INTRODUCTION.

"Give to my brave
Employers of the East India Company
The last remembrance of my faithful service".

Dryden, The Tragedy of Amboyna.—

In this Volume are reprinted the Diary and Consultation Book of the President and Council of Fort St. George for the year 1703. It was the fifth year of the Governorship of Thomas Pitt, known both then and afterwards as the Great President, and celebrated through his descendants. He had just beaten off Daud Khan, Nawab of the Carnatic, and in spite of his blockade of Madras had managed during it to send home in the care of his son Robert the famous Pitt diamond. In the Consultation for 13th May the late troubles are delicately alluded to as "the time of the hurry when Dowed Cawn was here."

The principal historical events of the year are the Warr and the Union. The former was the War of the Spanish Succession so well sketched by Macaulay in his essay reviewing Lord Mahon's history of that great struggle; and the Union was the amalgamation of the two rival East India Companies, the Old and the New. On the 28th of June news was received of Sir George Rooke's capture of the Spanish galleons at Vigo Bay and the event was duly celebrated on the 30th by a treat at the Garden where the Queen's and the Right Honourable Company's health were drunk with Great Guns and other tokens of rejoicing. The last event to be so commemorated had been the death of King William and the accession of Queen Anne on the 17th of September 1702 when 101 cannon were discharged with many "hussaws" and all Europeans of "fashing" were invited to the Company's Bowling Garden where they drank the Queen's health and prosperity to Old England. It was after the late King that Fort William in Calcutta takes its name.

In many of his proceedings Governor Pitt gives us a taste of his quality. The Dewan's Peons who had tied leaves in the Company's towns (which was the customary formula for taking possession) after being kept in irons in the Fort were released on the ground that being servants they had only obeyed their master's order but were warned that if they ever repeated the offence they must certainly lose their heads. Similarly Pitt and his Council took it on themselves to open the Packet directed to Bombay which had come by the ship Howland and extract the letters addressed to Fort St. George and Bengal which they found inside. The translate of the President's letter to the Foujdar of Tripassore on page 82 shows his defiance of any aggression, and in the same way when the Governor of San Thomé had detained some people who had gone to the festival, the Free Guard Company were turned out to be in readiness to march there to fetch them if they were not delivered back. In his dealings with the Country Powers Pitt always showed himself a master of men, and Salmon his contemporary who had known him in Madras writes, "I still see the Governor, methinks, coming upon parade and haranguing the troops in their respective languages before they embarked, in such terms as induced the soldiers to express the utmost contempt of the danger they are entering upon and seemed to foretell the success they afterwards obtained." Had a man of his kidney commanded Madras when it was attacked by Labourdonnais, there would have been no surrender and the keys of the Fort would not have found their way to Pondicherry.

There are incidental references in these pages to persons of interest. Nicolao Manucci is mentioned on pages 1 and 16 and his Garden is prominently figured in the plan of the City of Madras which was made by Pitt's orders. Thomas Pitt's cousin John, President for the New Company at Masulipatam, is the subject of severe remarks which cease however on his death at Durumpaut "from a fitt of Apoplex" in March. Nor did Pitt's animosity to John prevent him giving his son George Morton Pitt a seat in Parliament for Old Sarum and using his influence to appoint him Deputy Governor of Fort St. David in 1723

from which position he rose in 1730 to be Governor of Fort St. George. The Patriarch (page 84) who visited Pondicherry on his way to China and from there sent a present of "jocollet"* to the Governor was Cardinal de Tournon. Pitt accepted the chocolate but declined to let Padre Michel Ange go to Pondicherry; the result of which was an interdict in the following year which however had very little effect on the masterful Governor. Another reference to the French is found in the visit of the "Second of Pollicherry", Mons. de Chalonge, to St. Thomas's Mount and thence to Mons. Chardin's Garden, he being ill of consumption from which he died five days later. This is the same "French Second" who was too sick to go to the Nabob Daud Khan in the Consultation for February 14, 1702. A memorable event is recorded on December 13 when the grandson of the Naick who had granted the first cowle to the Company came to pay the Governor a visit and received a present of 5 yards of scarlet, 2 swords, gold chains, pagodas 110 and one prospective glass. His son "Vencatty Putty Naigue" visited Governor Elwick in 1724.

The Company having no plate for their general table except what was battered and worn, melted down the old pieces and bought the set of plate which the President had brought out with him. One of the items is a Monteth or scalloped basin for cooling glasses. Wood's Life (1683) says, "This year came up a vessel or Bason notched at the brims to let drinking glasses hang there by the foot so that the body or drinking place might hang in the water to cool them. Such a bason was called a Monteigh from a fantastical Scot called Monsieur Monteigh who at that time or a little before wore the bottome of his cloake or coate so notched." There is no allusion in this volume to diamonds but a curious reference occurs to hats; "the Company having sent out some hatts for souldiers for which there is little or no use here, resolved the same be sold at outery for the most they can get, they being a perishable commodity". They must have been common articles, unlike the Scarlet Coats and Beaver Hats which had been provided to the Portuguez and English officers in the previous year as a gratuity for their readiness to serve the Garrison. Charles Lockyer in his account of the Trade in India (1711) talks of the St. Georgeans as being cloth'd in red, so that the European garrison must have made a brave show.

A curious incident is reported on April 28th of a scandalous paper dropped in the Town objecting to the collection of money for the Black Town Wall. The petition is entered in full in that day's proceedings and will strike the reader as a very capable representation of the grievances of the townspeople, written by some European and addressed not to the Governor but to Francis Ellis Esquire and Council of Fort St. George. Trouble was also experienced in realising the debt due from the Joint Stock merchants and it is observed when one side put in their answer to the other's petition that "both one and the other being stuff so full of lyes, it is very difficult to tell who is in the right". These Chetties were so obstructive that six of them were "confined to the Browne Godowne," which must have been a sort of Black Hole, for after four months one of them died there, the Council refusing permission for his body to be burned till they got security for the debt. Possibly the greatest sensation of the year is the narrative of the taking of the frigate Pembroke, George Weoley, master, by Pirates at Mayotta on the 10th of March 1703. This will be found on pages 38 to 40 and Mr. Weoley who was detained by the Pirates to serve them as pilot escaped and is found again on page 88. Mayotta is one of the Comoro islands.

Among the articles included in the Paymaster's Account is a new item of black stone which occurs three times and reappears in an order for black stone

* In 1705 the Rev. Philip Hickerlingill says in his Priestcraft, "Bless the Mahometan Coffee and the Popish Spanish Chocolate." The ecclesiastical fondness for this beverage appears at a very early date. President Methwold and Council at Surat writing to the Factors at Ahmedabad, Feb. 20, 1636, speak of certain packs sent by the caravan for transmission to the Padres at Agra, containing books, church ornaments, wine, strong waters, physic, and "one tynne pott sowd upp in gunny, which containeth a composition which they call chuculatta." In 1636 chocolate was unknown to Englishmen except by repute. Pepys Diary, 24th Nov. 1664, notes, "To a coffee-house to drink jocolatte. very good." Talboys Wheeler misread the word in the Consultation of Nov. 22, 1703, as jocola, and hence Hobson-Jobson (first edition) queries "Jocola. We know not what this word is, perhaps "toys'."

for the Bengall House and Chapell which was eventually loaded on board the Colchester. As usual the Consultations contain a number of rare and interesting words, such as 'risgo' for 'risk', on page 40 and 'drums with snaires' on page 11. A snare is the catgut stretched across the lower head of a drum to make it resonant, and the snare drum was the common military drum as distinguished from the bass drum. The strangest domestic occurrence is that of Mr. Adrian Plymour who on June 10 paid 56 pagodas into the Company's cash for his wife's passage from England, a soldier having "listed" in England and proved to be a female with whom he lived on board and married at Fort St. George on June 5. Several deaths are recorded in this volume: Mr. Thomas Mathews, Junior Merchant on employ at the Sea Gate, May 6; Captain or Lieut. John Wyatt, July 14; Mr. John Pitt, May 8 at Durampaut who was succeeded by Mr. William Tillard; Surgeon Royer whose death at Fort St. David is advised on August 30 and Mr. Charles Atkins ordered in his place; and lastly Mr. John Haynes whose death at Fort St. David is reported on December 24. "God make us mindfull of our own mortallity" as the Company's Servants of Hoogly say in their Factory Records under date September 27, 1679.

There are no tombstones of 1703 extant. The Registers of St. Mary's Church in the Fort record 19 burials, 15 marriages and 17 christenings as follow:

The one interesting name in this List is Abraham son of Caleb Clark, who was a grandson of the poet Milton and clerk to St. Mary's Church to which position that of school-master was sometimes added. In the margin of the Register adjoining the entry of the burial of Mary, Caleb's daughter, on December 15, 1716, is this note: "Deborah, third daughter of Milton, the poet, by his

first wife was married to Abraham Clarke, weaver in Spitafields, by whom she had issue the above Caleb Clarke of this Parish ; anno 1717 : born unto him sons and daughters as testified by this Register."

If Milton's descendant represents the old Roundhead stock at Fort St. George, he finds himself in the best Cavalier company with Mr. Theo. Oglethorpe, Writer, who applies on pages 20 to 22 to goe a voyage to China. He neither went the voyage nor continued to serve the Company, for his father died on 10th April 1702-3, two days after the petition was penned. He was the third son of General Sir Theophilus Oglethorpe (1650-1702) Captain of lifeguards to Charles II and Colonel of the Holland Regiment or Buffs under James II; and the quondam Writer on £5 per annum sat in Parliament as member for Haslemere in succession to his father and elder brother Lewis (1681-1704), who is mentioned in Evelyn's Diary as fighting a duel with Sir Richard Onslow, member for Guildford and the second of the three Onslows to be whig Speaker of the House of Commons. Theophilus the Writer became A.D.C. to the Duke of Ormonde and afterwards joined the Jacobite Court of St. Germain's, where he died about 1718. Even more remarkable was the career of the youngest brother, General James Edward Oglethorpe (1696-1785), A.D.C. to Prince Eugene at the siege of Belgrade, founder of the American colony of Georgia and for 32 years member for Haslemere.* Dr. Johnson wished to write his life and his name is enshrined in a couplet of Pope, "One, driven by strong benevolence of soul, Shall fly, like Oglethorpe, from pole to pole". The two Wesleys, John and Charles, joined this paladin of philanthropy in his colony, where negro slavery and rum were strictly prohibited, and later on came Whitefield who declared, "the deliverance of Georgia from the Spaniards cannot be paralleled but by some instance out of the Old Testament". He has another link with Madras in his marriage (1738) to Elizabeth the only surviving daughter and heiress of Sir Nathan Wright, sometime Lord Keeper of the Great Seal to William III and Queen Anne and junior counsel for the Crown at the trial of the Seven Bishops (Sancroft, Ken, Turner, Lloyd, White, Lake, Trelawney). John Evelyn writes in May 1700, "Serjeant Wright at last accepted the Greate Seale". Two of his sons, Robert and Thomas Wright, were Factors at Fort St. George and one of them Third of Councill in this place and Warehousekeeper throughout these Consultations, with the Hon'ble Thomas Pitt, Esq., President and Mintmaster.

For the benefit of the student or researcher who desires to follow up the events narrated in this volume, reference may be made to Chapters I to V of Vol. II of Colonel Love's Vestiges of Old Madras; Mrs. Penny's Fort St. George, Chapter XIII; Talboys Wheeler's History of Madras, Chapters XVIII and XIX; Sir Charles Lawson's Memories of Madras, Chap. II; Sir Cornelius Dalton's Life and Times of Pitt, Chapters XII to XVI; and the Diaries of Streynsham Master edited by Sir R. C. Temple where in the foot notes information will be found about many of the Company's servants named in these pages.

A few errata have crept in, principally of proper names :

Page 7. Martha Laige for Martha Large (widow of Peter Large).

Page 17. Black spine for black stone.

Page 35. Mr. John Fuxon for Juxon.

Page 39. Saul for Yaul (Yawl).

Page 70. Pauviet for Paulus Rosairo.

Page 75. Mrs. for Mr. Tillard.

Page 88. Browen for Bowen.

Page 90. Sicca for Swordes.

The names of country ships provide the greatest conundrums. The Indian vessel Bombooprau (p. 18) which reappears on p. 65 as Bomrepaum is probably the Bamboo prau or prow, from the Malay prahu, and in a previous

* Ludovicus (1698) and Jacobus (1714) Oglethorpe were both Gentleman Commoners of O.C.C. Oxford, and the General, though a non-founder, kept his name on the books for 13 years.

volume mention is made of the "Parr*" Lockyer Watts, master, trading from the same place Pegue. Captain Tyler's Bombay ship the Rupartle (pp. 27, 45) is the Gujerati name Ruparel, meaning "abundance of silver" and the Brigantine-Sail Fish commemorates the basking shark or the xiphias. The term was applied to any fish with a large dorsal fin; "the Dutch calling the *Histiophorus Zeyl-visch*, because it is said to raise the dorsal fin like a fan and use it like a sail". The Sweepstake (pp. 16, 29) was a common name for a ship, even in the King's Navy, between the 15th and 17th centuries. But most interesting of all is the Briggantine Nos. Senh' Pillaro S^t. Augo, Senhior Domingo, Master, which arrived in this road from Atcheen, March 9, 1702-3 (p. 12). Her full title is Nossa-Seuhora Pillaro Santiago. In the Cathedral at Santiago behind the high altar is a chapel dedicated to La Virgen del Pilar, in memorial of her descent from heaven on a pillar when visiting St. James the Elder (Santiago), the Patron and Captain General of Spain, at Zaragoza. The Pillar itself is at Zaragoza and the curious will find an account of it in the second volume of Richard Ford's Handbook to Spain, written in his liveliest manner. Religious names were often given to ships: and sometimes irreligious, as the Devil of Delft. A historic entry in the Fort St. George Diary for July 22, 1731 reads: "Ship Vierge D'Grace Came in from Pondecherry, having Monsr Dupleix on board Going Directore to Bengall."

* Mr. A. T. Pringle has an excellent note on Parr on p. 166 of the Diary and Consultation Book for 1634 (First Series, Vol. III. 1895).

Whereas some few dayes past we orderd that old Paddy should not be sold under forty five Mercall for a Pagoda, and new att Forty, hoping thereby it w^od: have had the good effect of keeping itt at that price, or making it cheaper, but finding it has a quite different effect, and that there is great clamours for Graine, the Governour is of opinion being advised thereto by the Prinsipall Inhabitants of the Place, that the reversing of that order will encourage the bringing in of great quantities from the Land, which will occasion the making it plenty and cheap, as to which he desires the opinion of the Council.

THE HUMBLE PETITION OF BERRY TIMAPAU.

Most HUMBLY SHEWETH.

That in the Year 1681 when Streynsham Masters was Agent he imprison'd your Petitioners Father Pedde Vincatadry, on a dispute between him, and the Merchants, and having seiz'd his Jewells, and Goods sold them all to the Amount of Pag^s: 49000 which was paid the said Merchants, not long after which your Petitioners Father made his complaint to Presid^t: Gifford on his accession to this Government, who sent for the Merchants, and upon examination they declared that they did not take the money, but confessed that Agent Masters paid them 39000 Pag^s: and kept the remainder 10000 Pag^s: in his own hand and as for what they had they were ready to pay it, and requested that Agent Masters might give an Account of what became of the rest, who being sent for said it was true he did receive Ten thousand Pag^s: which the Merchants paid the Company, and he then brought it to be paid into the Companys Cash, and accordingly delivered said money to Presid^t: Gifford in the Consultation Roome, who askt him how it came about that it was not entered in the Comp^s: Cash before, he having had it in his hands 4 or 5 months, to which he had only to say that he thought it had been paid and Entered, President Gifford having thus far examined the business did assure your Petitioners Father that he would write Home concerning it, and doubted not but the money wo^d: be restored him, in the interim your Petitioners Father dyed, and left your Petitioner to recover that Just Debt, who desisted not from making his application to all succeeding Governours about itt, first to Governour Yale who gave him the same hopes, as President Gifford had done before, but that was quashed by an unhappy accident which occasioned a dispute between the Governour and your Petitioner, after which he Petitioned S^r: John Goldsborough, who gave him his word that he would examine and determine the

— FORT ST. GEORGE, APRIL 1702-03 —

business on his arrivall from Bengall w^{ch}: was once more delay'd by his unfortun-
ate death there.

Now your Petitioner humbly setteth forth that the money has been a long
time lodged in the Companys hands to his great loss, and detriment for which
he has address'd himself to all Govern^r: successively to your Hon^r: time, but
have hitherto had no redress they esteeming the Companys Interest rather than
Justice. Now your Petitioner most humbly acknowledges that all he has is
owing to the Benevolence of the R^t: Hon^{ble}: Company, and has ever borne them
a gratefull respect, so that he could not modestly determine the business with 'em
by process at Law, and hopes that your Hon^r: & c^a will take it into your most
favourable consideration, and finding this matter to be true would please to order
the Payment of said money or enable your Petitioner (who has done the R^t:
Hon^{ble}: Company many faithfull services) that he may have some likelihood
whereby to maintain his Family, and as in Duty bound

shall ever Pray & c^a:

To FRANCIS ELLIS ESQ^r:
& c^a: COUNCIL OF FORT ST: GEORGE.

GENTLEMEN,

Finding personall application to some of you to mediate matters with the
Governour about a due regulation in assessing for the Town Wall, has been

— FORT ST. GEORGE, APRIL 1702-03 —

fruitless, we have in concert with many others, taken this method to lay before you the sentiments of the Inhabitants hoping your Justice in compasion to us, Zeal to the Hon^{ble}: Company, and regard to the welfare of the Place will induce you to consider the following.

That the building of the Town Wall was by the Hon^{ble}: Companys order, some of us have been made sensible of, and we believe it, also that they expect the Charges of the same should be bourn by the severall Casts, which we think a very great hardship, considering the benefit of Customs the Hon^{ble}: Company reaps by our sea, and Land Trade, also the Farms of Beetle Tobacco, and Arrac (which fall sensibly heavy) not to mention the Ground Rent of our houses, Peddenaigues Duty &c^t:

Altho' these as beforesaid are hardships, and some of them with regret paid, yet by length of time, being become Sallabad (as we esteem them) there is no great demur made now, and are not recited here as agrievances, so much as an introduction to inform you, that we are wholly disatisfied in Serapau Nague being intrusted with the Collection of the Town Wall money lately ordered by the Governour, and yourselves to be received of us, for his audacious injunctions publickly made to the Conicoplys, and Peons (who goe about to gether the money) to beard, and pull us by the necks with Cords to the Choultreys, upon refusall of Payment, which has been committed on some, who were not then in a Capacity to lanch out so much as demanded.

Such insults and outrages are seldome inflicted under the Moors, therefore amazed at Serapau Nagues presumption in giving such orders in the English Government, but they have been redress'd (upon a complaint made to the Hon^{ble}: Governour) by punishing two Peons, tho' we are since served almost as ignominiously, being constraind by those sorded Collectours to stand before our doors awhile in the sun, till wrought into a compliance, and if such sufferings are caused by our backwardness to pay, pleased be referr'd to our reasons that makes us so.

1st: Serapau Naigue (at a Generall meeting upon his summons) told us the Hon^{ble}: Company having been at a great charge for raising a Wall round the black Town for our security, must be reimburs'd and Three thousand Pagodas more added to repay the said Seraupaus Charges of Presents &c^t: during Dowed Cawns stay here last.

2^d: Having well considered the Hon^{ble}: Companys indulgent care to protect us, shall most willingly acquiese to refund their cost of the Town Wall, but then humbly request may be granted Viz^t:

1st: That only the first cost thereof be assessed.

— 2^d: That an English man be appointed receiver or Collectour.

3^d: That no pretence of Presents &c^t: made by Serapau Naigue, be interwoven wth: the Town Wall mony.

4th: That every Cast knowing what each are to pay, have liberty of themselves to bring the sune, which they promise to do within any time limited.

3^d: For the favour to some, that can better afford it, and hardship to others in meaner circumstances, more to gratify spleen, and hatred, then any reason induces us to insist on the four requests, which being granted will give a Generall satisfaction, and save the hire of so many Conicoplyes, and Peons employed as now appointed in this Affair.

4th: And what further induces us to insist on y^e: four requests aforesaid, are, because we are under some jealousie, that besides the Town Wall money and the 3,000 Pagodas for Serapau Naigue, more may still be taken, and appropriated to the present managers use.

Our selves and Fathers before us, have long experienced the quiet, and moderate English Government and hope our Childrens Children after us may enjoy the like, but when some by their Characters assumes to Committ abuses, under a presumption that their being favourites will protect them against all clamours (which we find too true) we have only this expedient left Viz^t: to represent our Callamities, and having so done now, we hope a short time will show us the effects of your wisdom, by interposeing in matters so destructive to

—FORT ST. GEORGE, MAY 1702-03—

the Publick Good, otherways we purpose to apply ourselves to the Hon^{ble}: Company by sending them a Copy hereof with another memorial of farther complaints of this nature.

Designed to have sent copper to Bengall if the Chambers had arrived. The Merchant to whom sold the Loyall Cooke Copper unable to sell it and to avoid making a bad debt. Agreed Can: 250 be rec^d: back and sent to Bengall, and why

The last Year on the arrivall of the Loyall Cooke from China we sold to Vinkette Chittee Merchant of this Place Candy [*lacuna*] of coppar when we expected long before this the arrivall of the Chambers Frigot with a considerable quantity of the same commodity, which if not vendible here we intended to have sent good part thereof to Bengall, but to our great surprize the Merchant that bought the Loyall Cookes, we find he's not able to dispose of what we sold him, good part of which still remains in the Companys Godown, which he has frequently importuned us to receive back which we have agreed too, to avoid the hazard of a bad debt, and it is ordered that the Warehousekeeper receive from him Two hundred and fifty Candy, at the same price we sold it, which we design to send to Bengall by the first opportunity, knowing that they are necessitated for money, and pay great Interest for the same, tho they never advised us how that 1,000 Chests sold, wee sent them on the Phoenix.

— FORT ST. GEORGE, MAY 1702-03 —

The Expedition Sloop having been lately fitted at Fort S^t: David, and came hither with the Comp^{rs}: Bales, 'Tis resolv'd that she takes in as many Chests of Coppar as she can conveniently and proceed to Bengall and load on the Greyhound what she can take in.

There being a private ship bound from this Port to Tongueen the Owners of which have requested of us Two hundred bags of Salt Petre, which for the encouragement of Trade, being the onely meanes to increase our Customs, 'Tis agreed they be supply'd therewith at the prime Cost in Bengall, which att this time is extravagently dear. And accordingly the Warehousekeeper is ordered to deliver the same.

The old Joint Stock Merchts: were before the Govr: & Council & their debt again demanded.

We had Seraupau &c^a Joint stock Merchants before us who are indebted to the Company, whom we acquainted that the Two Companys were united and that our Companys possitive orders were, y^t we should forewith recover all their debts, to which they answered they had made a considerable progress in settling the Accounts amongst themselves and that in few dayes more they would compleat the same, in order to the Payment of the Companys Debt.

Ship Francis Robert Saltmarch Master sailed out of this Road for Atcheen.
Received of Pattamar a Generall Letter from the Deputy Governour and Council of Fort S^t David dated the 28th Instant.

About 3 this afternoone a ship belonging to this Port called the Pembroke Frigot George Weoley Master arrived here, sailed hence in November 1701 for Deleagoa on the Coast of Milinda and brought us the following newes, That in November last she came from Deleagoa intending for Surat, but meeting with a tedious passage in so much that they were reduced to great extremity for want of Provisions, so that they resolved to goe away for Johanha, but by mistake fell in with Mayotta the 10th of March, where they mett with Two Pyrats who stript them of all ships stores, and tooke out the Comander Cap^t. Weoley for a Pylote for them throw the streights of Malacca, but meddled not with the Elephants Teeth, of which she had about one Hundred Candy on board her a full relation of which from Mr Edward Fenwick the supra Cargoe and Gatt the Master who brought her hither is Enter^d as Followes Viz^t.

A Relation of the taking of the ship Pembroke Frigot by the Pyrates at Mayotta, March 10th 1703.

On the 9th of March last we made the Island of Mayotta, and as we were standing in with the Land about 3 Leagues distance we discovered Two Ships under sail close under the Land. They had sent their Boats off before we see them to make what we were, they were full of men, and kept rowing about halfe a mile to Windward of us, after we showed our Colours and fired a Gun to Leeward, they each of them put out a Flagg (which we at first tooke to be the Kings Jack, not plainly distinguishing it) but they would not come near us to acquaint us which was the road or the way in which we were obliged to endeavour the finding ourselves, being in extremity : and with this consideration concerning the ships, that if they should prove Pyrates our Loading would be of no use to them, so consequently we might expect good treatment from them, as has formerly be'n showed to others : we steerd W^t. and W by S. till we came into 5 fathom water, about a League from the shoar, and then Anchor'd, which we had no sooner done and veer'd away a little Cable, but the most frightfull and greatest of dangers presented themselves to us, both of the ship and our lives, breakers on all sides within half a ships length which because it was dark and just high water we did not perceive till we were so near them ; whilst we were in this Consternation and hurry what to doe, the two Boats haild us, lying at a Grapling right ahead within call, but would by no means come on board to our assistance, except we first sent our boat to them ; then we immediately

—FORT ST. GEORGE, MAY 1702-03—

sent our Saul with four Hands, two of which they tooke into their boate and put two of their own People in our Boat, when they came on board they thought we had been fast ashore and said they were sorry to find us in so bad a condition the Loss of our Ship being unavoidable as they thought we lying on a reef of rocks which run out 2 leagues on each side of us, and would be dry in halfe an hours time, and all round us nothing but breakers, they advised us to let the ship lye till morning dry, and they would all come off then, and see what possibly might be done to save her: so little hopes had we frō them of getting off again, and indeed we soon perceived they told us nothing but the truth, for by this time the tyde had ebb'd very much, and at every hollow of a sea she began to strike, therefore Cap^t: Weoley considering that delaying longer was but running ourselves into greater dangers, and that there was no other remedy but to cutt and stand the same way out as we came in; so desired the Two men to goe and send our People on board which were in their boats, which they presently did; then all hands turned too, and immediatly hov'd a peek and cut away, having a spring upon the Cable to cast her; by these endeavours it pleased God every thing answered our expectation, and before we co^d: cast the Lead six times were past all danger, standing off E^t and E. by N. with the wind at N. N. W. receiving no other damage then the loss of our best bower, and about 10 fathom of Cable. Now after our ship was out of danger, we began to consider of the answers made by the two men that came on board to a few questions we askt them, they said their great ship was a Permission Ship bound for Muscat loaden with Guns, Anchors, Cables &c^a Cap^t: Hillyard Commander the little Ship the said belonged to the Scotch Company one Cap^t: Drumōnd Comander and was bound for Madagascar to Trade for slaves with small Armes, Powder &c^a that they had layn there near three months before to repair and clean their ships, that just as they made us coming in they were standing out to proceed on their voyage. We acquainted them the great necessity we were in for Provisions, and water, and that severall of our men were down, to which they answered they did not doubt but their Cap^t: would assist us with every thing and send their boat betimes to us in the morning. We did not much give Credit to what they said, yet there was no way to get clear of them but by fair words, and intreaties, so kept standing off and on all night and at 12 a'clock next day being the 10th: we came to an Anchor about a mile from the shore being low water, att which time we see their two boats lying dry upon the sand, about an hour after when the water floated them they rowed towards us, and being come within Pistoll shott under our stern, they haild us, asking if they might be suffered to come on board, that they were Freinds, and had brought us fresh Provisions, Cap^t: Weoley answered one of them might come, yet they both kept rowing on, and when they were under our quarters one on each side, they all started up with their Armes Guarded, swearing if any of us fired a peice they would give us no quarter, and if we did not fire they would do us no harm, nor take any thing from us but Cap^t: Weoley orderd every one to fire, which we all did, and they at us, Cap^t: Weoley jumping down the after skuttle at the same time and bidding every one to their close quarters some into the Cabbin and some between decks, but we not able to keep either of them long, they fireing six shott to our one. Then perceiving it was impossible for us to do more, they having two ships very near us, we called for quarter, which they gave us, disarming us and turning us into the head, then they began to rummage and rifle the ship every where till their heat was over. In this skuffle we had two men kild M^r. Gold our Chief mate and Cornelius Browne a Foremast man. Of their men they had two wounded, one of them mortally the other shott through both his arms. The rest of the day they spent searching about the ship and swearing to revenge themselves of Cap^t: Weoley, for first bidding them come on board, and then fireing upon them as they came along our side, likewise to burne our ship. The next day they carryed Cap^t: Weoley on board one of their ships, and kept him Prisoner there about 40 of them staying on board us till Fryday the 12th: when

—FORT ST. GEORGE, JUNE 1702-03—

all the three ships being together, they put it to the Vote whether to burne her, or give us her again ; if this had been done the next day after they tooke her she had certainly been burnt, but puting it off three or 4 dayes gave us time to make many Freinds to give their vote in our favour, that we carryed it by 17 Votes more to save her then burn her, and after taking severall things out of her (mentioned in the List) they delivered the ship to us again that night about 7 a'clock they making the best of their way for Madagascar, and we for Johanna, giving us six old small Armes in lieu of what they tooke out of us. but they would by no means clear Cap^t. Weoley, forcing them [him] to goe along with them to serve as a Pylott for the streights of Malacca, swaring to shoot him if he refused it, they likewise detained by force Francisco de Cruz our Carpenter, yet one of our men Martin Hogendick a Dutch man Entered himself and went Voluntarily along with them.

These two Pyrates are very strong full of men, and one sailes excellently well, the biggest carryes 40 Guns and near 200 men, she is called the Prosperous, and was (as they told us first) a Permission Ship upon a Trading Voyage, but surprized and taken about six months before at Madagascar, the then Comand^r. name was Hilliard dying soon after of the wound he received then, but the now Pirate Captain of her is called Howard. The little ship is called the Speedy Returne, and was formerly commanded by one Cap^t. Drummond, but now by one Bowen, she carryes 12 Guns, and 70 men, about 100 Tons. She with another about the same burthen were sent out by the Scotch Company.

JUNE
P^{MO}.

This day upon the Newes that came yesterday in the afternoone by the Pembroke Frigot, and consulted about the ships that were in this Road bound throw the streights of Malacca Viz^t the Sedgwick to Canton, the President to Tonqueen, the Conjeverom to Manilha, and a large Briggantine to Syam the Canton ship had all things on board, except her supra Cargoes and was to have sailed within two Hours if this ship had not come in, and that to Tonqueen and Manilha had sailed in few dayes, but the Proprietors considering what great risgoes they run, unanimously resolved to desist from proceeding, which tends to the great detriment of the Port, and lessening of the Customs, besides 'tis to be feared that if these Pirates take any of the Country ships 'twill bring us into new troubles with the Government out of which we have but few months past extricated ourselves.

Letters received read.

The Supra Cargoes and Commander of the Union this day delivered us a Paper about their proceeding to China as Entered after this Consultation upon w^{ch}: 'tis resolved that Mess^{rs}: Marshall and Fleetwood who were to goe Supra Cargoes of the Sedgwick, treat with Cap^t: Matthews Commander of the London for a Voyage to China, supposing that both ships together may be of sufficient force to defend themselves from the P'yrats, and be a meanes to prevent the Surat Ships falling into their Hands. And whereas the stock formerly intended upon the Sedgwick is not sufficient to bear the charge of so great a ship as the London. 'Tis agreed that what silver be found wanting to make up the stock shall be taken out of the Howlands, and the full Amount thereof to be put on board her in Venecians and Chuckeens, which would be a considerable advantage to the Company, Silver being 6. or 7 $\frac{1}{2}$ Cent dearer here then at Surat, and Gold much about the same Value as here.

The Supra Cargoes of the Union delivered in a Paper. resolved the Supra Cargoes of the Sedgwick treat with the Com^r: of the London for a voyage to China. 2 ships sufficient force against P'yrats. Sedgwick stock not sufficient. be remeddy'd.

TO THE HON^{ble}: PITT Esq^r:
 PRESIDENT & GOVERN^r:
 OF FORT S^t: GEORGE, AFFAIR'S ON
 THE COAST OF CHOROMANDELL
 COUNCIL & C^o:

Besides the written Narrative yo^r: Hon^r: & c^a: were pleased to tender us for our perusal, and consideration which gave us too sad a view of the eminent danger attending the prosecutions of our Voyage to China. We have since mett with M^r: Fenwick and discoursing him at large find every thing contained in the said Paper corroborated; and to our great anxiety it results that the Streights of Malacca are infested with Pyrats of considerable force too formadable for our single ship to encounter with, least hopes of makeing a successfull defence: as also that they will be too vigilant for us to escape in those narrow seas, without being seen and attacqued by them.

On the other hand we have with great accuracy revised our Covenants with and Instructions from the R^t: Hon^{ble}: Company, which are so full, and possitive, requiring us to proceed hence to China there to make our Investment for England. That they have not left us the least umbrage or pretext to deviate or alter our Voyage, which should we do will be a manifest violation of their orders, and our Contract with them; The penaltyes thereof we cannot Incur but to the utter ruine of our Estates and Reputation, being the onely tenure by which we hold our present, and can entitle us to a future employment from the R^t: Hon^{ble}: Company.

Howbeit we are not so partiall and tenacious of this Jewell, but are more deeply touch'd with a sence and care of preserving and improving the Hon^{ble}: Companys Estate under our manangement, and think it our indispensable duty in all exigences whatsoever to secure it from the least diminution and much more from the depredations of such Inexorable Enemyes as sea Rovers ordinarily prove to all who fall into their Hands.

Wherefore that we may act and proceed with the least incommoditie to the Interest in which we are embarqu'd, and notwithstanding ship Union and her Cargo is consigned to us. We humbly & earnestly intreat of your Honour and Council to advise and direct our steps and deportment in this Extremitie and what course is the most eligible amidst these apparent Evill's.

And that we may effectually attain the Hon^{ble}: Companys ends in sending us out: We do most importunately begg that your Honour and Council consider of speedy wayes and meanes for procuring some good ship to our Company and countenance whereby your Hon^r: & c^a: will greatly derive to the Companys wealth which in principal aboard us Amounts to more than Eleven Thousand Pounds sterling, and likewise ease them of the great charge of Demorage, which must inevitably fall on them should we stop the ship here.

To this your Hono^r: and Councils pro[pitious] reply will bind us with the strictest ties.

We received your address to us the 15th Ins^t. for our advice relating to your prosecuting yo^r: Voyage to China, which we had sooner answered, but were endeavouring to hire the London to accompany you whose Commander being jealouse he could not return soon enough to save his passage for England, could not be perswaded to stay a competent time in China for our Merchants to do their business, besides we were in hopes by this time some ship would have arrived here from England, whom we would have sent with you, unless ordered to the contrary.

We can give you no other reasons for desisting from the prosecution of your Voyage to China, then that of the Pyratt's, to which newes 'tis manifest we give Credit by laying aside severall Ships of this Port, Laden ready to saile through the Streights of Malacca.

As to your Contracts, and obligations to the Company, you are best able to Judge as being the φ sons that must stand and fall by them, but for what relates to us, which is to supply you with Silver for your Pepper. We are not only ready to comply with that, but likewise to furnish you with silver for the Amount of your Gold, or what else Goods of the Companys you shall dispose of here, and are also ready to assist you in all matters whatever, but must conclude 'tis our thoughts, that if you proceed to China you'l run great hazards. We having in the Warehouse and what ready att Fort S^t David sufficient Number of Bales to load the Colchester if she returnes frō Bengall any time next month, but then likewise expecting the Gloucester from the West Coast who must if possible be returned again to that Place with Salt Petre, Redwood, and some Bales, and the Chambers Frigot being allso expected from China in January next at farthest wⁿ: her time is expired for staying longer in the Country so that of necessity she must be Load'd Home, besides 'tis very probable we may have ships arrive from Europe that the Company may expect to be dispatchd this next season which reasons (as allso at this time there is no Europe Nation making but little if any Investment on this Coast, which gives us hopes that Cloth will be much cheaper) induces us at this time to consider of making an Investment both here and at Fort S^t David to the Amount of about One Hundred Thousand Pagodas, and in order thereto resolved that a Letter be wrott to the Dep^y. William Gordon having ever since December last been confin'd as a Person concerned in the confederacy for runing away with the Expedition sloop from the West Coast who has often Petitioned for his Tryall or discharge, and pleads that he had not been concerned therein but for procuring his Liberty which he was often refused by the Deputy Governour and Council of York Fort, when being so very sick and was confident had he remained longer there he must have dyed and sayes 'twas apparent that by their coming directly to this Port they had no Pyraticall design and no other end but purely as aforesaid to procure their liberty and did confess that their crimes therein were very great, and hop'd we would put a favourable construction on them. We considering of the before mentioned & believing that this Poor fellow was draw-in by Doct^r. Davis, besides what charged against them from the West Coast is onely by Affidavids; yet nevertheless wee are sensible that their own confession of their manner of coming away, is sufficient to bring them on their Tryall, and by the strictness of the Act they would certainly be condemned, but in regard that this man was never to our knowledge concerned in any Piraticall design, and has a Generall good character from those that know him at the West Coast, as all [. . .] severe usage there which induced them to this desperate undertaking, is confirm'd to us by sundry Persons from those parts, upon which consideration and his long imprisonment we have thought it reasonable to admitt him to Bail, giving Five hundred Pags^s. security for his Person to be forethwith coming when we demanded.

Since writing our Letters to the Deputy Governour and Council of York Fort and Chief and Council at Bantall, we being thorowly informed that Bantall is the most considerablest to the Company on that Coast for Pepper, and capable of great improvement, and [that it] is the Companys Interest their Chief there should [bean] experi[enced] man in the Customs of the People, and one who knows how to take propper methods for promoting the Companys, and we believing from our experience as well as from all reports that M^r: Nathaniel Eyton is duely qualified for that employ, who laid down the Chiefship there for no other reason than being made uneasy by the insolent behaviour of Two of his Council Kinsly and Scott, who we have by our orders thither removed, which should have been done before by the Deputy Governour and Council of Bencoolen but instead thereof they sent M^r: Edmond Bagden (wholy unexperienced in the Affaires of that Country) Chief of that Place when they could not but know M^r: Eyton did speedily intend [. . .] it, and not remaine second.  the Merchants which very much obstructs the Companys Affaires, and hinders the

TRANSLATE OF A LETTER FROM TAHIR CAWN, PHOUSDAR OF
 TRIPPOSORE REC^d. NOVEMBER 13th. 1703.

I wish your Honour all health; About Three months past, I received orders from Cawn Bahauder to take possession of those Villages you have which are under the Pullamollee Country, I was loth to acquaint You of this unwellcome newes, by reason of our friendship, but fresh orders are arrived to the Duan, and myself, and your Honour is sensible that the servant must obey his Masters orders, so that can deferr it no longer, the occasion of my sending you this is to let you understand that if You will send one of the Vackeels to me my friendship shall not be wanting to accommodate the matter, I hope to your satisfaction, what can I write more.

To TAHIR CAWN PHOUSDAR
 OF TRIPPOSORE NOVEMBER 15th. 1703.

I received your Letter and observe the Contents, and can only returne this answer; the Townes you mention were given us by Assid Cawn the Grand Vizier (whose Pirwana we have) in consideration of the good services we had done your King, which was much to the satisfaction of Cawn Bux and Cawn Bahawdar who afterwards gave order for the delivering of them to us; when we thought it had been in this Country as in all other parts of the world that whatever the Grand Visseer granted the King allwayes made it Good, or what relyance can there be on the favour of such great mens Perwannas, I esteem'd you always as you write yourself our Friend, and am sorry you are Commanded to execute such unjust orders [. . .] will occasion noe less then a difference between the [two] Nations, who is the aggressour let the Great God judge, our Vackeel is sick if you send one hither, I will immediatly give my answer to what he shall propose.

To THE HON^{ble}. THOMAS PITT Esq^r.
 PRESIDENT FOR AFFAIRES OF THE R^t.
 HON^{ble}. ENGLISH EAST INDIA COMP^y.
 ON THE COAST OF CHOROMANDELL AND GOVERN^r.
 OF FORT ST. GEORGE & C^a COUNCIL.

—FORT ST. GEORGE, NOVEMBER 1702-03—

Some time since when we Checca Seraupau, Naira Verona &c^a, were before your Hon^r &c^a we address'd for leave to make proposalls for the Payment of our proportion of the Companys debt, and to obtain our enlargement, thereby to enable us to clear the last Contract, of which there is a great summe standing out which so long as we are confin'd will never be brought in nor shall we be able to get in our stock now abroad for w^{ch} we pay a high Interest, besides the great charges we are at for Factors &c^a in the Country.

'Tis no small misfortune to us that we have been joyned with those who have workd our ruine, but tho' we have lost our money by them, we hope we shall by our endeavours preserve our Credit. As for what money they received for those Contracts they were engaged with us we have their receipts for every Cash of it, and for w^{ch} Goods they have brought in, it plainly appears by the Account of the Godowns, and our Conicopyes. And whereas they averr'd they made a Contract with Surapau to bring in Brown Cloth, that is also notoriously fair for we have it under theyr Hands to bring it in white, and sort it in the Godown, to such and such numbers, but these matters have been fully and often discours'd before your Honour &c^a: so that we believe you cannot but be sensible who is in the right and who in the wrong, and we cannot but think you also [believe that] at the making of all Contracts the money was [. . .] divided amongst us, so that we hope your Hon^r: &c^a: will think of proper meanes to compell those people to hearken to justice and reason, who hitherto refuse and the better to cloke their ill designs have amused your Honour &c^a. and the whole Town with lyes & falsity [. . .]

The proposalls we make as before hinted Viz^t.

That all us concerned in the last Contract with some other Persons whose names are hereafter mentioned, will be bound jointly and severally for the immediat clearing of that Contract.

And for what ever we owe on former Contracts they be obliged as aforesaid to pay a Moiety thereof on a Contract of 50,000 Pagodas, abating Ten $\frac{1}{2}$ Cent of the last, to be complyed with in the space of four months, after the expiration of which to make another Contract on the same termes, and be obliged to compleat the same within the space of eight months.

And whereas it may be doubtfull what is the Just summe owing by Chacco Surapa &c^a. on those Contracts, 'tis proposed therefore the new Merchants who came in on the last Contract, and those now mentioned to come in, will be likewise bound as security for the Persons of Checco Seraupau, Naira Verona &c^a to be forthcoming whenever demanded. We hope these our proposalls will meet with your approbation, and that we shall find all due encouragement from your Honour &c^a for all our faithful and just services.

— FORT ST. GEORGE, NOVEMBER 1702-03 —

but the old Companys and Dutch were continued, where the Government had forced them to Pay six Lack of Rupees, and strong Guards set upon their Factory's that nothing was permitted to goe in or out.
