## CONTENTS

	Page
Summary .....	320
Introduction .....	323
Methods .....	324
Sources of cultures .....	324
Preparation of cultures for butter .....	324
Preparation of cream .....	325
Churning of cream .....	325
Holding of butter .....	325
Analytical procedures .....	325
Experimental .....	326
Diacetyl and acetylmethylcarbinol in milk cultures of the various organisms .....	326
Diacetyl and acetylmethylcarbinol in cream to which no culture was added .....	327
Diacetyl and acetylmethylcarbinol in cream plus cul- ture .....	331
Diacetyl and acetylmethylcarbinol in cream plus culture immediately after mixing .....	331
Diacetyl and acetylmethylcarbinol in cream plus culture after 16 hours holding .....	333
General flavor of butter and diacetyl and acetylmethyl- carbinol in butter and in buttermilk .....	334
Changes in diacetyl and acetylmethylcarbinol in butter during holding .....	335
Relationship of diacetyl and acetylmethylcarbinol con- tents to flavor of the butter .....	337
Discussion .....	341
Literature cited .....	344
