APPENDIX IX

CONCESSIONS GRANTED UNDER THE COLONISATION SCHEMES FOR HILLUR, RAMBURI AND ARAWATI.

(Paragraph 43)

(A)

Concessions granted under the Colonisation Scheme for Hillur, Taluka Ankola and Ramapur, Taluka Mundgod, District Kanara, for bringing waste lands under cultivation (Government Resolution, Agricultural and Rural Development Department, No. 2026 dated the 3rd March 1948).

To enable the waste lands in the villages of Hillur and Ramapur to be brought under cultivation it was necessary to establish new settlements in these villages which were completely deserted and where the lands had remained fallow for many years and were overgrown with trees and shrubs of little marketable value. The plan of work comprised of clearance of the Gaotian area and the cultivable area, repairs to the tanks, establishment of communications, settlement of the colonists in a systematically laid out village site, provision of drinking water and the provision of necessary capital to the colonists to start work.

The following non-recurring and non-returnable expenditure was sanctioned by Government at Hillur:—

| | Rs. |
|---|--------|
| 1. Clearance.—Clearance of bushes over 220 acres at Rs. 20 acre on an average | 4,400 |
| 2. Drinking water.—Five wells at Rs. 800 each for different groups of families (rising hills, come in the way of command from central place). Water is close to ground level. The 30 settlers will build their houses in 5 different sites so that they could be near their fields for driving away wild animals. | 4,000 |
| 3. Roads | 1,000 |
| 4. Permanent bandharas (Subject to estimates) | 3,000 |
| 5. One reservoir dam (Subject to estimates) | 3,000 |
| 6. House and office building of Agricultural Assistant | 1,500 |
| Total | 16,900 |

The following non-recurring and non-returnable expenditure was sanctioned by Government at Ramapur:—

| | Rs. |
|---|--------|
| (1) Preliminaries.—(Service to be rendered by Government). | |
| (i) Clearance of Gaotian area and lay out—The area is overgrown with trees and shrubs of little value. Before taking up construction of houses, this area has to be cleared and the site laid out on modern lines with village roads. Cost of this is estimated as: | 1,500 |
| (ii) Clearance of cultivable area—280 acres at Rs. 50 per acre, and laying fields, water channels. | 13,000 |
| (iii) Communications—There is a rough cart track to about two miles. A road 10 feet wide is estimated to cost. | 2,000 |
| (iv) Well for drinking water | 3,000 |
| (v) Repairs to irrigation tanks (subject to correct estimates by the Public Works Department) | 4,000 |
| (vi) Residential quarters and an office building, for an Agricultural Assistant | 1,500 |
| (vii) Unforeseen | 500 |
| Total | 25,500 |

In addition loans were given to the colonists free of interest recoverable from the third year in 20 equal instalments or from surplus production of not less than 1/8th, whichever is more. The loans were given at the following rates:—

| | Rs. | |
|---|-----|-----------------------------|
| Construction of huts | 500 | per hut (plus free timber). |
| Cattle shed | 100 | per shed bullocks. |
| Bullocks | 500 | per pair. |
| Farm implements and equipments | 100 | per family. |
| Seeds, manure and extra labour | 50 | per acre. |
| Supply of one milch animal per family | 300 | |

Loans were also given for guns and ammunition for protection of crops from wild beasts and in Hillur for maintenance until crop time at Rs. 120 per family for a period of 6 months.

Under these Schemes loans could be advanced also to settlers who had no lands to offer as security or anybody to stand as surety. The constructions erected and the bullocks and the equipments purchased out of the loan would, however, remain a property of Government till the loan is repaid. Settlers were to execute the necessary bond agreeing to this condition before the loans were advanced.

Assessment is to be levied on the loans from the first year of the grant. Occupancy price equal to three times the assessment is to be recovered, but the recovery of occupancy price is deferred for the first 5 years and is to be effected in the sixth year.

The Schemes are under the control of the Director of Agriculture and are administered by a Committee consisting of (1) the Mamlatdar, (2) the District Agricultural Officer and (3) representative of the District Rural Development Board.

(B)

Concessions granted under the Sarvodaya Scheme at Arawatgi, District Dharwar.
Initially the following expenditure was sanctioned:—

| I. Arawatgi Group. | Non-Recurring, Recurring. | |
|--|---------------------------|-------|
| | Rs. | Rs. |
| (i) Grants to Housing Co-operative Societies | 2,500 | |
| (ii) Recreation Centre | | 600 |
| (iii) Subsidy for purchase of bullocks | 5,000 | |
| (iv) Society for Carpentry and smithy | 6,000 | |
| (v) Poultry Industry | 300 | |
| (vi) Medical aid boxes medicines | | 250 |
| (vii) Approach road to 3 villages | 2,000 | |
| (viii) Propaganda keertan, etc. | | 1,000 |
| (ix) Appointment of Rural Assistant | 250 | 2,000 |
| II. Alauwar Centre. | | |
| Horn-making Industry | 2,000 | 4,770 |
| III. Survey work | | |
| | 2,000 | |

Subsequently Rs. 5,000 were sanctioned for loans for the purchase of cows and buffaloes. These loans are free of interest and recoverable in four annual instalments, the first instalment being repayable in the year following the year of disbursement of the loans. Subsequently a further grant of Rs. 4,800 towards charges for tractor ploughing of fallow lands and a subsidy of Rs. 3,500 for the construction of a well in the colony were sanctioned. The loan was free of interest and repayable after two years.
