TABLE I.

Area, Houses and Population.

1. The area of some districts and states shown in this table differs from that shown in the corresponding table for 1921, and the total area of the province is less by 53 square miles. The reasons are as follows :—

I—*Extra-provincial transfers.*—

(*a*) 1 square mile of district Meerut was transferred to Delhi Province when the boundary between Delhi Province and the United Provinces was fixed under G. O. no. 5171/B.-173, dated September 7, 1923.

(*b*) 1 square mile was transferred on account of diluvion by the Ganges from district Ballia to Bihar and Orissa Province.

(*c*) 6 square miles of the Oudh Reserved Forests in district Bahraich were transferred to the Nepal Government in connexion with the Sarda Kitcha Project under G. O. no. 2022/IV—184, dated October 31, 1927.

The total extra-provincial transfers thus resulted in a loss of 8 square miles.

II—*Intra-provincial factors affecting total area of the province.*—

(*a*) It appears that the areas of districts Bulandshahr, Agra, Bijnor, Etawah, Allahabad, Jhansi, Ballia, Basti, Sitapur, Kheri and Gonda, and of Rampur State were incorrectly shown at last census. The net result was that the area of the province was then shown too much by 54 square miles.

(*b*) On account of resurvey in some districts preparatory to resettlement, and in others on account of small changes of boundaries due to fluvial action an increase altogether of 9 square miles has occurred.

The districts concerned are :—

Muzaffarnagar, Meerut, Aligarh, Etah, Bijnor, Budaun, Moradabad, Pilibhit, Hamirpur, Banda, Ballia, Gorakhpur, Basti, Azamgarh, Rae Bareli, Sitapur, Hardoi, Kheri, Fyzabad, Gonda, Sultanpur, Partabgarh and Bara Banki.

III—*Intra-provincial factors which do not affect the total provincial area.*—In addition to the small changes in boundaries referred to in II(*b*) above, the following more important changes were made in district boundaries in 1925, when, as a measure of economy, certain tahsils were abolished and added to other tahsils.

The changes in district areas on this account are as follows :—

(*a*) 40 square miles were transferred from district Farrukhabad to district Shahjahanpur.

(*b*) 147 square miles were transferred from district Banda to district Hamirpur.

(*c*) 90 square miles were transferred from district Ghazipur to district Benares.

These transfers did not, of course, affect the total area of the province.

2. In columns 4 and 7 "Towns" include as separate units—

(*a*) Municipalities (i.e., areas under United Provinces Act II of 1916).

(*b*) Notified Areas (i.e., areas under United Provinces Act II of 1916, Sections 337 and 339).

(*c*) Town Areas (i.e., areas under United Provinces Act II of 1914).

(*d*) Cantonments.

(*e*) Any other continuous group of houses permanently inhabited by not less than 5,000 persons which having regard to the character of the population, the relative density of the dwellings, the importance of the place as a centre of trade and its historic associations, the Provincial Census Superintendent decided to treat as a census town.

(For changes since last census see notes to Imperial Table IV.)

3. In column 5 "Villages" means revenue villages other than —

(*i*) those wholly absorbed in cities or towns and

(*ii*) those which on the night of the final enumeration contained no population.

The only exception to this is the Bhawali Sanatorium, district Naini Tal, which is situated in no town nor revenue village. It has been included as a separate village.

At last census forest areas not included in any revenue mauza were included as villages. Their exclusion at this census has resulted in a decrease in the number of villages in some districts.

4. In columns 6—8 "Occupied houses" mean census houses. A census house is not the same as a structural house, but is the dwelling-place of a single commensal family.

5. In columns 10, 13 and 16, the "Urban" population consists of all persons enumerated in census towns as defined in 2 *supra*. The "Rural" population in columns 11, 14 and 17 means the population enumerated in all other places.

(For changes since last census see notes to Imperial Table IV.)

6. Provincial Tables I and II, at the end of this volume, show for each tahsil a few of the main statistics.

TABLE II.

Variation in Population since 1881.

1. In the few cases where since last census, changes of boundary have occurred which involved populated areas, the populations of all previous censuses have been adjusted.

2. Where the actual population of the transferred area was ascertainable this figure has been utilised. In other cases the population transferred has been based on the density of population of the whole unit from which the transfer occurred.

3. The provincial totals are affected by the following transfers :—

District.	Area in square miles. (added + excluded —).	Population of 1921. (added + excluded —).			Cause of transfer.
		Total.	Males.	Females.	
Muzaffarnagar	—fraction	—96	—58	—38	Diluvion by the Jumna to district Karnal, Punjab.
Meerut	—1	—264	—144	—120	Transferred to Delhi Province at fixation of boundary.
Bulandshahr	—fraction	—363	—187	—176	Diluvion and alluvion by the Jumna between Bulandshahr and district Gurgaon, Punjab.
	+fraction	+5	+3	+2	
Bahraich*	—6	—130	—78	—52	4,000 acres of the Oudh Reserved Forests transferred to Nepal.
Net result	—7	—848	—464	—384	—

NOTES 1.—The transfer by diluvion of 1 square mile from Ballia to district Shahabad, Bihar and Orissa involved no population.

2.—The adjustments to the figures of the censuses prior to 1921 differ, of course from the above.

4. Adjustments have been made for transfers between the following districts which do not, however, affect the provincial totals :—

Muzaffarnagar, Meerut, Etah, Bijnor, Budaun, Moradabad, Shahjahanpur, Farrukhabad, Hamirpur, Banda, Benares, Ghazipur, Gonda and Bara Banki.

*The slight differences between the total population figures of the United Provinces for 1881—1921 as stated in this volume and as shown in the all-India Tables volume are due to the fact that in this volume the totals referred to have been adjusted retrospectively on account of this ex-India transfer.

TABLE III.

Towns and Villages classified by population.

1. In this table each municipality, cantonment and notified area, and the Gorakhpur Railway Colony, has been treated as a separate town.

2. Town and village have the same meanings as mentioned in notes 2 and 3 to Table I.

3. Column 23 includes persons who were enumerated in—

(*a*) running trains,

(Residents of station premises and persons enumerated on platforms have been included in the population of the town or village in which the station is situated.)

(*b*) boats on rivers,

(*c*) coolie encampments or those of wandering tribes,

(*d*) forest areas which are not included in any revenue village.

In Tables IV and V this moving population has been included with the rest of the town population.

TABLE IV.

Cities and towns classified by population with variations during the last fifty years.

1. A city is defined as—
   (*a*) any town whose population is not less than 100,000,
   (*b*) any other town which the Provincial Census Superintendent, with the sanction of the Local Government, may decide to treat as a city for census purposes, keeping in view the considerations mentioned in note 2(*e*) to Imperial Table I.

The city includes the municipality and any adjacent cantonment, notified area and railway colony, though separate figures for each of these constituent units are shown as sub-heads. At this census, for the first time, the Garhia Pathak Notified Area which is adjacent to Jhansi Municipality and Cantonment, has been included in the City of Jhansi.

2. Twenty-three places have been treated as cities. This is a reduction of one since last census, Jaunpur Municipality having been omitted.

3. For cities separate figures are shown in Imperial Tables VI, VII, X, XIII and XIX.

4. Town has the same definition as is given in note 2 to Imperial Table I, with the following modification. In Tables I, III and V each cantonment, notified area, or railway colony is treated as a separate town, but in the present table, in order to facilitate comparison with the figures of past censuses, such places have been included with the adjacent municipalities, and in the case of the notified areas of Chunar Proper and Chunar Settlement they have been shown together. (In every case the figures of the separate units have been shown as sub-heads.)

For this reason the number of cities and towns does not agree with the number of towns of Imperial Tables I and V, and Provincial Table I. Actually the 23 cities and 405 towns of the present table are exactly equivalent to the 450 towns of those tables and the total populations will be found to agree.

5. In the case of those municipalities of which the population was 20,000 or over at last census, an attempt has been made to distinguish between the purely urban and the sub-urban populations. District Census Officers did not always give this matter their careful attention with the result that in some cases figures are lacking.

6. Prior to 1911 the figures of cantonments and notified areas were invariably included with those of adjacent municipalities.

7. In this table at last census the total number of cities and towns shown was 446. The following changes have been made this time.

(1) The following 28 places have now been excluded :—

District or State.	Serial number.	Town.	District or State.	Serial number.	Town.

Nos. 1—11, 16, 25 and 26 have ceased to be under Act II of 1914 since last census, and have no urban characteristics. Nos. 12—15 have never been under that Act and consist in each case of many rural hamlets scattered over a large area. Nos. 17—24 were wrongly shown under Act II of 1914 at last census. They are not under the Act now and have no urban characteristics. Nos. 27 and 28 are not under the Act and are but villages.

(2) The Ranibagh-Kathgodam Notified Area in district Naini Tal has been amalgamated since last census with the Haldwani Notified Area, causing a further reduction of one town.

(3) The following 12 towns (which have been printed in italics in both this and Table V, Part B) have been included now for the first time.

Serial number.	Town.	District.	Serial number.	Town.	District.
1	Sisauli	Muzaffarnagar.	7	Bhusawal ..	Gorakhpur.
2	Bugrasi	Bulandshahr.	8	Nautanwan ..	
3	Puranpur	Pilibhit.	9	Amila	Azamgarh.
4	Khaga	Fatehpur.	10	Nimsar	Sitapur.
5	Robertsganj ..	Mirzapur.	11	Oel	Kheri.
6	Bara	Ghazipur.	12	Palia	

Nos. 1, 3—5, and 8—12 have been brought under Act II of 1914 since last census. Nos. 2, 6 and 7 are not under that Act but have been treated as towns in view of their population and urban characteristics.

8. The figures shown against the United Provinces and the six class totals for 1921 and previous years have not been adjusted in any way on account of the change in the list of towns since last census, though certain errors discovered in the figures printed at last census have been eliminated. Consequently the townwise figures for these years do not add up to the class totals. The differences are due to :—

(1) certain towns having passed from one class to another since last census, and

(2) the exclusion of the 28 towns referred to in the previous paragraph.

In the United Provinces totals for these years the first factor cancels itself and the figures will be found to exceed the townwise totals by the figures of the 28 towns which have been omitted at this census. Their figures for 1921 and previous years have been left in the totals because although they no longer form part of the urban area, they did at previous censuses.

9. In the same way, the figures of previous censuses of the 12 towns included for the first time at this census are not included in the figures of 1921 and previous years, because at that time they did not form part of the urban area.

10. At last census the figures of some towns for 1911 and previous years were adjusted for changes in boundary. No such adjustments have been made at this census.

11. It may be useful to calculate the rate of increase since last census of the population of those areas which have been treated as towns at both censuses. This can be arrived at as follows :—

(1) The exclusion of the 28 towns referred to in paragraph 7(1) above results in the reduction of the 1921 urban population figures by

persons 92,489, males 48,200, females 44,289.

(2) The inclusion of the 12 new towns mentioned in paragraph 7(3) above has resulted in the addition of the following urban population to the figures of 1931

persons 48,895, males 26,045, females 22,850.

*The actual 1921 population of these towns is not available as their boundaries had not then been determined.

(3) Changes have also taken place in the boundaries of some towns since last census involving population. These, so to speak, fictitious increases or decreases in population also need to be taken into account when considering the variation in population of the towns concerned, and of the increase in total urban population. The nett result on the urban population figures of 1921 of such changes of boundary amounts to an addition of persons 23,055, males 13,136, females 9,919.

Taking all these factors into account the population of those areas which have been treated as cities or towns at both last census and this has increased as shown below, and these figures may be taken as showing the rate of increase of the urban population in the past decade :—

Population.						Increase, 1921—31.

TABLE V.

Towns arranged territorially with population by religion.

1. This table has two parts.

   A—Municipalities exclusive of any adjoining cantonments or notified areas.

   B—All other towns (as defined in note 2 on Table I).

2. Columns are provided only for the more important religions. The details for "Hindu Others" and "Others" will be found in the last two columns.

3. The following two towns have become municipalities since last census :—

   Baraut in district Meerut.

   Ramnagar in Benares State.

4. The towns printed in italics in Part B have been included for the first time at this census.

5. The remaining changes which have been made at this census are explained in the notes to Table IV.

TABLE VI.

Birth-place.

1. This table corresponds to Table XI of last census, but its form has been changed in order to economise in space.

2. It consists of two parts—

Part I.—Figures by districts and states of persons born—

A-I—in districts or states within this province;
A-II—in provinces and states in India beyond this province;
B—In other Asiatic countries;
C—in Europe;
D—in Africa;
E—in America;
F—in Australasia;
G—at Sea; and
H—birth-place unspecified.

Part II.—Similar figures for each of the 23 cities.

3. In accordance with retrenchment orders received from the Government of India, those born within this province have been sorted and tabulated only into those born—

(*a*) in the district of enumeration,
(*b*) in any of the three States,
(*c*) anywhere else in the province.

4. For the same reason under B—E in each part the birth-places returned by small numbers have been clubbed together under "Elsewhere." The details of these are as follows :—

TABLE VII.

Age, Sex and Civil Condition by Religion.

1. The figures are shown in three parts—

A—Provincial Totals—For British Territory and States separately, for all religions together and severally, by annual age periods from 0—5 and by quinquennial periods from 5—70.

B—District and State figures for (1) all religions together, (2) Brahmanic Hindus and (3) Muslims, by the above age periods as far as 20 and thereafter by decennial periods up to 60.

C—City figures, arranged as in B.

Civil conditions are shown separately throughout.

Divorced (and not remarried) persons are included under "widowed".

2. The age groups have been smoothed in accordance with instructions issued by the Government of India.

3. Three males who returned indefinite beliefs (see note 1 to Table XVI) have been included in this Table under Christians.

4. The city figures for Gorakhpur in part C exclude the population of the Gorakhpur Railway Colony. They were excluded in error in the Central Office and it was not considered worth the expense to abstract them subsequently.

TABLE VIII.

Civil condition by age for selected castes.

1. The figures for each caste include persons of all religions who returned that caste.

2. The remarks made in paragraphs 4 and 6 (excluding Kanjar) of the note to Table XVII apply equally to this table.

3. The numbers in column 3 refer to the serial numbers of districts and states as they appear in column 1 of Imperial Table I.

4. The castes have been arranged according to the frequency of infant marriage, i.e., according to the proportion which the number of married and widowed females under 14 years of age bears to the total female population.

5. This table corresponds to Table XIV of last census.

TABLE IX.

Infirmities.

1. This table is divided into two parts :—

Part I.—Totals for (i) British Territory, (ii) States, by age-periods.

Part II.—District and State totals for all ages.

In part I the age-groups have been smoothed in accordance with the instructions received from the Government of India.

2. In both parts of this table the figures under each infirmity represent *cases* and not persons, as a person suffering from two or more infirmities has been shown under each such infirmity. In columns 2—4 of Part I and 3—5 of Part II are shown the actual number of *persons* afflicted with one or more infirmities. For this reason the figures under each infirmity when added up will be found to exceed the figures for 'Population afflicted.'

3. Below are given the particulars of persons returned as suffering from more than one infirmity.

TABLE X.

Occupation.

1. The table consists of three parts :—
Part I.—Provincial summary by groups.
Part II.—The figures by sex of classes, sub-classes, orders, sub-orders and groups by districts and states.
Part III.—Similar figures for each of the 23 cities.

2. The scheme of classification was prescribed by the Government of India.

3. *Earners* include all persons who actually work or carry on business themselves or through their servants, or who have a separate source of income.

Working dependents are those women or children who by their labour augment the family income but do not receive separate wages for their work.

All others are *non-working dependents.*

4. *Principal occupation* means the most lucrative source of income.
Subsidiary occupation means the next most lucrative.

5. For fuller details concerning the subject matter of paragraphs 2—4 *supra* see Chapter VIII of the Report Volume.

6. In the case of Group 192—Inmates of jails, asylums and almshouses—prisoners undergoing rigorous imprisonment, have been classed as working dependents, and included as such throughout the whole table. Prisoners undergoing simple imprisonment, under-trials and civil prisoners and all other inmates of jails, asylums and almshouses have been shown as earners with the principal occupation of this group, and their numbers have been so included in the total figures of class D. In the total figures for all classes they have been excluded from earners and included among non-working dependents which they really are. This accounts for the apparent discrepancy between the figures for earners of all classes shown in the heading of Part I and those obtained by totalling for each class the figures shown in columns 4 and 5, 11 and 12, 18 and 19 respectively; and between the figures shown in columns 5—8, 15 and 16 of Parts II and III, and those obtained by adding together the corresponding figures of each of the four classes.

7. As a measure of economy any group found blank in Part I has been omitted. Similarly in Parts II and III respectively, any column which is blank for the whole province or for all the cities has been excluded from the table.

No figures appeared in any district or state in any column of the following groups :—

Group number.	*Occupation.*	*Group number.*	*Occupation.*	*Group number.*	*Occupation.*

TABLE XI.

Occupations of selected Castes, Tribes or Races.

1. As in Table VIII the figures for each caste include persons of all religions who returned that caste.

2. The remarks made in paragraphs 4 and 6 (excluding Dom) of the note to Table XVII apply equally to this table.

3. The figures of Kachhi, Mali, Murao, Rain and Saini have been clubbed together under one serial in order to economise in space, their traditional occupations being identical.

4. The district and states in which each caste is found will be seen by a reference to columns 2 and 3 of Table VIII or Table XIV, or to Table XVII (all parts).

5. This table corresponds to Table XXI of last census.

TABLE XII.

Educated Unemployment.

1. This is a new table for which information was collected in February, 1931 by means of a separate schedule.

2. The return was confined to males who could read and write English, and in order to ensure this, the special schedule, which was printed only in English, had to be filled up in English by the unemployed himself.

3. The table is in two parts, and shows the number entirely unemployed for (*a*) less than one year and (*b*) one year or more, between the ages of 20 and 40 years by quinary groups, in Part I by community or class, and in Part II by degree or standard of education attained.

4. The numbers of educated unemployed below 20 years of age and of 40 years or over are also given, and also the number of men who, having passed the S. L. C. or Matriculation or any higher examination and not being totally unemployed, have failed to secure regular employment with which they might reasonably be satisfied in view of their educational qualifications.

5. Although everything possible was done to secure an exhaustive return, about three-quarters of the districts reported that their returns were, for various reasons, not considered to be full. It is estimated that an addition of 25-30 per cent. to the figures of the S. L. C. passed and below S. L. C. groups would give figures more nearly approximating to the actual facts as they stood in February, 1931.

TABLE XIII.

Literacy by Religion and Age.

1. This table consists of three parts—

Part A.—Provincial totals (British District and State totals separately) of literacy by all religions separately for the age-groups 5—10, 10—15, 15—20, 20 and over. (There are naturally no literates in the age-group 0—5).

Part B.—Similar figures by districts and states for (1) all religions together, (2) Brahmanic Hindus, and (3) Muslims.

Part C.—Similar figures to those in Part B for each of the 23 cities of the province.

2. "*Literate*" means—able both to read and write a letter in any language or script.

"*Literate in English*" means—able both to read and write a letter in English.

3. The figures of "*Literate in English*" are also included in the general figures for "*Literate*" as well as being shown separately.

4. The figures for Indian Christians are as follows:—

TABLE XIV.

Literacy by selected castes, tribes and races.

1. The Azariya and Bayar groups (nos. 82 and 90) include the castes mentioned in paragraph 5 to the note on Table XVII.

2. Each caste includes all persons of any religion who returned that caste.

3. The numbers in column 3 refer to the serial numbers of districts and states as they appear in column 1 of Imperial Table I.

4. *The figures in this table are only for persons of 7 years and over.* This should be borne in mind when comparing the figures with those from the corresponding tables of previous censuses. For the same reason the total figures for each caste in this table do not agree with the total figures for that caste in Tables VIII or XI, the difference in each case being the persons aged 0—6; but in the case of those castes for which figures are shown in both Tables VIII and the present table, the figures for all civil conditions in Table VIII omitting the age-group 0—6 will be found to agree with the totals of the present table.

5. 'Literate' in columns 7—11 means able both to read and write a letter in any language or script.

6. 'Literate in English' in columns 15—17 means able both to read and write a letter in English.

7. The figures of those 'Literate in English' are also included in the general figures for 'Literate.'

8. The castes selected have been placed in order according to the percentage of males literate in each caste, under three groups :—

(1) *Advanced*, i.e., where the percentage of literate males is 50 or over;

(2) *Intermediate*, i.e., where the percentage is 10 but less than 50; and

(3) *Backward*, i.e., where the percentage is below 10.

9. This table corresponds to Table IX of last census.

TABLE XV.

Language.

1. This table is in two parts—

Part I.—Mother-tongue, which was defined as being the language first learned in childhood.

Part II.—Bi-lingualism. This part shows figures for those who daily use some language other than their mother-tongue.

2. In part I certain mother-tongues have been clubbed together under 'others'. The details of these for the province as a whole including the states, are as follows :—

Columns 9—11.—Other vernaculars of the United Provinces.

TABLE XVI.

Population by Religion.

1. The details of the figures shown under "Indefinite Beliefs" in columns 45-47 are as follows:—

District.	Locality.	Detail.	Population.		
			Persons.	Males.	Females.
1	2	3	4	5	6
Muttra	Municipality	Agnostic	1	1	..
Agra	Cantonment	,, ...	1	1	..
Etah	Rural area	Deist	1	1	..
		Total ..	3	3	..

Of these one is a European and two are Indians.

2. This table corresponds to Table VI of last census.

3. As a measure of economy the table showing the territorial distribution of Christians by sect and race (Table XV of last census) has been omitted. The following table gives figures for some sects by race for the whole of the province including the states.

TABLE XVII.

Race, Tribe or Caste.

1. This table is in four parts—
   A. Brahmanic Hindus.
   B. Muslims.
   C. Arya Samajists.
   D. Other Hindu and minor religions.

2. Castes sorted for any religion have been sorted for all religions, so that if figures appear for any caste under one religion but not under another, it means that none of that caste returned the latter religion.

3. The castes selected to be shown separately were:—
   (1) the more numerous castes of 1921 ;
   (2) certain castes which for various reasons it was deemed desirable to show separately. Such reasons were either ethnographical or connected with administrative convenience.

4. In several cases the members of a single caste returned their caste under a variety of names. These have in each case been brought together under the name by which the caste has been known at previous censuses. This has been done only to facilitate printing. Full information about variant caste names will be found in the chapter on Race, Tribe and Caste in the Report Volume.

5. In a few cases different castes have been abstracted and tabulated together for economy's sake. Their figures were required in order to form an estimate of the number of 'untouchables'. All the castes included in some of these groups could not, for lack of space, be printed in the heading. The details of such groups are as follows:—

The *Agariya* group includes Agariya, Bhuiya, Bhuiyar (*not* Bhuinhar *nor* Bhumihar), Chero, Ghasiya, Khairaha, Kharwar (excluding Benbansi Kharwar), Majhwar (or Manjhi), Pankha, Parahiya and Patari.

The *Badi* group includes Badi, Bajaniya, Bajgi, Gual and Kalabaz.

The *Bayar* group includes Bayar, Dhangar, Musahar and Banmanu.

6. Sub-castes have invariably been included in the main castes. The following are especially noteworthy in this connection :—

Bhangi includes Bhangi, Balmiki,* Dhanuk, Hari, Hela, Lalbegi, Rawat, Shaikh Mehtar, Shaikh Bhangi and Turaiha.

Dom (plains) includes Balahar, Bansphor, Basor, Dharkar, Domar and Dom.

Kanjar includes Brijbasi or Brajbasi, Kanjar, Kunchband, Pattarkhat, Sapaira or Sapera and Sankat.

Khatik includes Chik, Chikwa and Khatik.

7. The sub-castes of Brahmans, Rajputs, Vaishyas and Silpkars were separately enumerated but their abstraction and tabulation had to be abandoned in the face of rigid retrenchment.

8. The figures shown under 'No caste' are those of persons who expressly returned themselves as belonging to no caste. Where the column in the schedule was merely left blank the person has been shown under 'Caste unspecified.'

9. The distribution of Armenians is as follows :—

Serial number.	District.	Males.	Females.
4	Meerut ..	2	3
6	Aligarh ..	3	3
8	Agra ..	2	4
14	Moradabad ..	3	1
21	Allahabad ..	6	8
22	Jhansi ..	5	1
37	Lucknow ..	15	..
46	Sultanpur ..	..	1
	Total ..	36	21

10. This table corresponds to Table XIII of last census.

* Only one sub-caste of Dhanuk should, strictly speaking, have been included under this head, but as the sub-castes were not separately abstracted all Dhanuks have been included together under this head.

TABLE XVIII.

Variation of population of selected tribes.

1. This is a new table designed to show the variations in population and religion of some of the backward tribes of the province during the last fifty years.

2. Serial numbers 3, 5—7, 14, 15, 17 and 24—26 are wandering tribes. In the case of numbers 7, 14, 15 and 24 they have at different censuses appeared in so many districts that provincial figures only have been given, in the interests of economy.

3. (1) The Agariya Group (serial no. 1) includes the tribes mentioned in note 5 to Table XVII.

(2) Beriya, Bengali and Bhantu were clubbed together when sorting for Table XVII for the sake of economy. They belong to the same group *viz.*, the Habura Group.

(3) Kingharia and Pawaria are identical, and are closely akin to Dharhi, if not actually identical.

PROVINCIAL TABLE I.

Area and Population of Tahsils.

1. *Column* 3.—The area of many tahsils shown in this table differs from that shown in the corresponding table for 1921.

(In this connection see also the notes to Imperial Table I.)

The reasons for this are :—

(*a*) The abolition in 1925 of the 10 tahsils mentioned below, and their transfer as a whole or in portions to other tahsils.

Tahsil.	*District.*
Mahaban	Muttra.
Mirganj	Bareilly.
Aligarh	Farrukhabad.
Ghazipur	Fatehpur.
Bara	Allahabad.
Kulpahar	Hamirpur.
Badausa	Banda.
Kamasin	
Pailani	
Zamania	Ghazipur.

(*b*) A few extra-provincial transfers.

(*c*) Several minor changes in tahsil boundaries owing to fluvial action.

(*d*) The fact that the areas of many tahsils were incorrectly shown at last census.

(*e*) Re-survey.

2. Where any population was transferred with the land the population figure in column 10 and the percentage variation figure in column 12 have been adjusted.

3. The meaning of towns, villages and occupied houses in columns 4—6 is the same as explained in notes 2—4 to Imperial Table I.

PROVINCIAL TABLE II.

Population of districts and tahsils by religion and literacy.

This table has been elaborated somewhat since last census.

(1) Brahmanic Hindus have been sub-divided into Brahmans, depressed classes and others. The depressed classes include persons belonging to the castes and tribes mentioned in appendix no. 2 of the Report Volume who returned themselves as Brahmanic Hindus by religion.

(2) The figures of literates are given for each religion.

NOTE.—The figures of literate Brahmans in columns 5 and 6 differ from those in Table XIV on account of—

(*a*) the exclusion of those literates who returned their caste as Brahman and religion as other than Brahmanic Hindu, and

(*b*) the inclusion of a few Brahmanic Hindu Brahmans of the age of six years who were returned as literate. (The figures in Table XIV are for persons seven years and over.)

(3) A column has been added for those literate in English. (These are also included under the general heads of literate.)

PROVINCIAL TABLE III.

Subsidiary Occupations of Agriculturists.

1. This table corresponds to Imperial Table XVIII of last census. It has been omitted from the Imperial Tables at this census on account of retrenchment. Because of the special importance of these figures for this province, the table has been compiled and treated as a provincial table.

2. Agriculturists (earners only) have been divided into six groups :—

I—Non-cultivating owners or landlords.
II—Cultivating owners or landlords.
III—Non-cultivating or sub-letting tenants.
IV—Cultivating tenants.
V—Agricultural labourers, including ploughmen.
VI—Growers of special crops, market-gardeners, etc.

The subsidiary occupations of each of the six groups have been shown severally in the six parts of the table.

3. Part VI excludes the detail of 55 males and 3 females who returned their principal occupation as group 13—*pan*-vine cultivation, together with some subsidiary occupation. The details of their subsidiary occupations so far as they are known are :—

	Males.	Females.
Agricultural	49	3
Non-agricultural	6	..
