BY THE SAME AUTHOR.

THE GREEK COMMONWEALTH.

Oxford, Clarendon Press. 8s. 6d. net. Second Edition, 1915.

Journal of Hellenic Studies.—"It would be hard to over-estimate the interest and value of the work as a whole. . . . He makes Greek history something not merely to remember but to understand."

Times Literary Supplement.—"Mr. Zimmern is a trained economist, but he is no partisan of the 'economic interpretation of history' in the extreme form which that doctrine has sometimes assumed. Nature has imparted to him a stronger dose of imagination than it is her wont to bestow upon the economist; he has trodden the shores of Hellas (in the widest sense of that word) with open eyes, and the present volume is in no small degree the fruit of his 'Wanderjahre.'"

Morning Post.—"What a rare thing is a contribution to knowledge that is at the same time a work of art, a book which in the effort to set forth true ideas by way of explanation of ascertained facts, conveys to the reader something of the emotion which has been felt by the author! These qualities are united in 'The Greek Commonwealth.'"

Nation.—"A feast it certainly is, unlike, both in spirit and in the abundance of its material, anything in English on or near the subject. It is this brilliant light shed on details which will make the book as popular as it undoubtedly will be."

Daily News.—"Mr. Zimmern's book in its own field has no rival in the English language."

New York Nation.—"A second edition of a solid book on Ancient Greece is a notable event nowadays. . . . Mr. Zimmern's scholarship is sound and broad. His forte, however, is that much rarer thing—interpretation. He arrests our attention and stimulates our thought in every turn."

Prof. ULRICH VON WILAMOWITZ-MOELLENDORFF in the *Deutsche Literaturzeitung.*—"Since the author is familiar not only with the British but also with the Belgian, French, and German authorities, and not only the general works but the specialist monographs, which always provide the most recent material, . . . he is well qualified to speak on the subject as a whole. . . . That the book will be read is my earnest hope; but it ought not to be translated: it is too good—at once too individual and too English."

BY A. E. ZIMMERN AND OTHERS.

THE WAR AND DEMOCRACY.

By R. W. SETON-WATSON, J. DOVER WILSON, A. E. ZIMMERN and ARTHUR GREENWOOD. 390 pp. Macmillan. 3s. net. 28th Thousand.

The New Statesman.—"The ablest and fullest statement that has yet been published of the problem of national and international politics raised by the war."

The Oxford Magazine.—"It will better repay the reader than any other book on the war published in this country."

The Nation.—"A remarkably vivid and interesting book which throws a great deal of light on the nature and history of the problems we have to solve. . . . Mr. Zimmern's profound analysis of German character and of the moral significance of the issues on which men's minds will have to be made up. . . ."

The Daily News.—"It is an extraordinary pleasure to come from the atmosphere of little hates and spites and special pleading, into the clear cool air of such a book as this."

The New York Nation.—"This is in many ways one of the most interesting books produced by Englishmen during the present war."

PROGRESS AND HISTORY.

Edited by F. S. MARVIN. Clarendon Press, 1917. Second Impression, 3s. 6d. net.

Glasgow Herald.—"This is an important book, going down to the foundations of society and raising problems that have been thrown into high relief by the international crisis."
