

From

K. L. PANJABI, Esq., I.C.S.,

Registrar, Co-operative Societies.

Bombay Presidency, Poona 1,

To

THE SECRETARY TO THE GOVERNMENT OF BOMBAY,

Revenue Department, Secretariat,

Fort, Bombay.

POONA I : November 1st, 1933.

Subject.—Annual Administration Report for 1932-33.

Sir,

I have the honour to submit my Annual Administration Report on the working of the Co-operative Societies in the Bombay Presidency for the year ending 31st March 1933. This is the 29th Annual Report.

I—ADMINISTRATION.

Gazetted Officers.

2. *Registrar.*—I held charge of the office of Registrar throughout the year.

Personal Assistant.—The post of the Personal Assistant was retrenched during the year under G. R., R. D., No. 7262/28, dated 29th April 1932.

Assistant Registrars.—One post of the Assistant Registrar was also retrenched and the Societies were rearranged as under :—

Division.	Headquarters.	Char- anding Co-operative
Bombay—[Mr. A. C. Desai, L.Ag., M.A. (Wis.)]	Bombay	As I said last year, Bombay is equally useful, for the their affairs efficiently and the movement as the

taken to meet this crisis.

PROGRESS.
President of the Institute, has dev
Canals commenced functioning,
water supply was not adequate except
where the old channels and water courses
In the non-Barrage area and, particularly in Karachi
and on the Fuleli Canal, the situation was acute owing to
inadequacy of water, as the period of inundation was very short. Sind
has really not a good year since 1927, being affected either by floods,
frost, locusts or drought.

All the Assistant Registrars held their present charges throughout the year, except Mr. D. A. Shah and Mr. A. C. Desai. Mr. Shah was on 3 months' leave from 29th March 1932 and again on leave for 12 days from 12th December 1932, and Mr. G. S. Dandvate, M.A., held charge for him for 3 months. Mr. A. C. Desai was on leave for about 4 months, and Mr. Y. T. Desai, B.A., M.Sc. (Econ.) (Lond.), held charge of that office.

The inspection work done by me and the Assistant Registrars is as under :—

Designation.	Number of days toured.	Number of Societies inspected.
Registrar, C. S., Poona	237	568
Deputy Registrar, Sind	213	524
Assistant Deputy Registrar, Sukkur	268	171
Assistant Registrar, Bombay	146	465
.. .. . Poona	145	269
.. .. . Dharwar	190	408
.. .. . Dhulia	187	436
.. .. . Surat	184	246

Special Auditors.—During the year an additional post of Special Auditor was created under G. R., R. D., No. 9804/24, dated 19th March 1932, with effect from July 1932.

Other Staff.

3. During the year 7 Auditors, one Sub-Auditor, one Assistant Weaving Inspector and one Industrial Organiser were retrenched and six Sub-Auditors were appointed instead. The sanctioned staff of the Department, other than the clerical staff, was as under :—

1 Office Superintendent.

1 Auditors.

1 Auditors.

1 Cultural Organisers.

1 Inspector.

1 Weaving Inspector.

orary Staff.

1 Phil Societies has been retained
354-A, dated 1st

Nagar
7,430

9,159

arrears had accumulated and necessitated special staff. At present there are 19 Special Recovery Officers working in 14 districts. They have recovered in all 9½ lakhs of rupees up to June, 1933 and this is quite satisfactory, considering the fact that in some districts the appointments were delayed for a considerable period. A detailed report is being submitted to Government for the continuance of these appointments, which is recommended by almost all the Collectors, as they relieve the revenue staff of the heavy work involved in collection of these dues, and a 5 per cent. levy covers the expenditure on the pay and establishment of these officers.

4. *Deputy Registrar*.—The post of additional Deputy Registrar to assist the Registrar, which has been administratively approved in G. R., R. D. No. 6768/24, dated 10th October 1927 has not yet been provided for owing to financial stringency.

Honorary Staff.

5. During the year 11 Honorary Organisers have been retrenched and the figures stand as under :—

- 1 Divisional Honorary Organiser.
- 57 District Honorary Organisers.
- 64 Taluka Honorary Organisers.

122

The cost on their travelling allowance was only Rs. 6,770 as against Rs. 10,500 of the last year. These officers have rendered very valuable assistance and are a great asset to the Department. Thanks are due to them for much useful work done at considerable sacrifice.

Other Helpers.

6. Appendix A contains the names of outstanding Co-operative workers whose devoted services deserve mention. As I said last year, the services of these public-spirited gentlemen are equally useful, for the members of a small society, who manage their affairs efficiently and honestly, probably contribute as much to the movement as the 95,982 of a big bank, and yet special mention must be made of figures in the movement who have continued to devote energy to improve societies.

PROGRESS.

Sir Chunilal Mehta, K.C.S.I., J.P., both as Chairman and President of the Institute, has dev. canals commenced functioning, and given sound advice to all non-off. water supply was not adequate except when to meet this crisis. here the old channels and water courses in ikunth L. Mehta in the non-Barrage area and, particularly in Karachi Provincial and on the Fulci Canal, the situation was acute owing to inadequacy of water, as the period of inundation was very short. Sind has really not a good year since 1927, being affected either by floods, frost, locusts or drought.

Prof. V. G. Kale, both as Vice-President of the Institute and as Chairman of the Poona Central Bank, has rendered signal services to the Co-operative Movement.

Mr. V. N. Jog, M.L.C., is making heroic efforts to rehabilitate the Dharwar Urban Bank which was on the point of collapse.

Prof. H. L. Kaji has been taking great personal interest in the development of the Bombay Co-operative Insurance Society.

Dewan Bahadur A. U. Malji, Divisional Honorary Organiser, keeps a watchful eye on all the Societies in Gujerat. Mr. C. M. Gandhi, Chairman of the Surat Central Bank, continues to give his valuable time to the movement. Rao Saheb V. C. Jadav of Surat People's Co-operative Bank gives sound financial advice to the Urban Banks in Gujerat in his capacity as Managing Director of Gujerat Urban Banks' Supervising Union. Mr. T. H. Mehta, Chairman of the Broach Central Bank gives gratuitous services even as arbitrator in cases referred to him.

7. The title of "Khan Saheb" was conferred on Seth Haji Mahomed Patoli of Tando Allahyar in Sind for Co-operative work during the year.

Cost of working.

8. The sub-joined table gives the figures of expenditure on the Co-operative Movement out of public funds:—

	1932-33.	1931-32.
	Rs.	Rs.
Pay of Establishment	3,53,894	3,96,527
Travelling Allowance (officials and non-officials)	97,480	94,769
Grant to the Bombay Provincial Co-operative Institute	25,000	25,000
Special Grants to Co-operative Institutions:—		
	Rs.	
Sale Societies	647	
Backward Societies	1,600	
Supervising Unions	12,733	
Co-operative Societies	50	
	15,030	10,431
	44,304	40,532
Total	5,35,708	5,67,259
	1,44,541	1,10,822
Banks and	2,652	7,430
Provincial	900	9,159

The net expenditure has been reduced by half a lakh of rupees.

The net cost per society and per member and according to working capital is contrasted as below with similar figures available of other major provinces :—

Province.	Cost per Society.	Cost per Member.	Cost according to Working Capital.
	Rs.	Rs.	Percentage.
Punjab (in 1932)	55·18	1·6	·62
Madras (,, ,,)	79·71	1·2	·62
Bombay (1932-33)	65·9	·65	·24

The cost per member is the true index as the size of Societies varies in different provinces.

Audit Fees.

9. The Societies have now settled down to the levy of audit fees, sanctioned by G. R., R. D., No. 3818/24, dated 29th December 1930. The following table gives the figures of recoveries and arrears in this respect :—

Division.	Audit fee recovered in 1932-33.	Audit fee to be recovered.	Total audit fee (Total of Columns 2 and 3).
1	2	3	4
	Rs. a. p.	Rs. a. p.	Rs. a. p.
Central Division	14,618 12 6	4,264 12 6	18,883 9 0
Southern Division	21,676 11 6	3,358 14 6	25,035 10 0
Khandesh Division	14,610 10 6	4,272 14 6	18,883 9 0
Bombay Division	4,716 5 6	6,088 3 6	10,804 9 0
Northern Division	5,566 11 6	5,308 8 6	10,875 4 0
Sind Division	9,900 0 6	1,539 6 6	11,439 7 0
Total	71,149 4 0	24,832 12 0	95,982 0 0

II—SUMMARY OF GENERAL PROGRESS.

The Season.

10. In Sind, the Lloyd Barrage Canals commenced functioning, but as this was the first year, the water supply was not adequate except in Thar and Parkar District where the old channels and water courses had been utilised. In the non-Barrage area and, particularly in Karachi District and on the Fuleli Canal, the situation was acute owing to inadequacy of water, as the period of inundation was very short. Sind has really not a good year since 1927, being affected either by floods, frost, locusts or drought.

In Gujerat, the scarcity of rain in September and October and excessive rain in November affected the crops badly, the worst sufferer in this respect being the agriculturists of the Panch Mahals District. In other Districts the crops were fair.

In Thana, Ratnagiri and Kolaba Districts the crops were normal, whereas in Nasik District there was partial failure of Kharif crops and some talukas suffered badly.

In Satara, Ahmednagar, Poona and Sholapur Districts, the rainfall was not well distributed, thus adversely affecting the crops. Ravages of plague in Satara and Sholapur Districts and cattle disease specially in Haveli, Mawal, Tasgaon and Shirala worked considerable havoc. The Hindu-Muslim riots in Bombay in July affected the cash yield of fruit grown in Poona and Nagar Districts.

In the Karnatak, the rainfall was fairly good, though some damage was done by excessive rain towards the end.

In Khandesh, the excessive rain affected the cotton and groundnut crops which are the chief money crops in the district.

On the whole, the rainfall was not very unfavourable but the low commodity prices have severely curtailed the margin of profit for the agriculturists. The cost of production has not decreased in consonance with the fall in prices.

The General Progress of the Movement.

11. The subjoined table shows the general progress of the movement in the whole Presidency :—

Types of Societies.	Number of Societies.		Number of Members.	
	1931-32.	1932-33.	1931-32.	1932-33.
1	2	3	4	5
Central Banks ..	20	20	14,436	14,912
Agricultural Societies.	4,839	4,818	322,261	316,615

Grand Total ..	14,42,10,891	15,80,91,875	1,11,73,730	1,21,57,203

The Central Banks have, in spite of adverse circumstances, maintained a steady progress, thus showing the confidence which the public repose in the movement. The decline in the number of agricultural societies, their membership and their working capital is the natural result of the process of rectification and consolidation pursued by the Department. The weak Societies are being liquidated and the undesirable members are being weeded out. The non-agricultural Societies have maintained a very steady progress and are on the whole working on sound lines.

12. The comparative rate of progress of the Co-operative Movement during the last two years is as below :—

	During 1932-33.		During 1931-32.	
	Increase.	Decrease.	Increase.	Decrease.
In the number of Societies.	2	18
In the number of members.	13,046	3,260
In the Working Capital ..	Rs. 139 lakhs = 9·7 per cent.	..	Rs. 51 lakhs = 3·7 per cent.	..
In the Reserve Fund ..	Rs. 9,83,473 = 8·8 per cent.	..	Rs. 6,82,337 = 6·5 per cent.	..
In the Overdues ..	Rs. 19,36,489 = 6 per cent.	..	Rs. 69,36,758 = 29 per cent.	..

13. *Long-term Finance.*—During the year the three Land Mortgage Banks advanced loans to the extent of Rs. 50,570. The rate of interest

charged was increased to 8 per cent. in consonance with the rate of interest charged by Government on the loan of 3 lakhs of rupees.

14. *Urban Banking*.—The Urban Banking Movement continues to develop on proper lines. There are at present 102 Banks with a working capital of 4 crores. Owing to the availability of good workers and educated membership, they have a great future before them. They contribute definitely to a growth of habit of thrift and to the popularity of banking habit.

15. *Supervising Unions*.—During the year 3 Unions were registered and none cancelled. At present out of 4,818 agricultural Societies 3,418 are affiliated to Unions. The affiliated Societies continue to enjoy the exemption from audit fees to the extent of 8 annas per cent. on working capital. Rs. 12,733 were given as grants to 55 Unions in order to make up the deficit, the Central Banks contributing an equal amount.

There is an increasing desire on the part of the agricultural Societies that supervision should not be entrusted to Taluka Development Associations. The Unions have definite duties and powers over the Societies and it seems inequitable that these powers should be exercised by the General Committee of Taluka Development Associations on which the Co-operative Societies may not have adequate representation. I am discussing this question with the Director of Agriculture in the Joint Board and hope to submit a joint report to Government in this respect.

The Reorganisation Committee in paragraph 225, realising the importance of effective supervision over the Societies, has recommended that the supervision work should be temporarily entrusted to Sub-Auditors in charge of groups of 45 Societies. Government have now appointed a special Committee to investigate this recommendation and report on it and I do not think it necessary to comment on it at this stage.

16. *Owned Capital*.—The following figures show the position as regards owned capital :—

	Share Capital.	Members' Deposits.	Reserve Fund.	Total.
	(Lakhs)	(Lakhs)	(Lakhs)	(Lakhs)
	Rs.	Rs.	Rs.	Rs.
Central Banks	46	329	16	391
Agricultural Societies	35	65	73	173
Non-Agricultural Societies	115	261	32	408
Total (1932-33)	196	655	121	972
Total (1931-32)	186	592	111	889

The owned capital shows a distinct increase of 83 lakhs and forms to-day 61·4 per cent. of the working capital.

III—WORKING OF SOCIETIES.

A—RESOURCE MOVEMENT.

(1) Agricultural.

(a) AGRICULTURAL CREDIT SOCIETIES.

17. *Main Statistics.*—The following figures show the progress of the Primary Agricultural Credit Societies :—

		1932-33.	1931-32.
Number of Societies	..	4,573	4,603
Membership	248,504	257,402
		Rs.	Rs.
Working Capital	4,02,41,102	4,20,41,363
Of which owned capital	1,58,71,440	1,59,77,921
		=39 per cent.	=38 per cent.
Reserved Fund	67,69,617	64,46,055
Members' Deposits	61,58,960	68,51,458
Share Capital	29,42,863	26,80,408

18. *General Policy and Summary of Progress.*—During the year 42 societies were cancelled and 12 registered as against 144 and 97 respectively last year. Fewer societies are cancelled this year. This is an indication of the keen interest taken by agriculturists who are making strenuous efforts to revive several societies, for there is a growing feeling that a society properly managed can be a real friend to the agriculturists. Money-lenders in rural areas have restricted their operations out of sheer necessity, partly owing to their resources being locked up and partly to the low commodity prices which do not prove very attractive for their operations.

The decrease in membership is due to the weeding out of undesirable members and to the membership of the cancelled societies. The decrease in the working capital and the owned capital is due to withdrawal of deposits, as the prevailing depression has necessitated the utilisation of the savings by the agriculturists. There is a satisfactory increase in the amount of share capital which is not ordinarily withdrawable, and which contributes more to the stability of the societies. A strict policy of rectification and consolidation rather than expansion is pursued by the department by securing better supervision, better staff and careful scrutiny of loan applications. The societies are fully alive to the

situation, though an air of despondency, owing to the low prices of commodities, hangs over most of them. Internally, the movement is being strengthened though the results are not evident owing to the diminution of the repaying capacity of the borrowers.

Admission to membership is being restricted to those who are both economically and morally desirable. The limit of membership of societies is being reduced so as to secure better mutual knowledge and pressure to repay—the foundation of the success of societies. Security of tenure during period of good conduct is being secured for the Secretaries. Defaulters are debarred from working on the Managing Committees. And 10 per cent. in case of smaller societies and 15 per cent. in case of bigger societies are being set apart for rural reconstruction work out of the profits earned by the societies.

The appointment of Special Recovery Officers to recover the societies' dues and to check the tendency of default which was gathering force, has also been very beneficial. In the past, in some cases, owing to pressure of work the Revenue Officers left unattended the societies' awards and the impression gathered in some quarters that the members could default with impunity. Even against flagrant cases of default the action was so slow and tardy that it affected very adversely the recovery of societies' dues. Fortunately, now that impression is being removed, and if only the borrowers had the means to discharge their liabilities, very noticeable improvement in the position of the societies would have been seen.

19. A mistaken impression that recovery of dues of co-operative societies through the agency of Revenue Officers, as arrears of land revenue, has become the normal mode of recovery for societies has been gathering force. Accordingly, I have collected figures this year in this respect. They relate to all societies, urban and rural, and to actual recoveries effected. These figures however in respect of recoveries by coercive process are deceptive, as they do not relate to awards passed during the year only but also include awards sent up in the last 6 or 7 years which had remained unexecuted owing to pre-occupation of the revenue officers. If figures of voluntary recoveries effected in a particular year were compared with those referred to revenue officers for collection in the same year, the percentage will be very low indeed. Nineteen Special Recovery Officers were appointed this year and the

result of their activities in comparison with the voluntary collections by societies are detailed below by divisions :

Name of the Division.	Outstandings of Societies on 31st March 1933.	Total recoveries from 1st April 1932 to 31st March 1933.	Recoveries effected by coercive process during the same period.	Percentage of column 4 to 3.	Remarks.
1	2	3	4	4(a)	5
	Rs.	Rs.	Rs.		
1. Bombay Division.	40,45,477	24,28,568	32,898	1.3	Recoveries by the Special Recovery Officer made on the awards sent in 1932-1933 were Rs. 3,111 only.
2. Khandesh Division.	79,66,721	10,48,813	83,986	8	The recovery of awards sent for execution in 1932-33 is Rs. 6,036 only.
3. Northern Division.	54,81,273	40,87,702	51,090	1.2	Of the total recovery by coercive measures only Rs. 3,948 were of awards of 1932-33.
4. Central Division.	60,06,040	28,29,161	1,41,125	4.8	Of the total recovery by coercive measures Rs. 34,562 are of awards sent in 1932-33.
5. Southern Division.	1,45,77,431	88,90,911	2,71,448	* 3	All these recoveries do not relate to awards passed in the financial year and they include also the awards of previous years. Figures regarding amounts recovered by Mamlatdars are not available but they were few.
6. Sind Division ..	69,96,200	14,29,606	18,329	1.2	Of the total recovery by coercive measures only by Rs. 2,625 are of awards sent in 1932-33.
* Total ..	4,50,73,202	2,07,74,851	6,02,776	1.5	

It will be seen that the percentage of recoveries in Khandesh Division is the highest, but out of Rs. 83,986 the recoveries of awards sent for execution in 1932-33 is Rs. 6,036 only. Similarly, in the case of Central Division out of Rs. 1,41,125 recovered through Revenue Officers the amount covered by awards of 1932-33 is only Rs. 34,562. The rest relate to recoveries under awards which had been stagnating for a long time in revenue offices when such coercive recoveries had practically been suspended. Actually coercive action is taken after giving the defaulter all possible facilities to repay and very often an interval of three years elapses between the date of default and the date of coercive action. Even during this interval, bonafide effort to repay according to the best of his capacity secures the defaulter an extension of the period of repayment. On close examination it will be clear to any one that the societies are not utilising the revenue agency for effecting their recoveries

as a normal mode of recovery but use it mainly as an extreme measure and out of dire necessity and very sparingly.

20. *Arrears and Overdues.*—The subjoined table gives the figures of unauthorised arrears, separately grouped for normal, precarious and backward tracts :—

	1932-1933			1931-1932		
	Amount due for repayment.	Unauthorised arrears.	Percentage of unauthorised arrears.	Amount due for repayment.	Unauthorised arrears.	Percentage of unauthorised arrears.
	Rs.	Rs.		Rs.	Rs.	
Whole Province ..	3,55,40,540	1,30,79,089	50	3,61,89,697	1,73,30,132	48
Whole Province (excluding Sind).	2,82,91,511	1,06,34,792	50	2,81,66,218	1,58,87,692	56
(i) Precarious and Backward Tracts.	71,00,993	46,89,462	66	71,89,240	48,89,028	68
(ii) Normal Areas ..	2,79,40,034	1,31,93,570	47	2,84,66,769	1,22,52,070	43

There is a slight increase as regards overdues except in case of societies in precarious and backward tracts. This is chiefly due to prevailing depression which has greatly curtailed the repaying capacity of the borrowers. But the subjoined table illustrates better the real position of the societies during the last 3 years. They relate to all agricultural societies, limited and unlimited.

Year.	Amount due for repayment.	Recoveries.	Extensions.	Overdues.	Fresh finance.
	Rs.	Rs.	Rs.	Rs.	Rs.
1930-31 ..	3,42,07,148	92,69,277	1,33,82,285	1,15,55,586	1,33,12,110
1931-32 ..	3,61,89,697	64,55,159	1,24,99,300	1,72,35,238	60,10,988
1932-33 ..	3,41,29,241	71,79,644	99,93,717	1,79,45,880	57,48,685

It shows clearly that while the figure of loans due is to-day nearly what it was in 1931, the amount under extension is less by nearly 44 lakhs. This is due not to the improvement of agricultural conditions but to the inelastic and defective system of granting extensions pursued by the Central Banks. The village society has to obtain the approval of the Central Bank before an extension for the period of repayment can be granted to the members. The Central Banks, however, have no definite policy in this respect at all. Even the Provincial Bank, operating as a Central Bank in some districts, does not pursue a uniform policy. Some Central Banks follow a very rigid policy without regard to agricultural conditions, while in others the required approval is given very late. Some Banks even prefer to sit on the fence and watch, without passing any orders, in the hope that somehow the societies will pay up and for fear that the approval to extensions may affect recoveries. I am now endeavouring to introduce demand statements based on the outturn of crops and the level of prices, but it will be some time before

the principle of demand based on the actual repaying capacity of the members will be thoroughly assimilated by the members. The fact remains that owing to tardy or defective action taken by the Central Banks in respect of according approval to the extension of period proposed by the societies in deserving cases, the figure of overdues goes on increasing. But a welcome indication of the policy of rectification and consolidation pursued by the societies is clear from the fact that the recoveries now exceed the figure of fresh finance given by the societies. Several members of societies who have not been financed by the societies during the year are even repaying to the best of their means partly due to the moral effect created by the appointment of Special Recovery Officers, which has made it clear to them that they cannot evade repayment, and partly to a growing appreciation of co-operative credit in rural areas which is able to satisfy their needs at times when rural money-lenders are either unable or unwilling to do so.

21. The depression, while providing enough food and fodder, has necessitated considerable readjustment on part of the agriculturists as regards their cash requirements and liabilities. There are signs that the process of adjustment has already started and the societies have to extend due facilities to all deserving members in order to maintain their morale and cordial relations with the members. Any undue pressure to repay would only destroy the fabric of the societies. But there are certain cases either of proved contumacy or of hopeless insolvency wherein strong action is necessary. Leniency in such cases can only be at the cost of good members as all agricultural societies are organised on the basis of joint liability. Besides, as these members are usually, indebted to village sawkars also, there is considerable risk that their landed assets may be disposed of to these sawkars and recoveries of the dues of societies be jeopardised. To counter this contingency, the societies are insisting on mortgage of land in cases of such members. This precaution will also prove a boon in disguise and will stem the tide of transfer of land from agriculturists to money-lenders. In case of absence of bidders for lands of defaulters, the societies are willing to take them over for a nominal bid, administering them like trust properties on behalf of the defaulter and returning it to the defaulters whenever the liability is liquidated.

22. *Audit Classification.*—The following table shows the figures of societies according to audit classification :—

Year.	A.	B.	C.	D.	Not classed.
1931-32	216	2,703	1,308	212	108
1932-33	194	2,498	1,575	270	26

The societies in A, B and D class have been reduced and those in C class increased. These classes are based on figure of overdues and it is noticeable

that in spite of depression the requirement as regards maximum of overdues in each class have not been relaxed, chiefly with a view to prescribe a stricter standard of efficiency.

23. *Canal Societies.*—The figures of outstandings and overdues in canal societies on 31st March 1932 and 1933 are given in the subjoined statement :—

	On 31st March 1932.		During 1932-33.		On 31st March 1933.	
	Out-standings.	Overdues.	Advances.	Recoveries.	Out-standings.	Overdues.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Ntra ..	16,78,242	14,50,409	1,00,979	90,101	11,79,711	10,66,213
Godavari ..	2,44,197	2,11,594	12,183	16,167	2,30,822	2,24,923
Pravara ..	2,70,518	2,40,067	23,913	25,958	2,68,414	2,83,734
Total ..	20,92,957	19,08,670	1,37,075	1,41,226	16,84,947	15,24,870

The overdues are reduced from 19 to 15 lakhs and this is chiefly by a reduction of outstandings. The situation in these societies is very difficult, mainly owing to the price of gul, which was the lowest this year. The liabilities are being slowly reduced. The only remedy to improve the economic condition of the members of these societies seems to be to resort to manufacture of sugar and thus take full advantage of the present protection to this industry. The Agricultural Department is putting up one centrifugal plant for manufacture of sugar on the open pan system as a demonstration and it is creditable to the Provincial Bank that it is also putting up another plant to enable the members to liquidate their liabilities. It is hoped that these plants would be followed up by others.

24. *Land Mortgage Banks and Long Terms Business.*—Government had advanced a loan of 3 lakhs on 31st March 1932 at 6½ per cent. This money could not, however, be profitably utilised for land mortgage finance, for a margin of 3 per cent. is necessary between the borrowing rate and the lending rate and 9½ per cent. was considered too high a rate. The Bank requested Government to convert the loan into 4 per cent. debentures at the rate of 88 but as this was not possible in absence of a corresponding decrease in the rate of borrowing of the Provincial Government, the loan was repaid to Government. Fresh advances to Land Mortgage Banks amounted to Rs. 50,540. The Provincial Bank has shown a further loss of Rs. 2,821 during the year on this type of business.

Arrears have already cropped up in Dharwar and Pachora Banks owing to low level of commodity prices and poor crops in some of the talukas. This indicate the necessity of a close enquiry into the working of these Banks and Government have appointed an informal committee to investigate the whole question and report whether extension of land mortgage finance is feasible in the present circumstances.

25. *Bhil Societies.*—The following statistics show the progress of this class of societies :—

District.	Number of Societies.	Members.	Working Capital.	Reserve Fund.
			Rs.	Rs.
Panch Mahals	93	4,350	2,77,491	54,450
West Khandesh	15	521	58,020	12,403
Total (1932-33) ..	108	4,871	3,36,420	66,853
Total (1931-32) ..	108	4,947	3,41,382	59,561

While the number of societies has remained unchanged there is a decrease both in membership and in working capital due to weeding out of bad members chiefly in Panch Mahals district.

26. *Societies for Depressed Classes and Aboriginal Tribes.*—The main figures are given below :—

Division.	Number of Societies.	Number of Members.	Working Capital.	Reserve Fund.
			Rs.	Rs.
Northern	44	3,108	2,18,792	41,023
Khandesh	6	178	8,684	188
Bombay	27	1,237	90,829	13,914
Central	7	757	29,090	4,712
Southern	17	1,883	82,409	22,188
Total	101	7,163	4,29,804	82,025

There is an around increase in the number of societies, of members, in working capital and in reserve fund. Considering the backward nature of these people, progress must necessarily be slow. Depressed classes and members of aboriginal tribes are also freely admitted in village societies.

27. *Tagai Loans.*—During the year loans totalling Rs. 9,700 were sanctioned to 9 societies for the use of 10 members as below :—

	Rs.
For Wells and Water Channels	2,900
For Bunding	1,600
For Pumps and purposes of Rahats	5,200
Total	9,700

All the loans were advanced through the Provincial Bank. In addition Rs. 16,000 were advanced out of the sums already sanctioned.

(b) AGRICULTURAL NON-CREDIT SOCIETIES.

28. *General Conditions.*—The chief handicaps continue to be the unsettled condition of the market and the lack of honest and efficient staff.

29. *Cotton Sale Societies.*—The working of these societies has on the whole been satisfactory during the year with the exception of a few societies. The subjoined statement gives the figures as regards these societies :—

Division.	Number of Societies.	Quantity sold (in maunds).	Prices realised.	Remarks.
			Rs.	
Central	
Bombay	
Sind	1	680	2,175	
Khandesh	1	5,211	62,170	
Northern	16	1,43,334	13,39,581	Out of 16 societies, 6 societies were not working during the year.
Southern	8	1,75,491	12,53,529	
Total	26	3,24,710	26,57,455	

The Gadag Cotton Sale Society has extended its operations to groundnut and other grains also. It gave a bonus to the members equivalent to the commission charged and earned a commission of over Rs. 12,000. The Hubli Cotton Sale Society, ably conducted by Rao Bahadur Shirhatti, also earned a commission over Rs. 9,000. Both these societies have been losing on their seed operations conducted with a view to increase the area under command. A revised agreement with the Indian Central Cotton Committee, giving a subsidy of Rupee one per bag of seed purchased has been recommended by the Director of Agriculture, and I hope its acceptance will solve this vexatious problem. The boycott against the Bailhongal Co-operative Cotton Sale Society continued except for a brief interval at the end of the year, when the Gokak Mills did a little business with it. It has now opened a branch at Belgaum for the sale of groundnut and other grains. The society wants to put up a ginning and pressing factory in order to solve the question of boycott once for all. A request for a loan from the Indian Central Cotton Committee has been made and it will be a very interesting experiment if this loan is sanctioned. The Bagalkot Cotton Sale Society has recently been wound up as there were no chances of its improvement. The condition of the Bijapur Cotton Sale Society is not very satisfactory

and unless it can be overhauled, it will also have to be liquidated. In Gujerat, two new sale societies were registered, one at Vedachi and the other in Broach District. These Cotton Sale Societies, realizing that they must maintain their reputation of supplying unadulterated cotton, are continuously indenting for fresh supply of 1027-A.L.F. seed from the Agricultural Department for the purpose of distribution among the members. Six Cotton Sale Societies did not function in Gujerat, some owing to the dominating influence of capitalistic gin owners, some to the lack of workers and others owing to the influence of political intruders. However, the Cotton Sale Societies in Gujerat are increasing in popularity as they secure better prices and lower ginning and pressing charges. The Nanavaracha Cotton Sale Society conducted a successful experiment of hiring the ginning factory for ginning the cotton of its members. The charges thus incurred were only Rs. 2-9-0 per *bhar* as against a minimum of Rs. 5 charged by capitalistic ginning factories. These Sale Societies also do not encourage speculation and only one of them had unsold cotton by the end of this season. The Purshottam Co-operative Ginning Factory had another successful year's working, declared a dividend of 10 per cent. to the shareholders who are also the growers of the cotton ginned at the Factory.

The classified abstract of other Sale Societies is given below with brief remarks :—

Gul	1
Tobacco	1
Chilly	2
Mango	3
Paddy	4
Areca nut	2
Miscellaneous	23

36

Gul.—The operations of the Haveli Gul Sale Society were considerably curtailed owing to the curtailed credit given by the Hadapsar Society, the chief financing institution for sugarcane growers in this area. *Tobacco.* The Nipani Tobacco Sale Society, owing to unscrupulous and indiscriminate finance in the past, is at present mainly occupied with recoveries, which totalled Rs. 6,800 this year. It is gradually reducing its liabilities and it is proposed that it should be converted into a sale union during the coming year. *Chilly.* The Chilly Societies in Dharwar and Thana Districts are working well. *Mango.* All the three Mango Sale Societies are in Ratnagiri District, the one at Ratnagiri has drifted into the hands of non-growers and all efforts at reorganisation having failed, is likely to be cancelled. The other two societies at Malvan and Vengurla are working well; the former presented 4 trays of Alphonso mangoes to His Majesty the King-Emperor. These Societies are also undertaking to supply their members with fertilisers, insecticides, packing material and clean cans, arranging at the same time for the canning of the surplus produce of the members. *Paddy.* The Paddy

Sale Societies are badly affected by a decrease of over 50 per cent. in the prices, but are making the best of the situation. A new society has been registered for the sale of paddy at Chikhli this year. The Jacobabad Grain Sale Society shows effects of past mismanagement, but a Government Sub-Auditor has been lent to the society as Manager and Shaikh Ghulam Mahomed, the Managing Director, is making strenuous efforts to put it on its feet again. The Shikarpur Grain Sale Society is working as a model institution in Sind.

30. *Purchase and Sale Unions.*—The number of Purchase and Sale Unions remained the same. The Purchase and Sale Union in Nasik District realised a profit of over Rs. 1,000 and is gaining in popularity, for, it secures the members fair prices with immediate payments. It, however, cannot extend its operations, as competent workers with business aptitude are not available.

31. *Manure Societies.*—Two Manure Societies have been cancelled during the year. Of the remaining 7, 6 conducted their operations at a profit and one at a loss, selling in all 481,350 pounds of manure. The work of supplying improved manure is being now done by taluka Development Associations and there is no scope for such work wherever such associations exist.

32. *Machinery and Implement Societies.*—Similarly, improved implements are being supplied by the Taluka Development Associations also. There are at present 26 such societies. They supplied goods to the extent of Rs. 1,10,000 and realized by way of commission and hire of implements Rs. 47,000.

33. *Power Pump and Ginning Societies.*—The Anklav Power Society was cancelled during the year. The Purushottam Ginning Factory worked satisfactorily and so also the Gadag Ginning Society.

34. *Dam Construction Societies.*—The number of Dam Construction Societies remained unchanged and they continued their useful activities.

35. *Land Improvement Societies.*—There were 11 Land Improvement Societies during the year, the bulk of them being in the Southern Division. They had 469 members and covered an area of over 2,000 acres. They have so far improved 1,200 acres at a cost of about Rs. 22,000.

36. *Fencing Societies.*—There are 14 Co-operative Fencing Societies of which 12 are in the Southern Division, one in Bombay Division and one in Khandesh Division. These have a membership of 1,162 and a working capital of Rs. 64,410. The total area covered by these societies is 11,292 acres. They have built fences 57,910 yards in length at a total cost of Rs. 62,257.

37. *Cattle Breeding Societies.*—The number of Cattle Breeding Societies remained unchanged at 17. They maintained 15 breeding bulls and 579 cows and 247 calves were born. The Siddenur Cattle Breeding Society continues to be the best and is broadcasting the benefits of improved breeds of live-stock.

38. *Taluka Development Associations.*—There were 82 Associations this year as against 80 of last year. The following table gives the comparative figures :—

Division.	Number of Associations.	Number of members.		Contributions received from					Expenditure for the year.
		Individuals.	Societies.	Individuals.	Societies.	Government.	District Local Boards.	Others.	
				Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Sind ..	15	6,243	..	3,560	..	5,288	103	..	7,501
Southern ..	14	4,130	188	881	888	7,261	25	250	15,089
PN 40 Bombay ..	15	7,642	4	3,443	20	6,866	250	..	13,074
Central ..	15	7,355	197	1,019	310	8,706	5,900	..	16,180
Khandesh ..	19	20,550	276	17,000	300	14,151	4,876	3,376	39,608
Northern ..	4	335	..	340	..	2,575	500	..	5,277
Total 1932-33 ..	82	45,264	665	27,242	1,628	44,847	11,054	3,626	97,428
Total 1931-32 ..	80	42,162	632	20,730	6,128	45,536	8,675	..	1,09,046

The number of individual members is slightly misleading, as persons who do not continue to take any part in the affairs of the Associations to the extent of not even paying their annual subscription are continued. The effective membership, therefore, is not very large. The Taluka Development Associations do not secure full support from the masses of agriculturists mainly owing to their limited resources for doing propaganda work.

39. *Co-operative Banking—General.*—The distinguishing feature during the year was the plethora of funds in almost all the Co-operative Banks. In spite of the reduction of rates of interest on deposits which now are on a par with the best Joint Stock Banks, the deposits increased and in several cases they had to be refused, as the money could not be properly utilised, the demand for loans being greatly curtailed owing to lowered incomes both in urban and rural areas accompanied with considerable fall in the value of the landed assets.

A welcome change in the attitude of the Banks has been the declaration of a lower dividend this year by almost all the Banks not only because of the decrease in profits but a feeling that in the present depression the dividend of the shareholders of a co-operative bank should not exceed reasonable hire on the capital. The Provincial Bank this year paid dividend of 4 per cent. only, and has given the lead in this direction.

(2) Bombay Provincial Co-operative Bank.

40. The general position of the Bank, as per table below is satisfactory :—

	1932-33.		1931-32.	
	Rs.	Rs.	Rs.	Rs.
Shareholders	2,872	2,870
Share Capital held by individuals.	7,88,900	7,49,800
Share capital held by Societies.	<u>5,10,000</u>	12,96,900	<u>5,47,100</u>	12,96,900
Working Capital (Long-term).	1,08,74,948		34,23,029	
Working Capital (Short-term).	<u>82,94,446</u>	1,91,60,394	<u>1,33,33,226</u>	1,67,56,255
Reserve Fund	98,430	99,439
Reserve Fund for Doubtful debts.	1,75,000	1,50,000
Sinking Fund	4,79,917	4,34,915
Deposits—				
(1) Individuals ..	70,24,528		66,23,301	
(2) Societies and Banks.	<u>1,21,44,866</u>	2,02,11,394	<u>62,91,204</u>	1,20,14,505

The share capital of the Bank has remained unchanged, the average market price of the Bank's share being Rs. 55. The dividend declared this year was only 4 per cent., being the lowest on record. The Reserve for Doubtful Debts now stands at 2 lakhs. The capital now locked up with liquidated societies is 11·7 lakhs showing an increase of 2½ lakhs over the figure of last year. Debentures of the value of Rs. 17,000 were issued to the Broach Land Mortgage Bank. The working capital has increased by addition of 59 lakhs to the short-term capital. The deposits from societies and Central Banks have risen from 63 lakhs to 121 lakhs, owing to the low yield on Treasury Bills and deposits with other approved banks. There is a heavy reduction in the rates of interest on all classes of deposits. The rate on Current Account now is 1 per cent., on Savings Bank 3 per cent. and on Fixed Deposits 3 per cent. for individuals and 3½ per cent. for Societies. The Bank's investment in the Government Securities rose from 31 lakhs to 91 lakhs and with approved banks to 38 lakhs from 25 lakhs. The total amount outstanding to the Bank by way of short-term loans was 66 lakhs. This year the Bank recovered 19½ lakhs as against 17 lakhs last year, and fresh advances were 15½ lakhs as against 22 lakhs last year. Considering the lower prices of commodities, the recoveries have been satisfactory and what is still more important, the total outstandings of the Bank have been reduced. The position of societies in Canal Area, which are directly financed by the Provincial Bank, is mainly responsible for the heavy overdues. The price of gul during the year was the lowest on record, and the Bank has, after mature consideration, decided to set up one centrifugal sugar plant for the manufacture of sugar on the open pan system in order to enable the sugarcane growers to discharge their liabilities by taking advantage of the protection granted to the sugar industry by manufacturing sugar instead of gul. In other districts the Bank has been pursuing a policy of assuring members of Societies

fresh finance in case they discharge their individual liability, irrespective of the financial position of the Society. This assurance of fresh finance has proved very successful and has a wholesome effect even in stagnant societies. Disciplinary action has also been taken by the Bank against recalcitrant Managing Committees of 13 societies which have been suspended by action taken jointly by the Supervising Unions and the Provincial Bank with the approval of the Registrar.

41. The Bombay Provincial Bank is managed very satisfactorily and is fully alive to the present situation and ready to take necessary action. The Board works harmoniously owing to the able and tactful guidance of Sir Chunilal Mehta.

(3) District Central Banks.

42. The number of District Central Banks during the year remained unchanged. The following table gives the figures of all the Central Banks :—

	1932-33.	1931-32.
	Rs.	Rs.
Share Capital	32,98,870	32,44,405
Working Capital	3,61,66,197	3,18,25,859
Reserve Fund	8,47,050	7,11,182
Deposits	3,06,95,383	2,59,50,563
Profits	4,58,481	3,82,240
Loans due from Societies	1,69,77,616	1,84,84,280
Arrears	99,37,649	52,15,379
Percentage of arrears to total outstandings..	58·5	28·2
Cost of Management	3,59,883	3,42,994

There is a satisfactory increase as regards share capital, working capital, reserve fund, deposits and profits. While the loans due from Societies show a decrease, the arrears have risen abnormally, but this is chiefly due to a dilatory system of granting extensions of loans which are really beyond the means of repayment of the Societies. These figures are as on 31st March and very often full particulars of cases deserving extension of period for repayment are not available on that date. Several Central Banks also do not grant any extension of the period on the hope that somehow the Societies would pay up the loans.

43. A consolidated statement of all the Central Banks including the Provincial Bank is given for the last five years as under :—

Year.	Amount of loans due to be recovered.	Amount of loans actually recovered.	Arrears.		Fresh advances.
			Authorised.	Unauthorised.	
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
1928-29	6,63,33,601	5,77,54,666	28,41,456	57,37,279	5,69,81,702
1929-30	6,76,47,387	5,73,54,506	55,39,850	47,53,031	5,82,60,754
1930-31	6,44,53,716	5,01,70,844	70,38,159	72,44,713	5,24,41,460
1931-32	5,64,62,137	3,95,10,471	80,45,081	89,06,585	3,80,13,261
1932-33	4,44,78,369	2,65,68,608	59,72,052	99,37,649	2,53,06,567

It will be seen that the amount under extension is much less than last three years for the reasons stated above. For the same reasons the figure of overdues has increased. Fresh finance is being curtailed every year owing chiefly to lower repaying capacity of the members due to the decline in the commodity prices. The welcome feature is that the total outstandings are being reduced, without refusing finance in deserving cases. All legitimate demands of Societies have been adequately satisfied by the Banks.

44. An innovation sanctioned by me temporarily in case of well established District Banks is the grant of loans to individuals by these Banks in such manner as not to affect the operations of the Urban Banks working in the same locality. Loans are advanced against deposit of gold, silver and Government securities and agricultural produce. This measure has not only the merit of opening up a profitable avenue for the employment of surplus funds of these Banks (almost all of these Banks have surplus funds) but by so doing, considerably removes the temptation to finance the agricultural societies too freely. The facility so given is temporary and liable to withdrawal by me if there is any sign of neglect of the interests of agricultural societies.

45. The dividend declared varied from 3 per cent. to 9 per cent. The rates of borrowing ranged between 1 per cent. on current account to $5\frac{1}{2}$ per cent. on fixed deposits, in consonance with the local conditions. The average rate on fixed deposits was between $3\frac{1}{2}$ per cent. and $4\frac{1}{2}$ per cent. The rate of interest charged on loans to Societies varied from 5 per cent. to 8 per cent. and that to individuals $9\frac{3}{8}$ per cent. The Kaira Central Bank continues to show steady progress under the able guidance of its Board of Directors presided over by Mr. C. N. Mehta, retired District Judge. The District Central Bank at Nasik has agreed now to accept the proposals of the Registrar with regard to overhauling of its constitution and it is hoped that new life will be put into it soon. Meantime, under the able guidance of the Assistant Registrar, Mr. A. C. Desai, a concerted drive is being made to revive stagnant Societies and to establish cordial relations between the Societies and the Bank. Several Central Banks have opened new branches mainly with a view to develop banking habit in the rural areas and to establish better relations between the Societies and the Banks, though in the initial stages these Branches are hardly self-supporting. Better type of Inspectors are also being employed and except for the unsystematic and dilatory way of granting extensions which are in vogue in some of the Central Banks now, it can confidently be stated that they are working satisfactorily. There is, however, one danger that these Banks are being sometimes sought to be captured by political or communal parties prevalent in the district in order to consolidate their own influence. The only remedy against this, however, is propaganda among the members of Societies and, I am glad to say that the Societies on the whole discountenance any such attitude on the part of the Central Banks and are entirely in favour of the Movement being run for economic welfare of the agriculturists only.

(4) Non-agricultural Credit Societies.

46. *Urban Banks.*—The Urban Banks have increased from 91 to 102, chiefly by conversion of non-agricultural Societies to Urban Banks when the capital exceeded Rs. 50,000. The average rate of interest on fixed deposits varied from 4 to 5 per cent. in some cases, being as low as 3 per cent. On loans the rate varied between 5 and 12 per cent., the average being 8 to 9½ per cent. The rate of dividend declared this year was also lower in consonance with the depression.

47. In Sind the Urban Banks on communal lines are growing in popularity. These automatically secure intimate touch between the members of the community and this is a great asset to the management.

The Broach Urban Bank worked very well under its Committee of Management, chiefly due to the enthusiasm of Mr. Maganlal N. Choksi who has done excellent work in this respect. Half of the overdues have been recovered. The annual general meeting consisting mostly of defaulters has not returned the same Committee of management, and steps are being taken to nominate a committee of supervision to continue the good work.

Mr. V. L. Jog, M.L.C., continues his heroic efforts to grapple with the difficulties of the Dharwar Urban Bank, which owing to extensive operations against the security of landed assets is now practically in a state of voluntary liquidation. The losses will not be heavy but the realisation of the assets will take a long time. The Raddi Urban Bank, Dharwar, is also finding itself in difficulties owing to the same reason and proposes to convert it into a regular Land Mortgage Bank. Honavar Havyak Bank continues to be a source of anxiety owing to the heavy overdues.

The Pandharpur People's Bank was sought to be overhauled and the Directors recommended certain proposals for adoption in the General Meeting. Unfortunately, some of these have been turned down. It appears that liquidation is the only possibility. On the other hand, the Pardi People's Co-operative Bank and the Ahmedabad People's Co-operative Bank, comparatively recent institutions, are making much headway, under the able guidance of their Chairmen. The Gokak Urban Bank is extending its activities particularly in the direction of lending against deposit of grain. The Bhusawal Urban Bank continues to be the best managed institution of its kind in Khandesh and similarly the Pandharpur Urban Bank is the best managed institution in the Central Division. Its new commodious premises were opened by the Hon'ble Minister and under the able guidance of its Chairman, Mr. K. R. Newale, it is managed on sound business lines. The Sirsi Urban Bank mainly due to the efforts of Mr. Keshwain is working on sound lines and growing in popularity.

Many Urban Banks have now buildings of their own in which reading rooms and libraries for the benefit of members are provided. The Mercantile Co-operative Bank of Karachi, the Khudabadi Amil Bank of Hyderabad, the Surat People's Bank and the Hubli Urban Bank continues to be the best of their kind in those divisions.

48. The Supervising Union of Gujerat Urban Banks has 21 Banks and Societies affiliated to it and provided regular audit and guidance to these institutions. However, the supervisors have been changing and it is hoped that the employment of permanent staff will increase its utility.

49. The Salary-Earners' Societies are proving increasingly popular. They are managed by the departmental heads with a partly elected committee and have very few overdues or bad debts owing to the facility of recovery through the pay-sheet. The provision of compulsory thrift proves a boon to the members in case of emergencies. Some societies, particularly for employees of local bodies, are undertaking redemption of debts of deserving members and doing good work in this respects. Seventeen Salary-Earners' Societies were registered this year and there is a growing demand for this type of societies.

50. This year out of 3,54 lakhs of rupees due for repayment to Urban Banks and Societies, 2,94 lakhs were actually recovered and 15½ lakhs were extended and the overdues amounted to 45 lakhs only. The Urban Credit Movement on the whole has been a success in this Province and shows signs of progress on sound lines.

51. The Bombay Co-operative Insurance Society has issued 366 policies assuring a sum of Rs. 3,16,100. Claims paid by the society during the year were only Rs. 40. The Society is now permitted to issue policies in excess of Rs. 2,000 and it makes its arrangement for re-insuring for the excess sum with similar Societies, in other Provinces or with Insurance companies. The Society is offering very good agency terms to Co-operative credit societies which ultimately secure cheaper insurance for the members and regular payments to the Insurance Society. The Security Printing Co-operative Credit Society, Nasik, under the able guidance of its President, Mr. A. K. Narasimhacharya, has during the year secured proposals from its members for more than Rs. 57,000 and thus given a lead to all Salary-Earners' Societies. Several other Salary-Earners' Societies also, realising the benefits of insurance of its members and the handsome agency terms, are amending their bye-laws with a view to secure advantages of Co-operative insurance for their members and there is a hope of a considerable extension of co-operative insurance.

Professor Kaji continued as the Chairman during the year and took great pains to popularise Co-operative insurance and to interest societies in its working.

The two cattle Insurance Societies in Broach District also worked satisfactorily.

52. The Karachi Zamindari Bank has not yet started working and of the rest, the Larkana and Shikarpur Zamindari Banks have shown steady progress and have been doing useful work. The Zamindari Bank at Mirpurkhas has received a temporary setback chiefly owing to the fact that some of the borrowers had sought protection under the manager

of the Encumbered Estates, but now that the new rules in this respect sanctioned by Government give adequate facilities to Co-operative Banks, it is anticipated that not only the Mirpurkhas Bank will come up to its former level but that the other Banks also will increase their operations. The Zamindars show great appreciation of these Banks which are run efficiently under the distinguished Chairmen like Khan Bahadur Allabhux, O.B.E., Khan Bahadur Khuhro and Khan Bahadur Ghulam Nabi Shah. The limit of individual loans has been reduced in consonance with the lowered repaying capacity.

B—CONSUMERS' MOVEMENT.

(i) Co-operative Stores.

53. A comparative statement is as follows :—

Year.	No. of Societies.	No. of Members	Share capital.	Working capital.	Sales.	Profit.
			Rs.	Rs.	Rs.	Rs.
1932-33 ..	40	8,967	1,31,497	2,24,340	7,02,372	19,824
1931-32 ..	37	7,338	1,18,432	2,05,476	6,54,400	14,819

Three new stores have been registered, one at Ahmedabad and two at Poona. Thirty of these stores worked at a profit of Rs. 20,000 while eleven suffered a loss of about Rs. 400. These stores have considerable difficulty in making a headway, as they have to compete with old established concerns and are further handicapped by the restriction as regards credit sales. These stores in their own way show how the industry, loyalty and economy of the members can make them a success in spite of the great handicaps of small turnover and competition with established merchants and traders who are now conducting their business on very narrow margin.

(ii) Housing Societies.

54. The following table gives the details about Housing Societies :—

	1932-33.	1931-32.
Number of Societies	88	83
Number of Members	6,441	6,161
	Rs.	Rs.
Share Capital	20,20,507	10,92,258
Working Capital	91,94,331	89,34,800
Reserve Fund	1,49,661	1,26,704
Government Loan	38,71,947	40,33,250

Six new societies were registered as under :—

- (1) Hindu Co-operative Housing Society, Karachi.
- (2) Shanti Niwas Co-operative Housing Society, Godhra.
- (3) Lyari Muslim Co-operative Housing Society, Karachi.
- (4) Dhanlaxmi Co-operative Housing Society, Ahmedabad.
- (5) Navjivan Co-operative Housing Society, Ahmedabad.
- (6) Shrimali Co-operative Housing Society, Ahmedabad.

55. The Housing Societies in the Bombay Division which were registered on the Co-partnership basis and which constructed their houses during the boom period still find it very difficult to balance their budget, owing to the reasons given in my report last year. Government have now passed orders to take over the management of the Vasant Theosophical Co-operative Housing Society at Juhu under their rights as mortgagee. The affairs of the St. Joseph Guild Housing Society at Ahmednagar are getting worse every year owing to contumacy and unco-operative spirit of the members and enquiry has been ordered into its working preliminary to any disciplinary action like liquidation or sale of property that may become necessary. The Broach Building and Road Reconstruction Society has been finding great difficulty in meeting its liabilities and has submitted a scheme for its overhauling which is under consideration.

56. The difficulty, with regard to provision of finance for new societies still remains. Many societies have been registered in Karachi which have also obtained land from the Municipality on favourable terms but are unable to commence their building operations, as Government have now decided not to advance any loans to new societies in future (Revenue Department, Memorandum No. 8877-A/28 of 26th January 1933). Both at Ahmedabad and Karachi these Housing Societies have conferred substantial benefits by relieving congestion in the overcrowded areas.

(iii) House Reconstruction Societies.

57. There are 25 House Reconstruction Societies in Gujerat. Up to 31st March out of a demand of Rs. 1,21,000 on account of principal and interest, Rs. 67,000 were recovered. Later, before the season closed, additional Rs. 22,000 were recovered. Considering that the instalments fixed in case of these societies (seven annual instalments) is fairly high, the recoveries are satisfactory, but strenuous efforts are still being made to see that no arrears remain.

There are 25 societies of this class in Hyderabad District also as a result of the flood havoc caused in 1927. Rs. 7,600 were recovered from the members during the year, leaving a balance of Rs. 3,17,000. Members of these societies suffered partly from the floods of 1929 also and I have now ordered an up-to-date valuation of these houses to ascertain whether Government interests are secure.

C—PRODUCERS' MOVEMENT.

(i) General.

58. The comparative statement is as follows :—

Year.	Number of societies.	Number of members	Share capital.	Working capital.	Value of articles produced.	Profit or loss on the year's working.
			Rs.	Rs.	Rs.	Rs.
1932-33 ..	17	703	60,728	3,14,657	35,391	1,149
1931-32 ..	18	783	33,252	3,53,999	10,346	1,126

One society was cancelled during the year. These societies have been greatly hit by the reduced purchasing power of the agriculturists. They are doing their work as cautiously as possible under the circumstances.

(ii) Weavers' Societies.

59. The comparative statement is as follows :—

Year.	Number of societies.	Number of members	Working capital.	Sales.	Profit.	
			Rs.	Rs.	Rs.	
1932-33	52	2,154	2,57,989	1,44,794	— 2,651
1931-32	53	2,291	2,51,326	1,96,294	+ 2,531

The Broach Weavers' Co-operative Society was cancelled during the year, as the members had lost interest in the society owing to the prevailing depression. The prices of yarn fluctuated very widely during the year and the demand for finished articles was very slack. The worst of these societies worked at a loss, as they were anxious to dispose of their goods which they had withheld for a long time.

IV—THE BOMBAY PROVINCIAL CO-OPERATIVE INSTITUTE.

60. The Institute has had another difficult year to face. Its membership showed a decrease of 81 in the number of society members and an increase of 28 in the individual members. Two meetings of the Provincial Co-operative Council were held during the year on 3rd September and on 7th January wherein the revised constitution of the Institute was under discussion. It was, however, postponed pending Government decision on the recommendations of the Reorganisation Committee relating to the Co-operative Movement. The Executive Committee of the Institute met six times during the year.

61. A Provincial Co-operative Conference was held on 3rd and 4th September 1932, after an interval of three years, under the presidentship of Sir Chunilal V. Mehta. The Conference was inaugurated by His Excellency Sir Frederick Sykes, Governor of Bombay, and was attended by almost all the members of the Cabinet and a very large number of representatives of societies. It was occupied chiefly with discussion on the problems of recoveries of the dues of societies and changes in the constitution of the Co-operative Institute. The expenditure on this Conference was met out of voluntary subscription by societies and banks, as Government could not sanction the necessary grant owing to financial stridency.

62. The financial position of the Institute is anything but satisfactory. The Vitaldas Thackersey Memorial Building is hanging like a dead weight on the resources of the Institute and to relieve the situation, issue of debentures to Co-operative Societies and Banks has been proposed. The response from these institutions still remains to be seen. Government, to relieve the situation, gave a supplementary grant of Rs. 7,000 but it is clear that extensive overhauling of the Institute is necessary in view of the critical position of its finances and also to secure closer touch with the societies.

63. Under Section 42 of the Act the Institute approved the expenditure by 302 societies to the extent of Rs. 27,400 on objects of public utility. Rs. 9,100 were spent on education, Rs. 6,800 on petty public works like repairs of village roads, sinking of wells etc. and Rs. 1,215 on medical relief in the villages. The Institute is taking growing interest in rural reconstruction and the Kanara District Branch in this respect, under the able guidance of Mr. G. K. Hegde, is most active. At Kallabbe village the Institute has not only organized co-operative purchase and sale but co-operative repairs of stone-walls for protection of crops, introduction of better varieties of crops, a night school for adults of the village wherein the average attendance was about 16, co-operative protection of crops and above all, the villagers are being taught to conduct their village life as true co-operators by even having petty disputes referred to a Committee for arbitration and by effecting joint repairs to nalas and tanks and roads. At Dudhanwadi in the Sholapur District much propaganda work has been done and better varieties of crops are being introduced. A school for adults wherein about 54 attend, has been started. At Mirjole in Poona District the Rural Reconstruction Association did some useful work and at Mabhale a night school for adults is being conducted. Among the Branches of the Institute, the Sind Branch tried an innovation of doing propaganda at the Bhit Shah Fair which is attended by thousands and it was a great success. The Broach District Branch is very active both in collecting subscriptions and in doing very useful propaganda work, particularly for cattle insurance societies and Stores Societies. The Fort District Branch arranged for several broadcast talks on co-operative topics by eminent co-operators such as Sir Lalubhai Samaldas and others. The Karnatic Divisional Branch opened a Rural Reconstruction Centre for the villages of

Marewed, Timmapur and Karadigudd. A night school for adults at Navalpur has been started. Six other night schools were started in Kanara District and two in Bijapur District. The Poona District Branch has been doing useful work for promoting co-operative marketing of fruit and garden produce and it has added one more night school to the two already existing.

64. Professor Kale has infused great enthusiasm among workers of the Institute and did considerable propaganda work while explaining the implications of the recommendations of the Reorganisation Committee with regard to the Co-operative Movement.

Central Education Board.—The Co-operative Schools at Poona, Surat and Dharwar were continued under the able guidance of Messrs. B. M. Gupte, C. M. Gandhi and S. S. Baswanal. Examinations were held in October and November 1932 and in March 1933. "The Bombay Co-operative Quarterly" and "the Sahakari Mitra" continued to be published from the Head Office. "The Sahakar Patrika" is now published by the Surat Branch. "The Sind Co-operator" and "the Kanarese Sahakari Mitra" continued to be edited by Rai Bahadur Pritamdas and Mr. M. M. Basrur. Twenty-eight Conferences were held throughout the Province during the year, and out of these three were inaugurated by the Honourable Minister of Co-operation. The Secretaries' Training Classes were held at 11 centres at which 457 secretaries were trained. Ninety-four classes were held for training the Managing Committee members.

65. While the Institute is doing all that its resources permit, it is clear that a very great deal remains to be done. The education of members of societies about the real principles of co-operation has been very meagre. The Institute has only one paid worker in a district usually with about 200 societies. Even if the Institute secured the best man for this post, which is far from the actual facts, yet it is not possible for him to effectively perform the duties of the Institute. Consequently, the touch between the societies and the Institute in several districts is very loose, and the Institute subscriptions are being withheld by societies which fail to see any tangible benefit accruing therefrom. Reorganisation of the Institute especially in view of the development of Supervising Unions and District Supervising Boards is under consideration, particularly as the finances of the Institute are in a critical position.

V—MISCELLANEOUS MATTERS.

(i) Acts, Rules and Bye-laws.

66. *Act.*—No alteration has been made during the year under report in the Co-operative Societies Act VII of 1925.

Rules.—It was, however, found necessary to make various amendments to the Bombay Co-operative Societies Rules, 1927. In order to put a stop to declaring dividends by the misuse of powers of granting renewals vested in the management of the Banks and Societies, Rule 22 regarding

distribution of profits has been amended by deletion of the word "unauthorisedly" so that accrued interest for the last six months only can be taken in consideration for declaration of profits. A new Rule 44-A has been added this year to provide for the procedure for attachment of property before award under section 55 and also for the appointment of a Receiver for the custody of moveable property so attached.

Bye-laws.—During the year model bye-laws of agricultural credit societies have been amended with a view to secure their better working by restricting admission to economic holders and persons with good personal credit only. Provision has also been made to prevent careless or excessive financing of members or indiscriminate extensions. Some minor modifications in the bye-laws providing for the election of Directors of Banks and Societies have been recommended and are being adopted. Definite bye-laws have been framed and are recommended for adoption to prevent party politics from disturbing the working of district and urban banks and housing societies by hasty resolutions or rescission of resolutions already passed.

The work of revising the Co-operative Manual is in progress.

(ii) Arbitration.

67. During the year 14,835 cases were referred which added to those pending at the beginning of the year viz., 6,594, brings the total to 21,429. Out of these 13,546 cases were disposed of, leaving a balance of 7,883.

(iii) Liquidation.

68. During the year 66 societies were liquidated out of which 42 were agricultural credit, 5 agricultural non-credit, 5 urban banks, one salary-earners, 4 producers and 6 consumers societies. The number of societies finally wound up was only 37, thus leaving a balance of 629 societies still to be liquidated. The number of these societies is growing owing to the difficulty of effecting recoveries. Hasty steps in this direction are also hardly advisable owing to the lowered land values, and the practical difficulty of finding purchasers for the lands. Revaluation of the assets of these societies on 31st March 1933 shows that the assets are worth about 35½ lakhs of rupees while the liabilities are only 28½ lakhs. Out of the surplus assets of the liquidated societies closed during the year, Rs. 5,233 were placed at the disposal of the District Supervising Boards and about Rs. 2,200 were spent on objects of public utility.

(iv) Criminal Offences.

69. Twenty-eight cases for criminal misappropriation were filed during the year involving a total amount of Rs. 48,000. In 12 cases, conviction was secured while in 3, the accused were acquitted and the remaining cases are still pending.

70. Recently there have been two cases in which the office-bearers of village societies have been prosecuted on information by members directly to the police. In one case after prolonged trial involving not only expenditure to the society but considerable inconvenience owing to the society's records having been attached by Court, an acquittal was secured. The other case is still pending. In case of civil liability the Co-operative Societies Act makes it compulsory to serve a notice on the Registrar and a suit can be filed after an interval of 2 months only, thus giving the Registrar sufficient opportunity to look into the case and save the society from unnecessary litigation. It appears that some measure giving the Registrar similar opportunity to examine cases of alleged criminal conduct on part of the members of Managing Committee is necessary to protect the office-bearers from unnecessary harassment at the hands of defaulters against whom stringent action becomes necessary.

(v) Relations with Indian States.

71. The relations with the Indian States continued to be friendly.

(vi) School Boys' Societies.

72. The School Boys' Societies have increased to 707 from 700 and continue to provide good training ground for future members of societies.

VI—ATTITUDE OF THE PUBLIC.

73. The attitude of the public showed a growing interest in the Movement. In the rural areas, it is friendly and helpful. In the urban areas, there is a tendency to emphasize the defects and ignore the benefits conferred, chiefly due to lack of adequate information about the Movement. The press was particularly unsympathetic and showed a lack of understanding of the real difficulties of the societies. Sufficient recognition of the inherent vitality of the Movement which has so far stood the test of this depression was even lacking. The defects were given prominence while the useful work done by the societies did not receive due recognition. The Institute is in charge of the propaganda for the Movement and has been doing its best in this direction, consistent with its limited staff and resources.

VII—CONCLUSION.

74. The year under report has continued to throw heavy strain and stress on the societies. However, the reassuring feature is the growing consciousness among the members of rural societies that the societies can confer innumerable benefits on the members and that they must take all possible measures to make them a success. Strong action against wilful defaulters is being taken and this growing determination to work the societies on sound lines is the greatest asset at present. The prevailing depression has been for the societies a very good school-master. It has brought to light the mistakes in the past when finance was based

on prices in the boom period and it is hoped that the societies which survive this period will come out of it stronger and better, fortified by the value of the experience which they have gained during this period.

75. This process of overhauling the Movement in the light of experience gained has been throwing great strain on the Department and all the staff under me is heavily overworked and can hardly meet the insistent demand of the Banks and Societies for early disposal of their cases. To make the Department fully useful it is necessary to reinforce it to some extent.

76. All the members of the staff worked loyally under me. Khan Bahadur Azimkhan worked with his untiring energy to help all the societies in Sindh. His tact and perseverance are a great asset to the Movement in Sindh. Mr. A. C. Desai has revived several stagnant societies in his charge and deserves credit for accurately diagnosing the malady and applying the proper cure in case of those societies. Messrs. D. A. Shah and S. G. Almoula understand the local conditions and are doing their best. Mr. C. B. Huli keeps an intimate touch with the societies in his charge.

77. All the non-official workers cheerfully gave unstinted help to the Department and my sincere thanks are due to all of them.

78. The Movement is going through a depression unprecedented as regards its range, severity and duration. And this has come close on the heels of the Civil Disobedience Movement, which for a time convulsed the Province. Its ability to stand these tests, with unimpaired credit and undiminished support, indicates its inherent vitality. There are undoubtedly several defects, but they are being slowly and patiently eradicated.

I have the honour to be,

Sir,

Your most obedient servant,

K. L. PANJABI,

Registrar,

Co-operative Societies, Bombay Presidency.

Report.

Co-operative Societies, Bombay
Presidency.

— on working of, for 1932-33.

GOVERNMENT OF BOMBAY.

REVENUE DEPARTMENT.

Resolution No. P. 53/589.

Bombay Castle, 13th February 1934.

Letter from the Registrar of Co-operative Societies (Mr. K. L. Panjabi, I.C.S.), No. A.N.R., dated the 1st November 1933—Submitting the report on the working of Co-operative Societies in the Bombay Presidency (including Sind) for the year ending 31st March 1933.

RESOLUTION.—The Co-operative movement in the Presidency passed through another very difficult year. On the one hand the economic depression seriously crippled the resources of members; and on the other, as a result of acute financial stringency; Government had to embark on a policy of rigid retrenchment. The result was that at a time when the movement required particularly careful attention Government were compelled to abolish certain posts, including that of Personal Assistant to the Registrar and an Assistant Registrar. The gross expenditure was reduced from Rs. 5,67,000 in 1931-32 to Rs. 5,36,000 in the year under report and the net expenditure from Rs. 4,40,000 to Rs. 3,88,000.

The number of agricultural credit societies fell from 4,600 to 4,570, the membership from 2,57,000 to 2,49,000 and the working capital from Rs. 4,20,41,000 to Rs. 4,02,41,000. The fall in numbers was the result of the liquidation of weak societies which had no chance of ever being rehabilitated. Government observe with interest that whereas in 1931-32 the number of societies cancelled was 144, in 1932-33 it was only 42. If, as the Registrar observes, this decrease is due to the strenuous efforts of agriculturists to preserve societies, the position is certainly not unsatisfactory.

The real test, however, of the strength of the movement among the agricultural population is the percentage of unauthorised arrears. In their reviews on the reports of previous years Government have frequently commented on the growth of these arrears. During the year under report Government appointed special recovery officers with a view to help societies to recover unauthorised arrears by the employment of coercive processes. The Registrar reports that the work of these officers was satisfactory, and had a very beneficial effect in checking the tendency to default. Government regret to observe, however, that in spite of

this the percentage of unauthorised arrears rose from 48 to 50 in the whole Presidency and from 56 to 59 in the Presidency proper.

It is satisfactory to notice that among the depressed and aboriginal classes the co-operative movement is beginning to have firm root. The number of societies confined to these classes rose from 93 to 101, the membership from 6,000 to 7,200, and the working capital from Rs. 3,49,000 to Rs. 4,30,000. Members of these classes are also freely admitted in village societies. The number of Bhil societies remained unchanged, although there was a slight fall in the total membership and in the working capital.

The working of agricultural non-credit societies is reported to have been (with certain exceptions) fairly satisfactory. The most important societies of this type, so far as the value of business is concerned, are the Cotton Sale Societies. The number of these during the year was 26 as against 23 in the previous year, but six of them did not function at all: one has been wound up during the year and one other is in a very unsatisfactory position. The quantity of cotton sold was 3,24,700 maunds realising Rs. 26,57,000 as against 3,35,000 maunds realising 26,44,000 in 1931-32. The principal handicap of non-credit societies is the lack of honest and efficient staff.

In contrast with agricultural societies, non-agricultural societies have on the whole been successful in this Presidency. There was no set-back during the year under report. The number of urban banks increased from 91 to 102 and most of them worked well. The Bombay Co-operative Insurance Society under the chairmanship of Professor Kaji increased its popularity particularly among salary earners' societies.

The chief feature of the year so far as co-operative banking is concerned, was the plethora of funds in the hands of most banks. As a result of diminished incomes and uncertain trade conditions, demands for loans fell off, and, naturally, banks themselves were very cautious in lending. Fresh advances granted by district central banks fell from 3,80 lakhs in 1931-32 to 2,53 lakhs in 1932-33 while the deposits rose from 2,60 lakhs to 3,07 lakhs. In the Bombay Provincial Co-operative Bank the deposits increased from 1,29 lakhs to as much as 2,02 lakhs. The problem presented by these figures is not peculiar to co-operative banking alone, and it is clear that the situation will not materially improve except in step with the rest of the economic structure.

It is not a matter of surprise that the Provincial Co-operative Bank was able to declare a dividend of only 4 per cent. during the year under report. Conditions were entirely abnormal. Government are satisfied that the Bank has been working on sound lines and are glad to note that it continues to be under the able guidance of Sir Chunilal Mehta.

Government have read with interest the concluding remarks of the Registrar. The depression which has affected the movement so unfavourably has not been an unmixed evil. It has exposed defects which might otherwise have continued for several years doing irreparable damage. The enthusiasm shown by the official and non-official workers

alike is an augury of better times. Government desire to record their thanks to Mr. Panjabi, the Registrar, for the ability and tact with which he has handled a very difficult situation.

By order of the Government of Bombay
(Transferred Departments),

T. E. STREATFIELD,
Acting Under Secretary to Government.

To
