## FOREWORD

The following paper formed the basis of an address to Section F of the British Association at the Oxford Meeting on 10th August, 1926. Wherever possible figures have been brought up to June, 1926.

I have to thank the Laura Spellman Rockefeller Foundation for enabling me to utilise the services of Mrs. A. Henderson, B.Sc. (Econ.), without whose help speedy publication would have been impossible.

I extend thanks also to the London and Cambridge Economic Service for permission to use copyright material appearing in their *Bulletin*.

T. E. GREGORY.

AND POLITICAL SCIENCE,
