The Gokhale Institute of Politics and Economics

The Edge

Conceived in 1930, as a centre for higher learning and research in economics, Gokhale Institute of Politics and Economics, has evolved into a premiere institute for advanced study and research. The Institute is privileged to host a faculty who has distinguished themselves as academicians, researchers, policy makers and consultants of the highest order. The faculty members are at the forefront of research in diverse fields of theoretical and empirical economics. The combination of an experienced and highly qualified faculty, a dynamic curriculum and the state of the art academic infrastructure helps equip our students with analytical skills and emotional intelligence. This helps the students in dealing successfully with the complexities of a dynamic socio economic environment. It is these capabilities that enable the students of the Institute to have an edge on any issue, hence enabling them to contribute to the success of any organization.

Letter from the Director

Sir/Madam,

The Gokhale Institute of Politics and Economics has recently initiated the process of inviting selected companies to the campus every year for recruitment of M.A. students.

I am enclosing herewith for your perusal, a placement brochure, prepared by our students. It gives information regarding the Institute and the strength of our M.A. Programme, the course structure, the faculty profile, the student profile and the specific fields in which they would be particularly qualified to work and be of value to your organisation.

The catalogue includes profiles of students who are currently studying in the second year of the two year M.A. programme of the institute. It also includes profiles of students who are to be considered for summer placement.

I seek your co-operation in offering placement opportunities to our students. I shall be grateful if you could visit our campus and meet our students for this purpose sometime during February-April 2003. A response sheet has been enclosed herewith for your convenience. I would appreciate it if you could kindly fill up the same and return it to us at your convenience.

Thanking you.

Yours truly,

V. S. Chitre

(Dr. V.S. Chitre)
Director

An Invitation

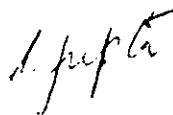

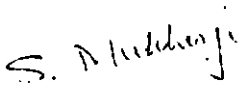

It gives us great pleasure to invite you to activate the Placement Cell for the Post Graduate (M.A.) Students at Gokhale Institute of Politics and Economics, Pune for the year 2002-2003.

Gokhale Institute, with its focus on academic research, provides a unique opportunity to its students to combine theoretical knowledge with practical training. Seminars given by faculty members as well as invited speakers are open to all students. Presentations, Talk-shops and Group Discussions serve as the pillars to prepare them for corporate as well academic assignments. The faculty presents a perfect blend of experience and young talent. Students are exposed to works of reputed researchers in the field, which is almost invaluable to build their analytical skills.

Our placement cell has been active since the last couple of years. The intrinsic merit of our students is reflected in the fact that they have received respectable entries into the Corporate Sectors, Banks, Financial Institutions, Economic Journals, Publishing Concerns and Research Institutions. Those who have joined Banks or Financial Institutions have done very well in Economic Research Sections. We are confident that our students, if selected, will prove their worth in any organization and this can be taken as a performance guarantee.

We, at Gokhale Institute are looking forward to your co-operation.

Yours truly,

Dr. Smriti Mukherjee and Dr. Santanu Gupta
Faculty Co-ordinators

About Us

Over the last 70 years, Gokhale Institute of Politics and Economics, Pune has been of the premier research and teaching Institutions in Economics in India. From its inception, the Institute was recognised as a Teaching and Research Institution for the Degrees of M.A. and Ph.D. in Economics by the University of Bombay. In 1962, the University Grants Commission (UGC), selected the Institute as a centre of advanced study in Agricultural Economics redesigned by the UGC, two years later, as a centre of advance study in Economics to widen the scope of its assistance to the Institute for all branches of economics.

The Union Ministry of Food and Agriculture Established the **Agro-Economic Research Centre** at the Institute in 1954 and the Union Ministry of Health the **Population Research Centre** in 1964. Similarly, the Planning Commission started a **Centre for Research in Planning and Development** at the Institute in 1971.

The Reserve Bank of India, the Ford Foundation, and the Planning Commission instituted chairs at the Institute in 1976, 1989 and 1995 respectively for studies and research in Finance, International Economics and Planning & Development respectively.

Keeping in view the eminence of the faculty, the contribution made by the Institute in teaching, training and research in economics, availability of physical infrastructure and the potential of the Institute for the further development, the Government of India declared the Institute, on the advice of the UGC, as "**Deemed to be a University**" from 9th May, 1993, the birthday of late Shri Gopal Krishna Gokhale, after whom the Institute was named.

Master's Programme In Economics

Admission Requirements Students desirous of seeking admission for the Masters Programme in Economics should have obtained at least higher second class or a B+ grade in their graduation examination. Admission to the programme is based on the performance of the students in the entrance examination.

The Institute conducts a two-year programme in Economics. Students are required to take 10 mandatory and 6 elective courses spread over four semesters. The programme equips the students with a strong foundation in the subject and ability to work under pressure.

Course Structure

	CORE	OPTIONAL
SEMESTER I	Micro Economics I Public Economics I International Economics I	Mathematical Economics Agricultural Economics
SEMESTER II	Micro Economics II Public Economics II International Economics II	Linear Economics Industrial Economics
SEMESTER III	Monetary Economics National Income	Economics of Labour Statistical Pre-requisites Economics of Public Sector Enterprises
SEMESTER IV	Macro Economics Economics of Development	Financial Institutions and Markets Population and Human Ecology Econometrics Financial Economics
QUALIFYING PAPERS	Basic Statistics Basic Mathematics	

**Student
Evaluation**

The performance of the students is evaluated on the basis of end - semester written examinations and performance in tutorials, such an evaluation ensures deeper understanding and encourages analytical thinking among students. Students are encouraged to give talk shops and give papers and assignments on topic of contemporary relevance.

Tutorials

The tutorial system is an essential part of the M.A. programme. It essentially involves written tests throughout the semester, which ensures that students are constantly in touch with all the courses. Since marks obtained in the tutorials are aggregated with the semester end examinations, it reduces pressure on students during the semester end examinations and hence encourages knowledge-based education rather than examination based ones.

**Semester end
Examination**

Semester end Examinations, allow for rigorous evaluation of the students and keeps up the continuity of the tutorial system. They test the student's ability in terms of grasping power and knowledge absorption as well as analytical thinking and application of knowledge to real world economics.

Academic Infrastructure

DHANANJAYARAO GADGIL LIBRARY

The Institute shares the Library of **The Servants of India Society** and has mainly been responsible for its building during the last 7 decades. The library is considered as one of the foremost-specialized Libraries in the country in the fields of Economics and Other Related Social Sciences.

The Library houses about 2.7 lakh volumes alongwith a large number of periodicals both from India and from Abroad. It currently receives 472 journals and possesses bound back volumes of more than 2000 periodical titles, received by subscription, exchange, gift and on depository basis. The Library is equipped with a microfilm camera, microfilm and microfiche readers and a documentation section. In order to notify addition of books and periodicals to the Library alongwith the contents of the journals currently received by the Library, Two Fortnightly Lists, namely, Fortnightly List of Additions and Fortnightly List of Articles on India are brought out regularly and circulated in mimeograph form. The Library has recently initiated a Major Programme of computerisation with the help of a grant from the UGC as part of the development assistance under the IX Plan and a grant under the INFLIBNET Programme of the UGC.

COMPUTER CENTRE

The On-Campus Computer Centre contributes significantly in honing the analytical and quantitative skills of the students. The centre has 25 computers, all equipped with specialized econometric packages.

The Institute offers Consultancy and Guidance services in *Data Processing* in collaboration with **The Indian Council of Social Science Research**. It also offers a certificate course in *Computer Applications for Economic Analysis*. The course includes training in MS Office and Econometric Packages like *SPSS, SHAZAM, RATS and LIMDEP*. Furthermore, the students have access to various Databases like *National Accounts Statistics, Census, NSS websites, PROWESS* (a Database of Companies on the B.S.E.), *CAPEX* (Information on Infrastructure Projects), *Trade* (Export and Import Data) and *Econlit* (a Bi-Annual Compilation of publications in Economics by Researchers throughout the World).

All students are provided with Internet access and e-mail facilities.

Guest Lectures

The students witnessed many **Seminars** organised by the MA Department, some of which are listed below

Speaker	Topic
Prof. Tendulkar, S. Ph.D(Economics), Harvard	Industrial Economics, Planning and Development
