[From 2nd August 1746 to 31st July 1747.]
Diary and Consultations of the Worshipfull George Dudley Esqr. Chief \&cta. Factors at Tellicherry their Transactions in the service of the Hoñble United English East India Company.

Received this Evening a Letter from Mr. Nicholas Stonestreet being Word for Saturday Word as follows.

To the Worshipfull George Dudley Esqi.

## Sir \& SIRS

The load of unmerited reproach thrown on me by the Chief in his remarks Letter from on my Dissent from the Consultation of the 29th. May last (in which cases I was told it is not usual to reply) will I hope justify my fixed resolution not to attend Council till the dispute between us be brought to an Issue by our Superiours, or by our Hoñble Employers.

With regard to my Integrity, or to my Industry, in those branches of the Hoñble Companys business with which I have been esteemed fit to be entrusted, I can appeal to the Conscience of those in Council, who at present, thô they say nothing, sign everything: But if merely differing from Opinion with the Chief (in the present case too) for being in the right, when he is in the wrong (as appears evidently by the Merchants Petition delivered us since) must subject me to be prosecuted with Malice, to have triffling Omissions agravated to Criminal faults, to stand unjust insinuations, and to endure undeserved reflections, I have too much regard to my own Character as well as to my own Quiet to set a[bout] a Board where my Voice will in all probability serve no other purpose than to expose me to fresh abuse.

Adgust 19t. 1746.

Wrote a Letter to the President and Council of Fort St. George and sent it in a Toney to Tannore from whence it is to go by Pattamar. We therein acknowledge the Receipt of their favour dated the $5^{\text {th }}$. of last Mont[h] that we were pleased to observe from thence that the Engagement with his Majestys Squadron, proved much different from what the French at Mihie had before given out, they having, as usual ascribed all Conduct, Courage and even Victory to themselves; That they were now actually tampering with the Malabar Princes and Heads of the Cannanore Moors to enter into an Alliance with them against the Hoñble Company and give out that they are determined to say Mass in Tellicherry before the end of the Year, but that we questioned not of disappointing them in this Scheme. That we were impatiently expecting their next Advices, in hopes of

## At a Consultation

Present
The Worshipfull George Dudley Esqr. Chief. William Jeynson. . William West. Alex ${ }^{\text {r }}$ Dojglas. . John Robinson.

Nicholas Stonestreet, wilfully absent.

Mr. Robin-
son continuing [ 8 ]till Contumacious,
his Post of Secry. is given to Mr. Waters.

Mr. Joun Robinson who declared last Council day that he would not any longer Act as Secretary and had then time given him to reflect on his Contumacious behaviour, still refuses to hold his Secretarys Post. Whereupon he is Ordered to deliver over the char[ge] of his Office to Mr. Charles Waters with an Inventory of all the Books and Papers thereunto belonging Signed by them both; which they are to lay before the Board for inspection, \& to be afterwards entered in the Diary.

On this occasion it is Observed, that this same Young Gentleman has a very refractory and unruly spirit, having about Four Years ago been suspended at Bombay by the President and Council there in the Government of Mr. Law for his Idle behaviour and indeed he appears to be of an obstinate and ungovernable disposition, shewing too great a disregard for the Hoñble Companys Service, and the Orders of his Superiors, to deserve any favour from them. We believe however his thirst after Indolence and pleasure and violent desire of ease and little business, (the Secretarys duty being often troublesome) may in some measure have induced him thus to spurn and set at nought the Orders of the Board, and thereby. break through all decorum and good Rules; for when the Chief first arrived, he used to read Divine Service and had a Sallary for it; but the Young Man was too lazy to continue in this Office, and never left soliciting to be eased of it, till another Person was appointed to that duty. And he very seldom gave his Attendance at the Secretarys Office till late in the Morning, and but a very few hours in the whole day, and often not at all; so that the Office business was very far backward when Mr. Geekie the late Chief departed for Europe, and the Letter Books Inwards and Outwards and Order Books are yet considerably behindhand; nor are they, or his latter Consultations Legibly Copied, Indexed or Examined; or the Blanks filled up. And his saying he will Copy as far as he can the business of the Office, is inconsistent with his present Station as one of the Council; who as such, ought

Observation luct and Behaviour not to have degraded himself, so as to receive Orders from his Inferiours; which Mr. Waters as Secretary, though a Writer, must now give him in respect to the Office business: or else he must act and do as he himself pleases. Indeed this seems to be his drift by all that can be observed in his late Conduct. The Chief has likewise had already two complaints against him and his Wife, for beating and misusing the Black People; and his Ordering that Justice should be rendered to

- AUGUST 1746 _
them may possibly have sate a little uneasy on the Young Mans high Stomack and made him the apter to run into this disobedient behaviour. And thi[s] being the State of the Case, it is now left to the Judgment of our Superiors to determine, whether Mr. Robinsons conduct has been really faulty; or whether (as he himself says in his paper of reasons for breaking open the Ola Box) the Chiefs Orders in regard to him proceeded from his dissenting to the Consultation of the 29th. May last:

On the whole, as the Government of the Place and of Course, the Companys Affairs, will run into Anarchy and Confusion, if we suffe[r] our Orders to be disputed by any One whatsoever; we cannot but think that Mr. Robinson is greatly Culpable; and that he deserves to be suspended the Hoñble Companys Service; Yet, as the troubles in the Country hereabout, render an Union of our hands and hearts highly necessary at this Juncture, to prevent the evil designs of our Enemies, the French and Moors. It is Resolved, that we do only represent Mr. Robinson's late. disobedient and refractory behaviour ,(as set forth in this Diary) to our Superiors at Bombay and leave it to them to give such Orders concerning him as $\begin{gathered}\text { coneerning } \\ \text { him. }\end{gathered}$ they shall think he Merits.

Read a Letter received from Mr. Nicholas Stonestreet as entered under the $2^{\text {nd }}$. Instant wherein he says, His resolution is fixed not to attend Council till the dispute between him \& the Chief is brought to an Issue by our Superiors, or by our Hoñble Employers. And he having in the same Paper reflected upon some of the Members, and said very conceitedly that he was in the right and the Chief in the wrong, the Board took the same into Consideration and observed, that his withdrawing himself from the Council Table, upon such trifing pretences was a direct denyal of his Duty; by Abdicating his Post or Office; and in a manner resigning and throwing up the Hoñble Companys Service. And although this kind of behaviour merited a severe Resentment, yet for the reasons already given in Mr. Robinson's Case It was Resolved to take no notice of it here, but refer this also to the Judgment and Determination of our Superiors at the Presidency. However that he might not in the meanwhile have it to say, with any degree of Truth, that he was reproached unmeritedly; and that he was debarred the Opportunity of Justifying his late Conduct by a Replv to the Chiefs remarks; it was Unanimously Agreed to send him the following Letter.

Sir,
You having in your Letter to us of the $1^{\text {st }}$. Instant (which we received the $2^{\text {nd }}$. at Night) declared your fixed resolution not to attend at Council, we must tell You is a direct denyal of your Duty, and disobedience to the Orders of your Superiors, whose determination of the matter in dispute between You and the Chief ought to have been waited for with temper and Resignation. And since you are pleased to say that the Chief has thrown upon You unmerited Reproach, in his Remarks on your Dissent to the Consultation of the $29^{\text {th }}$. of May last, and further add very superciliously and conceitedly, that you are in the right and he is in the wrong, (which by the way is not very respectfull) we are willing to dispence on this particular Occasion with our usual forms, and do now declare that you are at liberty to reply to the Chiefs remarks and endeavour to clear up the several Facts with which you stand charged in that Paper. And we shall grant the Chief the same liberty, by permitting him to rejoyn, or remark on your Reply. We are

We learn that the Portuguez Ship which Sailed from Goa for Europe in December or January last is lost at the Island of Mauritius; that some of the Crew had mutinied; and that they had lost their Masts in bad Weather, before they fell in with the said Island. Several of her Seamen were on board the French Fleet when they engaged his Majestys Squardron off Negapatam.

The Chief received a Letter from the Young Prince wherein he says, that as he had not seen the Chief since his Brother ascended into Heaven, he had therefore determined to be at Telechery in two days. The News at present, he says, is that besides his Mallabar Enemies who commit Hostilities in the Country its reported that the Kenarees intend to come this way. They have already sent some Horse and Foot to Mottaly. And as Affairs are in this scituation, he will come and see the Chief after he has sent some People to the Country and Fort of Aucannia, when they shall have an Opportunity to consider of every thing necessary to be done.

The Caier immediately Answered the foregoing Letter, and told the Young Prince, that whenever it suited his Highnesses convenience to come hither, he would very willingly give him his opinion on the present posture of his Affairs.

This Morning the Young Prince, (in whose hands the executive part of the Government is lodged) came to the Fort; and after the usual Compliments had passed between him \& the Chief. He began with telling him that the Cannarees were again coming into the Mallabar Country, that Badencalancore, Ockoos Brother called Prince Omar, and two of the three Kings of Nilleasaran had invited them, \& promised to Join their Forces with the Canarees whenever they should commence Hostilities against the Prince. That One thousand five hundred Canaree Foot and three hundred Horse hiad passed under the Walls of Mottalye with an intent to go and surprize Ramatilly Fort, which they had probably accomplished, if the Prince, who was informed of their designs had not prevented it, by strengthning that Fortress with a party of Men. And the Canarees finding their Scheme discovered marched back to Neleasaran without attempting anything. But from the preparations they are making, and the unusual Number of Horse \& Foot they have now assembled together, He, the Prince, is greatly alarmed and expects they will invade his Country in a short, space of time. He added that as with the assistance of the

Portuguez Ship lost at Mauritious.

Honible Company his Brother had before expelled them the Country, so he questions not, but with the like Succours they shall be able to do it again; and concluded with a request of a considerable body of Men for that Purpose. The Chief represented to him in as modest Terms as he could how unreasonable it was to expect that the Honble Company should on all occasions, support and assist him, when there were Riches enough in his Family to enable him to raise and maintain a body of Men sufficient to keep their Enemies at a proper distance; that Prince Cunhi Homo was reported to dye possessed of vast Treasures, and that the same could never be put to a better use than in keeping on Foot a large Standing Army for the safeguard of their Country; that the Hoñble Company were only Merchants, and never waged War but when their property was in danger, or continued more Soldiers in pay than were absolutely necessary to defend their Forts; That the Profit on two or three thousand Candies of Pepper and a few Cardamoms which they annually exported from this Place, was not equivalent to the Expence of maintaining the Garrisons, more especially as they now get large Quantities of Pepper from the West Coast of Sunatra and other Places at much cheaper Rates than what they pay here. All which the Chief desired the Young Prince to consider seriously, and then ask himself whether he thought it reasonable that the Hoñble Company should engage in his Wars. He seemed to disrelish the discourse, and replied, that Badencalanoore, Ockoos Brother and the Nelleasaran Kings had given out that the English Company were not in Friendship and would not assist their Family on Acco ${ }^{t}$. of the late differences between them and his deceased Brother Prince Cunhi Homo; that on the strength of these Reports and in belief of the truth of them, the Canarees had been induced to attempt the invasion of their dominions, and that if we did not shew our good and hearty inclination to support their House by the loan of some of our People their Enemy would certainly imagine everything to be true, which had been told them, and of Course enter their Country with a formidable Army as they had done some Years ago, which might possibly be prevented by our publickly declaring in their favour; and in the conclusion insisted in so earnest a manner on having at least Fifty or Sixty Callecalone Seepoys for the present and a promise of Soldiers on his return from Cartenat, that the Chief was obliged to tell him, that as the French were at War with us, and had a large Fleet in India, we could not possibly permit of our People going to the Northward so far from us, lest our Enemy should take that Opportunity and attack us. But this not satisfying him, he said, that if the French or any one else offered us the least Molestation he should look upon it as a Violence done against himself, and would immediately come in Person with all his People to our Assistance; And in fine, he pressed so very hard that the Chief found it impossible to refuse him some of our Men without greatly disobliging him, which in our present Circumstances might be attended with rery ill Consequences to our Hoñble Masters Affairs; he therefore told the Prince that he would lay his request before the Gentlemen of Council, and send him an Answer in the Morning by his Rajadores, if he would Order them to come to the Fort for it. The Prince desired

The Worshipflll George Dcdley Esqr. Chief. Willian Jefison. Alexayder Dotglas

Mr. West Sick.
Mr. Robinson at Durmapatam. Mr. Stovestreet IF'ilfully Absent.
The Chief communicates to the Board The substance of his Conference with the Young Prince this Morning, as above related; which being duly weighed and coasidered, ther, are of Opinion, that, in our present Circumstances we cannot well
avoid gratifying him, with the loan of some Seepoys or Calecaloners, since he is so very pressing, and as we do not know how soon we may have occasion to call upon him for the use of his Nairs, in case of our being insulted by the French Fleet now in India. It is therefore Agreed, to oblige him with Forty or Fifty Callecalone Seepoys. But in order to prevent differences with the Canarees, (from whose Country this Garrison is supplied with Rice) the Chief is desired to give our People Orders to assist the Prince only in defending his Forts, and not in openly attacking the Canarees Army.

Read a Letter from Mr. Nicholas Stonestreet dated the $4^{\text {th }}$. Instant as entered hereafter, in which he endeavours to Justifye his late and present Conduct and amongst other things has this remarkable Simile; that he thinks his saying, that he is in the right \& the Chief in the wrong; argues as little conceitedness, or want of Respect, as if a vote in Council was to agree that a Globe Lanthorn and a walking Cane were the same thing, He should pronounce them evidently different; and concludes with a request to have a Copy of the Chiefs remarks on his dissent to the Consultation of the $29^{\text {th }}$. May last.

The Board finding by this impertinent and insulting letter, that the Gentleman is obstinately bent to have his own way; and being likewise desirous to put an end to all further dispute They Agree to send him no manner of Answer; as he was told in public Council that he might have the perusal of the Chiefs Remarks in the Secrys Office whenever he pleased, but that he would not be permitted to take a Copy of them for his own private use.

Mess ${ }^{\text {rs }}$. Jefnson and Douglas deliver to the Board a List of the Olas found in the Copper Box, with an Account of the substance and Condition of them; which, together with their Report of the same are Read \& Ordered to be entered after this Consultation. And as they esteem it necessary that the Box should be placed in the Smoke, to prevent any further damage by Vermin or dampness. It is Agreed to fix it with an Iron Chain \& Padlock in the Kitchin.

As the Weather is now become pretty fair It is Agreed that we dispatch a Toney with a Letter to the Commorlore \& Council of Cochin about our two Mucquas detained at Cannanore as noted in Consultation the $311^{\text {st }}$. Ultimo. And another Letter to the Chief \& Council of Anjengo advising them the Notice we have received of the intention which the French are said to entertain of settleing at Coletchy, that they may acquaint the King of Travancore thereof; who, we imagine can easily prerent them if he pleases.

Examined \& Passed the following Accounts Warehousekeepers Receipts \& Issues for the Month of July. The Accot. of Pepper Reced to be entered hereafter.

Storekeepers Account Sale for the Months of May, June \& July Amounting to Rupees Eight hundred forty four, three Quarters and thirteen Reas ( $\mathrm{R}^{s} .844 .3{ }^{3} 13$ ) Abstract whereof to follow this Consultation.

George Dudley. Wm. Jeynson. W. West.

To the Worshipfull George Dudley Esqn. Chief \&c ${ }^{\text {ta }}$. Factors.
SIR \& SIRS
The Secretary delivered me a Letter from you all in which I am informed that my resolution not to attend Council till a dispute between us he accommodated by our Superiours, is, "A direct denyal of my duty; and disobedience to Orders" So far as it is so, will not (I submissively hope) be used to my prejudice anywhere; for having had little Opportunity, Since being in India of acquainting myself with

## ——AUGUST 1746 -

General Orders; the Resolution objected too, was formed only from what appeared to me reasonable; as I found my attendance not likely to benefit the Hoñble Company, and what in probability would be injurious to myself.

I am likewise charged with Conceitedness for saying, in the present Dispute, I am in the right, and he (the Chief) is in the wrong: to clear myself from which, will require a short state of our difference. The Chief \&cta. had said, "that all the Merchants refused to Pay the quantity of Pepper Seized at Pyachy untill they recovered it: to which I replyed, "that I never heard such refusal from any One of them'. And the Merchants declaration in Council Since, as well as their Petition, proves such refusal was never designed by any of them. In which Case I think my saying what is remarked, Argues as little Conceitedness, or want of Respect, as if a Vote in Council was to Agree that a Globe Lanthorn and a Walking Cane were the same thing. I should pronounce them evidently different.

The willingness you express, to dispense with usual Forms in Order to give me an Opportunity of clearing myself from the several Facts with which I stand charged, deserves my particular acknowledgments; but as in my Letter of the $1^{\text {st }}$. Instant I resolved to appeal to others, so I am now determined to abide by that Resolution; and in Order to make my cause good humbly request a Copy of what is alledged against me.

## Hoñble Sir \& Sirs \& Much Esteemed Friends

Our Agar Mucquas who escaped the Massacre there, having Petitioned us to take there unhappy case into Consideration and afford them relief; we did represent their sufferings to our Superiours at Bombay in a proper manner, and they were pleased charitably to Order a Sum of Money to be distributed amongst them; accordingly we directed our Linguist to acquaint all the said Agar Mucquas with the purport of the Order that was come from Bombay in their favour, that they might partake of the benefit intended them, And on enquiry since we find our said Linguist very indiscreetly, and contrary to our designs sent two Mucquas from hence to Cannanore to speak to such of the Agar Mucquas as were there, without ordering them to apply first to the Captain of your Fort which he undoubtedly should have done. But we beg leave to assure you that the Omission was occasioned through inadvertency of the said Linguist, and not with any evil Intent or design, as you must readily believe when we tell yoū; and which your own Gentlemen at Cannanore know for a certain Truth; that had we been inclined to get those Mucquas here, without the knowledge and consent of the Captain of Cannanore, we have had it often in our Power to detain them with their own consent when they come hither, as they frequently do to see their Friends and Relations who live in this Place. These Circumstances being duly considered, we cannot help complaining to You of the Unneighbourly \& Unfriendiy treatment we have received from the Captain and Council of Cannanore, who have imprisoned and detained our Two Tellicherry Mucquas, and will not release, and set them at liberty, until they receive your

By a Letter delivered you on Saturday last, I desired a Copy of " the several Facts with which I stand Charged " (as you express it) in the Chiefs remarks on my Dissent from one of your Consultations: A Request so legal, so reasonable, and what in England it is usual to grant in all Cases; I had little expectation would have been denyed here: But on my attending the Office this day in Order to take such Copy; the Secretary acquainted me it was your Order to him to prevent it:

## - AUGUST 1746 ——

As this appears to me very unwarrantable I rather suppose the Secretary must. misapprehend your meaning, than that you could mean me such injustice, and therefore repeat my former Request.

To have the reading of such long Remarks in the Office only, (which I am told is permitted) will not answer my purpose for as the fairest and clearest method of stating Controversy, evidently, is to put down in different Columns on the samePaper the opinion of each party, it is what I design to do with regard to that in which I have the unhappiness of differing from you.

## To Mr. Nicholas Stonestreet

Sir
I am directed by the Chief and Factors to tell You in Answer to Your Letterof the $11^{\text {th }}$. Instant that without entering into the Quirks or forms of Law, which you seem to hint at, they will not permit of the Hoñble Compys. Registered Papers being Copied and carried out of the Office till they shall be licensed by their Superiours at Bombay, as the same is contrary to the usual Custom. And why our Hoñble Masters Rules of Practise should be termed Unjust and Unwarrantable theycan see no reason. They say it is certainly unwarrantable in One of their Servants to dispute their Authority in making Rules of Practise for the management of theirAffairs. But laying aside the discussion of this Point, they say, you were told in public Council (notwithstanding your pretence of the Secretary's misapprehending their meaning) that the Chiefs remarks might be read and perused in the Secry's Office at all times, by which means you would be enabled to reply fully to every Article in as ample a manner as if a Copy of them had been granted, which they apprehend you only want, to serve some private End and Purpose; and not with an intent of stating the Controversy in different Columns, as the same is altogether insignificant and useless.

The Stores you proposed to make by the Chiefs permission Namely Fifty Hoes, or Spades, twenty Pickaxes, Forty Hatchets, and Eight or Ten thousand Musket Balls, and the like number of Nair Balls you are to get done with all Expedition, and if any more Stores of those, or other sorts are at present wanted, or like tobe wanted in case of Molestation or disturbances from, or by means of the French while their Fleet remains in India You are immediately to acquaint the Chief and Factors of it, that the necessary Orders may be given accordingly. And for your better information you are directed to consult with the Gunner \& Capt. Fisher relating to this Affaire.

I am likewise Ordered to tell You that there is a difference of Four thousand Nine hundred and three Fanams five \& a half Vis (Fans. 4903. 51 ${ }^{\frac{1}{2} \text { ) between the }}$ Balance of Prince Cunhi Homo's Account on the Factory Books the $28^{\text {th. }}$. of ${ }^{-}$ Septr. 1744, \& the Amount of his Ola dated that day as follows Viz.

which difference does not appear to have been accounted for either in the Diary, or any other Book or Paper now in their Custody. And as you were Accomptant at the time when Prince Cunhi Homos. Account was said to have been adjusted and his Ola taken for the Balance due to the Hoñble Company they desire you will inform them how the said difference Arises and why you had not adjusted the said Account on the Books conformable to the Ola; or taken the Ola conformable tothe Books, according as the nature of the case might require.

## _ AUGUST 1746 ——

I am also ordered to let you know that the Factory Books are brought up to the $31^{\text {sts }}$. of last Month, and that they will be ready to close in a few days. You are therefore required to send in your Stores Books closed and Balanced immediately; otherwise the Business in the Accomptants Office will stand still, and the said Factory Books must be kept Open \& Unballanced on Âccount of your Backwardness in the Stores Office.

Whereas I John Frazier did upon the $1^{\text {st }}$. of Septr. 1745 Agree and Contract with the Chief and Council of Tellicherry to hold the Farm of a Public Tavern in this Place and did engage to pay for my License so to do, Seven hundred and fifty five Rupees : ${ }^{\boldsymbol{\sim}}$. Annum which License was to be in force for One Year, and that time béing now almost expired; I hereby humbly show that the Chief Motives, which induced me to bid so much above what had been ever paid for the said Tavern: were the Expectation of our Men of War and Companys Ships from Europe calling here in their way to Bombay, which Views did likewise prevail upon me to buy in a larger Quantity of Liquors of sorts, Houshold Furniture and other Necessaries fit for the Entertainment of Gentlemen to the Amount of a Considerable Value; But upon Balancing my Books I find that being frustrate in these my Expectations, the Stock of Liquors and Furniture I have upon my hands, debts Outstanding $\& c^{\text {a }}$. Refused him.

Recerved a Letter from Badencalancore wherein he says that as the Chief had wrote him he should accommodate matters with the Prince of Cherrica, he came to a resolution to hearken to his advice. And in Order that he may consider further of the Affaire, it will, he says, be necessary that he and the Chief meet together after the Feast of Ona; or that the Linguist be sent to Maddacarry to tell him our Opinion according to which he will be governed. He adds that on the $17^{\text {th. }}$. of September he has an Anniversary Feast, and .therefore desires we will send him a Candy of Sugar. He also requests something for his Feast of Ona, and says everything else he has told Changara Naranna Putterah.

The Cherf Answered the foregoing Letter from Baden Calancore and told him that as the Hoñble Companys Expences at this Place are very large and that they are unwilling to encrease them he cannot comply with his Highnesse's Request. That he had no occasion to take the trouble of coming here, but that if it was needfull a person would be sent to talk with his Highness concerning his Affairs.

Our two
Mucquas
released.
Letter from
the Datah of
Cochin. of August N.S. They enclose us a Letter which they had just then received fron Cochin, whereby they say we shall see what Orders their Superiours had given in respect to the two Mucquas, whom therefore they had released and sent to us.

Trr Letter from the Commodore and Council of Cochin as abovementioned is dated the 19 th. of August new Stile, wrote in Dutch with a translation in Portuguez, and is in substance thus. They say that by a Letter reced from the Head of the Junr. Merchants Godfridus Weymernam and his Council at Cannanore, they are sorry to see new differences arise between us, which by Letters which have passed on both sides with the declaration of the two Mucquas in Cannanore (of all which Copies have been transmitted them) they say it plainly appears that we with our Linguist Pedro Rodriguez, not being contented to detain their deserters in our Service (for which they by their Letter of the 2 $\mathrm{S}^{\text {th }}$. March last N.S. expressly protested against us in the name of their Oriental Company) have now sent People to their limits of Cannanore, to take away the Vassals of their Company, who retired for protection against the inhuman Moors under their Guns and Colours. The said Weyerman [sic] and Council their Letters of the $2^{\text {nd }}$. \& $5^{\text {th }}$. Instant N.S. and the declaration of the Mucquas clearly show the truth of their Complaint, but we are

## _ AUGUST 1746

pleased they say to declare, that the fugitive Mucquas of Agar their Vassals are our Subjects; and not satisfied with this, we also charge their Servants as Culpable and say the Mucquas were induced to make that declaration through fear and in hopes of getting their liberty when there was no foundation for any such fear. But let that be as it will, they to preserve the Friendship that subsists between our respective Nations have for this One time been pleased to Order their Servants at Cannanore to release the two detained Mucquas our Vassals and Fishermen, but we must not, say they take it ill if on the like occasion in future they chastize any one that may come to seduce their Vassals.

It is said Alley Rajah and the Moors have again disagreed, and that they have jointly wrote to a Sciad of considerable note in Burgra to come and accommodate Affairs and settle their Government; and that both sides consent to abide by his determination.

The Chief wrote to the Captain and Council of Cannanore Godfridus Weyer-

Ultimo and observed what he said in respect to the two Articles of his Cash Account from whence we were sorry to find his Accounts had hitherto been kept in a fictitious manner which not only deprived us of a True and clear View of his Transactions, but likewise hindered us from settling and adjusting his former Accounts on the Factory Books. We directed him in Order to prevent the like in future to set down every Negotiation just as it is transacted, or at least to bring everything to Account within the Mowh when we shall be able to see the State of his real Cash which now we cannot do we approved of his building a Banksaul at Molancaddo but reminded him that he ought to have acquainted us how much it was likely to cost. We enclosed him a List of things wanting for this Place which he was Ordered to send up with all expedition particularly the Bamboos, Basketts Charcoal, Gamels, [sic] Jarrs, Soops, Pillows and Timber. That he must in future observe to insert at the foot of his Invoices of Goods and Stores the several days that their Amount was paid for out of his Cash, That we waited for the General Accot. for the Year. Ordered him to take care that Poratey Paqui sends us a Quantity of Billetwood with all Expedition and to advise us the present price of Cotton. That we received his letter of the $12^{\text {th }}$. Instant with the Eight Toneys of Timber \&cca. last Night and now send him two Goa and two Europe Casks to be filled with part of the Arrack we Ordered him to provide.

Received a Letter from the Boyanore of Baddagaree wherein he says that Narramgaporatu Comapra Nair had always a great dependance on the English Company, but upon some differences he left Tellicherry and come to him; that he liad wrote several times to the Chief but never got a good Answer And as the Old Naramgaporatu Nair is Dead Comapa Nair should be at the head of that Family and have what belongs to it; which can only be done he says, by his Highness and the Chief. He therefore hopes the Chief will permit of his coming to Tellicherry, and desires to be informed for certain of his intentions in this Affair.

Received also a letter from the Young Prince now in Boyanores Country, wherein he says, that when he was going to Caddatuenaddu he told Changara Putterah to speak to the Chief about Narramgaporatu Comapa Nair, which he supposes he did. The late Chief Mr. Geekie, his brother and all of them, he says, came to a resolution, not to permit that Nair to come into the Country, on Account of the Mischiefs he had done; upon which he went to Boyanore at Caddatuenaddn \& troubled him; and Boyanore has also been solicited by some others. And now he has notice that Boyanore has wrote to the Chief in favour of the said Nair; but let who will write about him, he desires the Chief will take no Notice of it, for if
_ AUGUST 1746 -
he does, it will, he says, be a prejudice both to the Company and the Pallace of Pallia, and for this reason the Chief should not in any manner admit of his coming; nor he surprized at his writing about him, as he supposes the Chief is not well acquainted with that bad mans Character.

Motion of
Tae above Letter was brought to the Chief by the Princes CustomMaster Changara Patterah with a Verbal Message desing know what the Prince had wrote to him concerning Comapa Nair.

The Caief answered Boyanores Letter received Yesterday and told him that he had been informed Comapa Nair was a bad Man, and had committed many disorders here in former times; He could not therefore come to a determination to permit him to come hither, till he had informed himself further concerning the truth of everything laid to his Charge.

The Chef likemise answered the Young Princes Letter on the same Subject, and told him that he observed his Highness had a bad opinion of Narrangaporattu Comapa Nair, and seemed to think him a person ill disposed, which the Chief had before heard, and therefore he denied him permission to come hither, but as he is well inclined to oblige the Boyanore in a reasonable way, he had at present only wrote him, that he must enquire further before he came to a determination in the matter. And as Changara Pattara desired him not to mention your writing to him he has said nothing to the Boyanore about it. But if he should write again to the Chief upon this Subject, he will then be obliged either to acquaint him with your Highness Letter, or show an inclination to comply with his request.

Br a Letter from the Officers of the Caliquiloners sent to the Assistance of the Young Prince the Chief is informed, that the Canarees are in Mottalye; And that they every four days come to the River Cauvai. Our People arrived, they say, at Aucañiao or Ramatilly, in three days and the Princes Rajadore gare them their Rice \& Charges, and has put them to guard three Bastions with an Officer in each.

## at a Consultation

## Present

The Worshipflll Grorge Dcdlet Esq. Chief. William Jeinsox. William West.

Aleyr. Docglas. Nicholas Stonestreet \& John Robisson rilfully Absent. Read and Approved our two last Consultations.
Read also a Letter from MIr. John Robinson (as entered hereafter) wherein he says that his Character has been Falsely and maliciously represented by the Chief in the Consultations of the $31^{\text {st }}$. of July and $4^{\text {th }}$. Instant and that he applied to Messst. Jeynson and West to give their Opinion in regard to One particular accusation Namely, Defect of Duty to his Hoñble Masters, \& that on their saying he was not culpable therein he desired the Secretary might Jinute their Answers, which being refused, he was led to a determination not to attend Council any longer.

The Board remark that he complains in General terms of being falsely and maliciously represented without pointing out where such fallacy or Malice lays, or endeavouring to disprove what the Chief says of him. If he thinks his Character misrepresented, why does he not clear himself of the Neglects and Idlenesses laid

## AUGUST 1746

to his Charge? The Chief called upon him in Council to do it, but he chose to refer himself, as he said, to another Place. The Consultations Letter Books and Order Books \&c ${ }^{\text {ta }}$. are incontestable proofs against him, and what they make appear in this respect cannot be controverted. He must doubtless remember that no Consultations were sent to the Presidency from the $1^{\text {st }}$. of August 1744 till the $18^{\text {th }}$. of April last; that they were greatly backward when the late Chief departed for Europe; that there are in them several Blanks, and some material ones, unfilled up; that they are without Marginal Notes, Unindexed and Unexamined; how then can he clear himself of Idleness and defect of his duty? The Board also observe that he has told a very great Untruth in saying that he applied to Messrs. Jeynson and West for their Opinion concerning his Defect of Duty. After the Consultations relating to him were Read, he indeed seemed to think it hard that his faults should be laid open in that public manner, and expressed great dislike to it; Upon which Mr. Jeynson of his own accord, in a handsome manner, spoke in his behalf and said only that in the time of Mr. Geekie's Chiefship he had seen Mr. Robinson thô Secretary employed on Business which properly ought to have been done in the Accomptants Office and that therefore he hoped his Character would admit of being a little more favourably represented And Mr. West seeming likewise to desire it the Chief told them that he would see against next Council day how the same could be softned. But Mr. Robinson well knowing how little the Consultation would bear any alleviation to serve his purpose, insisted vehemently, that it should stand worded as it was then drawn out, and catched fast hold of what Mr. Jeynson said in his behalf, desiring the same might be minuted in the Diary; to which the Chief answered with all his heart; for that he did not doubt of proving every thing he had wrote concerning Mr. Robinson. But Mr. Jeynson himself not chusing to have his words Minuted, the Board Agreed to leave them out. This is a true description of what passed in Council on that occasion. Mr Robinson has also asserted another Untruth in his Letter when he says Mess ${ }^{\text {rs }}$. Jeynson and West declared he was not culpable, because neither of them spoke any such Words; his willingness to believe they had said so, led him perhaps to write this falshood. And the case of that Gent ${ }^{\mathrm{mn}}$. being thus truly and fairly stated, Our Superiours will determine, whether he had any real cause for quitting his Seat at the Council Table, any more than he had for laying down and refusing to act in his Secretarys Post, and whether his doing so, is not in Effect throwing himself out of the Hoñble Companys employ, \& a breach of his Covenants.

Read likewise a Letter from Mr. Stonestreet dated the $15^{\text {th }}$. Instant (as Entered at the foot of this Consultation) in which he continues very impudently \& insultingly to claim a Copy of the Chiefs Remarks on his Dissent, and abuses the Board for refusing it, as though Persons in Authority, had no Just right to deny him the use of their Masters Papers whenever they thought fit. The Gentleman himself doubtless thinks he has the Sole right to his own Papers, why then should not the Chief and Council claim the same right to the Companys Papers? No Law or Equity in the World gives a Mans Servant any right to demand his Masters Property, when his own is not invaded. The terms of his Covenants to the Hoñble Company are Obedience to the Orders of their Chief and Factors and how well he has complied with them in that particular his late behaviour has sufficiently Manifested. But leaving these Points to the decision of our Superiours, let us remark a little on the other parts of his Letter.

He says he is no way answerable for the difference between Prince Cunhi Homo's Book debt and the Amount of his Ola. A Strange declaration indeed, from a Man who was One of the Council and Accomptant, and Signed to the Diary of the $1^{\text {st }}$. of October 1744 when that Account is said to have been setled the $28^{\text {th }}$. of September preceeding, \& an Ola taken from the Prince for the Balance due to the Hoñble Company Fanams One hundred Eighty eight thousand Six hundred and twenty, fourteen Vis and a half (Fans ${ }^{\text {s }} 188620.14 \frac{1}{2}$ ) whereas upon reference being had to the said Ola, the same appears to have been given for no more than Fanams 'One hundred Eighty three thousand seven hundred and seventeen, \& Nine Vis

## —— AUGUST $1746 \ldots$

( $\mathrm{Fa}^{\text {s }}$. 183717. 9) so that there is a difference to the Hoñble Companys Prejudice of Fanams Four thousand nine hundred and three, five Vis and a half (4903. $5 \frac{1}{2}$ ) unaccounted for. His shufling and endeavouring to throw the blame upon Mr. Jeynson is mean and base, and does in no Respect excuse his omitting to compare his Books with the Ola and Diary, at the time of taking the said Ola and Signing the said Diary. But this like other things, mentioned in the Chiefs remarks on his dissent was likewise forgot and neglected. As to Mr. Jeynson, he only stood interpreter. The settling the Account was the proper business of the Accomptant. But admitting that Mr. Jeynson had actually adjusted the Account with the Linguist and the Princes Custom Master, which he dont remember that he did it is natural to suppose that he deld that Account so adjusted to the late Chief or to the Accomptant; \& if so what is become of it. And in case he omitted to deliver it, how came the Accomptant not to call upon him for it to adjust his Books with the said Account. These are Circumstances against Mr. Stonestreet which manifestly discover a great want of care and attention to the duty of his Office.

He is also pleased to say, that it is unreasonable in us to expect his Stores Books immediately; and pretends that there is great difficulty in adjusting with the Out Posts, nor will he tell us when they are like to be Ballanced; but says we may be assured of having them time enough to close and Copy the General Books so as to send them by the first fitting opportunity either to England or Bombay. These are such general answers as are in no wise satisfactory to the Board, nor can they conceive where all the difficulties lay which he complains of. They are rather apt to believe it is Idleness, or want of Regularity, Diligence and Application which keeps him so far backwards. The Stores and other Out Offices at Bombay have four times the Work that he has, and yet their Books are generally Balanced the latter end of August or the beginning of September and why Tellicherry Stores Books should require longer time no weighty reason can be assigned.

Read another Letter from Mr. Stonestreet Inclosing an Indent of Stores wanted at this and the Out Posts from Bombay, wheh is Ordered to be sent up thither on the Augusta. And as we are also in want of some other Articles which he says can be made here; he is directed to set about them immediately.

## Worshipfoll Sir \& Sirs

My Character having been very Falsely and Maliciously represented by the Chief in the Consultations of the 31 st. Ultimo and $4^{\text {th. }}$. Instant, as Read to the Board the $9^{\text {th }}$. and $15^{\text {th }}$ : I applied to Messrs. Jeynson and West as the most proper Judges to give their Opinion on One particular Accusation, Namely, my Defect of Duty to my Hoñble Masters, and on their replying I was not therein Culpable; I desired the Secretary might Minute their Answers in my Vindication which being
refused, has led me to a determination

Not to attend Council any longer under those Aspersions I now lay being confident if I am that Person the Chief represented me to be I should be unworthy a Seat at the Board, therefore Gentlemen untill such time as this Affair is cleared up I hope both you and my Superiours at Bombay will admit of this as a reasonable Plea for my absenting.

18tr. Avgest 1746.

I am with Respect<br>Wo. Sir \& Sirs<br>Your most Obedient Humble Servant, Join Robinson.

To the Worst. George Dudley Esq. ${ }^{\text {B }}$. Chief \&cta. Factors.
SIR \& SIRS
Your Letter of the 14 ${ }^{\text {th }}$. Instant signed by the Secretary he delivered me: to which I beg leave to reply.

When a Persons Character is injured in a Paper maliciously wrote by the Chief; for him to ask Copy of such Paper, in Order to justify himself; and to give his opinion that such Copy cannot in equity be denyed; will not, I believe, appear a Law Quirk to any other Council, or to any other Men than yourselves. But I am to be denied " because the Hoñble Companys Registered Papers are not to be carried " and copied out of the Office till you shall be licensed by our Superiours at Bombay " to permit it." When we all know the Hoñble Companys General Books are nov carried and Copied, not only out of the Office, but out of the Fort without such license; as were other Papers, with the knowledge and consent of you all, till verg lately. That I have a design in requiring a Copy of my Charge is very certain; but it is a warrantable design; no other than to clear myself from false accusations, before the Hoñble Company in England and before our Superiours at Bombay, what can be the design of those who refuse me, the best means, others may judge.

I hope you are mistaken when you say it is our Hoñble Masters Rules of Practise to refuse requests so reasonable as is that which I made; and believe, when they became acquainted, that long use makes such unfair denyals a Rule of Practise among their Servants here, they will ("for the management of their Affairs ') forbid such unjust Rules to take place in future.

With regard to the Stores I proposed (and what you approve) being provided; the necessary Orders are given for making them out of hand : besides which (over and above what we have in Store and what are lately Ordered) The Gunner and Captain Fisher who I am directed to consult, think it proper to supply ourselves with the several Articles agreeable to the enclosed List.

The difference between Prince Cunhi Homo's Book Debt, and the Ola taken for the discharge thereof in September 1744 I am (as then Accomptant) no way answerable for: Since all which was required from me was the State of the Account as it then stood on our Books; when MIr. Jeynson, with the Linguist (as I did not understand Portugueze) were Ordered by the late Chief to adjust the said Account with the Princes Officers of the Customs: and I dont remember any complaint since from Mr. Jeynson, that what I then delivered was wrong in any particular.

To send you the Stores Books balanced immediately is out of my power; and I believe all who know the trouble of that Office with the number of Out Posts to adjust with, and the difficulty of adjusting Accounts with each (made more difficult by our late troubles) will think the expectation unreasonable. All which I can say is that I am as desirous of their being delivered in soon, as any of you can be; and that no

care or pains shall be wanting on my part to have it so; but that, however you may be assured of having them time enough to close and Copy the General Books so as. to send them by the first fitting Opportunity either to England or Bombay.

Skirmish. with them.

Received advice from our Caliquilone Officers at Ramtilly that there had been a skirmish between the Canarees and Nairs in which about Twenty five Men on each side had been wounded and killed.
——AUGUST 1746 ——
Recerived a Letter dated the 19 th. Instant from the Callicut Linguist by a Pattara Thursday Pattamar. He acknowledges the receipt of Ours dated the $16^{\text {th }}$. and promises to $21^{\mathrm{sr}}$. use all possible diligence in sending up the necessaries, in such Quantities as he can procure them, but there are neither Bamboos or Timber yet come down for want of Water in the River, \& because the Merchants are afraid of the King who is in want of Timber to repair a Pagoda; and took away some which came in June spring Tides without having yet made them restitution. He is in hopes of getting the Bamboos in a few days as he is informed there is a parcel on the Road. Timber may be got in about fifteen days. Baskets, Soops \& Charcoal, there are none at present to be had as the People who make them are employed in cutting the Batty and will not begin on other work till September. Bisket none can be made for want of Wheat. but what is procurable he will take care to provide. The Banksaul is to be made of Bamboes and covered with Olaes and will cost about Fifty Rupees. He has spoke to Portei Paqui to send One hundred thousand Sticks of Wood in all haste, \& he promises Twenty five or Thirty thousand in two days, and before the $10^{\text {th }}$. of Sepr. he will compleat the Number, but in case he delays, the Lingst. himself will send them. He does not understand the method we, would have him keep his Accounts, but so soonlas. $\mathrm{Mr}^{\mathrm{r}}$. West arrives he judges he can put him in the right way so must wait till then. He sends his Yearly Account the Balance of which is Rupees Sixteen thousand six hundred thirty two, One Quarter fifty One Reas (Rs. 16632. 1. 51) to wit, Rupees Twelve thousand One hundred sixty four, One Quarter fifty seven Reas ( $\mathrm{R}^{\mathrm{s}} .12164 .1 .57$ ) in Goods (as particularized in a Paper apart, and is agreeable to what has been carried to his, new Account the $1^{\text {st }}$. of August) and in Money Rupees Four thousand'four hundred sixty seven, three Quarters Ninety four Reas (Rs. 4467.3. 94) In the Month of December 1743 he provided, he, says, some Timber of which there now remains Ten Joices and Twenty seven Plank belonging to the Hoñble Company, and was brought to Account in that Year, that under the 3 1st. of July he has credited the Hoñble Company Rupees Five hundred seventy threé,' One Quarter sixty four Reas (Rs. 573.1 .64 ) which by estimation is their Value and as the Joices are heavy none of the Vessels would carry them to Bombay, so they remained there, as well as six Teak Beams of the same sort provided in 1742 making in all Sixteen, and as they are old and have some Cracks or Rents in them, he desires to know whether we will have them sawed into any other form; or whether we want them for the use of this Place that they may not be more spoiled by laying by useless. The 15 th. Inst, he contracted for Plank and Rafters for Gombroon, and Plank for Bombay at the price of twenty One Rupees. \%\% One hundred Covits and he has advanced One thousand Rupees on that Account; the Goods to be delivered in December. He says the Market is not opened for Surat Cotton; The Merchants offer only Seventy Rupees to be delivered in Callicut free of all. Charges, Customs and landing to be paid by the importer which will be four Rupees the Candy, so that the Nett produce is no more than Sixty six Rupees the Candy, and even at that price the Merchants must have three Months Credit; or they will deliver Mallabar Goods in Exchange according to the Market Price.: There are no buyers for ready Money. He Judges the price will be lower at the opening of the Season, as the Merchants have Notice that a quantity is coming. The Bales must be of Surat Package and not packed in Bombay as Cutch Cotton generally is. He acknowledges the receipt of four Casks of which two are Europe \& two Goa Casks; these he will take care and send filled with Arrack.

## Sailed the Augusta Captain Gaylard Roberts for Bombay.

The Young Prince came again to the Fort and solicited strongly for a further supply of our People. He said Boyanore and the Nombiers had promised to assist him with some of their Men so soon as they saw what Number he got from the Hoñble Company; but the Chief excused himself in as civil a manner as he could telling him as before that we must not unguard our own Forts and Places while the French Fleet continued in India; and after a great deal of discourse on this Topick,'" which he seemed not well to relish, he took his leave telling the Chief that he had eat nothing that Morning, and that he would call upon him once more before he went away to

Inported at Mahie Three large French Ships One is a Man of War carrying Serenty two Guns, the other two seem to be like their Companys Europe Ships, fitted out with some Guns on their lower Decks as well as the upper Ones. They appeared to our Boatmen to hare the usual Compliment of People for Ships of War; When they left France or where they hare since been, we cannot learn; but they came in hither from the Northrard.

Ir is said the French Ships aborementioned are going to Pondicherry, \& that there rere three or four more came from Europe in Company with them, That they parted near the line, but where they are gone we can get no Intelligence.

The Chief dispatched a Pattamar to Madrass Express with adrices to Governour Morse of the arriral of the prementioned Ships and told him that they were designed for Pondicherry.

The said Ships lay at Anchor Lut a very little way to the Southward of this Road. And it is reported that the present Chief of Mahie Monsr. De Leyrit is Ordered Chief of Charnagur in Bengall but does not go thither till another Opportunity; and that Monsr. Louett is to succeed him at Wahie. This last Gentleman has the Character of a very troublesome and onquiet person; haring in the time of Mr. Laws Chiefship greatly fomented the differences between the two settlements when we were at War with the Canarees.

The Young Prince came a third time to the Fort desiring more Men, without which he said he shonld be in danger at least of all the Batty or Selly to the Northward; and finding that the Chief could not be prevailed upon to spare him any more People, he then asked for One thousand Bales of Rice, One hundred Musketts Tro Candies of Gonporder, and two Candies of Lead which he promised to pay for in a little time. The Chief represented to him the unreasonableness also of this request, and in short told him in ferr words; that we had onlr enough of those things for our own Garrison use, and could not let him hare any; But he being greatly displeased and the Chief not caring to send him amay angry lest me should hare occasion for his Friendship sooner than we expect; and we haring in store a good quantity of Gunporder and Lead; the Chief gare him his word that he should be supplied with two Candies of Powder and One Candr of Lead; but that he would as soon give him his right hand as spare him a single Muiset or a Bale of Rice at this Juncture. And though the answer was not to his wish, ret he seemed far from being displeased at it being perhaps conrinced of the necessity we were under to secure ourselses prior to all other considerations. He then took his leare \& we presented him as nsual with Sisty Fanams, and gare eight Fanams to his Rajadores. He mas also saluted every time he came to the Fort with Eleren Guns at his entrance \& the same Jumber at his Departure.

The Caiter has sent Adrices to Goa, Mangulore, Ramtilly, Moddecarry \& Cannanore of the arrival of the French Ships at Mahie, $\&$ lodged a Letter at every one of those Places to be delirered to the SuperCargoes, Commanders or Masters of all English Ships that may arrive at any of those Ports adrertizing them to keep clear of the danger till they should be informed of the French Ships being sailed for the other Coast.

A small Ketch passed by for Quilandy. She came from Nocha and had been serenteen days in her passage mithout seeing any other Tessel. Thes left in Yocha Poad, Two English and one French Ship, but dont know their Names or meere they belong to. The French Man of War sent out Fis Longboat well Manned and Armed and brought her under his Stern, but soon after let her go. She belongs to the Siad to $\pi \mathrm{hom}$ the Cannanore Moors hare referred the decision of their difierences with Alley Rajah A Toney from hence got first on board her.

## Mess ${ }^{\text {bs }}$. Stonestreet \& Robinson Wilfully Absent.

Read \& Approved our Diary and Consultations from the $14^{\text {th }}$. to the $20^{\text {th }}$. Instant Inclusive.

Mr. Jeynson being sick the Consultation of the 19th. Instant relating to his Speech concerning Mr. John Robinson was sent to him which he approves, as being agreeable to his own Words, spoke that day in Council and further adds that he never intended to say $M$ r. Robinson was not Culpable.

The Chief lays before the Board a Paper pointing out about Forty Blank Places unfilled up in the Letter Books \& Consultations that have been copied out since Mr. John Robinson has had the charge of the Secrys Office besides several Errors and Omissions. And as there are doubtless some others, which may have escaped his Notice, he proposes to communicate them to the Board as they may hereafter come to his knowledge in the Course of his examination, at his leisure hours.

Read a Report from the Collector of the Rents \& Revenues of Durmapatam, Mr. John Robinson (as Entered hereafter) in which he encloses An Account of a Valuation made on the Verge Land of Durmapatam by some Veriadores, agreeable to an Order of Council the $31^{\text {st }}$. of July last whereby the Renters of such Varges as belong to the Hoñble Company are allotted to pay Forty thousand five hundred and ten Dungoys of Neally (Dungoys 40510) who before paid only Twenty eight thousand five hundred thirty seven Dungoys (Dungoys 28537) so that there will be an additional Rent to the Hoñble Company of Eleven thousand Nine hundred seventy three Dungoys (Dungoys 11973). The other parts of his Reports relating to the Verges of the Pagodas, lending Nelly to the Renters, \& building Warehouses is referred for further Consideration to another Opportunity.

The Young Prince having requested we would sell him Two Candies of Gunpowder and one Candy of Lead, as noted in this Diary the $26^{\text {th }}$. Instant, and he promising to pay for the same, the Board agree to let him bave those Articles, and to endeavour to get from him their Amount as soon as possible.

The Chief observes to the Board that one Cause of the Storekeepers delay in Ballancing his Books is owing to the method now practised of not bringing to Account the Stores issued to \& received from this Garrison, \& the Out-Forts for the whole Year till the $31^{\text {st. }}$. of July, when twelve Months Accounts are all lumped together; by which means he is a long time adjusting and settling the said Accounts from the great number of Articles that compose them. In Order therefore to remydy this Evil, and to enable the Storekeeper to Balance his Books hereafter with proper dispatch, it is agreed that he be directed Monthly to draw out and enter in his Journal An Account of all Stores issued from, and received into, his Office: expressing the value of them in Money, as well as the number, weight, and quantitys thereof; and that he be obliged to deliver the said Account into Council every three Months, to be there passed, and afterwards given to the Accomptant, for comparing and entering the same in the Factory Books, as is practised at the Presidency. Agredd also, that the Storekeeper be Ordered in future to keep a head of every Out Fort on his Books, and that they be severally Debted and Credited for the Stores delivered to, and received from them every Month. This will render his Books and Accounts (which he terms difficult) less intricate and more regular, and at the close of his said Books he will have only one Months Accot. to adjust with this Garrison \& the Out-Forts; and consequently the Excuse which he now makes for his backwardness (as mentioned in his Letter entered after Consultation the 19 Instant) be quite taken away and rendered of no force.

## Orders in Rogard to the Accompt \& Sec̃ry.

Tre Secretary and Accomptant are directed to lay before the Board next Council day in writing an Account how far the Business of their respective Offices is brought up that the necessary Orders may be issued thereupon. The Secrey is likewise directed to bring in at the same time the Storekeepers Books for inspection.

At ábout 2 p.m. an Express Boat arrived from Bombay and brought a Letter from the Presidency dated the $21^{\text {st }}$. instant, Extract whereof is as follows Vizt.

They acknowledge the receipt of our several Letters to them of the $1^{\text {st }}$. and 10 th. of June last; They approve of our refusing the Samorine the Musketts he requested us to spare him, but say it will not be impolitick when we receive a further supply which they will send us when they can be spared to let him have some, lest

Presidency. our Refusal should make him have recourse to the French, who on such an occasion would ássume a merit in doing it and the Chiefs declining to pay a Visit to the Samorine at Callicut was right as it would have been attended with an unnecessary Expence. That as the Achamars debt is large we shall do well to press them for the Interest as likewise for' part of the Principal. The reducing the price of Pepper they say is very pleasing to them, and doubt not of our endeavours to bring it still lower and that the best way to effect it is by degrees: Our adjusting with the Pepper Merchants at the end of December they approve and admit it to be the properest time but as the Hoñble Companys. Orders ${ }^{\circ} \mathrm{F}$ Walpole are to make up their Accounts upon balancing the Books of their respective Factory's Complyance is likewise due to them. That with regard to the Pepper Merchants trading with the Money advanced them for Pepper, it is what our Predecessours could never effectually prevent, therefore provided we use the utmost caution against it is all that can be expected from us. The Tranquility of the Country after the Death of Prince Cunhi Homo gives them hopes that the Settlement of the Government of Cannanore will ensue, if so, the Soldiers they sent hither on that occasion we may return unless any other service shall require them but we must pay that part of the Walpoles detachment now with us half their pay during their continuance here, and the other half will be paid to their Familys there. By the first proper Conveyance they will comply with our Indents for Stores and Medicines as near as they can spare, and approve of our Indenting to Bengal for Gunin Bags. As the expence was small they approve of our Converting the old Treasury into a Rice Warehouse and fitting up another place for a.Treasury; they have received of the Owners of the Elizabeth Rupees twenty three and a half for our maintaining here Mr. Samburgh her Second Mate. They permit us to allow Mr. Severac our Surgeons Mate twenty four Rupees ${ }^{\text {op }}$ Month. They doubt not our endeavours to recover of Cacart Tupy and Ballipy Cutiassem their Debts. They will send us a Chest of Fifths and Quarters of Rupees when they can be coined. They know of no just Pretensions the Kings of Cotiote have to the Island of Dürmapatam. It was not determined when the Pelham should leave that Port but say our Pepper must be kept in readiness to ship on board whatever Conveyance they may order to take it in. Inclose a Packet to be immediately forwarded to Anjengo either by the Express' Boat or a Toney and to return the Boat to them when advices of Consequence offer. direct that Mr. Hunt return thither on the first proper Conveyance.

Dispatched a Toney to Anjengo with the Packet reced yesterday for the Chief and Factors there, from the Hoñble the President and Council of Bombay; and advised them that we proposed to return the Express Boat in five or six days. That the Augusta Captain Roberts having lost her Passage to Bombay arrived here the $18^{\text {th }}$. Instant and after having staid here only five days sailed again for her consigned Port. That two days after the Augusta sailed three large French Ships arrived at Mahie one of them a Man of War carrying Seventy Guns and five hundred Europeans and the other two Companys Ships fitted out and Manned for War having each about two hundred Europeans. That we judged they came lately from France, but are no part of the Squadron which Monsieur La Bourdanay brought with him from Mauritius. That they intend to sail as tomorrow for Pondicherry, and that there were four others came with these from Mauritius of whom we have had as yet no advice, only it is reported that they will be soon at Mahie. That we had duly advised the Gentlemen at Madrass of the arrival of these Ships.

Sailed from Mahie the Three French Ships which arrived the $25^{\text {th }}$. Instant We Freach hear they are designed to take in some Coir and Timber at Callicut, and then proceed for Pondicherry.

## Canares <br> attack <br> Ockoos

Received a Letter from the three Officers and the Writer of our Calequilone Seepoys who are now in Ramilly Fort. They say the People of Alleddatunaddu in conjunction with the Canarees surrounded the House of Cuppadem Cannem and have been three days against it. They have had several Skirmishes in that time by which some People were wounded and killed on both sides. The Canarees have wrote to the Princes Officers in Ramtilly Fort and told them, that if the Prince of Cherrica does not give Prince Omar or Ockoo, any assistance they will take the said house. On receipt of this Ola the Princes Officers with two hundred Men went to a Place called Anur, and after their Arrival being about four in the Afternoon came the People belonging to Prince Omar \& the Second King of Neleasaran, whom the Prince of Cherricas Officer would not let pass, upon which a Skirmish ensued, when Prince Omar had One Man killed and two wounded They add that the Officer of that Fort told them that he wanted to go and gather some Rents, \& that it was necessary a Mupa or Officer \& ten of our Men should go with him, and desire Orders how to act in that particular. One of their Sick Officers they send to Tellicherry.

To the foregoing Letter the Chief wrote an Answer and told our Caliquilone Officers, that they were to adhere to the Orders already given them of keeping in and defending Ramtilly Fort; and that they were not to go out of it on any Account untill they had directions from hence.

Mucarra Nair who lives under the Hoñble Compys. Protection near Andola Mella Hill, having complained to the Chief against Coylatu Pudia Bitel Mambier [sir] that he had about Nine days ago laid an Attachment on the Oart of one of his Nairs Named Curumgodden Congu [sic] who lives in our district near the said Mucarra Nair; and that Yesterday the said Coylatu Pudia Bitel Nambiar sent some People and destroyed the Fruit of the said Oart, The Chief wrote the Nombiar an Ola about it, and told him that as he must be well acquainted of Mucarra Nairs district being under the Hoñble Companys Protection, he could not well believe he would behave towards us in so unhandsome a manner, but that if the same was true, the Chief desired to know his reasons for such unfriendly treatment.

Tre abovementioned Ola being directed to him as a Nombiar, without some higher title which he assumes; he sent it to his Heir, who answered it in an Ola to our Linguist desiring him to acquaint the Chief with its Contents, which says; that Currumgoddem Cunga's Oart has always paid him a Tribute or Tax, and as the said Tribute has been refused him, he laid on the Attachment; which being taken off without his Consent, he had sent and brought away the Fruit from the Trees.

Read, Approved, \& Signed Advices to the Presidency designed by the Pattamar Boat, and Ordered the Packet to be made up and closed.

We are told by the President and Council of Bombay in their Commands of the $21^{\text {st }}$. Ultimo received by the abovementioned Pattamar Boat, that we must pay that part of the Walpoles detachment now with us half their Wages for the time they may continue here, and that the other half will be made good to their Families at Bombay; whence we conclude that they imagined some or all of those people were Married Men. And as upon enquiry we find none of them have either Wife or Child at the Presidency It is Agreed to continue paying them their full Wages till we receive Orders to the contrary. Agreed likewise that we pay them the two Months Wages due at Bombay for October and November last as they are very importunate for it and were promised the same on receiving an Answer to what we wrote concerning it to the Presidency under the $10^{\text {th }}$. of June.

Read a Letter from the Accomptant as entered hereafter in which he reports how far the business of his Office is brought up, conformable to the Order of Council the $28^{\text {th }}$. Ultimo: And as Mr. Hunt appears to be very far backward, the Secrs. is directed to send him an Order to get the share of business allotted to him brought up, before a Conveyance Offers for carrying him to Bombay.

Tae Storekeepers Books brought up to the $31^{\text {st }}$. of July, being called for, are laid before the Board for Inspection and Ordrred to be returned to him to be Balanced and closed for the Year after his Receipts and Issues are Entered, and the several Heads adjusted in a proper manner.

## Last Night at about 11 p.m. the Express Boat sailed for Bombay.

The Young Prince wrote the Chief that he was going to the Northward \& would inform him of what may happen there and in case he should want anything, he hopes the Company will assist him. He adds, that Ambu Ambey must be sent to him, as he had given him the Royal Grant to be Writer to the Pagoda of Tiriamgattu. To this the Chief sent only a Verbal Answer by Ambo Ambey that it was very well.

## Friday <br> $5^{\text {8. }}$

Received a Letter from the Young Prince wherein he says that Yesterday the Satordáy people of the Country had a Skirmish with Prince Omars Men, of whom two were killed since which he has advice that Prince Omar is fortifying a Place called Putur. He is going to the Northward the $7^{\text {th }}$. Instant. The Chief at first sent him Forty men, and he now desires sixty more, as the French Ships are sailed, and of course they cannot be wanted at Tellicherry. He promises in case anything should happen that he will immediately on Notice of it return all our People, and therefore hopes the Chief will not refuse him the sixty Men that he now requests. He adds that the Chief must not take amiss his troubling him so often, at a time when he knows the necessity we are in ourselves but his occasions are so pressing that he is obliged to do it, and he hopes the Chief will not think he has any other design in writing to him than what he has already mentioned. And in conclusion desires the Men may accompany the Bearer of his Letter.

In Answer to the foregoing Letter the Chief wrote the Young Prince the same day, that he had been informed his Highness took part with the Canarees who attacked Prince Omar; otherwise this Prince had not molested his Highness. That the three French Ships which lately sailed hence were too inconsiderable a Number to do us any hurt Those against whom we are guarding ourselves, are coming from the other Coast with a Great Number of Men on board them, and are a large Force; It therefore behoves us to keep all our People in the several Forts belonging to the Hoñble Company till the French Ships are gone, or dispersed.

A Three Masted Grab passed by to the Scuthward at a considerable distance Sonday from the Shore.

Ter Toney which carried our Letters to Cochin and Anjengo the 12th. Ulto. A Grab returned this Afternoon and brought a Letter from the Chief \& Council of Anjengo dated the $18^{\text {th. }}$. of last Month wherein they acknowledge the receipt of our Letter to them dated the said $12^{\text {th }}$. day of August and advise that they had been acquainted from Madrass, of the Engagem ${ }^{t}$. between his Majestys Squadron and that under the Command of Monsieur La Bourdanay. Several of their Fleet were only Country Ships fitted out purely to relieve Pondicherry they believe those Ships must be returned to their proper Owners which in such case will greatly weaken that Squadron. They imagine that the French intend a Settlement at Coletchy if their Fleet can come round Ceylone, as the King of Travancore, is, they are afraid, but too ready to receive them, they are sorry to hear of the loss of the Lorrain, and more so as the Captain gave her up so Tamely. They are pleased to hear of our being at Peace with the Mallabar Princes and hope we shall soon accommodate matters with the Moors. Their Crop of Pepper to the Southward is likely to turn out but indifferently.

Tee Commodore of Cochin told our Mucquas Verbally, that they had wrote by verbal Land to Cannanore, concerning the Release of the two Agar Muckas and that their Answer from Letter to us would be sent hither from Cannanore by the Captain of their Fort which Cochin. was he said, Answer sufficient to our Letter to Him and his Council.

He very readily agrees to discharge the Principal Sum, either is Money or Pepper, but excuses himself from paying any interest, or Mulct; as bein: ignorant till now that he owed the Hoñble Company any thing, having never beei called upon for it. The Chief asked him whether his own Books would not remin him and make the Debt appear, He replyed that his.Books were burnt by an Acci dent in his House, but that he had no Objection to our Account. Being likewis asked whether any Ola had ever been demanded of him for the debt, he says hr does not remember his being ever required to give an Ola for it.

8 TH. Consultation the 29th. of May, which is entered after Cons the $17^{\text {th }}$. of July, And the Chiefs Remarks on that Dissent, Entered after Consultation the $31^{\text {st }}$. July are confirmed by what the Man himself has now declared.

Read a Petition from the Tivees of this place (as entered hereafter) setting forth that they have served the Hoñble Compy. for a long time on several occasions at fixed low Wages; to wit, Ground Work six Tars and Stone Work Nine Tars $\hat{\psi}$ Day, when the Bricklayers have more than One Fanam $\tilde{\mathfrak{F}}$ Day. That in all the Wars of this Country they carried Arms equal with the Soldiers and Nairs, receiring Wounds and risking their lives for nothing more than their bare pay, and that only while they were upon Service, whereas the Soldiers and Nairs have constant Monthly Wages whether in time of Peace or War. That while they are abroad their Coconut Trees go to ruin, and as the Companys pay is insufficient to support their Familys they were always permitted to sell Toddy and the distilled Arrack of this Place and the Country adjacent. That this Custom is observed throughout all the Colastree Dominions That last Year after the late Chief Mr. Geekie had let out the Arrack to Farm, and made a Publication to hinder them from selling any; they Verbally made application to him and his Answer [was], that they ought to have applied before a Lease was granted, That [so] they must wait a Year, at the expiration of which time their case would be considered. And as the said Year is now elapsed, they apply to us, and hope we will consider their Services and their Necessities and grant them liberty to sell this Country distilled Arrack as usual.

Taking the said Petition into Consideration It is Agreed for the Reasons therein assigned that the Tivees be indulged with Liberty to sell the Arrack that is distilled in this Place and the Adjacent Country so as nevertheless not to hinder the Arrack Renters from selling likewise the same sort of Arrack.

## - SEPTEMBER 1746 ——

Considering also of the Letter delivered to us by the Present Farmers, as Present entered after Consultation the $14^{\text {th }}$. of August wherein he requests to hold the said Farm One Year longer on the same terms and Conditions he had it last Year, It is observed that by the third Article of the Agreement, he is not only allowed to sell Liquor to the Garrison Soldiers but also to stop their Wages Monthly for payment of the Money, which being directly contrary to Our Hoñble Masters Orders in respect to the Soldiers and Seamen at Bombay It is Resolved that no Stoppages shall be made hereafter for the succeeding Arrack Renters.

And as the present Farmers Lease did expire the 1st. Instant, the Secretary is directed to give Publick Notice, that the Arrack Rent and Sale of Spirituous Liquors by retail for the Year ensuing will be put up to Outcry in the Fort on Monday the $15^{\text {th. }}$. Instant. He is likewise Ordered to affix at the Fort and Limit Gates the Terms \& Conditions of the said Sale for Notice to the Bidders. Copy of which follows this Consultation.

The last Year after Mr . Geekie had let out the Arrack and made a Publication to hinder us from selling any. the House of Cupaddem Canna will be taken by the Canarees, as they fire upon it with great Guns; and that Prince Omar or Ockoos Brother has erected a Fortification at Putur on which he nas mounted Great Guns. Ramtilly Fort, they say, was well guarded till the 28th. of August since when his Highness has sent for two or three Rajadores with their People to Cherrica, and now it is but ill manned. His Highness has likewise sent for the head Officer to Maddye.

Received a Letter from the Callicut Linguist dated the $7^{\text {tin. }}$. Instant wherein he advises that he had sent two Bundles containing Twenty Reams of Country Cartridge Paper, which cost three Rupees of Ream that he is able to procure only ten Reams more, for which they ask Four Rupees ${ }^{\circ}$ of Ream, and desires to know whether he shall buy it. He is in want of One Maund of Nails for the Cardamom Chests, \& requests they may be sent to him by the first Opportunity, Portey Porqui he says has as yet sent but a small Quantity of Wood, notwithstanding he has often spoke to him; he therefore now sends by this Munchua Thirty thousand Billets. Three Bags containing Six Maunds of Quinter, \& one Bag containing three Maunds of Garlick which with the Cartridge Paper Amount in the whole, Charges included to Rupees One hundred fifty four. He likewise sends the Monthly Disbursments and Cash Account for August.

## SEPTEMBER 1746

Answered the above Letter from the Callicut Linguist and told him that we had received his Disbursments and Cash Aiccount for the Month of August, together with the Paper, Quenter, Garlick, \& Billet Wood which he had loaded on the Munchua. He is Ordered to buy no more Paper as we have now enough especially as the price is rose to Four Rupees the Ream. We tell him the Bamboos he sent us lately were some of them Three, Four \& five Foot shorter than what he usually sent us in former Years and therefore unfit for our use. And as he was not Ordered to buy any of that sort on the Companys Account, he must take them to himself and dispose of the same how he can. He is told that the Munchua was detained five days at Pudiapa by which means the charge of Provisions for the People is greater than necessary, \& that he ought not to have sent the Munchua there till the Wood was ready for Embarking. That we formerly directed him to reduce his Charges and Expences as much as possible, and by all reasonable ways and means; and we now again repeat our Orders, \& do expect he will comply punctually with them, and not give us occasion in every Letter to complain of his Management. We write him to send us up a Callicut Soop for measuring the Charcoal \&cta. since he says it differs from this at Tellicherry The three hundred long Bamboos he has ready we direct him to send up with all expedition as we are in want of them for the Rock Battery, We likewise tell him to send Seventy thousand Billets of Wood more. We enclose him an Account of Stores remaining at Callicut the $31^{\text {st }}$. of July last; as also an Accot. of the real \& true Balance of Cash in his hands (his own Cash Account being Erronious) the Amount of the former and Balance of the latter he is to place to the Hoñble Companys Credit the $1^{\text {st }}$. of August. We note to him a difference between his Account of Remains and our Books of twelve Pieces of Plank, or Joices provided in the Year 1743 and desire to know how it arises. He is told that the Sum of Five thousand Rupees advanced to provide Plank for Madrass has been made good here by the Chief who will likewise pay what Money more may be necessary on that Account, he is therefore not to charge the Company for"it. That when we Order any Wood, he is to send a Person to see it well stowed in the Munchua, by which means she will carry a much larger Quantity than she has usually brought. We require from him a particular Account of the Presents given at the Feasts of Ona \& Biou \& that he mention therein each mans name and the exact Sum allowed them respectively, He is also advised that we reced. no more than Twenty seven thousand Nine hundred \& Sixty Billets of Wood out of which Number Two thousand One hundred and sixty Billets are smaller than usual and that he is therefore to receive the deficiency from the Owner of the Boat. The Quinter and Garlick came out right.

The Toney dispatched by us the $30^{\text {th }}$. Ultimo with a Letter from the Presidency Saturday to the Chief and Factors of Anjengo returned this Afternoon and brought one from 13 至. them dated the $5^{\text {th }}$. Instant advising that by Letters they had received from the Letter from Hoñble President and Council of Bombay they were Ordered to apply to us, for Anjongo. what Money they might want to carry on the Investment of Cloth, therefore desire we will send them Twenty or Thirty thousand Rupees by the first safe Conveyance that offers. They add that the People of our Toney had been supplied with two Bales of Rice the Amount of which being Rupees Four, One Quarter thirty three Reas (Rs. 4. 1. 33) they should debt this Settlement for.

Recerved a Letter from the Young Prince wherein he says that Abdulla Cadre Tuesdar Porter, (who is one of the Hoñble Companys Calequilone Officers) being accused of $1 \mathbf{1 6}^{\mathrm{ra}}$. misbehaviour since his Arrival at Ramtilly, has occasioned him to be relieved; but an Ola from on enquiry he the Prince, does not find he has done any thing amiss. The Prince adds, that he arrived at Auconnia or Ramtilly the $12^{\text {th }}$. and promises to advise the Chief of whatever may happen.

The Chief hearing that the Achamars of Rhandoterra had permitted the Moors Letter to (who plundered and killed the Agar Muckas) to build Shops in Agar; particularly mars Naddocarem Paqui Mupa, Alliacadotu Erreva and Arracotu Pacurro Mupa, wrote them a Letter concerning it; and told them; that he was sorry to find they harboured such ill men in their Country, which shewed the little regard they had to its Tranquillity. That if they are desirous of keeping their Places in Peace and Quiet, and have an inclination to continue in the Hoñble Companys Esteem, they ought Shops in not to permit such Men to build Shops, but oblige them to quit the Country.

That the Collector for the time being do in future Collect the Rents of the Varge Lands belonging to the Hoñble Company on the Island of Durmapatam conformable to the Account given into the Board by Mr. John Robinson the $28^{\text {th }}$. Ultimo being the Valuation lately made of the same by the Vereadores. That the Varges belonging to the Pagodas of Meylure \& Andalure do also pay One fifth Part of their Produce, \& those appertaining to the Pagoda of Maplingatt Ten of Cent on their Produce according to the prementioned Valuation, which is conformable to an Agreement in October 1737 and confirmed the 31st. July 1741 as $\check{\%}$ Coñs of the latter date. Ordered likewise that the Collector be directed to sell the Hoñble Companys Neally immediately as it becomes due to them in the best manner he can, to be delivered from the grounds directly to the person or persons who buy it without ever taking the same into his care or Custody and as by this means there will be no occasion for a Warehouse, It is Agreed not to build one.
$\mathrm{On}_{\mathrm{N}}$ Examining into our Stock of Mangulore Rice we find there is now remaining in Warehouse Seven thousand five hundred seventy two Bales, which we Judge a sufficient Quantity for our Garrison use till the new Crop comes in, provided we meet with no impediment from the French Fleet expected on this Coast, but that our Boats are permitted to go and come Unmolested as usual. However since we cannot certainly depend upon them and as we may possibly be necessiated to increase our Garrison when the French Ships arrive at Mahie by enlisting a body of Nairs, who in such case must be supplied with Rice, \& as no very considerable loss will arise by selling any Overplus Rice, at the latter end of the Season, in case we should have more on hand than may be wanted IT IS AGREED, that we contract with Domingo Rodrigues for Two thousand One hundred Bales or Fifty Corge to be

 22ND.Answer to the Yoang Princes Ola.

Recerved likewise a Letter from the Calliquilone Offcers at Ramtilly, who say, that since their Arrival there they hope they have given satisfaction and done their duty. That after his Highness the Prince came to that Place, Cupaddem Conna and his People quitted their House, setting fire to that and about thirty Nairs Houses who went over to the Canarees and acted against them. The said Cuppadem Conna and his People are gone to Prince Omar, or Ockoos Brother, their Sovereign at Puture; which place he has fortified and strengthned with four Pieces of Cannon and about Three hundred Men.

Recerved from the Young Prince an Ola from Ananda Naranna \& Ambu Writer wherein he says those Persons will inform the Chief what has happened since his arrival at Auconnia, or Ramatilly; and what has passed between him and the Canarees, and after considering the same, he desires the Chief will give him his Opinion and Advice thereupon.

The Cuief Answered the Princes foregoing Ola and told his Fighness that he had talked over all Affairs with Ananda Naranna, and Ambu Writer and to them he referred for an Account of every thing. He added that the Linguist had not paid for the Gunpowder and Lead, and therefore desired his Highness would send the Money.

A Little before Sun Sett a considerable Number of Guns was fired from the French Forts at Mahie, but on what Account we could not learn.

Notice was brought to the Chief that a Pattarah was arrived at Mahie in twelve Wednesdays from Pondicherry with advice that the French had attacked Fort St. George by DAY Sea and Land and taken the City in three days. That the Place surrendered the $8^{\text {th }}$. Instant, but he could not learn any other particular Circumstances.

The French fired a great many Guns from all their Forts at Mahie and make much rejoicing for the success of their Arms.

A Letter from Francisco Dias at Callicut to the Chief dated Yesterday and received this Afternoon, advises that a Pattamar arrived the $22^{\text {nd }}$. in the Evening at Callicut from Pondicherry, and that he went immediately in a Toney to Mahie. That the said Pattamar had told Suamy Putterah the French had taken Madrass by Land after three days Seige, and sent the English on board their Ships, which consist of fourteen Sail, Namely, Nine which came with Monsrr. La Bourdanay from Mauritius, Five from Bengal. That the French had about Three hundred Men killed, and the English but a very few. The Nabobs People that were in Madrass for its defence, yeilded it is said upon sight of an Order which the French brought from the Nabob of Bengal or some other Nabob. That Fort St. Davids was surrounded and that there had been extraordinary rejoycings at Pondicherry. The Three French Europe Ships which had been lately at Callicutt were not arrived on the Coromondel Coast when the Pattamar came away On receipt of the abovementioned ill News, the Chief wrote advice of it to Governour Wake at Bombay, and dispatched a Toney instantly to Mangalore recommending his Packet to be forwarded by Antonio Paes Advices sent in all haste by another Toney to Don Lewis at Goa who was desired to send from bay by way thence a Boat Express with the said Packet to Bombay.

As we had only very imperfect Accounts concerning the French proceedings Trursat Madrass; and believing the Dutch of Negapatam might have wrote about it to bax Cochin with more truth and certainty we dispatched a Toney thither with a Letter $25^{\text {rim }}$. from the Chief to their Commandore Mr. Seirsma desiring such News as might have Wrote to come to his knowledge.

said Answer
$\underset{\substack{\text { Answer } \\ \text { from Mr. }}}{ } \quad$ Read a Letter from Mr. John Robinson as entered hereafter, being an Answer to what the Secry wrote him concerning the business allotted him to bring up in the Office. He says that his Post of Collector takes up a great deal of his time though he doubts not of bringing his business up to the day in about a fortnight, and can affirm to us that none of it ever committed to his charge retarded any Ships dispatch in the late or present Chiefs time, or shall while his Health continues. In the same letter he also says, " that we have directed him in future to sell the Hoñble Companys "Neally collected at Durmapatam as soon as it is reaped to creditable People \& not " retail it out as formerly practised. This method he says he is informed will have a " very bad effect," but instead of shewing what these bad Effects are and how they can arise, he goes on and tells us, " that if the Renters are not indulged as formerly " with the Loan of the Neally due in October and January payable with Interest in "May, which helps them to carry on the cultivation of their Salt Panns they will " leave the Island, by which our Hoñble Masters must be sufferers." These words, inserted as we conceive, with an intent to slander the Board, and to insinuate, as if Orders had been given not to indulge the Renters as formerly with the loan of Neally, induced us to send for Mr. Robinson; and upon enquiry whether he had any Orders from the Secretary or us not to lend the Hoñble Companys Neally as usual, he answered in the Negative, being then asked why he put into his Letter reflections so unjust and foreign to the matter of his Order; he replied that he understood it to be-

our meaning. The Chief then informed him that the design of the Board was only to prevent tedious and confused Accounts which selling of Batty or Neally, by retail had hitherto occasioned; and to avoid the great charge of building Warehouses to deposit it in as he himself had recommended. And in the conclusion told him, to take back his letter, and answer the Sečrys Order in a proper and pertinent manner; but this he positively refused to do, so he was directed to withdraw.

Being in want of Stationary Ware for the Offices and Mr. William West tendering to the Board a parcel at $30 \%$ Cent on the English Invoice It is Agreed to purchase a Quantity of such sorts as we stand most in need of to serve our present Occasions.,

## Wo. Sir \& Sirs

Having received Orders from the Secretary to acquaint you with my reasons for being so backward in my Business in that Office, the following I present to You as just Ones.

Since the Valuation of the Varge Lands on Durmapatam I have been frequently employed in hearing whether the Renters had any just reason to give, why the additional Rent made by the Vereadores should not be laid on, And in getting in the Rent of Coconut Trees for last Year which last service I shall have much trouble given me to accomplish, they complaining from the seizure of their Effects made by the King of Cotiote on their leavirg the Island in the time of our late troubles has very much impoverished them and the greatest part desire untill the end of next Month to compleat their Payments.

In your Order to me of the $19^{\text {th }}$. Instant for collecting the Neally due to the Hoñble Company, you are pleased to direct me in future " To sell the whole Quan"tity I may receive as soon as it is reaped (or before if I have an Opportunity) and " not retail it out as formerly practised taking care at the same time to dispose of it to creditable People." This method I am informed will have a very bad Effect for if the Renters are not indulged as formerly with the Loan of the Neally due in October and January payable with Interest in May, which helps them to carry on the cultivation of their Salt Panns they will leave the Island by which our Hoñble Masters must be sufferers. I therefore Offer this Affair again to your consideration and shall duly observe your present or future Orders thereon.

The Office of Collector is attended with many triffling Complaints from the Renters of one Persons encroaching on anothers Ground, loosing their Fruits \& ${ }^{\text {ta }}$. which to see, hear and adjust takes up a great deal of time. Tho' I doubt not of bringing my business up in a Fortnight and can affirm to You none ever committed to my charge retarded any Ships dispatch through my backwardness in the late Chiefs time, or Yours, or shall while my Health continues.

The Dolphin Grab. John Watson Master arrived from Beypore, where she had lain all the Rains having lost her passage to Bengal.

A Large Ship was seen from Durmapatam coming from the Northward.
Recerved a letter dated the $19^{\text {th }}$. from the Linguist at Callicut wherein he says ours to him of the $11^{\text {th }}$. was come to hand. That the Bamboos he sent us were short in length because no others were come to market, and if we are resolved to return them upon his hands he desires they may be delivered to Robert Adams who has directions to sell them on his Accounts. In regard to the delay and the deficiency of Wood, he will endeavour to get reparation from the Merchant. To stow it in the Munchuas, he always sent a Moorman but he happened to be sick on this occasion. He incloses a List of the Peoples Names to whom presents are made at the Feasts of Ona and Biou agreeable to our Orders and sends up a Soop measure for measuring of Charcoal. The Account of Remains at the $31^{\text {st }}$. of July last, he has received and will carry it to his August Accot. He writes that the remains of Plank and Beams should be only thirty seven and not forty nine, as he sent ten in the Expedition Munchua the $6^{\text {th }}$. of October 1744 and there was a mistake of two in the Number shipped on board the Edgbaston, he having sent off One Hundred forty eight and a receipt was given for only One hundred and forty six.

In Answer to the Letter which the Chief wrote to the Achamars, Ponartee Camallu writes the Linguist, that in regard to the Moors mentioned, he had sent for them, and they all three declare they had no hand in the Massacre of the Agar Mucquas, \& that they are willing to prove their Innocence. The Moors and Chittys; he says, were sent from Telechery along with his Highness, who summoned them also, but no one went except himself. That his Highness and he permitted them to live at Agar, and when he told the Prince the guilty should be punished, his answer was, that when he returned that way again, he would examine into the Affaire:

The Chief wrote a Letter to the Young Prince desiring he would send back our Forty Calliquiloners and their Officers who were in Ramatilly Fort, as he had notice that the French Fleet would be soon upon this Coast.

Wrote also to the said Officers of the Calliquiloners and told them, that the Prince was desired to send them and their People back to Tellicherry; and that so soon as they had his leave they were to come hither with all expedition,

Wrote to Francisco Dias at Callicut. He is Ordered to hire at Monthly Wages and send up Six Callicut large Toneys and One hundred Tiveys; of these Fifty are to be Stone Cutters and the other Fifty proper for Ground Work. We tell him to provide and send hither the necessaries already Ordered with the utmost expedition, particularly the Baskets Wood Ghee \&c ${ }^{\text {ta }}$. That so soon as he receives this Letter he dispatch the Toney to Anjengo immediately as she belongs to that Place. That Domingos Rodriguez writes for Fifty Hogsheads of Callicut Arrack and he is to take care no Dutra or other intoxicating thing is put into it, That he send us Four Thousand Covits of the best Dungaree proper for T'ents, and Five Maunds of fine Twine for sewing them. Also Six Coils of Four Inch, Six Coils of three Inch, Six Coils of two and a half Inch and Six Coils of two Inch Coir Cordage from the Parcel provided for the service of Bombay.

Imported in the Afternoon our Hoñble Masters Ship Pelham George Lindsay Commander from Bombay.

Eramination of a Pattes mar who came from came from

He says he arrived at Madrass the $22^{\text {nd }}$. of August, when there was no French Ships there but that he heard from the Inhabitants, that on the $19^{\text {th }}$. there had been eight French Ships, \& were Commanded by a Cousin of Monsr. L'Bourdinays whose Name to the best of his remembrance was L'Undaree. There was either an English Man of Warr, or One of the Companys Ships in Madrass Road, when the French Squadron Arrived, which was at seven in the Morning. The English Ship immediately fired upon them but the Commander finding that Nobody fired from the Shore, he at last fired two Shott into the Town, which went into the Governours Apartments, \& at twelve at Noon they began to fire from Madrass Town upon the Enemies Squadron \& continued till One O' Clock about which time the Fleet left the Place, One of their Ships having their Colours Set on fire, her Mast damaged and the Enemies Commander in Chief killed, whose Name he thinks was L' Undaree. The French Fleet in their retreat to Pondicherry, met two English Ships coming from Bencoolen laden with Pepper and other Goods to a very considerable Amount which they took. Fifteen days after this which was the 3 d . of September Monsr. L' Bourdinai Wrote a Letter to Governour Morse \& told him that on the Morrow about twelve 0' Clock he wou'd be at Madrass, to which Letter Governour Morse made no reply. The next day at Noon, being the $4^{\text {th }}$. Monsr. L'Bourdinai came with Eleven Ships \& about forty, or fifty Boats to a Pagoda called Tiruvellicanna (which is distant of Madrass \& to the $\dot{S}^{0}$.ward about a Mile) where he Landed his Men, which were about five hundred Europeans fifteen hundred Coffrees, three thousand Cooleys, and three hundred Seepors, at this Place he stayed all that Night, no Guns being fired on the Enemy from Madrass. The Enemy afterwards Marched to a Buzzar called Chinterrapata, which is to the Northward of Madrass, $\&$ distant half a Mile, in this Place the English have their Colours, \& a very large house which they took Possession of, after having had a Skirmish. The English had in this place five hundred Seepoys, three hundred of which ran away, \& the remainder (two hundred) got into Mradrass Town, with their Officer. The French had twelve Men Wounded, and a hand of One of their Officers shott off. The English had only two Men killed. The Natives that were in this Buzzar, fled up Country. and so soon as the English had quitted it, the French Planted Guns in it, and secured it after which they Marched to Aumpure, a large Tomn, where the English had a Fort with four Bastions, and Garrisoned by about thirty Mon, who immediately on sight of the French fled to Madrass. The French did not take Possession of it, but only Plunder'd the Inhabitants. The Day following, being the $6^{\text {th. }}$. Monsr. L' Bourdinay, accompanied by a hundred Men, Marched with Drums beating and Colours flying, to the Companys Garden, where the Govern ${ }^{r}$. has a house, which Place he left after taking a View of its Situation, but returned again at three in the Afternoon, and after having secured it, he immediately Marched with all his Forces against Madrass \& when the French came pretty near t!e Walls, the English fired upon them, and Obliged them to retire, with the losf of

-about One hundred Men, but Notwithstanding this, the French Attacked it again the $7^{\text {th }}$. \& $8^{\text {th }}$. during those two days, the Enemy had about two hundred Men killed. The French played upon Madrass from Tiruvellacanna, Chintetarrapata, the Companys Garden, \& their Ships in the Road. What happened after the $8^{\text {th }}$. he knows not as he left Madrass that Night, at twelve O' Clock. He further adds that Mr . Stratton was appointed Govern ${ }^{\text {r }}$. of Madrass the $5^{\text {th }}$. as Mr. Morse was out of Order \& unable to give directions, \& that the Council thought Mr. Stratton the fittest Person to take Charge. He says there was no Guns fired upon the Enemy, till the Gentlemen of Madrass had appointed a New Governour, \& that the Nabobs people at first refused to let the French land, but on Monsr. L'Bourdinays coming ashore, and producing \& Order from Nizzam, wherein it was mentioned that neither the Nabob of Arcott, or any one under him, shou'd Molest the French, but permit them to proceed against the English, upon which Mahomed Ally Caun, permitted the Enemy to Land.

The Chief wrote Instructions to Antonio Paes, who we Agreed Yesterday to send up to Mangulore, for Enlisting Seepoys. He is therein directed to get us about three hundred good Seepoys, well Armed. Twelve Bricklayers Twenty five Stonecutters, and fifty Biggarees. And to send them down in such Numbers, as from time, to time he can procure them. And as our Neighbours the French have likewise sent People to Mangulore, on the same Errand, he is told not to Disagree with the Seepoys about a small matter in their Wages. He is also Ordered to buy \& send down 2000 baskets, And to enable him to Defray the Charges necessary for the above Purposes, he carrys a letter of Credit from Domingos Rodridgues, on a Person there employed by him. He is further directed to Advise what People the French Enlist, the time when \& how they embark them for Mahie; and any other Circumstances in regard to their Transactions at Mangulore that he thinks material. A Letter from the Chief to Padre Alexandre at Goa he is also told to forward by a Toney Express, there being Advices therein for Bombay, which the said Padre is desir'd to forward away in all haste to Governour Wake.

Extract of a Letter from Anjengo.

Received a Letter from the Chief \& Factors of Anjengo dated the $22^{\text {nd }}$. Instant Advising us, that Exclusive of what they had already Wrote us for in their Letter of the $5^{\text {th }}$. they shou'd still want 50,000 Rupees for the Currency of the Year, \& in case we shou'd not be able to Supply them they desire we wou'd write to the President \& Council of Bombay, that they may not be disappointed. They request us to send them two Candies of Iron to Compleat their Gun Carriages. The three French Ships, which Arrived at Mahie the $25^{\text {th }}$. Ulto they have heard nothing of, since our Letter of the $30^{\text {th }}$. of August.

Wrote a Letter dated the $25^{\text {th }} . \& 29^{\text {th }}$. Instant to the Chief \& Factors at Anjengo; acquainting them, that on the 23d. a Pattamar Arrived at Mahie, with Advice that Monsr. I' Bourdinais had taken Madrass in three days, $\&$ that he had Surrounded Fort St. David, on which Account the French have fired a great Number of Guns; and that we have not been able to learn the particulars of this Disaster, yet we are afraid of its being true, as it is generally believed in the Country. We acknowledged receipt of their Letters dated the $5^{\text {th }} . \& 11^{\text {th }}$. Instant, \& tell them that so soon as we receive a Supply from Bombay they may depend on the Sum requested, but that at present we are unable to Spare them any. That the Pelham Captain George Lindsay, Arrived here the $26^{\text {th }}$. from Bombay, \& brought us a Packet with some Stores for their Settlement. ## - SEPTEMBER 1746

The Chief also wrote a short Letter to Governour Wake at Bombay, advising of the attack upon Fort $\mathrm{S}^{t}$. George, \& enclosed the same to Padre Alexander, with a request that he wou'd forward it, by a small boat Express from Goa.

Wrote the Young Prince that we hoped his highness wou'd Comply with everything we desir'd of him by Unichi Nair, \& that he wou'd Speedily send One hundred Nairs for Maddacarry \& Mattamy, \& three hundred for Durmapatam agreeable to his Promise.

The $2^{\text {nd }}$. King of Cotiote who Governs that Country, was also wrote to by the Chief, \& told that as his Majesty had Advis'd the Linguist of his intent to be at Natture about the end of this Month, He the Chief waited his coming, having something to say to his Majesty.

Wrote a Letter to the Chief and Factors of Anjengo, and sent them in a Toney Tuesday 20000 Rupees, promising them a further Supply when we receive more Money from the Presidency. we also desire that they will return the Toney as soon as possible with such News, as they may have to Communicate in regard to Our Enemy the French.

Mr. De La Garde having been ordered to Callicut as Noted in Consultation the $28^{\text {th }}$. Instant, the following Instructions, \& List of Necessaries were delivered him, $\&$ he proceeded thither accordingly in a Toney.

Advice sent to Bombay by way of Goa.

Letter to the Young Prince.

Lire to the King of Cotiote.

## To Mr. William De La Garde.

Sir
As Francisco Dias our Linguist at Callicut has been very dilatory in sending up hither such Necessaries as from time to time we have Order'd him to provide. You are now sent down to hasten them up. . List of what things we are in want of is now deliver'd You. You are therefore on Your Arrival at Callicut immediately to begin to buy up the things Order'd in the said List, \& in procuring them we expect You will use the "utmost' dispatch, that everything, may be here at this Place, before the Arrival of the French Fleet on the Mallabar Coast.

On Your Arrival at Callicut enquire of the Linguist what necessaries he has already bought, \& if you find he has Purchased any of the things, send them to us immediately.

The Linguist was ordered the $28^{\text {th }}$. Instant to buy out of a Ship Commanded by Richard Southcott, now at Callicut, One hundred baggs of Wheat. You are therefore on Your Arrival at Callicut to Enquire, whether he has Complied with our Orders, \& if you find he has not you are then to purchase the said One hundred' baggs of Wheat. \& send them up hither with the other things.

Domingos Rodrigues wrote the $26^{\text {th }}$. Instant to Pedro Lewis at Callicut to send up hither 50 Casks of Callicut Arrack. You are therefore to buy casks enough to hold the said Arrack, \& send them up as soon as possible. if we dont send you Casks from hence in time, buy them at Callicut, although they shou'd be dear, \& rather than wait for Ours... And take especial care that they put no Dutra, or any other intoxicating thing into the Arrack.

Ler the necessaries be sent up in small boats, or Toneys, and in such Quantities as from time to time you can procure them, without waiting to send a large quantity at once.

Ocr Linguist had in Cash the last of August Rupees 2300. 3. 26 and we now send him Rupees four thousand more, in order to pay for evrything you buy.

We direct you to use the utmost dispatch in sending the Necessaries $\& c^{a}$. to us, as the Delaying them may be attended with bad Consequences to this Settlement.

## - SEPTEMBER 1746 <br> $\qquad$

There is one Mr. Robert Platt an Englishman at Callicut in the Samorines Service, who is we believe, willing to come hither, enclosed you have a Letter for him, which you are to deliver, and Assist him all you can in getting him away, taking care not to involve the Companys Affairs with the said Samorine on his Account. You may Supply him with a little Money, provided he accepts of our Service, and can get away from Callicut with his People.

So soon as you have purchased the Necessaries, or such part of them as are to be procured at Callicut, and sent them up hither, you are then to return back to Tellicherry without waiting for further Orders.

At the same time wrote a Letter to Francisco Dias our Linguist at Callicut complaining of his Dillitariness, in not sending up more speedily the Stores and Necessaries wanted at this place, which we told him had obliged us to dispatch down Mr. Delagarde to procure and forward them, \& that he wou'd do well to exert himself on this particular Occasion, \& Shew his Zeal for the Hoñble Companys Service by Assistg. Mr. Delagarde all in his Power. We sent him in the Toney 4000 Rupees, in order to pay for the Stores \& Necessaries, with the Charges of Freight \& $c^{a}$. \& directed him to Credit the Hoñble Companys Account for the same. We added that Mr . Delagarde carries with him a List of such things as we stood in need of at present. Two Round boats were Ordered out evry Night, and a Detatchment of Soldiers put on board the Pelham, to prevent her being Surprized, \& to Watch the Motions of the French at Mahie, who have Stopped up the Communication between that Place and this by Land, \& refused to let our People pass at Gurichy in the usual manner, being we judge in some little fear of our Attacking Cuni Nairs Fort, \& to secure themselves from danger that way, they are fortifying a hill. which is to the S.E. of Curichy near a Mile, and Overlooks it. The French have often Sollicited Cuni Nair for leave to build a Fort upon the said hill, but he never wou'd Grant it till now, and it is said they have been obliged to buy the Grant at last.

Tre Young Prince Wrote the Chief that Unichi Nair had told him everything he was desired, \& repeats his promises of Serving the Hoñble Compy. in terms seemingly Sincere \& Hearty. For he says he shall Esteem them his Enemies who come against the Hoñble Companys Places in his Country, \& that he will not only send his Forces but will go himself in Person to Assist in driving them away. He adds that he has told Unichi Nair to go to Maddacarry, \& that he wou'd send his People thither as the Chief requested.

Two Olaes were this day receired from the Prince, wherein he Writes that he had sent to لIaddacarry One hundred Nairs, with Conna Curripy, and that the three hundred we desigued for Durmapatam, shou'd soon be Ordered to that Island. That he dispatched Conna Curripee \& Camara to the Chief who wou'd inform him of errything that has happened to the Northward since his haring seen the Cannarees, And as the Honble Companys Affairs required his Assistance, he rou'd return to Cherrica without Delay, not doubting but that by their help he shou'd Reinstate Comer, and put him in Possession of his Rights when the troubles are orer at Tellicherry, as he nor desisted at the Chiefs request. He adds that he will come himself to Tellicherry whenever we think his Presence necessary.

The Chief receired a Letter from the Ensign at Maddacary Adrising that he had taken array the Guns and Stores from Nattamy Seramby, and put the Princes Nairs in Possession of it.

Recerred a Letter from the Callicut Linguist dated the $30^{\text {th }}$. Clto . He omns the Receipt of ours under the $26^{\text {th }}$. \& $25^{\text {th }}$. of last Month and sass that the Samorine has giren nerw Orders concerning the Customs, by fixing sett times for Landing and Shipping Goods, and directing most things to be weighed, or Measured, when they are Landed or Shipped off, and before this is done they will not be Cleared at the Custom House as formerly, when a Valuation was put upon them, The Merchants he sars makes loud Complaints, but they have no redress The Samorine not Chusing to Reroke his Orders. Xothing is permitted to Pass mithout haring been Examined first A small Chest of Apparell brought on Shore by the Commander of the Surat Ship, was not Suffered to Pass till he had opened it on the Publick Strand. And ser'ral other trifles mere stopped, which formerly used to Pass Unexamined. The French a ferr dars ago wanted to Send some Cordage to Mahie in the usual manner, but the Custom house Officers obliged them to reigh it first at their orn Charge, which makes the Weighing Charges double of what they were formerly.

## - OCTOBER 1746 -

Nor will the Samorine suffer any Goods to be Shipped off in the Night, Notwithstanding the Customs on them shou'd have been Paid. That he wanted to send hither the twenty four Coils of Cordage, and some Necessaries which we had ordered, but the Custom Officers refused to let them go Unweighed without Orders from the Samorine. The Linguist says further, that as we had never Paid any Customs, either upon Timber, or Cordage sent to Tellicherry, or Bombay, or on what was carried away by private Ships, he shall wait our Orders before he Submits to the New Regulation. The 6 Callicut Toneys, 100 Tivees, 4000 Covits of Dungaree with the Masts \& Yards he promises to Provide, \& send up agreeable to Our Orders.
By this Toney he sends 400 Soops of Charcoal amounting with charges to Rupees
19. $3 \& 20$ Teak Trees he says will go, by 10 other Toneys, their Amount being Rupees 825.0.10.

Answered the foregoing Letter from the Linguist, \& told him that Our Necessities at this present Juncture were so Urgent and Pressing, for an immediate Supply of Stores from Callicut, that we must have them at any Rate. He is therefore to Assist Mr. Delagarde in sending them up with all Expedition; and as to the Samorines Impositions, we wou'd Adjust and Settle that Affair with him, at a more Convenient and Leisure time.

The 2 ${ }^{\text {nd }}$. King of Cotiote acknowledges the Receipt of the Chiefs Letter, and says he shall be at Natture after the $10^{\text {th }}$. of October, and upon his Arrival there, he will give the Chief Notice of it.

Recerved a Letter dated the $1^{\text {st }}$. Instant from the Callicut Linguist, wherein he advises that the Samorine had at last given liberty for this time only that the Cordage shou'd Pass, but says that no Cordage, Coir, or anything else shall in future go off the Place, without being Weighed \& Entered in the Custom house Books. The twenty Teak Trees he sent Yesterday were he says taken an Account of by the Custom house Officers. He now forwards in Toneys, and his small Muncha the remainder of the Necessaries he had provided agreeable to the Accounts which we shou'd receive from Mr. Delagarde, who arrived at Callicut the $1^{\text {st }}$. Inst. at two $0^{\prime}$ ' Clock in the Afternoon. He promises to Assist Mr. Delagarde all in his Power, \& says it gives him concern to find us tell him that on this Occasion he shou'd Shew his Zeal for the Hoñble Companys Service, as it seems to imply that he had heretofore been backward. Mr. Delagarde knows he says what an Earnest desire he has to Exert himself in the Hoñble Companys Service, \& that the Delays complain'd of were owing to the Season of the Year, which was too early to get the things Ordered, and not to his backwardness, for he can Affirm, that nothing has been wanting on his part to Execute our Orders with the utmost Dilligence. He adds that he has received from Mr. Delagarde a Chest of Treasure containing four thousand Rupees.

The Toney we dispatched the $12^{\text {th }}$. Ult ${ }^{\text {o }}$, to Cochin for News is returned without any fresh Advices the Commodore Writes the Chief that he has no other Intelligence concerning the loss of Madrass than what had been sent to him from Callicut. We were in hopes the Dutch might have received quick Advices from Negapatam.

Recerved a Letter from Mr. Delagarde at Callicut dated the $1^{\text {st }}$. Instant, wherein he Writes that he had on his Arrival enquired what necessaries the Linguist had in readiness to send up hither, List of which together with the Necessaries themselves he now forwarded, and promises to send up the remainder of what we ordered, as fast as they are procurable. In regard to the Wheat he finds on enquiry from Captain Southcott that there is no more than 80 baggs on board his Ship, \& that the Owners ask so Exorbitant a Price for it as 13 Rupees the bagg of five Surat Maund he therefore deferr'd buying it till Our further Directions. Pedro Lewis has provided the Quantity of Country Arrack Ordered, \& it will he says be sent up .as fast as Casks come from Tellicherry to put it in, None being precurable there.

## - OCTOBER 1746 -

The Arrack is good, and he promises to use his best Endeavours to prevent its being Adulterated. Casks for the Vinegar will be likewise wanted. He thinks most of the things mentioned in Our List may be got with dispatch except the Ghee \& Biscuit, the former is to be had only at certain times, and in small Quantities, as it comes from $y^{e}$. Inland Country, and the latter depends upon the Markets being Supplied with Wheat. He intends to Sett Carpenters, \& Smiths to Work, making Powder Chests and Iron Lamps, as none are to be had ready made. Cooleys \& Stonecutters to the Number of 102, he has Agreed with, \& they were to Sett out for Tellicherry the next Day, when he wou'd let us know the Terms of their Agreement for Wages. He returns the Toney loaded that carried him down and hopes. we will not disapprove of his detaining the Corporal \& Soldiers, who are so much fatigued, \& their Ammunition damaged so much by the bad Weather that they are yet unable to proceed back, Mr. Platt he has not yet seen, \& therefore cannot reply to our directions about him. The Corporal of the Toney going to Anjengo applying to him for some Ghee \& Necessaries, which through hurry he had not taken here, he had Supplied him.

Report of French Ships being seen off Peenany.

Another Letter dated the $2^{\text {nd. }}$. Instant was also recd. from Mr. Delagarde, wherein he says that there is a Report at Callicut that four French Ships were off Penany, but as they were not seen by the Mucquaes of Our Toney from Cochin who Passed Penany the Night before the News Arrived at Callicut the truth of it is much Questioned, That however he had dispatched a small Toney to see if there were any such Ships \& shou'd Advise us accordingly. He Detained our Toney which came from Cochin to Load her, and had forwarded the Letter She brought by this Toney Express.

The small one is a quarter part less, and is what the Merchants deliver by when they sell their Charcoal. He desires we wou'd let him know from time to time the Quantity of Firewood which Arrives, agreeable to which it will be paid for. The 8 Casks we sent him he says he received, \& now returned those that were good with Arrack, \& that the remainder were Repairing. That he sent by 5 Toneys 50 Stonecutters \& Cooleys, with One Head Tivee. their Monthly Wages is 3 Rupees, Rice $\frac{3}{4}$ of a Bale, 2 fanams for fish, \& 60 Billets of Wood, and to Commence from the time of their Arrival. That he is not to give Mr. Platt Encouragement unless to be done without Disgusting the Samorine. That his Contract for Firewood as likewise the Terms he made with the Stonecutters we approved of. By th[ese] Toneys from Callicut received two Water Jarrs 4 pieces of Iron Wood, 3 Maunds of Garlick, 211 Baskets, 59 Soops, 1 Drum Head, 72 Pallo [en]s of Twine, 20 Gamels, 6 Iron Lamps, 300 Soops of Charcoal, \& 4 Casks of Callicut Arrack, amounting (Exclusive of the Lamps', to Rupees 156. - . 37.

The Young Prince wrote the Chief that he arriv'd the 3d. Instant at Cherrica, with the People he carried with him to the Northward, and as they were fatigued, it had occasioned so long a Delay. That in Company with Ambu Writer he sent 100 Men, and the rest wou'd be with us very speedily He says that Ambu Writer will tell the Chief what has happened that way, and desires to know evr'ything that Passes here.

The Chief answered the above Ola, and told his Highness, that as he was very busy in dispatching One of the Hoñble Companys Ships to England he shou'd deferr giving a particular reply to his Ola till another Opportunity. As to News he Wrote his Highness that on the $23^{\mathrm{d}}$. of September the French at Mahie spread a report, that their Forces on the other Coast, had Attacked and taken Madrass the $10^{\text {th }}$. of that Month, that there Arrived at Mahie the $2^{\text {nd }}$. Instant two Putterahs, who told some of their Acquaintance in Confidence, that the French had been beat back from under Madrass Walls. That this was all Mahie News \& that the Chief had received no English Letters about this Affair. He added that some Nairs were Arrived, \& desired his Highness to make up the Number 300 for Durmapatam.

Received from Callicut by a Munchua, 585 Soops of Charcoal, amounting to Rupees 32. 1. 15, and by a Toney Wax 5 Maunds, Wax Candles 3 Maunds, Baskets 150, Garlick $9 \frac{1}{2}$ Maunds, Ghee 6 Maunds Spirits of Wine 47 bottles, Amounting to Rupees 189.2.0, received also four Lamps.

Imported the Fuckiro Maracub Thomas Purnell Commander from Batavia, which Place he left the $10^{\text {th }}$. of August bound to Bombay, and about three days afterwards met in the Straits of Sunda, our Hoñble Masters Ships Dragon Captain Kent bound to Benjar, \& Sommerset Captain Tolson designed for Bencoolen, both standing torards Batavia Captain Purnell also advis'd us that the Augusta sailed for Canton

The Cmef communicates to the board such Intelligence as he has been able toget concerning the French Proceedings at Fort $\mathrm{S}^{t}$. George. A Putterah lately come from Pondicherry to Mahie reports that the English March'd out of Madrass the $\overline{1} 4^{\text {th }}$. of last Month, gave Battle to the French \& drove them from the Hoñble Companys Garden, where they had been Encamped. That his Majestys ships were come to the Relief of the Place, \& that Affairs began to take a turn in favour of the English. And as the French at Mahie appear much dejected we are inclined to believe there may be some Truth in the Report, and that they have met with an Unexpected Disappointment in taking of Madrass. This agreeable News, together with the Prospect we have of getting as many Nairs from the Prince and others, as we shall require, And a Sufficient body of Seepoys from Mattalye, Mangulore \& $\mathrm{c}^{\mathrm{a}}$. places to the Northward, as also the danger of a single Ships proceeding up alone to the Port of Goa (which is the only Secure place near us) bringing her People with their Arms in Boats and Sending them up again leaving her in that Road weakly Manned, \& at an Uncertainty in respect to the time of her Departure for England, being all duly Weighed \& Reconsidered, It was Unanimously Resolved to Dispatch the Ship Pelham Captain George Lindsay, directly for Great Brittain, agreeable to our Orders from the Presidency, and not detain her in India as was proposed, \& Debated on the 29th. of last Month.

Our Seepors and their Officers who have Served the Hoñble Company a considerable time finding that we were Necessitated to hire more Seepoys at higher Wages than they were Entered for, insist upon their Pay being increased, which unreasonable demand we shall take Notice of \& Resent, at a proper Juncture, and in the mean time it is Agreed to quiet them in the best manner we are able.

Captain George Lexdsay having been called upon to Pay for 142 Yards of Dungaree, and two Iron Weights short delivered of his Stores from Bombay, Amounting to Rupees 14. 3. 39 has refused Payment and sent us his reasons for it, which are Read and Ordered to be Entered after this Consultation, His plea is, that he never saw the things Packed at Bombay, or Unpacked at Tellicherry and therefore ought not to be Accountable for any short delivery, and as all Commanders may excuse themselves in like manner, Directed in future that our Storekeeper, Warehousekeeper and other Officers concerned do not Unpack, or open any Goods without the Commander or Purser of the Ship which brings them is present to see the same Counted, Measured, or Weighed, as occasion requires, and that the Secretary do give them Notice accordingly.

As it behores us if possible to keep the French when their Forces Arrive. from blocking us up in Our Forts, and as Our People are now pretty well Drawn together. It is Agreed that we Encamp them between this Place and Moylan, on a Convenient Spot of Ground, in Order that they may be ready for Action at a Minutes warning.

The Chief wrote to Antonio Paes at Mangulore to be very Circumspect in the Management of the business he was sent on, and take care the Seepoys he Enlisted were good Men, and not Vagabonds. that they had all Arms, \& if possible Firelocks. That One hundred wou'd be a Sufficient Number, as we had a promise of some from Mattalye, and in respect to their Wages he may offer the same as we give, our other Seepoys, more if they wont come on those Terms.

Received a Letter from Mr. Delagarde at Callicut dated Yesterday, Acknowledging Receipt of Ours of the $4^{\text {th }}$. Instant. The difference of the Dungaree he tells us the Linguist imputes to the Tellicherry Covits being longer than that there, therefore he now sent a Covit by which he desires it may be re-measured. with regard to the Deficiencies in the Charcoal and Ghee, the former is judged to Arise from its having been Wet, but the Persons who Weighed the latter Assured him that the Quantity mentioned in the Account forwarded, was sent. That Swamy Putterah came to request us to let the Samorine have 20 Maunds of Iron: The Amount of Provisions Supplied the Soldiers of the Anjengo Toney he tells us was Rupees 1. 1. $50 \&$ advises us of his having sent up by this Toney sundry Necessaries.

Wrote to Mr. Delagarde at Callicut, in Answer to his Letters of the $3^{\mathrm{d}} . \& 7^{\text {th }}$. Instant, and told him that we shou'd Adjust the Account of Goods he sent us, as soon as we were a little more at Leisure, That we had sent for the Samorine One Candy of Iron, and bid him receive the Amount of it Rupees Sixty, from Swamy Putterah, but that rather than Disgust the Samorine at this Juncture, he may trust him sometime for the Money.

A Pattamar which we had sent to Madrass the $26^{\text {th }}$. August, returned with Private Letters from Mr . John Hinde at Fort $S^{t}$. Davids dated the $19^{\text {th }}$. of last Month, to Governour Wake at Bombay, Mr. Bourchier at Anjengo and to the Chief here. The former came under a Flying Seal, and Enclosed Signals for a Ship to make on going into that Road, And advises that Madrass was Beseig'd by the French the $5^{\text {th }}$. of September and Surrendered the 10 th. That they have eight Ships there, on which, they are loading, the Money, Coral, Broad Cloth, Callicoe Bales, and all the Arms and Ammunition except the Great Guns. That his last letter from that Unfortunate Place, came from Mr. Morse, was dated the $4^{\text {th }}$. of September, and says the French had Landed two thousand Men, and were to begin the attack the next day. There are says he so many Reports concerning the Motives and manner of Surrendering the Place, and some of them of such an Extraordinary Nature, reported by the French \& Dutch, that he can form no Judgement of it. Nor does he Chuse to say anything, till he has it from the English, of whom they have only a private Centinel yet come in, and he left the Place on the Parleys beating with twenty two more all in their way to Fort $S^{t}$. Davids the $10^{\text {th }}$. in the Morning before the Enemy Marched in. That the Enemy talk of Commencing a Siege against them, so soon as their Ships Arrive at Pondicherry where they are daily Expected. The reason of his Deferring to Write so long, and that he does not now send a General Letter, is because he has no Confirmed News from any of Our Gentlemen what Terms they are on, or if any are made. He thinks if they do come to Terms they must be very bad Ones, and worse kept. The French wanted he hears Our Gentlemen to send an Order to him for delivering up Fort $S^{t}$. Davids, which was as Rīdiculous in them to Ask, as it wou'd have been in the other to give, for he is not at all Apprehensive but he can defend the Place, it being small and Compact. and greatly improved since the Warr Commenced, particularly by a Bomb Proof just finished 128 Feet long and 20 broad, the Top of the Arch 9 feet, and all other parts 8 thick, a most Convenient Place for their Garrison, as the Enemy depend Chiefly on their Shells, against which they are entirely Secure. He was Providentially led to build this from a hint Monsr. Paradis, (who now Commands their Land Forces) gave, when he was there on a Visit, on his (Mr. Hindes) first coming, for he then said he cou'd take the Fort in half an hour, with Bombs only, as there was so much building in it and no Cover for the People. They have upwards of Two hundred Europeans more coming in from Madrass Garrison and as many Topasses, and they have Provision for above a twelve Month. That he has Wrote to Bengall, as he now does to Bombay to request Succours. An

## - OCTORER 1746 -

Ingineer or more, they want much. Mr . Smith Died at Madrass the day before the Attack with the Fatigue of preparations as also Military Officers, having only two in Garrison. He adds that if Mr. Wake will send two or three hundred Europeans with Officers, Arms and Ammunition and Provisions of all sorts (Europe Pork and Beef if possible) they shall not be afraid of all the French force, and he does not under God doubt holding out till it can come. The Monsoon he thinks ought to be no Obstacle, as there is Seldom more than a day or two in it of such Weather as can hurt a Ship, and that Risk he says ought to be run, on such an Occasion. Six, or eight Guns with Shott to them from 24 to 36 Pounders wou'd be very usefull there, and he desires a Credit on some House at Arcott for ten thousand Pagodas so soon as possible. Any Letters Directed by the Dutch to Galenus Mersen Esqr. Governour of Negapatam or Stephen Vermot Chief of Porto Novo (all the Directions in a Dutch hand) will go safe to him. The last time he heard from Captain Peyton, was the $27^{\text {th }}$. July when he Wrote from Trincomalla, that he was coming with the Kings Ships on their Coast, that he did so and appear'd of Negapatam the $6^{\text {th }}$. August, was in sight of the French Fleet the $7^{\text {th }} .8^{\text {th }}$. \& $9^{\text {th }}$. \& then disappeard till the $23^{\text {d }}$. when he was seen off Pullicat, and sent his Lieutenant on board a Vessel in that Road who was told that the French had Attacked the Princess Mary in Madrass Road on which he went away, and has not since been heard of, not having Wrote a line to any of them, or given them an Opportunity of Writing to him, tho ${ }^{t}$. no Cost, or Pains has been spared for that Purpose. One wou'd think (Continues Mr. Hinde) that the French knew where he was, for their Ships are now lying in Madrass Road, some of them with only twenty Men on board. You'll please says he to let Our Masters in Europe know as soon as You can, how we are Circumstanced. He will write to them by the Danes Ship, which goes from that Coast to Achin, in about Twenty days, and from thence to Europe in December. The other two Jetters from Mr. Hinde to Mr. Bourchier and Mr. Dudley, are only a Confirmation of what he has wrote to Governour Wake and an Acknowledgement of the Receipt of two Letters dated the $21^{\text {st }}$. and $25^{\text {th }}$. of August to Governour Morse from Mr. Dudley.

Wrote a letter to the Young Prince advising him that a Pattamar was Arrived Lre to the from Fort St. Davids \& that we had no certain News of Madrass being taken, that we wou'd Advise him when we had Occasion for his Highness this way \& hoped he wou'd be ready to come at a Short Warning. At present we requested of him to send the three hundred Men promised us few of them being yet Arrived.

Received Yesterday from Callicut by seven Toneys 8 Powder Chests, 100 Salt Md $P$
Fish, 2 Pieces of Iron Wood. 1. 30 of Quenter. 4 Casks of Arrack Qtg. 1060 Bottles, $6 \frac{3}{4}$ Candies of Coir, and 185 Bales of Chunam, Amounting with Charges to Rupees 290. 3. 61 Also a Munchua of Firewood to be Paid for at Callicut according to the Number of Billets delivered here. Eight Smiths came likewise from Callicut.

Recerved this day from Callicut by a Toney 11 Powder Chests, and 154 Pots, Amounting to Rupees 39. 2. 70 as also by the same Toney 7 Iron Lamps.

Received by another Toney 35 long and 11 short Bamboes, and 31 Oars, Amounting to Rupees 18. 2.0 and by another Toney $6 \frac{3}{2}$ Candies of Coir, Amounting to Rupees (with Charges) 78. 2. 0.

A Letter dated the $5^{\text {th }}$. Instant was this day received from our Scrivan Antonio Paes at Mangulore. He says he arrived there the $1^{\text {st }}$. and that he has sent People so far as Barcelore, Onore and Carwar to procure Seepoys. That he is informed there is at Mattalye in the Service of the Cannarees, one Ishmael Caun a Gallant and Resolute Man, whose Name is Famous over all Asia, He is in much esteem among his own Nation, as well as the Portugueze and in so great a Degree, that the Vice Roy sent for him to Assist in the War against Kempsam Promising him whatever Wages he shou'd Ask. The Factore at Mangulore is using all his Endeavours to get him. He has with him eighty as good Men as himself and can raise as many more as he wants. Upon Notice of this says Antonio Paes I sent to get him to Tellicherrv. Promising him and his People good Wages, \& that he shou'd be made Head of the

Seepoys, which he hopes will meet with Approbation; but he is told that they will Ask high Wages. He adds that he has Enlisted twenty five Seepoys, who will be sent by the first Opportunity and has Advanced them One hundred Rupees. Their Monthly Wages is $4 \frac{1}{2}$ Rupees; Rice $3 / 4$ of a Bale, Ghee 4 Seers, and Wood 150 Billets. The Chief wrote the Young Prince that Bassupjee the Cannanore Officer at Mattalye having offered the Hoñble Company some of his People he had Accepted of them; and as they wou'd come from thence by Land, he desired his Highness wou'd send Orders that they might meet with no Molestation or hinderance in their March hither through his Country. The Chief likewise told him that having many things to discourse upon, and Communicate to his Highness, he desired to see him at Tellicherry, and requested that he wou'd in his way call at Rhandoterra for a day or two d there Summons the Achamars, giving them Charge to get all their People together, ready at a short warning to come to the Hoñble Companys Assistance in case of need.

Wrote also to the $2^{\text {nd. }}$. King of Cotiote that being informed of his Arrival at Pyachy, the Chief wou'd be glad to know when he intends to come to Netture, that he is desirous of having a meeting there with his Highness to Consult and settle several things of Importance.

Antonio Paes writes us from Mangulore that he sends in a Paddier which he had freighted for 10 Pagodas forty Seepoys, that all of them have received there, two Months Wages, by the hands of their Officer Rayman Caun to whom he delivered 360 Rupees and who he says is Obliged to Answer for those People. Their Monthly Wages is $4 \frac{1}{2}$ Rupees besides $\frac{3}{4}$ of a Bale of Rice, four Seers of Ghee and 150 Billets of Wood, which is the same as what the French Subedar there has given for those Enlisted for the Mahie Service. He has also given them a Bale of Rice and a Fanam for their Charges down hither agreeable to Custom. And sent us Enclosed a List of their Names. The Workmen he promises to send so soon as he can get them altogether, their Number is 12 Bricklayers, 20 Stone Cutters and 14 Biggarees who have all been Paid a Months Wages. Their Provision Allowance is $\frac{3}{4}$ of a Bale of Rice, and 2 Fanams $\%$ Month each Man without Distinction. He adds that he was obliged to buy two Corge of Rice for Ballasting the Paddier which cost all Charges included $35 \frac{1}{8}$ Pagodas and that he sends us 70 Baskets bought at the Rate of 125 78 One Pagoda.

Cotteri Quelloto Nombiar wrote an Answer to the Chiefs Ola, and tells him that he doubtless must have been informed of the Divisions Subsisting amongst his Heirs that however he may be Assured there shall be no breach on his part of the Friendship between him, and the Hoñble Company. that he shall Summons his Heirs to meet in four days, when he will Consult with them and Advise the Chief of the Resuit.

Answered Antonio Paes Letter received Yesterday and told him that only 36 Seepoys were Arrived here he is therefore to find out what is become of the other four. that if Ishmael Caun shou'd want any hoats to bring his People he is to Assist him, and to let him have some Money to bear their Charges. That Men without Fire Arms, or at least Swords and Targets will be of no use to us. The Major part of the Seepoys he sent down had only Old Rusty Swords. The Chief Adds that the 84 Bales of Rice \& 69 Baskets were received and enjoined him to bring hither on his return as many more baskets as he can get.

Received from Callicut by 2 Toneys Charcoal 300 Soops, and Bamboes 238 Amounting with Charges to Rupees 51. 3. Do. by 2 Munchuas a parcel of Firewood cull to be Paid for at Callicut according to the Number of Billets delivered here.

Arrived from Bombay the Ramban Express Boat with a Letter from the President and Council of the $3^{d}$. making ourselves a Principal in his Quarrells as in the former Cannaree Warr. That shou'd the French quarrell with Boyanore, we may Supply him with Ammunition and what necessaries we can spare he paying or giving us Noti[ce] for their Amount, this they think we shou'd hint to him in a timely and proper manner as likewise to the Nombiars whom we must endeavour to secure to us before the Arrival of the French Fleet, which may be in November. And as some of our Men of Warr may probably come on this Coast, we are to send Advices of the Forces of such French Ships as may be upon it to Anjengo for the information of the Commander in Chief of the English Ships of Warr. As that part of the Walpoles Detatchment which remain with us have no Families at Bombay, we did right in allowing them their full Pay. Messenger
from the
King of
Cotiote. him to understand in pretty plain Terms that his Master being under Obligations to the French, and receiving from them continual and repeated Marks of their Friendship he cou'd not Hesitate, or avoid lending them five hundred of his Nairs when they requested it on the present Occasion that in short he was fearfull of refusing them lest they shou'd come with a great force into his Country and demand the large Debt that was owing to them. that however as he was likewise willing to be on good terms with the Hoñble Company he wou'd lend us also some Nairs if we requested it. the Chief in Answer told the said Messenger that his Masters People cou'd be of very little use to us while he himself was in the Interest of our Enemies

and shewed such a Partiality to them preferable to the Hoñble Company that if he wou'd come to Natture and give the Chief a meeting something might be possibly settled between us which would be for the Benefit of both Parties. After this Discourse the Messenger took his leave promising to Write his Master what had Passed and to come again in five or six days by which time he expected further Instructions.

This Morning the Chief received Letters from Don Lewis \& Padre Alexander Loters at Goa dated the $15 / 26^{\text {th }}$. of this Month, advising of their having that day forwarded ${ }^{\text {from Goan }}$ by a boat, his Letters to Governour Wake at Bombay. these are what were sent from hence the $24^{\text {th }} . \& 29^{\text {th }}$. of September giving an Account of the unfortunate Situation of our Hoñble Masters Affairs at Madrass.

Two Toneys arrived from Callicut and brought us 600 Soops of Charcoal and 300 Baskets Amounting to Rupees 38.

The Chief wrote a letter to the Boyanore (who though a Young Man begins to take from his Mother the Management of Affairs \& Government of the Country) telling him that as it was not Unlikely that the French Ships might come to Mahie and perhaps give him and the Hoñble Company some trouble in a very short time. He (the Chief) desired to know how he had determined to Act on their Arrival. as to our parts we were ready to support his Interest with all our Force, and requested he wou'd send hither Alam Mami, and Chandu Nair, in order to discourse and talk over all matters relating to the present Posture of Affairs.

Ensign Bilderbeck at Maddacarry writes the Chief that the French have Enlisted from those parts to the Northward upwards of 1500 Men , and that they have given orders to keep at Cannanore with Ally Rajah all the People which may hereafter be got for their Service till they send for them to Mahie.

The Modeliar of Billiapatam has sent 68 Men with their Arms to the Hoñble Companys Assistance which he Enlisted for their Service at our request.

The [y] acknomledge receipt of all the Papers from MIr. Hinde concerning the Surrender of Madrass. and hope the French Nerss on that Head is not true. and heartily wish they cou'd be of assistance to the Gentlemen on that Side of India. They hope we are able to Supply them with the Guns they wrote us for, as shou'd the French Attack them they wou'd be of infinite Service. they will Credit our Factory Rupees 4. -. 94. being what advanced their Boat. and desire we will Credit them 8 Rupees for what Supplied our Munchuaes.

Coisotv Conamel \& Camporratu Nombiars wrote the Chief that they had Consulted together and come to a Determination to send the Hoñble Company some Men and desire to know if we will Accept of them. They further say that they are alwars ready to Serve us, and hope we will upon all occasions Support them. To this they were Answered that as the Prince of Cherrica was Arrived in Tellicherry and did propose to Summon all the Nombiars to Assemble at Triamgattu, it rou'd be then time enough to Consider of their Offer, and in the meannhile they might be assured of the Hoñble Companss Friendship.

Tue Young Prince came from Agar and Passed throb. the District in his way to the Pagoda.

- OCTOBER 1746 -

The Ensign at Maddacarry advises the Chief that the Young Prince has sent Trursday - Olaes (or written Orders to Press People in those parts for the Companys Service
at Tellicherry and such as refuse to go he puts an Impediment on their Houses and Plantations. the Cannarees and Modeliar (he says) are likewise getting People to send hither. and that One hundred Cannarees were then Passing towards the Prince in their way to this Place.

This Morning the Chief had a Visit from the Young Prince, who repeated his Professions of Friendship for the Hoñble Company in as strong terms as possible. He promised to Summon the Nombiars, and to write to the $2^{\text {nd }}$. King of Cotiote and endeavour to have an Interview with him. The Achamars and Heads of the People who bave Aldeas in his Country, he has ordered to keep ready a body of Men, to Scrve the Hcñble Company whenever they may be called upon for that Purpose.

Ola to the Kings of Cotiote. telling them that as the Prince of Cherrica was now at Tellicherry and seemed desirous of seeing their Majesties; he hoped they, the Prince and the Chief shou'd all meet together to Consider and Settle some Affairs, and if thier Majesties were inclinable to have an Interview the Chief requested they wou'd let him know.

The Boyanore sent an Answer to the Chiefs letter of the $25^{\text {th }}$. Ulto. wherein he expresses a concern at the different Reports relating to Fort $\mathrm{S}^{t}$. George. and says his Friendship with the English Company is of a long standing and not of Yesterday. and that on his part no room shall be given for a breach of it, That if there is any difference between the French and English Companys in these parts, he shall do evry thing in his Power to Serve the English. and in Order to consider of Affairs as the Chief requested Urally Chandu Nair and Alam Mamy to Tellicherry. he adds that he is informed there is at Anchor in Cannanore Road, an English Ship which has brought Horses to dispose of. And desires the Chief to buy and send him a White Coloured One, promising to pay for its Cost. In Answer to this the Chief told him he wou'd enquire about the horse he desired. and endeavour to buy One for him.

## A Rajadore and Cunisieu the Old Cardamom Merchant came to the Chief from

 the Kings of Cotiote agreeable to our request. In discourse with them they told him that the two first Kings being differently Disposed. One to favour the French and the other to Serve the English they called a Council together of their Head People and therein Resolved that it was for the Interest of them and their Country to keep in Friendship and Peace with both Companies, and that therefore they wou'd lend the English some Men. as they had already done the French. But to shew their Superior regard for our Company, they had Agreed to let us have the greater Number by a fifth part. To stand Neuter and not lend their People to either of us As they were desired, they said their Masters wou'd never Consent to, because both Companies had been their Friends at different times and obliged them on several Occasions, particularly the French who $\bar{h} a d$ lent them large Sums of Money, which remained yet unpaid and in the Conclusion of the Conference they very frankly insinuated that the two Kings woud so far consider their Interest as to get what they cou'd from us both they being poor and having very few other ways of getting Money. This they said was their Merchandize, and they must have a Profit in it, as well as the Company had by their Trade. The Chief then finding they only
## - NOVEMBER 1746 -

considered their present Interest and that they were Resolved to make all they cou'd out of both French and English, and judging that while they continued in thisDisposition, neither of our Companies cou'd benefit by the Loan of their Men, commended the Rajadore for his Sincerity in so freely declaring the intentions of his Masters, and told them that he hoped they wou'd be equally Sincere in the Performance of any Agreement that they might hereafter make with us, and then referr'd them to the Old Linguist for what the Chief had further to propose to them. who was directed to see if those Kings were to be brought orer to our Hoñble Masters Interest solely by means of a hansome Present and what Sum they expected. they say plainly that till something certain is Agreed upon, between their Masters and the Chief as a Preliminary Article they will avoid any meeting or Interview with him and the Prince of Cherrica because of the Umbrage which the same may give to the French at Mahie who at present are their very good Friends.

him him and the Kings of Cotiotes Rajadores as above related and since those Powers are determined to Sell their favours to the highest bidder and that at this juncture it appears absolutely necessary to prevent if possible their Acting against us, It is Agreed that we endeavour to know from the said Rajadore, what it is his Masters expect for their favour and what Service they intend to perform for the Money. as to their lending the Hoñble Company their People, the same can be of no real benefit to us, unless they will withdraw those who are now with the French and Promise to send them no more.

As the Cannaree Subedar at Mattaly Fort and Ishmael Caun who engaged to Enlist Seepoys for the Hoñble Company are very Dilatory and backward in sending them down and not knowing but that we may have occasion for their Service very Speedily. Resolved that Ensign Bilderbeck be dispatched immediately to Mattalye, with Orders to hasten the People down and to Adrise the reason of so great delay.

The Tirees who Inhabit the Island of Durmapatam, having for some time been obliged to do Duty at the Camp, complain of it as a hardship by hindering them from Cultivating their Salt Panns which at this time require their Attendance and care. This being duly Weighed and considered as well as the evil Consequences that rou'd attend our excusing them. All the Tellicherry Nairs and Tivees having much the same Plea, they being taken away from Attending to the Cultivation of their Grounds and Trees. It was Agreed that the Durmapatam Tivees, shou'd still continue (as the other Tirees did) to Duty in the Camp and that they shou'd be considered for it in an equitable manner out of the Rent of their said Salt Panns according to the Damage they may Sustain at the end of the Season.

The Boyanore having Wrote to the Chief to buy him a Horse out of the Armenian Ship now at Cannanore as Noted Yesterday and although he Promises to Pay for it yet we are given to understand that it will be very difficult to get the Monev from him. On the other hand shou'd we refuse to Oblige him at this Juncture it may hare an ill influence on our Affairs. And as he is the Pormer of mhom the French are most Jealous and Afraid, and one that the Hoñble Company shou'd keep Attached to their Interest as much as possible; It is Agreed that we endearour to buy a Horse and send it to him with an Account of the Cost thereof, but

## - NOVEMBER 1746-

that we forbear to demand the Money till a proper Opportunity, and in case the Situation of Affairs should hereafter render it necessary for us to make him a Present of it. that then we give it to him in the Name of the Hoñble Company.

Received from Callicut by a Munchua four hundred Bales of Chunam. $150!_{0}$ Billets of Wood. and two hundred baskets, Amounting with Charges to Rupe ${ }_{2}$ 123. 1. 0 .

The Chief had a Conference with the Boyanores People, who Assure him $\mathrm{th}_{\mathrm{ht}}$ their Master is entirely in the Hoñble Companys Interest, and that whenever they shall send a Force to drive the French out of his Country, he will be ready $t_{0}$ join and Assist them in it. but seems to think he cannot with safety to himseif Engage against them, untill the Hoñble Company are prepared to Support him $\mathrm{in}_{1}$ a proper and effectual manner.

Notice was brought us that Ishmael Caun had Embarked at Mattalye with his People designed for this Place, but instead of coming hither as he had engagec to do, he went to Mangulore, and there entered into the Portugueze Service, from thence he departed with his Family for Goa, or some Place to the Northward.

Wrote Instructions to Ensign Bilderbeck agreeable to the Consultation or Yesterday, and sent them to him at Maddacarry, with Orders to proceed immedi: ately to Mattlalye and hasten away the Seepoys Enlisted for this Place.

Imported the $\mathrm{S}^{t}$. Antonio a Portugueze Snow from Mozambique. She belongs to Demaun, and was bound to Goa, but being drove to the Southward of that Port, they bore away for this Place.: one Joseph Olivero commands her.

Received from Callicut one Munchua of Firewood containing 40000 billets at $2 \frac{1}{4}$ Rupees ${ }^{\mathrm{F}} \mathrm{F}$ Mill and another Munchua of Wood to be Paid for according tc the Number of Billets delivered here.

The Chief received Answers from the $1^{\text {st }}$. and $2^{\text {nd }}$. Kings of Cotiote to the Letters Wrote them the $31^{\text {st }}$. of last Month. They say when their Rajadore \& Cuniseu, who are now at Tellicherry returns to them with an Account of their Negotiations, they will then come to a Resolution concerning the meeting which the Chief desired.

Wrote Francisco Dias at Callicut to send up 25000 Mats for Embaling Pepper and to provide no more Wood as we had already a sufficient Quantity.

Recerved from Callicut in 8 Toneys 16 large Timbers, Amounting with Charges to Rupees 791. -. 65. And 3 Munchuaes of Firewood to be paid for according to the Number of Billets delivered here.

Arrived the Futte Mombarrack Express Boat from Bombay with a Letter from Thursthe President and Council there to this Settlement dated the $28^{\text {th. }}$. of last Month pay 6rra $^{\text {re }}$ of which the following is Extract.

Express
Boat from
Bombay.
They advise us that they wrote us last by an Express boat the 3d. Instant, Extract of and now enclose us its Duplicate. That Boat they sent purposely for us to Communicate such important News as Occurred, and as they think it necessary we shou'd have another for the like Purpose they sent this, to be returned when we think requisite. By advices from various parts they imagine that the News of the French's having taken Madrass (as the Chief wrote the President) is true. and it is reported their next Designs are against the Companys Pepper Settlements, and their Place. which whether true, or not, it Behoves both them and us to be on the Guard, As to sending us more Men and Ammunition, they have supplied us as welly [sic] as their Circumstances will Permit them. That with regard to the Article of small Arms mentioned in our Indent Signed by our Storekeeper, Captain Commandant and Gunner (which they say ought to have been Signed by us all) they find on comparing their Indents to England with those Supplys they have received were very far short of their demands, in so much that they are low themselves Owing perhaps to the Non-Arrival of the Europe Ships. In order to Strengthen ourselves they allow of our Enlisting such a Number of Topasses as we think proper \& repeat their recommendations to us, to be on good terms with all the Country Powers, but especially to get the Prince on our side to join with us against the French shou'd they attempt any thing against this Settlement, and the part they before judged proper for us to Act with the Boyanore, and the Nombiars \&ca. they again recommend, and doubt not our making a good Defence shou'd we be Attacked. As they do not think it prudent to send their Grabs this way, they Order us to put as much Pepper in such Europe Ships as may call here in their way thither as they can take in, and in case there shou'd be no News of a French Force to the No. ward of us they gave directions to us, to Freight the same Article on board such Country Ships as are bound thither, or to Surat on reasonable terms. And as from Our Advices the $20^{\text {th }}$. of August they find we expect an uncommon Plentifull Crop of Pepper this Year, which they Suppose may probably be Purchased at a cheaper Rate than heretofore, they wou'd only have such a Quantity of this Article Reserved as with what we may Send thither will make up 3000 Candies by the $20^{\text {th }}$. of April, \& Direct that we Sell the remainder on the hest terms we can. With regard to our Money, they refer us to a Letter the Presidenti now writes the Chief. Mr. Whitwell informed them, that they did not stand in Need of the Plank and Joices at Gombroon, as was mentioned in their Indent $\mathcal{P}$ Prince of Orange therefore we need not provide them, hut if already Purchased to let them remain at Callicut as they may be of use to them there. Direct the Packet for Anjengo be forwarded to Ezekiel Raby for whom is a Letter likewise from the President.

A three Mast Ship Passed to the Northward under Dutch Colours and Anchor- A Ship ${ }_{\text {passed to }}$ ed in Cannanore Road.

Received a letter from Ensign Bilderbeck at Mattalye, wherein he says that Friday Bassapa Naiq[ue] the Subedah is exceedingly enraged with Ishmael Caun for his Roguery, in taking our Service and then going away to the Portugueze \& seems to lay great blame on the Portugueze Factore at Mangulore for entertaining him after he knew he was engaged to the Hoñble Company, that the said - Bassupa Subedah appears very much inclined to Serve us, and has sent his Writer to hasten from Mangulore One hundred \& fifty Men, who are ready there to come away, that two hundred Pagodas are gone to Pay them, \& they are expected in two days. The Ensign therefore desires that Munchuaes may be sent to bring them down by Sea, as most expeditious \& if we want more Men, he says the said Subedah will give Orders for procuring them and Promises on all Occasions to Serve the Hoñble Company to the utmost of his Fower. He adds that the Subedar expects a Present, and as he cou'd not Approach him empty handed he had given him a Fuzzee of his own, and believes that it wou'd be proper something else be sent to him from hence more Money he says is wanting as Salvadore Lobos has only seven hundred Rupees left, \& the People expected from Mangulore are all to be Paid their Advance Money.

Answered the above Letter from the Ensign and sent him by a Toney 1500 Rupees more for Enlisting good Men, which le is directed to deliver into the hands of Salvadore Lobos. we likewise sent a Present of One pair of Pistolls, one piece of China Silk, and $2 \frac{1}{2}$ Yards of Scarlet broad Cloth, to be by him delivered to Bassapa Subedar in the Name of the Hoñble Company, and promise that the Ensign shall be Paid for his Fuzzee. Two Munchuaes go also to bring down the People and he is told that 150 Men are enough for the present.

Wrote Francisco Dias at Callicut that such part of the Plank and Joices Lre to ordered for the use of Gombroon Factory which were yet unprovided he was to Francisco let alone and not procure them, as they had now no need of such things but that Calliout. what was already brought shou'd be kept till further orders.

Received a Letter from the Chief \& Factors at Anjengo dated the $27^{\text {th }}$. of Lre from last Month advising receipt of ours the $22^{\text {nd }}$. with the Treasure and hope for the Anjengo. future the People will be more cautious, and not put on Shore to run the Risque of the Money and their Lives, are sorry to hear we cannot Spare them the Guns they want, but as we have wrote to the Presidency [sic] for them, when they Arrive they will send a Vessel to bring them down, if we can Spare them some Shells of eight Inches they desire we wou'd, having none to fit their Mortar, they Advise Mr. Bourchier has Communicated to them the Contents of Mr. Hind's Letter.

Wrote to the Chief and Factors at Anjengo that we shou'd send down the Lre to Anchor as soon as a proper Conveyance offered, and shall Credit their Factory eight Anjingo. Rupees Advanced to the People of our Munchua, that we now sent them a Packet received Yesterday from Bombay, and have dispatched the Barge to bring up Mr. Lane and his Family. In a Postcript we acknowledged Receipt of their Letter of the $27^{\text {th }}$. Ultimo and agreeable to their Request have sent them thirty eight Inch Shells their Amount being Rupees, Forty four two Quarters \& twenty Reas (R. 44.2.20) and desired them to send us what useless Sheils they have, we having Mortars here of several Dimensions without a sufficient Number of Shells for them and acquainted them we had received no further news concerning Madrass.

Advices are arrived from the other Coast which say that about the beginning Advice of a of last Month there hapned a Storm at Madrass, and that out of nine French Ships then in the Road only four were to be seen after the Wind abated and the Weather cleared up. The rest were all foundered or drove ashore and most of their People lost. This was rumoured about many days agoe, but no great credit given to the Report.

Saturday THE $8^{\text {TH }}$

The Young Prince came to the Fort and told the Chief that as the Water of the Place did not agree with him, he would go and stay at Maplingat where he would get together all the People he could and send them hither to serve the Hoñble Company. That if the Chief at any time sent to him he promised to come at a few Hours warning, and when our occasions did not require his continuing there he desired the Chief would let him know that he might go back to Cherrika. He complained of the Achamars for not paying him their usual Acknowledgments. and wants our consent to collect their Rents at Rhandoterra. He likewise desired Fire Arms for the People he had sent us and seemed to expect we should furnish them with about two hundred at least, In answer to this Discourse the Chief told his Highness, that he was very well satisfied with his going to Maplingat since theWater of Tellicherry disagreed with him and that when his presence here becamenecessary we should take the Liberty to advise him. That we had only Fifty Musquets to spare, which his People should have to distribute according to his Order, And as his collecting the Rents of Rhandoterra we hoped his Highness would not think of it untill the Achamars had discharged their large Debt to the Hoñble Company; the Chief however promised to speak to them about the Affair. He then took his leave and was presented with sixty Fanams and his Rajadores: with twenty seven Fanams He was also saluted in the usual manner at his Entrance into the Fort and on his Departure.

Letter from the Young Prince at Maplingat Maplingat about the
Achamars.

The Chigf received a Letter from Governour Morse dated Fort $\mathrm{S}^{\mathrm{t}}$. George the $1^{\text {st. }}$. of October advising no more than that there were three French Ships arrived at Pondicherry three days past from Europe but last from Mahie that they are to be under the command of Monsr. La Bourdanay and tis thought they with the Rest of his Squadron will proceed to the Mallabar Coast and Bombay in a few days. Mr. Hinde likewise wrote the Chief under the $13^{\text {th. }}$. Ultimo that a Gale of Wind hapned [sic] at Madrass the $2^{\text {nd }}$. of October which destroyed there the Duke of Orleans and two more French Ships and that the Achilles with most if not all the rest had cut away their Masts so he imagines their designs on this Coast must vanish, The three Ships who had been at Mahie were ready to sail hither but some of the Enemies Squadron he thinks must go to Bengall as only one Ship (the Insulaire) was gone thither, and She, he hears, was lost in the River with two hundred and Eighty men on board. He concludes with referring the Chief for further news to Governour Morse's Letter but he being silent the following is entered as purport of a Letter from Mr . Hinde to Mr . Bourchier under the $12^{\text {th }}$. Ultimo.
" Mr. Hinde says that Governour Morse writes him they surrendered the "Town on promise of its being ransomed, which Monsr. La Bourdanay Agreed "s should be complied with and accordingly Articles for that Purpose was drawn " out the $28^{\text {th }}$. of September and were to be signed the $29^{\text {th }}$. by which the French " were to evacuate the Town and leave it in the English Possession the $2^{\text {nd }}$. or $3^{\text {rd }}$. " of October. That then Monsr. La Bourdanoi's altered those Articles and the " treaty broke off he being determined to keep a French Garrison till January,
"On the whole continues Mr. Hinde it appears to me no Dependance can be had " on any thing they say now they are in Possession of the Place. He does not " know the Terms of the Ransom only by publick Report from the Dutch and "black People, and is therefore silent on that Head. The French had loaded " on board seven Ships, lying in Madrass Road almost all the valuable things in "that unfortunate Place and were to have sailed the 3 rd. of October last, hut a "Gale of Wind happened that Morning which has totally destroyed three of their "Ships and their whole Company among which is the Duke of Orleans the next
"Ship in force to the Achilles which with two or three more have lost all their
"Masts so that all the Enterprize of that Squadron are overset at once, for some

An Ola was this Evening received from the Young Prince at Maplingat, He says he has sent for the Achamars of Rhandoterra and talked to them concerning the method of gathering the Revenues of Rhandoterra and hopes the Chief will write for them, when four of his People will accompany the said Achamars. If the Chief dont approve of this then the Prince desires he will tell them of his Intention to put four of his People along with theirs to collect the said Revenves. This he says will lessen the Expences and nothing can be done but what is Right and Just. The Hoñble Company will also get the Interest of their Money.

There is no Duty on the Imports of Pepper. The Merchant told him that as there was a Plentifull Crop of Pepper this Year and but few Vessels to carry it away he expected it would fall in January next to seventy Rupees $\overline{7}$ Candy. In Answer to which the Linguist told him he could not sell it for Eighty. The Linguist adds that if he can get a greater Price be will advise us, but the People belonging to the Moors Vessels and Bombaras are more willing he says to buy Pepper at Callicut than Tellicherry on Account of their Brokers who are alrays desirous to augment the Customs of the Place that they may thereby get the good Will and favour of the King Samorine.

In Answer to the above they were told that as the Prince had acquainted the Chief he must be at a very great Expence on the Anniversary day of his Brothers Death and seemed to expect that they should contribute towards it, he the Chief had wrote for them, in Order to reconsider and settle the Affair for theirs and the Companys mutual Benefit, that the Prince might not intermeddle so far as to put his People upon gathering the Rents of Rhandoterra.

The Young Prince writes the Chief that he had sent his Letter to the Achamars and at the same time wrote them himself and they all afterwards waited upon him when it was Agreed that they should go to Tellicherry on the Monday following, accordingly he says his People staid at Maplingat to accompany them but the Achamars never went there, whereupon he sent for them again and finds they still incline to put off their Journey from day to day on "triffling piretences and that they are considering of things which.must be prejudicial both to the Company and Him. That his Enemies hearing of the Companys being in trouble are greatly elated and they commit disorders in the Country, but while they both continue United he thinks they cannot do either of them much harm. He adds that he sends Ananda Narran Pattara, Suben Pattara, and Ambu Writer to consult about his Affairs, and after considering well of every thing he desires the Chief, will give him his opinion thereon.

Conference
with the
Young
Prince.

He desires Customs [on] Cust Arrack [im] ported for Sale.

The Young Prince came from Maplingat and the Chief met him in the Evening at the Old Linguists house and after discoursing of the Affairs in the Country, the Chief thanked him in the Hoñble Companys Name for the trouble we had given him by detaining him near a Month at this Place and Maplingat to countenance their Affairs and get them People. To which he answered that he should at all times be very ready to oblige the Hoñble Company and if their occasions required his return back he desired the Chief would write for him. He at the same time gave the Chief to understand that he thought it but reasonable that all Goa Arrack imported for Sale or Merchandize should be liahle to pay Customs as other Goods do; but as the same was a new thing (though not in itself unreasonable) the Chief told him he would consider of it and give him an Answer the next time they should meet together. And being also informed that the Prince intended to ask for the two Old Guns which were taken from the Moors at the Battle of Innye last Year and are of no great Value the Chief judged it best to make him an Offer of them in the Name of our Hoñble Masters and he very Readily accepted of them. Soon after the Chief departed and left him at the Old Linguists House very well pleased with our Presents and Compliments and determined to set out that night for Maplingat in his way to Cherrika. He had the usual Present of Sixty Fanams \& way [sic] saluted with Eleven Guns as he passed by the Fort although it was then near eight o Clock at Night.

We are informed that the Wake Captain Robert Norton arrived at Anjengo the $16^{\text {th }}$. Instant. She sailed from Bengall in August and was bound to Madrass laden partly with Provisions for the Men of War but touching at Pullicat the Commander got advice there, that the Town had been surrendered to the French, he therefore returned back so far as Vizagapatam where he continued till the middle of October and then came to this Coast.

Conference

\& Orders
thereupon.

Evening with the Young Prince as above related, which is approved and the two Old Guns ordered to be delivered to his Highness. The Board seem likewise to think that we cannot in Equity refuse paying him Customs on all Goa Arrack imported here for Sale since this Article is not exempted here in the Agreement made between the Prince and the Hoñble Company in the Month of May 1734 when the Rate of Customs was settled on all Goods. On the contrary the said Agreement after particularizing several Sorts or Species of Goods says in General Terms that all other Goods not there specified by Name shall pay two \% Cent.

As the Works at Moylan Fort are near finished, and the Ditch at Tellicherry in great forwardness It is Agreed to discharge at the end of the Month all superfluous Workmen particularly those brought from Callicut and Mangulore and other places whose Labour turns out much dearer to the Hoñble Company than what they pay to our own Inhabitants. The Callicut Toneys in Monthly pay are likewise to be discharged.

## - NOVEMBER 1746 -

Wrote an Ola to the Prince advising that by this Toney he would receive the two Guns which the Hoñble Company had promised to give him.

Wrote to the Chief and Factors at Anjengo by a Toney which came from thence, acknowledging the Receipt of their Letters of the $14^{\text {th }} . \& 18^{\text {th }}$. Instant, That we had received the four hundred Shells for which we should credit their Factory Rupees three hundred Eighty Nine two Quarters and thirty three Reas It was with great Satisfaction we. heard the Loss of the French Ships confirmed, and as none of those who escaped the Storm do yet appear on this Coast, we imagine they are gone some other way and are rendered incapable to do our Hoñble Masters any further Mischief. That the Fort St. Davids General Letter we transmitted to Bombay the $26^{\text {th }}$. Instant by the Ilchester, As the Nabobs Son had beseiged Madrass we were in hopes soon to know what he designs to do with the Place should he take it. We advised them of our having supplied this Toney with Necessaries Amounting to Four Rupees Ninety two Reas for which we desired they would Credit this Factory.

Dispatceed a Pattamar to Fort St. David's for Intelligence and to advise the Gentlemen there that no French Ships were yet come upon this Coast.

Notice is brought that on the 27 Instant in the Morning Angria's Fleet consisting of Nine Grabs and about forty Gallevats, Boats and Vessels arrived at Mangulore; that the small Craft at break of day run directly into the Harbour and landed their People without any Opposition except a few Guns fired at them from the Portugueze Fort and from a Northern Boat or two which did little or no damage. They immediately fell to plundering the Town and loading their Vessels with the Spoil, and after continuing in the Place unmolested all that day and the whole Night, they the next Morning reimbarked themselves on board their Gallivats and Boats and joined the Grabs which lay all the time at Anchor in the Road. At about three o Clock in the Afternoon they weighed from Mangulore Bar and stood after two Ships which were then in sight to the Northwestward, and which we judge might be the Ilchester and Fukero Moracub that sailed hence the $26^{\text {th }}$. Instant. but whether they were able to do them any Mischief or not we have no Account. It is positively said they were attacked from the Number of Guns which had been heared by the Fishermen. The People at Mangulore on Angrias landing, all fled up into the Country carrying along with them such things as were portable, and among the rest went the Portugueze Factor and the few Men that were with him leaving the Fort open and defenceless. The Enemy immediately took possession of it and found therein (if Reports are to be Credited) a very considerable Booty in Copper and ready Money. In other parts of the Town they found likewise abundance of Goods, such as Pepper, Sandall Wood, Dates, Sugar, Piece Goods \&c ${ }^{\text {ta }}$. all which they put into their Boats and carried away.

Wrote the Callicut Linguist to send up twenty five thousand Matts for embaling Pepper and all the Cardamom Chests as soon as possible. He is also Directed to adjust the Account of Necessaries sent hither agreeable to the Notes given at this Place on receipt of them. We likewise tell him that we could get no Iron out of the Europe Ship for the Samorines Use as what She had on board was in the bottom part of her Hould.

The Young Prince acknowledges the Receipt of the two Guns and writes the Chief to pay the Mucquas of the Toney as he had given them nothing.

Received a Letter from the Callicut Linguist of Yesterdays Date. He says the twenty five thousand Matts to embale Pepper shall be sent by the first Conveyance; that sixteen Cardamom Chests are Ready and the remainder are making with all Expedition that he is adjusting the Factory Accounts for last Month and so soon as they are finished he will send them up, but that his Sickness prevents his sitting close to Business.

## Received from Callicut by a Munchua fifteen thousand Matts cost with Charges ${ }_{\text {Matte }}^{\text {receive }}$ Rupees One hundred Eighty One \& a half.

The Chief had a Conference with a Tiriumbu whom the Kings of Cotiote had sent to hear what Proposals we had to make them in behalf of the Hoñble Company. He was first desired to let us know what his Masters expected for their Friendship and Alliance Offensive and Defensive; to which he answered, that we should pay the Debt due from the Kings of Cotiote to the French Company being Sixty thousand Rupees ( $\mathrm{R}^{\mathrm{s}} .60,000$ ) and assist them on all occasions against their Enemies in the same manner the French Company do; otherwise the said Kings could not engage with our Company lest the French should immediately call upon them for the Money and insist upon present payment. In Reply to this the Chief told him that as to discharging the Debt to the French he must not think of a thing so greatly unreasonable nor ought he to believe that we can promise to assist him in case he should have any Quarrell or differences with the Prince of Cherrika. But if the Kings of Cotiote will undertake to join the Hoñble Company with all his Force against the French in case we should attack them, And that we should by his help succeed in driving them out of Mashie, they should be paid after the performance of the same and not before the Sum of One hundred thousand Fanams or twenty thousand Rupees. On the other hand if the French should ever come here with so large a Force as to be able to block us up in our Forts and the Kings of Cotiote should by their timely and effectual Assistance contribute so Powerfully as to oblige the Enemy to raise the Seize and March off In such case likewise they should be paid the said Sum of One hundred thousand Fanams after the Business was compleatly finished and at giving us the Ola or written Agreement he should have a Present from the Hoñble Company of fifteen hundred Rupees. The Tiriumbu did not seem to relish this Proposal, he however promised to acquaint his Masters with it and then took his leave telling the Chief he would return again in a few days. He was presented with One hundred Fanams.

Many of the Princes Nairs desiring to be discharged in Order to go and attend to their private Concerns \& as no great Benefit can be expected from them while they serve unwillingly they were permitted to return to their own habitations and thereby their Numbers are reduced to four hundred men of which two hundred remained in the Camp, One hundred at Durmapatam and One hundred at Madapara and Mattamy.

Sent Narran Cutti Pattara to the Achamars to assist in Collecting the Revenues Friday of Rhandoterra and wrote them that he was come for that Purpose as they Requested.

Wrote to Francisco Dias at Callicut agreeable to our Resolution in Council this Morning and further told him to advise us the Price of Mangulore Rice in Callicut and the Quantity vendible there; Also that we wanted ten more Cardamom Chests, over and above the Number already Ordered to be provided, as likewise twenty Pieces of Blue Bunting fit for Colours which he must procure and send up as soon as possible.

Received from Callicut per Munchua twenty Cardamom Chests.
Answered the Young Princes Ola received Yesterday, The Chief told him that his Highness had no occasion to write to him to punish Comapa Nair as his Juncanier Changarah Putterah had taken out of the Hoñble Compys. Camp, several of the Nairs which his Highness had sent for their Service without the Chiefs Knowledge and Consent and Ordered them as a Guard upon Comapa Nair, And when the said Changarah Putterah was asked why he did so, he answered that he had your Highnesse's Directions to do any thing in this District. This the Chief added was treating the Hoñble Company very ill and quite contrary to our Practise when we lend their People to his Highness who have always Orders to obey his Commands only; and if the Nairs are to be called from their Duty at the Camp whenever Changarah Putterah pleases to send for them they can be of little use to the Hoñhle Company, that his Highness may remember when the Chief wanted his People from Ramtilly Fort he wrote first to him to send them and that it was by his permission they came away from thence. That Changarah Pattarah by taking the People from our Camp and putting them as a Guard over Comapa Nair in our District without the Chiefs Consent or knowledge had highly affronted the Hoñble -Company and that therefore the Chief expected his Highness would give them a reasonable Satisfaction, by shewing a proper Resentment against him.

Imported in the Evening a Portugueze Frigata Captain Roberto Homen a frigata D'Magathanes from Goa. Her Name is the Penha and it is said she is come to carry up the Mozambique Vessel and to take in Tobacco for the Goa Farmers. By .her we are informed that the ViceRoy has taken Reddee from the Bonsello or Kempsaunt and all his Fleet of Grabs, Gallivats and Prize Vessels, to the Number of six Grabs, four Merchant Vessels and about twenty Gallivats \& Boats.

The Young Prince writes the Chief that Changarah Putterah had only taken Notice of the Return of a Guilty Person to his Country as it was his Duty, but that if he has done any thing contrary to the Custom of the Place and which may offend the Chief he will Punish him. That however Comapa Nairs coming into the Country without his knowledge ought to be noticed by his Servants as the Chief must allow.

Recerved an Ola from the Young Prince wherein he says that he has wrotetwice or thrice about Comapa Nair notwithsanding which he hears he is still in Tellicherry and the Chief he says cannot be Ignorant of the Discredit it is to him that a Person who has been once turned out of the Country should return again without his Consent.

In Answer to the preceeding Letter the Chief wrote the Prince that as His. Highnesse's People had taken that Affair in hand without ever advising him thereof they might now finish it in such manner as his Highness thinks fit to Order. That his Highness's Servant had done things contrary to the Custom of the Country and thereby in a very high degree affronted the Hoñble Company. That his said Servant Changarah Putterah had also been very impertinent to: the Chief and altho' Complaint had been made and a suitable Satisfaction desired, yet his Highness had taken no Notice thereof which the Chief told him was not consistent with the good Friendship that subsisted between him and the Hoñble Company. this Evening and brought the Chief a Letter from Mr. John Hinde dated the $1^{\text {st }}$. Instant as also a Packet for the President and Council of Bombay to be forwarded from this Place by the first Opportunity. Mr. Hinde. only says that the French were determined to make a Tryal for Fort St. David before our Men of War could come to their Aid; but One Accident or other has kept them off. Their being well provided for their Reception and the Moors being also so near them may he thinks have determined them from attempting their Fort, and if they should attack it he hopes to be able to hold out till he is Succoured. He has not he says had a. single line from Bengal since the beginning of August and in a Poștcript. he adds-

## ——DECEMBER:1746._

that News was just then brought to him that Monsieur Paradis was on his way from Madrass to Pondicherry in Order to beseige Fort St. Davids and that the Moors had attacked him and some say he is taken.

Received a Letter this Morning from the Chief and Factors at Anjengo dated the 15 Instant ${ }^{\circ} \mathrm{P}$ Toney enclosing $a$ Packet for the President and Council of Bombay to be forwarded from this Place \& advising that they had received our several Letters to them of the $17^{\text {th }}$. and $28^{\text {th }}$. Ultimo and $7^{\text {th. }}$. Instant. They were concerned to find Angrias Fleet had done so much Mischief at Mangalore which they hope will not effect the Rice, Grain being likely to be very dear with them for want of Rain. They were pleased to hear of the Ilchesters being so far to the Northward as Goa and hope by this time she is safe at Bombay. That they should Credit this Factory Four Rupees One Quarter and Eighty one Reas (Rs. 4. 1. 81) for what supplied their Boat and as the People of this Toney have been advanced One Rupee desire we will debt ourselves for it. They advise us of Mr. Bourchier's having received a Letter from Mr. Hinde wherein he says that though he is continually alarmed by the French yet doubts not should he be attacked of holding out till Succours arrive from Bengall.

The Achamars being come hither as they were desired and they complaining that the Prince had laid an Impediment on some of their Grounds which hindered the Collecting of the Revenues, the Chief wrote to the Prince about it and told him that notwithstanding his Rajadores the Achamars and the Chief had sometime ago settled and Agreed how the Revenues of Rhandoterra should be gathered and distributed and that the said Rajadores promised no Impediments should be laid on any of the Grounds, yet the Achamars now complain of Stoppages and hindrances from his Highness. The Chief therefore requested to know the reason of it and desired that all Obstacles might be removed otherwise his Highness would lose the fourteen thousand Fanams which the Achamars had promised him and the Hoñble Company be rendered unable to get the payment of the Money due to them from the said Achamars.

An Ola from the Boyanore to the Chief was this day received wherein he says that as Narrangaporatu Nair had a disagreement with the Old Linguist he left Tellicherry and came to his Country where he has continued a long time: That now he hears the said Nair is gone back to Tellicherry and that since his being there the Old Linguist has got the Princes People to apprehend him. And as the House of the said Nair is under the Protection of Tellicherry Fort he desires the Chief will defend him from all harm, He adds that as he is Interested in his Welfare he should be glad the Chief would endeavour to procure his Continuance in Tellicherry with Safety.

In Answer to the foregoing Letter the Chief wrote the Boyanore that when his Lordship formerly interceded in the behalf of Comapa Nair he was told in Reply $23^{8 \mathrm{~b}}$. that the said Nair had for his evil deeds against the Hoñble Company heen by the Answer Prince of Cherrika and the late Chief turned out of this Place and as he is now thereto. returned without the knowledge and Consent of either of us, and that the Prince of Cherrika has desired he may be again sent away the Chief cannot permit of his continuing in Tellicherry. And that as his Lordship seemed to have a regard for him he would do well to persuade him to go quietly out of the Hoñble Companys District otherwise we should be obliged to use severe Measures and send him away by Force, which we should be sorry for on Account of the favourable Notice his Lordship had taken of him.

Recerved from Callicut per Munchua Eight Cardamom Chests.
Received an Answer from the Prince to the Letter wrote him Yesterday. He Princes says the District called Caddamburree belonged to Madday Nambuddy at whose Death the said Place fell to him, yet the Achamars want the Revenues of it, which Death the said Place fell
if the Chief desires he will give up: That he has only put. an Impediment on the Randoterra: District belonging to himself and on no other Place the truth of which the Chief may know by Enquiry.

A Ship seen off Callicut.

Recerved a Letter from the Callicut Linguist dated the $22^{\text {nd }}$. Instant by a Callicut Munchua on which he had sent seven hundred Bundles containing Seventeen: thousand five hundred Matts for embaling Pepper and Four hundred and thirty Baskets which cost with Charges Rupees Two hundred and sixteen. As to the King Samorines Debt the time that he promised to discharge part of it, is past as we, he. says, very well know, and by what he can see and can learn from his Ministers the King does not intend to pay his Debt this Year, nor does he know whether he will pay it hereafter unless the Hoñble Company press him hard. At present he is taking Money by Force from several of his Ministers for the Charges of the War as likewise to bear the Expences on Account of the Anniversary of the late King and Queen Mother which will be in the Months of January and February, that therefore it will not be proper to ask for the Debt till these Ceremonies are over. As to the One thousand Bales of Mangulore Rice which the Shopkeepers promised to take at Eighty four Rupees ${ }^{\circ} \mathrm{f}$ Corge they afterwards he says Refused to stand to their Bargain that however by one Means or Another it is at last adjusted for theabovesaid Price the Money to be paid thirty days after Delivery in Rupees or Fanams according as the Exchange than Governs; the Charges of landing Customs: and Cooley hire will Amount to One Rupee and a Quarter ${ }^{7}$ Corge which reduces the Net Price to Rupees Eighty two and ihree Quarters per Corge each Bale to turn out fifty five Callicut Measures. He desires we will send in this Munchua such a. Quantity as she can take in and the remainder in any other Munchua, but requests the Bales may be well Conditioned, the Rice good and the Measure full to prevent all Complaints and Trouble from the Purchasers. There arrived he says this very day two Munchuas laden with Rice which is not yet sold. He adds that a Ship then appearing in Sight he sent a Toney off to her and finds She is an English Ship from Bengall. A Note which he received from the Captain of her he encloses to us.

The abovementioned Ship is the Wake Captain Robert Norton who arrived at Anjengo the $16^{\text {th }}$. of November as noticed in this Diary under the $26^{\text {th }}$. of this Month.

All the late Crop of Pepper being now brought in from the Country an Account of the Quantity and Value due from our Merchants on our last Contract as entered hereafter is laid before the Board by which it appears there remains outstanding One hundred and seven' Candies, seventeen Maunds twenty eight Pounds and a Quarter (107.17. 28 $\frac{1}{4}$ ) of Pepper, And the Merchants having been Ordered to attend are called in and asked their Reasons for not complying punctually with their Engagements. To which they answer that they have met with several hindrances from the French and Nombiers and that there was not the Quantity in Country which they imagined when they took the advance Money. They were then told, that they must pay back the Balance of their several Accounts with Interest thereon from the day they received the Money but this they objected to as uncostomary. And after a great deal of time spent in arguing and reasoning with them, they were brought to promise payment of their respective Balances according to the said Account (which they acknowledged to be just) in new Pepper with a Mulct of six Rupees on each Candy and to give their several Dlas for the same payable in all the Month of February. This the Board Agreed to accept being an encrease of three Rupees ${ }^{\circ} \varnothing$ Candy in the Mulct more than they usually paid on such deficienies, Tycandy Cunially one of the Merchants is absent, but it's judged he will not scruple agreeing to the above Terms, And as he is also Our Cardamom Merchant and that the time for delivering them draws near it is Resolved that we send for him and demand the Cardamoms.

The Modeliar of Billiapatam having sent two Persons named Cuni Pocra and Curiquel to call away their People from our Camp in Order to accompany the Prince, the Chief wrote him that he should be glad if he could permit them to remain some time longer in the Hoñble Companys Service, but if not to advise him.

Received an Ola from the four heads of the Achamars complaining that Wednesalthough they had Agreed to give the Prince this Year Five thousand Fanams and day 318r. Nine thousand more on Account of the Anniversary Charges of his deceased Brother making in all Fourteen thousand Fanams in Consideration whereof he promised no Molestation should be given at Rhandoterra or in the Pagodas belonging to it, yet he now says they shall not Collect the Revenues of Five hundred Parcels of Ground in the District of Cademburi and has taken off the Impediment they put there, so that the People belonging to the District begin to gather the Pepper. He further alledges they say some ill Grounded Reasons for not permitting them to gather the Pepper and Neally belonging to Talavil. That the Prince has also laid an Impediment on some of the Oarts belonging to the district of Palari which has hindered them from gathering the Pepper there. That he has tyed Four or Five Elephants in Rhandoterra and Ordered the Olaes and Fruit to be gathered from Trees belonging to themselves and others which used not to be done formerly. And as the Compy. say they have lent Money on their Grounds they imagined His Highness would not Molest them. To prevent Trouble to the Company and themselves they Agreed to give the abovementioned Sum this Year to the Prince notwithstanding which he oppresses them and their Country; they therefore desire the Chief will consider of their Case and advise them what they must do. They add a Request that six Calliquiloners be sent to assist Cutti Putterah in Collecting the said Revenues and promise to give them their Provisions \& Charges.

Answered the foregoing Ola and told them that we some time ago wrote the Prince concerning the damage they Complained of and his Answer was sent to them by Cutti Putterah. That however for their better information they would now receive a Copy of the Princes Ola, And we promised them to write once more to the Prince concerning this Affair and to acquaint them with his Answer. We sent them six Calliquiloners and told them that Cutti Patterah knew what should be given them for their Charges.

Wrote also a Letter to the Young Prince and sent him a Copy of the Achamars Ola desiring him to remove all Impediments \& hindrances that may anyways obstruct the Collection of the Revenues at Rhandoterra as the time for gathering subjeot. them is now at hand and no delays ought to be made.

Ter Young Prince writes the Chief to send him One Candy of fine Gunpowder Prince and half a Candy of Cannon Gunpowder One Candy of Lead and three hundred Shott agreeable to the Muster he formerly sent and the Amount of them he says Changarah Putterah will pay for. He further requests two handred Nairs and Calliquiloners, two Mortars ten Soldiers and two Gunners and says in Case there should be any Alarm at Tellicherry he will immediately send back the Companys People together with all his own Men.

Triree Ships appear coming to the Southward.

Answer to the Princes Ola reced Yesterday.

Lettar fram Anjengo.

Axswered the Young Princes Letter received Yesterday and told him that His Highness had from us last Year a large Quantity of Gunporder and Lead, that as we have had no supplies from Bombay since February we could very ill spare any of those Articles, that however his Highness should not want them at this Juncture of time since his Necessities were great. But as to Men and Mortars we could not let them go any Distance from our Forts yet amhile.

Recerved a Letter from the Chief and Factors at Anjengo dated the $25^{\text {th }}$. of last Month advising that Mrr. Bourchier had receired a Letter the Night before dated the 5/16 Instant from Mrnheer Golonesse Governour of Columbo importing, that our Hoñble Masters Ship Brittania Captain John Semner had arrived at Gaalee haring been drove about at Sea for fourteen dars in the utmost ditress from the Nun:ber of Men she had lost and were Sick but that the said Governour promised, she should not rant any Assistance. This Notice they thought proper to serd us ihat we might procure a proper Person for narigating a Sessel down to her with Marines which they are unable to do.

The Sasobine of Callicut wrote the Chief that Thursday the $\mathbf{2 n}^{2}$ nd. of January 1746/7 is the Anniversary day of his Uncles Death On which Occasion he will mant a Candy of Sugar and desires it may be sent him so as to arrire in Callicut br the $15^{\text {th }}$. of January.

Assmered the Samorines foregoing Ola and told him that in a fers days weshould send a Gentleman dorn to stay at Callicut who would be fully instructed concerning all needfull Affairs relating to his Majesty and the Hoñble Company.

Recerred an Ola from the Prince. He says the Achamars Ola to the Chief he has received and observes that they complain of his hindring them from gathering the Revenues of Rhandoterra. After the death of Cadambu Manatu Nambiddy His House and Effects fell to him as Prince of the Country and in Order that the same might be taken care of he sent his People there but denies that there are so many as four or fire hundred Oarts belonging to it. There was he says a Complaint made to him from Talaril and he sent for the People and Ordered them to pay their Rents and assigned the Overplus to their Creditors; He ought he says to hare from an Oart in Pallari a Pension, and as the People there had not paid him he had laid an Impediment on the Grounds which the Achamars took off in presence of his People and for which he has not yet taken Satisfaction. I have not adds he laid an Impediment any where except in the Places abovementioned nor has heendearoured to get any thing else in Rhandoterra. He concludes that neither himself or People will hinder the Collection of the Revenues and should the Achamars - write any thing against him he desires the Chief will give them no Credit.

Received late in the Evening by a Toney a Letter from the Chief and Factors Lettor from at Anjengo enclosing a Packet which they had received from Fort St. David for the Anjengo, President and Council of Bombay. At the same time we learn that on the $8^{\text {th }}$. of December the French from Pondicherry with One thousand Regular Troops, two hundred Peons with several others marched within a Mile of the English bound Hedge and afterwards by means of their Cannon forced their way to the Garden house at Fort St. David when the Moors and English advancing upon them they were put to the Rout and had two hundred Men killed and Wounded. All the Enemys Tents, Ammunition, six Camels two Mortars with their Shells, three or four Drums, two Chests of spare Arms their Provisions Pallankeens \& every thing they had fell into the Nabobs hands except the Cannon which ti's thought were buried, The English and Moors had only five or six black People killed and fifteen or twenty Wounded. The Enemy lost three or four Officers of Distinction yet they threaten to pay them another Visit. They also write from Fort $\mathrm{S}^{\mathrm{t}}$. David that on the $5^{\text {th }}$. of December our Hoñble Masters Ship Houghton Captain Worth appeared -off that Port who though consigned to the Coromondell Coast and had positive Orders sent to him from the Deputy Governour to bring ashore his Parket and Treasure went away with both and wrote the Gentlemen that he would go to Batavia or Ceylone.

## To Me. Alexander Docglas

Sth
You having been appointed to go and reside at Callicut to take care of our Hoūble Jasters Factory and Effects there You are herebr directed to proceed thither for that Purpose; And on your Arrival demand the Charge thereof from Francisco Dias to whom we have nrote directing him to deliver over the sime to You. Our Letter to him you'l find hererrith enclosed and as the said Linguist has had leave granted him to come hither for his health you may permit of his embarking whenever he chuses it.

## —— JANUARY 1746-47 —............

The Samorine has lately wrote to the Chief for a Candy of Sugar to be sent him against the $22^{\text {nd }}$. Instant which he says is the Anniversary day of his Uncles Death. And as we have Agreed to give it him we now send the same down with You, to be delivered at such Time as you judge most proper.

By some late Regulations at Callicut our Hoñble Masters Business has been impeded and loaded with additional Charges particularly by obliging us to weigh our Goods twice over and detaining them under that pretence at the Sea Side, All inconveniencies and hindrances of this kind being uncostomary you are to represent to the Samorine and his Ministers as Grievances and endeavour to get them redressed.

You are likewise when the Samorines time of Ceremonious Fasts and Feasts. are over which we are told will be in the Month of February or March to demand Payment of the Monev due to our Hoñble Masters by Virtue of the late Samorines. Olas he having acknowledged the Debt and promised to discharge it agreeable tothe tenour of them. His Account as it now stanids on our Books you have herewith a Copy of, we likewise direct that you also demand the Debt due from the Puniture Rajah.

On your first Arrival at Callicut or as soon afterwards as you find convenient take an Inventory of all the House Furniture, Goods and Effects belonging to the Hoñble Company with an Account of their Cost and Valuation, and from them you are to form a Regular Set of Books which must. be balanced and Closed Annually to the $31^{\text {st }}$. of July sending hither a Copy of them to adjust with the Books of this Factory.

If you find it absolutely necessary you may pay the Samorine a Visit either upon your first Arrival at Callicut, or at any other more proper time; but take especial care that you do not put our Hoñble Masters to. any unnecessary Expences for the sake of making an Ostentatious figure.

Whenever you find things quiet at Callicut return the Soldiers that are now there or such a Part of them as can be spared and whatever Number you may judge it absolutely needfull to keep entertain or enlist at Callicut and send up the Tellicherry People as these are most chargeable to the Hoñble Company, by our being obliged to allow them Provisions while they are absent from their Families.

Enquire the Price of Surat Cotton at Callicut and the Quantity vendible for ready money. Inform yourself likewise of the Price of Pepper and advise us how these two Articles are like to sell at that Port, when we shall determine whether to keep or send them down thither.

Being in want of twenty or thirty Lascars for our Hoñble Masters Ship Brittania now at Ceylone; You are to endeavour to procure that Number or as many of them as you can at Callicutt in [sic] send them down in Munchuas or Toneys. to Anjengo advising the Chief and Factors thereof: We are looking out here for an Officer to go down likewise, but any People you may get need not wait for him as we are not sure of procuring One.

If any stragling Topasses who appear to be able Men should come to Callicut endeavour to get them to enlist in our Service as Soldiers and send them up hither together with such. Europeans as offer themselves whether they be deserters from the French or others.

Letter to the Callicut Linguist.

Wrote a Letter to Francisco Dias acknowledging the Receipt of his dated the$2^{\text {nd }}$. Instant with the two thousand five hundred Mats and thirty Cardamom Chests forwarded by his Munchua. That Mr. Douglas now proceeded to Callicutt to takecharge of the Factory with every thing belonging to the Hoñble Company wherefore he and all others in their Service are directed to pay due Obedience to his Orders.

Angris's Fleet of Grabs and Gallivats being off Mount Dhilly with an Intent as
Letter to the it is reported to make a Descent somewhere in the Mallabar Country the Chief wrote the Prince of it and told him that we should send some People for the security of Mottamy Seramby and desired that His Highness would give Orders that the said Place should be redelivered into their hands in behalf of the Hoñble Company.

Letter to
Callicut.

Signed the General Letter to Bombay Presidency designed by the RambanAdvice Boat.

Embarined the Guns Stores and People for Maddacarra and Mottamy, being the same Quantity and Number as had been withdrawn from those Places in October last when the French Fleet were expected this way.

At about Nine o'Clock at Night the Ramban Advice Boat sailed for Bombay.

Entertained Mr. John Debonnaire to go to Anjengo and from thence to Galleewith Lascars and People for Our Hoñble Masters Ship Brittania which is said to be in distress for want of Men her own Crew being very Sickly.

Wrote to the Chief and Factors of Anjengo in Answer to their Letters of the$25^{\text {th }}$. \& 28th. Ultimo: that learning by them the distressed Condition of the Brittania we had endeavoured to procure Seamen to send her from hence but to no Effect, however were in hopes of succeeding at Callicut and had given Orders to the Companys Resident there concerning them. To Navigate such Vessel they proposed sending and to help Mr. Douglas in getting Lascars we had entertained Mr. John D'ebounnaire whose Service was to be rewarded as his Merit might deserveor they and he might agree. We acquainted them that their Packet with the two from Fort St. Davids was sent to Bombay in an Express Boat which sailed hence last Night, and that Angria's whole Fleet of Grabs and Gallivats have been Cruizing about Mount Dhilly for some days past, that it was suspected they will attempt to land at Cannanore or some other part of the Mallabar Country or else attack theShips now in our Road which are the Wake Captain Norton, two Moor Ships and an Armenian. With regard to procuring People for the Brittania Mr. Douglas was Ordered to advise them of his Success therein.

Wrote also Mr. Alexander Douglas at Callicut, that we had sent in the Anjengo Toney Mr. John Debonnaire to assist him in getting the People he was Ordered for the Brittania, which, if the whole Number was not procurable such as were to be got was to be sent to Anjengo under his Care as soon as possible. We imagine Advance Money may tempt many to go, but if Sailors are scarce such able bodied Men as he can pick up must be put up with. If he does not want the Toney directed him to dispatch her immediately to Anjengo with the Letter we had given the Mucquas for the Chief and Factors there, telling him likewise to advise them what prospect he had of procuring the Lascars. Ordered him to supply Mr. Debonnaire with Provisions and Necessaries for his Passage and a little Money also should he request it; and to be carefull to advise the Gentlemen of Anjengo what Charges he is at in getting these People and providing for their Transportation down the Coast.

- JANUARY. 1746-47 -

Received an Ola from the Prince in Answer to what the Chief wrote him the Thursday $4^{\text {th }} . \& 5^{\text {th }}$. Instant. He expresses great Pleasure at the News from Fort $S^{t}$. Davids and says immediately on our Peoples Arrival at Mottamy, his Nairs shall quit it to ola from the them.

Prince.
In the Evening Imported the Futtee Mombarack Express Boat from Bombay Express She has been only five days in her Passage, having left it the 3rd. at Night. By foat arrives her we received a Letter from the President and Council dated the 2rid. Instant Bombay. advising that by the Ilchester who arrived there the $9^{\text {th }}$. Ultimo in Company with Letter from the Fukero Moracub (both engaging Angrias Fleet for six Hours though receiv- thence. ing no Damage) they had received our Letter of the $25^{\text {thl }}$. November and on the $28^{\text {th }}$. following our other of the $12^{\text {th }}$. by the Futte Mombarack Express Boat arrived them; which Boat they now return with Orders to us to Dispatch her back again to them with what material Circumstances might offer; They Express a Pleasure to find our Young Prince so ready to furnish us with so considerable a body of Nairs and as we had an Opportunity of obliging him with two Old Honey Combed Guns our anticipating with his Request for them was undoubtedly right. That we shall do well as our Circumstances permit us to assist him occasionally against the Depredations his Enemies may attempt in his Country more especially while he is actually aiding us. Our supplying Boyanore with a Horse they approve And should the Second King of Cotiote agree to our Proposal made his Tiriumvire they acquiesce with it likewise, from our having represented this Kings Faith more to be relied on than any other of the Mallabar Powers. The two hundred Candies of Pepper sold for the Portugueze Frigatas they Order to be duly delivered, but Affairs being altered since their giving Directions to make Sale of that Article they do hereby revoke the same, and would have an Addition of two thousand Candies laid in on the best terms procurable (exclusive of what is in Warehouse and outstanding of -our former Contracts) to provide it they will supply us with Money as soon as possible, and when they are acquainted with the Price we give for this also what larger Quantities may be Contracted for, Orders will be sent us in regard thereto. Enclose us Copies of such Paragraphs as relate to this Settlement received $\tilde{\sim}$ Ship Ilchester, and advise us of our being debted for Sundries taken by us out of said Ship being Rupees Eighty thousand five hundred twenty three and Ninety seven Reas ( $\mathrm{R}^{\mathrm{s}} .80523$. -. 97 ) for which the Presidency must be Credited on our Books. Should the Exeter and Lynn call here and leave this Port for Bombay so as to return back again in their way to China before the end of April they direct us to provide the like Quantity of Sandall Wood as Ordered last Year viz. One hundred Candies of the first Sort and One hundred and fifty of the Second which with One thousand Candies of Pepper must be kept in readiness to be equally divided on them; and the Cotton lying here must be kept unless an advantageous Offer should be made before the Arrival of these Ships as it may be wanted for that Market. If they arrive here immediate Notice must be sent thereof by an Express Boat and liberty is given us to open the Packet for private Letters reserving entire that for the President \& Council they promise us a Supply of Stores by the first Opportunity And would have us remember to send them by such Conveyances as may Offer All the Masts \& Timber in Readiness but particularly the Sheathing Plank, Cables, \& Hausers, with the Cordage, they being immediately wanted for the Augusta. The two Standing Masts must be tendered to the first Europe Ship calling at this Port and in case the Commander refuses to take them (Directions as formerly is given) to Protest against them. Enclose us a Packet for Anjengo with Orders to forward it thither as soon as Possible.

A Pattamar belonging to this Place returned from Fort $S^{t}$. Ships searched. But Captain Morton refused to make any such Search and continued to insist peremptorily and positively that the Noquedahs had entertained them and said very Arrogantly, that if the Chief would not stop the Moors Ships untill the Lascars were given up he should take the Noquedahs Lascars bf force out of their Ships or wherever he could catch them; and this he enforced with Warm \& Indecent Language. Only One Witness appeared who said he sam a Lascar of Captain Nortons on board Noquedah Sciddee Sciads Ship, but the Noquedah absolutely denied it and assured the Chief he had no such Person. All this passed Yesterday Horning when the Chief told Xoquedah Sciddee Sciad to send for some of his People on Shore and enquire more narromly whether there were any such Lascars on board his Ship as Captain Norton Claimed and if there mas to bring them to him; accordingly the Noquedah sent a Toney off mith his Servant and a Passenger in her, and as she was returning back with some of his People from the Ship, Captain Norton with his Pinnace manned and Armed in a hostile and Illegal manner violently seized the Toney, took out some People put One of them on board the Armenian Ship and carried four others into his own Tessel One of which being a Servant he released but the other three he bound hand and Foot, tred them fast to the Capston and Arbitrarily threatned to drub them in Order to extort a Confession, and oblige them to declare that his Lascars were on board the Moors Ships. And his Syrang did actually beat One of them orer the Shoulders with his Cane while the Captain mas in the Ship and the Oficer standing by all the time. This being represented to the Board and Captain Norton having likemise Confessed before the Chief, MIT. Jeynson and others, that he had taken the Joquedahs Men the Secretary was directed to write him an Order (as entered Enderneath) to deliver them up: and carry the same to him delivernng it in the presence of the Captain of the Guard, which he accordingly did and received a Verbal Answer from Captain Norton "That when that Letter was sent to him on board the Ship Take he should "then give an Answer to it and not before haring ncthing to do with it ashore" But about an Hour afterwards while we were sitting in Council he wrote us a Letter (as Entered Underneath) wherein he sars "That he has neither br Force of Arms " \&c ${ }^{\text {ta }}$. nor in Contempt of the Hoñble Companrs Authority ever taken any People " out of any Boat whaterer and consequently could knom nothing of anr such "three Persons we are pleased to mrite about." However as he had himself omned last Night before the Chief Mr. Jernson and others as is abore Noted, that he did take the People and had them on board his Ship and as the same had also been proved by Titnesses, We Cnanimously came to this Resolution that in Case Captain Norton did not delirer up the Noquedahs Lascars br four o'Clock in the Afternoon that then he should be taken into Custody and that in the mean time Orders should be given to prevent his quitting the Shore without Leare which Resolution being signified to him by Mr. William West he thought fit to give an Order to his Oficer MIr. Letter from
Callicut.

Wrote the Chief and Factors of Anjengo That Mr. Douglas at Callicut would forward them a Letter from us the $7^{\text {th }}$. Instant with a Packet received for them from the Presidency the day following with another for Captain Somner reced from Fort $S^{t}$. Davids We advised them of Angrias taken [sic] two Dutch Sloops to the Southward. ledging the Receipt of his dated the $7^{\text {th }}$. with the Linguists Account for Seplember and directed him to forward the remainder of said Accounts as soon as possible to the time of his taking the Charge of the Hoñble Companys Affairs there, with Translates of them in English, Pepper and Cotton being at low Prices told him if the latter should rise Considerably to advise us. The former Article Orders were received to sell no more. That by this Toney we sent him One thousand Rupees which is thought sufficient for the present as the Money for the Rice sold by the Linguist will be due shortly which he must get in, and send us in his next Letter the exact Balance of Cash in his hands. Permitted him to advance such Lascars as he gets for the Britania two Months pay if not to be had on easier Terms. To keep in Readiness the Cordage, Cables, Hausers, Timber and Plank and two Standing Masts as an Opportunity is soon expected for Shipping them off. Enclosed we sent him a Packet from Fort $S^{t}$. David for Captain John Somner with One for the Chief and Factors to be forwarded to Anjengo with the other we sent for that Place from the Presidency yesterday should their Toney not be gone but in Case it was the Toney now sent was to proceed thither immediately, Directed him to send us a Price Current of Goods \& Rates of Coins, One hundred Bamboo Matts \& Fifty Parimpaes by the first Opportunity.

In the Afternoon a Toney was sent off with a Guard on board the Ship Wake and the Mate of her on seeing Captain Nortons Order delivered up the three Lascars belonging to Sciddee Sciad and they were carried on board the Ship and left there.

Twenty Five Seepoys which has been enlisted by the Canaree General at Mattalye arrived from thence to serve the Hoñble Company.

Ar day break Seven Grabs and Nine Gallevats belonging to Toolajee Angria with two Sloops in Tow which they had taken from the Dutch off Penany passed by to the Northward within two Leagues of the Shore.

Recerved a Letter from the Resident at Callicut Mr. Alexr. Douglas acknowledging Receipt of Ours to him the $7^{\text {th. }} \& 10^{\text {th }}$. that he had sent away the Anjengo Toney the $8^{\text {th }}$. and the $10^{\text {th }}$. dispatched two more with One European and thirteen Lascars, the Account of Money and Provisions supplied them he now transmits. As the Anjengo Toney was gone before our letter of the $10^{\text {th }}$. arrived he sent away the Tellicherry Toney the same Night and advised them of Angrias Fleet being between Callicut and Tellicherry. Acknowledges Receipt of the thousand Rupees but cannot send up the Balance of Cash the Linguist not having brought his Accounts up who thinks the Company will be indebted to him. The Stores shall be kept in readiness for embarking, but the two Standing Masts are not yet come down, hut he has Ordered the Linguist to send Inland to hasten them. By Advices from the Triton Snow at Anjengo he hears the Mountford, Salisbury and the Malborough were arrived at Bengal and that his Majestys Squadron under Captain Peyton was there likewise. Angrias Fleet of Seven Grabs and Seven Gallivats had taken two Dutch Sloops from Cochin bcund to Cannanore and 'tis reported that they are now off Sacrifice Rocks. Desires we will send him sundry Weights and an Hour Glass and has now transmitted us ten Bundles of Bamboo Matts containing One hundred Matts and twenty Parimpaes the Remainder will be sent us by the next Opportunity.

- JANUARY 1746-47 -

Received also private Letters from Anjengo advising that the Triton Snow was Bengal News arrived there from Bengal the $5^{\text {th }}$. Instant. The Master of her Hugh Doucet says ${ }^{\text {received by }}$ way of he left Calcutta the 3rd. of December when the Men of War consisting of seven may oig $A$ ajengo. Ships (including the Phazzee Salam which they bought for his Majestys Service) all under the Command of Captain Peyton were near ready to Sail but to what Place they are going to he knows not. That none of the Kings Ships, under Commodore Griffin were arrived in Bengal. The said Master adds that he saw the Brittania Captain Somner at Gau [lle] who has lost only twenty of his Men, that he had Ninety remaining on board perfectly well, and that the said Commander proposes coming up this Coast with the Bengal Ships. He was in Madras the $5^{\text {th }}$. of November and the French fired him away from thence.

Ensign Caristopher Bilderbeck writes the Chief from Maddacarra that four of Angrias Gallivats were yesterday Morning sounding upon the Bar of that River and that after he had fired a Nine Pounder at them they went away.

As we have no Pattamar at Fort $\mathrm{St}^{\mathrm{t}}$. David, and it being highly necessary that a Constant Correspondence should be kept up between that Place and this; Agreed that we dispatch a Pair of Pattamars thither this Afternoon And a Letter in Answer to theirs of the $22^{\text {nd }}$. Ultimo from the Deputy Governour and Council being prepared the same is Read, Approved and Ordered to be fair Transcribed, Extract of it is also Ordered to follow this Consultation.

Read a Paper from Captain Robert Norton and Signed by himself and the Officers of Ship Wake (as entered hereafter) wherein he protests against the Chief and such of the Council who have not Agreed with him for not doing him Justice as he calls it and for taking the Moors Ship Lascars out of his Vessel and demanding back the Hoñble Companys Seepoys and Stores that had been lent him on his first Arrival at this Port. On which we shall make the following short Remarks.

The first Part of his Paper being a tedious Recital of his Complaint to the Chief against the Noquedahs of the Moors Ships has been fully and faithfully set forth in our Consultation of the 10 Instant where Captain Nortons Piratical like Behaviour appears in much the same Colours as he himself has now delineated it with his own Pen; for he owns, that he took three of the Moor Ships People (notwithstanding he before denied it in his Letter to the Board wrote the said $10^{\text {th }}$. Instant) out of a Toney and carried them on board his own Ship, And although he says nothing of the Bodily fear he put them into when they were taken at the Peril of their Lives; his Binding them Hand \& Foot to the Capston and directing One of them to be Drubed in Order to extort a Confession of things whereof they were quite Ignorant, his refusing to deliver them back when demanded by the Chief who had Ordered them on Shore to be examined on Captain Nortons own Complaint nor of his insulting Conduct towards the Government of the Place in forcibly and Illegally seizing, beating and Imprisoning the said People under the Hoñble Companys Flag and in

- JANUARY 1746-47 -

Contempt and Defiance of their Authority, We say, that although he takes no Notice of these Irregularities yet the Facts are Manifestly Notorious and show his disregard to all mholesome Law, Equity and Justice. His Assertion that he desired the liberty of searching the Moors Ships with thirty Men and that the same was denied him is untrue for he had an Unlimited Permission from the Noquedahs to search as he pleased without unloading their Ships; though in reality he was not entitled to search at all, as the People he wanted had deserted from him at Cochin or Callicut and not at this Place. He has likewise insinuated that we took back the Moors Ships Lascars by Force whereas the Contrary is Evident from his own Order to his Officer Mr. Macmahon which he himself sent us by Mr. William West and wherein he tells his said Officer to permit of the Moors Ships People being taken away as appears by attested Copy of said Order entered after Consultation the $10^{\text {th }}$. Instant. And as to the Guns \& Peons or Seepoys which the Chief had lent him on his first coming to the Port they were demanded back because the Guns were wanted in the Room of some sent to Mottamy and to be ready for fitting out a Munchua which we then expected to have occasion for; as also on Account of his having made a very ill Use of both Guns and Seepoys by firing like a Nan disordered in his Senses at all Boats that passed near his Ship; as weil by day as by Night, to the great ミurprize and Wonder of the Merchants and hindrance to them in their Trade and Business. He likewise threatned to stop the Moors Ships from Sailing and prepared to assault them. The Hoñble Companys Seepoys he suffered to be ill treated by his Officers and would not give them their full Allowance of Provisions which obliged them to Complain to the Chief, All which matter being duly Considered the impartial are left to judge whether the said Captain Robert Norton is intitled to the Assist. ance he insultingly Claims from the Hon̈ble Company, or whether or not he merited their utmost Indignation and Resentment, by arrogating to himself an Uniustifiable Power to seize, beat imprison and take away People by Violence under their Flag and in Contempt and Defiance of their Authority while He and his Owners were enjoying the Benefit of their Protection and Assistance.

Captain Norton \& his Officens their Protest.

Whereas on the $9^{\text {th }}$. Instant J. Robert Norton Commander of the Ship Wake came before George Dudley Esqr. with a Complaint that some of my Lascars had been enticed away from me and put on Board a Moor Ship called the Futte Salam (of which I brought Proof by a Christian Fellow who had belonged to the said Ship) and desired the said George Dudley Esqr. to assist me in getting my People as my Ship was distressed through want of them and having Kings Provisions on board I did expect to be immediately assisted therein but so far from it the said George Dudley Esqr. only sent for the Noquedah of the Moor Ship and asked him if he had got my People, which the Noquedah having denied, he the said George Dudley Esqr. told me he could do nothing in the Affair, for he could not pretend to use absolute Power to regain my People and as the Moor Ship designed to sail that night, he would not detain the said Moor Ship for twenty thousand Rupees. I desired that I might have the Liberty of searching her with thirty Men and that I would take up part of her Cargoe and whatever Trouble and Cost I put them to in so doing I would pay for if I did not find my Peoplc, this was denied me, but if I was willing to search her with three or four People, I might, whereas the said Moors Ship was of Eight hundred Tons and piled up with light Goods in such a manner that it was impossible for me to search her with so few and in so short a time as was allowed, the said Ship being to sail that Night as have already said. Thus seeing the aforesaid George Dudley Esqr. no ways inclinable to assist me, I then did say, Sir, I am very sorry to find you so little inclined to do me Justice, but as mv Ship kas now Kings Provisions on board here I will not permit of any Moors Ship to

## JANUARY 1746-47

distress me and therefore as they have got two of my People I will take some of theirs in Return, which I soon after performed, for meeting with three of the Moors People in a Toney I carried them on board my Ship where in the Presence of all the Ships Company that owned that one of them I had taken was the Man who had enticed away my People and had endeavoured to entice away some more of them, who proved the same to his face and this very Person who was Caulker on board the Moors Ship did own that one of my People was carried on board their Ship the $8^{\text {th }}$. Instant by a Toney. After I had got these People I went on Shore and being sent for by the aforesaid George Dudley Esqr. I did go unto him, who immediately Ordered me to send on Shore the Companys Guns \& Peons which he had lent me for the Security of my Ship from any Attack of the Enemy as the Battery had been taken away which used to Cover the Ships in the Road and the Fort was at too great a Distance to protect the Shipping in the Road, I was very much surprized to his insisting on disarming my Ship it being then past eight oClock at Night And he the said George Dudley Esqr . had that very day reced Advice that Angria had taken two Dutch Sloops fifteen Leagues to the Southward of this Port, having a very strong Fleet Cruizing off Callicut which Port is only twelve Leagues to the Southward of this Road, yet the said George Dudley Esq${ }^{\mathrm{r}}$. peremptorily Ordered me to deliver the Guns \&ccta. which I did to the Boats he sent, and at the same time gave into his hands a Protest in behalf of myself for all Damages that might happen to the Ship by his so disarming me but the said George Dudley Esqr. would not regard it as such and Yesterday he sent on board a Guard of Soldiers and took the three Men which I had got from the Moors although he had before told me he could not use Arbitrary Power to get me my People out of the Moors Ship. And last Night Angrias Fleet came within five Leagues of this Road, And tho' the said George Dudley Esqr. will not Assist me against any Attack of the Enemy, yet he hath assisted the Moor Ship with Men and Ammunition and now at this time, Angria's Vessels appear in Sight. I therefore as well as my Officers judging it our Duty as such Do Protest against the aforesaid George Dudley as likerise any of his Council who may bave Agreed with him to disarm this Ship Wake at a time when in hourly danger of being attacked and whatever Damage may accrue to His Majestys Ships for want of the Provisions now on board my Ship in Case she should be taken out of this Road or otherwise destroyed by the Enemy and all other Damages to the Owners Freighters \&cta. of the said Ship, We do hereby protest against the aforesaid George Dudley Esqr. \&c ${ }^{\text {ta }}$. Council for. In Witness whereof we have hereunto put our hands and Seals. Dated on Board the Ship Wake in Tellicherry Road this Eleventh day of January 1746/7.

Wrote a Letter to John Hinde Esqr. Deputy Governour \& Council at Fort St. Letter to David acknowledging Receipt of their Letter the $22^{\text {nd }}$. Ultimo with the Order for Fort st. Captain Somner which was sent the next day to Anjengo to be forwarded to him at Gaullee. Heartily Congratulated them on the Victory obtained over the French which we Questioned not would discourage them from another attempt and as the Men of War were daily expected we hoped they would be relieved and supplied with all necessaries. That no French Ships have appeared this way since August last when any News come assured them we would not fail giving them the needful Adrices. As to placing Tappy Peons between this Place and theirs we believe their is no occasion, as a Pair of Pattamars can go very well in fifteen days. The Arrival of the Mountford Salisbury and Malborough at Bengal has been Confirmed by Captain Doucet in the Triton from thence but his Majestys Ships under Commodore Griffin had not been heard off That we expected the Warwick, Severn \& Ilchester to load at this Place and Anjengo for England with Pepper and Cardamoms

Mount
Dilly.

Monday 19 тت.

At about ten in the Morning Seven of Toolajee Angrias Grabs and fire Gallivats came from the Northward and stood so Close along shore that we imagined they had an Intent to attack the Ships in this Road. When they were about tro Miles from them we sent off twenty Seepoys and two Oficers with Small Arms to each Ship and had about One hundred and trenty Topasses more at the Waterside with their Officers ready to embark and whether this Assistance given the Ships prevented the Grabs People from attaching them or whether, they ever in reality designed it we cannot certainly say but before our People were well got on board they tacked about and stood directly amay back again to the Northward without firing a Single Gun. They get supplies of Wood, Water and Provisions from the Cota Ilarcar and from Mount Dilly which enables them to continue their Cruize so long to the Southward.

Recerved a Letter from Mr. Douglas at Callicut wherein he says the three Weights and the hour Glass mentioned in ours of the $15^{\text {th }}$. hare been delirered to him, and that he shall Credit this Factory for their Amount and debt it One Callicut Fanam \& a half adranced the Mucquas of the Toney on Account of their Prorisions. He adds that he had sent a Mat bundle containing ten Pieces of Blue Bunting.

Ir is reported that Angrias Fleet keep cruizing off Mount Dilly and that he has taken two Dingeys laden with Wet Dates is some Copper \&cta. They came from Muscat and were bound to Callicut.

Agreed to. that we will receive on shore Five hundred Bags of Pease which were freighted on board his Ship to be delirered at Madrass for the use of his Majestrs Ships. And as the Loss of that Place had prevented his delirering them there and he being now bound to Bombay or Surat where he does not expect the said Ships thinks it running an unnecessary Risk to continue them on board his Ship Wake? This being debated upon \& considered It is the Unanimous Opinion of the Board that as the said Pease have been tendered to us we cannot well refuse to receive them more especially as His Majestys Ships are expected sometime this Season on the Mallabar Coast Agreed therefore to take the same under our Care and lodge them in the Hoñble Companys Warehouse; but in Order to Guard against Accidents \& disappointments the Secretary is Directed to recommend to Capt. Norten that he call here in his return from Surat or Bombay to take them back again in Case his Majestrs Ships should not in the meantime come hither and demand the said Pease. SIR \& SIRS
Mr. George Williamson of Calcutta having been empowered by the Agent Victualler of his Majestys Squadron here in India to receive and send to Our Men of War whatever Provisions had been provided on their Account at Bengal did receive and Freight on board the Ship Wake five hundred Bags of Pease which I was to deliver at Fort $\mathbb{S}^{t}$. George to the Agent Victualler or to the Governour and Council there. But after having arrived within a few Leagues of that Port, I heard it was fallen into the hands of the French therefore bore away for Vizagapatam in hopes of meeting some of our Squadron, but not finding them there and it being judged that they were come on to this Coast I thought it most proper to keep the Pease still on board in hopes of meeting them, but being disappointed in such Expectation nor having any probability of meeting them at Surat or Bombay to which Places I am now bound as likewise judging it will be running an unnecessary Risque of His Majestys Provisions in carrying them with me, do now therefore Pray, Your Worship \&c ${ }^{\text {ta }}$. the President and Council of Bombay.

Received an Ola from the Young Prince wherein he says that the Achamars of Rhandoterra want to collect the Revenues lying in the District of Camburdu which belongs to himself and which he cant permit of. Of this Affair they informed the Chief who advised him of it and he returned for Answer that in Case the Chief desired it he would yeild up the said Revenues to which he received no Reply That Narranna Cutti Putterah mith some Calliquiloners had been there and committed several disorders by imprisoning some of the People and carrying them away this he desires the Chief will put a Stop to. He adds that in Case the Achamars behave in this manner he does not know how he shall behave torards them believing the Chief is unwilling to intermeddle herein.

Wrote to the Young Prince in Answer to his Ola received the $23^{\text {rd }}$.  answerable; We desired his Highness would give Orders for the European to be taken proper Care of; in regard to the other People he is desired to dispense with as the situation of our Afairs would not permit of our sending them so great a distance; that Changareh Putterah promises to pay for the Gunporder and Shells, and the two Mortars we desired him to return as soon as the Business he had in hand was compleated in which we wished him success. That the Gunner with the Mortars $\&{ }^{\text {te }}$. Went br this Toney in Company with the two People he sent bither who have Orders to land at Ramtilly there to wait his Highness Commands.

## - JANUARY 1746-47 -

In Regard to what he wrote concerning Narranna Cutty Putterah and the Calliquilones we believe he was misinformed for when he went hence to assist in Collecting the Revenues of Rhandoterra he had Orders to perform that Service in the manner Agreed on between him the Achamars and the Chief and was enjoined at the same time not to intermeddle with what belonged to his Highness which Orders we -should now repeat to him.

Wrote also to Cutti Putterah acquainting him that the Prince had complained Letter to that he with the Caliquiloners went to collect the Revenues of a District called Cutti Cadambur immediately belonging to his Highness, committed several Outrages and imprisoned the People belonging thereto which was expressly contrary to the Orders given him when he was sent to assist the Achamars in collecting the Revenues of Rhandoterra. That in Case the Achamars proceeded in such a manner he was on no Account whatever to assist or Countenance them therein but act inviolably to the Orders he had received.

Received an Answer from Cutti Putterah to the foregoing Letter wherein he says, that he observed from the Chiefs Ola the Prince complained of his having committed several Outrages in the District of Cadumbur and imprisoned some People belonging thereto, but he assures the Chief he only enquired of One of the Princes People Named Raraipen residing in said District how far it reached when he told him it was the Princes Orders not to suffer any One to collect the Revenues in any part of the District of Cadumbur, That neither he or his People behaved in the manner represented by the Prince wherefore should be glad a Person might be produced for proving what the Prince alledges against him who has likewise wrote him upon that Subject.

Our Scrivan Antonio Paes D'Almeida and Salvadore Lobes returned from Mottalye without being able to bring Bassapa the Canaree General to adjust and settle our Account for Money sent him to enlist Seepoys. He put them off from day to day with such triffling Excuses and Idle Pretences that they plainly discovered he had no Intent to give them any more Satisfactory Account than what they had already got from him and therefore they came away Pursuant to their Instructions.

Notice is brought that Putterahs are arrived at Mahie who came in about twelve days from Pondicherry with Advice that Seven French Ships were arrived there Commanded by a Relation of La Bourdenois, but whence they came is not mentioned; that these with three disabled Ships which were there before the Storm make in all ten Ships; and that they were preparing to beseige Fort $\mathrm{s}^{t}$. Davids. On the other hand Ezekiel Raby of Cochin writes from thence to the Old Linguist \& Madrass., here that the English have retaken Madrass but in what manner he dont say. We therefore judge that the Men of War may possibly be arrived from Bengall or that his News is not to be depended upon for the Truth of it. It comes by way of Tutacarene.

Imported the Ramban Advice Boat Tindall Osman from Bombay She arrived at about ten in the Morning and was chaced by five of Angrias Gallivats a little to the Northward of Mangulore for about six hours but by heaving overboard their Water and Lumber and taking to their Oars they escaped the Enemy.

Ietter Br the Ramban Advice Boat we received a Letter from the Hoñble thefrom the
Presidency. President and Council of Bombay dated the $22^{\text {nd }}$. Instant wherein they acknowledge the Receipt of ours of the $6^{\text {th }}$. They are surprized the Commander of the Brittania wrote no Letter, for the want of which they are at a Loss to know what supplies he stands in need of, wherefore Order us to acquaint them what Assistance we have afforded him and that when we receive Information of the Necessaries he really requires to advise them immediately in Order that the same may be conveyed to him as it is necessary for that Ships being on the other Coast as soon as possible. They approve of Mr. Douglas's being sent to Callicut and dirent us to keep our Pepper in readiness that no time may be lost in dispatching the Ships from this Port.

Wrote to the Chief and Factors at Anjengo in Answer to their Letters of the $16^{\text {th }}$. and $18^{\text {th }}$. Instant and tell them that we are glad to learn our Hoñble Masters Ship Brittania was in no need of the People who were sent down from Callicut, That the Pepper and Cloth they had in Warehouse we should consider of and act agreeable to the Orders we may receive from Bombay. That we could not at present send them any Money being so very low, that we should only have remaining for the Current Expences, after the Garrison Soldiers are paid this Month Rupees Eight thousand but assure them we will as soon as we receive money from the Presidency send them a Supply of Cash. That this Boat carries them three Candies of Europe Iron in Square Barrs which is all we could spare at present but that when the Ships brought more we should send the remainder; The Amount of it being Rupees 92. 3. 11 as likewise that of the two Bills we now enclosed them being Rupees 7. 3. 68 we desired they would bring to the Credit of this Factory. We forwarded the Packet received from Bombay for their Settlement by the Express Boat and advised them of a Report of some Ships being arrived at Pondicherry

but whether French or English was uncertain. They at Mahie say they are the former but Ezekiel Raby writes from Cochin that they are the English Fleet gone to the relief of Fort $S^{t}$. Davids.

The Third King of Neleasaran having been at Callicut to get the Prince an TuursElephant called here in his way back and brought the Chief a Verbal Message from the Samorine desiring Gunners Mortars Shells and Gunpowder; but the Chief excused himself from sparing him any alledging that the Hoñble Companys own Affairs were in so uncertain a State at present as not to admit of it conveniently. And as this Third King is a Friend to the Hoñble Company and lately assisted them King of with the Loan of some Nairs, And as he is also in Alliance with the Prince of Tellicherry he was dismissed in a handsome manner with a Present of Fifty Fanams.

Received an Ola from the Prince advising the receipt of our Letter with the Gunners Mortars \&c ${ }^{\text {ta }}$. whom he carried immediately to the Place where his People were Posted. That he intends after he has mastered a stronghold called Pallia and an House wherein is placed three hundred Men with the head Minister of the $2^{\text {nd }}$. King of Neleasaroon to go against Poduur which he imagines will be easily reduced after he is in Possession of the abovesaid Places and hopes with the Companys Assistance he may be able to Crush his Enemies thereabout as he did formerly and in case of need doubts not of their help.

Answered the foregoing Ola and wrote his Highness that we heartily wished him Success with his Army now Posted against his Enemies and hoped he would be able to reduce them; as also to take Pallai. That he should always find us ready to give him such reasonable Assistance as was in our Power We added that Advice was come from Cochin that Madrass was retaken but it is not yet confirmed and that on the other hand the French give out that their Ships are arrived at Pondicherry. That in a few days we shall be able to gain more certain Information concerning these matters.

The Young Prince in Conjunction with the Canarees having had a small Smpar Skirmish with the Second King of Neleasaroon and Ockoo in which the Prince was 1 sr . worsted came himself early this Morning in a Toney to the Fort from Cannanore; and solicited very pressingly for a large Body of Soldiers and Seepoys; for that his Enemies were too strong to be easily redaced, they having killed and wounded thirteen of his Men. The Chief laid before him in strong Colours the impossibility of our being able at present to comply with his desire; and the unreasonableness of his Request was demonstrated to him in such a manner as that he had very little to say in defence of it, more than if we could not assist him he must apply elsewhere. He was at the same time advised to desist awhile from his Enterprize to the Northward and give his Attention to Affairs this way which were of much greater Importance to him as well as the Hoñble Company than the chastizing of one of his Rebellious Subjects. We also told him that the French were expected in a few days and that so soon as they were gone he should be supplied with People sufficient to reduce and Crush his Enemies effectually. But Notwithstanding all the reasons that were Urged and the promises that were made he departed in no very good humour. He was presented as usual with sixty Fanams, and Saluted at his coming and going out of the Fort.

The: Second King of Cotiotes Answer to the Chiefs, Letter of the 5 the Instant Sunday was this day received in which he only says, that he obseryes what was wrote to him $8^{\text {ry }}$. concerning the Pepper detained at Pyachy. Thé Cnier observed for some days past that abundance of Peoplé were passing from the Boyanore and Nombiars Country through our District towards Cherrika,' for Assisting the Young Princé; and judging that;his Acceptance of these Men who are chiefly Nairs might prejudice the Hoñble Company; and that his engaging at this Juncture in a War.sof far Distant from this Place to the Northward as Ayconny would !render him incapable and perhaps, dis-inclined of affording the Hoñble Company his Countenance and Support in case of need; wrote him the following Letter.

Since Your Highnesses Departure from hence we have Notice by several hands that ten or Eleven' Ships are arrived at Pondicherry but now sailed for this Place. In case therefore if your Highness should proceed to Ayconny at this Juncture it will prevent your affording us that Assistance which we are persuaded your Highness would otherwise do, and as the Expedition you are engaged in, is only on Account of One of your Rebellious Subjects whom you may Crush at any time we think it would be better that your Highness do only for the present appoint a suffici--ent Force for securing your Frontiers to the Northward till we are certain the French Ships dont intend this way when your' Highness may 'depend on a sufficient Force for reducing your Enemies. As we are uncertain whether your Highness be at Cherrika or proceeded to the Northward we now send Copy of this Letter to the Prince of Cota Cuna for his Perusal that he may Consult your Highness thereon. We assure Your Highness that it is not want of Inclination but the Obstacles already mentioned which prevented our assisting You.

Sailed last Night the Wake Captain Robert Norton and the William Captain John Shipe Wake Blachford for Bombay.

Br a Letter received from Mr. Alexander Douglas at Callicut we are advised Letter from that he had sent us 11,000 Mats for embaling Pepper as also the Detachment of Soldiers and that he should entertain six Callicut Soldiers in their Room at 4 Rupees ix Month; that he had kept six Musquets with their Bayonets, Cartouch Boxes and 1600 Musquet Cartridges for the use of the said Callicut Soldiers. He adds that the Tellicherry Detachment had been supplied with Provisions to the $13^{\text {th }}$. Instant Inclusive.

The Chief received an Ola from the Young Prince at Ramtilly wherein he says that having posted his Army opposite to the District of Pallai, Nutichattu [sic] Cherricaddem came and submitted to him and that his People are now in Possession of the House and Hill which he commanded. That as soon as the Forces we intend sending him arrive whom he expects daily he proposes to go against Podaur and that he will not fail acquainting the Chief with what may occur further.

In Answer to the above the Chief wrote him that he observed his Highness had subdued Nuchicatta Cherricaddem and taken Possession of his House and Strong Hold which gave him great Satisfaction; and he hoped his Highness would still meet with further Success. He added that from several hands he had learned of five thereto. French Ships being sailed from Pondicherry the $26^{\text {th }}$. Ultimo for Mahie, that on their Arrival he should acquaint his Highness with the Circumstances of Affairs and admitting his Presence may be necessary here he hoped his Highness would not fail him therein.

A Letter from the Chief \& Factors of Anjengo dated the 7 th. Instant was received this Morning wherein they advise that as the Brittania had no Occasion for the Lascars sent for that Ships Use, they had discharged them giving them each five Rupees to bear their Expences up and to Mr. Debonnaire Sixty Rupees. That Letter from in Case they dont soon receive a Supply of Cash either from hence or Bombay they shall be obliged to put a Stop to both their Cloth and Pepper Investment. They acknowledge the Receipt of the three Candies of Iron as also the Packet from the Presidency. They enclose us Translate of an Ola from the King of Travancore as also Copy of One sent him by the Chief of Mahie and that as the French Fleet are daily expected on this Coast they think it adviseable in Case the Grabs are here to send them down with the Europe Ships so low as Cape Comorine to make them in some manner a Match for the French Ships should they meet them in the Passage. They request us to procure for the use of that Factory two thousand Bales of Rice as it is too late to expect any Supplies from the Bengall Shipping.

The Olas mentioned in the foregoing Letter came to us in the Portugueze Translation and being rendered into English are as follows.

## Translate of an Ola from the King of Travancore to thz Chief at Anjengo Vizt.

There are arrived Two Braminees with an Ola Copy of which I send for your Information, I cannot Account for their writing to me at this Juncture: In Case You have any Advices from any Parts I expect you will Communicate them. From Coletchee and other Parts I have Ordered my Ministers to be on their Guard.

## Translate of an Ola from the Cifef of Mahie to the King of Travancore.

I now inform You that the General of Pondicherry has Ordered some Ships to be here very soon which want some Refreshments therefore I hope Your Majesty will Order some to be in readiness for them on their Arrival I have appointed China Pataree Braminy \& Bartholomew Cretto to acquaint your Majesty what Necessaries the Ships may be in want of in which I entreat your Assistance which if you favour me in, It will Cement the good Understanding at present subsisting between us.

Received also a Letter from the Deputy Governour and Council of Fort $\mathrm{S}^{t}$. David by way of Anjengo as mentioned in the above Extract of the Letter from thence. It is dated the $20^{\text {th }}$ of January and advises the Arrival of our Hoñble Masters Sbips Malborough, Montfort and Salisbury at Bengal as also that they daily expect Captain Peytons Squadron on that Coast. That Captain Worth in the Houghton arrived there the $5^{\text {th }}$. This and the totall Neglect the Bengal Gentlemen have shewn them by neither writing or sending them any Supplies have reduced them to great Necessity and encouraged their Enemy to come against them with all their Force from Pondicherry, but they gained a Compleat-Victory and took all their Ammunition and Camp Equipage from them having killed and wounded near two hundred Men with little Loss on their Side. They desire we will frequently advise them of all material Occurrences particularly of the Enemys Shipping and that should we esteem it necessary to place Tappy Peons on the Road to adrise them.

Captain Joseph Collier of the Ship Severn having delivered to us a Packet from the President \& Council of Bombay dated the $22^{2}$. Ultimo the same was Opened and Read as $\#$ Extract and the Secretary directed to give Orders for landing immediately the Treasure and Stores Consigned to this Place by the Ships Severn and Warwick.

Read also a Letter from the Mayors Court of Bombay received by the Ship Severn as entered hereafter, and deferred the Consideration of it to another opportunity.

On appearance of our Hoñble Masters Ship Severn Warwick and Ilchesterthis day at Noon the Chief in Order to secure the Treasure on board them and to hasten their dispatch for England sent Robin Adams the Overseer of the Coolies to the Secretary Mr. John Robinson for a Written Order to all the Commanders to deliver the Money they had respectively brought consigned to this Factory, with Intent to get it ashore before Night came on as otherwise Accidents might happen to Boats from Mahie or French Ships from Pondicherry which were daily expected. In Reply to this Message the Secretary very saucily sent word that the Chief must first send him an Order before he would write one to the Commanders of the Ships. Upon receiving so impertinent and unusual an Answer, the Chief

## - FEBRUARY 1746-47 -

directed a Guard to go and bring him to the Fort, when he came there he was bid to go into the Office and write the Orders. But instead of that he very impudently disputed the Chiefs Authority and asked by whose Command he was to do it and being told it was by Order of the Chief and Factors according to the Customary form, and that he should not go out of the Fort but be kept to Office Hours till further Orders, he turned himself about to the Chief and said abruptly " What am I then a Prisoner? I will write no Order, do with me as you please, The Chief then directed that for refusing to do his Duty to the Hoñble Company he should be confined to a Room in the Fort till the Council assembled and came to a Determination after him.

Accordingly Mr. Robinsons behaviour as above related being represented to the Board, It was Agreed to send for him in and if upon Examination he was found to have been guilty of such a disrespectfull Conduct towards his Superiours that then he should be severely reprimanded and set at liberty. In Consequence of that determination he was brought before the Board, and having very little to say in vindication of himself, the Chief gave him a Reprimand, \& directed him to go \& attend his Business in the Office he then asked if he was free, and being told he was, He declared to the Board very Calmly, that he would not act in the Service during Mr. Dudlys Chiefship at this place, adding that he did not doubt of answering the same to his Superiors at Bombay, as likewise to his Hoñble Masters in England, \& that the Chief had not power to put him under a guard, after this Publick denial of his Duty, he was directed to withdraw.
$\mathrm{M}^{\mathrm{r}}$. Robinson having thus refused to act any longer a Servant to the Hoñble Company the Board were under a necessity of confirming the Suspension he had laid upon himself, and as thereby the Posts of Secritary \& Collector of the Revenues of Durmapatam were become vacant, Directed that the charge of the Secritarys Office be given to Mr. Charles Waters, and that Mr. Hugh Symmons be appointed Collector of the Revenues of Durmapatam.

Ter Letter from the Hoñble the President and Council of Bombay dated the $6^{\text {th. }}$. January advises that they now dispatch the Ships Severn, Warwicke, and Ilchester consigning to us by the latter some Paving Stones, and on the two former thirty Chests of Treasure, for which and the Stores they have debted us Rupees three hundred thirteen thousand eight hundred thirty three and thirty reas (Rupees 313833. -. 30) agreeable to the Invoice they enclosed us. They refer us to the calculate for what remains to compleat the said Ships, their Charter Party Tonnage, and order to dispatch the Ilchester to Anjengo with such a quantity of Pepper as with the cloth lying there will fill her up, including what surplus Tonnage the Commander may request but to use our own Direction in case of any danger from the Enemy which we are also to have due regard to, when we dispach the Severn and Warwicke to that Port, in order to call for the Ilchester, first filling them up with Pepper and Loading on Board as much surplus as the Commanders will Engage in Behalf of their Owners to carry at half Freight, we are permitted to grant Certificates for what money the Commanders or Officers of those Ships may pay into the Treasury here at the usual Exchange. We are directed to send up by the first conveyance ten chests of Wax Candles, as also to provide the quantity of Sandall Wood mentioned in their Letter of the $2^{\text {d }}$. of January it being esteemed probable the Hoñble Company may direct the China Ships to be dispatched from hence. That they now send Josiah Farrin quarter Gunner and William Murry Montross for the Gunroom here. They enclosed a Packet from Fort St. Davids which we are to forward thither as soon as possible, as likewise Invoice of Stores for Anjengo.

Read a Letter received this morning from the Chief \& Factors of Anjengo dated the $12^{\text {th }}$. Instant as Extracted after this consultation, They advise that seven Sail of Ships all supposed to be French were standing directly for their Road, with intent as they had declared to attack the place, this and the Letter received from hence Yesterday as also that of the 20 Ultimo from Fort St. David advising the arrival of four French Ships at Pondicherry, being taken into consideration, it was agreed to acquaint the Commanders of the Severn, Warwicke and Ilchester therewith, and to know their opinions on the present posture of Affairs.

Accordingly they were called in, and the Letters from Anjengo, \& Fort St. Davids read to them and after some debate they were asked whether they thought themselves with the assistance we could give them from the Fort a shore and Battery on the Rocks capable of defending their Ships in the road from any attack that may be made on them by the French Fleet daily expected, and if not where they should go for security, so as that they might be called back to be Loaded and dispatched for Europe before the Rains, in case the French Squadron should be sailed for some other Port. To which they hesitated and made no reply, more than they did not esteem their Ships safe in this Road as the Water was too shoal to admit of their coming in under the command of the Fort Guns, and the Battery on the Rocks they looked upon as untenable. They were then desired to consider further of the matter, and told that they would be again called upon when we should receive more certain accounts from Anjengo of the Enemy and their Force which we hourly expected, and in the meantime they were to prepare there Ships in the best manner possible both for Loading Pepper and for sailing at a short warning.

Captain Joseph Collier of the Severn having some Coffee on Board as part of his Ships Tonnage, Directed that the Secretary send him an order to keep the Pepper or any other strong smelling Drugg, apart \& Seperate from the said Coffee, agreeable to a standing order from the Hoñble Company in a letter to the presidency dated the $26^{\text {th }}$. of October $1733 \%$ Ship Princess Louiza.

Taree Anjengo Boats being now here agreed that one of them shall be dis- Anjengo patch'd away this Evening and that a Letter be prepared for the Chief doat to bed and Factors in answer to theirs of the $7^{\text {th }} .10^{\text {th }}$. \& $12^{\text {th }}$. Tnstant.

Ordered likewise that a Pattamar be dispatched to Fort St: Davids with a Letter from the Presidency received by the Severn, and advice of the French Fleets arrival on this coast, and that we also answer the Letters wrote to us by the Deputy Governour and Council under the $22^{\text {d }}$. of December, and 20 of January.

Agreed moreover that the Chief write a Letter to the Prince of Cherrica, advising him of the French Fleets Arrival, and requesting his Highness to come this way with such a Force as he is able to bring along with him for assisting the Hoñble Company

Wbote to the Chief and Factors of Anjengo acknowledging the receipt of their Letters of the 7. $10 \& 12$ Instant and told them that we impatiently waited for further particulars in regard to the strength of the Enemys Fleet. We advised them of the arrival of our Hoñble Masters Ships Severn, Warwicke and Ilchester from Bombay, and as the Mchester is conditionally orderd to fill up at their Port, we should, in case from their expected advices it may be judg'd safe, dispatch her to them for taking in her piece Goods and Pepper, that we should take care to procure and send them down the five thousand Bales of Rice, as likewise the remainder of the Europe, they requested.

Wrote to the Deputy Governour and Council of Fort $S^{t}$. Davids acknowledging the receipt of their Letter of the $20^{\text {th }}$. Ultimo with Duplicate of that under the $22^{d}$. of December. We acquainted them with the Arrival of the French Fleet upon this Coast and that the French at Mahie are making great preparations to supply them, with Boats, Warlike Stores, Provisions \& other Necessarys, that we hoped Commodore Grifin might be able to follow them as othermise re may be greatly Distressed, The Mallabar princes generally joyning the strongest side. that we should acquaint the President and Council of Bombay with what they desire concerning the Bill they remitted them for Rupees forty thousand ( $\mathrm{R}^{\mathrm{s}} .40000-$ ) as also in regard to the provisions of Rice. We advised them of the arrival of Ships Severn Ilchester \& Warwicke from Bombay and enclosed them the Packet from the President and Council received by those Ships.

Wrote to the Resident of Callicut advising him that we had Received his Letters of the $17^{\text {th. }}$. Read a Letter from the Presidency received this morning by the Sallamaty Express Boat dated the $10^{\text {th }}$. Instant as Extracted at the foot of this Consultation.

As from the advices already received of seven Ships being upon this Coast, \& that they are judged to be French Men, it may be hazardous sending the Ilchester to Anjengo, lest she be interupted in her passage down, Agreed that we at present Land the five Chests of Treasure on Board her designed for that Factory but that the Stores be continued in her till we have confirmation that the abovementioned Ships do Actually belong to the French.

Having contracted with Domingoes Rodriguez for only 15000 Bales of Rice and that not being esteemed Sufficient quantity for the Years Stock, agreed to Contract with him for 15000 Bales more, and that he be advanced out of the Treasury Rupees Ten thousand (Rs. $10000-$ ) on account thereof.

## - FEBRUARY 1746-47 -

Taking into consideration $\mathrm{y}^{\text {e }}$. purport of the proceeding [sic] Letters Captain Joseph Collier of the Severn Captain John Tedd of the Ilchester and Captain Robert Misenor of the Warwicke were sent for, and after communicating to them our Intelligence, and asking their opinions concerning the method most proper for Securing our Hoñble Masters Ships, They all declared that to continue in this Road was by no means Eligible as the Enemy by their Superior force, would be able either to take Sink or distroy them notwithstanding the Guns that might be playing upon these Ships from the Shore which being of a great distance could not give sufficient Protection to our own Ships. It was therefore unanimously agreed to dispatch them immediately to some place of security such as the Chief and Second should approve and that secret orders should be given to Captain Collier for that purpose, which he must be directed not to open untill 24 hours after his sailing from this Port that the Stores on Board the Ilchester for Anjengo Factory be landed and that She accompany the Severn and Warwicke to the Northward, it being Esteemed unsafe for her to proceed to Anjengo in order to be finally dispatched, thence for England as was intended lest She should be Intercepted by the French Ships. This point being thus Settled, the preservation and strengthening of Fort and Garrison was debated upon and as it was generally believed would make an attempt to dispossess our Hoñble Masters of this place, and having but few Europeans amongst our Military that are Englishmen and protestants and our prince being likewise engaged in a War to the Northward as to prevent his giving the Hoñble Company any countenance or assistance, it was resolved to demand from each of the three Ships the number of Seamen which by Charter Party agreement with the Owners, They are obliged to furnish for the defence of our Hoñble Masters Settlements on Emergent occasions, and the Secretary was directed to write orders accordingly to the Commanders that they be forewith [sic] sent a shore for that purpose.

The Commanders of the said Ships representing to the Chief their Apprehensions that none of their People would come on Shore unless some proper Person was sent off to promise them a Gratuity of One or two Months Pay, Mr. William West and Lieutenant Roderick Forbes were Ordered to go on board each Ship to assure the Seamen that they should have two Months Wages Gratuity with a proper Allowance of Provisions and ali fitting and reasonable encouragement according to their behaviour and Services.

Late in the Evening Thirty Seamen were landed from the Warwick the same Number from the Severn and twenty four from the Hlchester including a third Mate or Officer from each Ship And from Captain Misenor we received One thousand three hundred and sixty Pounds of Biscuits to be repaid the same Quantity or its value in Bombay on the Hoñble Companys Account.

Wrote to the Young Prince that as the French Fleet are hourly expected here we intend to withdraw some People from Maddacarra and Durmapatam, therefore intreat his Highness to Order One hundred of his People to the former and two hundred to the latter and himself to repair hither speedily with what Force he may be able to raise.

The Ships, Severn, Warwick and Ilchester sailed this Morning before day light for Goa. They took on board Nine hundred seventy seven Candies of Pepper amongst them all three Namely, on the Severn two hundred forty five Candies, On the llchester Four hundred seventy four Candies and a Quarter and on the Warwick Two hundred fifty seven Candies and three Quarters in part of their Ladings having been here only three days, in which time they also delivered the Treasure and Stores brought from Bombay and we are in hopes of being able to get them back before the Rains to take in the remainder of their Cargoes as we judge the French Ships will not continue long upon this Coast especially if the English Men of War should follow them hither as is expected.

Withdrew the Guns a Second time from the Rock Battary and mounted them on the Burying Ground Platform.

A Letter dated the $21^{\text {st }}$. and one dated the $22^{\text {nd }}$. Davids the $20^{\text {th }}$. at Night.

The Severn, Warwick, and Ilchester having got nothing to the Northword these two days past and being very near this Road towards the, Evening the Chief sent off a Boat to advise the Com ${ }^{\text {nds. that the Enemies Ships had been seen from Tannore }}$ the $21^{\text {st }}$. at Night and to recommend that they stand out to Sea as the most likely means of avoiding them. They were likewise desired to send on Shore One or two of their Surgeons or Surgeons Mates and some Surgeons Medicines, but the Boat returned with only a little Basilicon, Romand Vitriol and Tow from Captain Misenor.

This Morning all our Gunpowder was removed into the Mine under the Flag Staff Bastion the old Magazine where it is usually kept not being Bomb Proof as the Gunner and Military Officers did declare on a late Survey.

Wrote to Anjengo advising the Chief and Factors of our having dispatched the Ships Severn Warwick and Ilchester from this Place and that we sent them by a Toney One Chest of Treasure containing ten thousand Rupees. That we had landed the Treasure and Stores designed for their Settlement which we should forward to them as Opportunities offered.

Wrote to the Resident at Callicut in Answer to his several Lres of the $19^{4 t h}$. $20^{\text {th }} .21^{\text {st }} . \& 22^{\text {nd }}$. Instant. We approve of his advancing the Mucquas of the Toneys sent hither One Months pay and recommended to him to get if possible the remainder Advised him of our having dispatched Ships Severn Warwick and Ilchester from this Place and that we should duly Credit him for what he advanced to the Anjengo and Tellicherry Toneys. We enclosed him Copy of an Indent received from Bombay which we directed him to comply with.

Yesterday the Chief received an Ola from the Prince wherein he says he is fully apprized of the Circumstances of Affairs this way and so soon as he has settled matters and put them in Order he promises immediately to repair to Tellicherry but cannot come till that is effected. To this the Chief wrote him for Answer, that he was very sorry to find the Circumstances his Highness was in at present would not admit of his coming hither to Countenance and Assist the Hoñble Companv as he had received certain Intelligence yesterday from Mr. Douglas at Callicut that the French Squadron was in Sight of that Place the $22^{\text {nd. }}$. Instant and that he expected they would be at Mahie in a day or two. The Chief added further that he doubted not considering the Friendship subsisting between his Highness and the Hoñble Company but that he would forthwith repair hither on the present emergent Occasion.

Tae Severn Warwick and Ilchester were not to be seen this Morning from the Flagstaff. It is therefore to be hoped they have stood out to Sea and will get Clear of the Enemy. Moracub in the Month of November last died this Morning of a Flux.

His Answer.

The Chiref having wrote to the Prince of CotaCuna in the absence of his Brother the Young Prince concerning the present situation of Affairs received an Answer this Morning in which he says that notwithstanding they are surrounded with many Troubles thereabout yet that they may perform what lies in their Power in Order to serve the Company with their People he had wrote himself and sent the Chiefs Letter to Cunhiramanu (the Young Prince) he adds that when the Company are disembarrassed at Tellicherry the Enemies of both will of course be quiet. And therefore he shall with the utmost Speed send People hither.

Received a Letter from the Chief and Factors of Anjengo dated the $18^{\text {th }}$. Instant desiring us not to make the Provision of Rice they requested under the $10^{\text {th }}$. they having embraced an Opportunity of supplying themselves with that Article. The French Squadron having triffled away their time since their being on this Coast induces them to hope their Advices concerning them reached us time enough to prevent their doing any Mischief to our Ships and to put us sufficiently upon our Guard in Case they should attack us.

Other Letters received from Anjengo advise under the 18 th. Instt. that Captain Leonard in a small Vessel was arrived there in six weeks from Bengal and that he intends to put off for Surat. Our Men of War were in the River when he left Calcutta and it was expected they would sail in a few days.

In the Afternoon four Ships appeared Coming from the Southward.
Wrote to the Chief and Factors of Anjengo by One of their own Toneys in Answer to their Letter of the $18^{\text {th. }}$. Instant and told them that as they had supplied themselves we should keep the Provision made of that Article for our own Garrison. We advised them of the Arrival of three of the French Fleet with a Macao Ship and that we daily expect the rest. This Morning four Ships arrived at Mahie from the Southward. Three of them hoist French Colours and the other Portugueze. The last we take to be a Macao Ship. The rest of the French Fleet are expected in a day or two and their being astern of these now Imported is supposed owing to their dull sailing.

Ally Rajain has sent a Messenger to Mahie to Concert matters with the French and as he is assembling a Parcel of Moors together from the Parts Contiguous to Cannanore it behoves us to keep a good Watch on the Island of Durmapatam about which the necessary Orders will be given.

## - FEBRUARY 1746-47 -

The Chief wrote once more to the Young Prince acquainting him with the Arrival of three French Ships at Mahie and of four others being daily expected and that their designs are believed to be against this Place. That Ally Rajah has promised to join them and make a Descent on Durmapatam wherefore the Chief requested he would agreeable to his Promise repair hither in Person and bring with him all the Force he can but that in Case his Highness could not come personally to send immediately about two or three hundred Men to Durmapatam.

The Young Prince having made Peace with his Enemies to the Northward has sent back the Hoñble Companys Mortars and Gunners to Moddecarry. He has also discharged and returned the Boyanores Nairs who passed through our District Yesterday.

The Resident at Callicut writes the Chief that on the 250th. Ultimo a Pattamar arrived there from Pondicherry with Advice that Monsieur Duplex had concluded . a Peace with the Nabob of Arcott since the Departure of the French Ships now at Mahie.

Imported at Mahie three Ships two of which are French and the other an Armenian. These make in all five French one Portugueze and one Armenian now in the Road.

Received an Ola from the Young Prince wherein he says that immediately on Receipt of the Chiefs Letter advising him of the Arrival of the French Ships at Mahie he desisted from his Enterprize to the Northward and put matters in such a Posture as enabled him to come to Cherrika and though he had convened a great Number of People for subduing his Enemies yet as the Companys Affairs affected him It had made him determine to come to their Assistance for which purpose he was returning to Cherrika.

Answer'd the foregoing Ola wherein his Highness is returned thanks for the readiness he expresses to assist the Hoñble Comp ${ }^{\text {² }}$. and the Chief assured him that he would as soon as Affairs here were settled assist him in such a manner as effectually to subdue his Enemies. He is told that the French Ships arrived at Mahie have not brought any great Force with them but that it is said five more are coming from the Mauritius under the Command of Monsieur La Bourdanay in Order to join these, that as soon as we know the truth of this Report his Highness may depend on being advised of it. He is desired to come forthwith to Maplingat with all his Force, and as our People are in high Spirits we doubt not should the French attack us of giving them a warm Reception.

Ally Rajah with an Attendance of five hundred Men passed by in Boats tothe Southward from Cannanore under pretence of visiting in a Religious manner the Mosque at Quilandy but it is thought his design is to go and join the French at Mahie in attacking the Hoñble Companys Settlements hereabouts.

As the Second King of Cotiote who rules and governs all that Country has declared himself more in farour of the French than the English; It is judged proper to secure if to be done without much Expence the $1^{\text {st }}$. King of Cotiote in the Hoñble Companys Interest who though incapable of doing us much Service against the Will of the Second King may yet do us great Prejudice by stopping: up all Communication with his Country which borders upon our Districts and thereby prevent the necessary supplies of Provisions coming into this Place. The Chief therefore on the present Occasion wrote to him desiring he would send hither a Person in whom he could Confide for that he had some Proposals to make to his Majesty Accordingly he sent a Braminee with four Attendants who came this Morning to the Fort, who after a long and tedious Discourse, It was stipulated and Agreed between him and the Chief that when we asked for any of the first Kings People he should send to the Number of One or two thousand according to the Companys Necessities and on their Arrival his Majesty should be presented with the sum of two thousand Rupees and be allowed besides two hundred Fanams a day during the time his Men are kept in the Hoñble Companys Service, we giving them Provisions only as our Princes Nairs are allored. This Business being thus: finished the Braminee took his leave and on his departure was presented with Fifty Fanams and thirty four Fanams more were given to his Attendants.

An Ola was also this day received from Narrangport Compo [sic] Nair in which he says that since he withdrew from Boyanore and come, hither he has been under the Hoñble Companys Protection and as henow hears the French are arrived he takes this occasion to offer his Service to the Chief in such manner as he may direct. He adds that he has a great inclination to see and obey the Chief $\&$ desires he will permit of it.

The Putterahs who arrived from Pondicherry at Mahie a few days past confirm the Nerss we had from Callicut of the French having accommodated matters with the Nabob of Arcot for a Sum of Money and that the Moors Troops were withdrawing from the English at Fort St. Davids where they had been encamped.

## —— MARCH 1746-47 ——

At about one oClock in the Morning arrived the Futtee Mombarack Express Trursday Boat from Bombay with a Letter from Governour Wake dated the $28^{\text {th }}$. of February to the Chief advising him that the President and Council had freighted the Daddalye and that she with the Bombay and Restoration Grabs were coming down to load with Pepper $\& c^{\text {ta }}$. and would sail in about six days for this Port. At the same time Caution was given that if here should be any danger from the French one or two of the Express Boats were to Cruize near Mount Dilly to advertize them of it.

Received an Ola from the $1^{\text {st. }}$. King of Cotiote wherein he says that Bemgaddesuara Patterab has informed him of the Discourse he had with the Chief and the terms Agreed on between them on which he shall not fail of giving the Com- Cong of pany all the Assistance in his Power. He desires the Chief will let him know when he shall send his People and likewise to transmit him a Paper setting forth the Agreement between them which on his part shall be faithfu[lly] executed. He adds that the Chief must have Confidence in him as he shall not deceive him and refers himself to the Bearer Bemgaddasuara Putterah for further Particulars.

The Chief in Answer to the foregoing Ola wrote his Majesty that he was very glad to find him disposed to be in the Companys Interest that when he wants his Assistance he will advise him and promised his Majesty on bebalf of the HoñbleCompany, on the arrival of his People to present him with two thousand Rupees and during the time they are in the Hoñble Companys Service to allow him two hundred Fans. ${ }^{\text {\% }}$ Diem all which the Chief assured his Majesty should be punctually executed on his Part.

By an Ola reced from the Young Prince he says the People requested for Prince sends Durmapatam he has Ordered to be there to Morrow ; and desires the Chief will send for the old the Old Linguist to him, he having several matters to consider of with the said Linguist. Linguist relating to the Anniversary day of his Brothers Death.

A Munchua of Ally Rajahs lies now at Anchor in Mahie Road with a Flagg at her Mast Head by which we judge he is arrived there himself and that he came in the said Munchua from Quilandy.

The Seven Merchant Ships going to the Northward were all in sight at Sunsett this Evening.

Answered the Princes Ola received yesterday and told him that as the French Ships were still at Mahie and that the Old Linguist was busily employed in his own Affairs as well as the Companys he could not, now wait upon his Highness but so soon as the French and Macao Ships depart he should be sent to him without fail.

At Mahie it is reported that a Pattamar is come in thirteen days from Pondicherry and brings advice that the French have taken by Stratagem in Madrass Road an English Europe Ship worth three hundred thousand Dollars. That she arrived there seventeen days agoe and after saluting the Fort which hoisted English Colours the Captain or Purser went ashore and was immediately with all the Boats Crew made Prisoners of War that afterwards they sent of a number of Armed Boats who surprized the Ship and took her.

More Guns fired at Mahie and from the Munchuas there for Complimenting Ally Rajah who it is said has been received by the French Chief in a very Pompous manner and that Presents have passed between them of a Considerable ralue. He is lately come from Quilandy \& Puringatur where he had been to pay his Derotions in a Mosk [sic] at that Place and under this Pretext he went to Mahie.

This day at Noon received a General Letter from the Deputy Governour and Council of Fort $S^{t}$. Darids dated the 17 th. Ult ${ }^{\circ}$. mherein ther write us that the Moors having been prevailed upon by the French to abandon them, decamped accordingly in spite of all Arguments to the contrary, alledging as an Excuse that if their own Friends did not think proper to assist them it was very unreasonable to expect they should at the Expence of Five Lack of Rupees they having spent that Sum already in their Defence. That they offered them two thousand Fupees a- day if they mould stay ten dass but the French offered them the whole five Lack, so that they had nothing in their Power but to let them act as ther thought proper and to secure from them as much Protection as they Could, the IIoors accordingly hare promised that the French shall not molest them and that in Case ther should they will come to their Assistance mhich they say are the best terms they have been able to get from them in their present unliapps Circumstances. That they have not yet receired a Line or any promise of Succours from Bengal though the French have had Adrices for sereral times from Chardanagore who give out that they know all the Gentlemens designs from Calcutta one of which ther pretend is that they will hare no Ships at Fort $\mathrm{St}^{t}$. The Young Prince writes the Chief that he had sent Conna Croop and Marcan Coma with two hundred Men to remain at Durmapatam as requested.

The Resident at Callicut writes under the grb. Prince.

Recerved an Ola from the Prince wherein he writes the Chief that his Inclinations is to serve the Company in their distress as far as lies in his Power; and that Comapa Nair (who has presumed to come to Tellicherry without his permission) will not (he is persuaded) hesitate a Moment in Case the Chief is hearty in Ordering him to depar[ t$]$. He adds that he observes what the Chief wrote him concerning Ally Rajah to whom he has wrote in a very severe manner and doubts not that when the Companys Affairs at Tellicherry are in Tranquillity himself and they will not want means of making a Present of him to the King of Bednure as a Chastizement for his villainous Proceedings.

#### Abstract

- MARCH 1746-47

Narranport Comapa Nair departed this Morning out of the Hoñble Companys WednesDistricts and went in a Toney to Boyanores Country.

Eigat Seamen lately belonging to the Princess Mary made their Escape from English Mahie and came hither. They say the French have News of the English Squadron Seamen being arrived at Fort St. Davids from Bengall.

The Chief and Second wrote to Captain Joseph Collier directing him to remain at Goa for further Orders till the 20th. of April and advised him that the French Ships were still at Mahie. The Letter was sent in a Toney to Mangulore recommended to Antonio Pires to forward from thence by an Express Pattr. to Goa.

Received from Callicut by a Toney seven hundred \& fifty Mats. escape from Mahie. Letter to

At about 8 in the Evening the two Express Boats which had been sent to meet the Grabs of Mount Dilly that were expected there from Bombay returned with the Packet and Letters for this Place, They also brought ten Barrels of Gunpowder which were designed for Anjengo Factory: The Tindals of the Boats delivered to Captain Hough the Chiefs Letter informing him that five French Ships were at Mahie upon which he immediately stood back to the Northward intending to return back again to Bombay with the Restoration Grabs and Ship Dadaly in Company he himself being in the Bombay Grab when the Boats left him it was about nine o' Clock this Morning, and then they were all three Vessels considerably to the Northward of Mount Dilly.

Read the General Letter received from the Presidency by the Bombay Grab as noted above. It is dated the $6^{\text {th }}$. Instant and Extract of it follows this Consultation.

As the two Grabs and Ship Daddalye were under a Necessity of returning back to Bombay from Mount Dilly on Accot. of the French Fleet in Mahie Road, we were thereby disenabled from complying with the Orders concerning them which otherwise would have been duly regarded the Stores and Pepper being all ready to Ship off with the utmost Expedition.

Ordered that the Account of Stores said to be more immediately wanted at the Presidency be transmitted to Callicut and that the Resident there be directed to hold them in readiness for Shipping off in Preference to any others Ordered likewise that the Packet for Anjengo be forwarded thither by the first Opportunity.

Agreed to allow Provisions and a few Cloaths such as Frocks and Trowsers and Shoes to the Eight Seamen who yesterday made their Escape from Mahie till an Opportunity offers of sending them to Bombay or getting them a Passage to England.

The following Accounts being Presented to the Board are Examined and Passed Vizt.

The Letter from the Hoñble President and Council of Bombay acknowledges Letter from the receipt of ours under the $6^{\text {th }}$. Ultimo per Futtee Mombarack Express Boat. They advise us that they now send down the Bombay and Restoration Grabs for carrying up such Part of the Cordage \&ccta. Stores as they can take on board and the remainder we are to load on the Daddaly (who came in Company with them) together with what Pepper we may have ready in Warehouse they having Agreed to give the Owners five Rupees for what is shot loose and six Rupees for that in Robins ${ }^{\circ} \mathrm{F}$ Tellicherry Candy. After having loaded the said Vessels they direct us to dispatch them back without loss of time. They approve of our seizing Merouts Pepper and say that they shall treat Capt. Norton (when he arrives) in a suitable manner in order to prevent such disturbances at any of our Hoñble Master's Settlements in future.

Received an Ola from the Prince wherein he says that he understands Comapa ola from the Nair is gone from Tellicherry and that as his Brother and a former Chief had turned Prince. him out before, he thinks that its well done to get rid of such an Eril, he doubts not but that some People may advise the Chief to suffer him to return but if it should not be agreeable to his inclinations and he should come back without previous Permission that he will on Notice thereof send People to drub him and put him out of the Place. That Ally Rajah has been at Mahie where he talked over many Affairs and is at present with the second King of Cotiote and Prince Omar but that as soon as he mas advised of these Proceedings he wrote him an Ola which occasioned him to desist from any further Conferences. That when he meets the Chief he will think on means how to quell Ally Rajah and in the Interim will finish the Business of the Anniversary.

Two Peons belonging to Fort St. David who came hither with our Braminees Letter to to learn the Road way by Order of 1 Ir . Hinde being desirous of returning; they were sent back with a Letter from us to the Deputy Governour and Council advising them that the French Ships mentioned in their Letter and whose arrival at Mahie we wrote them of in our last intend to sail in a few days but whereto we cannot tell. That the Execter [sic] and Lynn for Bombay and China as also the Portfield for Mocha are not yet arrived on this Coast That we shall pay the Principal due for the Plank and Timber provided on Account of Governour Morse but should write to Bombay in regard to the Interest and in our next will acquaint them of the Quantity ready and the particular Sums advanced on that Account.

Answered the Princes Ola received yesterday when the Chief advised him that as soon as his Highness mrote him to turn out Comapa Nair he immediately Ordered an Officer with some Soldiers to the Family house Ordering him to depart mithin the space of trenty four Hours out of the Companys Protection and in Case he did not must thank himself for the Consequences on which he immediately departed. That though His Highness had wrote often about Comapa Nair yet has taken no Notice of the Affront put on the Hoñble Company by Changarah Putterah which the Chief advised him ought to be taken proper Notice of. The Prince was returned thanks for what he wrote about Ally Rajah and for what further relates to him may be considered of when his Highness comes to Tellicherry.

Wrote a Letter to the Resident at Callicut directing him to keep in readiness the Stores provided for the Presidency for the first Converance that offers observing to give the preference to those mentioned in the enclosed List. That should any of the Men of War touch at Callicut he is to advise the Commanders what Stores have been provided on that Account particularly of the two lower. Masts which, should they want they are to take in themselves, they bring two large for our Vessels to carry up to the Presidency. He is Ordered to advise us what Plank and Timber has been contracted for by Francisco Dias on Account of Governour Morse by Orders from the late and present Chief, what part of it has been received at Callicut what remains there, and what has been sent up hither together with a particular Account of the Dimensions and Value of the whole Parcel distinguishing that hought by Order of Mr. Geekie from what provided since and to insert at the foot of the Account what part of both Contracts may remain uncomplied with.
—— MARCH 1746-47 -
The Packet for Fort St. Davids (now sent him) we Ordered him to see forwarded from Callicut as soon as possible and to send a Braminee with the Peons in Case they require one. We sent him a fair Weather Flagg and told him that we should send him a foul Weather One by another Opportunity. That we had received the seven hundred and fifty Matts for embaling Y'epper.

Tie Chief acquaints the Board that he had called them together in order to lay before them the disorderly behaviour of the Seamen belonging to the Ships Severn Ilchester and Warwick who in a Tumultuous manner came this Morning to the Steps of his Apartment and demanded Wages insisting that they were promised Monthly pay all the Time they should remain on Shore at the same Rate as they were allowed by the Owners of their Ships and that their Wages as Seamen should also run on and be continued to them the same as if they were actually on board their respective Ships, and this was to be over and above the two Months Gratuity. All which they say was actually promised them by Mr. Willm. West and Lieutenant Roderick Forbes before their several Commanders on board Ship.

Mr. William West being asked what Terms he had made with them says that he promised that they should have two Months pay advanced Gratis and their Wages running on ashore by which he meant they should have the same Pay ashore as they had on board Ship.

Capr. Roderick Forbes was then sent for and asked what he had said and heard on board the Several Ships concerning the Seamen that should Voluntarily Come on Shore for the Defence of this Settlement declares that he only heard Mr. West acquiesce with what Captain Collier told his People which was that he must be obliged to send ashore thirty Men that those who went voluntarily would have two Months pay advance given them but those who should be forced ashore would have nothing. That the People asked him what Provisions they were to have and he told them the Companys Allowance which would be fully sufficient.

And in Order that no Mistake or Misunderstanding may happen through a Misrepresentation of Messsr . West and Forbes their Verbal Depositions they are directed to deliver to the Board in Writing a report of all that passed on board Ship concerning the pay of the said Seamen promised as an Encouragement for coming ashore to assist in defence of the Place against the French.

Seamen belonging to the Ships Sévern Ilchester \& Warwick demand Wages of the $\mathrm{Y}_{\mathrm{e}}[s i \mathrm{c}]$ Company.

Capt. Forbes his declaration of what passed on board Ship. promise made to them.

After these Declarations the Chief related the Substance of his discourse with the Commanders on this Subject. They all three told him after they had received the Orders for sending ashore the Number of People stipulated by Charter Party that they believed they should not be able to prevail on their Men to leave their Ships unless they were promised One or two Months pay Gratuity and that One of the Council went on board to engage for the due Performance of it. Accordingly Mr . William West was sent off for that Purpose and he desiring to have another Person with him Lieutenant Roderick Forbes was pitched upon, when Mr. West returned the Chief asked him whether the People would come on Shore and what Agreement he had made with them. He answered that they were to have two Months Gratuity besides their Pay and the Chief imagining that he could mean no other than the Ships pay talked nothing further about it especially as Captain Tedd in particular said that he had told all his People they would not be ashore above

## —— MARCH 1746-47 -

ten days and consequently there could be little or no pay due to them for Land Serrice. Nor did any one of the Commanders so much as hint to the Chief that their Men mould ask for double Wages but seemed on the Contrary to think that two Jonths pay in hand would fully content them with their Provisions.

Seamen sent for.

They insist upon Wages ashore.

On the whole It was Agreed to send for the Seamen upStairs and endearour to Conrince them of their demand. They accordingly came when Mr. Test and Lieutenant Forbes both repeated what they had before sid but not thinking those Gentlemen had sufficiently explained themselves they were still unsatisfied and insisted that the Agreement made with them was, Thiat they were to hare two Months adrance as a Gratuity their Wages to run on as Seamen belonging to their Ships, and the same Rate of Wages to be likerrise paid them Monthly ashore for Land Service. And the Board observing that nothing less would quiet them and that they all to a Man appeared ready to IIutiny or deserst [sic] and therebr show a bad Example to the Soldiers. To prevent therefore the ill Consequences of a disorderly Garrison at so Critical a time as the Present when the French Ships were lring in Nahie Road We Agreed to pay them monthly Wages while they Continued ashore at the same Rates they had on board Ship telling them at the same time that if their

Agreed to be several Commanders should declare no such Agreement as they pretend was ever made with them that then they would be obliged to refund and all the Moner paid them here over and above the two Months Gratuity be stopped out of their Wages in England but this had no Effect upon them they seemed only to regard the time present. So they were dismissed.

Received an Ola from the Prince of Cherrika wherein he says That Changarah Patterah is appointed by him to act in Tellicherry which occasioned him to speak what he did to the Chief. That however as the Ćhief takes it amiss he the Prince has Ordered the said Changarah Putterah to wait upon the Chief that he mar be easy on this Head. That Comapa Nair being a Person whom his Brother and the late Chief turned out of the Place Changarah Putterah went to know the reason of his returning and therefore what he said on that occasion ought to gire no Offence.

Tre Princes Minister and Custom Naster Changarah Putterah came this Morning to the Fort and asked Pardon of the Chief for his Impertinent and disrespectful Behaviour when he was sent for to be examined concerning the uncustomary Practise of sending his People to the Hoñble Companys Camp and taking from thence a Guard of Nairs to put over Comapa Nair without the Chiefs knorledge in this district. And he promising not to be guilty of the like Jisconduct in future the Offence was forgiven him so far as related to the Chief; but the Affront put upon the Hoñble Company in their omn Limits remains a Grierance ret unredressed, the Prince seeming to justify his Jinisters behariour in setting a Guard over Comapa Nair while under the Hoñble Companys Protection.

Nor are we satisfied that the Court has a Power to Authorize us much less to oblige or require us to Concern ourselves with the Affairs of deceased People whether Testate or intestate before Probate or Administration is Granted. Even an Executor Trustee or Relation may renounce their Trust and Title and cannot be forced to act against their Inclination, whence it must follow by Parity of Reason, that no indifferent Person is obligated to take upon them any such Charge or to meddle at all with deceased Peoples Affairs. As to Intestates the nearest akin Friend or Relation will generally for their own Sakes or out of Regard to the Memory of the deceased apply to your Court for Administration; and if they should omit it no one but themselves can be the sufferers thereby. We must therefore desire the Court will excuse our taking upon us any Unwarrantable Power or unnecessary trouble lest the same should involve us in.Law Suits at home with the Deceaseds Heirs or Executors. Your Court is undoubtedly Authorized to grant Probates or Letters of Administration to the Parties applying for them but we humbly conceive you cannot take the Administration of deceased Persons Effects upon yourselves because you thereby become both Parties and Judges or oblige any One else to do it against their Inclination. This we know has been the Opinion of your Court some few Years ago And that it was also esteemed the Opinion of Mess ${ }^{\text {rrs }}$. Contract for
Pepper.
Ever since the French Ships sailed from Mahie we have been beating down the Merchants in their Price for Pepper and after many long and tedious Arguments they upon being called in declared their Willingness to Contract for two thousand five hundred Candies at the rate of Sixty five Rupees and an half the Candy; And the Board being of Opinion that they could not be brought to engage with us on better Terms and Conditions and Considering likewise the lateness of the Season Unanimously Agreed to Contract with them for that Quantity at the prementioned Price and to advance the Amount thereof from the Hoñble Companys Treasury. They promise to deliver into the Warehouse by the end of this Month Eight hundred Candies and the remainder in all the Month of October next.

Cacart Tupy whose large Debt to the Hoñble Company is taken Notice of in our Consultations of the $25^{\text {th }}$. of Septr. and $18^{\text {th }}$. of October last desiring to have a Share in the above Contract with the Merchants was told that Nine Candies seventeen Maunds of Pepper remained due to him of the 20 Candies which he had Agreed to pay in all the Month of February last in part of his Old Debt. And that therefore he would not be advanced any more Money untill he shewed a Disposition to keep up punctually to the Terms of his Engagement.

Mess ${ }^{\text {rs. ## Remaris on the above.

The Considerable Deficiency in the Iron must be occasioned (as the Bars were not intermixed with others) through its rusting having observed large Scales or Flakes fall off in removing them to reweigh and what makes it more Evident is $y^{t}$. it $\mathrm{q}^{\text {rs }}$. 1 b
weighed 3. 3 less the $2^{\text {nd }}$. time than it did at first.
Thr Paving Stones as by the above Account, but what Ship to Charge them with cannot be ascertaimed as the Chits for the whole were not sent from the Ships.

The Less in the Oil was undoubtedly occasioned by the Jars being broke on board. The spunge Staffs for Anjengo were not delivered, Notwithstanding the above short delivery in the Shot yet according to Mr. Hog there is a Considerable Surplus in the weight of the whole, for instead of 50 - 18 Pounders and 100 of 16 Pounders conformable to the Invoice he affirms there are 100 of the former \& but 49 of the latter he having gaged them The Cohorn Shell might have been brokeby tossing it about.

Abstract of the Military People in the Hoñble Compps. Pay and Service at this and the Out Forts is laid before the Board for their Inspection and Consideration by which their Number appears to be 1310 Men exclusive of the Gunroom Crew and Consists of the several Casts following Vizt.

Considera-
tion \&
Determinstion there on.

And we having about two hundred of the Princes Nairs on Durmapatam the Chief recommends to the Consideration of the Board whether any and what Number can be discharged with Safety to the Settlement; and after some Debate It was Agreed to dismiss on the Princes Nairs as a Body of Topasses Seepoys or Calliquiloners are not speedily to be raised or enlisted on any emergency except at extravagant high Wages and in Places greatly distant from these Parts; and it often happens that they are not to be got at any Rate so that the keeping of these already in Pay is judged absolutely necessary while the French continue so powerfull in India and therefore it was resolved not to discharge any of them. As to the Cotiote and Tellicherry Moors they may be dismissed or remain according to our Scituation and Circumstances after the Rains.

The following Accounts being laid before the Board are Examined and Passed.

Cash Accor. for the Month of April the Ballance whereof Rupees 98819. 33; haring been Counted over by Mr. Hugh Symmons he reports the Money to remain in the Treasury Room.

Received an Ola from the Prince wherein he says that he never gave Orders for hindering the Achamars collecting the full Rents of Rhandoterra or placing Elephants in their Oarts which the Chief writes of, and that the only motive which induced him to write was to inform the Chief that his Vassals were not in due Subjection and to have his Opinion but that he should write in the manner he did gave him no small Concern.

Answered the above Ola from the Prince when the Chief told his Highness that he, only gave him his Advice and Opinion agreeable to the Informations he had received which he might follow if he pleased or act otherwise as best suited his Highness's Interest.

Received an Ola from the Prince acknowledging the receipt of the preceding Letter from the Chief; that as the Anniversary was drawing near he was about writing for his people at Durmapatam, but was well pleased to find the Chief had discharged them.

Received a Letter from the Resident at Callicut dated the $8^{\text {th }}$. The Letter from the Hoñble President and Council of Bombay as mentioned in the preceding Consultation is dated the $28^{\text {th }}$. Ultimo and acknowledges the receipt of our Advices to them under the $28^{\text {th }}$. of March $\%$ Sallamaty Express Boat. That Mr. Dudley having desired to be releived on account of his ill State of health they direct that Mr . William West (who is by the Hoñble Cos ${ }^{s}$. Commands to them appointed a Member of their Board) take Charge of the Chiefship of this Place and hold the same provisionally till an opportunity offers after the rains for their sending one of his Superiors from thence; and at the same time recommend to us that we Consult Mr. Dudley on all difficult Points treating him with that Respect due to the Station he has bore in the Hoñble Company's Service. That as the Gentlemen of Fort St. David have wrote to us to make good the Interest due on the Plank purchased at Callicut by order of Mr. Morse for the Service of Madrass they would have us do it accordingly forwarding the Plank thither by the Warwick or Princess Augusta as both or either may be able to take it in. They approve of our not advancing Money to the Pepper Merchants till the French Ships were sailed, Also of the Allowance made the Widdow Butler on account of her Necessities and the Agreement entered into with the $1^{\text {st }}$. King of Cotiote not doubting our best Endeavours to Cultivate a Friendship with all the Country Powers round us. That as they judged the French Ships must probably have left Mahie 'ere this they now the Ships Severn and Ilchester in Company with the Warwick and Princess Augusta the former being Compleatly loaded they have given Captain Collier his final Dispatches for Great Britain and should he Call at this Port we are directed to send off the thirty Men in lieu of whom they have Shipped on board the like Number of Topasses whom he is to return to us when he receives his own people. That on the Ilchester they have laden only two thousand Bags of Salt Petre at low Freight wherefore direct us to Compleat that Ships Loading which being done and the Commander has received as much Surplus Pepper as he will engage to Carry at half freight we are to deliver the Commander his final Dispatches for Great Britain and as the Season is full late they doubt not but our best Endeavours will be used in giving her a quick dispatch. But should she not be able either through the badness of the Weather or danger from the Enemy to take in her full Loading we are then to order the Commander to make the best of his way for Fort $\mathrm{St}^{\mathrm{t}}$. David Consigning what Pepper we may have put on Board in part of her Cargoe with the Sandall Wood provided for the China Ships to the Deputy Governour \& Council of Fort St. David forwarding thither the Packet which Came enclosed. But should either of the above Obstacles prevent her receiving any Goods or taking in her Men she is then to be dispatched in like manner to Fort $S^{\natural}$. David ordering her Men to Anjengo by some proper Conveyance before the Rains. That they have laden on the Warwick Bales of Cotton for the Bay, we are therefore to ship on board her the eight Chests of Foreign Silver we have remaining in Case the Exeter has had no occasion for them Consigning the same to the President and Council at Bengall, ordering the Commander (his Men being previously returned him) to proceed in Company with the Princess Augusta to Fort $\mathrm{S}^{t}$. David there to follow such Orders as he may receive from the Deputy Governour and Council for his further Proceedings. As Messieurs Stonestreet and Robinson have promised to be extreamly diligent in future in the Hoñble Company's Service they direct that they be reinstated and to take their Seats at our Board accordingly. That in Case we are able to fill up the Ilchester for Europe we are to send the one hundred Topass Soldiers (whom they have put on board that Ship for the Service of Fort St. David) on the Warwick and Princess Augusta. They enclosed us a Packet from the President to Captain Tedd which we are ordered to deliver him in Case he is dispatched for Europe otherwise to forward it to the Deputy Governour and Council of Fort $\mathrm{S}^{\mathrm{t}}$. David. In a Postcript they order the four hundred and fifty five Bags of Peas landed here from the Wake to be sent on the Warwick or Princess Augusta to Fort St. David there to be delivered to the Commander in Chief of his Majesty's Squadron. They also write us to send the Hchester's Charterparty to Fort St. David in Case we dispatch her thither but if to Europe the Sandall Wood is then to be put on Board the Warwick or Princess Augusta.

The Wo. William West Esqr. Provisional Chief. William Jeynson. Hugh Symmons. John Robinson. Nicholas Stonestreet.
Tee Chief informs the Board that a Messenger sent by Ally Rajah to sue for a Peace with the Hoñble Company was waiting without who being Called in acquaints us that Ally Rajah was very sorry for Jifferences and Disputes that had happened between them and desired to see an Account of his debt which so far as his low Circumstances would permit him he was willing to discharge begging we would on their Behalf shew him some Clemency, forgive his past Follies and help to raise his Family who had greatly suffered by the unhappy War. To which the Messenger was given to understand that Alley Rajah Could have little reason to expect ffavour [sic] from the Hoñble Company having at Sundry times insulted our people in passing and repassing to and from Maddacarry and refused to pay or even acknowledge the Justness of his Family Debt to them which obliged the then Chief and Factors to seek redress in such manner as the Law and Custom of the Country allowed by seizing his Effects at Sea and laying an Attachment or Impediment on the Produce of his Verges and notwithstanding this Method of Proceeding was exactly Conformable to the, usual Practice of the Country from Time out of mind and Consistent with Equity and Reason yet he the said Ally Rajah Contrary to the Friendship Subsisting between him and the Hoñble Company did take up Arms against them and in Conjunction with the Prince of the Country, whom it is supposed by Misrepresentations and Presents he brought into his Alliance did actually attack the Honble Company's Fort at Maddacarry and being disappointed therein he afterwards destroyed their Mucquary at Agar killing and wounding the Coolies, their Wives and Children in an unheard of barbarous and Cruel manner all which not satisfying his Revenge he went to Mahie, Cotiote and other Places endeavouring to Stir up the French the King of Cotiote and other Country Powers to attack this Settlement, that notwithstanding all these unwarrantable Proceedings of his the Board were yet willing on

his Sincere Repentance to hearken to his Proposals for accommodating Matters Amicably and to accept of such Terms and Conditions from him in behalf of the Hoñble Company in regard to his Debt as his Circumstances would allow accordingly the Accots. were produced and stated to his Messenger in the following manner vizt.

which Account the Messenger perused and declared that he doubted not but that the Debt was just and what Alley Rajah ought to pay if he was able but again repeated his Inability and hearty Repentance with Assurances that it was Sincere begging that we would accept of the Principal Sum of Fanams Sixty four thousand nine hundred Sixty four and fourteen Tars and forgive him the Remainder he was thereupon ordered to withdraw and our Linguist sent out to acquaint him that his Proposals Could not be accepted of and that he must try to bring him to the utmost of what he had to offer Soon after which he returned and proposed that Alley Rajah should Pay to the Hoñble Company fifteen thousand Rupees as follows rizt.

This being esteemed an Affair of Consequence the late Chief Mr. Dudley was sent for and desired to give his Opinion Concerning it who attended and being acquainted with what had Passed he readily delivered it as his opinion that the above Terms shouid be accepted of if no better were to be procured when after debating sometime it was agreed to deferr [sic] this Business to a further Consideration and in the mean time to endeavour to gain better Terms for the Hoũble Company.

A Merchant of Callicut offering to truck Pepper for the Cotton we have lying here being Candies two hundred, ninety nine (Cas ${ }^{\text {. }}$ 299) at the rate of two Candies of Pepper for one of Cotton we had recourse to our Orders from Bombay Concerning the Disposal of that Article and finding the Hoñble President and Council in Rs.
their Letter to us of the $3^{\text {d }}$. of October 176 direct us not to sell it under $90 \quad \tilde{q}$ Surat Candy and under the $2^{\text {d }}$. of January following to sell it if an Adrantageous Sale offers or othermise to keep it for the China Market. We Agreed therefore (as none of our Hoñble Masters Ships have Called here this Season and having no great Likelyhood of selling it for ready money and by keeping it the Rains it may probably Damage) to accept the Offer and allowing the Cotton at one hundred thirty one Rupees the Candy and the Pepper at Sixty five Rupees and an half there will be a gain of about seven $\underset{\sim}{\boldsymbol{p}}$ Cent Clear of all Charges.

The Board being informed that Pepper was fallen in its Price since the last Contract it was observed it would be fine Time to make further Purchases in Case we had a Sufficiency of Cash by us which from the extraordinary Expences the War with France had lately occasioned and the absolute Necessity there is of our not learing ourselves bare in Case of an Attack It is the Opinion of all the Members that we ought not to Launch out any more of our Present Stock in further Purchases but that if a Sum of Money Could be taken up at Interest to adrance for Pepper so as to bring it under the Hoñble Compans's Stated Price of Seventy Pups. the Candy ( $w$ hich is imagined will be an acceptable Piece of Sersice the Chief is desired to try if he Can get any money at Interest and upon what Terms when on his Report we shall Come to a further Determination.

The Effects of the late Mr. Edward Spencer third Mate of the Ilchester was put up at Publick Outcry as also those belonging to William Browne Seaman deceased of the said Ship.

The Chief received an Ola from Alley Lajah wherein he says it is not to be supposed that he Can have much knowledge of the good Understanding which heretofore Subsisted between his Predecessors and the Hoñble Company however he has been fully informed of it and also finds by the Registers now by him that it was actually so, and that a great Trade was Carried on between them when his Ancestors employed many Ships and Vessels from whence there arose great Profit by [sic] since his Uncle went to Mocha (which is now about ten of twelve Years agoe) Commerce has been at a Stand and instead thereof Wars Devastations and Charges have taken place which is notorious to all the World. He therefore now entreats the Chief for the Hoñble Company his Council and the Linguist to Consider the Circumstances he is in and releive him from the Dilemma which induces him to lay himself at the Hoñble Company's Mercy. The Debt owing by his Predecessors he finds to stand on the Company's Books Sixty four thous ${ }^{\text {d }}$. nine hundred Sixty Tars

and when he has satisfied the Hoñble Company he desires this Letter may be returned him and that they will guide him in the manner they have done his Predecessors.

The Subedar whom we sent the $18^{\text {th }}$. Ultimo to the Northward for enlisting the Number of Seepoys wrote for by the Deputy Gorr. \& Council of Fort St. David, having since informed the Chief that they Cannot be got so as to be here before the Month of August or September which is imagined will be too late for the Service they are intended the Secretary was therefore directed to write to the Gentlemen of Council desiring their Opinions whether it would not be proper to send two hundred and twenty five of our own Seepoys (who have been prevailed on with much difficulty to go on Condition of being advanced two Months Pay each and Diet money in their Passage the whole being four thousand one hundred and eighty $\mathrm{q}^{\mathrm{r}}$. reas
Rupees 4180. - . - ) as we may be recruited with the like Number as soon as in all Probability we want them; which was Agreed to and wrote therefore a Short Letter to the Deputy Governour and Council enclosing them Muster Roll of their Names and Pay as also Beckan.Caun's Obligation to refund the Wages of such Seepoys as should desert in the way.

In the Evening, Serjeant Chivers was brought dead from Maddacarry and Serjeant James Robinson was sent here from thence Prisoner the Deceased having it's said received a Wound in his Breast, with a Hanger from the said Robinson.

## Sonday

Received a Letter from Mr. Alexander Douglas at Callicut enclosing his Monthly Accounts for May.

The Prince of Cherrica Called in his way to Cartanedu and paid a Complimentary Visit to the Chief who took occasion to desire he would see our Seepors safe through Boyanores Country in their way to Fort St. David which he promised to do, and was saluted at his Coming and going as usual.

Wrote a Letter to Mr. Alexander Douglas acknowledging the Receipt of his Monthly Accounts for May and directed him to procure Guides for the Seepoys who were to Call on him and to dispatch them away as soon as possible

Serjeant James Griffith having served the Hoñble Company above his Contracted Time and being very importuning to be discharged it was granted.

The Chief sent to the Gentlemen of Council Translate of the Ola or Obligation received from Alley Rajah the $6^{\text {th }}$. Instant as mentioned in the Diary of that date, desiring their Opinions in regard to the Terms therein mentioned which were Approved of (as no better Could be obtained) by the Majority of the Board.

The Chief wrote the following Letter to Alley Rajah.

In your Letter to me I observe you entreat the Hoñble Company will accept of fifteen thousand Rupees ( $\mathrm{h}^{\mathrm{s}} .15000$.) and relinquish what further demands they have on you at present. As I find you repent of your former Misconduct are desirous of being relieved from your present Troubles and are willing to enter into Friendship with the Hoñble Company I on their Behalf accept of the aborementioned Sum and when you have discharged it your Writing shall be delivered up. I expect your Behaviour in future will be Conformable to that of your Predecessors when the Hoñble Company will act agreeably.

Sondar The Chief wrote the following Letter to the Prince of Cotacuna and another of the same Purport to the Prince of Cherrica who is now at Cartanedu.

## The Deposition of Serjeant Edward Target vizr.

I Serjeant Edward Target depose upon Oath that James Robinson on Sunday the $7^{\text {th }}$. Instant about two o' Clock in the Afternoon that I sent for him by Serjeant James Chivers deceased and that just on the other Side of the Tank I suppose they had words and the Centinel Calling out I went up to him and took the Hanger out of James Robinson's hand and found the deceased wounded. The next Morning when I went down to enquire of the deceased how he did he said he was very well and that the Doctor told him he Could Cure him in a few days and desired not to be sent to Tellicherry and forgave the Prisoner what had happened.

Sworn before me William West.
The Deposition of the Prisoner James Robinson.
Serjeant James Chivers that is dead we lived in Friendship and Unity ever Since I Came to this Place and ever since our heing at Maddacarry we dieted together without having the least Difference. On the $7^{\text {th }}$. of this Month I was very much in Liquor and he desired me to go up to the Fort along with him, I, not knowing that he was ordered to Carry me up as a Prisoner when he was very nigh the Foot of the Fort I denied going up with him, then he laid hold on the Hanger which was by my Side and pulled it out and I Catched with my hand hold of the Blade and asked him by what Authority he pulled it from my side. Then we both Struggled together each having hold with both hands the Deceased's hands being towards the Point and his other towards the Hilt my hands being Clasped to the middle. In which Struggle we both fell I undermost and the deceased was wounded in the fall. Then there Came Serjeant Target and others who secured us. The morning afterwards when I went to see him he declared before Serjeant Target he would willingly forgive me what had happened and likewise said the same to John Coffeild Corporal and that the black Doctor at Maddacarry named Solomon Peters after his decease declared it was not of that Wound which he died as he would declare on Oath if asked saying that he had Poison in his Body.

Sworn to before me William West.
Tie Princes of Cotacuna and Cherrica returned their Several Answers to the WednesChief's Olas to them under the $14^{\text {th }}$. Instant Translates of which are as follows. day

## From the Prince of Cotacuna vizr.

I have received your Letter wherein I find that Caddao of Cannanore is willing to pay his Debt to the Hoñble Company, live in Friendship with them and is to have a meeting with you the $5^{\text {th }}$. of July next which is very proper when my Brother returns hither we shall. Consult together and he will repair to Tellicherry. The Company is fully apprized of my Friendship with Caddao. The Alliance between us and the Company is of a long Standing but this Caddao through his Wiles unknown to me and my Brother Sometime past was the Cause of a disunion between

Tire Secretary wrote a Short Letter to \IIr. Alexander Douglas at Callicut agreeable to the Resolution of Council this Morning.

Received a Letter from Mr. Douglas at Callicut in answer to our Severals of the $8^{\text {th }}$. and $10^{\text {th }}$. Instant and advises that he had agreeable to our Orders provided four Putterahs for Guide to Bican Caun and his People who left that Place for Fort $S^{\text {t }}$. David the $1^{\text {th }}$. following. Enclosed we receired a Packet from the Chief and Factors at Anjengo.

The Letter from the Chief and Factors at Anjengo is dated the $\mathrm{s}^{\text {th }}$. Instant and acknowledges the receipt of our Several Adrices to them under the $6^{\text {th }} .9^{\text {th }}$. $15^{\text {th }}$. and $29^{\text {th }}$. April $5^{\text {th }}$. and $18^{\text {th }}$. Ultimo. They acquaint us with the safe Arrival of their five Chests of Treasure as also their Stores which turned out agreeable to the Accounts we enclosed them. That the Schooner haring met with some dirty Weather obliged her to return back but that they shall send her up for the remainder of their Stores as soon as the Monsoon will permit them. That they shall duly Credit us for the Lead we supplied them being Rupees forty three one quarter and

eighty seven Reas ( $\mathrm{R}^{\mathrm{s}} .43$. 1. 87.) as also for what adranced to their Toners at Sundry times. They advise us of their having received a Letter from Fort $\mathrm{S}^{\mathrm{t}}$. David under the $11^{\text {th }}$; Ultimo by which they learn that a Macao Ship has fallen into Commodore Grifinn's hands having French Goods on Board and bound into Pondicherry. And on the $9^{\text {th }}$. Ul ${ }^{\text {o }}$. a Letter Came to their hands from the Commodore and Council of Cochin informing them of their General and Council of Bataria's Resolution to prohibit any Nation's trading in Ophium to the Eastern Parts of India, Copy of which they have sent to Bombay and Shall forward another to the Hoñble Company. They desire us to give them the earliest Intelligence of the French Ships Motions on the Coast, which they will not fail doing should they get any Notice of them.

Axswered the preceding Letter from the Chief and Factors of Anjengo and advised them that the French Fleet were still at Goa who give out that they shall be joined by Monsieur La Bourdinay with a Squadron from the Islands in the Month of August and that should we receive any further Notice of their Morements they might depend on having the earliest Adrices.

Wrote to Mr. Alexander Douglas at Callicut enclosing him the Letter for the Chief and Factors at Anjengo $w^{\text {ch. }}$. we directed him to forward thither $\hat{\vec{e}}$ Pattamar Express.

Received a Letter from Mr. Alexander Douglas at Callicut acknomledging the receipt of ours under the $24^{\text {th }}$. Instant together with the Packet for the Chief and Factors at Anjengo which he adrises us was duly forwarded. That be now sends us tro Topasses who Came from Cochin and are willing to enter into our Military, that they have been supplied with Provisions during their Stay there as also for their Passage.

The Young Prince Called here in his way from Cartanedu to Cherrica when he assured the Chief that he would be at the intended Meeting with Alley Rajah on the $10^{\text {th }}$. of next Month and expressed a great deal of Satisfaction at our accommodating matters with him. He was saluted at his Coming and going as usual.

Received a Letter from the Gentlemen at Fort $\mathrm{St}^{\text {t. David dated the } 1 \mathrm{~S}^{\text {th }} \text {. }}$ Ultimo, acknomledging the Receipt of ours under the $21^{\text {st }}$. of May. They adrise us of the Arriral of Ships Severn, Ilchester Warmick and Princess Augusta with a Reinforcement and other very acceptable Supplies from Bombay. That they have since thought proper to put the Warwick and Mchester under the Direction of Commodore Griffin and as the Commanders have left it to them to give Orders relating to the Men they put ashore at this Place ther therefore desire we will send them as also those belonging to the Severn by the first Opportunity. That the Swift Snow belonging to our Hoñble Masters arrived them the 1 sth. $^{\text {th }}$. Cltimo who brought only a Letter from the Secret Committee by her they learn that the Porto Bello Sloop left St. Helena the $10^{\text {th }}$. of February, the Somerset and Pelham sailed
——IULY 1747 ——
from the Cape the $4^{\text {th }}$. of April and the London and Augusta were to leave it the $13^{\text {th }}$. That the Walpole is thought to have passed it having been parted with to the Eastward the Apollo and Anglesea were then Cruising thereabouts. They learn likewise that ten of the Outward bound Ships were at Gravesend the 23d. of December ready for sailing in Company, with the Bristol and Eltham Men of War, one of 50 the other 40 Guns.

Received also a Letter from Captain Joseph Collier dated the $8^{\text {th. }}$. Ultimo advising us of the Pattamar Boat (which Came in Company with him from Bombay) being dispatched for this Place the $12^{\text {th }}$. of May last when he judged himself to be off of [sic] Mount Formosa and the next day anchored about Six Leagues to the Eastward of Mount Dilly and laid there till the $15^{\text {th }}$. when Captain Tedd weighed; and as he was directed to keep him Company for their mutual Safety and judging it too hazardous lying a Single Ship or venture into this Road for taling in his Men were the Reasons for following the Ilchester and Warwick to Fort $\mathrm{S}^{t}$. David. He desires we will send his Officers and Seamen as soon as possible and thinks they may easily go thither in a Shybar when the Weather is moderate and that he shall wait their Arrival till the middle of July. That he is advised by Mr. Herbert of our refusing to give Certificates for the money paid by him on his account into the Company's Cash because the Ships did not Come into the Road, and as we had no Opportunity of advising the Hoñble Company of the same but as it is a Priviledge allowed him, he hopes we will indulge him in his Request.

Q Whe Jeyrson.
The Chief had this day a Meeting with Alley Rajah on the other Side of Durmapatam River opposite to Attarah Fort in Presence of the Prince who expressed himself greatly pleased that the Hoñble Company were at length going to be once more Friends to Alley, who he said would doubtless Punctually Comply with any Engagement he might enter into on this Account, and Alley Rajah seemed also well satisfied. The Terms therefore on which the Peace was to be concluded being Explained to him, he said he was sorry he Could not Comply with that Part of the Agreement which binds him under a Penalty in Case of breaking with the Company as it would greatly lessen him in the Eyes of the Country Powers and therefore hoped the Chief would not insist on it. The Chief told him he was very
——JULY 1847 ——
much Surprised he should refuse Signing to that Article as it would be of no Consequence if he had no Intention of breaking with the Company, and Could in no Shape lessen him in the Eyes of the Country Powers; but Alley Rajah being very pressing to have that Article left out and the Chief judging it to be of no Consequence, either one way or the other he acquiesced with his Request, however, it being then too late to have fresh Articles drawn out Alley Rajah was desired to send his Writing when he was told, we should return him ours. The Chief thereupon took his Leave and on his going made the Prince as also Alley Rajah a Small Present.

Recerved a Letter from the Resident at Callicut enclosing us his Accounts for last Month.

 $13^{\text {ri. }}$. Answer to theirs under the $18^{\text {th }}$. Ultimo, and advised them that it was as yet impracticable for us to send the People belonging to Ships Ilchester and Warwick but would as soon as the Monsoon was a little more moderate. That we were glad to hear of the Arrival of the Swift Snow and thanked them for Communicat. ing to us the News she brought.Wrote also to Captain Joseph Collier, advising him that we should send his People as soon as the Weather was more moderate; but that if it had been in our Porer to have sent them away immediately on Receipt of his Letter it would still have been impossible for them to have arrived by the Time he was determined to Sail. That we had granted Mr. Herbert Certificates for ten thousand Rupees paid into Our Cash on his Account.

The Chief wrote an Ola to the Prince advising him that he had received a Letter from the Subedar of Mattalye by which he was informed that his Highness had siezed an Elephant which was carrying to the King of Bodnure and that at Ramatilly he had likewise siezed on a Munchua and Toney lodded [sic] with Rice belonging to the said King and his Highness. The Chief desired he wou'd release them to prevent any breach.

Mr. William Herbert Purser of the Severn embarked in a Toney for Callicut intending from thence to proceed overland to Fort $\mathrm{St}^{t}$. David.

The Preceding Advices for Fort St. David were this day forwarded $\%$ Pattamar Express; together with a Letter to the Hoñble Company advising only of our having drawn on them for 1 Sett of Bills and one of Certificates, which was enclosed to the Deputy Governour and Council to be forwarded by them on the Severn.

A Small Sloop appeared off this Place with French Colours within two or three Leagues of the Shore. One of our Toneys was sent on board and the Master told the Mucquas they Came from Goa, The Vessel was Chiefly manned with Lascars having only about Six Europeans in her and no Guns mounted.

Ir is said that twelve Sail of Ships were seen off Mottalye three days agoe which we suppose may be Frenchmen from the Islands and that the Sloop abovementioned Came in their Company. The Sloop is still at Mahie lying very nigh in Shore and should she stay there much longer we may reasonably Conclude the above Report to be False, as otherwise she would return to them and advise them of the Scituation of their Affairs at Pondicherry.

Br a Pattamar we received a Letter from the Deputy Governour and Council at Fort St. David dated the $6^{\text {th }}$. Instant wherein they acknowledge the Receipt of our Advices to them under the $15^{\text {th }}$. Ultimo with Duplicate of that under the $f^{\text {th }}$., though they say neither the Original or Men were then arrived. That finding they shall be shortly distressed for Money unless some Ships arrive from Europe which they Cannot entirely depend on and being advised from our Presidency that we were directed to put on board the Warwick eight Chests of Foreign Silver which they were to have made use of if their Occasions required or to have Exchanged into Arcot Rupees for the Bay, thev therefore desire as we have been disappointed of the Means of sending it, by that Ship's not Calling at our Port, that we will

furnish them with the said Silver or its Amount by the Earliest Opportunity In Case we Could get Letters of Credit on Arcot for the Amount it mould be more acceptable as they would not willingly make use of them unless urged to it by Necessity but should we not be able to manage it in that manner they then request we will hire a Vessel if no other Sea Conveyance offers to Carry the Foreign Silser together with the Men belonging to the Europe Ships as well as such other Supplies we may think necessary. They adrise of their having forwarded our Packet to Bengall the $1^{\text {st }}$ Instant by the Fort $\mathrm{S}^{\text {t }}$. George and shall send that for Bombay by Pattamars.

Received a Letter from Mr. Alexander Douglas at Callicut which Served only to give Cover to one from the Gentlemen at Anjengo dated the $7^{\text {th }}$. Instant acknowledging the receipt of ours under the $24^{\text {th }}$. Ultimo by which they are pleased to hear of the French Ships being at Goa as they think they Could not hare gone to a Place which would have been more Prejudicial to them. They hope the Accot. of a Fleet Coming from the Islands in order to join them may prove as false as that Monsr. La Bourdinay is Command [sic] them they being well assured that that Gentleman is disnissed their Service. That they shall not omit adrising us of any Acco ${ }^{t}$. they may hear of the Enemy and desire us not to be remiss on our Parts.

Two Large Ships appeared in Sight off Durmapatam in the Evening which the Dutch likewise saw from Cannanore and say they had French Colours.
Wednes-
THE above Ships were out of Sight this Morning.

In the Evening before Sunset one Ship Came to an Anchor between this Place and Mahie. The Mucquas who went on board her say she Mounts 32 Guns and has about 100 Men all Europeans and that the Commander told them she Came from Mocha and was bound to Mahie but they Could not learn either the Commander or Vessel's Name.

Wrote a Letter to Mr. Alexander Douglas at Callicut directing him to make enquiry amongst the Bramines and Shroffs whether any Secure Bills Could be got on Arcot made Pavable to the Deputy Governour and Council at Fort St. David for eighty thousand Rupees to be made good by us on adrice of such Bills being duly honoured. We enclosed our Warehousekeeper's Indent for Cardamom Chests which he was ordered to Comply with.

The Chief received an Ola from Alley Rajah dated the $15^{\text {th }}$. Instant as also one from the Prince Translates of which are as follows.

## Translate of Alley Rajais Ola to the Chief.

As the Company heretofore deported themselves torards my Ancestors and Family without any Failure \& as long as they Continue to do so, II shall not attempt any them Contrarywise I will pay the Company double the Charges of a War should such happen between us. This has been wrote in Presence of his Highness of Cherrica.

## Translate of the Prisces Ola to the Chief.

I have received Your Letter and obserre what the Moor has wrote the manner of which I am well pleased with. The Friendship which I bear to the Company shall never alter which I hope you will let them know and Succour me with Men and Money in the manner as was done for my Brother.

The Worshipfull William West Esqr. Provi. Chief.

William Jeynson. John Robinson.

Huge Symmons. Nicholas Stonestreet.
Read Translates of the Preceding Olas from Alley Rajah and the Prince as entered in the Diary.

The Prince having assisted us with Men at a Time when we were alarmed by the French Fleet and since Promised that in Case they should make any Attempts against this Place he would give us all the Assistance in his Power the Board took the above into Consideration and it being thought very necessary we should fix him in our Interest and imagining that a Present in Acknowledgment for his past Services would be kindly accepted by him It is Unanimously Agreed that we send for him and Present him with three thousand Rupees on his Account.

Read the Letter from the Deputy Gorr. and Council at Fort St. David received the $21^{\text {st }}$. Instant and as they are very Pressing for us to remit them the Amount of the eight Chests of Foreign Silver intended for the Bay by the Warwick It is Agreed that we endeavour to get Letters of Credit on Arcot in their favour as they request or Bills of Exchange as may be most Convenient; and the Secretary is Directed to prepare a Letter advising them of this our Resolution.

From Sending this Extraordinary Supply to Fort St. David we shall then have but a Small Ballance in Cash not Sufficient to Serve till we Can be Supplied from Bombay there being little or no Likelyhood of any Conveyance offering especially while the French Fleet Continue on this Coast. It is Agreed we desist making any further Purchases of Pepper.

An Account of the Distribution of the Rs. 900 allowed the Mucquas of Agar in Consideration of the Losses they Sustained is Examined and Passed.

Wrote a Letter to the Deputy Governour and Council at Fort St. David in Answer to their Advices under the $7^{\text {th }}$. Instant we acquainted them of our preceding Resolution to remit them the Amount of the eight Chests of Foreign Silver by Bills on Arcot but in Case we should not be able to procure them we had no View of hiring a Vessel purposely or Could we send the Seamen belonging to the Europe Ships unless a Conveyance offered Accidentally. That on the 18th. Instant a Sloop arrived at Mahie who had brought Six Europeans and a few Lascars and we believed Came from Mauritius as she had buried Several of her People for want of Water and Provisions. That on the $21^{\text {st. }}$ a Snug Ship of 30 Guns and 100 Europeans arrived there who we imagine Came also from the Islands though the French say from Mocha. That nothing but a Packet was as yet landed from her which was forwarded to Goa being we imagine Directions to the Commanders of the four Men of War now lying there who are not in proper Condition to put to Sea having lost a Considerable Part of their Men since their Stay there. We enclosed them a Packet for Commodore Griffin from the Vice Roy of Goa which we desired they would forward to him as soon as possible and to return [this] Pattamar with such Advices as they may have to Communicate.

It has been wrote from Mahie to Callicut that eleven English Ships bound for India were met near the Channell by a Spanish Fleet and after an Engagement

the Islands thirteen French Ships were there of which Seven Sail Came out of Europe to relieve part of La Bourdinay's Squadron and the other Six were there before. That the whole thirteen Sail are expected at Mahie sometime next Month and will be joined by the four Ships now at Goa before they proceed to Pondicherry. That the Princess Mary was net arrived at the Islands when the Sloop Sailed thence which was the 23 . of June N.S.

The Chief wrote the following Ola to Alley Rajah.
That so long as he stood and abided by his Obligation to pay the Debt to the Hoñble Company agreeable to his Writing as well as Continue to act in the same good Manner as his Predecessors have heretofore done keeping up the same Friendship and Fidelity the Chief assured him in behalf of the Hoñble Company that he need not doubt of having Shown him the same Estimation and Friendship as was to his Predecessors.
The Pattamar dispatched the $2^{d}$. Instant for Goa returned this Afternoon with Letters from Padre Alexander. One from Mr. Taylor to the Chief advises that an English Europe Ship has been drove ashore to the Southward of Gheriah and that the English Prisoners Carried there in the French Ships are Set at Liberty but find it difficult to get a maintenance.

## Thurs- <br> dAy <br> $30^{\text {™ }}$.

Ir is reported that ten Ships were seen Yesterday off Shore from Mahie but whether French or English is Uncertain however, the French have thought proper to bring their Ship very near in Shore on the Account.
