P R E F A C E

The present study carried out in Uttar Kannada district for the year 1985-86 is the eighth in the series of 'Current Evaluation of Family Welfare Acceptors and Non-acceptors' conducted by Population Research Centre, Dharwad.

I am grateful to Dr.P.S.Nair, Director, Population Research Centre, for his valuable comments and suggestions on an earlier draft of this report. His suggestions gratefully helped in improving the presentation.

My sincere thanks to Shri.J.B.Hasalkar, Research Investigator, for his help and constant encouragement in carrying out this study. His critical comments on the first draft of the report proved most helpful in bringing about several improvements.

Field data collection was done by Mr.A.S.Kulkarni, Mr.G.C.Jadar, Mr.R.V.Deshpande, Mr.K.E.T.Rajaram, Ms.A.S. Joshi, Ms.P.R.Hukerikar and Ms.C.V.Gokhale. I gratefully acknowledge their services. Thanks are due to Mr.L.V.Talwai, Mr.A.S.Kulkarni, Mr.G.C.Jadar, Mr.R.V.Deshpande and Ms.A.S. Joshi for their technical assistance during data processing and analysis.

I wish to express my thanks to District and Family Welfare Officer, to Medical Officers and Village Level Health and Family Welfare Workers of Mundgod, Manchikeri and Shirali Primary Health Centres for their help and co-operation in the collection of field data. I must express my thanks to the respondents who have co-operated with interviewers and given complete and accurate information.

Thanks are due to Mr.R.H.Onkar and Mr.D.S.Phadke for secretarial assistance. Lastly, I am alone responsible for the errors and Omissions, if any, in the report.

Foreword		
Preface		
List of Tables	Page	
CHAPTER - I	OBJECTIVES, STUDY DESIGN AND SAMPLE COVERAGE	1
1.1	Introduction	1
1.2	Objectives	2
1.3	Study design	3
1.4	Questionnaires	7
1.5	Data collection	8
1.6	Sample coverage	9
CHAPTER - II	SOCIO-ECONOMIC AND DEMOGRAPHIC CHARACTERISTICS OF ACCEPTORS AND NON-ACCEPTORS	13
2.1	Introduction	13
2.2	Religion and Caste	13
2.3	Education	16
2.4	Occupation	18
2.5	Land ownership and Household Income	20
2.6	Type of Family	23
2.7	Age at marriage and Duration of Marriage	23
2.8	Age	25
2.9	Parity	32
2.10	Number of Living Children	32
2.11	Conclusion	38
CHAPTER-III	PRACTICE OF FAMILY PLANNING AND RELATED ASPECTS	43
3.1	Introduction	43
3.2	Previous practice	43
3.3	Current practice	45
3.3.1	Source of motivation	45

3.3.2	Reasons for Acceptance	48
3.3.3	Reasons for Preferring A Particular method	49
3-3-4	Pre-adoption Medical Screening and Advice	52
3.3.5	Post-acceptance complications	55
3.3.6	Follow-up services	55
3.3.7	Visit to the clinic	56
3.3.8	General Satisfaction Regarding Family Planning Services	59
3.3.9	Attitude towards Recommending Family Planning to others	59
3.4	Conclusion	61
CHAPTER-IV	NON- ACCEPTORS	66
4.1	Introduction	66
4.2	Family Planning Methods, Knowledge and its Sources	67
4.3	Knowledge about Service Sources	69
4.4	Respondent's Contacts with Health and Family Welfare Institutions	71
4.5	Reasons for Non-acceptance	73
4.6	Attitude Towards Family Limitation	76
4.7	Reasons for non-acceptance of F.P. in Future	78
4.8	Previous Contraceptive Practice	80
4.9	Conclusion	83
CHAPTER-V	MATERNAL AND CHILD HEALTH PROGRAMME	87
5.1	Introduction	87
5.2	Prenatal care	88
5.3.1	Delivery	90
5.3.2	Birth attendants at home	90
5.4	Post-natal care	92
5.5	Advice on Family Planning	94

5.6	Child Care	95
5.7.1	Immunization	95
5.7.2	DPT	98
5.7.3	Polio	99
5.7.4	B C G	100
5.7.5	Knowledge on Immunization	100
5.8	Oral Rehydration Therapy	100
5.9	Breast Feeding and Weaning Practices	103
5.10	Care for expectant mothers	106
5.10.1	Registration with Govt./Private Dispensary for antenatal care and delivery	108
5.10.2	Visit of Health Workers	109
5.10.3	Immunizational Status	109
5.11	Conclusion	109
CHAPTER-VI	SUMMARY AND POLICY IMPLICATIONS	114

LIST OF TABLES

<u>Table No.</u>	<u>T i t l e</u>	<u>Page</u>
1.1	District-wise Acceptance Rates-1982-85	4
1.2	PHC-wise Acceptance Rates in Uttar Kannada District- 1982-85.	5
1.3(a)	Details of Sample Coverage	12
1.3(b)	Details of Sample Villages Covered	12 A
2.1	Percentage Distribution of Acceptors and non-acceptor couples by Religion and Caste	15
2.2	Percentage Distribution of Acceptor and Non-acceptor respondents and their spouses by educational level	17
2.3	Percentage Distribution of Acceptor and Non-acceptor wives and their spouses by occupation	19
2.4	Percentage Distribution of Acceptor and Non-acceptor couples by total Cultivated Land Holding	21
2.5	Percentage Distribution of Acceptor and Non-acceptor couples by Income	22
2.6	Percentage Distribution of Acceptor and Non-acceptor wives and their spouses by age at marriage	24
2.7	Percentage Distribution of Acceptor and Non-acceptor wives and their husbands by Duration of Marriage	26
2.8	Percentage Distribution of Acceptor and Non-acceptor wives and their spouses by age at survey	28
2.9	Percentage Distribution of Acceptor Wives and their spouses by Age at acceptance	30
2.10	Percentage Distribution of Acceptors by Age at acceptance and Non-acceptor wives by present Age as per survey Data and Registration Data	33

2.11	Percentage Distribution of Acceptors and Non-acceptors by difference in Age reported at survey and at the time of Registration.	34
2.12	Percentage Distribution of Acceptors and Non-acceptors by Parity	35
2.13	Percentage Distribution of Acceptors and Non-acceptors by Number of Living Children at acceptance as per survey and Registration data	37
2.14	Percentage Distribution of Acceptors by difference in Number of living children reported at survey and at time of registration	39
2.15	Indices of Dissimilarity values of survey and Registration data	40
2.16	Findings of Four Evaluation Studies-a comparison	41
3.1 A	Percentage Distribution of Tubectomy Acceptors by previous practice and reasons for Discontinuation	43 B
3.1 B	Percentage Distribution of IUD Acceptors by Previous Practice and Reasons for Discontinuation	44
3.2	Distribution of IUD/CT Acceptors by Interval between First Insertion and removal and reasons for removal	46
3.3	Percentage distribution of Acceptors by source of motivation	47
3.4	Percentage Distribution of Acceptors by Reasons for Family Planning Acceptance	50
3.5	Percentage Distribution of Acceptors by Reasons for preferring the particular method	51
3.6	Percentage Distribution of Acceptors by Nature of Post-acceptance complications and pre-adoption medical screening	53
3.7	Distribution of Acceptors by Nature of Post-acceptance precautions Advised	54

3.8	Percentage Distribution of Acceptors by Follow-up Services Received and their satisfaction towards follow-up service	57
3.9	Distribution of Acceptors by visit to the clinic after acceptance	58
3.10	Percentage Distribution of Acceptors by their general Satisfaction regarding Services offered by Family Planning Staff	60
3.11	Percentage Distribution of Acceptors by Reasons for their willingness or otherwise to motivate others	62
3.12	Findings of some Evaluation Studies	65
4.1	Percentage Distribution of Non-acceptors by knowledge of Family Planning Methods	68
4.2	Percentage Distribution of Non-acceptors by Source of Knowledge about Family Planning methods	70
4.3	Percentage Distribution of Non-acceptors by Knowledge about availability of Family Planning Services	71
4.4	Respondents' Contacts with PHC/FW Centre	74
4.5(a)	Percentage Distribution of Non-acceptors by Total Number of Living Children and reasons for non-acceptance	77
4.5(b)	Percentage Distribution of Non-acceptors by Number of Male Children Living and Reasons for non-acceptance	77 A
4.5(c)	Percentage Distribution of Non-acceptors by Number of Female Children Living and reasons for non-acceptance	77 B
4.6(a)	Percentage Distribution of Non-acceptors by willingness to adopt F.P. methods in future	79
4.6 (b)	Percentage Distribution of Non-acceptors by method and decided stage of future adoption	79
4.7	Percentage Distribution of Non-acceptors unwilling to adopt even in future by their reasons for non-acceptance of F.P.in future	81
4.8	Percentage Distribution of previous users (currently Non-adopters) by method and Duration of Practice	82
4.9	Percentage Distribution of Previous Users (currently non-adopters) by method used and reasons for discontinuation	84

5.1	Distribution of mothers by place of delivery and pre-natal care received	91
5.2	Distribution of mothers who have home delivery by type of attendance received	93
5.3	Percentage Distribution of mothers by post-natal care and F.P. advice received	96
5.4	Distribution of methods by their response to F.P. advice received	97
5.5	Distribution of children by Age and the level of immunization given	101
5.6	Distribution of mothers whose children did not get any immunization by their source of knowledge about DPT, Polio and BCG	102
5.7	Distribution of mothers by source of knowledge about Oral rehydration therapy	103
5.8 A	Percentage Distribution of mothers by knowledge about breast feeding and their actual practice	107
5.8 B	Distribution of mothers by knowledge about weaning practices and their actual practice	107
5.9	Distribution of currently pregnant women by place of registration for Ante-natal care and delivery	110
5.10	Percentage Distribution of Currently Pregnant women who registered with Govt. facility by visit of Health worker/doctor	111
5.11	Distribution of pregnant women by immunization status	111
