P R E F A C E

This publication entitled "Selected Educational Statistics 1976-77" is the second in the new series to be brought out annually. This replaces the previous publication of this Ministry entitled 'Educational Statistics at a Glance' which included a few more items. The sixth National Conference on Educational Statistics recommended that as far as possible current statistics should be published during the same year to which they relate, at least in respect of the most essential items.

The reference date for the statistics contained in this publication is 30th September, 1976. Since we were anxious to bring out this publication quickly, the collection and compilation of the data has not been subjected to thorough scrutiny and therefore, may be treated as provisional. Population estimates based on 1971 census age distribution have been incorporated and it has involved many changes in enrolment ratios.

The Ministry of Education & Social Welfare takes this opportunity to thank the Directorates of Education of various States and Union Territories who supplied this data and without whose cooperation this publication could not be brought out.
