	C-16 Memorandum on the scope and need for research in the Indigenous systems of Medicine with special reference to indigenous drugs by Dr. B. MUKERJI M.B. (CAL) D SC. (MICH.), M D. (MUNIC), M P.S. (LOND) F N I, etc, Director, Central Drugs Laboratory, and Pharmacognosis Laboratory, Government of India, Calcutta	536—550

THE SCIENCE AND ART OF INDIAN MEDICINE

CONTENTS

	PAGE
PRELIMINARY (Page 298 to 300)	
The Thesis	299
SCIENTIFIC METHODOLOGY (Pages 300 to 322)	
The Ayurveda, the Siddha and the Unani—Their Mutual Relationship	300
The Essentials of Western Scientific Method	301
Comparison with the Hindu Scientific Method	303
The Limitations of all Scientific Methods	307
Tests of a Valid Hypothesis according to Western and Hindu Scientists	309
Methods of Ayurveda strictly Scientific	310
The Authority of Scriptures	311
" Ayurveda * Mixes up * Science, Philosophy and Religion "	315
Scientific Validity of the Hypothesis of Darshanas	319
PRELIMINARY SCIENTIFIC STUDY IN AYURVEDA (Pages 322 to 340)	
The Need to Learn the exact Meaning of Technical Terms	322
The Panchabhuta Theory	323
A Queer Demand	325
Theories of Matter according to Modern, Western and Ancient Indian Sciences compared	328
The Genesis of Atoms—The Vedantic View	331
" The Samkhya View	332
" Comparison with the Modern Western View	333
Presentation of Ancient Wisdom in the Language of Modern Science	337
A Note of Warning	339
PHYSIOLOGY AND ANATOMY (Pages 340 to 354c)	
The Thridhatu Siddhanta	340
Functions of the Three Dhatus	340
The Gunas	342
Nature of Thridhatu	346
Prakriti (Temperament)	350
Metabolism and the Seven Dhatus	352
Prana and Marma	354
Ayurvedic Anatomy	354a

	PAGE
ETIOLOGY AND PATHOLOGY (Pages 354c to 354k)	
Etiology	354c
Ayurvedic Etiology	354d
Allopathic Etiology	354f
Comparison of Ayurvedic and Allopathic Etiology	354g
Nija and Aganthu Causes and Diseases	354g
Ayurvedic Pathology	354h
The Germ Theory of Disease—The Seed and the Soil	354h
PHARMACOLOGY (Pages 354k to 354n)	
Importance of Study	354k
Dravya-Rasa-Veerya Vipaka-Prabhava Pharmacology	354l
DIAGNOSIS AND TREATMENT (Pages 354n to 361)	
“Examination by the Senses and Interrogation”	354n
Ashtasthana Pareeksha—The Eight Special Examinations	355
Nidana Panchakam—Five-fold investigation of Disease	356
Categories of Treatment	358
The General Principles of Treatment—Treatment to be based on Accurate Diagnosis and Prognosis	360
Samsodhana and Samshamana Treatment	360
Panchakarma or five Methods of Samsodhana Treatment	360
AYURVEDA AS AN ART (Pages 361 to 379)	
The Past and the Present	361
Nutrition, Sick Dieting and Domestic Medicine	363
Health-Education and Health Culture	365
Is Ayurveda Self-sufficient at Present?	369
The Short-Range, Objective—Transition to the Synthesis of Indian and Western Medicine	370
The Long-Range or Ultimate Objective—The Synthesis of Indian and Western Medicine into a Unified and Integrated Whole	371
Compilation of New Text-Books of Unified and Integrated Medicine	371
The Universal Brotherhood of Healers	377
Organisation of Medical Research	378
Prohibition of Private Practice	378a
Clinical Research	378b
Pharmacological Research	378c
Research in Iatro Chemistry	378c
The Physician of the Future	378d
