

AGRICULTURAL STATISTICS

OF

INDIA

FOR THE YEARS

1899-1900 TO 1903-04

VOLUME II—NATIVE STATES

Explanatory Notes.

The Native States from which agricultural statistics are received are Mysore, from 1886-87; Jaipur, from 1892-93; Gwalior, from 1896-97; Bikaner, Marwar, and Tonk, from 1898-99; Alwar, Bharatpur, Kishangarh, Jhalawar, and Kotah, from 1900-01. The area by survey as shown in Table No. 1 for the State of Jaipur refers to the *khalsa* or State lands which form about one-third of the whole area of the State. The gross area of all the other States is their whole surveyed area; but the net area for which crop statistics are given is for all the States, except Bharatpur, more or less defective by the omission of unsurveyed areas and privileged tenures, such as *jagir*, *muafi*, etc. These excluded areas are 72 per cent of the total of Bikaner and nearly 88 per cent of the total of Marwar.

The year to which the statistics relate is different in the various States :

ending 31st March	.	.	.	in Bikaner
„ 12th April	.	.	.	in Alwar
„ 30th June	.	.	.	in Mysore, Gwalior, and Jaipur
„ in July	.	.	.	in Kishangarh
„ 14th July	.	.	.	in Marwar
„ 31st July	.	.	.	in Kotah and Jhalawar
„ in September	.	.	.	in Bharatpur
„ 31st October	.	.	.	in Tonk

Explanations regarding the form of the tables and instructions for their compilation are given in the introductory and "General" notes of Volume I relating to British India. The following notes on each table mention local peculiarities or methods of compilation.

TABLE No. 1 (pages 3--5).

In this table should be entered the total area of each State, the areas for which statistics are and are not available being separately entered.

(See also "General Notes" to the corresponding table in Volume I—British India)

Column 2 (page 4) states the whole area of the State as ascertained by revenue survey.

Column 3 exhibit the area of jodi, kayamgutta, and sarvamanyam villages and jagirs, for which the statistics required for the other tables are not available at present.

Column 5.—The figures in column 4 are repeated.

Mysore

- Jaipur.** *Column 2 (page 4)* states only the khalsa area, forming about one-third of the whole area of the State.
- Gwalior.** *Column 2 (page 4)* states the whole area of the State.
Column 3 states the estimated areas of jagir, muafi, ubari, tanka, istamrar, and such other villages as are still unsurveyed.
- Bikaner.** *Column 2 (page 5).*—Until 1903-04 this column stated the khalsa area only; from that year it shows the whole area of the State.
Column 3 states the areas of jagir and such other villages as are still unsurveyed; it also includes the areas which formerly were parts of jagir villages, but which, after the completion of the settlement operations, either lapsed to or were resumed by the State.
- Marwar.** *Column 2 (page 5)* states the whole area of the State.
Column 3 states the areas of jagir and such other villages as are still unsurveyed. It also includes the area of those khalsa villages which have not yet been regularly assessed; these are chiefly the latest acquisition to khalsa under the law of escheat.
Columns 4 and 5.—The area by village papers does not differ from the area by survey, for, although differences occur under the different classes of soil, the total area of each village is the same in both cases.
- Touk.** *Column 2 (page 5)* states the whole area of the State.
Column 3 states the area of jagir villages.
- Alwar.** *Column 2 (page 3)* states the whole area of the State.
Column 3 states the areas of jagir, muafi, and istamrar villages.
- Kishangarh.** *Column 2 (page 3)* states the whole area of the State, inclusive of jagir and other alienated lands, taken from the survey maps of the Government of India.
- Bharatpur.** *Columns 2 and 4 (page 5)* state the whole area of the State according to the professional survey of 1855.
Column 5 states the whole area of the State according to the settlement records.
- Jhalawar.** *Column 2 (page 3)* states the whole area of the State.
Column 3 states the area held by jagirdars and udaldars, as well as the muafi plots in the khalsa villages for which no separate record is maintained.
- Kotah.** *Column 2 (page 5).*—Until 1903-04 this column excluded the entire jagir and muafi villages and the Kotri of Bulwan; from that year it states the whole area of the State.
Column 3 states from 1903-04 the entire jagir and muafi villages which have not yet been surveyed, in addition to the detached revenue free plots situated in khalsa villages which alone appeared in this column up to 1902-03.

TABLE No. 2 (pages 6—25).

The first part of this table deals with the classification of the area entered in column 5 of table No. 1, and gives the proportions (columns 2 and 3) withdrawn from cultivation by inclusion under forests or for some other reason, (column 4) cultivable land available but not yet taken up, (column 5) land occupied but not under crop during the year of report, (column 6) net area sown, that is, after deduction of the area cropped more than once in the year. The second part (columns 8 to 13) gives the area irrigated from various sources, and (columns 14 to 18) the distribution of the irrigated area under specified crops.

(See also "General Notes" to the corresponding table in Volume I—British India)

- Marwar.** *Column 2 (page 8)* states the areas of State and district forests and of plantations.
Column 3 includes not only lands absolutely unfit for cultivation, but also lands reserved for pasture, and plantations intended for public use and therefore left unassessed. A large

portion of the pasture lands is fit for cultivation, and is given out for cultivation from time to time under special orders, such lands when given out for cultivation being transferred from columns 3 to 5 or 6 as the case may be.

Column 4 states unoccupied assessed waste.

Column 5.—There is no system of fallows, that is, lands are not systematically left uncultivated for the purpose of giving them rest. Individuals occupy large areas and pay full assessment thereon, leaving portions uncultivated, generally for the use of their cattle. For purposes of account the difference between the areas of the lands occupied by individuals and of those actually cultivated by them is taken as fallow. The lands occupied and assessed are sometimes unfit for cultivation, having been taken up on full assessment merely for use as pasture; but the exact area of all such lands cannot be ascertained, though it cannot be large.

Column 6 (page 16).—Previous to 1901-02 the figures represented the areas prepared for *Bikaner*. sowing whether actually sown or not. Since then only the areas actually sown have been shown in this column.

Columns 13 and 18 (page 17).—In *Bikaner* the soil cannot stand annual cultivation; land is therefore sometimes irrigated, but left unsown until the following year. This accounts for the excess in some cases in the total area irrigated (column 13) over the total area of crops irrigated (column 18).

Column 10 (page 7).—"Tanks" includes canals and *bunds*.

Alwar.

Column 2 (page 6) states the preserved forests in the khalsa areas exclusive of the jagir *Kishangarkh* and other alienated lands.

Column 2 (page 24) includes grass preserves (locally called the State *Rundhs*) and hills. *Bharatpur.*

Column 4 includes areas out of cultivation or which have not been cultivated for the last four years or upwards, but excludes State grass preserves (*Rundhs*).

Column 5.—The maximum period for which land thrown out of cultivation is reckoned as fallow is three years.

Column 8 includes area irrigated from the *Bareta Bund*, constructed by the State Public Works Department.

Column 2 (page 24).—Forests in the *Kotah* division of the State, not having been *Kotah* separately surveyed, are included in columns 3 and 4.

TABLE No. 3 (pages 26—55).

This table states the gross area sown with each crop, irrespective of irrigation and double cropping, the area under the latter being included in the statement, but subtracted in column 41 (area cropped more than once). The area is that stated in column 6 of table No. 2.

(See also "General Notes" to the corresponding table in Volume I—British India)

Previous to 1901-02 the figures in this table represented the area on which crops came to *Bikaner* maturity. Since then the area actually sown with crops has been shown.

The areas under mixed crops are distinguished and entered under the respective crops of which they are composed. The area of failed crops is included except when, owing to the failure of the first sowings, it has been devoted to other crops: in such cases the area first sown is omitted. *Bharatpur.*

TABLE No. 4 (pages 56—65).

This table deals with agricultural stock.

(See also "General Notes" to the corresponding table in Volume I—British India)

Until 1898-99 statistics were collected every year by the shanbog and patel of each *Mysore* village by enquiry or inspection. It was then decided to take a quinquennial census, and the first such census was taken in June 1899 as nearly as possible simultaneously throughout the State. Stock in municipalities has been included since 1896-97.

Bikaner. Animals in cities and towns are not included.

Bharatpur. A census of cattle is taken by the patwaris each year at the time of kharif crop inspection in September. Animals in cities, towns, and military lines are included. Oxen and buffaloes not old enough for work or to produce young are treated as "young stock."

TABLE No. 5 (pages 66—75).

This table indicates the relation between area, population, and land revenue; in other words, it exhibits the mean burden of the State assessment on the land assessed to it and on the community at large.

(See also "General Notes" to the corresponding table in Volume 1—British India)

Mysore. Column 3 (a) (page 68) states the area entered in column 3 of table No. 1 and in column 4 of table No. 2.
 Column 3 (b) states the area entered in columns 2 and 3 of table No. 2.
 Column 4 (a) states Government occupied lands including minor ináms in Government villages (columns 5 and 6 of table No. 2).
 Column 4 (b) states the area actually sown (column 6 of table No. 2).
 Column 5 states the total realisable land revenue, including miscellaneous land revenue.
 Column 8 states the total raiyatwari demand, plus the quit-rent due on minor ináms in Government villages.

Gwalior. Column 2 (page 70) states the net area by survey (column 4 of table No. 1).
 Column 5 states "Land Revenue" as defined in the Civil Accounts, and includes cesses which cannot be separated from the land revenue.
 Column 8 states only ordinary land revenue with cesses.

Morwar. Column 2 (page 72) states only the khalsa area, as statistics of revenue are not available for the whole State of which the area is stated in table No. 1.
 Column 4 (b) states not only the area actually under crops, but also fallow lands, as revenue rates are assessed on the total cultivated area including fallows. Hence the area stated in this column exceeds the total area in table No. 3.

Tonk. Column 2 (page 73) states the net area by survey (column 4 of table No. 1).

Alwar. The classes of tenures are zamindari and village communities, the latter consisting of *pattidari* and *bhaiyachara*.
 Item 1 (page 66) states the net area by survey (column 4 of table No. 1).
 Item 2 (a) shows areas covered with forests (column 2 of table No. 2) which are wholly revenue-free.

Kishangarh. The table is not prepared, the information not being available.

Bharatpur. Column 1 (page 74).—The State area leased to cultivators for a fixed term is returned as *raiyatwari*. The area leased out on condition of proprietary rights being given to lessees if they reclaimed land within a fixed term is returned as *zamindari—temporarily settled*; and the rest of the area (*i.e.*, the area remaining after deduction of the raiyatwari and the temporarily-settled zamindari areas from the total area), is entered as *zamindari—permanently settled*.
 Column 3 (a) includes muafi, chauth, and istimrar areas.
 Column 6.—The population stated is that of the last census.
 Column 11 shows the total population in cases where separate figures for areas fully and not fully assessed are not available.

Jhalawar. The whole area stated in this table is classed as "Khatadari" and "Watendari" equivalent to "raiyatwari" and "zamindari," respectively.
 Item 1 (page 66) excludes entire villages held by jagirdars and udakdars.

Kotah. Column 2 (page 75) states the area by village papers (column 5 of table No. 1).
 Column 6 includes population of the muafi and jagir villages excluded from column 2.

TABLE No. 6 (page 76).

This table is intended to exhibit the number of voluntary and compulsory transfers of ownership of land or tenant right, and the area so transferred. Voluntary transfers mean transfers made by actual contract or gift, transfers by inheritance not being taken into account.

The table is at present prepared only by the States of Mysore and Alwar. (See also "General Notes" to the corresponding table in Volume I—British India)

Only permanent transfers are included as by sale or gift, in which the parties concerned apply for and obtain transfers of revenue registry in the village accounts from which the table is compiled. Thus, changes of registry under orders of civil and revenue courts, as well as those effected in consequence of the sale of land for arrears of Government revenue, are included. *Mysore.*
