PREFACE TO THE SECOND EDITION.

The new edition of the Gazetteer has been prepared on the conclusion of the revision of the settlement of the district. The more valuable portions of the former edition, which consisted of extracts from Mr. Purser's classical Settlement Report, have been as far as possible retained intact, corrections and additions being made where needful. The remaining portions have been corrected, amplified and brought up to date. The appended tables, as a rule, contain the latest available information.
