GOVERNMENT OF BENGAL.

LOCAL SELF-GOVT. DEPARTMENT.

LOCAL SELF-GOVERNMENT.

CALCUTTA, THE 10TH JUNE 1921.

RESOLUTION No. 2780L.S.-G.

READ—

The Reports of Commissioners of Divisions on the working of District Boards in Bengal during the year 1919-20.

THE belated publication of this resolution is regretted. It is due partly to the last strike in the Government Press causing arrears in printing, which delayed the printing of the statistical appendices to the resolution, and partly to pressure of work, both in the Press and the Local Self-Government Department, in connection with the new system of government.

2. **District Boards.**—It is recognized that, in the present stage of local self-government in Bengal, political education is a paramount consideration to which administrative efficiency must give place. In pursuance of this policy steps have been taken to remove the District Boards from official tutelage. Orders were issued during the year under review extending to 15 more districts the system under which the chairmanship of the District Board is held by a non-official elected member. It has subsequently been decided that the same system shall be followed in the remaining districts of the Presidency, so that in future a non-official executive will be responsible for the administration of the Local Self-Government Act under a responsible Minister.

The Minister desires to take this opportunity to remind the non-official Chairmen of the great part which they may play in the task of nation-building and to appeal to them to rise to the height of their responsibility and justify the trust reposed in them.

3. **Local Boards.**—There is little of interest to record in the work of Local Boards, which in most cases have limited funds placed at their disposal by the District Boards and discharge routine duties. It is expected however that their sphere of usefulness will expand with the creation of Union Boards under the Bengal Village Self-Government Act, for the supervision of which they are responsible.

The amendment of the election rules so as to enable more polling stations to be established appears to have had satisfactory results. It has helped to secure a much larger poll and has neutralized the advantage hitherto enjoyed by voters living close to the thana headquarters, which used generally to be the only polling station.

4. **Village Self-Government.**—During the year under review there were 383 Union Committees at work administering, for a population of about 4 millions, the limited functions admissible under the Bengal Local Self-Government Act. These bodies have mostly been replaced by Union Boards constituted under the Village Self-Government Act. That Act came into force on 28th May 1919, and before the end of the year sanction had been given to the establishment of 502 Union Boards; the number has now been more than trebled, being over 1,700. Full acknowledgment should be made of the work done by the former Union Committees, which paved the way for the fuller measure of village self-government now in force. The field of activity

open to Union Boards is much wider. To them is entrusted the conduct of communal affairs in the villages from which the public life of the country starts. It is on the foundation of their organization, their successful work and their realization of the fact that they themselves are responsible to their fellow villagers that the imposing structure of responsible self-government in Bengal must rest.

5. **Financial results.**—The receipts from all sources rose to Rs. 129 lakhs, or Rs. 12½ lakhs more than in the preceding year: the increase was mainly due to larger receipts from advances and deposits. The disbursements aggregated Rs. 130·7 lakhs, an increase of Rs. 19 lakhs. The excess of current income over current expenditure, amounting in the previous year to 4½ lakhs, was reduced to Rs. 38,000. The closing balances at the end of the year amounted to 34·9 lakhs.

6. **Taxation.**—The incidence of taxation averaged 2 annas 10 pies a head for the whole Presidency and varied in different districts from one anna 8 pies to 6 annas 8 pies.

7. **Education.**—The greater portion of the expenditure on education was, as usual, met by Government grants. The District Boards spent Rs. 26½ lakhs, of which Rs. 16,20,000 was given by Government; fees and miscellaneous receipts brought in Rs. 72,000 and contributions from other sources amounted to the small sum of Rs. 9,000. The sum contributed by the District Boards for the elementary education of the rural population aggregated Rs. 9½ lakhs; but this represented 9 per cent. of their income. The Minister for Local Self-Government doubts whether some of the District Boards have sufficiently realised their responsibility for the dissemination of primary education in rural areas. The expansion of primary education is necessary for the intellectual uplift, the economic progress and the political advancement of the people of Bengal; and it rests with the District Boards to facilitate expansion by whole-hearted co-operation with Government.

8. **Medical relief and public health.**—The District Boards established 19 new dispensaries, and maintained altogether 282 dispensaries at a cost of Rs. 4½ lakhs; there were also 221 in receipt of grants-in-aid aggregating 2½ lakhs. No dispensaries were maintained by any of the District Boards of the Chittagong Division, which moreover failed to formulate programmes for the extension of medical relief in rural areas. The Burdwan District Board maintained 12 temporary dispensaries for the treatment of malarial fever, in addition to 17 permanent dispensaries. A floating dispensary of the Bakarganj District Board, and five *hât* dispensaries of the Mymensingh District Board, which proved unsuccessful, were abolished. A novel experiment was the establishment of an Ayurvedic dispensary by the Jessore District Board. The fact of its establishment is laconically reported, but nothing is said as to its success. It is hoped that future reports will not be so reticent.

The District Boards of Hooghly, 24-Parganas, Nadia and Pabna adopted a scheme for subsidizing medical practitioners in rural areas which had been initiated by the Jessore District Board. In the district last named there are subsidized doctors in 10 centres and the scheme is said to have worked satisfactorily. The services of some of the subsidized doctors were utilized for attending outbreaks of disease in the neighbouring villages, and the work done by them is said to have been much better than that of the ordinary epidemic doctors employed by the Board. Elsewhere itinerant doctors were generally employed to give medical relief during outbreaks of epidemic disease. In Mymensingh the Board had 39 doctors at work during the year.

The usual petty sanitary works, such as removing jungle, clearing roadside and village drains, filling up insanitary ditches etc., were carried on through the agency of Local Boards and Union Committees. Village sanitation committees have been formed in several places in the Nadia district for clearing jungle and bringing land under cultivation in order to prevent their relapsing into jungle: some unfortunately failed to do any useful work owing to the apathy of the zamindars. Propaganda work, such as lectures,

magic lantern demonstrations, and the distribution of pamphlets on preventable diseases and the means of prevention, was carried on by Health Officers and Sanitary Inspectors, and also in Jessore by the Chairman of the District Board.

Free vaccination was introduced in the districts of the Rajshahi Division, in Burdwan, Howrah and Tippera, in the Madaripur and Goalundo subdivisions of Faridpur, in the Patuakhali subdivision of the Bakarganj district (where 18 per cent. of the population are said to have been vaccinated) and in some parts of the Kishorganj subdivision of Mymensingh.

9. **Veterinary.**—The expenditure of the District Boards on veterinary relief amounted to Rs. 1,12,000; and it may be mentioned as an instance of the organization in some districts that the Rangpur Board maintained 4 veterinary dispensaries and employed 6 veterinary assistants, who visited 794 villages, treated 5,529 cases and inoculated 9,538 animals, while the Pabna Board employed 3 assistants, who visited 632 villages, treated 1,716 cases (besides 1,787 at headquarters) and inoculated 3,300 animals. In Nadia some committees were formed by the people themselves to co-operate with and give help to the veterinary assistants. In Tippera a gang of systematic cattle poisoners was detected by a veterinary assistant, and five of them were convicted.

A novel experiment was the issue of a monthly magazine called *Krishi Katha* under the auspices of the Faridpur District Board. It is reported that the magazine contains interesting and instructive articles in popular language on agriculture, veterinary matters, etc., and is highly appreciated by the public.

10. **Civil Works (General).**—The returns show an increased expenditure of about Rs. 3½ lakhs, which is mainly due to the fact that in some districts the outlay on educational and medical buildings, which in some districts was previously shown under the heads "Education" and "Medical" has been included under "Civil Works." Work was generally impeded by the difficulty of obtaining road metal and coal for brick burning, which was consequent on the shortage of railway wagons. In spite of this the percentage of lapses to total allotments in the Presidency as a whole fell from 12½ to 11 per cent.

11. **Communications.**—In the dry districts work on roads suffered from the difficulty of obtaining materials as well as from the shortage and high price of labour. In the wet districts, where transport is by water, e.g., by rivers, streams, the channels known as *khals* and the lagoons called *bils*, complaints are common and vigorous about the obstruction caused by the water-hyacinth and the difficulty of clearing it from the waterways. In Mymensingh it was estimated that the cost of clearing the *khals* and *bils* would amount to Re 1 lakh—a sum beyond the Board's financial capacity. A scheme of eradication without adequate legal powers and without the co-operation of the zamindars and tenants was felt to be impracticable. Partial eradication of the weed was realized to be futile. In Bakarganj the conclusion was that piece-meal work is useless, for, as soon as one waterway is cleared, the weed drifts in from another, and that, unless the adjoining districts, from which the weed is spreading, work jointly on a concerted and systematic plan, it is impossible to effect any real or lasting improvement. The question has been taken up by Government in the Ministry for Agriculture and Industries and a representative committee has been appointed to devise preventive measures.

12. **Water-supply.**—The total expenditure on the improvement of the sources of water-supply in rural areas amounted to about 7 lakhs, of which 6½ lakhs were spent on original works. The percentage of the Public Works cess receipts spent averaged 20 per cent. for the Presidency as a whole and rose as high as 61 per cent. in Nadia. There was a marked improvement in the Burdwan district, where the outlay was more than doubled. In Rangpur and Chittagong, on the other hand, only 6 per cent. of the receipts from the cess were spent on water-supply, and there were noticeable decreases in Midnapore, Dinajpur and the 24-Parganas. No explanation has been given of the reduced expenditure in the last two districts. In Midnapore the

local officers point out that the decrease is due to a number of impracticable schemes being included in the programme, and they rightly suggest the need of carefully revising the programme, as well as of more method and foresight in executing it.

The whole of the Rs. 7 lakhs spent on water-supply was met from current revenue; and Government again take the opportunity to ask District Boards to consider the expediency of financing works of this kind from loans.

There appears to be a conviction growing in force that owing to limitations of finance the Boards cannot increase their expenditure on water-supply to any great extent, and that an appreciable improvement can only be effected by Union Boards; and it is pointed out that the villagers, who will directly benefit, will be able to get the work done cheaply under their own eyes.

13. **Drainage.**—The expenditure on drainage rose from Rs. 77,000 to Rs. 1,21,000, of which Rs. 53,000 was on account of the Arool Bil drainage project in the Jessore district. Progress was also made with the Nawi Sunthi drainage scheme in the 24-Parganas district. The Dinajpur District Board took up the construction of new culverts and extension of bridges so as to allow of more efficient drainage and prevent damage by flood, while in Bakarganj the excavation and re-excavation of *khals* are said to have improved the drainage of the district.

14. **Relief Works.**—In Bankura famine conditions prevailed during the first half of the year, but relief measures were closed early in October when a bumper crop of paddy brought in plenty to the district. A number of irrigation *bandhs* (reservoirs) and tanks were excavated and improved out of the grants received from Government. They relieved distress among the labouring classes and are expected to be a safeguard against future failure of crops by providing sources of irrigation in seasons of drought. Irrigation societies on co-operative lines have also been formed for the furtherance of this object. In Bogra the District Board spent Rs. 21,000 on the relief of distress in areas affected by floods.

In the 24 Parganas the District Board arranged, in collaboration with the Sadar Subdivisional Officer, for the supply of Burma rice in rural areas. Rice to the value of Rs. 1,50,000 was purchased and sold at a net profit of nearly Rs. 5,000. In Bakarganj the District Board, in order to mitigate the distress caused by the high price and scarcity of local rice, undertook the sale of Burma rice at cost price with money advanced from the District Fund. Altogether 75,000 maunds of rice were imported at a cost of about 4½ lakhs and sold to the public. The scheme is described as having been of the greatest possible value, while it paid for itself, the account closing with a surplus of Rs. 12,519. The example of Bakarganj in this respect might be followed by other District Boards where the local conditions favour the trial of such an experiment.

15. **Closing Balances.**—The total of the actual balances remained practically the same as in the previous year. They are still large in some districts, notably Burdwan, whose balance was reduced by Rs. 69,000, but still amounted to Rs. 4,38,000, of which the Asansol Local Board was responsible for nearly 2 lakhs. This result is attributed to the failure to complete works owing to shortage of materials and difficulties of labour, and also to delay over a supplementary budget of the Local Board. In spite of this, the expenditure on civil works in this district aggregated 6½ lakhs or 1½ lakhs more than in any other district in Bengal. The large balance of Rs. 3,62,000 at the credit of the 24-Parganas District Board is accounted for by the accumulation of Government grants for anti-malarial schemes of drainage. An increase of Rs. 78,000 in the balance retained by the Howrah District Board has not been explained. The Bakarganj District Board cleared off the accumulation of the previous year, retaining only an actual balance of Rs. 30,000 against a current expenditure of over 7 lakhs.

16. **General remarks.**—The main problem of the District Boards is one of finance. They are faced with constantly increasing demands for a standard of administration based on modern ideas. To mention a few instances, the reforms urged upon them include the expansion of primary education; the adoption of a comprehensive public health policy for the

prevention of disease, the creation of a network of charitable dispensaries, more and better roads to enable the villagers to bring their goods to local markets or to the railways, the improvement of the water-supply, etc. The existing revenues of the Boards are not sufficient to supply the needs of the districts in spite of the fact that their income has been nearly doubled by Government giving them the receipts from the public works cess. Their position has become one of increasing difficulty, and there is a general complaint about the inequality between revenues and requirements. "Wherever I go," writes the Chairman of the Jessore District Board, "people ask for tanks, dispensaries and roads, but where is the money to come from? The Local Boards, Union and Dispensary Committees complain about the inadequacy of funds and ask for increased contributions from the Board. The problems of water-supply, sanitation and medical relief cannot be solved without more funds."

The Chairman of the Faridpur District Board observes:—"In some parts no proper medical aid is yet available except at an extravagant cost; in some, the question of the supply of pure water is as acute as ever and in some roads are urgently needed to open out inaccessible areas. It is doubtful, however, whether in view of the demands which have of late been made on the purse, the Board will in future be in a position to satisfy these needs to the extent that the condition of the district requires. They have been asked to keep up a well-paid Health Officer and his staff; they are expected to pay all the costs of free vaccination; and they are being constantly urged to extend the operations of the Veterinary Department. These are laudable objects, but they are costly and the income of the Board is limited. If the Board have to provide all the money, they must do so by the curtailment of their expenditure in some important respects. I was responsible for the framing of the budget of the present year. All that I could find money for under the head of "Communications" was to make arrangements for the upkeep of the existing roads and to meet the cost of the construction of those roads which have already been taken up. No new roads could be included in the programme." The District Magistrate of Bakarganj again reports: "The income of the Board is fixed and the expenditure expands automatically every year. The limit has now been reached and it will soon be impossible to take up new work." His remarks are endorsed by the Commissioner, who remarks: "The District Boards have come to the limit of their resources, and still the amount of money spent on public health and education is only a portion of what it ought to be."

The necessity for increasing the income of the District Boards in order to cope with expanding demands made upon them is apparent; and the question of devising means to augment their resources will be taken into consideration in connection with the amendment of the Bengal Local Self-Government Act on which the Minister has already asked for the views of the District Boards.

17. The good work done by the following office bearers and members of District and Local Boards has been brought to notice in the reports received from the Commissioners of Divisions, and the Government of Bengal (Ministry of Local Self-Government) desire to express their appreciation of their public spirit and to thank them for their services.

CHAIRMEN OF DISTRICT BOARDS.

Raja Mani Lal Singh Ray, Burdwan.
Rai Jadu Nath Mazumdar Bahadur, C.I.E., Jessore.

VICE-CHAIRMEN OF DISTRICT BOARDS.

Burdwan Division.

Rai Tara Prasanna Mukherjee Bahadur, Burdwan.

31,537	69,083	7,06,846	16,776	42,723	59,504	7,66,350	

* Besides the cash balance on hand the Municipality possesses securities of the face value of Rs. 58,500.

† The difference of Rs. 13,000 between column 60 of statement No. III and column 65 of statement No. II is due to the omission of Rs. 13,000 from column 57 of statement No. III as this amount forms part of invested funds received by the Municipality from the Notified Area Committee on the latter's abolition.

STATEMENT
