FOREWORD

The present volume has been prepared with a view to making more readily available the Polish Plan of Financial Stabilization, together with copies of the various laws, decrees, agreements, etc., enacted or entered into for the purpose of realizing the Plan.

In addition to the table of contents, there are appended two indices, one a general index to the volume, and the other an index of the Stabilization Plan.

In the case of Polish laws and decrees, etc., the controlling text is, of course, Polish. There have been used in this volume English translations contemporaneously prepared by Polish translators without modification except for the correction of certain obvious typographical errors.

In order to afford a better appreciation of the significance of the Plan and of the circumstances of its adoption and realization, the various texts are preceded by an introductory statement outlining the events leading up to the adoption of the Plan and summarizing the more significant features of the Plan itself.

J. F. D.

New York, N. Y., June, 1928.
