REPORT OF THE  
WESTERN POLICY COMMITTEE

MINNEAPOLIS, MINNESOTA

JUNE 19-20, 1942

*Postwar Problems  
and Policies*

---

THE NATIONAL POLICY COMMITTEE  
. WASHINGTON, D. C. \* 1942

## POLICY COMMITTEE OBJECTIVES

To encourage the formation of affiliated groups of responsible citizens whose common desire and purpose are to work toward the development of governmental policies by democratic means on the basis of the general interest rather than special interests.

To supply such groups with concise summaries of the research and opinion of recognized experts and agencies on issues of regional, national and international importance.

To stimulate in these groups discussion of questions on which public policy is in the making.

To facilitate the exchange of thought and experience between groups in different parts of the country.

To encourage the active participation of group members in the democratic process of forming governmental policy in order that such policy may be evolved out of the organic life of the nation itself rather than be determined by pressure groups or governmental agencies.
