EURAL
ELECTRIC HORN OPERATOR

Price - - 30/-
Morris Model 21-

A CUSTOMER WRITES:

"It is a great joy to the motorist for it is so very easy to attach, and so very efficient, besides adding greatly to the appearance of the steering wheel owing to its excellent finish. I shall influence all my friends to purchase a Eural Operator."

AC SPARKING PLUGS

When you buy sparking plugs, insist on AC Sparking Plugs and you will be sure of good performance.

Because AC are better plugs, over 100 British motor manufacturers have selected them as standard equipment.

In addition, 80% of all American cars, excluding Ford, are factory equipped with AC Plugs.

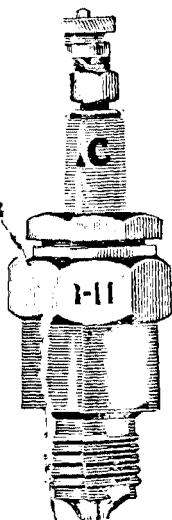

Stocked by all good garages.

*There is an AC Plug
for every engine.*

MOTORING FOR THE OWNER-DRIVER

By EDWARD T. BROWN

WITH 29
PRACTICAL
DIAGRAMS

CASSELL AND COMPANY, LTD
London, New York, Toronto and Melbourne

EDITOR'S PREFACE

THIS is the day of the owner-driver. Nine out of every ten motorists drive their own cars and would like to do the many little repairs and adjustments that are necessary if the car is to run efficiently and enjoy a happy and a long life

"Motoring for the Owner-driver" is the work of one who is a long-experienced motorist and also a well-known writer and journalist. He has the knowledge, and furthermore knows how to express it. His book is intended to help the motorist to understand the working principles of his car, and to maintain not only the engine and running mechanism but the whole of his car in thoroughly good condition. This Handbook should prove invaluable to all motorists, whether they are beginners or experienced drivers. It is written in simple language, as far as possible without technical terms, and a glance at the list of contents will show what a wide scope the chapters cover.

Readers in need of further information on any point touched on in this book should address a question to "The Amateur Mechanic and Work," in whose columns, but not by post, the question will be gladly answered.

THE EDITOR,
"The Amateur Mechanic and Work."

La Belle Sauvage,
London, E.C.4.

CONTENTS

CHAPTER	PAGE
1. THE INTERNAL COMBUSTION ENGINE	1
2. THE ENGINE	10
3. THE EXPLOSIVE MIXTURE	24
4. HOW THE SPARK IS GENERATED	34
5. COOLING THE ENGINE	44
6. LUBRICATING SYSTEMS	53
7. THE TRANSMISSION	61
8. BRAKES, STEERING AND SPRINGING	74

Owner - Drivers

are people whom we like to please—they are usually keen to secure Efficiency at a reasonable cost, and they study every item in the equipment of their Car.

Thus we urge you to consider *now* the importance of your Batteries; upon which rests the efficiency of your starting, lighting and ignition.

The best dealers will tell you that for honest service, reliability and all round efficiency you cannot do better than install Peto & Radford "BULLDOG" Batteries in their containers of "*Dagenite*," our special composition which is practically unbreakable and will not crack, or rot, or leak. Write for new lists and full particulars.
