LIST OF ILLUSTRATIONS

	PAGE
Front Cover—Fruit and Vegetable Products Laboratory, Dominion Experimental Station, Summerland.	
FIGURE	
1 A Continuous Tomato Juice Line.....	9
2 Roller Table Soak Tank.....	10
3 Rotary Tomato Washer.....	11
4 Roller Inspection Belt.....	12
5 A Tomato Mill.....	12
6 Combination Preheater and Pasteurizer.....	13
7 Tomato Juice Extractor.....	13
8 Rear View of a Close Hook-Up of High Speed Capper and 12 Valve Filler.....	15
9 Empty Can Washer.....	16
10 Can Unscrambler.....	16
11 Labelling Machine.....	16
12 Casing Machine.....	17
13 Automatic Case Former and Sealer.....	18
14 Floor Plan and Elevation of Clear Apple Juice Line.....	19
15 Stainless Steel Hammer Mill with Housing Closed.....	20
16 Stainless Steel Hammer Mill with Housing Opened to Show Fixed Hammers.....	20
17 Cut-Away Photograph of Rietz Disintegrator.....	23
18 Cylindrical Filter with Precoat Tank.....	24
19 Cut-Away of Cylindrical Pressure Filter.....	25
20 A Cylindrical Pasteurizer.....	28
21 Longitudinal Section of Cylindrical Juice Pasteurizer.....	30
22 An Acid Bath Apple Washer.....	31
23 Deaerator for Juices.....	36
24 Apples for Juice in Outside Bin Storage.....	39
25 Tomato Variety Test Plots at the Dominion Experimental Station, Summerland, B.C.....	45
26 Laboratory Model of Refractometer.....	48
27 Hand Refractometer.....	51
28 Apparatus for Determining Ascorbic acid in Fortified Apple Juice.....	58

Acknowledgments

The authors wish to acknowledge the kind and able assistance of M. B. Davis, Dominion Horticulturist, and Dr. R. C. Palmer, Superintendent of the Dominion Experimental Station, Summerland, B.C., in the preparation of this bulletin. Grateful thanks are also due to Paul A. Walrod of B.C. Fruit Processors Limited for his co-operation in the experiments on the development of the new type "natural" apple juice. Acknowledgment is made to the following members of the Summerland laboratory staff: A. W. Moyls, for the recent analytical data; F. E. G. Plunkett, for assistance in carrying out laboratory experiments; R. E. Henderson for assistance in compiling tabular data; and Miss D. E. MacDonald for help in composing the bulletin.

Thanks are also extended to the following persons and companies for supplying photographs:

American Can Co. Ltd., Vancouver, B.C. . .	Fig. 8
B.C. Equipment Ltd., Vancouver, B.C.	Fig. 17
B.C. Fruit Processors Ltd., Kelowna, B.C..	Fig. 20
