## APPENDIX II

*Wages of Herdsmen in Punjab during 1952-53.*

With the extension of cultivation consequent upon the growing pressure of population, grazing to the extent of fully satisfying appetite is now generally possible only in the mountain districts of Kangra and Gurdaspur and some parts of Hoshiarpur district. During the monsoon months, however, Hissar villages abound in grass, as also parts of Karnal and Rohtak districts adjoining the Jamuna river. In other areas, cattle are sent out more for exercise than grazing.

2. The practice in the Kangra and Gurdaspur villages is that larger families engage wholtime graziers. This practice also obtains a very restricted extent in other areas where young boys are employed for taking out cattle, and for other miscellaneous work, domestic and agricultural. By and far, the herdsmen work for a number of families collectively, and receive, wages according to the number of animals belonging to each family.

3. In Mangli (Hissar district), during the period under review, a herdsman was paid Re. 1 per cow and Rs. 2 per buffalo in rainy season and annas 8 per cow and Re. 1 per buffalo in other months. One grazier generally tended 25 to 30 animals making Rs. 40 to 45 per mensem.

4. In Sunderpur (Rohtak district) during the period under review, a man who was employed on his own accord was paid Re. 1 per animal, and dues for two months were paid to him in advance. A man and a boy, who could look after 30 and 15 animals respectively earned Rs. 30 and Rs. 15 per mensem.

5. In Badshahpur (Gurgaon district), the rate of payment was Rs. 2 per buffalo, Rs. 1-8-0 per cow and Re. 1 per sheep or goat. The herdsmen earned about Rs. 30 per month.

6. In Uggra Kheri (Karnal district) during the first quarter of 1952-53, a herdsman was paid Rs. 2 per cow or a buffalo and annas 8 per sheep or goat and could make Rs. 35 a month. During the rest of the period, the rate of wages for buffalo was raised to Rs. 3. The monthly earnings during this period were either Rs. 50 in cash or Rs. 15 in cash plus daily meals.

7. In Shahpur (Ambala district), the rate of payment was one "Chapati" per day per animal. An alternate mode of payment was 20 seers of grain per cow at each of the two principal harvests in the year. The monthly income of a herdsman on this basis is estimated at Rs. 40.

8. When a grazier was employed whole-time in Birta (Kangra district), he was paid Rs. 8 per mensem, if he was a grown-up man, or Rs. 5 if a boy of about 12 years with two meals a day. The monthly earnings came to Rs. 38 and Rs. 27-8-0 for a man and a boy, respectively. Alternatively, a herdsman received annas 8 per cow and Re. 1 per buffalo a month and tended about 20 animals.

9. In the village Sataur (Hoshiarpur district) and Jamsber (Jullundur district), the holdings are small and cultivation extends to almost the entire area. There is no distinct class of graziers in these villages and each family generally looks after its own cattle.

10. In Dakha (Ludhiana district), the herdsman was paid Rs. 2 per buffalo and Rs. 1-8-0 per cow a month and he could look after about 60 animals with a boy keeper, making about Rs. 105 per mensem. Sometimes instead of cash payment, he received a handful of flour everyday weighing three chhataks per animal, the value of which was about Rs. 112-8-0 per mensem.

11. In Sodhinagar (Ferozepur district), an adult grazier was paid Re. 2 per day and a boy grazier Re. 1 per day.

12. In Jandiala (Amritsar district), the wage rate for tending a cow or a buffalo was Rs. 2 per month. A herdsman who could generally look after 30 to 40 animals earned Rs. 60 to 80 per month.

13. In Narotmehra (Gurdaspur district), the grazier was paid Re. 1 per buffalo and annas 8 per cow. When paid in kind, he was given six maunds (of local 16 seers each) of paddy worth Rs. 24 at the time of harvesting. Kharif, and six maunds (local) of wheat worth Rs. 30 at the time of harvesting Rabi. He got two meals a day valued at Rs. 142 per annum, and also clothes and a pair of shoes worth another Rs. 30. Miscellaneous expenses on festivals and gratuities cost about Rs. 14 a year. The total earnings of a grazier in the villages thus worked out to Rs. 20 per mensem.

## APPENDIX III

*A Scheme for the Collection of Statistics of Wages of Agricultural Labour*

1. *Object.*—At present, statistics of wages of agricultural labour are not collected in a uniform method in all the States. Most of the States do not collect this information at all, while the information collected by one or two States cannot be tabulated for All-India purposes. The information available for the country in this respect is that given in the "Quinquennial Wages Census Report". Even this census is not carried out simultaneously in all the States and so it has been difficult to form an idea of the comparative variations in the level of wages paid to the agricultural labour. Agricultural wages constitute a major item in the cost of the production of crops and it is essential to have an idea of the actual variations in this item, in order to assess the trends in agricultural costs. It is necessary, therefore, that statistics of wages of agricultural labour prevailing in the selected villages should be regularly collected on a uniform basis.

2. *Standard Proforma.*—The form in which the information regarding the wages has to be collected is attached herewith. The information should be collected in this form and after being consolidated, should be sent to the Directorate of Economics & Statistics, Ministry of Food & Agriculture, New Delhi. The report should relate to the ordinary skilled labour and the unskilled casual labour employed on a daily wage rate and paid either in kind or in cash. The cash wages as well as the equivalents of wages paid in kind and their totals in cash equivalents should be given in this proforma. The wages of men, women and children in case of unskilled labour should be shown separately. Ordinarily, women and children do not occur in case of skilled labour and if there be any isolated case, that can be left out.

3. *Periodicity.*—The data as per above proforma should be collected on *monthly basis* and the wages reported therein should be those most commonly current during the month. The data should relate to the calendar months. The primary reporting agency should generally send the data for month on the 2nd of the next month, which should be scrutinized, and if necessary consolidated at the District Headquarters (when received from more than one village) by the end of the first week of the month and sent immediately to the State headquarters. The State headquarters should be able to consolidate the data for the whole of the State by the middle of the 2nd week of the month and send copies to this Directorate so that the same could be received by the end of the 2nd week of the month e.g. the data for July 1950, should be sent by the primary reporting agency to the district headquarters on the 2nd of August, by the district headquarters, to the state headquarters by the 6th or 7th August, by the State headquarters to the Directorate of Economics & Statistics, Ministry of Food & Agriculture by the 12th or 13th of August.

4. *Agency.*—The State Governments are at liberty to make use of whatever agencies they find most suitable for the collection of these statistics. They can collect this data through Patwaris, through Presidents of the Local Panchayat Boards, through Primary School Teachers, through Mamlatdars and Mahalkaris, through Firka Development Officers etc. etc. and arrange for their consolidation at district headquarters through any of their departments which can most conveniently handle this work. The Officer made in charge at the district headquarters should properly scrutinise the returns received from the primary reporting agencies and should be responsible for the accuracy and punctual submission of the same to the State headquarters.

5. *Consolidation and Publication.*—The consolidation of the returns at the State headquarters may as well be done by any department according to the convenience of each State. The consolidated statements showing the statistics of wages of agricultural labour at the different centres should be published in the State gazettes. But if any State likes it can also publish it in any other statistical bulletin issued by it. An advance copy of the same should be sent to the Directorate of Economics & Statistics as pointed out in paragraph 2 above.

6. *Selection of Centres.*—Such information on the prevailing wage rates should be collected from each district of the State particularly when agricultural conditions are not homogeneous in the different districts. In any case if some States find it difficult to arrange for the necessary staff, at least one district in every 5 may be selected representing the various administrative divisions and agricultural regions. In each district one village may be selected so as to represent the wages and general agriculture conditions of the district. It shall be appreciated if more than one village in one district are selected, particularly, from non-homogeneous parts of the district.

7. *Classification.*—Since the wages paid vary with the type of the work, it will be necessary to specify the nature of the work to which the wages relate. For this purpose the following classification is proposed :—

- (i) Skilled labour
  - (a) Carpenters ;
  - (b) Black-smiths ;
  - (c) Cobblers, (Mochies) ;
- (ii) Field Labour ;
- (iii) Other agricultural labour ;
- (iv) Herdsmen.

The definition of each one of these is given in the proforma :—

## PROFORMA

*Statement of Agricultural Wages*  
(Most Commonly Current)

During the month of ..... 19 .....

Village .....

District .....

Normal Working Hours .....

Type of Labour (1)	Cash Wages (2)	Wages in kind as actually given			Total Wage in Cash (6)
