REPORTS

ON THE

PROPOSED EXTENSION

OF THE

TULSI WATER WORKS.

DECEMBER 22nd, 1874.

D85.231170.M8

A874

15518

CONTENTS.

I.—Letter from W. G. Pedder, Esq., C. S., Municipal Commissioner, addressed to the Secretary Town Council, forwarding final proposals for the Tulsi Water Supply project. (22)

II.—Extract on the subject of the Water Supply from Mr. Pedder's Blue Book.

III.—Appendix C., based upon the foregoing Extract, by Rienzi Walton, Esq., Ex. Engineer.

IV.—Minute of the Works Committee, referring the proposals to a Committee of Engineers for its professional opinion (*Colonel Fife's Committee*).

V.—Report drawn up by Rienzi Walton, Esq., (Executive Engineer) for the information of Colonel Fife's Committee on the subject of the Water Supply to Bombay.

VI.—Report by Colonel Fife's Committee.

VII.—Remarks by the Executive Engineer (Rienzi Walton, Esq.) on the several points raised in the Report of Colonel Fife's Committee.

VIII.—Mr. Pedder's Letter to the Town Council, submitting definite proposals for the completion of the Tulsi Water Supply Project.

PLANS.

1.—General Plan, showing the proposed course of the Tulsi Main from the Tulsi Lake to Malabar Hill.

2.—Plan showing the position of Dam No. 2, and the proposed site for the Waste Weir.

3.—Section of the proposed earthen dam for Tulsi, shown comparatively with the section of the top 30 feet of the Vehar Dam and with the section proposed by Major Tulloch, R. E.

4.—(a.) Section of Masonry Dam as suggested by the Arbitrators.

(b.) Section of Masonry Dam with foundations taken down to 33 feet.

(c.) Section of proposed earthen Dam.

5.—Section of Waste Weir and channel for Dam No. 2.
