TABLE I.

AREA, HOUSES AND POPULATION.

1. This Table shows for each District and State the area, the number of towns and villages, the number of occupied houses, and the total urban and rural population, male and female. The Districts are arranged, in this and other Tables, in the order of Administrative Divisions, with the only exception that the figures of Delhi Province have not been shown in this Volume, a separate Volume for that Province being prepared on the present occasion.

2. "*Houses*" in colums 6 to 8 means census houses. For a discussion of the definition of this term, see the closing paragraphs of Chapter I of the Report Volume. Briefly, the census house is the dwelling-place of the commensal family ; but any non-residential building which contained a single individual on the Census night was also reckoned as a "*House.*"

3. The differences between some of the areas shown in this Table and those given in the corresponding Table of 1921 are due to territorial transfers. The recent Survey figures as communicated by the Department of Survey of India for Rohtak, Gujrat, Shahpur and Sheikhupura Districts have been entered after adjustment for subsequent changes ; in the case of other Districts those supplied by the Survey of India and reported in the Tables of Agricultural Statistics of the Punjab for the year 1929-30 have been adopted without alteration.

4. The territorial transfers that have occurred since the last Census are :—

(*a*) Inter-District transfers in the Ferozepore, Lahore, Sialkot, Sheikhupura, Montgomery, Lyallpur and Multan Districts.

(*b*) A transfer of one square mile from Ferozepore District to Bikaner State.

(*c*) A transfer of two square miles from Kangra District to Mandi State.

(*d*) A transfer of less than one square mile from Bulandshahr District (U. P.) to Gurgaon District and *vice versa*, caused by alluvion and diluvion.

(*e*) A transfer of less than one square mile from Muzaffarnagar District (U. P.) to Karnal District caused by alluvion and diluvion.

5. In the case of Indian States, the figures of 1921 have been repeated, as figures from Survey Department were received too late for adoption.

6. "Biloch Trans-Frontier" is the hilly tract across the border of the Dera Ghazi Khan District proper. It is administered by Tumandars (Tribal Chiefs) under the control of a Political Assistant to the Deputy Commissioner. The tract has not yet been regularly surveyed and the area given in the last Census Report has been repeated.

Note.—The population statistics for tahsils will be found in Provincial Tables I and II at the end of this Volume.

Note.—The figures in italics below the District figures relate to Cantonments.

TABLE II.

VARIATION IN POPULATION DURING THE LAST FIFTY YEARS.

1. In this Table the figures of the present census are compared with those of previous censuses.

2. The territorial transfers (*a*) inter-District and (*b*) with the United Provinces have affected the population of the following Districts :—

Gurgaon, Karnal, Ferozepore, Lahore, Sialkot, Sheikhupura, Montgomery, Lyallpur and Multan.

3. The population of areas transferred has been taken into account and the figures of former censuses adjusted accordingly. The total population of the Province in 1881, 1891, 1901, 1911 and 1921 has been increased by 402, 412, 488, 474 and 454 persons respectively on account of transfer of area from the United Provinces of Agra and Oudh.

TABLE III.

TOWNS AND VILLAGES CLASSIFIED BY POPULATION.

1. This Table has been prepared from the Village Tables, every revenue estate being treated as one unit. When, however, one or more villages are included in a Town, City or Cantonment, the latter has been taken as one unit. According to revenue records the total number of villages in the British Territory is 36,861, of which 34,852 are inhabited. The total number of inhabited villages, towns and cities according to this Table comes to 34,819, the difference being due to some revenue estates being included in towns, cities, etc. In some of the Indian States, which have not been surveyed, the unit for collection of revenue has been treated as a village.

2. For the purposes of India Tables, figures of Cantonments are shown in smaller type in the proper class, and this accounts for an excess of 12 in the number of cities, towns and villages in this Table as compared with Table I, in which the 12 Cantonments adjoining towns and cities, are shown as forming part of them. Civil Lines have been included in towns which they adjoin except two (Hidayatpur Chhauni and Sanawar), which are isolated units.

3. Villages, whose homesteads lie in one block so that no line can be drawn to distinguish the population of one village from that of the other, were at the time of enumeration treated as a single unit. In compilation, however, the total population of such villages has been divided equally between the component villages and each village treated as a separate unit.

4. The total number of travellers enumerated in encampments, boats and trains, etc., has been shown separately in this Table. In Tables IV and V the number has been included in the population of the towns within whose limits the enumeration took place.

TABLE IV.

TOWNS CLASSIFIED BY POPULATION WITH VARIATION FOR FIFTY YEARS.

1. For Census purposes a town has been defined to include every Municipality, every Cantonment, all the Civil Lines not included in municipal limits, and every other continuous collection of houses inhabited by not less than 5,000 persons, which though not a Municipality possesses urban characteristics.

2. The question whether a collection of residential houses should or should not be classed under the last category was determined by the Superintendent of Census Operations in correspondence with local officers before the Census with reference to the probable population and consequently in many cases the limit of 5,000 was not reached. On the other hand many places with more than 5,000 inhabitants were omitted as they had not urban characteristics. The headquarters of all Punjab States, except the Simla Hill States, have been included in this Table irrespective of their population.

3. No attempt has been made to adjust the figures affected by changes in the area of towns during the last decade, and the figures given in the previous Census have been repeated.

4. The first five lines in the Table give the urban population of the Punjab, and in regard to the past five Censuses they do not represent the aggregate of the items that appear below them.

5. The Table below shows the changes that have taken place in the urban population of the province:—

Changes in the urban population from Census to Census.	1891.	1901.	1911.	1921.	1931.
1	2	3	4	5	6
1. (a) Number of towns at the next preceding Census which ceased to be towns at each Census since 1881 ..	72	23	63	11	4
(b) Population ..	252,609	247,148	260,079	48,883	11,223
2. (a) Number of new towns added at each Census ..	9	10	12	24	37
(b) Population ..	24,273	42,111	74,072	123,145	189,778
3. Variation in population due to difference in number of towns. (Increase+, Decrease—) ..	—228,336	—205,037	—186,907	+74,262	+178,555
4. Net variation in urban population at each Census	+218,387	+124,162	—35,784	+197,971	+746,216

6. No attempt has been made to show the population for past Censuses of places treated as towns for the first time, as it is deemed to have been rural.

7. The summer population of Simla, as ascertained at a special Census held on the 30th June 1931, is as follows :—

Towns.	Persons.	Males.	Females.
1	2	3	4
Simla ..	51,706	37,157	14,549
Kasumpti ..	727	471	256
Jutogh ..	1,516	1,165	351
Total ..	53,949	38,793	15,156

8. In this Table as well as Table V, Civil Lines and Cantonments have been included in towns or cities which they adjoin, except in cases in which they are isolated units such as Jutogh, Dagshai, Sabathu, etc. Separate figures have, however, been given for them under those of the cities and towns concerned. The abbreviations used are :—

M=Municipality. C. L.=Civil Lines.

Cantt.=Cantonment. U.=Urban.

S.=Suburban.

TABLE V.

TOWNS ARRANGED TERRITORIALLY WITH POPULATION BY RELIGION.

1. In the case of Municipalities with Cantonments or Civil Lines adjoining them, the whole area has been treated as a single town but separate figures have been given below the total in smaller type for the Municipalities, Cantonments, etc.

2. Persons returned under the head "Others" have been classified and thrown into religions as noted on the title page of Table XVI.

3. The abbreviations used in this Table are :—

M.=Municipality. C. L.=Civil Lines.

Cantt.=Cantonment.

4. The figures of Aryas and Brahmos have been included in those of Hindus.

5. The Civil and Military population of Cantonments appears below :—

TABLE VI.

BIRTH-PLACE.

1. This Table is divided into four parts. Part A, the Provincial Summary, contains statistics of birth-place for the Province as a whole, as well as for British Territory and Punjab States. Part B gives the same information, for each District and State. Part C gives statistics of birth-place by Districts and States within the Province for the colony Districts of Gujranwala, Sheikhupura, Shahpur, Montgomery, Lyallpur, Jhang and Multan, and Bahawalpur State. Part D gives the information as in Part B, for selected towns and cities.

2. Throughout this Table the phrase "within British DOMINIONS," should be taken to mean, "within the British Empire and Mandated Territories except Iraq."

TABLE VII.

AGE, SEX AND CIVIL CONDITION.

1. The age at this Census was recorded according to the nearest birthday. At the last Census, age meant the number of years completed. Each age-group includes the persons who have attained the ages represented by the years constituting the group except the top year. For example, the age-group 5-10 includes all persons whose age is either 5, 6, 7, 8 or 9 years; persons whose age is 10 go into the next higher group, 10-15.

2. This Table is divided into three parts. Part A shows the distribution for the Punjab as a whole of the total population and for each main religion by age, sex and civil condition. Figures for Ad-Dharmis have been shown separately for the first time. Part B shows the distribution for British Territory, for Punjab States (both groups), and for each District and State, of the total population and of the five principal religions (Hindu, Muslim, Christian, Jain and Sikh). The age-groups in Part B are quinary, as in Part A, up to the age of 20 and thereafter decennial down to 60, the final group being 60 and over. Part C gives similar details, with the addition of the figures of "Others" (other religions which include Buddhist, Zoroastrian, Jew and Ad-Dharmi) for cities and selected towns to which Lyallpur, Ludhiana and Sargodha have been added on the present occasion.

Note 1. The age statistics for places treated as towns for Census purposes are given in Part III. The age statistics for selected Tahsils have not been tabulated.

Note 2. Age statistics for Delhi Province appear in a separate Report.

TABLE VIII.

CIVIL CONDITION BY AGE FOR SELECTED CASTES AND TRIBES.

1. The castes selected for this Table are those which contributed at least 8 *per mille* to the total population of the Punjab in 1921, the criminal tribes, Bawaria, Harni, Pakhiwara and Sansi, being also included.

2. For the purposes of this Table, the Punjab has been split up into four main divisions, *viz* :—

A.—Eastern Punjab, including the Ambala Division except Simla District and the States of Loharu, Dujana, Pataudi, Kalsia and Sirmoor.

B.—Central Punjab, Hills, including the Simla and Kangra Districts, the Simla Hill States and the States of Bilaspur, Mandi, Suket and Chamba.

C.—Central Punjab, Plains, including the Jullundur Division except Kangra District, Lahore Division, the Gujrat, Lyallpur and Jhang Districts, the Phulkian States, and the States of Kapurthala, Faridkot and Maler Kotla.

D.—Western Punjab, including the remaining Districts in the Rawalpindi and Multan Divisions and the State of Bahawalpur ;

and these are referred to as A, B, C and D in column 2 of the Table.

3. The figures for some localities and religions, not shown in 1921 (Table IX), are now shown when so warranted by the numerical strength.

4. In this Table, figures for Arya (Vedic Dharm), Brahmo and Dev-Dharm, are included in those for Hindus, but to illustrate the civil condition of those classes, separate figures have been printed as Table VIII-A in Part III of the Report.

TABLE IX.

INFIRMITIES.

1. This Table corresponds with Table XII of 1921 and is divided into two parts. Part I shows the distribution of the persons afflicted according to age, and Part II their distribution according to locality.

2. Dual infirmities were recorded. Persons afflicted with two or more infirmities have been shown under each of the infirmities in question in columns 5 to 16. The total under infirmities, therefore, exceeds the total number of persons afflicted as given in columns 2 to 4. The statement below shows the number of persons suffering from more than one infirmity :—

TABLE X.

OCCUPATION OR MEANS OF LIVELIHOOD.

1. All occupations are divided into four classes, twelve sub-classes, fifty-five orders and one hundred and ninety-five groups. The scheme is the same as in 1921, except that there were then fifty-six orders and one hundred and ninety-one groups. All the columns for certain groups, the headings of which appear below, were blank for the whole Province and have therefore been omitted from the Table.

(8) Cultivators of Jhum, taungya and shifting areas. Cultivation of (9) Cinchona, (10) Coconut. (11) Coffee, (12) Ganja, (13) Pan Vine, (14) Rubber. (25) Raising of Silkworms. (26) Lac-cultivation. Exploitation of (30) Iron, (31) Lead, Silver and Zinc, (32) Manganese, (33) Coal, (38) Mica, (39) Precious and semi-precious stones. (48) Industry in hair (horse hair), etc. Manufacturers of (79) Opium, (80) Ganja. (155) Navy.

2. The Table deals with the entire population without regard to religion; the figures for Lahore, Amritsar and Multan cities, have been given separately. All non-working dependants have been thrown together, while earners have been divided into those following each occupation as principal means of livelihood and those following it as an occupation subsidiary to some other. Working dependants engaged in each occupation, who were included in actual workers at the last Census have been shown separately.

3. In group 192, only prisoners undergoing rigorous imprisonment are shown as working-dependants. All other kinds of prisoners as well as inmates of asylums, poor houses etc., were not separately sorted and have been included in the total of non-working dependants.

TABLE XI.

OCCUPATION OF SELECTED CASTES, TRIBES OR RACES.

1. This Table shows the occupations followed by certain castes, as well as Europeans, Armenians and Anglo-Indians.

2. The number of earners, following the traditional occupation of the caste as their principal means of livelihood, is shown in columns 10 and 11, and as a subsidiary means of livelihood in columns 12 and 13. The number of earners, who have some other occupation as their principal means of livelihood, is shown in column 18 and onwards.

3. The figures of all working dependants appear in columns 7 and 8, and of those following their traditional occupations in columns 14 and 15.

4. In the case of Europeans and Anglo-Indians, no occupation has been assumed to be traditional.

5. The castes and the localities for this Table are the same as in Tables VIII and XIV, with the exception that Europeans and Anglo-Indians have been shown for the whole of the Province with details of the Districts which returned fifty or more persons of each nationality. The number of Armenians being very small, their figures have been given for the whole Province.

TABLE XII.

EDUCATED UNEMPLOYMENT.

The figures of educated unemployment are given in a marginal Table in Chapter VIII of the Report.

TABLE XIII.

LITERACY BY RELIGION AND AGE.

1. This Table is divided into three parts. Part A shows the literacy by religion and age for the Province as a whole and detail for the British Territory and Punjab States by main religions (Hindu, Jain, Sikh, Muslim and Christian). Part B gives the figures for Districts and States by main religions, and Part C details similar to B for cities and selected towns.

2. Christians in the main Table include all races. The figures for Indian Christians for the whole Province are given below, as also the detail by main sects.

TABLE XIV.

LITERACY BY SELECTED CASTES, TRIBES OR RACES.

1. The selected castes and the localities for this Table, are the same as those dealt with in Table VIII.

2. Separate figures for Arya, Brahmo and Dev Dharm, which for the purpose of this Table are included among the Hindus, have been printed for British Districts as Table XIV-A in Part III of the Report.

3. In this Table figures for Arya (Vedic Dharm), Brahmo and Dev Dharm are included in those for Hindus, but to illustrate the literacy of those classes, separate figures have been printed as Table XIV-A in Part III of the Report.

TABLE XV.

LANGUAGES.

1. **Part I, shows the mother tongues of the persons living in the Province.** If the mother tongue returned was a dialect it has been included in the language to which it belonged, according to Sir George Grierson's scheme of classification contained in his Linguistic Survey of India.

2. Further detail of languages found in small numbers and lumped together in the main Table appears below:—

TABLE XVII.

RACE, TRIBE OR CASTE.

1. The number of castes for this Table has been reduced to fifty-six. The selection was made with a view to include all the castes, which contributed 4 *per mille* or more to the total population of 1921, the four criminal tribes, Bawaria, Harni, Pakhiwara and Sansi, and the "backward and depressed castes," numbering fourteen in all, five of which, Chamar, Chuhra, Dhobi, Dagi and Koli, and Julaha, also fall under the category of 4 *per mille*, the rest being Bagaria, Dumna, Ghosi, Kahar, Mahtam, Megh, Od, Ramdasia and Sarera. Darzi and Mali, which did not fall under any of the above categories, were also included. Separate figures have also been given for Brahmanic Hindus, who returned no caste.

2. In some places members of occupational castes, such as *Darzi*, *Chhimba* and *Chhipi*, returned themselves as Tank Kshatrya, and *Lohars and Tarkhans* as Dhiman Brahman. Figures for these two new castes have also been tabulated, and the details of the occupational castes included therein appear in Appendix I to Chapter XII of the Report.

3. In many cases members of certain occupational castes other than those, mentioned in the preceding paragraph, returned a higher caste, and their figures have been included in those of the traditional castes, for instance, Brahman Nai in Nai, Rajput Sunar in Sunar. The details of such figures appear in Appendix II to Chapter XII.

4. The castes of Indian Christian converts have been tabulated on the present occasion.

5. Where members of a caste belong to different religions, separate figures have been given; but where the numerical strength of a caste (for the whole Province) in any one religion falls below 1,000, the figures have been included in the total, with a foot-note to this effect. In order, however, to reduce the number of foot-notes, the figures for the religion with the greatest number of converts have not been detailed by localities, but an asterik indicates the locality and figures can be extracted by subtracting the detail of other religions, given in the body of the Table and in the foot-notes, from the column of "Total". The strength of such castes is indicated by the table below for the whole Province:—

TABLE XVIII.

VARIATION OF POPULATION OF SELECTED TRIBES.

1. This is entirely a new Table and shows the variation in the number of persons belonging to certain castes or tribes for the last five Censuses. The castes are the same as those in Table XVII. For the purposes of locality, the Districts have been grouped as in Table VIII. For the castes, dealt with in this as well as Table VIII, the localities and the figures are the same, but in the case of other castes, figures have been given only for the locality where a sufficient number of persons belonging to these castes are found.

2. In every case the column for total strength of caste includes figures for all religions, but detail has been given for religions contributing 1,000 persons or more.

3. The figures for 1911 and 1921 have been taken from Table XIV of the Table Volumes of the two Censuses in which totals for these localities are available, having been obtained after classification. In other cases the figures have been compiled from the Table XIII of those years which gave details for all the Districts and States.

4. After the Census of 1911, a portion of the Delhi District was added to the Rohtak District and a portion to the Gurgaon District, and the Mianwali District was formed after the Census of 1891, and therefore the figures of previous Censuses in the case of Rohtak, Gurgaon and Mianwali Districts, have been obtained after the necessary adjustment.

5. The figures of 1891, show the total strength of each caste by sex, without a similar detail by religion, and the figures by religion have now been given without a detail by sex. The figures of Aggarwals and Bagarias for the first three Censuses and of Mussallis for the first two, are not available, and in the case of these castes, no variation is shown prior to 1911, and 1901 respectively.

6. The castes sorted separately for the first time, namely, Tank Kshatrya, Dhiman Brahman and Ramdasia have been omitted from this Table.

PROVINCIAL TABLE I.

AREA AND POPULATION OF TAHSILS.

1. The figures of area have been taken from the Revenue Records as survey figures are not available by Tahsils. The totals of these figures, therefore, do not agree with the figures of Imperial Table I which are based on the survey data.

2. The difference, between some of the areas shown in this Table and those given in the corresponding Table of 1921, is due to remeasurement or territorial transfers. The details of transfers whether inter-district or provincial, which affect the areas of Districts, are shown on the fly-leaf to Imperial Table I. Some changes have, however, taken place during the decade inside the Districts, affecting certain Tahsils, as mentioned below :—

a. In the Sialkot District, Zafarwal and Raya have ceased to be Tahsils, while a new Tahsil called Narowal has been formed.

b. In the Sheikhupura District, three new Tahsils, Sheikhupura, Shahdara and Nankana Sahib, have been formed out of the Khangah Dogran and Sharakpur Tahsils, and the area transferred from the Lyallpur District.

c. In the Muzaffargarh District, Sanawan Tahsil has been abolished, while a new Tahsil called Kot Adu has been formed.

d. In Mandi State, Harbhag Tahsil has been abolished, and another called Jogindernagar has been formed.

e. In Suket State, portions have been taken out of Bhal and Karsog Tahsils to form the new Dehar Tahsil.

f. In Kapurthala State, the Bastiat Tahsil has ceased to exist, having been amalgamated with the Kapurthala Tahsil.

g, In Fridkot State, Kot Kapura Tahsil has ceased to exist.

h. In Nabha State, the Tahsil of that name has been added to the Amloh Tahsil ; while Jaitu and Dhanaula Tahsils have been added to the Phul Tahsil of the same State.

i. In Bahawalpur State, Naushehra Tahsil has given place to one named Rahim Yar Khan.

The changes that have altered the area of certain Tahsils are given below :—
