VICTIMS OF SHIKAR - LUST

IN THE STATE OF CUTCH

.....

THE sub-joined table gives a picture of the conditions prevailing in the medieaval States of Cutch in Western India. H. H. the MAHARAO is a leading spokesman of the Princes of India and holds a very high position in the chamber of Princes. He has been to many countries of Europe and Africa and has seen much of the World. In order to satisfy the lust of Shikar he has imported Cheetahs from Africa and let them loose in the jungles of Cutch from where they are used to make sallies and claim cattle as well as human beings as their victims. The People of Cutch are forbidden to attack these beasts and they have to suffer penalties if they dare to do any such thing even in self-defence. People are mauled and wounded and also killed by these beasts as evidenced by the facts enumerated in the accompanying table. People have asked and agitated against this grievous wrong, but to no purpose. In sheer desperation some of the workers are contemplating some active steps to end this unfortunate state of things. It is necessary that public bodies and People in public life should know things as they are. They must also know that the defenceless people of the State are deprived of all remedies as the state has the protection of the mighty British Government in all its doings and misdoings.

The inherent right of the People to rise in rebellion against misrule and oppression has been taken away by the British bayonet and the machine-gun. The anomaly of this situation has not yet dawned upon the British Administrators and public men, and the Princes and their myrmidons go on merrily oppressing their unfortunate subjects. I hope, the eloquent facts, as revealed by this note will open the eyes of persons responsible for the Administration of India and drastic steps to remedy the situation will be promptly taken with a view to ensure protection to the People of the State.

> BALVANTRAY MEHTA, General Secretary, ALL INDIA STATES' PEOPLE'S CONFERENCE.

.3 THOSE INJURED BY HOGS

•

The following statement is issued by the Limbdi Pfaja Mandalise off The Limbdi Diwan has stated that exaggerated reports about dacoities in Limbdi have appeared in the Press. He dare not give correct facts under the excuse that the matter is sub-judice. There is nothing sub-judice. Here are a few facts about the dacoity at Pansina which the Diwan may challenge, if he dare to.

February 5th was celebrated as a Rajkot Day at Pansina and there was a meeting which dispersed at about 10 P. M. About 11 P. M. people heard firing all round in the village and outside. Then one by one houses of Praja Mandal workers or sympathisers were raided. They divided themselves into two batches of about 20 persons each, the rest remaining outside the village surrounding it. Viol They had come armed with all kinds of weapons such as guns, swords; knives, iron rods, green bamboo sticks, etc. and thad w brought motors.

They were dressed to disguise and carried torches and lanterns. The dacoits first locked the Praja Mandal Office from outside to prevent the volunteers from coming out and then proceeded. One party attacked Chunilal Dharsey. The man is insane since 5 or f years and is very poor. His mud house is fallen. He and his wife live in the verandah. His crime was that his son Bhuralal was a Praja Mandal volunteer. The dacoits broke open the outer door and about 20 persons entered. They first asked for Bhuralal. He was sleeping at the Praja Mandal Office. They then belaboured Chunilal and his wife. The mad man shrieked and prayed for mercy. His wife's ear-rings were removed. Everything in their house was broken and destroyed. Chunilal and his wife have left Pansina.

Next came the turn of Nathalal Purshottam, another Praja Mandal worker. His aged parents were sleeping in the outer verandah with his daughter aged 14. His wife was sleeping in the room, having delivered about 20 days ago. He was sleeping in the outer verandah. The iron railings of this verandah were broken. Nathalal attempted to'fly by the outer door. He met four or five persons facing him with guns. He came back. He was soundly belaboured with sticks and kicks. With great difficulty he carried his wife to a neighbour. His father age 64 and ill was assaulted and seriously injured. He was wounded on the head and bled. Nathalal's daughter aged 14 was attacked and all ornaments on her person removed. She has been so terribly frightened that she' is weeping all the while. His two houses were broken open. All boxes, large and small were broken and the dacoits carried away ornaments and cash worth about 8 to 10 thousand. Nathalal and his family have left Pansina.

Then came the turn of Sukhlal Jasraj. His son Kantilal was also a Praja Mandal volunteer. The outer door was first broken and about 15 persons entered. They first asked for Kantilal. He was sleeping at the Praja Mandal Office. Then Sukhlal, his wife and his daughter were attacked and injured. His houses were broken open and many things destroyed. The dacoits carried away booty worth about Rs. 3,000]-

Another party appears to have gone the other way. They first went to Nagardas Chhaganlal. His outer door was broken open. He and his wile closed the doors of the house. The dacoits began to break the doors with axes and iron rods. Some time thereafter Nagardas himself opened the house. He was attacked and seriously injured. He was robbed. Many things were broken. The dacoits then again attacked Nagardas to show this valuables. They threatened to kill his children sleeping in the house. They threatened to attack his wife. Then came the turn of Kalidas Dhanji, President of the Praja Mandal who lives next to Nagardas. There is a wall in between them.

dacoits went over the wall. Kalidas lives alone. He attempted to fly by

the outer door. He opened it and was immediately attacked and severely belaboured by 4 or 5 persons standing outside. He became unconscious. He was thrown in a cot and his house was broken open. Everything in it was destroyed and valuables carried away. Then he was attacked to show more. Three or four persons sat upon his chest and attacked him with knives and swords. He received serious injuries. He had a swordthrust at the back about 3-4 inches deep and was in a pool of blood. He has been removed to the Hospital and has been operated. Kalidas is aged about 55.

Then came the turn of Chhotalal Punjabhai, another prominent Praja Mandal worker. His outer door was broken open. One servant in the gangway was beaten. The iron railings of the verandah were then broken. Chhotalal and his wife were in one of the rooms. The dacoits began breaking it with axes & iron rods. Some time thereafter Chhotalal bimself opened the room. He and his wife were dragged out and severely beaten with green bamboo sticks and kicks. The dacoits then broke open boxes large and small in the house and carried the valuables. They then again attacked Chhotalal to show more. A lantern was thrown on his head. There was serious injury. He was wounded on the hand. A stick was thrust in his back part. The clock then struck 12-30. The clock was immediately broken. His wife was then attacked and the ornaments on her person removed. She had silver-ware on her feet which could not be removed. They attempted to cut her feet but then abandoned. They then broke another room and destroyed a great deal. Then they wanted to go upstairs. The stair-case door was locked. It was fired upon and then broken. Three more rooms were broken open upstairs and valuables carried away and many other things destroyed. Chhotalal's wife is in bed and removed to Ahmedabad.

The dacoits also have broken open five shops one of them being a small shop of Bhuralal son of Chunilal.

They appear to have left at about 1-30 A. M. All this while there was continuous firing in the air all round.

Every one who has been attacked, injured and robbed is either a worker or a member of the Praja Mandal. The dacoits met several other persons. They were asked to go away. There were three marriage parties in the village that night. They were not even approached.

There is a police party kept at Pansina and there are a number of village watchmen. Not one of them came out.

No State servant went to make any inquiries even in the morning. News was received in Limbdi at about 9 A. M. next day and immediately doctors were sent and Kalidas who was in a precarious condition was removed to Limbdi and other injured were attended to. About 30 workers of the Praja Mandal from Limbdi went immediately and brought to Limbdi all those who desired to come away.

Darbar Gopaldas came to Pansina on the 7th February. He interviewed each one of those who was attacked and wounded and visited each place. He saw the destruction. At several places, the bamboo sticks, pick-axes and iron rods were left by the dacoits. They have been brought to Limbdi.

The State is now said to be investigating. We do not want to comment at this stage on the methods of so-called investigation.

Similar is the tale in other villages. Another village Ralol four miles away from Pansina was looted the same night and only Praja Mandal workers were attacked, injured and robbed.

Criminal intimidation and threats of personal injury and assasination are held out to all persons who work for, or are members or sympathisers of the Praja Mandal. There are dacoities and thefts galore in the villages. Hundreds have fied and are flyings. There is absolutely no safety of person or property.

The States' People Press, Fort, Bombay.

The following. Statement is issued by the Limbdi Praja Mandali Legist 4

"The dispatch from the special correspondent of the "Times" of India published in its issue of 7th February demands a "reply." It is obviously intended to cover the sins of Limbdi.' It is amazing for its Suggestio Falsi and Supprecio Veri.

In November, December, last prominent citizens of Limbdi met Yuvraj in Bombay and expressed their desire to educate the beoble to take part in Government. The Yuvraj assured the leaders that not only he welcomed such movement but that he would render all assistance and give his car to the workers to go to the villages. Praja Mandal was thereafter founded in Bombay and Ahmedabad." During Christmas the leaders went to Limbdi to establish Praja-Mandal at Limbdi. At the invitation of Yuvraj the leaders saw him. There was a complete change of front on his part. He had devised a scheme to divide the city 3 and villages and to divide people by communities. He insisted that the Praja-Mandal should under no circumstances go to the villages. He professed concern for the villages, but wanted dictatorial powers to work his socalled scheme. The Yuvraj is a political theorist and believes in auto-He hates democracy. If He dreaded cracy which he calls benevolent. nothing more than Praja-Mandal workers going to the villages." He stated that he was willing to grant certain reforms such as popular Municipality and control over hospital and education in "the city on" the condition that the Praja-Mandal agreed to leave the villages completely to him. The Praja-Mandal workers naturally would not agree to such a condition. The Limbdi state like the rest of India lives in its villages. Out of an income of about eight lacs Limbdi city yields only about rupees fifty thousands. There was no use for a Praja-Mandal which could not reach the villages. The Yuvraj then started that he was willing to make a declaration on Rajkot lines and invited a draft. A draft was submitted to him. He gave counter-drafts or formulas. The formulas were as vague as possibly there could be. There was no assurance that any constitution drafted by a committee would be given effect to. The essence however of all these drafts was to divide the city and the villages and one community from another. That was his idea of divising a constitution A condition was that until the suited to natural genius of the people. committee he intended to set up completed its investigation and submitted its report, there should be no political activity of any kind in the villages. His idea was clearly to gain time and let the enthusiasm subside and die out.

All further discussion was therefore useless.

The Praja-Mandal was then established and its workers went to the villages to educate the people. It was -repeatedly declared by Praja Mandal its object was to work by peaceful and legitimate methods and its immediate objective was to establish contact with the people and to educate them. It intended no fight. Even this much was more than the state could bear. The state however had not the courage to give a straight fight. It has resorted to organise goondaism to repress the movement and terrorise the people. It has collected all the goondas in the state and invited well-known dacoities from adjoining territories to terrorise the people. The state servants openly assist these goondas. The Praja-Mandal workers and its sympathisers are attacked and assaulted. The people are being forced to sign loyalty pledges. There are now dacoities and thefts galore in villages where the Praja-Mandal workers and sympathisers are assaulted and seriously injured with deadly weapons and looted. There has remained no safety of person and property.

It is malicious lie to say that the situation has crystallised into a dispute between the money lending classes and not the agriculturist and the state. The Praja-Mandal is prepared to prove its representative character by a free referendum. The leaders of the movements are each one of them leading and respectable citizens of Limbdi, each of them owning properties in the state worth thousands. They have everything to lose and nothing to gain by the movement. The peasants are solidly with the Praja-Mandal. One has only got to witness the meetings and processions of the Praja-Mandal to see the support of the masses.

ents. These officers try to spread false rumours against the Praja-Mandal in the name of religion. The peasants and the people however know the true situation very well. The Praja-Mandal is having its first session on the 19th February.

The state has started terrible repression and let loose forces of anarchy to supress the movement. The people are determined to carry on the struggle,"
