## RESHAPING AGRICULTURE

"Deals with the economics of farming and the changes that are taking place in the agricultural world."—*Times Literary Supplement*  
*Social Action Books. La. Cr. 8vo. 7s. 6d. net*

SOCIAL ACTION BOOKS

## THE NEW INTERNATIONALISM

by CLARK FOREMAN

"Deserves particular attention. It is the work of a well-equipped historian and economist setting forth the rapid and radical changes taking place in the conception and realization of Internationalism."  
—*New Statesman and Nation* *Cr. 8vo. 5s. net*

## CRISIS GOVERNMENT

by LINDSAY ROGERS

"An excellent introduction . . . a very deft and lucid sketch of the spread of dictatorship in Europe and also of such hybrid phenomena as the National Government and the N.R.A. administration."—*Time and Tide*  
*Cr. 8vo. 5s. net*

## GOVERNMENT IN A PLANNED DEMOCRACY

by A. N. HOLCOMBE

How political planners and "public-business men" can be made use of in government, what kinds of institutions should be developed for the representation of capital and labour as well as for the general public, and what is the advantage of such national planning is demonstrated in this book.  
*La. Cr. 8vo. 7s. 6d. net*

## CONTROLLING DEPRESSIONS

by PAUL H. DOUGLAS

The author sets out to show that a depression is an impetuous runaway process which moves in a cumulative fashion like that of a forest fire, and he indicates why recovery under our present organization need be neither automatic nor inevitable. Professor Douglas's own theories on the generation and cure of business depression are illustrated from both American and European conditions. Simply written and extremely up-to-date it should appeal both to economic students and business and professional men and women.
