ACKNOWLEDGEMENTS

I owe much of my debts to Professor B.G. Bapat without whose constant inspiration, valuable suggestions, and enduring patience for discussion, this work could not have been completed.

I thank the staff (teaching, non-teaching as well as library) of Gokhale Institute of Politics and Economics for their help and cooperation. Special thanks are due to my family and friends for keeping me in good spirit and humour all throughout.

Last but not the least, I thank Mr. S.S. Ambardekar, without whose painstaking effort the illegible manuscript could not have possibly taken this form.

However, I am responsible for all the defects that remain.
