

CENSUS OF INDIA

1951

VOLUME VIII

PUNJAB. PEPSU, HIMACHAL PRADESH,
BILASPUR & DELHI

Part II-A—General Population,
Age & Social Tables

BY

LAKSHMI CHANDRA VASHISHTA, B. A. (HONS), LL.B., P.C.S.*

Printed at Himalia Press, 1953. Phone No. 3027.

PRICE :—16-8-0

The Census Report 1951 contains the following parts :—

- (i) Part I—A Report.
- (ii) Part I—B Subsidiary Tables
- (iii) Part II-A General population age and
social Tables
- (iv) Part II-B Economic Tables.

Besides the above there is one administrative report consisting of two volumes. Part I deals with the enumeration and Part II with the sorting and compilation.

D—IV Birth place—Migrants	305
D—V Displaced population	331
(i) <i>Displaced persons by year of arrival</i>	332
(ii) <i>Displaced persons by livelihood classes</i>	335
D—VI Non-Indian Nationals	338
D—VII Socio-economic groups by Educational Standards	347
 TABLE E—SUMMARY FIGURES BY STATES, DISTRICTS AND TEHSILS.	 371

TABLE A—I

—)O(—

(AREA, HOUSES AND POPULATION)

The area figures given in the table are based on the district figures supplied by the Surveyor General of India. These figures do not tally with the area figures given in Table E (Summary figures by district) since the tahsil area figures given in Table E have been supplied by the Deputy Commissioners concerned from the revenue records. The changes in the area figures, on account of the "Provinces and States (Absorption of Enclaves) Order, 1950" have been duly given effect to.

2. The urban population of the Punjab Population Sub-Zone is 4, 548, 722 and urban/rural ratio is 5:16

3. In col. 3 "villages" mean inhabited revenue *mauzas* other than (i) those which have been wholly absorbed in towns and (ii) those which on the Census day contained no population.

In col. 4 "Towns" mean places of usually not less than 5,000 inhabitants, possessing urban characteristics. Some cantonments have been treated as separate towns while others have been included and censused in the adjoining areas.

A clear distinction has been made in this Census between a "House" and a "Household". As 'house' is a *structure* while a 'household' is a *human group*. A house means "a dwelling with a separate main entrance". A household means "all persons who live together in the same house and have a common mess."

TABLE A—II

—)O(—

(VARIATION IN POPULATION DURING FIFTY YEARS).

The population figures of the Previous Censuses as shown in this table differ from the figures shown in the Census Tables pertaining to the Previous Censuses for all the districts in the Punjab Population Sub-Zone except Delhi, Bilaspur, Chamba, Sirmoor and Kangra. This difference is due to the following facts :—

- (i) Transfer of enclaves from one district to another within and without the States.
 - (ii) Merger of Loharu, Dujana and Pataudi States with the districts of Hissar, Rohtak, and Gurgaon, respectively, and Suket with Mandi district of Himachal Pradesh.
 - (iii) Due to partition of India (a) the transfer of Shakargarh tahsil of Gurdaspur District to Pakistan and (b) annexation of about half of Kasur tahsil from Lahore to Amritsar district.
2. The effect of these changes on the population of the districts concerned has been made. The boundaries of the five districts, viz. Delhi, Bilaspur, Chamba, Sirmoor and Kangra have not undergone any change during the decade 1941-51 and hence their population figures for the previous censuses have not been altered.
3. State totals effected on account of the transfers due to exchange of enclaves are shown in the following table :—

Sl: No.	District	Adjoining State.	Population of 1941

TABLE A-III.

---)O(---

(TOWNS AND VILLAGES CLASSIFIED BY POPULATION).

In this table, Cantonments of Jullundur, Ferozepur Ambala, and Delhi only have been treated as separate towns. Population of other cantonments was censused along with the adjoining area.

2. New Townships of Faridabad and Nilokheri as also the Yol Camp have also been treated as separate towns, population of other townships and camps was either included in the adjoining rural or urban areas or treated as separate villages.

For defination of a "village" and a "town" see fly-leaf to table A—3

TABLE A—III

Towns and villages

TABLE A-IV

—)O(—

(TOWNS CLASSIFIED BY POPULATION WITH VARIATION SINCE 1901)

In this table the population of the towns as ascertained at the 1951 Census has been compared with the population of the preceding five censuses. In the case of places newly declared as towns in 1951 Census, previous population figures as well as variation figures have not been shown.

2. The towns have been arranged class-wise within each district of the State. The classification is as under :---

Class	Range of population
I	100,000 and over.
II	50,000 to 100,000
III	20,000 to 50,000
IV	10,000 to 20,000
V	5,000 to 10,000
VI	under 5,000

3. Towns having population of 100,000 and over were declared as cities during the 1951 Census. There are 5 cities in all in Punjab Population Sub-Zone, viz. Jullundur, Ludhiana, Amritsar, Delhi and New Delhi.

TABLE A-V.

—)O(—

(TOWNS ARRANGED TERRITORIALY WITH POPULATION BY LIVELIHOOD-
CLASSES)

This table shows the distribution of urban population by livelihood classes instead of by religion as in the previous censuses. Separate figures have not been shown for livelihood classes I to III but have been clubbed together.

2. Name of the local body functioning in each town has been given within brackets. The abbreviations used for denoting the name of local bodies are as under :—

Full name of the local body	Abbreviation used
Municipal Committee ...	M. C.
Small Town Committee...	S. T. C.
Notified Area Committee ...	N. A. C.
Cantonment Board ...	C. B.

3. The towns, where no local body is functioning, have not been allotted any abbreviated sign.

TABLE C-I

—)0(—

[HOUSEHOLD SIZE AND COMPOSITION]

This table has been prepared on the basis of a one in one thousand sample of households in the National Register of Citizens. The selection of the sample has been made as follows.—

In Rural Tracts one village Census Block has been chosen out of every 100 blocks and in each of the selected Census Blocks, every tenth household has been chosen. In urban tracts, one Town Census Block has been chosen out of every twenty blocks; and in each of the selected blocks, every fiftieth household has been chosen. Thus, in every tract (whether rural or urban) the sample chosen represents approximately one in one thousand of the total.

2. Columns 2 to 5 of this table relate to all the households in the entire state, division or district as the case may be, while columns 6 to 35 relate to the sample households selected. Columns 18 to 23 exclude non-relations in household while the rest of the columns include them.

3. In case of Jullundur Administrative Division, the sample was restricted only to the available National Registers of Citizens. No totals have been struck in case of Gurdaspur district because all the National Registers of Citizens pertaining to the urban area were consumed in fire in the Jullundur Tabulation Office. Hence for all the consolidations *viz.* Punjab Population Sub Zone, Punjab, Punjab Plains Division and Jullundur Administrative Division, the figures for Gurdaspur districts have been excluded from the totals. The rural figures have, however, been included in the rural figures for the above mentioned consolidations. Due to the above discrepancy, the figures for rural plus urban do not tally with the total.

TABLE C-II

— 0(—

(LIVELIHOOD CLASSES BY AGE-GROUPS)

This table shows the livelihood distribution by Age-Groups for the sample population based on a ten percent sample taken out when the enumeration slips were initially sorted. The ten percent sample was taken out as follows.—

Each enumeration pad which consisted generally of 100 slips was broken and the pack of slips was "cut" as in a card-game. The lower portion was placed above the upper portion and then the slips were dealt into the pigeon holes marked 1, 2, 3, 4, 5, S, 6, 7, 8, 9, respectively. If a displaced Person's slip was encountered during this sorting, it was dealt into a separate pigeon hole marked "Displaced Persons". All the slips contained in the pigeon hole marked "S" were taken as the 10 percent sample slips of the general population.

2. The four agricultural and four non-agricultural classes, dealt with in this table, have been fully discussed in the general note to Economic Tables.

3. The sample relating to the Districts of the Jullundur Administrative Division, is based on the available slips, left after the fire.

4. No smoothing formula has been adopted and the figures have been incorporated in age-groups as actually returned.

TABLE C—III

—)O(—

(AGE AND CIVIL CONDITION)

This table has been prepared from the data collected by sorting 10% sample, referred to in the explanatory note to Table C-II.

2. The sample population has been divided according to the civil condition into 'unmarried', 'married', and 'widowed or divorced' by age-group and sex, with a rural urban break-up.

3. A separate fly-leaf has been appended to this table for divorced persons.

4. Paragraphs 3 and 4 of the explanatory note to Table C-II apply to this table also.

TABLE C—IV

—)0(—

(AGE AND LITERACY)

This table shows the literacy by age-groups, based on the 10% sample referred to in the note to Table C-II. The age-groups in this table slightly differ from those adopted for Table C-II and C III. Age-groups '0' and '1-4' have been combined to form a single age-group and age-group 5-14 has been split up into age-groups '5-9' and '10-14.' This table also furnishes data by rural urban break-up.

2. A person who was able to read and write a simple letter, was considered as 'literate'. Persons who did not fall under this category, were treated as 'illiterates'. Persons who are partly literate, *i. e.* persons who are able to read only, have been included among the illiterates, and details for such persons have been shown in a separate fly-leaf of this table.

3. Paragraphs 3 and 4 of the explanatory note to Table C-II hold good in case of this table also.

TABLE C-V

—101—

(SINGLE YEAR AGE RETURNS)

This table too has been based on the 10% sample referred to in the note to Table C-II.

2. The figures noted against each age represent the number of individuals who returned that age.

3. Paragraphs 3 and 4 of explanatory note to Table C-II hold good in case of this table also.

Table D—I

—)O(—

Language.

This table corresponds to Table No. XV of the 1931 Census. It has been divided into two parts D—I (i) and D—I (ii).

D—I (i) relates to the mother tongue as "first spoken from the cradle" in different districts and States, while table D—I (ii) shows the extent of secondary languages in use along with the mother tongue. In the latter case only one Indian language has been recorded. The mother-tongue of infants and deaf-mutes has been taken to be the same as that of their mothers.

As a result of the controversy over the language question, the figures for Hindi, Urdu Punjabi, Pahari, and their various dialects have been put together at the time of sorting under the heading "Hindi—Punjabi—Urdu—Pahari" both for table D—I (i) and D—I (ii). The rest of the languages have been shown as returned.

The figures for Punjab State and districts in Jullundur Division as shown in this table do not tally with the general population totals given in Table A—I. The discrepancy is due to the destruction of some record on account of fire in Jullundur Census Tabulation Office. The deficiency on this count is as under:-

State and District.	Total population as shown in Table A—I.	Total population classified for Table D—I.	Difference.
Punjab	12,641,205	12,372,603	268,602
Kangra	936,042	926,477	9,565
Hoshiarpur	1,091,986	1,085,624	6,362
Jullundur	1,055,600	1,008,766	46,834
Ludhiana	808,105	806,779	1,326
Ferozepur	1,326,520	1,308,237	18,283
Amritsar	1,867,040	1,270,320	96,720

TABLE D—II

—)O(—

(RELIGION.)

This table shows the distribution of population in major religions. The details of sects of various religions, which were used to be given during the previous censuses, have been dispensed with this time.

2. The religion of a person has been recorded and tabulated as returned by him. No attempt at classification has been made.

3. Persons giving religion other than those given in the table, have been grouped under 'other religion-non-tribal or tribal'. Details for persons included under this head are shown in a separate Fly-leaf.

4. The note regarding the number of burnt slips, given in Table D—I, hold good in the case of this table also.

3. Tibetan in Lahaul and Spiti area of Kangra district have been treated as Scheduled Tribes under the constitution (Scheduled Tribes) Order, 1950, in Punjab.

4. The list of Scheduled Castes and Scheduled Tribes as given in the Constitution (Scheduled Castes) (Part C—States) Order, 1951, and the Constitution (Scheduled Tribes) (Part- C States) Order, 1951, could not be adopted for Part—C States as the same were received after the enumeration. Hence the list of Scheduled Castes, referred to in para 2 above, was adopted for all the States comprising the Punjab Population Sub-Zone.

5. No tribes have been treated as Scheduled Tribes in Himachal Pradesh, for the reasons given above.

6. Figures for Anglo-Indians have been separately shown under a fly-leaf appended to this table.

TABLE D—IV

—)0(—

(MIGRANTS)

This table shows the birth-place returns of the population enumerated. In case of persons born in India beyond the State of enumeration, the name of the State has been given while in case of persons born outside India, the name of the country where born has been given. /

2. The note regarding the number of burnt slips, given in Table D—I, holds good in the case of this table also.

TABLE D—V

—)0(—

**(i) DISPLACED PERSONS BY YEAR OF ARRIVAL IN INDIA, AND
(ii) DISPLACED PERSONS BY LIVELIHOOD CLASSES.**

This table shows the number of displaced persons from Pakistan enumerated in India. The definition of 'displaced person' was as under :—

'Displaced person means any person who has entered India having left or been compelled to leave his home in Western Pakistan on or after the 1st March, 1947, or his home in Eastern Pakistan on or after the 15th October, 1946, on account of disturbances or on account of the setting up of the two Dominions of India and Pakistan.'

TABLE D-V (i)

TABLE D—VII

—)O(—

(SOCIO-ECONOMIC GROUPS BY EDUCATIONAL STANDARDS)

This table shows the distribution of 'literate' by socio-economic groups, and educational standards. The social groups of Simla, Gurgaon and Hoshiarpur districts could not be given as these districts were initially sorted by livelihood classes instead of the social groups. This has also affected the consolidations *viz.* Punjab Population Sub-Zone, Punjab, Himalayan Punjab Division, Punjab Plains Division, and the two administrative divisions of Ambala and Jullundur.

TABLE D—VII

Economic groups by Educational Standards

Educational Standards (1)	Total			Agricultural Classes		Non-Agricultural Classes	
	Persons	Males	Females	Males	Females	Males	Females
	(2)	(3)	(4)	(5)	(6)	(7)	(8)
PUNJAB POPULATION SUB-ZONE.							
Literate	2,237,933	1,548,279	689,654	679,031	194,499	869,248	495,155

TABLE E

—)0(—

(SUMMARY FIGURES BY DISTRICTS AND TEHSILS.)

This table shows the general population, area and density by districts and tehsils with rural-urban break-up, into eight livelihood classes.

2. The area figures shown in column 2 of the table differ from the area figures given in Table A-I. The area figures in Table A-I have been supplied by the Surveyor General of India while those given in this table were obtained from the Deputy Commissioners concerned, as tehsilwise areas with a further break-up for rural and urban, were not available in the office of the Surveyor General of India.

3. The population figures for the previous censuses have been adjusted for working out the variation, according to the present formation of the districts and tehsils.

4. The density has been worked out on the actual area supplied by the Deputy Commissioners, but the area given in this table has been rounded up to the nearest integer. The density figures for 1941 have been calculated after making adjustments in the area figures of the places which were villages in 1941 census and have been declared new towns in 1951 Census.

5. There is a slight difference between the totals of tehsils in the district for the different Livelihood Classes and the district figures given in this table for these Livelihood Classes, in the case of urban areas of PEPSU except Kapurthala District. This difference is due to the fact that tehsil figures were arrived by sorting on village basis and latter sorting for the district by Census tracts revealed some inter-change of slips between Livelihood Classes at the earlier stage. The difference could not be tracked to the village level.

6. The figures for the Punjab State and the districts in Jullundur Division, as shown in this table do not tally with the general population totals given in Table A-I. The discrepancy is due to destruction of some of the records on account of fire in Jullundur Census Tabulation Office. The discrepancy on this count is as under :—

State and district.	Total population as shown in Table-A-I.	Total population classified for Table E.	Difference
Punjab	12,641,205	12,506,109	135,096
Kangra	936,042	927,063	8,979
Hoshiarpur	1,091,986	988,482	103,504
Amritsar	1,367,040	1,344,427	22,613
