

# The First Indian Conference,

DECEMBER, 1918.

---

We the undersigned who met while attending the Student Movement Conference at Hayes, Swanwick, Derbyshire, wish to bring the following to your notice:—

On the very first day of the Conference it occurred to almost all of us simultaneously that an Indian Conference if it could be arranged would be a very great advantage. This idea brought us together to discuss the advisability and the possibility of such a Conference. It was found that the necessity and advantages of such a Conference had been discussed and were known by every Indian Union in this Country; but up to now men from the various centres had not met together to bring into being what was individually desired by all. This then was an ideal and fitting opportunity to enable the accomplishment of the idea. It was decided therefore to hold the proposed Conference and that its purpose will be Social intercourse. The principle being agreed on, a provisional Committee was appointed to draw up the likely programme, this was discussed at length and is given elsewhere. The delegation to this first Conference is open to all Indians, men and women.

The provisional Committee is as follows:

P. B. ADVANI ( <i>Hon. Sec.</i> ), 2 Chatham Grove, Withington Manchester.	} <i>Conference Sub-Committee.</i>
Dr. R. P. RATNAKER, Manchester.	
C. K. DAS, Liverpool.	
R. M. JOSHI, School of Economics, London	
G M, JADHAVA, King's College, London.	
SHANKAR SARAN, Oxford.	
F. A. COOPER, Cambridge.	
N. N. BOSE, Glasgow.	
K. VULLAKKI, Edinburgh.	
Dr. D. S. R. RAW, London,	
Mr. RAI, Sheffield.	

The Conference will be held at the Highfield Hotel, Ben Rhydding, near Ilkley (Yorkshire), during the week beginning **24th December, 1918.**

The whole hotel will be reserved for us. This hotel has been usually used by the Co-operative Holiday Association as their holiday house but this year we have been able to secure it for our use. **The charge will be two guineas and a half for the week inclusive, out of which 15/- will be paid at the time of registering.** The house is well situated on Rombald's Moor 850 feet above sea level in an interesting and beautiful country, in extensive grounds of its own. Historic places like the Bolton Abbey, etc., being within easy reach for occasional excursions. Apart
