PREFATORY NOTE

THIS volume contains the Letters sent to the Company during 1714—18, as comprised in the IV volume of the series "Despatches to England." The India Office had, as usual, the courtesy to supply the omissions in the original volume in this office from their volumes of "Coast and Bay Abstracts," and also to read the proof of pages 1—31, as several gaps had to be filled therein.

The manuscript volume has been mended and is in a fair state of preservation.

EGMORE,
12th October 1929.

A. V. VENKATARAMA AYYAR,
Curator, Madras Record Office.

GENERAL LETTER FROM FORT ST. GEORGE TO THE COMPANY, DATED JULY
15, 1714. [*Public Despatches to England, Vol. 4, pp. 1-20.*]

TO THE HON^{BLE}. THE COURT OF DIRECTORS FOR AFFAIRES OF THE R^T. HON^{BLE}. UNITED
COMP^X. OF MERCH^TS. OF ENGLAND TRADEING TO THE EAST INDIES.

HON^{BLE}. S^{RS}.

1. The last oppurtunity we had of writinge yo^r. Ho[nours] by the Recovery under the 11th. of febr^y. she saild hence the sa[il]ing, and being in good condition, we cannot doubt of her [Safe] arrivall wth. you in due season, We have since been hon'd wth. [the Companys] letter dated the 13th of January by the Avarilla to w^{ch}. we cant [pro]pose to return a full answer by this conveyance, & therefo[re] choose to do it intire at once by our September Ship [which in] all Likelyhood will be wth. you in a very [litt]le time [. . .] & at present we shall only trouble Yo^r. Hon^{rs}. wth. wh[at is] of moment since our last, and such other particu[lars we] think will be most acceptable, & for the benefit of Yo^r. [Hon^{rs}.].

FIRST CONCERNING SHIPPING SENT OUT, AND RETURNING.

2. When we wrote our letter by the Recovery we had [designed] of dispatching this Ship Frederick in time to save her [pas]sage, and we should have been able to compleat her [Lading] in all February if the winds would have permitted he[r to] gain Fort S^t. David according to Expectation, we sent from hence the 14th. of February, but in her passage up, [she] mett with such unusuall strong southerly winds, tha[t on] the 26th. in y^e. evening before she arrived to an Anchor, [& con]sequently as there was a necessity for her returning [hither] to fill up, she could not be dispatch'd in all February [*a few words lost*].

3. We begg leave to referr you to our Consul[ta]tion of the 12th. of February where this affair was fully debated & settled according to the forementiond standing order, It was the 9th. of March before the Ship return'd hither, wth. six hundred twenty two bales, w^{ch}. we were obliged to unload in regard to the Aprill Monsoon, & no employment offering for her, that would any way countervaile the expence & risque of keeping her abroad another season, she has [been] continued in the road till now.

5. On the 18th. of April last the seperate ship Mercury Capt. Lytton arriv'd Fort S^t. David, & on the 29th. of the same month, anchor'd in this road, he dispos'd of his Madeira wine, and other licens'd goods here, & on the 2^d. of June went under sail for y^e. west coast, & Batavia to seek a Loading of pepper and Tea, at least he gave out so, & we doubt not but effectual care is taken to prevent his getting any pepper at the West coast.

6. We were not so happy to receive yo^r. orders by this ship though they would have been very acceptable, as our contracts both here & at Fort S^t. David were made much about that time, upon the last years list for investments, & we could have been able to make some alterations to your advantage. We examined the Capt: very strictly for letters, but he solemnly assured us, that he was not entrusted with any.

7. [On] the 1st. of May yo^r. ship Grantham Capt. Jo[hn Collet] [*one line lost*]. For coming hither are entred after our Consultatio[n of Y^e] 17th. of the same month.

8. On the 18th. of May your ship Hannover, Cap^t. James Osbourn arriv'd from Surat, with a full loading [. . .] ton, which in all probability will turn to good acco^t. [in the] Bay, she carried a great freight to Surat, & the Capt: ass[ured] us that yo^r. Hon^{rs}. will clear at least fifty thousand Ru[pees] the voyage, We heartily wish all the rest of yo^r. shipping as well employ'd, He was forced to stay here sometime [to get new] Cables made, & sail'd for the Bay On the 10th. ultimo, We [have] wrote the President, & Council by him, that if they put [part of] her Loading aboard, we shall be ready to fill her upon the middle of January at farthest.

Do. of the
Somers from
Bombay.

9. On the 19th. of May yo^r. ship Sommers Cap^t. [Eustace] Peacock arrived here from Bombay full [laden for] Europe, his reasons for takeing this place [are] entred after our Consultation of y^e. 25th. of [the same month].

10. Your ship Duke of Cambridge Cap^t. [. . .] Arnold arriv'd here from Bombay the 23^d. of [March on her] way to China, being let out to freight, at eighteen [thou]sand rupees, Mess^{rs}. William Phipps, & William [Ster]ling supracargoes, she saild forward from he[nce] the 3^d. of Jun^e.

11. Your ship Avarilla Cap^t. Hurst arriv'd [here] the 20th. ultimo, haveing touch'd nowhere since she left [Madei]ra. We suppose y^e. Bouverie and Aurengzebe to have put [off] the Cape by their not being yet arriv'd, We expect them day[ly] & cannot well dispatch y^e. Avarilla for the West coast for want of the stores that are aboard them, the souldiers landed for refreshment, & the treasure is brought [as] security, whilst the ship contin[ues].

[big ship]
[reason]
why neither
the
[Cardigan]
nor Hannover
[can be sent
Ship
Bouverie] or
Aur]eng-
Zebe thought
[fitt]est.

12. We are in a great forwardness towards dispatching one of yo^r. biggest ships from hence by the latter end of September w^{ch}. shou'd have been either the Hannover, or the Cardigan according to yo^r. standing order, as they have been longest out of England, but haveing been employ'd from the Bay to Surat & Persia, they are under strict orders to return thither, & left part of their stores, & Provisions ashoar upon that presumption, the Hannover likewise had a full loading back of Cotton, & the Cardigan in all probability will bring freight Goods for the Bay so that we apprehend we must be forced to send you either the Bouverie or the Aurengzebe.

[. . .]
[mi]ght easily
have saved.

13. We wrote yo^r. Hon^{rs}. by the Stretham how we had been disappointed of salt Petre from the Bay, & what would be the consequence, unless the measures we had taken for a speedy supply, should succeed, Our advices luckily got down in time, & wth. the latter End of the monsoon we rece'd two thousand baggs, w^{ch}. will be sufficient for our September ship, but the freight of it is an article that might have been entirely saved, since three of our ships from the Bay, took in much y^e. greater part of their cargoes here.

[F]ew ships
from hence
[can be]
made sail-
worthy
[with less]
yn. 2,000 bags
of petre.

14. Very few of yo^r. ships that load from hence can be made sail-worthy wth. less then two thousand baggs of Petre, so that yo^r. Hon^{rs}. are like to be gluttet for ever wth. that commodity, unless some other method can be found for giveing the ships sufficient Kintlage.

15. The list of all shipping to, & from this Port, fro[m the] departure of the Recovery to the day of this ships [departure] comes p[ersu]ant to yo^r. orders in the Packett. [Ships arrivd &c.]

16. We intended pursuant to yo^r. orders of the 17th. of Ap[ril 1708] [to] have kept the Frederick till September, but finding y^e. Grantham, & Sommers fully determin'd to proceed fo[rward] it put us upon considering, that those orders being Give[n] of Warr, tis most probable, that yo^r. Hon^{rs}. had an Eye to [have] sufficient convoys for the Winter ships, & contriveing [instruc]tions for them to Joyn in, & now that we are in Peace [our] Difficulties are at an end this being a proper season to proceed for [. . .] We were of opinion you would not approve of our [loosing] this oppurtunity to send y^e. Frederick in Company [with] such good ships, & save you any more Demoorage. Your Hono^{rs}. [were] pleas'd to consider, whether the aforemention'd orders, [doe] still remaine in force or be repealed. Reasons why we did not keep the Fredk. till Sept^r.

SECONDLY CONCERNING GOODS SENT, AND TO BE SENT FROM EUROPE.

17. We have rece^d one hundred Pipes of [wine ꝑ] the Avarilla wth. a letter from M^r. Thomas Morgan [and Co.] that loaded them on board, severall of the Pipes are [in] bad condition, of w^{ch}. you have a particular acc^t. in our [Consulta]tion] of the 29th. ult^o., & we deferr saying any thing of the other sto[res] brought us by the Avarilla, till our other Ships arrive [and we] receive the whole Quantity sent us by them. 100 pipes of Madeira Wine recd. ꝑ Avarilla wth. an accot. of their conditn

18. It is impossible for us at present to make a[ny cal]culate of what manufactures, Goods, & stores will be [necessa]ry to send us for the year 1716, & the longer we deferr it, [our es]timate will be allways the more exact, but as we observe [you^r.] Hon^{rs}. makes yo^r. provisions of woollen Goods so very early in [the] Year, we think it will be for yo^r. service, to let you know that [they] have now remaineing in the Godowns, three hundred [Bales] of ordinary redd, twenty nine bales of scarlet, thirty [nine Perpetuanos &] three of [about a line lost] Godowns about three hundred, & fivety ba[les] of the seven hundred last deliver'd them by agreement in Consulta]tion] of the third November 1713, besides all w^{ch}. we have reced seventy six bales of redd, Green, & Aurora from yo^r. Generall, & Councill in Bombay, who write us under the 22^d. of March, that being in great want of mony to pay for a parcell of Pepper, w^{ch}. they were obliged to buy for compleating y^e. cargoe of the Sommers, they cou'd find no other way then to draw bills upon us for thirty thousand Rupees, & to send us seventy six bales of broadcloth to reimburse us w^{ch}. by the way will not produce here more then two thirds of that sume, or thereabouts. As it happen'd that we were in Cash sufficient to carry on yo^r. affaires, we have paid the bill for the credit of yo^r. settlements on that Coast, but intend to write them by the next oppurtunity, that as we demand from Europe the full quantity of Broad cloth that will vend upon this coast for any reasonable proffitt, it will be a very great prejudice to the sale of our own, if we have such large Quantitys flung in upon us from other parts. We cannot at present make any calculate of wt. we shall demd.
Accot. of goods in our Godowns.
[Accot. of bales.] received from [Bombay]

19. Haveing given yo^r. Hon^{rs}. an acc^t. of what cloth there is now in Town, you will be pleas'd to consider y^e. quantity that is comeing upon y^e. Bouverie, & AurengZebe, as also what we wrote for by the Marlborô, w^{ch}. will be ship'd of before this can come to hand, & from thence you will Easily conclude, that our demands are not likely to be larger than the last, We fear much less as to the quantity, but 'tis very probable the demand will be cheiffy in Aurora, & other fine cloth, w^{ch}. will raise the amo^t. of the Export, for the Glut is only like to be in the Redds, & Green. [Having] given yo^r. an Accot. [what cloth there] is in town please considr. yo^e. quantity on yo^e. [Bouverie] & AurengZebe wrote for by yo^e. Marlbrô [Demand]. will be chiefly in [Aurora] & othr. Fine cloth

[In]form'd
that there

[. . .]

We are credibly inform'd that there are near Five thousand bales of Broad cloth lying by at Bombay, & Surat and are humbly of opinion, that 'twill be more Your Inter[est] [*two lines lost*] the Worm that will unavoidably breed in [our selling yo^r.] cloth at any Price will by degrees bring the manufact[urers in] disrepute, but of these matters we shall have occasion [to refer] more particularly in our next.

20. We can say little under this head, but what we sh[all have] occasion to repeat when we come to answer Yo^r. Letter by [Ava]rilla, We have been hard at work both here, & at Fort St. [David] in provideing goods by the Last years list, ever since the [dis]patch of the Recovery, though we have inexpressib[le dif]ficulties to contend wth. by reason of the French Inv[estments] that are intirely made in that part of the [Country] whence we receive at least two thirds of all [. . .] and Sallampores, the prizes of their [contract seem] to be ten, & fiveteen $\frac{3}{4}$ Cent higher then ours [. . .] such quantities of [rea]dy mony, it is as much [as we can] to keep our Fort St. David Merch^{ts}. from remo[ving] their habitations to Pondicherry.

21. The Brampoor Chints that come upon [the Frederick] are what shou'd have been sent upon the former, [. . .] was more difficulty in getting them made than we [. . .] and they did not arrive till the Recovery was full.

22. As for the Fort St. David Long Cloth, & salla[m]pores it is part of the contract made by M^r. Davenport in [his] last, we have receiv'd good part off it here, & are of opinio[n Yo^r.] Hon^{rs}. will find it much better Wove, & better cured [than] you have had from thence for some years, thô the [price] is the same, & the Merch^{ts}. had the disadvantage of [sell]ing no Beetela's in that Contract, Our present [agreement] is at the same prices, & we hope M^r. Frederick will see it perform'd well [*about two lines lost*]

23. There are four bales of chints upon this ship, the remaind^r. of what M^r. Davenport had the care of provideing when Warehousekeep^r., but when the Painters brought them in, they appear'd to be so ill done, that an abatement was made upon the painting of fiveteen pag^s. a corge less than agreed for, & we have sent a bale of chints mark'd CHINTS superfine, q^{ty}. five corge that are much better perform'd, & upon finer Cloth for a Tryal, w^{ch}. we doubt not, but will answer your expectation, thô they cost more the doing.

Remdr.

24. The Romalls are the remainder of what agreed for according to yo^r. list, sent us of 1712, these Goods are a tedious while provideing, & much adoe to get them at last.

[FOURTH]LY TOUCHING THE TRADE OF INDIA IN GEN^{LL}. AND THEREIN ANY TRANSACTIONS WITH THE COUNTRY GOVERNMENT.

25. In our last we advis'd the capture, & Ransom of our ship Jane bound in a voyage to Tonqueen, the said ship arrived here the 27th. of February, & we immediatly apply'd to the Governm^t. of Pondicherry, pleading the articles of the Cessation, upon w^{ch}. the ransom bills were given up, & they return'd us a chest of silver, w^{ch}. Mons^r. Boynot had taken from aboard, belonging to the Cargoe, but as for the Capt^r & officers private mony, & severall other articles that were

plunder'd out of the ship, we have not hitherto been able to get any restitution made the Captors, pretending that no such thing is Customary in Europe, w^{ch}. seems very improbable, & unjust & therefore we still insist, & if they do not do us Justice, we shall give you a further acc^t. of this affair in our next.

26. It was by meer accident that we had the articles of the ce[ssation] [about two lines lost] that for the fu[ture. . .] Acts of Parliament, & other public papers as may [. . .] relate to the trade of these parts, & the Government of your [Count]ries.

[Acts of]
Parliam^t &c.
be sent us
for ye
future.

27. As to the present state of our Trade in Generall [it is] much better than last year, except the Manhilla bra[nch] is very near lost to us, the vast quantities of all sorts of [Europe] Goods thrown into Peru, & Mexico, but chiefly the former [as] the peace was made, & the trade from China to Peru [by] ships for some years past has beat down the prices so low, that the Galeon of the last year return'd fr[om] Spain to Manhilla wth.out mony, haveing left [. . .] Acapulco unsold; for w^{ch}. reason the Galeon went from [Manhil]la this time twelve month^s without a bale of Good[s . . .] Spaniards pay no debts till a rich Galeon arrives, [the] trade is at a full stop both in Manhilla & all you[r fact^s] that trade thither & yo^r. [Inhabitants of that place . . .] Goods, & debts between three, & four hundred the [. . .] remaineing in Manhilla, not one Dollar haveing [been ex]ported from thence this season, & very few the yea[r] w^{ch}. is a great prejudice to the carrying on of the trade [in Ben]gall, China, & other parts.

The trade in
general much
bettr., except
ye . Manhila
branch wch.
is very near
lost.

28. We have not yet heard any news of Pyrates in [. . .] except Mons^r. Boynot may be reckon'd one, who by [order] of the King of France's Commission has plunder'd [severall] China Juncks, & other vessells, upon w^{ch}. it is beleiv'd that [many] Ports of that Country will be shut up to the French nation [if] not to all other Europeans of w^{ch}. we shall know the truth next season, & in [the me]antime Mons^r. Boynot is a[rrest]ed, & taken out of the command, & goes home Prisoned [about two lines lost] & about fourty Europeans, English, Dutch, & french ran away from two French men of Warr in St. Augustin's Bay sometime in October last wherefore we hope yo^r. Hon^{rs}. will think of some sure methods to prevent that Knot of Pyrates from gathering to a head again, w^{ch}. will effectually ruin what trade we have left, & bring very great difficulties upon your affaires.

29. As for the Country Government round about us we are in perfect peace, & quietness, but the Chinjee Government is embroild by the death of the Raja Surop Sing, & all the Country about Metchlapatam, & to the Northward of it, is full of troubles, so that we can have little hopes of any Quantity of Goods from those parts this season.

30. Our last letter from Bengall dated the 22^d. Aprill, advise th[at] the intended present for y^e. Mogull was then loaden [in] boats bound to Patna, & only waited the arrivall of a Gusbardar sent down from court to attend it, in hopes he wou'd also bring orders for defraying some part of the Expences in passing thro' the Country; M^r. John Surman, Coja Seerhaud, y^e. Armenian, M^r. Edward Stevenson, & M^r. Hugh Parker, are the persons pitch'd upon for a chief, & Council to go to Court upon this affair, & as a token of the King's favour, & willingness to receive the Present, he has order'd us a Hosbullhookum under y^e. Grand Viziers seal directed to all subahs, Duans, Govern^r. of Provinces &c^t., wherein he commands that all y^e. privileges, & Freedom of trades, w^{ch}. we enjoy'd under Aurengzebe be continued unto us, we have reced an attested copy thereof for ourselves, & transmitted another to Bombay.

Factor.

34. As we shall have occasion to write fully under this Head [in our] next when we come to answer yo^r. Hon^{rs}. letter of the 13th. of [. . .] we shall only take notice here, that John Mason our [Secretary] died suddenly of a malignant feavour the 20th of May [last &] finding no will by him, the Paymast^r. Land custom^r. & Nathaniel Turner, our present Sec^{ry}. are appointed to take care of [his] Effects.

35. Abel Langelier Factor departed this life the [26th. June last.]

36. We have appointed M^r. Tho^s. Gray youngest of [Council] up at Fort St. David and necessity has obliged us to take Rob^t. Berriman, a factor bred under M^r. Haines[a line lost] has kept the books of that settlement, dureing M^r. Robert's time and ever since, he is a capable man, & very well vers'd in yo^r. affaires at Fort St. David, for w^{ch}. reason we did not care to part with him at this Juncture when assistance of that kind is so much wanted, His circumstances requir'd him to go a voyageing for the maintainance of his family, w^{ch}. we had no other means to prevent, than by takeing him into yo^r. service and therefore we humbly hope you will not disapprove it, but tye him down to a residence at that Place, where he will be very assisting to yo^r. affaires. M^r. Tho^s. Frederick and M^r. John Berlu are his securities.

37. One Charles Peck son of old Dep^{ty}. Peck, that came out Purser upon the seperate ship Joseph, having leave to remaine ashore here whilst his ship went to Bengall, made a visitt to M^r. Raworth at Fort St. David, & happen'd [to be in] Fort during the Troubles. Our Consul[tations] 21th. of May wth. the attestations entred after [them] show yo^r. Hon^{rs}. how active he was in all [that] mischief for w^{ch}. reason we thought ourselves oblig'd to confine him till the arrivall of his ship, when we shall oblige him to return to Europe.

[at F.S.]
D. to ye. last.

38. Styleman Gostlin Writer, and son of Capt. Armiger Gostlin an old Inhabitant of this place was the only person of yo^r. covenanted servants that continued wth. M^r. Raworth in the Fort till the very Last, he is very Young and M^r. Raworth took a great deale of paines to seduce him w^{ch}. is all that can be pleaded in his behalf. We begg leave to refer you to our Consultation of the 7th. of Aprill, for our resolutions concerning him till we know yo^r. Pleasure.

39. M^r. Tho^s. ffauzett formerly order'd from Vizagapatam to [reside at Ingeram] again, & sending away [. . .] Complaint [About two lines lost] mony [. . .]ment, & before we could make enquiry into the tru[th] of the] matter, or transmitt a cobby of the charge to M^r. Hastings [or his] order to his defence, M^r. ffauzett (instead of going to Vizagapatam where he was

recall'd), of his own accord came directly hither & brought the cheif merch^t. wth. him to justifie the truth of [his com]plaint (though we think M^r. ffauzett highly to blame [for com]ing hither on his own head) we intended to have call'd [M^r.] Hastings hither wth. the turn of the Monsoon to answer [his] charge, & severall other particulars alledg'd against him [on] receipt of your letter by the Avarilla, & now M^r. Jennings [came] down pursuant to yo^r. orders, as soon as he can settle [down] and we hope by our September ship we shall be able to [. . .] issue of this complaint against M^r. Hastings, w^{ch}. we ca[n give] no Judgement of, till we hear what he has to say in hi[s] defence, but we hope he will acquit himself honour[ably that] he may take the station you have been pleas'd to a[ppoint] him at this board.

40. We have had considerable desertions among [the Mi]litary at Fort St. David since the troubles, fiveteen of those that adher'd to M^r. Raworth wth. three serjea[nts] went away at once in a body wth. their arms from the [office] guards where they were posted among others, & ma[rched to] the Tanjore Country, where they took service under the [Raja] who is at present engaged in Warr wth. his Neighbours, [We] have not been able to retrieve them all, but some have [since] recover'd, & severely punish'd, these, & severall other disord[ers] that have lately happen'd may be very Justly call'd [for con]sequences of M^r. Raworth's debauching that Ga[rrison] by setting up for himself, for they can have no caus[e of com]plaint being duely paid the beginning [of each month] & no deduction suffer'd to be [made] except for dyet & clothing but most of the soldiers so bad will stick at no wickedness when can gett to a head of w^{ch}. there have been [. . .] Fort St. David revolt, it is absolutely necessary for the preservation of your estate, & the National interest in these parts, that they sho^d. be speedily made sensible of their being subject to the Laws, & Punishments of great Brittain, as well here as elsewhere, otherwise we are humbly of opinion Yo^r. Hon^{rs}. will have occasion to repent of yo^r. lenity when it is too late.

41. But few days since about fifty of the ablest Europeans of the free guard comp^y. in this Garrison that has allways the liberty to take the evening air wthin the circuit of yo^r. bounds got together in some of the Gardens wthout the Town, where they were drawn up by one Marvel a private Centinel of a Villanous disposition, & after they had arm'd themselves wth. clubs (their own arms being always kept in the ffort) he divided them into small Parties of six men each, & sending them by severall ways through different streets he assembled them at y^e. sound of a Hunting Horn in the Bazar, & fell upon Your Peons that are appointed to watch the black Town knocking down every body that stood in their way; about twenty black people being very much wounded before the Guards cou'd get up to Quell them, & the next morning when we came to punish the ring Leaders, the very first had the insolence to say upon the parade in a publick manner (so as to be heard by every body) that he could bear a whipping very well & knew that was the worst punishment we had a power to inflict, however he alter'd his opinion before we had done wth. him, & we only relate this instance to convince Yo^r. Hon^{rs}. of the necessity there is for the Publick good, that such incorrigible villains shoud be made publick & severe Examples, We hope to save the lives of all those that were wounded, & some of the worst of these fellows must be sent off the shoar in Irons being of no [a few words lost] [else they will cerrupt] the rest of the Garrison.

42. What we have at present to offer under this head is [that the] Generall books are ballanceing, the severall acco^{ts}. of rem[aines] being duely past in Consultation, & deliver'd the Accom[p]tant to compare, We hope all will be perfected before M^r. 43. When Capt. Phrip went hence for Euro[pe in the] Year 1711 he left a parcell of Benjamin wth. [Mr. Robert] Raworth to be dispos'd of for his, & Mr. Jeremiah [Harrisons] accounts, The said Benjamin not being sold, when [y^e. President] arrived it fell into his hands among other Goods [as Mr. Raw]orth's Attorney, Accordingly he sold it in the Ye[ar] 1712 and brought the produce to Mr. Raworth's acco^t. [say]ing but it was his, he has since acknowledg'd it to [belong to] the persons aforementioned, & therefore as the [produce was] lodg'd in your cash, We have paid Capt. Phrip h[is half] & wrote off the other half to Mr. Harrison's acc^t. towards makeing Good the thousand Dollars he stan[ds indebted] upon your Books at Bencoolen.

Consultations.

44. We begg leave to referr Yo^r. Hon^{rs}. to [our Consul]tions of the 16th. of Feb^{ry}. last y^e. 13th. & 18th. of Mar[ch] and 20th. Aprill and the 10th. of June, w^{ch}. con[tains particu]lars of all that has past in treaty between [the New] Comp^{rs}. Merch^{ts}. of Metchlepatam. Hope Mr. Henry [Da]venport hath inform'd how that matter stood when he left Madrass, which cant be don so well in writing. The Companys earnestness to have this concluded as well as we could, & the order of court w^{ch}. they procur[d] and produc'd here by means of the Armenians. determin'd us not to let them go away from hence till the debt was discharg[d].

Why the

45. We can assure Yo^r. Hon^{rs}. wth. the greatest sincerity that we left no means unessay'd to beat down the sume, & finding at last that they were resolv'd to make another effort in England upon some Incouragement they had reced from thence (w^{ch}. we apprehend wou'd not have been pleasing to you) We at last agreed to pay them y^e. sume of eighty thousand Madrass Pag^s, w^{ch}. is an abatement of fourty four thousand, five hundred, seventeen pag^s. upon their bonds & no more than two, & a half $\frac{1}{2}$ cent Interest upon their principle debt, We heartily wish we could have done it cheaper, but there was no roome left for private negotiation, after they were once satisfied from Yourselves that you had order'd the debt to be paid, & the President being obliged to pass his Word before Wittnesses (when he made y^e. former bargain wth. Quolla Vincatramia for his share) that in case others rec'd more, he shou'd receive the same in proportion, We could only make him pay interest for the fiveteen hundred pag^s. then advanc'd him in part, & so let him come in for his share among the rest, we have taken full, & ample discharges, from all the heads of the Merch^{ts}. Tashereift them according to custom for a Public demonstration of their being well satisfied and sent them away to their Habitations.

[46]. We must not omit to acquaint Yo^r. Hon^{rs}., that when we came to pay the Merch^{ts}. this mony in Consultation, Aga Perie an Armenian Inhabitant of this place, & Correspondent to Cojee Babba in England came, & demanded a considerable sume of mony upo[n pretence] that he was employ'd by the [one line lost] He give any [. . .] to their [a few words lost] him any power to act in their behalf, & all he could prove [. . .] they gave him a letter address'd to Your Hon^{rs}. to be inclosed [to] ffriend of his to deliver it. We demanded therefore of Aga Perie to state an acco^t. of the charges he had been at, & if they app[ear rea]sonable, we wou'd allow them, but this he absolutely [refused] we think ourselves no way obliged to encourage hi[s consider]able demands upon these poor people, especially [Consider]ing, that his haveing intermeddled in an affair [not] concerning him, has undoubtedly occasion'd Yo^r. [spend]ing considerable more for accomodateing the [. . .] than we need to have done, cou'd we [have followed the] method we were in before.

GENERAL LETTER FROM FORT ST. GEORGE, TO THE COMPANY, DATED SEPTEMBER 29, 1714. RECEIVED PER AURENGZEBE MAY 2, AND JOSEPH MAY 10, 1715. [Coast & Bay Abstracts, Vol. 1, pp. 485—502 (India Office Transcripts).]

1. Their last was of the 15th July per Frederick, Duplicate and Triplicate thereof sent per Somers and Grantham they all sail'd the 18th.
2. Shall now give a full answer to the Companys General of 13th January 1713-14.

FIRST CONCERNING SHIPPING SENT OUT AND RETURN'D.

3. Glad all the Companys ships dispatcht home Anno 1712 arriv'd safely. The Desbouverie arriv'd Madrass the 22th July, Eagle Galley and Borneo were in July at Batavia—Hester gon for China, the Aurengzebe left the Arabella at the Cape.

4. If the Arabella escapes the Pyrates her expedition to Madagascar will be of great benefit to the West Coast affairs where hath been a great Mortality for two years, fear Shee or the other two Ships can do little at Borneo, may perhaps get Pepper on the Coast of Java. The Dutch very severe with the English at Batavia since General Rebecks death and the Heer Van Zwolls Succession.

5. Have by the Bouverie and Cardigan sent the Bay their full remainder of Stock in rup^s. as per Letter of the 1st September, have sent them 7 Chests more of Silver not coyn'd for buying Stores &c^s. desir'd for Madrass.

6. Wish the Comp^{as}. Severitys mention'd in the 14th Par^a. may keep the Captains to their duty. Captain Goodman's running the ship ashore at Portsmouth and breaking off most of the false keel obliged him to dock her in the Bay and his Protest shows he did it to satisfy his freighters for Persia, this prov'd a Service to the Company for Securing her returning Cargo. Reason for Employing the Dartmouth was not because a favourite ship but Commanders as do their duty ought to be prefer'd before such as act contrary and ly under Censure.

7. The Tappy Peons between Madrass and the Bay taken off so soon as were certain of the peace the Advantage not equal to the expence except in time of war, shall follow the directions touching the dispatches of Captains homew^d. bound and particularly with regard to Pyrates the Countrey Trade and Comp^a. will be great Sufferers by them if sail with Eng: Colours hope the Comp^a. will think of a way to prevent such mischiefs shall give the needfull directions and Intelligence to all places but the People in India are of Opinion the only Security is to forbear Trading where they used to haunt.

8. Shall mannage all disputes with Com^{ers}. in Writing as order'd Par^a. 17.

9. Shall observe the Companys opinion and orders about letting out Ships to China when lying on hand; Bengall has now better Opportunity to employ them; ships ought to be ready by the 20th May for that Voyage.

10. Refer to last years Acco^t. about the Country Vessells, have only the Madapollam Yatcht on hand of 20 tons Acco^t. of her earnings and charge sent if sail'd better might do more with her, when she costs more than she earns shall sell her. The President arriv'd from Bencoolen the 7th August was sent to Bengall the 25th to be refitted and loaden with proper Goods for the West Coast the Acco^t. of her expences on the West Coast order'd to be annually sent from thence to England.

11. Sloop Marys Expedition to Batavia with Secret orders was transacted at St. Davids and not getting a Suffic^t. Acco^t. from him could not send any. Several of the Comp^{as}. Stores put aboard her were order'd to be Sold at her return but can't find it was don the Vessell was Mr. Raworths.

12. Shall observe the Companys orders as to the manner of Cap^{ts}. registering Goods the Sec^{ry}. to blame, hope Captⁿ. Phrips Register will be to Satisfaction.

13. The Comp^{ys}. Encouragement design'd for Captⁿ. Martin will doubtless excite others to venture their lives in defence of the Companys estate.

14. The Company ordering ships on the highest terms to be first sent home have advis'd the Bay to dispatch the Cardigan and Hannover first to fill up at the Fort and do now send the Aurengzebe in the fair Season being Older than the Bouverie.

15. Since the Owners of the Satisfaction would not apply to the Company to help them must blame themselves for their suffering.

16. Averilla sail'd for the West Coast the 31th July with 65 Bales Longcloth and Sallampores and Provisions and Stores amo^{unt}ing to Pagodas 5993 : 25 : 30.

17. On Captain Luhomes request have supply'd the Aurengzebe with 600 bags petre she sayl'd 17th August to St. Davids with timber plank and Stores and return'd the 31th with what Bales they had.

18. Cardigan arriv'd Madrass from Persia the 18th August and putting some fr^{ee}. Goods on shore sail'd the 3d instant for the Bay with the Remainder of the Bay Stock being Rup^{es}. 168000 and 7 Chests Silver.

19. August 20th the Bouverie Sail'd for Vizag^a. with Mr. Wm. Jennings and 20000 Pag^{as} and thence to the Bay with Rup^{es}. 406000 and the Stores for that place on her and the Aurengzebe.

20. Have advis'd the Bay what Bales can provide on the Coast this Season and to Supply them with full Stock of Petre for one Ship or more at all times. By Ships filling up at Madrass can report the Cargo's but not for a Septem^r. Ship unless can receive Bales from the Bay in March can send Ships to the Bay but then can't return a Septem^r. Ship except it be Small, will hasten away all Ships touching at the Fort.

SECONDLY CONCERNING GOODS SENT & TO BE SENT FROM EUROPE.

21. Woollen Goods and all other particulars invoiced on the Averilla Aurengzebe and Bouverie for Madrass rec^d. well except as in the following remarks.

23. On opening some of the Bouveries Bales of Cloth whose Surplices were wett find the Aurora and Scarlet to be far inferiour to the Musters in the Packet and worse than ever saw any of that price on which have return'd Samples together with the Musters rec^d. to compare them, also a Muster of Bale 1264 of which rec^d. none in the Packet reason for not Opening the Residue if they should come out as bad will create a great deal of trouble and prevent the Merch^{ts}. taking Goods on Invoice hereafter.

24. Eight Bales of Auroras per Bouverie wanting from 1449 to 1456 and 8 other Bales rec^d. from 1440 to 1447 Suppose mistook in the Shipping.

not answer; the Reference to the Bouveries Patterns was on Acco^t. of Colours only.

30. Directions in par^a. 31th and 32d about the List of demands comply'd with last year and shall be annually for the future.

31. Refer to former Letters why the Joynt Stock Merch^{ts}. should have Woollen and other Europe Manufactures, those at St. Davids can't comply with their contracts thô have usually more Money adv^a. than the Amo^t. of the Goods bro^t. in, if had broad cloth it would be worse and be a Clog on them as was experienct Anno 1711 they desire no more and declared Mr. Raworth forced them to meddle with it.

36. In Answer to your 44th Paragraph touching Europe and Pegu [Lead] we have always observed that the Natives and other Inhabitants [always used] Pegu Lead for cheapness on such occasions as we mention'd wh[ic]h persuade us upon doing the same and therefore it cannot be attended wth. Iron Hoops, the Wine itself proves good and [according] to your directions we supplyd York Fort with six pipes Fort I[ngeram] with four, Vizagapatam wth. Two, and Bengall wth. twenty [eight] desiring them to dispose of what they do not use to the best [advantage] and we shall do the same here when oppertunity offers, but the Town is full of what Capⁿ. We have at this [time lying] in Warehouse upwards of One thousand Ba[les] of [wollen] goods, as you may please to observe in a particular acco^t. of [them] that comes in the pacquett N^o. 12, and the merchants have [about] three hundred remaining in their Godown which is full as [much as] they will be able to vend between this and January [next the] French ships from S^t. Maloes have likewise imported bet[ween] two and three hundred bales of Scarlett, yellow, and Green cloth, which is much in esteem by the perfect goodness of the dye thô the cloth does

not seem to be so well manufactured as ours, [out] going quantity being considered wth. due regard to what we [wanted] by the Marlborough, We are of opinion it will be most [to our] Interest to forbear sending any quantity by the Shipping [of] 1716 and have drawn our List accordingly for if once the place is glutted wth. an unreasonable quantity it must [either spoil] and perish or be disposed of for less profit than what we [get] upon Bullion, the latter would undoubtedly [lost] [39 . . . lost] present posture of your affairs at Bombay, Surat and Persia should incline your Hon^{rs}. (according to what We took the liberty of hinting by the Frederick) to order part of those vast remains to this Coast and the Bay, rather than let them lie by and perish, We must desire you to forbear sending us any of the same species for one year at least, & to send us only what we have markt wth. a V in the List, which is for the expence of shipping and our Inhabitants.

THIRDLY TOUCHING INVESTMENTS IN INDIA OF GOODS PROPER FOR EUROPE.

41. We shall have all due regard to the List for Investment now receiv'd, but as we have formerly advis'd it is not possible every ships cargoe should come exactly agreeable to the sortment, and for instance the Longcloth now coming in faster than the salampores, this ship brings more than a proportion of the former, or else we could not dispatch her in time, but the January ships will bring the remainder of the Sallampores, and consequently they will be in time for the September sale.

42. In answer to the buyers complaint of the Ordinary Longcloth in Paragraph N^o. 47 there was a great deal upon the Dartmouth & Mary from this place far exceeding any that has been seen here for some years, though some was taken in on abatement that rather than let the ship there would be just cause for complaint, and us'd all possible [means] to have your buisness better done, Our Letters if perus'd well show where the fault lay, and their goods by the Howland will convince your Hon^{rs}. how little regard they had for your orders [and] ours. We are very carefull in sorting as near the Musters as p[oss]ible, and a great deal of Cloth is annually turn'd out, & it is so [great] comfort to us to read in your 48 paragraph that though the Vizagapatam Long cloth N^o. 1 : 2 : is generally well made [and] good, Our Long cloth No. 1 : sells at the same price though Invoyc'd cheaper by eight pence in a Piece.

43. The Longcloth mark'd W mention[ed in] your 49th paragraph is made at Woriapollam within forty [miles] of Fort S^t. David to the southward and is undoubtedly the best manufacture of any in these parts, We found fault wth. [that] parcell of Cloth you are pleas'd to mention both for thin[ness &] price, but to no purpose as long as the managment was in [the] same hands, We are now providing a larger quantity and [also] beleive it will answer your expectation, though the French Agents are at the same place and providing the same goods [at] ten to fifteen % Cent dearer than we have hitherto given.

44. As to what you are pleas'd to [write] in the 51st and 52^d. paragraphs touching Salampores, those [of this] place % Dartmouth, Mary & Howland, were at least [ten %]cent better in weight and fineness than w^t. Your Presid^t. fo[und] in the Godown at his Arrival, and great difficulty we had [to] prevail with the Merchants to let us sort them to the numbers [they] did, We can say nothing to those of Fort S^t. David, but [what] we wrote them upon sight thereof that they must expect the heavy weight of your displeasure, As for those of Vizagapatam we have often wrote to keep to the due lengths & breadths if possible,

45. [About one line lost] concerning Gingham and Succatoons which are entirely left out of this years Contract, and what Gingham went on the Frederick where the remains of our last years agreement.

46. We will endeavour to mend in the small quantity of Moorees now Order'd, but it is very well known to all persons, who have been here of late years, that Moorees are at least twenty p Cent dearer than they were seven years agoe, there being a vast consumption upon the place and a very considerable Export, every year for all parts of India.

Beteelaes of
40 & 50
Coveds.

47. As to the Beteelaes mention'd in your 56th and 57th Paragraphs those of 40 and 50 Covets made here are sorted up to the musters, and now we abate upon the quantity 'tis to be hop'd, the price will rise again in Europe, the French make large quantities of the same at dearer rates and not at all better perform'd than ours formerly at Fort S^t. David. We are sorry our Oringalls by the Dartmouth prov'd no better the fault must be in the sorters for no complaint was made of them at the board, we will endeavour to mend in what you have now order'd, but there is no such thing to be had in these parts at present, as Beteelaes of a delicate small wiry even thread at sixty pagodas p Cordge. As for those of Fort S^t. David we have often wrote them that they were no Oringalls but a meer Cheat impos'd upon them, being made at another place and never cost more from the Loom than 40 Pagodas, what Answers they return'd may be seen in the copy book of their Letters, but we could never have redress and therefore entirely forbad them.

50. We did observe the Chay goods to be dear when [you] bought them and gave your Hon^{rs}. the reasons that they were only for [a] tryal made in our own bounds, and therefore we sent so small a quantity, but as for those you are pleas'd to mention in your 61st paragraph formerly sent upon the Martha 170^g it is w[idely] known they were brought up by the New company's Matchlepatam Merchants after the Breaking up of that Factory, th[δ] they were part of the last Contract made by Councillor Pitt, all the Owners were necessitated to sell them at 25 to thirty p Cent loss, we have compar'd those prices wth. the prices the Dutch [Com]pany now give at Matchlepatam and find the latter to be th[irty] p Cent more, we also consulted the Matchlepatam Merch^{ts}. when they were here and not being able to bring them at [as] near the prices yo^r. In answer to what your Hon^{rs}. write in your 69th Paragraph touching Investments we have always publish'd and every body knows we will buy long cloth and sallampores of any person that will bring them in, be the quantity never so great, nor have we ever refus'd any that offer'd, but there are none made here for sale that will come near to our musters, nor can any private person whatever provide a quantity unless he give out his money before hand; neither have the french nor Dutch been yet able to effect it, though it has been often Essay'd, and Sunca Rama your chief merchant here, is known to be concern'd by his brothers and relations in all Europe Contracts made upon this coast, but it is only here that such quantitys of goods can be provided without an advance, and thô it is not reasonable to expect that we should buy it cheaper than our neighbours, when they advance money and we do not, yet we can always make appear that their course goods are dearer than ours, thô they take double and treble y^e. quantitys of fine goods in proportion to what we do which will be plainly seen in the Lists we send in the packquet N^o. 15 of the French and Dutch contract prizes which are exactly drawn from Sunca Rama's books that has a brother concern'd in each of them, and resides himself at the Nabob's Camp, that all his buisness may goe the more currently on.

59. At the close of the Lists for Investments y[our] Hon^{rs}. are pleas'd to say tis discouraging to see the private [Ships] bring home Oringall Beteelaes so far exceeding any you [have got] which will sell for one hundred and eighty shillings and [none] of yours for more than seaventy one, we have answer'd this partly [in] our last years letters, and doe again assure your Hon^{rs}. they are [not] Oringalls nor had we ever any Orders to provide that sort of [goods] we went by the sortments of former times as all our Lists [have] seem'd to refer thereto, but now we know your pleasure we shall endeavour to procure the same goods, thô we are of opinion [that it is] the smallness of the quantity that makes them sell so well in [Europe] and they are very difficult to be procur'd here, we [sent 2 small bales per Howland for a tryall, cost 75 pagodas a corge, hear nothing of them so] suppose they were not opened: We likewise sent a parcell upon the shipping of last Season and when we know how they prove we shall be able to please you better, for we are not now sure what sort it is you mention are sold so well, there goes sometimes home for presents Beteelaes that cost here One hundred & sixty pagodas $\frac{3}{4}$ Corge, but the usuall sorts which we observe the Cap^{ns} buy if they can gett them cost about One hundred Pagodas to One hundred and twenty, of which no great quantity can be made in a year and beside the French buy them up at any rate however we hope to procure the quantity you direct.

Lewis had been examin'd on this subject without fear of coming into trouble, he would have given a much more faithfull Account than M^r. Bullock who was the party concerned.

[the] profit which this place produces, and the Grants ne[ver] confirmed by the Mogull since the conquest of the Cou[ntry.]

Of the
Present, for
the Mogull.

64. The Present for the Mogull was gone [forward in] company with the Kings Gusburdars before the receipt [of your] Letter, this King Faruckseer had heard of our prepar[ations when] formerly he resided at Patna, and being now settled [on his] Throne by the death of all the Competitors, it was not [deemed] adviseable to defer sending it any longer, especially [because] he has always shown a peculiar

regard to our Nation, an[d] of which you have at the time he marchd from Patna [to con]tend for the Empire when he took a vast sum from [the] Dutch by seizure, and accepted a small offering (in co[m]p[arison]) from us very kindly, wth. promises to repay it when he [came to] the Crowne.

65. Your Hon^{rs}: will have a full account from [the] Gentlemen in the Bay of all measures that have been ta[ken in] this weighty affair, and of the persons that are employd to [ne]gotiate it we have always contributed our best advice as opportunity offer'd which was all we could do at this distance [for the] executive part remaining in them, we have given them full instructions for what relates to [us always] &c^a. with [copies of their] Priviledges as per Letters No. 38 and 39 of the 12th. April If Coja Surhaud be honest he is capable, [. . .] doubt, & though Mr. Surnam is young, he is allow'd to be discreet & well skill'd in the Language, We thought it better to have had Mr. Frankland joyn'd wth. him, but they determin'd it otherwise in the Bay, and as for the rest that goe we have no knowledge of them.

A full acct. thereof your Honrs. will receive from the Bay & they have full instructs. for w^t. relates to us.

66. If such a thing as a Present had never been begun upon, it is very probable your affairs might have gone on as quietly and well without it, but since it had made so much noise that Gursbadars were sent down in King Shawallems time to convey it through the country, and Cojee Seerhaad had been admitted to apply to the Court of the present King concerning it, which was done before we receiv'd your last years Letters, We do not see w^{ch}. way the buisness could have been drop'd without great inconveniencies to your affairs, so that what remains to be done at present is to get what we can in return for the great expence that will unavoydably attend such an undertaking, and if it be only a generall Phirmaund well pen'd it will be what never yet could be obtaind, and may reimburse the Charge in few years by the peaceable possession of all our Settlements without being necessitated to make the usuall Presents.

[If a present] had nev^r. been [bigun] Affrs. might [have gone] as well, but it made such a [noise that it could] not be dropt [without great in-] convenience

67. We have given particular directions about Diu Island and a grant of it from the Crown directly, would be the best Jewel you have in India, there is every thing upon it that can be wish'd or desir'd in such a place, the water is excellent there is great plenty of wood, the Soil is fruitfull to a Wonder, productive of every thing that is usefull and necessary, especially great quantitys of the very best Chay root for painting, there is good harbouring for Vessells & Ships of an hundred & fifty to two hundred Tons, and the insufferable usuage under the Moors Government upon the main land will people the Island (as soon as we are in possession of it) with the most usefull persons for the m[anufa]ctures, and a handsome revenue may be raisd the ve[ry a few words lost] as the Island is already pretty [about one line lost] expences shall be reduc'd as low as possible and wh[en Mr. Hastings] arrives, We propose a thorough debate upon the state of the factory, the result of which shall come God willing by [those] ships.

69. (Sic) We have always been carefull since [your ships] arrival not to increase the number of our Moor Inhabitants [thô it] must be confesd they were too numerous before, and as yo[u are pleased] to observe in your 82^d paragraph there was no policiey [in suffer]ing so many to establish themselves among us, all [we hope] is to be watchfull over them and carry it fairly that [they] have no just cause of discontent, for should we attempt [to ride our] selves of them they are so many that the remedy might [be worse] than the disease.

partic^l. care shall be taken not to increase our Moor Inhabit^s.

70. By Letters lately receiv'd we find your Age[nt] and the rest of your servants are returnd to Ispahawn [having] obtaind the Kings rogam wth. large promises of Justice [and fair] treatment, but as this is an affair in w^{ch}. the chief minis[ters are] themselves concern'd when we consider the weakness of [the] King that is. entirely govern'd by them, it does not seem [possible] that it will ever be adjusted without a considerable Loss [to our] Estate, unless you will use force as the Dutch have often, [done] or part with the most valuable of your ancient rights & pr[ivileges] in those parts, your Presid^t. did make the very same use of the [. . .] from Ispahawn as you are pleas'd to recommend in your [. . .] paragraph, and the Armenians flatter him

that what [they wrote] by his Instigation, did not a little contribute to the good [treat]ment our people have met wth. since the receipt of those Lett[ers].

The unhappy troubles at Ft. St. D. & Vizagapm. are always fresh in our memory. yet God, we not ward agst. the late rash behav^r. of Mr. Rawth. [. . .] to [. . .] put to [. . .] cannot [. . .] farmers [. . .]

71. The Unhappy troubles at Fort St. David and Vizagapatam toucht on in your 83^d. Paragraph are always fresh [in our] memory, and it is our constant study to ward against such blows for the future, yet could we neither foresee nor preven[t] rash behaviour of Mr. Raworth this time twelve months [. . .] it was impossible for us to imagine any man in his [senses] would be since the Company are of opinion that the warr of Fort St. David is well over at last, that we did our best in that whole affair, and that our reasons for setting a foot and concluding the negotiation were good in generall, we can see little reason for our being disturb at Mr. Farmers positive asertion that he could have done better if the management had been left to him, if we knew his reasons for saying so we would endeavour to answer them, but as he never applied to us nor to the Councill where he sat, which was a very great breach of Trust (not to call it worse) if he had any such thing in his power, as he pretends, it was impossible we could choose him out as a proper person to treat of the peace, who had shown so little management in the beginning and carrying on of the Warr, that he was forc'd to sett his hand to his own condemnation, taking the greatest part if not all the ill-consequences upon himself that attended the fatal expedition to Waldore &c^a. for which he gave the directions. -

[Our hopes] came to be [blasted] in our expect^{ts}. [to reduce] expences &c^a. at [Ft. St. Davd.]

72. We had once great hopes of succeeding in all the articles recommended to in the close of your 85th. paragraph viz. reducing the expences at Fort St. David, bringing in usefull inhabitants, to carry on Trade and improve the manufactures, cultivating your Revenues and bettering your Investments, but all our hopes are blasted by the unbounded Extravagance and other unjustifiable practices of the person intrusted at the head of that Settlement, as we have acquainted you fully in our last years letters, we are now daily employd on a reformation but the seeds are too deeply sown to be rooted up without a great deal of pains and trouble.

[Resolute] behav^r. of our people [at Ft. St. David] dur^g. yt. Warr & of Mr. [Raworths] transact^s. since.

73. There is no doubt but as your Hon^{rs}. are pleas'd to observe in your 86th. paragraph the resolute behaviour of our people at Fort St. David will make a due impression upon the minds of the natives in these parts, and prevent their quarrelling wth. Us hereafter on any slight pretence, and we shall nev[er] [. . .] about to lessen Mr. Raworths good services in that [a few words lost] them as will appear [. . .] Fort St. David whilst the warr was depending, and come there never had been occasion for us to call him to account [and we] had a real regard for him, and because we find it [hard for] so many of his friends in England to beleive and [. . .] style us his malicious and inveterate Enemies [plotting] Destruction, but we must have been worse than they [thought of] us, if we had sett tamely still and permitted so conside[rable] a part of your Estates to have been carryed off to [the charge] of a Conicoply for pretended imbezlements, when he was [a] noted Bankrupt that upon your Presidents arrival [he] protested against his being longer employ'd in the Wa[rehouse] and as rich as Mr. Raworths Friends in England woud represent this Conicoply to be, it is well known he ow'd your Govern^r, Mr. Pitt above five thousand pagodas whe[n] he went to England, and Mr. Raworth, his attornie, had [not been able to] recover one pagoda of the Debt to the time of his [going to Fort St.] David, at least that is the only Apologie he ever [could] make for not having done it.

Yor. excell^t. Rules & Methods for multiply^s. Inhabit^s. in all yor. settlem^{ts}. we will have a p^ticular Regard to

75. (Sic) We observe wth. due regard the excellent Methods you are pleas'd to lay down in the latter part [of the 86th.] Paragraph for multiplying Inhabitants in all your se[ttlements] but more especially at Fort St. David, and notwithstanding the malicious and groundless reports that have been [spread] in relation to this place, we have evident demonstrati[on on our] side by the Customs and Quit rents that it never was frequented nor inhabited, be pleas'd to look over the Accounting, the Import and Export register, and account of Quit Rent and other revenues which will effectually convince you [if] your

Orders and Ours had been regarded as they ought, we might have to say something in favour of Fort S^t. David, but at present can only assure you it is one of the finest spots Of Gr[ound] all this Coast, and capable of great improvements W[ith] the care of such a [. . .] tending [that . . .] value for [. . .] 76. The charge on the President for engrossing grain false [. . .] great favour had your Hon^{rs}. been pleas'd to add the names of those that had so falsly accus'd him of ingrossing the grain and other provisions, as mention'd in your 87th. paragraph w^{ch}. is indeed no more than in Justice he might have expected according to your own establish'd rules, but as it seems only a random shott among a great many other that have been made at him since he has had the honour to serve in this post, he thinks it not necessary to goe about to undeceive such as are willing to credit every idle and ill grounded report, but to you his Employers he is and always will be ambitious of justifying himself, and if the most inveterate of all his Enemies can prove even after he is out of this Government, that ever he bought or was concern'd in the buying up of Grain in this place since his arrival except a small part of one ships cargoe from Bengall w^{ch}. was sold at publick outcry to amount of about four hundred pagodas he freely submits to be fin'd to ten times the value of whatever can be prov'd upon him, it is true that upon his arrivall here he did (to save this place from famine and Fort S^t. David from being inevitably lost) venture more money to sea than he was worth to bring in grain from all parts but it was at a time when he could not stir out of the Fort for hundreds of people falling at his feet that were ready to perish wth. hunger and how the importation of larger quantities than usuall can be call'd engrossing or occasion its being dearer when everybody else imported as they pleas'd and one third of all the grain we consume is brought in land ways from the Country is what nobody living can comprehend his innocence is well known here and to all that are gone home even to his accusors themselves he has had the prayers of the poor in this place by always selling it them cheaper than they could have it elsewhere and never saw to this day the Interest of his money as he is well able to make appear, therefore humbly begs your hon^{rs}. to believe him a [man much] better [minded] than to enrich himself in [about one line lost] only person we have here capable of such a piece of service [has] been very ill for a long time, and God knows wether he ever [would] recover, so that it will be absolutely necessary to send us one or more qualify'd persons that understand building in generall and some small matter of Fortification, for we are of opinion your Estate has suffer'd to an Immense sum all over India for want of proper persons to survey and direct your buildings and Fortifications from the beginning, which otherwise would have been so substantially perform'd as not to have needed perpetuall repairs.

already [*nearly two lines lost*] London and we have now only to add that we have receiv'd the Lists of debts said to be due to them, and shall use our best endeavours though there is little hopes of recovering the money.

[Reasons for] not layg. duties upon Toddy [and] Tamarin.

89. We likewise advisd your hon^{rs}. in our 103^d. paragraph by the London the reason why we could not lay new duties upon Toddy, Tamarin &c^a. w^{ch}. we hope will prove satisfactory.

new ordr. for securing the Customs

90. Our new order for securing the sea Customs w^{ch}. you are pleas'd to take notice of in your 106 paragraph to have been hit on too late was no fault of ours, for as soon as we knew the inconveniencye we applied a remedy ; the List of Debts deliver'd in by M^r. Smart was not enterd upon consultation because we did not despair of recovering them, and the whole sum was but inconsiderable, besides. it is always enterd at the close of the register.

Reasons why balls of y^e Sea Customs [Ju]ly 1711 came to be so [dilato]-rily paid in.

91. Your Hon^{rs}. very justly remark the dilatoriness of paying in the ballance of Sea Custom due in July 1, 1711, the true reason of w^{ch}. was M^r. Raworth the Sea customer being orderd away so suddenly to Fort S^t. David, and though he told us that he left everything in good order, We afterwards found it to be otherwise, and M^r. Davenport that had the care of getting in the ballance, will acquaint your Hon^{rs}. what difficultys he had to contend with, The sea Customer himself having omitted entries of his own to a considerable amount, the arrears of Customs have ever since been carefully gather'd and we allow no time but to such persons as are known to be men of Substance, unless we have the security in our own hands. We likewise admit as few recharges as possible, but some will unavoydably happen, let us be never so carefull, though we may say fewer now than ever.

[The Quit] Rents

92. In answer to your 107th. Paragraph concerning the Quit Rents, our rent roll is now always settled in the manner proposd, and the blank left in the Consultations was the Sec^{rs}. -omission totall always to be found in the list of revenues and generall books there have been no dificiencys since your President arrivd, but [on] the contrary a large sum of money recover'd that was in Arrears, and of so long a standing that no body in your service could tell [us] exactly when, or how it hapned.

Directions concerng. entery the payment [of] the Revenues shall be com-plied] with.

93. The directions, in your 103th and 109th paragraphs for entring the payment of your Revenues shall be comply'd with hereafter, the Method we have hitherto gone in, being w^t. yo^r. Pres[ident] found. establish'd in former times, and never till now complaind of, Our accomptant & Secretary have it always in charge to give notice when any persons are backward in payment, and your Presid^t. is never without a private Memorandum of his own which method if kept up in future, there can be no such losses as you are pleas'd to mention.

How the Farmers of the Revenues make their [pay]ments.

94. In answer to your 110th. paragraph the several Farmers of your Revenues make their payments according [to the] tenor of their cowles, and till they are expird, We can wth. Justice make no alteration, the Town Brokers being so small a sum and [being] a very sure man, there is no danger of him, nor of those that ren[t] your Villages who are your Joint stock Merchants, the Quit Rent and Scavengers Dutys are alway collecting & hardly ever compleated at the expiration of the year so that it is not practical to put it into any other method than what we now use.

relatg. to the duty upon Toddy.

95. That part of your 111th. Paragraph relating to the Duty upon Toddy has been already answer'd, and there was no report made of the shops being built in the place where the buffaloe houses stood, because the more necessary buildings here and at Fort S^t. David employ'd all our workemen, but we shall now set about it, and there will be a profit to your revenues thereby, but it is impossible for us to say how much till we see how they lett.

touching the Revenues of Fort St. David.

96. In answer to your 112th. paragraph touching the Revenues of Fort S^t. David our last years letters will convince your Hon^{rs}. that nothing was done towards improvément in [M^r.] Raworths time, and that our earnestness upon that subject was not at all agreeable to him, particularly when [thô wrote to would have

let out the bounds, anno 1712, for 1000 chuckrums less than was] done and finding us determin'd to insist he got an Addition of One Thousand Chuckrums more, but then the year following 1713, for avoiding further debates with us, and for other reasons best known to himself, he unwarrantably let them with [out] giving us any manner of notice, till we were advisd thereof two months after by other hands.

97. We are not unmindfull of the beneficiall Article of Toddy trees mention'd in M^r. Benyons narrative, there are few or none of them that yett give Toddy, but as soon [as] they do, we shall be carefull to raise the rent of the bounds accordingly, the Water courses and the Mold of Trevendaporum ha[ve] been well repaired since the Warr, and we may hope to improve now we have Subordinates that will follow our Orders.

98. It was easie for them to write from Fort S^t. David that the Towns and Villages were rebuilt, and repeopled, and that trade would soon flourish as much as usuall, but your Presid^t. and those that accompany'd him found it quite otherwise when he was there, there being not half the usuall number of Inhabitants, and the Mart of Trepopolore, formerly very considerable, now entirely lost, nor can we expect it will be the sooner recover'd, by the Country peoples seeing us at warrs among ourselves, and the Fort firing at and bombing the Town of Cuddalore, but this is too mellancholly a subject to enlarge upon.

Renters were sold, and yielded no more than Pagodas One hundred and twenty, and as for the more considerable affa[irs] of Tonapa Chittee &c^a. which they pretended would bring y[ou] in above six thousand Pagodas, which was what we had—[a few words lost] the Dartmouth, it was [. . .] nothing could be recover'd in M^r. Raworths time, and tis plain he never designd any advantage should accrue to your Hon^{rs}. thereby it is a very troublesome affair and M^r. Of the

114. We observe your Hon^{rs}: directions in the 137th and 138th paragraph relating to the Military and their clothing, no Officers eat at your Cost here except the Capⁿ. upon duty who is oblidgd to attend the Govern^r. we have always put twenty $\frac{3}{4}$ cent upon the Cloth made use of for the soldi[ers] clothing, which is what we commonly call prime cost, and [the] same is done upon what sent to Fort S^t: David, we may assure you there is no exaction upon the poor men in the Article of Liquors, for there is no Sutler, and they are at full Liberty to [buy] where they find it cheapest, and as to the Article of Cloth- ing [they] are upon a much better footing than ever, no such abuses being suffer'd as your hon^{rs}: seem to beleive, but the Fort S^t: David [Acco^t] from

M^r: Raworth to w^{ch}: your hon^{rs}: are pleased to referr, upon [ex]amination appears not to be fact, for M^r: Baker did not ch[arge] for the cloth [. . .] mentiond [nor] could [M^r: Raworth . . .] cloth the Soldiers in the manner he propos'd for less than double the money, the Cloth itself coming to more than the sum he mentions, and when your Presid^t: was down it appear'd upon enquiry that every soldiers clothing stood him in about four Pagodas, the buisness being only taken out of the paymasters hands, and entrusted to the Dep^y: Govern^r. Dubash, as for deductions at the pay table they cannot be avoyded, unless you will please to alter the custom of paying when the month is out, for the men must be subsisted upon Credit, and all we can do is to take care that such deductions are fair and just, no men in the World are better payd than we pay ours, and our ears are always open to their just complaints, but they are generally speaking of such debauched principles, that nothing but severe discipline, and a power to punish according to the heinousness of the Crime, will keep them from committing such disorders, as we have been oblidg'd to mention in our former Letters.

115. We discharge none of your soldiers till their time is out, nor then neither if we can perswade them to stay, except only such as are drunken and incorrigible fellows, those you was pleas'd to send us this year are generally speaking able men, and they came ashoar in good condition, but we have had a very sickly season by untimely rains, and a great mortality has hapned among the new comers, though no care or pains have been wanting to preserve them, the serjeants are very good men and deserve encouragement.

[Concerng] discharging the [. . .] soldiers

116. We shall not fail to give the necessary Orders to Fort St. David for their annuall Lists to be sent home according to your directions in your 146th Paragraph, but we intend by the January shipping to send your Hon^{rs}. a compleat List of all your servants Civill, and Military, upon this Coast directly from hence, The Topass Soldiers are at different pay as some men are much more deserving than others, but there were severall alterations of that kind made by M^r. Raworths Attornies, we observe your Hon^{rs} determination concerning the ballance due from Raworth and Martin Joynt Warehousekeepers, Viz., that they were equally concern'd in the trust and therefore are equally liable to account for whatever they had in charge, accordingly we shall debt M^r. Martin for his half and give your Hon^{rs}: an exact state of his Account by the January Ships, you are pleas'd to order in the next place, that the bond w^{ch}. Tonapa gave M^r. We shall be very carefull for the future not [to] permitt any persons to come home till all accounts depending [with] your Hon^{rs} are first adjusted, and the ballance paid, nor had w[ee] transgress'd this Rule in the case of M^r. Martin, but that he submitted to leave us what he had in these parts sufficient to an[swer] his ballance as sole Warehousekeeper, if upon his Appeal you should condemn him to make it good, and gave us his bond to a[bide] by your judgment and determination for his half part of the ballance due from him and M^r. Raworth as joynt warehousekeepers, and when we considered these conditions as sett forth [in] the Obligation, he gave us, a duplicate of which you had in [ship] Darbys packquett, we could not imagine nor foresee any of those difficultys you are pleas'd to mention in the close of your [163rd] Paragraph, as he had firmly and voluntarylie tied himself up [to] abide by your determination, without scruple or wager at [Law] however if we have err'd we humbly ask pardon and promise [to do] so no more.

for future no

be p^{er}mitted

are adjusted.

Reasons why
Mr. Martin
was p^{er}mit-
ted to go
home.

127. [Apprehend by the Par^{as}. 150 and 163] where you order Tonnapas Bond to M^r. Martin to be first discharg'd that M^r. Martin stands condemn'd to make good his ballance in Case Tonnipa is not able but we could wish that affair had been as particularly mention'd as the other Ballance due from M^r. Raworth singly, and from Raworth and Martin Joynt Warehousekeepers, because M^r. Martin has wrote his Attornie that the case is referr'd back to us and as the Condition of his bond is to make good the ballances therein mention'd in case your Hon^{rs}. should so determine, consequently your determination is the only security his Attornie has for paying the money into your Cash, M^r. Martin having given no other Orders about it.

Tonapas
bond to
Mr. Martin
being first
[dis]charg'd.

128. We hope the necessity we lay under of letting M^r. Raworth goe to Pondicherry which was fully sett forth in our last years letters to be the only way we had to save and re-establish the settlement of Fort St. David, will prevail wth. yo^r. Hon^{rs}. to excuse that breach of your Standing order, the case was very extraordinary, and attended with such circumstances that we were forc'd to goe out of the common Road and submit to treat wth. a person whose duty it was to obey us, rather than run the hazard of loosing all by driving him to despair, we heartily wish his behaviour would have permitted us to wait the arrivall of this years Shipping, but that was impossible without letting him run further in your debt, and supplying him wth. money to be dispos'd of as he thought convenient, however the just resentments which you are pleas'd to express in dismissing him your service for the embezlements of the warehouse, will undoubtedly have that good effect as to deter others from giving way to the same temptation.

Letting Mr.
Raworth go
[to] Pondi-
cherri.

129. For answer to your 167th Paragraph we beg leave to referr you to what wrote by the shipping of last season touching M^r. Raworths Accounts and Tonnapas effects, [Wee] are not unacquainted with the false and malicious Reports that have been sprea[d in Eng]land by M^r. Raworths friends and [a line lost] us and chiefly by the Presid^t. that M^r. Raworth wth. difficulty got [him] imprisoned, and that he has very considerable effects w^{ch}. could be [come] at if he was not protected, it is no small comfort to us to read that [your] Hon^{rs}. do not doubt of our Justice to M^r. Raworth and our readiness to ass[ist] him, We entreat you to continue in that good opinion of us till you have proof to the contrary, We do assure you (and M^r. Martin could have testyfi'd if he pleas'd) that Tonapa was under close confinement long [agoe] M^r. Raworth desir'd it, and that no means were left unessay'd for discovering his effects, M^r. Davenport and others that are come h[ome] will fully inform your Hon^{rs}. of the same, He still continues [in] close prison, and we are sorry to acquaint you that by Letters rece[ived] from Manilha this year, We are credibly inform'd that the supra [cargoes] of the ship he sent thither on his own Account have play'd and squandred away all the effects, and the ship lies under Water [in a] condition not fit to be repair'd, Our chiefest dependance was up[on] this Article, His houses and what found in them here have been [ful]ly dispos'd of at publick Sale, and the amount thereof paid into [y^r.] Cash in Consulta-

tion of the 5th of August, and in January we prop[ose] to send you a full account of all we have been able to discover.

Mr. Davenport being gone for England Mr. Frederick remains at Ft. St. David.

130. Mr. Henry Davenport being gone for Engla[nd] Mr. Frederick continues in course at Fort St. Davids till your further Orders, but we beg leave to lay before your Hon^{rs}. that in case Mr. Davenport had continued in India the succession [to] this Presidency would have been disputable between him and Mr. Frederick, the former being appointed to succeed Mr. Raworth as Deputy Govern^r. of Fort St. David, and only orderd to take place as Dep^y. Govern^r. if at any time he should be at M[a]drass, and as it has never been a Rule here that the Dep^y. Govern^r. [of] Fort St. David should always be second of the standing Co[uncil] Mr. Frederick would have insisted upon Mr. Davenports [not] being nominated second, and consequently have claimd th[e] right of succession as settled in the last comission wth. your [Presd^t.] brought with him, we only take the Liberty to hint thus mu[ch] that there may [be] no room for any disputes hereafter [which will] be attended wth. very ill consequences, likewise [. . .] Mr. Jennings has more than once represented to us that it does not appear by your Orders that he loses his standing in this council by being order'd to Vizagapatam but we cannot construe the Order otherwise than that Mr. Hastings is to supercede him, though we are at a loss to determine whither you intend Mr. Jennings should hold his standing next to Mr. Hastings or that by being order'd to Vizagapatam he shall no longer be look^d upon as a member of this board the difficulty arises chiefly from the want of a Precedent as no member of this Council has been sent to Vizagapa^{tam} before.

Emmerson sent 3^d of [Council] to Vizagapatam

131. With Mr. Jennings we have sent Mr. John Emmerson a sober diligent young man as third in Council and expect Mr. Hastings here in very few days overland.

[of] a gratuity to Lieut^t Roach

132. We observe your Hon^{rs}. Orders in relation to Lieutenant Roach and shall consider a proper gratuity for him at Leisure.

Messrs. Bennett and Houghtons Factors Covenants come in packet.

133. Pursuant to your Orders we send in the packet N^o. 25 Mess^{rs}. Bennett & Houghtons ffactors covenants and additionall Security bonds sign'd the other persons being at Vizagapatam, we shall forward their Indentures thither and send y^m. your Hon^{rs}. in January.

SEVENTHLY TOUCHING ACCOUNTS.

[Due] regard shall be paid to all L^{rs}. We receive from yo^r. [Accomp^t] General.

134. When we receive any Letters from your Accomptant generall approved by the Comittee of Accounts wee shall pay due regard thereto according to your Order, but this year we have not been favourd wth. any.

Matchlepatam debt.

135. What we wrote by the last years shipping and by the Frederick in July we hope will prove satisfactory answers to your 149th paragraph, touching the Matchlepa^m debt.

[Ware]house Accots.

136. It is a great comfort to us to find our proceedings in relation to the Warehouse Accounts so fully approved by your Hon^{rs}. [as in 150th] paragraph of your Letter now before us, We could never imagine otherwise than the Warehousekeeper ought to be responsible for every thing en[trusted] to his care, and the two Gentlemen censur'd never pretended to d[is]pute it here, thô their friends have done it for them in England nay Mr. Martin particularly sett his hand without any scruple to the condemnation of Mr. Raworth, which we thought [w^d.] have prevented him giving your Hon^{rs}. any further trouble about his ballance as sole Warehousekeeper, your Ultimate Resolution as express'd in the forementioned Paragraph be put in a frame and hung up in the Secretarys and Ac[comp]tants Offices that no person may pretend Ignorance and shall always Repeat it to every new Warehousekeeper before he enters upon that employ.

In what manner yo^r. manufact^s. and goods are

137. The methods your Hon^{rs}. are pleas'd to propose in your 151st Paragraph of mentioning upon our Consultation (when the money is paid in) the sorts and quantities of goods and to whom, also whether the payment is in part or in full

not practicable as to the retailing part of the Warehouse [articles] there are so many buyers and for such trifling Articles, [that the] bulk of your Manufactures are sold to the Joynt stock Merchants and the Amount is carried to their Acc^t. Currant being adjusted monthly wth the Warehousekeeper and annu[ar]ly wth the Accomptant upon the Close of our books there [can be] no better provision made, and lastly as to the bullion we f[ind the] method we are in to answer very fully the end propos'd, by expr[essing] the quantity sold and how the payments are made, in part, or in [whole] besides we never suffer the allowance to lie out longer than the months account is read after the silver is sold on any [pre]tence, having found by experience that all the abuses of [last] years were introduc'd and carry'd on by delays, and by depart[ing] from all regular and established Methods, the better to [prevent] their unjustifiable actions from being discover'd.

dispos'd of by the Ware-housekeeper.

138. We shall endeavour to give your Hon^{rs}. the [satis]faction you desire by drawing up fuller abstracts of the storekeepers, Acco^{ts}. and when we do it is always mention'd for what use, if all the particulars of his disbursements were to be mention'd in the Acco^t. Currant, it would be a very long one and only a Repetition of what may be found upon the generall books, as for the Timber and plank the storekeeper buys & Issues it to the paymaster as there is occasion for it in buildings or Repairs.

Draws ye. Abstracts of our [Ware-house] keepers acco^{ts}.

138. [Sic] Your President thinks himself very happy in your approval of his endeavours to moderate the Fort St. David expences in your 154th paragraph, though they did not meet wth. the success that might reasonably be expected, but on the contrary laid the foundation of all the plague and trouble, that has since hapned, and of all the malicious false Reports, that have been spread abroad to slacken us as if we had acted upon principles of prejudice and Revenge, when we were only doing our Duty according to our Oaths and Covenants.

moderatg. ye. ft. St. D. expences

139. The severall accounts of Remains upon changing hands in any of the offices shall hereafter be entered in a book kept for that purpose according to the directions in your 155th paragraph, and we will also enter those we have now by us in loose papers, that there may be no danger of their being lost or mislaid.

Acco^{ts}. of Rem^s. upon chang. [hands] to be enter'd in a book for y^t. purpose.

140. We have wrote so fully in our last years Letters touching the Garden house at Fort St. David and the unwarrantable squandering large sums of money thereon, that we have nothing now to add in Answer to your 156th paragraph, but that we are of opinion if your Fort St. David Council were able they ought in justice and equity to be accountable for sitting tamely still whilst all that money was lavisht by the D. Gov^r. arbitrary proceeding, without ever letting us know what he was doing, till it was too late to prevent it.

[Concernin]g the Garden house [at fort] St. David.

141. Mess^{rs}. Thomas Cooke and John Legg have pursuant to your Order in the 154th paragraph paid into your Cash in [two] thousand three hundred twenty three Pagodas, eighteen fanams and twenty Nine Cash, [out of] the Estate of Richard Smith deceas'd, and when the Account be adjusted w^{ch}. they hope will be before this year is expir'd, they promise to pay in the Remainder, w^{ch}. will be no considerable [Sum] It may be necessary to acquaint your Hon^{rs}. that the Husband [of] M^{rs}. Mary Feilds, wrote the trustees to keep the money in th[eir] hands till further Orders contrary to his, they hope you [will be] pleas'd to take effectuall care that they may come into no trou[ble] with the husband hereafter.

[Amt pd by] Messrs. Cooke & [out Legg]

142. Augua Pera Calender has paid the Ten Ψ Cent permission and Custom on the Corral mention'd in your 16th [para]graph tho it will not appear upon the Cash book, because the*[usual] course here is for freight & Custom to pass thro the Sea custom^r. Receivers hands, but it will appear in the register and Sea Custom Account for the month of August, the whole Sum amounting [to] Four hundred and two Pagodas, and we shall take the best care [we] can that the returns of the said Corral are not made upon the Shipping for Europe.

Aga Pera has pd. ye. ten Ψ Ct. on his corral accords to ord^r.

The Bulliond^d as order'd

[Concerng] Serrespas debt

143. The several parcells of Bullion mention'd in the [168th] paragraph are deliver'd to the persons therein mention'd, or to their Order.

144. The rest of the paragraphs under this head being a [ready] answer'd under the foregoing, We are now to acquaint your Hon^{rs}. [that] we thought it high time to call upon Surrapa. for his large debt sta[n]ding out upon your books ever since he was at the head of your Joint Stock Merchants, The mortgage bond of houses and Gardens w^{ch}. he form[erly] gave for the said debt, not being sufficient to answer for its running on longer at Interest, pleas'd to be referr'd to our Consultations of [the] 5th and 11th of May the 11th of June and 6th of July for our transactions [in] relation to this affair.

Do. conti-
nued.

145. We shall wait till this Ship is gone in [. . .] pay in all or some part of the debt, for having been [. . .] we are unwilling to strip him of his house, but if [. . . we must be] [*a few words lost*].

146. M^r. Deltion formerly of Acheen died Anno 1712 in Pegue without any will, What found in his possession at the time of his death was accounted for by Capⁿ. Roger Allanson and the ballance at his request rec'd into your Cash in Consultation the 13th Ult^o. being Seaven hundred forty four Pago^t. seaven fanams and fourty Cash which we think necessary to advise your Hon^{rs} of In case the Cred^{rs}. in Europe should apply themselves to you we doe not know of any other effects belonging to him and it is beleiv'd he lost most of what he was [worth] when he fled from Acheen to save his Life.

147. Our Generall books could not be ballanc'd & Copied to come by this ship, M^r. Benyon has the care of them at present, and that they may be thoroughly examin'd we beg your patience till January.

[News]
of St. Geor-
gees arriv^d.

148. This Letter was carrying on to come by your ship Aurengzeb that will be dispatch't early in the next month, when on a sudden the Supra Cargoe of this ship Joseph took a resolution to sett sail for Europe some days sooner than we expected, wherefore we have only time to add, that your ship S^t. George Captain Sam^l Goodman anchor'd here on the 16th. Inst wth. only two butts of Water and very short of provisions, not having touch'd any where but at S^t. Jago, we supplied him as speedily as wind and weather would permitt, took ashore the sick soldiers, and put aboard well men in their places, and on the 20th. in the morning he went forward for Bengall. We are wth. all respect

Two large French Ships are ready to sail about this time from Pondicherry to France, as near as we can learn they have about twelve hundred bales aboard both ships, much the greatest part in fine Long Cloth, Salampores and Betteelaes, they had likewise a good quantity of Pepper, w^{ch}. we could have had at a Cheaper rate than they pay for it were not our hands tied up by your old standing Orders, the greatest part of their Kintlage is Ballast they brought with them, and all things considered we cannot beleive they will be encourag'd by the success of their present Negotiation to continue the trade, they are forced to leave a considerable part of their stock behind to avoid the risque of the Monsoon.

Two french ships are ready to sail for France wth abot. 1200[b]ales.

6. By late Letters from the Bay your President and Councill advise Us that they intend the Hannover hither in November with part of her Cargoe, We send your Hon^{rs}. herewith a Packett lately rec'd from them w^{ch}. undoubtedly gives an Account of all Occurrences, and therefore we need not trouble you with a repetition, they have sent us your Vessel called the Mary Buoyer loaden with Saltpetre and packing Stuff, and we immediately return'd her to them with Lead, which they write bears a good price in Bengall at present.

SECONDLY OF GOODS FROM EUROPE.

9. We can add nothing more under this head than that we have hopes in few days to prevail with our Joynt stock Merchants to ease us of good part of the Broad Cloth at the same Prices as they gave last year, and we have dispos'd of the greate[st] part of the Bullion at 15½ Dollers for Ten Pagodas as you may please to Observe upon our Consultations of the 12th of Augu[st] and 13th

We hope our Merchts will be prevail'd wth to take off the Broad Cloth.

Ult^o: and if the Crusdoes cost the same in England as the Dollers your hon^r will please to avoid sending any more of them if possible, for they are in reality 4^dwt^s: worse than standard and we are oblidg'd to allow three.

The present

[at] Patna.

14. Your present for the Mogull is arriv'd at Patna and in all likelihood gone forward from thence before now, we fear the expence will be very considerable, and they are already so much in debt in the bay that they will be puzled to compleat the loading of your ships.

15. The Govern^r of Pondicherry has at last acquiesc'd to pay the money w^{ch} was plunder'd out of Our Tonqueen Ship by Mon^{sr}: Boineau, concerning w^{ch} we advis'd you in our Letter by the Frederick.

[a]ll y^s.

16. We are all in peace and quietness both here at Fort S^t: David and at Vizagapatam.

FIFTHLY TOUCHING FORTIFICATIONS BUILDINGS REPAIRS AND REVENUES.

List of the
farms for
one year
& Reve-
nues for
16mos;
[s]ent.

17. We send your Hon^{rs} in the packett N^o. (16.) a List of your farms for one year and revenues for sixteen months ending the last of August, w^{ch} amount to pagodas ninety Thousand Eight hundred and twelve, One Cash and may serve, convince you how little foundation there was for the reports that were industriously spread as if the Trade of this place was in a very declining Condition for want of due encouragement from Us, Losses we have had but not considerable enough to deterr us from endeavouring to retrieve them, when we came to draw the fore mention'd list we found it impracticable to insert all the p^ticulars mention'd in your 103^d paragraph, wherefore we choose to incert them here, though all these duties were originally settled by your Order from England, the duty of Anchorage is 9 pag^{ds} for all Europe Ships of 200 Tonns and upward, and for all under 200 Tons 6 pag^s.; for all Country Ships of 100 Tons and upward [. . .] pagodas, and for all under 100 Tons 3 pagodas, for all sloops [&] Ketches 3 pag^{ds}.; for all great boats 1 pag, for all small boats [. . .] The duty of Tonnage is one Rupee p^r Ton for all ships [. . .] passes, but the Gentlemen in Bengall oblidge [. . .] gain, th^o they t[a]ke a Certificate from hence, it is less trouble for us to let them take the Duty in the bay than to be always repaying the money here, the Custom on grain has always been 5 p^r Cent *ad valorem* by a positive Order from England, the Rubie Brokerage is 2½ p^r Cent upon the value of [w^t] sold, and for registring of Slaves 8 fa^s: p^r head, and the prop[er] Officers that collect these duties being the sea and Land Customer whose hands are to this Letter, we hope this paragraph will be a satisfactory answer to what your Hon^{rs} requires in the 103^d paragraph of your Letter.

SIXTHLY TOUCHING FACTORS WRITERS OFFICERS SOLDIERS AND THEIR ACCOUNTS.

18. There is a Country Vessel call'd the William & Richard alias Ramma Kisnah lately arriv'd Fort S^t: David from a trad[ing] voyage, wherein M^r: Raworth was pretty deeply concern'd but the supercargoe of her one Tho^s: Gerrard who left her at Battavia to goe home passenger upon your ship Susanna, has made [some] foul work wth the stock that the returns he sent together wth the ship being sold at outcry by M^r. Richard Harrison y^t [is] the other half owner, and M^r. Raworth his Attorney, produced no more than about half the principal what comes to M^r. Raworths share will be securd in your Cash, but the Gentleman beforementioned, M^r. Gerrard has run away wth about twelve hundred Pagodas (as near as we can learn) w^{ch} his generous patron lent him at Interest, when he himself was under the greatest difficulties to discharge his own Debts, which are unpaid to th[is] day, we hope some means may be found to secure this money w^{ch} M^r. Gerrard has carried off when he arrives in England.

Advice of y^e Wm. & Richards (belong^s. to Messrs. Raworth & Harrison) arrival.

19. We are further to inform your h[on^{rs} that we] are very sure M^r. Joseph Bullock has some [money of M^r] R[aw]orths in his hands, but how much we can [not well] affirm to, is an Obligation of Capⁿ [. . . Raw]orth for four hundred Pagodas [. . .] 17²/₃ when he knew he could not [. . .] many thousand pago[das . . .] Father w^{ch} is all we have been able to discover, though those that were nearest M^r. Raworth are still of Opinion that he sent money home by M^r. Bullock.

Mr Bullock suspected to have some money of M^r. Raworths in his hands.

20. We omitted by the Frederick to acquaint your Hon^{rs}: that M^r. Richard Farmer took his passage upon the Ship Somers, wth intent as we suppose to excuse himself for all he sett his hand to in M^r. Raworths time under pretence of being afraid to do otherwise, w^{ch} is all, the Rest of your Fort S^t: David Council have to say for themselves.

Mr ffarmer took his passa. on y^e Somers.

SEVENTHLY TOUCHING ACCOUNTS AND EIGHTHLY TOUCHING THE WEST COAST.

21. By the Joseph under the head of Shipping we advis'd the Presidents arrival from the West Coast, and by her we had the good news of a firm peace being made in and about all the northern Settlements, your hon^{rs} have a full account thereof in their Letter by the Susanna of w^{ch} they have sent us a Copy, and we dare beleive you will be fully satisfied wth your Deputy Govern^{rs} good management in that and all other affairs, and if it pleases God to spare his life the fruits of his labour will soon be manifest in such quantities of pepper as have never yet been sent home from that Coast, The dispatch of the Susanna and the necessary work they had in hand beside the daily coming in of pepper reduced their Cash so low that they were forc'd to hurry away your Ship President hither for a speedy supply although they had according to the liberty we gave them in our Letter by the Fredrick drawn bills upon us for five thousand, five hundred, and eight Pagod^s. twenty four fanams and saventy Cash, for money rec'd of severall persons as appears by their Cash book sent us at the same time, [but] the Avarilla being gone forward before the arrivall of [the Pre]sident with a sufficient supply of treasure we [consider it] more your Interest to send her down to fit in Ben[coolen] wth a proper Cargoe for the West Coast, whither [. . .] a Condition to do them two years service without further repair.

Of the Presidts. arrival from the West Coast wth. the good news of a firm peace in all the Nothern settlements.

22. Of the 24 Soldiers sent out upon the Avarilla for the West Coast six deserted before the ship left England, two died, and three were left sick in our Hospitall, wherefore we added Seaventeen good men of our own to make up the No. 30, which we[re] as many as we thought safe to venture upon such a ship, as the times goe.

Of the soldrs. sent out upon the Avarilla for y^e West Coast.

23. Your building upon the West Coast cannot have been represented in a worse condition than they really are, We had pursuant to your orders

Of the Build-ings on y^e West Coast.

wrote them by the Avarilla to send us by the first conveyance a Plan of what they propose to do at the Carang, which indeed they ought to have sent by the Fr[ed]rick, at the same time that they sent it your hon^{rs}. by the Abing[don] by w^{ch}. a great deal of time would have been saved, We have not at present any proper experienc'd person to send them to direct and over look the work while it is doing, and we really beleive there is no person better qualified in those parts than the Dep^y. Govern[or] himself, but we have Order'd distinct accounts to be kept of ea[ch] building, and transmitted us soon as it is compleated, the Car[ang] is undoubtedly the only proper place for the Warehouses and eve[ry]thing else, and nobody that has seen the West Coast but wondred what reason could be given for not building there at first. We have sent them the prizes of Timber from hence, but have wrote at the same time that we are sure they may be better and cheaper supply'd from Java, reminding them to try w^t. can be done upon their own Coast, which is full of Wood and will save a great deal of Charge, if it can be fell'd near the Waterside.

24. We are very well assur'd that [the Deputy] Govern^r. will not lay out any money but [. . .] for your service, that he will take ca[re . . .] perform'd, and wth. the greatest fr[. . .] . fictitious articles to be concea[led . . .] ever we shall take care to [one line lost] to him, that things may not return into their former channell for that is all the danger that we apprehend at Present and therefore hope you will think of some proper persons in England for indeed they are very scarce here.

Of the

25. We shall be sure to give the necessary directions for the employing the Madagascar slaves when they arrive to the best advantage, and particularly in managing the boats thô we apprehend there may be some danger of their running away when they come to be well acquainted wth. the Country, and have learn'd how to manage those boats wth. a sail, we are sensible the Article of boat hire is very expensive, and no stone shall be left unturn'd to reduce it, We are well assur'd your Dep^y. Govern^r. will doe his part and we will not fail on ours to Assist him.

26. In the 98th paragraph of your Letter your Hon^{rs}. are pleas'd to accuse us of omitting in our Instructions to M^r. Collet dated 16th of June, to reprimand the Gentlemen of the West Coast for engrossing the salt and thereby raising the price of provisions, althô Capⁿ: Blow had inform'd us in consultation, if this was fact we should be greatly to blame, be pleas'd to Order our Letter by ship President dated 10th April 1712 to be perus'd, when you will find a severe reprimand for this abuse w^{ch}. was wrote immediatly upon Capⁿ. Blows information, We likewise discoursd M^r. Collett when he was here upon the same Subject in Councill where he us'd always to be present when the West Coast affairs where in debate, and though we gave him severe injunctions verbally to prevent such practices for the future as well as a Copy of what wrote by the Presid^t: yet we though[t] it necessary to reprimand them again in our 87th paragraph of our Instructions to him under the 16th of June, w^{ch}. was all we could do since those persons [that] had been guilty weré dead in very bad Circumstances, and [hearing] no Complaint of this nature since Mr. Collets arrivall.

[27]. The West coast Letter you are pleas'd to mention [in the 99th par]agraph, to have been omitted did not arrive Us [. . .] before the Mary saild and the Reason why we did not get it copied to be sent you in the hurry we were in of that Ships dispatch, was because in a Copy they sent us of what wrote your Hon^{rs}. by the Toddington we observ'd in a manner the same Contents. We hope to receive fresh Letters from York Fort by one of our Ships daily expected from Battavia, and if they contain anything of moment we shall not fail to lay it before you in our January Letter.

Honourable

Since we clos'd our Letter of Yesterdays date we have been oblig'd to put Henery: Heardson on board this ship who is one of the Soldiers that came out upon her and has already deserted twice carrying other people wth. him, beside severall other Misdemeanours for which he has been severely punish'd but proves incorrigible, and we have a pretty good account from his Companions that he has formerly practisd the highway in England, and made his brags during the voyage that he was one of them that robb'd the Portsmouth Waggon and kill'd the Waggoner, He is of no use to us here but to corrupt the rest of the Garrison, for w^{ch}. reason we have shipt him off and order'd that he may work for his passage we are most respectfully

GENERAL LETTER TO CAP^T. NICHOLAS, DATED OCTOBER 10, 1714. [*Public Despatches to England, Vol. 4, pp. 65-66.*]

TO CAP. NICHOLAS LUIHORNE
COMMANDER OF SHIP AURENGZEB

Your Ship being fully Laden you a[re] hereby Order'd to repair on board and wth: the first Oppertunity of Wind and Weather to proceed and make the [best of your] way for the port of London and whatever [Port of] Brittain you arrive first at We order [you to send away yo^r] Purser with our Packett deliverd [you in a Box marked A] directed to y^e: Hon^{ble}: the Court of [Directors for affairs of the] R^t: Hon^{ble}: united Company [of Merchants of England trading] to y^e East Indies to whom [your Ship goes consign'd].

We [likewise deliver you a] Packet Letter B which you are to forward by post or Express immediatly upon your Arrivall in any port of Europe where Conveyance can be had, taking care to write yourself to the Hon^{ble}: Directors with an Account of what has hapned materiall in your Voyage that they may have no cause to complain as formerly want of advices, when at the same time our Packett has been detained aboard.

If any unforeseen Accident should Oblidge you to put for Mauritius you must avoid the North-west Harbour and Carpenters bay for fear of pyrates and make for the S^e: East harbour where the Dutch formerly had a settlement.

You are require'd to touch only at S^t: Helena in your way home for refreshment where you must bring your Ship to an anchor before you come open wth: Chappell Valley near Mundens point if you don't meet wth: good anchor hold sooner from whence you must send your boat ashoar to give the Govern^r: intelligence who you are because he has Orders to fire at any strange ship that endeavours to pass that point before he knows what they are and whence they come, and we do not yet know wether those Orders are Countermanded since the Peace.

We strictly enjoyn you as formerly not to come near any Ship at sea if possible to be avoided, unless you have Secure Signalls before hand concerted so as to know they are of your Companions, because there may be Pyrates abroad as formerly.

We wish you a prosperous Voyage and date this in Fort St. George this 10th. Day of Octo^r. 1714.

ye St.
George.

1. Our last addresses were by ship AurengZeb dispatch'd hence the 10th. October, Copys of wh[ich co]mes in this pacquett. We are [now] to acknowledge a short letter receiv'd from y^r. Hon. [ꝑ the St.] George dated the [. . .] of ffeb^{ry}. last, and two from M^r. Secretary Wooley dated [. . .] and [. . .] The Co[n]tents] of which will be answer'd under the proper heads to which they belong, & we ask pard[on] for omitting to mention these Letters in the hurry of the AurengZeb's dispatch.

2. According to promise in our Letters by the Joseph and AurengZeb we shall Likewise endeavour to answer severall paragraphs in [your] Letter by the Avarilla then omitted as requiring further Consideration, and lastly we shall give an account of all occurrence of moment since the dispatch of the foremen-ti[oned] ships.

FIRST CONCERNING SHIPP^G. SENT OUT & RETURN'D.

bes. arriv'd.

3. By Letters from Anjango dated in November [we] are advis'd that your ships Catherine and Thistleworth arriv'd Bombay the 20th. of September, the Catherine was dispatch'd down the Coast the 28th. October with M^r. Stephen Stuart, and was at Anjango the 22^d. November under orders to be back at Bombay by the 15th. January at farthest, The Thistleworth it is said is intended to Persia upon freight.

Batavia.

4. We have also receiv'd advices from Batavia and Bencoolen via Bengall that the two separate ships Delicia and Clapham Galley were arriv'd in those parts with their slaves from Madagascar. We have not any particular account of what they did at Batavia only in Generall that they were wel[l] receiv'd, and had more liberty than any of yo^r. Hon^{rs}. ships, and sold a part of their slaves, the rest they carried to Bencoolen, and what they did there will fall more properly under the head of the West Coast, both ships give out that they intend directly back for

Europe, but we think that impracticable considering the number of slaves the Delicia has left aboard, and rather inclin'd to beleive she will [Embark] for the south seas, as for the other ship most of her slaves being sold tis like[ly she] may Load home from Batavia.

5. By the same way we Learn that you[r two Borneo] ships are arriv'd Banjarr, and likely to succeed in gett^e. their Cargo [. . .] all by disagreement among themselves. Yo^r. ship Susanna was [. . .] to proceed for Europe in August, the Avarilla arriv'd Be[ncoolen . . .] there's [no reason to] doubt but the will be dispatched a full [. . .] about the Cape.

[The] two Borneo ships be^e. [arri]v'd Banjarr. Ye Susanna [. . .] B[ata]via & ye Avarilla [to] Be[ncoolen.

6. [The Hanover sailed from] Bengall the 14th. [Decem^r. and arrived at] Vizagapatam the 24th. where she stai'd to take in what bales they had till the thirty[first] and Anchor'd here the 7th. ult. in such bad Weather that we could not do anything upon her in three days, w^{ch}. is very unusual at that season, and notwithstanding all the care we have taken to prevent the Cap^{ts}. demanding more salt Petre here as you may please to observe in our Letters wrote them this last season Perticulerly under the 12th. of Aprill, We have been forc'd to part wth. three hundred baggs at the Cap^{ts}. request w^{ch}. Comes in the Packett N^o. (15) rather than have it Laid at our door in case any accident should happen to the ship for want of sufficient Kintlage.

SECONDLY OF GOODS SENT AND TO BE SENT FROM EUROPE.

7. We can see no reason to make any alteration in our Lists of demands sent by the AurengZeb Duplicate of which comes in this pacquett. We have not been able to rid our hands of more than 241 ba^s. of Broad Cloth [un to] our Joynt Stock merch^{ts}. since that time, at the same price as last year viz^t. 45 \textcent advance, except what Little have been us'd for the Military & retail'd out of the Warehouse, so that we have now remaining 733. Bales according to the list of remains in the Packett N^o. (27.) however we hope to clear ourselves of the greatest part before the next shipping arrives, and that which was sent us from Bombay as advis'd you by the Frederick being most in danger of decay, we have made shift to put it of first.

[Relg.] to the Vend of ye. Broad Cloth.

8. Our Letters from Bengall advising that they shall be under great streights for want of money as well as to carry on their Investment as to defray the expence of the Present to the Mogull. We have made them an Offer of three or four hundred bales of broad cloth to be sent them down wth. the first of the monsoon if they think fit to accept it, but we fear we shall not have more money Left when your ships are dispatch'd then what will be necessary for carrying on our Investments at this place, Fort S^t. David, and Vizagapatam, till your next shipping arrives.

[. . .] 400 Bas. of Bd. Cloth advis'd [. . .] offer'd ye. Gent in Bengall they beg. in great want of money.

9. We have sold some more of our Bullion at 15 $\frac{3}{4}$ Dollars for ten pag^s. and what little we have left will in all liklyhood sell yet dearer, since we cannot expect the usual supplys from Manilha, the trade between that place and new Spain being entirely at a stand, but th^o yo^r. hon^{rs}. are Considerable gainers by the silver, we fear you will Lose more in your revenues, because the scarcity and dearness of Silver is a great discouragement to the trade of Bengall and China, which are the most valuable Articles in your sea Customs and Coinage.

10. We could not send an account sales of the Corall last year that came out upon \textcent mission little, or none of it being sold when the ships went hence, but we have now drawn it as near as we can to your Directions and it comes in the Packett N^o. (28.) as for what came out upon this years ship[ping] none of it is yet dispos'd off, nor do we know when it will, the markt being glutted by this large Quantity by what the French have imported at Pondicherry [and] what the Armenians bring by way of Persia and Suratt, that no body [. . .] bidd within 20 \textcent of the[ir cost].

We are further to acquaint your Hon^{rs}. that of [the large] Quantity of Bullion imported here by your Licence few or no returns can be [made] this season, Diamonds being [intelleable] scarce and dear, occasion'd by the imprudent management of y^e. French that employ large sums of money at the mints by the hands of Marcus [Moses] who for y^e. of Medicines.

12. The Chest of medicines that was sent out for the use of Fort St. David we suppose might be put up by some P^{er}son that was a stranger to the usuall manner of doing it, which has occasion'd a great deal of damage among the most valuable articles, of which you have a perticular acco^t. in the [duplicate] report that comes in the Pacquet N^o (29) as also the severall parti[culars] wanted which we desire may be supply'd hereafter.

THIRDLY TOUCHING YOUR INVESTMENTS IN INDIA.

Our Merchts.

wth their
Contracts.

13. Our merchants here have comply'd very well with their last Contract as your hon^{rs} will easily perceive by our being able to [fill] the Hannover with almost her whole Cargo of bales so soon after dispatching the AurengZeb though we have had prodigious rains in October, November, & Dece[mbr] more than have been known for many years which has been a great hindrance [to] our Washers and oblig'd us to encrease a small matter in the articles of blew & [midling] Long Cloth, of which the merchants had some remains by them rather than to [fill] up the ship with brown which you have only permitted in cases of the greatest [necess]ity.

14. The Blew Cloth that comes upon this ship not having been [sorted] . . . br]own & measur'd as usuall when we contract for it, we have oblig'd the Merch[ants] as you may please to observe in Consultⁿ the 22^d. Ult^o to make full satisfaction if any faults are found, either in the measure, or goodness of the Cloth, when it comes to be deliver'd to the buyers in England, in which we doubt not but yo^r Hon^{rs}. [will] do them justice, as we shall take care to exact the same from them here wh[en] we know your pleasure.

these ships.

15. Our frequent letters to Fort St David will convince yo^r Hon^{rs}. that we have not been wanting to spurr them on in getting goods ready [for] the Dispatch of these ships, and we must do the present Dep^{ty}. Govern^r so much justice as to say we beleive he has done his part, but the Merchants have not [yet] recover'd the severe usage they met with under his predecessors, and the greatest hindrance of all has been from the rains, and for want of a sufficient number of washers, most of them having been seduc'd away as we have before inform'd you by the French in M^r Raworths time, and notwithstanding all manner of endeavours have been us'd we can not yet wholly retrieve the Loss, so th[at] of nine hundred bales now in their bounds, not half the number are [cured] and we fear the [Cardigan] must be fill'd up with brown Cloth at last, if we [dis]patch her [. . .] to secure her Passage.

St David.

16. The inconveniences we have labour'd under [by the non-]Compliance of our ffort St David Merchants which are too many [to] be enumerated, have put us upon encouraging one of Sunca Ramahs Brothers to go and reside there, which will be a great help to our Affairs, our Contract will always [be] comply'd with in due time, for the shipping, & Sunca Rama himself residing with the Nabob at Chingie, will be assisting to [keep] the Government in good temper, that our Business may go Currently on and to make a beginning we have Agreed for One thousa^d bales to be ready by September.

Vigapatm
Bettelaes &

17. We receiv'd One hundred sixty five bales from Vizag^m by the Hannover of which One hund^d fifty four Sallampores, the rest Striped Bettel^{es} of twenty pagodas the Corge according to the Directions in your List of Investments, we wish they may answer your Expectation, they are as good as can be procur'd at that mean price, as for what went by the Dartmouth mark'd V X which you are

pleas'd to refer to in yo^r. List, they were turn'd out goods which M^r Hastings informs us they afterwards took in at that low price as a Mulet upon the Merchants for not making them according to muster. The sallampores are very good, and we expect a large Quantity more from thence ev'ry day, the Country being quiet at present and Cotton reasonably cheap.

18. Among the Sallampores that come upon this ship there are twenty bales mark'd G A of a new sort, made as farr to the Northward as Ganjam, by Contract with M^r Rob^t. Symonds a free Merch^t. that trades annually to that place a grain & other Commodities. They are deliver'd us at Vizagapatam for twelve pag^s & a half the Corge, and appear to be better and Cheaper than those made in the parts adjacent to Vizagap^m. and if you approve thereof doubt not but to enlarge the Quantity at the same price.

Ganjam
sallampores.

19. We have not thought it practicable to do anything at Ingerum this year to advantage M^r Thomas Faucetts unwarrantable quitting of his post and bringing the merchants hither with him, of which we shall have occasion to say more under another head, caus'd so much Confusion in that Investment, that Considering how ill our orders and their large promises were comply'd with last season, now we were forc'd to take [over] Double the Quantity of Brampore Chints to what we order'd, instead of the valuable articles of Longcloth, and sallampores, rather than let our money [be out] in a dangerous Countrey, at the mercy of ev'ry Nabob that hapens to march that way we chose rather to do our business nearer to our own ffactorys, and in secure hands than to send our money so far afield and have nothing extraordinary for y^e great risque we run. We have now hopes of getting the Ingerum Longcloth and [Sall]ampores brought us in large quantities to Vizagapatam without advance[ing] any sum of money or being obliged to maintain people there, and should [. . .] will be with much lines lost].

20. [. . .] made further enquiry into the [dear package of] bales at Vizagapatam [when] M^r Hastings arriv'd, and by compareing the accounts he gives us, with what your Hon^{rs} are pleas'd to write of the scantiness and [. . .] of the materialls, undoubtedly if there has been some abuse in the Warehouse, [M^r] Jennings has strict order to enquire well into this affair and to procure re[para]tion, and we shall put them into such a method hereafter, that if upon viewing [the] goods here, we find any [wrong] or unreasonable charge we can immediately [know] where to fix it. The same care is taken at Fort S^t David and we hope you [know we] will have no further cause of complaints as for the Vizagapatam goods that come upon this ship, we have examined the package and find all to be [right] except the Betteelaes, that are charg'd at two pagodas per bale which we [. . .] abuse, unless the packing stuff is charged at more than it costs and the diff[erence] carried to Profit and Loss, of which we shall take care to make due enquiry.

FOURTHLY CONCERNING THE TRADE OF INDIA IN GENERALL & THEREIN ANY TRANSACTIONS WITH THE COUNTRY GOVERNMENT.

21. By a ffrench Europe ship lately arriv'd Pondicherry from Manilha, we are advis'd that the Spaniards have seiz'd and Confiscated a ship belonging to S^t Malo's that was bound from China to [Persia] and Drove by stress of weather into one of y^e ports of that Island, we have likewise y^e mortification to hear that the trade of Manilha is worse than ever, that most of the merchants, are insolvent and this place is like to [lose] a very great sum of Money, unless the trade of new Spain speedily revive[s] upon this prohibition to the ffrench that have occasion'd all the mischief. This ship now return'd went from Bengall to Manilha with a mixt Cargo of Europe & bay goods, but has not got his principal money by thirty or Forty per Cent.

son Taygy Sing till the beginning of October last, when Our Nabob Sadatulla Cawn pretending orders from y^e King drew near y^e City with all his Forces and sent the Govern^r a summons to surrender it for the Kings use, to which he reply'd that the King had entrusted his Father with y^e Government, That by his Fathers death it devolv'd upon him, and he would not deliver it up without sight of the Kings orders immediately after this, he made a salley with about three hundred Rash boot horse, fell upon the Nabob suddenly, and was very near cutting him off his Elephant, but f[resh] Forces coming in, and several of Taygy sings horsemen deserting him, he and about one hundred and twenty of his greatest men were all put to the sword, and among the rest that famous Mobut Cawn our Mortall Enemy in the [. . .] with Chingie, few days after this skirmish the [Great] Fort [of Chingie] that formerly held out [. . .] against the Vizier [. . .] whole army, being left without a head were [immedia]tly surrender'd to the Nabob, who has now made Chingie [his] Quarters, and is fortyfying and storeing it as if he intend[ed] to set up for himself, every body agreeing that he undertook this expedition on his own head without any order from Court.

Upon this Victory the french at Pondicherry address'd the Nabob with a present of twelve hundred Pagodas w^{ch}. not being thought enuff, they were forc'd to make an addition on acco^t. of severall villages they possess under the Chingie Governm^t. but our Title being indisputable good to Fort S^t. 24. We have since receiv'd severall Perwannas from the Nabob demanding us to send a Vacquel to agree about our Towns and Villages of Cuddalore &c^a. which he pretends are in his Jaggier; we have expostulated with him in several answ^{rs}. as yo^r. Hon^{rs}. may please to observe in our Book of Country Letters N^o. 26 & 40 and have given proper directions to Sunca Ramah & his partner to appear in our behalf, to set forth our Just title by lawfull purchase from the y^e r^t Owners before the Mogull conquer'd Chingie and y^e. Moratta Countrey, and to produce the Kings Husbulhookum lately granted us for free trade, of which we receiv'd an Attested Copy from Bengall, at the same time we have order'd them if a small present of Congratulation will make every thing easy to put an end to the dispute, but by no means to give any thing on account the Villages, which would be establishing a prenicious Custom. The Nabob is now marchd to Tanjore and threatens hard what he will do at his return, but we are prepar'd to receive him and have order'd Sunca Ramah to let him know, that we must defend our own to the very last man, and all ill Consequences must be laid at his door if he disturbs us. We are more apprehensive of his sloping our goods in the Country than of any open attacks upon the Bounds.

[Of] the
Present to ye.
Mogul.

25. By our last advices from Bengall your pres^t. was still at Patna, but ev'rything in a rediness to set forward, and the Kings orders for safe conducting it were arriv'd. We send yo^r. Hon^{rs}. a Copy of a Letter from M^r. Surman &c^a. in the Packet N^o. 31 to which we have answerd by Cossides overland to meet them at Agra, the President & Councill write us that the [King] has orderd a lack of Rupees [. . .] the Charges, if so we fear he [wants] a present of much [more value] than ours will appear to [one line lost] however we are glad to [acquaint] your Hon^{rs}. that our old Friend Zoudy Cawn is arrivd [at Court] and in great favour with the King, wh[o] has made him high [Steward] of his household, and there's no reason to dou[bt] but that if right application be made to him, he will use all his endeavours to procure us a favourable reception and the grant of what we desire.

Of the Danes
tak. the
large Moors
ship in
Bengall
river.

26. Yo^r. Honours will undoubtedly have a full account in your Bengall Letters of the ill usage the Danes ffacto[ry] near Hughly has mett with from the Moors Government, which at last oblig'd them to quit their [town] and forsake the shoars, the Directore with his Councill and altogether making about [sixteen men] boarded and [seiz'd a large] Moors ship in the river richly laden, and

brought her away for this Coast by the help of about sixty men more English and Dutch, that she gatherd up in Bengall. They anchor'd first at Fort S^t. David where they offer'd to sell their Cargo, but we have strictly prohibited their importing any prize goods with us, which would infallibly be attended with bad Consequence to your affairs and they now lie at Fort S^t. David in expectation of getting what they have done to be approv'd by their superiours at Trincombarr, and particularly the [share] promis'd to their Crew, we heartily wish this ship was well in the Danes possession, for she is a good sailor and man'd with such a sett of villaines of all Nations, that there is great reason to fear they will carry her off, and [turn] Pyrates, unless matters are speedily and amicably adjusted, they have made one attempt that way already, and we have given the best directions we could to Fort S^t. David for preventing so great an Evill.

27. We promis'd Yo^r. Honours in our letter by the Joseph under this head a full state of the grain trade at this place accordingly we send it in the packet N^o. 32, and therein you may please to observe one years Import by sea, also what quantity was brought from the land in the same year by those that rent the Country round about us under the Nabob, who always have free permission to [store] it in Godowns, and sell it as they please at the Public Banksall or otherwise, we should often be in great streights for want of sufficient and timely supplys by sea. Your Honours will easily see by this faithfull Account how impracticable it must be for any one man to engross [. . .] grain without buying it up here upon the place, if he had a sufficient stock to do it, and that the more any person or persons import by [sea] the better it must be for the place, because the Country renters are [then] oblig'd to sell at a moderate price to pay their rent, or take up money [at] high Interest, which eats them out whereas if the import by sea [should] fail, they may impose what terms they please upon us, and we [must submit to them] or Famine.

Relating to
ye. Grain
trade of this
place.

28. Yo^r. President hopes that what he said for himself by the Joseph upon this subject, what we now lay before your Honours and what he is always ready to prove, viz^t. that he never bought [in] grain here since his arrivall, will intirely convince you that he has been vilely traduc'd, and he is the more sollicitous to Justify himself, because he has a true sense of the sin it is before God for a man in his station to set so odious an example of oppressing the poor, and because he thinks your Hon^{rs}. would not have express'd yourselves in so pathological a manner, if you did not really believ'd him guilty of it, which he is very sure was more than the persons themselves beleivd, that gave you the information.

[Of] the
Presidents

ye. Grain
trade.

29. We come next to your orders for bringing in the necessary quantity of all sorts of grain yearly on your account to be sold out at a reasonable profit in small parcells to prevent engross^s. and in the first place we beg yo^r. Honours to consider that this will employ a large quantity of Tonnage, that your Europe shipping cannot be employ'd upon it so as to earn one quarter part of their demorage, the usuall freight of rice from the N^o.ward being fourteen rup^s. the garse, which is four Tons, and eight rupees for Paddy, for the same reason we cannot employ our own Country vessells in this trade, because the freight will not near defray the expence, only in times of necessity we have been so publick spirited (and that our accusors well know as to lend our ships for that service though we were considerable losers thereby, rather than see people drop down dead in our streets for want) It remains then to be considered which way this grain shall be brought up and Imported, We must have Factors at five or six ports, and continual disputes with the Country Government at all of them. We must freight it upon the usuall grain boats that are wretched flat bottom open vessells fit for the Barrs of the rivers only, many of them are disabled before they get hither, lose their Masts, and Ruthers, and throw part of their Cargo's overboard, and every year some of them founder and are never heard of besides that, seldom above half of the number reach this port, the rest finding themselves late put into other ports all along the Coast and sell their Cargo's which would be a great loss if these cargo's were yours and design'd hither only, all these Difficultys

duly consider'd, we cannot think it your interest to engage in the grain trade by way of importation being well assur'd you will be great losers thereby in y^e. end, unless we make use of those very same means to save you that you are studying to prevent. However we shall endeavour to contract for a sufficient quantity [. . .] us here (at such rates you cannot be losers) as will serve to keep all fore stallers & regraters under. This has been already and shall always be our peculiar care and Study and we are glad to acquaint you that ever since the first scarcity on your presidents arrival, which was occasion'd chiefly by want of store and the necessity there was of supplying Fort St. David or loosing the settlement, all sorts of grain have been at such a price as is best for y^e. poor, and now we have it cheaper than has been known for many years past, wherefore we are preparing to lay in as much as the few godowns you have fit for that purpose will hold.

FIFTHLY TOUCH^e. FORTIFICATIONS BUILDINGS REPAIRS & REVENUES.

Of the inner fort being pull'd down.

30. Our inner Fort is very near down, and we are [ready] to lay the foundation of the new buildings we have bought up what [timber] and plank there was in town fit for that purpose, and for the use of Fort St. David at as cheap rates as possible, which will appear upon our Consultations, and the work is under so many checks that no abuses can be committed, as for y^e. materials of y^e. old Fort only the Bricks will be of use to us, and of them we have a very great quantity, though two sides of the square were arch'd work laid in Chinam, and of the other two y^e. timber & Covering boards are rotten, and will not serve again. We will save all we can but if the whole work is laid in Chinam according to your directions we find it will cost more than we computed it at in our last letters, however it will be the easier kept in repair, and last at least double the time of any other building that is laid in Clay.

Of the fort St. David buildings.

31. We are in the next place according to promise in our Letter by y^e. Joseph to answer what your Hon^{rs}. write in your [. . .] Letter by y^e. Avarilla touching the buildings at Fort St. David, which affair has been fully consider'd in all y^e. particulars by every body [here] that is acquainted with the scituation of y^s place, and has any manner of skill in building, and Fortification, we are oblig'd to declare our sentiments freely on this occasion, though they differ very much from those Gentlemens whom your Honours have reason to believe are proper Judges of y^s matter, it may be some years ago since they view'd the place, and probably they might not weigh every circumstance so thoroughly as we have now done, we shall first show your Hon^{rs}. that those ju[dges] misinform'd you in some particulars on which you lay y^e. greatest stress of y^e. whole scheme, and then endeavour to give you good reasons (why in our opinion) it is not your interest to pull y^s. Fort down, or to think of removing the materials [. . .].

[Of] y^e Water passages at Tevenapatm. and Cuddre.

32. In the first place your Hon^{rs}. have been [informed] that the passage up by water to Tevenapatam or Fort St. David [is] not capable of any ship of burthen coming up to it directly by sea, & that the sea passage [at] Cuddalore is now capable to receive a ship of one hundred to one hundred and fifty tons, and might easily be made navigable for a ship of two hundred tons, We joyn these two assertions together thô at some distance from each other in your letter, that the answer may be the more Concise.

Barrs of [Fort] St. David [&] Cuddalore.

33. The first part is readily granted as to the Barr of Fort St. David, thô that is now much better than the barr of Cuddalore has been so these four or five years, but within the barr near the Fort and all the way up to it there is water enuff for such ships as you mention, and no where else in the river, but then as to the second assertion relating to Cuddalore That barr has of late been quite shutt up many months in y^e. year, and has not been capable these many years past of receiving ships or sloops of any bigness, nor even the smallest vessells except at high water, and spring tides, and then they can only just get over the barr, for the passage up to Cuddalore has in many places but one foot & one foot & a half

at low water, as you may please to observe in the draught of y^t. river w^{ch}. comes in the Packet N^o. 35, and is very accurately drawn, you will likewise see how easy it is to make that river navigable for a ship of two hundred tons, for our parts we must freely declare that we think it altogether impracticable, and so do's every body else of any Judgement here, and if any thing could be done by Force of act it must cost you an immense sum of money.

34. The best barr at present you may please to observe is in the Moors Territorys and that broke out in M^r. Robert's time which he might have prevented with a small charge, and thereby have preserv'd the barr of Cuddalore and y^e. passage up to the town, which is now choak'd up with sand and mud by the Course of the river being turn'd out of that Moors barr, and the Damage is not to be retriev'd without a prodigious charge, if at all practicable.

The Best Barr at present is in y^e. Moors territorys.

35. Much the best barr now left is that near the Fort and if anything can be done to the purpose it must be there, but we have neither heads nor hands capable of such an undertaking, and if we had y^e. expence would be more in our opinion than Your Hon^{rs}. would care to consent to.

ft. St. David Barr y^e. best in [our bounds]

36. In the second place Your Hon^{rs}. are assur'd [. . .] and a very [. . .] few houses and is [. . .].

37. [. . .] the Fort protects the road if [ships] or vessels come as near in as they may venture in time of danger, it protects the best barr now left, it commands The best branch of the road that goes up to Cuddalore, and the Town of Tevenapatam, in which there are about eight hundred houses, many of them built with brick, and this was a very valuable town full of weavers before the late trouble, and will be so again under a prudent administration, the Fort likewise awes the Dutch Factory in Tevenapatam town, that stands upon near as much ground as the Fort itself, and being strongly built upon higher ground with a little charge it may be made defensible against such a small Fortification as you propose to build in lieu of the Forts. We must suppose that your Hon^{rs}. are not unacquainted with the pretensions the Dutch still keep alive to Tovenapatam, there were very warm disputes about [it] in S^t. Jn^o. Goldsborough and M^r. Hattsells time, and if ever we are so unhappy to have a Warr with them, this Fort now standing in their security you can have for your bounds, and without it they could not be defended against them ten days, for by the help of their factory now standing, they would command free entrance into the river, and land upon as at pleasure, they did attempt as much when they beseig'd Pondicherry, and nothing but this Fort kept them in awe, Further this Fort stands nearest in the center of y^e. bounds, commands all round as farr as the guns will reach, it over looks all the Outguards and [reach]es most of them with a random shot, It is a much securer magazine than ever Cuddalore can be made, and being in the center [can relieve] either Cuddalore or any of the Outguards in case of an attack with much more ease convenience and security than can be done any other way, and if Cuddalore should be made the head Quarters it would be very difficult at any time to maintain the outguards against a Country enemy but in the time of the rains and freshes all Communication would be in a manner cutt off, again the best water we have is in the Fort, at Cuddalore there is none fit to drink which is an article not to be dispis'd in this Country, and lastly it cannot justly be said that the ffort is no way serviceable to secure Cuddalore, as it commands the passage up to it by water, and keeps the Country Government more in Awe than Cuddalore can ever be made capable of doing, for as long as we maintain the Fort they know we have a good stake and open communication to the sea to any them in case they should seize Cuddalore or any of our outworks, but were the Fort out of the Question they [have] only to master Cuddalore, and all is their own, for having no place of [Defence] [*a line lost*].

The ffort protects y^e road, y^e. river gos. to Cuddalore, Tevenapm: Town and is a great awe to y^e Country Governmt.

38. [So] farr as to y^e. scituation and usefulness of the fort where it now stands and the case being so far Different from what has been represented to your Hon^{rs}. we cannot think you will blame us for letting the Fort stand till you have

reconsider'd the matter, since you are pleas'd to say you are only inclin'd to have it pull'd down in case things are according as they have been represented to you or pretty near it.

39. There are some other reasons that have helpd to fix our resolutions in this particuler, which we beg leave to lay before you as briefly as possible.

40. First we find Your Honours expect great help from the materialls of the old Fort towards fortifying Cuddalore, but upon a very strict survey we are well assur'd that all the materialls we can save would not be sufficient to build the small Fort of ten Guns which you propose for the Defence of Tevenapatam nay hardly to lay the Foundation of it, for in the first place as to y^e stones which your Hon^{rs} have been told are so valuable, there are no more than what just Face two of y^e Bastions and pave a Causeway cross the inside of the Fort, excepti the gate of the Fort which is likewise built with stone, after the Moratta Fashion, and this is a smooth sort of stone almost like marble very improper for any Fortificat^s at the best, almost all the Curtains and the other two Bastions are built with brick laid in Chinam which are never to be seperated so as that the bricks can be made usefull for any building afterwards, and especially the old Moratta wall is hardly to be demolish'd, any way but by blowing it up, all under the Curtains is arch'd work in Chinam, and the old Moratta buildings within the Fort the same, so that there is no Timber nor any quantity of serviceable stone or bricks to be depended upon towards yo^r other buildings, and yet that Fort was never built at first by y^e Moratta's for less than Fifty thousand pagodas, wherefore we must think it great pity it should be pull'd down. Parag^h: 41 to come aft^r. y^s., is ent^d. at y^e end of y^e Letter.

Cuddalore is
y^e principle

[in]
F S David,
& it being
absolutely
necessary to

Wall, it shall
be forthwith
set about.

42. We very readily agree with your Hon^{rs}. that Cuddalore is the principle Town in your bounds, that it may by good Conduct be much enlarg'd, That if it was made secure merchants & others of Fortune would be tempted to reside with us, to the great increase of the manufactures, and Revenues, and we think it is absolutely necessary to repair and Compleat the Wall of it for[thwith] as the best step that can be made for its security, it is at present very bad, in many places ready to fall and not Defensible, and [. . .] is this, that if at las[t] pleasd to Determine the Fort shall come down, upon perusing [what] we now lay before you, it cannot be begun upon with any safety [till] the wall of Cuddalore is compleated and if you order the Fort to stand there is a necessity of securing Cuddalore, we shall therefore set about [it] with all possible frúgality, and the best contrivance we are masters of and in time we doubt not but the Inhabitants may be assess'd on that acco^t. without prejudice to the settlement, but at present they are not in circumstances, and the very mention of such a thing would occasion many usefull people to leave the place.

A Draught of
ye Town of
Cuddalore
sent in ye
packet.

43. We send Yo^r Hon^{rs}. in the packet N^o 36 a very exact draught of the town of Cuddalore in which you will easily [see] how weak it is at present. The fortify'd wall goes no further [. . .] (7), all the south wall from (1) to (8) has no ditch, tis very [. . .] ready to Fall, and that is the side most in danger of being attack[ed and] Horseman can look oyer it as it now is, and very few of the points [. . .] round the wall are capable of defending each others. The North end from figure (8) to (10) is poorly palisado'd, and it will be necessary to bring the wall on there down to the river, or within a shot of it [. . .] the river side you will observe is unguarded, and the bank lies in [. . .] in such a manner that Batteries must be rais'd at Convenient distances to defend each others, This is the work that we propose to do [without] further loss of time.

Reas. for not

Farmers

Factory.

44. M^r Farmer that went home upon the S[omers] will undoubtedly make yo^r Hon^{rs} an offer of his house at a [low price] because he knows not what to do with it, but it is neither conven[iently] scituated, strongly built nor properly contriv'd for such a Factory as is necessary in that place, which were the reasons we did not buy it of him here.

45. In the last place we beg leave to refer yo^r Hono^{rs}. to a stated account of the Charge if we should demolish the Fort, and [build] in Cuddalore, and if we should build in the Fort and only secure Cudda[lore] which comes in the packet N^o. 37, and yo^r President has drawn in the best surveys that could possibly be had of persons experienc'd in Country buildings, who are perfectly acquainted with the scituation [in] your bounds, as well as with the buildings and Fortifications, and your Hon^{rs} have weighd all Circumstances you will be pleas'd to give such [orders] as you think necessary for our future proceeding, in the meantime Your servants at Fort S^t David must shift as well as they can for lodgings [. . .] & other Conveniences at the Garden house, upon which Mr. Raworth [. . .] squande[r]d . . .] of money [which could have been . . .].

An estimate of y^e charge in demolishg. ft St David & build at Cuddalore, & if sho^d build in y^e fort & only secure Cuddalore.

46. Your President had thought of getting [the] ship dispatch'd so as to have gone down to Fort S^t David upon the Cardigan, the Journey over land being very chargeable, but the Hannover coming here with only three hundred bales instead of five or six that we had reason to expect, we could not dispatch her so early as we intended and there is a necessity of sending away the Cardigan, to fill up without loss of time that her passage may be secure, wherefore he proposes to take the [Vaceant] season when all the ships are gone, and in the meantime we shall order all sorts of materials to be prepar'd for undertaking the wall of Cuddalore that when it is begun upon, it may be carried up at once.

reas. why y^e Presidt. can't go down to ft St David till ye [vac]eant season.

47. We are glad to acquaint you that at Fort S^t David we have made a considerable advance upon the Arrack Farm and the rent of the bounds, and are pretty well assur'd that in a year or two with good management the latter of these two articles may be greatly improv'd. We must do the present Deputy Govern^r so much Justice as to say we think he has been very cordial in this affair, & some others of the same kind where your interest is concern'd, as will appear more properly under the following head.

[Advance; made on ye Arrack (Farm) Rent of ye Bounds at Fort St. David.

48. In our Consultation of the 3^d December Yo^r Hon^{rs} will find that a parcell of ground within your bounds of this place commonly call'd the Paddy feilds was let out thirty years ago by M^r Yale and Council for Forty Pag^s. ꝯ Annum, the lease expir'd the last of December, and we have now let the same ground to substantial persons upon a lease of twelve years only, for pagodas seven hundred and ten ꝯ Annum, and we doubt not but so much improvement will be made in that time, as upon the next lease to make good the whole yearly rent, which we pay into the Kings Treasury viz^t twelve hundred pagodas.

[Of] the Rent of Paddy feilds be rais'd from 40 pa to 710 pa [ꝯ ann].

SIXTHLY TOUCH^G FACTORS WRITERS OFFICERS & SOLDIERS & THEIR ACCOUNTS.

49. In compliance with your Commands in the 117th paragraph of your Letter by the Avarilla and our promise by the Aurengzeb we send an account in this packet numbered (38) of what Merchants Factors and Writers are necessary for keeping up your business under this Presidency in all its branches, which if your Hon^{rs} approve, you will be pleas'd to supply us every year accordingly, [. . .] The number we now have—[about a line lost] or we should have occasion to settle Diu Island which would [require] more good hands than we are able to spare.

list of Merchts. factors Writers necessary for y^e [busi]-nessundr y^e Presidency [sent] in y^e packet.

50. We send your Hon^{rs} likewise in this packet a compleat list numbered (14) of all yo^r Covenant servants under this presidency drawn in the form prescrib'd, with an account how they are at present employ'd in every Factory, you will easily discern thereby wh[at] part of the list is the [weakest] and what sort of help it will be most for your Interest to send us. You are pleas'd to order us in the same parag^{hs}. to advise you openly which of your Factors & Writers best deserve your Favour, for understanding, honesty, & application [to] business, which are [next], and which least deserving or for understanding and application you will find those whom we [esteem] best qualified employ'd immediately under the Govern^r. the accomptant, and [Secretary] where there is most

usefull work to be done, at the same time it would [be] injustice in us not to own that there are good men in other stations [. . .] as they enjoy perquisites and for that reason are always soliciting for [. . .] and fond of continuing in their stations, [some] distinguishing marks of your Favour conferr'd upon such as do the drudgery of your [service] in the most valuable branches for sallary only would in our humble opinion greatly contribute to the having yo^r business perfectly well done hereafter. If all were equally capable we should have no trouble, and every Writer having serv'd a reasonable [time] under the Secretary, [and the Accom]ptant, & Warehousekeeper might go to a perquisite place [and] be wanted, which would be a just reward for his good services, [but yo^e] case is quite different at present, we cannot part with those out of [yo^e . . .] offices that are most preferable, for their understanding & application, which is a hardship upon them to be advantageous employs given to those that have not equal pretensions, and therefore they [depend] wholly on your goodness to rewar'd them as you think convenient.

We know nothing to the contrary but that all equally deserving your Favour in that point, and when there is occasion given to [. . .] any in a second, and third degree, we must be of opinion they [are] no longer fit for your service, the putting yo^r orders in execution [. . .] year by dismissing M^r. Aynsworth together with his absence, has had so good an effect, that since his departure yo^r President has not [had] the least complaint made against any of your Covenanted servants every [one after the Duty] of his station to the best of his cap[acity and . . .] all are [. . .]

52. We must not leave this subject, without acqu[ainting] Your Hon^{rs}. . that James Hubbard who came out a writer upon the Marlbrō Anno 1712, has by continual application in yo^e accomptants office made himself so much master of that business to be one of the usefulest hands we have and we dare promise he will make you an able accompt^t, there are so few that apply themselves to this valuable branch of your business because of the Drudgery, that we are often in distress for want of assistance But if you please to distinguish this industrious youth (that has no friends to appear for him) with some mark of your Favour it will incite others to tread in his steps and the present evill will be effectually remedied, especially if you please to send no writers nor Factors but such as upon strict examination are found to be well grounded in Merchants accompts.

53. What alteration mortality has made among your Covenanted servants will appear in the list N^o 4 that comes in the packet to which give us leave to referr you, & yo^t of the military will be found in the list of Burialls sign'd by yo^e Ministers, it has fallen hard upon the new Commers that were the best recruits we have receiv'd for many years, however our Garrisons are numerous enuff, and if the next ships should bring the usuall supplys, you may be pleas'd to forbear sending any the year after, for we would willingly reduce the garrisons of this place and Fort S^t David to seven hundred men or thereabouts by degrees, and when that is done, fifty good men yearly sent us will be a sufficient recruit unless some very extraordinary mortality happens.

54. Your chief and Council of Callicutt & Tellicherry having advis'd us in May last that the latter place was straightly besseig'd by the natives and in danger of being lost unless they could be supply'd with men and Ammunition, in which Bombay had faild them, we made use of the first opportunity by a Country ship in October to send them what ammunition and other stores they wrote for, of which there is a List enter'd after Consultation the 21st October, with an Ensign and ten of our best men, which were as many as we durst venture upon that conveyance, no other opportunity has since offer'd nor have we had any further advise from Callicutt.

Covenants of Harris, Emmerson & Willford come in the [packet] [also security bond of Maubert, Particulars] re] lat. g to MatWelds suspension be. taken off, his beg. reinstated.

56. In our last years letters by the Londo[n we] acquainted Your Hon.^{rs} with our reasons for suspending M^r. Matthew Weld one of your Fort S^t David Council, there were severall other particulars found against him afterwards which requir'd him to examin into the story would be too tedious for this Letter, and therefore we beg leave to referr you to our Consultations of the 18th and 20th. of December and 3^d ult^o., where every thing is fully explain'd and submitted to your Hon.^{rs} Judgements as a very extraordinary case, in the mean time we have reinstated him as he do's not appear to be guilty of any fraud or breach of trust, though there were grounds for suspition in the article of Tim[ber] and plank, but then he is clear'd by the Deputy Govern.^r and Counc[ell] passing his accounts, and nothing prov'd against him, and as to the [adv]ances due from him for which he was suspended, there is something to be said in his favour more than mention'd in our Consultations, which is that he was confin'd to his chamber by a broken thigh, and could not appear in council to pay the money in himself as usuall, therefore [sent] it to the Deputy Govern.^r who thought fit to apply it to his own use instead of paying it into Cash, as he has since acknowledg'd under his hand.

57. M^r. Alexander Bennet having petition'd us in Consultation of y^e 10th. ult^o. to lay down your service, and take passage upon this ship we could not refuse him so modest a request.

Alex^a. Bennet at his request permitted to lay down y^e service.

58. The Widow of M^r. Edward Fleetwood whom yo^r Hon.^{rs} thought fit to appoint second of this place being lately dead, has by will made this board joyntly with the ministers and Church Wardens her Executors, we could not well refuse the trust in behalf of y^e poor orphans though we had no precedent of this nature to guide ourselves by, and therefore request Your Hon.^{rs}. directions how we shall behave ourselves in cases of the like nature hereafter all we propose at present is to give our utmost assistance to y^e Ministers and Church wardens, having appointed two persons from the board to act joyntly with them.

Of Mrs fleetwood mak. y^e. Presid. & Coun. &c. her Executs. direct. desir'd if such a trust may be accepted

59. According to promise in our last we send the acco^t. of M^r. Henry Cottrel deceas'd in the packet N° 40 as they were transmitted us from Fort S^t David, the ballance due from him upon your Books as storekeeper has been but very lately recover'd, he is indebted to severall other persons at Fort S^t David as his accounts fairly make appear and the Creditors are in hopes his relations will be so just to order the payment of y^e money.

Hen: Cottrells Acco. sent in y^e Packet accord. to promise

60. We have examin'd M^r. Thomas Faucet since his arrivall here concerning the article of Fresh provisions that were put aboard the Heathcote by him as steward on account of your late President M^r. Pitt for his passage homeward bound, who declares that he had not only Govern.^r [Fraser's] orders for what he [did] likewise M^r. Mountagues who acted [during the] Governours indisposition and M^r. Fredericks that was [then] Paymaster and it appears further by evidence of these who were present, that when y^e Stewards accounts came to be passd and Gover.^r Fraser excepted against allowing that article, he was overrul'd by a Majority of y^r Council y^t declar'd they had consented thereto, and accordingly y^e account was pass'd and the mony paid upon which consideration we Doubt not but Yo^r Hon.^{rs} will change your opinions as to M^r. Addison's estate refunding y^e money.

Tho.^s faucets declaration [about] y^e fresh provisions put [sboard y^e.] Heathcote for Mr. [Pitt]

61. In compliance with our promise by y^e Joseph we are in the next place to answer your 121st paragraph by y^e Avarilla relating to Matthew Empson Warehousekeepers ballance, we have made a further scrutiny into that affair, and find that the mony paid out of your Cash to y^e Widows Attornies which amounted to no more than twelve hundred Pagodas was agreed to and order'd in Consul-

tation though we happen'd to mention the Govern^r only in our 191th parag^h by y^e Dartmouth, so that with submission the Govern^r singly cannot be accountable, and those of y^e Council that were in being since this business has been under examination, have often declar'd they had your orders under consideration when the money was permitted to be paid, and the board was then of opinion that Empson was no ways indebted, Mess.^{rs} Raworth and Martin being present that had the supervising and makeing up of y^e accounts committed to their care, and makeing no objection to y^e Payment of y^e money according to y^e Letter of your orders.

62. We have again call'd upon the Widow Empson for the foremention'd ballance as you may please to observe in Consultation of the 30th. Novemb^r. and in that of y^e. 14 December she delivered us in a remonstrance of her case which in our humble opinion is a very hard one, as the board took the management of his estate into their hands, and did not take care to oblige y^e. two persons whom they appointed to act to make a speedy report from whom the balance was really due, and to endeavour the recovery of it, instead of which the matter lay dormant upwards of two years, and even then nothing was done to the purpose towards gett^g. a true light into the affair till your President arriv'd, though it was always taken for granted that Empson did not use y^e. money, or else we are very sure that M^r. Pitt who was in place near two years after his decease would have secur'd Your Hon^{rs}. debt first out of his estate, which all went through your Paymasters hands, and severall large sums were paid away to other people to whom he was indebted, and this we take y^e Liberty to say both because we know M^r. Pitt was an exact man in all cases of this nature, and there could be no pretence of his showing Favour to M^r. Empson that was his declar'd enemy. The Widow humbly pray Your Hon^{rs}. to consider the hardship she has already suffer'd and knows of nothing she has left [but the old] dwelling houses [out of the] plentiful fortune she brought to M^r. Empson upon marriage.

63. In our 18th. paragraph by y^e. Aurengzeb we advis'd the arrival of ship William and Richard at Fort S^t. David wherein M^r. Raworth was about half concern'd, the produce of which being pagodas two thousand one hundred Forty one and thirty two fanams was paid by Lieu^t. Roach his attorney into your Fort S^t. David Cash, and they gave him a bill of exchange upon us for y^e same value receiv'd, wherefore for method sake we were oblig'd to pay y^e money and attach it M^r. Raworth had afterwards in Roach's hands upon which he produc'd a fair assignment that made him of his whole concern in the foremention'd ship, and deliver'd us a memorial setting forth the nature of his account with M^r. Raworth for y^e. ballance of which the assignment was given, the said memorial is enter'd [in] consultation the 30th. November, and we have y^e. accounts under examination but the dispatch of these ships takes up all our time at present.

64. We have permitted one John Lauder a modest sober lad born of Europe parents and bred in Europe to write in the Sec^r. Office, at the request of his relations that are old and considerable inhabitants of this place, their intention being to apply to your Hon^{rs}. for y^e. favour of admission into your service upon giving good security if you are pleas'd to grant their request he will undoubtedly be well qualified by the time your orders arrive.

65. M^r. Francis Hastings arriv'd here from Vizagp^m. the 23^d October and delivered in his answer to M^r. Faucetts charge are enter'd after Consultation of the 26 of y^e. same month. On y^e. 29th. that affair was fully examin'd and debated as your Hon^{rs}. may please to observe upon that days Consultation, and M^r. Hastings fairly and honourably acquitted of those two heavy articles viz^t. the extorting mony forcibly from y^e. merch^{ts}. and Defrauding the military, and other servants of their pay.

to Mr. Hast^s

66. However it appears to the Board upon examination of this matter, that severall sums of money amounting to between two and three thousand Pagodas had been sent back by y^e. Merchants to M^r. Hastings out of what was advanc'd them at M^r. Faucetts request for carrying on the Investment, though M^r. Hastings makes appear that this mony was fairly owing him on account, and though they

do not deny but that they sent it voluntarily. The board thought it but just to order that in case the merch^{ts}. do not compleat that Investment, nor make good the ballance of what advanc'd them, M^r. Hastings shall refund what he receiv'd from them or as much thereof as it will make good the ballance, for which judgement we have given our reasons in the foremention'd Consultation, but M^r. Hastings, thinks himself therein a little severely dealt with, and in a memorial deliver'd the 15th. November desires an appeal to your Hon^{rs}. [for] reason therein mentioned in the meantime we have hopes to [recover] the mony of the merchants themselves, and if we do not succeed shall waite your further orders in regard to him.

67. As for M^r. Faucet, that would never have let us into the secret of the mony being return'd by his own confession, had not Mr. Hastings threaten'd him with ruin in case of Failure in the investment, we should have dismiss'd him the service as well on that account, as for his leaving Ingerum in the manner he did without our permission, which put a stop to all business, and was an apparent breach of orders, but we were apprehensive of discouraging others from giving us such information hereafter as are necessary for the management of your affairs in subordinate Factorys, and therefore that part of the information being true in fact that the mony was sent back to Vizagapatam, Yours Hon^{rs}. may please to observe we slid over the malicious additions made by M^r. Faucet without any censure on acco^t. of his false charge or ill conduct, but as to the article of mal-administration, which appears to be entirely False and scandalous in all the particulars, even from the evidence of those very persons cited by M^r. Faucet to back his information, and by the General voice of all person's that ever have been at Vizagapatam either in your service, or on their own affairs, we thought it but just reparation that M^r. Faucet should ask pardon for falsly aspersing the reputation of his superior in so publick a manner, but his rancour is too great, he, has refus'd to comply, and he will still have M^r. Hastings to be guilty of having maltreated those persons that solemnly protest they have never had any ill usage from him whatsoever.

Reas. why
Mr. faucet
was not
dismiss'd the
service.

68. You Hon^{rs}. will please to consider the Characters of these two Gentlemen, One has serv'd you in a Cheifship many years with applause, and his conduct has very lately been approv'd by the promotion you have honour'd him with, the other has never been thought capable of any considerable trust, by reason of a Moon Frenzy that seldom fails him full and change, besides he is intollerably addicted to drinking, old, perverse, and ignorant in business, a Phisician if any thing but not enuff of that to keep him from starveing even in this Country where Doctors are so scarce, wherefore we shall not think it any prejudice to Your affairs if we are oblig'd to dismiss him for not complying with our orders that were so mildly drawn up on purpose to give him an opportunity of saveing himself by a becoming submission. We beg pardon for detaining you so long upon this subject, which we were willing to set in a true light, well knowing y^t. when a man is once openly accus'd, let him clear himself never so well some ill natur'd reflections will remain among such as are prejudic'd against him, the fact appears as we have related it, and we can lay nothing to M^r. Hastings's Charge except the endeavouring to recover mony justly due to him at an unseasonable time in regard to your affairs, which he would have scorn'd to do if M^r. Faucet had given him the Least intimation of the merch^{ts}. making that an excuse for their non compliance and [You^r.] Hon^{rs}. upon perusal of what he says for himself shall Judge that to be a [Criminal] we hope our sentence of restitution in case the merchants fail on their part will [be] thought a sufficient punishment.

David.

70. We have been heartily endeavouring to retrench the extravagant expence of Fort St. David as your Hon^{rs}. may please to observe in our Consultations the 2 [. . .] October and 27th. November. In our book of Letters sent N^o. 104 and 112, and in their answers receiv'd N^o. 169 and N^o. 1, the Deputy Govern^r. has been sincere in this affair as you will see in their Paymasters acco^{ts}. of December, which we shall order to be sent upon the Cardigan, we propose to make a further progress by degrees, but the seeds of this extravagance have been sowing ever since M^r. Haynes died, and every successor has made some improvements to the time of M^r. Raworths revolt, as your Hon^{rs}. will easil[y] observe upon the books now sent you, the last years expence being the most exorbitant of all, though the Warr was ended in the Aprill before, and we are very sure it would never have been Lessen'd if that Gentleman had continued in Post.

a begin^{ng}.
likewise
made at Viza-
gapatam.

71. We have made a beginning likewise to retrench [at] Vizagapatam, though the Government is so unsettled that we have not been able to do so much hitherto as we design'd, and the buildings are in so decay'd a Condition that constant repairs are absolutely necessary, b[u]t intollerably expensive. We beg leave to referr Yo^r Hon^{rs}. to a report lately made us by M^r. Hasting^s of the Condition of Vizagapatam, Maslipatam, and Madapollam Factorys, with remarks upon the state of the trade in those parts, which is entered after consultation the 22^d Ult^o.

[of] Repairs
the old
Factory at
Madapollam..

72. We expect two hundred bales more of Long Cloth and sallampores from Vizagapatam, and Ganjam every day, and as soon as these ships are gone shall set about repairing the old Factory at Madapollam that is much the best, by pulling down the new that will otherwise [fa]ll of itself next rains, the present expence of those Factorys appear plain upon your Generall books, which was the reason we did not send it apart by the Dartmouth in 1712, and for less money they cannot be maintain'd and kept from falling down.

[Of]
money re-
covered from
the
[renters of]
ft St David.

73. In the 99th paragraph of your Letter ¶ Joseph we gave your Hon^{rs}. hopes of recovering a sum of money of the rent of Fort St. David [*a few words lost*] those persons were very perplex'd and much time has been spent—in the examination of them, but at last we are got so farr as to be certain of their being considerably indebted to the said renters, and upon [securing] their persons we have brought them to offer us good security for paym^t. of six thousand Pagodas in four months time, which considering the intricacy of the affair we have ordered Your Dep^{ty} Govern^r & Council to accept upon limitations, as you may please to observe in our Letter of the 22^d Ult^o. this matter might have been [more] advantageously ended long ago had our orders been of the same value at Fort St David as they now are but of this we have said enuff in Former Letters. We are oblig'd to pay a legacy of about one thousand Pagodas out of this money due from the persons that made the discovery where the amounts lay hid and one have hopes of getting some further reparation by the help of the same persons.

W^m Martins
Accot.
Curr^t. sent
with the
Packet.

74. We have debited M^r. William Martin one half of the Warehouse ballance due from him and M^r. Raworth joyntly, and his acco^t. Curr^t. now stands according to the draught that comes in the packet N^o 42 what he left in deposit here is great part [in] Manilha, and we have reason to fear will come but short home by the late advices we have receiv'd from thence.

Accot. of wt
effects we
have been
able to get of
Tonapas
[effects in]
y^e packet.

75. We send in the packet N^o 48 on account of what we have been able to get in of Tonapas effects, and notwithstanding the false representation that have been made to your Hon^{rs}. of our proceed^{ss} in this affair, we are ready to prove the Contrary, and hope your Hon^{rs}. will believe that we have done and will continue to do our best for secure^s. whatever he has in the World to be at your disposal.

Serrapas
Houses &
Gardens sold
to clear his
debt.

76. We have sold Serrapas Houses and Gardens and that Debt will be discharg'd upon your new Books now in hand, but when we came to examin the mortgage bond it did not carry Interest, and in commiseration to his indigent circumstances, after having been your chief merchant so many years, we have discharg'd

him for the principle, and he has little or nothing left besides the house he lives in, Our proceedings in this affair will appear upon Consultations of the [2th of Novem^r; 3^d, 9th & 18th of December and 3^d ult^o.

77. Mess^{rs}. Tho^s. Cooke & Jn^o. Legg Trustees to Richard Smith deceas'd, have not been able to clear the acco^t. of his estate so as to pay the ballance thereof into your Cash in time for these ships but promises to do it as soon as possible and are of opinion the remaindar will not come to more than pagodas two hundred.

Reas. why Messrs. Cooke & Legg did not clear y^e. Acco^ts. of Mr. Richd. Smiths estate by y^e. ship,

EIGHTHLY TOUCH^g. THE WEST COAST.

78. What advices we have rec^d. from [some lines lost] since the Departure of the AurengZeb dated the [. . .] July and 10 [. . .] but came not to hand till the 15th of December by reason the ship that brought them was forc'd by the Monsoon to Bengall what supplys we sent th[em] by the Mercury and Avarilla we find were safely arriv'd, and there is a very [large] prospect of the latters being dispatch'd early to you with a full Loading of pepper.

[. . .] ships are arrd. [. . .] Coast:

79. Under the head of shipping we mention'd the two seperate ships Delicia and Clapham Galleys being arriv'd Bencoolen the Clapham got thither first on the 8th. of August, when your Dep^{ty}. Govern^r. & Council be^g. unacquainted with your having sent the Arrabella to Madagascar, very gladly embrac'd the opportunity of purchasing One hundred and twenty one men and forty six women slaves, the former at 60 dollars p head and the latter at 4 [. . .] which will be an extraordinary peice of service in case the Arrabella should miscarry, and if she do's arrive safe we can hardly believe she will be able to deliver half the number of slaves contracted for in a marchantable condition, the necessary buildings that must be carried on will now be much more speredily perform'd and a great deal of mony sav'd in Cooleys, which are already all turn'd off, and stood you in four hundred Dollars p Month, the only inconvenience we can foresee will be want of mony to pay for pepper since so large a part of your stock has been diverted this way, but we will use our utmost endeavours that they may not be reduc'd to any streights on that account.

Concerns the septe. stock ships.

80. We have now got a plan of y^e. Fort which they intend to build upon a hill under the name of Marlborough, but as we find they have already given your Hon^{rs}. so full an account of what they intend to do, we shall not need to repeat it, the projection seems to us very good, whi[ch before] we have ordered them to proceed vigorously, and shall send M^r. Elisha Ellil (upon the President that is daily expected from Bengall) to assist in this undertaking, he has now serv'd near five years under Covenants and three of them as Gunner at Fort S^t. David, he is very well vers'd in building; and the most usefull man we can think off, for that service, wherefore we have appointed him youngest of Council.

Of the new fort Building at y^e. West Coast.

81. Finding by our last advices that there is no possibility of getting sloops as expected from Batavia as long as this Generall continues in place, we have purchas'd a new one here f[itte]d, and sheath'd her extraordinary well, intending to load her with rice and provisions, and send her over in Company with your ship President, and shall endeavour to provide them with another as soon as opportunity offers.

NINTHLY TOUCH^g. S^t. HELLENA.

82. Pursuant to your order under the 12th February p S^t George we have receiv'd a parcell of our West Coast Copper [. . .] Farthings & halfpence, which come out some thin [. . .] pleas'd [. . .] to the price Copper is now at here] one half of them aboard this ship and shall send the remainder [by . . .] that Follows.

[. . .] farthings & half pence for [St. Helena.]

83. We have likewise coin'd one hundred pound value of Bullion into silver Fanams, which are Invoic'd at three pence each and one half of them put aboard this ship according to order: the profit being brought to your account, but upon

Fanams coin'd for y^e. use of [St. Helena.]

the Copper Coinage there is no profit as you may please to observe in the mint acco^t. of the Coinage that comes in the packet N^o. 48 with musters of the Farthings, halfpence, and Fanams sealed up in it, the stamp intended was the Crest of your arms on one side, and your mark on the other, but our engravers have perform'd the former but very indifferently, The Copy of the S^t. Hellena invoice that comes in the packet N^o. 50 will show your Hon^{rs}. what is laden upon this ship.

seeds proper
for St.
Helena.

84. We have no seeds here of any value or fit to send to S^t. Hellena but what came to us from other parts of India, but we now write the Gentlemen there who are the properest Judges, to send us word what they are of opinion will be fittest for the Climate that we may supply them accordingly, as for plants we have very few of any vallue here, your homeward bound ships being always streighten'd for water, we cannot expect they will ever be taken due care of in so long a passage, wherefore it will be best to supply them from some place nearer. We have put it into the Captains' dispatches if he touches at the Cape to procure what seeds and plants are proper for the Island, but the objection they will all make is that they are streighten'd for money, and have not wherewithal to purchase them.

85. As for Cloathing for the slaves we now write your Govern^r. & Council to send us word what sorts of goods will be most prop^r. but these ships that now fill up here having taken aboard their Full Tonnage for S^t. Hellena in the Ba[y] we cannot put anything aboard them.

SUPPLEMENT.

86. Notwithstanding our utmost endeavours to fill this ship with white goods (and the Captain will be so just to testify that we have work'd night and day eversince we knew the Gentlemen in Bengall intended us so many bales less than we expected) some few days of unusual rain in January have oblig'd us to fill up with a few bales of Brown Cloth rather than detain the ship longer at this season of the year.

87. We have rec^d. about one hundred and Forty Bales more of very good Long cloth and sallampores from Vizagapatam and Ganjam, most part of which came upon this ship, the few moorees and neckcloths are what were remaining of our last years contract, that could not be whiten'd in time for the last ship of the season, and upon your new orders receiv'd this year, we once propos'd to have kept them by us in Warehouse, but being so har'd put to it to fill up this ship has occasion'd us to alter our resolution.

We had [hopes] when we dispatched the [Aurang Zeb] of procuring a parcell [of] Madrapuck Beeteelaes from eight[y to] hundred pagodas P Corge [which] we suppos'd to be the same your Hon^{rs}. mean that sell so well i[n priv]-ate trade, but the French that are much nearer the place where they are made, have rais'd the price to such an extravagant rate that we have not been able to contract for them here on such terms as to hope for your [appro]val and there is no such thing as purchas^g. them for ready money.

91. Having just now receiv'd from Fort S^t. David their Paymasters Acco^t. for December last we send it in the packet N^o. 51 that your Hon^{rs}. may perceive the good effect our orders have met with towards retrenching their expences.

We have like wise been oblig'd for security of our Magazines to make severall new arch'd godowns under the Curtains which stand in about one thousand Pagodas more and will all be lost if the Fort is Pull'd down.

We are very sorry so rich a ship should happen to be dispatchd so late it do's not consist wth. prudence but could no way be avoided on our part. LETTER TO CAPTAIN JAMES OSBORN, COMMANDER OF THE HANNOVER, DATED
FEBRUARY 12, 1715. [*Public Despatches to England, Vol. 4, pp. 102-103.*]

[To] CAPT. JAMES OSBORN
COMANDR. OF SHIP HANNOVER

Your ship being fully Laden you are hereby order'd to repair on board and with the first opportunity of Wind and weather to proceed and make the best of your way for the Port of London and whatever Port of Great Brittain you arrive first at we order you to send away your purser with our Packet delivered you in a Box mark'd A directed to the Hon^{ble}. the Court of Directors for affairs of the R^t. Hon^{ble}. United Company of Merchants of England trading to the East Indies to whom your ship goes consign'd.

We likewise deliver you a Flying Packet letter B which you are to Forward by Post or Express immediately upon you^r arrival in any Port of Europe where conveyance can be had, tak^e. care to write yourself to the Hon^{ble}. Directors with an acco^t. of what has happen'd material in your voyage that they may have no cause to Complain as Formerly for want of advices when at the same time our Packet has been detain'd aboard.

But if you arrive first in any Port of Great Brittain you may likewise send the Packet B along with your Purser or whomever you appointed to carry the Box mark'd A provided you think he will get to London sooner then the Post otherwise deliver it to the Postmaster to be forwarded by express to the Post house in London.

If any unforeseen accident should oblige you to put for Mauritius you must avoid the Northermost Harbour and Carpenters Bay for fear of Pyrates and make for the Southeast Harbour where the Dutch formerly had a settlement.

You are requir'd to touch only at S^t. Hellena in your way home for refreshment where you must bring your ship to an Anchor before you come open with Chappel valley near Mundens Point if you dont meet with good anchor hold sooner from whence you must send your boat ashore to give the Govern^r. intelligence who you are because he has orders to fire at any strange ship that endeavours to pass that point before he knows what they are and whence they come and we do not yet know whether those orders are countermanded since the Peace.

We strictly enjoyn you as formerly not to come near any ship at sea if possible to be avoided unless you have secure signalls beforehand concerted so as to know they are of your Companions because there may be Pyrates abroad as formerly.

It is the desire of our R^t. Hon^{ble}. Masters that if you should happen to touch at the Cape you will endeavour [to] procure what seeds and Plants are proper for the soil and Climate of S^t. Hellena and carry them to the Govern^r. & Council who will readily reimburse you for whatever charge you are at in procuring them this is a great piece of service to the Publick and therefore we dont doubt but you will have it in mind.

We wish you a prosperous voyage and date this in Fort S^t. George this 12th. Day of February 17th.

GENERAL LETTER FROM FORT ST. GEORGE TO THE COMPANY, DATED JUNE 30, 1715.
 [Public Despatches to England, Vol. 4 pp. 110—120.]

TO THE HON^{BLE}. THE COURT OF DIRECTORS FOR AFFAIRS OF THE R^T. HON^{BLE} THE UNITED COMPANY OF MERCHANTS OF ENGLAND TRADING TO THE EAST INDIES.

☞ Ship
Cardigan.

HONOURABLE

Belatg. to ye
Cardigans
not beg. dis-
patch'd
before.

1. Our last was a short Letter under the 22^d February intended by this ship Cardigan when she was dispatch'd from hence to Fort St David, in order to fill up with hopes that she might have sav'd her passage, but y^e Winds & Currants were so strong against her; that it was the 26th before she could get up thither. Your Hon^{rs}: may please to observe in our Letters to Fort St David that all due preparation was made, and the Dep^{ty}. Govern^r and Coun^{ty} earnestly press'd to dispatch the ship if possible within y^e time limited we must needs say they were every way in a readiness, and did as much as could be expected from them, several boats wth bales being on board the ship before she came to an anchor, and all manner of assistance given y^e Cap^t from y^e shoar, in filling his water, &c., that could be desir'd, however to our great grief she was not dispatch'd by y^e last of y^e month which is y^e utmost time permitted in our present standing ord^{rs}. Our foremention'd Letter dated the 23^d February is forwarded herewth to show your Hon^{rs} y^t we did our part, and if she had not been unreasonably detain'd in Bengall, there were bales now ready at Fort St David to have dispatch'd her as soon as the Hannover, wherefore we hope y^e unlucky dis-appointment will not be laid at our Door.

2. We are now to acknowledge y^e Favour of your Letter by y^e Kent dated y^e 27th. October 1714, together wth the Copy of a Letter to Bengall ☞ Catherine and Thistleworth via Bombay dated y^e 27th March 1714, and having heard no news of y^e originall from Bengall we conclude that yo^r Generall and Council of Bombay did not forward it by Pattamar, but kept it to send by y^e ship^s of y^e season, which could not arrive y^e Bay before May or June otherwise they would have communicated y^e Purport thereof to us, and whereas pepper was last year at or about the Price [. . .] in Be [. . .] undoubtedly you would have [a Quantity] upon ships Hannover and St George.

An Ansr. to

3. Being every way in a readiness to send You^r Hono^{rs}. a full ship in September, we chuse to wait those further advices which you are pleas'd to promise us by y^e January shipping in order to answer them all fully at once by her, and by y^e Conveyances we shall only trouble you with such occurrences of moment as have happen'd since the disp^{ch}. of y^e Hannover, and answer such particulars in your Letter by y^e Kent as [more] immediately require it.

4. Finding our selves disappointed in y^e Disp^{ch}. of y^e ship as beforemention'd, we order'd her immediately [land] hither, unloaded and return'd her to Fort St David with [necessary] stores, which we did not think fit to put on board before that no time might be lost, and on y^e 30th of March she return'd hither with the remainder of their bales amot^s. to 430 which were hous'd before any Danger of the April Monsoon.

5. On the 26th of February a large ship appear'd before this road under French Couloirs about three or four leagues distance, she ply'd up all y^e morning wth the Land wind towards the ships at an Anchor till abo^t noon when y^e sea breeze set in, instead of standing for y^e road as we expected, she stood off to sea and we have heard nothing of her since, but by our Cattamarans [there] were on board her, who report y^t she was full man'd [with] Europeans, y^t they seem'd to be French, and when they was ask'd for a note according to Custom, the commander [told] them there was no occasion for any, that he came

from Pondicherry and was bound to Bengall, which we knew to be false, and therefore concluding him to be upon a dishonest account, we immediately dispatch'd away the necess^{ry}. advices all along y^e. Coast to Bengall & to the Mallabar Coast, Surat & Bombay, from whence having no further news of y^e said ship, we conjecture that he went for [Mergue] and y^e Streights of Malacca.

6. Ship Rochester Cap^t. W^m. Brown arriv'd here from y^e West Coast on y^e 31st March with advices from yo^r Dep^{ty}. Gov^r. & Council that it was as much as they should be able to do to dispatch the Avarilla a full ship in time to save her passage about y^e Cape, and y^t they [. . .] to have [. . .] enuff to [. . .] Roch[ester . . .] September, for which reason they sent her to us to [arrange for] a supply of such stores as were most wanted, perticularly a large quantity of rice and liberty to draw upon us for 20,000 Dollars, in case they should not receive a timely supply from Europe.

Advices brot. by y^e Rochester from y^e West Coast.

7. We acquainted you in your Letter by y^e Joseph that your ship President was gone to Bengall to be repair'd and loaden with a proper cargo for y^e West Coast. We then thought we had reason to expect her here in January when she wou'd have had a speedy passage to Bencoolen, but it was y^e latter end of that month before she got clear of Bengall river, and meeting with an accountable calms and currants did not arrive us till y^e 7th of Aprill after y^e Rochester, and therefore we thought it most advisable to send them together with the sloop mentioned in our Lett^r. by y^e Hannover in company under their Charge, to tow her over if there should be occasion, accordingly they went hence on y^e 18th. of May as soon as the Land winds were well set in, and if they had gone sooner wou'd have met with a tedious passage. We send Yo Hon^{rs}. according to promise in y^e 10th paragth. of our Letter by y^e Joseph, an account of ship Presidents Charges fitting &c^a in Bengall in y^e Packet N^o (8).

Concerns y^e Presidents. • passage & arril. from Bengal also [of] her ber disphd: to ye West [Coast] in Compy wh y^e Rochester.

8. On y^e 7th of Aprill arriv'd your ship Kent Cap^t Lawrance Minter from Great Brittain, last from y^e Cape, having met with nothing remarkable in his passage, but that it was as quick as ever was known considering y^e season, we immediately determind to traverse the West Coast stores from y^e Kent to y^e Rochester and to send y^e Latter away with them, and y^e Addition^l stores demanded from hence, for y^e reasons mention'd at large in our Consultⁿ of y^e 11th Aprill to w^{ch}. for Brevity sake we referr you not doubting but they will prove satisfactory, at y^e same time we agreed to return you y^e Kent from hence as soon as her loading can be compleated and that we do not doubt but will be with in very few days after y^e Commencement of her Demorage in August.

[Kents] arrival & reas. [for detain^t] her here to go [. . .] in Sept^r.

9. We have paid y^e surgeon of y^e Kent his [mony] for two soldiers brought out for Bencoolen [. . .] receipt comes in y^e Packet N^o (9) drawn according to y^e. Directions in your 19 paragth. by y^e Kent, which method shall be carefully observ'd hereafter.

[. . .] mony.

10. We have lately rec^d advices by private Letters from Batavia, that y^e Avarilla was there in May, having lost her season for y^e Cape, and that the Borneo Galley was return'd from Benjar to Bencoolen disapointed of her loading, which is a further satisfaction to us that [we] were in the right to keep the Kent here, likewise the Arrabella Cap^t Reid was met with the beginning of last month, by one of our ships in y^e Streights of Sunda, [but] whence he came, or whither he was bound, he did not think fit to communicate.

Advice of y^e Avarillas beg. at Batavia, of y^e Borneo Galleys disappoint- mt ., & y^e Arrabellas beg. met in y^e Streights of Sunda.

11. We must referr your Hon^{rs} to our Consultⁿ of the 11th & 12th of Aprill for a complaint made by Cap^t. William Brown of y^e Rochester against Charles Strong his Cheifmate, there were so many point blank evidences that appeard and offer'd oath to the Facts charg'd upon him, that we could not refuse the Cap^t. y^e Satisfaction of displacing him, tho with reluctancy in regard that he had serv'd in other of your ships, and particularly with Cap^t Woolon in the Derby to his intire satisfaction, there is a rumour since the ships departure of a Combination against him among y^e officers that appeard as evidences at the

of Cap^t . Brown of y^e Rochester . his compl^t . agst his Cheifmate.

Tryall, if they have wrong'd y^e man, God forgive them. We could not do otherwise than we did as matters then appear'd to us, and took care y^t y^e Cap^t shipp'd an approv'd good man in his place, that has serv'd in y^e same station among our shipping for severall years.

12. Our reasons for dispatching this ship Cardigan at the expiration of her 4 months demorage are fully express'd in Consultⁿ. the 5th of May to which we beg leave to referr you, and hope she will be in time for y^e March sale when we make no doubt but her Cargo will be much in dem^t. and being in time of Peace we cannot foresee any danger.

13. Your ship Bouverie having carried a full and profitable Freight to Surat, arriv'd here from Bombay the 2^d inst. and having deliver'd what freight goods she has on board for this place, went forward on her way [to Bencoolen] the 19th; she will make at least [. . .] as y^e Hanover did last year, we have wrot^e the [Presi^t] and Council that if they return her to us in December with 4 or 500 bales for a mix'd Cargo, we shall be ready to fill up and dispatch her in few days.

14. We cannot make any further disposition of y^e shipping, till we have your last orders by the Mary &c^a now daily expected, but our present resolutions are to fix y^e 10th of January for y^e dispatch of such ships from Bengall as are to fill up here, that there may be no hazard of losing their passage hereafter.

15. On the 7th. inst. your Ship Recovery (at least she is so call'd) Cap^t Richard Ganey arriv'd here from Bombay, and on y^e 10th y^e. Success Galley Cap^t Tho^s Clapham both let out to Freight for Bengall upon very reasonable terms, they went forward y^e former on y^e 10th, the latter on the 13th, and we perswaded them to carry the remainder of the rupees that were coind, for y^t presidency out of the silver that came upon the Kent freight free, being 13 Chests, we had sent much y^e greatest pay down before, upon the best conveyances that offer'd, knowing them to be in great want of mony carrying on your affairs.

Advice of
ships on y^e
Coast of
India.

16. What advices we have of your Shipping on the Coast of India are as follows. The Bhinham unfortunately blown up at Bussora, by firing Guns at the Funeral of Cap^t Parrot, we do not learn that she had any cargo on board of Your Hon^{rs}. The Catherine gone to Moco upon Freight with bills of Exchange to purchase a large Quantity of Coffee, The Thistleworth return'd from Persia, the Duke of Cambridge from China to Bombay, where they lie up in order to be dispatch'd as soon as y^e rains are over, their Cargo's will be cheifly in pepper and Generall Aislabie intends to take his passage upon one of them.

17. We have put aboard this Ship 300 bags of Salt Petre more than she brought from the Bay at the request of the Cap^t as enter'd in Consultation the 29th Aprill together with the reasons why we thought we could not safely refuse him; his request comes in the Packet N^o [. . .] and we have wrote the Gentlemen in the Bay the 18th. inst to prevent [the pernicious] Custom [of Pyrates in] the Future of demanding Petre from us that is lodging here for other uses, & sometimes comes to us upon Freight for want of other conveyance.

SECONDLY CONCERN^s GOODS SENT & TO BE SENT FROM EUROPE.

Of the little
Broad Cloth
dispos'd of
since y^e
Hanover
sail'd, & y^e
Reason why
it sticks so on
hand.

18. Under this head all we shall now say is that considering the present state of the trade in these parts in regard to y^e woolen manufactures, we are sorry to find in your Letter by the Kent that we are like to receive a greater quantity than we wrote for, our Letter by the Hanover mention'd above 700 bales remaining in the Godowns, with the hopes we then had to dispose of the greatest part before the arrival of this years shipping but contrary to our expectations those bales which our Merchants had by them in their Godowns, have been more than sufficient to supply the market to [y^s] time, y^e demand being mightily lessen'd, and the price fallen every where upon the Coast, and our Nabob [having] spent the greatest part of y^e year at Chingie and to [the] southward as far as Tanjore with

his small camp, [very] little of our Broad Cloth has been diverted that way [as] usuall, we have done our utmost endeavours as will appear upon our Consultations now sent, to pre[vail] with our merchants to take of 4 or 500 bales at the same price as the last viz^t 45 $\frac{1}{2}$ Cent upon Invoice but they make appear to us that they have lost considerably by what they took off last season, and [y^e] most they have hitherto offer'd us is 25 $\frac{1}{2}$ Cent advance which we think too little and therefore have not yet come to an agreement.

19. We acquainted your Honours by the Hanover of an offer we made the Presid^t & Council in Bengall to send them 3 or 400 bales of Broad Cloth if they wou'd be of service to them, the substance of their answer was that Broad Cloth was become as much a drug with them as with us, and particularly at Patna, where the price was yet lower than at Calcutta, for which reason they desire us to send them none, thô they are in greed of [money The letter] from y^e Bay is dated the [. . .] February and enter'd in our Book of Letters rec^d N^o (31).

Of an offer made y^e Presid^t & Counll. in Bengll. to send ym. 3 or 400 ba. of Broad Cloth but they car'd not to accept it.

20. This being the true state of the case at present, Yo Hon^{rs} will be best able to Judge whither it is not more for yo^r Interest to forbear providing any quantity for y^e export of the year 1717, we will not fail to advise by all opportunitys of any alterations that happen as to this important article, and to demand as much as there is a possibility of vending before it is spoild, by lying in y^e Godowns.

[Of y^e] encouragement to export Broad Cloth in y^e year 1717.

21. The Stores that came upon the Kent for the use of the West Coast, were all travers'd in good order on board the Rochester, One of your Covenanted Servants being aboard each ship to take the account, except three Chaldron of Coals that were found wanting upon measurage, and 4 large Anchors which we thought more than they could have occasion for, and can dispose of them better here.

[Y^e] West Coast stores travers'd [in g]ood ord^r aboard y^e Rochester. [except] 3 chaldron of Coals [y^t] are want^s.

THIRD^{ly} TOUCH^s INVESTMENTS.

22. Not a days time has been lost in make^s. preparation for the shipping of this Season New contracts being enter'd upon both here and at Fort S^t David before y^e old ones were intirely compleated, as you may please to observe in our Consult^{ns} of March & Aprill. We are only sorry that we have not been able to lower the prizes according to your Expectation, we delay'd as long as we could, and left no stone unturn'd, but there is so vast a demand and Chiefly for fine cloth, which takes the weavers off from the Coarse, that we were at last glad to agree at the same prizes as last year, that we might be at some certainty before the arrivall of the French ships of whom we rec^d advices by the Kent.

[No] time has been lost in make^s. preparation for y^e shipp^s. of [this] Season.

23. We have now 700 bales made up here & 300 at Fort S^t David, and more brown cloth in our Bounds than our washers can dispatch for want of water, this being one of y^e. Dryest seasons that ever was known, but rains are daily expected and we doubt not but to fill y^e. Kent in August, we have made [no progress hitherto] notwithstanding y^e. [augmentation] of our B^d. Cloth to carry on our business fully, both here, at Fort S^t. David, & Vizagap^m. without borrowing mony or running in Debt, besides large supplys to the west Coast service, and paying for our Petre and stores last year in Bengall, because we knew the necessity they were in for want of mony, but now you may please to observe by our acco^t. Cash in y^e. packet N^o. (12) that we are reduc'd very low, but shall go chearfully on in expec^t.] of y^e. supply you are pleas'd to promise us in your Letter by [y^e.] Kent; and doubt not but to make you sufficient returns y^e. sea[son].

Readiness we are in to fill y^e Kent in August.

24. In compliance with your orders rec^d. by y^e. Kent for buying up Pepper at or about 10 rupees $\frac{1}{2}$ Bengall maund, which is just 3 maunds of this place We have agreed for 100 Candys or thereabouts with the owners of a ship lately arrivd from y^e. Mallabar Coast at 22 pag^s. $\frac{1}{2}$ Candy as your Hon^{rs}. may please to observe in y^e. Consultation of the 30th. ultimo & 2^d. Instant. It was intended for y^e. French ships expected at Pondicherry for which reason and because we

Reasons for buyg. 100 Candy of Pepper.

would not loose the benefit of the Custom here, we ventur'd to exceed the price you permit us to give, thô tis a very inconsiderable matter, and in our hum^{ble} opinion fully made amends for by the goodness and cleanness of it, in comparison with the Java pepper, which is the only sort you could expect to be supply'd with from Bengall, and [we] are well satisfied from sure hands, that all your pepper from the Mallabar Coast this season, will stand you at 70 to 80 Rup^s. a Candy, which is a higher price than what we have given here. This quantity we reckon will be full as much as this ship, and y^e. Kent can shoot in their holds among their Bales, we have endeavour'd to follow your orders in bringing the Cap^t. to an agreement for half Freight under his hand, which comes in the packet N^o. (11), and we hope will prove satisfactory.

FOURTHLY TOUCH^e. THE TRADE OF INDIA & C^A.

[Intend] to write fully undr. y^e. head by y^e. Kent. 25. Intending to write fully under this head by the Kent when all our ships from abroad may be expected in, we shall only acquaint Y^e. Hon^{rs}. that we have made shift to keep all quiet at Fort S^t. Davids by messages to and Frô, without giving the Nabob what we had in a manner agreed on when we wrote our 24th. parag^h. by the Hanover. He is now return'd to his old residence at Arcot, and at present very easy and quiet, only our merch^{ts}. complain greivously of the Juncanneers that are daily endeavo[uring] to establish new, & exorbitant dutys, by stopping their goods from coming in, which difficultys we will do our utmost to remove.

[No] news of y^e. Present. 26. We have no news of our intended present since February when it was got no further than Patna but we are told they would set forward in very few days.

The Danes mak^t. Warr wh. the Mogul & y^e. Moors demands. [a] Pass to secure their ships. 27. We are much plagu'd by y^e. great men of the Country government demanding passports of us to secure the shipping of their Friends from the Danes that have declar'd warr wth. y^e. mogull, as advis'd in our Letter by y^e. Hanover but we have avoided granting any hitherto, being well assur'd that the Danes will not regard'em, and apprehensive that the moors would esteem them as safeguards, and endeavour to give us trouble when they find themselves deceiv'd. The Danes have continued quiet without any further attempt that we have yet heard of, since they took the ship in Hughly river.

FIFTHLY TOUCH^e. FORTIFICA^s. & C^A.

Ye new fort is rais'd 5 foot above ground, & preparat^s [are] mak^t. at ft. St. D. to begin upon y^e. S^o. wall of Ouddre. 28. We are fully employ'd upon our Inner Fort building and have got the walls of y^e. whole square about 5 foot above ground, we could go faster but then the work would not be so substantially well done. At Fort S^t. David materials are ready for a beginning upon the South wall of Cuddalore, and in January we shall give you a full acco^t. of all our proceedings under this head.

Revenues improv'd & ha^e. someth^r further in view. 29. We have made a considerable improvem^t. in your revenues as advis'd by y^e. Hanover, and have someth^r. further in view, of which you shall have an ample acco^t. in our next, what we have done will appear upon our Consultⁿ as now sent, & particularly in y^t. of y^e. 12th of March last where we have rais'd 40 pag^s. 7² ann^m. to 710 free of all Charges.

Concern^t y^e false Reports spread [in] Eng^d that y^e trade of the Country is ruin'd. 30. Notwithstanding y^e. malicious but senseless reports y^t. have been industriously spread by some base men in England for sinister ends That the trade of Madraas is lost and all running to decay & ruin, y^e. noise of which has reach'd us from all [hands] we make bold to point your Hon^{rs}. to y^e. article of Sea Custom [. . .] of March where God be prais'd you receive a clear revenue of [Pagodas] 9887, and we are of opinion the whole year will equall if not exceed any of the former, except when the Kings Son Cawn Bucks and the great vizier

Assid Cawn were in these parts with a vast army, which occasion'd a prodigious import of rich peice goods from Bengall.

SIXTHLY TOUCHING FACTORS WRITERS &C^A.

31. Your Hon^{rs}. will permit us to begin this head with our most hum^{ble}. Thanks for y^e. favourable opinion you have been pleas'd to express of our services in Generall and particularly of our cond[ition] during the unhappy troubles at Fort S^t. David which will strengthen both our hearts and hands in pursuing your interest and putting [your] orders in execution. We have endeavour'd to follow the Golden rule of doing as we would be done unto, in regard to all your servants and others that are under our direction. We are sensible however that great pains have been taken by some self interested persons to misrepresent our Just proceedings, but since they have happily m[et] with your approbation. We are entirely easy, and shall go on chearfull with the business committed to our care, in hopes to preserve you^r. good opinion you seem to have of us at present.

Thanks return'd for the favourable opinion of our services in y^e. ft. St. David troubles.

32. Your President in particular finds himself under so many obligations for those Hon^{ble}. Marks of your favour which he has receiv'd by the Kent, so much exceeding the merrits of all the services he has been able to render you, that he confesses himself at a Loss for words to express his gratitude, However he [begs] leave to do it as well as he can in a Letter apart by this Conveyance.

The Presidt. likewise returns his P^{ar}ticular, thanks for y^e. great marks of favr. recd.

33. Upon rec^t. of your orders in the 85th. paragraph by the Kent, we immediately proclaim'd his pres^t. majesty The most high and Majesty Prince George Elector of Brunswick Lunenburg [King] of Great Brittain France & Ireland with all possible Solemnity the same has been since done at all y^e. subordinate Factorys and we pray God to grant him a long and happy reign.

On rec^t. of y^e. ord^{rs}. P^{ar} Kent King Geor. was proclaim'd.

34. Mr. W^m. Warre who had charge of y^e. warehouse from y^e. time of Mr. B^d. Benyons decease departed this Life on the 6th. ult^o after very few days illness, and in regard to y^r. 93^d. par^a. by y^e. Kent relat^d. to Mr. W^m. Jennings as well as the great alteration y^t. has lately happen'd at y^e. board. We have order'd him up hither as soon as y^e. season serves, & appointed Mr. Rob^t. Symonds Cheif of Vizag^m. not being able to spare a person fitly quallified for y^t. Station from hence at present, Mr. Fa^s. Hastings has y^e. charge of y^e. Warehouses till Mr. Jennings arrives.

Advice of M. Warres death P^{er}mission for Mr. Jennings to Return, & take in Mr. Symonds Cheif of Vizagap^m.

35. Mr. Rob^t. Symonds has formerly serv'd some time under Sr. Nicholas Wait & y^r. Council of Bombay since which he has spent these 9 years past at Viza^m. Ganjam & the adjacent places trading from thence hither in Grain and other Commoditys, is a very ingenious man, speaks y^e. Language perfectly well understands y^e. trade of all those parts, and y^e. Customs of th[e people] and being very well quallified for business. We hope your Honours will approve of w^t. we have done, thô necessity has oblig'd us to a deviation from your Standing orders.

The charact^r. of Mr. Symonds.

36. Ensign Andrew Kennedy proving an incorrigible Drunkard, we have taken away his Commission & granted another to John De Morgan the first Serjeant that came over to his Duty from Mr. Raworth at Fort S^t. David, and was attackt for it y^e. following night at Cundapahs Choultry.

[Ensign] Kennedy broke, & Jno. [De] Morgan succeeds him.

38. We wrote your Hon^{rs}. by y^e. Hon^{ble}.

Since we clos'd our packet & dispatched this ship on y^e. 1st. Inst. the winds hanging southerly and the Currant Strong to y^e. northward, the Cap^t. has thought it best to continue in y^e. road waiting a fair slatch to put to Sea, with hopes that our other Europe ships wou'd have arriv'd 'ere now.

This gives us an opportunity of advising your Hono^s. that on y^e. 7th. instant two ships from S^t. Malos arrived Pondicherry wth Monsieur Hebert upon 'em Generall of y^e. French nation in India, they have brôt a very great stock both for y^e. Coast & Bay, & a large sum to be invested in Diamonds, which will give y^e. Finishing stroke to the ruin of that trade for some years. We learn from 'em that they touch'd at Falmouth, the latter end of Jan^{ry}. O.S., & were there told that our ships were not clear of the river, if so we cannot yet reasonably expect them. The Kent is gone to Fort S^t. David to bring up the bales, and we are in a readiness to Load her as soon as she returns.

ABSTRACT OF GENERAL LETTER FROM FORT ST. GEORGE TO THE COMPANY, DATED SEPTEMBER 13, 1715. RECEIVED PER KENT THE 30TH APRIL 1716 [*Coast and Bay Abstracts, Vol. 2, pp. 7—22. (India Office transcript).*]

1. Their last was of the 30th June by the Cardigan, the Captain dispatht the 1st July but did not sail till the 17th on which wrote a short letter of the 15th.

2. Are now to give a full answer to the Companys Letters of the 27th October per Kent and 12th January per Mary &c^a. which shall be compleated in January, will send advices overland via Persia by way Bombay when anything extraordinary happens, else the Ships bound to Persia from the Bay being in January or February can send better by the Europe Shipping and Sooner.

FIRST CONCERNING SHIPPING SENT OUT AND RETURNED.

3. Glad of the Arrival of all the Ships Anno 1714, hope all design'd for India will come in safety. The Heathcote and Mary arriv'd the 23th July touching at the Cape, the Darby parted with them the 27th May off the Cape, the Dartmouth sail'd from the Cape the 6th of May.

4. Fear the Dartmouth will not arrive Madrass in time from China to be dispatht for Europe. Gold in March last scarce in China and at 17 above touch. The French have a large ship bound from Cadiz to Canton which will affect the Dartmouth.

5. Glad to hear the Separate Stock is at an end it having been prejudicial to the Company, they did give the best advice they could about the Joseph and Windsor. Several of those Ships will trade to the 28th September 1714, and if wrong must make satisfaction, have don what justly could about them.

6. In answer to the reparting Coast and Bay Goods say it is the Companys Interest they send home Ships before the October Monsoon because they may arrive for the March Sale, Then have no likelyhood of Bay Goods, must depend on the Bay for Goods for the January Ships, being unsafe for Ships to ride out the October Monsoon on the Coast therefore must and do cooperate with the Bay for disposing of all Ships then on their hands, refer to their Letter to the Bay of the 29th August advising what tonnage the Coast could supply in January that might have Ships accordingly.

7. Receipts for Souldiers head money per Kent, Heathcote and Mary sent according to orders, paragraph 19, will always follow that rule.

8. Madapollam Yatch always mann'd out of the Gunroom crew but when money on board Europeans are added, the Gunroom crew in constant pay therefore no Wages appear in the Account. Have no other Countrey Vessel but the President on the West Coast, shall send her Account exactly by the January Ships of what she stands in and earns yearly, do employ her to the best advantage.

9. Have sent one Sloop to the West Coast which being so chargeable notwithstanding their frugality did send no more, have a Vessell in View which expect will come out much cheaper and be fitter, two are fully sufficient, have order'd the annuall Account of charges to be sent to Madrass.

10. Have always sent Arrack and Stores to St. Helena according to the tonnage if the Bay did not, and will continue to do so, refer to their Invoice and Letter for what now sent.

11. Shall send list of Ships importing at and exporting from Madrass more exact sign'd by the Sea Customer and Transcriber, have sent one now No. 11 in the Packett.

12. Do acquiesce in the Companys determination about Captain Reids expedition to Mallacca, but their Consultation will show he did not do his best to get to Mallacca.

13. The Companys Complaints Paragraph 25 observ'd, will follow the Companys orders about the Captains registering their Goods exactly.

14. Have received from Bengall what wrote for as far as the Ships could bring, the Mary Buoyer brought the remainder but she mist the Coast and drove down to the Bay. Have sufficient Petre in the Godowns and shall not demand much this Season.

15. Have answer'd the most of the 28th paragraph. Captain Phrip did all he could to have got away, Suppose thereby the Company intend to repeal the standing order of not dispatching Ships after the last of February till September, and that it was intended only in War time. Desire the Court will consider the danger of rich ships at Mauritius or any of those Islands, and that Ships dispatcht the beginning of July from Madrass will reach the Cape in October, a good Season for getting about, and pray the Companys answer thereto.

16. Have received the 8 Chests of Treasure for the West Coast by the Heathcote, but can't procure any Mexico dollars nor expect any till February and a Manilla Ship arrives. Want of money on the West Coast will hinder getting Pepper for the Ships there.

17. Tho' the Company advise to send £310,000 to the Coast and Bay, whereas after deducting for the West Coast and Tea and Silks will remain but £294,242, however, shall send £200,000 to the Bay because they are in debt and the Dartmouth not being expected before January, and most of the rest being in cloth and Stores, can't make the January Shipping Investment except take up money and Interest.

18. Shall when the Dartmouth arrives observe the orders about her in Paragraphs 5, 6, &ca., and hasten the Ships dispatch for Europe. Having answer'd all under this head shall add what hath since occur'd.

19. Kent dispatcht 8th July for St. Davids with Necessarys, she return'd the 26th Do. with 57½ Bales.

20. Captain Reid in the Arabella arriv'd from the West Coast the 26th July, could get no Pepper at Banjar or to the Eastward, says he hath wrote largely to the Company. He was dispatcht from thence because had no likelyhood of Pepper, and the Borneo and Rochester and expected ships from England were to be provided for. Have sent her with Stores and 12,000 pagodas to Vizagapatam the 15th August, thence to Bengall with 203,000 rupees, all they had ready, the Heathcote and Mary will carry the rest, have recommended her to the Bay for a freight to Persia or Suratt being a good Sailor, and sent them Copys of her General Letter to the West Coast about her employment.

21. Captain Reid inclin'd to make another Essay at Benjar but did not think it proper to deviate from the Companys orders nor had they proper dollars for that Voyage and the West Coast, will want for themselves.

22. Receipt for Captain Reids Charterparty money being Pagodas 233 : 12 : sent.

23. Captain Minters request for 660 Bags of Petre sent.

24. Heathcote and Mary sail'd for the Bay the 30th August with 48 Chests Silver and 29 Chests rupees, could get no more ready coyn'd by that time, nor would they keep them longer.

SECONDLY CONCERNING GOODS SENT AND TO BE SENT FROM EUROPE.

25. Have since the Cardigans letter sold 300 bales Broad cloth at 35 Pagodas on Invoice and last years Embost cloth at 50 per cent, as per consultation of the 30th June, could sell no more or do better before the Ships arriv'd. Sorry the Company encreased the quantity wrote for, especially in Greens which perisht soonest, Scarlets best preserv'd, but being dear few sell, they will ly on hand.

26. Will draw the List of demands as directed per Kent and Mary can't do it with Certainty till January.

27. Have not had time to view what receiv'd, must defer it till January. Found on adjusting the Heathcotes dammage Broad cloth part of it was not well cur'd before packing, the worm got into it particularly the Scarlets and Auroras, of absolute necessity all should be well cur'd and packt or must sell it at any rate and it will loose its reputation in the Countrey where most is Vended and sent unopen'd.

28. 200 hhd. Claret brought by the French, half carry'd to the Bay, the rest sold at 60 pagodas a hhd. which 2 years [ago] sold but at 40. Found to be good against the fluxes, is cheaper than any can be sent from England, expect it will be cheaper hereafter, they are preparing 10 ships to go from St. Malloes. Next Season shall buy but 6 hhd. having Madeira Wine sufficient for all the factorys.

29. Have and will do all they can to hinder the carrying Broadcloth into the Bay, but must not refuse its going to the Northward least they should not get grain from thence nor dispose of half the Cloth yearly received, if any should be known to be sent down from Ganjam will take an Obligation as have done from the Merchant to prevent their doing it, but it is hard to prove they do.

30. Can't agree to the Bay assertion that the cheapness of Broadcloth there will not enlarge the sale except it be in fine Cloth which is chiefly used by the Great Men, and ordinary Cloth used by the meanest of the people except Cooleys, they cover their Saddles and Scabbards with it, Caps and Purses made of it, and for several other uses, sending improper sorts makes flint ware such a drug there, the right sorts of hubble bubbles sell well, more Cloth will sell on the Coast if cheaper and the great Men have the finest.

31. Hear most of the Broadcloth at Surat is disposed of for payment of debts, and the troubles in Persia being ended the Company may encrease the export thither and send less to the Coast till have got off the large quantity receiv'd and expected, will sell off what they have as well and as soon as possible to prevent damage.

32. Will write to the Bay about the price of Lead and act as they hear from thence, can sell it at Madrass from 8 to 9 Pagodas a Candy.

33. Have adjusted the Heathcotes and Marys damaged Broadcloth at the Prices the good sells, as per accounts sent per Consultation 30th August, have paid the Ballance into Cash.

THIRDLY TOUCHING INVESTMENTS.

34. When received the List of Investments per Kent made the necessary alterations in their orders, will comply with the orders positive and negative and remedy what complain'd of in the List and Letters. Desire to know the sorters names of Goods complain'd, they being in the Packing Notes and outsides of the Bales, that might know to remedy their fault. Are often necessitated to bale the Goods as soon as sorted, the President can't be so often in the warehouse for other business, nor the warehousekeeper overlook all, every sorter should answer for what he doth, then the Company will know who do best to encourage and the ignorant will endeavour to improve.

35. They do examine the Subordinate Factory Bales knowing the Company expect it, refer to Letters particularly that [of] 20th Aprill to show the Company are not well serv'd, the sorters to blame and yet can't send better, Mr. Frederick hath endeavour'd to put things on a better foot, hope the Goods now sent will show it thô they are not free from exception but must have better hands to cure all.

36. Have publisht the Companys 35th, 36th, and 37th paragraphs per Kent to all the Companys Servants under their Presidency particularly at St. Davids, they were fully known before thô some would pretend ignorance, they are plainly

laid down and shall be observ'd when necessary, the Council thankfull that all shall have a fair hearing before condemned since they will never dispute Orders, shall the better keep Subordinates in Obedience.

37. Have sent the Companys complaints to St. Davids with strict injunctions to remedy them.

38. Mr. Faucett was order'd to keep the Ingeram Cloth up to lengths and breadths but the troubles prevented it therefore took all good with abatement for short measure which continuing have not thought fitt to hazard the Companys money so far off, hope to get the Merchants to bring their Cloth to Vizagapatam thô it cost something dearer rather than have people reside there at a great expence.

39. The Vizagapatam Longcloth No. 4 in paragraph 40 was turn'd out Cloth received on abatement, for have had none from thence lately under 29 pagodas a corge of No. 3 wonder it should be commended with the Ingeram Cloth, will make what use of it they can.

40. The Worriarpollam Cloth W. made worse because of the great demand for it, do endeavour to get it remedy'd but the French demand so much and give such prices, fear can neither abate the price nor get it better.

41. The Ingeram Sallampores damage must be before packing for none appear'd on the Bales or else had open'd them, will endeavour to get the Moorees better made since Percalla's book dont answer, shall send none unless cheaper.

42. The Madrapauk Bettellees fine never hold out the usual lengths and are but yard wide nor can be contracted for by Muster, the French buy so many but must take them at any rate can't get the quantity demanded, hope those per Kent will prove well but are dearer than those by the Stretham.

43. The Merchants at St. Davids requesting it they try'd them to make Six Bales each of Oringal and other Bettellees, the first prov'd so much inferiour to Muster could not take them, the Merchants will not now provide fine Goods on the old Musters and prices because the French buy so many.

44. Have sent to Vizagapatam the Companys Complaint of their strip'd Bettellees to remedy it, hope the Chints now sent are according to last and this years directions.

45. Sorry the Brampore Chints turn to no Account Sorry Mr. Fawcet sent so many more than wanted instead of Longcloth which he was employ'd to procure.

46. Their ordinary goods are measur'd brown and will shrink in washing, the Bettellees especially, the fine sorts are bought white and to measure them will be a prejudice to their Package and Sightliness, must therefore endeavour to oblige the Merchants to make good the usual lengths and breadths when complain'd of from England.

47. Shall follow the orders about Redwood, paragraph 53 per Kent.

48. Do observe the alteration of orders about saltpetre and have comply'd with the orders about Pepper, Captains agreement to take it in at half freight enclos'd, No. 15, shall have enô for the January Shipping the French buy it up at 24 Pagodas per Candy, the Ships it was thought would each take in 50 tons but they can't by $\frac{1}{2}$ part.

49. Touching the Bengall Siccaes and Madrass Rupees in Paragraph 24 per Heathcote wish could procure a Mint at Fort William, impracticable to be at Hughley if have no factory to protect it little time will show if the present can procure it do send down as many Rupees as can get coyn'd the Bay desiring them.

50. Have no white Goods ready but near a 1,000 Bales of brown at Madrass and St. Davids. Hope to ship off 2,500 Bales in January and February of the sortment per List Investment of them 300 Bales from Vizagapatam.

51. Will caution succeeding Secretaries to avoid the omission complain'd of paragraph 26 the last being dead.

52. Shall observe the Companys opinion touching the Tanjore cloth but the Dutch will give more for it than the Company do for Worriapollam Cloth W.

53. The Cash was all gone when the Ships arriv'd and the 20 Chests of Silver they receiv'd sold and apply'd to St. Davids and Vizagapatam Investment so must take up Money at 8 per cent the Metchlepatam debt being discharg'd the Expence of the Several factorys and the Buildings in hand will take up the Revenues so that if Early Investments are expected must take up at Interest or have a double Stock.

FOURTHLY CONCERNING THE TRADE OF INDIA IN GENERAL AND THEREIN
ANY TRANSACTIONS WITH THE COUNTRY GOVERNMENT.

54. The Companys proposal paragraph 57 and 53 per Kent for employing the Church and Orphans Stocks in Grain was not accepted, thô made by the President when Grain was dear, are of opinion it would be a surer Interest to the Stock than they now make but it depends on good Mannagement and a better Harmony than is now in the Church, will endeavour to quiet all and the next Season in January and February will try to make a beginning. Have for two years had great plenty, the Scarcity four years ago will make more carefull to provide for the future.

55. Those Stocks excellently managed in Mr. Lewis's time and that they should be still is of the utmost consequence to the place, therefore endeavour to get good Churchwardens. The Cash is kept as the Company direct, some difficultys arise about employing the Mony, which hope to remove, shall send the Churches Journal and Ledger annually as ordered and be watchfull to see the fund preserv'd and rightly apply'd.

56. The Mogul hath made many good Edicts about trade which influence near the Court but don't reach to the remote parts, because can't complain without great charge, have advised Mr. Surman &c^a. the difficultys they labour under to try for redress. Trade goes on pretty well and would do better if a great Army was in the Gulcondah and Viziapore Countreys as expected Hassen Ally Caun, brother to the Vizier Sahid Abdulla Caun, having the command of the Deccan do expect a Revolution of the [*lacuna*] Government can't have a worse than the present Nabob, who hates Europeans, disregards trade and only minds amassing money. The Mogul disapproves his seizing Chingee and order'd one of Serop Sings Sons to be restored to his fathers Government.

57. Have been unfortunate in their trade to China, Tonqueen and Syam, gold scarce and very dear at Canton. Their Ship at Amoy forced to stay the year round, the Surat ships to Canton, the Cambridge one of them, gain'd but little thô their goods sold well at Surat. The Bengall trade to Surat prov'd well, their ship to Persia not yet return'd, the French who trade thither say silver is so scarce, all trade is at a stand, the Sea Customs, however, don't abate, which shows they are not discourag'd.

58. Shall keep an account in the Books of the debts due to Mr. Holcomb at Vizagapatam in hopes to recover them or part one time or other.

59. Zoodee Caun made Steward of the Moguls household and being in great Credit and Court hope will assist Mr. Surman &c^a.

61. The Mayors Court do customarily put all Money deposited in a Cash Chest under several Locks, but Mr. Raworth broke through all Rules, his key being lost the Chest was broke open and not well secured after, will prevent such

irregularitys hereafter, have had no encroachments on the Mayors Courts Authority in their time glad to be excused from Appeals.

62. Glad to find the Company approve their management with the Countrey Government as per Heathcotes Letter.

63. Mr. Benyon look'd after the Expence at Ponticherry during Sir Andrew Heberts mediation with Serop Sing whose People were numerous. Sir Andrew got nothing thereby but a horse and vestments presented him by Seroop Sing. Sir Andrew was of opinion Mr. Raworth should be delivered up to the English and is thereupon return'd. General for the French in India, Monsieur Dulivier, reprimanded for not delivering him up and the Kings officers forbid being in Council on such occasion the President has a letter from Monsieur Crozat advising Mr. Duliviers conduct is highly disapprov'd by Monsieur Pontchartrain and the Company &c^a.

64. Mr. Frederick hath recover'd the Renters debt at St. Davids advis'd per Joseph and Hannover Mr. Raworth was often prest to get it in but did not, when any discovery was attempted it was prevented by bribes, Mr. Farmer with two others appointed to examine that affair after several months the report was so confused could not give Judgment with certainty, Mr. Farmers pretences thereabout false.

65. Mr. Farmers assertions that what due to the Renters was sufficient to reimburse the charge of the War must only mean the charge of the Peace or he is very ignorant what it was thô he was so much concern'd therein, neither the Renters nor those who kept their money can repay one-fourth of that damage, he should have don better when he was in Post, he never complain'd of Mr. Raworths ill Mannagement nor endeavours to hinder it till turn'd out and then only out of Revenge.

66. No worder Mr. Farmer is so possitive when it is with the Proviso he be first made the Chief, the Company will best judge of him he being gon home; having don the whole with great integrity hope the Company will not let his writing prejudice them.

67. Thankfull for the Companys permitting them to trade to Bengall, they can't attempt anything this Season fear those in the Bay will thrô rubs in the way and complain of whoever is sent and give them a contrary character as they did Mr. Petty.

68. Advices from the Bay say Mr. Surman was 16th May got to Sydabad seven course short of Elabas and that 180 Leagues Short of Agra, were respected and well guarded everywhere at the Kings charge, expect in few days to hear they are arriv'd.

69. Have not made any present to the Nabob hoping he will be turn'd out, he threatens to Seiz their Villages at Madrass and St. Davids, but think he will not now the English are so near the Court, all quiet at Vizagapatam expect a large Investment from thence in course Goods.

FIFTHLY TOUCHING FORTIFICATIONS, BUILDINGS, REPAIRS, AND REVENUES.

70. The building the New Hospitall free Guard and Garden houses are under distinct heads in the General Books. Will mind their promise about the Hospitall. The Coynage not being so considerable have not assest the Mint Braminys but will do it before January thô it will be some trouble, they are at a great charge and don't reap the whole benefit, the Company have net profit by the Coynage.

1. Their last was of the 22th January (should be the 26th) by the *Bouverie* and *Mary*, they were dispatched from St. Davids the 2d February. Hear the *Mary* was at the Cape in April, and the *Bouverie* separated from her in a Storm.

2. The *Catherine* being dispatcht from Callicut the 5th of May came to Madrass the 21th Do., the Captain made the common excuses for so doing danger of going about the Cape or to Mauritius.

3. Shall dispatch a full ship in October. The *King William* arriv'd 29th May, the *Prince Frederick* the 30th July, the *Grantham* the 2d August, the *King George* the 14th ditto, only the *Grantham* touch'd at the Cape, the ships companys all healthy except the *Frederick's* who are now recover'd.

4. The *Arabella* arriving from Surat the 29th May carry'd for Bengall the 5th June 20 Chests of Treasure and Orders for Investments, the *Grantham* sail'd thither the 11th instant with all her Treasure and 56,000 Rupees, being all then coyn'd; the remainder of the *Fredericks* Treasure sent the 30th Instant with ten Chests of the *Georges* which could not then coyn, but the rest shall be sent on her speedily. Madrass rupees much wanted in the Bay are at 9 per cent Batta and rising.

5. Mexico dollars exceeding dear and not to be got since loss of the Manilla trade, therefore could not send the *King William* to the West Coast. Have got at last from Mocha 12 Chests but much in small Pieces. Expecting Mr. Collet speedily shall detain the *King William* till then, that may know what goods to send, and fully instruct Mr. Farmer to perfect the Plan begun by Mr. Collet.

8. The *Anne* formerly the *Sherborn* went to Amoy anno 1714 with 50,000 Pagodas Stock and upwards, had the Mandarines promise of free trade, the ship *Cambridge* traded also, on this they appointed their own Creatures only to deal with both ships.

10. The Anne thô by contract was to be dispatcht in Season yet was kept all the year round and suffered many great abuses, and thô the Vice Roy of the Province order'd the Merchants should clear Accounts and Dispatch her, yet the Mandarines Partners with the Merchants drove the Supra Cargos from the Shore and the ship out of the inner harbour thô the Merchants ow'd them 26,000 tales besides other Damages.

13. This disaster concerns them on account of the Companys trade to China, for as to that from Madrass better to forbear considering what they have suffer'd for so many years, the Jesuits who best know China, say this must turn to the benefit of the Europeans trade when the Emperour knows it as he will, and will punish the Mandarines.

14. Have endeavour'd to prevent all ill consequences to the trade of Canton and advised the whole to the Companys ships at Batavia, believe the Mandarines of one Province will not mind what don in another. SECONDLY CONCERNING GOODS SENT AND TO BE SENT FROM ENGLAND.

28. Will endeavour to put off all the Woollen Goods thô more than wrote for. Will make due use of the reason why the Auroras and Scarlets are dearer, the fine and the embost cloths and Perpets are good and proper Sortments, but the Perpets are mildew'd for want of being well dry'd, if find other faults when dispose of them will advise.

35. Most of the Coral of this and last year unsold; hope to send the account in January. If the Dyamond trade be not forborn a year or two can have no Gains but on the Silver, Silver necessary to help on their trade, are thankfull for the Commission.

36. Have 200 Bales Broadcloth remaining besides all that came this year, the Joynt Stock Merchants have about 350 Bales, the Perpets sold at Outcry being most mildew'd about 30 per cent on Invoice.

37. Refer to Consultations for account how they got off the Woollen Goods last year, the worm having got into the Green and in another year would have spoil'd it. Some of the Pieces the Merchants had not worth now half they gave for it. If cloth be not well cur'd and dry'd before packed it will spoil in the Godowns, the Merchants will no longer take it till open'd and then it will soon spoil. Last years green cloth and part of the Auroras had the worm in the lists before it came ashore, so were forc'd to sell it but at 30 per cent.

38. Lead and Iron all sold before the ships arriv'd, expecting quantites wrote for, but have received no Iron thô desired 106 tons. Have received 170 tons of lead thô wrote for but 50. Shall want Iron for necessary uses, also sheet lead, twine and pump leather as wrote for, have 500 Powder horns, which did not desire, 50 powder sieves sent all rotten, 182 Coyls of Cordage lyes perishing, desire to be supply'd according to Lists then nothing shall be wasted or spoil.

THIRDLY TOUCHING INVESTMENTS.

42. Have endeavour'd to remedy all Complaints under this head. Will obey the orders for Investments now received and sent to St. Davids and Vizagapatam, what relates to them pressing compliance and particularly about coyning.

43. Will endeavour to get the Longcloth W. 1. and 2. better made, hope the Tanjore and Nagoor cloth sent proved well, it is better than W. French Dutch and Danes give the same prices and often dearer.

44. Mr. Jennings bought the Vizagapatam Goods now commended, hope Mr. Symonds will merit as much.

45. Madrass Sallampores never broader than a Covid and an eighth, sometimes they will shrink in washing, thô hold full breadth brown, will try to have the same breadths as at St. Davids.

46. Are sensible the Blue Longcloth was bad don, chose to have it dy'd at St. Davids because cheaper. Mr. Baker to blame, will have what demanded dy'd here thô it cost more.

47. Glad the Ganjam Sallampores were liked, sent more last Season and will some this, can't always work in the same Places, but where the Countrey is not harassed when take short measure do abate for it.

48. Were afraid could not get striped Bettelles good at the prices order'd, have wrote to Vizagapatam about the Companys orders and hope what now making will answer.

49. Complaints about the Chints remedy'd.

50. Shall observe what wrote about the French enlarging their Investments and wrote to St. Davids about it, no French ship arriv'd this Year, they invested about 40,000 Pagodas early in the Spring.

51. Package of Goods at Vizagapatam regulated to the Madrass method therefore d'd not mention anything about it, did give them strict orders about it. Mr. Cranwell, Warehousekeeper dy'd worth very little, so could not refund if overcharg'd anything nor could they fix the blame on anyone, suppose the profit on overcharging hath been accounted for there as it is at Madrass, their Accounts before confused are now regulated.

52. Will take care to send the Camphire as order'd when the Marlbrô arrives. Wrote last year about the Pepper, the French gave 26 Pagodas a Candy for all they could get.

53. Last January advis'd were 50,000 Pagodas in debt for money to carry on a new Investment for want of the Dartmouths stock. Stretch'd their credit to continue investing at Madrass and St. Davids and Vizagapatam in the best of the Season, ow'd near 100,000 Pagodas when the King William arriv'd with her morey for the West Coast and money paid in on deceaseds estates paid off 57,000 Pagodas the better to borrow another time which shall be necessitated to do, because most of the Dartmouths stock is for Great Britain, fear the Marlbrô must do the same and also loose her passage, and have no Cash, yet hope to lade home the Cardonnell, Arabella, King George, and Dartmouth, by the last shall send true state of their affairs, hope the Company will send large supplys of Silver, which now yields 30 per cent profit, rather than pay interest for what Invest, or take Pagodas into Cash at 9s.

54. Sunca Ramahs peoples Contract at St. Davids will be compleated this month, the Goods yet view'd answer pretty well, if encourag'd to another contract will find money to carry it on.

55. Course Goods now made at Vizagapatam on the Merchants own accounts to be paid for in ready money at contract Prices as brought in, but the Orders for altering the breadths of the Sallampores has stop'd all business, therefore have directed the Merchants be made easy for this year, will endeavour for better breadths the next.

56. Merchants at Madrass employ'd all the year in providing Goods, but Cotton rising from 16 to 25 Pagodas the Candy makes the quantity of Cloth less and the Muster inferiour so that are forced to throw out half of what brought in.

FOURTHLY CONCERNING THE TRADE OF INDIA IN GENERAL AND THEREIN
ANY TRANSACTIONS WITH THE COUNTRY GOVERNMENT.

57. Thankfull for the Companys Promise Paragraph 62, desire to know whether may proceed on the old Commission from King William to try Pirates, if not pray to have a new one with the necessary directions relating to accessarys.

58. Don't complain of the last years trade in General, part of their Stock was left behind at Mocha by the Governments roguery, hear Bombay hath made a settlement there, and that the English Supra Cargos act separately from them, which will prejudice the Companys affairs.

59. Ship sent in October 1713 to the river Sundy under Captain Wesly and Mr. Cooke, Supra Cargos, was taken by the Sanganian Pyrates. Micawn, Nabob of the Countrey, seiz'd the Effects as belonging to Captain Wesly, who dy'd in his way up the river Indus, but on Mr. Cookes paying him rupees 5000 he let him go in January last. Have advised Mr. Surman at Court with the whole Transaction to get Justice on Mi Caun and prevent the like in future.

60. Tho' the Manilla Trade may revive by King Philips new Measures, since King Lewis' death, yet it must be a work of time, for the French have fill'd the Spanish Indies with Goods and the Merchants of Manilha can't vend theirs at Acapulco so that the debts owing there or trade thither is not likely to be recover'd in years.

61. Sorry the Embassy to the Moguls Court is not yet ended, what advices have thereof are enter'd in their Consultations, and their Answers in the Letter Books, have prest them to conclude, tho' can't get all their Petition granted, rather than continue, this the Bay also agree in.

64. They refer to Consultations of several dates and divers Letters in their Books for a full Account of bringing the Junk from Amoy, were necessitated to do as they did, the Produce of the Junk and Cargo ready to be paid into Cash, forced to send home the tea because the Company restrain the quantity in Private Trade and would not let the Lisbon Interloper have any, desire the net produce may be apply'd to accommodate affairs and kept the Account apart or as the Company shall direct, have for form valued it at 30 Pagodas the Pecull.

65. Refer to book No. 5. for the Memoriall about the Transactions at Amoy, the letters from Father Laureati of his Solicitations thereupon at Fontchu, and other Papers and attestations which the President will bring with him in January.

66. Have been at Quiet with the Government at Madrass and St. Davids, the Nabob is marching by the Kings order into the Misore Countrey, no disturbance at Vizagapatam, but the frequent changes of the Sieur Lascars who demand presents as they pass the Companys bounds, very troublesome, about Madapollam and Metchlepatam, so wish the Factory sold, pull'd down, or given away.

67. Hear from Callicut the Dutch expect a strong reinforcement from Batavia to attack the Samorine, they have seiz'd several vessells under the Companys

passes and Colours and a Monchu of Mr. Adam's, took out the Cargo, hauled her dry ashore, put the Europeans in irons, forced them to sign Declamations in Dutch to condemn the vessells as belonging to the Samorines people, they pretend Mr. Adams assisted the Samorine and do this for revenge. He is likely to suffer in his fortune for vindicating the Companys rights, were he timely assisted he might prevent the Dutch designs to engross the Pepper Trade on that Coast, which if don they could soon do the like on Sumatra.

FIFTHLY TOUCHING FORTIFICATIONS, BUILDINGS, REPAIRS, AND REVENUES.

68. Part of Cuddalore Wall finish'd, don't think to proceed further till order'd. 74. Can't draw out the Rent roll till the end of the year when due without charge and prejudice to the Revenue it takes up a great deal of time, it is now duly collected thô later than the Company seem to approve.

75. Having answer'd all under this head, shall advise of a dangerous attempt to lessen the Sea Customs.

76. Auga Mogheme who liv'd at Madrass in Governor Pits time at Zeowdy Cauns request, last year was made Phousdar of St. Thoma, and got privately a Grant for all Patans trading yearly between Bengall and Madrass to import at St. Thoma paying only two per cent custom, the Patans being the Moguls Subjects sign'd a penal obligation to land their goods at St. Thoma soon discover'd this Project. Some Goods were landed but brought to Madrass and paid land custom, Secur'd all the rest to be brought to Madrass and got the Patans Contract cancelled, the Nabob enrag'd at this, as per Consultation 16th February &c^a., gave him good words and yielded the dispute about the Jentue Pagodas as per Consultation 15th of January and a Cowl to Delell Caun an old Inhabitant for his good service, as per Consultation 23th April. 22. Rents and Revenues will barely maintain all the Factoryes and charges of building at all places, so must invest on Interest or can't get goods timely for the next ships. If can reconcile the Chittee and Quomitty Casts may borrow money of them.

The Jentues in Cast Affairs are very zealous not regarding the Civil Government would not leave the case to the Braminys who are Newtrals and most esteem'd of. The Chittees fearing the cause would go against them were for leaving the town, and being stopt kept three days in the street refer to Consultation 24th December for what was don thereupon, hope all matters will be soon adjusted, fear must exert their Authority to do it.

31. November 1st a Mussoola of the Companys Petre was forced down by the Current to St. Thoma and seiz'd by the Avaldar Aga Mogheen, who refusing to deliver her, sent a body of men who brought her away by force, the Nabob seem'd very angry but hope future Insolvencys will be prevented.

39. The charge against him was when he was first advanced above many of the Council, to be sure they would have been for displacing him had they thought he deserv'd it or dissented if the majority would not.

40. The Accusation of his letting out the farms was but hearsay and Narso's evidence was not sufficient to be credited against one so advanced, however, did not refuse the 200 Rupees extraordinary offer'd by Narso for the Villages thô he did it to serve a turn and would have gon off from his bargain. If Mr. Faucet was not summon'd to the Council he ought to have complain'd and would have had remedy at Madrass. If the originals of Mr. Hastings letters to Narso had been produced it had been well but look'd on the Copys as counterfeits. Mr. Russells confinement was pursuant to orders he was guilty of great crimes.

Mr. Faucet is credited for his full salary but nothing for Dyet money because never suspended or forbid the Table hath had a free access to it and often complain'd of for his insolent behaviour there. Are under difficultys for want of Cash, forced to take up money at Interest to buy goods and supply subordinate Factorys from January to June when sold the Marlborôs cargo had no Supplys in which time were to clear off the old Investment to carry on the new ones and pay the Charges of Buildings at St. Davids and Vizagapatam and to answer the large Draughts of the West Coast, therefore Strain'd their Credit by Bonds besides 40,000 Pagodas detain'd by the disputes between the two Casts seiz'd to secure the left hands good behaviour. On coyning the Marlborôs Gold and sale of her Cargo paid off what Debts they could and since the Bouveries Arrival discharg'd the rest except the 40,000 Pagodas which will pay off when the Cambridge arrives believing the Chittees will not desert again.

FOURTHLY TOUCHING THE TRADE OF INDIA IN GENERAL & THEREIN ANY TRANSACTIONS WITH THE COUNTRY GOVERNMENT.

41. Trade in general is in good condition thô are some Exceptions. Have heard nothing lately of the Bencoolen Pyrate, John Rogers dy'd in Prison, Roger Bullimore remains to be try'd when have a Commission to try him.

42. Can now advice of the successe of the Embassy to the Great Mogul, he hath Confirm'd all the old Grants and Priviledges and added several New and valuable, Mr. Surman has receiv'd the Phirmaunds under the Great Seal with 25 Orders to the Nabobs, Subahs, and Governors to make them good in their Governments. Translate of the several Papers sent, that of the Phirmaund enter'd 21th July when received the Originals overland from the Bay, the 24th July proclaim'd the Phirmaund in Persians Gentue and English at several places in the most Pomp they could as per Dyary, the Inhabitants now satisfy'd their liberty is more secure by the Companys Establishment.

43. What relates immediately to them is the Restitution of Trivatore &c^a. 5 Villages and Grant of Divy Island, are at a loss how to behave in taking possession of it, its of importance to the Company must pay 7,000 Pagodas a year for it, are inform'd the present Renter makes 18,000 Pagodas, it is well scituated for trade by Sea and Land, the Inhabitants press the English to take possession, great numbers promise to settle there, hear the Dutch will quit all their Factorys thereabouts when the English are settled, hope to Command all the trade of that Countrey, the present Renter, a Rajah, says he will not give up the possession, has listed a great number of Peons for defence, have not force enô to dispute with him, by their Calculate they should have 2-ships of force, 2 or 3 Tenders with small Craft to go over the Bars 200 Souldiers, a Gunroom Crew Engineer, Artificers for Buildings, Materials and stores, and Persons to direct the whole, at present can't perform any part of this, don't expect can employ any of the Europe ships now sent out, want Recruits of souldiers more than can spare from Madrass and St. Davids the countrey Government being troublesom have been forced to hire more Souldiers, want Stores &c^a. for Fortifications and Buildings and Persons to direct therein yet are apprehensive of the danger of delays the People expect them and the Mogul will have his Rent, should he dy before possession may loose the Place, find it difficult what to determine, at present determine to make what preparations they can in the N. E. Monsoon and then if are secure from Insults and get shipping &c^a. ready will proceed, else must wait for strength from England.

44. The Countrey Government continues in disorder, the Prime Ministers press the Nabobs for Presents, they squeeze the under Governors and those the People, Sadatulla Caun like to loose his Government the Prime Vizier demanding of him rupees 1,700,000 and of Diaram the Renter, 300,000 Pagodas, 2 Rajahs to the southwestward of St. Davids subjects of the Mogulls were at wars the Nabob marching towards them, got from them about 6,00,000 Rupees Diaram in the

Interim was at Conjeveram 40 Miles from Madrass, raising the Rents all round the Countrey, on which many fled to the Companys bounds, this made Diaram complain the English protected the Inferiour Renters Debtors, his son at Pullamelly 12 Miles from Madrass demanded the Companys 3 Towns threatening to seize all, the Juncanneers grew saucy stopping the Companys people and Packets, this forced them to provide for their defence and entertain 100 Peons encreasing St. Davids garrison to 450 men in all and Madrass to 550 men, which have not yet compleated, the Topasses not like Europeans, but teach them dayly the use of their arms. Believe the notice of this prevented many Insults, in June the Nabob returned to Arcot accommodated matters with Dyaram, was confirm'd in his Government by the Grand Vizier, then he quarrels with the English for obstructing the Intercourse of Merchants with St. Thoma, which charge being wrong placed the President denyed it thô he had endeavour'd to draw the trade to Madrass, then Aga Mogheen by the Nabobs order demanded the 3 Villages &c^a. as per Countrey Letters, to which the President answer'd he could not understand his Letters and should say nothing to them, thus stood Affairs when the Phirmaunds arriv'd and the Husbulhookums, so soon as could prepare attested Copys thereof by the Codjee sent them with a Letter to the Nabob, have not yet his Answer, however, sent the News before to Arcott, the Nabobs 2 letters received since that News are in a different stile from the former, hope he will deliver up the 5 Villages according to their demand, have not yet made him the usual present not knowing but he might be laid aside, for must have made one to a new one, but now think it proper and Sunca Ramah is to manage it, hope to give him but 500 Pagodas and 150 to Ducknaroy, both in money, for if in Goods will expect more.

45. By the Frederick advis'd the Casts were return'd to Madrass, they have ever since continued quiet, but Chagrin'd refusing to trade or converse familiarly, the President thought it best to let the humour spend and treated them kindly, now they appear and trade as usual, the Peace of the Place now better establisht than ever.

46. The Britannia arriv'd from Siam the 21th March last brought a letter from the Barcalong the 2d man in the kingdom to Governor Harrison claiming the Amoy Junk and Cargo with the Account of all making 801 cattée, 18 tale, 1 pecul, 1 Myum, but he told Captain Powney privately, only the Junk was his, which he left to Governor Harrison to pay for in reason the Cargo was the Amoy Merchants.

47. May the 28th Monsieur Bongre sent to China return'd on the Marlbrô and gave the same Account with Captain Powney the Junk selling for Pagodas 1,200, gave the same the Captain to invest in what would best please the Barcalong as per Consultation 3d June. Mr. Bongre reported the Mandarines who protected the Merchants detaining the English Effects gave out at Court the Pyrates had taken the Junk, but the sufferers represented the English did it for reprizall because could not obtain justice of the Mandarines. The King appointed Commissioners to examine the whole and sentenc'd the Mandarines concerned to make good the Merchants losses and turn'd out of the 2 of the 3 concern'd that he (Bongre) had enter'd into a Treaty with Linqua and Anqua to Negotiate with the Mandarines now the Claimants that the English should account for the produce of the Cargo and be Credited for money detain'd, loss of time, and damages and pay the Ballance, the answer was not return'd when the Marlbrô came away, but Linqua would send the Account to Madrass, will comply with this Proposal, hope the Chinesees will now treat the English better.

49. The President at Fort St. Davids concerted with Mr. Grundler to erect a Charity school at Coddalore since erected, one Master there teaches Mallabar, the 2d Portuguez, have at Mr. Grundlers coming since to Madrass permitted him to erect a Portuguez school in the white Town, and Mallabar school in the Black, and Trustees are appointed as per Consultation 27th May.

51. Have already advis'd their Resolutions about Vizagapatam with the reasons, have liberty to return the 2 villages which by their distance were unprofitable, the other 3 are confirm'd which shall strictly order to be improv'd, hope Vizagapatam will turn to better Account when Divy Island is in the Companys hands, will be usefull to supply Divy when can't send from Madrass.

52. List of the Revenues is kept on the Council table as order'd, also enter'd in Consultation the 5th Instant, have a book containing Abstract of standing Orders as per direction, are now compleating it for the present year. Every Person hath also the orders relating to their respective employs in Council so now no Excuse for Omissions.

53. Have and will observe the orders Paragraph 82 about foreign Ecclesiasticks. Padre Cordeiro hath sold Paulo de Saas house as order'd and Lieutenant Roach has bought it, another house in the White Town belong'd to the Congregation de Propaganda fide nobody would own they could sell it thô a Priest at St. Thoma received the Rent whereupon sold it to an English Inhabitant on a Valuation justly put the money paid into Cash shall be paid to any having sufficient power to demand it, have notify'd to all the Religious that none but the Capuchins shall inhabit or sojourn in Madrass, this will contribute to the Places Peace, the Romish Clergy always turbulent among themselves and encroaching on the Laity, the Italians design'd to establish a Seminary at Madrass, beleive the Capuchins will be faithfull, they behave well.

54. The Buildings carry'd on as fast as they can, the inner fort near compleated, will be perfected before the next dry season, distinct Accounts kept of each Building.

55. Have rais'd a new Revenue of 500 Pagodas a year without hardship to the poor by granting a Cowle to Lewis Mellicque the Arrack Farmer to sell Toddy, he is to pay the same price to the Planters and sell at the same as formerly, without adulterating the liquor as was don formerly, will lay hold of all Opportunitys to improve the Revenues when dont Oppress the People.

56. In Answer to Paragraph 77 They found the Arrack Farmers had not stock to carry on their business and therefore were behind in Monthly Payments, were necessitated to take away their Cowle and seiz what they had to satisfy some of their debt. Lewis Mellicque who has the New Cowle is rich, industrious, and will improve the Revenue, the Wine Licence granted him for the same term as per Consultation 4th February.

57. Will answer what wrote relating to the Town Conicoply Duty by the Marlborough.

58. The 18th March advis'd the President &c^a. were return'd from St. Davids shall now give Account of Affairs there.

59. The Buildings at the Fort and Coddalore were first survey'd Mr. Way &c^a. assisting therein, the south wall at Cuddalore found to be much too low and no Ditch or Defence without it, necessary to raise it with a Bastion at the south west end of the town, the Chellemburum Gate too close to the Bastion order'd to be remov'd to the middle of the Curtain, Middle Bastion on the West Curtain to be enlarg'd, the Bramine Gate to be in the Middle of the Curtain at the N. West end

of the town must erect a new Bastion, and a new wall from thence to the River side to secure the N. side of the town, a new Bastion at each angle and 2 Demi Bastions at proper distances on the Curtain the Town being about a Mile long on the side of the river in many places but 3 foot deep 2 Ravelins to be made where best to command the whole, these works sufficient to defend the Town against any Countrey enemy, if had more must encrease the Military. Mr. Farmers house bought at Pagodas 1600 for the new Factory will serve at present, shall compleat the fortifications before begin building a new factory shall not then pull down the house, refer to the Plan and Explanation sent to show the Condition of Cuddalore and New Works intended.

60. The next survey was the Fort, found the Fortifications in good condition, except the N. E. bastion which not having been compleated was order'd, the old Moratta Wall near the Outside of the face of that Bastion order'd to be demolisht, all the buildings in the Fort gon to ruin except the New Godowns which are well placed and built, New house for the Deputy Governor and other necessary buildings order'd to be don as per Plan sent with Explanation.

61. The Bounds were two days surveying the Points good but a small Mine was order'd under each to blow them up if the Enemy forced the English out of them to prevent their making use of the Great Guns. Palmeira Hedge in most parts in good condition, where any trees are wanting have order'd planting new ones. The President &c^a. then made a Contract with the Merchants for 1800 Bales, 1200 to be deliver'd by the end of September, the rest by the last of December as per St. Davids Consultations sent. Then invited all Persons to complain of grievances, and made several new Laws for the Peoples better Government and ease as per said Consultations, the laws published in Gentue, persons culpable were reprov'd and admonisht the People fully informed how to get redress. The Scavengers Duty at Tevenapatam given up because opprest the People and never yielded above 40 to 50 Pagodas a year some times nothing, the Inhabitants undertaking to clean their streets. Finding the sea Customs and Mint Revenues were sunk, enquiring the reasons it appear'd the Merchants were gon to Porto Novo because the Customs were easier, paying but $2\frac{1}{2}$ per cent on Importation nothing on Exportation, on the same Condition would return to Cuddalore and bring great part of the Porto Novo trade thither, they complain'd of paying at Cuddalore Custom on Goods imported thô again exported and insisted to be eased therein, could not comply till had the Companys directions, propose to give some ease in the Customs at Cuddalore for 7 or 10 years, which would encourage rich traders to reside there, and restore the Town to its ancient Lustre, if not have little hopes to improve it. This being now something like the raising a New Settlement must be indulg'd and cherisht till the People are settled easy and Rich, have only adventur'd to order Goods occasionally landed but design'd to be exported to be Custom free on Exportation till have the Companys orders, propose to the Company to allow 3 or 4 per cent Drawback on Goods have paid 5 per cent in.

62. The Mint fell with the decay of trade the only Man who supported it failing, but this is no great matter since Madrass Mints reputation is the best of all in the Moguls Dominions.

63. Refer to Consultations about the Rent of the Bounds &c^a. Revenues, the Rent is to its utmost value, the Palmeira trees if let out for Toddy would yield considerably, but not like what Mr. Benyon represented, but then they would no longer be a fence but growing to their full height to yield Toddy would grow thin and smooth below and people might pass between them, but if as now they are cut at a certain height their Branches shoot out full branches below and make an impenetrable Hedge. Have order'd some which cover the Points by their height to be cut that the Guns may command the Plain thereabouts.

64. The Expences having been put on a new foot by the late President little remain'd to be don, what could has been as per Consultations.

65. Mr. Way sent thither since to see and view what progress made and give further directions in the Buildings, stay'd a Month and return'd in July, the Work in good forwardness, have new let the Bounds with the Beetle and Tobacco-farm for 5 years at the former rent to New Men, but new difficultys are started so the whole is in suspence.

66. The Treaty with the Patans at St. Thoma begun by the President and carry'd on by Mr. Frederick in his absence came to nothing though some Concessions granted if would return to Madrass.

5. Finding it necessary to protect the English Traders and make Reprizalls, were inform'd the Noquedah was coming Overland from Corangee for Porto Novo with the Kings Treasure, thereupon they Seiz'd it near the Companys bounds, but afterwards finding it to belong to the Nabob Abdull Nabbee Caun dismiss him and the Treasure, but the Noquedah of the Rahim coming ashore the 2d instant secur'd him and examin'd him before the Council, he own'd the ship was the King of Atcheens, and the Benjamin and Goods value Pagodas 5,000, That the Gold was sent Overland from Corangee to Porto Novo to invest, 4 or 5 Moors and Arab Merchants had Gold and some goods which they did not seiz, the ship and what belong'd to the King they seiz'd as a Reprizall for the Messiahs Treasure and for the Injurys don the English, the ship and Cargo sold for Pagodas 4518: 33: 64.

7. Having frequent Addresses from the People of Dieu and their Neighbours to come thither promising great Numbers will resort thither and that there is no force to oppose them and the Nabob of Gulcondah, near at hand to be treated with, and delays would discourage the People, and Aporrow the present Renter would strengthen himself who now was very weak had but 3 Guns in his Fort and 150 Peons, the Rivers were very deep, the Bar at the southermost call'd Kistna had at lowest tides five foot water, at highest ten, and Divy River the Northermost bar had 7 foot at lowest tides and 12 at highest, the Rivers above had for several Leagues depth enô for any ship, therefore determin'd to proceed, whereupon bought the Atcheen ship, a Brigantine, a new built sloop, and a long boat which is building on for a sloop. 9. Messrs. Thomas Cooke and Randall Fowke believing themselves intended in Paragraph 65 per Bouverie are greatly concern'd, and to justify their Integrity say, the Duty was not collected by them but by the Sea Gate Conicoply from the Black Merchants exclusive of the Companys Customs, who always pretending Arrears never paid in less than 12 months after it was due. Mr. Cooke on Receipt of what had been collected in his years of 1711 and 1712, which was not in full till September 1714, acquainted President Harrison and the Mayor therewith and that he was ready to pay it into Cash or Court as should be order'd, But President Harrison finding the said Duty had been embzled for many years before to the Loss of the Company and Corporation, resolv'd to enquire what was deficient, which was compleated 18th July following as per Consultation Entry and President Harrison declar'd Mr. Cooke gave him the first insight, Mr. Fowkes Payment was the year after and the Conicoply Receiver was slow therein, the Council have commended them for their honest discharging their trust.

23. Diaram threaten'd revenge and apply'd to the Nabob for forces to go against Madrass, but to no purpose, the whole Countrey complain'd of him and rejoyc'd at his disgrace, have complain'd to Sied Hussanally Caun of Diarams attempt and advis'd to Bengall to represent it to the Court.

Hear their conduct towards Diaram is approv'd of at Oringabad Court, and his attacking the English so unjustly is one reason of his disgrace. All at peace round about with them, believe they will not be insulted again.

Auga Pera employ'd to Negotiate this Affair, have advis'd him a Gusbardar was coming from Court by way of Bengall to deliver it and to bring a seerpaw from the Mogul for the President.

30. If can't by this Method get a peaceable possession shall wait the Companys orders how to proceed, are of opinion to give double the Present for peaceable possession than force it, and yet ought to use force if can't get it otherwise, fear nobody but the Nabob, Upperow the Renter being too weak, refer to Countrey Letters for Particulars.

4. 530 Bales from St. Davids received the 5th instant by the Derby.

5. The West Coast ship President being survey'd as per Consultation of the 11th August found not worth repairing therefore sold her for 476 pagodas.

6. The Derby sloop is near finisht at St. Davids, Captain Fitzhugh and his men have hasten'd her of which shall write further by him.

7. Being order'd para. 12 per Derby to dispatch a ship in August that had layn the season before and the Success arriving from the West Coast the 30th July design'd to send her home, but having lost half her men on the West Coast and the rest being sick were forc'd to delay her lading.

8. Have advised the Bay as per para. 13 order'd of the Charterparty Clause not to dispatch ships from thence for Europe before 30th November or after the 28th February, but to fill them up with stores for Madrass unless can employ them on frieght, have a full lading for the Derby and expect 2,500 Bales for the two January ships from the Bay, expect the Bay will dispatch the Heathcote and Grantham and lade a third of the Mary and King George, Bouverie can't return to be dispatcht till next year, shall order a ship from the West Coast to be dispatcht from Madrass for England in July or August.

9. The English in the Bay not having the priviledge yet of coyning, and Madrass rupees being more currant there than Surat, therefore coyned half the Heathcotes Treasure and sent it on her, being 40 Chests, being enô to begin the Investment, would have taken up 24 days to have coyn'd the whole, have coyn'd and sent the rest of the Treasure for the Bay.

81. In answer to para. 63 by the May have on examination found the error in Consultation entry 7th September 1716 about Mr. Cooke Rentall General paying in money on account Rent roll for 1714 which should be for the year 1715, have agreed to rectify the mistake, will take better care in future.

ABSTRACT OF GENERAL LETTER FROM FORT ST. GEORGE TO THE COMPANY, DATED DECEMBER 18 1718. RECEIVED BY THE DERBY THE 9TH JULY, 1719. [*Coast & Bay Abstracts, Vol. 2, pp. 182-191. (India Office transcript)*]

1. This is sent on the Derby with duplicate of their letter of 19th September per Success giving answer to the Companys Letters received and Triplicate of those of the 7th August per Princess Anne and 22th February last per Cambridge giving an account of the then state of Affairs, shall now add what has happen'd since.

FIRST CONCERNING SHIPPING.

2. The Successes dispatches dated the 19th September last, she sail'd the 21th in the morning, next morning discover'd a ship coming up the Coast from the southward making a signal of distress, she suddenly after running ashore, on sending out Peons by Land and Cattamarans by sea understood it was the Success, whereupon sent the Britannia Sloop Ramah and all the Mussoolas procurable with souldiers, &c^a. assistance, and Tents for encampments ashore to save what possible of her Cargo, the President to give the whole directions as per Consultation 22th September, at 5 in the Evening Captain Graves with half his ships Company came to Madrass ashore the rest by land, she was wreck'd at Trivembore in the Moguls Dominions 4 Leagues to the Southward of Madrass, the substance of the mens depositions enter'd after Consultations 3d and 6th October is viz^t., the wind at S.W. when they sail'd 21th in the morning stood on a wind to the southward till 5 afternoon out of sight of Land then stood in to landward, between 8 and 12 the pumps were often sounded and found in good order and but 5 inches water, just before 12 at night being in 35 fathom water found the Pumps stopt and 5 foot water in hold and the ship beginning to ly down, whereupon got out the Long boat and threw several things overboard, found between 7 and 8 foot water in hold, on which several of the Officers, Sailers, and Passengers got into the Boat, the Captain in the Round house and the ship lying Gunnell too, he got into the boat the ship shot from them so fast the boat could not keep way with her, they therefore got within a League of shore to the southward of the wreck, but could not get to her being spent, at last got hold of a Country boat at anchor and hir'd her to tow them to Madrass. The men on board endeavour'd to keep the ship on float by throwing over what they could, cutting the anchors from the Bows and bailing out the water for the Pumps would not work, thus they brought the ship into 7 fathom, then she not answering her helm run aground off Trivembore the men by a raft and 2 Cattamarans got ashore and by Aga Mogheen Havildar of St. Thoma's Assistance travell'd to Madrass.

3. She had been duly survey'd and reported in good Condition before lading, suppose some plank started.

4. Captain Graves and several of the Derbys men went on the Vessells sent to the wreck, on the 24th they wrote the President it was impossible to work on the wreck as she lay, therefore kept a Camp on shore to take up the Bales as they came ashore the ship beginning to break, whereupon sent them more men under Captain Fullerton as per Consultation of the 24th, refer to Papers in the Packet for an account of all orders, &c^a. on this Affair.

5. The Country Government demanded the Wreck, threatening force, but did not fear them being intrencht, when the ship broke the 27th not a Bale came ashore but all drove to the Norward by the Current setting that way, on which the souldiers return'd thro' St. Thoma to Madrass, thereupon employ'd Peons, &c^a., to spread the Coast from the Wreck southward as far as Palliacat Northward near 40 Miles to secure all drove ashore and also Catamarans and divers, whereby out of Bales 608 shipt recover'd 383, the Washers immediately took care of them, to wash out the salt water, most of the Bales took up without their own bounds, some at Trivembore the rest at St. Thoma, Auga Mogheen the Governor thô had

forbid all intercourse with St. Thoma was glad to assist because the St. Thoma people would have been forced to leave it by this means reconciling himself to the English.

6. Took this occasion to assert their right by ancient Custom and the late Phirmaund to all saved of the Wreck, the People to the Norward having got a Bale ashore, on Notice of the Peons coming for it fled into the Countrey, whereupon the President wrote to the Hovildar of Pullimully &c^a. under whom the People were to demand that Bale and all else taken up, after some time they own'd the right and deliver'd the Bale with some trifles plunder'd by the Trivembore People out of the ship before the Men got to her, the Nabob all the while kept on the Reserve, continuing only threatening Messages he seeming unwilling to carry things too far and the English resolv'd to give up nothing of their rights without fighting.

7. The recover'd bales, all washt and sorted 350 of them perfectly good are mark'd S.W. additionall cost Pagodas 21,909: 17: 26. Six Bales sent to St. Helena value Pag^a. 314: 7: 37. design all by the Mary, have sold the remainder being torn or damaged. Account of salvage sent in the Packet with Charges the Net Amount is Pag^a. 21,862: 17: 12. fear'd should have saved nothing.

8. Can't find on the strictest examination but that the Captain and Officers did their duty, and did not quit the ship till forced.

9. The Derby being survey'd was begun to be laden the 22th September but wanting Petre, expected from the Bay it did not arrive on the Metchlepatam from thence till the 3d October she touching at Vizagapatam to deliver the Marys Treasure and fell short 5 Tons of the Charterparty Kintlage, which made up in Tootenague, the Captain demanded 80 Ton more Kintlage, gave him liberty to purchase heavy goods for that service as per particular in the Register, among which a Pecul of Shellack bespoke in the Bay sent up to him, he pray'd it might not pay Custom being not Customary as per Consultation 6th October, this referr'd to the Company.

10. Had salt petre arrived hoped to have dispatcht the Derby before the New Moon in October, fearing the Monsoon durst not venture any Bales on board before full Moon the 26th November and the ship to ride farther off in 13 and 14 fathom water thô it will cost near 2 months Demorage, refer to their pressing Letters to the Bay for Petre and the Answers back, it would be beneficial to the Company to have 4 or 5,000 Bags Petre always beforehand at Madrass, shall have above 1,000 Bales of Cloth after dispatch of the Derby, Mary, and King George, and enô for the Bouverie when she returns from Persia only Petre wanting, It would be dangerous to dispatch a West Coast ship thô her Kintlage on board without some Petre.

11. Captain Holdens Protest against the sea (enter'd in Letter book No. 96) for not touching at Vizagapatam.

12. October 12th Sloop Dartmouth arriv'd from Vizagapatam with Bales sent to St. Davids to go over the Bar and ly during the Monsoon.

13. October 22th sent the Metchlepatam to the West Coast with a Commission to make Mr. Cooke Deputy Governor his wife gon to him, Messrs. Farmer and Morris to come to Madrass.

Have paid the Europe Carpenters and Caulkers Pag^a. 373 but the other Charges at St. Davids not received, shall send account of all per Mary.

SECONDLY CONCERNING GOODS SENT FROM EUROPE.

17. Shall per Mary send Lists of what wanted with observations necessary.

THIRDLY TOUCHING INVESTMENTS OF GOODS PROPER FOR EUROPE.

18. Could provide 4 or 5,000 Bales yearly if had stock.

19. Have sent 53 Bales of White Long cloth mark'd LCOXX made up in the Countrey, if any Complaint of them the Merchants are to make it good.

FOURTHLY TOUCHING THE TRADE OF INDIA IN GENERAL AND OUR TRANSACTIONS WITH THE COUNTRY GOVERNMENT.

20. Famine continues so severe many poor dy in the streets, 3 or 4,000 fed dayly at the Expençe of some English, no Rice or Paddy to be bought except a supply from Bengall. Have had rains to the Northward and Southward but not half enô, about Madrass, however, have planted the ground with it. Have wrote to all parts for Grain. Trade at a full stop in the Countrey by this scarcity and partly by Confusion in the Government, however, have encreast the Investment, will send Account remains per King George.

21. Come now to give an Account of the Treaty with the Nabob Willy Mahomud under his General Tyre Caun managed it and it seem'd near agreed on, the terms in Consultation 10th November. But the Nabob insisted on delivering the Villages to Suncah Ramah, who thô in name the Companys Merchant resides at Arcot, the English refusing Tyre Caun was order'd to collect his utmost force against them, they prepar'd to receive him and threaten'd to take all Moors ships from Bengall to Surat if he began Hostility, thus matters continued a Month but no Interruption in the Companys Affairs, when Aga Mogheen came to the President sent by Ducknaroy the Nabobs chief favourite to negotiate a Peace, who being displeas'd with Tyre Caun intended to recommend the Auga to the Nabob thereby, he demanded no more money than had been offer'd and agreed to the terms before proposed, Nabobs Ratification and Perwanna and present of Horse and Serpaw daily expected. Believe them sincere yet keep a strict guard on all their Actions. In the Consultation its said 3,000 Pag^s. are to be paid, but the President never offer'd above 2,000 and the Black Merchants pretend to give 1,000 more without his consent and is included in the tax laid on the Inhabitants on account of the Choultry shall only charge 2,000 in Cash paid on Account presents and 1,000 to Account new Choultrys. This don't prevent the present or future Nabobs insisting on such a Present as 3,000 Pagodas and is made partly on the Presidents succession and partly for the Phirmaund.

22. This Treaty will cutt of all future demands about the Successes Wreck or the new Fortifications and fighting Diaram and keeping the Villages by force, and have time to receive the Companys future orders for their Conduct. The true state of the Case is viz. The reason given in the Phirmaund why the King gave the 5 Villages was for supplying the Moguls camp in the Chingee War and assisting Zoudy Caun at Hughly and that the Villages were first granted in Aurengzebes time, whereas they were only granted by Zoudy Caun in Governour Pitts time being in his Jaggeir and could continue only while he had that Jaggeir (Nota bene it should be Doud Caun) this the Nabob has hit upon thô never mention'd in his publick Writings thô perhaps in Equity the King may have a right to revoke his grant, yet no Inferiour Authority has a right to Annul it, and therefore may be maintain'd by force against them. These Villages are in the Nabob Sied Hussenally Cauns Jaggeir granted him by the King for his own use, he is one of the principal Nabobs in the Empire, resides at Oringabad, his Government extends from Surat to Gulcondah inclusive and all the Moguls Dominions to the southward, his Brother Sied Abdulla Caun is Grand Vizier, these two are the most powerfull subjects in the Empire and of the Holy Cast and seem to form designs on the Empire the King being the last of the

Tamberlaine Cast and has no children they took a large step towards it lately viz^t. Shudamully Zool a Poligar having 30,000 horse refused to pay the accustomed Tribute, was worsted by the Kings forces Sied Abdulla Caun protected him and refused to deliver him to the King to be punished the King and he took the field with Armys, the King had 50,000 horse and 150,000 Rashboots, the Sied had 40,000 horse as Vizier under him and 30,000 of the Polligars, it is reported the King is reconciled to him by the Queen Mothers mediation and a favourite Rajah. This shows should the two brothers gain their point the present Kings grants would not be valued without Hussenallys consent, being part of his possessions as is also Dieu Island and Surat besides have no Phirmaund only a Husbulhookum for Dieu, should the Rashboots divide the Empire as most likely, the English will not be interrupted in what they possess, Sied Abdulla Caun has sent frequent orders to Sadatulla Caun to take away the Villages, which he would have attempted but if he was baffled Sied Hussanally who don't like him would ruine him at Court.

23. Shall not give their Opinions on this but follow the orders sent them, and in the Interim assert the Companys rights.

24. Charges of the new Choultrys delivered in 3d November amounting to Pag^s 3,154: 30: 15. on which agreed to levy a tax of Pagodas 4,500 on the Inhabitants, 1,000 for the Secret present to the Nabob and the remainder for the incident charges in repairing the Hedge &c^a. Heads of the Casts order'd to attend and bring in a List of each Persons Land and stock not worth 100 Pag^s. but not to be over exact in the account this done in 14 days as per Consultation 20th November the Chittees to be excused offer'd to pay a 3d of the whole and would present the Company with 500 Pagodas which was accepted, the other Casts List comes to Pag^s. 300,000 in Lands and Stock their 3,000 Pagodas is just 1 per cent to prevent the Heads of the Casts abuses in collecting this have appointed the Companys Peons and Conicoplys to do it and threaten'd them in case of abuse the People in general pleased with it because the Poor are excluded suppose the Company will establish this method on all extraordinary occasions Copy of the Tax Roll shall be sent per Mary believe all the Persons assessed have in real value 2 millions pagodas in lands and stick considerable numbers excluded on pretence of not being worth 100 Pagodas thô really worth 2 or 300. This will guide the Company in directions towards the Inhabitants in future.

25. The Farmers of the Measuring Duty being found cheating the Sellers in quantity and forcing money from the poor took away their Cowl as per Consultation 20th October, and let it on the same terms to Poncata Kistna. In Consultation 17th November detected the Sea Gate Dubash of Roguery he is turn'd out fin'd 100 Pagodas to be imprison'd 3 months and stand thrice in the Pillory.

FIFTHLY TOUCHING FORTIFICATIONS, BUILDINGS, AND REVENUES.

26. Buildings of the Inner Fort compleated and are now in use except a little pavement for which want stone, the whole is handsom, Commodious, and substantial will want no repairs a long time.
