Regional imbalances in the field of educational development prevailing in the country have to be reduced in order to create an infrastructure for a ~~competitive society~~. For this purpose it is essential to make collection of statistics from different regions.

To highlight the regional disparities in educational developments in different regions of the country it was decided to collect the educational statistics on district-wise basis and publish quinquennially viz. once in five years. Accordingly such statistics was collected and published by NCERT for the year 1960-61. Afterwards the study was repeated for the years 1965-66 and 1970-71 by the Ministry. The current publication relates to the data for the year 1976-77.

I take this opportunity to express my thanks for the supply of the required data and other help received from the office of the Directorates of Primary & Secondary education and the Directorate of Collegiate Education, Government of Rajasthan for bringing out this publication.

2. For making inter-district comparisons, important educational indicators such as enrolment ratio, coefficient of equality for S.C. & S.T., teacher-pupil ratio, cost per student and population served by an institution etc. have been worked out at district level. These indices show range of variation among the districts and are of great use for formulating educational development plans at district level as recommended by the Education Commission.

II. AREA AND POPULATION

3. Rajasthan State consists of 26 districts. The number of districts in the State remained the same during the period 1971 to 1977. The total area of the state being 3.42 lakh Sq. Kms. also remained the same during the period under review. Among the districts the area varies from as high as 28,387 Sq. Kms. in case of Barmer to as low as 3,770 Sq. Kms. of Dungarpur.

4. The total population of the state was 257.12 lakhs (134.57 males and 122.55 females) in 1971. Among the districts the highest population was 24.77 lakhs in Jaipur and the lowest was 1.66 lakh in Jaisalmer. The population of the state is estimated to have increased to 300.22 lakhs (156.63 lakhs males and 143.58 lakhs females) in 1977. The annual growth of the population works out to be 2.79% during the period under consideration.

5. The density of population for the state as a whole was 75 per Sq. Km. in 1971 which is estimated to have increased to 87 by the year 1977. In 1977 the highest density of population was 214 in Bharatpur district followed by 211 in Udaipur and 206 in Jaipur. The most thinly populated districts are Jaisalmer (5), Bikaner (24) and Barmer (32). Statement 1 depicts the district-wise information on area, population and density of population figures for the years 1971 and 1977. Table 1 below gives a district-wise percentage share of area and percentage share of population for the year 1977.

6. The total population as well as population of different age groups of the State for the years 1971 and 1977 are based on the population estimated available from the office of the Registrar General of India whereas the District-wise population estimates for the age groups 5-11, 11-14 and 14-17 for the year 1976-77 (as on 1.3.1977) have been worked out by using the following formula:

We assume that -

$$\frac{P_{6-11}}{P} = \frac{P_{6-11}^i}{P^i} = K, \quad i = 1, 2, 3, 4$$

$$\therefore P_{6-11} = K P$$

Where K is estimated from the formula, $K = \frac{P_{6-11}}{P}$

P_{6-11} = 6-11 age group population of the State

P = Total population of the state

P_{6-11}^i = 6-11 age group population of the ith district.

P^i = Total population of the ith district.

7. For getting sex-wise break-up of the population in various age groups first the girls population is estimated by the above formula by replacing total population by the girls population. Boys population can be obtained by subtracting estimated girls population from the total estimated population.

8. Of the total, population for the age-group 6-11 was 42.57 lakhs (22.09 lakhs boys and 20.48 lakhs girls) forming 14.2% in 1976-77. Population in age group 11-14 was

increased from 18.82 lakhs in 1971 to 23.48 lakhs (12.40 lakhs boys and 11.08 lakhs girls) in 1977. Population for age group 14-17 was 15.54 lakhs (8.75 lakhs boys and 7.79 lakhs girls) in 1971 which increased to 21.01 lakhs (11.09 lakhs boys and 9.92 lakhs girls) in 1977. Among the districts this population varies from 20.24 thousand in Jaipur to 1.36 thousand in Jaisalmer.

9. Thus of the total population of 300.21 lakhs in 1977 school going population in age group 6-17 was 87.06 lakhs (45.53 lakhs boys and 41.48 lakhs girls) forming 29.0%. School going population of boys is 29.10% and for girls 28.89% in 1977. District-wise estimated population figures for different age groups are given in Statement No.2.

III LITERACY

10. In 1971 the effective literacy rate viz. total no. of literates per one hundred of population excluding 0-4 age group was 22.6 for the state as a whole. The literacy rate for males was 33.9 whereas for females it was quite low i.e. only 10.1 at State level. Among the districts the highest literacy was in case of Ajmer (35.2) followed by Bikaner (30.3) and Kota (30.2). Jalor reported the lowest literacy rate viz. 11.9 District-wise details of literacy can be seen from Statement No.3

District-wise details of enrolment of S.C. and S.T. in primary classes are given in Statement 13.

The coefficient of equality or extent of coverage is defined as:

$$I = \frac{\text{Percentage of S.C./S.T. enrolment to total enrolment}}{\text{Percentage of S.C./S.T. population to total population.}} \times 100$$

(e) EXPENDITURE

37. The expenditure on all primary schools of the state increased from Rs.12.61 crores in 1970-71 to Rs.27.10 crores in 1976-77 showing the average annual growth rate of 19.3% during the period under review. (c) ENROLMENT OF S.C. AND S.T.

47. In 1970-71 total number of S.C. and S.T. students enrolled in classes VI-VIII was 56,173 (33457 boys and 22716 girls) constituting 13.3% of the total enrolment in these classes at state level. In 1976-77 the enrolment of S.C. in classes VI-VIII was 50773 (47918 boys and 2755 girls) forming 8.6% of total enrolment. Boys and girls separately formed 10.1% and 2.4% of their total respective enrolments. Of the total enrolment S.T. students formed 4.9% (Boys - 5.9% and girls - 0.8%).

48. The extent of coverage of S.C. and S.T. students in classes VI-VIII was as high as 47.7% in 1970-71.

49. The extent of coverage works out to be 54.3% for Scheduled Castes and 40.5% in case of Scheduled Tribes. District-wise details of enrolment for Scheduled Castes and Scheduled Tribes are given in Statement 17.

(4) EXPENDITURE

50. Total expenditure on middle schools for the state as a whole was Rs.7.28 crores in 1970-71 which increased to Rs.22.89 crores after 6 years in 1976-77 showing an annual increase of 35.7% in expenditure during the period under consideration. The total expenditure incurred on these schools doubled in case of 6 districts and tripled in 20 districts during the period under consideration. Among the districts expenditure incurred on middle schools varies from the highest of Rs.16.58 lakhs in Jaisalmer to Rs.133.78 lakhs in Ujjain followed by Rs.131.97 lakhs in Gandhinagar and Rs.129.93 lakhs in Bharatpur.

51. Expenditure incurred on middle schools at per head of population was Rs.2.8 in 1970-71 which increased to Rs.7.16 in 1976-77 at state level. In 1976-77 among the

districts the expenditure per head of population varies from Rs.11.7 the highest in Bikaner to Rs.4.2 the lowest in Jaipur.

52. Total expenditure made on middle schools for the state as a whole formed 17.8% of the total educational expenditure in 1970-71. This percentage increased to 23.2% by 1976-77. In the latter year among the districts percentage expenditure for middle schools varied from the highest of 49.4% in the lowest of 9.8% in Jaipur.

53. Cost per student in middle schools was Rs.140.5 in 1970-71 for the state as a whole which increased to Rs.206.0 in 1976-77. Among the districts it varied from Rs.312.7 in Jaisalmer followed by Rs.295.2 in Barmer to Rs.112.6 in Jaipur in 1976-77. In 15 districts cost per students in middle schools works out to more than the State average.

54. For the State as a whole pupil-teacher ratio in middle schools was 23 in 1970-71 which was slightly increased to 25 in 1976-77 at state average. Among the districts it varied from 31 in Pali followed by 30 in Jhunjhunu and Sikar to 13 in Jaisalmer to 20 in Bulwara and Barmer. As may be quite clear, there exists a negative correlation between the cost per student and pupil teacher ratio in Middle schools. This implies that when cost per student increased pupil teacher ratio decreases and when cost per student decreased pupil teacher ratio increased. Statement 13 indicates the district-wise details of expenditure on middle schools, expenditure per head of population, cost per student and pupil teacher ratio. Table 5 below indicates percentage of educational expenditure to the total expenditure, expenditure per head of population and cost per student for the districts separately.
