

AGRICULTURAL STATISTICS

OF

INDIA

FOR THE YEARS

1901-02 TO 1905-06

VOLUME I—BRITISH INDIA

Prefatory Note

In 1866 a set of tables proposed by a specially appointed Statistical Committee was prescribed by the Government of India for general adoption as appendices to the annual reports on general administration.

In 1884, at the instance of the Secretary of State for India, some of these forms, relating to agriculture, land, and tenures, were reconsidered and modified, after examination and discussion by a conference of officers of the Agricultural Departments. The modified tables, eight in number, were compiled for the first time for 1884-85 and published under the title of 'Returns of Agricultural Statistics of British India.' These tables were prepared and published annually until 1887-88, when a re-arrangement was made of the headings of four statements dealing with area, irrigation, crops, and agricultural stock, though no modification was made in substance.

In 1891 the tables were again revised and, to some extent, recast. The revised series of 1891 has, with a few unimportant alterations, been maintained to the present time, with the exception that two tables (wholesale prices and varieties of tenure) have been discontinued, other arrangements having been made to secure a record of prices.

The following schedule compares the three series of 1866, 1884, and 1891 :—

1866	1884	1891
IA. 1.—Area cultivated and uncultivated.	A.—Area cultivated and un-cultivated.	A.—Total acreage, classifica-tion of areas (including irrigation), area under crops, and stock.
IIID. 1.—Crops cultivated.	Irrigation.	
IIID. 2.—Agricultural stock.	B.—Crops cultivated.	B.— Prices of produce. (Dis-continued from 1894-95.)
IIIE. 1.—Prices of produce.	IIID. 2.—Agricultural stock.	
	IIIE. 1.—Prices of produce.	C.—Incidence of the land revenue on area and population.
IE. 2.—Surveyed and assessed area.	C.—Surveyed and assessed area.	
IE. 3.—Varieties of tenure held direct from Government.	IE. 3.—Varieties of tenure held direct from Government.	D.—Varieties of tenure held direct from Govern-ment. (Discontinued from 1901-02.)
IE. 4.—Varieties of tenure not held direct from Govern-ment.	(Discontinued.)	
IE. 5.—Register of trans-fers.	IE. 5.—Register of transfers.	E.—Register of transfers of landed property. (Discontinued.)
IIID. 3.—Rates of rent and produce.	(Discontinued.)	

The tables of the series of 1891 as published in this volume consist of six separate tables numbered, 1 (area), 2 (classification of area), 3 (area under crops), 4 (live-stock, etc.), 5 (land revenue), and 6 (transfers of land). Each table gives the figures for each province for five years with a total for British India, and is followed by subsidiary statements numbered 1-A, 1-B, 1-C, etc., giving similar figures for each district in each province. Besides these there are four tables of a special nature which deal with tea production, coffee production, area and yield of certain crops, and average yield per acre of principal crops; each of these is first published separately with a reviewing note or memorandum, and all four are republished in this volume, being numbered 7, 8, 9, and 10, respectively. The remaining table, numbered 11, which shows the changes in district, divisional, and provincial boundaries, serves as an explanatory statement of the variations in the areas shown in table No. 1 and was formerly published as an appendix to the Agricultural Statistics of British India.

The general scope of the figures given in these tables may be explained as follows:—

The total area of India is 1,133,977,169 acres or 1,771,839 square miles with a population of 294 millions. This may be divided as follows:—

	Acres.	Population.
(1) British Provinces (including Native States under the control of Local Governments) .	744,907,040	252,353,045
(2) Native States under the control of the Government of India	315,584,689	40,358,452
(3) Certain Native States* in Burma not included under (1)	43,625,600	1,237,749
(4) British Baluchistan (including administered areas)	29,859,840	343,137

The area of British Baluchistan is excluded entirely from the Agricultural Statistics of British India. The area of British Provinces only is dealt with in this volume—tables 1—6 and 11. In tables 7—10 figures relating to certain Native States are included. Volume II deals only with certain Native States.

The total area of the British Provinces dealt with in this volume—744,907,040 acres or 1,163,605 square miles—includes 130,702,801 acres, with a population of over 22 millions, belonging to Feudatory and Tributary States, which are under the political control of Local Governments. These include, in Burma, the Mông Mit State, the Hsawngsup State, the Singkaling State, and the Chindwin States; in Eastern Bengal and Assam, the Khási and Jaintiá Hill States, Manipur, and Hill Tippera; in Bengal, Sikkim, Cooch Bihar, and the Tributary States of Orissa and Chota Nagpur; in the United Provinces, Rampur and Tehri; in the Panjab, the Phulkian States, Bahawalpur, the Delhi and the Jallandhar Division States, and the Simla Hill States; in the North-West Frontier Province, the Phulera and the Upper Tanawal States; in Sind, the Khairpur State; in Bombay, the Gujarat States (excluding Baroda), the Konkan States, the Satara Jagirs, and the Southern Maratha States; in the Central Provinces, the Chhattisgarh States; in Madras, the States of Travancore, Cochin, Pudukkottai, Banganapalle, and Sandur. No returns of Agricultural Statistics are prepared for these States. There is also an area of 57,604,941 acres for which no returns are prepared. This comprises British Hill districts in Eastern Bengal and Assam and the United Provinces, and parts of districts in which there is no agency for collecting statistics, as, for example, unsurveyed tracts in the Panjab and unsurveyed villages in Bombay and Sind, and also estates held on permanent settlement or on

* Chin Hills, Pakkoku-Chin Hills, Shan States.

privileged tenure, in which there is no agency at present for the collection of statistics, such as *lakhiraj* estates in Assam, the family domains of the Maharaja of Benares in the United Provinces, and zamindari estates in Madras. Thus by deducting 130,702,801 acres belonging to Feudatory and Tributary States and another area of 57,604,941 acres for which no returns at present exist, from the total area of 744,907,040 acres included in British Provinces, a balance of 556,599,298 acres is left as shown in table No. 1, which represents the area for which Agricultural Statistics are forthcoming. These statistics are, however, prepared in a number of provinces from village papers; and the area given in the village papers of the United Provinces, the Central Provinces, Madras, the Panjab, and the North-West Frontier Province differ to some extent from the area ascertained by professional survey. The actual area, therefore, for which statistics are prepared is 557,236,906 acres or 870,683 square miles.

Less than two-thirds of this area is available for cultivation; 67,976,325 acres are under forests; and land absolutely barren or unculturable or covered by buildings, water and roads, or otherwise appropriated to uses other than agriculture amounts to 135,329,173 acres. The balance 353,931,408 acres represents the area available for cultivation, of which 207,683,741 acres were actually cropped during the year. The remainder is divided between current fallows (41,601,052 acres) and land available for cultivation but not cultivated and not classed as current fallows (104,646,615 acres).

Table No. 3 shows the number of acres cultivated with each kind of crop in each year. In the case of land from which more than one crop is taken, the area actually cultivated is shown under each crop-heading, but the total number of acres from which more than one crop was taken in the year is also recorded. Thus in 1905-06, the total area cultivated with different crops was 238,261,343 acres. But 30,577,602 acres were cropped more than once. The net area cropped according to the available statistics is therefore only 207,683,741 acres.

The proportion which this area bears to the whole area of India may be seen from the following summary:—

	Acres.
Total area of India	1,133,977,169
<i>Deduct</i> —Area not dealt with in this Volume—	
1. British Baluchistan	29,859,840
2. Chin Hills, Pakkoku-Chin Hills, and Shan States	43,625,600
3. Native States under the Government of India (partly dealt with in Volume II and also in tables 7—10 of this Volume)	315,584,689
Balance dealt with in this Volume, tables 1—6 and 11	744,907,040
<i>Deduct</i> .—Area for which no Agricultural Statistics are available—	
1. Tributary and Feudatory States under Local Governments	130,702,801
2. Other areas for which returns are not prepared	57,604,941
Balance for which Agricultural Statistics are prepared	556,599,298
Corresponding area in village papers	557,236,906
<i>Deduct</i> —Area not available for cultivation—	
1. Forests	67,976,325
2. Others	135,329,173
Balance available for cultivation—	
1. Uncultivated	104,646,615
2. Fallow	41,601,052
3. Actually cropped	207,683,741

The notes prefixed to each table explain the changes which have been made since 1866 in the tables now published. The general instructions for compilation are given in the General Notes and local peculiarities or methods of compilation are mentioned in the Provincial Notes.

Such statistics as have been supplied for the permanently-settled tracts of Bengal have been included in the tables since 1892-93; but, with the exception of the North Bihar and Orissa districts which have recently been surveyed, they are not based upon accurate surveys or village papers, and must therefore for the most part be regarded as estimates.

The Native States from which agricultural statistics are received are Mysore, from 1886-87; Jaipur, from 1892-93; Gwalior, from 1896-97; Bikaner, Marwar, and Tonk, from 1898-99; Alwar, Bharatpur, Kishangarh, Jhalawar, and Kotah, from 1900-01. The statistics relating to all these States, which in some cases are very imperfect, are separately printed as Volume II. Those tables, however, which cannot be split up and contain figures for Native States as well as for British provinces are inserted in Volume I. These are table 7 "Tea Production" (including Travancore and Cochin); table 8 "Coffee Production" (including Mysore, Travancore, and Cochin); table 9 "Estimated Area and Yield of Crops" (including Hyderabad, Mysore, and certain States in Rajputana, Central India, Bombay, and Sind); and table 10 "Average Yield of Principal Crops" (including Mysore).

Certain statements are prepared for the Agricultural (or the Revenue) year which ends on different dates in different provinces:

year ending 31st March	.	.	in Bengal, Eastern Bengal and Assam, Coorg, and Manpur;
" " 31st May	.	.	in the Central Provinces and Berar;
" " 30th June	.	.	in Madras, United Provinces, Burma, and Ajmer-Merwara;
" " 31st July	.	.	in Bombay;
" " 30th September	.	.	in the Panjab and the North-West Frontier Province.

The crop statistics however in every province refer to the year closing with the harvesting of the *rabi* or cold weather crop.

A glossary is attached to this note giving the meaning of vernacular words used in the explanatory notes which are prefixed to the tables in this volume.

Vernacular terms used in the Explanatory Notes.

Bané (Coorg).—Forest land granted for the service of the holding of rice-fields to which it is allotted, to be held free of revenue for grazing, leaf manure, firewood, and for timber required for the farm.

Bhagdari.—See *Narvadari*.

Goraít (United Provinces).—Village watchman.

Inám (Madras).—Whole *inám* villages are *entire* villages held on such tenure; *minor ináms* are portions of villages, generally a number of fields held on *inám* tenure.

Ítamrári (Panjab, Ajmer-Merwara).—A tenure which, though the revenue is assigned, is charged with a permanently fixed quit-rent.

Ízáfat (Bombay).—A form of service tenure.

Ísára (Berar).—Land leased under the waste-land rules on stipulated terms.

Jagír (Berar).—Alienated villages or lands granted as rewards for service either rent-free or on payment of a quit-rent; such lands are hereditary.

(Ajmer-Merwara).—Land granted revenue-free on condition of military service or as a charitable endowment.

(Bombay).—Estates held hereditarily or for one or more generations on political considerations, no condition of service being attached to them.

(Coorg).—Lands granted rent-free (1) to individuals on account of services rendered to the State by themselves or their ancestors, and (2) to some religious institutions.

Jamma (Coorg).—A tenure under which lands are held on half the ordinary assessment on condition that the holders should perform certain services to Government, if required, such as escorting Government treasure and rendering assistance to revenue officers on tour. These lands are inalienable without special sanction.

Jodí (Madras).—Portion of the assessment reserved or left unalienated when lands were originally granted on favourable assessment. It is distinguished from quit-rent, which represents an additional charge (generally a certain proportion—one-eighth, one-fourth, one-half, or five-eighths—of the full assessment, minus the jodí) imposed when the tenures were enfranchised or converted into free-holds.

Khálsa (Bombay).—Government occupancy or raiyatwari tenure.

(Central Provinces).—Areas settled on *malguzari* or *thekadari* tenure, in contradistinction to *zamindari* as defined in the note on page iv.

(Berar, Ajmer-Merwara).—Land paying full revenue to Government.

Khatedar (Berar).—A registered occupant whose name is entered by authority in the Government records as holding unalienated land.

Khíraj (Assam).—Land assessed to full revenue.

Khóti (Bombay).—A form of tenure, found chiefly in the Konkan, the holder of which is, in return for certain semi-proprietary rights, held responsible for payment of assessment on the area held.

Kwin (Burma).—A tract of land separated from other tracts by some well-defined boundaries, such as creeks or belts of forest.

Lakhiraj (Assam).—Revenue-free land.

Mahalkari (Bombay).—A revenue and police officer in charge of a sub-division of a taluk.

Malguzari (Central Provinces).—A form of tenure, the holder of which is responsible for the payment of the revenue assessed on a village.

Malíkmakbuza (Central Provinces).—A person owning one or more plots of land separately assessed to revenue in a village, who is not a *malguzar*, inferior proprietor, or a member of the proprietary body of that village.

Mamlatdar (Bombay).—The chief revenue and police officer (native) in charge of a taluk.

Mehvasi (Bombay).—A proprietary tenure assessable to revenue at a lump sum.

Milankhasra (Bombay and Central Provinces).—An abstract record in which the village area is classified.

Mittas, Palayams (Madras).—Certain classes of permanently-settled estates differing in their origin from *zamindaris*. *Mittas* were artificial estates created under Madras Regulation XXV of 1802, while *palayams* are the estates of *poligars* or old chieftains. Most of the latter have been granted title-deeds of permanent settlement under the Regulation mentioned, but a few have not been settled, though in practice their revenue is treated as fixed.

Mwasí (Manpur).—Any kind of land held revenue-free either for a fixed period or in perpetuity, but the term does not ordinarily apply to *jagirs*.

Munsarim (Berar).—A head native revenue officer.

- Narvadari, Bhagdari* (Bombay).—Forms of proprietary tenure involving joint responsibility for the assessment: the revenue in the former case being fixed in the lump, and in the latter distributed by rates over fields.
- Nazul* (United Provinces).—Property escheated or lapsed to the State.
- Nisfkhiraj* (Assam).—Land liable to pay half the revenue which is ordinarily payable for the term of settlement.
- Palampat* (Berar).—Land held on payment of a quit-rent, but not necessarily hereditary.
- Parpattigar* (Coorg).—A revenue officer in charge of a sub-division of a taluk.
- Patel* (Coorg).—Village headman appointed by Government.
- Peshkash* (Madras).—The fixed land revenue payable to Government on all permanently-settled estates.
- Poramboke* (Madras).—Lands reserved for public or village communal purposes.
- Poti inams* (Bombay).—Lands sub-alienated in alienated villages.
- Poti khardi* (Berar).—The unculturable area included in a survey number.
- Shambog* (Coorg).—A village accountant appointed by Government.
- Shrotriem* (Madras).—Village held on grant (originally to Brahmins), wholly or partially revenue-free.
- Talukdari* (Bombay).—A form of proprietary right in force in the northern districts of Bombay.
- Thathameda* (Upper Burma).—Household tax.
- Thekadar* (Central Provinces).—A farmer, a leaseholder, a middleman; one who receives the rents from the cultivators and pays a stipulated sum to the proprietor.
- Udka-jamabandi* (Bombay).—A proprietary tenure subject to fixed assessment.
- Umli* (Coorg).—Lands granted on reduced rates to individuals on account of services rendered to the State by themselves or their ancestors.
-

Summary of the Agricultural Statistics of British India

SUMMARY OF THE AGRICULTURAL

<i>Area in acres:</i>	1896-97	1897-98	1898-99	1899-1900	1900-01
1. By professional survey	539,880,413	544,905,288	547,637,835	547,502,788	548,738,661
2. Under forest	63,969,955	64,546,530	64,753,597	65,843,924	66,305,506
3. Not available for cultivation	156,571,083	140,620,715	139,211,630	138,150,727	138,488,965
4. Culturable waste	95,510,054	106,539,103	108,292,719	106,404,160	104,727,080
5. Fallow land	46,956,627	37,159,326	41,200,284	57,165,960	42,212,336
6. Net area cropped	177,512,059	196,497,232	196,487,658	180,150,454	197,115,565
7. Irrigated	29,365,642	30,418,454	30,370,288	31,508,404	30,017,686
8. Under—Rice	66,276,488	70,783,749	74,778,045	72,808,952	69,026,273
Wheat	16,182,295	19,946,164	20,225,111	16,104,779	20,108,024
Barley	6,341,384	8,060,883	7,072,867	6,811,984	7,592,608
Jawar	19,784,272	23,806,449	21,765,899	21,604,321	22,019,290
Bajra	10,042,160	12,898,701	11,265,761	8,317,180	15,089,215
Ragi	3,693,745	3,770,237	3,677,474	3,321,899	3,600,372
Maize	5,780,056	6,414,732	6,144,240	5,195,472	5,849,583
Gram	8,280,103	10,193,890	9,932,818	7,573,050	10,950,048
Other grains and pulse	24,330,724	26,851,384	27,189,964	23,341,158	27,814,783
Total food-grains	160,716,227	182,725,689	182,052,179	164,878,795	182,046,146
9. Under—Sugar	2,739,257	2,784,073	2,890,560	2,814,667	2,651,379
Coffee	146,098	151,092	148,389	132,373	133,361
Tea	423,932	465,614	482,959	493,187	502,173
10. Under other food-crops (in- cluding gardens and orchards, spices and condiments)	6,013,285	5,773,267	6,133,089	6,304,556	6,526,260
11. Under—Linseed	1,748,540	2,346,040	2,493,736	1,526,447	2,145,317
Sesamum (til or jinjili)	3,154,210	3,308,638	3,107,745	3,440,120	4,089,272
Rape and mustard	(a)2,343,012	4,070,706
Other oilseeds	5,629,351	6,911,970	6,565,520	3,018,662	2,808,077
Total oilseeds	10,532,101	12,566,648	12,167,001	10,327,641	12,913,372
12. Under—Cotton	9,459,762	8,914,996	9,178,060	8,375,841	9,609,820
Jute	2,215,105	2,159,908	1,890,739	2,070,668	2,102,236
Other fibres	600,268	585,420	687,150	408,750	510,788

TABLE No. 1.—AREA.

In this table is entered the total area of each district, the areas for which statistics are and are not available being separately entered.

The corresponding tables of the earlier series are I A—1 of 1866, A of 1884, and A—1 of 1891. The headings differ as set out below :—

	1866 <u>I A—1</u>	1884 <u>A</u>	1891 <u>A—1</u>
Total area in square miles	Area according to Survey Department in acres.		Area according to professional Survey in acres.
	Deduct—		Deduct—
	(a) Feudatory and Tributary States.		(a) Feudatory and Tributary States.
	(b) Area for which returns are otherwise not available.		(b) Area for which no returns exist.
	Net area dealt with in this return.		Net area by professional survey. Corresponding area in village papers.

GENERAL NOTES.

Column 2 (pages 13—15).—The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding departments in the Southern Presidencies. The provincial areas in this column exclude Native States in direct political relations with the Government of India, but include Feudatory or Tributary States politically controlled by Local Governments, with the exception of the Manipur State in Assam, and the Chin Hills, the Pakkoku-Chin hills, and the Shan States in Burma.

In column 3 is entered the area of any Feudatory or Tributary States included in column 2,

Column 4.—In this column is deducted the entire area (exclusive of Native States) for which the statistics required for tables Nos. 2 and 3 are not forthcoming in whole or in part. This area comprises chiefly estates held in permanent settlement or on privileged tenure, which have not been cadastrally surveyed and which possess at present no agency for the annual collection of agricultural statistics. As surveys extend and the organisation of village statistical establishments develops, the area in this column is reduced, and that entered in the next columns (5 and 6) and dealt with in tables Nos. 2 and 3 correspondingly increased.

Columns 5 and 6.—Column 5 is a check on the accuracy of column 6. In the latter "village papers" means "the papers prepared by the village accountants." They do not in several provinces relate to the whole area included in column 5; for instance, the village returns often do not include the forest areas. In such cases, column 6 must be taken to be the total area for which statistics are available, corrected by the village papers in respect of the areas for which such papers exist. The areas of provinces and districts which are calculated from village papers are necessarily somewhat different from those given by the Survey Department, (a) because, while the survey area of a district or province is calculated in block, the area by village papers represents the added total of field and village areas; and (b) because the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and railroads, is not uniform in the two sets of returns.

In provinces where no village papers exist, the figures in column 5 have been repeated in column 6. In that case they represent the area of which the details are stated in columns 2 to 6 of table No. 2.

PROVINCIAL NOTES.

Column 2 (pages 16—19).—Where there has been no professional survey of the district the best information available is accepted, subject to revision from time to time as surveys extend.

Columns 4 to 6 (pages 21).—Column 4 states all the hill districts, all permanently settled and *lakhiraj* estates, and areas which have not been cadastrally surveyed in Cachar and Sylhet, except—(1) reserved forest areas, and area under tea; (2) estimated cultivated areas in the permanently settled estates in Sylhet and Goalpara shown in Table 3; and (3) the plains portion of the Garo Hills district. From 1898-99 the area under crops in the permanently settled tracts of Sylhet and Goalpara has been estimated and included in columns 5 and 6; but in 1900-01 and 1901-02 the estimate for the permanently settled portion of Goalpara being unreliable was excluded from these two columns and included in column 4.

The statistics shown under Eastern Bengal deal with the 15 districts transferred from Bengal and combined with the old province of Assam to form the new province of Eastern Bengal and Assam. The figures for the Assam districts have been kept separate from those of the Eastern Bengal districts.

The area cadastrally surveyed is limited to 5,180,240 acres, which is only about 19 per cent of the whole area of Eastern Bengal (exclusive of Native States).

Columns 2 and 3 (pages 22—23).—Hill Tippera has been entered under a separate head as Feudatory State.

Column 4 shows the whole area of the Chittagong Hill Tracts for which no returns are available.

The statistics for Bengal published in this volume deal for the first time with the 33 districts of Bengal, as newly constituted, that is, excluding the 15 districts transferred to Eastern Bengal and Assam, and including Sambalpur transferred from the Central Provinces to Bengal.

The area cadastrally surveyed is limited to 25,052,458 acres, which is about 34 per cent of the area of the province (exclusive of Native States).

Columns 2 and 3 (pages 24—27).—Since 1894-95 Sikkim, Cooch Bihar, and the Tributary States in Orissa and Chota Nagpur, have been classed under a separate head as Feudatory States.

Column 4 (pages 28—32) includes the area of hill districts and some portions of Jhansi, Mirzapur, and Ballia which possess no agency for collecting statistics. It also includes the area of the family domains of the Maharaja of Benares situated in the Benares and Mirzapur districts.

Column 2 (page 33) states the area as given in the settlement records.

Column 2 (page 14).—There is no record of area according to professional survey. The area stated is that of the whole pargana including jagir and inam villages as given in the settlement records.

Column 4 (pages 34—36) represents except in Simla and Kangra the area in river beds not hitherto accounted for in the revenue papers: in Simla and Kangra the figures refer to high mountainous tracts.

Column 2 (page 33) represents the area of feudatory states in Hazara districts, which was formerly shown in column 4 as area for which no returns exist.

Column 2 (pages 37—39) states the area as returned by the provincial revenue survey and settlement department, supplemented in the case of Native States by the returns of the topographical survey. The revenue survey being incomplete in Sind, the exact area of that province is not known: the column states the area of surveyed tracts *plus* the estimated area of unsurveyed tracts.

Column 4.—Statistics are not available for villages which have not come under the operations of the revenue survey, and therefore the areas of all unsurveyed villages are excluded by deduction in this column.

Column 6.—The figures of column 5 are repeated because the areas in village papers are derived from the revenue survey records.

Column 4 (pages 40 and 41) includes the unsurveyed areas of zamindari* estates and waste land grants.

Column 6.—The area for which accurate statistics are available is steadily increasing, and until the survey is complete and resettlement finished, there will always be changes which render comparison difficult.

Column 2 (page 42) states the area as ascertained by the local survey and settlement department.

Column 2 (pages 43—45) states the area as ascertained by the provincial survey department supplemented, for tracts which have not come under the operations of that department, by areas calculated from the returns of the topographical survey.

Column 4 includes chiefly areas of zamindaris, or large proprietary estates permanently settled, which have not been cadastrally surveyed and possess no adequate agency for the collection of statistics. The area of these estates comprises roughly three-tenths of the total area of the British districts of the Presidency; but from 1901-02 some of the estates under the Court of Wards and private European managers, which have furnished returns, have been excluded from this column, and included in columns 5 and 6. Column 4 also includes (1) the area of the agency tracts in the districts of Ganjam and Vizagapatam, excluding the small sub-division of Chokkapad Kondam in the former district, and the extent of Government land and of some whole inam villages in the latter; (2) the area of some of the whole inam villages in Ganjam, Vizagapatam, Guntur, Nellore, and South Arcot, and all the whole inam villages in Salem; (3) the area of Chimakurti hill and a small piece of some other Government land in Guntur; (4) the area of Madras town and district in which cultivation accounts are not maintained; and (5) the area of the Amindivi Islands in South

* In the Central Provinces the zamindars are chiefs of minor importance (or their successors) who, while holding large and compact estates on privileged tenure, have been restricted to the rank of ordinary subjects.

Canara. Thus, the total area (23,876,018 acres) entered in this column for 1905-06 comprises (1) zamindari estates 22,849,280 acres, (2) whole inam villages 515,009 acres, and (3) raiyatwari villages (including the minor inam holdings) 511,729 acres.

Columns 5 and 6.—Formerly these columns wholly excluded the zamindari estates for which statistics were not available, but from 1901-02 figures for a portion (about a sixth in 1905-06) of these estates have been obtained and included. It should, however, be borne in mind that the statistics both for zamindaris and whole inam villages are based on estimates of doubtful value and are therefore not comparable for accuracy with those for raiyatwari and minor inam villages which are collected by adequate agency employed for the purpose. Column 6 also includes the area of unsurveyed lands roughly estimated in all districts, the agency tracts in Godavari, and also the portions of such tracts in Ganjam and Vizagapatam not included in column 4. Of the total area (66,907,301 acres) entered in column 6 for 1905-06 zamindari estates cover 4,400,119 acres, whole inam villages 3,088,759 acres, and raiyatwari and others 59,418,423 acres.

(a) The area of Kamptee cantonment

(b) In 1905-06 the major portion (about 78 per cent.) of the Sambalpur district was transferred from the Central Provinces to Bengal. The remaining portion, together with the districts of Raipur and Biláspur, was formed into the three districts of Drug, Raipur and Biláspur. The figures for the years 1901-02 to 1904-05 for the whole of the old Sambalpur district are shown in the tables for Bengal in this volume.

* See explanation given in the Explanatory Notes (page 11)

TABLE No. 2—CLASSIFICATION OF AREA.

The first part of this table deals with the classification of the area entered in column 6 of table No. 1, and gives the proportions (columns 2 and 3) withdrawn from cultivation by inclusion under forests or for some other reason, (4) cultivable land available but not yet taken up, (5) land occupied but not under crop during the year of report, (6) the net area under crop, that is, after deduction of the area cropped more than once in the year. The second part (columns 8 to 13) gives the area irrigated from various sources, and (columns 14 to 18) the distribution of the irrigated area under specified crops.

The headings altered since 1866 are noted below :

1866	1884	1891
I A—1	A	A—2
Cultivated . . .	{ Actually cropped . . .	Net area cropped.
	{ Current fallows . . .	Current fallows.
Culturable . . .	Available for cultivation . . .	Culturable waste other than fallow.
Unculturable . . .	Not available for cultivation.	Not available for cultivation.
Unappropriated cultivable waste.	(Omitted) . . .	(Omitted).
Communications . . .	(Omitted) . . .	(Omitted).

GENERAL NOTES.

Column 2 (pages 50 and 52).—“Forests” means in the statements of 1891 “any land classed or administered as forest under any legal enactment dealing with forests,” and in those of 1884 all Government forests and forests administered under any Forest Act. Any cultivated areas existing within such forests may be excluded and entered in column 6 (net area cropped), an explanation being given in a note.

The forest areas do not agree in most cases with those stated in the reports on the administration of the Forest Department for various reasons, amongst which are these: (1) because the forest administration reports and the statements of agricultural statistics relate in many cases to different periods, (2) because the administration reports relate exclusively to forests worked by the Forest Department, while the tables of agricultural statistics exhibit in addition forest areas administered by district officers, and (3) because, on the other hand, certain forest areas worked and returned by the Forest Department are not included in the areas for which village papers exist, and are therefore excluded from these tables.

Column 3 includes all land absolutely barren, and also all land covered by buildings, water, roads, or otherwise appropriated to uses other than agriculture.

Column 4 includes groves not classed in the cropped area. From 1901-02 areas under bamboos and thatching grass, when not forming parts of forest areas, are included in this column.

Columns 8 to 13 (pages 50—53) state the area actually irrigated during the year, areas cropped more than once being counted once only.

Columns 14 to 18 (pages 51 and 53) state the gross area of irrigated crops, areas cropped more than once being counted as separate areas for each crop.

The excess in some cases of the total area of crops irrigated (column 18) over the total area irrigated (column 13) is thus due to the inclusion in column 18 of the area irrigated at both harvests.

PROVINCIAL NOTES.

Column 2 (pages 54—60).—The area entered in this column is that given in the forest administration report, and includes reserved forests and fuel reserves. The figures for Upper and Lower Burma taken separately differ somewhat from those in the forest administration reports because of the difference in the manner of partition of the Thayetmyo district between the two divisions of the province.

Column 3.—In settled tracts the unculturable area is taken from settlement registers, but in unsettled tracts it is obtained from the best source available.

Column 4 includes land thrown out of cultivation and abandoned. Groves, not classed in the cropped area, and bamboos, when not grown in forest areas, are also included in this column.

Column 5 includes only such land left uncultivated as is actually in possession of cultivators. In Lower Burma such lands are assessed at privileged rates, but in Upper Burma no assessment is levied on land left uncultivated.

Columns 14 to 18 include only crops actually irrigated; for instance, where an un-irrigated crop of sesamum is taken off land which is afterwards irrigated and planted with paddy, the area grown with sesamum is not included in this column.

Column 2 (page 62).—“Forests” formerly included protected and reserved forests. Since 1893-94 reserved forests only have been entered. The figures differ slightly from those in the forest administration report because of the difference in the period embraced in the statements.

Column 5 includes generally all lands which are thrown out of cultivation or not cultivated, but remain in the occupation of leaseholders. For the hill districts (including North Bihar Hills) no figures can be given except for the plains portion of the Garo Hills district. Sylhet which is mostly permanently settled, figures are available only for the uncultivated portion of tea estates not examined and surveyed and of all kinds of settled estates the area cadastrally surveyed in the Jaintia Parganas and Partabgarh.

Columns 8 to 18.—There is practically no artificial irrigation. The small area irrigated in hill streams has never been distinguished from other cultivation.

Column 2 (pages 64—66).—The figures represent Government forests only. There is a difference between these and the corresponding areas in the forest administration report, owing to the exclusion from the former of the forest areas in the Chittagong Hill Tracts.

Columns 3 and 4 include private forests and unclassified State forests.

Columns 8 to 18.—No figures are available of areas irrigated except for certain cadastrally surveyed tracts.

Column 2 (pages 68—74).—Since 1893-94 the figures represent Government forests only. There is a difference between these and the corresponding areas in the forest administration report, owing to the inclusion in the former of 15 villages in the Sambalpur district, which have been taken up by the Forest Department but which have not yet been included in the forest return.

Columns 3 and 4 include private forests and unclassified State forests.

Columns 8 to 18.—Since 1898-99 the areas and crops irrigated from Government canals are stated; no figures are available of areas irrigated from other sources except for cadastrally surveyed tracts.

Statistics have been repeated for certain districts as information could not be collated owing to the employment of the village accountants in a revision of the records (including sometimes a resurvey) of the districts.

Column 2 (pages 76—84) includes areas administered by the district officers of some districts. Hence the figures do not agree with those in the forest administration report.

Column 5.—The maximum period for which land left untilled is reckoned as fallow is three years.

Columns 8 to 18.—Government canals include private canals except in Naini Tal, for which district separate figures for private canals have been obtained since 1895-96. From 1903-04, however, the areas irrigated from certain private canals in Basti which were formerly included under “other sources” have been shown under the proper head “private canals.” There are very few private canals in the United Provinces.

Column 2 (page 86).—The forest area relates to khalsa, jagir, and minor istamrar villages, but excludes village lands managed by the Forest Department which do not technically constitute Government forests.

Column 2 (page 50).—The forest area relates to Government forests including those in jagir lands.

Column 6 includes the area cropped in khalsa (Government) as well as in jagir villages.

Column 2 (pages 88—94) includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality.

Column 4 includes large areas of Government waste not allotted for cultivation.

Column 5.—The maximum period for which land is reckoned as fallow is two years; but, as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In certain districts in the south-west of the province, however, the classification is amended annually. Previous to 1901-02 this column also included the lands on which the crops wholly failed, as well as a fraction of those on which they partially failed proportionate to the degree of the deficiency.

Column 6.—For the years previous to 1901-02 the area represented is that on which the crops harvested would have been grown in a year of normal productiveness. That is to say, each of the returns of the actual areas from which crops were taken was multiplied by a fraction representing the relation of the crop harvested to a normal crop, and the difference between this product and the actual area was added to the fallow area. From 1901-02,

however, the area sown has been reported without reference to the area harvested or the condition of the crops.

Columns 8 to 18 state the gross area irrigated, that is, land irrigated in both seasons is counted twice.

Column 2 (page 96) includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality, and protected village waste in Hazara administered by the district officer and other waste lands in Peshawar.

Column 4 includes large areas of Government waste not allotted for cultivation.

Column 5.—The maximum period for which land is reckoned as fallow is two years; but, as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In Dera Ismail Khan classification is amended according to area of each class of soil actually cultivated each year.

Columns 8 to 18 (pages 92—93) state the gross area irrigated, that is, land irrigated in both seasons is counted twice.

Column 2 (page 98).—The figures do not agree with those in the forest administration report, because the revenue records do not state the most recent alterations of area due to erosion by the Indus which the forest report does, and because, on the other hand, the forest report does not always exhibit the most recent alteration of area effected by the revision survey, which the revenue records do.

Column 2 (pages 100—102) includes land administered by the Forest Department whether formally declared forest under an Act or not, and differs from the area stated in the forest reports, because in certain localities, where the forest settlement is incomplete, the original areas are still returned by the Forest Department, while revised areas are returned in this table; also because the revenue records do not always state the most recent revisions.

Column 3 includes all land recorded at the survey and settlement as unculturable, though at times a very small quantity of this land are cultivated.

Column 5.—The maximum period for which land thrown out of cultivation is reckoned as fallow is ten years.

Columns 8 to 13.—The figures given for private canals, tanks, wells, and other sources are rough estimates.

Column 16.—By "miscellaneous food crops" are understood the crops entered in table No. 8, as sugar, orchards and garden produce, and miscellaneous food crops.

Column 2 (pages 104—106) differs from the figures in the forest administration reports because the actual area of the forests is not known owing to incomplete survey, also because excisions made have not yet been taken note of in the forest registers, and because in many cases raiyatwari villages settled, thekadari villages surveyed, clearance lease villages earned in proprietary rights, and villages purchased under the waste-land sale rules, have not as yet been finally disforested and struck off the forest registers.

Column 3 states areas covered with water, hill, or rock, and land occupied by buildings and roads.

Column 4 states (1) the waste area within holdings (including fallows of more than three years), (2) land under tree forest which is not administered under any Act dealing with forests, (3) land under scrub jungle or grass, and (4) groves not included in holdings.

Column 5.—Land which has been fallow for not more than three years is reckoned as current fallow.

Column 2 (page 108) includes the forest area administered by the Forest Department, but excludes a large area of cultivated land in the Melghat taluk in Ellichpur shown as forest in the forest report.

Column 3 includes village sites and land taken up for public purposes or devoted to uses other than agriculture; it also includes unculturable portions of culturable fields.

Column 4 includes land available for cultivation but not given out.

Column 5 includes occupied culturable land left fallow for private reasons, such as grazing, rotation, etc.

Column 2 (pages 110—112) includes from 1895-96 the area cultivated within forests, and excludes the area of forests in the Native State of Sandur, in Bellary, not included in the village papers. As this is included in the forest administration report, it accounts partly for the disagreement of its figures with those in this table.

Column 5 includes all occupied waste, that is to say, waste portions of land for which revenue is paid.

Column 6.—Of the total net cropped area for 1905-06 (26,411,306 acres) stated in this column, zamindari estates have 1,414,944 acres, whole inám villages 1,242,472, and raiyatwari and others 23,753,890 acres.

Column 10.—The term "tanks" refers to a particular kind of dammed reservoirs.

Column 13.—Of the total area irrigated in 1905-06 (7,010,350 acres), 932,473 acres belong to zamindari estates, 488,903 to whole inám villages, and 5,638,974 to raiyatwari and others.

Columns 14 to 18 (crops irrigated) have been discontinued since 1898-99.

Column 2 (page 52) includes reserved and protected forests only. The management of the latter having been transferred to the revenue authorities, the figures shown in the forest administration report represent the area of reserved forests, which slightly differ from those adopted for this table because the periods embraced are different.

Column 3 includes unculturable Government waste and unculturable *banés*.

Column 4 states the estimated area of culturable Government waste.

Column 5 shows (1) the estimated area of culturable *banés*, and (2) the difference between the net area cropped and the gross area of the actual holdings (exclusive of *banés*). It thus includes the unculturable lands within the actual holdings, the area of which cannot be ascertained.

Columns 8 to 13.—Figures for land partly irrigated from springs and mountain streams are not available.

CLASSIFICATION OF AREA 50

* See explanation given in the Explanatory Notes (page 48)

(a) In 1905-06 the major portion (about 78 per cent) of the Sambalpur District was transferred from the Central Provinces to Bengal. The remaining portion together with the districts of Raipur and Bilaspur was formed into the three districts of Drug, Raipur, and Bilaspur. The figures for the years 1901-02 to 1904-05 for the whole of the old Sambalpur district are shown in the tables for Bengal in this Volume.

(a) Includes Government canals in certain zamindari areas

(b) No irrigation works

(c) Statistics of irrigation are not collected

* See explanation given in the Explanatory Notes (page 49)

TABLE No. 3—AREA UNDER CROPS.

This table states the gross cultivated area under each crop, irrespective of irrigation and double-cropping, the area under the latter being included in the statement, but subtracted in column 41. The area is that stated in column 6 of table No. 2.

The headings which have been modified since 1866 are—

1866 III D-1	1884 B	1891 A-3
Other food-grains	Other food-grains, including pulses	{ Barley. Cholam or jawar. Cambu or bajra. Ragi or marua. Maize. Gram. Other food-grains, including pulses.
Oilseeds	Oilseeds	{ Linseed. Til or jinjili. Others.
Sugar	Sugarcane	{ Sugarcane. Others.
Fibres	{ Cottor Jute Others	{ Cotton. Jute. Others.
Vegetables	(Omitted)	(Omitted).
Opium	"	Opium.
—	Cinchona	Cinchona.

The following items were added in 1891 :—

Condiments and spices.
Other dyes.
Indian hemp.

Other drugs and narcotics.
Fodder crops.
Orchards and garden produce.

Since 1899-1900 rape and mustard have been separated from the head "other oilseeds."

GENERAL NOTES.

In 1896 the Government of India decided that in this table should be entered the areas actually sown, whether the crop comes to maturity or not, except in cases when fields, owing to the failure of the first sowings, have been devoted to other crops: in such cases the area first sown should be omitted.

Previous to this decision there was no uniformity of practice. The figures in the tables represented: for Madras, Ajmer-Merwara, and Pargana Manpur the area sown or placed under crop; for Bombay the area sown, but any area on which the crop failed was treated as unsown; for the United Provinces the total cultivated area exclusive of the double cropped area and the area on which *kharif* (autumn) sowings failed; for Bengal, the Panjab, and the Central Provinces the area from which crops were actually taken. Again, in Assam, Berar, and Mysore, the area sown or placed under crop was stated for some districts, while for others the figures represented the area from which crops were actually taken. In Coorg neither the area sown nor the area actually cropped was stated: but all wet land paying assessment as cropped was entered.

In cases where two or more crops are grown together, an estimate is made of the area covered by each, and the areas so estimated are separately returned. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by the provincial authorities.

Columns 10, 15, 19, 22, 27, 34, 38, and 39 (pages 116-121).—The selection of crops for inclusion in these columns is left to the provincial authorities.

Columns 29 and 30 (pages 118 and 122).—The areas stated under "Coffee" and "Tea" differ in certain cases especially in Madras from those given in the special detailed statements Tables 7 and 8. The principal reason is that tables 7 and 8 are prepared from returns received from managers and owners of states; and these returns especially in Southern India are inaccurate and defective. Minor discrepancies are also due to the fact that the figures in table 3 deal with the agricultural year; while those in tables 7 and 8 deal with the calendar year. On the other hand tables 7 and 8 contain estimates for the acreage under tea and coffee in certain areas for which other agricultural statistics are not forthcoming.

The variations in the areas shown in different years under the same crop in the same district do not in all cases represent an actual increase or decrease in the area under that crop. In certain cases a revised classification or the correction of a faulty estimate is responsible for the change.

PROVINCIAL NOTES.

The table states the actual area sown, including the area on which crops have been destroyed, but excluding fallow. Land on which more than one crop has been grown is entered as a separate crop area.

In Cachar accurate statistics of the area under crops other than tea is available only for the cadastrally surveyed tracts, in Sylhet only for the Jaintia Parganas and Partabgarh, and in Goalpara only for the temporarily settled tracts. Until 1895-96 the figures for the five upper districts of the Assam valley related only to tracts cadastrally surveyed, and to *khiraj* lands and tea estates not cadastrally surveyed. Since that year the whole cropped area in these districts has been stated, with the exception of a small area cultivated by tribes paying house or poll-tax in Lakhimpur, Sibsagar, and Kamrup. The figures from 1898-99 include an estimate of the area under crops in the permanently settled tracts of Sylhet and Goalpara, but those for 1900-01 and 1901-02 include an estimate of such area in Sylhet only. In the Garo Hills district the areas under different crops are available for the plains tracts only. No statistics are available for the other hill districts.

Column 37 (page 143).—The area under orchards and garden produce includes village sites.

As no statistics are at present prepared by village or circle officers, the figures entered in this table are merely estimates, except those for Chittagong and Backerganj, in which the estimates are based on the figures collected during the cadastral survey.

No statistics are at present prepared by village or circle officers except in the Sambalpur district. The figures for all other districts entered in this table are therefore merely estimates, except those for Sâran, Champâran, Muzaffarpur, Darbhanga, Puri, Cuttack (exclusive of small permanently settled areas), Balasore, Angul, and the Santhal Parganas, in which the estimates are based on the figures collected during the cadastral survey.

The area sown with unimportant mixed crops, for which no separate heading is provided in the provincial crop statements, is assigned to the principal crop by the village accountant. The areas of important mixed crops, namely, wheat and barley, wheat and gram, barley and gram, jawar and arhar, bajra and arhar, and cotton and arhar, for which separate headings are provided in the crop statements, were included until 1893-94 with "other food-grains including pulses." Since 1894-95 they have been distributed in accordance with prescribed formulæ and entered under the crops of which they are composed. In the Almora and Garhwal districts no statistics of crops other than tea are available since 1895-96.

Columns 3, 4, 9 and 11 (pages 168—190).—The whole of the area of the land planted with food-grains (wheat, barley, gram, etc.) mixed with oilseeds is shown under food-grains in this table. The area shown under food-grains which was really planted with oilseeds (as a mixed crop) is roughly estimated to have been 3,293,000 acres in the whole of the United Provinces of Agra and Oudh in 1905-06.

Columns 12, 13, 14 and 16 (pages 169—191).—The figures shown in these columns represent areas under "pure" oilseeds, i.e., oilseeds sown unmixed with any other crop. Besides these, the oilseeds are thinly sown in combination with wheat, barley, gram, and other crops. If the areas occupied by the scattered plants were added up, it is estimated very roughly that they would amount in 1905-06, (for the whole of the United Provinces of Agra and Oudh) to 567,000 acres of linseed, 700,000 acres of sesamum and 2,026,000 acres of rapeseed.

Statistics have been repeated for certain districts as information could not be collated owing to the employment of the village accountants in a revision of the records (including sometimes a resurvey) of the districts.

The areas stated are actual areas sown or placed under crop in Government and jagir villages.

The figures in columns 2 to 39 (*pages 200—215*) do not represent the actual acreage, but the area of each harvest reduced to a conventional standard of normal productiveness. That is to say, each of the returns of the actual areas from which crops are taken is multiplied by a fraction representing the relation of the crop harvested to a normal crop. From 1901-02 the figures in column 40 represent the area sown without reference to the area harvested and the condition of the crops; and they therefore differ from the totals of columns 2 to 39. This difference was 7,582,516 acres in 1901-02, 5,759,719 acres in 1902-03, 3,921,395 acres in 1903-04, 4,313,157 acres in 1904-05, and 6,388,136 acres in 1905-06.

In future the areas actually sown will be shown in all the columns.

As in the Panjab, the areas under each crop (*pages 216—219*) are not actual areas, and similarly the total in column 40 exceeds the sum of the details in columns 2 to 39. This excess was 679,488 acres in 1901-02, 479,093 acres in 1902-03, 420,824 acres in 1903-04, 321,362 acres in 1904-05, and 410,722 acres in 1905-06.

In future the areas actually sown will be shown in all the columns.

Column 37 (pages 237 and 239) includes groves situated within the home farm of the landlord or the holding of a tenant.

Column 36 (pages 251—253) states the areas sown with grass and crops solely for fodder. Lands left waste for grazing and on which grass grows spontaneously, are not included in this column.

Column 32 (page 122).—The cultivation of cinchona has to all intents been entirely abandoned in Coorg.

(a) In 1905-06 the major portion (about 78 per cent) of the Sambalpur district was transferred from Central Provinces to Bengal. The remaining portion together with the district of Raipur and Bilaspur was formed into the three districts of Drug, Raipur, and Bilaspur. The figures for the years 1901-02 to 1904-05 for the whole of the old Sambalpur district are shown in the tables for Bengal in this volume.

ferred from Central Provinces to Bengal. The remaining portion together with the district of Raipur and Bilaspur was formed into the three districts of Drug, Raipur, and Bilaspur. The figures for the years 1901-02 to 1904-05 for the whole of the old Sambalpur district are shown in the tables for Bengal in this volume.

TABLE No. 4—LIVE-STOCK, PLOUGHS, AND CARTS.

This table deals with agricultural stock. The headings of the form now in use differ from those of 1866 and 1884 in the following respects :

1866 III D—2	1884 III D—2	1891 A—4
Cows and bullocks	Cows and bullocks	{ Bulls and bullocks. Cows. Male buffaloes. Cow buffaloes. Young stock (calves and buffalo calves).
.....	Buffaloes	
.....	
Horses }	Horses and ponies	Horses and ponies.
Ponies }		
Donkeys	Mules and donkeys	Mules and donkeys.
Sheep and goats	Sheep and goats	{ Sheep. Goats. Camels.
.....	

In most provinces mules have been separately enumerated since 1899-1900.

GENERAL NOTES.

In some provinces the figures include, and in others exclude, animals in towns, cities, and cantonments. The Government of India decided in 1896 that live-stock in cities and cantonments should be included wherever it is possible to secure their enumeration, and that oxen and buffaloes not old enough for work or to produce young should be treated as "young stock."

The figures generally are greatly lacking in accuracy.

PROVINCIAL NOTES.

The figures of live-stock in Upper and Lower Burma were collected until 1897-98 by huggis or headmen when preparing the capitation tax or *thathameda* (household tax) rolls, or when required for the statement. Cattle were not counted on any particular day.

Since 1898 annual statements of cattle and agricultural implements have been prepared in Lower Burma, during the field season, by circle thuggis and revenue surveyors.

The figures include all animals in towns and also those employed in each district by Government departments, such as transport, military, police, and by municipalities.

The statistics are based on a cattle census taken every five years. The census is, however, not taken at one time throughout the province.

In the Assam Valley Districts (excluding the permanently-settled tracts of Goalpara) the last census was taken in 1904. In Cachar it was taken in 1902, and in the Garo Hills (plains portion only) in 1903.

In Sylhet the last census was taken in 1904 in the Jaintia Parganas only; for the rest of the district an estimate was made on the assumption that the proportion between cattle and population found in the Jaintia Parganas holds good in the rest of the district.

Statistics of live-stock are collected only in tracts where surveys are being made or a record of rights prepared. The figures, however, are not collected each year, but for each tract when the tract is under survey.

Statistics of live-stock are collected only in tracts where surveys are being made or a record of rights prepared. The figures, however, are not collected each year, but for each tract when the tract is under survey. In the present table figures have been given only for the seven districts of Champaran, Muzaffarpur, Saran, Darbhanga, Balasore, Angul, and Puri, of which the whole area has been cadastrally surveyed.

Until 1897-98 the figures of live-stock were obtained by an annual census made by the patwari when he made his round for the record of the spring crops. A rough record of the detail for each tenant was made by the patwari and tested from time to time by the kanungo. The resultant totals were preserved in the patwari papers. The table is now prepared quinquennially on a census in each district taken every five years. The last census was taken in 1903-04 in all the districts, except Almora and Garhwal, under the supervision of the superior kanungoes and such members of the district and tahsil staff as could be spared. For Almora and Garhwal the figures collected in the previous census of 1898-99 were retained. The figures obtained by the quinquennial census are believed to be more accurate than the earlier figures.

The table is prepared quinquennially, and the figures were last collected in 1903-04.

An annual census is taken on the 15th March.

Until 1897-98 the table was based on figures furnished by patwaris who made an enumeration of the cattle in a village every fourth year, when a detailed jamabandi was prepared. The enumeration was not made on a particular day, but whenever the patwari found time for it, between April and August. The result was that in a fourth of the province an enumeration was made every year, and the fresh figures for that fourth part were incorporated in the annual statement by subtracting from the preceding year's figures the old statistics and adding the new figures. This system has been replaced by a census for the whole province to be taken every fifth year in the first week of February. The last census was taken in February 1904.

Until 1896-97 stock in cantonments was excluded except in Lahore. Since that year cattle in cantonments and municipalities have been included; and since 1897-98 all cattle belonging to Government have been included.

A census for the whole province is taken every fifth year in the first week of February. The last census was taken in 1904. All cattle belonging to Government were included.

Until 1901-02 the figures were collected annually by village officers at a house-to-house enquiry in June. In that year it was decided that they should be collected once in five years, and the first quinquennial return of live-stock was prepared for 1905-06. The next return will be due for 1910-11.

All animals belonging to a family are entered against the name of the head of the family even though the animals are temporarily absent from the village. Animals belonging to other villages are excluded, and those belonging to a roving grazier who has no permanent residence are noted, but are not included in the village resources. The figures are regularly tested by circle inspectors (kanungoes).

Stock statistics are not collected in the city of Bombay.

The figures were collected for the first time in 1899-1900; and, as in Bombay, it was decided in 1901-02 that they should be collected once in five years, and the first quinquennial return of live-stock was prepared for 1905-06.

The figures are collected annually, between the 1st January and the 15th March, by the patwaris for the areas in their charge. The total figure is recorded in the tahsil by the kanungo in a village register. The patwari includes all animals which belong to residents of the village, even though they are temporarily absent (*e.g.*, for grazing), and excludes animals which are temporarily in the village for grazing or other purposes, but do not belong to residents. Since 1896-97 stock in cities, large towns, and cantonments is included.

A census is made annually by the village officers.

All cattle belonging to one owner are entered against his name, even though the animals are temporarily absent from the village. When an owner cultivates land in more than one village, the actual number in each particular village on the night of enumeration is entered in the statement for that village. Cattle belonging to other villages, but temporarily in the village for grazing, are not entered in the statement for that village.

Previous to 1884 a census was taken every five years. From that year until 1898-99 a census of cattle in Government villages was taken annually, but it was then decided to revert to the former practice and take a census every five years. The last quinquennial census was taken in 1904-05. In inam villages, however, there is no suitable agency for the work, and Collectors obtain information for these villages as best they can: it is not known to what extent any census is made in them. No information exists regarding live-stock in permanently-settled (zamindari) estates.

The table includes stock statistics of all towns and cantonments except those in zamindaris, and those which do not form part of any revenue village and where the statistics are not collected because there is no agency for the purpose.

The table is prepared quinquennially on a census taken every five years.

The last census was taken in March 1905 by the circle shanbogs, and the particulars entered in a register maintained under Rule 73 of the Rules framed under the Coorg Land and Revenue Regulation, 1899.

Animals in municipal towns are included.

(b) Includes mules also

See explanations given in the Explanatory Notes (page 257)

TABLE No. 5—LAND REVENUE

This table is intended to indicate the relation between area, population, and land revenue, or in other words, to exhibit the mean burden of the State assessment on the land assessed to it and on the community at large. It was prescribed in 1884, and revised in 1893. Similar information previous to 1884 is contained in Tables ID, IE—2, and IE—6, appended to the General Administration Reports.

The two main classes of tenure, (1) raiyatwari and (2) zamindari and village communities, specified in 1884, were not exhaustive, and the provincial administrations were allowed to make additions in accordance with local requirements. The table now states all tenures under one or other of three heads, namely, (1) raiyatwari, (2) zamindari and village communities (temporarily settled), and (3) zamindari (permanently settled).

The present form differs from that prescribed in 1884 in the following respects :—

1884		1893
I.—(1) Raiyatwari (2) Zamindari and village communities	}	(1) Raiyatwari. (2) Zamindari and village communities (temporarily settled). (3) Zamindari (permanently settled).
II.—Deduct area not fully assessed, including estates assessed at privileged rates.	}	Deduct { <ul style="list-style-type: none"> (a) Area not fully assessed. (b) Area for which the returns required for this table are not available.
III.—Balance of area fully assessed.	}	Balance, that is, fully assessed area for which returns are available. <ul style="list-style-type: none"> (a) Total. (b) Cultivated.

GENERAL NOTES.

In July 1893 the following rules were prescribed for filling in this table :—

Entry 1 in general table No. 5 (pages 282—287), column 2 in provincial tables Nos. 5 (A to O) (pages 294—320).

The varieties of tenure entered should be included, as far as possible, under one or other of the following heads, namely, (1) raiyatwari, (2) zamindari and village communities (temporarily settled), and (3) zamindari (permanently settled).

Entry 2 (a) in general table (pages 282—287), column 3 (a) in provincial tables (pages 294—320).

Areas held revenue-free or at privileged rates should be deducted, but the deduction need not be made where such areas are in any case less than an entire village, and where there is any difficulty in estimating the corresponding deduction to be made in the population head 10 (column 11). In the Madras, Bombay, and Berar tables all land on which a full assessment has not been leviable during the year (for instance, assessed unoccupied land) should be classed for the purposes of this column as "area not fully assessed." Areas should not be entered in this column merely because the assessment due from them has been suspended or remitted on account of short crops, or for other special reasons.

Entry 3 in general table (pages 282—287), column 4 in provincial tables (pages 294—320).

This column should be subdivided into (a) total fully assessed area for which returns are available, and (b) area cultivated out of the area given in head (a). The latter head should be equal to the former after deducting current fallows and fully assessed waste.

Entry 4 in general table (pages 282—287), column 5 in provincial tables (pages 294—320).

Where the land revenue includes the zamindar's share, the net demand should be entered, and the table should state the payments due by the zamindars to Government, not those due by raiyats to the zamindars. The actual realisable demand for the year should be entered, after excluding arrears for past years. Sums remitted on account of unoccupied lands, short crops, etc., should be excluded. This column should include all the heads classed as "Land Revenue" in the Civil Accounts. The practice hitherto followed by the several provinces has not however been uniform, different provinces having entered different items, as stated in the provincial notes.

Entry 7 in general table (pages 288—293), column 8 in provincial tables (pages 295—321).

As in entry 4 (column 5), but only ordinary land revenue on fully assessed areas is to be entered.

Entry 8 in general table (pages 288—293), column 9 in provincial tables (pages 295—321).

To be entry 7 (column 8), divided by entry 3(a) [column 4(a)].

Entry 9 in general table (pages 288—293), column 10 in provincial tables (pages 295—321).

To be entry 7 (column 8), divided by entry 3(b) [column 4(b)].

Areas under forest are included in entry 1 (column 2), under the prevailing tenure of the province.

The population in entry 5 (column 6) is that of the last general census.

PROVINCIAL NOTES.

Columns 1 and 3 (a) (page 294).—No areas are now classed as zamindari, as no system of communal assessment prevails. Column 3 (a) shows grants under Appendices I and II of the Rules under the Upper Burma Land and Revenue Regulation. Before 1902-03 such grants were classed as zamindari (temporarily settled).

Column 3 (b) includes non-State lands in districts where no land revenue rates are yet imposed and where the *thathameda* rates have not yet been adjusted.

Column 4 (a) contains figures of State and non-State lands assessed to land revenue, including current fallows which are not assessed to land revenue. This column also includes the areas of waste land grants of which the rates have been fixed in perpetuity.

Column 5 states ordinary land revenue, *thathameda*, water rate, rents of fisheries, and items under "Miscellaneous Land Revenue," appearing in the Civil Accounts.

Column 8 (page 294) states the ordinary land revenue, as defined in the Civil Accounts, on areas fully assessed.

Column 11.—The population of villages and kwins is considered as belonging to fully or not fully assessed area accordingly as the greater portion of the village or kwin lands are or are not fully assessed.

Column 1 (page 296).—No areas are now classed as zamindari, as no system of communal assessment prevails. Before 1893-94, however, all grants made under the waste land rules were classed as zamindari (temporarily settled); and since that year until 1902-03 grants under the waste land rules of Arakan (1839-41), and Pegu (1865), were classed as zamindari (temporarily settled), while grants under Lord Canning's rules (1863) were classed as zamindari (permanently settled).

Column 3 (a) includes special grants which are not yet fully assessed.

Column 3 (b) includes old grants exempt from the payment of revenue under special terms.

Column 4 (a) states the areas of occupied lands, cultivated or left fallow; it also includes the areas of waste land grants of which the rates have been fixed in perpetuity.

Column 4 (b) excludes current fallows.

Column 5 shows ordinary land revenue, rents of fisheries, and the items under "Miscellaneous Land Revenue," appearing in the Civil Accounts.

Column 8 (page 297) states the ordinary land revenue, as defined in the Civil Accounts, on areas fully assessed; revenue on fallow areas which are treated as fully assessed is also included.

Column 1 (page 298).—*Raiyatwari* includes all unsettled Government waste and forest and areas in which house-tax or poll-tax is levied. *Zamindari (temporarily settled)* includes fee-simple grants, wholly or partially revenue-free tenures, and grants under progressive assessment; it also included up to 1901-02 certain temporarily settled estates in Sylhet, but from 1902-03 they have been included under raiyatwari.

Column 3 (a) excluded until 1902-03 an area of 21,000 acres of *lakhiraj* land in Goalpara, which was treated as fully assessed area on account of the difficulty of separating its population from that of the permanently-settled estates. It also excluded until 1903-04 about 78,000 acres of uncultivated land in the revenue-free estates.

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts.

Column 6 included the population of the feudatory States in the Khási and Jaintiá Hills until 1900-01, but the figures from 1901-02 represent the population of British territory only.

Column 10 (page 299).—Since 1893-94 the incidence has been calculated on the cultivated portion of the fully assessed area. The cultivated area in the zamindari permanently-settled estates in Sylhet and Goalpara not being known, the incidence could not be ascertained for these estates until 1898-99. Since then the cultivated area in these estates has been estimated; but the estimates for the permanently-settled estates in Goalpara for 1900-01 and 1901-02 were so doubtful that no calculation of the incidence was made from them in those two years. From 1903-04 information has not been available for the cultivated portion of the fully assessed area in Sylhet.

The table is prepared quinquennially, and the figures were last collected in 1901-02.

Column 1 (page 300).—Since 1896-97 the following classification of estates has been adopted:—

(1) *Zamindari (permanently settled)* including estates managed for proprietors by Government.

(2) *Zamindari (temporarily settled)* comprising (a) all temporarily-settled estates, namely, those settled for periods with proprietors, and estates leased to farmers for periods; and (b) all estates owned by Government as proprietor.

Column 2 stated until 1896-97 the area of estates borne on the revenue roll of the district, whether entirely situated within the district boundaries or not, and did not include lands of estates partly situated within the district boundaries but borne on the revenue roll of another district. This accounted for the discrepancy between the district areas stated in this column and those entered in table No. 1.

Since 1896-97 the area in this column agrees with the area entered in table No. 1. It represents the total area by survey less the area of Feudatory States.

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts.

The table is prepared quinquennially, and the figures were last collected in 1901-02.

Column 1 (pages 302-304).—Since 1896-97 the following classification of estates has been adopted:—

(1) *Zamindari (permanently settled)* including estates managed for proprietors by Government.

(2) *Zamindari (temporarily settled)* comprising (a) all temporarily-settled estates, namely, those settled for periods with proprietors, and estates leased to farmers for periods; and (b) all estates owned by Government as proprietor.

Column 2 stated until 1896-97 the area of estates borne on the revenue roll of the district, whether entirely situated within the district boundaries or not, and did not include lands of estates partly situated within the district boundaries but borne on the revenue roll of another district. This accounted for the discrepancy between the district areas stated in this column and those entered in table No. 1.

Since 1896-97 the area in this column agrees with the area entered in table No. 1. It represents the total area by survey less the area of Feudatory States.

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts.

The table is prepared quinquennially, and the figures were last collected in 1901-02.

Columns 3 (a) and 3 (b) (pages 306-305) exclude small revenue-free plots, for which details are not forthcoming.

Column 4 (b) states the net cropped area of the year corresponding with that in column 4a of table No. 3 (area under crops), but limited to the fully assessed area for which returns are available of column 4(a).

Column 5 states—(1) "ordinary revenue," comprising (a) fixed collections, and (b) surplus collections; and (2) "miscellaneous land revenue" comprising (a) receipts from quarries and minor mineral products in forests and lands not under the management of the Forest Department, (b) receipts from *gorast* (village watchman) jagirs in Basti, and (c) miscellaneous receipts.

Column 6.—The total population of the provinces excludes the population of the family domains of the Maharaja of Benares in the Benares and Mirzapur districts.

Column 11 (pages 307-309) includes population of revenue-free lands when the area of such lands is less than an entire village. The inclusion does not materially affect the incidence entered in column 12.

No figures have been entered in columns 8 to 13 opposite "Lucknow, permanently settled," as no portion of the permanently-settled area has been fully assessed to land revenue.

Columns 13 and 14.—The figures are taken from the latest census report.

The table is prepared quinquennially, and the figures were last collected in 1901-02.

Column 1 (page 308).—Since 1893-94 the khalsa area has been classed as "zamindari and village communities (temporarily settled)" and the jagir and istamrari areas as "zamindari (permanently settled)."

Column 4 includes in the case of the khalsa villages the assessed cultivated area, including assessed fallows.

Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts.

Column 10 (page 309).—The cultivated area is, in the case of "zamindari (temporarily settled)," the cropped portion of the fully assessed area.

Column 11 excludes population of jagir villages.

Entry 5 (page 285) includes since 1893-94 the population of jagir villages which was previously omitted.

Columns 3 (a) and 3 (b) (page 310) include villages receiving frontier remissions, tracts which are entirely unassessed (such as the Kulu mountains), and istamrari tenures.

Column 5 includes assigned revenue. As regards the heads of land revenue included in this column until 1903-04, the practice was not uniform, different districts having included different items. From that year the column includes all the items falling under the head "Land Revenue" in the Civil Accounts.

Column 10 (page 311).—The cultivated area taken for calculating the incidence is, since 1893-94, exclusive of current fallows.

Columns 3 (a) and 3 (b) (page 312) include villages receiving frontier remissions, and istamrari tenures.

Column 5 shows all the items falling under the head "Land Revenue" in the Civil Accounts, including assigned revenue.

Column 3 (a) includes fallows and fully assessed unoccupied area.

Column 4 excludes fallows and the fully assessed unoccupied area [see note to column 3 (a)]. Fallows are assessed once in five years.

Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts.

Column 10 (page 313).—The incidence is calculated from the cultivated area (excluding fallows) and the assessment on that area.

Column 1 (page 314).—Lands held under special tenures, such as talukdari, meh-wasi, udhad-jamabandi, narvadari, and bhagdari in Gujarat, and khoti and izafat in the Konkan, are classed as "zamindari and village communities (temporarily settled)."

Column 3 (a) includes alienated area and the area held free of revenue or the revenue of which has been reduced by special agreement, and also the fully assessed unoccupied area since 1893-94.

Column 3 (b) includes land not available for cultivation or unassessed.

Column 4 includes land under temporary cultivation; also pot inams paying full assessment.

Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts.

Column 10 (page 315).—The incidence is calculated from the occupied area, which, in the Presidency proper, is treated as the cultivated area for the purposes of this table, and the assessment on that area.

Column 11 includes population of pot inams and the like scattered areas which cannot be distinguished from the population of the fully assessed area.

Column 12.—The incidence is based on the figures given in column 11 and those in column 8, plus the amount of full assessment on privileged lands held in fully assessed villages at less than that assessment.

Column 1 (page 316).—Zamindari (temporarily settled) includes malguzari and thekadari.

Column 2 states the area by village papers (column 6 of table No. 1) plus the area for which no returns exist (column 4 of the same table).

Column 3 (a).—Zamindari estates properly so-called (that is, excluding malguzari) are classed as not fully assessed.

Column 4 (b) excludes fallows since 1894-95.

Column 5.—The figures represent different items of land revenue for different districts, no uniform practice having been followed throughout the province.

Column 10 (page 317).—The cultivated area referred to in this column included fallows until 1894-95. Since then the net cropped fully assessed area has been taken in calculating the incidence.

Column 3 (a) (page 318).—This column states jagir, izara, and palampat villages, all unassessed land, forest areas, village sites, roads, rivers, etc.

Column 4 (a).—Pot kharab lands are excluded from this column, which includes only occupied lands available for cultivation.

Column 4 (b) states the cultivated area in khalsa villages only.

Column 5.—The figures include the revenue derived from jagir, palampat, and izara villages. As regards the items of land revenue included, the practice has not been uniform, different districts having entered different items.

Column 6.—The population is that of the last general census.

Column 8 (page 319) includes assessment on occupied lands only, as stated in column 4 (a).

Column 10.—The incidence since 1896-97 has been calculated on the area entered in column 4 (b), that is, the cultivated area in khalsa villages only.

Column 11 excludes population of jagir and izara villages.

The table is prepared quinquennially. The figures were last collected in 1903-04.

Column 3 (a) (page 320).—In the case of raiyatwari tracts this column states the area unoccupied assessed lands, of all unassessed poramboke, of minor inám lands in Government villages held rent-free or subject to quit-rent, and of forest lands, excluding portions of the first mentioned two classes occupied under "miscellaneous;" and in the case of zamindari tracts the areas of hills, porambokes, and minor ináms are entered. The entire area of whole inám villages is deducted in this column.

Column 3 (b).—Raiyatwari; includes the area of the Agency tracts, except in Godávári, for which district particulars for such tracts are reported by the Collector.

Column 4 (a).—Raiyatwari; states the total occupied area as stated in village papers.

Column 5 stated until 1903-04 only "ordinary revenue" according to the classification in the Civil Accounts. In the case of raiyatwari villages, this item comprised the net land revenue demand, excluding remissions and deductions, but including quit-rent on minor ináms and miscellaneous revenue from the cultivation or occupation of lands not included in holding and also water-tax. In the case of zamindari and whole inám villages, it comprised the *peshkash* or quit-rent payable to Government, and the water-rate on lands included in such tracts, as also jodi or quit-rent on minor ináms situated therein. From 1903-04 the column includes all the items falling under the head "Land Revenue" in the Civil Accounts.

Column 8 (page 321).—Until 1903-04 this column stated in the case of raiyatwari the net land revenue demand, excluding remissions and deductions and revenue from minor ináms (quit-rent and water-tax); and in the case of zamindari it showed the *peshkash* or quit-rent payable to Government, excluding the jodi or quit-rent and water-rate on minor ináms. From 1903-04 this column shows only the "ordinary revenue," as defined in the Civil Accounts, on areas fully assessed.

Column 10.—The cultivated area is, in the case of raiyatwari lands, the total area cropped out of the area given in column 4(a). No corresponding information is available for the zamindari area.

Column 11 states the entire population of raiyatwari and zamindari villages, respectively, except of raiyatwari Agency tracts in Ganjam and Vizagapatam.

The table is prepared quinquennially, and the figures were last collected in 1902-03.

Coorg.

Entry 2 (page 287) includes bané and cardamom lands.

Entry 4 shows ordinary revenue, sale-proceeds of waste lands, and miscellaneous land revenue.

† The cultivated portion of the zamindari area is not known and the incidence is on the raiyatwari area only

TABLE No. 6—TRANSFERS OF LAND.

This table is intended to exhibit the number of voluntary and compulsory transfers of ownership of land or tenant-right, and the area so transferred. Voluntary transfers mean transfers made by actual contract or gift, transfers by inheritance not being taken into account.

The table now in use was prescribed in 1891; it differs from the tables formerly in use in the following respects:—

1886 I E—5	1884 I E—5	1891 E		
<i>Nature of tenure</i>	<i>Nature of tenure</i>	<i>Nature of tenure</i>		
Great zamindaris, complete.	Proprietors. { Revenue-paying. Revenue-free.	Revenue-paying.		
Shares in such zamindaris, complete.		Tenants who have statutory (or otherwise recognised) powers of transfers.	Wholly or partially revenue-free.	
Large zamindaris.			(No alteration.)	
Shares in such zamindaris.				
Small zamindaris.				
Shares in such zamindaris.				
Villages owned by cultivating communities.				
Shares in villages owned by cultivating communities.				
Holdings of proprietary cultivators.				
Intermediate holdings of a transferable character.				
Holdings of raiyats at fixed rates.				
Holdings of raiyats with right of occupancy.				
Revenue-free tenures.				
<i>Number of transfers recorded</i>	<i>Number of transfers</i>	(No alteration.)		
(a) By voluntary sale or gift.	(a) By private contract or gift.			
(b) By compulsory sale.	(b) By order of court.			
(c) By inheritance.	(Omitted.)			
<i>Average area in acres of each holding transferred</i>	<i>Total area transferred</i>	(No alteration.)		
(a) By voluntary sale.	(a) By private contract or gift.			
(b) By compulsory sale.	(b) By order of court.			
(c) By inheritance.	(Omitted.)			

GENERAL NOTES.

It is optional with local Governments to enter or omit transfers of lands held by tenants.

In August 1896 the following rules were prescribed:—

- (1) Changes of entry due to succession, partitions, or simple mortgages, are not really transfers, and should be excluded from the table, as also should redemptions of mortgage;
- (2) All temporary transfers such as leases should also be excluded, but mortgage with possession should be treated as a transfer and entered in the table;
- (3) All transfers made by order of a court should also be included in the tables;
- (4) The word "court" in the entry "by order of court" should be held to include a revenue court.

Instructions were issued in 1891 to the authorities of the Panjab and the Central Provinces to the effect that the entries under "by order of court" should state not merely the transfers occasioned by debt, but all forms of transfer effected through the medium of a court.

PROVINCIAL NOTES.

Transfers of property in land are not as yet registered in Upper Burma; the information is collected by revenue officers. The statement includes cases in which land has been permanently transferred by gift, sale, or other transaction, for valuable consideration. The term "court" includes a revenue office as well as a civil court.

From 1903-04 no record of transfers of property in land has been kept in the Kamrup district.

Columns 12 to 21 (page 333) exclude the areas transferred in the Sylhet and Goalpara districts, the information not being available.

Previous to 1896-97, in most districts all kinds of transfers, including transfers by inheritance and non-permanent transfers, such as leases, or usufructuary mortgages, were entered. Since 1896-97 transfers by order of a revenue court have been included; transfers by inheritance and non-permanent transfers have been excluded.

The table is not prepared, the information not being available.

The table is not at present prepared, the information not being available. Arrangements are being made to collect statistics of transfers of land in Bengal.

Transfers by inheritance or non-permanent transfers, such as leases or usufructuary mortgages for short periods, are excluded, but mortgages with possession are included, as also all transfers made under order of a court.

Transfers of *malikana* rights, that is, rights to receive a portion of the profits of an estate, not amounting to proprietary rights, which were formerly included in the table, have been excluded since 1905-06.

Statistics of transfers of tenant-right are not given. Transfers by gift have been included since 1896-97.

The figures exclude all changes due to succession, partitions, simple mortgages, redemptions of mortgages, and temporary transfers, such as leases; but mortgages with possession are included. The column "by order of court" includes transfers occasioned by debt incurred by judgment-debtors, as also all other transfers effected by order of courts, civil and revenue.

Transfers of property in land are not permitted in Manpur.

Before 1895-96, the statistics of the different kinds of tenure were presented collectively, separate figures for each kind not having been available, and the figures included all kinds of transfers relating to the tenant-rights of proprietors and occupancy tenants, but excluded transfers by inheritance. The transfers included were, (1) partitions, (2) gifts and exchanges, (3) mortgages with possession, (4) redemption of mortgages, (5) sales and permanent transfers for value, (6) other transfers, which last included cases of a miscellaneous nature, such as enhancement of rent or corrections of errors. The few cases of transfers for arrears of revenue which occurred were included under "by order of court."

From 1895-96 the table includes only transfers by mortgage and sale.

Transfers by mortgage and sale only are included.

The table has been prepared since 1901-02.

Transfers of tenant-right have been included since 1892-93. The figures against "proprietors" are filled up from returns compiled on the basis of mutation proceedings. Those against "tenants" are based on statements furnished by patwaris in which all transfers are entered, including transfers by mortgage with possession as well as transfers by sale, but excluding transfers by inheritance. The statement does not include leases or mortgages without possession.

The information is obtained from the Registration Department.

The table includes all transfers effected by sale of fields under decree of a court (including a revenue court) either in execution of the decree or for recovery of arrears of land revenue. Private sales or recognised divisions of fields necessitating a change in the name of the registered occupant are entered under "by private contract or gift," as also are mortgages with possession. Transfers due to succession, by inheritance, simple mortgages, and leases are omitted.

Only permanent transfers, as by sale or gift, are included, when the parties concerned apply for and obtain transfers of revenue registry. These are entered under "private contract or gift." Cases in which lands are sold for arrears of revenue due to Government are also included if the lands are purchased by private parties, but excluded if the lands are purchased by Government.

Transfers of tenant-right are not entered, the information not being available.

The entry under the head "revenue-paying" includes raiyatwari holdings paying full assessment, and permanently settled estates paying *peshkash*; and the entry under the head "wholly or partially revenue-free" relates to minor ináms and whole inám villages.

The statement includes all legal transfers of property (a) by voluntary action of the owners (b) and (c) by virtue of decrees of civil and orders of revenue courts.

Transfers ordered by courts in cases of disputed succession, and those occasioned by debt incurred by the judgment-debtors, are included under the heading "by order of court." This heading also includes transfers ordered by civil courts from registered holders to decree-holders of lands sold by civil courts in satisfaction of decrees, and of holdings sold by the revenue authorities for arrears of revenue.
