

# Government of his Highness the Maharaja of Mysore.

GENERAL AND REVENUE DEPARTMENTS.

G. O. No. I C. 71-125—Stcs. 33-24-10, dated 4th July 1925.

## Season and Crop Report.

Reviews the — of the Mysore State for 1923-24.

### READ—

Correspondence ending with letter No. C. Per A. 104, dated 28th May 1925, from the Revenue Commissioner in Mysore forwarding the Season and Crop Report of the State for 1923-24 together with his review thereon.

2. Letter No. R.O.C. 1697—H. C., dated 6th May 1925, from the Director of Agriculture in Mysore, communicating the remarks on the Season and Crop Report for 1923-24.

ORDER NO. I. C. 71-125—STCS. 33-24-10, DATED 4TH JULY 1925.

Recorded with the observation that the delay of over three months in the submission of the report should have been avoided.

2. The average rainfall for the State for the year 1923-24 was 40.74 inches, as against 34.05 inches during 1922-23. The increase was unevenly distributed among the several Districts with the result that the averages for the Bangalore, Kolar, Tumkur, Mysore and Chitaldrug Districts for 1923-24 were considerably below the corresponding figures for 1922-23 while the averages for Hassan, Shimoga and Kadur Districts were higher. There were heavy floods in the Cauvery, Tungabhadra and their affluents, while the eastern Districts, notably Tumkur and Kolar suffered from drought. There was a great shortage of fodder and drinking water and an elaborate campaign of relief had to be organised.

*Area of the State.*—The area of the State according to professional survey is 189,41,873 acres. Of this, 13,22,536 acres consist of alienated tracts such as jahgirs, jodi villages, etc. The balance, *viz.*, 176,19,337 acres is the net area of the State as against 175,37,531 acres during 1922-23, the variation in the figures being due to resurvey in some of the Districts.

*Classification of area.*—Out of a total extent of 176,19,337 acres, 18,30,442 acres were covered by Forests and 71,44,770 acres were not available for cultivation being barren and uncultivable or covered by buildings, water and roads or appropriated for uses other than agriculture. Excluding this area as also the extent of cultivable waste *viz.*, 6,90,237 acres, an extent of 79,53,888 acres was in occupancy as against 79,10,305 acres during 1922-23. The extent of fallow land increased from 17,86,307 acres to 20,44,645 acres during the year under review owing mainly to the adverse seasonal conditions, specially in the Eastern Districts.

*Specification of crops.*—The total cropped area decreased from 64,61,009 acres in 1922-23 to 61,44,810 acres during the year under report. The decrease is mainly owing to the fall in the extent of cultivation under many important crops such as rice, wheat, cholam, ragi, horsegram and pulses. There was however a small increase in the area under cultivation under ground-nut and cotton.

*Exports and Imports (by rail) of the chief agricultural products.*—During the year under review, raw cotton, cocoanut, coffee, jawar and bajra, castor, cotton seeds, sugar and jaggery were exported in large quantities. There was a considerable fall in the export of tanning barks, fresh fruits and vegetables, copra, grains, and pulses, paddy, ragi, wheat, wheat flour, ground-nuts and gingelly.

No. I. C. 71-125—STCS. 33-24-10, DATED 4TH JULY 1925.

Among the articles imported the most important are raw cotton, tanning barks, grain and pulses, bajra, paddy, rice (not in husk), ragi, wheat, wheat flour, coriander, tobacco, refined sugar and molasses.

The subjoined statement shows the wholesale prices of important staple food grains in the State:—

Description	Price per palla ranged from (1923-24)		Price per palla ranged from (1922-23)	
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Rice 1st sort	22 10 0	to 29 4 0	20 12 0	to 31 0 0
„ 2nd sort	19 8 0	to 23 2 0	18 2 0	to 22 10 0
Ragi	10 7 0	to 13 1 0	9 2 0	to 12 0 0
Cholum	11 0 0	to 13 8 0	9 8 0	to 12 0 0
Bengal gram	15 4 0	to 20 0 0	18 14 0	to 22 10 0
Salt	10 4 0	to 12 8 0	8 0 0	to 9 14 0

It will be seen from the above statement that there was a slight increase in prices of the principal food stuffs as compared with those of last year.

PRESS TABLE

Exd.—P. S.R. N.

## THE MYSORE SEASON AND CROP REPORT FOR 1923-24.

### PART I.—AGRICULTURAL STATISTICS.

*Table I.*—The area of the State according to professional survey is 189,41,873 acres. Of this, 13,22,536 acres consist of alienated tracts such as jaghirs, jodi villages etc., for which no statistics are available at present. The balance, *viz.*, 176,19,337 acres is the net area of the State as against 175,37,531 acres during 1922-23, the variation being due to resurvey in some of the Districts.

*Table II.*—*Classification of area.*—Out of a total extent of 176,19,337 acres 18,30,442 acres were covered by Forests and 71,44,770 acres were not available for cultivation being barren and uncultivable or covered by buildings, water and roads or appropriated for uses other than Agriculture. Excluding this area and also the extent of cultivable waste, *viz.*, 6,90,237 acres, an extent of 79,53,888 acres was in occupancy as against 79,10,305 during 1922-23. The extent of fallow land increased from 17,86,307 acres to 20,44,645 acres during the year under review owing to mainly to the adverse seasonal conditions, specially in the Eastern Districts.

*Table III.*—*Irrigated Area.*—An extent of 11,99,138 acres was irrigated during the year, while the total area of crops irrigated aggregated to 11,96,906 acres only.

*Table IV.*—*Specification of Crops.*—The total cropped area decreased from 64,61,009 acres in 1922-23 to 61,44,810 acres during the year under report. The fall in cropped area is due to corresponding fall in the extent of cultivation under many important crops such as rice, wheat, cholam, ragi, horsegram and pulses; while the increase under groundnut and cotton is appreciable.

*Table V.*—The figures relating to the Census of Agricultural stock held in January 1921 have been adopted for this table.

*Table VI.*—This table indicates the burden of land revenue on the land assessed to it, as also on the community at large. The incidence of Land Revenue per head of population was Rs. 2-0-5 as against Rs. 2-0-4 during the previous year.

*Tables VII (a) and VII (b).*—The figures furnished in these tables indicate the number of holdings classified according to the amount of Land Revenue paid by them.

*Table VIII.*—The table shows by Districts the transfer of land effected by Civil and Revenue Court Sales as well as by the acts of parties, *viz.*, contract, gift, and mortgage transactions.

K. CHANDY,  
*Revenue Commissioner.*

PART I.

Note 1.—Table IV.—This table is based entirely on the Pahani Account (Village Account Form No. 3), and shows the gross cultivated area under each crop irrespective of irrigation and double cropping, the area under the latter being included in the statement but subtracted in column 43. The area dealt with is that shown in column 6 of Table II. In cases where two or more crops are grown together, an estimate is made by the Shanbhag of the area covered by each, and the areas so estimated are separately returned. The areas comprised in this return are the areas actually sown, whether the crop comes to maturity or not. Where fields, owing to the failure of the first sowings, have been devoted to the other crops, the area sown by the first sowing is omitted.

2.—Column 13—Other food grains and pulses.—This includes *same, harka, navane, tadagane or alasande*, green and black grams, etc.

PROVINCIAL.

Table VI—This table indicates the relation between area, population and land revenue, or in other words, the mean burden of the State assessment on the land assessed to it and on the community at large. The tenure to which this table relates is entirely raiyatwari.

Note (a)—Column 3 (a) represents the area of alienated villages, plus the area of unoccupied assessed waste land in Sirkar villages (6 to 8 of Table II). The area of minor inams is not, however, included in this column, as a proportionate deduction cannot be made in the corresponding population.

(b)—Column 3 (b) represents the area withdrawn from cultivation and exhibits the total of the area shown in columns 3 and 4 of Table II.

(c)—Column 4 (a) exhibits the area of occupied lands (Sirkar and minor inam) in Government villages and is equivalent to the sum total of the figures in column 10 and column 11 of Table (current fallows and net area cropped during the year).

(d)—Column 4 (b) exhibits the area actually cultivated.

(e)—Column 5 exhibits the total realizable Land Revenue including Miscellaneous Land Revenue of the whole district for the year after excluding arrears for past years. The figures entered here represent the fixed demand under these heads plus miscellaneous land revenue and minus remissions under defined rules, and minus also irrigation cess merged in the assessment as shown in the list appended to Government Proceedings No. R. R. 212, dated 30th July 1894.

(f)—Columns 6 and 11.—The population according to the most recent decennial census is entered in column 6 subject to such alterations as are necessitated by any change in the constitution of the districts, and the figures in column 11 are subject to such alterations as may be necessitated by alteration in the area of "fully assessed land" by the resumption of alienated villages or other causes.

PROVINCIAL.

Revenue-free								

Note.—This table shows the number of voluntary and compulsory transfers of ownerships of lands and the area so transferred. By "voluntary transfers" are meant transfers made by actual contract or gift. Transfers by inheritance are not taken into account, nor non-permanent transfers except mortgages. Only permanent transfers (for instance by sale or gift) are included when the parties concerned apply for and obtain transfer of "Revenue Registry." Under the heading "By order of Court" are included:—

- (1) Changes of registry under decrees of Civil and Revenue Courts whether the decrees were passed on disputes regarding title or by reason of debts incurred by the judgment-debtors and
- (2) (a) All cases in which lands are sold for arrears of Revenue due to Government and purchased by private parties.  
(b) Cases in which lands are sold for arrears of Revenue due to Government or bought by Government are excluded from this table.

The information contained in the Table is based upon that furnished for each village in Village Account Form No. 6 Statement of Increase and Decrease) upon the statements furnished by Civil Courts and by the Registration Department.

## PART II.

## AREA AND YIELD.

*Paddy.*—Except in the Hassan District where there was a slight increase in the area under the crop, there was a general fall in the extent of cultivation of paddy in the other Districts resulting in a net decrease of 59,874 acres, as compared with the previous year, for the State. The area under the crop in the Tumkur District during the year was little more than half the area of the previous year and the area in the Kolar District was a little less than half the area of the previous year. The outturn of Paddy Crop in Tumkur District was 2.3 annas while the outturn in the Kolar District was 4.6 annas. The yield in the Districts of Bangalore, Tumkur and Kolar was less than 5 annas, while the yield in the other Districts varied from 8.2 annas to 10.2 annas. In the following Taluks, *viz.*, Bangalore, Chikballapur, Yedatore, Nanjangud, Seringapatam, Malvalli, Hassan, Belur, Arsikere, Channarayapatna, Holenarsipur, Arkalgud, Kumsi, (Sub) Shikarpur, Nagar, Trippahalli, Narasimharajapura (Sub), Kadur, Mudgere, and Hiriyur the yield was more than 8 annas. Only in the Narasimharajapura Sub Taluk, a 16 annas crop was harvested. The unfavourable seasonal conditions of 1923-24 are well reflected in the area and yield of this staple food crop.

*Ragi.*—Except for a slight increase in the area under this crop in the Districts of Kolar, Hassan, Kadur and Chitaldrug, there was a general fall in the other Districts resulting in a net decrease of 63,731 acres during the year as compared with the previous year. In none of the eight Districts was there an average yield exceeding 8 annas. In the taluks of Bangalore, Chikballapur, Krishnarajapete, Hassan, Belur, Narasimharajapur (Sub) Mudgere, Chikmagalur, the yield was more than 8 annas. Only in three taluks, *viz.*, Belur, Mudgere, Narasimharajapura (sub) a 16 annas crop was harvested.

*Horsegram.*—There was a general decrease in the area under this crop in all the districts resulting in a net decrease of 1,03,745 acres for the State as compared with the previous year. In none of the Districts, the average yield was more than 6 annas. In Chikballapur, the yield was 16 annas, in Krishnarajapete 12.0 annas and in Nanjangud 9.4 annas.

*Cholum.*—There was a slight increase in the area under this crop, in the Districts of Kolar and Shimoga, but the acreage of this crop in the State fell from 6,92,091 during 1922-23, to 5,91,758 acres during 1923-24. The average outturn for the State also fell from 8.4 annas to 6.1 annas.

*Sugar-cane.*—Except for a slight increase in the Districts of Kolar and Kadur in the area under this crop, there was a general decrease as compared with the previous year in all the other Districts. The acreage for the State under sugar-cane fell from 38,399 acres in 1922-23 to 34,860 acres during the year under report. The average outturn of this crop for the State also fell from 10.4 annas to 8.4 annas.

K. CHANDY,  
Revenue Commissioner.

## PART II.

STATEMENT SHOWING THE ESTIMATED OUTTURN OF CERTAIN SELECTED CROPS DURING THE YEARS 1922-23 AND 1923-24 IN TALUKS AND DISTRICTS OF THE MYSORE STATE.

PART III (a)—EXPORTS AND IMPORTS (BY RAIL) OF THE  
CHIEF AGRICULTURAL PRODUCTS.

During the year under report, raw cotton, cocoanut, coffee, jawar and bajra, castor, cotton seeds, sugar and jaggery were exported in large quantities. There was a considerable fall in the export of tanning barks, fresh fruits and vegetables, copro, grains and pulses paddy ragi, wheat wheat flour, groundnuts and gingelly.

Among the articles imported, the most important are raw cotton, tanning barks, grain and pulses, bajra, paddy rice (not in husk), ragi, wheat, wheat flour, coriander, tobacco, refined sugar and molasses.

C. S. BALASUNDARAM IYER,  
*Revenue Commissioner.*

NOTE.—The statistics of export and import given above have been compiled from the information obtained from the Director of Industries and Commerce in Mysore. These relate to exports and imports of the chief kinds of Agricultural Produce (by rail) from and into the Mysore State during 1922-23 and 1923-24 and are based on the figures furnished quarterly by the Madras and Southern Mahratta Railway Company to the Director of Industries and Commerce.

## PART III (b)—WHOLESALE PRICES.

*Rice, First sort.*—There was a general rise in the average price, of rice, First sort, in all the Districts, except in Kolar, Tumkur and Shimoga. In the Kolar District, it fell from Rs. 28-8-0 during 1922-23 to Rs. 28-0-0 during 1923-24; In the Tumkur District, it remained stationary at Rs. 27-4-0 and in the Shimoga District, it fell from Rs. 31-0-0 to Rs. 24-4-0. The price per palla ranged from Rs. 22-10-0 to Rs. 29-4-0.

*Rice Second sort.*—Except in the Districts of Kolar and Shimoga where the price per palla of this article fell from Rs. 22-10-0 to Rs. 22-8-0 and from Rs. 21-8-0 to Rs. 19-8-0 respectively, there was a general rise in all the other Districts. The average price per palla ranged from Rs. 19-8-0 to Rs. 23-2-0.

*Ragi.*—Except in the Mysore District where the price per palla fell from Rs. 12-0-0 to Rs. 11-12-0, it rose in all the other Districts during the year under report. The average price per palla ranged from Rs. 10-7-0 to Rs. 13-1-0.

*Cholum.*—There was a slight increase in the price of this article in the Districts of Bangalore, Mysore, Shimoga and Chitaldrug, while it remained steady at Rs. 11 in the Kadur District. The average price per palla ranged from Rs. 11-0-0 to Rs. 13-8-0.

*Bengal Gram.*—A general fall in the price of this article is noticeable in all the Districts. The price per palla varied from Rs. 15-4-0 to Rs. 20 per palla.

*Salt.*—The price of salt per per palla rose steadily in all the Districts. The average price per palla varied from Rs. 10-4-0 to Rs. 12-8-0.

## PART IV—RAINFALL.

The average rainfall for the State for the year 1923-24 was 40·74 inches, as against 34·05 inches during 1922-23. The increase was most unevenly distributed among the several Districts with the result that the averages for the Bangalore Kolar, Tumkur, Mysore and Chitaldrug Districts for 1923-24 fell considerably below the corresponding figures for 1922-23 and those for Hassan, Shimoga and Kadur mounted considerably high. There were abnormal floods in the Cauvery, Tungabhadra and their affluents, while the eastern Districts, notably Tumkur and Kolar suffered from drought.

C. S. BALASUNDARAM IYER,  
*Revenue Commissioner.*

BANGALORE. Table showing the Monthly and Annual Rainfall at Rainfall Recording Stations in the State of Mysore for the years 1922-23 and 1923-24. PART IV.
