## P R E F A C E :

This volume on District Educational Statistics for the State of Bihar is the Tenth in the series of such volumes which are being brought out for all the States and Union Territories for the quinquennial year 1981-82. The main aim is to highlight the inter-district variations in a State by giving educational data at district level with the help of some important indices such as enrolment ratio, percentage of trained teachers, teacher-pupil ratio etc.

In order to ascertain whether the educational imbalances have added or narrowed down with time, the data for the year 1981-82 has been compared with those for the year 1976-77.

I take this opportunity to express my appreciation of the co-operation received from the Department of Education, Government of Bihar, and the Project Staff of the Planning, Monitoring and Statistics Division in preparing this useful report.

Regional imbalances exist in the field of Educational Development too just as in Urbanisation, industrialism and distribution of income and wealth. With a view to highlight national variations in the educational sector, the Ministry of Human Resource Development brings out the publication "Educational Statistics-District-Wise" quinquennially.

2. A volume of this nature was first published by National Council of Educational Research and Training in 1960-61. There after it was decided that such reviews will be brought out in respect of each state every five years by the Ministry of Human Resource Development. Accordingly, the reviews for the year 1965-66 were brought out by this Ministry in respect of some states. However for the quinquennial year 1976-77 such reviews were brought out for all the states and Union Territories with legislature.

3. For making inter district comparisons possible, some important indices such as Enrolment Ratio , Percentage of trained teachers and teacher-pupil ratio etc. have been worked out. These indices show wide range of variations between the districts and are of much need for formulating educational plans at the district level.

## 11. AREA AND POPULATION

4. Total Area of State is 173877 sq. kms. as per 1981 census. It had 31 districts in 1976 but in 1981 two new districts namely Maghepura and Khagria were formed making 33 districts in the state. The district-wise area in Bihar varies from 1918 sq-kms. in case of Begusarai district to 18266 sq. kms. in case of Ranchi district. The figure shown at item No. 34 against the title Anglo-Indians under Col. 2 pertains to the Anglo Indian students spread all over the State and are not included in any district during the 1976-77 year.

5. The population of Bihar was 633.78 lakhs in 1977. For 1982, the estimated population is 714821 (367.17 lakhs males and 347.65 lakhs females). The highest population was in Santhal Paragana district (35.88 lakhs) and lowest in Gopal Ganj District (12.48 lakhs) in 1977. In 1982 also the estimated population varied widely among the 33 districts from 38.01 lakhs in Santhal Paragana district to 11.24 lakhs in Nawada district.

6. The over all density of population per sq. km. was 364 in 1977 and is estimated to have increased to 411 in 1982. The density of population per sq. km. in 1982 varied widely among districts viz. from 964 the highest in Patna to only 112 the lowest in Palamu. The area, total population and density of population for different districts for the years 1976-77 and 1981-82 are given in Appendix No. 1. The table No. 1 below gives a general view of the extent of variations in area, population and the density of population in 1982.

7. The total population of the state as well as population of different age groups for the year 1977 and 1982 given in this report are based on the revised population projections (as on 31st March of the year) available from the office of Registrar General of India. District-wise population in the age-groups 6-11, 11-14 and 14-17 are based on the following formula:-

We assume that:

$$\frac{P_{6-11}}{P} = \frac{P_i_{6-11}}{P_i} = K$$

$$P_i_{6-11} = KP^i$$

Where K = is estimated from the formula

$$K = \frac{P_{6-11}}{P}$$

- $P_{6-11}$  = denote 6-11 age group population of the State
- $P$  = Total population of the State.
- $P^i_{6-11}$  = 6-11 age group population of i th District.
- $P^i$  = Total population of the i th District.

To get the sex-wise break up of the total population in the various age-groups of the district, first of all the girls population is estimated using the above equation with the only difference that in the above formula total population is replaced by the girls population. The boys population is obtained by the residual method i.e.  
 Boys Population in the age-group 6-11 = Total Population in the age-group 6-11-Girls Population in the age group 6-11.

Similar formulae are used for estimating the district-wise population in the age-groups 11-14 and 14-17 years.

8. The total estimated population of children in the age-group 6-11 years was 100.59 lakhs in 1982 (51.67 lakhs boys and 48.92 lakhs girls) which constituted 14.1% of the total populations of the State.

9. Similarly the estimated population in the age-group 11-14 years was 53.31 lakhs in 1982 (27.63 lakhs boys and 25.68 lakhs girls) which constituted 7.5% of the total population of the state.

10. The population in the age-group 14-17 in 1982 estimated was 61.10 lakhs consisting 32.05 lakhs boys and 29.05 lakhs girls. They formed 8.5% of the total population of the state.

Thus out of the total population of 714.82 lakhs of the State, the school going population in the age-group 6-17 years was 215.00 lakhs consisting of 111.34 lakhs boys and 103.66 lakhs girls. The population in the age-group 6-17 years constituted 30.07% of the total population. The percentage for boys was 30.3% while for girls it formed 29.8%.

### III- LITERACY

12. According to the 1981 census the literacy rate for the state as a whole was 26.2%. For males and females it was reported as 38.1% and 13.6% respectively indicating a wide gap between the two sexes. The literacy rate in respect of Scheduled Castes and Scheduled Tribes comes to 10.4% and 17.0% respectively at the state level. The district-wise detail of literacy rate in general as well as that of Scheduled Caste and Scheduled Tribes is given in Appendix No. 6.

(c) Extent of coverage of Scheduled Castes and Scheduled Tribes:

16. The extent of coverage of Scheduled Castes/Scheduled Tribes of the co-efficient of equality is defined that:-

$$I = \frac{\text{Percentage of Enrolment of Scheduled Castes/Scheduled Tribes to total enrolment}}{\text{Percentage of population of Scheduled Castes/Scheduled Tribes to total population}} \times 100$$

In Bihar State in 1981-82 the percentage of Scheduled Castes and Scheduled Tribe students to total number of students was 10.8% (11.7% for boys and 8.3% for girls) and 8.3% (8.0% for boys and 8.8% for girls) respectively. (5.9 sq. kms.) and the highest in Hazaribagh District (33.7 sq. kms.) in 1981-82.

31. The population served by a Middle school in this state increased from 6081 in 1976-77 to 6146 in 1981-82. Among the districts the population served by a Middle School in 1981-82 varied from 3882 in Palamu district to 8885 in West Champaran district. The details are given in Appendix No.18. This shows an annual growth rate of 9.6% (8.6% for boys and 13.8% for girls) during the period under consideration.

33. The percentage of enrolment in Classes VI-VIII to the total population in the age-group 11-14 years i.e. enrolment ratio gives an index of the facilities at the Middle stage of education. In Bihar this percentage was 21.2% in 1976-77 which increased to 26.8% in 1981-82. Taking boys and girls together, the percentage enrolment in case of 25 districts was more than the corresponding states percentage in 1981-82. At the Middle stage this percentage indicates a wide disparity between the two sexes in all the districts. However the position of girls improved slightly during the period of 1976-77 to 1981-82. In 1981-82 the highest enrolment was in Patna for boys and girls together (43.2) and the lowest was in case of Purnea (13.4). The details may be seen in Appendix No.19.
