## *Foreword*

The Statistical Epitome presenting a comprehensive and authentic collection of educational statistics is being prepared by the Directorate of Education since 1959-60. The warm appreciation of all those who made use of it has shown that it has fulfilled a genuine need.

The previous year's practice of presenting exhaustive statistics regarding the number of institutions, enrolment in them and the expenditure incurred from Government funds, has been continued in the present volume also. In addition, the regionwise and budget-headwise break-up of expenditure has also been given, in order to facilitate comparative study.
