses, and Population of Administrative Units.

Explanatory Note.

The two Provincial Tables in this volume give statistics for the various administrative units in the States and Districts, *e.g.*, for Tahsils, Nizamats, Parganas, Towns, or whatever the local unit may be called.

This Table shows for each such unit its area, number of towns and villages and of houses in rural and urban areas, population (urban and rural) of 1911, density of population per square mile, population of 1901, and percentages of variation for 1891-1901 and 1901-1911.

The units have been arranged so far as possible in alphabetical order, except that the capitals of States and Districts have been printed first in each case, and towns whose areas are shown as included in that of some Pargana, etc., have been printed immediately next to such Pargana.

Many of the units have been completely changed since 1901. The figures in columns 14 to 16, therefore, will not always agree with those in the Tables of previous censuses. In some such cases, owing to the impossibility of adjusting the population, these columns have been left blank.

In some cases towns have been taken out of the Parganas, etc., in which they were included in the 1901 Tables, and are shown separately.

Very many of the areas given in column 3 for the administrative units are merely approximate, being based on the rough revenue records of the States.

Compared with the Imperial Tables differences will be found in this Table—

(1) in the areas of Rajputana, Alwar, Dholpur, Jaipur, Karsuli, Marwar, Tonk, Ajmer-Merwara, Ajmer, and Merwara, owing to the Imperial Table figures being based on the Imperial Survey, and those in this Table on the latest revenue records;

(2) in all the figures (except urban) for (a) Rajputana, Marwar, Mewar, Ajmer-Merwara, and Merwara, owing to the inclusion in this Table, in the 1911 figures for Rajputana, Marwar, and Mewar, of the villages belonging to these States which are situated in Merwara; (b) Rajputana, Dholpur, and Mewar, through the inclusion of Nimrol village (shown in the Central India Imperial Tables) in Dholpur, and the exclusion from Mewar of the Parganas * of Nandwas of Indore and Gangapur of Gwalior (shown in the Central India Provincial Tables). The figures for Nimrol appear to have been omitted from the Provincial Tables of 1901, and the village is said to have escaped the census of 1891 altogether;

(3) in the 1901 figures for Alwar and Kotah Cities, as this Table gives the adjusted figures.

* For details of these Parganas see foot-note to Imperial Table I.

PROVINCIAL TABLE I.

PROVINCIAL TABLE II.

Administrative Units by Religion and Education.

Explanatory Note.

This Table gives, for administrative units, details of religion for Animists, Christians, Hindus, Jains, Musalmans, and Sikhs; the remaining religions being amalgamated under the head "others," and of education by the three age periods 0 to 14, 15 to 19, and 20 and over.

Discrepancies will be apparent between the figures in this Table and Imperial Tables VI and VIII in the case of Rajputana, Dholpur, Marwar, Ajmer-Merwara, and Merwara. The reasons for these discrepancies are given in the Explanatory Note to Provincial Table I, to which a reference should be made.
