No. A. C.—4344.

From

W. H. MICHAEL, Esq., I. C. S.,
Accountant General, Bombay ;

To

THE CHIEF SECRETARY TO GOVERNMENT,
Revenue Department, Bombay.

Bombay, the 7th February 1911.

Sir,

In accordance with paragraph 6 of Government Resolution, Revenue Department, No. 2420, dated 8th April 1903, I have the honour to submit herewith a statement showing the interest due at $3\frac{1}{2}$ per cent. on the total monthly outstanding balances of takávi advances for the whole Presidency as compared with the interest actually realized during the revenue year 1909-1910.

2. As the two classes of advances have now been amalgamated in the accounts so far as the districts in the Presidency proper are concerned, the figures showing the balances and interest under each class are not strictly correct, and it is necessary to combine the figures for the two classes to arrive at the correct figures.

I have the honour to be,

Sir,

Your most obedient servant,

W. H. MICHAEL,
Accountant General.

Statement showing the interest due at 3½ per cent. on the total monthly outstanding balances of takávi advances for the whole Presidency (including Sind) as compared with the interest actually received during the revenue year 1909-10.

LAND REVENUE ADMINISTRATION REPORT, PART I, FOR THE PRESIDENCY PROPER.

The following are the reports for the year 1909-10 of the three Divisions of the Presidency Proper. The usual appendices are attached. Jamábandi Returns Nos. 6 and 7 have not been appended to this report as they are now prepared decennially.

2. Season.

NORTHERN DIVISION.

The season of 1909-10 was very favourable, especially when compared with those of the previous eight or nine years. The rainfall was everywhere sufficient and generally well distributed except for the failure in Gujarát of the few showers which usually fall towards the end of September. In Thána the rain, which was exceptionally heavy in July, continued until well into the first week in October. The Sábarmati came down in heavy flood in August, doing a considerable amount of damage to standing crops in parts of Sánand and Dholka.

Rice was fairly good everywhere, though, in Gujarát, the failure of the late rains stood in the way of its being a bumper crop, while in Thána the delay in transplantation caused by heavy rain in July had the same effect. Irrigated rice in Ahmedabad and Kaira did exceedingly well. The outturn of wheat, bájri and jowári was everywhere either good or fair. The cotton of Broach and Surat was exceptionally good while the rabi crops were normal everywhere except in Ahmedabad and Kaira.

Water-supply.—The drinking water-supply was generally ample except in the Bhal country of Dholka and Dhandhuka in the Ahmedabad district, the Hánsot mahál and Wágra táluka of the Broach district and parts of Thána. The District Local Boards are labouring to relieve the situation as far as their limited means permit, and in Thána Rs. 15,958 were spent on new wells during the year. Boring experiments tried in Ahmedabad and Kaira met with some success in both districts.

Plague, Cholera, etc.—Plague occurred in some villages of every district except the Panch Maháls and Broach and cholera in every district except in the Panch Maháls. In Kaira plague accounted for 864 deaths and in Thána 1904; cholera nowhere assumed a severe form.

Cattle Disease.—Hæmorrhagic septicæmia, anthrax, charbon symptomatique, artha epizootica and rinderpest carried off 1,440 cattle out of 1,640 attacked in Ahmedabad, while from the first disease alone, 680 cattle died in Thána. In the Panch Maháls, 50 cattle died out of 58 attacked. A few cases of surra and "golgo" occurred in Surat; while surra appeared for the first time among horses in Kaira and took a heavy toll. Rinderpest was also prevalent in the district in a few villages.

CENTRAL DIVISION.

The results of the year were somewhat unequal in the different districts, but the season regarded as a whole was decidedly more favourable than the preceding year. The rainfall this season was rather peculiar. It commenced rather late with light and scattered showers, was heavy in the middle, and variable and scanty at the end. The kharif was satisfactory in West Khándesh, Násik and Sholápur and the western division of Poona; elsewhere the yield was much reduced either by excessive moisture as in East Khándesh or by prolonged break as in the parts of Ahmednagar and Poona. The rabi crops were adversely affected almost everywhere except in Sátára (which, it seemed, found the season to be most favourable) by a deficiency in the late rains and the yield was generally much below the normal. Some damage was caused in East Khándesh by crop-disease; in Násik, Ahmednagar and Poona by grasshoppers; and in Násik by rats. Locusts appeared in two tálukás of West Khándesh but did hardly any damage.

The deficiency of the late rains affected the supply of water for drinking and irrigation in parts of West Khándesh, Poona and Sátára.

Plague was prevalent in East Khándesh, West Khándesh, Násik and Sátára but was of a virulent type only in Bhusával and Nasirábad in East Khándesh. Plague deaths recorded in Sátára were 5,825 against 1,406 in the preceding year, and the number of persons inoculated during the year was 4,037. Cholera appeared in all districts except Ahmednagar and Poona and showed its virulence in Pátan and Wái. Measles were responsible in East Khándesh for a large mortality among children.

Cattle disease, such as rinderpest, farya, etc., broke out in East Khándesh, West Khándesh, Násik, Sátára and Sholápur, but the mortality was nowhere high. As usual, some cattle were reported to have died of cold along the Koyana Valley of the Sátára district.

SOUTHERN DIVISION.

In the above-ghát districts the season was on the whole good. In Belgaum and Dhárwár there was a good fall of rain in the early and middle parts of the season; October and November were rather deficient and the outturn of crops, which would otherwise have been quite satisfactory, was to some extent affected, in Belgaum jowári and rice yielding 11, bájri and cotton 10, and wheat about 9 annas, while in Dhárwár the average estimate for all the crops taken together is put by the Collector at 10 annas. In Dhárwár the crops under irrigation were unsatisfactory and the deficiency of water in irrigation tanks necessitated the grant of water-rate remissions on a somewhat large scale in the tálukás of Hángal, Kod and Kalghátgi. In the Bijápur district the early rains were generally deficient and the sowing of kharif crops except in the Sindgi and Indi tálukás was retarded. The August and September falls were, however, good and saved both kharif and rabi crops, the outturn of which, though the later rains were also deficient, varied, according to the reports, from 8 to 9 annas.

In the Konkan the rainfall, though not quite sufficient everywhere, was seasonable and the yield of crop was generally speaking 11 annas for Kánara and Kolába and 10 annas for Ratnágiri. In his Land Revenue Administration Report, Part II, the Commissioner has recorded his opinion about the tendency to under-estimate the yield of crops and the results recorded in the following paragraphs under the heads "Remissions, Suspensions, Collections and Balances" would seem to bear out that opinion.

In some places of the Belgaum and Dhárwár districts grasshoppers made their appearance and the rice near Belgaum and the grass on the riverian tracts of the Chikodi táluka were greatly damaged. Wild elephants also appeared in some villages of the Sirsi táluka and Mundgod petha of the Kánara district, but they did no appreciable damage to crops.

Rinderpest prevailed among the cattle in the Dhárwár district, but the number of deaths was half of what had occurred in the previous year.

The health of the people was on the whole good, though the epidemic diseases of plague, cholera and small-pox prevailed almost everywhere.

3. Gross Revenue.

(Column 6 of *Appendix I.*) . . .

NORTHERN DIVISION.

The gross revenue decreased by Rs. 9,207. The variations in the several districts were small, the largest decrease being Rs. 11,395 in the Panch Maháls due to the reduction of assessment at the revision survey in the Kálol táluka and of assessment on lands included in forest.

The increase of Rs. 5,023 in Thána was mainly due to the re-inclusion in the accounts of the kadim cash allowances which were wrongly excluded from this head last year.

CENTRAL DIVISION.

There was a net decrease of Rs. 3,814 (principally shared by Ahmednagar) in spite of increase shown by Násik and Sátára in assessment owing to revision survey rates and to the forest pasture lands being assessed, and brought under cultivation. The decrease shown by Ahmednagar is chiefly due to the abolition of water rates in Párner and A'kola, to the assignment of occupied lands for the Godávári canals and for military purposes and to the introduction of a survey settlement in the dumala village of Alkuti in Párner.

SOUTHERN DIVISION.

The net increase of Rs. 1,18,011 under this head is made up as follows:—

| | | Minus. | Plus. |
|-----------|--------|--------|-----------|
| Belgaum | | ... | +69 |
| Bijápur | | —1,778 | |
| Dhárwár | | | +1,20,436 |
| Kánara | | —1,255 | |
| Kolába | | | +504 |
| Ratnágiri | | | +85 |
| Total | | —3,033 | +1,21,044 |
| | | Net | +1,18,011 |

The increases in Belgaum, Ratnágiri and Kolába are mainly due to unassessed waste lands having been assessed and brought under cultivation, and that in Dhárwár to the introduction of the second revision settlement.

The decrease in Bijápur is caused by the reduction of pásthal assessment and that in Kánara by the reduction of assessment on lands transferred to forest.

4. Alienations.

(Column 9 of Appendix I.)

NORTHERN DIVISION.

The net decrease of Rs. 1,483 under this head is accounted for as under:—

| | | | |
|--------------|--------|--------|---|
| Ahmedabad | | | An increase of Rs. 147 due mainly to the restoration of forfeited inám land and to the grant of land as inám to village servants useful to Government in order to make up scale remuneration. |
| Kaira | | | A decrease of Rs. 559 due principally to the forfeiture and relinquishment of inám land and also to the acquisition of inám land for public purposes. |
| Panch Maháls | | | A decrease of Rs. 4,912 due chiefly to the Kaziat village of Chitrodia being made khálsa under Government Resolution No. 8945, dated 15th September 1909, and to the reduction of assessment in the revision survey introduced in the Kálol táluks. |
| Brosch | | | A petty increase of Rs. 40 due to the restoration of forfeited land. |
| Surat | | | A decrease of Rs. 527 due principally to the decrease in the revenue of sharakati villages and also acquisition of land for special purposes. |
| Thána | | | An increase of Rs. 4,328 mainly due to the re-inclusion in the accounts of the kadim cash allowances. |

CENTRAL DIVISION.

There was a net increase of Rs. 81,046 principally due to the following facts :—

(1) A revision survey settlement was introduced into certain dumala villages in the districts of Násik, Sátára and Sholápur.

(2) Allowances payable to *hakdárs* in dumala villages which had hitherto been included in judi were excluded from that item and added to net alienations in the districts of East Khándesh, Sátára and Sholápur.

(3) Rahatne village in Haveli (Poona) which had been resumed was re-entered as inám in the accounts.

SOUTHERN DIVISION.

There is a net increase of Rs. 59,663 under this head due to (1) kadim cash allowances in inám villages which had been hitherto included in judi having now been excluded from that item and added to net alienations in the districts of Belgaum, Bijápur, Kolába and Ratnágiri (Government Resolutions, Revenue Department, No. 11873, dated 20th November 1908, and No. 4544, dated 10th May 1909), and (2) to the assessment on alienated lands having increased in the second revision settlement in the Dhárwár district. In Kánara, there occurs only a small decrease of Rs. 21.

5. Net Government Revenue.

(Column 13 of Appendix I.)

NORTHERN DIVISION.

The causes leading to the net decrease of Rs. 14,122 in the revenue of the Division are explained in the following table :—

| District. | Increase. | Decrease. | Principal causes of increase or decrease. |
|------------------|-----------|-----------|--|
| Ahmedabad ... | ... | 4,911 | The forfeiture and relinquishment of occupied land. |
| Kaira ... | ... | 12,056 | The forfeiture of occupied land and reduction of jama leviable from the talukdári villages of Hariáli and Kharenti under Government Resolution No. 8039, dated 18th August 1909. |
| Panch Maháls ... | 528 | ... | } The taking up of unoccupied land. |
| Broach ... | 669 | ... | |
| Surat ... | 567 | ... | |
| Thána ... | 1,081 | ... | |
| Total ... | 2,845 | 16,967 | Do. do. and the fixing of assessment on kharába land. |

CENTRAL DIVISION.

There was a net decrease of Rs. 75,551 under this head. It is shared by the districts of Ahmednagar, Sátára, Sholápur, East Khándesh and Poona, and is mainly due—

(1) to the forfeiture of occupied lands for non-payment of Government dues in Sátára, Ahmednagar and Poona ;

(2) to the exclusion of allowances payable to *hakdárs* in dumala villages from the item of judi and inclusion in that of net alienation in the districts of Sátára, Sholápur and East Khándesh ;

(3) to the assignment of occupied lands for the Godávári canal military purposes in Ahmednagar and similar special purposes in Poona ;

(4) to relinquishment of khatas and resumption of Gadkari inám in Sátára ;

(5) to the regranting of the inám village of Rahatne in Poona ; and

(6) to the abolition of water rates in Ahmednagar.

SOUTHERN DIVISION.

The net ordinary fixed revenue rose from Rs. 87,23,180 to Rs. 87,80,517 the increase being made up as shown below :—

| | | | Minus. | Plus. |
|-----------|-------|-----|--------|------------|
| Belgaum | ... | ... | 18,862 | |
| Bijápur | ... | ... | 4,326 | |
| Dhárwár | ... | ... | | 82,819 |
| Kánara | ... | ... | 159 | |
| Kolába | ... | ... | 1,614 | |
| Ratnágiri | ... | ... | 521 | |
| | | | <hr/> | <hr/> |
| | Total | ... | 25,482 | 82,819 |
| | | | <hr/> | <hr/> |
| | | | Net | ... 57,337 |

The increase is chiefly due to the enhanced rates of revision in the Dhárwár district.

The causes of decrease in other districts are as under :—

(1) The exclusion of kadim cash allowances from judi in Belgaum, Bijápur, Kolába and Ratnágiri ;

(2) The reduction of pátasthal rates in Bijápur ;

(3) The reduction of assessment on lands forfeited and not sold.

6. Miscellaneous Revenue.

(Column 16 of Appendix I.)

NORTHERN DIVISION.

The net decrease of Rs. 56,649 under this head was made up as follows :—

| Name of district. | Increase. | Decrease. |
|-------------------|-----------|-----------|
| Ahmedabad | 282 | ... |
| Kaira | 8,500 | ... |
| Panch Maháls | 4,286 | ... |
| Broach | 26,890 | ... |
| Surat | ... | 18,774 |
| Thána | ... | 77,833 |
| | <hr/> | <hr/> |
| Total | 39,958 | 96,607 |

These were all ordinary fluctuations under the following heads :—rents, sale of occupancy rights of land, sale-proceeds of trees, grass and grazing, fine for appropriating land to purposes unconnected with agriculture, fines for unauthorized cultivation, assessment on unassessed lands cultivated with permission and occasional items of fixed revenue.

The large decrease in Thána was under the head "Altered assessment in Salsette."

CENTRAL DIVISION.

There was a net increase of Rs. 1,15,993 occurring chiefly under the following heads in the districts noted :—

| | | | |
|---|-----|-----|----------------------------------|
| Rent | ... | ... | West Khándesh. |
| Sale of lands or occupancy rights | ... | ... | West Khándesh, Poona and Sátára. |
| Revenue from trees | ... | ... | Poona. |
| Revenue from grass and grazing | ... | ... | Ahmednagar and West Khándesh. |
| Proceeds from unauthorized occupation. | ... | ... | West Khándesh. |
| Penalty under Section 148, Land Revenue Code. | ... | ... | Ahmednagar and Poona. |
| Other items appearing in <i>talebánd</i> | ... | ... | Poona. |

The amounts of the increase or decrease in each of the seven districts are given below :—

| Name of district. | | | | Increase. | Decrease. |
|-------------------|-----|-----|-----|-----------|-----------|
| | | | | Rs. | Rs. |
| Ahmednagar. | ... | ... | ... | 27,697 | ... |
| East Khándesh | ... | ... | ... | 104 | ... |
| West Khándesh | ... | ... | ... | 22,732 | ... |
| Násik | ... | ... | ... | ... | 691 |
| Poona | ... | ... | ... | 64,518 | ... |
| Sátára | ... | ... | ... | 193 | ... |
| Sholápur | ... | ... | ... | 1,440 | ... |
| Total | | | | 1,16,684 | 691 |

SOUTHERN DIVISION.

As compared with the amount of the previous year there was a net increase of Rs. 2,678 under this head made up as follows :—

| | | | | Increase. | Decrease. |
|-----------|-----|-----|-----|-----------|-----------|
| | | | | Rs. | Rs. |
| Belgaum | ... | ... | ... | 4,841 | ... |
| Bijápur | ... | ... | ... | ... | 3,744 |
| Dhárwár | ... | ... | ... | 1,426 | ... |
| Kánara | ... | ... | ... | ... | 1,630 |
| Kolába | ... | ... | ... | 4,782 | ... |
| Ratnágiri | ... | ... | ... | ... | 2,997 |
| Total | | | | 11,049 | 8,371 |
| | | | | Net | 2,678 |

The causes of increase or decrease of these items have not been given as they are of a fluctuating nature (*vide* Government Resolution, Revenue Department, No. 1255, dated 11th February 1910).

7. Remissions.

(Columns 18 and 18a of Appendix I.)

NORTHERN DIVISION.

There was a net decrease of Rs. 33,127 under this head. The causes for which these remissions were granted were :—

| | Rs. |
|--|----------|
| 1. Remission of part of the enhanced assessment fixed at the revision survey in all the districts except Thána ... | 2,75,592 |
| 2. Transfer of lands to special or public purposes ... | 2,644 |
| | Rs. |
| 3. Failure of crops— | |
| Ahmedabad | 7,184 |
| Kaira | 574 |
| | 7,758* |
| 4. Poverty, death or disappearance of occupants ... | 14,707 |
| 5. Loss by fire | 326 |
| 6. Loss by flood | 15,598 |
| 7. Water-logging (Surat) | 24,657 |
| 8. Modification of the orders regarding fine levied on the appropriation of land to non-agricultural purposes (Thána) | 6,295 |
| 9. Minors' land remaining waste (Ahmedabad and Panch Maháls) | 1,473 |
| 10. Discontinuance of the levy of Ghasdana Cess in inám villages of the Panch Maháls under Government Resolution No. 11701, dated 17th November 1908 ... | 1,792 |
| 11. Compensation on account of prohibition of poppy cultivation in talukdári villages in the Panch Maháls ... | 1,200 |
| 12. Miscellaneous | 8,897 |
| Total ... | 3,60,439 |

CENTRAL DIVISION.

There was a net increase of Rs. 42,954. The causes for which remissions were granted during the year under report were as follows :—

| | Rs. |
|---|----------|
| Reduction on account of revision settlement (Ahmednagar, West Khándesh, Násik, Sátára and Sholápur) | 46,502 |
| Land taken up for special or public purposes (East Khándesh, West Khándesh, Násik and Poona) | 685 |
| Failure of crops (West Khándesh) | 2,109 |
| Poverty, death and desertion (Ahmednagar, West Khándesh, Násik and Sholápur) | 454 |
| Injury to crops by locusts or other insects (Ahmednagar, Násik, Poona and Sátára) | 89,519 |
| Loss by fire (Ahmednagar, West Khándesh and Násik) | 542 |
| Suspension of settlement (Násik) | 88,238 |
| Water-logging (Poona) | 3,680 |
| Remission of water rate (Ahmednagar, East Khándesh, Násik, Poona and Sátára) | 1,25,561 |
| Arrears due on forfeited lands (Poona, Sátára and Sholápur) ... | 174 |
| Arrears of kadim cash allowances hitherto included in judi but afterwards transferred to advances recoverable (Ahmednagar). | 368 |
| Other causes (all other districts except Poona) | 4,756 |
| Total ... | 3,57,588 |

SOUTHERN DIVISION.

Column 18 of Appendix No. I has been sub-divided into two parts, one showing "remissions" and the other "reductions on account of revision settlements" (Government Resolution, Revenue Department, No. 4817, dated

* Exclusive of those shown in column 21.

28th May 1910). Remissions of the current year amounted to Rs. 20,130 against Rs. 29,676 in the previous year. They are due to the following causes :—

| | Rs. |
|---|--------|

The amount of reductions on account of revision settlement as shown in column 18-A is Rs. 1,76,716 against Rs. 1,07,047 in the previous year. The increase is due to the introduction of second revision settlement in the Gadag and Karajgi talukas of the Dhárwár district.

The irrecoverable balances written off on account of former years shown in column 21 amounted to Rs. 1,00,724 against 6,70,244 in the last year. The major portion of this amount is on account of suspended arrears which were more than two years old and not set down for collection, having been remitted under Nos. 6 (i) and 6 (ii) of the rules in Government Resolution, Revenue Department, No. 650, dated 22nd January 1907.

* Rs. 588 remitted as having been paid in advance last year.

† Rs. 1,580 are on account of lands held rent-free in khoti villages for religious or charitable purposes, paragraph 2 of Government Resolution No. 6852, dated 8th September 1904.

8. Suspensions.

(Columns 27 and 29 of Appendix I.)

NORTHERN DIVISION.

Suspensions were granted as follows on account of bad crops and also of losses by fire and flood:—

| | | | | | Rs. |
|--------------|-----|-----|-----|-----|--------|
| Ahmedabad | ... | ... | ... | ... | 17,356 |
| Kaira | ... | ... | ... | ... | 171 |
| Panch Maháls | ... | ... | ... | ... | 6,433 |
| Broach | ... | ... | ... | ... | 1,002 |
| Surat | ... | ... | ... | ... | 28 |
| Thána | ... | ... | ... | ... | 242 |
| | | | | | 25,232 |

CENTRAL DIVISION.

During the year suspensions were granted in all districts in the Central Division except East Khándesh and Sátára, the total being Rs. 3,60,758 against Rs. 14,11,106 in the previous year. Of the total amount suspended this year, Poona alone accounts for Rs. 2,44,162. Of the total uncollected balance at the end of the year, 62 per cent. represented suspended revenue and only Rs. 2,17,329 were unauthorizedly in arrears. Of this latter sum, the largest amounts were Ahmednagar, Poona and Sátára, the three districts which showed the heaviest unauthorized arrears in the previous years also.

SOUTHERN DIVISION.

The suspensions out of the current year's demand amounted to Rs. 19,689. Though the season was generally good throughout the districts of Belgaum and Bijápur, yet in one village (Hirepadsalgi) in the Athni taluka of the former district and in parts of Bilgi petha of the latter and in some talukas of the Hárwár district suspensions had to be granted on account of failure of crops. As compared with the amount for the previous year under this head, *viz.*, Rs. 12,76,946, that of the current year is insignificant and this indicates fairly the general character of the season throughout the Division. The amount suspended out of the suspended arrears for past years was Rs. 6,71,270 against Rs. 5,17,479 last year, the reason apparently lying in the fact that at the end of last year the total suspended arrears were much heavier than those at the end of the year before last.

9. Revenue for Collection.

(Columns 19, 22 and 23 of Appendix I.)

NORTHERN DIVISION.

The net revenue for collection decreased by Rs. 8,09,841 as shown below:—

| | | | | | Rs. |
|--------------|-----|-----|-----|-----|----------|
| Ahmedabad | ... | ... | ... | ... | 1,38,883 |
| Kaira | ... | ... | ... | ... | 4,30,536 |
| Panch Maháls | ... | ... | ... | ... | 34,951 |
| Broach | ... | ... | ... | ... | 437 |
| Surat | ... | ... | ... | ... | 1,40,920 |
| Thána | ... | ... | ... | ... | 64,614 |
| | | | | | 8,09,841 |

These variations were due to the causes already explained under paragraphs 5 and 6 as well as to the previous year's figures being swelled by the collection of arrears.

CENTRAL DIVISION.

The amount for collection (after granting remissions but without taking suspensions into account) on account of the year under report was Rs. 1,22,07,843, practically the same as in 1908-09. The amount for collection on account of previous years was Rs. 50,91,644, an increase of Rs. 5,67,986 over the previous year's figures. The result was a gross demand of Rs. 1,72,99,487 (column 23) against Rs. 1,67,34,013.

SOUTHERN DIVISION.

The amount of revenue for collection on account of the year under report was Rs. 88,03,955 (column 19) against Rs. 88,04,062. The decrease is inappreciable. The past arrears after deducting irrecoverable balances written off (column 21) increased from Rs. 11,24,552 to Rs. 20,71,554. The result was a gross demand of Rs. 1,08,75,509 against Rs. 99,28,614, in 1908-09. Excluding suspensions shown in columns 27 and 29 the revenue for actual collection in the year under report was Rs. 1,01,84,550 (Rs. 87,84,266 for current year plus Rs. 14,00,284 for past years) against Rs. 81,34,189 (Rs. 75,27,116 for current year plus Rs. 6,07,073 for past arrears) of the previous year and Rs. 95,85,873 in 1907-08.

10. Collections.

(Columns 24, 25 and 26 of Appendix I.)

NORTHERN DIVISION.

Of the current year's demand of Rs. 98,06,169 (Rs. 98,31,401—Rs. 25,232), Rs. 96,81,402 were collected or 98·73 per cent. as compared with 98·26 per cent. in the preceding year.

CENTRAL DIVISION.

Out of the total revenue for collection (Rs. 1,72,99,487), in all Rs. 1,34,48,245 were collected. Including the amounts suspended, the percentage of collection to the current year's demand was as detailed below:—

| District. | | | Per cent. |
|---------------|-----|-----|-----------|
| Ahmednagar | ... | ... | ... 91 |
| East Khándesh | ... | ... | ... 99 |
| West Khándesh | ... | ... | ... 98 |
| Násik | ... | ... | ... 99 |
| Poona | ... | ... | ... 77 |
| Sátára | ... | ... | ... 97 |
| Sholápur | ... | ... | ... 95 |

Taking the Division as a whole, more than 95 per cent. of the revenue for collection was recovered. All districts except East Khándesh show considerable outstanding balances.

SOUTHERN DIVISION.

Out of the actual demands as given under head 9, Rs. 87,04,954 and Rs. 12,75,600 or 99 and 91 per cent. respectively, were collected against 98·4 and 57·3 per cent. respectively in 1908-09. The total collections of the year amounted to Rs. 99,80,554, on a demand of Rs. 1,01,84,550, or 97·9 per cent. against 95·3 per cent. of the last year. The following table compares the

results by percentages of the several districts with those of the preceding year:—

| Districts. | For the current year. | | For former years. | |
|------------------|-----------------------|----------|-------------------|----------|
| | 1909-10. | 1908-09. | 1909-10. | 1908-09. |
| Belgaum | 99.5 | 99.1 | 91.9 | 85.4 |
| Bijápur | 98.4 | 96.2 | 94.5 | 44.8 |
| Dhárwár | 98.5 | 97.5 | 93.9 | 57.6 |
| Kánara | 99.8 | 99.4 | 87.9 | 67.2 |
| Kolába | 99.9 | 99.9 | 80.6 | 83.07 |
| Ratnágiri | 99.1 | 98.5 | 29.7 | 28.0 |
| Division .. | 99.0 | 98.4 | 91.0 | 57.3 |

It will be seen that there is a marked improvement in the year under report in the state of collections for the current year as well as for past years, those in Bijápur being nearly double of and in Dhárwár half as much again as last year. The following remarks are made by Mr. Shepherd under this head:—
“The postponement of the dates of the first instalment to March enabled the rayats to sell their cotton to great profit and in one táluka they paid both their instalments in March. The satisfactory feature of the year was that the normal demand of 14 lacs was collected in March. No systematic efforts appear to have been made for the recovery of land revenue in the past, with the result that the rayat had become very unpunctual in payment. A very slight application of coercive measures was sufficient to produce a very marked improvement.”

11. Balances.

(Columns 27—31 of Appendix I and Appendix II.)

NORTHERN DIVISION.

By the close of the year, the outstanding balance was less than that of the preceding year by Rs. 12,08,784 (the reduction was effected by collection, Rs. 2,60,312 only having been written off) and amounted to Rs. 8,56,975 as shown in the table next following. Of this sum Rs. 1,33,912 are irrecoverable:—

| | Rs. |
|---------------------|----------|
| Ahmedabad | 3,29,921 |
| Kaira | 3,85,758 |
| Panch Maháls | 11,471 |
| Broach | 7,334 |
| Surat | 12,698 |
| Thána | 1,09,798 |
| Total | 8,56,975 |

Excluding previous years from consideration, the outstanding balance amounted to Rs. 1,49,999; the collection of Rs. 25,232 was formally suspended and the unauthorized arrears of the year amounted to Rs. 1,24,767. Efforts are being made to collect them. The attention of the Collectors of Ahmedabad, Kaira and Thána has already been drawn to the orders in Government Memorandum No. 7988, dated the 3rd September 1910.

CENTRAL DIVISION.

Appendix II shows the amount of balances that remained outstanding on 1st August 1910; of the balances for collection, *viz.*, Rs. 38,51,242 about 19 per cent. is estimated as irrecoverable. Column 6 of Appendix II includes authorized suspensions.

SOUTHERN DIVISION.

The outstanding balance at the close of the year was Rs. 8,94,955 against Rs. 21,71,165 or 8·2 against 21·9 per cent. of the gross demand (column 23). Out of this unauthorized arrears were Rs. 2,03,996 or 1·8 per cent. of the amount set down for collection in the year against 3·8 per cent. of the last year. Of the total outstanding balance only Rs. 14,629 are considered as irrecoverable against Rs. 96,472 in the last year. The appreciable decrease is due to good season throughout the Division. Owing to the favourable character of the present season it is hoped that all the unauthorized arrears will be collected with comparative ease and there will be a clean sheet to report next year.

12. Taka'vi Advances, Recoveries and Balances.

(Appendix III.)

NORTHERN DIVISION.

The total amount advanced as takávi under both the Acts was Rs. 3,08,271 against Rs. 4,15,109 in the preceding year, the reduced demand for takávi accounting for a decrease of Rs. 1,06,838.

Of the total outstanding of Rs. 31,77,239, Rs. 10,90,674 fell due in the year under report. Out of this sum Rs. 9,25,885 were recovered and Rs. 44,025 written off.

The percentage of collection on demand (including arrears) in the year under report was as follows :—

| | | | | | |
|--------------|-----|-----|-----|----------|-------|
| Ahmedabad | ... | ... | ... | ... | 77·84 |
| Kaira | ... | ... | ... | ... | 72·97 |
| Panch Maháls | ... | ... | ... | ... | 99·12 |
| Broach | ... | ... | ... | ... | 89·03 |
| Surat | ... | ... | ... | ... | 90·66 |
| Thána | ... | ... | ... | ... | 93·98 |
| | | | | | 83·29 |
| | | | | Division | ... |

Separate percentages under the two Acts cannot be given owing to the introduction of the new takávi account forms. The percentages of all the districts show a marked improvement over the previous year's owing to the refixing of instalments according to the borrower's capacity, under the new orders.

The following table describes the net financial results to the State of its agricultural loans business during the year under report and the five preceding years :—

| Year. | Advances made. | Collections, etc. | | Amount written off. |
|-----------------------------------|----------------|-------------------|-----------|---------------------|
| | | Principal. | Interest. | |
| Balance outstanding on 1st August | Rs. | Rs. | Rs. | Rs. |

| Do. do. 1909-10 ... | 3,08,271 | 7,24,770 | 2,01,115 | 44,025 |

CENTRAL DIVISION.

The total amount advanced as takávi during the year was Rs. 6,68,471 against Rs. 7,71,344 in the previous year.

The percentage of collection on demand was as follows :—

| District. | ... | ... | ... |
|---------------|-----|-----|-------|
| Ahmednagar | ... | ... | 69.61 |
| East Khándesh | ... | ... | 99.40 |
| West Khándesh | ... | ... | 90.31 |
| Násik | ... | ... | 85.47 |
| Poona | ... | ... | 68.76 |
| Sátára | ... | ... | 73.68 |
| Sholápur | ... | ... | 82.69 |

As compared with the previous year, the percentage of collection arrived at this year shows a satisfactory result due chiefly to the more favourable season.

The following amounts were reported to have been misapplied :—

| District. | ... | ... | Amount misapplied. Rs. |
|---------------|-----|-----|---------------------------|
| Ahmednagar | ... | ... | 875 |
| East Khándesh | ... | ... | 50 |

SOUTHERN DIVISION.

Appendix III is now submitted in the new form prescribed by Government Resolution, Financial Department, No. 3890, dated 27th October 1909. The total amount advanced under both the Acts during the year under report was Rs. 2,40,039 against Rs. 2,52,652 granted in the year 1908-09. There is a decrease in the districts of Belgaum, Dhárwár, Kánara and Ratnágiri but an increase in Kolába and Bijápur. The increase in Bijápur is due to grants made to Chapparbands by Mr. Starte, Assistant Collector on Special Duty, for the settlement of the criminal tribes. The amount for collection consisting of the current demand and the arrears was Rs. 11,70,512 against Rs. 17,90,726 of the previous year. The former sum is made up of Rs. 2,02,774 accounted for under unauthorised arrears and Rs. 9,67,738 under current demand. Of the total demand for the year, Rs. 11,70,512, Rs. 10,45,185 were collected. The result is not unsatisfactory.

The collections credited as interest amounted to Rs. 3,69,600 against Rs. 1,90,702 or were better by over 1½ lacs than in the previous year. This must be regarded as a satisfactory result of the introduction of the new accounts system, under which interest was for the first time systematically calculated on all overdue instalments up to 1st August 1909 and was debited as a demand against the borrower, which led to greater attention being paid to its recovery. This is also the reason why the total outstandings on 1st August 1909, shown in column 5 of this year's Appendix III, are greater by nearly 5½ lacs than those shown in last year's Appendix III, column 24. Rs. 43,300 were paid back voluntarily out of future years' instalments against Rs. 29,202 last year.

The unauthorized arrears at the end of the year amounted to a little over Rs. 1½ lacs, Belgaum and Bijápur being principally responsible for this. The Collector of Bijápur offers the following explanation of the large unauthorized arrears: "The unauthorized arrears are the heaviest in the talukas of Indi, Sindgi and Bijápur. Tagai on a large scale was granted in previous years in these talukas which had suffered most on account of scarcity. It is possible that the borrowers having paid off their land revenue arrears of two years found it difficult to meet the tagai demands. Coercive measures are being taken and the arrears will be considerably reduced. But I confess that I was wholly unprepared for this result and am making further enquiries. The monthly tagai statements submitted to me did not seem to show that the unauthorized outstandings were excessive. Unless explanation is forthcoming, it must, I fear, be admitted that our resettlement was not sufficiently liberal and we shall have to authorise extension in a considerable number of cases."

The unauthorized arrears are considerable only in Belgaum (Rs. 59,194) and Bijápur (Rs. 69,205). Mr. Shepherd's remarks would probably be equally applicable to Belgaum. It will be observed that outstanding interest (column 10) is shown as Rs. 2,13,850, whereas the total unauthorized arrears is shown as Rs. 1,53,239. This curious result is probably due to the fact that in resettlement the amounts for collections are calculated according to the means of the borrower, a lump sum being put down and then divided into principal and interest, whereas the column "interest still due" shows interest as originally fixed and includes interest for all past years not recovered.

The following statement shows the net financial results to the State of these transactions during the year 1909-10 and the five preceding years:—

| Year. | Total amount of advances. | Balance of advances of previous years' outstandings. | Total. | Total recoveries. | Amount written off. | Balance remaining outstanding. | Interest recovered. |

13. Areas.

(Appendix IV.)

NORTHERN DIVISION.

The net decrease of 2,169 acres in the area of occupied assessed land (column 12) which was contributed to by Ahmedabad and Kaira is thus explained:—

Decrease.

| | Acres. |

districts. A comparison of the cultivable occupied area (column 12) in 1909-10 with the corresponding area for the previous year shows a net increase of 26,352 acres. In all 29,172 acres of unoccupied and disforested land were brought under cultivation as shown in the margin, while lands thrown up during the year on account of forfeitures and relinquishments were as shown in the margin. It is satisfactory to note that in West Khándesh and Násik cultivation is spreading rapidly.

SOUTHERN DIVISION.

The net decrease of 370 acres in the area of occupied assessed land (column 12) is thus explained :—

The only figure prominently requiring notice is that of the 4,719 acres forfeited in the Dhárwár district. The reason for forfeiture of this considerable area is not mentioned by the Collector, but the forfeiture was in most cases merely a transfer to the head 'Waste' of poorer lands in the west which, owing to unhealthiness of climate, difficulty in obtaining labour and other causes, the holders had ceased to cultivate.

14. Average incidence of land revenue.

(Appendix V.)

NORTHERN DIVISION.

Changes in the average incidence of land revenue per head of population and per acre of fully assessed area are too insignificant to need comment.

CENTRAL DIVISION.

There is no variation from the previous year.

SOUTHERN DIVISION.

There is only a slight variation in the incidence of land revenue per head of population and per acre of land revenue assessed on fully assessed area in the surveyed Government rayatwári villages. The incidence per acre of net cropped area (col. 20) in the same class of villages is as shown below:—

| District. | 1909-10. | | 1908-09. | |
|-----------|----------|-------|----------|-------|
| | Rs. | a. p. | Rs. | a. p. |
| Belgaum | ... | 1 5 8 | 1 | 6 5 |

| Ratnágiri | ... | 2 0 9 | 2 | 0 7 |
| Total | ... | 1 6 4 | 1 | 6 11 |

The decrease in Belgaum, Dhárwár and Kánara is due to the fact that more land was brought under cultivation owing to the rainfall being seasonable.

15. Coercive Processes.

(Appendix VI.)

NORTHERN DIVISION.

The number of notices issued decreased by 582, the number being arrived at as follows:—

| | Increase. | Decrease. |
|--------------|-----------|-----------|
| Ahmedabad | ... | 3,769 |
| Kaira | ... | 837 |
| Panch Maháls | ... | 688 |
| Broach | ... | 630 |
| Surat | ... | 939 |
| Thána | ... | 1,353 |
| Total | ... | 3,817 |
| | | 4,399 |

A penalty was inflicted under section 148 of the Land Revenue Code in 499 cases against 459 in the preceding year, all the districts except Kaira and Surat being responsible for the increase.

Distraints increased from 130 to 467, Kaira being mainly responsible for the increase. The number of forfeitures also rose to 3,105 from 959 in the previous year, all the districts except Thána contributing to the increase as under :—

| | | Increase. | Decrease. |
|--------------|-----|--------------|-----------|
| Ahmedabad | ... | 66 | ... |
| Kaira | ... | 1,696 | ... |
| Panch Maháls | ... | 180 | ... |
| Broach | ... | 199 | ... |
| Surat | ... | 41 | ... |
| Thána | ... | ... | 36 |
| Total | ... | <u>2,182</u> | <u>36</u> |

Only one arrest was made in Kaira under section 157 of the Land Revenue Code and the execution of the warrant resulted in the immediate payment of the sum due.

CENTRAL DIVISION.

The number of notices issued under section 152 (column 3) decreased from 31,179 to 19,278, that is, by more than one-half; and this decrease is shared by all the districts in the Division. As regards the cases of penalty under section 148 of the Land Revenue Code, there is a considerable increase, the total being 4,313 against 175 in the previous year.

The number of persons proceeded against under section 154 of the Land Revenue Code rose considerably from 799 to 2,328. In the same way notices for forfeiture under section 153 are much larger, the figures being 9,780 against 2,421 in the previous year.

Ahmednagar alone records 7 cases under section 157 of the Land Revenue Code. In view of the large balances outstanding it would seem that the powers of coercion provided by law were not sufficiently utilized.

SOUTHERN DIVISION.

The number of notices issued under section 152 decreased from 9,741 to 7,471, though there was an increase in Kolába. The decrease in Belgaum, Bijápúr and Dhárwár is due to the good harvest of the year and in Ratnágiri to the enforcement of the Government orders that notices should not be issued where it is not proposed to employ severer forms of coercive process. The total number of cases of penalty under section 148 fell from 357 to 296. Kánara still shows by far the largest figures under this head.

The appreciable increase against Dhárwár (from 35 to 324) in the number of cases under section 154 is explained as being due to there being much wilful neglect to pay Government dues in the Dhárwár táluka. There were only four cases in which sale was resorted to under section 155 against *nil* last year. Notices and cases of forfeiture under section 153 fell from 876 and 846 to 555 and 545 respectively. The decrease occurs mainly in Dhárwár. The area of lands declared forfeited shows an increase of 2,641 acres over the preceding year's figures, while forfeited lands returned to defaulters were more than half as much again as the preceding year's area. More than half this area belonged to the Bijápúr district alone and was returned on restricted tenure. The following remarks of Mr. Shepherd are quoted as being interesting on the question of the restricted tenure and its popularity, *viz.* :—

“ Unless the parties were really wilful defaulters forfeiture orders were not made. More than half the forfeited lands were ordered to be restored on the restricted tenure. But I received many applications for their restoration on the ordinary survey tenure. One rayat who came to me with an application of this kind told me that the only objection he had to accepting the land on the restricted tenure was that he could not cut the trees standing in the holding. When it was explained to him that he could do so, he went away satisfied. The rayats take little interest in these matters and do not try to understand the conditions of the restricted

tenure. The unpopularity of the tenure will gradually disappear. It seems that many of the local officers were under the erroneous impression that a restricted tenure was a tenure-at-will."

There were no cases of arrest and imprisonment under section 157.

16. Miscellaneous Land Revenue not included in the Taleband.

NORTHERN DIVISION.

There was an increase of Rs. 2,250 under this head. This was due chiefly to the contributions made by the District Local Board and the people in Ahmedabad towards the cost of repairs to chowras in that district.

The details of assessed and unassessed land given out for bábul plantation in the Ahmedabad and Kaira districts are as under :—

| | Acres. |
|--|--------------|
| Land under plantation at the beginning of the year in Daskroi, Dholka, Sánand, Viramgám and Parántij tálukas of the Ahmedabad district and in Mehmabad, Thásra and Nadiád tálukas of the Kaira district | 6,940 |
| <i>Add—</i> | |
| Land given out in the year under report in 11 villages of Daskroi, Dholka and Parántij tálukas of the Ahmedabad district ... | 985 |
| Total ... | <u>7,925</u> |
| <i>Deduct—</i> | |
| (1) Area resumed from lessees for breach of conditions of their leases | 1,465 |
| (2) Land of the village of Ambaliara, táluka Dholka, the trees on which were sold during the year and which thus brought in a revenue of Rs. 3,708 to Government ... | 37 |
| Total deductions ... | <u>1,502</u> |
| Remaining area under plantation at the end of the year ... | <u>6,423</u> |

The sale of the trees on land in the villages of Gota and Tájpur in the Daskroi and Sánand tálukas respectively, the leases of which have expired, is still in progress.

CENTRAL DIVISION.

There was a net decrease of Rs. 33,781 under this head. The decrease is shared generally by all the districts in the Central Division and principally by Ahmednagar owing to the fact that the sale-proceeds of grass and grazing which had been wrongly credited last year to "Other items *not appearing* in taleband" were carried this year to the proper head "*Miscellaneous items appearing* in taleband."

SOUTHERN DIVISION.

The revenue under this head amounted to Rs. 34,090 and shows a net decrease of Rs. 4,263 made up as follows :—

| | Minus. | Plus. |
|------------------|--------------|--------------|
| Belgaum | ... | 75 |
| Bijápur | 5,096 | ... |
| Dhárvár | ... | 3,215 |
| Kánara | ... | 1,263 |
| Kolába | ... | 122 |
| Ratnágiri | 3,842 | ... |
| Total ... | <u>8,938</u> | <u>4,675</u> |
| Net decrease ... | <u>4,263</u> | |

The causes of increase or decrease have not been given, the amounts being of a fluctuating nature (Government Resolution, Revenue Department, No. 1255, dated 11th February 1910).

17. Refunds.

NORTHERN DIVISION.

Refunds amounting to Rs. 9,888 were made during the year under report. The figures by districts are as under :—

| | | | | Rs. |
|--------------|-----|-----|-------|-------|
| Ahmedabad | ... | ... | ... | ... |
| Kaira | ... | ... | ... | 174 |
| Panch Maháls | ... | ... | ... | 264 |
| Broach | ... | ... | ... | 63 |
| Surat | ... | ... | ... | 2,357 |
| Thána | ... | ... | ... | 7,030 |
| | | | Total | 9,888 |

For the most part these refunds were necessitated by over-collections and the withholding of sanction to auction-sales at which bidders had deposited a part of their bids.

(A) Of the area declared forfeited and shown in column 19 lands measuring 1,123 acres and assessed at Rs. 804 remained undisposed of at the end of the year and this accounts for the difference between column 19 and the total of columns 21, 24 and 26. The same reason applied to the difference between column 20 and the total of columns 22, 25 and 27.

(B) The area and assessment shown in columns 19 and 20 do not tally with the total of columns 21, 24, and 26 and that of columns 22, 25 and 27 respectively, as lands measuring 204 acres and assessed at Rs. 182 remained undisposed of at the end of the year.

LAND REVENUE ADMINISTRATION REPORT, PART I, SIND.

The following is the report for the year 1909-10 of Sind. The usual appendices are attached. Jamábandi Returns Nos. 6 and 7 have not been appended to this report, as they are now prepared decennially.

2. Season.

The year was, on the whole, a fair one. The inundation was late and unsteady. The river did not reach 13' (the fair irrigating level) at the Bukkur gauge until the 28th July and remained above that level for 31 days only, against 59 days in the previous year. The highest level reached was 14·4 as compared with 16·1 in 1908-1909. The rainfall was copious and seasonable in the Desert, and considerably helped the rabi crops in the Sukkur district. In the Barani tracts of the Karáchi district, the kharif crops were a failure owing to want of rain subsequent to sowing, but in the Kohistan the failure was not so bad. Kharif crops were only moderate and though rice was generally successful, juari and bajri suffered from the depredations of insects in the Karáchi, Hyderabad, and Lárkána districts. The rabi crop on the other hand, though not so extensive as in the last year, benefitted by rainfall and was generally satisfactory, though much damage was done in the Karáchi district by adverse winds or insects. As a result, of the unfavourable inundation, the area under cultivation was reduced by nearly $4\frac{3}{4}$ lakhs of acres or 11·71 per cent. and the revenue demand fell by about $11\frac{3}{4}$ lakhs of rupees or 10·94 per cent. as compared with the previous year.

The public health was, on the whole, not good. There was the usual outbreak of plague in Karáchi and a few cases occurred in some villages of the Hyderabad district. Cholera appeared in almost every district and assumed serious proportions in the towns of Shikárpur, Gárhí Yásin, Jácobábád, Sháh-dádpur (Upper Sind Frontier) and the Sákrand and Moro tálukás. Small-pox also broke out in some parts of the Hyderábád district. The malarial outbreak was not severe during the year as a natural result of low inundation.

Except in the hilly tracts, fodder was plentiful throughout during the kharif season; but some scarcity was felt towards the end of the year owing to the poor out-turn of the kharif crop. The condition of the cattle was generally good. Rinderpest prevailed in all the districts except Lárkána, and carried off rather more than 1,300 head of cattle. Other diseases, such as pleuropneumonia, anthrax, surrah, etc., also occurred in some districts, but the losses due thereto were not extensive.

3. Gross Revenue.

(Column 6 of Appendix I.)

The total figures under this head show considerable increase over last year's figures to which result all districts have contributed. The amount of increase is Rs. 13,27,972 or 3·82 per cent. on the last year's figures (Rs. 3,47,93,913). Taking each district separately, the figures for the Sukkur, Lárkána, Karáchi and Thár and Párkar districts show remarkable results. The increase in the case of the Sukkur district is mostly due to rectification of an error in the area of cultivable land in the settlement register of the Rohri táluca. That in the Lárkána district is due to an increase in assessment on (1) fallow areas exempt from assessment due to deficiency of water-supply, and (2) unoccupied cultivable land, on both of which assessment is computed according to the average rate deduced from the assessment of the area actually cultivated. The same causes account for the increase in the Karáchi district. In the Thár and Párkar district the increase is due mainly to the revision of settlement rates in the Sanghar and Khipro tálukás. In the case of the Hyderabad district, the increase is due principally to a larger area under rice cultivation which pays

a higher rate of assessment, while in the Upper Sind Frontier district, it is due partly to an extension of rice cultivation and partly to an increase in the fallow area on account of deficiency of water-supply; on this area assessment has been calculated at the average rate, which in some cases is higher than the rate to be levied, had cultivation been actually undertaken.

4. Alienations.

(Column 9 of Appendix I.)

There is a net decrease under this head of Rs. 143 only. Taking the districts individually, there is an increase of Rs. 2,623 in the Lárkána district which is due chiefly to a decrease of Rs. 2,184 in hakabo levied during the year on alienated lands. In the Hyderabad district there is a decrease of Rs. 1,024 which is due principally to the resumption of a political inam. The Thár and Párkar district also shows a decrease of Rs. 947, which is accounted for by the exclusion of seri grants from column 9 "Net alienations" and their inclusion in column 12 "Land free or specially reduced". The decrease in the Karáchi district is due mainly to the increased cultivation in alienated lands during the year. The differences in the other districts are small and call for no special comment.

5. Net Government Revenue.

(Column 13 of Appendix I.)

There is a falling off under this head of a little more than 11½ lakhs of rupees which is due to the unfavourable nature of the inundation. All districts contributed to this decrease—notably the Sukkur, Lárkána, and Hyderabad districts, the total decrease in which alone comes to about 9 lakhs and 16 thousand rupees. The figures in column 13 are inclusive of hakabo (water rate) levied on alienated holdings and credited to the Public Works Department. It amounted to Rs. 82,000 during the year under report against Rs. 87,000 of the previous year.

6. Miscellaneous Government Revenue as shown in the Talebands.

(Column 16 of Appendix I.)

In miscellaneous revenue there was a net decrease of Rs. 20,662. The Lárkána, Hyderabad, and Karáchi districts show a decrease amounting to Rs. 55,938 against an increase of Rs. 35,276 in the remaining three districts. In Lárkána and Karáchi the falling off is accounted for chiefly by a decrease in the sale proceeds of occupancy rights, while in the Hyderabad district it is attributed to a reduction in unauthorized cultivation in addition to the above cause. In the case of the Thar and Parkar district the large increase of Rs. 27,767 is chiefly accounted for by an imposition of heavy fines for unauthorized cultivation. In the Sukkur district also the increase of Rs. 6,848 was due principally to the same cause. The increase in the Upper Sind Frontier district is small and needs no explanation.

7. Remissions.

(Column 20 of Appendix I.)

The total amount of land revenue remitted was Rs. 3,31,300 against Rs. 6,03,500 in the preceding year. The decrease is due chiefly to the fact that loss by floods which was very great in the previous year, especially in the Karáchi district, was exceedingly small during the year under report. The total amount of remission due to floods this year was Rs. 31,800 against Rs. 3,21,500 in the previous year. On the other hand, there is an increase in

the amount of remissions given for insufficiency of water-supply, the total amount remitted under this head being Rs. 1,41,300 against Rs. 71,000 in the preceding year. The amount remitted on account of time-expired fallows was Rs. 87,200 as compared with Rs. 90,100. The falling off is due to decrease in time-expired fallows which fell in for assessment in the year under report. The other important causes of remission were :—

| | Rs. |
|---|------------|
| (1) Injury to crops by locusts and other insects ... against Rs. 23,000 in the preceding year. | ... 40,100 |
| (2) Remissions due to colonists under Act III of 1899 against Rs. 19,000 in the previous year. | ... 7,300 |

8. Suspensions.

(Columns 33 and 35 of Appendix I.)

The land revenue for which postponement was sanctioned amounted to Rs. 4,34,489 against Rs. 5,23,663. Out of these Rs. 1,78,027 related to the year under report, and Rs. 2,56,462 to former years. As these figures are included in the balances outstanding at the close of the year, they have been dealt with in paragraph 11 below.

9. Revenue for collection.

(Column 21 of Appendix I.)

As a natural result of the poor inundation the net revenue for collection fell off from Rs. 1,06,57,800 to Rs. 97,38,800. Adding to this the previous years' balances the total amount for collection was Rs. 1,08,04,000 against Rs. 1,15,39,000 in the previous year.

10. Collections.

(Column 32 of Appendix I.)

The collections on account of the current year's revenue amounted to Rs. 93,45,300 or 95·96 per cent. of the demand which amounted to Rs. 97,33,800. In the preceding year the percentage of recoveries was 93·86. The percentages of collections to the demand on account of the current year are compared below with those of the previous year for the various districts separately :—

| | | | 1909-10. | 1908-09. |
|---------------------|-----|-----|----------|----------|
| Upper Sind Frontier | ... | ... | 99·51 | 98·82 |
| Sukkur | ... | ... | 97·73 | 97·08 |
| Lárkána | ... | ... | 97·53 | 97·92 |
| Hyderabad | ... | ... | 95·08 | 91·12 |
| Karáchi | ... | ... | 85·63 | 84·15 |
| Thar and Párkar | ... | ... | 96·61 | 88·62 |

Considering the generally unfavourable character of the season these results do not appear unsatisfactory. There is a rise in the percentage in all the districts except Lárkána where there is a very slight decrease.

Collections on account of past years were also satisfactory and amounted to Rs. 5,61,300 out of a demand of Rs. 10,65,600 or 52·67 per cent. against 43·36 in the previous year. The increase in the percentage was general in all the districts except Lárkána where there was a slight falling off. The decrease in the percentage of collections on account of the current and previous years in the Lárkána district was no doubt due to the unfavourable nature of the season. Good progress was made in the Karáchi district in the recovery of arrears during the year under report, the percentage being 39·52 against 25·95 last year. Under Government Resolution No. 5420, dated the 2nd August 1890, the collections of land revenue including miscellaneous items not brought to account in the jamábandi are to be compared with the collections shown in the

Accountant General's books. The difference amounts to Rs. 20,181 and is explained in Statement A. In the Accountant General's figures there is an excess of Rs. 27,567 which is due to (1) adjustment of errors, (2) over-collections, (3) collections on account of future years, and (4) recoveries on account of boundary marks not included in the jamabandi returns. On the other hand there is an increase in the figures of jamabandi return No. 1 amounting to Rs. 7,386 which is due to (1) adjustment of errors and (2) collections on account of the year under report made during the preceding year.

11. Balances.

(Columns 33 to 37 of Appendix I and Appendix II.)

The total outstanding balances at the close of the year including past years' arrears amounted to Rs. 8,97,736 against Rs. 11,52,884 in the preceding year and Rs. 9,87,276 in the year 1907-08. Of this amount Rs. 34,848 have been collected since the close of the year and Rs. 35,272 remitted or written off. To these figures may be added a sum of Rs. 1,475 in the Hyderabad district which has been misappropriated by a tapadar and the recovery of which is doubtful. This will leave the unrecovered balance at Rs. 8,26,141, of which Rs. 3,34,314 belong to the year under report and Rs. 4,91,827 to previous years. Out of the net balance shown above, (a) a sum of Rs. 3,67,866 is under postponement granted by competent authority, (b) Rs. 11,358 are the subject of correspondence for postponement, (c) Rs. 1,10,733 are due by the Manager, Incumbered Estates in Sind, (d) Rs. 3,09,765 are in course of recovery, (e) Rs. 23,007 are the subject of correspondence with a view to remission, (f) Rs. 1,700 are due on account of malkano recoverable in future years, and (g) Rs. 1,712 are due from minors under guardianship. The total amount postponed under head (a) is less than that postponed last year, but considering the districts individually there is a large increase in the amount postponed in the Karáchi district where postponements were more than double those of the year previous. This was due to the heavy rainfall and floods towards the close of the year. Under the head (b) the increase is noticeable in the Lárkána district only. It is due to the unfavourable nature of the season. The balances due from the Manager have again increased from Rs. 1,00,247 to Rs. 1,10,733 but, as remarked in paragraph 3 of the Commissioner's review of the Incumbered Estates Report (No. 34 dated the 17th February 1911), the causes of reduced collections on account of arrears are the subject of further enquiry. There is a decrease in the amount shown under the head (d) which is attributed to the revenue demand being less in the year under report than in the previous year. The remaining heads also show decreases which are also more or less due to the same cause.

As required by Government Resolution No. 5140, dated the 22nd July 1890, the previous year's balances which were shown as recoverable in Appendix II for 1908-1909, and which were not recovered in the year under report, have to be separately accounted for. Such balances amounted to Rs. 5,02,474. Out of this Rs. 10,647 were recovered after the close of the year, leaving a balance of Rs. 4,91,827 which is accounted for in Statement B.

12. Taka'vi.

(Appendix III.)

Details of takávi advances under Acts XIX of 1883 and XII of 1884 are given in Appendix III. The total advances made during the year under report amounted to Rs. 3,64,299 under the former Act and Rs. 3,67,593 under the latter, against Rs. 3,10,035 and Rs. 4,62,370 respectively in the previous year. The increase of Rs. 54,264 under the Land Improvement Loans Act is contributed mostly by the Lárkána district where liberal advances were made for the construction of new wells and clearance of karias. The Sukkur and Hyderabad districts also show some increases which are also due to the same cause. The large decrease of Rs. 94,777 in the amount of loans granted under the Agriculturists' Loans Act was due to a sum of Rs. 35,478 only having been distributed in the Karáchi district against a sum of Rs. 1,42,608 in the previous year. The decrease is accounted for by the Collector of Karáchi by the fact that in the

preceding year liberal grants of takávi were made on account of the disastrous conditions brought about by the heavy rains of July 1908 followed by the unprecedented river floods. The Hyderabad district shows an increase of more than Rs. 18,000 which is attributed to the increased popularity of takávi advances in that district.

Out of the total amount advanced including the balance of advances made in previous years, viz. Rs. 25,75,368, a sum of Rs. 7,05,607 was collected and Rs. 7,654 were remitted during the year, leaving a balance of Rs. 18,62,107. This sum includes Rs. 14,15,149 which are due for collection in 1910-1911 and subsequent years. The remainder, Rs. 4,46,958, is composed of Rs. 2,37,136 on account of arrears of previous years and Rs. 2,09,822 which were due within the year under report. Rs. 8,737 have been recovered since the close of the year, and Rs. 3,076 are reported to be the subject of correspondence for remission in the Lárkána and Sukkur districts. Statement C shows how the remaining arrears are accounted for. The information required by paragraph 5 of Government of India's No. 2155-321-7, dated the 3rd October 1901, regarding the amount of agricultural loan business is embodied in Statement D.

13. Area.

(Appendix IV.)

There is an increase of 318,539 acres in the total area of the Province (column 3) to which the Sukkur and Karáchi districts mainly contribute. The increase in the Sukkur district is chiefly due to the rectification of an error in the culturable area of the Rohri taluka, while in the Karáchi district it is due mostly to the rough survey of the Band Virah Tapa of the Kotri taluka. The increase of 63,341 acres in the total area of column 4 (Unassessed cultivable land) is due to the increase in the area of the Sukkur district, the cause for the increase being the same as shown for column 3 of that district. On the other hand, a noticeable falling off is observed in the case of the Lárkána and Thar and Párkar districts. In the case of the former district the decrease was due to certain areas having been transferred to the head "Uncultivable land" (column 5) from the head "Unassessed cultivable land" (column 4) and others having been broken up into survey numbers and included under the head "Unoccupied cultivable assessed land" (column 11). The decrease in the case of Thar and Párkar was due to increased eksali and unauthorized cultivation. Column 5 (Uncultivable land) also shows an increase of 196,895 acres which is contributed principally by the Karáchi district, the increase in this district being 203,345 acres which is due to the rough survey of the Band Virah Tapa. The other districts show small fluctuations except the Thar and Párkar district where a decrease of nearly 11,000 acres is noticed, which is due to extended eksali and unauthorized cultivation. The following table shows the areas taken up permanently and relinquished in each district during the year under report :—

| No. | District. | Area taken up. | | | Area thrown up including fallows. |
|-----|---------------------|---------------------------|---|----------|-----------------------------------|
| | | Unoccupied land taken up. | Unassessed land brought into occupation and assessed. | Total. | |
| 1 | 2 | 3 | 4 | 5 | 6 |
| | | Acres. | Acres. | Acres. | Acres. |
| 1 | Upper Sind Frontier | 7,097 | 135 | 7,232 | 135 |
| 2 | Sukkur | 7,614 | 65 | 7,679 | 75 |
| 3 | Lárkána | 6,494 | 314 | 6,808 | 114 |
| 4 | Hyderabad | 31,177 | 5,370 | 36,547 | 6,485 |
| 5 | Karáchi | 8,514 | 1,869 | 10,383 | 201 |
| 6 | Thar and Párkar | 8,295 | 5,116 | 13,411 | 7,044 |
| | Total for 1909-10 | 69,191 | 12,869 | 82,060 | 14,054 |
| | Total for 1908-09 | 90,267 | 10,306 | 1,00,573 | 13,541 |

There is a decrease of 18,513 acres in the area taken up and is contributed mainly by the Sukkur and Hyderabad districts. It is mostly noticeable in the latter where orders imposing restriction on the permanent grant of land in tracts dependent on the projected Left Bank Canal scheme are in force. In the Thar and Párkar district, however, notwithstanding the restriction on the grant of land in talukas affected by the Eastern Nara scheme, there was an increase in the area taken up which is chiefly due to the restoration of fallow forfeited lands in the Jamrao tract and a larger area having been given out in the Desert than in the year previous. The area relinquished shows an increase of only 513 acres which is contributed by the Karáchi district and the Colonization tract of the Hyderabad district. The information required by Government Resolution No. 8294, dated the 20th November 1899, is given in the subjoined statement :—

| District. | Area of land granted free. | Land granted on payment of malkano. | | Land sold by auction. | |
|-------------------------|----------------------------|-------------------------------------|------------------|-----------------------|------------------|
| | | Area. | Amount obtained. | Area. | Amount obtained. |
| | Acres. | Acres. | Rs. | Acres. | Rs. |
| Upper Sind Frontier ... | 2,602 | 2,244 | 1,239 | 105 | 3,862 |
| Sukkur ... | 242 | 6,274 | 13,258 | 265 | 5,726 |
| Lárkána ... | 1,570 | 3,177 | 15,159 | 69 | 3,307 |
| Hyderabad ... | 3,002 | 26,028 | 56,212 | 20 | 54 |
| Karáchi ... | 620 | 5,422 | 8,594 | 25 | 88 |
| Thar and Párkar ... | 8,111 | 4,254 | 23,603 | 10 | 28 |
| Total ... | 16,147 | 47,399 | 1,18,065 | 494 | 13,065 |

The difference of 18,020 acres between the total of the areas accounted for in this statement and the total given in column 5 of the preceding statement represents the area of fallow forfeited, and relinquished land restored to the original occupants on payment of arrears or otherwise. Of the total area granted free of malkano 3,995 acres were given on the Jamrao as peasant grants. The remaining area is composed of petty grants made in lieu of lands relinquished or in consideration of frontage claims. The aggregate realizations from malkano are smaller than in the previous year, but the average rate per acre is higher, being Rs. 2-12-0 against Rs. 2-5-0 in the preceding year.

14. Average incidence of Land Revenue.

(Appendix V.)

The incidence of land revenue per head of population (columns 19 and 36) shows a decrease as compared with the incidence of the preceding year, due to reduction in the amount of land revenue during the year under report. On the other hand, there is a slight increase in the incidence of land revenue per acre (columns 31 and 32, which is due to an increase in the area of cultivation paying higher rates of assessment.

15. Coercive Processes.

(Appendix VI.)

There is an increase of about 3,700 in the number of notices issued under section 152 of the Land Revenue Code. In this respect Thar and Párkar district is most conspicuous which shows an increase of 5,273, due chiefly to the issue of notices in the Desert tract where it was not the practice to issue such notices before. The other districts show small fluctuations except Hyderabad where a decrease of 1,337 is observed. This decrease is attributed to the reduction in the demand of land revenue for the year. The figures in column 4 approximate to those in column 3 and the same remarks apply to them. The figures in column 7 show that an extended use was made of the provisions

of section 148 of the Land Revenue Code, especially in the Lárkána district where the number of individuals proceeded against rose from 385 to 3,271. The Thar and Párkar district has also shown a marked improvement, the number of cases being 319 against nil in the previous year. In the Karáchi district a more extended use of the section was not made owing to the disastrous effects of the heavy rains of July last. The figures in column 10 for the various districts show slight variations as compared with the previous year's figures and call for no special remarks. The majority of the forfeitures shown in column 18 are due to the operation of the Sind Fallow Rules.

16. Miscellaneous Revenue not included in the Talebands.

The realizations under this head amounted to Rs. 92,920 against Rs. 82,971 in the preceding year. The increase is due to enhancement in the receipts under the head "Interest on loans granted under the Land Improvement Loans Act and the Agriculturists' Loans Act".

Submitting the Land Revenue Administration Report, Part I, their respective charges for the year 1909-10.

Government memorandum* to the Commissioner, S. D., No. 8741, dated 16th September 1911.

Government memorandum* to the Commissioner in Sind, No. 8742, dated 16th September 1911.

RESOLUTION.—The season of 1909-10 was very favourable throughout the Presidency proper, except in some parts of the Central Division. In Sind the inundation was unsatisfactory and the year is described as only fair.

2. The net current demand of the year in the Presidency proper amounted to 308½ lákhs, of which 300¼ lákhs were collected, and 4 lákhs suspended, so that 4¼ lákhs remained unauthorisedly in arrears. Of the 4 lákhs under suspension 2½ lákhs relate to the Poona district. The bulk of the unauthorised arrears at the close of the year were due from the districts of Kaira, Ahmednagar, Poona, Sátára and Dhárwár.

3. The total arrears, authorised and unauthorised, on account of former years amounted to 94¾ lákhs at the beginning of the year. Of these 5 lákhs were written off as irrecoverable, leaving 89¾ lákhs for recovery. The collection of 38½ lákhs of this amount was formally postponed and of the remainder 42 lákhs were collected, while 9¼ lákhs still remained in arrears at the end of the year. Half of these unauthorised arrears were due from the districts of Kaira, Ahmednagar and Poona, and one-fourth from the districts of Ahmednagar, Sholápúr and Sátára.

4. The total net demand of the Presidency proper therefore amounted to 398 lákhs, of which 342 lákhs were collected—45¾ lákhs more than in the preceding year—when the collections, in turn, exceeded those of 1907-08 by 38 lákhs. The figures of outstanding arrears at the close of each of these three years indicate the recovery made since the unfavourable season of 1907-08.

| Arrears at the end of | Authorised. | Unauthorised. | Total. |
|-----------------------|-------------|---------------|--------|
| | Lákhs. | Lákhs. | Lákhs. |
| 1907-08 ... | 91 | 24½ | 115½ |
| 1908-09 ... | 76 | 18¾ | 94¾ |
| 1909-10 ... | 42½ | 13½ | 56 |

Of the 56 lákhs in arrears at the end of 1909-10, the recoverable amount is reported to be 33 lákhs. On the whole, the collection of the land revenue demand

* Not printed.

has been satisfactorily carried out and it is understood that in those districts of the Deccan where alone the position at the end of 1909-10 seemed unsatisfactory, improved collections were made during the following year.

5. As the result of the unfavourable inundation in Sind, the area under cultivation fell by $4\frac{3}{4}$ lakhs of acres and the revenue demand for the year fell by $11\frac{3}{4}$ lakhs of rupees. The net revenue demand of the year was $97\frac{1}{2}$ lakhs, of which $93\frac{1}{2}$ lakhs were collected, leaving $1\frac{3}{4}$ lakhs of authorised and $2\frac{1}{4}$ lakhs of unauthorised arrears at the close of the year. In addition, arrears of revenue on account of previous years amounted to $11\frac{1}{2}$ lakhs. Of this sum, about a lakh was written off as irrecoverable and of the remainder $5\frac{1}{2}$ lakhs were collected, leaving 5 lakhs in arrears, of which half had been authorisedly suspended. At the close of the year there were altogether $4\frac{1}{4}$ lakhs of authorised and $4\frac{3}{4}$ lakhs of unauthorised arrears, or a total of 9 lakhs against $11\frac{1}{2}$ lakhs at the close of the previous year. As in the preceding year, the unauthorised arrears were largest in the district of Hyderabad and it is noticeable that in both years very little use was made in this district of the power to fine defaulters under section 148 of the Land Revenue Code.

6. In the Presidency proper, $12\frac{1}{4}$ lakhs of tagái were distributed, or $2\frac{1}{4}$ lakhs less than in 1908-09 and $13\frac{3}{4}$ lakhs less than in 1907-08. The demand, including $7\frac{3}{4}$ lakhs of arrears, amounted to $48\frac{3}{4}$ lakhs, of which 41 lakhs were collected. After allowing for suspensions, remissions and payments in advance, the unauthorised arrears at the close of the year amounted to $8\frac{1}{2}$ lakhs. In the circumstances of the season and in view of the recent equitable re-distribution of instalments in most districts, this result must be considered unsatisfactory. The districts chiefly accountable for the deficiency are Ahmednagar ($2\frac{1}{2}$ lakhs) and Poona (one lakh). In Sind, advances amounted to $7\frac{1}{4}$ lakhs. Out of 6 lakhs on account of instalments due in the current year and $4\frac{3}{4}$ lakhs due on account of arrears, $4\frac{1}{4}$ lakhs and $2\frac{1}{4}$ lakhs respectively were collected. At the close of the year the total unauthorised arrears amounted to $4\frac{1}{2}$ lakhs, of which $3\frac{1}{4}$ lakhs were due in the two districts of Karáchi and Hyderabad. Government consider that increased stringency in the collection of tagái dues is necessary in the province.
