FEDERATION'S ANSWERS TO THE QUESTIONNAIRE ISSUED BY THE CENTRAL PAY COMMISSION

PUBLISHED BY

I. P. T. UNION

MADRAS PROVINCIAL BRANCH

December 1946.

FOREWORD.

It is with some satisfaction that these few pages containing the Federation's answers to the Questionnaire issued by the Central Pay Commission is placed in the hands of General membership. The cases of the P. and T. Staff will come before the Commission during the first week of December when some witnesses are likely to give oral evidence. The Federation's answers are not the final say in the matter regarding every detail. The Federation's aim is to find a satisfactory solution based upon rationalisation, simplification to the very many problems connected with wages, pensionary systems, improvement of working conditions like leave, etc. and to suggest suitable methods of rectifying maladjustments in the relation between the employees and the employer and his agents—the superior officers. The whole scheme is based upon an objective analysis of basic human needs—social security.

It is hoped that witnesses will bear in mind the general line of approach made by the Federation.

Much as the Union would like to distribute this pamphlet gratis to the members, the financial position does not warrant the same. Hence each copy is priced at As. 10 post free.
