with
Ryders'
RELIABLE
FRUIT TREES

Fruit growing—like vegetable growing—will be vitally important during the years of re-construction. By growing your own fruit you will not only be helping yourself, but helping your country too.

Ryders' Fruiting Stock—like Ryders' Seeds—is backed by a 70-year-old reputation for quality, value and cropping power.

Full details in General Catalogue on request.

RYDERS & SONS (1920) LTD., ST. ALBANS, HERTS.
