CHA<sup>s</sup> CARTWRIGHT,  
Accountant General.

\* The Account between the Public and the Company has been reported upon by a Committee of the Honourable House of Commons, at the close of their Report, they recommended, that as the detail of the Account would require revision, an Accountant should be named on the part of the Treasury, and another on the part of the Company, accurately to examine and make up the Account, according to the principles specified in their Report, previously to the final Balance being discharged. This examination is not completed; the Sum, therefore, which will be ultimately decided upon as due from the Public to the Company cannot be correctly stated; the Amount specified in this Stock Account is the same as in the Year 1805, deducting the £ 1,000,000. received from Government since that period.

\* THE "Account between the Public and the Company" has been reported upon by a Committee of the Honourable House of Commons. At the close of their Report, they recommended, that as the detail of the Account would require revision, an Accountant should be nominated on the part of the Treasury, and another on the part of the Company; accurately to examine and make up the Account, according to the principles specified in their Report, previously to the final Balance being discharged. This examination is not completed; the Sum therefore, which will be ultimately decided upon, as due from the Public to the Company, cannot be correctly stated. The Amount specified in this Account, is the same as in the year 1805, deducting the £. 1,000,000 received from Government since that period, but according to the principle laid down by the Committee of the House of Commons, it would only amount to £. 1,465,800.
