NOTE

Dr. Lewis L. Lorwin, American economist, has for the past two years been in Geneva, Switzerland, as Economic Adviser to the International Labor Office. In this capacity, he has had charge of the preparation of the Office Report on "The World Textile Industry," which will be submitted to the Washington Conference as a basis for its discussions.

Dr. Lorwin has written this booklet unofficially. In his presentation of the facts and in his interpretations of the possibilities and meaning of the Washington Conference, he is expressing his personal views.
