INDIAN CENTRAL COTTON COMMITTEE TECHNOLOGICAL LABORATORY

ESTIMATION OF WAX CONTENT AND FEEL OF A COTTON FROM ITS PHYSICAL CHARACTERS

BY

C. NANJUNDAYYA, M.Sc.

Price Annas Eight.

CONTENTS

	Page.
I. INTRODUCTION	1
II. PART I.—Relationship between wax-content and physical characters of a cotton	1
(i) General	1
(ii) Calculation of the surface area per gram of cotton	2
(iii) Material and methods	2
(iv) Results	2
(v) Discussion	3
(vi) Probable thickness of wax-layer on a cotton fibre	7
III. PART II.—Relationship between grader's estimation of feel and the physical characters of cotton	9
(i) General	9
(ii) Results	9
(iii) Discussion	9
IV. CONCLUSIONS	12
References	12
